

Mandatory Longitudinal Experiences for Advanced Pharmacy Practice Experiences

This manual must be turned in to the Marshall University School of Pharmacy, Office of Experiential Learning

These tasks are to be completed adequately in order for the Doctor of Pharmacy candidate to be ready

to be a practicing pharmacist. No more than 2 activities can be completed per rotation. Upload document into ePortfolio

The preceptor should observe and sign, and assess the student performance.

Community. Activities #1, #2, #3, #4, and #5 are required activities. 1 additional activity must be completed for a minimum total of 6.

ACTIVITY		
1. Demonstrate Patient counseling on prescription medication(s) adjusting appropriately for the patient's educational level, ethnicity, and/or background.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		
2. Demonstrate the ability to document a pseudoephedrine transaction accurately	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		
3. Demonstrate the ability to adjudicate a prescription claim	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		
4. Demonstrate the ability to obtain prior authorization to fill a prescription.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		
5. Demonstrated the ability to take a verbal or phone order from a prescriber and correctly transfer it to a written format.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		
6. Perform a mathematical calculation correctly relating to compounding - IV, topical, or other medication	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

7. Demonstrated the ability to take a manual blood pressure	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

8. Demonstrated the ability to give an immunization appropriately - asked about allergies, documentation, etc.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

9. Demonstrate the ability to accurately dose a medication using a pharmacokinetic equation or by calculating an estimated creatinine clearance.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

10. Demonstrate the ability to report an adverse drug reaction through the FDA's MedWatch program or VAEERs Report .	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

11. Create and deliver a Powerpoint presentation on a healthcare related topic. Slides should be clear of typos, presentation should be organized, there should be learning objectives, information is accurate, and references are provided.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

12. Create and deliver a patient education document or materials	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

13. Assist a patient in obtaining financial assistance for their medications.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

14. Perform a medication synchronization for a patient.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

15.. Obtain a glucose level from a patient and counsel a patient on the correct use of their glucose meter	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

16. Identify, collect, and assess a patient's medication regimen for one of the following disease states - Type 2 Diabetes, COPD, Heart Failure, Bipolar Disorder, or Schizohrenia; present the findings to (1) your preceptor and then (2) a healthcare provider other than a pharmacist	Adequately Performed	Needs Improvement
Preceptor Signature & Date:

AmCare. Activities #1 and #2 are required. Complete at least 1 additional activity listed for a minimum total of 3.

ACTIVITY		
1. Identify, collect, and assess a patient's medication regimen for one of the following disease states - Type 2 Diabetes, COPD, Heart Failure, Bipolar Disorder, or Schizophrenia; present the findings to (1) your preceptor and then (2) a healthcare provider other than a pharmacist Preceptor Signature & Date:	Adequately Performed	Needs Improvement
2. Complete a formal MTM or CMR consult including billing if applicable. Preceptor Signature & Date:	Adequately Performed	Needs Improvement
2. Demonstrate Patient counseling on prescription medication(s) adjusting appropriately for the patient's educational level, ethnicity, and/or background. Preceptor Signature & Date:	Adequately Performed	Needs Improvement
3. Answered a drug information question that required an article to be reviewed (Primary search). Preceptor Signature & Date:	Adequately Performed	Needs Improvement
5. Demonstrated the ability to take a manual blood pressure Preceptor Signature & Date:	Adequately Performed	Needs Improvement
6. Demonstrated the ability to give an immunization appropriately - asked about allergies, documentation, etc. Preceptor Signature & Date:	Adequately Performed	Needs Improvement

7. Given a case encountered on a rotation or clinic, demonstrate the ability to knowledgeably discuss the pathophysiology of disease states encountered and information about pharmacotherapies used to treat those disease states.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

9. Demonstrate the ability to report an adverse drug reaction through the FDA's MedWatch program or VAEERs Report.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

10. Create and deliver a Powerpoint presentation on a healthcare related topic. Slides should be clear of typos, presentation should be organized, there should be learning objectives, information is accurate, and references are provided.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

11. Complete a formal MTM or CMR consult including billing if applicable.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

12. Complete a SOAP note or a Progress Note entry	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

13.. Obtain a glucose level from a patient and counsel a patient on the correct use of their glucose meter	Adequately Performed	Needs Improvement
Preceptor Signature & Date:

Institutional. Activities #1 and #2 and #3 are required. Complete at least 1 additional activity listed for a minimum total of 4.

ACTIVITY		
1. Demonstrated the ability to take a verbal or phone order from a prescriber and correctly transfer it to a written format.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		
2. Demonstrate adequate checking of an IV Admixture - additive, solution, label.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		
3. Demonstrate the ability to accurately check a unit dose cassette fill.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		
4. Perform a mathematical calculation correctly relating to compounding - IV, topical, or other medication	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		
5. Given a drug information question, demonstrate the ability to formulate an efficient and effective answer using appropriate sources of drug information.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		
6. Demonstrate the ability to accurately dose a medication using a pharmacokinetic equation or by calculating an estimated creatinine clearance.	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

7. Demonstrate the ability to report an adverse drug reaction through the FDA's MedWatch program or VAEERs Report .	Adequately Performed	Needs Improvement
Preceptor Signature & Date:		

8. Create and deliver a Powerpoint presentation on a healthcare related topic. Slides should be clear of typos, presentation should be organized, there should be learning objectives, information is accurate, and references are provided.	Adequately Performed	Needs Improvement
