

Table of Contents

Media Summary	
Executive Summary	
Chapter 1 - Introduction and Motivation	1
Chapter 2 - The Study Region, Coal Production, & Regional Economy	3
Section 2.1 - Study Region Definition	3
Section 2.2 - A Brief Historical Context	4
Section 2.3 - Coal Production and the Study Region Economy	5
Chapter 3 - Economics of the Coal Industry	9
Section 3.1 - The Demand for Study Region Coal	9
Section 3.1.1 - Clean Air Standards and the Demand for Study Region Coal	10
Section 3.1.2 - International Competition and the Demand for Study Region Coal	12
Section 3.1.3 - The Potential Impacts of Electric Utility Restructuring	15
Section 3.2 - The Cost Structure of Study Region Coal Producers	17
Section 3.2.2 - Capital, Labor, and Labor Productivity	17
Section 3.2.3 - The Issues of Scale and Scope Economies	19
Section 3.2.4 - Additional Environmental Restrictions And Production Costs	22
Section 3.3 - Coal Pricing and Future Producer Profitability	23
Chapter 4 - Forecast Model & History	25
Section 4.1 - Forecast Model and Simulations	25
Section 4.2 - The Baseline Forecast	27
Section 4.3 - Phase In of The Haden Decision	28
Section 4.4 - The Restrictive Haden Decision – A More Severe Case	30
Section 4.5 - Short Run Price Effects of Reduced Study Region Production	31
Section 4.6 - Summary	32
Chapter 5 - Total Regional Impact	33
Section 5.1 - The Impact Analysis	33
Section 5.2 - The Baseline Forecast	33
Section 5.3 – Haden Decision Phase-In	34
Section 5.4 – The Restrictive Haden Decision	35
Chapter 6 – Concluding Remarks	37
Appendix A – County Level Impacts	
Boone County	
Fayette County	
Kanawha County	
Lincoln County	
McDowell County	
Mingo County	
Nicholas County	
Raleigh County	
Wyoming County	
Appendix B – A Model of Coal Supply and Demand	
Appendix C – A Coal Mining Production Function
