Define the rationale for EACH type of change here.  

Integrated Science and Technology is comprised of 6 majors, and we have basically run out of course numbers to use. In conjunction with a strategic reorganization of the College of Science, the Integrated Science and Technology Department will be split into individual departments and most of the IST courses will be taking on new designators.

IST360 will be moved to the Computer and Information Technology Department, thus changing the designator from IST to CIT.

While making this change, we also thought that the new course number would be appropriate to better sequence our gaming courses.
