News: New Faculty Fellows

Friday, October 16, 2009

MU-ADVANCE is pleased to announce that we have awarded three Faculty Fellowships for the 2009-10 academic year. These Fellowships enhance faculty development during the pre-tenure period. [More information...](#)

Meet the New Faculty: Dr. Maria Serrat

Dr. Maria Serrat joins the Department of Anatomy and Pathology as an Assistant Professor. Her research interests focus on the evolution and plasticity of the mammalian post-cranial skeleton. Her current work investigates environmental inputs on bone elongation, specifically how temperature and physical activity affect limb lengthening. Dr. Serrat is currently teaching Clinical Gross Anatomy and Embryology at the Joan C. Edwards School of Medicine. [More information...](#)

Resource: Department of Energy Fellowship Program

The Department of Energy's Office of Science offers a [graduate fellowship program](#) to entice exemplary students to seek graduate education in these basic science areas: physics, biology, chemistry, mathematics, engineering, computational sciences, and environmental sciences. Each fellowship includes a stipend for living expenses, tuition, and research supplies or travel. The deadline to apply is November 30, 2009.

Recommendations or suggestions for additional resources for the MU-ADVANCE Office can be sent to Heidi Williams: (willi143@marshall.edu).
