### News

Friday, April 3, 2009

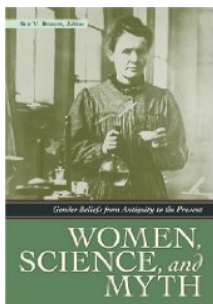

The MU Differential Analyzer Team is pleased to announce that the launch of the Differential Analyzer (DA) is scheduled for Saturday, May 2, at the Keith-Albee Theatre. If you are interested in attending, contact [Dr. Bonita Lawrence](#) for details. [More information on the DA...](#)

### Meet the Faculty: Dr. Bonita Lawrence

**Dr. Bonita Lawrence**, a professor in the Department of Mathematics, has spent the last several years researching and developing a Differential Analyzer (DA). The goal of the DA is to improve the teaching and learning of mathematics. The project, now complete, involved a research team of undergraduate and graduate students, faculty, and two mentors. Dr. Lawrence is currently creating a kit so that high school students can build their own DA. [More information...](#)

### Library Resource: Women, Science, and Myth

The book "Women, Science, and Myth" examines how the capabilities of women in science were questioned and how the scientific community was slow to accept both women and their research. In addition, this book offers insight on the study of gender in the scientific community, exploring the issue through time. The book is available for loan in the MU-ADVANCE office (S-200A).

Recommendations or suggestions for additional resources for the MU-ADVANCE Office can be sent to Heidi Williams: (willi143@marshall.edu).
