

**MARSHALL UNIVERSITY
2022-23 INTERNATIONAL STUDENT GUIDE**

**I'M
HOME.**

I AM A PART OF THE MARSHALL FAMILY.

Welcome to Marshall University, an R2 university in Huntington, West Virginia. This student guide serves as an important resource to introduce you to the university you will soon call home.

During my time as president, I have already come to know that Marshall University means family. As one of our newest Marshall family members, you will become a part of the legacy and tradition of our university.

I have found that among the most compelling things about Marshall are the hope, love and unity of spirit embedded in the refrain “We Are... Marshall.” That phrase is inclusive, and the word “we” really reflects acceptance and respect—a family. Marshall is a special place.

I look forward to meeting you around campus!

“When I first came here I loved how campus was close knit, and I loved how people are really nice here.

It's a welcoming community and everyone is involved whether you are an international or local student.”

OUR STUDENTS

Our students attach high value to our small class sizes, having faculty members actively instructing in the classroom, the availability of intensive advising, exceptional student success resources, modern facilities, a growing global community and robust extracurricular programming.

The International Festival is West Virginia's largest and longest-running event of its kind, featuring international foods, world music, dance and displays representing many countries and cultures. Students are given the chance to educate the Huntington community about their culture and country through food and music.

Holi, also known as the Festival of Colors and the Festival of Love, is traditionally a two-day ceremony based on two ancient Hindu legends. Students from countries all over the world enjoyed celebrating during the 3rd annual Holi Festival held at Marshall University.

OUR ALUMNI

Our alumni are the heart and soul of the Marshall family. They have gone on to lead Fortune 500 companies, win Pulitzer Prizes and become captains of industry, science, education and the arts.

With more than 123,000 alumni, Marshall University student success can be found in dozens of countries all around the world. Marshall alumni are proudly considered leaders of some of the world's most influential and profitable companies, professional sports teams and are distinguished government officials.

"It's a nice opportunity to step out of your comfort zone, try something else, and move away from your home country.

It is a big step, but I've loved it. I'm here for my sixth year, and I wouldn't change it for the world."

OUR CITY

- Home to over 50,000 residents, Huntington is located along the Ohio River in the Tri-State region of West Virginia, Ohio and Kentucky.
- Amazon.com and Toyota are just two of several global corporations which call the Huntington area home.
- Students have the opportunity to explore the beauty that West Virginia has to offer, as well as travel to many of the most popular destinations in the U.S. Huntington is just over one hour from Washington D.C. by plane.
- Huntington's Ritter Park was named among the Best Public Spaces in America by the American Planning Association.
- Pullman Plaza, located only minutes from Marshall's campus, is a major downtown center for local shops and restaurants.
- Concerts, music festivals and special events are held at Harris Riverfront Park with excellent views of the Ohio River.
- Huntington was voted "America's Best Community" after being named the Grand Prize winner in the America's Best Communities competition, a \$10 million community revitalization campaign sponsored by Frontier Communications, DISH Network, CoBank and The Weather Channel.

Known as the Jewel City, Huntington is a historic and bustling city of commerce and heavy industry that has long flourished due to its ideal location on the Ohio River at the mouth of the Guyandotte River. The golden dome of the city's courthouse is just one of its many architectural landmarks.

R2 DESIGNATION

For the first time in its history, Marshall University has been selected as an “R2” research institution by the Carnegie Classification of Institutions of Higher Education.

This designation places Marshall among the top six percent of colleges and universities in the nation, and is the second-highest classification an institution can receive from the organization.

For its latest rankings, Carnegie surveyed more than 4,000 universities and put just 139 in the R2 category, which includes

universities that confer at least 20 research / scholarship doctorates annually and spend a minimum \$5 million per year on research. With its R2 designation, Marshall joined the likes of universities such as Baylor, Wake Forest and Lehigh.

Marshall jumped up two levels with the new designation thanks to an increase in the number of research awards and doctoral dissertations. Research expenditures at Marshall have increased 35% over the past 2 1/2 years, from \$23 million to \$31 million, and are expected to climb even further this year.
