

Are you a science major **interested in biology, chemistry, genetics, and other cutting-edge areas of R&D?** Wondering how you can **apply your skills to a career in the pharma and biotech industry?**

JOIN US FOR AN

## Informational Career Session & Recruiting Event

Hosted by BioAgilytix, a World-Leading Bioanalytical Laboratory

**October 18, 2018 | 3:30pm–7:30pm**

Science Building, Room 376

BioAgilytix will be holding a meet & greet event at Marshall University to talk with science students about the innovative and growing career opportunities in the realm of drug development—from initial basic research to development and marketing of the drug.

### You'll get answers to question like:

- What are the options to use my science degree, beyond medical school?
- Which area of drug development is the best fit for my skills and interests?
- How can I find and increase my chances of getting a job in this field?

In addition to the 3:30pm information session for all class levels, **BioAgilytix will meet with seniors interested in applying to entry-level positions currently open** at their in Durham, NC headquarters.

HOSTED BY

### Event Agenda

**3:30pm–4:30pm**

#### Meet & Greet Event

Meet face-to-face with BioAgilytix's executives—including CEO Jim Datin, a Marshall University alumni—to learn about career opportunities in the pharma and biotech industry, including within contract research organizations (CROs) such as BioAgilytix.

**5:00pm–7:30pm**

#### Individual "Speed Interviews" with BioAgilytix

*Refreshments will be served;  
be sure to bring copies of your resume!*

**Interested  
in attending?**

**SENIORS, pre-register for an interview session** with Stephanie Blankenship in the College of Science Dean's office in person or by calling 304-696-2371.

*All Class levels are encouraged to attend the Meet and Greet.*
