

BSN PROGRESSION POLICY

Nursing is a high demand program with limited space. Acceptance of students into the School of Nursing BSN program is predicated on the understanding that students should be able to complete the curriculum in four years, if admitted at the freshman level, and three years, if admitted at the sophomore level. Should students need to slow their program plan, they need to petition the Admissions, Progression and Graduation Committee for permission. A student admitted to the School of Nursing directly out of high school must complete the freshman level pre-requisite courses during the first year of study. If the student is unable to progress to the sophomore level the year following admission, the student is dropped from the nursing program and must reapply. (This progression policy does not apply to RN-BSN students).
