Hi Elaine. As discussed yesterday and with my dean and chair, IST would like to propose having several areas of emphasis added under the RBA program's curriculum. The areas of emphasis and their required curriculum are listed below. Each of these currently exist as areas of emphasis under the Computer and Information Technology major within IST (College of Science). Please let me know if this is what you are looking for, need, etc. and of course, if you need any additional details.

Computer Forensics
IST264
Choose 3 from: IST446, IST447, IST448, IST449
IST463
CJ314 or CJ326

Web Application Development
IST163
IST263
IST303 (soon to be added)
IST365
IST430
IST431 (soon to be added)
ART454

Game Development
IST163
IST236
IST360
IST438
IST439
IST460
ART452

the state mandated requirement for an AOE is 15 hours at the 3-00-400 level. You can add more (like a 200 level course or two, but i wouldn'tmake it too heavy or it won't ever be chosen by the students). If you send me the list of courses, i will do all the paperwork, getting your chair's signature on the right place!

Hi Elaine. If we wanted to add one of our areas of emphasis under the RBA program as Dr. Elmore is mentioning, how would we go about doing that? In other words, what are the rules in terms of hours, courses, requirements, etc?

Yes, in order to offer it under RBA it has to be approved as an area of emphasis in RBA. Check with the person who is in charge of RBA. I believe it would be a simple thing.

Would love to... need a reminder. Did you say that we can submit existing areas of emphasis to the program, such as the 4 we have now?

Are you planning on submitting areas of emphasis and/or certificates under RBA this year? Time is growing short.
