

## Leadership/Service Portfolio

All Yeager Scholars will maintain a leadership/service portfolio. The purpose of the portfolio is to document leadership/service activities and provide an opportunity for students to reflect on these experiences. Leadership/service will be viewed broadly to include leadership/service to community, University, Yeager program, and discipline. The specific format of the portfolio will be determined by the Scholar in consultation with the Director. All portfolios must, however, include activity forms and reflection essays. Each Scholar must also document at least 40 hours of leadership/service activities a year. Portfolios will be reviewed annually by the Director and Assistant Director. Seniors must submit completed portfolios to the Yeager Steering Committee no later than April 1 in order to participate in the Medallion Ceremony. Final approval of the leadership/service portfolio rests with the Yeager Steering Committee.
