

MARSHALL'S STRATEGIC VISION - *Our Bold Constellation for the Future*

**Status Update for:**

**Develop new degree programs that increase enrollment and revenue**

---

Overview

*Priority will be given to investing in new academic programs that:*

- Build on existing strengths
- Increase student learning and retention
- Increase human intellectual capital
- Create public value and assist with state economic growth
- Increase student enrollment and revenue
- Develop professional, master's and doctoral programs in selective, high-demand disciplines and career fields that create opportunities for economic development
- Encourage, foster and aid in development of full online programs

**Newest Programs:**

- Founding of the Honors College with appointment of a dean
  - The application by Marshall University to become a member of The Honor Society of Phi Kappa Phi has been reviewed with no questions or concerns by the Board of Phi Kappa Phi ( $\Phi\text{K}\Phi$ ). Membership includes a significant array of benefits and opportunities
  - The establishment and increased visibility of this college has increased applications from prospective students seeking honors education opportunities
- Entry-Level Doctoral Program in Physical Therapy (DPT) approved
- Doctorate of Management Practice in Nurse Anesthesia
- B.S. Degree Program in Medical Imaging and Cooperative Program in Nurse Midwifery
