How to Create an EPAF in Banner

Note: EPAFs are for Current (Active) Employees ONLY! All others will be processed on paper PARs

- 1.) Log onto the EPAF form by typing “NOAEPAF” in the “Go To...” box and hit “Enter” **OR**
Access the EPAF form by clicking on the “Human Resources [*HRS]” link.
Click on the “Electronic Approvals [HRSELECAPPR]” link.
Click on the Electronic Personnel Action link [NOAEPAF]

Make sure before you begin an EPAF that all the information on the top is cleared out before you can begin. If you previously did an EPAF, that information will appear at the top. You will need to go to “Record” and “Clear.”

- 2.) If you know the employee’s 901 number, enter it in the ID text box.
- 3.) If you do not know the employee’s 901 number, click on the drop-down arrow beside the ID text box.
- 4.) Select the “List for Person” **SOAIDEN** link from the pop-up menu
Enter the person’s Last Name and First Name and either press “F8” or from the top menu click “Query” and then “Execute.”
- 5.) Once you have selected the employee’s name, it will appear on the EPAF form.
- 6.) You will now select an Approval Category.
- 7.) The Categories are:

CATEGORY NAME	SESSIONS	BANNER PAYROLL BEGIN DATE (USE FOR QUERY DATE)	BANNER PAYROLL END DATE
MCPFFL	Fall	8/17/13	12/16/13
MCPFSP	Spring	1/17/14	5/16/14

- 8.) Note that the “Approval Type” field has been populated based on the Approval Category chosen.
- 9.) Please click in the “Query Date” text box. This date is the “Banner Payroll Begin Date” from above. This is **not** the date when the session begins. Enter the date here.
- 10.) Click in the “Position” text box. If you know the position number, enter it here.

- 11.) If you do not know the position number, click on the drop-down arrow beside the position text box. Part-Time Faculty position numbers MUST begin with “17” followed by the four-digit org the position is paid from. Select “List of all Positions” from the pop-up menu.
- 12.) Search for the correct position number in the list provided. Double click on the position number to select.
- 13.) You now need the “Suffix Number.” Click the down arrow and select the “List of Employee’s Jobs” link. This takes you to the NBIJLST form. Once you are on this form, you will need to do a rollback and change the query date on the top right of the screen.
- 14.) Change the date year to 1999 to see if the person has had this position before. If not, their suffix will be “01.” If they have had this position before, select the next chronological number. Example: If a person has position # 172195 and the last suffix listed beside that position is “27,” then the suffix that you will use on the EPAF you are creating is “28.” Click the “X” to exit from this screen.
- 15.) Enter the number in the “Suffix” textbox. If you type in the suffix, and a date appears in the “Last Paid Date” field beside the Query Date OR if information appears in the “Current Value Field,” you have chosen the wrong suffix. If you have entered any other EPAFs for this person with the same position, go to the next suffix number even if it doesn’t appear on NBIJLST. Example: You just entered and EPAF for Susie Smith with position 172195 with suffix 12. If this job does not appear on NBIJLST, it has not been applied to the database yet, so on the next EPAF for her with this position number choose suffix 13.
- 16.) Control + Page Down to see EPAF information below. You will notice that most of the field information is defaulted in. The fields you will need to enter are blank.
- 17.) The default for Contract Type is “P” for primary job. If this is a secondary job, change the “P” to an “S.”
- 18.) Hit the “Tab” key or click with the mouse on the fields where the information is needed.
- 19.) Enter the “Annual Salary,” numbers only. Ex. \$1,000.00 can be entered as 1000. If you are paying with cents you need to enter decimals Ex. \$1,235.23 can be entered as 1235.23.
- 20.) Enter the “Timesheet Orgn.” This is the org where the employee actually works, not necessarily the org from which they are paid.
- 21.) Click the “Save” button.
- 22.) Select “Options” from the top menu.
- 23.) Select “Next Action” from the options menu.

Click “Remove Record.” You may need to click it a couple of times to make sure the entire record is removed. Once the record is removed, you will need to change the percentage to “100.”

- 52.) Click “Save.”
- 53.) Go to “Options” from the menu.
