

## OptiPlex GX110

**Marshall University Computing Services will not be held responsible for the use or misuse of this file.** **WARNING applying the incorrect BIOS to a computer system may cause damage.** **WARNING.** Do not turn the system power off during the flash update.

### Download

1. After reading the Export Compliance Disclaimer click **Download**.  
  
You will be asked to authenticate yourself by entering "**marshall\username**" and then your **password**.
2. When the File Download window appears, **click Save**
3. From the Save In: field, click the down arrow then click to **select Desktop** and **click Save**. The file will download to your desktop.
4. If the Download Complete window appears, **click Close**. The file icon appears on your desktop.

### Hard Drive Floppy Disk Creation

1. **Get 1 blank, formatted floppy disk.**
2. **Double-click the new icon** (it looks like a floppy diskette) on the desktop. The Self-Extractor window appears.
3. **Click Setup**. A black MS-DOS window appears with a message indicating that you need 1 floppy disk.
4. Press the **[ENTER]** key. A message appears prompting you to insert a blank floppy diskette. Insert a floppy disk into the floppy disk drive.
5. Press the **[ENTER]** key. A message appears indicating that all data on the disk will be erased.
6. Press the **[y]** key and then press the **[ENTER]** key. The files are copied to the floppy diskette. If the procedure requires more than one diskette, repeat steps 4 - 6 until you reach the end of the diskette set.
7. After all the files have been copied to the last floppy disk, press the **[ENTER]** key and the MS-DOS window closes.

### Install

1. **Insert the first (or the only) disk of the set into the Floppy drive.**
2. **Click Start, click Shutdown, click Restart, and then click OK.** Windows XP Users need only click restart.
3. Follow the on-screen instructions.
