

EARLY EDUCATION  
OUTREACH PROGRAM

## *Professional Development Options*

---

While the primary focus of the Marshall University Early Education Outreach Program is implementation of the Year I and Year II Inquiry Support System professional development models, additional workshops/training sessions are available at the request of county/agency administrators.

As all programs have individualized goals and needs for its educators, the MUEEOP maintains its status as a statewide professional development resource designed to assist early childhood programs with their training needs.

For additional information or to inquire about scheduling a workshop suited to the needs of your program, please contact the MUEEOP office. We would be pleased to work with you to design a professional development workshop(s) based on your program's unique needs.
