

The Center for Environmental, Geotechnical, and Applied Sciences

The Center for Environmental, Geotechnical, and Applied Sciences was established in May 1993 through the cooperative effort of the presidents of Marshall University and West Virginia Graduate College (effective July 1, 1997 West Virginia Graduate College became Marshall University Graduate College - MUGC). The Center, as of July 1, 1998, became an affiliated organization of the College of Information Technology and Engineering. The goal of the center is to forge close working relationships among the business community, higher education institutions, and government agencies, in technology related endeavors. The center has been involved since its inception with educational offerings, research, service, and long-term planning for regional development.

The Center, as of May 2000, has obtained more than 4 million dollars in external contracts with participation of other MU departments and local businesses. The contracts and grants include efforts in software engineering, geographic information systems, environmental engineering, and development of the Environmental Management Incubator for area businesses.

Feel free to contact the Environmental Center at (304) 696-5453 for further information.
