

OMNIBUS ARTICULATION AGREEMENT BETWEEN
MARSHALL UNIVERSITY
AND
NEW RIVER COMMUNITY AND TECHNICAL COLLEGE
FOR AN ACADEMIC PROGRAM LEADING TO THE
REGENTS BACHELOR OF ARTS DEGREE

Marshall University and New River Community and Technical College, in order to facilitate the efficient transfer of students between the two institutions, hereby establish an omnibus articulation agreement that will help adult students of West Virginia and other states earn an associate and a baccalaureate degree through the State's Regents Bachelor of Arts degree. Through this articulation agreement, Marshall University will accept a maximum of 72 hours of college-level coursework offered by New River Community and Technical College. Such courses may be used to fulfill a portion of Marshall University's general education curriculum and portions the Regents Bachelor of Arts degree.

I. Conventional Transfer from New River Community and Technical College to Marshall University

Students who are in good standing and meet all admission requirements are eligible to matriculate at Marshall University and receive full credit for a maximum of 72 hours of college-level coursework completed at New River Community and Technical College and other regionally accredited community and technical colleges.

New River Community and Technical College will assist students by providing academic advising that will counsel students to enroll in general education and other prerequisite courses that will prepare students to complete a baccalaureate degree at Marshall University. In addition, New River Community and Technical College will help students prepare a Marshall University application package that includes an admission application, New River Community and Technical College transcript, identification of intended major, transfer evaluation fee or waiver request, and consent for Marshall University to share academic information with New River Community and Technical College. Marshall University will admit students participating in this agreement under a special designation to facilitate tracking of student progress. Marshall University and New River Community and Technical College will create, and revise annually, a list of all course equivalences to fulfill portions of general education and degree requirements.

Should a student transfer to Marshall University before the completion of an associate degree at New River Community and Technical College, Marshall University will monitor the student's progress and send an official transcript to New River Community and Technical College once the student's cumulative credit hours are equal to or greater than 60 hours of college-level

coursework. As appropriate, New River Community and Technical College may then use the combined coursework of the two schools to issue the student an associate's degree.

Students working toward the associate and Regents Bachelor of Arts degrees will be encouraged to work with academic advisors to ensure their previous, current, and future courses will lead to a timely completion of the degree. In addition, the advisor will determine if the student is eligible to receive credit for work experience, military service and training, and civilian licensure and specialized training programs. Students participating in this program will be required to complete course requirements as outlined by the State's Regents Bachelor of Arts program.

Marshall University and New River Community and Technical College agree to monitor and support the provisions of this agreement to ensure program consistency and quality, and transferability for the benefit of the students of both institutions.

This articulation agreement supplements all currently existing articulation agreements which will continue to serve as specialized links between the two institutions.

Marshall University and New River Community and Technical College agree to renegotiate this agreement as necessary due to changes in curriculum or graduation requirements implemented by either institution. This process will be the responsibility of the chief academic officer at both institutions.

II. Assessment of Prior Learning

Students admitted to Marshall University who may be eligible to receive college credit for prior learning will be directed to the professional staff of New River Community and Technical College for an assessment of eligible credit. The New River Community and Technical College staff will review the students' relevant military, work, and other professional experiences which may be translated to the equivalence of college-level credit hours. As necessary, students participating in this program may be required to complete a portfolio development course to develop materials necessary for the assessment of prior learning.

When the assessment is complete, New River Community and Technical College will prepare a transcript listing the college-level credits the students received from New River Community and Technical College and course equivalences, where appropriate. As appropriate, New River Community and Technical College may also issue an associate degree to students based upon prior course work and granted prior learning credit. Marshall University will accept all college-level credits and accept equivalent college level courses granted through the prior learning assessment.

Students participating in this program may need to pay course fees to New River Community and Technical College to enroll in a portfolio development course. Participating in this program does not affect the students' ability to enroll in Marshall University courses.

Marshall University and New River Community and Technical College agree to monitor and support the provisions of this agreement to ensure program consistency and quality, and transferability for the benefit of the students of both institutions.

This agreement may be terminated upon thirty (30) days written notice to the other party: provided that the students currently pursuing a degree shall be permitted to complete the program. Students pursuing a baccalaureate degree through this articulation agreement will be bound by the curriculum requirements in effect at the time they are officially accepted into the articulated program.

The terms of this agreement are hereby approved on June 14, 2015, by the respective administrations of the two schools.
