Department of Accountancy and Legal Environment 189
Accounting, B.B.A. 191
Accounting, Minor 193
Legal Environment, Minor 193
Department of Finance, Economics and International Business 193
Economics, B.B.A. 198
Economics, Minor 200
Finance, B.B.A. 200
Finance, Minor 202
International Business, B.B.A. 202
International Business, Minor 204

Risk Management and Insurance, Minor 204
Department of Management and Health Care Administration 204
Aviation Management, B.B.A. 211
Health Care Management, B.B.A. 213
Management, B.B.A. 214
Human Resources and Organizational Behavior, Emphasis 216
Supply Chain Analytics, Emphasis 217
Management, Minor 217
Sustainability Management and Technology, B.B.A. 217
Sustainability Management and Technology, Minor 219
Department of Marketing, Management Information Systems (MIS) and Entrepreneurship 219
Entrepreneurship, B.B.A. 227
Entrepreneurship, Minor for Non-Business Majors 229
Entrepreneurship, Minor for Business Majors 229
Hospitality and Tourism Marketing, Minor 229
Management Information Systems, B.B.A. 230
Management Information Systems, Minor 231
Marketing, B.B.A. 231
Digital Marketing and Analytics, Emphasis 233
Sales, Emphasis 235
Marketing, Minor 237
Sports Business, B.B.A. 237
Sports Business, Minor 238
Department of Military Science 238
Military Science and Leadership, Minor 238
U.S. Army Reserve Officers' Training Corps 238
General Business, B.A. 239
General Business, Minor 241
Department of Communication Studies 241
Business Communication, Minor 245
Communication Studies, B.A. 245
Health Communication, Concentration 245
Interpersonal Communication, Concentration 247
Organizational Communication, Concentration 248
Public Communication, Concentration 250
Communication Studies, Minor 251
Department of English 251
Creative Writing, B.A. 262
Creative Writing, Minor 265
English (Generalist), B.A. 265
English Education 5-Adult Teaching Specialization 266
English, Minor 267
Literary Studies, B.A. 267
Professional Writing, B.A. 269
Professional Writing, Minor 271
Department of Finance, Economics and International Business 271
Economics, B.A. 273
Economics, Minor 274
Department of Geography 274
Geography, Accelerated Master's Degree 278
Geography, B.A. 278
Geography, B.S. 279
GIScience, Emphasis 281
Meteorology, Emphasis 283
Weather Broadcasting, Emphasis 285
Geography, Minor 286
GIScience, Certificate or Minor 287
Meteorology, Minor 287
Department of History 287
European History, Minor 294
History, B.A. 294
History, Minor 296
Teaching, M.A.T. 296
United States History, Minor 297

Biological Science Education 9-Adult, B.A. 418
Chemistry Education 9-Adult, B.A. 420
Elementary Education K-6 Comprehensive, B.A. 422
English Education 5-9, B.A. (Second Specialization only) 423
English Education 5-Adult, B.A. 424
General Science Education 5-9, B.A. (Second Specialization only) 426
General Science Education 5-Adult, B.A. 426
Japanese Education PreK-Adult, B.A. 428
Mathematics Education 5-9, B.A. (Second Specialization only) 428
Mathematics Education 5-Adult, B.A. 429
Music Education PreK-Adult, B.A. 430
Physics Education 9-Adult Comprehensive, B.A. 433
Social Studies Education 5-9, B.A. (Second Specialization only) 434
Social Studies Education 5-Adult, B.A. 435
Spanish Education 5-Adult, B.A. 437
Special Education Multi-Categorical 5-Adult, B.A. (Second Specialization only) 437
Special Education Multi-Categorical K-6, B.A. (Second Specialization only) 437
Wellness Education PreK-Adult, B.A. 437
Early Childhood Education 439
Early Childhood Education, B.A. 445
Early Education PK-K, B.A. (Second specialization only) 447
College of Engineering and Computer Sciences 447
College Programs 450
Engineering Science, Minor 450
Engineering Transfer Program 450
Pre-Engineering 452
Department of Biomedical Engineering 452
Biomedical Engineering, B.S. (B.S.B.M.E.) 453
Department of Civil Engineering 455
Civil Engineering, B.S.C.E. 458
Accelerated Master's Degree in Civil and Environmental Engineering 460
Engineering Management, Accelerated Master's Degree 461

Department of Computer Sciences and Electrical Engineering 461
Computer and Information Security, B.S. 468
Computer and Information Security, Minor 470
Computer Science, Accelerated Master's degree 471
Computer Science, B.S. 471
Computer Science, Minor 473
Cybersecurity, Accelerated Master's Degree 473
Data Science, Accelerated Master's Degree 474
Electrical and Computer Engineering, B.S.E.E. 475
Pre-Computer Science 477
Weisberg Department of Mechanical Engineering 478
Aerospace Engineering, Emphasis 485
Engineering, B.S.E. 486
Engineering, General Emphasis 488
Engineering, Industrial and Systems Emphasis 488
Mechanical Engineering, B.S.M.E. 488
Mechanical Engineering, Accelerated Master's Degree 491
Occupational Safety and Health, B.S. 491
Occupational Safety and Health, Minor 494
College of Health Professions 494
Clinical Laboratory Sciences 496
Medical Laboratory Science, B.S. 498
Medical Laboratory Technician, A.A.S. 501
Communication Disorders 503
Communication Disorders, B.S. 505
Communication Disorders, Minor 507
Speech Language Pathology Assistant, Certificate Program 507
Dietetics 508
Dietetics, B.S. 510
Health Sciences 513
Health Sciences, B.S. 513
Kinesiology 515
Athletic Training (3+2) 521
Athletic Training Comprehensive, Emphasis 522
Athletic Training Health Communication, Emphasis 524
Athletic Training Occupational Safety & Health, Emphasis 524
Athletic Training Pre-Chiropractic, Emphasis ... 524
Athletic Training Pre-Med, Emphasis 525
Athletic Training Pre-Physical Therapy, Emphasis 525
Athletic Training Pre-Physician's Assistant, Emphasis 525
Athletic Training Safety, Emphasis 526
Biomechanics, B.S. 526
Biomechanics Comprehensive, Emphasis 528
Biomechanics Physics, Emphasis 528
Biomechanics Pre-Medical, Emphasis 528
Biomechanics Pre-Physical Therapy, Emphasis 529
Biomechanics Safety, Emphasis 529
Exercise Science, B.S. 529
Applied Exercise Physiology, Emphasis 530
Clinical Exercise Physiology, Emphasis 532
Exercise Science, Minor 534
Health and Wellness, Minor 534
Medical Imaging 534
Medical Imaging Radiography, B.S. 539
General Sonography, Emphasis 541
Medical Imaging, Emphasis - Cardiovascular/ Interventional Advanced Practice 543
Medical Imaging, Emphasis - CT Advanced Practice 543
Medical Imaging, Emphasis - CT MRI Advanced Practice 543
Medical Imaging, Emphasis - Mammography 543
Medical Imaging, Emphasis - Medical Imaging Management Advanced Practice 543
Sonography, Emphasis - Cardiovascular Sonography 544
Sonography, Emphasis - General/OB-GYN 544
Sonography, Emphasis - Pediatric/Fetal Echo Electives 544
Sonography, Emphasis - Professional Sonographers 544
Nursing - Associate Degree 544
Nursing - Bachelor's Degrees 546
Nursing, B.A./B.S. to B.S.N. 549
Nursing, Pre-Licensure, B.S.N. 550
RN to B.S.N. Online Program 554
Pre-Health, Major 556
Respiratory Care 556

Respiratory Care, B.S. 560
RRT to B.S.R.C. Technology Enhanced Program 562
Social Work 562
Social Work, Minor 564
Social Work, B.S.W. 565
College of Liberal Arts 566
College of Science 569
Department of Biological Sciences 571
Biological Sciences, Accelerated Master's Degree 578
Biological Sciences, B.S. 578
Cell, Molecular and Medical Biology, Emphasis 580
Ecology and Evolutionary Biology, Emphasis 582
Microbiology, Emphasis 584
Natural History and Conservation, Emphasis 584
Plant Biology, Emphasis 584
Biological Sciences, Minor 584
Department of Chemistry 584
Biochemistry, B.S. 588
Chemical Sciences, B.S. 590
Chemistry, B.S. ACS Certified 592
Chemistry, Minor 594
Environmental Chemistry, B.S. 594
Forensic Chemistry, B.S. 596
Department of Computer and Information Technology 598
Computer and Information Technology, B.S. 600
Computer and Web Application Development, Emphasis 601
Game/Simulation Development, Emphasis 602
Computer and Information Technology, Minor 604
Game Development, Minor 604
Web Development, Minor 604
Department of Criminal Justice and Criminology 604
Criminal Justice, B.A. 608
Corrections, Emphasis 610
Law Enforcement, Emphasis 610
Legal Studies, Emphasis 610
Criminal Justice, Minor 611
Department of Cyber Forensics and Security 611
Computer Forensics, Minor 613
Cyber Forensics and Security, B.S. 613
Information Assurance, Certificate 615
Department of Geology 615
Earth Science, B.A. 618
Geology, B.A. 618
Geology, B.S. 619
Engineering Geology, Emphasis 621
Environmental Geoscience, Emphasis 623
Geology, Minor 624
Department of Mathematics 624

UNDERGRADUATE

About This Catalog

The Marshall University Undergraduate Catalog fulfills two primary functions:

1. The rules and regulations, policies and procedures of the University, its divisions and its governing body, all of which apply to all students, are contained in this document. These rules apply during the publication year of the document and are subject to change during that year upon recommendation of the various divisions and approval of the president or governing body of the University.
2. The Catalog contains the specific requirements for all degrees and certificates awarded by the University. These are normally in effect for a period of ten consecutive years for undergraduate degrees and certificates and seven consecutive years for graduate degrees and certificates. Students are cautioned that programs leading to licensure may be altered by the outside licensing agency and are not subject to this provision.

Disclaimer

The provisions of this catalog do not constitute a contract, expressed or implied, between any applicant or student and Marshall University. The University reserves the right to change any of the provisions, schedules, programs, courses, rules, regulations, or fees whenever University authorities deem it expedient to do so.

Dr. Avinandan Mukherjee, Provost and Senior Vice President for Academic Affairs

Mr. Bill Noe, Chief Aviation Officer

Ms. Ginny Painter, Chief of Staff

Dr. Marcie Simms, Vice President for Intercultural and Student Affairs

Mr. Christian Spears, Director of Athletics

Mr. H. Toney Stroud, Chief Legal Officer and General Counsel

Ms. Charlotte Weber, Vice President for Government Relations

Marshall University offers programs which encourage individual growth through the attainment of scholarship, acquisition of skills, and development of personality.

Professional, technical, and industrial career studies are available through the various departments of the university.

The university provides students with opportunities to understand and make contributions to the culture in which they live; to develop and maintain physical health; to participate in democratic processes; to learn worthwhile moral, social, and economic values; to develop intellectual curiosity and the desire to continue personal growth; and to share in a varied cultural program.

Marshall also recognizes an obligation to the state and community by offering evening, off-campus, and Internet classes, as well as lectures, artistic programs, conferences, forums, and other campus and field activities.

Mission of the University

Marshall University is a public comprehensive university with a rich history as one of the oldest institutions of higher learning in West Virginia. Founded in 1837 and named after Chief Justice John Marshall, definer of the Constitution, Marshall University advances the public good through innovative, accredited educational programs. Marshall University's mission, inspired by our Vision and Creed, includes a commitment to:

- Offer a wide range of high quality, affordable, and accessible undergraduate, graduate, and professional education that prepares students to think, learn, work, and live in an evolving global society.
- Create opportunities and experiences to foster understanding and appreciation of the rich diversity of thought and culture.
- Maintain a dynamic intellectual, artistic, and cultural life by promoting and supporting research and creative activities by undergraduates, graduates, and faculty.
- Contribute to the quality of life of the community, region, and beyond through applied research, economic development, health care, and cultural enrichment.
- Cultivate the development of an inclusive, just, and equitable community.

Marshall University Vision Statement

The vision of Marshall University: to inspire learning and creativity that ignites the mind, nurtures the spirit, and fulfills the promise of a better future.

Undergraduate Assessment at Marshall University

Marshall University has an ongoing assessment program that is firmly rooted in the university's mission. The assessment initiative grew from both faculty and administration concern for institutional quality and accountability. The assessment process provides the institution, colleges, and programs with information regarding institutional effectiveness. All segments of the university community—faculty, staff, administration and students—are to be actively involved in this process. Of central importance in the process is the assessment of student learning in the major and in general education, directed by the University Assessment Committee and the Associate Vice President of Assessment and Quality Initiatives.

The Marshall Creed

Inspired by the example of John Marshall, we the students, faculty, staff, and administrators of Marshall University, pledge to pursue the development of our intellects and the expansion of knowledge, and to devote ourselves to defending individual rights and exercising civic responsibility. We strive to exemplify in our own lives the core values of John Marshall's character: independence, initiative, achievement, ethical integrity, and commitment to community through association and service. As Marshall University, we form a community that promotes educational goals and that allows individuals maximum opportunity to pursue those goals.

We are:

- **An Educational Community** in which all members work together to promote and strengthen teaching and learning;
- **An Open Community** uncompromisingly protecting freedom of thought, belief and expression;
- **A Civil Community** treating all individuals and groups with consideration, decency, and respect, and expressing disagreements in rational ways;
- **A Responsible Community** accepting obligations and following behavioral guidelines designed to support the common good;
- **A Safe Community** respecting each other's rights, privacy and property;
- **A Well Community** respecting and promoting physical and emotional health;
- **An Ethical Community** reflecting honesty, integrity and fairness in both academic and extracurricular activities;
- **A Pluralistic Community** celebrating and learning from our diversity;
- **A Socially Conscious Community** acting as citizens of the world and seeking to contribute to the betterment of people and their environments;
- **A Judicious Community** remaining alert to the threats posed by hatred, intolerance and other injustices and ever-prepared to correct them.

Statement of Professional Ethics for All Employees

The faculty, staff, and administrators of Marshall University share a commitment to professional ethics as an obligation to our students, to the citizens of the state of West Virginia, and to each other as colleagues. To this end, we endorse the "Statement on Professional Ethics" of the American Association of University Professors, the "Ethical Practices for College Presidents" statement of the American Association of State Colleges and Universities, the "Statement on Government of Colleges and Universities," a joint statement of the American Association of University Professors, the American Council on Education, and the Association of Governing Boards of Universities and Colleges, and the "Ethics Act" of the West Virginia Ethics Commission. All of these documents may be found online at www.marshall.edu (http://www.marshall.edu).

All employees should strive to adhere to the following guiding principles derived from the above documents. This is not intended as a complete listing of standards included in those documents.

- Honesty and Trustworthiness in all professional dealings with others;
- Fairness and Equity, requiring that one does not discriminate or harass others;
- Respect for the opinions, needs, goals, and responsibilities of others;
- Full and open communication between and among colleagues, students, staff, and administrators;
- Impartiality in all professional decision making;
- Keeping primary the interests of both students and the institution;

- Acceptance and fulfillment of responsibility in the shared governance of the university;
- Integrity in all interactions with others;
- Confidentiality of information where appropriate;
- Adherence to the ethical standards of one's discipline or field.

All employees are duty bound to maintain these ethical standards as well as to call attention to situations where these standards may have been violated. The state and the institution provide administrative procedures for the filing and investigation of ethical complaints. However, in case an employee does not feel that he/she was treated properly in attempts to point out a potential ethical violation he/she may file a statutory grievance. The grievance process is governed by West Virginia State Code §6C-2. This is the only grievance process and is to be used when necessary by all employees - both faculty and staff.

History

The Beginning

Marshall University traces its origin to 1837, when residents of the community of Guyandotte and the farming country nearby decided their youngsters needed a school that would be in session more than three months a year. According to tradition, they met at the home of lawyer John Laidley, planned their school, and named it Marshall Academy in honor of Laidley's friend, the late Chief Justice John Marshall. They chose one and one-quarter acres of land in an area called Maple Grove where stood a small log building known as Mount Hebron Church. It had been the site of a three-month subscription school and remained that for another term. Eventually $40.00 was paid for the site.

The Academy and the College

On March 30, 1838, the Virginia General Assembly formally incorporated Marshall Academy. Its first full term was conducted in 1838-39. For decades the fledgling school faced serious problems, most of them financial. The Civil War forced it to close for several years, but in 1867 the West Virginia Legislature renewed its vitality by creating the State Normal School at Marshall College to train teachers. This eased Marshall's problems somewhat, but it was not until the tenure of President Lawrence J. Corbly from 1896 to 1915 that the college began its real growth. In 1907, enrollment exceeded 1,000.

The University

Marshall was granted university status in 1961. The university now functions through these academic units: the College of Arts and Media, the College of Business, the College of Education and Professional Development, the College of Information Technology and Engineering, the College of Liberal Arts, the College of Health Professions, the Honors College, the College of Science, the School of Pharmacy, University College, the Graduate College, and the School of Medicine.

Accreditations

- **The Higher Learning Commission** accredits Marshall University as an institution of higher learning.

- **Southern Council on Collegiate Education for Nursing**
- **Teacher Education Council of State Colleges & Universities**

The Faculty

There are more than 700 full-time faculty at Marshall University, and of them, 85 percent hold the highest degree in their fields of specialization. The faculty's first commitment is to teaching. The second responsibility is to advancing scholarly and creative work, and service is the third area of professional obligation. Each year Marshall University honors its faculty by recognizing outstanding teaching, notable scholarship, and distinguished service.

In the words of a Marshall undergraduate, "The professors here are concerned with helping the student. If you make the effort to approach them, they are willing to go to great lengths to assist you."

Faculty are identified in the departmental sections of this catalog and in the faculty listing.

The Campuses

The Huntington campus of Marshall University encompasses about 90 acres. It is bounded on the north by Third Avenue, on the south by Fifth Avenue, on the west by Hal Greer Boulevard, and on the east by Twentieth Street. The Medical School is located several blocks to the south. This campus is 126 miles east of Lexington, Kentucky, and 50 miles west of Charleston, West Virginia.

Huntington is a safe, picturesque city with hospitals, libraries, restaurants, a renowned museum, a city-wide park, and nearby factories for making hand-blown glass. Concerts and theatrical productions take place in outdoor amphitheaters located in the park and along the riverfront.

A strong "town-gown" relationship benefits both the Huntington community and Marshall University, and is particularly evident in the mutual support of cultural activities and community support of the university's athletic events.

The South Charleston campus of Marshall University lies 46 miles to the east of the campus in Huntington, and covers about 29 acres in South Charleston, West Virginia. There are two buildings at the South Charleston campus.

The university takes great pride in its continuing efforts to maintain a barrier-free campus for individuals with physical limitations.

Huntington Campus

Arthur Weisberg Family Applied Engineering Complex, located on Third Avenue on the north side of campus, was completed in spring of 2015. It was named in honor of Arthur Weisberg and his family, who have been strong supporters of engineering and computer science at Marshall. The facility houses administration, offices, classrooms and state-of-the-art laboratories of the College of Engineering and Computer Sciences. The College of Science also has instructional and computer laboratories, faculty offices and the MAGIC (Marshall's Advanced Gaming and Interactivity Center) lab located in this building. In addition the Weisberg Applied Engineering Complex includes laboratories and offices for the Marshall Institute for Interdisciplinary Research and the Marshall University Research Corporation.

Arthur Weisberg Family Engineering Laboratories was completed in August of 2009. It was named in honor of Arthur Weisberg and his family, who have been strong supporters of engineering and computer science at Marshall. A variety of engineering laboratories are housed in this building.

Birke Gallery, located on the first floor of Smith Hall at the northwest corner of campus, was named to honor the family of Helen Birke, a former Huntington patroness of the arts. The facility was enlarged in 1993. Directed by the School of Art and Design, the Birke Gallery mounts exhibits of student and professional art works for the benefit of art students, the campus at large and the entire community.

Buskirk Hall, a six-story women's residence hall with double and single rooms and a capacity of approximately 193 women, is on the east side of the inner campus. Opened in 1965 as West Hall, it was renamed in 1976 to honor Lillian Helms Buskirk, who was Dean of Women from 1941 until 1970. This residence hall houses Business and Science Living Learning Communities, the First Year Residential Experience, and a designated Quiet Floor. Buskirk Hall is also ADA accessible for students.

Cam Henderson Center, opened in 1981, presents a spectacular profile against the campus skyline on Third Avenue on the north side of campus. The facility was named to honor legendary coach Cam Henderson, whose career at Marshall extended from 1935 to 1955. Special features include a 9,000+-seat basketball arena, four secondary basketball courts, racquetball courts, training rooms, weights rooms, locker rooms and meeting rooms. The Frederick A. Fitch Natatorium, an 800-seat swimming area, was named in honor of a professor and chair of physical education. The building contains human performance labs, intercollegiate offices, the Sports Information office, the Big Green Scholarship office, and the athletic events ticket office.

Campus Christian Center, completed in 1961 on Fifth Avenue beside the Memorial Student Center, is privately owned and operated by a corporation whose Board of Directors is elected by nine Christian denominations. No state funds were involved in its construction. The building contains a chapel, conference rooms, fellowship hall and kitchen, lounge, office space for campus ministers, workshop rooms, and the Stewart H. Smith religious library, named to honor the President (1946 to 1968) of Marshall College and then Marshall University.

Career Education, the Office of Career Education, is located on the southwest corner of Fifth Avenue and l7th Street. The Office of Career Education provides career development and support services for students and alumni. Career Education staff support is available, as well as computers for career research, job search skill development and interview practice, and other online career resources.

Communications Building, the third building of the Smith Hall Complex, was completed in 1970. Located on Third Avenue at the east end of the complex, it houses the studio of WMUL-FM radio, Digital Media Services, and University College.

Corbly Hall, a four-story building located at the southwest corner of campus, was named for Lawrence J. Corbly, who served as "principal" of Marshall College from 1896 to 1907, and as its first president from 1907 to 1915. When dedicated in November 1980, Corbly Hall was the largest academic building in the West Virginia state system of higher education. It is the home of the College of Business, which includes the Department of Accountancy and Legal Environment; the Department of Finance, Economics and International Business; the Department of Management and Health Care Management; and the Department of Marketing, Management Information Systems, and Entrepreneurship. Corbly also houses the Department of English.

Drinko Library and Information Center, located on the western side of campus beside Old Main, opened in 1998 and is named for John Deaver Drinko, a Marshall graduate, philanthropist, and strong supporter of higher education. This is a 118,000 square foot, state-of- the-art facility. Its west side presents a traditional facade that is compatible with adjacent Old Main, while the east side, with an imposing five-story atrium, is modern in design. The dual outward appearance is reflected inside, as the facility melds a full range of traditional library services with state-of-the art computing and distance education facilities that include multimedia training and presentation rooms, quiet study and work rooms, computer work stations and computer carrels. The Drinko Study Center is open 24 hours five days per week and includes access to a spacious reading room with computer consultation stations. The overall library system includes close to three million items consisting of numerous subject-specific databases, print and electronic books or periodicals, scores, multimedia resources, government publications, special collections, and microforms. The Drinko Library provides private and group study rooms, conference rooms, classrooms, and an auditorium. The Information Technology administration and several units in this division are also housed in Drinko.

East Hall is located on the east side of campus near the First Year Residence Halls. It houses the new Intercultural Center, the new Student Success Center, and the English Language Institute. **The Intercultural Center** serves to prepare Marshall University students and graduates for leadership and success in a pluralistic and globally integrated society. The Intercultural Center includes the Center for African American Students; the Lesbian, Gay, Bisexual, Transgender, Queer/Questioning+ Office; and the International Students Office. **The Student Success Center** sponsors success programming especially for freshmen, sophomores, and new transfer students and is the

home of the Friend at Marshall (FAM) Peer Mentoring Program, the Supplemental Instruction Program, the Herd Path Program, and the Alternative Suspension Program. **The English Language Institute** facilitates English language learning and cultural educational understanding for Marshall's international students.

The **Education Building**, constructed in 1937, is located on the eastern side of the inner campus. Until 1970 the building provided elementary through high school education and served as a laboratory for prospective teachers. Now, it houses administration, offices, and classrooms of the College of Education and Professional Development. The facility includes the Learning Resource center, a mathematics education laboratory, a science education laboratory, electronic classrooms, and the June C. Harless Center for Rural Educational Research and Development.

The **First Year Residence Halls** (FYRH) opened in the fall of 2008. There are two buildings of four floors each, which house a total of approximately 782 students. Students share a bedroom and bathroom with one roommate. Each student is provided an extra-long bed, bureau, desk and chair. These residence halls provide Ethernet and wireless Internet access, along with cable television. There are emergency phones on each floor and card access into the building, along with security cameras in the common areas. These residence halls also have study lounges, classrooms and common area space for student use. Resident Advisors are assigned to each floor and 24-hour desk coverage is provided. A professional staff member lives on site for after-hours emergencies.

Gullickson Hall, completed in 1961, adjoins the newer Cam Henderson Center at 18th Street and Fourth Avenue on the northeast side of campus. It was named in honor of Otto (Swede) Gullickson, who developed a large collegiate intramural program at Marshall beginning in 1930 and continuing for almost four decades. This three-story facility contains classrooms, offices, a gymnasium seating 250, rifle range, steam room, and first-aid laboratory. It houses the School of Kinesiology, and the department of military science.

Harris Hall, on Third Avenue on the north side of campus, was completed in 1976 and named in honor of Arvil Ernest Harris, a political science and social studies professor who served as dean of the graduate school from 1948 to 1964. The four-story building houses the departments of classics, geography, history, religious studies, philosophy, psychology, counseling, adult and continuing education, and education administration.

Holderby Hall, built in 1963 on Fifth Avenue as South Hall to house male students, was expanded in 1969 to become a nine-story, co-ed residence hall with a capacity of approximately 250 in all deluxe singles. Holderby Hall is also home to one of our Faculty-In-Residence. In 1980 it was renamed in honor of James Holderby, who in 1837 sold one and one-fourth acres of his farm to establish Marshall Academy. Living areas on the ground-level floor offer ADA-accessible rooms for male students. Marshall University's Campus Express: Pizza, Subs and More, or C' Store, is located on the north side of the building along with the Department of Housing and Residence Life.

Joan C. Edwards Performing Arts Center is located on Fifth Avenue on the south side of campus across from Memorial Student Center. Completed in 1992, the facility was named to honor Joan C. Edwards, a Huntington philanthropist and patroness of the arts. The facility includes performance and support space for a 530-seat theater auditorium, an experimental theater, and rehearsal rooms.

Joan C. Edwards Stadium, built in 1991, is located at the corner of 20th Street and Third Avenue on the eastern end of campus. The 38,000-seat stadium has an artificial playing surface of 53,147 square feet, and houses luxury boxes, coaches' boxes, a working press area, and a Big Green meeting room. On the east side of the stadium is a 129,000 square foot grass practice field.

Jomie Jazz Center, at the east side of the Edwards Performing Arts Center, was completed in 2000. Named for Joan and Jimmie Edwards, supporters of Marshall University and the fine arts, it houses the jazz studies program (School of Music) and the offices of the Marshall Artists Series. The building features a state-of-the-art digital recording studio, a music computer laboratory with digital workstations, and the Jazz Forum, an intimate performance space.

Joseph M. Gillette Welcome Center, relocated in 2007, is located on Fifth Avenue at 16th Street on the southwest side of campus, opposite Corbly Hall. Home of the Office of Recruitment, the Gillette Welcome Center is the first stop for prospective students to obtain information about the university and its many academic programs. Daily information sessions and campus tours begin in the Welcome Center.

Laidley Hall, located on the corner of 3rd Avenue and 18th Street, was formerly a residence hall.

Marshall Commons opened in the fall of 2003. The five-building complex is located on Fifth Avenue, east of the Jomie Jazz Center. The four residence halls in the complex are identical, contemporary buildings with accommodations for approximately 480 students in suite-style arrangements. All are co-ed residences; Willis Hall is designated for Honors students. Haymaker is designated as an upper-class hall for juniors and seniors and is home to the Greek Living-Learning Community. Wellman Hall is home to the Health Professions Living-Learning Community. The Commons are also home to one of our Faculty-In-Residence. Each hall has laundry facilities, recreation rooms, lounges, and is fully wired for each student's computer connections. Harless Dining Hall, which opened in January 2004, has a capacity to seat 340 students and includes a meeting room as well.

Marshall Recreation Center, a 123,000-square-foot facility, contains 4 wood gym courts for basketball, volleyball, badminton, pickle ball and dodge ball; a 37' climbing wall with bouldering area; outdoor pursuits center with rental equipment area; aquatics center with 3 lap swim lanes, leisure pool, vortex pool and 20 person spa; men's and women's locker rooms; family changing areas with lockers; 17,000 square feet of fitness space on the second and third floor with free weights, selectorized machines with LCD televisions; 4 group exercise rooms; a 3 lane 1/7th mile walking/jogging/running track; massage area; fitness assessment room; juice bar; a Wellness Center, lounge areas and staff offices. Immediately east of the pool is an outdoor, fenced area for sunning and relaxing. The entire facility is accessible for persons with disabilities. The Rec Center is also the largest student employer on campus. For additional information refer to the website at www.marshallcampusrec.com (http://www.marshallcampusrec.com).

Marshall University Medical Center, located at 1600 Medical Center Drive several blocks south of the main campus and adjacent to Cabell Huntington Hospital, opened in 1998 as the new home of the Joan C. Edwards School of Medicine. It is a dual complex composed of the Robert C. Byrd Center for Rural Health (honoring U. S. Senator Byrd) and the University Physicians Center. The four-floor structure houses the departments of Psychiatry & Behavioral Medicine,

Internal Medicine, Family Practice, Surgery, Pediatrics, and Obstetrics/Gynecology. The facility also includes the outpatient Hanshaw Geriatric Center (named for Frank E. Hanshaw, Sr., a founder and first president of the Marshall University Foundation), Cardiovascular Services, a Health Science Library, offices for the School of Medicine, and an auditorium and teleconference center.

Memorial Student Center, located on Fifth Avenue on the south side of campus, was completed in 1971. Its name commemorates the loss of the entire Marshall football team in a 1970 plane crash. On the campus side a plaza is centered by a fountain designed by sculptor Harry Bertoia with points at the top that represent those lives lost in the crash. The building houses offices of Student Government, Student Activities, the LEAD Center, the Wellness Center, Student Affairs, West Virginia Army National Guard, Food Service and the commuter lounge. It includes a large central lounge, study areas, food court, restaurant, coffee shop, recreation area, information desk, and meeting and conference rooms. Memorial Student Center also houses the **University Bookstore**, which was renovated and enlarged in 1998.

Morrow Library, named for James E. Morrow, head of Marshall College from 1872-1873, is located on Third Avenue and was constructed in 1930 with an addition completed in 1967 that doubled the library size to over 100,000 square feet. Drinko Library opened in 1998 as the university's primary library facility, and Morrow Library now houses a mix of library and university functions. The library facilities include the Archives & Special Collections department which includes the university archives that relate to the history of Marshall; the West Virginia and regional history book collection; West Virginia state documents; manuscript collections of local and regional interest; the Rosanna Blake Library of Confederate History, which includes resources on antebellum Southern history; as well as the Morrow Stacks (general books and periodicals). Library services also include Government Documents, a federal depository for government materials with a collection of over one million items. In addition to library services, the building houses the Department of Computer and Information Technology's instructional and computer laboratories, faculty offices and "learning commons." Morrow is also home to the Appalachian Studies Association office and the Testing Center.

Myers Hall, completed in 1992 on 18th Street at the east end of campus, was named to honor Wilbur E. Myers, who contributed most of the private funds used to build and furnish the facility. The structure houses the nationally recognized Higher Education for Learning Problems (H.E.L.P.) Center, which provides services for those college students diagnosed as having learning disabilities such as dyslexia or attention deficiency disorder.

Old Main, Marshall University's administrative building, faces Hal Greer Boulevard and Fourth Avenue on the west side of campus. The oldest building at Marshall University, Old Main is actually five buildings joined together in a series of additions constructed between the years 1868 and 1908. Its towers have become the symbol of the university to alumni. Old Main houses the principal administrative offices of the university and the offices of the College of Liberal Arts, the Women and Gender Center, and the Center for Teaching and Learning. On the second floor is the John Deaver Drinko Academy, named for a graduate and supporter of the university, and the Center for Academic Excellence, which houses the Honors College.

One Room School Museum, located on Fifth Avenue near the Memorial Student Center, was a former one-room school dating from 1889 in Cabell County. It was moved to the Huntington campus and dedicated in 1995 to honor West Virginia's rural education heritage.

Prichard Hall, situated in the eastern mid-part of the inner campus, was completed in 1955 and named in honor of Lucy Prichard, a distinguished professor of classics and faculty leader during the 1920's and 30's. Formerly a residence hall, this four-story structure was renovated in 1973 and now houses the classrooms of the College of Health Professions, as well as Disability Services, the Student Counseling Center, Student Support Services.

Robert C. Byrd Biotechnology Science Center, opened in 2006 and is named for the late Robert C. Byrd, U.S. Senator (D) representing West Virginia. Federal, state, and private funding supported the construction and equipping of the $48 million, 144,000-square-foot center. This state-of-the-art research and educational facility is located on Third Avenue across from the Science Building. It is designed to facilitate interdisciplinary research between the College of Science and School of Medicine. Fostering this interaction is a 285-ft., over-the-street walkway connecting the Biotechnology Science Center with Marshall's Science Building.

Science Building, located on Third Avenue on the north side of campus, was completed in 1942 and expanded in 1985 and 1995. The facility houses administration, offices, classrooms and laboratories of the College of Science. In addition the Science Building includes laboratories and offices of the Clinical Laboratory Services department, a greenhouse, and a chemical storage building on the east side.

Smith Hall complex includes **Smith Hall**, **Smith Music Hall**, and the **Communications Building**.

Smith Hall, a seven-story structure on Third Avenue at the northwest corner of campus, opened in 1967 and was named in honor of Stewart H. Smith, President of Marshall University from 1946 to 1968. It houses the departments of art, communication disorders, communication studies, criminal justice, mathematics, modern languages, political science, sociology and anthropology, as well as the offices of the College of Arts and Media, and the Birke Art Gallery. The structure has an 84-car parking garage in the lower level.

Smith Music Hall, at the northwest corner of campus and part of the Smith Hall complex, was opened in 1967. Named to honor Evelyn Hollberg Smith, whose husband served as President of Marshall University from 1946 to 1968, the facility is home to the music program. It contains classrooms, faculty studios, practice rooms, a listening laboratory, a 490-seat recital hall, and rehearsal facilities for vocal and instrumental performances of both individuals and group ensembles.

The **Communications Building** houses the School of Journalism and Mass Communications, as well as University College.

Sorrell Maintenance Building, named in honor of Howard K. Sorrell, who was a service engineer at Marshall University for 35 years, was constructed in 1965 on 20th Street at the eastern end of campus. It houses the departments of physical plant, facilities planning and management, and health and safety, in addition to supply rooms and storage facilities.

Twin Towers East and West, which opened in 1969, stand on Fifth Avenue on the southeast side of campus. These buildings are fifteen-story, co-ed residences. Quiet floors are available in Twin Towers West as well as the male Business and Science living-learning communities.

Twin Towers East houses a First Year Experience community, along with upper-class floors. Both buildings have living spaces on the second floors that are ADA accessible. A dining hall, renovated in the summer of 2011, connects the two towers. These residence halls provide Ethernet and wireless Internet access as well as study lounges, classrooms and common area space for student use.

Other Huntington Locations

The **Visual Arts Center**, located at 927 Third Avenue, houses all of the majors in the School of Art and Design except ceramics and sculpture, which are taught in the university's Art Warehouse.

Huntington's Kitchen, located at 911 Third Avenue, houses the Department of Dietetics of the College of Health Professions. It is a joint operation of Cabell Huntington Hospital and Marshall University.

Robert C. Byrd Institute for Advanced Flexible Manufacturing, envisioned by the late U.S. Senator for whom it was named, provides technical, hands-on assistance with state-of-the-art capabilities for small and medium-sized manufacturers. Since opening in 1991 on Fourth Avenue in downtown Huntington, the RCBI has expanded its operations through four additional manufacturing technology centers in strategic locations around the state.

South Charleston Campus

Administration Building houses the admission office, classrooms (including an electronic classroom), and two computer labs, in addition to offices for faculty and staff.

Robert C. Byrd Academic and Technology Center is named for the late U.S. Senator Byrd in recognition of his efforts on behalf of education in West Virginia. The facility contains thirteen classrooms and the Robert C. Byrd Institute for Advanced Flexible Manufacturing. On the first floor it also houses the South Charleston Campus Library, which holds a core collection of books and journals that support the undergraduate and graduate programs offered on that campus. Access to all Marshall Libraries' electronic resources is available, along with a professional staff to assist students and faculty with their research needs. Individual and group study rooms are available for student use. Marshall IDs are taken in the library, and the staff also proctors the Miller Analogies Test.

Admissions

Office of Admissions

One John Marshall Drive
Huntington, West Virginia 25755
Telephone 1-800-642-3499 or 1-304-696-3160
admissions@marshall.edu
www.marshall.edu/admissions (http://www.marshall.edu/admissions/)

General Admission Information

Students applying for admission to Marshall University must submit an application form available from the Office of Admissions or apply online. **All applications for admission or re-admission must be submitted to the Office of Admissions, along with all required credentials, at least two weeks prior to the start Eof a term.** Applications that are submitted after this deadline or that are not complete by this deadline may not be evaluated in time for applicants to register for the current term. **Applicants who apply late or who fail to ensure that their application files are complete at least two weeks prior to the start of a term must recognize that admission may be deferred to a future term and assume all responsibility for failure to complete the application process by the stated deadline.**

All materials and credentials submitted to the Office of Admissions become the property of Marshall University. Materials and credentials will not be returned or released to third parties. **Any student admitted on the basis of false and/or incomplete information is subject to immediate dismissal or other disciplinary action.**

Prospective students can request information, complete the online application, or access additional resources at www.marshall.edu/admissions (http://www.marshall.edu/admissions/). For specific admission requirements for each student type, please see the appropriate section below.

Admission to the university does not guarantee admission to any particular college or degree program. Students must meet the requirements of the academic college they wish to enter, or of the degree program sought. Check individual college program listings for details.

Admission to Marshall University is granted for a specific term only. Applicants who fail to register during the term for which they are admitted may contact the Office of Admissions and request an extension of acceptance for up to one academic year. An applicant who attends another accepted, accredited college or university during that time must re-apply as a transfer student. Appeals of the admission decision will be granted on a very limited basis at the discretion of the Admission Appeals Committee when extenuating circumstances exist. The student must show great potential for success, provide a plan for improving academic performance, and submit documentation of all extenuating circumstances. For more information on submitting an appeal, please contact the Office of Admissions.

A housing reservation, scholarship award, or grant-in-aid is contingent upon admission to Marshall University. Admission to the university does not guarantee housing. All students must be fully admitted to re-enroll for succeeding terms. An admitted applicant can visit www.marshall.edu/newstudentchecklist (http://www.marshall.edu/newstudentchecklist/) for information regarding all steps in the enrollment process.

An **enrollment deposit** is due before a new student can register for courses, New Student Orientation, or housing. The enrollment deposit, the entire amount of which will be applied to the student's first semester tuition and fees, is fully refundable through May 1 for the fall semester and through December 1 for the spring semester. For more information, contact the Office of the Bursar at www.marshall.edu/bursar (http://www.marshall.edu/bursar/).

Compliance with Military Selective Service Act

State law provides that a male person who has attained the age of eighteen (18) years may not enroll in a state-supported institution of postsecondary education unless he is in compliance with the Military Selective Service Act (50 U.S. Code, Appendix 451, et. eq. and the amendments thereto). Also, a male person may not receive a loan, grant, scholarship, or other financial assistance for postsecondary higher education funded by state revenue, including federal funds or gifts and grants accepted by this state, or receive a student loan

guaranteed by the state unless he is in compliance with the Military Selective Service Act.

Application Fees

All new domestic undergraduate students applying to Marshall University must pay a $40 application fee. Once the $40 application fee has been paid, no additional application fee is required for subsequent undergraduate applications.

In lieu of the application fee, transfer students must pay a $50 transfer evaluation fee. Transfer evaluation fees are valid for one academic year only.

International applicants are required to submit a non-refundable $150US application fee that is valid for one academic year. International transfer students must submit the $150US application fee and $50US transfer evaluation fee.

Freshmen

Application Procedures for Freshmen and Non-Transfer Students

High School Graduates

General Requirements

1. A high school diploma (official transcript with graduation date required); applicants must be beyond the age of compulsory school attendance in West Virginia.
2. An overall Grade Point Average of 2.00 on a 4.00 scale and an ACT Composite score of 19 or SAT Total Score[1] of 990 or an overall Grade Point Average of 3.00 on a 4.00 scale and an ACT Composite of 16 or SAT Total Score[1] of 880 is required for regular freshman admission. Majors within the College of Engineering and Computer Sciences have additional requirements for admission. Please consult the current undergraduate academic catalog for specific information regarding requirements.
3. **Recommended** completion of Higher Education Policy Commission (HEPC) academic core unit requirements:
   - 4 units of English (including English 12CR and courses in grammar, composition, and literature)
   - 4 units of mathematics (three units must be Algebra I and higher or Math I or higher; Transitional Math for Seniors will also be accepted). Courses designed as "support courses", such as Math I Lab or Math I Support, that provide extra instructional time but no additional content shall not be acceptable as meeting the required 4 mathematics course core requirements.
   - 3 units of social studies (including U.S. studies/history)
   - 3 units of science (all units must be college-preparatory laboratory science, preferably including units from biology, chemistry, and physics)
   - 2 units of world language (two units of the same world language; sign language is also acceptable)
   - 1 unit of arts

Students seeking admission to four-year degree programs must earn credit for the courses listed above.

Applicants who have not completed the HEPC course requirements may be admitted, but must complete commensurate college-level coursework prior to degree completion. Please consult an academic advisor for specific course requirements.

First-time freshmen pursuing a four-year baccalaureate degree who meet all admission requirements will be admitted unconditionally.

A very limited number of students who do not meet the GPA, ACT/SAT, or Higher Education Policy Commission general requirements for admission may be admitted conditionally to University College and must enroll on the Huntington campus. Under the terms of the admissions policy, only a limited number of conditionally admitted students will be permitted to enroll at Marshall. For specific requirements for conditionally admitted students, see "Conditional Admission." Students who do not meet the general or conditional requirements may appeal the decision through the Admission Appeals Committee.

Required Application Materials

1. Completed application for admission.
2. A non-refundable application fee of $40.
3. An official, final transcript, including graduation date, sent directly from the student's high school to the Marshall University Office of Admissions.
4. Official college transcript sent to the Marshall University Office of Admissions directly from the college or university if a student has completed non-Marshall college course(s) while in high school or in summer school.
5. American College Test (ACT) or Scholastic Aptitude Test (SAT) scores sent directly from the testing agency. The Higher Education Policy Commission requires that all freshmen submit the American College Test (ACT) or Scholastic Aptitude Test (SAT) scores except applicants who graduated from high school five years or more ago. Students who are admitted without ACT or SAT scores by meeting other eligibility requirements should consult their academic advisors about meeting prerequisites for math and English courses. ACT or SAT test scores are used in placing students in English and mathematics, for scholarship applications, for academic counseling, for determining eligibility for certain degree programs, and in part to meet NCAA athletic eligibility requirements.[1]
6. A valid immunization record including measles and rubella vaccinations (or MMR) and all other required vaccinations or screenings. Students must provide proof of immunity before or during the first semester of enrollment or they will not be permitted to enroll in subsequent terms. Students born prior to January 1, 1957 are exempt from the measles and rubella (or MMR) immunization requirement.

Conditional Admission of Freshman Students

Marshall University offers admission to a limited number of students who do not meet freshman admission requirements. These students are admitted conditionally to University College and must complete all requirements within three semesters.

Requirements include:

- For students having Verbal ACT scores of less than 18 or SAT ERW 480, successful completion of required corequisite English course.
- Successful completion of academic support class (UNI 100 Freshman First Class).
- Completion of 18 earned hours with a 2.00 GPA (cumulative and MU) *or* 15 or more earned hours with a 3.00 or better during first semester as a conditionally admitted student.

Upon completion of the requirements, the student may transfer into any major/college for which s/he is eligible. Some majors and colleges require separate applications and have additional requirements for admission into their programs.

Provisional Admission of Freshman Students

Students who have met minimum admission requirements but who are unable to provide one or more of certain required application materials may be admitted provisionally in some instances. Freshman students may be provisionally admitted to the university for one semester only with the following minimum documentation:

1. Completed application for admission with $40 application fee;
2. Preliminary high school transcript or passing score on designated state high school equivalency diploma exam;
3. American College Test (ACT) or Scholastic Aptitude Test (SAT) exams with minimum required scores.[2]

Freshman students will be fully admitted to the university and will be eligible to register for succeeding terms when all admission requirements have been met and all required materials have been received.

A student who attends another collegiate institution during the summer session immediately following graduation from high school is admitted as an entering freshman with advanced standing.

[1] SAT (CR+M) of 900 prior to March 2016 is equivalent to an SAT Total Score of 990; an SAT (CR+M) of 770 prior to March 2016 is equivalent to an SAT Total Score of 880.

[2] Students who graduated from high school five years or more ago are not required to take the ACT or SAT exam except for admission into the College of Engineering and Computer Sciences. Students who are admitted without ACT or SAT scores by meeting other eligibility requirements should consult their academic advisors about meeting prerequisites for math and English courses.

High-School Equivalency Diploma (GED, HiSET, TASC) Recipients

A student holding a high school equivalency diploma may be admitted to Marshall University if s/he passes the TASC (Test Assessing Secondary Completion) with a score of at least 500 on each of the five subtests or passes the GED (General Education Development Test) with scores considered acceptable for admission. The HiSET exam is also accepted, and students must pass the HiSET with a total scaled score of at least 45. Applicants for admission who have held the high school equivalency diploma for at least five years subsequent to the graduation date of their high school class are not required to submit ACT or SAT scores except if applying to the College of Engineering and Computer Sciences. Applicants holding the high school equivalency diploma for fewer than five years subsequent to the graduation date of their high school class must submit ACT or SAT scores for admission. A limited number of students who do not meet high school equivalency test and ACT/SAT requirements may be admitted to University College at the discretion of the Admission Appeals Committee (see Conditional Admission). Students holding a high school equivalency diploma may not enroll at Marshall University prior to the graduation date of their high school class.

High School Equivalency Diploma Admission Requirements

1. Applicants for high school equivalency diploma admission must be beyond the age and time of their regular high school graduating class.
2. Applicants must have official high school equivalency test scores sent directly from the state testing center or state department of education.
3. Applicants who completed the high school equivalency test in the Armed Forces can have an official copy of their scores forwarded to the Office of Admissions. More information is available online at www.dantes.doded.mil (http://www.dantes.doded.mil).
4. A high school equivalency diploma recipient is admitted on the basis of obtaining high school equivalency test scores considered acceptable for admission to Marshall University. Please contact the Office of Admissions for more specific acceptable high school equivalency test score requirements. No course credit is granted for completion of a high school equivalency diploma.

Early High School Completers

If a high school student has met all high school graduation requirements by the end of the fall semester of the senior year, s/he may be provisionally admitted for the spring semester of the senior year under the following conditions:

1. All general freshman admission requirements are met;
2. High school counselor must submit a letter indicating that the student has met all high school graduation requirements but will not receive a diploma until her/his graduating class receives the diploma;
3. Registration will be permitted for one term only. Students will not be permitted to register for subsequent terms until final high school transcript with graduation date has been received.

Students who cannot provide the aforementioned documentation may apply as an Early Admission student (see Early Admission Options section). **Early High School Completers and Early Admission students are not eligible for financial aid and may not reside on campus.**

Transfer Students

Application Procedures for Transfer Students

A high school graduate or high school equivalency diploma recipient who wishes to enroll at Marshall University and who has attempted coursework from another accepted, accredited college or university is classified as a transfer student. Marshall University does not at any time or under any condition disregard college or university credits attempted or earned at accepted, accredited institutions for the purpose of admission. Any student admitted on the basis of false and/or incomplete information is subject to immediate dismissal or other disciplinary action.

General Admission Requirements

All transfer students must be eligible to return to the institution they most recently attended.

In addition, transfer students who have fewer than 30 earned semester hours must meet one of the following criteria:

- Must meet the current freshman admission standards

or

- Have earned 12 graded college-level semester hours while maintaining a 2.00 cumulative college GPA.

Transfer students who do not meet either of these requirements may appeal the decision through the Admission Appeals Committee. Transfer students admitted with a cumulative GPA below 2.00 are on academic probation and are eligible to register for a limited number of credit hours. Please contact the appropriate dean's office for specific guidelines.

Admission to Marshall University does not guarantee admission to specific academic programs. Students must meet all requirements of an academic program in order to be admitted to that program.

Required Application Materials:

1. Completed application for admission. (The application must be complete before transfer students can be considered for admission to the university.)
2. A non-refundable transfer evaluation fee of $50.
3. Official transcripts from the Registrar's Office of all accepted, accredited institutions attended must be sent directly to the Marshall Office of Admissions. (Faxed transcripts, transcripts marked "Issued to Student," transcripts issued to any third party, or transcripts submitted directly by students cannot be accepted.)
4. Transfer applicants with fewer than 30 earned semester hours must also submit an official high school transcript with graduation date.
5. American College Test (ACT) or Scholastic Aptitude Test (SAT) scores sent directly from the testing center. The Higher Education Policy Commission requires that all freshmen submit the American College Test (ACT), or Scholastic Aptitude Test (SAT) scores except applicants who graduated from high school five years or more ago. Students who are admitted without ACT or SAT scores by meeting other eligibility requirements should consult their academic advisors about meeting prerequisites for math and English courses. ACT or SAT test scores are used in placing students in English and mathematics, for awarding scholarships, for academic counseling, for determining eligibility for certain degree programs, and in part to meet NCAA athletic eligibility requirements.[1]
6. A valid immunization record including measles and rubella vaccinations (or MMR) and all other required vaccinations or screenings. Students must provide proof of immunity before or during the first semester of enrollment or they will not be permitted to enroll in subsequent terms. Students born prior to January 1, 1957 are exempt from the measles and rubella (or MMR) immunization requirement.

[1] Students who graduated from high school five years or more ago are not required to take the ACT or SAT exam except for admission into the College of Engineering and Computer Sciences. Students who are admitted without ACT or SAT scores by meeting other eligibility requirements should consult their academic advisors about meeting prerequisites for math and English courses.

Evaluation of Credit

Transfer Students from West Virginia State Colleges or Universities:

Credits and grades earned for all baccalaureate level courses at any accredited baccalaureate degree-granting institution in the West Virginia state-supported system of higher education are transferable to Marshall University.

Transfer Students from Community Colleges or Branch Colleges:

Seventy-two hours of credits and grades completed at community colleges or branch colleges may be applied toward graduation at Marshall University.

Evaluation of Transfer Credit

Transfer students should apply to Marshall University and submit their credentials at least one month before course registration to allow ample time for an evaluation of their credits.

All materials and credentials submitted to the Office of Admissions become the property of Marshall University and will not be returned or released to third parties.

Marshall University accepts all transferable coursework from accepted, accredited institutions. Coursework taken at another accepted, accredited institution transfers at the level at which it was taken. This is something important to consider since Marshall students must have a minimum number of upper division credits (300/400 level credit), determined by their college, in order to graduate. For example, if a student takes CHM 230, Organic Chemistry I, at another institution, that course will convert to CHM 355 Organic Chemistry I at Marshall; however, those credits will count as lower division (100- to 200-level credits), since the original course was taken at the 200 level.

Grades earned for coursework taken at other institutions are calculated in the overall GPA (includes courses taken at Marshall University and other institutions), but have no impact on the Marshall GPA (includes only Marshall University coursework), except for D/F repeats.

The Core Curriculum (see additional information under "Academic Information") applies to transfer students. Students who believe they may have taken coursework at other institutions that would satisfy part of the Core Curriculum should submit documentation (course syllabi, catalog descriptions) to their dean's office for review by the appropriate committee.

Appeal of Denial of Transfer Credit, or Course Equivalency Determination, or Course Substitution

Students may appeal decisions on how transfer credits are evaluated.

The MU Office of Admissions determines transferability of credits and course equivalency at the time of admission. Once admitted, if a student believes the proper equivalent credit has not been awarded, the student should request, in writing, an explanation of credit denial from the Office of Admissions. This initial step must be taken within thirty (30) days of receipt of the transfer credit evaluation or within ten (10) instructional days of the beginning of the student's matriculating term, whichever comes first. The Office of Admissions will review the

request for technical errors and issue a written response within ten (10) days.

The college in which the student's degree program is housed determines course substitutions. After receiving the transfer credit evaluation from the Office of Admissions, the student should meet with an academic advisor in the student's degree program to determine the extent to which transferred credits and course equivalencies meet specific degree requirements. At this point, the advisor may make certain additional course substitutions per the policies of the college that houses the student's degree program.

If the student is not satisfied with the determinations in Step 2 regarding course substitutions, the student may initiate a formal appeal, in writing, to the dean of the academic college in which the student is admitted. The appeal must include applicable syllabi and other supporting documents and must be submitted within thirty (30) days of the beginning of the student's matriculating term.

If a course substitution is not granted by the dean, the student may appeal the decision to the West Virginia Higher Education Policy Commission, in writing, within ten (10) days of the issuance of the dean's decision. The Commission will review the entire case, including both course equivalencies and course substitutions, and issue a recommendation to the Provost and Senior Vice President for Academic Affairs at Marshall University, who shall then render the final decision.

Provisional Admission of Transfer Students

Transfer students may be provisionally admitted to Marshall University for one semester only with the following minimum documentation:

1. Completed application for admission with $50 transfer evaluation fee;
2. Official college transcripts from all accepted, accredited colleges and universities attended. Applicants currently attending another institution may be provisionally admitted with a current, official transcript of credit earned and courses in progress, pending receipt of an official, final transcript from the current institution with all grades from the final semester of attendance.
3. To be considered for admission, transfer applicants who have earned fewer than 30 semester hours from accepted, accredited institution(s) must have an official final high school transcript with graduation date or high school equivalency test scores mailed directly to the Office of Admissions from the high school, state testing center or state department of education.
4. To be considered for admission, transfer applicants who have earned fewer than 30 semester hours from accepted, accredited institution(s) must have official ACT/SAT scores sent directly to the Office of Admissions from the respective testing agency.

Transfer students will be fully admitted to the university and will be eligible to register for succeeding terms when all requirements have been met and all required documentation has been received.

Early Admission Options

Marshall University offers a variety of early admission options. Students may apply to attend Marshall University on either a full- or part-time basis prior to graduating from high school. Early enrollment students are subject to the same policies as other Marshall University students, including academic probation and suspension policies.

Students who enroll at Marshall University prior to high school graduation are not eligible for freshman admission, financial aid, or on-campus housing. For admission to Marshall as an Early Admission student, applicants must meet the requirements listed below. Students with an exceptional talent in a discipline such as music may request permission to enroll in coursework in that discipline.

Please note that students who have taken college courses during high school under any of these options and plan to later apply for admission to Marshall University must meet all Marshall University admission standards described elsewhere in this catalog.

Early Admission to Marshall University: Prior to the Junior Year of High School

- Be currently enrolled in high school or a home-school program.
- Completed admission application.
- [ACT Composite = 24, SAT Total Score = 1160]. If the ACT or SAT has not been taken, a score at the 90th percentile or higher on another nationally normed standardized test that provides evidence of the ability to succeed at the college level is required.
- A current high school transcript reflecting a cumulative minimum GPA of 3.00 on a 4.00 scale.
- One letter of recommendation from a counselor or principal.
- Maintain a 2.00 GPA in all college courses.
- To take English or math courses, a student must have a qualifying ACT / SAT score in the subject area.

Early Admission: Junior or Senior Year of High School

- Be currently enrolled in high school or a home-school program.
- Completed admission application.
- A current high school transcript reflecting a cumulative minimum GPA of 3.00 on a 4.00 scale.
- One letter of recommendation from a counselor or principal.
- Maintain a 2.00 GPA in all college courses.
- To take English or math courses, a student must have a qualifying ACT / SAT score in the subject area.

Early Admission: International

International students applying for early admission must meet all early admission requirements listed above. If attending a non-U.S. school, all credentials must be in original language with a certified English translation. In addition, international early admission applicants must meet the English proficiency requirement. Please see Proof of English Language Proficiency in the International Students section that follows.

Resident Aliens

Resident Aliens must submit a copy of a valid resident alien card and meet all relevant freshman or transfer student admission requirements.

International Students

Proof of English Language Proficiency

All applicants, regardless of citizenship, must provide proof of English Language Proficiency to be considered for admission to Marshall University. Minimum standardized exam scores for undergraduate English proficiency are listed below. If one or more of the exemption

criteria is met, applicants may be considered exempt from providing standardized exam scores for proof of English proficiency.

Exam Requirements
-TOEFL iBT: 61
-IELTS: 6.0
-Duolingo: 90
-ACT: 18 English/Reading
-SAT: 480 ERW
-Cambridge English: 169
-MELAB: 79%
-PTEA: 50

Exam Exemptions
-Transfer credit equivalent to ENG 101 Beginning Composition from an accepted, accredited institution with a grade of *C* or better.
-Successful completion of an approved ESL program (i.e., Marshall University English Language Institute).
-Completion of the equivalent to a U.S. high school diploma or U.S. post-secondary degree from an accepted, accredited institution in an approved country where the primary language is English. To view the current list of approved countries, please visit: https://www.marshall.edu/admissions/approved-list-of-countries-for-english-proficiency-exemption/.

Students who do not meet minimum English proficiency requirements may apply to the Marshall University English Language Institute (see English Language Institute section).

Proof of Financial Support

All admitted students who need to obtain Form I-20 or DS-2019 to study in the United States will receive an e-mail from the Office of International Student Services with a list of items needed to issue the Form I-20 or DS-2019, which includes proof that they have secured finances to support their study and living costs for one year (12 months) or the duration of the program, whichever is shortest. Proof of Financial Support is required for each program of study and must be no older than 6 months. To provide Proof of Financial Support, students must submit the following:

- Financial Certification Form
- Affidavit of Support (if personally or individually sponsored)
- Supporting financial documentation for all sources of funding (i.e., bank statement(s), scholarship award letter(s), etc.)

For additional information, including minimum funding amounts, please visit: https://www.marshall.edu/iss/financialinfo/.

Proof of Health Insurance

All F-1 and J-1 international students are required to provide proof of health insurance prior to registration for each term at Marshall University. For more information, please visit http://www.marshall.edu/iss (http://www.marshall.edu/iss/).

International Freshmen

Application Procedures for International Freshmen and International Non-Transfer Students

High School Graduates

General Admission Requirements:

1. Equivalence of a U.S. high school diploma.
2. An Overall Grade Point Average of at least 2.00 on a 4.00 scale.
3. Proof of English proficiency (see Proof of English Proficiency section).

*ACT/SAT scores may be required for admission to certain programs.

Required Application Materials:

1. Completed application for admission including the required international application fee.
2. High school record:
   - *Non-U.S. high school* – official, final secondary transcripts and proof of secondary school completion, or examination results (if completing secondary school in a final examination school system). Credentials must be in the original language of issue, along with a certified English translation, and must be submitted directly to the Marshall University Office of Admissions by the secondary school records office or official, or directly by the examination board for external examinations.
   - *U.S. high school* – official, final transcript, including graduation date, sent directly from the student's high school to the Marshall University Office of Admissions.
3. College record:
   - *Non-U.S. college* – official college transcript of courses taken while in high school or as part of high school completion, including all courses taken and grades earned, in the original language of issue, along with a certified English translation, sent directly to the Marshall University Office of Admissions by the designated school official at the school you attended.
   - *U.S. college* – official college transcript sent to the Marshall University Office of Admissions directly from the college or university if a student has enrolled in a non-Marshall college course while in high school or in summer school.
4. A valid immunization record including measles and rubella vaccinations (or MMR) and all other required vaccinations or screenings. Students must provide proof of immunity before or during the first semester of enrollment or they will not be permitted to enroll in subsequent terms. Students born prior to January 1, 1957 are exempt from the measles and rubella (or MMR) immunization requirement.
5. Proof of English proficiency (see Proof of English Proficiency section).

International Transfer Students

Application Procedures for Transfer Students

A high school graduate or a high school equivalency diploma recipient who wishes to enroll at Marshall University and who has attempted coursework from another accepted, accredited college or university is classified as a transfer student. Marshall University does not at any time or under any condition disregard college or university credits attempted or earned at accepted, accredited institutions for the purpose of admission. Any student admitted on the basis of false and/or incomplete information is subject to immediate dismissal or other disciplinary action.

General Admission Requirements:

All transfer students must be eligible to return to the institution they most recently attended while maintaining a 2.00 transfer GPA.

In addition, transfer students who have fewer than 30 earned semester hours must meet the international freshman admission standards (see International Freshmen section).

Admission to Marshall University does not guarantee admission to specific academic programs. Students must meet all requirements of an academic program in order to be admitted to that program.

Required Application Materials:

1. Completed undergraduate application for international admission.
2. A non-refundable international application fee and nonrefundable transfer evaluation fee.
3. College records:
   - *Non-U.S. college* – official college transcripts(s) of all college coursework taken after high school graduation and for college coursework taken in high school or as part of high school completion in the original language of issue, along with a certified translation in English, sent directly to the Marshall University Office of Admissions by the designated school official at the institution you attended.
   - *U.S. college* – official transcripts from the Registrar's Office of all accepted, accredited institutions attended must be sent directly to the Marshall Office of Admissions. (Faxed transcripts, transcripts marked "Issued to Student," transcripts issued to any third party, or transcripts submitted directly by students cannot be accepted.)
4. High school record (if student has earned fewer than 30 college-level semester hours):
   - *Non-U.S. high school* – official, final secondary transcripts and proof of secondary school completion, or examination results (if completing secondary school in a final examination school system). Credentials must be in the original language of issue, along with a certified English translation, and must be submitted directly to the Marshall University Office of Admissions by the secondary school records office or official, or directly by the examination board for external examinations.
   - *U.S. high school* – official, final transcript, including graduation date, sent directly from the student's high school to the Marshall University Office of Admissions.
5. A valid immunization record including measles and rubella vaccinations (or MMR) and all other required vaccinations or screenings. Students must provide proof of immunity before or during the first semester of enrollment or they will not be permitted to enroll in subsequent terms. Students born prior to January 1, 1957 are exempt from the measles and rubella (or MMR) immunization requirement.
6. Proof of English proficiency (see Proof of English Proficiency section).

College Graduates

Application Procedures for College Graduates

Second Baccalaureate Degree

An applicant who wishes to pursue a second baccalaureate degree after completion of the first degree may earn another baccalaureate degree by:

- meeting requirements for admission as a transfer student (see Transfer Students section);
- completing all of the major and minor requirements for the desired degree;
- completing a minimum of 30 additional hours beyond the 120 minimum hours required for the first baccalaureate degree;
- meeting the minimum residency requirement of 24 credit hours.

Special Students

Applicants who hold a baccalaureate degree from an accepted, accredited institution but do not wish to pursue a second baccalaureate degree may enroll for undergraduate courses (for prerequisites, certification, etc.) by submitting:

- a completed application with $40 application fee;
- official college transcript that shows receipt of an earned baccalaureate degree. Official transcript must be sent by the registrar's office of the awarding institution directly to the Office of Admissions. Special students cannot earn a degree, will not be awarded transfer credit, and are not eligible for financial aid.

Transient (Visiting) Students

Application Procedures for Transient (Visiting) Students

Students Visiting Marshall University from Other Institutions

Students who are enrolled in degree programs at other accepted, accredited institutions and would like to take courses at Marshall University for transfer credit at their home institutions can be admitted as transient students. Transient students must complete a new application for each term they wish to attend Marshall University. Applicants must have been enrolled at their home institutions within the previous academic year, and can enroll at Marshall University for no more than two consecutive semesters.

To be admitted as a transient, a student must provide:

- A completed application with the $40 application fee;
- A letter of good academic standing sent to the Marshall University Office of Admissions from the registrar's office of the home institution.

Marshall University Students Who Wish to Visit Other Institutions

Current degree-seeking Marshall University students who wish to enroll at another institution as a visiting student must complete the "Transient Course Approval Form" (available online at www.marshall.edu/admissions/forms (http://www.marshall.edu/admissions/forms/)) prior to enrolling at another institution. Students who fail to complete this online form prior to attending another institution may be required to apply as a transfer student and pay the $50 transfer evaluation fee.

A student who completes a "Transient Course Approval Form" must submit a transcript from the host institution to the MU Office of Admissions for each semester attended. If the student did not attend the host institution as requested, that institution must provide a statement of non-enrollment verifying that the student did not enroll at the host institution. The student will not be permitted to register for subsequent terms at Marshall University until either an official transcript or a statement of non-enrollment is received by the Office of Admissions.

Marshall University Students Enrolled in Study Abroad Programs

Students enrolled in Marshall University's Study Abroad Program must submit the Study Abroad approval form prior to enrolling at another institution. Students enrolled in the Study Abroad Program must meet the same requirements as all Marshall University students who wish to enroll at other institutions.

Part-Time Students

Part-time students are those enrolled for fewer than twelve hours a semester. They must meet all requirements relative to the admission category for which they are applying (Freshmen, High-School Equivalency Completers, Home-School, Early High School Graduates, Transfer, Early Entry, Dual Credit, International, College Graduates, Transient, and Non-Degree) regardless of the number of hours for which they intend to enroll.

Non-Degree Students

Applicants who are not pursuing any type of degree may enroll as non-degree students if they have been out of high school for more than five years and have no prior college work, or are 65 or older and wish to participate in the reduced tuition program for persons 65 and over as set forth in MU Board of Governors Policy AA-3. A student cannot earn more than 30 total hours while classified as non-degree, unless enrolled in the reduced tuition program. Credit taken as a non-degree student will not necessarily transfer in all degree programs. Non-degree students are not eligible to receive financial aid.

Applicants who wish to apply as regular non-degree seeking must submit a completed application with all appropriate fees. A regular non-degree student who decides to become degree-seeking must re-apply as the appropriate student type and provide all required documentation to be considered for admission. Before registering, regular non-degree students must obtain the permission of the dean of the college in which their intended course is offered.

Credit Options

Advanced Placement (AP) Examination

Marshall University recognizes certain examinations of the College Board Advanced Placement Program. Students who participate in the AP program and wish to have their scores evaluated for credit should have their official scores sent to Marshall University by selecting Marshall's code 5396 on the exam. To be evaluated for credit, official AP score reports must be sent directly to the Marshall University Office of Admissions from the College Board. AP examinations are prepared by the College Board, and the papers are graded by readers of the Educational Testing Service, Princeton, New Jersey 08540. Students cannot receive credit for a score below 3 on any exam. Students who do receive credit will be assigned the grade of CR which is not calculated into the GPA. All AP credit is counted as lower-division credit. See the following for required scores on specific exams.

International Baccalaureate

Marshall University recognizes examinations taken as part of the International Baccalaureate (IB) Program. Students who participate in the IB Program should have their scores sent directly to Marshall University from the IB testing program. Students will not receive credit for a score below 4 on any IB exam. All IB credit is counted as lower-division credit.

Following are the IB exams that will be considered for credit at Marshall University. Students will be awarded course equivalencies based on the score they are able to attain on the IB exam. Only Higher Level exams will be considered for credit.

College Level Examination Program

The College Level Examination Program (CLEP) enables students who can demonstrate knowledge and/or proficiency in certain fields to reduce the cost in time and money for pursuing a college education by successfully completing CLEP tests for credit.

Intensive reading in a particular field, on-the-job experience, or adult education may prepare a student to earn college credit through CLEP tests. This would reduce the total amount of coursework needed to complete degree programs. Scores on the test may also validate educational experience obtained at a non-accredited institution or through noncredit college courses. Credit completed through CLEP does not count as a part of the 18-hour limit under the Credit/Non-Credit Option. Credit earned through CLEP exams does not automatically satisfy specific academic requirements. Since colleges and departments have different curriculum requirements and may use the scores in different ways, students should consult first with their department or division chairs or their deans' offices regarding how the examinations would be used. Please call 304-696-2330 for more information or to schedule a CLEP exam.

On the following list are the CLEP exams that will be considered for credit:

CLEP Exams	Required Score	Marshall Equivalent	Credit Awarded
Algebra, College	50	MTH 130	3
Precalculus	50	MTH 132	5
Am. Government	50	PSC 104	3
Biology, General	50	BSC 104-BSC 105, BSC 104L, BSC 105L	8

Military Experience and Training Credit

Marshall University recognizes and awards college credit for military training and experience as outlined by American Council on Education recommendations. To receive credit, current students must have earned at least 12 semester hours at Marshall University with a cumulative GPA of 2.00 or higher. Qualifying veterans should request a copy of their Joint Services Transcript (JST) or Community College of the Air Force/Air University transcript(s) be mailed directly to the Office of Admissions from the issuing agency.

Army Commission Credit

Veterans should contact the Military Science Department if they are interested in receiving credit for military service and applying it toward receiving a commission as an Army officer.

Service Members Opportunity Colleges

Marshall University is an institutional member of Service Members Opportunity Colleges (SOC), a group of over 1500 colleges and universities providing postsecondary education to members of the military throughout the world. As an SOC member, Marshall recognizes the unique nature of the military and has committed itself to easing the transfer of relevant course credits, providing flexible academic residency requirements, and crediting learning from appropriate military training and experiences.

United States Marine Corps Platoon Leaders Class

Equivalent credit in Military Science may be awarded for successful completion of the Marine Corps Platoon Leaders Class. Students who have completed this class may apply at the Marshall University Department of Military Science Office for possible awarding of credit. For additional information on this class, write to:

United States Marine Corps
Officer Selection Office
641 Corporate Drive, Suite 104
Lexington, Kentucky 40503
Phone: (606) 223-2446.

West Virginia Residency

Requests for changes in residency status for new students will be evaluated by the Office of Admissions provided a completed

residency application with all required supporting documentation is submitted by the end of the first week of the term of admission. Contact admissions@marshall.edu for more information. Thereafter, all requests for changes in residency status for currently enrolled students will be evaluated by the Office of the Registrar for subsequent terms. Contact registrar@marshall.edu for more information.

TITLE 133
PROCEDURAL RULE
WEST VIRGINIA HIGHER EDUCATION POLICY COMMISSION

SERIES 25
RESIDENCY CLASSIFICATION FOR ADMISSION AND FEE PURPOSES

1.1. Scope. -- Rule regarding residency classification of students for admission and fee purposes. 1.2. Authority. -- West Virginia Code §§18B-10 and 18B-2B-6.
1.3. Filing Date. – March 11, 2019.
1.4. Effective Date. – April 11, 2019.
1.5. Repeal of Former Rule. -- Repeals and replaces Title 133, Series 25 which had an effective date of June 9, 2017.

§133-25-2. Classification for Admission and Fee Purposes.

2.1. Students enrolling in a West Virginia public institution of higher education shall be assigned a residency status for admission, tuition, and fee purposes by the institutional officer designated by the President. In determining residency classification, the issue is essentially one of domicile. In general, the domicile of a person is that person's true, fixed, permanent home and place of habitation. The decision shall be based upon information furnished by the student and all other relevant information. The designated officer is authorized to require such written documents, affidavits, verifications, or other evidence as is deemed necessary to establish the domicile of a student. The burden of establishing domicile for admission, tuition, and fee purposes is upon the student.

2.2. If there is a question as to domicile, the matter must be brought to the attention of the designated officer at least two (2) weeks prior to the deadline for the payment of tuition and fees. Any student found to have made a false or misleading statement concerning domicile shall be subject to institutional disciplinary action and will be charged the nonresident fees for each academic term theretofore attended.

2.3. The previous determination of a student's domiciliary status by one institution is not conclusive or binding when subsequently considered by another institution; however, assuming no change of facts, the prior judgment should be given strong consideration in the interest of consistency. Out-of-state students being assessed resident tuition and fees as a result of a reciprocity agreement may not transfer said reciprocity status to another public institution in West Virginia.

§133-25-3. Residence Determined by Domicile.

3.1. Domicile within the state means adoption of the state as the fixed permanent home and involves personal presence within the state with no intent on the part of the applicant or, in the case of a dependent student, the applicant's parent(s) to return to another state or country. Residing with relatives (other than parent(s)/legal guardian) does not, in and of itself, cause the student to attain domicile in this State for admission or fee payment purposes. West Virginia domicile may be established upon the completion of at least twelve (12) months of continued presence within the state prior to the date of registration: Provided, That such twelve (12) months' presence is not primarily for the purpose of attendance at any institution of higher education in West Virginia. Establishment of West Virginia domicile with less than twelve (12) months' presence prior to the date of registration must be supported by evidence of positive and unequivocal action. In determining domicile, institutional officials should give consideration to such factors as the ownership or lease of a permanently occupied home in West Virginia, full-time employment within the state, paying West Virginia property tax, filing West Virginia income tax returns, registering of motor vehicles in West Virginia, possessing a valid West Virginia driver's license, and marriage to a person already domiciled in West Virginia. Proof of a number of these actions shall be considered only as evidence which may be used in determining whether or not a domicile has been established. Factors militating against the establishment of West Virginia domicile might include such considerations as the student not being self-supporting, being claimed as a dependent on federal or state income tax returns or on the parents' health insurance policy if the parents reside out of state, receiving financial assistance from state student aid programs in other states, and leaving the state when school is not in session.

§133-25-4. Dependency Status.

4.1. A dependent student is one (1) who is listed as a dependent on the federal or state income tax return of his/her parent(s) or legal guardian or who receives major financial support from that person. Such a student maintains the same domicile as that of the parent(s) or legal guardian. In the event the parents are divorced or legally separated, the dependent student takes the domicile of the parent with whom he/she lives or to whom he/she has been assigned by court order. However, a dependent student who enrolls and is properly classified as an in-state student maintains that classification as long as the enrollment is continuous and that student does not attain independence and establish domicile in another state.

4.2. A nonresident student who becomes independent while a student at an institution of higher education in West Virginia does not, by reason of such independence alone, attain domicile in this state for admission or fee payment purposes.

§133-25-5. Change of Residence.

5.1. A person who has been classified as an out-of-state student and who seeks resident status in West Virginia must assume the burden of providing conclusive evidence that he/she has established domicile in West Virginia with the intention of making the permanent home in this State. The intent to remain indefinitely in West Virginia is evidenced not only by a person's statements, but also by that person's actions. In making a determination regarding a request for change in residency status, the designated institutional officer shall consider those actions referenced in §133-25-3 of these rules. The change in classification, if deemed to be warranted, shall be effective for the academic term or semester next following the date of the application for reclassification.

§133-25-6. Military

6.1. An individual who is on full-time active military service in another state or a foreign country or an employee of the federal government shall be classified as an in-state student for the purpose of payment of tuition and fees: Provided, That the person established a domicile in West Virginia prior to entrance into federal service, entered the federal service from West Virginia, and has at no time while in federal service claimed or established a domicile in another state. Sworn statements attesting to these conditions may be required. The spouse and dependent children of such individuals shall also be classified as in-state students for tuition and fee purposes.

6.2. Persons assigned to full-time active military service in West Virginia and residing in the state shall be classified as in-state students for tuition and fee purposes. The spouse and dependent children of such individuals shall also be classified as in-state students for tuition and fee purposes.

6.3. Any student living in West Virginia and receiving education or vocational rehabilitation benefits from the U.S. Department of Veterans Affairs shall be charged in-state tuition and fees to attend a West Virginia public institution of higher education so long as such student is considered a "covered individual" as described in 38 U.S.C. §3679, as in effect at any time.

§133-25-7. Aliens.

7.1. Students who meet the domiciliary requirements noted in Sections 3, 4, and 5 of this policy, and who are U.S. Permanent Resident Aliens, Political Asylees or Political Refugees, or who hold an A, E, G, H, I, L, O, P, R, TD, TN, U, or V visa, may apply to be reviewed for in-state residency for tuition purposes.

7.2. Students who hold B, C, D, F, J, K, M, or Q visas are not eligible for establishing in-state residency for tuition purposes.

7.3. Students who meet the domiciliary requirements and who are the beneficiary of a pending I-485 application to adjust status to permanent resident may apply to be reviewed for in-state residency for tuition purposes.

§133-25-8. Former Domicile.

8.1. A person who was formerly domiciled in the State of West Virginia and who would have been eligible for an in-state residency classification at the time of his/her departure from the state may be immediately eligible for classification as a West Virginia resident provided such person returns to West Virginia within a one (1) year period of time and satisfies the conditions of §133-25-3 of these rules, regarding proof of domicile and intent to remain permanently in West Virginia.

§133-25-9. Appeal Process.

9.1. Each institution shall establish procedures which provide opportunities for students to appeal residency classification decisions with which they disagree. The decisions of the designated institutional official charged with the determination of residency classification may be appealed in accordance with appropriate procedures established by the president of the institution. At a minimum, such procedures shall provide that:

9.1.a. An institutional committee on residency appeals will be established to receive and act on appeals of residency decisions made by the designated institutional official charged with making residency determinations.

9.1.a.1. The institutional committee on residency shall be comprised of members of the institutional community, including faculty and at least three, in any event, an odd number. The student representative(s) shall be appointed by the president of the institutional student government association while the faculty representative(s) shall be selected by the campus-wide representative faculty organization.

9.1.a.2. The student contesting a residency decision shall be given the opportunity to appear before the institutional committee on residency appeals. If the appellant cannot appear when the committee convenes a meeting, the appellant has the option of allowing committee members to make a decision on the basis of the written materials pertaining to the appeal or waiting until the next committee meeting.

9.1.b. The residency appeal procedures will include provisions for appeal of the decision of the institutional committee on residency appeals to the president of the institution.

9.1.c. Residency appeals shall end at the institutional level.

English Language Institute

One John Marshall Drive
Huntington, WV 25755, USA
1-304-696-4686
E-mail: eli@marshall.edu
Website: https://www.marshall.edu/eli/

The English Language Institute prepares students to successfully complete a degree program at Marshall University. Our classes provide students with the opportunity to learn academic skills in three integrated courses (Reading-Vocabulary, Grammar-Writing, and Speaking-Listening) and a Special Topic course. Four levels of instruction are offered across 16-week terms in fall and spring, and 12 weeks in summer. Students receive a minimum of 20 hours of classroom instruction per week. Successful completion of Academic Preparatory I fulfills the English language proficiency requirement for admission for Marshall University undergraduate programs.

Financial Information: Fees, Assistance, and Scholarships

University Expenses: A General Overview

Basic university expenses fall into three categories:

- tuition and fees,
- housing and meals,
- incidental or personal expenses.

Apart from unusual financial obligations, students living on campus in 2021-2022 can expect estimated annual expenses at Marshall University to range from about $24,298 to $35,852, including personal expenses.

The following is a table of estimated costs for the 2021-2022 academic year (Fall and Spring semesters), based on a normal undergraduate load of 15 credits per semester.

Note: A full-time student carries at least 12 credit hours per semester.

Expense	In-State	Metro[1]	Out-of-State
Base Tuition & Fees	$8,552	$14,636	$19,606
Double-Occupancy housing	$7,054	$7,054	$7,054
Board	$5,192	$5,192	$5,192
Subtotals	$**20,798**	$**26,882**	$**31,852**
Incidental and personal: $3,500 to $4,000, depending upon individual needs.			

[1] Metro Fee is applicable to students whose residence is as follows:
- in Ohio: Gallia, Jackson, Lawrence, Meigs, and Scioto Counties
- in Kentucky: Boyd, Carter, Elliott, Floyd, Greenup, Johnson, Lawrence, Martin and Pike Counties

Note: Most colleges and/or programs have specific additional fees. For a more accurate total of tuition and fees, view the fulll listing at www.marshall.edu/tuition (http://www.marshall.edu/tuition/).

Warning: Do not calculate your expenditures based solely on these figures. They apply only to the 2021-2022 academic year. Actual costs for the next academic year should be available by July 1 each year. For more information, please contact the Bursar's Office at 304-696-6620.

Tuition & Fees: Specific Information

Tuition and fee costs are based on the college in which your major is housed and the specific program in which you are enrolled. For a complete schedule of tuition and related fees for the current year, please visit www.marshall.edu/tuition (http://www.marshall.edu/tuition/).

The university and its governing board reserve the right to change fees and rates without prior notice. Fee assessments are calculated on student level, not course level.

Please note: All fee listings in the fee section of this catalog show the rates authorized and in effect for the fall semester of the 2021-2022 academic year.

Tuition & Enrollment Fees

Room and Meals

Residence Halls and Food Service Plans

The Department of Housing and Residence Life provides on-campus living space for approximately 2,500 students. Individual residence halls will accommodate between 120 and 500 students in single and double occupancy rooms, and suite-style rooms. All halls are located within walking distance of academic buildings and downtown Huntington. There is 24-hour security in every residence hall. Every student living on campus has a meal plan, a room with WIFI and cable television. Each hall is managed by an Area Coordinator with a Resident Advisor on each floor who provides the students with the best possible living and learning environment and resources.

Marshall University requires all full-time freshman and sophomore students to live on campus. Exceptions are granted to those living within a 50-mile radius that live at home with a parent or legal guardian; individuals 21 years of age; those who are married; or those who have been high school graduates for more than two years. In order to be considered for release from the residency requirement, a release request and supporting documentation must be submitted to the Department of Housing and Residence Life by

- July 1 (Fall semester) or
- November 15 (Spring semester).

Semester Fees (16 weeks)

Rates are subject to change.

Residence Halls

Description	Amount
Double Occupancy	
First-Year Residence Halls	$3,527.00
Twin Towers	$2,862.00
Buskirk	$2,862.00
Single Room Suite

Double Occupancy per day	$30.00
Single Occupancy per day	$40.00

Commuter Meal Plans

For a complete list of the Commuter Meal Plans visit https://www.marshall.edu/it/departments/campusid/mealplans/

Payment of Fees

Tuition fees for a regular semester, a Summer Term, an Intersession, and any special class are due and payable to the Office of the Bursar in accordance with dates established and listed on the Marshall University website at www.marshall.edu/bursar (http://www.marshall.edu/bursar/). If you do not pay your enrollment fees on or before the due date, your registration will be cancelled and you will be subject to withdrawal from the university (see Policy below). Do not depend on receiving a bill from the university in the mail. It is always your responsibility to know when enrollment fees are due and to pay them by that time.

Student deferred payment plans for tuition will be offered for the fall and spring semester. All available financial aid from the term must be credited to the student's account prior to determining the amount available for deferral. For more information on payment plans or to enroll in a payment plan, visit www.marshall.edu/bursar (http://www.marshall.edu/bursar/), or log on to CashTrack through myMU (www.marshall.edu/mymu (http://www.marshall.edu/mymu/)).

You can pay fees by Visa, MasterCard, Discover, or American Express by using CashTrack on myMU (www.marshall.edu/myMU (http://www.marshall.edu/myMU/)). Credit card payments are also accepted at the Office of the Bursar, 101 Old Main. Please note that a nonrefundable processing fee of 2.25% will apply to credit or debit card payments.

If you are a recipient of financial aid through the university's loan or scholarship program, the university's Department of Intercollegiate Athletics, or any governmental agency, or by private loan or scholarship, you must complete arrangements for payment through the University Bursar in 101 Old Main. (See Student Financial Assistance (p. 40).)

Your registration is not complete until all fees are paid.

Your registration will be cancelled if the bank does not honor your check for payment of registration fees. A charge of $25.00 will be made for each check returned unpaid by the bank.

A student who has a financial obligation to the university cannot engage in any registration activity until the obligation is satisfied. Should the obligation remain unpaid the obligation may be assigned to a state-authorized collection agency.

A student who withdraws from the institution by following proper withdrawal procedures will receive refunds of fees paid in accordance with the refund policy.

A student who is required to withdraw from the institution for disciplinary reasons may not receive refunds of fees paid.

Withdrawal/Reinstatement Policy for Nonpayment of Enrollment and Residence Hall Fees

1. Through late registration each semester, a schedule of withdrawal for nonpayment will be included on the bursar's office website at www.marshall.edu/bursar (http://www.marshall.edu/bursar/). Following late registration, the Bursar will send written notification to the student advising of administrative withdrawal for nonpayment of Enrollment or Residence Hall Fees.
2. Upon notice from the Bursar, the Registrar will initiate a complete withdrawal for a student not paying fees. The withdrawal will be for "Administrative-Nonpayment of Enrollment or Residence Hall Fees."
3. The Registrar will notify the instructor that the student should not be permitted to continue attendance in the class.
4. If the student fulfills the financial obligation, the Bursar's Office will notify the student and his/her academic dean. The academic dean will have discretion to approve registration. If the dean approves, the student, the instructors, and the Registrar will be notified in writing immediately.
5. Upon receipt of notice from the academic dean, the Registrar will initiate the procedure to register the student in the courses for which the student was enrolled at the time of withdrawal.
6. A student who does not meet the financial obligation for enrollment and residence hall fees will have all entries of that registration erased on the Registrar's permanent record.
7. A student who owes a financial obligation to the university will not be permitted to enroll in subsequent semesters or terms until the obligation is paid.

Withdrawal/Reinstatement for Other Financial Obligations

1. Failure to fulfill other types of financial obligations with proper procedure may result in administrative withdrawal from the university.
2. Upon notice from the Bursar, the Registrar will initiate a complete withdrawal for a student not paying financial obligations. The withdrawal will be "Administrative-Nonpayment of Financial Obligations" and will be dated with the effective date of processing of the withdrawal.
   Under these conditions, procedures will be followed as outlined above, items 3, 4, & 5, under "Withdrawal/Reinstatement Policy for Nonpayment of Enrollment and Residence Hall Fees."
3. Students who do not meet these "Other Financial Obligations" and who are administratively withdrawn from the university will receive the grade determined by the withdrawal policy in effect at the time the administrative withdrawal was initiated.
4. A student who owes other types of financial obligations to the university will not be permitted to enroll in subsequent semesters until the obligation is paid.
5. If a student disputes an administrative withdrawal, he/she may file an appeal with the Student Grievance Board through the Dean for Student Affairs. (The Student Grievance Board is a subcommittee of the Student Conduct and Welfare Committee.) This appeal must be filed before the effective date of withdrawal established by the Bursar. The administrative withdrawal will be suspended until the President of the University acts upon the recommendation of the Student Grievance Board.

Public Law 115-407, Sect 103

Effective August 1, 2019:

For students utilizing Chapter 31 VA Veteran Readiness and Employment or utilizing Chapter 33 Post 9-11 VA education benefits, while payment to the institution is pending from the VA, Marshall University guarantees:

- Enrollment in the semester for which VA payment is pending;
- Access to registration for the subsequent semester;
- No late fees assessed for amount pending payment by VA;
- Access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution;
- Borrowing additional funds will not be required.

To qualify, by or on the first day of the semester a student must:

- Present to the Office of the Registrar a VA Certificate of Eligibility issued in the name of the student;
- Provide written request to be certified by completing the form at: www.marshall.edu/registrar/veterans/;
- Use one of the two VA benefits, Chapter 31 or Chapter 33, as noted.

Costs which are the responsibility of the student, such as tuition and fees not billable to VA, or costs for dormitory and meal plans, are not covered under the provision established by PL 115-407, Sec. 103. Students using Post 9-11 benefits at *less than 100% eligibility* are responsible to contact the Office of the Bursar to make payment arrangements on the amount of tuition not anticipated to be paid by the VA. Students are responsible to make payment arrangements for dorm and meal plans, if applicable.

The provision established by PL 115-407, Sec. 103, ends 90 days after tuition and fees are billed to VA whether or not VA has issued payment to the University. At that time, the University can hold the student liable for the billable tuition and fees unpaid by VA, place a registration hold for any outstanding amount billed to VA, or withdraw the student for non-payment of the billable tuition and fees not paid by VA. Ultimately, the student does agree to assume and pay any and all costs associated with said enrollment not paid by the VA directly to the University.

Refund Procedures

Enrollment fees (tuition fees) will be refunded during the period designated by the Office of the Bursar for Registration, Late Registration, and Schedule Adjustments for a regular semester or a summer term and published on the bursar's office website at www.marshall.edu/bursar (http://www.marshall.edu/bursar/). Enrollment fees (tuition fees) will be refunded to students for:

1. *Schedule Adjustments* - Students who drop one or more classes through the end of the Late Registration period shall be eligible for a full reduction of tuition and fees of the dropped course(s), provided that the remaining tuition and fee assessment falls below twelve credit hours for undergraduate students or nine credit hours for graduate students.
2. *Complete Withdrawals* - Students initiating a complete withdrawal from the University shall receive a reduction in tuition and fees calculated using the following schedule, in accordance with Title 133 Legislative Rule, Series 32, Section 6.1:
   - During the first 10% of the term, 90% reduction,
   - From 11% to 25% of the term, 75%,
   - From 26% to 50% of the term, 50%,
   - After 50% of the term is completed, no reduction in tuition and fees will occur.

   Should the percentage calculation identify a partial day, the entire day should be included in the higher refund period.
3. *Course Withdrawals after Late Registration* - Students who do not officially withdraw from all classes at the University shall not be eligible for a reduction in tuition and fees.
4. Students receiving financial assistance covered by Title IV, who officially withdraw shall receive a refund in accordance with the Higher Education Act. See the following section.

Return of Title IV Funds Policy

See section under "Student Financial Assistance (p. 40)."

Cancellation of Class

When it becomes necessary to cancel a class by administrative and/or faculty action, a student is granted a full refund of the fee for the class cancelled unless he/she registers in another course of like value in terms of semester hours. This action does not apply to withdrawals due to disciplinary action or withdrawals due to nonpayment of financial obligations.

Cancellation and Refund Policy for Housing and Residence Life

Cancellation of this contract by those not planning to enroll in the university or reside on campus must be received in writing by the Department of Housing and Residence Life on or before May 15th. Such cancellations will result in a refund of $100.00 of the reservation deposit. Cancellations postmarked after May 15th from individuals who do not enroll in the university or reside on campus will result in a forfeiture of the entire $200.00 reservation deposit. Individuals who complete a contract and who enroll in the University (academic classes) will be expected to fulfill their obligations for the period specified. For contracts commencing for the Spring or Summer terms, cancellations postmarked 30 days before the opening of housing will result in a $100.00 refund. Cancellations postmarked after that date will result in a forfeiture of the entire $200.00 reservation deposit.

Voluntary withdrawal from the university and, in turn, housing and food service prior to the opening of the residence halls will result in a full refund less the $200.00 reservation deposit. Complete withdrawal from the university and housing and food service between the opening day for Housing and the first Friday will result in a refund of fifteen weeks' room and board. Withdrawals after the first Friday will result in a forfeiture of all monies paid for room and board. The student remains liable for any unpaid balance due.

Students whose residency is terminated automatically (due to violations of Code of Conduct or Residence Hall policies) forfeit all monies paid for that semester and remain liable for any unpaid room or meal plan balances at the time of termination. Students will be responsible for any interest, collection and reasonable attorney's fees associated with the collection of delinquent accounts.

Students who are denied admission, declared academically ineligible to return, or are unable to return for medical reasons, will be refunded on a prorated basis.

For students called to armed services, refunds of the enrollment fee only will be processed in accordance with policy established by the Office of the Registrar.

Late fees are nonrefundable.

Tuition & Fees: Specific Information

Tuition and fee costs are based on the college in which your major is housed and the specific program in which you are enrolled. For a complete schedule of tuition and related fees for the current year, please visit www.marshall.edu/tuition (http://www.marshall.edu/tuition/).

The university and its governing board reserve the right to change fees and rates without prior notice. Fee assessments are calculated on student level, not course level.

Please note: All fee listings in the fee section of this catalog show the rates authorized and in effect for the fall semester of the 2022-2023 academic year.

14 Meals per Week with $700 Dining Dollars and 20 Anytime Meals	$2,549.00
14 Meals per Week with $935 Dining Dollars	$2,700.00

Financial Aid Application Process

To apply for financial aid, students must file the Free Application for Federal Student Aid (FAFSA) by visiting https://studentaid.gov/h/apply-for-aid/fafsa (https://studentaid.gov/h/apply-for-aid/fafsa/). By filing the FAFSA, students are considered for federal grants, scholarships, loans and work-study. In addition, when WV students file the FAFSA, they are also being considered for state and institutional financial aid. Students must enter Marshall University's Federal School Code: **003815** in Step 6 – of the FAFSA for consideration of all financial aid programs to attend Marshall University.

The **priority filing date for the FAFSA is March 1** prior to the academic year the student is attending for full consideration of all federal, state and institutional financial aid programs. Students may file the FAFSA after this date; however, certain financial aid opportunities may be missed.

In addition to the FAFSA, there is an additional application for students who wish to apply for financial aid for the summer. Marshall University Summer Financial Aid Applications are available on the first day of registration. Summer is a non-standard term. This requires the Office of Student Financial Assistance to collect additional information, which is not provided on the FAFSA. Summer is also considered a trailer for financial aid awarding purposes, meaning that the summer follows the completed academic year. For example, to apply for financial aid for the 2022 summer terms, the student must have a 2022 FAFSA on file. A 2022-23 FAFSA may also be used to consider Federal Pell Grant eligibility for summer. Submit a request by visiting https://www.marshall.edu/sfa/application-process/summer-financial-aid-eligibility-requirements/. Regardless of whether a student submits a request for summer aid, any student who enrolls in the summer and qualifies for a Pell Grant will be awarded.

Eligibility Determination

Student Aid Report

After filing the FAFSA, the student receives a Student Aid Report (SAR). When an email address is provided on the FAFSA, the SAR will be emailed; otherwise, it will be sent by regular mail. At the same time, Marshall University receives the results of the students' FAFSA. The needs analysis results provide an Expected Family Contribution (EFC), which is used to determine a student's financial aid eligibility.

Students have the ability to access their SAR by going to https://studentaid.gov/h/apply-for-aid/fafsa (https://studentaid.gov/h/apply-for-aid/fafsa/). Students will need their FSA ID to access their SAR.

Cost of Attendance

The Office of Student Financial Assistance determines your financial aid eligibility by subtracting your Expected Family Contribution (EFC) from your Cost of Attendance (COA). The information you report on your FAFSA is used in a formula established by the U.S. Congress, which determines your EFC. The COA that your financial aid package is based upon reflects standard and reasonable costs. Your COA attendance includes average tuition and fees based on your residency (i.e., West Virginia, Metro[1], and Non-resident), enrollment status, and program of study. For actual tuition, fee, residence halls, and meal plan charges. please visit the Bursar website at www.marshall.edu/bursar (http://www.marshall.edu/bursar/).

Housing & food charges vary based upon residence hall assignment and meal plan. When you live on campus, you will be billed directly for your room and your meal plan. Marshall University policy requires all full-time freshmen and sophomores to live on campus. You may only request an exemption from this policy if your parent/legal guardian(s) live within 50 miles of campus, and you will be living at home with them in your permanent residence, by completing a Housing Release Request form. You may obtain the Housing Release Request form by visiting www.marshall.edu/housing/resources-and-services/forms (http://www.marshall.edu/housing/resources-and-services/forms/). The COA budget component for housing and meals for students who live with parents or reside in off-campus housing varies according to your

personal circumstances. Marshall University does not charge you for these amounts, but they are part of your Financial Aid COA budget to determine your financial aid eligibility.

Your COA also includes allowances for books and supplies. Books and supplies costs vary based upon your particular program of study. Transportation and Miscellaneous expenses are also variable costs and can consume a large part of your educational expenses if you don't budget carefully. The Office of Student Financial Assistance estimates certain values for these variable cost components to determine your full COA. You may view your financial aid COA by accessing your Cost of Attendance via the Financial Aid portal within myMU, but you must review your student account to see your actual Marshall University charges.

In all cases, the total amount a student is awarded in financial aid, e.g., scholarships, grants, loans, and work-study, cannot exceed the cost of a Marshall University education. In some instances, when Title IV (certain federal financial aid programs) and certain WV Higher Education programs are awarded, students are limited to receive grants and scholarships up to the student's demonstrated financial need.

[1] Metro tuition/fees apply to students who reside in Gallia, Jackson, Lawrence, Meigs, Pike or Scioto Counties in Ohio and Boyd, Carter, Elliott, Floyd, Greenup, Johnson, Lawrence, Martin and Pike Counties in Kentucky.

Eligibility Confirmation

Using information reported on the FAFSA, the U.S. Department of Education performs data exchange with federal agencies to confirm that students meet basic eligibility requirements. The following student eligibility criteria are checked:

- Social Security number and citizenship status with the Social Security Administration
- Selective Service registration with the Selective Service System, if required
- Eligible non-citizenship status with the U.S. Department of Homeland Security
- Veteran Status with the U.S. Department of Veteran Affairs
- Default, disability discharge, bankruptcy, aggregate loan history statuses for federal student loans, overpayment status for federal student grants, and Pell Grant life-time limits

The Office of Student Financial Assistance must also review other eligibility requirements such as:

- Admission Status
- Satisfactory Academic Progress
- Enrollment Status
- Academic Level
- Dependency Status
- Marital Status
- Identity
- Unusual enrollment patterns
- Course Program of Study (https://www.marshall.edu/sfa/check-your-cpos/)
- Note: Federal student aid from Marshall University can only pay for classes that apply towards your degree or certificate at Marshall University. Be sure to monitor your DegreeWorks and communicate with your academic adviser to make sure you are in the right classes.

If any of the items are discrepant, the Office of Student Financial Assistance is required to resolve the issue. This may require the Office of Student Financial Assistance to follow up with the student to request documentation to resolve any discrepancies.

Verification

Verification is the process in which Student Financial Assistance (SFA) – as dictated by federal and state regulations – compares the information reported on the FAFSA with financial and other data including but not limited to the following items:

- Adjusted Gross Income
- U.S. Income Tax Paid
- Education credits
- Untaxed IRS distributions
- Untaxed pensions
- IRA deductions and payments
- Tax-exempt interest
- Income earned from work
- Household size
- Number in college
- Supplemental Nutrition Assistance Program (SNAP)
- Child Support paid
- High school completion status
- Identity/statement of educational purpose

Students who are selected for verification are sent notification instructing them to access their financial aid records by logging into myMU.

SFA must receive all requested documentation before financial aid can be disbursed (or credited) to the student's Bursar account. If there are differences between the data the student provided on the FAFSA and the verification documentation submitted, corrections to the SAR may be needed, and as a result, the student's application will be reprocessed.

Student responsibilities are to:

- Submit all documents requested promptly utilizing the links located at: https://www.marshall.edu/sfa/forms-applications/.
- Please note: In order to protect students' Personal-Identifiable Information (PII), the Office of Student Financial Aid does not retain paper documentation. Should you submit a paper document, we will scan and email this to your Marshall University email with instructions to upload this documentation to our secure dynamic forms. Please visit SFA Forms and Applications (https://www.marshall.edu/sfa/forms-applications/2223forms/) or your myMU for uploading.
- Maintain copies of all information used to file the FAFSA and of documents submitted to the Office of Student Financial Assistance.

It is extremely important that you respond to requests for information promptly because finalized **financial aid awards are processed in the order of file completion date**. To ensure that your financial funds disburse as scheduled at the start of the fall semester, you must be registered for classes and submit all required documentation by June

10. You may still submit documents after June 10; however, you should be prepared to make payment arrangements with the Bursar's Office in the event your financial aid is not finalized by the billing due date.

The deadline for submittal of all verification documents is **30 days prior to the end of the academic year/period** you are enrolled. This designated deadline allows SFA to process and authorize disbursements within the timeframe permitted under regulations set forth for administering the federal and state financial aid programs. Failure to provide requested documentation within this timeframe will result in cancellation of your financial aid offers.

The deadline for students to submit verification documentation may be extended up to 60 days after the student's last day of enrollment during the academic year/period on a case-by-case basis, and will be processed to the extent that is administratively possible.

A Federal Pell Grant applicant selected for verification must complete the process by the deadline published in the Federal Register.

You will be sent an email directing you to review your revised financial aid awards by logging into my MU and accessing your financial aid records when there are any changes as a result of verification.

Financial Aid Satisfactory Academic Progress

Satisfactory Academic Progress (SAP) is the term used to define successful completion of degree requirements to maintain eligibility for federal and state financial aid. As required by regulations, Marshall University must determine whether a student meets SAP requirements. SAP evaluation for undergraduate students occurs at the conclusion of each payment period, which is at the end of the fall semester, spring semester, and summer terms. Financial aid eligibility determination for a future term of enrollment cannot be done until SAP evaluation occurs.

The student's entire academic history must be considered when determining SAP status irrespective of whether or not the student received financial aid. This also includes Advance Placement (AP) and International Baccalaureate (IB) credits, as well as transfer credits that apply to a Marshall University degree.

Requirements of the SAP Policy

Qualitative (Grade Point Average)

The qualitative component measures the quality of the student's SAP by conducting a review of the student's cumulative grade point average (GPA). To meet the qualitative requirement, the student must have a minimum cumulative Marshall University and an overall GPA of at least a 2.0. Credits accepted from other schools that may be applied to a Marshall University degree are counted in the calculation of the student's GPA, thus, are included in the qualitative measure.

(Specific external and institutional scholarships, assistantships, and grants may require a different minimum GPA for continued eligibility. This consideration is a separate and distinct factor in renewing or continuing eligibility for these specific financial aid funds. Information about the terms and conditions of specific student aid programs that have GPA and credit completion requirements is provided to the student at the time the award is offered. This information may be reviewed by logging into myMU and accessing financial aid award records.)

Quantitative Measure (Calculating Pace or Completion Ratio)

The quantitative component corresponds to the pace at which the student must progress through his or her program of study. This evaluation is to ensure completion within the maximum timeframe (see below) permitted and provides for the measurement of the student's progress at the end of each period of enrollment. Pace or completion ratio is calculated by determining the cumulative number of credit hours the student has successfully completed divided by the number of cumulative credit hours the student has attempted. Credits accepted from other schools that may be applied to a Marshall University degree are counted in the calculation as both attempted and completed hours. To meet the quantitative requirement, the student's completion ratio must be 67% or higher.

Maximum Time Frame Measure

The maximum timeframe is a period of no longer than 150 percent of the published length of the education program as measured in credit hours. To meet the maximum timeframe requirement, the following rules apply:

Undergraduate Pursuing an Associate Degree
Not to exceed 100 attempted credit hours

Undergraduate Pursuing a Baccalaureate Degree
Not to exceed 180 attempted credit hours

Undergraduate who has an Associate Degree and is pursuing a 2nd Associate Degree
Not to exceed 130 attempted credit hours

Undergraduate who has a Baccalaureate Degree and is pursuing an Associate Degree
Not to exceed 210 attempted credit hours

Undergraduate who has a Baccalaureate Degree and is pursuing a 2nd Baccalaureate Degree
Not to exceed 240 attempted credit hours

In addition to the three measures referenced above to determine a student's SAP, a student who is placed on Academic Probation or Academic Suspension by his or her school or college based on University academic policy is considered ineligible for financial aid.

Effects of Remedial, Repeated, and Pre-requisite Courses

Remedial or developmental courses do not count toward the student's degree requirements, but they are counted as earned hours and are used to determine a student's academic grade level or classification. Hence, they are calculated according to the rules set forth in this policy. (Financial aid may be awarded to cover up to 30 remedial course credits. Remedial course credits in excess of 30 cannot be calculated as enrolled hours for financial aid purposes. This rule is not related to SAP but is a general financial aid eligibility requirement.)

If the student repeats a course, those credits are counted again when calculating attempted credits. However, if the student repeats a course in which he or she has earned a D or F grade taken no later than the semester or summer term during which the student attempts the 60th semester hour, and before he or she earns a baccalaureate degree, the student may have the D/F Repeat rule applied. When the D/F Repeat rule is applied, the original grade shall be disregarded, and the new grade (excluding a W) shall be used in determining the student's GPA.

(Coursework that a student repeats may be included when determining a student's enrollment status for Title IV-federal student aid purposes as long as it is not a result of 1) more than one repetition of a previously passed course, or 2) any repetition of a previously passed course due the student failing other coursework. This rule is not related to SAP but is a general financial aid eligibility requirement.)

Pre-requisites or preparatory courses are those in which a student must complete in order to meet admission requirements for a graduate or professional program. They do not count toward the student's degree requirements; however, they are calculated according to the rules set forth in this policy.

Effects of Withdrawal and Incomplete Grades

If the student withdraws from a course after the first week of classes during any given semester (i.e., student receives a grade of "W" for the course), the course credits are included in the count of attempted credit hours. Thus, withdrawn courses are calculated in the quantitative and maximum time frame measures. Credits for an incomplete course (i.e., student receives a grade of "I" for the course), are counted as credits attempted for quantitative and maximum timeframe measures, but are not included in the GPA or the credits earned count until the incomplete grade changes to a passing or failing grade.

Effect of Change in Major

If a student changes his or her major, all the credits the student earns toward any Marshall University undergraduate degree will be included in the calculation of qualitative, quantitative and maximum time frame measures.

SAP Definitions

Financial Aid Warning

Financial Aid Warning status is assigned to a student who fails to meet one or more of the SAP measures at the conclusion of a payment period. Students placed on Financial Aid Warning will be notified by email and directed to log into myMU to review their SAP record. The student may continue to receive financial aid for one subsequent payment period under this status despite the determination that the student is not making SAP. Students who do not enroll during the period in which the Financial Aid Warning period was assigned will forfeit that status.

Financial Aid Probation

Financial Aid Probation status is assigned to a student who fails to make SAP (following Financial Aid Warning status) and who has successfully appealed. A student who is placed on Financial Aid Probation may receive financial aid for one subsequent payment period. A student on Financial Aid Probation may be required to meet certain terms and conditions while on Financial Aid Probation, such as taking a reduced course load or taking specific courses. A student assigned a Financial Aid Probation status will be placed on a Financial Aid Academic Plan. At the conclusion of the SAP Academic Probation payment period, the student must either meet the SAP standards or fulfill the requirements specified in the Financial Aid Academic Plan.

SAP Appeal Procedures

If a student fails one or more of the three measures (qualitative, quantitative and maximum time frame) or is placed on Academic Probation or Academic Suspension, the student is not eligible for federal and state financial aid including grants, scholarships, work-study and loans. Students failing SAP standards who have had mitigating circumstances (e.g., death in the family, illness, involuntary military leave), however, may request reinstatement of their financial aid eligibility by completing the SAP Appeal for Financial Aid Reinstatement Form located at: https://www.marshall.edu/sfa/forms-applications/2223forms/ (https://www.marshall.edu/sfa/forms-applications/2223forms/)by the published deadlines.

The appeal must include the following:

1. A completed and valid 2022-23 Free Application for Federal Student Aid (FAFSA) by the deadline dates specified below;
2. Not be in Federal Student Loan Default or owe a Title IV (Federal) Student Aid Overpayment;
3. Detailed explanation for failure to meet SAP standards for each payment period the student failed to perform satisfactorily;
4. Documentation to support the reason for failure (medical form, death certificate, etc.);
5. Detailed explanation of what has changed that will now allow the student to comply with SAP standards, a statement of academic objectives, and corrective action plan.

SAP Appeal Deadlines

Semester/Term	Date
Fall Semester	Tuesday of the week before the start of classes
Spring Semester	Tuesday of the week before the start of classes
Summer Terms	Last Friday of June

SAP Appeals Committee and Decision

The SAP Appeals Committee is composed of representatives from the Office of Student Financial Assistance. Students will be notified by email and directed to log into myMU to review the decision of the SAP Appeals Committee. The decision of the SAP Appeals Committee is final; however, the student may appeal again by the published deadlines for a future payment period.[1]

If the appeal is approved, the student is placed on Financial Aid Probation and the student's financial aid eligibility is reinstated for one subsequent payment period. During the Financial Aid Probation period, the student may be required to fulfill certain conditions for financial aid reinstatement. In addition, all students placed on Financial Aid Probation must follow the Financial Aid Academic Plan explained below. At the conclusion of the payment period, if the student meets the standards of SAP, the Financial Aid Probation status will be removed. If not, the student's academic performance for the term will be evaluated against the student's Financial Aid Academic Plan.

Financial Aid Academic Plan

The academic plan requires students to complete 80% of the attempted coursework (100% if the student failed the maximum timeframe measure) and earn a minimum 2.1 GPA for the payment period the student is on SAP Academic Probation. If the student meets the requirements of the Financial Aid Academic Plan, the student will be assigned continued Financial Aid Probation for a subsequent payment period. (The FA Academic Plan is separate and distinct from an Academic Improvement Plan, which is required of students who fail to maintain a minimum 2.0 Marshall or overall GPA.) If the student fails to meet SAP standards or the requirements set forth in the Financial Aid Academic Plan, the student will be deemed ineligible for financial aid, but may appeal again for a future payment period by published

deadlines. A student who has a change made to his or her academic transcript (i.e., grade change) during the semester in which the student is ineligible, on Financial Aid Warning or Financial Aid Probation, may request a SAP re-evaluation.

[1] If the appeal is denied, the student will be responsible for paying tuition and/or fees or officially withdrawing from classes before the refund deadline.

Enrollment Status/Enrollment Classification

Each type of financial aid (program) has specific requirements regarding enrollment status. In general, SFA uses the following undergraduate enrollment criteria to determine eligibility for financial aid programs it administers:

Credits per Term/Semester	Enrollment Status Classification
12 +	Full time
9 – 11	Three-quarter time
6 – 8	Half time
1 – 5	Less than half time

As a rule a student's financial aid package is based on full-time enrollment and the Office of SFA uses the enrollment status on the first day after drop/add period (usually the 8th day of the semester) to determine financial aid eligibility. Only courses that apply to the student's degree may be included to determine the student's enrollment status for federal student aid eligibility.

Academic Level Classification

Some financial aid programs have specific criteria based on the student's academic (grade) level. According to University Academic Policy, the following criteria are used to define the student's academic level:

Total Credits Earned	Academic Level
0 – 29	1st Year or Freshman
30 – 59	2nd Year or Sophomore
60 – 89	3rd year or Junior
90 +	4th Year or Senior

Dual Enrollment and Study Abroad

Marshall University students who plan to enroll at another college or university simultaneously may have their other enrollment elsewhere considered for financial aid eligibility at Marshall University.

Students may not receive federal financial aid at more than one institution of higher education for the same courses or at the same time. Students must declare which institution is to be considered the "home school" or the institution where they will receive their degree for financial aid eligibility purposes. To be considered for financial aid as a dually enrolled student or a student taking courses elsewhere during a given semester, a consortium agreement form must be completed and approved by both Marshall University and the other school.

Types of Aid Available

Financial aid is funding for college education that comes from sources outside of the student's family. Gift aid and self-help aid are the two categories of financial aid. Gift aid comes in the form of grants and scholarships and usually does not have to be repaid. Self-help aid comes in the form of loans and work-study. Financial aid at Marshall University is awarded based on financial need, merit, or both. Students may receive a combination of grants, scholarships, loans, and work-study in their Financial Aid Package. Sources of funding come from Marshall University, the federal government, the state and other entities.

The types of financial aid programs listed below are available at Marshall University for undergraduate students:

- Merit-Based Scholarships and Grants
- Need-based Grants
- Loan Programs
- Student Employment
- Veteran Education Benefits
- Foundation Scholarships

For current and more detailed information on types of financial aid available, please visit www.marshall.edu/sfa (https://www.marshall.edu/sfa/)/types-of-aid (https://www.marshall.edu/sfa/types-of-aid/).

Notification and Disbursement of Awards

Checking Financial Aid Records

Students may access their financial aid records by logging on to their myMU account. MyMU is the student's campus web portal used to provide students with easy online access to their Marshall University records.

In order to log into myMU, students must have both their unique MUNet account and password. Any student that has problems accessing their myMU records should email servicedesk@marshall.edu or call 1-877-689-8638.

Understanding Financial Aid Awards & Requirements

Online financial aid notification via the student's myMU account is the official method by which students receive information regarding their financial aid application and awards.

Email is the primary means of communication between students and the Marshall University Office of Student Financial Assistance. Emails are sent to the student's Marshall University email account. It is the student's responsibility to monitor email notifications from the Office of Student Financial Assistance as well as from other university offices. Failure to read and respond to email communications from the Office of Student Financial Assistance may result in delay or cancellation of financial aid awards.

Once you access your financial aid records within the Financial Aid Main Menu tab, you will be able to view the following topics:

- Financial Aid Status
- Requirements
- Eligibility
- Awards

Disbursement of Financial Aid (or Financial Aid Crediting to your Billing Account)

The earliest financial aid may credit to a student's billing account is 10 days before the semester begins. However, financial aid will not credit to the student's account unless all eligibility requirements have been met and verification has been completed. In addition, if the student is taking out a student loan, the student must have completed entrance loan counseling and completed a master promissory note for the respective loan program.

Pending financial aid is a temporary status and is used for financial planning purposes only. Pending financial aid allows the Bursar Office to defer payment of student's tuition, fees, residential and board payments until the financial aid is finalized and credited to the student's Bursar account. Students are responsible for making payment for the difference between bursar charges and financial aid awards by the designated due dates established by the University.

Financial aid awards are not final until they have credited to the student's account.

Payment Plan Option

Under the Marshall University **OASIS Payment Plan**, students may select to make three equal payments of their outstanding charges for the fall or spring semester after any applicable financial aid has been applied. For more information, visit www.marshall.edu/bursar (https://www.marshall.edu/bursar/).

Refunds Due to a Financial Aid Credit Balance

When financial aid for the semester/term exceeds a student's direct charges (tuition, fees, etc.) on the student bill, the student is entitled to a refund for the difference for use toward other educational expenses. The Bursar's Office issues refunds to students beginning the first day of classes. Only those students whose financial aid was credited 10 days prior to the semester/term with a credit balance will receive a refund on the first day of the semester/term. Following the first day of the semester/term, it takes approximately one week after financial aid is disbursed for the Bursar Office to issue a financial aid refund to a student.

Visit the Bursar website at www.marshall.edu/bursar (https://www.marshall.edu/bursar/) for more information on financial aid refunds.

Impact on Financial Aid Due to Withdrawal or Failure to Enroll

Students could jeopardize receipt of some types of aid if they are not properly enrolled at the time that financial aid funds disburse. Students may have originally been packaged as a full-time student, but at the time the funds are ready to disburse, students' enrollment status may differ. Students' change in enrollment may affect the eligibility for certain funds.

If a student does not attend for a period of enrollment that he/she has been awarded financial aid, the Office of Student Financial Assistance must cancel all financial aid awards offered. Upon re-enrollment, the student may request assistance again, but, because awards are based on the availability of funds, funding may be limited.

Students who plan to withdraw from any courses during an academic term should consult with a Financial Aid Counselor. Withdrawing from courses may prevent students from making Financial Aid Satisfactory Academic Progress. This could affect students' future financial aid eligibility.

Total withdrawal from the university is defined as dropping all classes for which a student is registered. Total withdrawal requires that a withdrawal form be submitted to the Registrar's Office.

When students withdraw from all courses on or before the 60% point in time of an academic term, the Office of Student Financial Assistance is required to review their financial aid awards to determine whether financial aid funds must be adjusted in accordance with federal and state regulations. The policies on treatment of financial aid for total withdrawal are specific to each designated financial aid program and are applicable only if the student has received those particular kinds of funds. If a student received various types of financial aid, more than one policy may apply when determining revised financial aid eligibility.

Adjustments to institutional, state (if Title IV financial aid was not received) and external financial aid follow the Marshall University Refund Policy. The chart below describes how institutional, state and external financial aid is treated whenever a student withdraws:

Treatment of Marshall University, State & External Aid for Total Withdrawal

Period of Withdrawal During a Semester	Percentage of Aid Returned to Program
During the first 10% of the term	90%
From 11% to 25% of the term	75%
From 26% to 50% of the term	50%

For example, if a student withdraws during the 5th week of the semester, the student would have 50% of his/her tuition charge reversed. Simultaneously, if a student received an institutional scholarship for the semester in the amount of $2,000, 50% or $1,000 of this scholarship would be returned to the respective financial aid program.

Treatment of Title IV (Federal) Aid for Total Withdrawal

The federal policy for return of Title IV funds maintains that a student retains only that portion of federal aid that the student has earned based on time in attendance before withdrawal. The percentage of time that the student attended an academic term determines the amount of federal aid that must be returned to the federal government. This federally mandated policy is independent of Marshall University's institutional refund policy due to withdrawal.

Marshall University, as required by federal statute, must recalculate federal financial aid eligibility for students who drop out, who withdraw, or who are dismissed, prior to completing 60% of the semester or the financial aid payment period.

When the student ceases to be enrolled prior to completing 60% of the semester or financial aid payment period, the Office of Student Financial Assistance applies the Federal Return of Title IV funds formula to determine whether any federal financial aid must be returned. The Federal Return of Title IV formula is calculated as follows:

Total # of Days Student Completes Until Withdrawal/Total # of Days in the Semester or Payment Period

This formula determines the percentage of the semester completed, which is the same percentage of earned financial aid.

Funds are returned to the appropriate federal program based on the percentage of unearned aid using the following formula:

(100% of the Aid That Could be Disbursed minus the % of Earned Aid) X Total Amount of Aid That Could Have Been Disbursed

Federal student aid refunds are returned to the following Title IV sources in the following order:

1. Unsubsidized Federal Direct Stafford Loan
2. Subsidized Federal Direct Stafford Loan
3. Federal Perkins Loan
4. Graduate Federal Direct PLUS Loan
5. Parent Federal Direct PLUS Loan
6. Federal Pell Grant
7. Federal SEOG Grant
8. Federal TEACH Grant
9. Iraq and Afghanistan Service Grant

If the student is a recipient of both Title IV and West Virginia state aid, the aforementioned policy applies to West Virginia state aid.

If a student earned less financial aid than was disbursed, Marshall University is required to return the unearned portion of the financial aid to the respective federal student aid programs. In some cases, if the student was issued a federal financial aid refund, he/she may be required to return all or a portion of the federal funds.

If the student (or Parent in the case of PLUS Loan) is required to return a portion or all of the loan proceeds, the calculated amount would not have to be returned through this calculation, but be repaid according to the loan's terms.

If a student qualifies for federal aid that has not yet disbursed and less aid is disbursed than earned, the student may receive a late disbursement for the difference.

When a student that has begun attendance fails to earn a passing grade (has a zero GPA) at the end of the semester, Marshall University, for federal student aid purposes, must assume that the student has unofficially withdrawn or dropped out. However, if the student has unofficially withdrawn (shows zero earned hours at the end of the semester), 50% of the student's federal student aid for the term is considered unearned and may result in a reduction of federal aid. However, when Marshall University can document attendance or participation beyond the 60% point in the semester, the student may be able to retain 100% of his/her federal student aid under these circumstances.

Marshall University has an official grading policy that provides instructors with the ability to differentiate between those students who complete the course but failed to achieve the course objectives and those students who did not complete the course.

Voter Registration Forms

Marshall University, as a participant in Federal Title IV Student Aid programs, is required to advise you that voter registration forms are available by visiting https://ovr.sos.wv.gov/Register/Landing (https://ovr.sos.wv.gov/Register/Landing/).

For additional information about any of the programs in this section, please contact the Office of Student Financial Assistance, Old Main Room 116. Telephone 304-696-3162; E-Mail Address: sfa@marshall.edu.

Student Financial Assistance

Financial Aid Application Process

To apply for financial aid, students must file the Free Application for Federal Student Aid (FAFSA) by visiting https://studentaid.gov/h/apply-for-aid/fafsa (https://studentaid.gov/h/apply-for-aid/fafsa/). By filing the FAFSA, students are considered for federal grants, scholarships, loans and work-study. In addition, when WV students file the FAFSA, they are also being considered for state and institutional financial aid. Students must enter Marshall University's Federal School Code: **003815** in Step 6 – of the FAFSA for consideration of all financial aid programs to attend Marshall University.

The **priority filing date for the FAFSA is March 1** prior to the academic year the student is attending for full consideration of all federal, state and institutional financial aid programs. Students may file the FAFSA after this date; however, certain financial aid opportunities may be missed.

In addition to the FAFSA, there is an additional application for students who wish to apply for financial aid for the summer. Marshall University Summer Financial Aid Applications are available on the first day of registration. Summer is a non-standard term. This requires the Office of Student Financial Assistance to collect additional information, which is not provided on the FAFSA. Summer is also considered a trailer for financial aid awarding purposes, meaning that the summer follows the completed academic year. For example, to apply for financial aid for the 2022 summer terms, the student must have a 2022 FAFSA on file. A 2022-23 FAFSA may also be used to consider Federal Pell Grant eligibility for summer. Submit a request by visiting https://www.marshall.edu/sfa/application-process/summer-financial-aid-eligibility-requirements/. Regardless of whether a student submits a request for summer aid, any student who enrolls in the summer and qualifies for a Pell Grant will be awarded.

Eligibility Determination

Student Aid Report

After filing the FAFSA, the student receives a Student Aid Report (SAR). When an email address is provided on the FAFSA, the SAR will be emailed; otherwise, it will be sent by regular mail. At the same time, Marshall University receives the results of the students' FAFSA. The needs analysis results provide an Expected Family Contribution (EFC), which is used to determine a student's financial aid eligibility.

Students have the ability to access their SAR by going to https://studentaid.gov/h/apply-for-aid/fafsa (https://studentaid.gov/h/apply-for-aid/fafsa/). Students will need their FSA ID to access their SAR.

Cost of Attendance

The Office of Student Financial Assistance determines your financial aid eligibility by subtracting your Expected Family Contribution (EFC) from your Cost of Attendance (COA). The information you report on your FAFSA is used in a formula established by the U.S. Congress, which determines your EFC. The COA that your financial aid package

is based upon reflects standard and reasonable costs. Your COA attendance includes average tuition and fees based on your residency (i.e., West Virginia, Metro[1], and Non-resident), enrollment status, and program of study. For actual tuition, fee, residence halls, and meal plan charges. please visit the Bursar website at www.marshall.edu/bursar (http://www.marshall.edu/bursar/).

Housing & food charges vary based upon residence hall assignment and meal plan. When you live on campus, you will be billed directly for your room and your meal plan. Marshall University policy requires all full-time freshmen and sophomores to live on campus. You may only request an exemption from this policy if your parent/legal guardian(s) live within 50 miles of campus, and you will be living at home with them in your permanent residence, by completing a Housing Release Request form. You may obtain the Housing Release Request form by visiting www.marshall.edu/housing/resources-and-services/forms (http://www.marshall.edu/housing/resources-and-services/forms/). The COA budget component for housing and meals for students who live with parents or reside in off-campus housing varies according to your personal circumstances. Marshall University does not charge you for these amounts, but they are part of your Financial Aid COA budget to determine your financial aid eligibility.

Your COA also includes allowances for books and supplies. Books and supplies costs vary based upon your particular program of study. Transportation and Miscellaneous expenses are also variable costs and can consume a large part of your educational expenses if you don't budget carefully. The Office of Student Financial Assistance estimates certain values for these variable cost components to determine your full COA. You may view your financial aid COA by accessing your Cost of Attendance via the Financial Aid portal within myMU, but you must review your student account to see your actual Marshall University charges.

In all cases, the total amount a student is awarded in financial aid, e.g., scholarships, grants, loans, and work-study, cannot exceed the cost of a Marshall University education. In some instances, when Title IV (certain federal financial aid programs) and certain WV Higher Education programs are awarded, students are limited to receive grants and scholarships up to the student's demonstrated financial need.

[1] Metro tuition/fees apply to students who reside in Gallia, Jackson, Lawrence, Meigs, Pike or Scioto Counties in Ohio and Boyd, Carter, Elliott, Floyd, Greenup, Johnson, Lawrence, Martin and Pike Counties in Kentucky.

Eligibility Confirmation

Using information reported on the FAFSA, the U.S. Department of Education performs data exchange with federal agencies to confirm that students meet basic eligibility requirements. The following student eligibility criteria are checked:

- Social Security number and citizenship status with the Social Security Administration
- Selective Service registration with the Selective Service System, if required
- Eligible non-citizenship status with the U.S. Department of Homeland Security
- Veteran Status with the U.S. Department of Veteran Affairs
- Default, disability discharge, bankruptcy, aggregate loan history statuses for federal student loans, overpayment status for federal student grants, and Pell Grant life-time limits

The Office of Student Financial Assistance must also review other eligibility requirements such as:

- Admission Status
- Satisfactory Academic Progress
- Enrollment Status
- Academic Level
- Dependency Status
- Marital Status
- Identity
- Unusual enrollment patterns
- Course Program of Study (https://www.marshall.edu/sfa/check-your-cpos/)
- Note: Federal student aid from Marshall University can only pay for classes that apply towards your degree or certificate at Marshall University. Be sure to monitor your DegreeWorks and communicate with your academic adviser to make sure you are in the right classes.

If any of the items are discrepant, the Office of Student Financial Assistance is required to resolve the issue. This may require the Office of Student Financial Assistance to follow up with the student to request documentation to resolve any discrepancies.

Verification

Verification is the process in which Student Financial Assistance (SFA) – as dictated by federal and state regulations – compares the information reported on the FAFSA with financial and other data including but not limited to the following items:

- Adjusted Gross Income
- U.S. Income Tax Paid
- Education credits
- Untaxed IRS distributions
- Untaxed pensions
- IRA deductions and payments
- Tax-exempt interest
- Income earned from work
- Household size
- Number in college
- Supplemental Nutrition Assistance Program (SNAP)
- Child Support paid
- High school completion status
- Identity/statement of educational purpose

Students who are selected for verification are sent notification instructing them to access their financial aid records by logging into myMU.

SFA must receive all requested documentation before financial aid can be disbursed (or credited) to the student's Bursar account. If there are differences between the data the student provided on the FAFSA and the verification documentation submitted, corrections to the SAR may be needed, and as a result, the student's application will be reprocessed.

Student responsibilities are to:

- Submit all documents requested promptly utilizing the links located at: https://www.marshall.edu/sfa/forms-applications/.
- Please note: In order to protect students' Personal-Identifiable Information (PII), the Office of Student Financial Aid does not retain paper documentation. Should you submit a paper document, we will scan and email this to your Marshall University email with instructions to upload this documentation to our secure dynamic forms. Please visit SFA Forms and Applications (https://www.marshall.edu/sfa/forms-applications/2223forms/) or your myMU for uploading.
- Maintain copies of all information used to file the FAFSA and of documents submitted to the Office of Student Financial Assistance.

It is extremely important that you respond to requests for information promptly because finalized **financial aid awards are processed in the order of file completion date**. To ensure that your financial funds disburse as scheduled at the start of the fall semester, you must be registered for classes and submit all required documentation by June 10. You may still submit documents after June 10; however, you should be prepared to make payment arrangements with the Bursar's Office in the event your financial aid is not finalized by the billing due date.

The deadline for submittal of all verification documents is **30 days prior to the end of the academic year/period** you are enrolled. This designated deadline allows SFA to process and authorize disbursements within the timeframe permitted under regulations set forth for administering the federal and state financial aid programs. Failure to provide requested documentation within this timeframe will result in cancellation of your financial aid offers.

The deadline for students to submit verification documentation may be extended up to 60 days after the student's last day of enrollment during the academic year/period on a case-by-case basis, and will be processed to the extent that is administratively possible.

A Federal Pell Grant applicant selected for verification must complete the process by the deadline published in the Federal Register.

You will be sent an email directing you to review your revised financial aid awards by logging into my MU and accessing your financial aid records when there are any changes as a result of verification.

Financial Aid Satisfactory Academic Progress

Satisfactory Academic Progress (SAP) is the term used to define successful completion of degree requirements to maintain eligibility for federal and state financial aid. As required by regulations, Marshall University must determine whether a student meets SAP requirements. SAP evaluation for undergraduate students occurs at the conclusion of each payment period, which is at the end of the fall semester, spring semester, and summer terms. Financial aid eligibility determination for a future term of enrollment cannot be done until SAP evaluation occurs.

The student's entire academic history must be considered when determining SAP status irrespective of whether or not the student received financial aid. This also includes Advance Placement (AP) and International Baccalaureate (IB) credits, as well as transfer credits that apply to a Marshall University degree.

Requirements of the SAP Policy

Qualitative (Grade Point Average)

The qualitative component measures the quality of the student's SAP by conducting a review of the student's cumulative grade point average (GPA). To meet the qualitative requirement, the student must have a minimum cumulative Marshall University and an overall GPA of at least a 2.0. Credits accepted from other schools that may be applied to a Marshall University degree are counted in the calculation of the student's GPA, thus, are included in the qualitative measure.

(Specific external and institutional scholarships, assistantships, and grants may require a different minimum GPA for continued eligibility. This consideration is a separate and distinct factor in renewing or continuing eligibility for these specific financial aid funds. Information about the terms and conditions of specific student aid programs that have GPA and credit completion requirements is provided to the student at the time the award is offered. This information may be reviewed by logging into myMU and accessing financial aid award records.)

Quantitative Measure (Calculating Pace or Completion Ratio)

The quantitative component corresponds to the pace at which the student must progress through his or her program of study. This evaluation is to ensure completion within the maximum timeframe (see below) permitted and provides for the measurement of the student's progress at the end of each period of enrollment. Pace or completion ratio is calculated by determining the cumulative number of credit hours the student has successfully completed divided by the number of cumulative credit hours the student has attempted. Credits accepted from other schools that may be applied to a Marshall University degree are counted in the calculation as both attempted and completed hours. To meet the quantitative requirement, the student's completion ratio must be 67% or higher.

Maximum Time Frame Measure

The maximum timeframe is a period of no longer than 150 percent of the published length of the education program as measured in credit hours. To meet the maximum timeframe requirement, the following rules apply:

Undergraduate Pursuing an Associate Degree
Not to exceed 100 attempted credit hours

Undergraduate Pursuing a Baccalaureate Degree
Not to exceed 180 attempted credit hours

Undergraduate who has an Associate Degree and is pursuing a 2nd Associate Degree
Not to exceed 130 attempted credit hours

Undergraduate who has a Baccalaureate Degree and is pursuing an Associate Degree
Not to exceed 210 attempted credit hours

Undergraduate who has a Baccalaureate Degree and is pursuing a 2nd Baccalaureate Degree
Not to exceed 240 attempted credit hours

In addition to the three measures referenced above to determine a student's SAP, a student who is placed on Academic Probation or Academic Suspension by his or her school or college based on University academic policy is considered ineligible for financial aid.

Effects of Remedial, Repeated, and Pre-requisite Courses

Remedial or developmental courses do not count toward the student's degree requirements, but they are counted as earned hours and are used to determine a student's academic grade level or classification. Hence, they are calculated according to the rules set forth in this policy. (Financial aid may be awarded to cover up to 30 remedial course credits. Remedial course credits in excess of 30 cannot be calculated as enrolled hours for financial aid purposes. This rule is not related to SAP but is a general financial aid eligibility requirement.)

If the student repeats a course, those credits are counted again when calculating attempted credits. However, if the student repeats a course in which he or she has earned a D or F grade taken no later than the semester or summer term during which the student attempts the 60th semester hour, and before he or she earns a baccalaureate degree, the student may have the D/F Repeat rule applied. When the D/F Repeat rule is applied, the original grade shall be disregarded, and the new grade (excluding a W) shall be used in determining the student's GPA.

(Coursework that a student repeats may be included when determining a student's enrollment status for Title IV-federal student aid purposes as long as it is not a result of 1) more than one repetition of a previously passed course, or 2) any repetition of a previously passed course due the student failing other coursework. This rule is not related to SAP but is a general financial aid eligibility requirement.)

Pre-requisites or preparatory courses are those in which a student must complete in order to meet admission requirements for a graduate or professional program. They do not count toward the student's degree requirements; however, they are calculated according to the rules set forth in this policy.

Effects of Withdrawal and Incomplete Grades

If the student withdraws from a course after the first week of classes during any given semester (i.e., student receives a grade of "W" for the course), the course credits are included in the count of attempted credit hours. Thus, withdrawn courses are calculated in the quantitative and maximum time frame measures. Credits for an incomplete course (i.e., student receives a grade of "I" for the course), are counted as credits attempted for quantitative and maximum timeframe measures, but are not included in the GPA or the credits earned count until the incomplete grade changes to a passing or failing grade.

Effect of Change in Major

If a student changes his or her major, all the credits the student earns toward any Marshall University undergraduate degree will be included in the calculation of qualitative, quantitative and maximum time frame measures.

SAP Definitions

Financial Aid Warning

Financial Aid Warning status is assigned to a student who fails to meet one or more of the SAP measures at the conclusion of a payment period. Students placed on Financial Aid Warning will be notified by email and directed to log into myMU to review their SAP record. The student may continue to receive financial aid for one subsequent payment period under this status despite the determination that the student is not making SAP. Students who do not enroll during the period in which the Financial Aid Warning period was assigned will forfeit that status.

Financial Aid Probation

Financial Aid Probation status is assigned to a student who fails to make SAP (following Financial Aid Warning status) and who has successfully appealed. A student who is placed on Financial Aid Probation may receive financial aid for one subsequent payment period. A student on Financial Aid Probation may be required to meet certain terms and conditions while on Financial Aid Probation, such as taking a reduced course load or taking specific courses. A student assigned a Financial Aid Probation status will be placed on a Financial Aid Academic Plan. At the conclusion of the SAP Academic Probation payment period, the student must either meet the SAP standards or fulfill the requirements specified in the Financial Aid Academic Plan.

SAP Appeal Procedures

If a student fails one or more of the three measures (qualitative, quantitative and maximum time frame) or is placed on Academic Probation or Academic Suspension, the student is not eligible for federal and state financial aid including grants, scholarships, work-study and loans. Students failing SAP standards who have had mitigating circumstances (e.g., death in the family, illness, involuntary military leave), however, may request reinstatement of their financial aid eligibility by completing the SAP Appeal for Financial Aid Reinstatement Form located at: https://www.marshall.edu/sfa/forms-applications/2223forms/ (https://www.marshall.edu/sfa/forms-applications/2223forms/)by the published deadlines.

The appeal must include the following:

1. A completed and valid 2022-23 Free Application for Federal Student Aid (FAFSA) by the deadline dates specified below;
2. Not be in Federal Student Loan Default or owe a Title IV (Federal) Student Aid Overpayment;
3. Detailed explanation for failure to meet SAP standards for each payment period the student failed to perform satisfactorily;
4. Documentation to support the reason for failure (medical form, death certificate, etc.);
5. Detailed explanation of what has changed that will now allow the student to comply with SAP standards, a statement of academic objectives, and corrective action plan.

SAP Appeal Deadlines

Semester/Term	Date
Fall Semester	Tuesday of the week before the start of classes
Spring Semester	Tuesday of the week before the start of classes
Summer Terms	Last Friday of June

SAP Appeals Committee and Decision

The SAP Appeals Committee is composed of representatives from the Office of Student Financial Assistance. Students will be notified by email and directed to log into myMU to review the decision of the SAP Appeals Committee. The decision of the SAP Appeals Committee is final; however, the student may appeal again by the published deadlines for a future payment period.[1]

If the appeal is approved, the student is placed on Financial Aid Probation and the student's financial aid eligibility is reinstated for one subsequent payment period. During the Financial Aid Probation period, the student may be required to fulfill certain conditions for financial aid reinstatement. In addition, all students placed on

Financial Aid Probation must follow the Financial Aid Academic Plan explained below. At the conclusion of the payment period, if the student meets the standards of SAP, the Financial Aid Probation status will be removed. If not, the student's academic performance for the term will be evaluated against the student's Financial Aid Academic Plan.

Financial Aid Academic Plan

The academic plan requires students to complete 80% of the attempted coursework (100% if the student failed the maximum timeframe measure) and earn a minimum 2.1 GPA for the payment period the student is on SAP Academic Probation. If the student meets the requirements of the Financial Aid Academic Plan, the student will be assigned continued Financial Aid Probation for a subsequent payment period. (The FA Academic Plan is separate and distinct from an Academic Improvement Plan, which is required of students who fail to maintain a minimum 2.0 Marshall or overall GPA.) If the student fails to meet SAP standards or the requirements set forth in the Financial Aid Academic Plan, the student will be deemed ineligible for financial aid, but may appeal again for a future payment period by published deadlines. A student who has a change made to his or her academic transcript (i.e., grade change) during the semester in which the student is ineligible, on Financial Aid Warning or Financial Aid Probation, may request a SAP re-evaluation.

[1] If the appeal is denied, the student will be responsible for paying tuition and/or fees or officially withdrawing from classes before the refund deadline.

Enrollment Status/Enrollment Classification

Each type of financial aid (program) has specific requirements regarding enrollment status. In general, SFA uses the following undergraduate enrollment criteria to determine eligibility for financial aid programs it administers:

Credits per Term/Semester	Enrollment Status Classification
12 +	Full time
9 – 11	Three-quarter time
6 – 8	Half time
1 – 5	Less than half time

As a rule a student's financial aid package is based on full-time enrollment and the Office of SFA uses the enrollment status on the first day after drop/add period (usually the 8th day of the semester) to determine financial aid eligibility. Only courses that apply to the student's degree may be included to determine the student's enrollment status for federal student aid eligibility.

Academic Level Classification

Some financial aid programs have specific criteria based on the student's academic (grade) level. According to University Academic Policy, the following criteria are used to define the student's academic level:

Total Credits Earned	Academic Level
0 – 29	1st Year or Freshman
30 – 59	2nd Year or Sophomore
60 – 89	3rd year or Junior
90 +	4th Year or Senior

Dual Enrollment and Study Abroad

Marshall University students who plan to enroll at another college or university simultaneously may have their other enrollment elsewhere considered for financial aid eligibility at Marshall University.

Students may not receive federal financial aid at more than one institution of higher education for the same courses or at the same time. Students must declare which institution is to be considered the "home school" or the institution where they will receive their degree for financial aid eligibility purposes. To be considered for financial aid as a dually enrolled student or a student taking courses elsewhere during a given semester, a consortium agreement form must be completed and approved by both Marshall University and the other school.

Types of Aid Available

Financial aid is funding for college education that comes from sources outside of the student's family. Gift aid and self-help aid are the two categories of financial aid. Gift aid comes in the form of grants and scholarships and usually does not have to be repaid. Self-help aid comes in the form of loans and work-study. Financial aid at Marshall University is awarded based on financial need, merit, or both. Students may receive a combination of grants, scholarships, loans, and work-study in their Financial Aid Package. Sources of funding come from Marshall University, the federal government, the state and other entities.

The types of financial aid programs listed below are available at Marshall University for undergraduate students:

- Merit-Based Scholarships and Grants
- Need-based Grants
- Loan Programs
- Student Employment
- Veteran Education Benefits
- Foundation Scholarships

For current and more detailed information on types of financial aid available, please visit www.marshall.edu/sfa (https://www.marshall.edu/sfa/)/types-of-aid (https://www.marshall.edu/sfa/types-of-aid/).

Notification and Disbursement of Awards

Checking Financial Aid Records

Students may access their financial aid records by logging on to their myMU account. MyMU is the student's campus web portal used to provide students with easy online access to their Marshall University records.

In order to log into myMU, students must have both their unique MUNet account and password. Any student that has problems accessing their myMU records should email servicedesk@marshall.edu or call 1-877-689-8638.

Understanding Financial Aid Awards & Requirements

Online financial aid notification via the student's myMU account is the official method by which students receive information regarding their financial aid application and awards.

Email is the primary means of communication between students and the Marshall University Office of Student Financial Assistance. Emails are sent to the student's Marshall University email account. It is the student's responsibility to monitor email notifications from the Office of Student Financial Assistance as well as from other university offices. Failure to read and respond to email communications from the Office of Student Financial Assistance may result in delay or cancellation of financial aid awards.

Once you access your financial aid records within the Financial Aid Main Menu tab, you will be able to view the following topics:

- Financial Aid Status
- Requirements
- Eligibility
- Awards

Disbursement of Financial Aid (or Financial Aid Crediting to your Billing Account)

The earliest financial aid may credit to a student's billing account is 10 days before the semester begins. However, financial aid will not credit to the student's account unless all eligibility requirements have been met and verification has been completed. In addition, if the student is taking out a student loan, the student must have completed entrance loan counseling and completed a master promissory note for the respective loan program.

Pending financial aid is a temporary status and is used for financial planning purposes only. Pending financial aid allows the Bursar Office to defer payment of student's tuition, fees, residential and board payments until the financial aid is finalized and credited to the student's Bursar account. Students are responsible for making payment for the difference between bursar charges and financial aid awards by the designated due dates established by the University.

Financial aid awards are not final until they have credited to the student's account.

Payment Plan Option

Under the Marshall University **OASIS Payment Plan**, students may select to make three equal payments of their outstanding charges for the fall or spring semester after any applicable financial aid has been applied. For more information, visit www.marshall.edu/bursar (https://www.marshall.edu/bursar/).

Refunds Due to a Financial Aid Credit Balance

When financial aid for the semester/term exceeds a student's direct charges (tuition, fees, etc.) on the student bill, the student is entitled to a refund for the difference for use toward other educational expenses. The Bursar's Office issues refunds to students beginning the first day of classes. Only those students whose financial aid was credited 10 days prior to the semester/term with a credit balance will receive a refund on the first day of the semester/term. Following the first day of the semester/term, it takes approximately one week after financial aid is disbursed for the Bursar Office to issue a financial aid refund to a student.

Visit the Bursar website at www.marshall.edu/bursar (https://www.marshall.edu/bursar/) for more information on financial aid refunds.

Impact on Financial Aid Due to Withdrawal or Failure to Enroll

Students could jeopardize receipt of some types of aid if they are not properly enrolled at the time that financial aid funds disburse. Students may have originally been packaged as a full-time student, but at the time the funds are ready to disburse, students' enrollment status may differ. Students' change in enrollment may affect the eligibility for certain funds.

If a student does not attend for a period of enrollment that he/she has been awarded financial aid, the Office of Student Financial Assistance must cancel all financial aid awards offered. Upon re-enrollment, the student may request assistance again, but, because awards are based on the availability of funds, funding may be limited.

Students who plan to withdraw from any courses during an academic term should consult with a Financial Aid Counselor. Withdrawing from courses may prevent students from making Financial Aid Satisfactory Academic Progress. This could affect students' future financial aid eligibility.

Total withdrawal from the university is defined as dropping all classes for which a student is registered. Total withdrawal requires that a withdrawal form be submitted to the Registrar's Office.

When students withdraw from all courses on or before the 60% point in time of an academic term, the Office of Student Financial Assistance is required to review their financial aid awards to determine whether financial aid funds must be adjusted in accordance with federal and state regulations. The policies on treatment of financial aid for total withdrawal are specific to each designated financial aid program and are applicable only if the student has received those particular kinds of funds. If a student received various types of financial aid, more than one policy may apply when determining revised financial aid eligibility.

Adjustments to institutional, state (if Title IV financial aid was not received) and external financial aid follow the Marshall University Refund Policy. The chart below describes how institutional, state and external financial aid is treated whenever a student withdraws:

Treatment of Marshall University, State & External Aid for Total Withdrawal

Period of Withdrawal During a Semester	Percentage of Aid Returned to Program
During the first 10% of the term	90%
From 11% to 25% of the term	75%
From 26% to 50% of the term	50%

For example, if a student withdraws during the 5th week of the semester, the student would have 50% of his/her tuition charge reversed. Simultaneously, if a student received an institutional scholarship for the semester in the amount of $2,000, 50% or $1,000 of this scholarship would be returned to the respective financial aid program.

Treatment of Title IV (Federal) Aid for Total Withdrawal

The federal policy for return of Title IV funds maintains that a student retains only that portion of federal aid that the student has earned based on time in attendance before withdrawal. The percentage of time that the student attended an academic term determines the amount of federal aid that must be returned to the federal government. This federally mandated policy is independent of Marshall University's institutional refund policy due to withdrawal.

Marshall University, as required by federal statute, must recalculate federal financial aid eligibility for students who drop out, who withdraw, or who are dismissed, prior to completing 60% of the semester or the financial aid payment period.

When the student ceases to be enrolled prior to completing 60% of the semester or financial aid payment period, the Office of Student Financial Assistance applies the Federal Return of Title IV funds formula to determine whether any federal financial aid must be returned. The Federal Return of Title IV formula is calculated as follows:

Total # of Days Student Completes Until Withdrawal/Total # of Days in the Semester or Payment Period

This formula determines the percentage of the semester completed, which is the same percentage of earned financial aid.

Funds are returned to the appropriate federal program based on the percentage of unearned aid using the following formula:

(100% of the Aid That Could be Disbursed minus the % of Earned Aid) X Total Amount of Aid That Could Have Been Disbursed

Federal student aid refunds are returned to the following Title IV sources in the following order:

1. Unsubsidized Federal Direct Stafford Loan
2. Subsidized Federal Direct Stafford Loan
3. Federal Perkins Loan
4. Graduate Federal Direct PLUS Loan
5. Parent Federal Direct PLUS Loan
6. Federal Pell Grant
7. Federal SEOG Grant
8. Federal TEACH Grant
9. Iraq and Afghanistan Service Grant

If the student is a recipient of both Title IV and West Virginia state aid, the aforementioned policy applies to West Virginia state aid.

If a student earned less financial aid than was disbursed, Marshall University is required to return the unearned portion of the financial aid to the respective federal student aid programs. In some cases, if the student was issued a federal financial aid refund, he/she may be required to return all or a portion of the federal funds.

If the student (or Parent in the case of PLUS Loan) is required to return a portion or all of the loan proceeds, the calculated amount would not have to be returned through this calculation, but be repaid according to the loan's terms.

If a student qualifies for federal aid that has not yet disbursed and less aid is disbursed than earned, the student may receive a late disbursement for the difference.

When a student that has begun attendance fails to earn a passing grade (has a zero GPA) at the end of the semester, Marshall University, for federal student aid purposes, must assume that the student has unofficially withdrawn or dropped out. However, if the student has unofficially withdrawn (shows zero earned hours at the end of the semester), 50% of the student's federal student aid for the term is considered unearned and may result in a reduction of federal aid. However, when Marshall University can document attendance or participation beyond the 60% point in the semester, the student may be able to retain 100% of his/her federal student aid under these circumstances.

Marshall University has an official grading policy that provides instructors with the ability to differentiate between those students who complete the course but failed to achieve the course objectives and those students who did not complete the course.

Voter Registration Forms

Marshall University, as a participant in Federal Title IV Student Aid programs, is required to advise you that voter registration forms are available by visiting https://ovr.sos.wv.gov/Register/Landing (https://ovr.sos.wv.gov/Register/Landing/).

For additional information about any of the programs in this section, please contact the Office of Student Financial Assistance, Old Main Room 116. Telephone 304-696-3162; E-Mail Address: sfa@marshall.edu.

Learning Opportunities and Resources

Academic Advising

Sarah Davis, Director of Undergraduate Academic Advising, 304-696-2669
Chris Atkins, Associate Director of Advising Technologies, 304-696-3252
Smith Communications Building 212
advising@marshall.edu
www.marshall.edu/advising (https://www.marshall.edu/advising/)

The Office of Undergraduate Academic Advising coordinates advising practices and policies across all colleges. Each college has its own unique academic advising structure. All students are strongly encouraged to consult their dean's office for information regarding advisor assignments, curriculum requirements and support services.

The Office of Undergraduate Academic Advising also provides technological support for advising tasks including the coordination of EAB's Navigate advising platform, the Navigate App and Academic Planning. The Navigate advising platform allows coordination of student advising appointments and serves as a repository for appointment reports and notes on student/advisor interactions. The Navigate app puts the Marshall advising curriculum directly in the hands of the students. With tips and to-do's, in addition to other resources, the Navigate App serves as a resource in the student's pocket. These two platforms serve to enhance the advising experience for faculty, staff and students at Marshall University, providing the tools for effective coordination and support from faculty and staff and the resources to allow students to take ownership of and prepare for a successful college career.

Campuses and Centers

South Charleston Campus
100 Angus E. Peyton Drive
South Charleston, WV 25303-1600
304-746-2500
schas@marshall.edu

Marshall University's South Charleston campus is dedicated to making higher education opportunities more accessible to people living in the Kanawha Valley and surrounding counties. The South Charleston campus delivers general education core courses, special interest courses, and college courses in the high schools. We offer courses to meet the needs of traditional-age college students, nontraditional adult students, and accelerated high school students.

Regional Centers

Mid-Ohio Valley Center, Point Pleasant
304-674-7200
www.marshall.edu/movc (http://www.marshall.edu/movc/)
movc@marshall.edu

Erma Byrd Higher Education Center, Beckley
304-256-0266, ext 1.

Career Education

Cristina McDavid, Director
career@marshall.edu
www.marshall.edu/careereducation (http://www.marshall.edu/careereducation/)

The Office of Career Education assists students in all phases of professional development leading to a career including self-assessment of skills, interests, and career goals as well as exploring and declaring a major. Career Coaches also guide students in effective resume building and interviewing skills. In addition, students are offered practical, hands-on techniques for networking and searching for part-time, internship, and entry-level employment.

The office is located on the corner of 5th Avenue and 17th Street (Huntington).

Center for African American Students

East Hall 215/304-696-6705
polk4@marshall.edu
www.marshall.edu/caas (http://www.marshall.edu/caas/)

The Center for African American Students (CAAS), under the auspices of the Office of Intercultural Affairs, is a historically significant program that serves as a catalyst for involving and supporting the African or African American student's academic and personal success toward college graduation and an accomplished professional career in his/her chosen field of study.

The CAAS home provides a pleasant and centrally located office setting where students may relax, study, debate and connect with others. Everyone is welcome...and soon realize that the center is a "home away from home" to all students who enter.

Student Benefits

- Progressive academic and personal advising and problem solving
- Career and majors advising
- Mentoring services
- General guidance and crisis management
- University information and solution-oriented networking

The center has a vital role in the recruitment and retention of African American students through unique program offerings and programs for scholars. The CAAS often collaborates with the Office of Recruitment and various university colleges for the purpose of strengthening recruiting initiatives for African American students. This program provides administrative oversight for Black United Students and the Society of Black Scholars, and offers more than 30 programs and activities each academic year, which include the MU Annual Diversity Breakfast, Annual Outstanding Black High School Student Weekend, Women of Color Day, Donning of Kente, MU Unity Walk, Annual Diversity Plenary, African American History Bowl, Annual Soul Food Feast, lecture series, urban and cultural travel outings, and many others.

Center for Environmental, Geotechnical, and Applied Sciences

1207 Weisberg Applied Engineering Complex/304-696-4748
cegas@marshall.edu
www.marshall.edu/cegas (http://www.marshall.edu/cegas/)

The Center for Environmental, Geotechnical, and Applied Sciences was established in May 1993 through the cooperative effort of the presidents of Marshall University and West Virginia Graduate College. The goal of the center is to forge close working relationships among the business community, higher education institutions, and government agencies, in technology related endeavors. The center has been involved since its inception with educational offerings, research, service, and long-term planning for regional development.

Center for Teaching and Learning

Karen McComas, Executive Director
109 Old Main/304-696-2206
ctl@marshall.edu
www.marshall.edu/ctl (http://www.marshall.edu/ctl/)

The mission of the Center for Teaching and Learning (CTL) is to empower faculty in their teaching and research by cultivating a campus culture that values pedagogical, disciplinary, and program-based inquiry in support of student learning. More specifically, CTL provides opportunities for faculty to engage with, and develop, the instruments of teaching and learning (e.g., curricula and pedagogy) and the processes of teaching and learning (e.g., data-driven teaching strategies, reflective and metacognitive practices). In addition to professional development opportunities, the center administers the annual faculty awards, conducts classroom observations, directs a New Faculty Orientation program, hosts an annual teaching conference, and maintains a library of resource books related to a variety of teaching and learning topics. Housed within CTL are the Writing Across the Curriculum and Community-Based Learning programs.

Writing Across the Curriculum

Jill Underhill, Director
Smith Hall 717
304-696-6156
www.marshall.edu/ctl/writing-across-the-curriculum (http://www.marshall.edu/ctl/writing-across-the-curriculum/)

All Marshall University undergraduates must take two courses with the Writing Intensive designation, sometimes called a WAC class. Created to reinforce writing skills in classes outside of English composition, writing intensive classes engage students directly in the subject matter of the course through a variety of activities that focus on writing as a means of learning. Some of these activities are informal, ungraded class exercises that teach (among other things) critical thinking, organization and synthesis of diverse elements, summarizing skills, and awareness among students of their own learning processes. Other activities, formal and graded, teach these same skills through careful revision and rethinking, peer evaluation, and reformulation into a finished product. These class projects use writing as a means of engaging the mind, body, and spirit of students in the activity of learning a particular subject matter. Writing intensive classes make students aware that writing is a necessary and frequently used skill no matter what their occupation will be, and they prepare students for writing in their careers and in their personal and community lives.

Community-Based Learning

Sandra Kemper, Director
Smith Hall 131B
304-696-3577
www.marshall.edu/cbl (http://www.marshall.edu/cbl/)

The Marshall University Community-Based Learning program assists faculty, students, and community partners in course-specific collaborations that connect learning objectives to public service and civic engagement. The combination of Community-Based Learning and academic theory enhances personalized education for students and creates opportunities to connect key course concepts with relevant real-world experiences. Engaging the community empowers students as learners, teachers, achievers, and leaders as students can make a more meaningful and long-term impact on Marshall University and in the community. CBL will empower students who want to become more involved with the community and who wish to learn in an interactive, transformative environment. Community-Based Learning is a mechanism by which the university mission is enhanced. A course in which all learning is passive memorization and library research will not create an environment wherein students can reach their full learning potential. Therefore, the inclusion of CBL in coursework enhances student research skills and offers them an opportunity to participate in community transformations. CBL coursework provides an element of pedagogy that propels students towards future successes. Participating in Community-Based Learning courses also provides students with the tools they need to be successful in the working world, providing resume-building opportunities and potential contacts for employment.

Child Development Academy

520 22nd Street/304-696-5803
Susan Miller, Director
millers@marshall.edu
www.marshall.edu/cda (http://www.marshall.edu/cda/)

The Child Development Academy at Marshall University provides child care services to children of Marshall University students, faculty, staff and the greater community. It serves as a location for Marshall University undergraduate and graduate students participating in various clinical experiences as part of their academic program. The programs currently placing university students at the Child Development Academy are Early Education and Psychology. The facility was opened in August of 1999 and the construction was a joint venture of Marshall University and the City of Huntington.

Digital Media Services (formerly Instructional Television and Video Services)

Eric Himes, Director}

ITVS@marshall.edu

Drinko Academy

Montserrat Miller, Executive Director
Old Main 211/304-696-3183
www.marshall.edu/drinko/ (http://www.marshall.edu/drinko/)
drinko@marshall.edu

The John Deaver Drinko Academy is devoted to enhancing public understanding of American institutions and the responsibilities of citizens to their society, particularly our sense of shared values and common purpose. The efforts of the Center are designed to counteract the erosion of our civil culture, evident in the steady decline of citizens' participation in voting and jury duty, despite an expansion of the franchise in the 20th Century and federal laws protecting voting rights. The Center is named for the late Dr. John Deaver Drinko, a 1942 Marshall graduate and senior managing partner of Baker & Hostetler, one of the nation's largest law firms. He and his wife, Elizabeth Gibson Drinko, were longtime significant supporters of academic programs at Marshall.

The heart of the Drinko Center is a core of several distinguished visiting professors who are given a great deal of latitude to create courses and engage in other educational and scholarly activities that address the mission of the Drinko Center. Along with the Distinguished Visiting Professors, faculty from various departments are appointed on a rotating basis as Drinko Academy Fellows.

Higher Education for Learning Problems (H.E.L.P.)

Debbie Painter, Director
Myers Hall/304-696-6316
help@marshall.edu
www.marshall.edu/help/ (http://www.marshall.edu/help/)

Higher Education for Learning Problems (H.E.L.P.) Program was established in 1981. H.E.L.P. provides qualified college students who have Learning Disabilities and/or Attention Deficit Disorder (ADD) the rights they are guaranteed under Section 504 of the Rehabilitation

Act and the Americans with Disabilities Act. The program offers these services:

- Assessment to determine presence of LD and/or ADD.
- Tutoring by Graduate Assistants in coursework, note-taking, study skills, organization and memory improvement.
- Remediation in reading, math, spelling, and written language skills by Learning Disabilities Specialists.
- Liaison among professors, H.E.L.P., and students.
- Arrangement for accommodations in testing.
- Counseling for problems with self esteem and severe test anxiety.

Application to H.E.L.P. must be made separately from application to the university and should be completed no fewer than six months in advance.

Honorary Societies

The following honorary and professional societies maintain active chapters on the Marshall campus. For contact information, call the Office of Student Organizations at 304-696-2283.

- Alpha Delta Sigma (advertising)
- Alpha Epsilon Delta (pre-medicine)
- Alpha Epsilon Rho (broadcasting)
- Alpha Kappa Delta (sociology)
- Alpha Phi Sigma (criminal justice)
- Alpha Psi Omega (theater)
- Beta Alpha Psi (accounting, finance, information systems)
- Beta Gamma Sigma (business)
- Delta Epsilon Chi (marketing education)
- Delta Omicron (music)
- Eta Sigma Phi (Classics)
- Gamma Beta Phi (honor, service)
- Gamma Theta Upsilon (geography)
- Kappa Delta Pi (education)
- Kappa Kappa Psi (band)
- Kappa Omicron Nu (family and consumer science)
- Kappa Omicron Phi (home economics)
- Lambda Alpha Epsilon (criminal justice)
- Lambda Pi Eta (communication studies)
- National Society of Collegiate Scholars (first and second Year honorary)
- Omicron Delta Epsilon (economics)
- Omicron Delta Kappa (leadership, scholarship)
- Phi Alpha Theta (history)
- Phi Eta Sigma (national freshman honorary)
- Phi Kappa Phi (all academic disciplines, junior/senior/graduate students)
- Pi Kappa Delta (forensics)
- Phi Theta Kappa (Community and Technical college)
- Pi Mu Epsilon (mathematics)
- Pi Omega Pi (office technology)
- Pi Sigma Alpha (political science)
- Psi Chi (psychology)
- Scabbard and Blade (military science)
- Sigma Delta Pi (Spanish)
- Sigma Theta Tau (Nursing)
- Sigma Tau Delta (English)
- Upsilon Pi Epsilon (computer science)

Housing and Residence Life

Mistie Bibbee, Director
Holderby Hall/304-696-6765
housing@marshall.edu

The Department of Housing and Residence Life is committed to the development and academic success of its students. Working in partnership with students and other members of the Marshall community, the Department of Housing and Residence Life is structured to provide a residential experience that supports and enhances students' learning, personal growth, and academic achievement. We foster and nurture inclusive communities, create social and educational opportunities to enhance student development, and provide each student with a safe, quality, living experience that supports the educational goals of the university.

Housing and Residence Life efforts are guided by several commitments to our students: to compliment and support the core academic mission of the university; to provide co-curricular learning opportunities that support the classroom experience; to offer students a residential environment that values and supports diversity; to provide a residential environment that safeguards and augments all aspects of student wellness, including academic, physical, educational, emotional, cultural, and spiritual development and health; to establish a residential environment in which students explore their independence and interdependence, becoming part of a community in which they develop a better understanding of the impact of others on themselves, and their own impact on others; and to provide a dedicated and competent staff that will continually look for new and better ways to increase the efficiency of the department and the services we provide to our students.

Living on campus provides students with a unique living experience that cannot be found through living off campus. Housing and Residence Life continues to provide safe, supportive, and well-maintained residential environments which complement students' educational experiences during their stay here at Marshall.

Living-Learning Communities

Living-Learning Communities place students who share a common academic interest together on one floor of a residence hall. The students benefit not only from informal interaction with others who share their goals and interests, and who in many cases will also be in the same classes, but will also have opportunities to participate in informal activities planned by the faculty and residence hall staff and geared to their specific interests.

Students may find information on specific living-learning communities by calling 1-800-438-5391 or by visiting www.marshall.edu/housing (http://www.marshall.edu/housing/). Students may request to participate in a living-learning community along with their regular housing application, or submit the request separately if they have already applied for housing.

Information Resources and Customer Service

Jody Perry, Executive Director
122 Drinko Library /304-696-3226
Jody.perry@marshall.edu

Computing Facilities

Information Technology manages a number of computing facilities that provide access to MUNet-connected workstations for the campus community. Information Technology managed public computers, including those in the Drinko 24-Hour Study Center, will always have the latest versions of software available. University Computing facilities are currently available in Corbly Hall, Harris Hall, Smith Hall, the Drinko Library and Information Technology Center in Huntington; and in the administration and academic buildings in South Charleston. All University Computing Facilities provide printing and scanning facilities. Other specialized facilities are available at selected sites.

Computer Accounts

As a Marshall student, you automatically have a MUNet generated for you. Students attending Orientation are provided their MUNet account usernames and passwords. Students may also receive their login credentials by taking your Marshall University ID to the Information Technology Service Desk located on the first floor of the Drinko Library, or the South Charleston Information Technology office. Students may also look up MUNet usernames and change passwords by visiting www.marshall.edu/id (http://www.marshall.edu/id/).

Information Technology Service Desk

The IT Service Desk is located on the first floor of the Drinko Library. Co-Located with the MUID office, the Service Desk provides 24 hour support for your technology needs. The Service Desk is available via

- telephone (304-696-3200),
- email (ITServiceDesk@marshall.edu),
- WebChat (www.marshall.edu/it/ (http://www.marshall.edu/it/)) or
- walk-up service in the Drinko Library.

Information Technology Office

305 Drinko Library/304-696-3900
cio@marshall.edu
www.marshall.edu/it (http://www.marshall.edu/it/)

The Marshall University Information Technology office is located in the third floor administrative suite of the Drinko Library. Information Technology (IT) is committed to improving the efficiency and effectiveness of every aspect of technology throughout Marshall University by promoting and supporting Information Technology applications as a means of enhancing teaching/learning and administrative operations. The IT Office integrates instructional technology, web delivery methods, and computing resources for all Marshall University campuses and centers. This office leads the development of an integrated information technology environment. By actively aiding and enhancing the academic and support activities of the University, IT delivers support and services that help faculty, staff, and students achieve Marshall University technology goals.

Information Technology Infrastructure and Enterprise Applications

it@marshall.edu
www.marshall.edu/it (http://www.marshall.edu/it/)

The administrative offices are located on the fourth floor of the Drinko Library on the Huntington Campus.

Online Support

At the IT website, students and staff can find the most up-to-date information. IT exists to provide information, facilitate communications with its customers, and provide a secure source for downloading software. One example of downloadable software is the free anti-virus software, which the university licenses for all users; other software is available. Go there and get yours now at www.marshall.edu/it (http://www.marshall.edu/it/).

MUNet

MUNet is a fiber optic 10 GigE and 1 GigE backbone connecting all campus buildings throughout the campus. The network provides 10/100/1000M connectivity for voice, video and data across a copper infrastructure. MUNet is linked to the Internet via redundant high-speed digital MPLS service. MUNet can also be accessed from off campus through free virtual private networking (VPN) software available on the UCS web site at www.marshall.edu/it (http://www.marshall.edu/it/). The same VPN software allows users to connect to the MUWireless network when on campus in the vicinity of a wireless network access point. Wireless 802.11a/b/g/n connectivity is available throughout campus, and current coverage levels are available at https://www.marshall.edu/it/wifi-map/.

Servers and Systems

Central timeshare and server facilities include more than 250 servers and systems, running Microsoft Windows Server and Red Hat Enterprise Linux. These systems provide timeshare, file, print, database, email, Library, and web based services to the MUNet community. A wide variety of software products are available to MUNet users including administrative software based on Ellucian's BANNER products, office automation products (word processors, spreadsheets, electronic mail, document production, electronic filing, calendar/time management, and other groupware functions), computer instruction, programming languages, query/data base packages, electronic reference databases, presentation products, courseware delivery, and electronic publishing packages.

Intercultural Affairs

Shaunte Polk, Director
East Hall 233 / 304-696-6705

Marshall University established the Division of Multicultural Affairs in 1989. By weaving it into the mission of the institution, Marshall University affirmed its commitment to an environment of teaching and learning which recognizes and welcomes diversity of race, color, sex, sexual orientation, age, religion, national origin, marital status, political and ethnic backgrounds. Consistent with its awareness of different people, backgrounds and cultures, and now known as Intercultural Affairs, the office is committed to developing the potential of all students by creating and maintaining an environment that promotes and fosters a multicultural, international, global community.

Intercultural Affairs is organized to provide underrepresented populations with programs that enhance knowledge, skills and awareness to function in a complex global society.

The Office of Intercultural Affairs Strives to...

- Create and maintain an environment that promotes cross-cultural understanding.
- Ameliorate and eliminate barriers to students, faculty, and staff interactions across racial, ethnic and cultural boundaries.
- Increase the number of underrepresented groups as undergraduate, professional and graduate students from the four (4) federally recognized minority groups (African American, Native American, Hispanics and Asian Americans).
- Recruit and retain underrepresented racial minorities and diverse populations as members of the faculty, staff, administration and student populations.
- Promote a multicultural presence throughout the university to include but not limited to: university governance, college & department committees, and administration.
- Improve the campus climate to foster nurturing, acceptance, and respect of diverse individuals.
- Support and maintain programs which present a variety of cross-cultural opportunities for all constituents of Marshall University.

Marshall University Intercultural Affairs comprises the Center for African American Students, the Lesbian, Gay, Bisexual, Transgender, Queer/Questioning+ office, and the International Students office. Each department is further broken down into individual units responsible for a host of programs and initiatives that contribute to Marshall University Intercultural Affairs' primary objectives.

Programs and Initiatives

Dr. Martin Luther King, Jr. Annual Recognition

The Annual Dr. Martin Luther King, Jr. Celebration was first established in 1994 as an opportunity for Marshall University and the Tri-State community to reaffirm Dr. King's dream of an America where principles of social justice and racial equality reign supreme over the archaic attitudes of intolerance and hate. The celebration recognizes the life and legacy of the late civil rights leader and social justice advocate.

Social Justice

Social Justice permeates all aspects of the university and is a key component to its function. Toward that end, Intercultural/Social Justice projects, for example, provide opportunities for faculty, staff, and student organizations to develop Marshall University as a multicultural campus in the quest for social justice. Since 1990, Marshall University Intercultural Affairs has funded projects in research, curriculum development, seminars, workshops, conferences and visiting professorships. The common theme of these projects is the promotion of intercultural understanding, pluralism and diversity awareness throughout the Marshall community.

The Health Sciences and Technology Academy (HSTA)

The Health Sciences and Technology Academy (HSTA) was launched in Cabell and Lincoln counties in 2003 with the collaboration of Marshall University Intercultural Affairs and College of Science. HSTA is intended to increase students' competitiveness in science and mathematics while promoting multicultural sensitivity, study skills, communication skills, technological literacy and community leadership. In addition to financial support, HSTA stimulates interest in postsecondary health science degrees. Operating solely in West Virginia, HSTA provides enrichment programs to students in minority and lower-socioeconomic groups in grades 8-12 with the focused attention of the HSTA local community governing board staff, volunteers, teachers and field experts.

Intercultural Leadership Ambassadors

The Intercultural Leadership Ambassadors are a group of select, trained peer educators comfortable with their own diversity. The selected Multicultural Leadership Ambassadors serve as the "official student voice" for the Division of Intercultural Affairs.

The Ambassadors promote diversity throughout campus through presentations designed to educate the audience and heighten awareness on issues of inclusion. The Ambassadors comprise diverse students representing a broad range of cultures.

Marshall University Chancellor's Scholars Program

The Chancellor's Scholar's Program (CSP) is designed to recruit, educate and graduate underrepresented minority doctoral students. The program is focused on targeted recruitment and retention of underrepresented minority groups, specifically African American, Hispanic/Latino American, Native American and Asian American doctoral-level students. Program participation is determined through a formal application process.

The Ivy Academy

The Ivy Academy at Marshall University, sponsored in partnership with Alpha Kappa Alpha Sorority, Inc., is a one-day interactive leadership conference designed to empower young women in high school. The Ivy Academy provides participants with the leadership, self-esteem and motivational skills necessary for college and life success. Academy participants are treated to an information fair, workshops, forums and a keynote address. The Ivy Academy is held biennially, every odd year.

The Louis Stokes Alliance for Minority Participation (LSAMP)

The Louis Stokes Alliance for Minority Participation is a program funded by a National Science Foundation grant. Its purpose is to increase the number of minority students who successfully complete baccalaureate degrees in science, technology, engineering, and math (STEM) fields. The long-term goal of the program is to increase the minority presence of Ph.D.'s in STEM faculty positions.

Visiting Intercultural Scholar in Residence

Visiting Scholars in Residence provide the opportunity for the Marshall University community to learn from experts in various fields. These scholars are accomplished professionals and bring a wealth of experience to the classroom and other campus and community venues.

Libraries and Online Learning

Monica Brooks, Associate Vice President for Libraries and Online Learning
306 Drinko Library/304-696-6474
library@marshall.edu
www.marshall.edu/library (http://www.marshall.edu/library/)

University Libraries

The Marshall University Library System consists of the John Deaver Drinko Library, the James E. Morrow Library, the Health Science Library at the Cabell-Huntington Hospital, and the South Charleston campus

library. Together, the University Libraries' holdings support teaching and research needs, with close to 3 million total items (including government publications and audiovisual materials) and access to more than 50,000 periodical titles. Students may use print and electronic books, periodicals, documents, CD-ROMS, videocassettes, sound recordings, electronic journals, online reference materials and microforms. Access to electronic resources and online research services is accomplished through the University Libraries' web pages. Each library operates as part of the university system and provides unique service to the clientele and programs with which it is associated. The libraries play an essential role in the educational and research activities of the individual university programs. Using the library as a gateway, students have access to the tools to search multiple resources and obtain materials from a variety of sources. A dynamic interlibrary loan and document delivery program provides materials from other libraries in electronic format, often in a matter of hours. Courier services also enhance turnaround time and overcome geographical limitations.

The John Deaver Drinko Library is open 24/5 and houses more than 150,000 volumes, current print subscriptions, a computer lab, multimedia presentation facilities, an assistive technology center for the visually impaired, faculty and student instructional technology rooms, and a fully wired auditorium. Circulation, Reference, and Media are located in the Drinko Library, with extensive collections and a team of qualified personnel. The Drinko Library is a state-of-the-art facility which also houses University Computing Services and University Telecommunications.

The James E. Morrow Library, situated between Smith Hall and the Science Building, houses Special Collections, Government Documents, and shelving for over 300,000 volumes. Special Collections features the University archives, West Virginia Collection of state and regional materials, and the distinctive Hoffman and Blake collections. Government Documents, a federal depository collection, contains more than a million items and provides materials in electronic, microform, and paper formats.

The Health Science Library, specializing in medical resources for the schools of medicine and nursing, maintains a current collection of medical monographs, periodicals and electronic resources. Staff provide a variety of document delivery services and searches on medical-related databases. The library is located in the Robert C. Byrd Center for Rural Health, next to the Cabell-Huntington Hospital on Hal Greer Boulevard.

The South Charleston Library is located in the Robert C. Byrd Academic and Technology Center. This facility supports the undergraduate and graduate programs offered on this campus. Access to all Marshall Libraries electronic resources is available, along with a professional staff to assist students and faculty with their information and research needs. Items held in the libraries on the Huntington campus can be retrieved through a daily courier service and by the electronic transmission of journal articles between the sites. The library is also the site on the South Charleston campus for taking Marshall photo IDs. For details on services and hours, go to the South Charleston library's home page (www.marshall.edu/musclibrary (http://www.marshall.edu/musclibrary/)).

Online Learning

MUOnLine: Blackboard Learn is the electronic course delivery software used to power the online system and its peripheral programs. Housing approximately 600 fully online courses, with up to 250 active sections per term, and serving close to 15,000 students annually, this program strives to meet student needs by facilitating faculty development and supporting quality, affordable, and convenient distance education courses and programs.

Online Learning: The Marshall University distance education program is supported by four Instructional Design specialists and a team of well-trained students developers who aid faculty in developing and delivering online and hybrid courses. In addition to development support, the MUOnLine Instructional Designers center staff also provide regular training and workshop opportunities to faculty who participate in any aspect of online course delivery and support.

The **Online Learning Instructional Design Center**, located in the Drinko Library room 235, provides teaching and learning with technology training and online course development support for Marshall University's faculty and staff. This unit provides the hardware, software, networking and technological assistance and support to assist faculty with online courses and traditional course supplements. Faculty interested in developing an online course or in using an online course section as a supplement to a hybrid or face-to-face class, simply submit an online form to launch their project and obtain the checklist and paperwork to initiate the development and review process. Complete information about teaching online and using technology in general for instruction is provided along with a user group seminar series to allow faculty to present and share their online courses materials, lesson plans, and projects.

Online course development is facilitated and approved by faculty peers. In 2011, Marshall became an institutional subscriber to the nationally recognized Quality Matters program and began providing the "Applying the Quality Matters Rubric" training on the Huntington and South Charleston campuses and online. QM is a faculty-centered, peer review process that is designed to certify the quality of online and blended courses in reference to course design and course outcomes alignment. QM is the baseline for internal online course reviews, QM is a leader in quality assurance for online education and has received national recognition for its scalable, peer-based approach and continuous improvement in online education and student learning.

Currently, Library and Online Learning faculty and staff provide support for a multi-campus copyright education program designed to keep faculty apprised of appropriate use of copyrighted materials provided in a variety of formats in both face-to-face and online courses. Members of the team stay abreast of national shifts in copyright interpretation, field questions from the university community, make referrals to University Counsel when appropriate, and provide support for university policies that ensure compliance with Title 17 of the US Code and the TEACH Act.

Marshall University Foundation, Inc.

Ronald Area, Chief Executive Officer
Foundation Hall/304-696-6264; Toll-free: 1-866-308-1346
www.marshall.edu/foundation (http://www.marshall.edu/foundation/)
foundation@marshall.edu

The **Marshall University Foundation, Inc.** was established in 1947, as a non-profit, tax-exempt, educational corporation. In the spirit of philanthropy and through a commitment to education, the foundation solicits, receives, manages and administers gifts on behalf of Marshall

University. It is a public charity under Section 501(c)(3) of the Internal Revenue Service.

The foundation, in collaboration with Marshall's Office of Development, secures private financial support for the university and encourages greater participation by alumni. The Brad D. Smith Foundation Hall, home of the Erickson Alumni Center, is located at the intersection of 5th Avenue and John Marshall Drive. The building opened in February of 2010.

Math Placement Examinations

University College
Smith Communications Building 212/304-696-3169
www.marshall.edu/uc (http://www.marshall.edu/uc/)

Required pre-requisites for math courses vary based on the individual course. The prerequisite for each course is noted in the Courses of Instruction section in this catalog. Students who do not meet the prerequisites for their required math course may challenge their placement by taking an exam administered by University College in Smith Communications Building, Room 212. To schedule an exam and obtain information to prepare for the exam, please call 304-696-3169 or visit the University College website at www.marshall.edu/uc (http://www.marshall.edu/uc/).

National Scholarships

Mallory Carpenter, Program Manager
Old Main 230E/304-696-3169
Mallory.carpenter@marshall.edu
www.marshall.edu/nationalscholarships (http://www.marshall.edu/nationalscholarships/)

The Office of National Scholarships helps students across the university apply to nationally competitive scholarships such as the Rhodes, Fulbright, Goldwater, and Truman. The office assists with scholarship selection, application review, and interview preparation. Available scholarships can fund summer opportunities, study abroad programs, graduate school, or more. Students that actively engage with the application process for nationally competitive scholarships will:

- Enhance and strengthen their relationships with faculty members;
- Clarify their own personal and professional goals;
- Improve skills in writing that are vital for graduate school applications, cover letters, and resumes;
- Learn what separates them as an individual from their peers;
- Gain confidence in themselves from completing a sophisticated application process.

Although not required, appointments are encouraged.

National Student Exchange

Robin Taylor, Academic Advisor
University College, Smith Communications Building 212
304-696-5819
NSE@marshall.edu
www.marshall.edu/uc/national-student-exchange/ (http://www.marshall.edu/uc/national-student-exchange/)

The National Student Exchange (NSE) program is a consortium of four-year colleges and universities in the United States, its territories and two universities in Canada that have joined together for the purpose of exchanging students. The NSE is the only program of its kind in the country and serves as a national resource for inter-institutional study throughout the United States. NSE offers study opportunities at diverse university settings and provides access to a wide array of courses and programs. The program features a tuition reciprocity system which allows students to attend their host institution by paying the normal tuition/fees of their home campus. Travel, housing, and daily living expenses are additional costs.

Work completed while on exchange at the host campus is brought back to the home institution and credited to the student's degree program. Advance approval is required. Students may choose a semester or year-long exchange. The deadline for applications is February 15th of every year for priority placements. If room is still available, students can apply after the deadline with permission from the NSE Coordinator. Application information is available in University College.

Orientation

Sabrina Simpson, Director of New Student Orientation
Smith Communications Building 211
304-696-2354; (1-800-438-5392)

www.marshall.edu/orientation/ (http://www.marshall.edu/orientation/)
simpson@marshall.edu

New Student Orientation Programs are conducted during the summer to help freshmen, transfer students, and their parents learn more about Marshall and meet students, staff, faculty, and administrators. During the Orientation programs, students and parents will learn about campus services, extracurricular activities, and community life. Students will meet with a representative from their academic college to discuss academic programs, academic advising, and other college-specific information. All newly admitted students who have submitted their Enrollment Deposit will be eligible to register for Orientation. All new students are expected to attend this important first step into college life at Marshall University.

Pre-Law Education

Patricia Proctor, J.D., Pre-Law Advisor

The American Bar Association does not recommend a particular major for those who wish to pursue a degree in law, and there is no specific major which law schools prefer. Students should major in something that will help them develop skills which will be valuable to them as law students and legal practitioners. Any major that will enable students to develop skills in analytical thinking and communication, especially writing, is a good pre-law major. Regardless of the major, students should choose electives that will facilitate critical understanding of economic, political and social institutions. Because a lawyer must be able to communicate effectively, students should emphasize communicative skills. Also a knowledge of elementary accounting is desirable and highly recommended, as is a course in logic.

Prospective law school applicants should:

- consult as soon as possible, preferably during their first semester, with Professor Proctor for further information and advice;
- register for the June or October (preferably) or the December administration of the Law School Admission Test (LSAT) and apply for law school admission during the fall of their senior year in

college. (Full LSAT information and registration materials are in the Law School Admission Bulletin, which is available at the Simon Perry Center for Constitutional Democracy.)

Pre-Medical/Pre-Dental Education

Students who wish to prepare themselves for any of the professions in medicine (Chiropractic, Podiatry, Osteopathy, Medicine or Dentistry) must meet certain basic requirements. They may major in any subject. Most pre-professional students typically major in one of the sciences but it is not necessary. Most medically related postgraduate programs require a bachelor's degree that includes two years of chemistry, one year of biology, one year of math, one year of English and one year of physics.

For more information, see "Pre-Professional Health Care Studies, Interdisciplinary Minor" (p. 661) at the end of the College of Science section of this catalog. Moreover, students can stop by Science Building 270 and visit the Associate Dean of the College of Science, who also serves as the Chief Pre-Professional Health Care Advisor for Marshall University.

Psychology Clinic

Keith Beard, Director
Harris Hall 449
304-696-2772
www.marshall.edu/psych/ (http://www.marshall.edu/psych/)
psychology@marshall.edu

The Marshall University Psychology Clinic has been established by the Department of Psychology to serve as a training facility for advanced graduate students enrolled in the clinical psychology program at the university and to provide high quality, low cost, confidential psychological services to individuals on the campus and from the local community. The student clinicians are doctoral students in the Marshall University Clinical Psy.D. program. Student clinicians provide services under the supervision of qualified clinical faculty selected by the Department of Psychology to fulfill supervisory and teaching functions. A variety of services is offered by the clinic. These include individual psychotherapy, psychological assessment, and group psychotherapy, as well as educational workshops and other events. Some faculty also provide services. Although the clinic is not a for-profit venture, nominal fees are charged for some services; psychological counseling services are provided at no charge to students.

Public Service Internship

Smith Hall 780/304-696-3598

The Public Service Internship Program places qualified students in state government agencies for an off campus learning period of one semester. Students enrolled in this program work a forty hour week with an executive agency in a supervised intern program. They also attend a weekly seminar conducted by the state program coordinator and have a directed studies program conducted by their major department at Marshall. Participants must be full time Juniors or Seniors. They also must have the approval of their department chairperson and the university selection committee. The state program coordinator makes the final placement. Students receive 12 hours of academic credit and an educational stipend for their participation in the program. Academic credit for the program is offered in these courses:

Code	Title	Credit Hours
PSC 488	Independent Study (Directed Studies)	3
PSC 489	Seminar in Public Service	3
PSC 490	Public Service Internship	6
Total Credit Hours		**12**

All courses must be taken in order to receive credit. Students interested in this program should contact the Department of Political Science early in the semester preceding the one in which they wish to participate.

Society of Outstanding Black Scholars

Maurice Cooley, Director
Memorial Student Center 1W25/304-696-6705
cooley@marshall.edu

The governing spirit of the Society of Outstanding Black Scholars of Marshall University is to provide an essential foundation for learning, personal growth, and academic success through active participation in planned enrichment experiences. The society aspires to support and nurture African American students in character building, leadership skills, professional maturity, and service to others. The society recognizes the uniqueness and positive attributes associated with one's ethnicity and will challenge students to achieve greater prosperity and balance for leadership in diverse and multicultural environments in today's society.

Admission Requirements

Admission to the Society of Outstanding Black Scholars is exclusive to African Americans enrolled as full time students at Marshall University.

All candidates must possess and verify the existence of an academic scholarship utilized to support his/her education at Marshall University, at the time of admission.

All candidates must participate in an interview with the director of the society chiefly to determine the student's level of interest in the society, evaluate the student's personal and academic goals, and to address whether the student's goals and interests are compatible with activities and functions set aside for members of the society.

Unless his/her scholarship stipulates otherwise, the minimum GPA for admission to the Society is 3.0 for currently enrolled students as well as for entering freshmen.

Compliance Requirements

In order to remain in good standing each student must maintain his or her scholarship. Membership in the society will be terminated if the student's scholarship is terminated. (If one's scholarship is terminated merely due to the lack of available scholarship funding, the 3.0 Overall GPA and attendance rule will apply. In such cases, the director may allow a grace period for students to upgrade their overall GPA's to meet minimum standards for continued membership.)

In order to remain in good standing, each student must attend 70% of scheduled activities, unless excused by the director. Reasons that

may prohibit attendance may include: conflicts with work schedule; conflicts with exams or exam preparations; attending class; illness; out of town; and other similar reasons. Students who are unable to attend planned functions must contact the director by phone, e-mail, or person to person to present the details concerning his/her inability to attend. Planned functions include an annual Student Lecture Series, educational travel, special receptions, special presentations, art and culture outings, and a variety of enrichment experiences.

All members of the society are required to assist in planning and/or implementation of the Outstanding Black High School Students' Weekend in November of each year under the direction of the Center for African American Students' Programs.

Speech and Hearing Center

Pam Holland, Director
Smith Hall 143/304-696-3641
www.marshall.edu/commdis (http://www.marshall.edu/commdis/)

The Department of Communication Disorders in the College of Health Professions operates the Speech and Hearing Center which provides quality evaluation and treatment services for people of all ages with speech and hearing problems. The center also provides special training for individuals who would like assistance with dialect change. Services are available for Marshall students, faculty and staff, and the general public. For information regarding services contact the number listed above.

Student Affairs

Maurice Cooley, Vice President
Memorial Student Center 2W40B/304-696-2284

student-affairs@marshall.edu
www.marshall.edu/student-affairs (http://www.marshall.edu/student-affairs/)

Student Affairs Office

The student as a planner, participant, leader, and presenter is best exemplified in the area called Student Affairs. Staff strives to create environments for students where they can practice leadership skills and responsible citizenship, clarify their values, and generally become full participants in the learning process. Staff provides advising, leadership development, support services in a variety of settings including but not limited to student social-cultural events, student governance, fraternities and sororities, legal aid, judicial affairs, and off-campus and commuting students.

The various units within the Division of Student Affairs are:

1. Student Activities
2. Student Involvement and Leadership
3. Office of Student Conduct
4. Student Government Association
5. Student Advocacy
6. Parent and Family Programs
7. Fraternity and Sorority Life
8. Office of Community Engagement
9. Wellness Center
10. Women's and Gender Center
11. Violence, Prevention, and Response
12. Student Counseling Center
13. Intercultural Affairs
14. International Student Affairs
15. LGBTQ+ Office
16. Center for African American Students
17. Student Counseling Center
18. Disability Services

Student Advocacy and Support

Michelle Biggs, Assistant Dean
Memorial Student Center 2W32/304-696-2284

miller138@marshall.edu

Staff within the Office of Advocacy and Support are committed to helping you navigate Marshall University. A trustworthy place and staff, we care, we advocate, and we can refer you to campus and community partners. We want to help you succeed in class and life. We encourage students to maximize their educational experiences, and prepare them for involvement in the larger community and life beyond college. Additionally, we aim to empower students to overcome obstacles and to assist in resolving issues.

Student Conduct

Lisa Martin, Director
2W38 Memorial Student Center
304-696-2495
martil@marshall.edu
muwww-new.marshall.edu/student-conduct/ (http://muwww-new.marshall.edu/student-conduct/)

For Marshall University to function effectively as an educational institution, students must assume full responsibility for their actions and behavior. Students are expected to respect the rights of others, to respect public and private property, and to obey constituted authority. A student's admission to the university constitutes acceptance of these responsibilities and standards. Failure to adhere to the policies and conduct regulations of the university places the student in violation of the Marshall University Code of Student Rights and Responsibilities and may, therefore, subject the student to disciplinary action. All admitted students are subject to the code at all times while on or about university-owned property, or at university-sponsored events. Anyone may refer a student or student organization suspected of violating the Code of Student Rights and Responsibilities to the Office of Judicial Affairs. The *Student Code of Conduct*, *Student Academic Rights and Responsibilities*, and the judicial processes are available in the *Student Handbook*, published by the Department of Student Affairs.

Student Development

The Student Development Center is best described as the educational support service area of the Division of Student Affairs. Its major goal is to enhance and support a student's personal and academic development. This assistance is accomplished through developmental, remedial, and preventive programs, activities, services which include, but are not limited to personal and social counseling; educational counseling; health education; returning students and disabled student services.

Student Development offices are located in Prichard Hall and the Memorial Student Center:

1. Counseling Services: assists students in the resolution of personal or emotional concerns; the center is staffed by mental health professionals and provides comprehensive services; call 304-696-3111 for information.
2. Wellness Center/Collegiate Recovery Program, 304-696-4800
3. Disabled Student Services, 304-696-2271

Student Health Service

The Student Health Service (SHS) is located at the Marshall Medical Center at Cabell-Huntington Hospital. The SHS is designed to treat acute illnesses. Services are delivered by the Department of Family and Community Medicine, a division of the School of Medicine. Operating hours are from 8 a.m.-4:30 p.m., and it is closed Saturdays, Sundays, and on school holidays. The Student Health Clinic operates on an appointment basis. Please contact the Student Health clinic for appointments and walk-in availability, 304-691-1100. See the Student Health website at for information on transportation.

Student Life

Matt James, Assistant Dean
Memorial Student Center 2W38/304-696-3395
www.marshall.edu/lead/ **(**http://www.marshall.edu/lead/**)**
james65@marshall.edu

Student Life supports the academic mission of the institution by creating a vibrant, co-curricular Marshall student experience. This is achieved through the incorporation of outside-the-classroom programming, mentorship, educational activities, community engagement opportunities, and leadership development. We empower our students to become active in campus organizations so they may learn, grow, and achieve success beyond their collegiate experience.

Student Support Services

Bonnie Bailey, Director
Prichard Hall West Lobby (1st Floor)/304-696-3164
www.marshall.edu/sss/ **(**http://www.marshall.edu/sss/**)**
sss@marshall.edu

The Student Support Services (SSS) program is one of several federally funded TRiO grant programs established to help students overcome class, social, academic, and cultural barriers to higher education. SSS provides a host of **free** programming and support services to 200 eligible participants.

Eligible participants are undergraduate students who meet at least one of the three requirements:

- First-generation college attendees (neither parent/guardian has graduated from a 4-year institution)
- Income eligible as determined yearly by the Department of Education
- Documented learning or physical disability

The staff provides one-on-one academic advising to assist the student in achieving his/her academic goals. SSS also provides living learning communities and courses, Supplemental Instruction assistance, various courses and opportunities to enhance academic performance and guidance, assistance with financial aid processes and requirements, and postgraduate assistance.

Study Abroad

Welcome Center (2nd floor) / 304-696-6265
studyabroad@marshall.edu
www.marshall.edu/iss/studyabroad/ (http://www.marshall.edu/iss/studyabroad/)

Undergraduate students can experience life in a different culture while pursuing an approved course of study toward the baccalaureate degree. (See information on transfer of credit and grades below.) This international experience will serve as excellent preparation for whatever career students choose. Marshall students have enrolled in programs of study in such countries as England, Spain, Mexico, Australia, Japan, France, Germany, and China. Students can arrange for study abroad in several ways:

- study abroad for one or more semesters or during the summer;
- enroll in another American institution's study abroad program (see Marshall Students Visiting Other Institutions)
- enroll in an International Exchange Program. Marshall maintains a number of these programs (see below) which involve a direct relationship with the institution abroad as well as easy transfer of credits.

The Office of International Student Services will help find the right program for a student's needs. Study abroad is done typically in the junior year. Advance planning will ensure a successful experience. By making an early commitment to study abroad, students can plan their curriculum, save money, and prepare for living in a foreign setting, possibly with a host family or in a shared apartment.

Eligibility to Participate in MU Study Abroad Program

- You must have completed your first two semesters of university level coursework to participate in a study abroad program.
- You must have a GPA of 2.50 overall/cumulative as well as 2.50 Marshall GPA or higher.
- Students on academic or disciplinary probation or suspension are not eligible for study abroad.

Types of Study Abroad Programs

International Exchange Programs

Marshall University currently maintains student exchange programs with the following institutions:

- Anglia Ruskin University in Cambridge, England
- Kansai-Gaidai University in Osaka, Japan
- Chukyo University in Nagoya, Japan
- Université Catholique de Lyon, Ecole Supérieure de Commerce et Management in Lyon, France
- Rennes 2 University in Rennes, France

ISEP Direct - International Student Exchange Program

ISEP Direct provides access to over 300 study sites in 42 countries. Programs in English are not only in English-speaking countries but in Bulgaria, the Czech Republic, Denmark, Estonia, Finland, Hong Kong, Hungary, Iceland, Japan, Korea, Latvia, the Netherlands, South Africa, Sweden and Thailand. Students can search ISEP programs online by location, major or language of instruction at www.isep.org (http://www.isep.org).

Junior Year Abroad
Nine to twelve months fully integrated into the foreign environment requires the most commitment. It requires fluency in the host language and often is the most costly of the options. However, it also yields the most in personal growth and maturity.

Semester Abroad
Because most foreign universities are not organized on a semester system or offer credit hours, these one semester programs are usually run by American universities. Classes are usually offered in English by American or host professors.

Short-Term Study Abroad
These are typically summer programs lasting six to ten weeks. Often they are a quick way to become fluent in a language or gain a good understanding of a country. The Department of Modern Languages currently sponsors summer language study programs in France and Spain.

Travel-Study Tours
These are usually very short-term events (over Spring Break), which involve travel rather than residential study. Students who enroll in study abroad programs maintain their Marshall student status.

Transfer of Foreign Credits/Grades
1. Students who plan to study abroad should consult with the Study Abroad Coordinator in the Office of Admissions. The coordinator will provide a copy of the procedures for obtaining credit for transfer courses and the Study Abroad Approval Form.
2. Foreign study courses may be taken for letter grades or as Credit/No Credit, depending on the grading system of the host institution and pending approval of the student's academic college.
   - All students must obtain advance approval for courses taken for a letter grade or Credit/No Credit by completing the Study Abroad Course Credit Approval form prior to participating in the program.
   - Students can earn up to 3 hours of international (IR) study credit toward graduation requirements.
   - Students must take all hours in a given term as either Credit/No Credit or for a letter grade.

Steps to Prepare
1. Commit to study abroad and begin planning.
2. Gather information—find program materials in the Office of International Student Services located in Old Main 321. Estimate costs - talk with parents, the Financial Aid Office and the Study Abroad Coordinator.
3. Decide on a program—semester, summer, or a full year. Decide on a country and on what language you may need.
4. Consult often with the Study Abroad Coordinator and faculty. They can offer insightful tips and pre-departure orientation.

Testing Center
Demeley Smith, Director
Room G-45, Morrow Library/304-696-2604
demeley.smith@marshall.edu

The Marshall University Testing Center administers the computer-based GRE, Praxis I, TOEFL, and various other tests in contract with the Educational Testing Service. For additional information and hours call the number above.

Textbook Loan Program
Libraries and Online Learning, Drinko Library, 304-696-2321
drinkoaccessservices@marshall.edu
https://marshall.libanswers.com/Circulation/faq/323372 (https://marshall.libanswers.com/Circulation/faq/323372/)

Textbooks for several gateway and core curriculum courses are now available in the Drinko Library for a short-term loan period of three hours and cannot be removed from the library. A list of textbooks that are part of the loan program can be found on the Textbook Loan Program website. Students who would like to utilize the textbook loan program should visit the Circulation Desk at the Drinko Library. To request the book, the student should know the title of the book, identify the book as part of the Textbook Loan Program, and present a student ID.

Tutoring Services
Undergraduate Studies, Smith Communications Building 211
304-696-6622
Sabrina Simpson, Director
tutoring@marshall.edu
www.marshall.edu/uc/tutoring-services (http://www.marshall.edu/uc/tutoring-services/)

Tutoring Services are available to all enrolled students. Nearly all subjects are tutored each semester, particularly high-demand subjects and gateway courses. The goal of tutoring is to help lead students to academic excellence, not just remediation. Tutoring is available by registering online and requesting either a one-time visit or longer term, recurring individual appointments. Online tutoring is also available upon request. Since hours of operation vary per term, students are highly encouraged to stop by Tutoring Services or visit the Tutoring website for a complete schedule.

Writing Across the Curriculum
Jill Underhill, Director
Smith Hall 250
304-696-3013
www.marshall.edu/ctl/writing-across-the-curriculum (http://www.marshall.edu/ctl/writing-across-the-curriculum/)

See Center for Teaching and Learning.

Writing Center
Anna Rollins
Drinko Library, 2nd Floor/304-696-2405
www.marshall.edu/writingcenter (http://www.marshall.edu/writingcenter/)

The Writing Center, which is administered by the Department of English, provides free writing consultation to students. Students can drop in without an appointment to receive help with writing or to use a PC. The Writing Center tutoring staff, which consists of English graduate students and undergraduate peer tutors of all majors, can help students through the entire writing process, from discussing initial ideas to revising and editing their work.

University Policies and Procedures

Copyright Compliance

Marshall University complies with U.S. copyright law, which prohibits unauthorized duplication and use of copyrighted materials, including written, audio-visual, and computer software materials. Further information is available on Marshall's website at www.marshall.edu/library/copyright (http://www.marshall.edu/library/copyright/).

Equal Opportunity/ Affirmative Action Policy Statement

It is the policy of Marshall University to provide equal opportunities to all prospective and current members of the student body, faculty, and staff on the basis of individual qualifications and merit without regard to race, color, sex, religion, age, disability, national origin or sexual orientation.

This nondiscrimination policy also applies to all programs and activities covered under Title IX, which prohibits sex discrimination in higher education.

The university ensures equality of opportunity and treatment in all areas related to student admissions, instructions, employment, placement, accommodations, financial assistance programs and other services. Marshall University also neither affiliates with nor grants recognition to any individual, group or organization having policies that discriminate on the basis of race, color, sex, religion, age, disability, national origin or sexual orientation.

Further, the university is committed to the ideals of inclusion for students, faculty and staff and whenever appropriate, will take affirmative steps to enhance diversity.

Administrative Steps For Filing a Complaint Regarding a Student or Student Organization

Marshall University expects all members of its community to act in respectful and responsible ways toward one another. Marshall University is committed to providing programs, activities and an educational environment free from discrimination and harassment of any kind. To file a general complaint against a student or student organization complete the General Complaint Form (https://marshall-advocate.symplicity.com/public_report/) or contact the Office of Student Conduct, 2W29 Memorial Student Center, or call 304-696-2495.

Sexual Misconduct

According to Title IX, the Education Amendments Act of 1972, "No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance." To file a complaint regarding sexual misconduct, complete the Title IX Complaint Form (https://marshall-advocate.symplicity.com/titleix_report (https://marshall-advocate.symplicity.com/titleix_report/)/) or contact the Office of Equity Programs, 206 Old Main, 304-696-2597.

Liability

Marshall University, as a state agency cannot assume responsibility for loss of or damage to the personal property of students. Furthermore, the university cannot assume responsibility for personal injury to students.

Privacy Rights of Parents and Students

The Family Educational Rights and Privacy Act of 1974, 93-380, 93rd Congress, H.R. 69 authorizes granting to parents and students the right of access, review, challenge, and exception to education records of students enrolled in an educational agency or institution. In accordance with the regulations of the Family Educational Rights and Privacy Act of 1974, Marshall University has adopted a policy to be implemented by all units of the institution. Upon enrollment in the university, the student and/or eligible parent(s) may request a copy of the policy.

Under the Act the student and eligible parent(s) are granted the following rights:

- to be informed of the provisions of the Act through adoption of an institutional policy;
- to inspect and review the records of the student;
- to reserve consent for disclosure except as exceptions are granted in the regulations, i.e., school officials, officials of other schools to which the student seeks attendance, or others as delineated in Section 99.31;
- to review the record of disclosures which must be maintained by the university; and
- to seek correction of the record through a request to amend the record and to place a statement in the record.

Complaints of alleged failure by the university to comply with the Act shall be directed to:

The Family Educational Rights and Privacy Act Office
330 Independence Avenue, S.W.
Washington, D.C. 20201

The University encourages complainants to lodge a formal complaint with the Division of Student Affairs.

Requests for further clarification on this Act, the regulations, and University policy should be directed to the Assistant Dean for Advocacy.

Sexual Harassment Policy Statement

Sexual Harassment, a form of sex discrimination, is illegal and against the policies of the university. Sexual Harassment involves:

1. making unwelcome sexual advances or requests for sexual favors or other verbal or physical conduct of a sexual nature a condition of employment or education, or
2. making submission to or rejection of such conduct the basis for employment or educational decisions, or

3. creating an intimidating, offensive or hostile environment by such conduct.

Anyone who believes he or she has been the subject of Sexual Harassment should report the alleged conduct immediately to an appropriate university representative or directly to the Office of Equity Programs, located in 206 Old Main.

Students with Disabilities

Introduction

Marshall University is committed to providing equal opportunity and access to all programs, services, and activities for students with disabilities. Marshall has three (3) offices or centers that provide services for students with disabilities. These programs include two nationally recognized centers for excellence: the College Program for Students with Autism and the Higher Education Learning Problems (H.E.L.P.) Program. Each of these has different intake processes and procedures. Please check with each program for specific questions. For more specific information on their services, processes, and fees, please use the web links that follow:

The Office of Disability Services (ODS)

www.marshall.edu/disability/ (http://www.marshall.edu/disability/)

The Office of Disability Services is the university-wide office responsible for working with both faculty and students with disabilities to provide reasonable accommodations, assistive technology, and/or auxiliary aids and services. This office helps to ensure Marshall University is providing equal opportunity and access for all students with disabilities without cost to the students.

College Program for Students with Autism Spectrum Disorder

www.marshall.edu/collegeprogram/ (http://www.marshall.edu/collegeprogram/)

(Focus is on students with autism.)

Participation in this program requires that students pay for services. College Program services are highly individualized, but every student receives supports from graduate assistants and West Virginia Autism Training Center staff who work to oversee that the student is accessing the services they need to have a successful college experience. 94% of students who have received College Program supports have graduated or are currently on track to graduate. College Program staff are also available to provide Allies Supporting Autism Spectrum Diversity Training to campus departments. The one-hour online or in-person training can be tailored to fit the needs of various populations such as faculty member, peers, community members, and employers. The College Program also hosts a 3-day employment preparedness workshop in June and a high school summer transition program during summer session III.

H.E.L.P. Program

www.marshall.edu/help/ (http://www.marshall.edu/help/)

(Focus is on students with learning disabilities.)

Participation in this program requires that students pay for services. The H.E.L.P. Program (Higher Education Learning Problems) is located in Myers Hall, on the Huntington campus of Marshall University. H.E.L.P. is a comprehensive academic support program for Marshall University students with diagnosed Specific Learning Disabilities (SLD) and/or Attention Deficit Hyperactivity Disorder (ADHD). The H.E.L.P. Program offers one-on-one academic tutoring, academic coaching, and diagnostic evaluations. Students participating in the program must have met acceptance criteria for Marshall University and are considered for entry to the H.E.L.P. Program, via a separate application process.

Confidentiality and Disability Disclosure Statement

Students with disabilities are admitted to Marshall University under the same admittance criteria and process for all students. Students with disabilities are not required to disclose their disability during the admissions process nor during their time at Marshall. However, if they seek accommodations including assistive technology, or auxiliary aids/services they must make their request to the Office of Disability Services.

Accessibility

Marshall University is committed to making all programs, services, and activities fully accessible to students with disabilities.

According to the U. S. Department of Education's OCR Compliance Review No. 11-11-6002:

"Accessible" means a person with a disability is afforded the opportunity to acquire the same information, engage in the same interactions, and enjoy the same services as a person without a disability in an equally effective and equally integrated manner, with substantially equivalent ease of use. Educational benefits and opportunities afforded by technology are "accessible" if a person with a disability is afforded the opportunity to acquire the same information, engage in the same interactions, and enjoy the same services as a person without a disability in an equally effective and equally integrated manner, with substantially equivalent ease of use. A person with a disability must be able to obtain the information and engage in the same interactions as fully, equally, and independently as a person without a disability. Although this might not result in identical ease of use compared to that of persons without disabilities, it still must ensure equal opportunity to the educational benefits and opportunities afforded by the technology and equal treatment in the use of such technology.

Requesting Services

Registration and Documentation

To receive accommodations, assistive technology, and/or auxiliary aides, students must schedule an appointment with the Office of Disability Services Director to register for services. Web conferencing can be arranged for students who have long travel distances, take online courses, or are attending classes at remote campus locations. Students will need to schedule this initial appointment either through email or telephone contact to the Office of Disability Services director. At this initial meeting, students need to provide documentation of their need for reasonable accommodations, assistive technology, and/or auxiliary aids/services.

Please note that the H.E.L.P. Center and Autism Center's College Program have different intake procedures for students. Please contact them directly.

Course Substitution

Students with disabilities may apply for course substitutions or waivers as a reasonable accommodation under the following policy:

Conditions

A student with a disability seeking a course substitution or waiver must meet the following conditions:

- Completion of the Course Substitution/Waiver Form. This form requires that the student attach a recent (within two years) diagnosis of a disability warranting a substitution or waiver. (The form is available in the Office of Disability Services, the H.E.L.P. office, the Buck Harless Student Athlete Program office, college deans' offices, and the office of the Dean of Student Affairs.) A licensed psychologist, a licensed school psychologist, or a properly credentialed education specialist must have made the diagnosis in the case of a learning disability.
- Verification on the Course Substitution/Waiver Form from the dean of the student's college, upon recommendation by the faculty of the department in which the student is a major, that the course for which a substitution is requested is not an integral part of the student's course of study. If the course is integral to the course of study the substitution or waiver request shall not go forward.
- Submission of the Course Substitution/Waiver Form to the Office of Disability Services.

Procedure

Submission of the Course Substitution Form by the student to the academic college dean's office initiates the process. The dean's office completes its portion and sends the form to the Office oft Disability Services. The student provides the Office of Disability Services with the diagnosis documentation. If approved, a letter of approval of accommodation is mailed to the dean's office and student. The student will then need to meet with the associate dean to discuss the class options for accommodations.

A student who is denied a course substitution or waiver may appeal in writing within 10 working days to the Provost/Senior Vice President for Academic Affairs, whose decision is final. Students should be aware that a course substitution/waiver would not be valid at any other institution and would have to be approved by the new college or department if the student changes major or declares a second major at Marshall University.

Appeals Process

Students who believe they have been inappropriately denied a reasonable accommodation by the Autism Training Center, the H.E.L.P. Center, or the Office of Disability Services may appeal as follows.

Step One: The student will submit the Accommodation Appeal Form to the Office of Disability Services within two (2) days of the denial of accommodations. This appeal form requires the recommended accommodations as provided by a licensed physician, psychologist or other appropriate medical professional. In addition, the student will provide a written statement indicating why the denial of the accommodations is in error and a potential detriment to the student's ability to participate in curricular and co-curricular activities.

The Office of Disability Services will, within five (5) business days, attempt to informally resolve the appeal. Resolution may be an affirmation of the refusal of the accommodation with a rationale for the decision, recommend provision of the accommodation, or submission of the appeal form for a Step Two review.

Step Two: If the student is not satisfied with the decision from Step One, he or she may forward the Accommodation Appeal Form within two (2) days of receipt the Step One decision to the Vice President for Student Affairs (VPSA), or his/her designee who will further investigate the appeal. This investigation may involve a meeting with the student, staff of Autism Training Center, the H.E.L.P. Center, and/or the Office of Disability Services, faculty and staff involved in the appeal, and others whose expertise may inform the review. The VPSA will render a decision, including a rationale, in a timely manner within five (5) business days. The VPSA may also submit the appeal form for a Step Three review.

Step Three: If the student is not satisfied with the decision from Step Two, he or she may forward the Accommodation Appeal Form within two (2) days of receipt the Step 2 decision to the Senior Vice President for Academic Affairs and Provost or his/her designee, (VP AA&P), who will further investigate the appeal. The VPAA&P will render a decision, including a rationale, within five (5) business days. The decision of the VP AA&P shall be final.

Failure to Provide An Accommodation or Issues with Providing an Accommodation

Students, the Office of Disability Services, or the faculty or staff who believe an employee of Marshall University failed to or has issues with providing an accommodation approved by the Autism Training Center, the H.E.L.P. Center, and/or the Office of Disability Services will submit the Accommodation Complaint Form to the Office of Disability Services. The Office of Disability Services will, within five (5) calendar days, report to the student and the VPSA the result of an investigation of the complaint and the action taken, if any.

If the Student, the Office of Disability Services, faculty or staff believes that:

- any agreed to resolution of the matter has not been adhered to or followed, or
- the Accommodations are still not being provided,
- no resolution can be reached concerning the issue, or
- there is a dispute regarding how/what accommodations should be provided,

then the matter may be appealed.

Appeal of Failure to Provide an Accommodation

Step One: The student, the Office of Disability Services, the faculty or staff will submit the Accommodation Complaint Form within two (2) days of the issue or incident of providing an accommodation occurs to the Office of the VPSA. This appeal form requires the recommended accommodations as provided by a licensed physician, psychologist or other appropriate medical professional. In addition, the student, Office of Disability Services, the faculty or staff will provide a written statement indicating what resolution attempts, if any, have been taken. Indicate which of the reasons indicated in 2.2 has occurred.

Step Two: The Office of the VSPA will, within five (5) business days, attempt to resolve the appeal. This attempt at resolution may involve a meeting with the student, staff of the Autism Training Center, the H.E.L.P. Department, and/or the Office of Disability Services, faculty and staff involved in the appeal, their director, chair, dean, and/or others whose expertise may inform the review. The Office of the VPSA

will render a decision, including a rationale, in a timely manner within five (5) business days. The VPSA may also submit the appeal form for a Step Three review.

Step Three: If the student, the Office of Disability Services, faculty or staff is not satisfied with the decision from Step Two, he or she may forward, within two (2) days of the Step Two decision, the Accommodation Complaint Form to the Office of the Senior Vice President for Academic Affairs and Provost or his/her designee, (VP AA&P), who will further investigate the appeal. The VP AA&P will render a decision, including a rationale, within five (5) business days. The decision of the VP AA&P shall be final.

The VPAA&P shall have the authority to direct University faculty and staff to provide any accommodation to which the VP AA&P finds that the student is entitled to receive.

Accommodations which have been approved by the Autism Training Center, the H.E.L.P. Department, and/or the Office of Disability Services, must be provided during the appeal process.

If faculty or staff are found to have failed to provide an accommodation after all the measures outlined herein have been exhausted or at any time during the appeal process, then the matter will be referred to The Office of Equity Programs/Title IX for further investigation and possible disciplinary actions.

Right to Accommodation for Any Judicial or Appeal Process

All students with a previously approved accommodation may be entitled to receive reasonable accommodations during any judicial or appeal process. Upon notification by the student, or by the individuals conducting a judicial or appeal process, the Office of Disability Services will coordinate the provision of the accommodation and have the authority to identify how best to provide the accommodation. Provided that, the Student may be required to register to register with the Office of Disability Services to receive those accommodations in accordance with University policy and procedures.

Retaliation Prohibited

No individual may retaliate against the student or any person that assists the student in the receipt of accommodations or this appeal process.

"Retaliate" means to take an adverse action against an individual or subject an individual to conduct that has the purpose or effect of unreasonably interfering with that individual's educational experience, work or academic performances, or creates an educational experience or academic or work environment that a reasonable person would find intimidating or hostile because of something that individual did to further the University's policy for providing accommodations.

Weather-Related and/or Emergency Closings and Delays

(from Board of Governors Policy GA-9, updated June 11, 2013)

Huntington Campus

Generally it is Marshall University's policy to maintain its normal schedule, even when conditions are inclement. However, that is not always possible.

In those instances when it is necessary to alter the schedule in response to weather conditions, every effort will be made to notify all those affected—students, faculty, staff and the general public—as expeditiously and as comprehensively as possible in the following ways:

- The university subscribes to a third-party service to provide notifications by e-mail, text message, and telephone, referred to as "MU Alert" at Marshall. All students, faculty and staff will be enrolled in the MU Alert database with their university e-mail addresses, and, in the case of faculty and staff, their office telephone numbers. Students, faculty and staff may provide additional contact methods, including those for text messaging and cell phone numbers, through the use of the myMU portal. In cases of weather-related or other emergency closings and delays, University Communications staff will use all contact points in MU Alert to send notification.
- Television stations in Huntington and Charleston will be notified.
- Radio stations in Huntington and Charleston will be asked to announce the delay or closing.
- Time permitting, newspapers in Huntington and Charleston will be notified. Often, however, decisions must be made after deadlines of newspapers.

Note: 3.3 This section applies only to the Huntington campus and all releases should make it clear that it relates only to the Huntington campus. The weather-related closings policy for the South Charleston campus and other education centers will be managed by the chief administrative officer (as designated by the University president) for the respective location, and all releases should make clear that the release applies only to the affected location.The South Charleston phone number is 304-746-2500. See the following for information on MUGC (South Charleston) procedures.

Definitions

University Closed: All classes suspended and offices closed.

Classes Cancelled: All classes suspended; offices open.

Delay Code A: Means a delay in the opening of classes **but** no delay in the opening of offices. Delays will usually be in the range of one to two hours. Employees are expected to report to work at their normal starting times unless they feel that travel is unsafe. If an employee feels that he/she cannot travel safely to work, they may charge accrued annual leave for the portion of the workday from 8:00 a.m. (or their normal start time) until their arrival at work.

Delay Code B: Means a delay in the opening of classes **and** a delay in the opening of offices. Delays will usually be in the range of one to two hours. Employees do not have to report to their offices until the stated delay time. If they believe they cannot travel to work safely by the stated delay time, they may charge accrued annual leave for the work hours from the stated delay time until they can next report to work.

Class operation under delays: Under both categories of delay, students should go to the class that would begin at the stated delay time or the class that would have convened within 30 minutes of the stated delay time. A two-hour delay means that classes that begin at 10:00 a.m. begin on time. Classes that begin at 9:30 a.m. meet at 10:00 a.m. and continue for the remaining period of that class.

Exceptions with regard to employees: Certain critical and emergency employees may be required to report to work on time or earlier than normally scheduled despite the particular delay code published.

Clarification
Information about closing, cancellations, or delays will ordinarily be disseminated to area radio and television stations. The authoritatively correct statement of the University's condition (Huntington) is stipulated to be the message on the main page of the website at www.marshall.edu (http://www.marshall.edu).

Faculty
Once operations are resumed, deans, and departmental chairs must take steps to ensure that faculty meet their scheduled classes or substitutes secured so that class schedules are met.

Decision Making
Decisions on closings and/or delays will be made jointly by the Chief of Staff, Senior Vice President for Academic Affairs and the Senior Vice President for Administration following the consultation with other appropriate officials, including the President. Should only one or two of those three persons be available, the ones available will make the decision.

Every effort will be made to reach decisions to allow time for adequate notification to the news media, and in turn, those affected.

South Charleston Campus and Other Education Centers
General Policy
Because weather conditions can vary substantially, it is possible that classes will be delayed or cancelled at some locations and not at others.

South Charleston Campus
Notification of delays or cancellations at the South Charleston campus will be announced by

1. local media,
2. MU Alert, and
3. University website.

Students may check the status of their classes by checking the website.

Point Pleasant, Beckley, Teays Valley and Other Educational Centers
Procedures for delayed openings and class cancellations are similar to those for the South Charleston campus. At Point Pleasant, Beckley, and Teays Valley, local media will provide information regarding cancellations. In addition, each site has a weather hot line:

1. Point Pleasant, 304-674-7239;
2. Beckley, 304-252-0719;
3. Teays Valley, 304-757-7223.

Remote Locations and Other Education Centers
Because there may be classes meeting on an irregular schedule in a geographically dispersed area throughout the semester, decisions about whether to meet during inclement weather will be made by the instructor. Those decisions will be transmitted to students by e-mail or other methods as agreed by students and the instructor.

Definitions
South Charleston Closed: All classes cancelled and offices closed.

South Charleston Classes Cancelled: All classes cancelled. Details provided by site.

South Charleston Delay: A delay in the beginning of non-class activities, e.g. a two-hour delay would mean the normal work day would begin at 10:00 a.m. rather than 8:00 a.m.

Academic Information
Absences from Class
(see "Class Attendance.")

Academic Common Market
Out-of-State Programs at Reduced Tuition
West Virginia residents can pursue academic programs not available within the state through the Academic Common Market (ACM) and through contract programs. Both programs enable West Virginians to enter out of state institutions at reduced tuition rates. Contract programs have been established for study in veterinary medicine, optometry, architecture, and podiatry; ACM provides access to both baccalaureate and graduate programs not otherwise available in West Virginia. The programs are restricted to West Virginia residents who have been accepted for admission to one of the specific programs at designated out of state institutions. For information please contact the Office of Academic Affairs, Old Main 200, (304-696-6840) or the Higher Education Policy Commission.

Out-of-state students who have been granted Academic Common Market access to Marshall University should follow the Academic Common Market Procedures available at www.marshall.edu/academic-affairs/academic-common-market (http://www.marshall.edu/academic-affairs/academic-common-market/).

Academic Dishonesty Policy
Introduction
As described in the Marshall University Creed, Marshall University is an "Ethical Community reflecting honesty, integrity and fairness in both academic and extracurricular activities."

Academic dishonesty is something that will not be tolerated, as these actions are fundamentally opposed to "assuring the integrity of the curriculum through the maintenance of rigorous standards and high expectations for student learning and performance," as described in Marshall University's Statement of Philosophy.

A student, by voluntarily accepting admission to the institution or enrolling in a class or course of study offered by Marshall University accepts the academic requirements and criteria of the institution. It is the student's responsibility to be aware of policies regulating academic conduct, including the definitions of academic dishonesty, the possible sanctions, and the appeal process.

For the purposes of this policy, an academic exercise is defined as any assignment, whether graded or ungraded, that is given in an academic course or must be completed toward the completion of degree or certification requirements. This includes, but is not limited to: Exams,

quizzes, papers, oral presentations, data gathering and analysis, practica, and creative work of any kind.

Definitions of Academic Dishonesty

Below are definitions of some common types of academic dishonesty. Each instructor may modify the general definition of academic dishonesty to fit the immediate academic needs within that particular course of study, provided the instructor defines, in writing and preferably in the course syllabus, the details of any departure from the general definition.

- *Cheating:* Any action which if known to the instructor in the course of study would be prohibited. This includes:
  - The unauthorized use of any materials, notes, sources of information, study aids or tools during an academic exercise.
  - The unauthorized assistance of a person other than the course instructor during an academic exercise.
  - The unauthorized viewing of another person's work during an academic exercise.
  - The unauthorized securing of all or any part of assignments or examinations, in advance of submission by the instructor.
- *Fabrication/Falsification:* The unauthorized invention or alteration of any information, citation, data or means of verification in an academic exercise, official correspondence or a university record.
- *Plagiarism:* Submitting as one's own work or creation any material or an idea wholly or in part created by another. This includes:
  - Oral, written and graphical material.
  - Both published and unpublished work.
  - It is the student's responsibility to clearly distinguish his/her own work from that created by others. This includes the proper use of quotation marks, paraphrasing and the citation of the original source. Students are responsible for both intentional and unintentional acts of plagiarism.
- *Bribes/Favors/Threats:* Attempting to unfairly influence a course grade or the satisfaction of degree requirements through any of these actions is prohibited.
- *Complicity:* Helping or attempting to help someone commit an act of academic dishonesty

Sanctions

Sanctions of academic dishonesty may be imposed by the instructor of the course, the department chairperson, the academic dean, or the associate provost.

Students may not withdraw from the course until all appeals are complete.

The appropriate sanction(s) for an act of misconduct must be decided on a case-by-case basis as appropriate by academic discipline, teaching method, course level, and degree of misconduct. When possible, the sanction should be selected with the aim of aiding the student in understanding the seriousness of their behavior and the consequences of ethical misconduct. The faculty member may issue any of the sanctions listed below. The instructor may impose at their discretion the following sanctions should the student choose not to appeal or loses an appeal of an academic dishonesty charge:

- *Warning letter*
- *Retake/Replace Assignment:* An appropriate sanction for minor violations in which the student admits culpability for a minor violation, generally poor citations, or other plagiarism without intent to defraud, is allowing a student to retake an assignment or to make-up an assignment with different work. These assignments should have a maximum score less than that of the initial assignment.
- *No Credit ("0") for the Assignment:* This is the recommended sanction for most minor academic dishonesty. This sanction is appropriate for collaborating on homework and/or minor plagiarism in a writing assignment. If this action affects the student's final grade, a grade of "Incomplete" should be given at the end of a semester pending the completion of the appeal process. Upon completion, the appropriate grade change can be made.
- *Exclusion from class activities:* When an individual student's conduct may negatively impact another student's academic performance, such as in labs or group work, the instructor may assign the identified student to work independently on any required assignments/labs. This action may be taken immediately, prior to the conclusion of the appeal.
- *Reduction of Final Course Grade/Failure of the Course:* These sanctions are recommended for most major violations of academic integrity. Such violations include cheating on a midterm or final exam, plagiarizing a term paper, or other misconduct on a major cumulative experience. A grade of "Incomplete" should be given at the end of a semester pending the completion of the appeal process. Upon completion, the appropriate grade change can be made.
- *Temporary Prohibition from Retaking the Class:* A student who is appealing a charge of academic dishonesty may not retake the same course in which the charge was made, with the instructor who made the charge, until the appeal is complete, unless such a prohibition would necessarily delay the student's graduation.

In those cases in which the offense is particularly flagrant or where there are other aggravating circumstances, additional non-academic sanctions may be pursued through the Office of Student Conduct.

The instructor or responsible office must notify any student accused of an offense within five (5) instructional days of the discovery of the incident, in writing, and outline any charges and subsequent sanctions imposed for academic dishonesty. Written notification of academic dishonesty charges (and inclusion of confirmed charges/sanctions in the student's records) is designed to inform a student of the potential repercussions of repeat offenses and their rights of appeal.

Any time an accusation of academic dishonesty is made and a sanction imposed (or a sanction will be imposed with the submission of final grades), a notice should be sent to the Office of Academic Affairs within five (5) instructional days of the accusation.

In addition, the Office of Academic Affairs will inform the student and the student's dean of the accusations made, the sanctions prescribed, the repercussions of repeat offenses, and their right of appeal. A copy of the report will go into the student's college file. Any subsequent action taken (additional sanctions imposed, the lessening of sanctions, the withdrawal of accusations, the result of appeals, etc.) must be reported to the Office of Academic Affairs within ten (10) instructional days of the action.

The Office of Academic Affairs will maintain a file of academic dishonesty incidents. These will be reported in summary form (no student or faculty names will be included) to the Academic Deans and the Faculty Senate at the end of each academic year.

Repeat Offenses

The Office of Academic Affairs will impose sanctions for repeated academic dishonesty charges after consultation with the appropriate department chairs and deans.

A student's record of academic dishonesty charges will be maintained throughout their enrollment at Marshall University. As a result of the first offense, a student can choose to be enrolled in an Academic Integrity Seminar within thirty (30) instructional days of the sanction. The first offense will be expunged from the student's record upon successful completion of the Academic integrity seminar, but a record of this offense will remain with Academic Affairs. Students who appeal the academic dishonesty charge can enroll in the seminar if the appeal is unsuccessful. Again, the student must enroll within thirty (30) instructional days of the end of the appeal. Specific information regarding the Academic Integrity Seminar can be obtained in the Office of Student Advocacy, Memorial Student Center, Room 2W40.

A student who has successfully completed the Academic Integrity Seminar, and is charged with a second offense, may not retake the seminar. This student will be placed on academic probation for a period of one calendar year. If this student is charged with a third offense, they will be suspended for a period of one academic year. If this student is charged with a fourth offense, they will be expelled from the university.

If a student elects not to complete the Academic Integrity Seminar, they will be suspended after their second offense and expelled after their third offense.

A suspension issued due to academic dishonesty must be served prior to any degree being awarded to the student.

Reporting:

Any time an accusation an accusation of academic dishonesty is reported to the Office of Academic Affairs, and a sanction imposed (or a sanction will be imposed with the submission of final grades), a notice should be sent to the Office of Academic Affairs within five (5) days of the accusation.

Notice of an act of academic dishonesty will be reported to the Office of Academic Affairs through the completion of an "Academic Dishonesty Report Form." The "Academic Dishonesty Report Form" will include:

- Instructor's Name
- Course Information (Term, Number, Section)
- Student's Name
- Student's University Identification Number
- Brief Description of the Charge
- Date of Accusation
- Brief Description of the Sanction

Instructors are encouraged to give a copy of the "Academic Dishonesty Report Form" to a student accused of an offense. However, within ten (10) days of receipt of the "Academic Dishonesty Report Form" the Office of Academic Affairs will inform the student and the student's dean of the accusations made, the sanctions prescribed, the repercussions of repeat offenses, and their rights of appeal. A copy of the report will go into the student's college file.

Undergraduate Appeals Process

In cases where the instructor imposes sanctions and does not refer the matter to the department chairperson for additional sanctions, the student may appeal the sanction in accordance with the procedures described for grade appeal (see listing under "Grade Appeal" described in the Undergraduate Catalog). This includes lowered grades, exclusion from class activities and failure of the course.

If allegations of academic dishonesty are referred to the department chairperson for additional sanctions, it must be within ten (10) days from the date of the alleged offense. The process starts with the dean if there is no department chairperson.

The department chairperson will bring together the student involved, and the faculty member, and/or other complainant within ten (10) days from the date of referral.

If the student denies guilt or disagrees with the sanction imposed, or if the faculty member, other complainant, or chairperson feels that the penalties are insufficient for the act complained of, the case will be forwarded in writing by the chairperson to the student's academic dean within five (5) days from the date of the meeting. The academic dean will bring together the student, faculty member or other complainant, and the department chairperson to review the charges within five (5) days from the date of referral. The academic dean may impose any sanction permitted by this policy.

Should the student, faculty member, or other complainant be dissatisfied with the determination of the academic dean, the case may be appealed in writing within five (5) instructional days of the written decision to the Budget and Academic Policy Committee, who will refer the case to the University Academic Appeals Board which determines if an appeal hearing is justified. If the University Academic Appeals Board determines a hearing is justified, the Board will schedule the hearing. The University Academic Appeals Board has the right to seek additional documentation if necessary. The University Academic Appeals Board has thirty (30) days to convene the members of the Hearing Panel to hear the appeal (once the requested documentation is provided by the appellant student) and five (5) instructional days after the hearing to make written notification of the determination to the student and instructor. It may not always be possible to meet the above conditions because many of these appeals occur at times when school is not in session. However, every effort will be made to schedule appeal hearings in a timely and reasonable manner.

Should the student, faculty member, or other complainant be dissatisfied with the determination of the Academic Appeals Board or the Hearing Panel, then they may file an appeal with the Chief Academic Officer (CAO) within fifteen (15) days from the receipt of the written decision of the Board. The decision of the CAO shall be final.

Only individual allegations of academic dishonesty may be appealed. If a previous offense was not appealed within the time limit, or was appealed unsuccessfully, then subsequent offenses will be counted as repeat offenses and additional sanctions will be levied by the Office of Academic Affairs as described under the section on "Sanctions."

Revised by Marshall University Board of Governors
December 17, 2020

Academic Dismissal

This is defined as termination of student status, including any right or privilege to receive some benefit, or recognition, or certification. A student may be academically dismissed from a limited enrollment

program and remain eligible to enroll in courses in other programs at Marshall University; or a student may be academically dismissed from the institution and not remain eligible to enroll in other courses or programs at Marshall University. The terms of academic dismissal from a program for academic deficiency shall be determined, defined, and published by each of the constituent colleges and schools of Marshall University. Academic dismissal from a program or from the University may also be imposed for violation of the University policy on academic dishonesty. For additional details, see "Academic Rights and Responsibilities."

Academic Forgiveness

The academic forgiveness policy allows forgiveness of *D* and *F* grades for purposes of calculating the Grade Point Average (GPA) required for graduation. This policy is designed to help students who left college with low grades. It will be implemented, provided certain conditions are satisfied, where the *D* and *F* repeat rule is not applicable:

- the student must have an absolute gap in enrollment for three consecutive calendar years, during which zero credit hours are earned or attempted at any institution of higher education **OR** the student must have a modified gap in enrollment for five consecutive calendar years, during which time up to 15 total credits may be earned or attempted at any institution of higher education, including Marshall University. The maximum of 15 total credits may be earned in one full-time semester or across one or more part-time semesters. Total credits earned within the modified gap in enrollment (five consecutive calendar years) may not exceed 15 credits;
- only *D* and *F* grades received prior to the absolute or modified gap in the enrollment period can be disregarded for GPA calculation;
- in order to receive a degree or certificate, the student must complete at least 24 additional credit hours through actual coursework from Marshall University after the non-enrollment period, earn at least a 2.0 GPA on all work attempted after the non-enrollment period and satisfy all degree or certificate requirements;
- forgiveness cannot be granted after the degree is conferred.

Grades disregarded for GPA computation remain on the student's permanent record. This policy applies only to the calculation of the GPA required for graduation and does not apply to GPA calculation for special academic recognition (such as graduating with honors) or to requirements for professional certification which may be within the province of licensure boards, external agencies, or the West Virginia Board of Education. Students can choose to have forgiveness applied to all grades of *D* or *F*, or to only specific grades of *D* or *F* on their record prior to the gap in enrollment.

A student may apply for academic forgiveness by submitting an Application for Undergraduate Academic Forgiveness available online at www.marshall.edu/registrar (http://www.marshall.edu/registrar/) or at www.marshall.edu/advising (http://www.marshall.edu/advising/). The Academic Advisor will review a student's gap in enrollment, then the Director of Undergraduate Academic Advising will accept, modify, or deny the application and will provide a justification.

Students may submit an application for academic forgiveness upon admission to Marshall University. The decision of forgiveness is portable and transfers to most academic programs at Marshall University. Programs that do not accept academic forgiveness are Dietetics, Nursing, and the Regents Bachelor of Arts program (this program is governed by a different forgiveness policy).

Students should be aware that this policy is not necessarily recognized by other institutions of higher education outside the state of West Virginia.

Academic Probation and Suspension

For information on Financial Aid Probation, please see the section on Student Financial Assistance (p. 40).

Probation for Academic Deficiencies

All undergraduate students whose Overall or Marshall GPA drops below a 2.0 will be placed on Academic Probation. Academic Probation is a period of restricted enrollment for a student. All probation students are subject to the following restrictions.

- Students on probation must meet with the Associate/Assistant Dean of their College before registering for classes to develop an Academic Improvement Plan to achieve good academic standing. This plan will be binding on the student.
- Students on probation may take a maximum of 14 hours and should repeat courses under the D/F Repeat Rule to reduce deficiency points.
- Students on probation must earn a 2.0 GPA or higher during every semester they are on probation. Failure to achieve a 2.0 semester GPA or higher while on Academic Probation will result in suspension (see below).
- Students on probation are not allowed to register by myMU.
- Students on probation must participate in their College's Retention Program.
- Other requirements may be imposed in the Academic Improvement Plan.

The student is returned to Academic Good Standing when his or her Marshall and Overall GPA are 2.0 or higher.

Suspension for Academic Deficiencies

Academic Suspension is defined as a period in which a student cannot enroll in courses at Marshall University. A student who has pre-registered and is subsequently suspended will have his/her registration automatically canceled.

1. Students who earn less than a 2.0 semester GPA while on Academic Probation or who accumulate or exceed the Quality Point Deficit for their GPA Hours (see Table One) will be suspended for one regular semester (the summer terms do not count as a term of suspension).

   Table One – Suspension QPD

GPA Hours	0-29	30-59	60-89	90 or more
Quality Point Deficit	20	15	12	9

2. When a student returns to Marshall after any suspension, the student will be placed on probation and must follow all of the requirements of his/her Academic Improvement Plan. Failure to meet all of the requirements of the Academic Improvement Plan or exceeding the Quality Point Deficits listed in Table 1 will result in suspension. **A second suspension will be for a period of one**

calendar year. Third and subsequent suspensions will be for a period of two calendar years each.

3. Petition for Reinstatement after a Second or Subsequent Suspension
   Reinstatement after a second or subsequent suspension is only by written petition to the Dean of a student's college, school, or program. The petition must be in writing and provide evidence that the student can meet the requirements of his or her Academic Improvement Plan. The written petition for readmission must be submitted at least 30 days prior to the beginning of the semester for which readmission is sought.

Probation for Academic Dishonesty

Academic probation for up to 1 year may be recommended by the instructor but will need to be imposed by the department chair, academic dean or the Office of Academic Affairs.

Suspension for Academic Dishonesty

A student with a second academic dishonesty offense during his/her enrollment at Marshall University will be academically suspended for a period of one academic year (to include summer terms).

Appeals of Academic Probation and Suspension

See "Academic Rights and Responsibilities of Students."

Approved by Faculty Senate, May 9, 2002, to go into effect Fall 2003

Academic Rights and Responsibilities of Students

Marshall University's policies in regard to the academic rights and responsibilities of students reflect Board of Governors Policy SA-2.

I. *Statement of Philosophy*
   Marshall University is an academic community and as such must promulgate and uphold various academic standards. Failure of a student to abide by such standards may result in the imposition of sanctions pursuant to Board of Governors Policy SA-2. A student, by voluntarily accepting admission to the institution or enrolling in a class or course of study offered by Marshall University, accepts the academic requirements and criteria of the institution. It is the student's responsibility to fulfill coursework and degree, or certification requirements, and to know and meet criteria for satisfactory academic progress and completion of the program.

II. *Definitions*
   A. **Academic Dean:** the chief academic officer of a college or school. The dean also serves in an advisory capacity to the student. The student is encouraged to contact his/her academic dean for guidance on appeal procedures.
   B. **Academic Deficiency:** failure to maintain the academic requirements and standards as established by Marshall University and its constituent colleges and schools other than those relating to academic dishonesty. This shall include but is not limited to the criteria for maintenance of satisfactory academic progress, i.e. Grade Point Average, special program requirements, professional standards, etc.
   C. **Academic Dishonesty:** Academic dishonesty is conduct on an academic exercise that falls into one or more of the following categories: cheating, fabrication/falsification, plagiarism, bribes/favors/threats, and complicity. These categories and "academic exercise" are defined in detail in the section on Academic Dishonesty in this catalog. Each instructor may modify the general definition of academic dishonesty to fit the immediate academic needs within that particular course of study, provided the instructor defines, in writing and preferably in the course syllabus, the details of any departure from the general definition.
   D. **Day:** shall refer to an instructional day.
   E. **Limited Enrollment Program:** any academic program which imposes admissions requirements in addition to general admissions to the University.
   F. **Student:** any undergraduate student who has been admitted to, and is currently enrolled in, a course or in a certificate or degree program at Marshall University, or for whom the institutional appeal period has not expired. Students enrolled in the undergraduate Nursing Program will follow these procedures.
   G. **University Community:** faculty, staff, or students at Marshall University.
   H. **President's Designee:** Chief Academic Officer.
   I. **Provost and Senior Vice President for Academic Affairs:** refers to the Chief Academic Officer.
   J. **Appeal Deadlines:** the time allowed for each level of appeal. There will be no time extensions unless granted by the Academic Appeals Board for good cause. If the appeals do not meet the established deadlines, the issue is no longer appealable.

III. *Student Academic Rights*
   Concomitant with other academic standards and responsibilities established by Marshall University and its constituent colleges and schools, each student shall have the following academic rights:
   A. The student shall be graded or have his/her performance evaluated solely upon performance in the coursework as measured against academic standards.
   B. The student shall not be evaluated prejudicially, capriciously, or arbitrarily.
   C. The student shall not be graded nor shall his/her performance be evaluated on the basis of his/her race, color, creed, sex, sexual orientation, or national origin.
   D. Each student shall have the right to have any academic penalty, as set forth herein, reviewed pursuant to the procedures in Section V. Except in those cases where a specific time is provided, this review shall occur within a reasonable time after the request for such review is made.
   E. Each student shall have access to the University catalog or program brochure in which current academic program requirements are described (e.g., required courses, total credit requirements, time in residence standards, minimum Grade Point Average, probation standards, professional standards, etc.).
   F. Each student shall receive from the instructor written descriptions of content and requirements for any course in which he/she is enrolled (e.g., attendance expectations, special requirements, laboratory requirements including time, field trips and cost, grading criteria, standards and procedures, professional standards, etc.).
   G. The instructor of each course is responsible for assigning grades to the students enrolled in the course consistent with the academic rights set out in the preceding sections.

H. Marshall University and its constituent colleges and schools are responsible for defining and promulgating:
1. The academic requirements for admission to the institution, for admission to limited enrollment programs, and for admission to professional and graduate degree programs;
2. The criteria for maintenance of satisfactory academic progress, for the successful completion of the program, for the award of a degree or certification, for graduation;
3. The requirements or criteria for any other academic endeavor, and the requirements for student academic honesty, consistent with the Policies, Rules, and Regulations of the Higher Education Policy Commission and with the fundamentals of due process; and
4. Probation, suspension, and dismissal standards and requirements.

I. Normally, a student has the right to finish a program of study according to the requirements under which he/she was admitted to the program. Requirements, however, are subject to change at any time, provided that reasonable notice is given to any student affected by the change.

IV. *Academic Sanctions: Undergraduate Students (Graduate and Medical Students Should Consult the Graduate Catalog.)*
A student who fails to meet the academic requirements or standards, or who fails to abide by the University policy on academic dishonesty, as defined by Marshall University, and its constituent colleges and schools, may be subject to one or more of the following academic sanctions:

A. A lower final grade in or a failure of the course or exclusion from further participation in the class (including laboratories or clinical experiences, any or all of which may be imposed by the instructor of the course involved).

B. Academic Probation

1. For Academic Deficiency:

- Any student who has less than a 2.0 Grade Point Average on coursework attempted at Marshall University and/or any approved coursework transferred from another institution shall be placed on academic probation. All probation students are subject to the following restrictions:
  - Meet with the Associate/Assistant Dean of their college before registering for classes to develop an Academic Improvement Plan to achieve good academic standing. This plan will be binding on the student.
  - Take a maximum of 14 hours and should repeat courses under the D/F Repeat Rule to reduce deficiencies.
  - Earn a 2.0 GPA or higher during every semester they are on probation. Failure to achieve a 2.0 semester GPA or higher while on probation will result in suspension.
  - May not register by myMU.
  - Must participate in their College's retention program.
  - Other requirements may be imposed in the Academic Improvement Plan

2. For Academic Dishonesty

Refer to the Academic Dishonesty Policy (p. 63).

C. Academic Suspension: Undergraduate Students (Graduate and Medical Students Should Consult the Graduate Catalog.)

1. For Academic Deficiency
Students who earn less than a 2.0 semester GPA while on Academic Probation or who accumulate or exceed the Quality Point Deficit for their GPA hours will be suspended for one regular semester (the summer terms do not count as a term of suspension). Students with 0-29 GPA hours will be suspended if they have 20 or more quality point deficiencies; with 30-59 hours, they will be suspended with 15 or more quality point deficiencies; with 60-89 hours, they will be suspended with 12 or more deficiencies; and with 90 or more hours, they will be suspended with 9 or more deficiencies.
When a student returns to Marshall after any suspension, the student will be placed on probation and must follow all of the requirements of his/her Academic Improvement Plan. Failure to meet all of the requirements of the Academic Improvement Plan or exceeding the Quality Point Deficits described above will result in suspension. A second suspension will be for a period of one calendar year. Third and subsequent suspensions will be for a period of two calendar years each.
2. For Academic Dishonesty
In those cases in which a student has been found guilty of a second academic dishonesty offense, he/she will be academically suspended for a period of one academic year (to include summer terms). During such period the student may not enroll in any course or program offered by Marshall University or any of its constituent colleges or schools.

D. Academic Dismissal
This is defined as termination of student status, including any right or privilege to receive some benefit, or recognition, or certification. A student may be academically dismissed from a limited enrollment program and remain eligible to enroll in courses in other programs at Marshall University; or a student may be academically dismissed from the institution and not remain eligible to enroll in other courses or programs at Marshall University. The terms of academic dismissal from a program for academic deficiency shall be determined, defined, and published by each of the constituent colleges and schools of Marshall University. Academic dismissal from a program or from the University will also be imposed for violation of the University policy on academic dishonesty.

V. *Academic Appeals*

The intent of the appeals process is to treat all parties fairly, and to make all parties aware of the appeals procedure. *Please Note:* Notwithstanding any other provision in Marshall University catalogs or policy documents, only students who are or will be dismissed from a program or from the University as a direct and immediate consequence of any academic sanction administered by the University may, at their own discretion and expense, retain

legal counsel for representation during all relevant administrative appeal proceedings.

A. Student Appeals for Instructor Imposed Sanctions:

In cases where a student is appealing a grade, the grade appealed shall remain in effect until the appeal procedure is completed, or the problem resolved.

In those cases in which a student has received an instructor-imposed sanction, including a lower final grade in or failure of the course or exclusion from further participation in the class, the student shall follow the procedures outlined below:

1. The student has ten (10) instructional days from the receipt of an individual grade on an academic exercise to begin a formal appeal. The student has ten (10) instructional days from the beginning of the next regular term (not including summer terms) to formally appeal a final grade. Appeal hearings are generally not held during the summer terms, except in cases of dismissal from program, suspension, or expulsion. Within the prescribed ten (10) instructional days, the student must attempt an informal resolution with the course instructor. If no resolution is reached, and the student wants to begin a formal appeal, the student must make an appointment and meet with a representative in the Office of Student Affairs to begin the formal appeal process. A student can reach the Office of Student Affairs by telephone at 304-696-6422 or by email at studentaffairs@marshall.edu. Within five (5) instructional days of the meeting with a representative of the Office of Student Affairs, the student must formally appeal to the instructor, in writing. The student who initiates an appeal is responsible for submitting all applicable documentation. The course instructor must respond to the student in writing within five (5) instructional days after the student has submitted the appeal documentation. If the course instructor does not respond to the student in five (5) instructional days, the appeal process continues to the department chairperson or division head. If the instructor is unavailable, the process starts with the department chairperson or division head.

2. If the formal appeal to the instructor does not have a mutually satisfactory result, the student may appeal in writing to the department chairperson or division head (or designated representative) within five (5) days after the receipt of the response from the instructor. The department chairperson or division head will attempt to resolve the issue at the departmental level. The faculty member must provide to the department chair or division head all criteria used for determining grades. The department chairperson or division head must respond to the student in writing within five (5) instructional days after the student has submitted the appeal documentation. If the department chairperson or division head (or representative) does not respond to the student within five (5) instructional days, the appeal process continues to the Dean of the college or school in which the course is offered.

3. If the formal appeal to the department chairperson or division head does not have a mutually satisfactory result, either the student or instructor may appeal in writing to the Dean of the college (or designated representative) in which the course is offered within five (5) instructional days after the receipt of the response from the chairperson or division head. The Dean of the college will attempt to achieve a mutually satisfactory resolution, and if the resolution fails, must respond to the student or instructor in writing within five (5) instructional days after the student or instructor has submitted the appeal documentation. If the person named above does not respond to the student or instructor in the given time frame, the appeal process continues to the next level.

4. Should the appeal not be resolved by the Dean of the college, either the student or instructor may appeal in writing within five (5) instructional days from the responses of the Dean to the Budget and Academic Policy Committee (BAPC) which shall refer the matter to the Academic Appeals Board to review the appeal for adherence to policy. If the appeal follows policy, the Board will schedule a hearing. If, however, the board determines that the timeline described above has been violated by the student or the instructor, or that the proper documentation has not been submitted, the board can terminate the process. The Academic Appeals Board also has the right to seek additional documentation if necessary. The Academic Appeals Board has thirty (30) instructional days to convene the members of the Hearing Panel to hear the appeal (once the requested documentation is provided by the appellant student) and five (5) instructional days after the hearing to make notification of the determination to the student and instructor. It may not always be possible to meet the above conditions because many of these appeals occur at times when school is not in session. However every effort will be made to schedule appeal hearings in a timely and reasonable manner.

5. If the determination of the Hearing Panel does not have a mutually satisfactory result, then the student or instructor may file an appeal with the Provost and Senior Vice President for Academic Affairs within fifteen (15) days of written receipt of the decision of the Hearing Panel. The decision of the Provost and Senior Vice President for Academic Affairs must be rendered in writing within fifteen (15) instructional days of receipt of the appeal, and shall be final.

B. Appeals for Academic Dishonesty:
Only individual allegations of academic dishonesty may be appealed. If a previous offense was not appealed within the time limit, or was appealed unsuccessfully, then subsequent offenses will be counted as repeat offenses and additional sanctions will be levied by the Office of Academic Affairs as described in the section on “Sanctions” in this policy.

1. In those cases where the instructor imposes a sanction pursuant to part IV, A, only, and does not refer the matter to the department chairperson or division head for additional sanctions, the student may appeal the sanction in accordance with the procedures described in part V. Academic Appeals (A).

2. In those cases where the matter is referred to the department chairperson or division head for additional sanctions, this action must occur within ten (10) days of the alleged offense. The chairperson or division head shall bring together the student involved, and the faculty member, and/or other complainant within ten (10) days from the date of referral.

3. If the student denies guilt or disagrees with the sanction imposed, or if the faculty member, other complainant, or chairperson or division head thinks that the penalties are insufficient for the act complained of, the case shall be forwarded in writing by the chairperson or division head to the student's Academic Dean within five (5) days from the date of the meeting. This person shall bring together the student, faculty member or other complainant, and the department chairperson or division head to review the charges within five (5) days from the date of referral. The student's Academic Dean may impose any sanction permitted by this policy.

4. Should the student, faculty member, or other complainant be dissatisfied with the determination of the student's Academic Dean, the case may be appealed in writing within five (5) days of the written decision to the Budget and Academic Policy Committee, who shall refer the case to the University Academic Appeals Board which determines if an appeal hearing is justified. If the University Academic Appeals Board determines a hearing is justified, the Board will schedule the hearing. The University Academic Appeals Board has the right to seek additional documentation if necessary. The University Academic Appeals Board has thirty (30) days to convene the members of the Hearing Panel to hear the appeal (once the requested documentation is provided by the appellant student) and five (5) days after the hearing to make notification of the determination to the student and instructor. It may not always be possible to meet the above conditions because many of these appeals occur at times when school is not in session. However every effort will be made to schedule appeal hearings in a timely and reasonable manner.

5. Should the student, faculty member, or other complainant be dissatisfied with the determination of the Academic Appeals Board or the Hearing Panel, then he/she may file an appeal with the Provost and Senior Vice President for Academic Affairs within fifteen (15) days from the receipt of the written decision of the Board or Panel.

6. The decision of the Provost and Senior Vice President for Academic Affairs shall be final.

C. Appeals for Academic Deficiencies:

1. In those cases in which an undergraduate student has been denied admission to a program, has been or may be placed on academic probation or academic suspension for academic deficiencies, the following procedures are applicable:

a. The student is entitled to written notice; (1) of the nature of the deficiency or reason for denial of admission to a program; (2) of the methods, if any, by which the student may correct the deficiency, and; (3) of the penalty which may be imposed as a consequence of the deficiency.

b. The student shall be given the opportunity to meet with the person(s) who has judged his/her performance to be deficient, to discuss with this person(s) the information forming the basis of the judgment or opinion of his/her performance; to present information or evidence on his/her behalf; and to be accompanied at any such meeting by an advisor of his/her choice from the University (faculty, staff, or student). Such advisors may consult with, but may not speak on behalf of their advisees, or otherwise participate directly in the proceedings, unless given specific permission to do so by the person conducting the meeting. The student is not entitled to an attorney in such meetings, and the formal rules of evidence are not applicable. The student must request such meeting in writing ten (10) days from receipt of the notice.

c. If the student is dissatisfied with the outcome of the meeting outlined in (b) above, the student may appeal the judgment to the Provost and Senior Vice President for Academic Affairs within thirty (30) days after receipt of written notice of the judgment.

d. The decision of the Provost and Senior Vice President for Academic Affairs is final.

2. In those cases in which a student has been or may be dismissed from an undergraduate academic program, or has been or may be dismissed from the institution for academic deficiencies, the following procedures are applicable:

a. The student is entitled to written notice; (1) of the nature of the deficiency; (2) of the methods, if any, by which the student may correct the deficiency, and; (3) of the penalty which may be imposed as a consequence of the deficiency.

b. The student shall be given the opportunity to meet with the person(s) who judged his/her performance to be deficient. The student must request such meeting in writing within ten (10) days from receipt of the notice. The student shall be given the opportunity to discuss with this person(s) the information forming the basis of the judgment or opinion of his/her performance, to present information or evidence on his/her behalf, and to be accompanied at any such meeting by an advisor of his/her choice from the University (faculty, staff, or student). Such advisor may consult with but may not speak on behalf of his/her advisee, or otherwise participate directly in the proceedings, unless given specific permission to do so by the person conducting the meeting. The student is

not entitled to an attorney in such meetings, and the formal rules of evidence are not applicable.

c. If the student is dissatisfied with the outcome of the meeting outlined in (b) above, the student may file an appeal in writing with the Chairperson of the Budget and Academic Policy Committee. The Chairperson of the Budget and Academic Policy Committee will refer the matter to the University Academic Appeals Board which determines if an appeal hearing is justified. If the University Academic Appeals Board determines a hearing is justified, the Board will schedule the hearing. The University Academic Appeals Board has the right to seek additional documentation if necessary. The University Academic Appeals Board has thirty (30) days to convene the members of the Hearing Panel to hear the appeal (once the requested documentation is provided by the appellant student) and ten (10) days after the hearing to make notification of the determination to the student and instructor. If the student is denied an appeal, he/she may appeal this decision to the Provost and Senior Vice President for Academic Affairs. If the student is granted an appeal, the Chairperson of the Academic Appeals Board will appoint a Hearing Panel. At least two (2) of the faculty and student members of the Hearing Panel will, if possible, be chosen from the members of the Hearing Panel Pool appointed from the constituent college or school involved. It may not always be possible to meet the above conditions because many of these appeals occur at times when school is not in session. However every effort will be made to schedule appeal hearings in a timely and reasonable manner. The student's appeal must be filed within ten (10) days after receipt of written notice of the decision outlined in (b) above.

d. If the student, faculty member or other complainant is dissatisfied with the decision of the Hearing Panel, he or she may appeal the decision to the Provost and Senior Vice President for Academic Affairs within thirty (30) days after receipt of written notice of the decision.

e. The decision of the Provost/Senior Vice President for Academic Affairs is final.

VI. *Academic Appeals Board*

A. Description and Jurisdiction:
The Academic Appeals Board is a permanent subcommittee of the Budget and Academic Policy Committee. It is composed of experienced Hearing Officers and is established to determine whether appeals arising from the following should result in a hearing:

1. Instructor-imposed sanctions, including: lowering of final course grade, failure of course, or exclusion from further participation in the class.
2. Final course grades.
3. Sanctions imposed for academic dishonesty.
4. Dismissal from an academic program.
5. Dismissal from the University.
6. Such other cases as may be referred to the Board.

B. Function:
The University Academic Appeals Board collectively decides whether:

a) The prior steps of the appeal process have been completed.
b) The claim (if substantiated) would result in the overturning of the academic sanction. This means that some policy may have been violated in the application of the sanction, arbitrariness or capriciousness may been a factor in the sanction, different standards may have been applied to the student or there may have been bad faith or ill will on the part of the instructor's applying of the sanction.
c) Appropriate documentation of the claim needs to be provided in order to justify a hearing. It is the student's job to provide documentation for his/her claims. The Board may ask for additional documentation from either students or faculty in order to determine whether a hearing is justified.

VII. *Hearing Panel*
The purpose of the Hearing Panel is to hear arguments, evaluate evidence, and reach a decision by voting in an Academic Hearing.

A. The Hearing Panel shall be composed of faculty and student members chosen in the following manner:

1. Faculty Members:
The Dean of each of the constituent colleges and schools of the University shall appoint five (5) faculty members from his/her unit to serve on the Hearing Panel Pool. Such appointments will be made annually in the spring semester with the understanding that some of these faculty members will be available to hear appeals during the summer terms and the week before the beginning of Spring semester. Terms will run from May 15 to the following May 15.

2. Student Members:
The Student Government Association President shall appoint three (3) students from each of the constituent colleges and schools of the University to serve on the Hearing Panel Pool.

3. Hearing Officers:

The Budget and Academic Policy Committee will appoint two Hearing Officers each spring. It is desirable but not required that the Hearing Officers have served on a Hearing Panel.

B. Selection of Members for an Individual Hearing Panel

An individual Hearing Panel shall be composed of two (2) faculty members, one (1) student member, and one (1) non-voting Hearing Officer. The members of the Hearing Panel shall be chosen randomly from the Hearing Panel Pool by the Chairperson of the Academic Appeals Board or his/her designee. In appeals arising from dismissal from an academic program, if possible, at least two (2) of the faculty and student members of the Hearing pPanel should be chosen from the Hearing Panel Pool members appointed from the constituent college or school involved.

VIII. *Hearing Procedures*

It is the intent of these procedures to ensure that Marshall University students receive appropriate due process in academic matters. This includes fundamental fairness, just sanctions, and all rights in accordance with the belief that academic appeal hearings at an institution of higher education such as Marshall University should have an educational objective. Academic appeals, pursuant to these procedures, are informal and not adversarial in nature.

A. The time and place of the hearing is determined by the Hearing Officer. The hearing should be held within sixty (60) days of receiving the written request. Upon written request, the Hearing Officer may, at his/her discretion, grant a continuance to any party for good cause.

B. The Hearing Officer will notify the appellee, appellant, and other appropriate parties in writing at least five (5) days prior to the hearing, of the date, time, and place of the hearing. A statement of the facts and evidence to be presented in support of the student's grounds for appeal will be provided to the appellee in appropriate cases.

C. The appellant student and the appellee have the right to an advisor. Advisors must be members of the University community (faculty, staff, or student). Such advisors may consult with, but may not speak on behalf of their advisees or otherwise participate directly in the proceedings, unless they are given specific permission to do so by the Hearing Officer.

D. The appellant student has the right, at his or her own discretion and expense, to retain legal counsel for representation only when he/she is or will be dismissed from a program or from the University as a direct and immediate consequence of any academic sanction administered by the University. In these cases an attorney is allowed to fully represent and speak on behalf of the appellant student. Rules of evidence and other formal rules of courtroom procedure do not apply. The Hearing Officer is authorized to decide what is relevant and what is not relevant.

E. Prior to the scheduled hearing, the members of the Hearing Panel may convene in closed session to examine the content of the appeal, the specific issues to be considered, and all supporting documents.

F. The student with his/her advisor, if any, will be called before the Hearing Panel and the Hearing Officer will then restate the nature of the appeal and the issues to be decided.

G. The hearing shall be closed. All persons to be called as witnesses, other than the appellant, with his/her advisor, if any, and the appellee and his/her advisor, if any, will be excluded from the hearing room. Any person who remains in the room after the hearing has begun may be prohibited from appearing as a witness at the discretion of the Hearing Officer.

H. Anyone disrupting the hearing may be excluded from the hearing room if, after due warning, he/she engages in conduct which substantially delays or disrupts the hearing, in which case the hearing shall continue and the Hearing Panel shall make a determination based on the evidence presented. If excluded, the person may be readmitted on the assurance of good behavior. Any person who refuses the Hearing Panel's order to leave the hearing room may be subject to appropriate disciplinary action pursuant to Marshall University policy. When a student appellant is excluded for disruptive behavior and does not have a recognized representative, the Hearing Officer will appoint one.

I. Except as provided in H and M herein, all evidence must be presented in the presence of the student.

J. The student or other parties involved may petition the Hearing Officer for a subpoena or a request for appropriate written information or documents

K. The student will be given the opportunity to testify and present evidence and witnesses on his/her own behalf and to discuss with, and question, those persons against whom the appeal is filed. Written evidence to be considered by the panelists should be received by the Hearing Officer at least five (5) business days prior to the hearing to be distributed to the panelists prior to the hearing. Exceptions to this five (5) day rule are at the discretion of the Hearing Officer, who may disallow long written documents or large numbers of documents from being introduced if the panelists will not have time to consider them fully.

L. The Hearing Panel may admit as evidence any testimony, written documents, or demonstrative evidence which it believes is relevant to a fair determination of the issues. Formal rules of evidence shall not be applicable in academic appeal hearings.

M. If the student appellant or the appellee fails to appear at a hearing and fails to make advance explanation for such absence which is satisfactory to the Hearing Panel, or if the student appellant or the appellee leaves before the conclusion of the hearing without permission of the Hearing Panel, the hearing may continue and the Hearing Panel may make a determination on the evidence presented at the hearing, or the Hearing Panel may, at its discretion, dismiss the appeal.

N. Upon completion of the testimony and presentation of evidence, all persons, except Hearing Panel members will be required to leave the room. The Hearing Panel will then meet in closed session to review the evidence presented. The Hearing Panel shall make its findings based upon a preponderance of evidence. The Hearing Panel shall reach its determination by a majority vote. The results shall be recorded in writing and filed with the Chairperson of the Budget and Academic Policy Committee and the Provost and Senior Vice President of Academic Affairs. If the Hearing Panel's decision includes the imposition of academic sanction, the sanction given and its duration must be specified for the record. A report of a dissenting opinion or opinions may be submitted to the Chairperson of the Budget and Academic Policy Committee and the Provost and Senior Vice President for Academic Affairs by any Hearing Officer.

O. The findings of the Hearing Panel, and any sanction, shall be announced at the conclusion of the hearing. The student, faculty member, and the appropriate Academic Dean shall be notified in writing of the findings and any sanction at the conclusion of the hearing. A record of the hearing shall be prepared by the Hearing Officer in the form of summary minutes and relevant attachments and will be provided to the student upon request.

P. No one may tape the proceedings.

Q. In an appeal related to a final grade the Hearing Officer will complete any necessary change of grade forms and submit

that information to the Registrar, the faculty member, and the appropriate Academic Dean.

R. Within thirty (30) days following receipt of the Hearing Panel's decision, the student, faculty member or other complainant may file an appeal with the Provost and Senior Vice President for Academic Affairs. A written brief stating grounds for the appeal should be presented by the student, faculty member or other complainant to the Provost and Senior Vice President of Academic Affairs. The scope of review shall be limited to the following:

1. Procedural errors.
2. Evidence not available at the time of the hearing.
3. Insufficient evidence to support the findings of the Hearing Panel or of the Academic Appeals Board.
4. Misinterpretation of University policies and regulations by the Hearing Panel or by the Academic Appeals Board.
5. A sanction disproportionate to the offense.
6. Lack of jurisdiction.

The Provost and Senior Vice President of Academic Affairs may affirm or modify the panel's findings and sanctions, if any, or remand the case to the Academic Appeals Board for further action.

S. The decision of the Provost and Senior Vice President for Academic Affairs is final. He/she will give written notification of the final decision to the student, the faculty member, the appropriate Academic Dean and as appropriate, the Registrar.

Approved by the Academic Standards and Curricular Review Committee: October 28, 1988

Approved by the Budget and Academic Policy Committee: October 21, 2004; March 4, 2005; April 17, 2009.

Revised by Faculty Senate: March 19, 2002; February 27, 2003; November 18, 2004; March 31, 2005; May 7, 2009.

Academic Suspension

See "Academic Probation and Suspension."

Academic Standing

(for more detailed information, see "Academic Rights and Responsibilities of Students**")**

Students receive official notification of academic standing in their grade report at the end of the regular semester or summer session.

Academic standing is defined by one of three categories:

1. *Good Standing:*
   The student is in good standing when the cumulative Marshall and Overall GPA (includes Marshall grades and any grades earned at other institutions), is at least 2.0. For purposes of participation in extracurricular activities, a student is considered to be in good standing if he or she is eligible to enroll in classes that semester and not under specific restriction as described in the Marshall University Code of Student Rights and Responsibilities, Section C (1-3). Individual activities or organizations may have further requirements for participation such as minimum GPA.
2. *Academic Probation:* The student is placed on academic probation at the end of any regular semester or summer session when either the cumulative Marshall or Overall GPA (includes Marshall grades and any grades earned at other institutions) is less than 2.0. The student will be notified by mail/e-mail that a hold has been placed on registration activity. This means the student cannot register or make schedule changes in myMU. All registration activity must take place in person at the Office of the Registrar or through the student's advisor. After seeing his or her advisor, the student must also get written permission from the associate dean, or appropriate college representative, of his/her college to register or make schedule changes. If a student on academic probation is taking an add/drop slip to the Office of the Registrar for course registration or adjustment, an Academic Improvement Plan (AIP) must accompany the slip at the time of registration.
3. *Academic Suspension:*
   If a student exceeds the maximum quality point deficits in the cumulative Marshall or Overall GPA (includes Marshall grades and any grades earned at other institutions) for his or her GPA hours at the end of any given semester, he or she will be suspended for the following semester. The college dean notifies suspended students by mail that a hold has been placed on their registration status and their registration for the following semester has been canceled (excluding summer terms). Please see "Academic Probation and Suspension" for details.

Accelerated Graduate Degree (AGD)

Marshall University offers an accelerated path through a number of its graduate degree programs. We encourage qualified undergraduates to consider participating in an Accelerated Graduate Degree (AGD) option, as it allows them to complete the requirements for the baccalaureate and graduate degree in less time and at lower cost..

Undergraduates accepted into an AGD program can begin taking graduate coursework during their senior year. Programs offering an accelerated master's degree option may allow up to 12 hours of graduate-level coursework. Programs offering an accelerated doctoral degree option may allow up to 18 hours of graduate-level coursework..

Programs may use one of two models for the AGD option. For those offering a 3+ graduate option, the department may allow specified graduate-level courses to double-count as fulfilling a portion of the bachelor's and master's degree requirements. For those offering an accelerated graduate degree option, the department will specify the graduate-level courses that to double-count as fulfilling a portion of the bachelor's and master's degree requirements and those graduate-level courses that will serve as electives for completion of the baccalaureate degree but not the graduate degree. Each program offering an AGD will clearly list how students may count courses for both degrees in the description of the degree options presented subsequently in this catalog.

Advantages of an Accelerated Degree

- complete the Bachelor's degree with up to 12 fewer credit hours (*Note:* Students must meet all other degree requirements for the bachelor's degree);
- begin work on the graduate degree during the senior year;

- complete a portion of graduate credits paying undergraduate tuition rates;
- earn a bachelor's and graduate degree in less time.

Programs Available

Currently, the Accelerated Graduate Degree is offered in these master's programs:

- Civil and Environmental Engineering
- Early Childhood Education
- Engineering Management
- Biological Sciences
- Criminal Justice
- Geography
- Health Informatics
- Psychology
- Sociology
- Sport Administration

Eligibility Requirements for Accelerated Graduate Degree

- must have completed at least 90 hours toward the bachelor's degree;
- must have at least a 3.30 overall undergraduate GPA;
- must have at least a 3.30 GPA in the major;
- must meet the admission requirements of the chosen master's degree program. (*Note:* AGD programs may have admission requirements that differ from the admission requirements for the regular master's degree. For example, some departments might waive the required admission test, such as the GRE, GMAT or Miller Analogies. Students should check with the chosen graduate degree program.)

How to Apply

1. During the junior or senior year, eligible students should meet with their undergraduate advisor and the Director of Graduate Studies of their chosen graduate degree program to develop an AGD Plan of Study. The Plan of Study form is available online at the Graduate Studies website. The completed, signed, and approved Plan of Study must be submitted to the Academic Dean. Any changes to the AMD Plan of Study must be approved by the undergraduate advisor and Director of Graduate Studies and submitted in writing to the dean.
2. The student's acceptance into the AGD program is subject to the approval of the Plan of Study by the dean.
3. Students accepted into the AGD program should apply for admission to the chosen graduate degree program for the first semester after the bachelor's degree is awarded. Applications should be submitted during the last semester of the senior year.

Requirements for Continuation in the AGD Degree Program

Students must maintain a minimum GPA of 3.0 for all graduate credit toward their graduate degree program.

Withdrawal from the AGD

A student may withdraw at any time from an approved AGD program by informing the undergraduate advisor, the Director of Graduate Studies, and the Academic Dean. A student's status will then revert to the standard undergraduate degree program. Any graduate hours earned must be approved for use in fulfillment of bachelor's degree requirements by the student's Undergraduate Dean.

From Undergraduate to Graduate Student

Beginning with the semester after the student has earned the bachelor's degree and has been accepted into a master's degree program, the student is assessed tuition and fees at the graduate rate. All rules regarding graduate education will apply to the student once admitted into the graduate degree program.

Additional Baccalaureate Degrees

It is possible to earn more than one baccalaureate degree by meeting these requirements:

- completing all of the major requirements for the desired degree;
- completing the college requirements for each desired degree;
- completing a minimum of 30 additional hours for each degree beyond the 120 hours required for the first baccalaureate degree (this means completing a total 150 hours for a second baccalaureate, 180 for a third baccalaureate, and so on);
- meeting the minimum residency requirement of 24 credit hours.

Grade Point Averages and graduation with honors must conform to existing university policies.

Advising

Although students are ultimately responsible for selecting a major and planning their course schedules, advising services are available to all students.

- The college office may assign an advisor to students with a declared major.
- Undecided students are advised by University College.
- Students on academic probation are also required to meet with the associate dean of their college for written approval to register or change their schedule.

The academic advisor is a very good person to get to know. He or she will help with advice and support with academic or career questions. Students usually see their advisors during registration periods, but all faculty advisors are available during office hours throughout the semester. Students should take the initiative and arrange an appointment with their advisors at any time during the semester when they need advice or help.

Some colleges require their students to consult with an academic advisor before they can register. The college office places an advising hold on the student's registration. This hold remains until the student has met with the appropriate advisor. Students should consult their college dean or major department for specific advising requirements.

Appeals Board

See "Academic Appeals" under "Academic Rights and Responsibilities."

Area of Emphasis

An area of emphasis is a specific subject area of study which has limited course offerings within an approved degree program and major. Normally, a minimum of twelve (12) credit hours would be expected for an area of emphasis at the undergraduate level.

Auditing Courses

Audit students enroll only for purposes of refreshing or acquainting themselves with the material offered in the course. Students can audit a course when there is space available in the class and the instructor authorizes audit status. Audit students receive no academic credit. Enrollment for audit is limited to the regular registration period for the semester or term. A student must enroll for the course as an Audit, and must pay fees in the same way and at the same tuition rate as students enrolling for credit. Faculty members who wish to audit courses must secure approval of the instructor of the course and must enroll in the regular way. The instructor of the course will determine attendance and any other special requirements for audit students. It is the instructor's responsibility to discuss the requirements of the course with the auditor. The instructor can notify the student's college dean and the Registrar's Office to withdraw the auditor from the class if attendance or other requirements are not met. **A student cannot change a registration from credit to audit or audit to credit after the close of the Schedule Adjustment period at the beginning of a semester or summer term.**

Catalog of Record

The catalog of record is the academic catalog that is in effect at the time the student declares a major. It identifies the graduation requirements that must be met to earn the degree. Once a major is declared, the catalog of record remains the same. A student has 10 years in which to complete the degree. If within that 10 year period the student changes majors or transfers colleges at Marshall, the catalog at the time of the change of major becomes the catalog of record. The student then has 10 years in which to complete the degree under the new catalog. If a student exceeds the 10 year period, the catalog of record is the one in effect at the date of graduation. A student may change a catalog year without a change of program or minor only to a more recent catalog. The student may request this change formally through the office of their dean. Students can substitute courses no longer offered with the permission of their college dean. (Education majors: see the residency requirements in the College of Education and Professional Development section (p. 405) of this catalog.)

Class Attendance

Policy Statement

Students are expected to attend punctually all class meetings, laboratory sessions, and field experiences and to participate in all class assignments and activities as described in the Course Syllabus. Absences are counted from the first class meeting after the student registers. Students registering late are expected to make up all missed assignments in a manner determined by the instructor. Students should be aware that excessive absences, whether excused or unexcused, may affect their ability to earn a passing grade.

The instructor of each class shall establish a policy on class attendance and make-up work, and provide the policy to students in the Course Syllabus. This policy must not conflict with university policies, including this policy. Class attendance may be a criterion in determining a student's final grade in the course if the instructor provides a statement to this effect in the course syllabus.

Students must promptly consult with their instructors about all class absences. Instructors will work with students to identify appropriate documentation and discuss any missed class time, tests, or assignments.

Except in the case of University Excused Absences, it is the decision of the instructor to excuse an absence or to allow for additional time to make up missed tests or assignments. A student may not be penalized for an excused absence, provided that the student, in a manner determined by the instructor, makes up the work that has been missed.

Instructors are required to honor valid University Excused Absences and to provide reasonable and equitable means for students to make up work missed as a result of those absences. Academic obligations that cannot be made up should be addressed by the course instructor in consultation with the student to ensure that continued enrollment is feasible while there is still an opportunity to drop the course within the established withdrawal period.

This policy excludes academic endeavors that require the completion of a specific number of clock hours, such as clinical experiences, practica, and internships. For those courses, the department chair or program supervisor will determine the maximum number of absences. This policy does not supersede program accreditation requirements.

This policy also excludes laboratory courses that require significant preparation and monitoring. For such courses, departments will determine the minimum number of laboratories a student must complete to pass the course. If a student cannot complete this number of labs, the instructor may recommend that the student withdraw from the class.

If the instructor believes that the number of absences accrued under the terms of this policy (whether excused or unexcused) is such that a student cannot fulfill the learning experience and mastery that a course requires, the instructor may recommend that the student withdraw from the class.

University Excused Absences

These are addressed by the instructor or the Assistant Dean of Advocacy and Support as described in each item. Appropriate documentation is required for each absence. The Student Advocate and Success Specialist will notify course instructors of his or her actions using the university e-mail system.

1. **University-sponsored activities.** Student participation in authorized activities as an official representative of the university. Such activities include official athletic events, ROTC, student government and student organization activities, regional or national meetings or conferences when endorsed by an academic or organization faculty advisor, performances, debates, and similar activities. The Assistant Dean of Advocacy and Support addresses these absences.
2. **Medical circumstances.**
   a. A student who is briefly ill or injured with fewer than three consecutive hours of class (see (b) below), and is therefore unable to attend class, should first consult with his or her course instructor about the absence. If necessary, the

instructor may refer the student to the Assistant Dean of Advocacy and Support.

b. The Assistant Dean of Advocacy and Support will address absences of three or more consecutive hours of class. This includes absences of three consecutive one-hour class meetings, one three-hour class meeting, etc.

3. **Death or critical illness of an immediate family member.** Immediate family is defined as parents, legal guardians, siblings, children, spouse or life partner, grandparents, and grandchildren. The Assistant Dean of Advocacy and Support addresses these absences.
4. **Other official activities.**
   a. **Short-term military obligations.** The Assistant Dean of Advocacy and Support addresses these absences. Students who are subject to federal military activation are covered by a separate policy. Please consult the catalog for this policy.
   b. Jury duty, subpoenas for court appearance, religious holidays, and other official activities deemed by the Assistant Dean of Advocacy and Support to warrant an excused absence.
5. **Extreme personal emergencies.** Examples of such events include house fires, serious crimes, and other grave emergencies deemed by the Assistant Dean of Advocacy and Support to warrant an excused absence.

Classification of Students

Classification of students is based on the number of college level credit hours earned as shown following:

Classification	Semester Hours
Freshman	0-29
Sophomore	30-59
Junior	60-89
Senior	90 or more

Course Numbers	Level
100-199	freshman level
200-299	sophomore level
300-499	junior and senior level
500 or above	graduate level

Contact Information

Students are required to have a valid, permanent address on file with the university. Updates to this address should be made online in the Student Information section of myMU.

Students must use their official Marshall e-mail addess when communicating with university offices and faculty, unless otherwise instructed, such as for online courses.

Course Substitution

Students may apply for course substitutions or waivers to accommodate disabilities under the following policy:

Conditions

A student seeking a course substitution or waiver due to the presence of a disability must meet the following conditions:

- Completion of the Course Substitution/Waiver Form. This form requires that the student attach a recent (within two years) diagnosis of a disability warranting a substitution or waiver. (The form is available in the Office of Disability Services, the H.E.L.P. office, the Buck Harless Student Athlete Program office, college deans' offices, and the office of the Dean of Student Affairs.) A licensed psychologist, a licensed school psychologist, or a properly credentialed education specialist must have made the diagnosis in the case of a learning disability.
- Verification on the Course Substitution/Waiver Form from the dean of the student's college, upon recommendation by the faculty of the department in which the student is a major, that the course for which a substitution is requested is not an integral part of the student's course of study. If the course is integral to the course of study the substitution or waiver request shall not go forward.

• Submission of the Course Substitution/Waiver Form to the Office of Disability Services.

The Committee

The Course Substitution Committee will consist of three faculty members. Two faculty members, appointed annually, will have expertise in areas related to disabilities and academic accommodations. The first faculty member will be the Director of the Psychology Clinic or designee. The second faculty member must have expertise related to accommodating disabilities and is appointed by the Dean of the College of Education. The third faculty member is to have expertise in the discipline of the course for which the student is applying for substitution or waiver. This faculty member will be appointed by the dean of the college that houses the discipline of the course for which the substitution/waiver is requested. The Office of Disability Services is responsible for notifying the appropriate academic dean that an appointment is necessary for the purpose of considering appropriate courses for substitution.

Procedure

The student submits the Course Substitution form to the College Dean's Office and the Dean completes their portion and sends the form to the Office of Disability Services. The student provides the Office of Disability Services with the diagnosis documentation. If approved a letter of approval of accommodation is mailed to the dean and student. The student will then need to meet with the associate dean to discuss the class options for accommodations.

The Office of Disability Services confirms that a diagnosis of a disability is presented by the student and that the disability is known to hinder or prevent successful completion of the course of study for which the substitution is requested. If there is no such diagnosis the request is denied. If the appropriate diagnosis is presented the Office of Disability Services proceeds to form the committee by securing, from the appropriate academic dean, the third faculty appointment required for the Course Substitution Committee. All materials submitted by the student are forwarded to the committee members with a certification that the student has presented a diagnosis of a disability warranting a substitution. The committee is charged with identifying courses that would constitute appropriate substitution and reporting these courses to the Office of Disability Services.

A representative of the Office of Disability Services convenes the Course Substitution Committee and facilitates its work. The committee will meet up to two times a semester to address all pending requests and assign specific courses for substitution. The Office of Disability

Services will report decisions to the student and include the student's dean on all correspondence.

A student who is denied a course substitution or waiver may appeal in writing within 10 working days to the Provost/Senior Vice President for Academic Affairs, whose decision is final.

Students should be aware that a course substitution/waiver would not be valid at any other institution and would have to be approved by the new college or department if the student changes major or declares a second major at Marshall University.

Approved by Faculty Senate, January 24, 2003
Amended April 8, 2014

Credit by Examination

Course credit by examination is granted at Marshall in some academic departments. Students interested in earning credit this way should contact the chairperson of the department in which the course is offered. With the department chair's permission, the student should obtain a "Credit by Examination" form from the Registrar. This form must be signed for approval by the department chair, the dean of the student's college, and the Registrar. If the student is not a full-time student, he/she must also pay a $30.00 examination fee. The grade received on the special exam will be applied to the student's transcript. Students may not use Credit by Examination to repeat a course under the *D/F* Repeat Rule.

Credit Hour (same as Semester Hour)

Generally a student earns one credit for each 15 hours of class contact. Classes normally meet 45 hours in a semester for 3 units of credit. Students should plan on two hours of preparation/study for each in-class hour. Laboratory classes require two or three hours of lab per week for each semester hour of credit.

Dead Week

The last five class days of the fall and spring semesters are designated as "dead week." During this period, instructors cannot give exams that count as 15% or more of the final course grade. They can assign major papers and/or projects which count as 15% or more of the final course grade **only** if the assignment is stated in the course syllabus. Instructors can introduce new material and give make up exams during the Dead Week. The Dead Week policy is not applicable to night classes, laboratories, freshman English composition courses, and any classes meeting once a week.

Dead Week is not applicable to Intersession or Summer Sessions.

D/F Repeat Rule (Repeating Courses)

If a student earns a grade of *D* or *F* (including failures due to regular and/or irregular withdrawal) on any course taken no later than the semester or summer term during which the student attempts the ninetieth semester hour, and if that student repeats this course prior to the receipt of a baccalaureate degree, the original grade shall be disregarded and the grade or grades earned (excluding a *W*) when the course is repeated shall be used in determining his/her Grade Point Average. The original grade shall not be deleted from the student's record. The *D/F* Repeat policy may be applied only one time to a specific course. A student may not repeat a course to change a grade of *C* or better.

The *D/F* Repeat Rule applies only to graduation requirements and not to requirements for professional certification which may be within the province of licensure boards, external agencies, or the West Virginia Board of Education.

*During the policy transition, this policy will be retroactively applied once to completed courses for each qualifying student and will be applied in instances where the GPA will remain the same or improve. Repeated courses beginning in Fall 2022 will be processed under the updated policy.

Adopted by West Virginia Higher Education Policy Commission (Series 22) Effective August 1, 2002.

Dean's List (see also President's List)

Students registered for 12 or more hours of courses for which they receive letter grades, and who at the end of a semester have Grade Point Averages of 3.3 or above, are considered honor students. The names of these students make up the "Dean's List" in their undergraduate college.

Degree Program

A degree program is a unified series of courses or learning experiences that lead to a degree.

Distance Education Courses

According to the Higher Education Opportunity Act, "distance education" is defined as education that uses one or more of the following technologies to deliver instruction to students who are separated from the instructor; and to support regular and substantive interaction between the students and the instructor, synchronously or asynchronously. The technologies used may include: the Internet; one way and two way transmissions through open broadcast, closed circuit, cable, microwave, broadband lines, fiber optics, satellite, or wireless communications devices; audio conferencing; or videocassettes, DVDs, and CD-Roms (PL 110–315, 14 AUG. 2008). At Marshall University, distance education courses consist of three formats: online courses, virtual courses, and hybrid courses.

Online Courses

The term "online course" refers to any distance education course in which 100% of the course content is delivered asynchronously by technological means. There are no synchronous, face-to-face, or on-site attendance requirements because online courses are the electronic versions of classes offered on the Marshall campus delivered completely over the Internet. Online courses are accessible through MUOnLine which is powered by Blackboard, a set of online course tools and supporting software. Communication between students and instructors can occur by any electronic means and there are no required on-campus or real-time meetings.

Online courses generally follow the Marshall University calendar for the term in which they are offered, but individual exceptions may apply. Students should check the syllabus for each individual class for a beginning and ending date. Students may register for online courses using myMU during the designated registration periods each term, in person at the Registrar's Office, or by mail. Hours of enrollment

are reflected in the actual term in which the student is registered. For all verification purposes, hours of enrollment are counted only in the term in which the student is registered. Note that the withdrawal period for online courses parallels that of regular courses. After that time, only a complete withdrawal from the university is allowed. The refund policy for online courses also parallels that of regular courses.

Online courses are currently assessed a fee per credit hour for undergraduate courses regardless of residency or number of credit hours the student may be registered for in addition to the online courses. Academic and lab fees may also apply depending on college or school policies. For example, students in the College of Health Professions will still be responsible for clinical and program fees in addition to the online course fee. Likewise, students in the College of Business are still required to pay the technology fee in addition to the online course fee.

Virtual Courses

"Virtual course" refers to any course that employs technological means for live, synchronous class meetings (e.g. live video). An in-person delivery format may also be available simultaneously. Virtual courses require that students attend all class meetings at designated dates/times. Students should check the syllabus for each individual class for equipment requirements and attendance information. There is no additional fee for a virtual course, and they follow all regular university registration and withdrawal periods outlined in the academic calendar.

Hybrid Courses

"Hybrid course" refers to any distance education course in which 75% or more of the course content is delivered by technological means. There will be synchronous, face-to-face, or on-site attendance requirements described in the course syllabus that may require Internet access, a webcam and/or headset with microphone for real-time communication. Hybrid courses may also use MU OnLine and require that students attend online class meetings at designated dates/times. Students should check the syllabus for each individual class for equipment requirements and attendance information. There is no additional fee for a hybrid course and they follow all regular university registration and withdrawal periods outlined in the academic calendar. Students may register for online courses using myMU during the designated registration periods each term, in person at the Registrar's Office, or by mail.

Double Major

Students can major in more than one discipline by completing the requirements for both majors. If the two majors are in different colleges, the student must secure permission from both college deans in order to pursue both majors. For administrative purposes, the student can only be housed in one college; this is the college of record which maintains the student's records. The student would only complete the **college** requirements of the college of record. To earn dual degrees, see "Additional Baccalaureate Degrees."

Dropping All Courses (Withdrawal from the University)

Final Date:

Total Withdrawal from the university is defined as dropping all classes for which a student is registered. A student who wishes to totally withdraw from the university must first secure the signature of the Director of Student Success and then present the request to the Registrar in person, by e-mail, or by mail. If the request is made in person, a drop form bearing the signature of the Director of Student Success must be submitted to the Registrar's Office. Requests by e-mail must be sent from the student's MU email account. For mailed requests, the postmark will be the official date of withdrawal. In cases where the student is unable to secure the physical signature of the Director of Student Success, permission may be obtained via e-mail.

Grades Assigned for Withdrawal from the University

In all cases of dropping courses or total withdrawal from the university the instructors will report grades as follows:

- A student dropping courses or totally withdrawing from the university on or before 5 instructional days prior to the last class day in any semester or term will receive a grade of "W." Exact "W" dates are identified in the annual university Academic Calendar.
- A "W" grade (withdrew) will have no bearing on the student's grade point average but may affect a student's Satisfactory Academic Progress (SAP) for purposes of financial aid.
- Students who drop courses without approval, or who do not follow regulations provided in the preceding paragraphs, receive a grade of "F" at the end of the semester.
- Students who are enrolled in a first 8-weeks course(s) and totally withdraw from the university after the last day of the first 8-week term will still earn grades for the first 8-week term.

Dropping Individual Courses

Final Date: Tenth Friday in a Regular Term

A student who wishes to withdraw from an individual course after the schedule adjustment period must submit an electronic Course Withdrawal Request Form linked on the Office of the Registrar website and the Undergraduate Advising website

The Course Withdrawal Request Form initiated by the student will provide options for the student to acknowledge prior advising, request advising, or deny advising. Requests initiated by students on academic probation will be electronically forwarded to the advisor, associate dean/dean, or other designated college official (as authorized by the Office of the Registrar) for permission. Upon advising, if requested, and/or college permission, the withdrawal will be processed by the Office of the Registrar effective the date of the student's initial submitted request. Student, Office of the Registrar, instructor, advisor, associate dean/dean, and/or other designated college official will receive notification of course withdrawal.

- **Day or Night Classes:** Students can drop individual courses after the Schedule Adjustment period and during the Withdrawal period which lasts until five instructional days prior to the last class day as defined in the academic calendar for each term. The exact last day for dropping individual courses is always published in the Academic Calendar for any given semester or term.
- **E-Course Withdrawal Period:** The withdrawal policy for e-courses parallels that for regular courses. After that time, only a complete withdrawal from the university is allowed. The refund policy for e-courses also parallels that of regular courses.

- **High-demand course:** If a student drops a "high-demand" course during the Withdrawal period, he/she will not be able to pre-register for the course for the following semester. High-demand courses include:

Code	Title	Credit Hours
ACC 215	Accounting Principles (CT)	3
BSC 227	Human Anatomy (with BIO 227L)	3
BSC 227L	Human Anatomy Lab	1
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
MTH 121	Concepts and Applications (CT)	3
MTH 127	College Algebra-Expanded	5
MTH 130	College Algebra	3
SPN 101	Introductory Spanish	3
SPN 102	Introductory Spanish II	3

Students can obtain an up-to-date listing of high-demand courses from the Office of the Registrar.

Grades Assigned for Dropping Individual Courses

A student dropping courses or withdrawing from the university during the Withdrawal period will receive a grade of *W*. The withdrawal period begins on the first instructional day after the schedule adjustment period and continues until five instructional days prior to the last day of class in any semester or term for individual course withdrawals and to the class day (as defined in the academic calendar for each term) for complete withdrawals. The *W* grade (withdrew) has no impact on a student's Grade Point Average.

Students who are enrolled in a first 8-weeks course(s) and totally withdraw from the university after the last day of the first 8-week term will still earn grades for the first 8-week term.

Exceptions

Military Service

Men and women called to active duty in the armed services of the United States are granted full refund of fees, but no credit, if the call comes before the end of the first three fourths of the semester or term, and full credit, but no refund of fees, is granted if the call comes thereafter. However, credit is granted only in those courses in which the student is maintaining a passing grade at the time of departure to military service. The term "called to active duty" is defined as being called to active duty as the result of the federal activation of a total reserve component, National Guard unit, or any portion which involves a particular student or an individual who is a bona fide member of the reserve component or a National Guard unit. The final grades, both passing and failing, for three fourths of a semester or more are shown on the student's permanent record. *Please note:* Students called to active duty should present a copy of activation orders to the Office of the Registrar to ensure proper handling of their academic records in accordance with this policy.

Medical Reasons

See "Medical/Emergency Withdrawal Policy."

Electronic Courses

See "Distance Education courses."

Final Exams

Absence from Final Exams

Students are required to take all regular examinations. If a student attends a course throughout the semester and is absent from the final examination without permission, the instructor counts the examination as zero and reports the final grade of *F*. If the absence is the result of illness or some other valid reason beyond the student's control, the instructor reports a grade of *I*. In all cases, the student must verify the reason for the absence. (See "Incomplete" under Grades and Quality Points.)

Rescheduling of Final Exams

If a student has final exam conflicts or has three or more final exams scheduled for the same day, he/she should follow these steps:

- pick up a "Final Examination Rescheduling Form" from the major department or the college office;
- fill in the top part of the form in which he/she must show his/her complete final exam schedule;
- take this to the dean for verification;
- take the verified form to one of his/her class instructors and attempt to make a rescheduling agreement (date, time, place);
- if the student and instructor reach an agreement, the instructor should sign the form, keep a copy, and send a copy to the dean of the student's college;
- if an agreement cannot be reached, the instructor should note this fact and sign the form. In this case, the student should try to reach an agreement with the instructor of another class in conflict;
- if no instructors agree to reschedule and the student has all comments and signatures on the form, take the form to the Provost and Senior Vice President for Academic Affairs (OM 110);
- the Provost or designee will determine if an exam should be rescheduled and if so, the time, date, and place–the student and the instructor will receive written notice of any rescheduling;
- the Provost's ruling can only be modified by an agreement between the instructor and the student;
- if the student rejects a ruling by the Provost, he/she thereby agrees to take each exam at the scheduled time.

Note: **the Provost will not consider any form submitted less than one week before the first day of finals, or any form that is incomplete. An instructor is not required to reschedule a final exam at the student's request.**

Full-time Student

A full-time student must carry at least 12 semester hours of undergraduate courses or a combination of 12 semester hours of undergraduate and graduate courses in a regular semester; during a five week summer term, a full-time student must carry at least 4 semester hours.

Grade Appeal

See section entitled "Academic Rights and Responsibilities of Students."

Grade Information and Regulations

Grade Point Average Defined

A Grade Point Average (GPA) is a numeric value calculated by dividing total quality points by total credit hours attempted (courses in which a student earned a letter grade). The Grade Point Average computed for graduation purposes (not necessarily each semester), is based on all work attempted with these exceptions:

- Courses with grades of *W*, *I*, *CR/NC*, and *AU*
- Grades of *D* or *F* repeated under the *D/F* Repeat Policy
- Developmental courses

1. An overall Grade Point Average is a calculation based on credit earned at Marshall **and** all other accredited institutions of higher learning;
2. A Marshall Grade Point Average is a calculation based on credit earned at Marshall **only**.

Quality Points Defined

Quality points are numeric values assigned to letter grades that allow a student to calculate a Grade Point Average (GPA). Quality points are based on these values for **each** semester hour of credit: *A*=4; *B*= 3; *C*= 2; *D*= 1; and *F*= 0. When the GPA is a 2.0, the student has neither a surplus nor a deficiency of quality points. If the GPA is below a 2.0 the student will have a **deficiency of quality points ("deficit points")** resulting from excessive grades of *D* and/or *F*. Grades of *A* and/or *B* can help to earn a surplus of quality points.

GPA Calculation

The following example is provided as a guide for calculation of the GPA:

First Semester

Course	Grade	Quality Pts.	Credit Hrs	Total Quality Pts.
ENG 101	B	3 x	3 =	9
SOC 200	A	4 x	3 =	12
MTH 121	D	1 x	3 =	3
PEL 115	B	3 x	1 =	3
UNI 100	CR	0 x	(1) =	0
BSC 104 and BSC 104L	C	2 x	4 =	8
Total			14	35

Multiply the number of Quality Points for each grade by the number of Credit Hours for that class. Divide the total number of Quality Points for the semester (35) by the total number of Credit Hours (14). This yields a GPA of 2.50 for the semester.

Second Semester

Course	Grade	Quality Pts.	Credit Hrs	Total Quality Pts.
BSC 105 and BSC 105L	D	1 x	4 =	4
PSY 201	C	2 x	3 =	6
HST 101	F	0 x	3 =	0
CMM 103	D	1 x	3 =	3
PHL 201	C	2 x	3 =	6
Total			16	19

Multiply the number of Quality Points for each grade by the number of Credit Hours for that class. Divide the total number of Quality Points for the semester (19) by the total number of Credit Hours (16). This yields a GPA of 1.18 for the semester.

To determine this student's cumulative GPA (the GPA for both semesters), add the total Quality Points for both semesters (54) and divide by the total Credit Hours for both semesters (30), resulting in a 1.8 GPA.

Note that this cumulative GPA is under 2.00. Since it is less than 2.00, this student has a **quality point deficiency**. Her college will place her on academic probation and she will remain there until future grades eliminate the deficiency.

Marshall and Overall GPA

A *Marshall Grade Point Average* is a calculation based on credit earned at Marshall **only**.

An *Overall Grade Point Average* is a calculation based on credit earned both at Marshall **and** all other accredited institutions of higher education. Both GPA's are calculated for eligibility and graduation purposes.

Types of Grades

- *Credit/No Credit Option:* A student may choose to take a maximum of 18 semester hours on a credit/no credit basis toward fulfillment of requirements of a baccalaureate degree. Credit completed through the College Level Examination Program (CLEP) or Advanced Placement, as well as approved foreign study, does not count as a part of the 18 hour limit under the *CR/NC* option. Students make the decision to take a course on a credit/no credit basis at the time of registration and cannot change this after the end of the Schedule Adjustment period. Courses taken *CR/NC* must be in areas other than the student's major or teaching specialization, although approved foreign study courses can be taken *CR/NC*. (See "Study Abroad" section elsewhere in this catalog.) Some departments and colleges have additional regulations regarding *CR/NC*.
  A student must earn a letter grade of C or better to receive a CR grade. A grade of NC is recorded for work that would earn a letter grade of D or F. All withdrawals under the CR/NC option will receive a W grade. The CR/NC grade has no impact on the Grade Point Average.
- *Incomplete:* The grade of I (incomplete) indicates that the student has completed three-quarters of the course, as determined by the instructor, but cannot complete the course for a reason that accords with the university excused-absence policy. For courses (traditional or online) that do or do not have a defined absence policy, it is determined by the instructor to issue the I grade. Students must be in good standing (for example a C grade or better) in the class prior to requesting an incomplete. The course instructor decides whether or not an incomplete will be granted and specifies in writing on the university incomplete grade form what work the student must complete to fulfill the course requirements. The student has until the end of the next fall or spring semester from the date of receipt of the incomplete grade in which to complete the course, or the instructor may establish an earlier deadline. If special circumstances exist, which

prevent the student from completing the course in the prescribed time, the incomplete may be extended with the written approval of the instructor, the instructor's chair or division head, and the instructor's dean noting the time period for the work to be completed. If the student satisfactorily completes the course in the prescribed time he/she will receive a letter grade. If the student fails to complete the course requirements during the stipulated time, the grade of I changes to a grade of F, NC, or U, depending on the type of grade appropriate for the course. All grades remain on the student's permanent record as originally submitted by the course instructor, except for I grades that have been completed and changed by the instructor. Any grade change is added to the permanent record.

In the event that the faculty member leaves the institution or is no longer available, the disposition of incomplete grade or grades is the responsibility of the chair, the dean, or the provost. If the the chair is unavailable, the responsibility falls on the dean; if the dean is unavailable the responsibility goes to the provost. The decision will be made in consultation with the faculty in the appropriate discipline.

An *I* grade may also be assigned to students in flight lab or ground school courses in the Bill Noe Flight School, when the student is making satisfactory progress towards completion but is unable to complete the course during the semester. These *I* grades will be approved by the instructor and the director of the flight school.

- *W (Withdrew):* If a student drops courses during the Withdrawal period (which lasts until the tenth Friday after the first week of the regular semester), or withdraws completely from the university through the last day of class, he/she will receive a W. For eight week courses, summer session courses, and other courses of varying lengths, the W period ends the Friday immediately following the two thirds point in the course. Exact W dates are published in the annual University Academic Calendar. The W (withdrew) has no impact on the Grade Point Average. (Please be aware that withdrawing from a course may change a student's status from that of full-time to part-time student—a full-time student is enrolled for 12 hours or more. Part-time status could negatively affect financial aid, athletic participation, or health insurance eligibility.)

Final Grades

Marshall University mails final grades only upon student request. Grades will be available online using myMU. Requests to have grades mailed to the permanent address in the student information system may be submitted online using myMU or by submitting a written request to the Office of the Registrar, One John Marshall Drive, Huntington, WV 25755. Written requests must contain name, student number, and signature of the student.

Midterm Grade Reports for Freshmen and Sophomores

Shortly before the middle of the Fall and Spring semester (around the eighth week), all faculty evaluate the freshman and sophomore students in their classes. Freshman and sophomore students who are earning the equivalent of a grade of D, F, or NC at this time will receive a grade report mailed to their permanent address and a letter explaining how they can improve their academic performance. A midterm grade is not a promise of a particular final grade nor is it recorded on the student's official transcript. It is intended only as an early warning.

Graduation Information

Academic Requirements

A student's college will make the final check of courses required, total earned credits, degree, and GPA requirements, as well as other university-wide requirements. To receive a baccalaureate degree from Marshall University, a student must:

- Have a minimum of 120 credit hours (some colleges or majors require more);
- Have an overall Grade Point Average of 2.00 or higher;
- Have a Marshall Grade Point Average of 2.00 or higher;
- Have an overall Grade Point Average of 2.00 or higher in the major area of study;
- Have earned a grade of C or better in English 201 or 201H;
- Have met all major(s) and college requirements;
- Have met the requirements of the Core Curriculum;
- Have met the residence requirements of Marshall University, including 12 hours of 300/400 level coursework in the student's college (see section entitled "Residence Requirements");
- Be enrolled at Marshall at least one semester of the senior year;
- Have transferred no more than 72 credit hours from an accredited West Virginia two-year institution of higher education.

Colleges and specific programs may have unique requirements that are more stringent than those noted above. Students are responsible for staying informed about and ensuring that they meet the requirements for graduation.

Application for Graduation

Students must apply for graduation at the beginning of the semester or term in which they intend to complete graduation requirements. They can complete the graduation application online through myMU prior to the posted deadline in the online Academic Calendar. Students can also complete the application through their college dean's office. The university requires graduates to pay a diploma fee that can be paid through myMU as part of the online graduation application process or at the Bursar's office. A receipt for this fee must accompany the application if it is submitted to the college dean's office.

Commencement/Graduation Dates

Marshall University observes two Commencement Exercises and four graduation dates during an academic year. The official graduation dates are:

- last day of final examinations in July;
- last day of final examinations in August;
- day of Commencement in December;
- day of Commencement for the spring semester.

Students who complete all requirements for a degree at any time other than the above dates will be graduated on the next successive date. Students will not be graduated on any dates other than those noted above. Students who are graduated at the end of summer terms are invited to attend the fall Commencement Exercises.

Honors Graduation

Baccalaureate Degree

Baccalaureate degree candidates who have achieved special distinction in academic work are recognized at Commencement Exercises. Their

honor status is printed on their diplomas and transcripts. Honor status is determined by this scale for the final cumulative Grade Point Average:

- Summa cum laude (3.85 and above)
- Magna cum laude (3.60 to 3.84)
- Cum laude (3.30 to 3.59)

Note: Honor calculations are not rounded.

For May graduates, honors recognition at Commencement is based on academic standing prior to the Spring term. For December graduates, honors recognition at Commencement is based on academic standing prior to the Fall term. The diploma and transcript will reflect honors standing after calculation of final grades.

Honors eligibility for transfer students (baccalaureate degree):

Transfers from in-state public institutions: Honors are calculated on the overall GPA

From a two-year college in WV state system: must have earned at least 56 hours of work at Marshall University.

From a four year institution in WV state system: must have earned a minimum of 36 hours of work at Marshall University.

Transfers from non-West Virginia public institutions: Honors are calculated on the overall and Marshall GPA

All other transfer students: must have earned at least 64 hours of work at Marshall, at least 50 percent of which must be upper division work (300/400).

Associate Degree:
Associate degree candidates for graduation who have achieved special distinction in academic work are recognized at Commencement. Their honor status is printed on their diploma. Honor status is determined by this scale for the final cumulative Grade Point Average:

With High Honors 3.70 and above

With Honors 3.30 to 3.69
Note: Honor calculations are not rounded.

Honors eligibility for transfer students (associate degree):

A transfer student must have earned at least 36 hours of work at Marshall, 32 of which must be applicable to an associate degree program and must have attained honors for all work attempted at Marshall and honors for all academic work attempted at the collegiate level regardless of the institution attended.

Residence Requirements
For all undergraduate degrees (see exceptions below), at least one year's work in residence is required. "In residence" means to be enrolled in Marshall University courses. A "year in residence" comprises at least 24 hours credit earned in at least two semesters' work in residence or one semester and two summer terms in residence. One semester must be in the senior year. **Transfer students** must take at least 12 hours of 300/400 level coursework in their college and at least 15 hours in their major field except for Combined College and Professional Programs.

Exceptions:

- College of Education students must meet the college residency and teacher certification requirements.
- Regents Bachelor of Arts Degree.
- All students should check with their own colleges for any additional residence requirements.

Independent Study

Independent studies are tutorials, independent readings, research, problem reports, and other individualized activities designed to meet the special needs of students within their major. Independent studies are offered only at the discretion of the department chair and college dean.

Inter-College Transfer

Students who wish to transfer to another college at Marshall must initiate an electronic request form located at www.marshall.edu/advising (http://www.marshall.edu/advising/). Any student who is currently eligible to attend Marshall University shall be eligible to transfer from one college to another within the institution so long as he or she meets the admission requirements for the college. Students on probation are eligible to transfer if all other admission criteria are met. Conditionally admitted students must meet specific requirements before becoming eligible to transfer to another college and declare a major.

Students declaring or changing an academic major and/or minor can declare or request the change prior to the beginning of the term or through the schedule adjustment period to be effective for that term. For a fall or spring semester, the schedule adjustment period is the first week of the semester. For Summer 1, the schedule adjustment period is the first three days of the term. For the remaining summer terms (Intersession, Summer 2, and Summer 3), the schedule adjustment period is the first day of class. Exact dates for each schedule adjustment period are provided in the official academic calendar available at https://www.marshall.edu/academic-calendar/. Any declaration or change after the schedule adjustment period becomes effective for the next term of enrollment. Untimely declaration or changing of majors and/or minors may affect financial aid eligibility.

Exception: Individuals who are returning to the university from one or more years of active military duty may enter the college of their choice, provided they meet that college's entrance requirements.

Internship

An internship is a supervised, off campus work/study arrangement with external agencies or institutions. Usually a student, with faculty approval, registers for an internship course for which he or she will receive credit. Often the students are paid, but not always. They generally serve as trainees under the supervision of an individual at the off-campus site. A Marshall faculty member usually serves as a coordinator and resource person. Students may expect regular site visits from a faculty member as well as on-campus training seminars, although internship experiences will vary across departments.

Laboratory Courses

Lab courses supplement classroom courses. They are organized activities involving the observation and verification of experiments and experimental techniques. Laboratory courses require two or three hours of lab per week for each semester hour of credit.

Major

A major is a program of study requiring at least 24 semester credits for completion. It is offered within one department or by a combination of departments. It is a field of study within an approved degree program, having its own curriculum. A degree program may have more than one major. All courses in the major must be taken for a grade except internships, practica, and approved study abroad courses.

Students declaring or changing an academic major and/or minor can declare or request the change prior to the beginning of the term or through the schedule adjustment period to be effective for that term. For a fall or spring semester, the schedule adjustment period is the first week of the semester. For Summer 1, the schedule adjustment period is the first three days of the term. For the remaining summer terms (Intersession, Summer 2, and Summer 3), the schedule adjustment period is the first day of class. Exact dates for each schedule adjustment period are provided in the official academic calendar available at https://www.marshall.edu/academic-calendar/. Any declaration or change after the schedule adjustment period becomes effective for the next term of enrollment. Untimely declaration or changing of majors and/or minors may affect financial aid eligibility.

Medical/Emergency Withdrawal Policy

A student may request and be considered for a medical or emergency withdrawal when extraordinary circumstances, such as a serious illness, injury, or catastrophic situation prevents the student from continuing classes. The policy covers physical and mental health, as well as life-changing difficulties

A medical/emergency withdrawal from the university will constitute a full withdrawal from all academic classes for the requested semester, with the exception of those classes whose completion dates occurred prior to the withdrawal. Refund of tuition and fees will be a separate determination, as will eligibility for future financial aid. These decisions will follow policies, guidelines and schedules set forth by the university and state and federal government.

If a student is currently enrolled, consideration should be given to withdrawing from those courses through the regular process prior to requesting a medical/emergency withdrawal.

A request for a medical/emergency withdrawal must be filed within six months of the end of the semester involved unless the student can provide rationale and documentation to show that it was not possible to make the request within this timeframe. Students may apply for a medical/emergency withdrawal by following the guidelines provided below. Application for a medical/emergency withdrawal does not guarantee that a withdrawal will be granted. All requests are evaluated on an individual basis.

All students requesting a medical/emergency withdrawal submit a complete packet of information to the Assistant Dean of Advocacy and Support in Student Affairs. The packet must include:

1. Completed Request for medical/emergency withdrawal in the form of a typed, signed letter, or e-mail from the student's Marshall e-mail account, explaining how the illness, condition, or situation affected their ability to maintain their status as a student at the university and why withdrawing from courses through the regular process is/was not an option for them. The request must also include the student's Marshall ID number and mailing address. Incomplete grades in courses may be arranged in compliance with university policy, and may be an option for students to consider instead of a medical/emergency withdrawal.
2. *For medical withdrawal:* Typed letter from the student's treating physician(s) recommending a withdrawal for medical reasons. The letter must state the specific rationale for the recommendation, including diagnosis or medical impressions; why the illness or condition prevented the student from maintaining their status as a student at the university; the effective date of the onset of the illness or condition; dates of treatment; and anticipated date of resolution, if applicable. The letter must be on official letterhead and must be signed by the service provider. The letter may be faxed from the treatment provider's fax machine. Medical information will be kept confidential.
   For withdrawal due to catastrophic event: Documentation sufficient to support the student's claim of involvement in a catastrophic situation. Said documentation will vary depending on the situation and should follow guidelines set forth by the Assistant Dean of Advocacy and Support.
   A request for a medical/emergency withdrawal without the supporting rationale will not be considered.
3. Complete Medical/Emergency Withdrawal Consultation Form, Financial Aid.
4. Complete Medical/Emergency withdrawal Consultation Form, Residence Services (if applicable)
5. Complete Medical/Emergency withdrawal Consultation Form, International Students (if applicable)
6. Other relevant supporting documentation as needed.

If the withdrawal is granted, the student will be unable to register for classes until he or she provides the Office of Student Affairs with a letter from their health care provider(s) (in the case of a medical withdrawal) releasing the student to return to the university and outlining the student's sufficient ability to manage coursework at Marshall. In the case of a catastrophic event, the student must provide a written statement that outlines the satisfactory resolution of the negative impact of the event.

The Office of Student Affairs will send a notice to the student regarding the outcome of the medical/emergency withdrawal request.

Approved by Faculty Senate, January 24, 2017

Minors

A minor is a program of study outside the major department requiring at least 12 semester credit hours for completion. All courses in the minor must be taken for a grade except for approved study abroad courses. With the exception of college-approved interdisciplinary minors, each academic department/division designates the specific

courses or range of courses required for each minor it offers. Please consult the department description in the catalog for requirements.

Students declaring or changing an academic major and/or minor can declare or request the change prior to the beginning of the term or through the schedule adjustment period to be effective for that term. For a fall or spring semester, the schedule adjustment period is the first week of the semester. For Summer 1, the schedule adjustment period is the first three days of the term. For the remaining summer terms (Intersession, Summer 2, and Summer 3), the schedule adjustment period is the first day of class. Exact dates for each schedule adjustment period are provided in the official academic calendar available at https://www.marshall.edu/academic-calendar/. Any declaration or change after the schedule adjustment period becomes effective for the next term of enrollment. Untimely declaration or changing of majors and/or minors may affect financial aid eligibility.

myMU

myMU is a campus portal for students using the Marshall University website. Using the portal, students can access a number of online services quickly, including registering for classes and checking schedules and grades. To use myMU, a student must know his or her MUNET username and password. Students on academic probation, or who have any other kind of registration hold, cannot register via myMU. For instructions on how to use myMU, visit www.marshall.edu/myMU (http://www.marshall.edu/myMU/).

Placement Examinations

Required prerequisites for math courses vary based on the individual course. The prerequisite for each course is noted in the Courses A-Z section in this catalog. Students who do not meet the prerequisites for their required math course may challenge their placement by taking an exam administered by University College in Smith Communications Building, Room 212. To schedule an exam and obtain information to prepare for the exam, please call 304-696-3169 or visit the University College website at www.marshall.edu/uc.

Plagiarism (see Academic Dishonesty)

Practicum

This is a closely supervised experience in a student's professional area. It may be on or off campus, or at a combination of the two. Ordinarily, there is extensive collaboration with a faculty supervisor. With faculty approval, a student registers for a practicum for which he or she will receive credit. Practicum experiences vary across departments.

President's List (see also Dean's List)

Students registered for 12 or more hours of courses for which they receive letter grades, and who at the end of a semester have Grade Point Averages of 4.00, are considered high honor students. The names of these students make up the "President's List" at Marshall University.

Readmission to the University

Former students not enrolled at Marshall University for one year or longer must apply for readmission. Readmission decisions are based on the student's academic standing at Marshall University. If eligible to return, former students will be readmitted to the college of last enrollment. Graduates of bachelor's degree programs will be readmitted to a post-baccalaureate major pending selection of a new major or degree program. The readmission application is available at the Admissions office or online at www.marshall.edu/admissions (http://www.marshall.edu/admissions/).

If a student previously attended Marshall and subsequently attended another institution, he/she must apply to Marshall as a transfer student.

Repeating Courses

Credits for a repeated course may not be used to fulfill the credit hour requirements for graduation. Exceptions: approved Special Topics courses, internships, practica, and other approved courses in departments such as Music. Students should check with their college dean for a list of all exemptions.

Residence

"In residence" means to be enrolled in Marshall University courses.

Semester Hour

Same as "Credit Hour."

Schedule Adjustment

Students can change their class schedules during the late registration and schedule adjustment period each term. The exact schedule adjustment period for any semester or term is published in the academic calendar for that semester or term. Schedule changes can be made on www.marshall.edu/myMU (http://www.marshall.edu/myMU/), or in person at the Registrar's Office. If a student wants to change sections of a course during the schedule adjustment period, he/she must drop the section in which he/she is currently enrolled and add the new section.

See section entitled "Dropping Courses" for information on dropping a class after the schedule adjustment period.

Semester Load

To make normal progress toward graduation, students should complete approximately 30 to 34 semester hours during a calendar year, which includes Fall, Spring and Summer terms. If students want to take 19 or more credit hours during Fall or Spring term, or 7 or more hours during a regular Summer term, they must obtain permission of the dean of their college.

Seminar

A seminar is a small class, usually offered at the junior/senior level, which may be involved in advanced study or original research.

Special Topics

Special Topics are experimental courses that can be offered twice by a department without formal committee approval. No more than 6 credits of special topics can be applied toward an associate degree; no more than 12 can be applied toward a baccalaureate degree.

Summer School

Marshall offers four summer sessions:

- Intersession: 4 weeks
- Summer 1: 12 weeks
- Summer 2: 5 weeks
- Summer 3: 5 weeks

Exact dates for each term are available on the registrar's website at www.marshall.edu/registrar.

Admission requirements for Summer School are the same as for the regular semester. Summer offerings, which include undergraduate and graduate courses, vary from year to year. Registration for Summer School usually begins in March.

Syllabus Policy

On the first day of class, instructors must provide each student a copy of the course requirements which includes these items:

- Course name and number.
- Instructor's name, office location, phone, e-mail address and office hours.
- List of all required texts.
- Attendance policy.
- Grading policy.
- Due dates for major projects and exams.
- Course description from most recent catalog
- Course student learning outcomes.
- Schedule of class sessions and assignments.
- Grid showing how each course student learning outcome will be practiced, and assessed, in the course.
- Link to Official University Policies located on the Academic Affairs website.
- Semester course meets, e.g., Spring 2012
- Time course meets, e.g. M/W/F 1:00-1:50 p.m.
- Course location.

Exceptions to this policy might include thesis, seminar, problem report, independent study, field work, internships, and medical clerkships. Colleges may develop more detailed requirements concerning the content of the syllabus.

Adopted by Marshall University Board of Governors, March 8, 2006.

Transcript

Official transcripts cost $10.00 per paper copy and $12.00 per electronic copy. The Office of the Registrar will process transcript requests within 1-2 business days of receipt. Processing time may be delayed at the end of a term due to posting grades and degrees. Students with outstanding financial, social or other obligations to the university forfeit rights to an official or unofficial transcript until the obligations are resolved.

Requests for official transcripts must be sent directly to the Office of the Registrar. Requests for official transcripts can be completed at www.marshall.edu/registrar (http://www.marshall.edu/registrar/transcripts/)/transcripts (http://www.marshall.edu/registrar/transcripts/), faxed, or made in person at the Office of the Registrar.

Students may obtain unofficial transcripts at no cost in the registrar's office or the college dean's office. Unofficial transcripts also may be accessed using the university's online self-service portal, myMU.

Transfer Credit

- **New Students:**
  When a student applies for admission to Marshall University, the Admissions office will determine the acceptability of credits earned at other institutions.
- **Enrolled Students:**
  After enrollment as a regular undergraduate at Marshall, if a student plans to take courses at another institution he/she must have **prior** approval from the dean of his/her college if the student wants those courses to count towards his/her degree requirements at Marshall. The student should pick up an off-campus form ("Approval of Courses to be Taken for Advanced Standing") from the Office of Admissions or his/her college office. After filling in the name of the visiting institution as well as the exact courses the student wishes to take there, the student takes the form to the Office of Admissions. The Admissions staff will convert the proposed coursework into equivalent Marshall courses and will then send the form to the student's college office for review. The associate dean will approve the application if the proposed courses are appropriate for the student's degree requirements. The form is then forwarded to the Registrar. The Registrar will send the student a copy of the completed form.
- Courses students take without prior approval may be rejected when they are evaluated for degree requirements.
- Before the credit earned at another institution can be transferred and recorded on the permanent academic record at Marshall, the student must have an official transcript forwarded from the other institution to the Marshall Office of Admissions.
- Coursework taken at another institution **transfers at the level at which it was taken**. This is something important to consider because undergraduate degree students must have a minimum number of hours of upper division credit to graduate. The exact number of required upper division hours is determined by the student's college.
- Grades earned for coursework taken at other institutions are computed into the *overall* GPA, (includes courses taken at MU and other institutions), but have no impact on the Marshall GPA (except grades earned under the *D/F* Repeat Rule).
- Courses taken through the Study Abroad office require a different form and process. Please see the Study Abroad section of this catalog.

Appeal of Denial of Transfer Credit, or Course Equivalency Determination, or Course Substitution

Students may appeal decisions on how transfer credits are evaluated.

The MU Undergraduate Office of Admissions determines transferability of credits and course equivalency at the time of admission. Once admitted, if a student believes the proper equivalent credit has not been awarded, the student should request, in writing, an explanation of credit denial from the Office of Undergraduate Admissions. This initial step must be taken within thirty (30) days of receipt of the

transfer credit evaluation or within ten (10) instructional days of the beginning of the student's matriculating term, whichever comes first. The Office of Undergraduate Admissions will review the request for technical errors and issue a written response within ten (10) days.

The college in which the student's degree program is housed determines course substitutions. After receiving the transfer credit evaluation from the Office of Admissions, the student should meet with an academic advisor in the student's degree program to determine the extent to which transferred credits and course equivalencies meet specific degree requirements. At this point, the advisor may make certain additional course substitutions per the policies of the college that houses the student's degree program.

If the student is not satisfied with the determinations in Step 2 regarding course substitutions, the student may initiate a formal appeal, in writing, to the dean of the academic college in which the student is admitted. The appeal must include applicable syllabi and other supporting documents and must be submitted within thirty (30) days of the beginning of the student's matriculating term.

If a course substitution is not granted by the dean, the student may appeal the decision to the West Virginia Higher Education Policy Commission, in writing, within ten (10) days of the issuance of the dean's decision. The Commission will review the entire case, including both course equivalencies and course substitutions, and issue a recommendation to the Provost and Senior Vice President for Academic Affairs at Marshall University, who shall then render the final decision.

Higher Education Policy Commission Policy on The Transferability of Undergraduate Credits and Grades

1. Undergraduate level credits and grades earned at any public institution under the Higher Education Policy Commission shall generally be transferable to any other such institution.
2. At least 64 and no more than 72 hours of credits and grades completed at community colleges or branch colleges in the West Virginia state system of higher education shall be transferable to any baccalaureate degree-granting institution in the state system.
3. All grades earned for college credit work within the state system shall be counted for purposes of graduation with honors, and transfer students from within the state system shall be treated the same for this purpose as generic students.
4. With the exception of those enrolling in specialized four year programs which have demonstrable and bona fide externally imposed requirements making such a goal impossible, students completing two year associate degrees at public institutions under the Higher Education Policy Commission shall generally, upon transfer to a baccalaureate level degree granting institution, have junior level status and be able to graduate with the same number of total credit hours as a non-transfer student at the same institution and in the same program. An exception may exist in any instance where the associate degree is a technical type designed for terminal career purposes and the general education component is substantially of a markedly different nature than that required for a student at the same two year institution enrolled in a college transfer associate degree program. Credit hours taken in general education toward associate degrees will count toward the total number of general education credit hours required at the baccalaureate degree granting institution.
5. There shall be developed and maintained specific detailed articulation agreements between appropriate institutions in the state system. Particularly community colleges, community college components, and branch colleges will indicate clearly in catalogs and other official materials which courses are not necessarily transferable for major programs or other specific purposes to those institutions where significant numbers of students traditionally transfer; any such course(s), however, will be transferred as elective credit up to the maximum herein required.
6. A statewide Ad Hoc Articulation Council appointed by the Chancellor consisting of two (including at least one faculty member) representatives from free standing components and branch colleges, two (including at least one faculty member) representatives from baccalaureate degree granting institutions, the Chairman of the Advisory Council of Students or his representative, and two representatives from the Higher Education Policy Commission staff shall be convened as a facilitating body in cases of disagreements between institutions over the transfer of credit. This Council will make a report and a recommendation to the Chancellor.
7. Consistent with provisions above, each baccalaureate degree granting institution may require transfer students to meet any of the following standards:
   a. An average of *C* on previous work attempted and the required Grade Point Average for admission to a particular program.
   b. The completion of 36 or more additional hours of credit in residence, regardless of the number of hours transferable.
   c. The completion of 16 of the last 32 hours before graduation in residence.

Any policies of this Board contrary to the foregoing are rescinded.

Adopted: West Virginia Board of Regents July 10, 1979
Board of Trustees policy effective July 1, 1989
Higher Education Policy Commission policy effective June 22, 2003

Undergraduate Students in Graduate Courses

A senior with an overall GPA of 2.75 or better can apply to take courses at the graduate level (500/600). A student can find the application online at the Graduate Studies website. The application requires the recommendation of the student's major department chairperson and the college dean. A completed application must be on file in the dean's office before the opening of the term of enrollment. Seniors can apply credit for graduate courses either to an undergraduate or a graduate degree at Marshall, but not to both, with the exception of the 3+2 Program in the College of Business. The grades a senior may earn in a graduate course taken for undergraduate credit are included in the computation of the student's undergraduate GPA.

Students should be aware that Marshall University has established a limit on the number of credit hours earned as an undergraduate that can be applied to a graduate degree. Other institutions may have similar limits.

UNI 100: Freshman First Class (1 Credit Hour; Graded)

UNI 100 Freshman First Class is made up of two parts:

1. the seminars and group sessions that are part of the Week of Welcome (WOW); and
2. additional weekly, 1-hour seminars for the first seven weeks of the semester.

Successful completion of this course earns one credit hour of elective credit. The course is graded. To earn the one hour of elective credit, attendance at WOW seminars, group sessions and seminars is required along with successful completion of course activities and assignments. Students are encouraged to take advantage of this opportunity to learn about Marshall University, college-level expectations and student success. (See also "Week of Welcome," which follows.)

Week of Welcome (WOW)

Week of Welcome is an opportunity for first-year students to familiarize themselves with the Huntington campus and learn what it means to be a student at Marshall University. Arriving on campus a few days early, freshmen participate in the President's Freshman Convocation and sessions with the dean, faculty and staff of their academic college along with large group sessions and small group seminars. Week of Welcome (WOW) is an integral part of Freshman First Class (UNI 100 Freshman First Class), an introduction to academic structures and expectations of college life. (See above.) Week of Welcome includes optional evening activities and social events for both residential and commuter students. Information about Week of Welcome is available at www.marshall.edu/wow (http://www.marshall.edu/wow/).

Core Curriculum (General Education)

The Core Curriculum is Marshall's general education program and applies to all majors. The Core Curriculum is designed to provide essential skills for students' varied life paths after college in an ever-evolving world.

Transfer students with 30-59 college credits must complete one CT course in Core I, all of Core II and the additional university requirements. Students transferring in 60 or more college credits are exempt from taking Core I, but must complete all of Core II and the additional university requirements. Core II may be fulfilled through a combination of transfer and Marshall credit hours.

Code	Title	Credit Hours
Core I		
First Year Seminar (100-level)		3
Discipline-specific courses with an emphasis on critical thinking (CT) and active learning (100- or 200-level) [1]		6
Core II (100- or 200-level) [2]		
Composition		6
Communication		3
Math		3
Physical or Natural Science		4
Social Science		3
Humanities		3
Fine Arts		3
Additional University Requirements		
Writing Intensive credit in any discipline at any level (Writing Intensive credits must be earned at Marshall University.)		6
Multicultural or International coursework in any discipline at any level		3
Capstone project in the major		
Total Credit Hours		**43**

1 Specific courses that fulfill the CT requirement may be found at www.marshall.edu/gened (https://www.marshall.edu/gened/). CT credits must be earned at Marshall University.

2 Specific courses that fulfill Core II may be found at www.marshall.edu/gened (https://www.marshall.edu/gened/).

Core I courses include First Year Seminar and two Critical Thinking (CT) courses. First Year Seminars are taught by trained, full-time faculty who help students develop intentional critical thinking skills integral to lifelong learning through inquiry, discussion, interaction, discovery, problem solving, writing, research, reflection and examination of complex multicultural/global ideas and themes.

CT courses provide students training in key skills specific to the discipline in which the course is offered. Each course focuses on at least five outcomes from Marshall University's Baccalaureate Degree Profile; Integrative Thinking and at least four others. CT credits must be earned at Marshall University. Marshall's Baccalaureate Degree Profile's Domains of Critical and Outcomes are:

Domains of Critical Thinking	Baccalaureate Learning Outcomes
Communication Fluency	Students will develop cohesive oral, written, and visual communications tailored to specific audiences.
Creative Thinking	Students will outline multiple divergent solutions to a problem, develop and explore risky or controversial ideas, and synthesize ideas/expertise to generate innovations.
Ethical and Civic Thinking	Students will determine the origins of core beliefs and ethical principles, evaluate the ethical basis of professional rules and standards of conduct, evaluate how academic theories and public policy inform one another to support civic well-being, and analyze complex ethical problems to address competing interests.
Information Literacy	Students will revise their search strategies and employ appropriate research tools, integrate relevant information from reliable sources, question and evaluate the complexity of the information environment, and use information in an ethical manner.

Inquiry-Based Thinking	Students will formulate focused questions and hypotheses, evaluate existing knowledge, collect and analyze data, and draw justifiable conclusions.
Integrative Thinking	Students will make connections and transfer skills and learning among varied disciplines, domains of thinking, experiences, and situations.
Intercultural Thinking	Students will evaluate generalizations about cultural groups, analyze how cultural beliefs might affect communication across cultures, evaluate how specific approaches to global issues will affect multiple cultural communities or political institutions, and untangle competing economic, religious, social, political, or geographical interests of cultural groups in conflict.
Metacognitive Thinking	Students will evaluate the effectiveness of their project plan or strategy to determine the degree of their improvement in knowledge and skills.
Quantitative Thinking	Students will analyze real-world problems quantitatively, formulate plausible estimates, assess the validity of visual representations of quantitative information, and differentiate valid from questionable statistical conclusions.

The skills gained in Core I courses will facilitate student learning in later coursework. These courses provide a direct linkage between the first classes a student takes, Core II courses, major-specific courses, and the senior capstone experience.

Core II courses provide necessary training in communication, writing, and math as well as deeper engagement with discipline-specific skills and knowledge. These courses develop student capacity as skilled and knowledgeable citizens.

Multicultural or International designated courses are dedicated to developing students' intercultural capacity. Students in multicultural courses learn to explain and examine elements of multiple cultures, past and present. Multicultural Studies courses encourage students to compare their own cultures with other cultures, enabling them to evaluate their own. At least half of the content in international courses is dedicated to current topics beyond the United States' borders. Students will identify and evaluate the fundamental dynamics that shape the current world; recognize and appraise major issues, concerns, and problems of a super-national or global scope in the current world; and/or recognize and assess diversity within, and interactions among, current world nations, peoples, and cultures, and how these help shape the current world. (See www.marshall.edu/gened (https://www.marshall.edu/gened/).)

Writing Intensive Courses engage students directly in the subject matter of the course through a variety of activities that focus on writing as a means of learning. In this way, writing is not added to content, but the content is entered and secured through writing. In other words, both teaching and learning are directed toward specific projects carefully created and monitored by the instructor so that students, by doing these projects, acquire the skills and knowledge of the content of the course as set forth in the course objectives. (See www.marshall.edu/wac (https://www.marshall.edu/wac/).)

Capstone courses are taken as part of a major in a student's senior year. Therein, students undertake projects that synthesize past learning and demonstrate their abilities.

Undergraduate Programs A-Z

A

- Accounting, B.B.A. (p. 191)
- Accounting, Minor (p. 193)
- Addiction Studies, Minor (p. 383)
- Advertising, Emphasis (p. 133)
- Advertising, Minor (p. 133)
- Advertising/Public Relations, Major (p. 133)
- Aerospace Engineering, Emphasis (p. 485)
- African and African American Studies, Minor (p. 383)
- Anthropology of Health, Emphasis (p. 333)
- Anthropology, B.A. (p. 331)
- Anthropology, Emphasis (Regents Bachelor of Arts) (p. 691)
- Anthropology, Minor (p. 333)
- Applied Environmental Science, Emphasis (p. 638)
- Applied Exercise Physiology, Emphasis (p. 530)
- Applied Physics, Emphasis (p. 654)
- Archeological Anthropology, Emphasis (p. 333)
- Art Education PreK-Adult, B.A. (p. 416)

- Engineering Science, Minor (p. 450)
- Engineering Transfer Program (p. 450)
- Engineering, B.S.E. (p. 486)
- Engineering, General Emphasis (p. 488)
- Engineering, Industrial and Systems Emphasis (p. 488)
- Engineering, Physics Emphasis (http://catalog.marshall.edu/undergraduate/programs-az/engineering-computer-sciences/college-programs/engineering-bse/engineering-physics-emphasis/)
- English (Generalist), B.A. (p. 265)
- English Education 5-9, B.A. (Second Specialization only) (p. 423)
- English Education 5-Adult, B.A. (p. 424)
- English, Minor (p. 267)
- Entrepreneurship, B.B.A. (p. 227)
- Entrepreneurship, Minor (p. 229)
- Environmental Chemistry, B.S. (p. 594)

- Environmental Geoscience, Emphasis (p. 623)
- Environmental Science, B.S. (p. 638)
- Environmental Science, Emphasis (p. 642)
- European History, Minor (p. 294)
- Exercise Science, B.S. (p. 529)
- Exercise Science, Minor (p. 534)

F

- Fibers, Emphasis (p. 116)
- Film Studies, Minor (p. 385)
- Finance, B.B.A. (p. 200)
- Finance, Minor (p. 202)
- Forensic Chemistry, B.S. (p. 596)
- French, B.A. (p. 305)
- French, Minor (p. 306)

G

- Game Development, Emphasis (Regents Bachelor of Arts) (p. 692)
- Game Development, Minor (p. 604)
- Game/Simulation Development, Emphasis (p. 602)
- General Business, B.A. (p. 239)
- General Business, Minor (p. 241)
- General Humanities, Minor (p. 347)
- General Science Education 5-9, B.A. (Second Specialization only) (p. 426)
- General Science Education 5-Adult, B.A. (p. 426)
- General Sonography, Emphasis (p. 541)
- Geography - GIScience, Emphasis (Regents Bachelor of Arts) (p. 692)
- Geography - Human, Emphasis (Regents Bachelor of Arts) (p. 692)
- Geography - Physical, Emphasis (Regents Bachelor of Arts) (p. 693)
- Geography, Accelerated Master's Degree (p. 278)
- Geography, B.A. (p. 278)
- Geography, B.S. (p. 279)
- Geography, Emphasis (Regents Bachelor of Arts) (p. 693)
- Geography, Minor (p. 286)
- Geology, B.A. (p. 618)
- Geology, B.S. (p. 619)
- Geology, Minor (p. 624)
- German, Minor (p. 307)
- GIScience, Certificate (http://catalog.marshall.edu/undergraduate/programs-az/liberal-arts/geography/giscience-certificate/)
- GIScience, Emphasis (p. 281)
- GIScience, Minor (http://catalog.marshall.edu/undergraduate/programs-az/liberal-arts/geography/giscience-minor/)
- Graphic Design, Emphasis (p. 117)
- Greek, Minor (p. 347)

H

- Health and Wellness, Minor (p. 534)
- Health Care Management, B.B.A. (p. 213)
- Health Communication, Concentration (p. 245)
- Health Sciences, B.S. (p. 513)
- History, B.A. (p. 294)
- History, Minor (p. 296)
- Hospitality and Tourism Marketing, Minor (p. 229)
- Human Resources and Organizational Behavior, Emphasis (p. 216)
- Humanities, B.A. (p. 347)

I

- Information Assurance, Certificate (p. 615)
- Information Assurance, Emphasis (Regents Bachelor of Arts) (p. 693)
- Instructional Technology and Library Science, Emphasis (Regents Bachelor of Arts) (p. 693)
- International Affairs, B.A. (p. 403)
- International Affairs, Minor (p. 405)
- International Business, B.B.A. (p. 202)
- International Business, Minor (p. 204)
- Interpersonal Communication, Concentration (p. 247)

J

- Japanese Education PreK-Adult, B.A. (p. 428)
- Japanese Studies, Minor (p. 307)
- Japanese, B.A. (p. 307)
- Japanese, Minor (p. 309)
- Jazz Studies, Emphasis (p. 164)
- Journalism, Major (p. 137)
- Journalism, Minor (p. 142)

- Web Development, Minor (p. 604)
- Wellness Education PreK-Adult, B.A. (p. 437)
- Women's and Gender Studies, Minor (p. 387)
- Women's Studies, Emphasis (Regents Bachelor of Arts) (p. 695)
- World History, Minor (p. 297)

Four-Year Programs Offered at Marshall University

A *program* is a unified series of courses or learning experiences that lead to a degree.

A *major* is a program of study requiring at least 24 semester credits for completion. It is offered within one department or by a combination of departments. It is a field of study within an approved degree program, having its own curriculum. A degree program may have more than one major. All courses in the major must be taken for a grade except internships, practica, and approved foreign study courses.

An *Area of Emphasis* is a specific subject area of study which has limited course offerings within an approved degree program and major. Normally, a minimum of twelve (12) credit hours would be expected for an area of emphasis at the undergraduate level.

Degree Abbreviations

Abbreviation	Description
B.A.	Bachelor of Arts
B.B.A.	Bachelor of Business Administration
B.F.A	Bachelor of Fine Arts
B.S.	Bachelor of Science
B.S.B.M.E.	Bachelor of Science in Biomedical Engineering
B.S.E.	Bachelor of Science in Engineering
B.S.E.E.	Bachelor of Science in Electrical and Computer Engineering
B.S.M.E.	Bachelor of Science in Mechanical Engineering
B.S.W.	Bachelor of Social Work
R.B.A.	Regents Bachelor of Arts

College Abbreviations

Abbreviation	Description
CAM	College of Arts and Media
CECS	College of Engineering and Computer Sciences
COEPD	College of Education and Professional Development
COLA	College of Liberal Arts
COHP	College of Health Professions
COS	College of Science
COB	College of Business

College of Arts and Media

Contacts: Dr. Wendell Dobbs, Interim Dean; Dr. David Castleberry, Associate Dean
Website: https://www.marshall.edu/cam/

cam@marshall.edu

The College of Arts and Media at Marshall University was created on July 1, 2013. The college includes the School of Art and Design; the W. Page Pitt School of Journalism and Mass Communications; the School of Music; the School of Theatre; the Marshall Artists Series; the student newspaper, *The Parthenon*; the student radio station, WMUL-FM; the student produced television news broadcast, MU Report; Basketball Friday Night in West Virginia; the Marching Thunder; MU jazz festivals; MU Theatre productions; and the Birke and Carroll Fine Art Galleries.

The College of Arts and Media offices are in Smith Hall 158. The School of Art and Design offices are in the Visual Arts Center 601; the W. Page Pitt School of Journalism and Mass Communications offices are in Communications Building 100; the School of Music offices are in Smith Music Hall 154, and the School of Theatre offices are in the Joan C. Edwards Performing Arts Center 230. Art and design courses are taught in the Visual Arts Center and the Art Warehouse. Journalism and mass communications courses are taught in Smith Hall and the Communications Building. Music courses are taught in Smith Music Hall, the Jomie Jazz Center, and the Henderson Center band facility. Theatre courses are taught in the Joan C. Edwards Performing Arts Center.

Mission of the College

The College of Arts and Media is dedicated to the discovery, application, transmission, and advancement of knowledge in arts and in media. Through its rich and varied public programs, our college informs and enhances the lives of students and the wider community.

Our students receive professional, discipline-based training within the context of broad learning. They become critical thinkers, creative problem solvers, and collaborators. They are prepared for productive lives as global citizens and 21st century leaders through their professions and in their communities.

The specific goals of the College of Arts and Media are:

1. To educate and train those seeking professions in arts and in media;
2. To support the university's general academic curricula by offering courses that stimulate an understanding of and response to the verbal, aural, and visual nature of our programs;
3. To offer diverse opportunities through exhibitions, informational media, performances, presentations, and service for the enrichment of the campus and other publics; and
4. To provide leadership in and advocacy for arts and media.

Programs of the College

The curricula of the College of Arts and Media are designed to certify that, upon graduation, students have completed a program that leads to development of the ability:

1. To recognize, investigate, and solve problems through critical thinking, analysis, and the application of appropriate research and creative strategies;
2. To integrate an array of skills and knowledge in preparation for a professional career;
3. To demonstrate an awareness of the value of the arts and media in society and in the global community in preparation for becoming citizen-artists.

Special Opportunities for All Students

Center for Wellness in the Arts

In August of 2014, the College of Arts and Media and the College of Health Professions launched an exciting venture on behalf of students that has become the Marshall University Center for Wellness in the Arts. The center is a place where performing and visual artists can be evaluated by licensed athletic trainers, skilled vocal and hearing clinicians, dietitians, exercise physiologists and performance anxiety specialists who have the proper knowledge and equipment to assess discipline-specific health risks and offer wellness strategies. The CWA contributes to the academic and professional development of students and faculty through education, treatment and research.

The CWA draws upon university resources in behavioral and physical health, exercise science, communication disorders, and speech and hearing, to provide students with a groundbreaking system of support and learning. Rejecting the premise that a certain amount of pain is part of the artist's process, the CWA promotes a culture in which pain is a problem to be treated, and wellness an essential component of successful careers in the arts. For further information, please consult the Center for Wellness in the Arts website at www.marshall.edu/cwa (http://www.marshall.edu/cwa/).

Exhibitions

The Birke Art Gallery on the Marshall University campus and the Visual Arts Center Gallery in downtown Huntington feature student, faculty, and guest artist exhibitions. These galleries are open year-round and are free to students and the public.

Non-major Participation in Arts and Media Courses and Minors

Students wishing to develop or advance their artistic, journalistic, mass communications, musical, or theatrical skills are welcome to enroll in courses in the college and to join the various student organizations. Students who desire a minor in the arts or journalism and mass communications should refer to the school listings for the sequence of courses in each program.

Performances and Productions

All university students are encouraged to participate in the many music ensembles and theatrical productions offered by the School of Music and the School of Theatre.

Professional and Student Organizations

The College of Arts and Media houses a number of professional and student organizations that enhance and explore various aspects of its majors and areas of specialization. Please consult with the school director for more information.

Student Media

The student newspaper, *The Parthenon*, is published Monday through Friday online and in print Tuesday and Friday during the fall and spring semesters and weekly from June to August. The student radio station, WMUL-FM, 881. FM, is on the air 24 hours daily throughout the year. All university students are encouraged to volunteer at WMUL-FM. MU Report is a student-produced, 15-minute bi-weekly television newscast seen throughout West Virginia on public television. Basketball Friday Night in West Virginia is a three-hour talk show about the state's high school basketball games. Seven Arrow Creative is a student-run

advertising and public relations agency serving the Huntington campus and communities.

Community Engagement

The College of Arts and Media enriches the Huntington campus and regional community with many performances, exhibitions, broadcasts, publications, lectures, and special presentations.

As the second oldest town and gown organization in the U.S., the Marshall Artists Series presents a variety of professional arts programs for students, on and off the Huntington campus, that enhance one's global experience outside of the classroom. Programming includes Broadway, music, authors, comedy, opera, dance and international films - designed to expose, enrich, educate and entertain students, most often at no charge. For information, call 304-696-3326 or visit www.marshallartistsseries.org (http://www.marshallartistsseries.org).

Exhibitions in multiple exhibition venues presented by the School of Art and Design are open to all students. *The Parthenon*, MU Report, WMUL, Seven Arrow Creative, and Basketball Friday Night in WV, a radio/television/live web simulcast, in the School of Journalism and Mass Communications inform the community, debate topical issues, broadcast documentaries, and aid local businesses. Marshall University Music presents many recitals and concerts by its faculty, students, and ensembles, in addition to programs featuring guest artists. Throughout the academic year and during the summer sessions, the Marshall University Theatre provides many major dramatic productions. Students are cordially welcomed to all events and are urged to explore the excitement, enrichment, and entertainment offered by the College of Arts and Media.

- School of Journalism and Mass Communications (p. 127)
- School of Music (p. 146)
- School of Theatre (p. 173)

Academic Policies

Advising

Each student will be assigned a faculty advisor in the student's area of interest, who will provide academic advice and guidance in the registration process. Students majoring in the arts are subject to mandatory advising every semester of enrollment. Students in journalism and mass communications are subject to mandatory advising until junior status is obtained. Only after a student has met with the academic advisor for approval of the course schedule will the advising hold be lifted, thus enabling the student to register for classes. A student who has not been assigned an advisor or who has questions about the assignment of advisor should contact the dean of the College of Arts and Media or the school director.

Catalog of Record

The College of Arts and Media adheres strictly to the University Academic Catalog of Record Policy found in the "Academic Information" section of this catalog. This policy affects all undergraduate students in the College of Arts and Media. You may also consult the catalog website: www.marshall.edu/catalog/ (http://www.marshall.edu/catalog/).

Change of Major

Students who change majors within the College of Arts and Media will continue to operate under the catalog in effect when they entered. Students transferring from other units of the university must meet the requirements of the catalog in effect at the time of the change in major.

Degree Progress Audit

During the semester students are enrolled for their 80th hour, they are required to have a check of their progress toward graduation. The check is to be initiated in the college office. Failure to do so will result in a hold on registration that will be removed after the check is completed.

Probation and Academic Dismissal

The College of Arts and Media adheres strictly to the University Academic Probation and Suspension Policy found in the "Academic Information" section of this catalog. This policy affects all undergraduate students in the College of Arts and Media regardless of their catalog year. You may also consult this catalog website: www.marshall.edu/catalog (http://www.marshall.edu/catalog/).

Degree Requirements

Degree Programs

The College of Arts and Media offers undergraduate programs leading to the Bachelor of Arts with majors in music, theatre, video production, or visual arts, the Bachelor of Arts (B.A.) degree with majors in advertising/public relations, journalism and media production, and the Bachelor of Fine Arts Degree (B.F.A.) with majors in music, theatre, and the visual arts.

- the Bachelor of Arts with majors in allied arts, music, theatre, video production, or visual arts,
- the Bachelor of Arts (B.A.) degree with majors in advertising/public relations, journalism and media production, and
- the Bachelor of Fine Arts Degree (B.F.A.) with majors in music, theatre, and the visual arts.

Degrees in Arts and Media Education

Programs leading to the Bachelor of Arts degree in education toward certification in art or music education for teachers in West Virginia public schools are listed under the College of Education in this catalog. Graduates in art or music education qualify for certification to teach in grades PreK to Adult.

Graduate Degrees in Arts and Media

Graduate programs leading to the Master of Arts (M.A.) degree in music and the Master of Arts degree in Journalism (M.A.J.) may be found in the *Graduate Catalog*.

Arts and Media Majors

Bachelor of Arts

The Bachelor of Arts degree offered by the College of Arts and Media places an emphasis on the arts and their relationships to outside disciplines. This degree focuses on a breadth in content knowledge with a liberal-arts orientation that features exploration in non-art fields.

Students enrolled in the B.A. degree program will select one of four majors:

- Art
- Music
- Theatre
- Video Production

Within most majors, students select an area of emphasis that aligns most closely with their chosen career path.

Students should contact the dean or the school director for information pertaining to each of the majors and areas of emphasis and to determine special admission requirements for each potential sequence. In unusual circumstances, students may enter the B.A. program as undecided majors upon the recommendation of the dean or school director.

Curricular Structure

The Bachelor of Arts degree in the College of Arts and Media includes the following components:

Code	Title	Credit Hours
Core I requirements		9 credit hours
Core II requirements		25 credit hours
Major Area Requirements		48-51 credit hours
Minor		15-18 credit hours
Additional Electives		17-29 credit hours
Total Requirements for Graduation		**120 credit hours**

Bachelor of Arts in Journalism and Mass Communications

Through the W. Page Pitt School of Journalism and Mass Communications, the College of Arts and Media offers a Bachelor of Arts degree with seven emphases housed in three majors:

- advertising/public relations, with emphases in advertising and public relations;
- journalism, with emphases in broadcast, multimedia, and sports; and
- media production, with emphases in radio/television production and management and in video production.

Professionally oriented courses and laboratory experiences are combined with extensive liberal arts preparation to provide students with the background necessary for employment in mass communications. The program is accredited by the Accrediting Council on Education in Journalism and Mass Communications.

Curricular Structure

The Bachelor of Arts degree in the School of Journalism and Mass Communications includes the following components:

Code	Title	Credit Hours
Core I requirements		9 credit hours
Core II requirements		25 credit hours
JMC Cognizance area		24 credit hours
JMC Core		21 credit hours
Major requirements		27 credit hours
Required Non-JMC and elective courses		14 credit hours
Total Requirements for Graduation		**120 credit hours**

Bachelor of Fine Arts in Music, Theatre or Visual Arts

Through the School of Art and Design, the School of Music, and the School of Theatre, the College of Arts and Media offers the Bachelor of Fine Arts (B.F.A.). This is a professional degree designed to prepare students to:

1. enter careers as professionals in their chosen artistic disciplines;
2. pursue professional studies at the graduate level;
3. apply principles learned through the fine arts to the myriad life choices all graduates make, regardless of vocation.

Students enrolled in the B.F.A. degree program will select one of three majors: music, theatre, or visual arts. Within each major, students are further required to select a major area of emphasis, allowing specialization. Majors and areas of emphasis are as follows:

- **Music Major:** areas of emphasis
  - Jazz Studies
  - Multidisciplinary Studies
  - Performance
  - Theory and Composition
- **Musical Theatre Major**
- **Theatre Major:** areas of emphasis
  - Performance
  - Production
- **Visual Arts Major:** areas of emphasis

- Ceramics
- Fibers
- Graphic Design
- Painting
- Photography
- Printmaking
- Sculpture

Curricular Structure

The Bachelor of Fine Arts degree program, consistent with professional degree programs in the fine arts in United States higher education, includes the following components:

Code	Title	Credit Hours
Core I requirements		9 credit hours
Core II requirements		25 credit hours
Electives outside of the Major		13 credit hours
Majors and Area of Emphasis requirements		73 credit hours
Total Requirements for Graduation		**120 credit hours**

University Core Curriculum

Code	Title	Credit Hours
Core I: (9 hours)		
First Year Seminar (100-level)		3
Discipline-specific courses with an emphasis on critical thinking (CT) and active learning (100- or 200-level) [1]		6
Core II: 25 hours (100- or 200-level) [2]		
Composition		6
Communication		3
Math		3
Physical or Natural Science		4
Social Science		3
Humanities		3
Fine Arts		3
Additional University Requirements		
Writing Intensive credit in any discipline at any level		6
Multicultural or International coursework in any discipline at any level		3
Capstone project in the major		
Total Credit Hours		**43**

[1] Specific courses that fulfill the CT requirement may be found at www.marshall.edu/gened (http://www.marshall.edu/gened/).

[2] Specific courses that fulfill Core II may be found at www.marshall.edu/gened (http://www.marshall.edu/gened/).

For more information, consult the general education website: www.marshall.edu/gened (http://www.marshall.edu/gened/).

Additional Degree Requirements

For specific degree requirements, see the appropriate major.

Musical Theatre, B.F.A.

Bachelor of Fine Arts with a Major in Musical Theatre

The Bachelor of Fine Arts degree with a musical theatre major is designed to prepare students for entry into professional musical theatre careers or graduate school.

ENTRANCE AND PROGRAM REQUIREMENTS

Students desiring entry into the B.F.A. degree in musical theatre must be formally admitted to the program. This admittance is based upon an audition that includes singing, acting, and dancing. Students may contact the School of Music or the School of Theatre and Dance for more information about audition requirements and dates.

Students in the musical theatre major must also satisfy the following program requirements:

1. Al coursework in the major must be completed with a grade of *C* or above. A course with a grade of *D* or *F* must be repeated with at least a grade of *C* to count for graduation or to be used as a prerequisite for another required course.
2. A total of 120 credit hours is required for the B.F.A. degree in musical theatre. These credit hours must include 34 hours in the university core curriculum, 73 hours of major requirements (listed below), and 13 hours of non-major elective courses (courses not in the music, theatre, or dance areas). It is recommended the one or more of the following courses be selected toward fulfilling the 13 non-major electives: DTS 202, ESS 220, HS 201.
3. Forty (40) credit hours must be earned in courses numbered 300-499.
4. Upon completion of the fourth semester of MUS 196, Applied Voice, students must pass a sophomore hearing before enrolling in MUS 396.

Major Requirements in Musical Theatre

Major requirements.....73

DAN 210, 230, 305, 316

MUS 101, 109, 310, 496

MUS 196 for four semesters

MUS 396 for two semesters

MUS 470 for two semesters

*Four semesters of ensembles selected from MUS 204, 207, 404, 407

*Two semesters of ensembles selected from MUS 204, 205, 206, 207, 404, 405, 406, 407

THE 220, 222, 230, 320, 323, 423, 441, 490

THE 390 for two semesters

One course selected from THE 240, 245, 250

MUS/THE/DAN electives (5 credit hours)

*Four ensemble credits must be at the 200 level, and two credits must be at the 400 level. All ensemble courses may be repeated for credit.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours

Major Information

- All students desiring entry into the B.F.A. degree in musical theatre must be formally admitted to the program. This admittance is based upon an audition in acting, singing, and dance/movement. Students should contact the School of Music or the School of Theatre and Dance for more information and to arrange for an audition.
- All coursework in the musical theatre major must be completed with a grade of C or above. A course with a grade of D or F must be repeated with at least a grade of C to count for graduation or to be used as a prerequisite for another required course.
- Candidates for the B.F.A. must complete 73 credit hours in the major, 34 credit hours in the core curriculum, and 13 credit hours in non-major elective courses. The non-major elective courses may not include courses in dance, music, or theatre.
- Forty (40) credit hours must be earned in courses numbered 300-499.
- No course in the major requirements for graduation may be taken Credit/ Non/Credit unless the course is so specified.
- Upon completion of the fourth semester of MUS 196 Voice, students must pass a sophomore hearing before enrolling in MUS 396 Voice.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

This major prepares students for careers or graduate study in musical theatre performance. Students with this degree have careers as performers or support staff in a wide variety of musical theatre settings.

Admission and Performance Standards

Prospective students who wish to apply for admission to the Bachelor of Arts program must meet the general admission requirements for Marshall University.

Students enrolled in the Bachelor of Arts programs are required to complete all coursework in the respective majors with a minimum grade of *C*. Course grades of *D* and *F* are not counted toward graduation requirements and must be replaced with a grade of *C* or better before graduation or before using that course as a prerequisite for another required course.

Candidates for graduation must have a Grade Point Average of 2.0 or higher in all work attempted at Marshall University.

Forty (40) credit hours must be earned in courses number 300-400.

No courses in the college and major requirements for graduation in the College of Arts and Media may be taken Credit/Non-Credit unless the course is otherwise specified.

Students pursuing the B.A. will complete a capstone project appropriate to their emphasis area and outside field. Projects must be approved the student's capstone advisor.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Bachelor of Arts in the Arts with a video production major combines course work from art and design, journalism, music and theatre. Camera skills, lighting, editing, acting, directing, storytelling and writing, music and sound effects, motion graphics and effects, and producing are all critical elements in this program. Students gain the skills and techniques necessary for video creation and are prepared for careers in the video industry

School of Art and Design

The mission of the Marshall University, School of Art and Design is to prepare students for careers as art and design practitioners, scholars, educators, and in arts-affiliated fields. Equipped with profound skills, sensitivity, and sensibility, School of Art and Design graduates are poised to become difference-makers in their artistic disciplines and on schools and communities, as adept and adaptive arts professionals, entrepreneurs, and educators, as well as civic-minded leaders and citizens.

We encourage art and design students to engage with the wider world through their practice as artists and designers. This relationship is fostered through focused disciplinary study in conjunction with a broad interdisciplinary approach toward research. We value the role of both traditional methodologies of artmaking, as well as an engagement with evolving contemporary technologies within the School of Art & Design. This multifaceted approach toward studying art puts a focus on innovative art and design while strengthening our community, region and culture.

The School of Art and Design offers classes out of two distinct facilities:

- The Visual Arts Center (VAC), located at 927 3rd Ave. in the heart of downtown Huntington.
- The Art Warehouse (AW), located at 201, 21st St in close proximity to the Joan C. Edwards Stadium.

The school offers a Bachelor of Fine Arts degree with 8 areas of emphasis, including:

- Ceramics
- Fibers
- Graphic Design
- Painting
- Photography
- Printmaking
- Sculpture
- Studio Art

The school offers a Bachelor of Arts degree with two areas of emphasis:

- Art History
- Visual Art

The School of Art and Design also supports a Bachelor of Arts in Education, housed in the College of Education and Professional Development.

The School of Art and Design also supports the College of Arts and Media video production program students through numerous courses and studios housed in the Visual Arts Center.

Professionally oriented studio art courses and lecture-based courses are combined with the greater university's liberal arts and other general education courses, all of which are designed to prepare students for the diverse fields within art and design.

Of the 120 credit hours required for the bachelor's degree, students must have a minimum of 73 art and design hours, 13 electives outside of the major and 34 general education hours, and they must meet the liberal arts and sciences requirements of the university.

Art and Design majors must also satisfy the following requirements:

1. A student who receives a *D* or *F* in an art and design course counted toward graduation must repeat it and earn at least a *C* before graduation or before using that course as a prerequisite for another required art and design course.
2. At least 40 hours of credit toward the B.A. or B.F.A. degree must be in 300-499 upper level courses. Courses transferred from two-year or community colleges cannot always be used to satisfy this requirement. Courses taken at four-year accredited colleges transfer at the level at which they were taken.
3. Graduating B.F.A. students are required to mount a final thesis exhibition in the gallery space in the Visual Arts Center. This exhibition course is optional for B.A. students.

Minors

A minor in the School of Art and Design consists of a minimum of 15 credit hours. A minor may be completed either in art history or in studio art.

Programs

- Art History, Minor (p. 108)
- Art, B.A. (p. 109)
- Art, B.F.A. (http://catalog.marshall.edu/undergraduate/programs-az/arts-media/art-design/art-bfa/)
- Studio Art, Minor (p. 113)
- Visual Arts, B.F.A. (p. 113)

Courses

- General Education Course

ART 101 Visual Culture and Research **3 Credit hours**
Introduction to the functions of art applications of media, elements and principles of design, artists, and aesthetics. (Required for Art Majors) Introduction to the functions of art applications of media, elements and principles of design, artists, and aesthetics. (Required for Art Majors)
Grade Mode: Normal Grading Mode

ART 112 Intro To Visual Art **3 Credit hours**
An introduction to the methods and principles of the visual arts. Students will consider the work of major artists in thematic contexts. (For non-art majors only.)
Attributes: Core II Fine Arts
Grade Mode: Normal Grading Mode

ART 112H Intro to Visual Art Honors **3 Credit hours**
An introduction to the methods and principles of the visual arts. Students will consider the work of major artists in thematic contexts. (For non-art majors only.)
Pre-req: Admitted Honors College with a score of 1.
Attributes: Core II Fine Arts, Honors
Grade Mode: Normal Grading Mode

ART 113 Art Education: Elementary **3 Credit hours**
An introduction to the materials and methods for teaching art in early childhood and elementary (PreK-6). Stages of development, integrated curriculum design, assessment, and instructional strategies are emphasized. An introduction to the materials and methods for teaching art in early childhood and elementary (PreK-6). Stages of development, integrated curriculum design, assessment, and instructional strategies are emphasized.
Grade Mode: Normal Grading Mode

ART 201 History of Art **3 Credit hours**
A survey of the development of architecture, sculpture, painting, and the minor arts to ca. 1400 A.D. to the present. A survey of the development of architecture, sculpture, painting, and the minor arts to ca. 1400 A.D. to the present.
Pre-req: ART 112 with a minimum grade of C or ART 101 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 202 History of Art **3 Credit hours**
A survey of the history of art from the Renaissance to the present.
Pre-req: ART 112 with a minimum grade of C or ART 101 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 214 Foundations: Grid/Chroma **3 Credit hours**
Introduction to graphic design principles/software in one half-semester workshop and color theory/painting in another. Students will develop visual, technical, and critical thinking skills by solving conceptual problems.
Grade Mode: Normal Grading Mode

ART 215 Foundations: Form/Space **3 Credit hours**
Introduction to 3D physical form/space by exploring ceramics in one half-semester workshop and sculpture in another. Students will develop visual, technical, and critical thinking skills by solving conceptual problems.
Grade Mode: Normal Grading Mode

ART 217 Foundations: Record/Layer **3 Credit hours**
Introduction to still life/figure drawing in one half-semester workshop and experimental drawing/mixed media in another. Students will develop perceptual, technical, and creative problem solving skills.
Grade Mode: Normal Grading Mode

ART 218 Foundations: Site/Matrix **3 Credit hours**
Introduction to installation art with fibers in one half-semester workshop and printmaking processes in another. Students will develop visual, technical, and critical thinking skills by solving conceptual problems.
Grade Mode: Normal Grading Mode

ART 219 Foundations: Frame/Time **3 Credit hours**
Introduction to digital/film photography in one half-semester workshop and 4D design principles/video-based processes in another. Students will develop visual, technical, and critical thinking skills by solving conceptual problems.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

ART 255 Beginning Painting I **3 Credit hours**
Basic techniques using color creatively based on an understanding of visual structural elements; various media including water, acrylic and oil based paints. Basic techniques using color creatively based on an understanding of visual structural elements; various media including water, acrylic and oil based paints.
Pre-req: ART 214 with a minimum grade of C and ART 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 271 Practicum **3 Credit hours**
Grade Mode: Normal Grading Mode

ART 272 Practicum **3 Credit hours**
Grade Mode: Normal Grading Mode

ART 280 Special Topics **1-4 Credit hours**
To be used for experimental courses. By permission only. To be used for experimental courses. By permission only.
Grade Mode: Normal Grading Mode

ART 281 Special Topics **1-4 Credit hours**
To be used for experimental courses. By permission only. To be used for experimental courses. By permission only.
Grade Mode: Normal Grading Mode

ART 282 Special Topics **1-4 Credit hours**
To be used for experimental courses. By permission only. To be used for experimental courses. By permission only.
Grade Mode: Normal Grading Mode

ART 283 Special Topics **1-4 Credit hours**
To be used for experimental courses. By permission only. To be used for experimental courses. By permission only.
Grade Mode: Normal Grading Mode

ART 298 Foundations Review: BFA **1 Credit hour**
Students must present art and design work from all foundations studio courses for faculty review. Required for program advancement. Art majors only.
Pre-req: (ART 101 with a minimum grade of C or ART 112 with a minimum grade of C) and ART 214 with a minimum grade of C and ART 215 with a minimum grade of C and ART 217 with a minimum grade of C and ART 218 with a minimum grade of C and ART 219 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 299 Foundations Review: BA **1 Credit hour**
Students present artwork from foundations courses for faculty review. (Art Education 5-Adult: 218 not required). Successful completion of ART 299 is a prerequisite for advanced studio courses.
Pre-req: (ART 101 with a minimum grade of C or ART 112 with a minimum grade of C) and ART 214 with a minimum grade of C and ART 215 with a minimum grade of C and ART 217 with a minimum grade of C and ART 218 with a minimum grade of C and ART 219 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 301 Printmaking Processes **3 Credit hours**
Experiments in the media of intaglio, lithography, serigraphy, relief collagraphs and new techniques in printmaking. Experiments in the media of intaglio, lithography, seri- graphy, relief collagraphs and new techniques in print- making.
Pre-req: ART 218 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 302 Relief Printmaking **3 Credit hours**
Traditional and experimental approaches to relief printmaking, including woodcut, linocut, wood engraving, relief etching, Japanese techniques, monoprints, and other press and handprinting relief processes. Traditional and experimental approaches to relief print-making, including woodcut, linocut, wood engraving, relief etching, Japanese techniques, monoprints, and other press and handprinting relief processes.
Pre-req: ART 301 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 303 Surface Design **3 Credit hours**
Introduction to surface design. Student will learn various techniques to apply color on fabric surface.
Pre-req: ART 214 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 305 Ceramics **3 Credit hours**
Search for form and personal expressing through clay. Emphasis on handbuilding techniques, decorative processes and glaze application. Search for form and personal expressing through clay. Emphasis on handbuilding techniques, decorative processes and glaze application.
Pre-req: ART 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 307 Sculpture **3 Credit hours**
Emphasis on modeling in clay and exploring the potential of plaster, wood and other materials relevant to the area of sculpture. Emphasis on modeling in clay and exploring the potential of plaster, wood and other materials relevant to the area of sculpture.
Pre-req: ART 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 308 Weaving **3 Credit hours**
The student will demonstrate the ability to carry through the entire process for planning, through warping, threading, and weaving. Each will create unique art works while developing traditional technical skills. The student will demonstrate the ability to carry through the entire process for planning, through warping, threading, and weaving. Each will create unique art works while developing traditional technical skills.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 310 Art Education: Elementary **3 Credit hours**
An introduction to the materials and methods for teaching art in early childhood and elementary (PreK-6). Stages of development, integrated curriculum design, assessment, and instructional strategies are emphasized.
Grade Mode: Normal Grading Mode

ART 312 Typography **3 Credit hours**
Practical studio skills: Typography, application of design principles in print and digital media, and introduction to the computer as a design tool. Also, the designer's relationship to clients and other professionals. Practical studio skills: specifying type, photographic and airbruch techniques and preparation of mechanicals. Also, designer's relationship to agencies, clients, printers, and other professionals.
Pre-req: ART 214 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 313 Installation Art With Fibers **3 Credit hours**
The student will create installation art using a variety of fibers tools, materials, and processes with focus on self-expression and the exploration of structure, space, color, form, and meaning.
Pre-req: ART 214 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 314 Graphic Design I **3 Credit hours**
Sign combinations and visual structure, in relation to meaning of visual messages. Assignments include posters, advertising, information design, and corporate identity. Introduction to materials and procedures in the design process. Sign combinations and visual structure, in relation to meaning of visual messages. Assignments include posters, advertising, information design, and corporate identity. Introduction to materials and procedures in the design process.
Pre-req: (ART 214 with a minimum grade of C and ART 312 with a minimum grade of C) or (JMC 241 with a minimum grade of D and MKT 341 with a minimum grade of D).
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 315 Intro to Photography **3 Credit hours**
Introduction to black and white photography through basic techniques of camera controls, lighting, traditional wet lab, and digital imaging.
Pre-req: ART 219 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 316 Graphic Design II **3 Credit hours**
Applies the use of type and images to design for advertising, editorial, for instructional purposed. Involvement with extended design and layout problems. Applies the use of type and images to design for advertising, editorial, for instructional purposed. Involvement with extended design and layout problems.
Pre-req: ART 314 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 317 Illustration **3 Credit hours**
Conceptual and technical development of illustrations for editorial and advertising purposes. Conceptual and technical development of illustrations for editorial and advertising purposes.
Pre-req: ART 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 318 Art/Design for Websites **3 Credit hours**
This course will focus on art and design considerations in creating web sites. Current software will be used to create graphics, video and audio for web page and website design.
Pre-req: ART 214 with a minimum grade of C.
Attributes: Digital Humanities, No Textbook Required
Grade Mode: Normal Grading Mode

ART 319 Wood Fundamentals: Furniture **3 Credit hours**
The fundamental methods of wood furniture design and construction, including joinery techniques, will be taught. Domestic and exotic woods will be used.
Pre-req: ART 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 320 Silk Screen Printmaking **3 Credit hours**
Experience with screen-printing stencil processes. The advanced student may also explore photographic stencilmaking and printing and a variety of surfaces. Experience with screen-printing stencil processes. The advanced student may also explore photographic stencil- making and printing and a variety of surfaces.
Pre-req: ART 301 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 322 Collagraphs **3 Credit hours**
Printmaking using the collagraph plate or matrix, an additive method that employs both intaglio and relief techniques. Printmaking using the collagraph plate or matrix, an additive method that employs both intaglio and relief techniques.
Pre-req: ART 301 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 323 35mm Slide Photography **3 Credit hours**
Photographic composition, color, and creative pictorial vision along with camera controls are explored through making 35mm slides. Photographic composition, color, and creative pictorial vision along with camera controls are explored through making 35mm slides.
Pre-req: ART 315 with a minimum grade of C or JMC 360 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ART 324 Image Visual: Darkroom **3 Credit hours**
ART 324 is a continuation of material presented in ART 315. Students will explore black and white photography through a variety of cameras and techniques.
Pre-req: ART 315 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 325 Image Visualization: Digital **3 Credit hours**
ART 325 is an exploration using digital techniques. Students will refine their personal vision using digital cameras, lighting and digital imaging software.
Pre-req: ART 219 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 331 Expanded Forms of Sculpture **3 Credit hours**
Emphasizes alternative ways of creating sculpture. We will investigate and create artworks guiding by historical examples of ephemeral art, performance, interventions, language, sound, social practice, and land art.
Pre-req: ART 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 332 Intro to Digital Sculpture **3 Credit hours**
Emphasis will be on the tools, materials and processes of additive and subtractive sculpture. Both traditional techniques and digital technologies will be explored using materials like plastic, wood, and foam. Emphasis will be on the tools, materials and processes of subtractive sculpture. Both traditional and modern tech- niques will be explored in carving from a variety of woods, stones and other materials.
Pre-req: ART 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 333 Welded Sculpture **3 Credit hours**
A variety of techniques including oxygen/acetylene, arc and TIG welding will be studied and practiced in the process of direct metal sculpting. A variety of techniques including oxygen/acetylene, arc and TIG welding will be studied and practiced in the process of direct metal sculpting.
Pre-req: ART 298 with a minimum grade of C or ART 299 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 335 Art Ed 2D-3D **3 Credit hours**
Philosophy, media and methods for teaching art (emphasis for elementary level); includes laboratory experiences. Philosophy, media and methods for teaching art (emphasis for elementary level); includes laboratory experiences.
Grade Mode: Normal Grading Mode

ART 340 Art Education: Secondary **3 Credit hours**
An introduction to the methods for teaching art at the secondary level (7-12). Authentic instruction and classroom assessment strategies are emphasized.
Pre-req: ART 113 with a minimum grade of C or ART 310 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 343 Intro to Potter's Wheel **3 Credit hours**
Basic throwing skills, surface enrichment and glaze application emphasized. Design analysis and production of functional form stressed. Basic throwing skills, surface enrichment and glaze appli- cation emphasized. Design analysis and production of functional form stressed.
Pre-req: ART 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 344 Primitive Ceramic Tech **3 Credit hours**
The study of local clay preparation and primitive firing and decorating techniques. The study of local clay preparation and primitive firing and decorating techniques.
Pre-req: (ART 305 with a minimum grade of C or ART 343 with a minimum grade of C) and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 345 Problems in Porcelain **3 Credit hours**
The formulation and use of porcelain in the production of utilitarian and sculptural form. The formulation and use of porcelain in the production of utilitarian and sculptural form.
Pre-req: (ART 305 with a minimum grade of C or ART 343 with a minimum grade of C) and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 350 Watercolor Painting **3 Credit hours**
Watercolor medium in expressing still life, landscape, and the human figure. Watercolor medium in expressing still life, landscape, and the human figure.
Pre-req: ART 214 with a minimum grade of C or ART 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 351 Advanced Watercolor **3 Credit hours**
Advanced exploration of watercolor, inks and other fluid media. Emphasis will be on experimental methods and personal originality. Advanced exploration of watercolor, inks and other fluid media. Emphasis will be on experimental methods and personal originality.
Pre-req: ART 350 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 353 Beginning Painting I **3 Credit hours**
Pre-req: ART 214 with a minimum grade of C or ART 217 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 354 Beginning Painting II **3 Credit hours**
Pre-req: ART 353 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 355 Painting III **3 Credit hours**
Continues development for the intermediate level painter with emphasis on techniques and form, including varied supports, grounds, mediums such as encaustics, synthetic reins, egg tempera, acrylics and oils. Continues development for the intermediate level painter with emphasis on techniques and form, including varied supports, grounds, mediums such as encaustics, synthetic reins, egg tempera, acrylics and oils.
Pre-req: ART 214 with a minimum grade of C or ART 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 360 Mixed Media **3 Credit hours**
Projects in painting, drawing and mixed media. Projects in painting, drawing and mixed media.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 369 Mold Making & Casting **3 Credit hours**
Advanced processes of piece and flexible mold making will be studied and practiced for the purpose of casting complex forms and limited edition sculpture. Advanced processes of piece and flexible mold making will be studied and practiced for the purpose of casting complex forms and limited edition sculpture.
Pre-req: ART 305 with a minimum grade of C or ART 307 with a minimum grade of C or ART 343 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 371 Practicum **3 Credit hours**
Grade Mode: Normal Grading Mode

ART 372 Practicum **3 Credit hours**
Grade Mode: Normal Grading Mode

ART 389 20th Century Art **3 Credit hours**
A survey of major 20th Century artists works, styles, movements and media in a broad historical context with discussion of research methods and directed research project. A survey of major 20th Century artists works, styles, movements and media in a broad historical context with discussion of research methods and directed research project.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 390 Professional Practice **3 Credit hours**
Current views and practice: contemporary issues in art, safe practices in the studio, career opportunities, technology and art, and professional skills for artists. Current views and practice: contemporary issues in art, safe practices in the studio, career opportunities, technology and art, and professional skills for artists.
Pre-req: ART 298 with a minimum grade of C or ART 299 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 404 Iconography of Mary **3 Credit hours**
Traces the sources and evolution of Catholic doctrine and images of the Virgin Mary. Traces the sources and evolution of Catholic doctrine and images of the Virgin Mary.
Grade Mode: Normal Grading Mode

ART 406 Figure Drawing **3 Credit hours**
Practice in drawing from the posed human figure. Practice in drawing from the posed human figure.
Pre-req: ART 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 407 Tribal Arts **3 Credit hours**
An introduction to the unique arts of so-called precivilized peoples with a two-fold emphasis: First, the European pre-historic; second, the non-European primitive. An introduction to the unique arts of so-called pre-civilized peoples with a two-fold emphasis: First, the European pre-historic; second, the non-European primitive.
Pre-req: ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 408 Art & Arch of Ancient Egypt **3 Credit hours**
History of the visual arts of ancient Egypt in the context of social and religious influences. History of the visual arts of ancient Egypt in the context of social and religious influences.
Pre-req: ART 201 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 409 19th Century Art **3 Credit hours**
A survey of the development of architecture, painting, and sculpture in the Western World during the last century. A survey of the development of architecture, painting, and sculpture in the Western World during the last century.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 411 Art of Ancient Rome **3 Credit hours**
Explores the art and architecture of ancient Rome in light of social and religious influences.
Pre-req: ART 201 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 414 Art & Arch Italian Renaissance **3 Credit hours**
Explores the art and architecture of the Italian Renaissance in the context of social and religious influences. Explores the art and architecture of the Italian Renaissance in the context of social and religious influences.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 415 Northern Renaissance Art **3 Credit hours**
Explores the art of Northern Europe during the Renaissance in light of social and religious influences.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 416 Baroque Art **3 Credit hours**
Analyzes Baroque art and the social milieu that influenced, commissioned, financed, and produced it.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 418 Advanced Drawing **3 Credit hours**
Drawing problems designed and executed by the individual student, in a variety of media, to develop unique imagery and increased technical skill. Drawing problems designed and executed by the individual student, in a variety of media, to develop unique imagery and increased technical skill.
Pre-req: ART 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 419 Textile Construction **3 Credit hours**
Explore various textile materials using ancient and contemporary processes and their applications in the development of 21st century crafts and products.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 420 Textile Design **3 Credit hours**
Textile design for possible commercial production, emphasizing the creation of numerous fabric samples and limited amounts of yardage.
Grade Mode: Normal Grading Mode

ART 422 Digital Process for Textiles **3 Credit hours**
Students will use graphics software to produce original designs emphasizing the strength of these programs to quickly manipulate color palette, scale, and pattern to develop functional textiles for industrial use.
Grade Mode: Normal Grading Mode

ART 423 Photographic Lighting **3 Credit hours**
Advanced course for students who have completely mastered the basics of photography. Covers basic studio setup, creative use of the studio situation in portraits, still life and photo illustration. Advanced course for students who have completely mastered the basics of photography. Covers basic studio setup, creative use of the studio situation in portraits, still life and photo illustration.
Pre-req: ART 325 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C or AM 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 424 Women and Art **3 Credit hours**
Explores the relationship of women to art historically; as artists, as subject matter, and as patrons/consumers.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 425 History of Photography **3 Credit hours**
Selected survey of the history of photography investigating the prehistory and invention of photography, portraiture, landscape, social documentary, aesthetic, and experimental practice, post-modernism, and the digital age.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 426 19th Century Photo Processes **3 Credit hours**
Explores traditional photographic processes that were prevalent during the 19th century combines with contemporary practices using digital techniques. Emphasis on creative development and technical proficiency.
Pre-req: ART 219 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 427 Photo Portfolio **3 Credit hours**
Continued development of creative work with emphasis on preparation of portfolio and exhibition. Continued development of creative work with emphasis on preparation of portfolio and exhibition.
Pre-req: (ART 324 with a minimum grade of C or ART 325 with a minimum grade of C) and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 428 History of Medieval Art **3 Credit hours**
Explores the art and architecture of the European Middle Ages in light of social and religious influences.
Pre-req: ART 201 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 429 Byzantine and Islamic Art **3 Credit hours**
Explores the art and architecture of the Byzantine Empire and neighboring medieval Islamic societies in light of social and religious influences.
Pre-req: ART 201 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 432 Illusion **3 Credit hours**
Illusion explores the history and application of various illusionist effects to assist in the understanding of why artists incorporate illusion in their work and how these concepts convey relevant meaning.
Pre-req: (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C) and (ART 301 with a minimum grade of C or ART 303 with a minimum grade of C or ART 305 with a minimum grade of C or ART 307 with a minimum grade of C or ART 312 with a minimum grade of C or ART 325 with a minimum grade of C or ART 343 with a minimum grade of C or ART 350 with a minimum grade of C or ART 353 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 440 Adv Graphic Design **3 Credit hours**
Directed study in which student select subject from any area of commercial design with the goal of developing specific area of expertise. Emphasis on original design and research. Directed study in which student select subject from any area of commercial design with the goal of developing specific area of expertise. Emphasis on original design and research.
Pre-req: ART 316 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 442 Site-Specific Sculpture **3 Credit hours**
Emphasis will be on creating sculptures that deal directly with unique spaces and particular locations. We will focus on how history, culture, and geography inspire site-specific sculptures.
Pre-req: ART 215 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 443 Mm/Assemblage Sculpture **3 Credit hours**
Combinations of found, fabricated and mixed materials will be assembled into original sculpture compositions. Combinations of found, fabricated and mixed materials will be assembled into original sculpture compositions.
Pre-req: ART 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 444 Papermaking/Bookbinding **3 Credit hours**
The preparation and processing of fibers for papermaking including experiences in sheet forming, The preparation and processing of fibers for papermaking including experiences in sheet forming,
Pre-req: ART 301 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 445 Graphic Design Corp Ident **3 Credit hours**
Application of graphic design, including typography, photography and illustrations in developing and implementing identity systems. Application of graphic design, including typography, photography and illustrations in developing and imple- menting identity systems.
Pre-req: ART 314 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 446 Intermed Potter's Wheel **3 Credit hours**
Continuation of Art 343. The student will master basic wheel and decorative processes developing a personal style in their work. Continuation of Art 343. The student will master basic wheel and decorative processes developing a personal style in their work.
Pre-req: ART 343 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 447 Combined Ceramic Process **3 Credit hours**
Exploration of a variety of ceramic building and firing processes such as hand building, wheel and slip casting. Exploration of a variety of ceramic building and firing processes such as hand building, wheel and slip casting.
Pre-req: (ART 305 with a minimum grade of C or ART 343 with a minimum grade of C) and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 448 Ceramic Mat & Processes **3 Credit hours**
Practical and empirical investigation of ceramic materials, techniques and approaches to their use in clay and glazes. Practical and empirical investigation of ceramic materials, techniques and approaches to their use in clay and glazes.
Pre-req: (ART 305 with a minimum grade of C or ART 343 with a minimum grade of C) and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 449 Ceramic Sculpture **3 Credit hours**
Contemporary ideas and techniques of ceramic fired and unfired sculpture. Contemporary ideas and techniques of ceramic fired and unfired sculpture.
Pre-req: ART 305 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 450 2 & 3D Designs for Fabric **3 Credit hours**
Exploring the potentialities of fabric as an art experience in two and three dimensional art form. Exploring the potentialities of fabric as an art experience in two and three dimensional art form.
Grade Mode: Normal Grading Mode

ART 451 Advanced Ceramics **3 Credit hours**
The advanced student will explore individual problems and interests in clay. The advanced student will explore individual problems and interests in clay.
Pre-req: (ART 305 or ART 343) and (ART 298 or ART 299).
Grade Mode: Normal Grading Mode

ART 453 Motion Design I **3 Credit hours**
Introductory topics in time-based media. Topics may include motion design, animation, video compositing, sound design, interactive design, data visualization, digital storytelling, or related subjects.
Pre-req: ART 298 with a minimum grade of C or ART 299 with a minimum grade of C or AM 299 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 454 Motion Design II **3 Credit hours**
Advanced topics in time-based media. Topics may include motion design, animation, video compositing, sound design, interactive design, data visualization, digital storytelling, or related subjects. (PR: ART 453)
Pre-req: ART 453 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 455 Painting Acrylic & Oil **3 Credit hours**
Study and practice of painting in expressing still life, landscape, and the human figure. Study and practice of painting in expressing still life, landscape, and the human figure.
Pre-req: (ART 350 with a minimum grade of C or ART 353 with a minimum grade of C) and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 456 Painting Acrylic & Oil **3 Credit hours**
Study and practice of painting in expressing still life, landscape, and the human figure. Study and practice of painting in expressing still life, landscape, and the human figure.
Pre-req: ART 353 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 457 Figure Painting **3 Credit hours**
Painting the nude model using modern and classical methods. Painting the nude model using modern and classical methods.
Pre-req: ART 353 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 458 Adv Problems In Painting **3 Credit hours**
Refinement and development of individual concerns with content, form and techniques in painting. Refinement and development of individual concerns with content, form and techniques in painting.
Pre-req: ART 353 with a minimum grade of C or ART 354 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 459 Digital Drawing and Painting **3 Credit hours**
Students will create conceptual illustrations for books, gaming, storyboards and movies by integrating traditional drawing and painting techniques with digital media.
Pre-req: ART 298 with a minimum grade of C or ART 299 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 460 History & Phil of Art Ed **3 Credit hours**
A survey of the evolution of art education and philosophy, and a study of problems related to art education on the elementary and high school level. A survey of the evolution of art education and philosophy, and a study of problems related to art education on the elementary and high school level.
Pre-req: ART 340 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 463 Adv Intaglio Printmaking **3 Credit hours**
Development of individualized form using intaglio techniques and incorporation multiple colors, plates, assemblages, collagraphs, photo-etching, and mixed media. Development of individualized form using intaglio techniques and incorporation multiple colors, plates, assemblages, collagraphs, photo-etching, and mixed media.
Pre-req: ART 301 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 464 History of Modern Design **3 Credit hours**
History of print and object design from the beginning of the nineteenth through the twentieth century will be studied in terms of art history, technology, politics, economics, and consumer behavior.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 465 Lithography **3 Credit hours**
Basic techniques of hand lithography, both stone and metal plate. Basic techniques of hand lithography, both stone and metal plate.
Pre-req: ART 301 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 466 Curr Dev Pub Sch Art K-12 **3 Credit hours**
Exploring considerations for curriculum development in art education; developing individualized curriculum for specific situations on grade levels K-6 or 7-12. Exploring considerations for curriculum development in art education; developing individualized curriculum for specific situations on grade levels K-6 or 7-12.
Pre-req: (ART 113 with a minimum grade of C or ART 310 with a minimum grade of C) and ART 340 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 468 Secondary Ed: Teaching Art **3 Credit hours**
This course focuses on instructional standards and methods for teaching art at the secondary level with an emphasis on middle grades. A clinical experience provides observation and teaching. This course focuses on instructional standards and methods for teaching art at the secondary level with an emphasis on middle grades. A clinical experience provides observation and teaching.
Pre-req: ART 340 with a minimum grade of C and ART 460 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 470 Practicum **3 Credit hours**
To be used for learning activities that involve the application of previously learned processes, theories, systems or techniques. To be used for learning activities that involve the appli- cation of previously learned processes, theories, systems or techniques.
Grade Mode: Normal Grading Mode

ART 472 Practicum **3 Credit hours**
To be used for learning activities that involve the application of previously learned processes, theories, systems or techniques. To be used for learning activities that involve the appli- cation of previously learned processes, theories, systems or techniques.
Grade Mode: Normal Grading Mode

ART 473 Practicum **3 Credit hours**
To be used for learning activities that involve the application of previously learned processes, theories, systems or techniques. To be used for learning activities that involve the appli- cation of previously learned processes, theories, systems or techniques.
Grade Mode: Normal Grading Mode

ART 475 Advanced Studio Sequence **3 Credit hours**
To be used to complete studio specialization and may be repeated. By permission only. To be used to complete studio specialization and may be repeated. By permission only.
Grade Mode: Normal Grading Mode

ART 476 Advanced Studio Sequence **3 Credit hours**
To be used to complete studio specialization and may be repeated. By permission only. To be used to complete studio specialization and may be repeated. By permission only.
Grade Mode: Normal Grading Mode

ART 477 Advanced Studio Sequence **3 Credit hours**

Art, B.A.

Bachelor Of Arts With A Major In Art

Admission and Performance Standards

Prospective students who wish to apply for admission to the Bachelor of Arts program must meet the general admission requirements for Marshall University.

Students enrolled in the Bachelor of Arts program are required to complete all coursework in the respective majors with a minimum grade of *C*. Course grades of *D* and *F* are not counted toward graduation requirements and must be replaced with a grade of *C* or better before graduation or before using that course as a prerequisite for another required course.

Candidates for graduation must have a Grade Point Average of 2.0 or higher in all work attempted at Marshall University.

Forty (40) credit hours must be earned in courses numbered 300-499.

No courses in the college and major requirements for graduation in the College of Arts and Media may be taken Credit/Non-Credit unless the course is otherwise specified.

Students pursuing the B.A. will complete a capstone project appropriate to their emphasis area and outside field. Projects must be approved by the student's school director and capstone advisor. B.A. students must register for ART 497 Capstone Studio.

Internship

Students may also complete an internship appropriate to their emphasis and outside field.

The curricular structure is designed with enough flexibility that students so desiring could expand a minor into a second major.

Areas of Emphasis

- Art History, Emphasis (p. 109)
- Visual Art and Design, Emphasis (p. 111)

Art History, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Foundations Review

B.A. Visual Art and Design, Emphasis students must register for ART 299 Foundations Review: BA .

Successful completion of ART 299 Foundations Review: BA is required and is a prerequisite for program advancement. Students who do not pass the Foundations Review and are within the studio art credit hour range listed above may apply for reconsideration. Students who have transferred within Marshall University will have two semesters to complete the courses listed above and participate in this review. However, transfers from art or art education departments at other universities are required to complete the review during the first semester they enroll in the MU School of Art & Design.

All coursework must be selected in consultation with an art faculty member responsible for that studio area of emphasis. The School Art and Design program director serves as faculty advisor for art history and studio art minors, and verifies coursework and approves minors.

Visual Arts, B.F.A.

Students desiring to enter the Bachelor of Fine Arts degree program with a visual arts major are urged to contact the School of Art and Design prior to enrollment. A formal review of prior work in a portfolio is not required.

- General Education Course

🎓 - Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Candidates for the Bachelor of Fine Arts degree (B.F.A.) with the major in visual arts are required to complete seventy-three (73) hours of credit in art courses, including the art core (52 hours) and a major area of emphasis (21 hours). Majors must also satisfy the following requirements:

1. After completing the required six foundation courses (ART 101 Visual Culture and Research and ART 214 Foundations: Grid/Chroma, ART 215 Foundations: Form/Space, ART 217 Foundations: Record/Layer, ART 218 Foundations: Site/Matrix, ART 219 Foundations: Frame/Time), students pursuing the Bachelor of Fine Arts are required to present a portfolio of work for review by the Art and Design faculty. To do so, B.F.A. students must register for ART 298 Foundations Review: BFA before completing 21 credit hours in studio art courses. Successful completion of ART 298 Foundations Review: BFA, is required and is a prerequisite for program advancement. Students who do not receive a passing grade of *C* in the Foundations Review and are within the studio art credit hour range listed above may apply for reconsideration. Students who have transferred within Marshall University will have two semesters to complete the courses listed above and participate in this review. However, transfers from art or art education departments at other universities are required to complete the review during the first semester they enroll in the MU School of Art and Design.
2. Students enrolled in the Bachelor of Fine Arts degree program must complete all work in the major with a minimum grade of *C*. A student who receives a *D* or *F* in an art course counted toward graduation must repeat it and earn at least a *C* before graduation or before using that course as a prerequisite for another required course.
3. Forty (40) credit hours must be earned in courses numbered 300-499.
4. No course in the major requirements for graduation may be taken Credit/Non-Credit unless the course is so specified.
5. A minimum of 120 credit hours is required for the degree.
6. A successful exhibition of creative work must be presented by all students during the senior year as a requirement for graduation. To do so,
   - B.F.A. students in all areas of emphasis except Graphic Design must register for ART 497 Capstone Studio, and ART 498 Senior Capstone Exhibition BFA.
   - Students in the Graphic Design emphasis area must register for ART 489 Graphic Design Portfolio; ART 490 Apprenticeship; and ART 498 Senior Capstone Exhibition BFA.
   - B.F.A. students in all areas of emphasis must register for ART 498 Senior Capstone Exhibition BFA (Capstone Exhibition)

ART 219	Foundations: Frame/Time	3

  Students pursuing the Bachelor of Fine Arts are required to present a portfolio of work for review by the Art and Design faculty. To do so, B.F.A. students must register for ART 298 Foundations Review: BFA before completing 21 credit hours in the studio art courses listed above. Successful completion of ART 298 Foundations Review: BFA is required and is a prerequisite for program advancement. Students who do not receive a passing grade of *C* in the Foundations Review and are within the studio art credit hour range listed above may apply for reconsideration. Students who have transferred within Marshall University will have two semesters to complete the courses listed above and participate in this review. However, transfers from art or art education departments at other universities are required to complete the review during the first semester they enroll in the MU School of Art and Design.
- Students enrolled in the Bachelor of Fine Arts degree program must complete all work in the major with a minimum grade of *C*. A student who receives a *D* or *F* in an art course counted toward graduation must repeat it and earn at least a *C* before graduation or before using that course as a prerequisite for another required course.
- Forty (40) credit hours must be earned in courses numbered 300-499.
- No course in the major requirements for graduation may be taken Credit/ Non-Credit unless the course is so specified.
- A successful exhibition of creative work must be presented by all students during the senior year as a requirement for graduation. To do so, B.F.A. students must register for ART 498 Senior Capstone Exhibition BFA .

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Ceramics focuses on the study of traditional formation processes within an atmosphere that promotes material exploration and experimentation. Students are encouraged to develop expertise with both the elements of craftsmanship and developing a strong conceptual voice within one's work. Critical inquiry of materials and methods is promoted as well as an encouragement for interdisciplinary practice. An understanding of ceramics history and its relationship to contemporary technologies creates a foundation for creating in the Ceramics studio.

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Fibers concentrates on the exploration of fibers as a means of individual expression, explore sculptural, architectural, and functional possibilities in two and three dimensional work. Students learn to operate a variety of looms including table looms, counterbalance, jack-type and dobby looms from four to sixteen harnesses and from 20" to 60" in width in the creation of blankets, rugs, and yard goods. Tapestry looms, belt looms and card weaving as well as basketry are also explored. Spinning, dyeing, felt-making, and fabric printing may also be studied.

Four Year Plan

Graphic Design is a dynamic, rewarding and challenging discipline to study. Graphic Design students work in an engaging environment where technical and conceptual problems are continuously presented

before them in order to flourish in a globally competitive marketplace. Through the practice of solving these problems, students develop their own individual strengths, gain social and historical context, make connections between disciplines, as well as develop a personal portfolio of work.

Four Year Plan

Painting is firmly based on well-organized practice with inventive use of tradition. Clear guidelines cultivate reflection with intuition and discipline with craft. Additional procedures give the artist true freedom to express anything in color. The individual approach begins to vary as students gain skills and analytical experience. Advanced painters often discover completely new and unexpected imagery. This is one of the strongest aspects of this painting program: the imagery advances independently and becomes unique to each artist.

  Students pursuing the Bachelor of Fine Arts are required to present a portfolio of work for review by the Art and Design faculty. To do so, B.F.A. students must register for ART 298 Foundations Review: BFA before completing 21 credit hours in the Studio Art courses listed above. Successful completion of ART 298 Foundations Review: BFA is required and is a prerequisite for program advancement. Students who do not receive a passing grade of *C* in the Foundations Review and are within the studio art credit hour range listed above may apply for reconsideration. Students who have transferred within Marshall University will have two semesters to complete the courses listed above and participate in this review. However, transfers from art or art education departments at other universities are required to complete the review during the first semester they enroll in the MU School of Art and Design.
- Students enrolled in the Bachelor of Fine Arts degree program must complete all work in the major with a minimum grade of *C*. A student who receives a *D* or *F* in an art course counted toward graduation must repeat it and earn at least a *C* before graduation or before using that course as a prerequisite for another required course.
- Forty (40) credit hours must be earned in courses numbered 300-499.
- No course in the major requirements for graduation may be taken Credit/ Non-Credit unless the course is so specified.
- A successful exhibition of creative work must be presented by all students during the senior year as a requirement for graduation. To do so, B.F.A. students must register for ART 498 Senior Capstone Exhibition BFA .

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Photography concentrates on the practice of photography as a fine art – a means personal expression. Students explore photographic materials and practices in order to create challenging and stimulating images. Through extensive studio critiques, students and faculty discuss aesthetic choices and possibilities to make the most effective work possible. The photography area's facilities and curriculum support a hybrid approach to the medium that seamlessly blend 35 mm film and digital processes, increasing students' competitive edge.

Four Year Plan

Printmaking offers a wide range of traditional and innovative experiences. Students are exposed to contemporary approaches utilizing printmaking techniques for the development of ideas and art on and off paper in a healthy environment. Beginning and advanced classes concentrate on the investigation of form and content as it relates to printmaking processes in intaglio, lithography, relief, serigraphy, letterpress, and papermaking. An extensive range of rare letter type is available to support book arts.

Four Year Plan

In the Sculpture emphasis we think conceptually, work in an interdisciplinary way, experiment readily, and form a deep skill set in a wide range of materials using numerous processes. Our students become adept in the wood and metal shops along with becoming proficient in a number of computer technologies to aid in construction. Outside of traditional sculpture, we experiment with video and sound installations, performance, social practice, public art, and aspects of post-studio artmaking. All these ways of making demand critical thinking skills to invent creative solutions. In addition to extensive hands-on work, students can expect to get an in-depth understanding of contemporary sculpture and the artists who are expanding the field.

Studio Art

The Studio Art Emphasis is different from the other B.F.A. emphasis areas by allowing students more course options, encouraging working across disciplines, and creating a more open curriculum that reflects contemporary art practice. Students can design their own curriculum in coordination with their academic advisor.

School of Journalism and Mass Communications

The W. Page Pitt School of Journalism and Mass Communications' programs and curriculum are based in the conviction that future journalists and mass communicators are best prepared for life and for their careers when they are broadly educated in the liberal arts. The importance of preparing them for the demands of the workplace and an industry that experiences change rapidly is recognized as well.

Knowledge and skills essential to success in journalism and mass communications are emphasized, with the aim of preparing students for full participation, including leadership, in their professions. In addition, the school's program seeks to promote knowledge and awareness about mass communications among students who do not intend to pursue careers in one of the mass communications fields.

Students in journalism and mass communications majors will learn

1. how to gather, write, edit, package, and present information and entertainment in a multimedia context;
2. how the field of mass communications changes and evolves and how to adapt accordingly;
3. how to make responsible and effective decisions; and
4. the roles, effects, and impacts of mass communications in society.

The school offers a Bachelor of Arts degree in three majors:

- advertising/public relations, with emphases in advertising or public relations;
- journalism, with emphases in broadcast, multimedia, or sports;
- media production, with emphases in radio/television production and management or in video production.

Professionally oriented courses and laboratory experiences are combined with extensive liberal arts preparation to provide students with the background necessary for employment in mass communications. The program is accredited by the Accrediting Council on Education in Journalism and Mass Communications.

Of the 120 credit hours required for the bachelor's degree, students must have a minimum of 72 non-journalism hours and 48 journalism and mass communications hours, and they must meet the liberal arts and sciences requirements of the university.

Majors must also satisfy the following requirements:

1. Students must have typing keyboard proficiency for many JMC courses.
2. Students must pass a language proficiency exam, or pass JMC 100 Fund Jrn Writing & Edit with a C or better, or pass JMC 103 Language Use for Media with a CR, or have an ACT verbal score of 30 or better or SAT verbal scores of 650 or better, for graduation and before admission to any 300/400 level JMC courses.
3. A minimum Grade Point Average of 2.25 in required journalism and mass communications courses and a 2.25 overall is required for graduation.
4. A student who receives a D or F in a journalism and mass communications course counted toward graduation must repeat it and earn at least a C before graduation or before using that course as a prerequisite for another required journalism and mass communications course.
5. At least 42 hours of credit toward the B.A. must be in courses numbered 300-499. Courses transferred from two-year or community colleges cannot be used to satisfy this requirement. Courses taken at four-year accredited colleges transfer at the level at which they were taken.
6. Graduating seniors are required to submit for review by faculty a portfolio of selected works they have completed in the program. Students should consult with their advisers for specific guidelines on portfolio development.

Transfer Students

Because of the standards of the school's accrediting body, students transferring into the school from two-year institutions are restricted to using 12 hours of transfer credit in journalism and mass communications toward the 120 credit hours required for the B.A. Further, the transferred JMC hours must be at the 100 and 200 levels, with the exception of JMC 330 AD-PR Principles and Ethics.

Transfer students, including those transferring from other units at Marshall, must have a 2.0 (*C*) average and no academic deficiencies in math and English.

Minors

Non-Journalism and Mass Communications majors may select from one of four, 15-hour minors within the school as follows:

- Advertising
- Journalism
- Public Relations
- Media Studies

Regents, B.A.

Students in the Regents B.A. program are allowed no more than 12 hours of journalism and mass communications credit through presentation of a portfolio. If a student did not receive portfolio credit for particular journalism courses, he or she may register for them and receive credit upon successful completion of course requirements.

Programs

- Advertising, Minor (p. 133)
- Advertising/Public Relations, Major (p. 133)
- Journalism, Major (p. 137)
- Journalism, Minor (p. 142)

- Media Studies, Minor (p. 146)
- Public Relations, Minor (p. 146)

Courses

- General Education Course

JMC 100 Fund Jrn Writing & Edit **3 Credit hours**
Preparatory course to develop writing and editing skills specifically as related to professional journalism and mass communication. Required if score is less than 77 on School-administered language-skills test. Not counted toward graduation. Preparatory course to develop writing and editing skills specifically as related to professional journalism and mass communication. Required if score is less than 77 on School-administered language-skills test. Not counted toward graduation.
Grade Mode: Normal Grading Mode

JMC 101 Media Literacy **3 Credit hours**
Examines structures and functions of mass media and newspapers, magazines, broadcast journalism, broadcasting, advertising and public relations. Designed to provide a critical overview of the mass media. Includes guest speakers. Examines structures and functions of mass media and newspapers, magazines, broadcast journalism, broadcasting, advertising and public relations. Designed to provide a critical overview of the mass media. Includes guest speakers.
Attributes: Core II Humanities, No Textbook Required
Grade Mode: Normal Grading Mode

JMC 102 Media Toolbox **3 Credit hours**
Introduction to media writing, creative and critical thinking, information literacy, data management, computer search tools, social media and interviewing for mass communications professionals.
Grade Mode: Normal Grading Mode

JMC 103 Language Use for Media **1 Credit hour**
Review of English grammar and usage; preparation for taking SOJMC standard language exam.
Grade Mode: Credit/No Credit Grade Only

JMC 201 News Writing I **3 Credit hours**
Techniques of cross media news writing designed to develop basic skills necessary for beginning reporters and public relations professionals through in-class laboratoy experience. . Techniques of cross media news writing designed to develop basic skills necessary for beginning reporters and public relations professionals through in-class laboratoy experience. .
Pre-req: JMC 101 with a minimum grade of C and JMC 102 with a minimum grade of C.
Grade Mode: Normal Grading Mode

JMC 221 Advertising/Continuity Writing **3 Credit hours**
Introduction to advertising and broadcast copy writing. Includes strategy, script formats, persuasion, styles of writing, editing, and industry organization, structures and standards. Many writing assignments. Introduction to advertising and broadcast copy writing. Includes strategy, script formats, persuasion, styles of writing, editing, and industry organization, structures and standards. Many writing assignments.
Pre-req: JMC 101 with a minimum grade of C and JMC 102 with a minimum grade of C.
Grade Mode: Normal Grading Mode

JMC 222 Introduction to Media Studies **3 Credit hours**
This course provides students with an overview of fundamental approaches, theories, and perspectives essential to successfully complete a minor in media studies.
Grade Mode: Normal Grading Mode

JMC 230 General Photography **3 Credit hours**
An introduction to still digital photography and image processing.
Grade Mode: Normal Grading Mode

JMC 231 Intro to Audio Production **3 Credit hours**
Fundamentals of audio production, including operation of audio equipment, microphone techniques, tape editing and audio production. Laboratory work at WMUL-FM is required. (PR: JMC 101) Fundamentals of audio production, including operation of audio equipment, microphone techniques, tape editing and audio production. Laboratory work at WMUL-FM is required. (PR: JMC 101)
Pre-req: JMC 101 with a minimum grade of C.
Grade Mode: Normal Grading Mode

JMC 235 Intro to Sports Journalism **3 Credit hours**
Introduction to Sports Journalism involves applying the core principles of journalism (honesty, accuracy, clarity, fairness, accountability) to covering any sports related activity.
Pre-req: JMC 101 with a minimum grade of C.
Grade Mode: Normal Grading Mode

JMC 241 Media Design **3 Credit hours**
Design principles; conceive, create and evaluate executions for print, websites, mobile applications, information-based and ad based graphics. (PR: Keyboarding proficiency)
Attributes: Digital Humanities, No Textbook Required
Grade Mode: Normal Grading Mode

JMC 245 Intro to Strategic Comm **3 Credit hours**
An examination of theories, practices and techniques of strategic communications used by agencies and organizations.
Grade Mode: Normal Grading Mode

JMC 260 Digital Imaging for JMC **3 Credit hours**
Methods of taking and editing still and video digital images for print, broadcast, and digital publication.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

JMC 272 Practice in Radio **1 Credit hour**
Staff responsibility on campus broadcast facilities, WMUL-FM. (PR: Written permission before registration and the satisfactory completion of one year of service on WMUL) Staff responsiblity on campus broadcast facilities, WMUL-FM. (PR: Written permission before registration and the satisfactory completion of one year of service on WMUL)

Major Information

- All journalism and mass communications majors must pass a language proficiency exam before admission to any JMC courses at the 300/400 level. The language proficiency requirement may also be met by completing JMC 100 Fund Jrn Writing & Edit with a *C* or better **or** by completing JMC 103 Language Use for Media with a *C* or better. ACT verbal scores of 30 or better or SAT verbal scores of 650 or better may be used in place of the exam.
- No more than 4 hours of non-JMC electives may be completed in PEL.
- All SOJMC majors must complete 3 credit hours of internship. Ideally, internships should be completed during the summer between the junior and senior years. To ensure your work is properly credited, you must work through the internship director.
  - Submit a complete internship application.
  - Secure approval of the employment or other work.
  - Get permission to enroll in JMC 490 Jrn & Mass Comm Internship I , JMC 491 Jrn & Mass Comm Intern II or JMC 470 Professional Practicum.
  - Maintain weekly contact, attend scheduled meetings and submit a final report and a portfolio.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Careers in journalism and mass communications are increasingly multilayered as technology and new media outlets spur fresh job titles and responsibilities in social media, web management, multimedia, video production, and data analysis in addition to traditional positions. Majors in SOJMC are configured to reflect new realities of the industry, provide a foundation for all JMC fields that then fan into specializations. This emphasis prepares students to create ads, plan and execute media buys, and complete campaigns. Advertising trains students for agency positions but many graduates work for small businesses, corporations and their own enterprises. Students will learn how to publicize products and services for companies and organizations by employing skills in writing, designing and planning.

Major Information

- All journalism and mass communications majors must pass a language proficiency exam before admission to any JMC courses at the 300/400 level. The language proficiency requirement may also be met by completing JMC 100 Fund Jrn Writing & Edit with a *C* or better **or** by completing JMC 103 Language Use for Media with a *C* or better. ACT verbal scores of 30 or better or SAT verbal scores of 650 or better may be used in place of the exam.
- No more than 4 hours of non-JMC electives may be completed in PEL.
- All SOJMC majors must complete 3 credit hours of internship. Ideally, internships should be completed during the summer

between the junior and senior years. To ensure your work is properly credited, you must work through the internship director.

- Submit a complete internship application.
- Secure approval of the employment or other work.
- Get permission to enroll in JMC 490 Jrn & Mass Comm Internship I , JMC 491 Jrn & Mass Comm Intern II or JMC 470 Professional Practicum.
- Maintain weekly contact, attend scheduled meetings and submit a final report and a portfolio.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Careers in journalism and mass communications are increasingly multilayered as technology and new media outlets spur fresh job titles and responsibilities in social media, web management, multimedia, video production, and data analysis in addition to traditional positions. Majors in SOJMC are configured to reflect new realities of the industry, provide a foundation for all JMC fields that then fan into specializations. Students in public relations learn how to prepare media releases, publications, speeches, and create how to campaigns. This major is for students who are interested in managing and counseling companies and organizations and building and improving relationships.

Four Year Plan

Careers in journalism and mass communications are increasingly multilayered as technology and new media outlets spur fresh job titles and responsibilities in social media, web management, multimedia and video production, and data analysis in addition to traditional positions. Majors in SOJMC are configured to reflect new realities of the industry, provide a foundation for all JMC fields that then fan into specializations. With an emphasis in multimedia journalism students learn to write, edit, and design news in multiple media formats. Students learn writing, reporting, editing, designing, photography, web publishing, web design, and video, as well as other media skills. They then use those skills and gain hands-on experience by working for the campus online publication, The Parthenon.

Major Information

- All journalism and mass communications majors must pass a language proficiency exam before admission to any JMC courses at the 300/400 level. The language proficiency requirement may also be met by completing JMC 100 Fund Jrn Writing & Edit with a *C* or better **or** by completing JMC 103 Language Use for Media with a *C* or better. ACT verbal scores of 30 or better or SAT verbal scores of 650 or better may be used in place of the exam.
- No more than 4 hours of non-JMC electives may be completed in PEL.
- All SOJMC majors must complete 3 credit hours of internship. Ideally, internships should be completed during the summer between the junior and senior years. To ensure your work is properly credited, you must work through the internship director.
  - Submit a complete internship application.
  - Secure approval of the employment or other work.
  - Get permission to enroll in JMC 490 Jrn & Mass Comm Internship I , JMC 491 Jrn & Mass Comm Intern II or JMC 470 Professional Practicum.
  - Maintain weekly contact, attend scheduled meetings and submit a final report and a portfolio.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Careers in journalism and mass communications are increasingly multilayered as technology and new media outlets spur fresh job titles and responsibilities in social media, web management, multimedia, video production, and data analysis in addition to traditional positions. Majors in SOJMC are configured to reflect new realities of the industry, provide a foundation for all JMC fields that then fan into specializations. With an emphasis in Radio/Television Production and Management this major is for students who are interested in radio and television operations. Students learn production, programming, and sales and management techniques. Hands-on experiences are also available by working with student media, namely WMUL-FM and MU Report.

School of Music

The mission of the Marshall University School of Music is to equip students for pursuing careers in their chosen field of musical study and for making a positive impact in their communities and the profession, to provide opportunities for enriching musical experiences for all Marshall University students, and to serve as an important cultural resource for the region.

In the pursuit of our mission, we are committed to the following goals:

- to foster a student-centered environment that inspires musical, academic, and personal growth and excellence;
- to educate students to think critically, work creatively, communicate effectively, and become technologically literate;
- to champion the creation, performance, teaching, research, and study of music through the professional work of our music faculty;
- to provide leadership within the university and the region in all matters pertaining to music;
- to function as a vital and visible contributor to the cultural life of the university and community by providing performances, festivals, and other presentations, as well as by engaging in arts partnerships and other collaborations.

The music program is a fully accredited institutional member of the National Association of Schools of Music. Undergraduate students may pursue the Bachelor of Arts with a major in Music, a Bachelor of Fine Arts degree with a music major or content-area coursework for the

Bachelor of Arts degree in Education toward PreK-Adult certification in music. Requirements for the Bachelor of Arts degree in Education are described in the College of Education catalog section. The School of Music also offers a minor in music. Students who wish to major in music or education with certification in music, or minor in music, should consult the Director of the School of Music for admission and audition requirements.

- Music, B.F.A. (p. 162)
- Music, Minor (p. 173)

Courses

- General Education Course

MUS 100 Applied Music Laboratory **0 Credit hours**
A forum devoted to the development of applied music skills, supplying the opportunity for music majors both to demonstrate performance skills and to observe the skills of colleagues. A forum devoted to the development of applied music skills, supplying the opportunity for music majors both to demon- strate performance skills and to observe the skills of colleagues.
Attributes: No Textbook Required
Grade Mode: Credit/No Credit Grade Only

MUS 101 Basic Musicianship **3 Credit hours**
Study of music fundamentals and aural skills including: notation, key signatures, scales, intervals, and triads and aural recognition of meter, scales, intervals, and triads. Online section open to non-music majors.
Grade Mode: Normal Grading Mode

MUS 102 Developmental Class Piano **1 Credit hour**
Class instruction for students with little or no prior background in piano. Preparation for entry into the MUS 179 sequence. Pre: Permission. Class instruction for students with little or no prior background in piano. Preparation for entry into the MUS 179 sequence. Pre: Permission.
Grade Mode: Normal Grading Mode

MUS 105 Critical Thinking Music (CT) **3 Credit hours**
Includes the study of critical thinking in music fields with specific focus on music education and performance. Includes the study of critical thinking in music fields with specific focus on music education and performance.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

MUS 109 Mus Theatre Musicianship Lab **1 Credit hour**
A music literacy lab for the musical theatre major emphasizing the practices of sight-singing and rhythm skills covered in MUS 101.
Pre-req: MUS 101 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 110 The Professional Musician **1 Credit hour**
Investigation of traditional and non-traditional music career options and the role of the musician in arts advocacy, community engagement, and arts education. (pre-requisities: none)
Grade Mode: Normal Grading Mode

MUS 111 Elementary Music Theory I **2 Credit hours**
Study of the diatonic harmony of the Common Practice Period through development of compositional and analytical skills. Emphasis on cadences, melodic form, non-harmonic tones and diatonic triads.
Co-req: MUS 113
Grade Mode: Normal Grading Mode

MUS 112 Elementary Music Theory II **2 Credit hours**
Continued study of diatonic harmony of the Common Practice Period through development of compositional and analytical skills. Introduction to elementary forms, elementary modulation, and secondary dominants.
Pre-req: MUS 111 with a minimum grade of C and MUS 113 with a minimum grade of C.
Co-req: MUS 114
Grade Mode: Normal Grading Mode

MUS 113 Elem Aural Skills I **2 Credit hours**
Sight-singing of melodies, and dictation of harmony, rhythm, and melody using elementary rhythms and diatonic pitch materials.
Co-req: MUS 111
Grade Mode: Normal Grading Mode

MUS 114 Elem Aural Skills II **2 Credit hours**
Sight-singing of melodies, and dictation of harmony, rhythm, and melody using diatonic pitch materials in major and minor modes. Introduction to syncopation, secondary dominants, and elementary forms.
Pre-req: MUS 113 with a minimum grade of C.
Co-req: MUS 112
Grade Mode: Normal Grading Mode

MUS 142 Music in Society **3 Credit hours**
Exploration of the roles and value of music in culture and society. Development of musical awareness through mastery of basic terminology, stylistic concepts, and critical listening skills. For non-music majors.
Attributes: Affordable Education Materials, Core II Fine Arts, Multicultural
Grade Mode: Normal Grading Mode

MUS 142H Music in Society Honors **3 Credit hours**
Exploration of the roles an value of music in culture and society. Development of musical awareness through mastery of basic terminology, stylistic concepts, and critical listening skills. For non-music majors. 3 credits.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Affordable Education Materials, Core II Fine Arts, Honors, Multicultural
Grade Mode: Normal Grading Mode

MUS 171 African Drum & Dance Ens **1 Credit hour**
The African Drumming and Dance Ensemble specializes in performing traditional music of West Africa. This ensemble combines dancing, drumming and singing into a rich cultural experience in non-western music. The ensemble is open to all univerisity students and does not require prior musical training. The African Drumming and Dance Ensemble specializes in performing traditional music of West Africa. A non-technical introduction to the theory, practice and literature of electronic music. This course fulfills a Core I/CT Course requirement. Open to all majors.
Attributes: Critical Thinking, Digital Humanities, Core II Fine Arts
Grade Mode: Normal Grading Mode

MUS 211 Advanced Music Theory I **2 Credit hours**
Study of advanced harmonic concepts in tonal music including modulation, altered pre-dominants, and chromatic mediant relationships.
Pre-req: MUS 112 with a minimum grade of C and MUS 114 with a minimum grade of C.
Co-req: MUS 213
Grade Mode: Normal Grading Mode

MUS 212 Advanced Music Theory II **2 Credit hours**
The study of musical forms and formal processes found in music of the late 18th through the 19th centuries.
Pre-req: MUS 211 with a minimum grade of C and MUS 213 with a minimum grade of C.
Co-req: MUS 214
Grade Mode: Normal Grading Mode

MUS 213 Adv Aural Skills I **2 Credit hours**
Sight-singing and aural analysis of melodies, harmonies, and rhythms found in 18th and 19th century music, including modulating melodies, secondary dominants, multi-part harmonic dictation, and characteristic rhythms. (PRE: MUS 112 and MUS 114; MUS 211 must be taken concurrently or prior to enrollment in MUS 213) Sight-singing and aural analysis of melodies, harmonies, and rhythms found in 18th and 19th century music, including modulating melodies, secondary dominants, multi-part harmonic dictation, and characteristic rhythms. (PRE: MUS 112 and MUS 114; MUS 211 must be taken concurrently or prior to enrollment in MUS 213)
Pre-req: MUS 112 with a minimum grade of C and MUS 114 with a minimum grade of C.
Co-req: MUS 211
Grade Mode: Normal Grading Mode

MUS 214 Adv Aural Skills II **2 Credit hours**
Sight-singing and aural analysis of 19th and 20th century music, including chromatic harmony, modulating melodies, multi-part harmonic dictation, scale/chord identification, characteristic 20th century sonorities and advanced rhythmic materials. (PREREQ: MUS 211 and MUS 213; MUS 212 must be taken concurrently or prior to enrollment in MUS 213) Sight-singing and aural analysis of 19th and 20th century music, including chromatic harmony, modulating melodies, multi-part harmonic dictation, scale/chord identification, characteristic 20th century sonorities and advanced rhythmic materials. (PREREQ: MUS 211 and MUS 213; MUS 212 must be taken concurrently or prior to enrollment in MUS 213)
Pre-req: MUS 211 with a minimum grade of C and MUS 213 with a minimum grade of C.
Co-req: MUS 212
Grade Mode: Normal Grading Mode

MUS 217 Jazz Theory **4 Credit hours**
Fundamental jazz theory and ear training. Chords, scales, nomenclature. Harmonic progressions and substitutions. Aural recognition of melodic and chord structures and functions. Composition and transcription. Pre: MUS 215 Fundamental jazz theory and ear training. Chords, scales, nomenclature. Harmonic progressions and substitutions. Aural recognition of melodic and chord structures and functions. Composition and transcription. Pre: MUS 215
Pre-req: MUS 211 with a minimum grade of C or MUS 213 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 218 Intro to Music Technology **3 Credit hours**
Introduction to music technology for sound reinforcement, music notation, MIDI, recording, technology aided instruction, and emerging issues concerning use and production of media in Western society. (PR: MUS 112 and 114 or permission)
Pre-req: MUS 112 with a minimum grade of D and MUS 114 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MUS 219 Digital Recording Techniques **2 Credit hours**
Concepts, implementation, and utlization of digital audio workstation software and hardware: MIDI, digital audio, recording techniques, production, and using the Internet to empower music creators (open to non-music majors) Prerequisite: None
Grade Mode: Normal Grading Mode

MUS 222 Ital & Eng Diction Singer **2 Credit hours**
A systematic study of the pronunciation and problems encountered by singers when performing repertoire with English and Italian texts. A systematic study of the pronunciation and problems encountered by singers when performing repertoire with English and Italian texts.
Grade Mode: Normal Grading Mode

MUS 224 Fren & Ger Diction Singer **2 Credit hours**
A systematic study of the pronunciation and problems encountered by singers when performing repertoire with French and German texts. A systematic study of the pronunciation and problems encountered by singers when performing repertoire with French and German texts.
Pre-req: MUS 222 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 227 History of Popular Music **3 Credit hours**
A chronological listening survey course of popular music with an emphasis on examining the intersection of musical, historical, sociological, and cultural factors.
Attributes: Core II Fine Arts
Grade Mode: Normal Grading Mode

MUS 231 Jazz Improvisation I **2 Credit hours**
Introduction to improvisation. Diatonic chord/scale relationships. Basic forms. Melodic construction and elaboration. Rhythmic improvisation. Keys and modes. Pre: MUS 116 Introduction to improvisation. Diatonic chord/scale relationships. Basic forms. Melodic construction and elaboration. Rhythmic improvisation. Keys and modes. Pre: MUS 116
Pre-req: MUS 114 with a minimum grade of C and MUS 112 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 232 Jazz Improvisation II **2 Credit hours**
Continued development of skills and techniques. Idiomatic jazz patterns. Survey of standard literature. Turnarounds, blues progressions. Transcription of solos. Performance and elaboration of representative literature. Pre: MUS 231 Continued development of skills and techniques. Idiomatic jazz patterns. Survey of standard literature. Turnarounds, blues progressions. Transcription of solos. Performance and elaboration of representative literature. Pre: MUS 231
Pre-req: MUS 231 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 233 Percussion Class **3 Credit hours**
A class of non-music majors who will learn to play percussion instruments from various cultures.
Grade Mode: Normal Grading Mode

MUS 235 Concert Band **1 Credit hour**
A concert band for any undergraduate student who has had experience playing a band instrument in high school or middle school.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 237 Brass Band of the TriState **1 Credit hour**
A community/university ensemble modeled after the British-style brass band.
Grade Mode: Normal Grading Mode

MUS 240 Music Comp/Theory Sem **2 Credit hours**
Introduction to advanced theoretical and compositional methods employed by artist/researchers in analyzing music from the 19th and 20th centuries. (PR: MUS 215, Permission) Introduction to advanced theoretical and compositional methods employed by artist/researchers in analyzing music from the 19th and 20th centuries. (PR: MUS 215, Permission)
Pre-req: MUS 112 with a minimum grade of C and MUS 114 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 245 Piano Ensemble **1 Credit hour**
An ensemble elective for piano majors and qualified piano secondary/elective students. Perform a wide variety of musical styles for multiple pianists on 1-5 pianos. May be repeated for credit. An ensemble elective for piano majors and qualified piano secondary/elective students. Perform a wide variety of musical styles for multiple pianists on 1-5 pianos. May be repeated for credit.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 250 History of Jazz **3 Credit hours**
The history of the development of jazz and related forms from the 19th century antecedents to recent experimental trends.
Grade Mode: Normal Grading Mode

MUS 252 Cello Ensemble **1 Credit hour**
Cello students will rehearse and perform works from the major literature for cello ensemble. Cello students will rehearse and perform works from the major literature for cello ensemble.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 253 Guitar Ensemble **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 254 Flute Ensemble **1 Credit hour**
Performs a wide variety of musical styles from full flute choir to quarters, trios, etc. Membership required of all flute majors; others by audition. One rehearsal per week. Performs a wide variety of musical styles from full flute choir to quarters, trios, etc. Membership required of all flute majors; others by audition. One rehearsal per week.
Attributes: No Textbook Required

MUS 290 Music History to 1750 **3 Credit hours**
A study of the history and development of music through 1750, including the interaction of music with historical events, world cultures, other arts and philosophy. PR: MUS 211 and 213 with a grade of C or better A study of the history and development of music through 1750, including the interaction of music with historical events, world cultures, other arts and philosophy. PR: MUS 211 and 213 with a grade of C or better
Pre-req: MUS 211 with a minimum grade of C and MUS 213 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 301 Analysis **3 Credit hours**
Analysis of music from the 18th through 20th centuries using general methodology, set and serial theory.
Pre-req: MUS 212 with a minimum grade of C and MUS 214 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 302 Advanced Analysis **2 Credit hours**
Analysis of musical works from the late 19th century through the present era using sight and sound.
Pre-req: MUS 301 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 304 Styles **2 Credit hours**
An investigation of the distinguishing characteristics of the music of major composers by the study, dissection and comparison of major works. An investigation of the distinguishing characteristics of the music of major composers by the study, dissection and comparison of major works.
Pre-req: MUS 301 with a minimum grade of C and MUS 361 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 308 Music and Sound in Film **3 Credit hours**
A study of the role of music and sound in film. Development of terminology and skills for analyzing and interpreting sound tracks of films throughout the history of film.
Grade Mode: Normal Grading Mode

MUS 310 Perf Arts Entrepreneurship **1 Credit hour**
Skills required to create careers as entrepreneurial performing artists or to supplement an arts career in entrepreneurial pursuits, including planning, self-promotion, networking, audience building, and marketing.
Grade Mode: Normal Grading Mode

MUS 312 Vocal Techniques **1 Credit hour**
Foundation principles of voice usage, interpretation, and problems of vocal pedagogy. For instrumental music major students. Courses must be taken in sequence. Foundation principles of voice usage, interpretation, and problems of vocal pedagogy. For instrumental music major students. Courses must be taken in sequence.
Grade Mode: Normal Grading Mode

MUS 315 Basic Conducting **2 Credit hours**
Fundamental conducting skills: baton use, beat patterns of simple/compound meters, fermata holds/releases, cues to discrete parts using hand, visual gestures, leadership, conducting terminology, transportation and score reading.
Pre-req: MUS 212 with a minimum grade of C or MUS 214 with a minimum grade of C or MUS 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 317 Counterpoint **2 Credit hours**
Eighteenth Century counterpoint includes creative writing in this style and analysis of contrapuntal composition of this period based upon principles learned in introductory theory courses. Eighteenth Century counterpoint includes creative writing in this style and analysis of contrapuntal composition of this period based upon principles learned in introductory theory courses.
Pre-req: MUS 216 or MUS 214 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 320 Instrumental Arranging **2 Credit hours**
The study of the instruments of the modern orchestra, their history, technical possibilities and limitations, and practical application of technique in public school work. The study of the instruments of the modern orchestra, their history, technical possibilities and limitations, and practical application of technique in public school work.
Pre-req: (MUS 212 with a minimum grade of C and MUS 214 with a minimum grade of C).
Grade Mode: Normal Grading Mode

MUS 322 Orchestration **2 Credit hours**
A detailed study of band and orchestral instrument capabilities and their use in various large and small ensembles. (PR: MUS 212 and MUS 214) A detailed study of band and orchestral instrument capabilities and their use in various large and small ensembles. (PR: MUS 212 and MUS 214)
Pre-req: MUS 212 and MUS 214.
Grade Mode: Normal Grading Mode

MUS 323 Jazz Arranging/Composing **3 Credit hours**
Fundamental techniques and analysis of jazz masterworks applied to composing and arranging in various instrumental and vocal jazz styles. Orchestration for large and small ensembles. Pre: MUS 307 Fundamental techniques and analysis of jazz masterworks applied to composing and arranging in various instrumental and vocal jazz styles. Orchestration for large and small ensembles. Pre: MUS 307
Pre-req: MUS 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 326 Music Industry Law **3 Credit hours**
An introduction to the music industry and relevant areas of contract, copyright, and trademark law.
Pre-req: MUS 327 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: MUS 327
Grade Mode: Normal Grading Mode

MUS 327 Music Business I **2 Credit hours**
A study of the intersection of music and business aimed at developing foundational skills and an understanding of the structure of the music business.
Grade Mode: Normal Grading Mode

MUS 331 Jazz Improvisation III **2 Credit hours**
Advanced skills and techniques. Extended forms, substitute harmonic progressions. Survey of standard bebop literature. Transcription of solos. Performance and elaboration of representative literature. Pre: MUS 232 Advanced skills and techniques. Extended forms, substitute harmonic progressions. Survey of standard bebop literature. Transcription of solos. Performance and elaboration of representative literature. Pre: MUS 232
Pre-req: MUS 232 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 332 Jazz Improvisation IV **2 Credit hours**
Advanced skills, techniques, and performance practices. Compound and extended forms. Survey of post-bebop, free jazz, fusion, and Afro-Carribbean literature. Transcription of solos. Performance of representative literature. Pre: MUS 331 Advanced skills, techniques, and performance practices. Compound and extended forms. Survey of post-bebop, free jazz, fusion, and Afro-Carribbean literature. Transcription of solos. Performance of representative literature. Pre: MUS 331
Pre-req: MUS 331 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 338 Mat & Meth School Mus Pre K-4 **3 Credit hours**
Elementary music education techniques, including movement, song, dance, rhythm, and musicianship. Study of Orff, Kodaly, Dalcroze techniques. Curriculum design and incorporation of music curriculum into elementary curriculum. Field experience required. (PR: EDF 218 and EDF 319) Elementary music education techniques, including movement, song, dance, rhythm, and musicianship. Study of Orff, Kodaly, Dalcroze techniques. Curriculum design and incorporation of music curriculum into elementary curriculum. Field experience required. (PR: EDF 218 and EDF 319)
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

MUS 339 Mat & Meth Instru Mus 5-12 **3 Credit hours**
Study of curriculum development in the middle and secondary schools and appropriate instrumental materials and methods of presentation of music in grades 5-12. Study of curriculum development in the middle and secondary schools and appropriate instrumental materials and methods of presentation of music in grades 5-12.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

Review of materials, concepts and methodology used in teaching singing; overview of anatomy and function of the voice. Emphasis on beginning and intermediate levels. Review of materials, concepts and methodology used in teaching singing; overview of anatomy and function of the voice. Emphasis on beginning and intermediate levels.
Grade Mode: Normal Grading Mode

MUS 432 Music Production **2 Credit hours**
Music production techniques for a variety of genres using a digital audio workstation.
Pre-req: MUS 212 with a minimum grade of C and MUS 214 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 435 Concert Band **1 Credit hour**
A concert band for any undergraduate student who has had experience playing a band instrument in high school or middle school.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 437 Brass Band of the TriState **1 Credit hour**
A community/university ensemble modeled after the British-style brass band.
Grade Mode: Normal Grading Mode

MUS 439 Teaching Advanced Piano **2 Credit hours**
Materials and techniques of presentation; appropriate selection of repertoire; teaching strategies for late intermediate and advanced levels; exploration of pedagogical, business, and wellness resource for the independent piano teacher.
Grade Mode: Normal Grading Mode

MUS 440 Teachin Beg-Intermed Piano **2 Credit hours**
Materials and techniques of presentation; development of reading skills; basic fundamentals of technique; cultivation of musicianship. Emphasis is on elementary and intermediate levels. Materials and techniques of presentation; development of reading skills; basic fundamentals of technique; cultivation of musicianship. Emphasis is on elementary and intermediate levels.
Grade Mode: Normal Grading Mode

MUS 441 Piano Literature I **2 Credit hours**
Pre-req: MUS 216.
Grade Mode: Normal Grading Mode

MUS 445 Piano Ensemble **1 Credit hour**
An ensemble elective for piano majors and qualified piano secondary/ elective students. Perform a wide variety of musical styles for multiple pianists on 1-5 pianos. May be repeated for credit. An ensemble elective for piano majors and qualified piano secondary/elective students. Perform a wide variety of musical styles for multiple pianists on 1-5 pianos. May be repeated for credit.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 450 Guitar Literature II **2 Credit hours**
A survey of the literature for the guitar during the twentieth and twenty-first centuries. (PR: Permission)
Grade Mode: Normal Grading Mode

MUS 451 Guitar Pedagogy II **2 Credit hours**
A survey of guitar pedagogy literature, and a practicum in teaching classical guitar. A survey of guitar pedagogy literature, and a practicum in teaching classical guitar.
Grade Mode: Normal Grading Mode

MUS 452 Cello Ensemble **1 Credit hour**
Cello students will rehearse and perform works from the major literature for cello ensemble. Cello students will rehearse and perform works from the major literature for cello ensemble.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 453 Guitar Ensemble **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 454 Flute Ensemble **1 Credit hour**
Performs a wide variety of musical styles from full flute choir to quarters, trios, etc. Membership required of all flute majors; others by audition. One rehearsal per week. Performs a wide variety of musical styles from full flute choir to quarters, trios, etc. Membership required of all flute majors; others by audition. One rehearsal per week.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 455 String Ensemble **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 456 Woodwind Ensemble **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 457 Percussion Ensemble **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 458 Brass Ensemble **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 459 Jazz Ensemble **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 460 Jazz Improv Ensemble **1 Credit hour**
Ensemble improvisation from duet to tentet. Emphasis on music sightreading, recognition and application of chord/ scale relationships in a performance setting. Ensemble playing skills. May be repeated for credit. Ensemble improvisation from duet to tentet. Emphasis on music sightreading, recognition and application of chord/ scale relationships in a performance setting. Ensemble playing skills. May be repeated for credit.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 465 Symphonic Band **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 466 Marching Thunder **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 467 Wind Symphony **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 468 Sixth Man Band **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 469 Contemporary Music Ens **1 Credit hour**
Performance of contemporary music in various media. May be repeated for credit. Counts towards improvisation requirement.
Grade Mode: Normal Grading Mode

MUS 470 Musical Prods Practicum **1 Credit hour**
Application of musical production processes, theories and techniques. Specialized practical experience in all musical aspects of rehearsal and performance. Each number may be taken four times. Application of musical production processes, theories and techniques. Specialized practical experience in all musical aspects of rehearsal and performance. Each number may be taken four times.
Grade Mode: Normal Grading Mode

MUS 476 Senior Recital **0 Credit hours**
The culminating recital for applied music study in the principal applied area.
Pre-req: MUS 376 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Credit/No Credit Grade Only

MUS 479 Applied Pedagogy Lab **1 Credit hour**
Practical application of concepts, methodology, and materials covered to demonstrate efficient and effective teaching in the applied area.
Grade Mode: Normal Grading Mode

MUS 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MUS 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MUS 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MUS 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MUS 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required

MUS 487 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 488 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 494 Workshop **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MUS 495 Music Internship **1-4 Credit hours**
Practical synthesis and application of knowledge and skills gained during the student's course of study.
Pre-req: MUS 310 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 496 Musical Theatre Capstone **1 Credit hour**
A culminating Musical Theatre performance and critical self-reflection. Students develop proposals with input from faculty mentor.
Grade Mode: Normal Grading Mode

MUS 497 Capstone Project in Music **1-2 Credit hours**
A discipline-based experience designed to combine classroom and studio education in a summarizing project. (PR: MUS 310, successful completion of piano proficiency requirements)
Pre-req: MUS 310 with a minimum grade of C and (MUS 179D with a minimum grade of C or MUS 279D with a minimum grade of C or Piano Proficiency with a score of 1).
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

MUS 498 BFA Composition Capstone **2 Credit hours**
A discipline-based experience designed to combine classroom and studio education in a summarizing project. A discipline-based experience designed to combine classroom and studio education in a summarizing project.
Pre-req: MUS 310 with a minimum grade of C or MUS 376 with a minimum grade of C or (MUS 179D with a minimum grade of C or MUS 279D with a minimum grade of C or Piano Proficiency with a score of 1).
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

MUS 499 BFA Performance Capstone **2 Credit hours**
Pre-req: MUS 310 with a minimum grade of C or MUS 376 with a minimum grade of C or (MUS 179D with a minimum grade of C or MUS 279D with a minimum grade of C or Piano Proficiency with a score of 1).
Attributes: Capstone Course, No Textbook Required

Commercial Music, B.A.

The Commercial Music major will prepare students for careers in the commercial, jazz and popular music industries as a performer, composer or arranger, while developing skills in entrepreneurship and music business and law. This curriculum will allow the student to excel in commercial aspects of the music industry while attaining musicianship and artistry.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Music, B.A.

Admission and Performance Standards

Students pursuing the Bachelor of Arts with a major in music prepare for numerous careers in the music field. Students combine courses supporting a fundamental knowledge of music content with minor and/or elective courses in fields other than music. Students in the Bachelor of Arts program in Music select an emphasis area from the following: Commercial Music, General Music, Music History, Pedagogy, or Vocal Jazz.

Prospective students who wish to apply for admission to the Bachelor of Arts program must meet the general admission requirements for Marshall University. Students wishing to enroll in the music major must complete an entrance audition.

Students enrolled in the Bachelor of Arts program are required to complete all coursework in the respective majors with a minimum grade of *C*. Course grades of *D* and *F* are not counted toward graduation requirements and must be replaced with a grade of *C* or better before graduation or before using that course as a prerequisite for another required course.

Candidates for graduation must have a Grade Point Average of 2.0 or higher in all work attempted at Marshall University.

Forty (40) credit hours must be earned in courses numbered 300-499.

No courses in the college and major requirements for graduation in the College of Arts and Media may be taken Credit/Non-Credit unless the course is otherwise specified.

Students pursuing the B.A. will complete a capstone project appropriate to their emphasis area and outside field. Projects must be approved by the student's school director and capstone advisor.

Internship

Students may also complete an internship appropriate to their emphasis and outside field.

The curricular structure is designed with enough flexibility that students so desiring could expand a minor into a second major.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

[1] Electives should account for 17-29 hours, and up to 12 MUS credit hours may be used as these electives. Credit hours per class may vary.

Major Information

- All students desiring entry into the B.A or the music minor must be formally admitted to the music program. This admittance is based upon an audition in the student's major performance area (instrument or voice) and an interview with the area faculty. Students desiring to enter the theory and composition area of emphasis should be prepared to show evidence of music theory study and/or compositions. Students should contact the music office to arrange for an audition and interview.
- Candidates for the B.A. in Music must complete 51 credit hours of study in music.
- Forty (40) credit hours must be earned in courses numbered 300-499.
- All coursework in the music major must be completed with a grade of *C* or above. A course with a grade of *D* or *F* must be repeated with at least a grade of *C* to count for graduation or be used as a prerequisite for another required course.
- Upon completion of the fourth semester of 100 level applied music study in the principal performance medium, students must pass a sophomore hearing to demonstrate achievement of the appropriate applied music level and for admittance to upper division (300-level) applied music study in the principal performance medium. Students are permitted a maximum of two attempts to pass the sophomore hearing.
- Demonstration of piano proficiency is a graduation requirement in all music and music education degree programs. Completing MUS 179D Class Piano with a minimum grade of *C* satisfies this requirement.

Areas of Emphasis

- Commercial Music, Emphasis (http://catalog.marshall.edu/undergraduate/programs-az/arts-media/music/music-ba/commercial-music-emphasis/)
- Music (General), Emphasis (p. 161)
- Music History, Emphasis (p. 161)
- Pedagogy (Music), Emphasis (p. 162)
- Vocal Jazz, Emphasis (p. 162)

- General Education Course

Total Credit Hours		**24**

A minimum of 40 credit hours, out of the minimum 120 required for completion of this degree, must be at the 300- or 400-level.

Music, B.F.A.

The Bachelor of Fine Arts degree with a music major is designed to prepare students for entry into professional musical careers or graduate school.

In addition to this catalog, detailed information regarding program policies and procedures and specific requirements for applied music and ensemble participation can be found on the website at www.marshall.edu/music (http://www.marshall.edu/music/).

1.

Applied Music

Principal Instrument

Following the entrance audition, and upon the recommendation of the area faculty, acceptance into the music or music education major or the music minor will be given by the school director. The student's principal instrument will be the one on which he/she performed the entrance audition.

For music majors, applied music lessons on the principal instrument include one hour of lesson time per week, with two hours minimum of daily preparation expected. For music minors or elective students, applied music lessons include one half-hour of lesson time per week, with one hour minimum of daily preparation expected. All applied music students are expected to attend weekly studio class. Applied music students are not permitted to drop lessons during the course of a term without specific permission from the department chair. This permission is granted only for extraordinary reasons in exceptional cases. Registration for all applied music study requires the permission of the music office. Music majors returning after having not enrolled in applied music study for two or more consecutive semesters must re-audition before permission to continue in the major will be granted.

All music minors and music or music education majors registering for applied music must enroll concurrently in a principal ensemble. If all other ensemble requirements have been met (see "Ensemble Requirements" below), the ensemble should be chosen in consultation with the studio teacher. Elective students registering for applied music may be required by their instructor to enroll concurrently in an ensemble.

1. All music education majors are required to complete 12 credit hours of study on the principal instrument — 6 hours of lower division and 6 hours of upper division. These are earned over 7 different semesters.
2. All music majors enrolled in the jazz studies or performance area of emphasis must complete 16 credit hours of study on the principal instrument — 8 hours of lower division (100 level) and 8 hours of upper division (300 level). These are earned over 8 different semesters.
3. All students enrolled in the theory and composition area of emphasis must complete 4-8 credit hours of study on the principal instrument at the 100 level and 16 credit hours of applied composition - 8 hours of lower division (MUS 180 Applied Composition) and 8 hours of upper division (MUS 380 Applied Composition). These are earned over 8 different semesters. Students in this area of emphasis will complete a sophomore hearing after 8 hours of applied composition study (100 level) by submitting a portfolio of compositions for review. A maximum of two attempts are allowed to pass the sophomore hearing.
4. All students enrolled in the multidisciplinary studies area of emphasis must complete 12 hours of study on the principal instrument–8 hours of lower division (100 level) and 4 hours of upper division (300 level). These are earned over 6 different semesters.

5. All students enrolled in the Bachelor of Arts with a major in Music program must complete 4 lower-division credit hours of study on the principal instrument. These are earned over 4 different semesters. In some BA emphasis areas, additional applied music studies are required.
6. All students pursuing the music minor must complete 4 semesters of study on the principal applied instrument. Continuation of applied study beyond these credits shall occur after consultation with the applied studio teacher. Music minors desiring to continue applied study at the upper division (300 level) must pass a sophomore hearing before permission will be granted.
7. Each applied music student must be approved through jury examination at the end of each semester before registering for additional study on the principal instrument. At the end of the fourth semester, students must complete the sophomore hearing before upper division (5th semester) applied music study may be started. Students not approved for advancement will be required to repeat lower level work until successfully completing the sophomore hearing. Students are permitted a maximum of two attempts to pass the sophomore hearing.
8. Performance on the principal instrument is required at least once each semester on weekly daytime recitals held for this purpose (MUS 100 Applied Music Laboratory). First semester music education majors may be exempted from student recital performance at the discretion of the studio teacher. All senior music and music education majors, and junior B.F.A. majors must give a recital as part of the requirements for graduation. Music Education majors must complete the senior recital before the student teaching semester begins. Approval to plan a recital must be obtained during the jury examination preceding the recital semester. During the junior recital semester, B.F.A. students co-register for applied study on the principal instrument and MUS 376 Recital. During the senior recital semester, B.F.A. students co-register for applied study on the principal instrument and MUS 476 Senior Recital. The capstone course (MUS 497 Capstone Project in Music) is generally taken during the final semester.

Piano Proficiency

All music and music education majors are required to pass a piano proficiency examination as part of the degree requirements. Music education majors must pass the entire proficiency examination prior to beginning the student teaching semester. B.F.A. students must complete the piano proficiency prior to the capstone semester. Piano proficiency may be demonstrated through passing the piano proficiency exam or upon successful completion of MUS 179D Class Piano or MUS 279D Jazz Piano Class.

Theory Placement

A placement test will be given on the first day of theory class Fall and Spring semesters. All students must demonstrate the ability to read bass and treble clefs; identify scales, key signatures, intervals, and triads aurally and in written form, and perform rudimentary melodic and rhythmic dictation. Students needing developmental assistance in theory will be enrolled in MUS 101 Basic Musicianship.

Elective Study

Students may elect applied music study on a secondary instrument, upon the approval of the school director and the studio teacher, and receive one credit hour per semester. Elective lessons provide one half-hour lesson per week and require one hour of daily preparation. These lessons are permitted on a first-come, first-served basis according to availability. In piano, voice, and guitar, special beginning classes are listed in the *Schedule of Courses*. Elective students registering for applied music may be required by their instructor to enroll concurrently in an ensemble.

Capstone Experience

All students registering for the capstone course, MUS 497 Capstone Project in Music, will be required to complete a written and oral comprehensive examination. Students may not register for MUS 497 Capstone Project in Music prior to completing the piano proficiency requirement. Before registering for MUS 497 Capstone Project in Music, students must have completed or co-registered for the final required semester of applied music, MUS 476 Senior Recital (if required), and the final course of the music history sequence.

Ensembles

Students participate in ensembles that are varied both in size and nature and chosen from those appropriate to the area of specialization. With the approval of the ensemble conductor and the academic advisor, a student may enroll in more than one ensemble in a semester. Enrollment in some ensembles requires the permission of the instructor. The actual number of clock hours per week of rehearsal may vary depending on the ensemble. All ensembles receive one semester hour credit.

Principal and Secondary Ensembles

The principal ensembles are Chamber Choir, University Chorus, Jazz Ensemble, University Symphony Orchestra, Symphonic Band, and Wind Symphony. Secondary ensembles are Marching Band, Choral Union, Opera Workshop, Jazz Improvisation Ensemble, Pep Band, chamber ensembles (Brass, Woodwind, Percussion, Guitar, and String), and any others not listed as principal ensembles. Jazz Ensemble counts as a principal ensemble for jazz studies majors only.

Ensemble Requirements

Music Education and Multidisciplinary Studies Majors

All full-time music education and multidisciplinary studies majors are required to participate in ensembles in each semester of residence. Seven semester hours (four lower division and three upper division) in a principal ensemble are required. These must be earned in seven different semesters. All music education majors whose principal applied area is an instrument other than voice are required to complete one semester in a choral ensemble. During the fall semester of the first two years, Marching Band and Orchestra (audition required), Wind Symphony (audition required) or Symphonic Band are corequisites for students whose principal applied area is a wind, brass, or percussion instrument. In the spring of the junior year, these students may petition the school director to substitute University Chorus or Chamber Choir (audition required) for Marching Band during the fall semester of the senior year, during which they also must enroll in a principal ensemble related to their area of principal applied study.

During one fall semester, music education majors whose principal instrument is voice, keyboard, or strings (including guitar) must register concurrently for Marching Band and a principal ensemble related to their area of principal applied study. String performers (including guitar) must complete four semester hours of String Ensemble or Chamber Music. Upon approval of the applied teacher, guitar and keyboard performers may substitute up to two semesters of an

appropriate chamber ensemble or accompanying for two semesters of a principal ensemble.

Performance and Jazz Studies

All full-time performance and jazz studies majors are required to participate in ensembles in each semester of residence. Eight semester hours (four lower division and four upper division) in a principal ensemble are required. These must be earned in eight different semesters. Although not required to do so, wind and percussion performers are encouraged to participate in the Marching Band (fall semester only) following consultation with the applied teacher. String performers must complete four semester hours of String Ensemble or Chamber Music. Upon approval of the applied teacher, guitar and keyboard performers may substitute up to two semesters of an appropriate chamber ensemble or accompanying for two semesters of a principal ensemble.

Theory and Composition Majors

All full-time theory and composition majors are required to participate in ensembles in each semester of residence. Four semester hours of lower-division credit in a principal ensemble are required. These must be earned in four different semesters. Composers may substitute one semester of MUS 270 Musical Prods Practicum for 200-level principal ensemble.

Bachelor of Arts in Music Majors

All full-time BA-Music majors are required to participate in four semesters of a principal ensemble at the 200 level. Additional ensemble requirements vary, according to the student's selection of emphasis area.

Entrance and Program Requirements

Students desiring entry into the B.F.A. degree or the music education program or the music minor must be formally admitted to the music program. This admittance is based upon an audition in the student's major performance area (instrument or voice) and an interview with the area faculty. Students desiring to enter the theory and composition area of emphasis should be prepared to show evidence of music theory study and/or compositions. Students should contact the music office to arrange for an audition and interview. Music majors returning after having not enrolled in applied music study for two or more consecutive semesters must re-audition before permission to continue in the major will be granted. Students should consult the music program website for specific audition requirements for their instrument.

Majors must also satisfy the following program requirements:

1. All coursework in the music and music education majors must be completed with a grade of *C* or above. A course with a grade of *D or F* must be repeated with at least a grade of *C* to count for graduation or be used as a prerequisite for another required course.
2. All music and music education majors are required to pass a piano proficiency examination prior to the capstone semester.
3. A total of 120 credit hours is required for the B.F.A. degree with a music major. In addition to university and degree program requirements listed under the Bachelor of Fine Arts, candidates for the B.F.A. in music must complete 73 credit hours of study in music, divided into the core curriculum of 18 credit hours and 55 credit hours devoted to one of four areas of emphasis.
4. Forty (40) credit hours must be earned in courses numbered 300-499.
5. No course in the major requirements for graduation may be taken Credit/Non-Credit unless the course is so specified.
6. Upon completion of the fourth semester of 100-level applied music study on the principal instrument, students must pass a sophomore hearing for promotion to upper-division (300-level) applied music study on the principal instrument. Students are permitted a maximum of two attempts to pass the sophomore hearing.

Area of Emphasis

- Jazz Studies, Emphasis (p. 164)
- Multidisciplinary Studies (Music), Emphasis (p. 166)
- Performance (Music), Emphasis (p. 168)
- Theory and Composition, Emphasis (p. 170)

Jazz Studies, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

This major prepares students for careers in their chosen performance medium. Students with this degree have careers as a soloists, chamber musicians, ensemble musicians, and studio teachers. The major focuses on the needs for students who primarily perform in the jazz and contemporary media style. There is an emphasis on becoming an effective improviser and on developing both combo and big band skillsets.

- Upon completion of the fourth semester of 100-level applied music study on the principal instrument, students must pass a sophomore hearing for promotion to upper-division (300-level) applied music study on the principal instrument.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

This innovative program allows students to combine, in consultation with their advisors, their passion for music performance with another field of study. For example, a student interested in musical instrument design could combine music with coursework in business, etc. The music curriculum for the degree supports an emphasis in performance.

Major Information

- All students desiring entry into the B.F.A. degree, the music education program, or the music minor must be formally admitted to the music program. This admittance is based upon an audition in the student's major performance area (instrument or voice) and an interview with the area faculty. Students desiring to enter the theory and composition area of emphasis should be prepared to show evidence of music theory study and/ or compositions. Students should contact the music office to arrange for an audition and interview.
- All coursework in the music and music education majors must be completed with a grade of *C* or above. A course with a grade of *D* or *F* must be repeated with at least a grade of *C* to count for graduation or be used as a prerequisite for another required course.
- All music and music education majors are required to pass a piano proficiency examination prior to the capstone semester.
- In addition to university and degree program requirements listed under the Bachelor of Fine Arts, candidates for the B.F.A. in music must complete 73 credit hours of study in music, divided into the core curriculum of 18 credit hours and 55 credit hours devoted to one of four areas of emphasis.
- Forty (40) credit hours must be earned in courses numbered 300-499.
- No course in the major requirements for graduation may be taken Credit/Non-Credit unless the course is so specified.
- Upon completion of the fourth semester of 100-level applied music study on the principal instrument, students must pass a sophomore hearing for promotion to upper-division (300-level) applied music study on the principal instrument.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Students who major in theory/composition develop their abilities to create newly composed works as well as develop an in-depth understanding of the theory of the "grammar" of music. Theory/composition majors write original compositions ranging from simple songs to large symphonic works. This degree is excellent preparation for students who desire careers in academic music.

School of Theatre

Contacts: Prof. H. Lang Reynolds, Director
Website: https://www.marshall.edu/theatre/

The mission of the School of Theatre at Marshall University is consistent with its identity as a professionally oriented program within the College of Arts and Media. The School of Theatre at Marshall University offers rigorous Bachelor of Arts and Bachelor of Fine Arts while fostering a broad liberal arts approach to study. Upon completion of their course work, graduates are prepared for entrance into the theatre profession, further studies in competitive graduate programs, related careers in the entertainment industry, and a variety of creative and communications based occupations.

Our educational objective is to foster the development of individuals who can contribute to their profession and the culture as a whole. The program methodology combines foundations in professional craft with high performance standards that reflect the best in professional practices. Programming and coursework are anchored in tradition while at the same time encouraging creative problem solving and attention to contemporary trends. Graduates of the Marshall University School of Theatre are prepared to understand the standards of their field, and the moral, social, political, and personal impact of their work.

The School of Theatre emphasizes preparedness, collaboration, community, curiosity, imagination, cross-cultural perspectives, and respect for the art of theatre and respect for one another. To support our educational mission and objectives the School of Theatre provides:

1. A collaborative training environment in classes and productions that allows for full interdisciplinary interaction between actors, technicians, playwrights, directors, designers, and stage managers.
2. Production opportunities that model staffing, development, and performance standards on professional guidelines
3. Professional outreach opportunities for students
4. Leadership in the area of theatre arts, for the academic and regional communities of which they are an integral part.

Programs

- Dance, Minor (p. 177)
- Theatre, B.A. (p. 177)
- Theatre, B.F.A. (p. 179)
- Theatre, Minor (p. 182)

Courses

- General Education Course

THE 101 Introduction to Theatre **3 Credit hours**
Fundamentals of theatre arts. Fundamentals of theatre arts.
Grade Mode: Normal Grading Mode

THE 111 Introduction to Acting **3 Credit hours**
Explore acting technique through theatre games, exercises, and improvisation. Good vocal skills and effective movement are emphasized. For non majors with little or no training in the acting discipline. Explore acting technique through theatre games, exercises, and improvisation. Good vocal skills and effective movement are emphasized. For non majors with little or no training in the acting discipline.
Grade Mode: Normal Grading Mode

THE 112 Theatre Appreciation **3 Credit hours**
Development of an appreciation and an understanding of theatre as a fine art. For non-theatre majors.
Attributes: Core II Fine Arts
Grade Mode: Normal Grading Mode

THE 112H Theatre Appreciation Honors **3 Credit hours**
Development of an appreciation and an understanding of theatre as a fine art. For honors non-theatre majors.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Core II Fine Arts, Honors
Grade Mode: Normal Grading Mode

THE 201 Crit Analysis Theatre Lit **3 Credit hours**
Critical analysis of theatre texts with emphasis on the successful translation of theatre literature from page to stage. Coursework supports the development and communication of production ideas and aesthetic interpretation. Critical analysis of theatre texts with emphasis on the successful translation of theatre literature from page to stage. Coursework supports the development and communication of production ideas and aesthetic interpretation.
Pre-req: THE 101.

THE 220 Stage Movement I: Foundations **3 Credit hours**
Exercises for flexibility, control, body-awareness and alignment. Exercises for flexibility, control, body-awareness and alignment.
Grade Mode: Normal Grading Mode

THE 221 Stage Voice I: Foundations **3 Credit hours**
Vocal techniques for the actor, including the study of dialects. Vocal techniques for the actor, including the study of dialects.
Grade Mode: Normal Grading Mode

THE 222 Acting I: Foundations **3 Credit hours**
Development of skill through foundational exercises. (PR: THE 220 and 221 or permission of instructor.) Development of skill through foundational exercises. (PR: THE 220 and 221 or permission of instructor.)
Pre-req: THE 220 and THE 221.
Grade Mode: Normal Grading Mode

THE 230 Auditioning Techniques **3 Credit hours**
Techniques of auditioning for stage plays and musicals. Techniques of auditioning for stage plays and musicals.
Pre-req: THE 222 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 240 Stage Lighting I **4 Credit hours**
Students enrolled in this course learn the terminology, techniques, and principles required to execute lighting designs for theatre, dance and film through "hands-on" experiences and projects.
Grade Mode: Normal Grading Mode

THE 245 Intro to Technical Theatre **4 Credit hours**
Technical production, scenic construction and stage operations are explored including critical application of traditional and current computer technologies within the profession. Lecture and supervised laboratory application links theory with practice.
Grade Mode: Normal Grading Mode

THE 250 Introduction to Costuming **4 Credit hours**
This introductory course exposes students to the elementary principles, techniques, terminology, materials and application used to realize theatrical costumes. A combination of lecture and laboratory instruction links theory with practice. This introductory course exposes students to the elementary principles, techniques, terminology, materials and application used to realize theatrical costumes. A combination of lecture and laboratory instruction links theory with practice.
Grade Mode: Normal Grading Mode

THE 270 Theatre Practicum **1 Credit hour**
Acting, directing, or technical work in Marshall University Theatre productions. Register only with permission of instructor. Open to all students. May be repeated for a total of four hours. Acting, directing, or technical work in Marshall University Theatre productions. Register only with permission of instructor. Open to all students. May be repeated for a total of four hours.
Grade Mode: Normal Grading Mode

THE 280 Special Topics **1-4 Credit hours**
Program of study not normally covered in other courses. Topics vary from semester to semester. Program of study not normally covered in other courses. Topics vary from semester to semester.
Grade Mode: Normal Grading Mode

THE 290 Music Theatre Workshop I **3 Credit hours**
Applied skills in musical theatre for chorus and ensemble roles, including song presentation and integration of musical and dramatic elements. Intended for beginning and intermediate students. Applied skills in musical theatre for chorus and ensemble roles, including song presentation and integration of musical and dramatic elements. Intended for beginning and intermediate students.
Pre-req: THE 101 with a minimum grade of D or THE 111 with a minimum grade of D or THE 112 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 295 Sophomore Review **0 Credit hours**
Sophomore Review. 0 hrs. This course is a series of interviews, auditions and assessment instruments designed to determine a student's potential to successfully continue and complete the theatre degree curriculum.
Pre-req: THE 101 with a minimum grade of D and THE 245 with a minimum grade of D and THE 250 with a minimum grade of D.
Grade Mode: Credit/No Credit Grade Only

THE 310 Theatre Management **3 Credit hours**
Theories and practices in performing arts management. An exploration of fiscal and physical management techniques, including budgeting, box office procedures, promotion, and staffing. Theories and practices in performing arts management. An exploration of fiscal and physical management techniques, including budgeting, box office procedures, promotion, and staffing.
Grade Mode: Normal Grading Mode

Development of skill through exercises and analytical study of scenes. (PR: THE 222 and successful completion of Sophomore Review or permission of instructor.) Development of skill through exercises and analytical study of scenes. (PR: THE 222 and successful completion of Sophomore Review or permission of instructor.)
Pre-req: THE 222.
Grade Mode: Normal Grading Mode

THE 322 Stage Voice II: Dialects **3 Credit hours**
Study and practice of dialects and accents that are commonly used in acting plays. Study and practice of dialects and accents that are commonly used in acting plays.
Pre-req: THE 221.
Grade Mode: Normal Grading Mode

THE 323 Stage Mvmt II: Phys Approaches **3 Credit hours**
Advanced exploration of movement and its application to character development and text. (PR: THE 222 and successful completion of Sophomore Review or permission of instructor.) Advanced exploration of movement and its application to character development and text. (PR: THE 222 and successful completion of Sophomore Review or permission of instructor.)
Pre-req: THE 222.
Grade Mode: Normal Grading Mode

THE 325 Theatre Career Marketing **3 Credit hours**
Examination of strategic marketing and personal branding techniques for designing, enhancing, and promoting a professional image for the theatre artist.
Pre-req: THE 245 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 330 Drafting & Rendering **3 Credit hours**
The application of drafting and rendering conventions utilized in the planning and execution of theatrical productions. Mechanical drawing, computer assisted drawing, freehand sketching and color application techniques will be employed.
Pre-req: THE 245.
Grade Mode: Normal Grading Mode

THE 340 Stage Decor **3 Credit hours**
Identification of artistic, historical , social, philosophical and technical influences that diverse cultures offer theatrical designers. Research, critical examination, drawing, digital documentation culminate in the creation of industry standard electronic portfolios.
Grade Mode: Normal Grading Mode

THE 354 Stage Make-up **3 Credit hours**
Development of character make-up designs through analysis, research and application of various make-up media suitable to stage, print and film. Adherence to industry standards of hygiene, sanitation and professional etiquette.
Pre-req: THE 250 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 355 Costume Design **3 Credit hours**
Practical and psychological aspects of design. Study of design theory, script analysis, rendering techniques, fabric choices. Development of designs from initial concept to final renderings. Practical and psychological aspects of design. Study of design theory, script analysis, rendering techniques, fabric choices. Development of designs from initial concept to final renderings.
Pre-req: THE 250 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 356 Costume Construction **3 Credit hours**
A hands-on approach to the techniques of theatrical costuming. Period method by machine and hand, industrial machine and some pattern making. Work on classroom projects and University productions. A hands-on approach to the techniques of theatrical costuming. Period method by machine and hand, industrial machine and some pattern making. Work on classroom projects and University productions.
Pre-req: THE 250.
Grade Mode: Normal Grading Mode

THE 360 Scene Design I **3 Credit hours**
Practical application of aesthetic and technical principles of scene design for the proscenium stage. Script analysis, production concepts, architectural research, mechanical and AutoCAD drawings, white models, painter's elevations are utilized.
Grade Mode: Normal Grading Mode

THE 361 Scene Painting **3 Credit hours**
Exploration of various techniques utilized by scenic artists including the generation of painter's evaluations, design renderings, estimating scenic demands, media selection and execution of designs in full scale.
Pre-req: THE 360 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 362 Stage Management **3 Credit hours**
The responsibilities and duties of stage management are explored to prepare students entering the profession. Principles and practices of stage management are applied through scheduling, budgeting, running, cueing and safety. The responsibilities and duties of stage management are explored to prepare students entering the profession. Principles and practices of stage management are applied through scheduling, budgeting, running, cueing and safety.
Pre-req: THE 240 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 370 Theatre Practicum **1 Credit hour**
Acting, directing, or technical work in Marshall University Theatre productions. Register only with permission of instructor. Acting, directing, or technical work in Marshall University Theatre productions. Register only with permission of instructor.
Grade Mode: Normal Grading Mode

THE 390 Music Theatre Workshop II **3 Credit hours**
Applied skills in musical theatre including integration of dance, music, and dialogue in ensemble performance. Intended for students majoring in musical theatre. (repeatable for two semesters)
Pre-req: THE 295.
Grade Mode: Normal Grading Mode

THE 423 Acting Styles **3 Credit hours**
Interpretation of roles from classical, romantic, neoclassical, and modern plays. (PR: THE 222 and successful completion of Sophomore Review or permission of instructor.) Interpretation of roles from classical, romantic, neoclassical, and modern plays. (PR: THE 222 and successful completion of Sophomore Review or permission of instructor.)
Pre-req: THE 222 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 430 Auditioning II: Prof. Aspects **3 Credit hours**
Students develop skills and prepare materials for professional acting auditions.
Pre-req: THE 230.
Grade Mode: Normal Grading Mode

THE 436 Children's Theatre **3 Credit hours**
Theory, direction and staging of plays for children. PR: Permission of instructor or Theatre Program Director. May be repeated for a total of 9 hours.
Grade Mode: Normal Grading Mode

THE 437 Directing I **3 Credit hours**
Introduction to theories, principles, techniques, and history of directing. Introduction to theories, principles, techniques, and history of directing.
Pre-req: THE 295 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 440 Theatre History To 1660 **3 Credit hours**
Survey of man's activities in the theatre from primitive times to 1660.
Pre-req: THE 101.
Grade Mode: Normal Grading Mode

THE 441 Theatre Hist Since 1660 **3 Credit hours**
Survey of man's activities in the theatre from 1660 to present. Survey of man's activities in the theatre from 1660 to present.
Pre-req: THE 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 450 Stage Lighting II **3 Credit hours**
Advanced study in lighting design principles utilized for non-proscenium stages and/or impressionistic productions will be emphasized. Combined visual, manual and computer generated documentation will comprise portfolio for final critique.
Pre-req: THE 240 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 480 Special Topics **1-4 Credit hours**
Program of study not normally covered in other courses. topics vary from semester to semester. Program of study not normally covered in other courses. topics vary from semester to semester.
Grade Mode: Normal Grading Mode

THE 481 Special Topics **1-4 Credit hours**
Program of study not normally covered in other courses. Topics vary from semester to semester. Program of study not normally covered in other courses. Topics vary from semester to semester.

Grade Mode: Normal Grading Mode

THE 483 Special Topics **1-4 Credit hours**
Program of study not normally covered in other courses. Topics vary from semester to semester. Program of study not normally covered in other courses. Topics vary from semester to semester.
Grade Mode: Normal Grading Mode

THE 485 Independent Study **1-4 Credit hours**
Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students. Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students.
Pre-req: THE 295 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 486 Independent Study **1-4 Credit hours**
Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students. Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students.
Pre-req: THE 295 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 487 Independent Study **1-4 Credit hours**
Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students. Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students.
Pre-req: THE 295 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 488 Independent Study **1-4 Credit hours**
Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students. Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students.
Pre-req: THE 295 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 490 Professional Theatre Residency **1-4 Credit hours**
Supervised off-campus contractual work-study arrangement with external agencies or theatrical instructions.
Pre-req: THE 295 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 491 Theatre Workshop **1-4 Credit hours**
Practical, participatory courses for advanced students and professionals. Experience in new techniques, theories, and principles
Grade Mode: Normal Grading Mode

THE 492 Theatre Workshop **1-4 Credit hours**
Practical, participatory courses for advanced students and professionals. Experience in new techniques, theories, and principles. Practical, participatory courses for advanced students and professionals. Experience in new techniques, theories, and principles.
Grade Mode: Normal Grading Mode

THE 493 Theatre Workshop **1-4 Credit hours**
Practical, participatory courses for advanced students and professionals. Experience in new techniques, theories, and principles. Practical, participatory courses for advanced students and professionals. Experience in new techniques, theories, and principles.
Grade Mode: Normal Grading Mode

THE 494 Theatre Workshop **1-4 Credit hours**
Practical,participatory courses for advanced students and professionals. Experience in new techniques, theories, and principles. Practical,participatory courses for advanced students and professionals. Experience in new techniques, theories, and principles.
Grade Mode: Normal Grading Mode

THE 499 Senior Capstone Project **3 Credit hours**
The Capstone Project serves to demonstrate the student's proficiency in the major field of study. It is the culmination of coursework in the concentration (performance, directing, design, playwriting, state management, etc.)
Pre-req: THE 295 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Dance, Minor

Students intending to minor in dance should contact the Director of the School of Theatre. The director serves as the dance advisor for students with a minor in dance.

Code	Title	Credit Hours

Theatre, B.A.

Bachelor Of Arts With A Major In Theatre

Admission and Performance Standards

Prospective students who wish to apply for admission to the Bachelor of Arts program must meet the general admission requirements for Marshall University.

Students enrolled in the Bachelor of Arts program are required to complete all coursework in the respective majors with a minimum grade of *C*. Course grades of *D* and *F* are not counted toward graduation requirements and must be replaced with a grade of *C* or better before graduation or before using that course as a prerequisite for another required course.

Candidates for graduation must have a Grade Point Average of 2.0 or higher in all work attempted at Marshall University.

Forty (40) credit hours must be earned in courses numbered 300-499.

No courses in the college and major requirements for graduation in the College of Arts and Media may be taken Credit/Non-Credit unless the course is otherwise specified.

Students pursuing the B.A. will complete a capstone project appropriate to their emphasis area in theatre and their chosen minor or second major field. Projects must be approved by the student's school director and capstone advisor.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

  - Students must earn at least 120 credit hours.
  - Theatre Core 36 credit hours, including THE 295 Sophomore Review
  - Theatre Electives 15 credit hours
  - Minor 15-18 credit hours
    - Additional non-Theatre electives 17-29 credit hours
  - Work in conjunction with a Theatre advisor in the selection of classes.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The mission of the School of Theatre at Marshall University is consistent with its identity as a professionally oriented program within the College of Arts and Media. The School of Theatre at Marshall University offers rigorous Bachelor of Arts and Bachelor of Fine Arts while fostering a broad liberal arts approach to study. The Bachelor of Arts in the Arts emphasizes a breadth of content knowledge in Art, Music, or Theatre, augmented by extensive course work outside the discipline. The degree is designed to allow students maximum flexibility by pairing one or more of the arts with one or more outside disciplines.

Theatre, B.F.A.

Students desiring entry into the B.F.A. degree must be formally admitted to the program following the completion of the Sophomore Review. This admittance is based upon an audition or portfolio review in the student's area of emphasis and an interview with the area faculty. This audition or portfolio review may occur at any time, but typically takes place during the second semester of the student's sophomore year. Theatre majors returning after having not enrolled in theatre study for two or more consecutive semesters must re-audition/interview before permission to continue in the major will be granted. Students should consult the theatre program website for specific audition/portfolio requirements.

Majors must also satisfy the following program requirements:

1. B.F.A. Theatre majors must complete seventy-three (73) credit hours of coursework in theatre and related disciplines in addition to the general distributional requirements and free electives. The theatre courses are divided into the theatre core curriculum of forty-six (46) hours and the student's choice of areas of emphasis (performance or production) with twenty-seven (27) hours.
2. Theatre majors must complete all work in the major with a minimum grade of *C*. A student who receives a *D* or an *F* in a theatre course must repeat it and earn at least a *C* before graduation or before using that course as a prerequisite.
3. B.F.A. Theatre majors must enroll in Theatre Internship (THE 490 Professional Theatre Residency) for a total of four (4) credit hours and successfully complete an approved internship prior to initiating the senior capstone (THE 499 Senior Capstone Project) experience. Internships are approved by the faculty advisor and the school director. Typically, internships take place during the summer months and demonstrate the individual's ability to participate on a regional or national level. Successful completion of an internship requires the student to prepare a resume and audition or portfolio, and through that preparation acquire a position with a theatre-related, professional organization. Summer employment with professional organizations (out-of-state or in-state organizations) holding auditions or interviews at S.E.T.C. or similar regional or national conventions are considered appropriate internships. Substantial skills workshops and studies abroad in theatre (where the application involves competition) may also be considered appropriate internships. Students must make arrangements with the producing organization to provide an evaluation of their work.
4. All students must have completed a minimum of ninety (90) hours of coursework before enrolling in the senior capstone (THE 499 Senior Capstone Project) experience. Students who are juniors must discuss the capstone experience with their advisors prior to the second semester of their junior year.
5. Forty (40) credit hours must be earned in courses numbered 300-499.
6. No course in the major requirements for graduation may be taken Credit/Non-Credit unless the course is so specified.
7. A minimum of 120 credit hours is required for the degree.

In addition to formal coursework, the theatre program provides laboratory experience through productions during the academic year.

Students majoring in theatre will have laboratory/production responsibilities with significant time requirements and commitments outside of class throughout their undergraduate degree program. These responsibilities may impact on the time a student has available for non-academic activities.

Area of Emphasis

- Performance (Theatre), Emphasis (p. 179)
- Production (Theatre), Emphasis (p. 181)

Four Year Plan

The Marshall University Theatre performance program (BFA degree) takes the conservatory approach to actor training. Using 21st century as well as tried-and-true trends in actor training such as: The Method, The Meisner Approach, Bogart Viewpoints, Alexander Technique, Linklater, and Lessac – students in performance develop their craft according to current expectations in the American theatre, film and television industries. Guided by faculty of outstanding professional creden-tials, Marshall University Theatre students are given careful, individual attention as well as shared insight and mentorship in the practical side of the "business".

The production program at Marshall University is centered on the belief that the best theatre experiences are based on the collaborative efforts of well-informed theatre artists. Marshall's production students are presented with a sequential series of courses unique to their chosen discipline. Curricula and carefully crafted production calendars are designed to develop an advanced understanding of the art of theatre, focused study within the discipline and applied production opportunities. The success of this approach is sufficient for us to require that our B.F.A. students apply for, and receive, internships and/or professional contracts in their field of study prior to receiving their degree.

Admission Requirements

Regular admission to the university constitutes admission to the Brad D. Smith Undergraduate School of Business for entering freshmen and students transferring from other institutions of higher education; there is no separate admissions procedure. Students in other colleges within Marshall University must be eligible to attend Marshall University at the time of transfer into the Lewis College of Business.

Transfer of Credits from Another Institution

When students transfer courses from another institution to Marshall University, the Office of Admissions produces a Transfer Equivalency Worksheet. Advisors in the Academic Advising Center work closely with transfer students to determine how courses taken at other institutions will count toward their B.B.A. or B.A. requirements. Please see the requirements for Transfer Credit for Enrolled Students in the Marshall University Undergraduate Catalog for other details.

Students need to be especially aware of the distinction between upper and lower division credit. The Transfer Equivalency Worksheet may list a Marshall equivalent class as being a 300- or 400-level course; however, the presence of an asterisk (*) just to the left of the course title indicates the student received upper division credit for the course taken at another institution. No asterisk indicates lower division credit. A plus sign to the left of the course title indicates a developmental course. Developmental course hours do not count toward graduation requirements.

All 300- and 400-level business courses required for a B.B.A. or B.A. must be completed at the upper division level. For example: if a student completed Principles of Management at another institution and the course number was taken at the freshman or sophomore level, the Transfer Equivalency Worksheet will list the Marshall equivalent as MGT 320 Principles of Management, which is Principles of Management at Marshall. However, the course completed was a lower division course and the student did not complete the requirement for upper level credit. Therefore, the student would need to retake the course at Marshall for upper division credit or validate the course. For a few courses, the Brad D. Smith Undergraduate School of Business offers a method of validating courses that transfer in as lower division, but require upper division credit. Students who receive lower division credit in the following courses can validate those courses by choosing one of the following options:

- FIN 323 Principles of Finance - Students can
  a. take FIN 343 Intermediate Financial Manage or FIN 370 Principles of Investment and receive a grade of *C* or better;
  b. pass a validation exam given by the Department of Finance, Economics and International Business; or
  c. pass FIN 323 Principles of Finance at Marshall for upper division credit.
- MGT 320 Principles of Management - Students can
  a. take MGT 422 Organizational Behavior and receive a grade of *C* or better;
  b. pass a validation exam given by the Department of Management and Health Care Administration; or
  c. pass MGT 320 Principles of Management at Marshall for upper division credit.
- MKT 340 MKT Concepts and Applications - Students can
  a. take MKT 371 International Marketing and receive a grade of *C* or better;
  b. pass a validation exam given by the Department of Marketing, MIS and Entrepreneurship; or
  c. pass MKT 340 MKT Concepts and Applications at Marshall for upper division credit.

A student who chooses to retake the equivalent course at Marshall can only apply the credit hours from one of the courses towards graduation. Students who have any questions regarding upper or lower division credit or validating a course should see an advisor in the College of Business.

Transfer students should also understand the meaning of the term *unclassified* (UNC) on the Transfer Equivalency Worksheet. Unclassified is a term that reflects the fact that Marshall does not offer a course that is an equivalent of the course taken at the transfer institution. Unclassified does not mean the transfer course will not count toward a degree program at Marshall University. Students may apply unclassified credit toward B.B.A. or B.A. requirements if the course content meets the essential elements needed. In unclassified course credit cases, the academic advisor may ask the student to submit a catalog course description or a syllabus for appropriate approval. Not all unclassified courses may be applied toward a B.B.A. or B.A. degree requirement.

3+2 Program

The 3+2 Program offered by the Lewis College of Business allows students to start their master's degree while still completing their bachelor's degree. The 3+2 Program is available to students enrolled in an undergraduate program in the LCOB. The following graduate programs are available through the 3+2 Program: Master of Business Administration, Master of Science in Accountancy, Master of Science in Health Care Administration, or Master of Science in Human Resource Management. Students enrolled in the program save time and money. Talk to your advisor to see if this program would be beneficial for your academic plans.

Students that meet the requirements that follow may enroll in up to nine hours of graduate coursework while still seniors. Students can double-count up to nine hours of graduate level courses from their graduate degree toward their bachelor's degree requirements. Up to six credit hours of graduate work may count as a major required elective (for example, a graduate MGT class can count as a MGT elective for a Management major) or towards a minor (as approved by the dean's office) or three-nine credit hours may count as free electives. Once all undergraduate requirements are met, students will apply to graduate with their bachelor's degree and apply to be fully admitted to a graduate program.

The 3+2 Program may be especially attractive for accounting majors, who can enroll in the program to meet the requirements for the M.B.A. or M.S.A. while completing the 150 hours required by the state of West Virginia to become a CPA. CPA requirements may differ among states so please research the CPA requirements for the state in which you plan to sit for the exam.

Admission Requirements for Master of Business Administration

Students may apply to the 3+2 Program after all eligibility requirements are met. This typically occurs during the second semester of the junior year. Students must meet the following:

1. Senior status or be able to attain senior status after completion of the semester in which the student is currently enrolled;
2. Have completed all undergraduate foundation courses with a grade of "B" or better in each course by the end of the semester in which the student will be enrolled in the 3+2 Program;

Code	Title	Credit Hours
ACC 215	Accounting Principles (CT)	3
ECN 250	Principles Microeconomics	3
MGT 218	Business Quantitative Methods	3
MKT 340	MKT Concepts and Applications	3
FIN 323	Principles of Finance	3

3. Be reasonably likely to complete all undergraduate degree requirements within two semesters after being admitted to the 3+2 Program;
4. Have an overall undergraduate GPA of 3.0 or better at the time of application.

Admission Requirements for Master of Science in Accountancy

Students may apply to the 3+2 Program after all eligibility requirements are met. This typically occurs during the second semester of the junior year. Students must meet the following:

1. Senior status or be able to attain senior status after completion of the semester in which the student is currently enrolled;
2. Have completed all ACC foundation courses with a grade of "C" or better in each course by the end of the semester in which the student will be enrolled in the 3+2 program or with approval of the department chair:

Code	Title	Credit Hours
ACC 311	Intermediate Accounting I	3
ACC 312	Intermediate Accounting II	3
ACC 318	Cost Accounting I	3
ACC 341	Acc Information Systems	3
ACC 348	Federal Taxation	3
ACC 429	Auditing I	3

3. Be reasonably likely to complete all undergraduate degree requirements within two semesters after being admitted to the 3+2 Program;
4. Have an overall undergraduate GPA of 3.0 or better at the time of application.

Admission Requirements for Master of Science in Health Care Administration

Students may apply to the 3+2 Program after all eligibility requirements are met. This typically occurs during the second semester of the junior year. Students must meet the following:

1. Senior status or be able to attain senior status after completion of the semester in which the student is currently enrolled;
2. Be reasonably likely to complete all undergraduate degree requirements within two semesters after being admitted to the 3+2 Program;
3. Have an overall undergraduate GPA of 3.0 or better at the time of application.

Admission Requirements for Master of Science in Human Resource Management

Students may apply to the 3+2 Program after all eligibility requirements are met. This typically occurs during the second semester of the junior year. Students must meet the following:

1. Senior status or be able to attain senior status after completion of the semester in which the student is currently enrolled;
2. Be reasonably likely to complete all undergraduate degree requirements within two semesters after being admitted to the 3+2 Program;
3. Have an overall undergraduate GPA of 3.0 or better at the time of application.

Academic Policies

Transient Courses

Currently enrolled students planning to take a course within the major requirements (or upper level requirements for a minor in the COB), or MGT 460, at another institution must do so at an institution that is accredited by AACSB or another institution approved by the College of Business dean's office. Students must complete the Transient Course Approval Request and get all required approvals.

Students taking courses at another school must have an official transcript sent from the other school to Marshall. Students taking courses at another school in their last semester must have the transfer work posted to their Marshall transcript by the end of their last semester or the student's graduation may be delayed to the next graduation term.

Probation and Academic Dismissal

The Brad D. Smith Undergraduate School of Business adheres strictly to the University Academic Probation and Suspension Policy found in the "Academic Information" section of this catalog. Students should be aware of the policy. This policy affects all undergraduate students in the LCOB regardless of their catalog year.

Students on academic probation or returning from suspension are required to meet with the Director of Student Services to register for courses and create an Academic Improvement Plan. The student may be required to participate in the college's retention program.

Advising

All students are assigned an academic advisor. The academic advisors for the LCOB are located in the Lewis College of Business Academic Advising Center in CH 334. Students are required to attend mandatory advising during each semester of their freshman year and one time as juniors. As a freshman, the student will receive an advisor hold on their account each semester and will be unable to register until they meet with their advisor. When a student reaches 60-70 earned credit hours, the student will be required to meet with their advisor to complete a Junior/Senior Evaluation. A Junior/Senior Evaluation hold will be placed

on the student's account until he or she meets with the advisor and completes the Junior/Senior Evaluation. The hold will prevent a student from registering.

Although advising is not mandatory every semester, students are highly encouraged to meet with their advisor each semester to ensure that they are staying on track to graduate.

Prerequisites

A prerequisite is a course or student classification which must be successfully completed prior to taking a course for which you may want to enroll. An example is that you must complete ECN 250 Principles Microeconomics before you can take ECN 253 Principles Macroeconomics. The prerequisite must be completed (with a *grade of D* or better) before the first day of class. Accounting majors are required to complete prerequisite accounting courses with a minimum grade of *C* or better. The LCOB strictly enforces prerequisites. Be careful and plan ahead. Students will not be allowed to register for a course if they have not completed, or are not presently completing, the prerequisite course.

Students have the responsibility of checking prerequisites prior to enrollment. **Students may be administratively withdrawn from courses if the prerequisites have not been fulfilled.** Enrollment for MGT 460 Strategic Management requires senior standing and completion of multiple core business courses. Students will not be allowed to take MGT 460 Strategic Management and FIN 323 Principles of Finance in the same semester.

Internships

The purpose of the internship is to provide a means by which students can receive academic credit for educational experiences received in a work environment that cannot be provided by the College of Business. *Students approved for internship credit will actually register for a university course and are required to pay tuition for the credits they receive*. All proposals for an internship must clearly identify the educational benefits that will accrue to the student before the internship will be approved.

A student may earn up to a maximum of 12 credit hours of internship credit. A maximum of 6 credit hours can be earned in one semester. A maximum of 6 credit hours may count toward the 120 credit hours required to graduate. Every 200 hours worked equals three credit hours. Internship credit may be earned during regular semesters or summer sessions. Students must register for internship credit during the semester in which they are working the internship. A grade of Credit/No Credit will be assigned by the department chair upon completion of internship requirements. Students may be required to submit a journal or report of their experience. Internship credit counts as free electives.

Please see your academic advisor for information on how to get an internship approved for course credit.

Independent Study

The Brad D. Smith Undergraduate School of Business offers the option of Independent Study to selected students who wish to pursue topics that are business-related but not covered in depth in formal Brad D. Smith Undergraduate School of Business courses. Each student can obtain a maximum of eight (8) hours of Independent Study credit within the LCOB, and can earn no more than four (4) hours of such credit in any one semester.

In order to register for Independent Study in a given semester (provided the above hour limits have not been reached), the following conditions must be met:

1. LCOB students with senior standing who have 2.5 or higher in overall, Marshall, and major GPAs or with permission from the department chair.
2. LCOB students with junior standing who have 3.0 or higher in overall, Marshall, and major GPAs or with permission from the department chair.
3. An instructor within the student's major division must agree to be his/her Project Supervisor. The faculty member's agreement to serve in this capacity will be contingent upon his/her assessment of the feasibility and quality of the student's proposed project.
4. Written approval for the project and written approval for Independent Study registration must then be obtained from the student's department chair. Department chair's approval will be contingent upon his/her assessment of the feasibility and quality of the student's proposed project, in consultation with the student's proposed project supervisor.

MIS 200 Business Computer Applications Waiver

Students who complete Microsoft Certifications may apply to have MIS 200 waived. To apply, the student will need to meet with his/her academic advisor and provide documentation of their completed Microsoft Certifications. In order to have MIS 200 waived, the student must have completed a minimum of a Microsoft Certification in Microsoft Excel and one additional Microsoft Certification. Students are not awarded credit hours for MIS 200 through this process (the course requirement is waived). Waiving MIS 200 is only applicable for majors in the College of Business. Other majors will need to consult with their academic advisor to see if their program offers a similar option.

Degree Requirements

Graduation Requirements

The following general requirements must be met by all students seeking bachelor's degrees through the Brad D. Smith Undergraduate School of Business:

1. Satisfaction of all university requirements for graduation.
2. Completion of all curricular requirements specified for the major and degree.
3. Completion of the following residency requirements:
   a. Earn at least 36 semester hours at Marshall.
   b. Earn at least 12 hours of senior level coursework in the Lewis College of Business at Marshall.
   c. Earn at least 15 hours in the major field at Marshall.
   d. Earn at Marshall 16 or more of the last 32 hours credited toward the degree.
4. Earn at least a 2.0 Grade Point Average (GPA) in each of the following three categories:
   a. All coursework attempted at Marshall and elsewhere.
   b. All Marshall coursework.
   c. All coursework attempted and included in the major(s) at Marshall.
5. Successful validation of transfer work as required.
6. Removal of all incompletes.

7. At most, 18 semester hours of coursework (consisting only of general education requirements and/or free electives) taken under the Credit/No Credit option may be applied toward graduation requirements. College of Business and other courses in your major may not be taken on a Credit/No Credit basis.
8. All candidates for graduation should file an Application for Graduation form in the semester PRIOR to the semester in which all requirements for the degree are to be met. This will enable the student to make all necessary schedule adjustments to correct potential graduation deficiencies in the final semester.

To ensure graduation at the end of the term of application, all records should be documented with needed transcripts, substitution forms, grade changes, and lower division validations.

Additional College of Business Course Requirements for Undergraduate Degrees

(Requirements vary for some programs. See major-specific requirements for details.)

Code	Title	Credit Hours
Additional College Requirements		
ENG 204	Writing for the Workplace	3
Communication Studies Elective (select one)		3
CMM 302	Professional Presentations	
CMM 308	Persuasive Communication	
CMM 315	Group Communication	
CMM 319	Superior-Subordinate Comm	
CMM 322	Intercultural Communication	
International Business Elective (select one)		3
ECN 421	Global Macroeconomic Analysis	
ECN 408	Comparative Econ Systems	
ECN 420	International Trade	
ECN 460	Economic of Dev Countries	
FIN 440	International Fin Management	
MGT 445	International Management	
MKT 371	International Marketing	
Core Business Requirements		
All business majors are required to take several core business courses. They are as follows:		
CMM 207	Bus & Prof Communication [1]	3
ENG 204	Writing for the Workplace	3
ACC 215	Accounting Principles (CT)	3
ACC 216	Principles of Accounting	3
ECN 250	Principles Microeconomics	3
ECN 253	Principles Macroeconomics	3
FIN 323	Principles of Finance	3
LE 207	Legal Environ of Business	3
MGT 218	Business Quantitative Methods	3
MGT 320	Principles of Management	3
MGT 460	Strategic Management	3
MIS 200	Bus Computer Applications	3
MIS 290	Prin Management Info Systems	3
MKT 340	MKT Concepts and Applications	3

[1] Course also meets university core curriculum requirement.

ADDITIONAL UNIVERSITY REQUIREMENTS:

Writing Intensive:

Students must select 6 hours of courses designated as Writing Intensive. LCOB students are able to double-count ENG 204 (Writing in the Workplace) as one of their Writing Intensive courses. The business capstone course, MGT 460 (Strategic Management) will also double-count as a Writing Intensive course. MGT 460 and ENG 204 must be taken at Marshall in order to meet the Writing Intensive Requirement. If one or both courses are taken at another school, additional courses will be required at Marshall for the student to fulfill the Writing Intensive requirement.

Multicultural/International

This requirement will be met when the student completes the International LCOB Elective (see "Additional College Requirements" section above).

Free Electives

Students must complete at least 120 hours to graduate with a B.B.A. The number of free elective hours you will need to complete depends on your major, the number of hours you take to fulfill your math and composition requirements, and if you double-count any general education requirements.

Free electives are any course that is 100-level or above that are not already required for the program of study. Please note that developmental courses (098, 099, etc.) do not count toward completion of free electives or the 120-hour graduation requirement. If you earn a "C" or better in a course and repeat it, that is considered a Repeat Passing Grade. If you earn a "D" in a course that is not eligible as a D/F Repeat under the D/F Repeat Policy, the repeat is also considered a Repeat Passing Grade. Repeat Passing Grade hours cannot count toward the 120 hours needed for graduation and must be manually subtracted from the overall hours completed toward graduation. Please see the "Academic Information" section of the catalog for more information on D/F Repeats.

Double-Counting

Any course that meets more than one graduation requirement (excluding free electives) can be double counted, if applicable. For example, CL 210 double-counts as Critical Thinking (CT) and Humanities. When completed at Marshall, PSY 201 double-counts as a Social Science and a Critical Thinking (CT) course. Because you must have a minimum of 120 credit hours to receive a degree, double-counting will increase the number of free electives you will need. Therefore, if you take a class that meets two graduation requirements, you will then take additional free elective hours in place of the second course requirement. Please see the specific requirements for your major for any restrictions on double-counting.

MAJOR COURSE REQUIREMENTS

The courses required for each major are listed in the following sections. Students are required to have a 2.0 GPA in their major,

in addition to their Overall GPA and Marshall GPA. If you have any questions about how GPAs are calculated, please consult with your advisor.

Accountancy And Legal Environment

Jeffrey Archambault
Professor and Interim Dean
Ph.D., Michigan State University, 1992

Marie Archambault

Courses

- General Education Course

Accountancy

ACC 198 Accounting Professionalism **1 Credit hour**
Introduction to the accounting profession, career options, professional responsibilities, and codes of conduct. Professionalism, networking, interviewing, job search, and technical writing skills are developed.
Pre-req: ACC 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 215 Accounting Principles (CT) **3 Credit hours**
Introduction to principles and procedures of double-entry accounting records and reports. This course meets a Core 1/Critical Thinking requirement.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

ACC 216 Principles of Accounting **3 Credit hours**
Using accounting information to assist in managerial control and decision making. Using accounting information to assist in managerial control and decision making.
Pre-req: ACC 215 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ACC 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ACC 310 Acct for Entrepreneurs **3 Credit hours**
Principles, concepts and problems of accounting relevant to decision making for entrepreneurs including: pro forma financial statements, cash flow, securing financing and cost structures. NOT OPEN TO STUDENTS IN THE LEWIS COLLEGE OF BUSINESS
Grade Mode: Normal Grading Mode

ACC 311 Intermediate Accounting I **3 Credit hours**
Study of U.S. and International accounting standards related primarily to assets and financial statement preparation. Accounting standards research and application of Excel are integrated throughout the course.
Pre-req: ACC 215 with a minimum grade of C and ACC 216 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 312 Intermediate Accounting II **3 Credit hours**
Study of U.S. and International accounting standards related primarily to liabilities and revenue recognition. Accounting standards research and application of Excel are integrated throughout the course.
Pre-req: ACC 198 with a minimum grade of D and ACC 311 with a minimum grade of C and MIS 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ACC 318 Cost Accounting I **3 Credit hours**
A study of fundamental cost accounting concepts and objectives including project cost accumulation, costvolume-profit analysis, direct costing, budget techniques, standard costing, and differential cost analysis. A study of fundamental cost accounting concepts and objectives including project cost accumulation, cost- volume-profit analysis, direct costing, budget techniques, standard costing, and differential cost analysis.
Pre-req: ACC 215 with a minimum grade of C and ACC 216 with a minimum grade of C and (MGT 218 with a minimum grade of D or MGT 318 with a minimum grade of D or MTH 225 with a minimum grade of D or STA 225 with a minimum grade of D or IST 130 with a minimum grade of D or EDF 417 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D).
Grade Mode: Normal Grading Mode

ACC 341 Acc Information Systems **3 Credit hours**
Introduction to accounting systems. Emphasis on concepts of analysis, design, and implementation of accounting systems with attention on internal and audit trail.
Pre-req: ACC 198 with a minimum grade of D and ACC 311 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 348 Federal Taxation **3 Credit hours**
Problems and procedures of income tax accounting. Problems and procedures of income tax accounting.
Pre-req: ACC 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 364 Forensic & Investigative Acct **3 Credit hours**
This course introduces students to forensic accounting focusing on criminal litigation and investigations of fraud.
Pre-req: ACC 311 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 412 Governmental Accounting **3 Credit hours**
A study of the use of accounting information in the financial management of governmental and non-profit entities. A study of the use of accounting information in the financial management of governmental and non-profit entities.
Pre-req: ACC 311 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 414 Adv Accounting Problems **3 Credit hours**
Selected problems in advanced accounting principles and procedures. Selected problems in advanced accounting principles and procedures.
Pre-req: ACC 312 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 418 Managerial Accounting **3 Credit hours**
The managerial approach to budgetary control. The managerial approach to budgetary control.
Pre-req: ACC 318 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 429 Auditing I **3 Credit hours**
A study of the theory and procedures of auditing and the legal and social responsibilities of the auditor. A study of the theory and procedures of auditing and the legal and social responsibilities of the auditor.
Pre-req: ACC 312 with a minimum grade of C and ACC 341 with a minimum grade of C and (MGT 218 with a minimum grade of D or MGT 318 with a minimum grade of D or MTH 225 with a minimum grade of D or STA 225 with a minimum grade of D or MTH 210 with a minimum grade of D or IST 130 with a minimum grade of D or SOC 345 with a minimum grade of D or PSY 223 with a minimum grade of D or EDF 417 with a minimum grade of D).
Grade Mode: Normal Grading Mode

ACC 435 Internal Auditing **3 Credit hours**
This course discusses the applicable current internal auditing theory and procedures, including a review of corporate governance and risk assessment. This course discusses the applicable current internal auditing theory and procedures, including a review of corporate governance and risk assessment.
Pre-req: ACC 341 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 440 Accounting Analytics **3 Credit hours**
This course studies the impact of data analytics on accounting and auditing and explores when and how various analytical procedures and tools can be used to address business questions.
Pre-req: ACC 311 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 448 Federal Income Tax II **3 Credit hours**
Advanced course in taxation with emphasis on corporations, partnerships, estates, trusts, gifts, valuation and liquidity problems, and tax administration and practice. Advanced course in taxation with emphasis on corporations, partnerships, estates, trusts, gifts, valuation and liquidity problems, and tax administration and practice.
Pre-req: ACC 348 with a minimum grade of C and ACC 311 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 480 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses. Accounting majors only, with permission of Department Chair.
Grade Mode: Normal Grading Mode

ACC 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ACC 490 Internship **3-12 Credit hours**
A supervised internship in which the student works for a business firm/agency to gain practical experience in the student's major. The program of work and study will be defined in advance and the student's performance will be evaluated. A supervised internship in which the student works for a business firm/agency to gain practical experience in the student's major. The program of work and study will be defined in advance and the student's performance will be evaluated.
Grade Mode: Credit/No Credit Grade Only

ACC 499 Professional and Ethics Sem **3 Credit hours**
Designed to increase the student's awareness of the accounting environment, emphasizing ethics. Communication skills are improved through impromptu speaking, written reports, group projects and formal presentations. Capstone Course.
Pre-req: ACC 318 with a minimum grade of C and ACC 429 (may be taken concurrently) with a minimum grade of D and ACC 440 (may be taken concurrently) with a minimum grade of D and ACC 448 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: ACC 429 and ACC 440 and ACC 448
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Legal Environment

LE 207 Legal Environ of Business **3 Credit hours**
Law and the judicial system. the relationship of law, government, ethics and the consumer of business enterprise. The student of contracts, torts, government regulation of business, environmental and consumer protection.
Grade Mode: Normal Grading Mode

LE 308 Commercial Law **3 Credit hours**
A continuation of Accounting 207. Emphasizes in-depth case study of the law of commercial paper, business organizations security, and real and personal property.
Pre-req: LE 207 with a minimum grade of D.
Grade Mode: Normal Grading Mode

LE 351 Legal Aspts Hlth Care Org **3 Credit hours**
A survey of basic legal problems facing a hospital administrator. The study also includes constitutional and administrative law issues dealing with medicaid and medicare and regional planning.
Pre-req: ACC 207 with a minimum grade of D or FIN 207 with a minimum grade of D or FIN 307 with a minimum grade of D or LE 207 with a minimum grade of D.
Grade Mode: Normal Grading Mode

LE 366 Entrep Law & Ethics **3 Credit hours**
Students will examine the basic legal and ethical issues involving the creation, maintenance, and expansion of small businesses.
Grade Mode: Normal Grading Mode

LE 380 Tourism and Hospitality Law **3 Credit hours**
A review of the statutes and regulations as related to the hospitality, entertainment, and tourism industries including hotel/guest relationships, franchise agreements, and commercial law.
Grade Mode: Normal Grading Mode

LE 691 Gov Bus Relationships **3 Credit hours**
Preparing business executives for dealing with problems of the firm in its relationships with government. Applies case analysis to the board categories of antitrust, trade regulation, and agency regulation. Preparing business executives for dealing with problems of the firm in its relationships with government. Applies case analysis to the board categories of antitrust, trade regulation, and agency regulation.
Grade Mode: Normal Grading Mode

Accounting, B.B.A.

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
PSY 201	Introductory Psychology (CT)	3
ACC 215	Accounting Principles (CT)	3
Core 2		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
CMM 207	Bus & Prof Communication	3
STA 150	Foundations of Statistics	3
STA 150L	Foundations of Statistics Lab	1
Core II Natural/Physical Science		4
Core II Humanities		3
PSY 201	Introductory Psychology (CT)	3
Core II Fine Arts		3
Additional University Requirements		
ENG 204	Writing for the Workplace (Writing Intensive)	3
MGT 460	Strategic Management (Writing Intensive)	3
MC or I: Intl Business Elective		3
ACC 499	Professional and Ethics Sem (Capstone)	3
College-Specific		
ENG 204	Writing for the Workplace	3
ACC 215	Accounting Principles (CT)	3

ACC 216	Principles of Accounting	3
ECN 250	Principles Microeconomics	3
ECN 253	Principles Macroeconomics	3
FIN 323	Principles of Finance	3
LE 207	Legal Environ of Business	3
MIS 200	Bus Computer Applications	3
MIS 290	Prin Management Info Systems	3
MGT 218	Business Quantitative Methods	3
MGT 320	Principles of Management	3
MGT 460	Strategic Management	3
MKT 340	MKT Concepts and Applications	3
Communication Studies Elective:		
Select one of the following:		3
CMM 302	Professional Presentations	
CMM 308	Persuasive Communication	
CMM 315	Group Communication	
CMM 319	Superior-Subordinate Comm	
CMM 322	Intercultural Communication	
International Business Elective:		
Select one of the following:		3
ECN 408	Comparative Econ Systems	
ECN 420	International Trade	
ECN 421	Global Macroeconomic Analysis	
ECN 460	Economic of Dev Countries	
FIN 440	International Fin Management	
MGT 445	International Management	
MKT 371	International Marketing	
Major-Specific		
ACC 311	Intermediate Accounting I	3
ACC 312	Intermediate Accounting II	3
ACC 318	Cost Accounting I	3
ACC 341	Acc Information Systems	3
ACC 348	Federal Taxation	3
ACC 429	Auditing I	3
ACC 440	Accounting Analytics	3
ACC 448	Federal Income Tax II	3
ACC 499	Professional and Ethics Sem	3
ACC 198 is also required for ACC majors.		1
ACC Elective		3
Students can take any 300- or 400-level ACC course (except ACC 310, ACC 490), or LE 308, or an approved graduate course.		
Free Elective		3
Free Elective		3
Free Elective		3
Free Elective		3
Free Elective		3

Major Information

- The total number of free electives required depends on the number of hours completed in STA 150 Foundations of Statistics or STA 150B Foundations of Stats-Expanded and ENG 101 Beginning Composition or ENG 101P Beginning Composition Plus and the number of hours that can be double-counted toward multiple degree requirements.
- Student must earn a grade of "C" or better in all ACC prerequisite courses (including ACC 215 Accounting Principles (CT) and ACC 216 Principles of Accounting).
- The ACC Elective can be any 300/400 level ACC course (except ACC 310 Acct for Entrepreneurs or ACC 490 Internship), or LE 308 Commercial Law, or an approved graduate course (GPA requirement exists).
- ACC 499 Professional and Ethics Sem is the capstone course for all Accounting majors. It can only be taken during the senior year after all prerequisites are met.
- Multicultural or International additional university requirement met with International Business Elective.
- Please check with advisor about course offerings. Not all classes will be offered every semester.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Department of Accountancy and Legal Environment offers a Bachelor of Business Administration (BBA) degree in Accounting. In the program, you will learn how to summarize financial statements and reports, interpret financial data, develop budgets, calculate taxes, audit financial records, and utilize systems to collect, retrieve, and analyze financial data. Through a rigorous curriculum and an abundance of opportunities to engage with professionals, you will be empowered to obtain internships, entry-level positions, sit for professional certification exams, and advance in a diverse set of accounting careers.

A supervised internship in which the student works for a business firm/agency to gain practical experience in the student's major. The program of work and study will be defined in advance and the students performance will be evaluated. A supervised internship in which the student works for a business firm/agency to gain practical experience in the student's major. The program of work and study will be defined in advance and the students performance will be evaluated.
Grade Mode: Credit/No Credit Grade Only

FIN 510 Prin Business Finance **3 Credit hours**
Business finance from the viewpoint of the financial manager. Use of financial statements, tools, and concepts for measuring and planning for profitability and liquidity. (PR: Permission of MBA director). Business finance from the viewpoint of the financial man- ager. Use of financial statements, tools, and concepts for measuring and planning for profitability and liquidity. (PR: Permission of MBA director).
Pre-req: ACC 510 with a minimum grade of C and ECN 501 with a minimum grade of C and MGT 500 with a minimum grade of C.
Grade Mode: Normal Grading Mode

FIN 532 Fin Advising FINRA S-7 **3 Credit hours**
This course prepares students for the Series 7 exam that entitles the holder to sell all types of securities products with the exception of commodities and futures.
Grade Mode: Normal Grading Mode

FIN 556 Income Tax Planning **3 Credit hours**
This course focuses on principles and current law of income taxation and its impact on financial planning for individuals, couples and families as investors, employees and business owners.
Pre-req: FIN 551 with a minimum grade of C.
Grade Mode: Normal Grading Mode

FIN 558 Estate Planning **3 Credit hours**
Estate Planning focuses on the efficient conservation and transfer of wealth, consistent with the client's goals such as trusts, wills, probate, advanced directives, charitable giving, wealth transfers and related taxes.
Pre-req: FIN 551 with a minimum grade of C.
Grade Mode: Normal Grading Mode

FIN 580 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

FIN 581 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

FIN 620 Financial Management **3 Credit hours**
An examination of business corporations practicing at the level of the individual firm with emphasis on quantitative analysis of the variables which affect liquidity and profitability. An examination of business corporations practicing at the level of the individual firm with emphasis on quantitative analysis of the variables which affect liquidity and profit- ability.
Pre-req: MGT 601 with a minimum grade of C.
Grade Mode: Normal Grading Mode

FIN 623 Investments **3 Credit hours**
A study of fundamental investment principles, modern portfolio theory, and portfolio formation process and the evaluation of portfolio performance.
Pre-req: FIN 501G with a minimum grade of C or FIN 501 with a minimum grade of C.
Grade Mode: Normal Grading Mode

FIN 625 Financial Prob Business **3 Credit hours**
Recognizing and solving financial problems through the use of case presentations and/or corporate annual and interim reports. Recognizing and solving financial problems through the use of case presentations and/or corporate annual and interim reports.
Pre-req: FIN 620 with a minimum grade of C.
Grade Mode: Normal Grading Mode

FIN 626 Sec Anlysis-Portfolio Mgt **3 Credit hours**
Analytical procedures used by institutional portfolio managers to measure both past performance of holdings and anticipated market performance of current offerings. Emphasis in this course may be expected to be more centralized in the area of fundamental analysis. Analytical procedures used by institutional portfolio mana- gers to measure both past performance of holdings and anti- cipated market performance of current offerings. Emphasis in this course may be expected to be more centralized in the area of fundamental analysis.
Pre-req: FIN 620 with a minimum grade of C.
Grade Mode: Normal Grading Mode

FIN 627 Fin Institution & Markets **3 Credit hours**
An in-depth study of the flow of funds in the aggregate financial systems, with emphasis on those in the United States. Because interest rates, and bank reserve requirements of Federal Reserve System are all dynamic in character, the content of this course may be expected to vary as financial events of the future dictate. An in-depth study of the flow of funds in the aggregate fin- ancial systems, with emphasis on those in the United States. Because interest rates, and bank reserve requirements of Federal Reserve System are all dynamic in character, the content of this course may be expected to vary as financial events of the future dictate.
Pre-req: FIN 620 with a minimum grade of C.
Grade Mode: Normal Grading Mode

FIN 630 Multinational FIN MGT **3 Credit hours**
This course analyzes the challenges of multinational corporations' financial management. It covers three areas: foreign exchange market transactions, exchange rate risk and hedging, and corporate financial decisions of an MNC.
Grade Mode: Normal Grading Mode

FIN 650 Special Topics **1-3 Credit hours**
(Permission of the division head, full M.B.A. admission, and permission of GSM academic advisor) (Permission of the division head, full M.B.A. admission, and permission of GSM academic advisor)
Pre-req: FIN 501G with a minimum grade of C or FIN 510 with a minimum grade of C.
Grade Mode: Normal Grading Mode

FIN 651 Special Topics **1-3 Credit hours**
Pre-req: FIN 620 with a minimum grade of C.
Grade Mode: Normal Grading Mode

FIN 660 Independent Study **1-4 Credit hours**
Independent study of a specific nature under the supervision of a qualified faculty member. Hours of credit are determined by the magnitude of the project. (PR: FIN 620 and permission of division head or permission of GSM academic advisor) Independent study of a specific nature under the supervision of a qualified faculty member. Hours of credit are determined by the magnitude of the project. (PR: FIN 620 and permission of division head or permission of GSM academic advisor)
Pre-req: FIN 620 with a minimum grade of C.
Grade Mode: Normal Grading Mode

FIN 681 Thesis **1-6 Credit hours**
(PR: Permission of the division head and full M.B.A. admission) (PR: Permission of the division head and full M.B.A. admission)
Attributes: Thesis
Grade Mode: Normal Grading Mode

FIN 699 Business Policy & Strategy **3 Credit hours**
Study of administrative decisions making under conditions of uncertainty. Policy construction at top administrative level with emphasis on strategy with consideration of major functions of the business organization. Study of administrative decisions making under conditions of uncertainty. Policy construction at top administrative level with emphasis on strategy with consideration of major funct- ions of the business organization.
Grade Mode: Normal Grading Mode

Economics, B.B.A.

- General Education Course

[1] ECN 408 Comparative Econ Systems, ECN 420 International Trade, ECN 421 Global Macroeconomic Analysis, ECN 460 Economic of Dev Countries, or FIN 440 International Fin Management **cannot** count as both the International Business Elective and an ECN/FIN Elective.

Major Information

- The total number of free electives required depends on the number of hours completed in STA 150 Foundations of Statistics or STA 150B Foundations of Stats-Expanded and ENG 101 Beginning Composition or ENG 101P Beginning Composition Plus and the number of hours that can be double-counted toward multiple degree requirements.
- ECN/FIN Electives can be any 300 or 400 level ECN or FIN courses not already required (except ECN 490 Internship and FIN 490 Internship). One elective must be at the 400 level.
- ECN 466 Economics Workshop is the capstone course for all Economics majors. It can only be taken during the senior year after all prerequisites are met.
- Multicultural or International additional university requirement met with International Business Elective.
- Please check with advisor about course offerings. Not all classes will be offered every semester.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Department of Finance, Economics and International Business offers a Bachelor of Business Administration (BBA) degree in Economics. Economics studies the choices that individuals, businesses, and government make when faced with unlimited wants and limited resources. In the program, you will learn how to better understand, analyze, and take action on these interrelationships. You will be taught how to communicate economic ideas and analysis through written and oral presentations and use quantitative techniques and problem solving skills that you learn in order to develop a research project involving economic analysis.

Four Year Plan

The Department of Finance, Economics and International Business offers a Bachelor of Business Administration (BBA) degree in Finance. Finance is a field that is concerned with making investment and financing decisions under uncertainty for both businesses and individuals. There are four major areas in the finance field: corporate finance, investments and portfolio management, financial institutions, and international financial management. In the program, you will develop analytical and problem solving skills in all four areas of finance for a rewarding career in the many areas of finance and for the success of your own personal investments and wealth management.

Grade Mode: Normal Grading Mode

MGT 325 Project Management **3 Credit hours**
It covers key components of project management- project integration, scope, and time management; cost analysis, quality control, human resource considerations; risk management; procurement and contract management; and planning and scheduling.
Pre-req: MGT 218 with a minimum grade of D or STA 225 with a minimum grade of D or MTH 225 with a minimum grade of D or MGT 318 with a minimum grade of D or IST 130 with a minimum grade of D or EDF 417 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 335 Hospitality & Tourism Mgt **3 Credit hours**
An introduction to the hospitality industry, emerging trends and various management functions related to it.
Grade Mode: Normal Grading Mode

MGT 348 Aviation Management Safety **3 Credit hours**
This course provides students with a comprehensive coverage of aviation safety and security. The course examines topics related to the latest procedures, flight technologies, challenges, and accident statistics.
Grade Mode: Normal Grading Mode

MGT 350 Health Care Management **3 Credit hours**
An introduction to the management of health care organizations. An introduction to the management of health care organizations.
Pre-req: MGT 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 354 Health Care Delivery Systems **3 Credit hours**
An examination of the various private and public sector health care delivery systems currently management. An examination of the various private and public sector health care delivery systems currently management.
Pre-req: MGT 350 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 355 Health Care Prods & Services **3 Credit hours**
Application of business principles as they apply to the management of health care products and services in today's health care environment.
Pre-req: MGT 350 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 370 Energy Management Principles **3 Credit hours**
A managerial perspective of regional, national and international energy issues. Course provides an objective assessment into the projections, limitations, costs, and tradeoffs associated with conventional and alternative sources of energy.
Pre-req: MGT 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 380 Principles of Renewable Energy **3 Credit hours**
An introduction to renewable energy management, markets, and sustainable business solutions. Nuclear, hydro, solar, wind, geothermal, biomass and biofuel sectors will be evaluated for their economic viability and business profitability.
Pre-req: MGT 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 419 Business & Society **3 Credit hours**
An examination of the manager's social and environmental responsibilities to his employees, customers, and the general public, and other external factors which management must be cognizant of in modern society. An examination of the manager's social and environmental responsibilities to his employees, customers, and the general public, and other external factors which management must be cognizant of in modern society.
Pre-req: MGT 320 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

MGT 420 Operations Management **3 Credit hours**
Management of operation systems including system design, implementation and control. Analysis of the system in the areas of product, process, material quality, and facilities management. Topics include breakeven analysis, inventory models, transportation models, network analysis. Management of operation systems including system design, implementation and control. Analysis of the system in the areas of product, process, material quality, and facilities management. Topics include breakeven analysis, inventory models, transportation models, network analysis.
Pre-req: (MGT 218 with a minimum grade of D or STA 225 with a minimum grade of D or MTH 225 with a minimum grade of D or MGT 318 with a minimum grade of D or IST 130 with a minimum grade of D or EDF 417 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D).
Grade Mode: Normal Grading Mode

MGT 421 Supply Chain Sustainability **3 Credit hours**
Understanding the value, issues and trends regarding sustainability in modern, complex and global supply chains and business practices, by appreciating the concepts of sustainability, circular economy, and supply chain processes.
Pre-req: MGT 218 with a minimum grade of D or STA 225 with a minimum grade of D or MTH 225 with a minimum grade of D or MGT 318 with a minimum grade of D or IST 130 with a minimum grade of D or EDF 417 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 422 Organizational Behavior **3 Credit hours**
An interdisciplinary examination of the nature of individuals, groups and organizations and organizations and their interactions. An interdisciplinary examination of the nature of individuals, groups and organizations and organizations and their interactions.
Pre-req: MGT 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 423 Organizational Development **3 Credit hours**
An examination of the dynamics of change within organizations. The course will examine the cause of resistance to change and purposeful methodologies for implementing change including behavioral, technological, and structural in attempt to describe a holistic approach. An examination of the dynamics of change within organ- izations. The course will examine the cause of resistance to change and purposeful methodologies for implementing change including behavioral, technological, and structural in an attempt to describe a holistic approach.
Pre-req: MGT 320 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

MGT 424 Human Resource Management **3 Credit hours**
Analyze the role of Human Resource Managers within strategic decision making. Topics include: selection, training, assessment, compensation and employee relations. Current topics also covered. Analyze the role of Human Resource Managers within strategic decision making. Topics include: selection, training, assessment, compensation and employee relations. Current topics also covered.
Pre-req: MGT 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 425 Industrial Relations **3 Credit hours**
A study of labor-management relations in union and non-union settings. Topics include: conflict resolution techniques, negotiation strategy, partitipative management, and labor theory. Labor laws and history are reviewed. A study of labor-management relations in union and non-union settings. Topics include: conflict resolution techniques, negotiation strategy, partitipative management, and labor theory. Labor laws and history are reviewed.
Pre-req: MGT 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 428 Negotiations **3 Credit hours**
The theory and practice of negotiation in organizational settings including negotiation strategies and their impact on the outcomes achieved. Students will build negotiation skills through experintial exercises and cases. The theory and practice of negotiation in organizational settings including negotiation strategies and their impact on the outcomes achieved. Students will build negotiation skills through experintial exercises and cases.
Pre-req: MGT 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 429 Leadership **3 Credit hours**
Leadership styles, principles, models, and practical applications including: motivation and communication, teamwork, use of power, development of trust, effective group facilitation, negotiation and persuasion, effective change, and ethics. Leadership styles, principles, models, and practical applications including: motivation and communication, teamwork, use of power, development of trust, effective group facilitation, negotiation and persuasion, effective change, and ethics.
Pre-req: MGT 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 430 Diversity Issues in Business **3 Credit hours**
Students will gain insights into primary and secondary dimensions of diversity, and be able to describe pertinent ethical, legal, media and marketing issues. They will improve organizations' management of diversity
Pre-req: MGT 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 445 International Management **3 Credit hours**
Focuses on the economic, political, legal, technological, and cultural issues faced by international managers. Topics include developing cultural awareness, implementing global strategy, and competing with ethical integrity. Focuses on the economic, political, legal, technological, and cultural issues faced by international managers. Topics include developing cultural awareness, implementing global strategy, and competing with ethical integrity.
Pre-req: MGT 320 with a minimum grade of D.
Attributes: International
Grade Mode: Normal Grading Mode

MGT 446 Green Management **3 Credit hours**
Focuses on environmental sustainability and the practices involved in managing a green business, including: eco-advantage strategies, supply chains, preventing the failure of eco-initiatives and sustained competitive advantage. Focuses on environmental sustainability and the practices involved in managing a green business, including: eco-advantage strategies, supply chains, preventing the failure of eco-initiatives and sustained competitive advantage.
Pre-req: MGT 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 455 Hlth Care Policy Seminar **3 Credit hours**
An integrative discussion course on current problems and future policies and strategies as they are related to facilities planning and utilization, staffing and organization and providing quality health care to community.
Pre-req: MGT 350 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

MGT 458 Energy Management Strategy **3 Credit hours**
Comprehensive coverage of all facets of the management of energy sources, production, risks, and markets. Provides managerial tools necessary to increase production capabilities and maneuver within the transforming energy sectors.
Pre-req: MGT 320 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

MGT 459 Aviation Management Capstone **3 Credit hours**
This course culminates the student's entire learning experience in the Aviation Management major. It involves case discussions, readings, and simulations. Students will complete a comprehensive, semester-long project.
Pre-req: AVSC 231 with a minimum grade of D and AVSC 315 with a minimum grade of D and AVSC 410 with a minimum grade of D and MGT 348 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

MGT 460 Strategic Management **3 Credit hours**
The integrative capstone course concerning theory and practice of top managements plans to attain outcomes consistent wit the organization's mission and goals including strategy formulation, implementation and control. The integrative capstone course concerning theory and practice of top managements plans to attain outcomes consistent wit the organization's mission and goals including strategy formulation, implementation and control.
Pre-req: MGT 320 with a minimum grade of D and MKT 340 with a minimum grade of D and LE 207 with a minimum grade of D and (MGT 218 with a minimum grade of D or MGT 318 with a minimum grade of D or MTH 225 with a minimum grade of D or STA 225 with a minimum grade of D or IST 130 with a minimum grade of D or EDF 417 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D) and FIN 323 with a minimum grade of D and ENG 204 with a minimum grade of D and ACC 215 with a minimum grade of D and ACC 216 with a minimum grade of D and (CMM 207 with a minimum grade of D or CMM 103 with a minimum grade of D or CMM 104H with a minimum grade of D) and (ECN 250 with a minimum grade of D or ECN 200 with a minimum grade of D) and ECN 253 with a minimum grade of D and MIS 200 with a minimum grade of D and MIS 290 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

MGT 461 New Venture Dynamics **3 Credit hours**
Managing small enterprises, as opposed to large corporations. In cooperation with the Small Business Administration. Students work as trainee management consultants with small businesses in the area.
Pre-req: MGT 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 471 Prac Health Care Mgt I **4 Credit hours**
Field experience in management of Health Care Organizations. Field experience in management of Health Care Organizations.
Grade Mode: Credit/No Credit Grade Only

MGT 478 Import Export Management **3 Credit hours**
Students will learn the general and specific information relevant to conducting export business from the United States to different parts of the world.
Grade Mode: Normal Grading Mode

MGT 480 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses. Management majors only, with permission of department chairman. Study of an advanced topic not normally covered in other courses. Management majors only, with permission of depart- ment chairman.
Grade Mode: Normal Grading Mode

MGT 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MGT 490 Internship **3-12 Credit hours**
A supervised internship in which the student works for a business firm/agency to gain practical experience in the student's major. The program of work and study will be defined in advance and the student performance will be evaluated. A supervised internship in which the student works for a business firm/agency to gain practical experience in the student's major. The program of work and study will be defined in advance and the student performance will be evaluated.
Grade Mode: Credit/No Credit Grade Only

MGT 500 Analytic Methods & Tech **3 Credit hours**
Provides competency in some of the basic quantitative skills necessary for analytical work in business administration. Required of all candidates who have had little or no undergraduate background in mathematics. Provides competency in some of the basic quantitative skills necessary for analytical work in business administration. Required of all candidates who have had little or no under- graduate background in mathematics.
Grade Mode: Normal Grading Mode

Grade Mode: Normal Grading Mode

MGT 671 Business Admin Internship **3 Credit hours**
Project-oriented experience in business operations and organizations intended for those students with insufficient experience in the field. (PR: Full Admission and permission of program director)
Grade Mode: Normal Grading Mode

MGT 672 Organizational Behavior **3 Credit hours**
Basic ideas and concepts for the effective management of an organization. Major topics include motivation, communication and decision-making processes, group dynamics, leadership study, conflict management, work and organizational design, and organization development. Emphasis on the organizational behavior and theory. Basic ideas and concepts for the effective management of an organization. Major topics include motivation, communication and decision-making processes, group dynamics, leadership study, conflict management, work and organizational design, and organization development. Emphasis on the organizational behavior and theory.
Grade Mode: Normal Grading Mode

MGT 673 Prob Personnel Management **3 Credit hours**
Principles and procedures of the personnel system in the firm; selected areas of recruitment and selection; training and development; performance appraisal and evaluation; general communications system; role of government in manpower administration. Principles and procedures of the personnel system in the firm; selected areas of recruitment and selection; training and development; performance appraisal and evaluation; gen- eral communications system; role of government in manpower administration.
Pre-req: MGT 672 with a minimum grade of C or MGT 503G with a minimum grade of C.
Grade Mode: Normal Grading Mode

MGT 674 Prod/Operation Management **3 Credit hours**
The study of operations management methods used in production, manufacturing, services and other business operations. Includes project management, capacity planning and transportation problems. (PR: MGT 601 and Full MBA Admission or Permission of MBA Director) The study of operations management methods used in production, manufacturing, services and other business operations. Includes project management, capacity planning and transportation problems. (PR: MGT 601 and Full MBA Admission or Permission of MBA Director)
Pre-req: MGT 601 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MGT 675 Prob Labor-Mgt Relations **3 Credit hours**
Comprehensive coverage of the development of the field of industrial relations. The impact of organized labor and federal social legislation of management decision. Alternative directions for future developments are studied. Comprehensive coverage of the development of the field of industrial relations. The impact of organized labor and fed- eral social legislation of management decision. Alternative directions for future developments are studied.
Pre-req: MGT 672 with a minimum grade of C or MGT 503G with a minimum grade of C.
Grade Mode: Normal Grading Mode

MGT 676 Organization Theory Desgn **3 Credit hours**
Analysis of organizational systems and subsystems incorporating, traditional, behavioral, and situational approaches to organizational and work unit design. Emphasizes environmental interface and interdependencies as function of internal systems phenomena. Analysis of organizational systems and subsystems incorpora- ting, traditional, behavioral, and situational approaches to organizational and work unit design. Emphasizes environmen- tal interface and interdependencies as function of internal systems phenomena.
Pre-req: MGT 672 with a minimum grade of C or MGT 503G with a minimum grade of C.
Grade Mode: Normal Grading Mode

MGT 677 Supply Chain Management **3 Credit hours**
This course is a study of efforts to optimize actions of manufacturers, suppliers, distributors, retailers, and other selected modes in their endeavors to serve the ultimate customers.
Grade Mode: Normal Grading Mode

MGT 680 Entrepreneurship **3 Credit hours**
The management of small business emphasizes how they are started and financed, how they produce and market their products and services and how they manage their human resources.
Grade Mode: Normal Grading Mode

MGT 681 Thesis **1-6 Credit hours**
Attributes: Thesis
Grade Mode: Normal Grading Mode

MGT 692 Ethics/Global Aspects Bus **3 Credit hours**
An examination of the Manager's social, ethical, and environmental responsibilities, not only to their domestic constituents, but also in the increasingly competitive international arena. An examination of the Manager's social, ethical, and environmental responsibilities, not only to their domestic constituents, but also in the increasingly competitive international arena.
Pre-req: MGT 672 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MGT 696 Admin Policy & Strategy **3 Credit hours**
Capstone graduate business course for Master of Science students (HRM & HCA). Emphasis on policy and strategy issues in a service and/or public setting instead of within a "for-profit" environment.
Grade Mode: Normal Grading Mode

MGT 698 Independent Study in Mgmt **1-3 Credit hours**
Grade Mode: Normal Grading Mode

MGT 699 Strategic Management **3 Credit hours**
The study and application of top management's plan to attain outcomes consistent with the organization's mission and goals, including; strategy formulation, implementation and control. (PR: Permission of GSM academic advisor)
Grade Mode: Normal Grading Mode

MGT 749 RESEARCH PAPER **3 Credit hours**
Grade Mode: Normal Grading Mode

MGT 797 THESIS **6 Credit hours**
Attributes: Thesis
Grade Mode: Normal Grading Mode

MGT 799 Business Policy **3 Credit hours**
Grade Mode: Normal Grading Mode

Aviation Management, B.B.A.

Students graduating with an aviation management degree may manage airports, hold higher-level positions in airport safety and security, be in charge of air carrier operations or make financing decisions.

The Aviation Management major is a 24-credit hour major in the Lewis College of Business. The curriculum incorporates management courses from the College of Business, aviation classes from the Division of Aviation, and two specific College of Business aviation management courses.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Major Information

- The total number of free electives required depends on the number of hours completed in STA 150 Foundations of Statistics or STA 150B Foundations of Stats-Expanded and ENG 101 Beginning Composition or ENG 101P Beginning Composition Plus and the number of hours that can be double-counted toward multiple degree requirements.
- MGT electives can be any 300 or 400 level MGT courses not already required (except MGT 490 Internship). MGT 445 may not count as both a MGT elective and the International Business elective.
- The Health Care Practicum is completed during the summer of the senior year.

- MGT 455 Hlth Care Policy Seminar is the capstone course for all Health Care Management majors. It can only be taken during the senior year after all prerequisites are met.
- Multicultural or International additional university requirement met with International Business Elective.
- Please check with advisor about course offerings. Not all classes will be offered every semester.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Department of Management and Health Care Administration offers a Bachelor of Business Administration (BBA) degree in Health Care Management. Graduates with the degree are prepared to provide health care organizations with the necessary skills to manage the complexities of delivering health care in the dynamic health care environment. In the program, you will learn financial and organizational skills, how to prepare budgets, and how to make effective decisions. Health care managers have a wide range of career options through which to apply their knowledge and provide needed services to the community.

Four Year Plan

The Department of Management and Health Care Administration offers a Bachelor of Business Administration (BBA) degree in Management. In order to be successful in today's business world, managers must learn how to manage financial, human, and time-based resources. At the individual level, topics include employee motivation and performance, work attitudes such as job satisfaction and commitment, and worker-based factors like personality and emotion. At the interpersonal level, topics of interest include group behavior and teamwork, leadership, negotiations, and human resource management strategies related to staffing, compensation, and employee development. At the firm level, topics include firm performance, organizational culture, strategic decision making,

entrepreneurship, and executive behavior. Management majors can chose to have an area of emphasis in Supply Chain Analytics or Human Resources and Organizational Behavior.

MGT 422	Organizational Behavior	3
400 level MGT courses		6
Total Credit Hours		**12**

Sustainability Management and Technology, B.B.A.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
PSY 201	Introductory Psychology (CT)	3
ACC 215	Accounting Principles (CT)	3
Core 2		

ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
CMM 207	Bus & Prof Communication	3
STA 150	Foundations of Statistics	3
STA 150L	Foundations of Statistics Lab	1
Core II Natural/Physical Science		4
Core II Humanities		3
PSY 201	Introductory Psychology (CT)	3
Core II Fine Arts		3
Additional University Requirements		
ENG 204	Writing for the Workplace (Writing Intensive)	3
MGT 460	Strategic Management (Writing Intensive)	3
MC or I: Intl Business Elective		3
MGT 458	Energy Management Strategy (Capstone)	3
College-Specific		
ENG 204	Writing for the Workplace	3
ACC 215	Accounting Principles (CT)	3
ACC 216	Principles of Accounting	3
ECN 250	Principles Microeconomics	3
ECN 253	Principles Macroeconomics	3
FIN 323	Principles of Finance	3
LE 207	Legal Environ of Business	3
MIS 200	Bus Computer Applications	3
MIS 290	Prin Management Info Systems	3
MGT 218	Business Quantitative Methods	3
MGT 320	Principles of Management	3
MGT 460	Strategic Management	3
MKT 340	MKT Concepts and Applications	3
Communication Studies Elective:		
Select one of the following:		3
CMM 302	Professional Presentations	
CMM 308	Persuasive Communication	
CMM 315	Group Communication	
CMM 319	Superior-Subordinate Comm	
CMM 322	Intercultural Communication	
International Business Elective:		
Select one of the following:		3
ECN 408	Comparative Econ Systems	
ECN 420	International Trade	
ECN 421	Global Macroeconomic Analysis	
ECN 460	Economic of Dev Countries	
FIN 440	International Fin Management	
MGT 445	International Management	
MKT 371	International Marketing	
Major-Specific		
MGT 325	Project Management	3
MGT 370	Energy Management Principles	3
MGT 380	Principles of Renewable Energy	3
MGT 420	Operations Management	3
MGT 428	Negotiations	3
MGT 446	Green Management	3
MKT 350	Supply Chain Logistics	3
MGT 458	Energy Management Strategy	3

Free Elective		3

Major Information

- The total number of free electives required depends on the number of hours completed in STA 150 Foundations of Statistics or STA 150B Foundations of Stats-Expanded and ENG 101 Beginning Composition or ENG 101P Beginning Composition Plus and the number of hours that can be double-counted toward multiple degree requirements.
- Multicultural or International additional university requirement met with International Business Elective.
- Please check with advisor about course offerings. Not all classes will be offered every semester.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Department of Management and Health Care Administration offers a Bachelor of Business Administration (BBA) degree in Sustainability Management and Technology. This program teaches sustainable and clean energy solutions for a world that is facing diminishing resources and increased energy costs. You will learn about the history of energy production and the regulations surrounding energy policy, oil and natural gas conservation, sustainability, and green management. Centered on the core business elements of the energy industry, you will also learn about management, macroeconomics, accounting, marketing, and operations management.

Courses

- General Education Course

Entrepreneurship

ENT 220 Creativity & Innovation **3 Credit hours**
Introduction to creativity theory, including exposure to basic frameworks, concepts, and obstacles to creativity. Through practical application, the relationships between creativity, innovation and entrepreneurship are explored.
Grade Mode: Normal Grading Mode

ENT 280 Special Topics **1-4 Credit hours**
Special topics in entrepreneurship.
Grade Mode: Normal Grading Mode

ENT 320 Marketing for Entrepreneurs **3 Credit hours**
Survey of inbound digital marketing strategies that are cost effective for small firms and start-ups. Strategies include search engine optimization and content marketing.
Grade Mode: Normal Grading Mode

ENT 340 Business Models for Start-Ups **3 Credit hours**
Identification and evaluation of business opportunities; Systematic analysis and design of critical start-up business components.
Pre-req: ENT 220 with a minimum grade of D and ENT 360 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENT 350 The Startup Experience **3 Credit hours**
An experiential learning course, students will complete a portion of this course as an apprentice at a new or small business followed by experience starting an online business. (PR: MGT 360)
Pre-req: ENT 360 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENT 360 Intro to Entrepreneurship **3 Credit hours**
A study of the functions, techniques and problems of management of the small business enterprise as opposed to the large-scale corporate situation. The day section, in cooperation with the U.S. Small Business Administration, provides students with field experience as management consultants to an area small business.
Pre-req: MGT 320 with a minimum grade of D or MKT 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENT 370 Dilemmas & Debates in Entrp **3 Credit hours**
Refered by a faculty member, students will engage with entrepreneurs to discuss issues relevant to new ventures including partnerships, working with family, debt, ethical dilemmas, and customer issues.
Pre-req: ENT 360 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENT 380 Social Entrepreneurship **3 Credit hours**
Introduces students to social entrepreneurship, social venture models, and funding options including philanthropy, government funding, and income generating, self-sustaining business models.
Pre-req: MGT 360 with a minimum grade of D or ENT 360 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENT 410 Corporate Intrapreneurship **3 Credit hours**
Application of entrepreneurial mindset, behavior, and capability to the development of new opportunities within an existing organization.
Pre-req: ENT 220 with a minimum grade of D and ENT 360 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENT 467 Strategic Entrepreneurship **3 Credit hours**
Lean startup and strategic thinking from both causation and effectuation viewpoints utilizing interdisciplinary skills to develop an original business concept, model, and plan. Capstone course.
Pre-req: ENT 350 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

ENT 469 New Venture Launch **3 Credit hours**
Working with advisor and mentors, students start their own ventures, develop prototypes (or service simulation), conduct market test, pivot on their original plans, and pitch ideas to local entrepreneur community.
Pre-req: ENT 467 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENT 471 Social Enterprise Practicum **3 Credit hours**
Supervised field experience in a social enterprise for a minimum of 200 clock hours. Regular conferences with instructor and weekly progress reports.
Pre-req: ENG 471.
Grade Mode: Normal Grading Mode

ENT 472 New Venture Practicum **3 Credit hours**
Supervised field experience in a new or existing venture for a minimum of 200 clock hours. Regular conferences with instructor and weekly progress reports.
Pre-req: ENT 467 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENT 480 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses.
Grade Mode: Normal Grading Mode

ENT 680 Entrepreneurship **3 Credit hours**
The management of small business emphasizes how they are started and financed, how they produce and market their products and services and how they manage their human resources.
Grade Mode: Normal Grading Mode

Management Information Systems

MIS 200 Bus Computer Applications **3 Credit hours**
An introduction to computer applications in business, including spreadsheets, databases, presentation and word processing. Students also learn to integrate spreadsheet and database outputs into presentations and reports. An introduction to computer applications in business, including spreadsheets, databases, presentation and word processing. Students also learn to integrate spreadsheet and database outputs into presentations and reports.
Grade Mode: Normal Grading Mode

MIS 290 Prin Management Info Systems **3 Credit hours**
Introduction to the development, selection, use, and impact of information and communication technologies and systems in modern organizations and enterprises.
Grade Mode: Normal Grading Mode

MIS 300 Intro to Business Programming **3 Credit hours**
Introduction to programming in a business context, emphasizing problem solving using basic programming logic and data structures, interface concepts, file and database access, and selection and use of development tools. (PR: MIS 290)
Pre-req: MIS 290 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MIS 310 Bus Sys Analysis & Design **3 Credit hours**
The course covers business application systems development, behavioral considerations in the: development process, feasibility assessment, requirement analysis, and communication skills. Emphasis on prototyping and fourth generation languages. (PR: Passing the COB Computer Literacy Test and any programming language) The course covers business application systems development, behavioral considerations in the: development process, feasibility assessment, requirement analysis, and communication skills. Emphasis on prototyping and fourth generation languages. (PR: Passing the COB Computer Literacy Test and any programming language)
Grade Mode: Normal Grading Mode

MIS 333 Bus Telecomm Sys **3 Credit hours**
To understand the applications, concepts and management of telecommunications. Students will be exposed to network components and network operations. Emphasis will be on strategic business applications of telecommunication systems.
Grade Mode: Normal Grading Mode

MIS 340 Intro to Database Mgt Systems **3 Credit hours**
Introduction to enterprise data administration emphasizing database environment and architecture, relational model and languages, database requirements, and modeling. Introduction to the use of a database managment system.
Grade Mode: Normal Grading Mode

MIS 360 Intro to Bus Intel & Analytics **3 Credit hours**
Introduction to the field of business intelligence & analytics, introducing the use of big data, statistical, quantitative analysis, exploratory and predictive models, and fact-based management to drive decisions and actions.
Pre-req: MGT 218 with a minimum grade of D and MIS 290 with a minimum grade of D.
Co-req: MIS 340
Grade Mode: Normal Grading Mode

MIS 400 MIS Practicum **1-3 Credit hours**
Students explore career interests, while applying classroom knowledge and skills, gaining a clearer sense of what they still need to learn and an opportunity to build professional networks.
Grade Mode: Normal Grading Mode

MIS 420 Info Security Management **3 Credit hours**
A study of information security risk analysis and assessment; threats to information security; defense measures; and legal, privacy, and ethical issues in information security.
Grade Mode: Normal Grading Mode

MIS 470 Business Sys Proj Mgt **3 Credit hours**
Project management for information and process-oriented organizational systems. Tools, techniques, feasibility, post-project evaluation, information and knowledge exchange, change and vendor management. (PR:290/permission of COB)
Grade Mode: Normal Grading Mode

MIS 475 Strat Management Info Systems **3 Credit hours**
A capstone course for management majors. Emphasis will be on creating and using information systems to give businesses a competitive advantage and provide strategic support for all levels of management.
Pre-req: MIS 470 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

MIS 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MIS 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MIS 490 Internship **3-12 Credit hours**
Grade Mode: Credit/No Credit Grade Only

MIS 600 Management Information Systems **3 Credit hours**
The course examines personal, work group, and enterprise information systems with respect to their value, their components, and the process of developing them.
Grade Mode: Normal Grading Mode

MIS 605 Systems Analysis and Design **3 Credit hours**
Introduction to information systems from system implementor's viewpoint; information systems life cycle; techniques of analysis; data dictionaries and data flow diagrams; computer-oriented system description. (PR: Admission to program)
Grade Mode: Normal Grading Mode

MIS 610 Systems Quality Assurance **3 Credit hours**
This course will cover the steps in developing enterprise IT policies, standards, guidelines and procedures while ensuring quality and compliance responsible for the design, implementation , and evaluation, and monitoring of a comprehensive system. Physical design of information systems; hardware selection; software design; database considerations; program development; software structuring techniques; cost/performance trade-offs; system implementation; evaluation and optimization techniques.
Pre-req: MIS 605 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MIS 612 ITM Capstone Project **3 Credit hours**
Tools and techniques for analyzing companies and their financial statements and for evaluating financial alternatives, including discounted cash flow, net present value and returned on investment.
Grade Mode: Normal Grading Mode

MIS 615 Info Tech Strategies **3 Credit hours**
This course provides sound principles for managing information technology computers and telecommunications systems as well as the processes and procedures for applying the principles.
Grade Mode: Normal Grading Mode

MIS 620 Technology Planning **3 Credit hours**
Methods of technology planning, strategic management, and forecasting for use in technology intensive organizations are discussed, including technology life cycles and strategies for commercializing products.
Grade Mode: Normal Grading Mode

MIS 621 Information Structures I **3 Credit hours**
Representation and manipulation of numeric and non-numeric information, linear lists, strings, multilinked structures; sorting and searching; storage management; data structures in programming language. Relevant aspects of discrete mathematics.
Grade Mode: Normal Grading Mode

MIS 622 Emerging Tech in Info Systems **3 Credit hours**
This course will explore the emerging technologies in information systems. These technologies are generally new but include older technologies that are still controversial and relatively undeveloped in potential. A continuation of MIS 621. Tree, graph, and set structures; file structures for secondary storage; aspects of discrete mathematics.
Pre-req: MIS 621 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MIS 623 Database Management **3 Credit hours**
Review of information structures and of relationships among data elements and objects. Relational database theory; design and organization of databases, retrieval structures, and query mechanisms.
Grade Mode: Normal Grading Mode

MIS 624 Data Warehousing **3 Credit hours**
A hand-on introduction to the concepts and techniques of data warehousing and data mining.
Pre-req: MIS 623 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MIS 630 Qual & Prod Methods **3 Credit hours**
Study of quality and productivity improvement methods with emphasis on applications to knowledge worker organizations. Examines total quality management, and personal and organizational productivity improvement processes.
Grade Mode: Normal Grading Mode

MIS 647 IT Disaster Plan and Recovery **3 Credit hours**
This course provides the skills necessary to manage IT disaster recovery planning. The course focuses on the protection of information. Students will analyze risk, design a plan, and explore available technologies.
Grade Mode: Normal Grading Mode

MIS 650 Special Topics **1-4 Credit hours**
Permission of the division head and full MBA admission.
Grade Mode: Normal Grading Mode

MIS 651 Special Topics **1-4 Credit hours**
Permission of the division head and full MBA admission
Grade Mode: Normal Grading Mode

MIS 659 Digital Access Pol & Strats **3 Credit hours**
An introductory course for creating digital accessibility policies and plans for the workplace. Includes strategies to create accessible documents, evaluate web site accessibility, and investigate assistive technologies.
Grade Mode: Normal Grading Mode

MIS 660 Computing & Info Sys Tech **3 Credit hours**
Provides a board understanding of computing and information systems technologies with emphasis on development, current trends, strategic and tactical management, and legal and regulatory issues.
Grade Mode: Normal Grading Mode

MIS 670 Business Sys Proj Mgt **3 Credit hours**
This course presents concepts, structures and experiential learning strategies to help lead and participate in successful business systems projects using the Project Management Institute's (PMI's) methodology.
Grade Mode: Normal Grading Mode

MIS 678 Management Infor Systems **3 Credit hours**
To familiarize students with the characteristics and functions of management information systems, as well as the benefits, limitations, and applications for advanced management information systems.
To familiarize students with the characteristics and functions of management information systems, as well as the benefits, limitations, and applications for advanced management information systems.
Grade Mode: Normal Grading Mode

MIS 680 Health Comm Telematics **3 Credit hours**
A presentation and analysis of the primary and emerging technological means of communication, collaboration, and information search and retrieval within the healthcare and medical fields.
Grade Mode: Normal Grading Mode

MIS 681 Thesis **1-6 Credit hours**
Investigate a research problem of theoretical interest and practical value under mentorship of a management information systems faculty.
Attributes: Thesis
Grade Mode: Credit/No Credit Grade Only

MIS 685 Bus Intel/Analytics **3 Credit hours**
Introduction to methods to improve fact-based managerial decision making. Focus on analytics types and data manipulation to discover patterns and generate information associated with products and services.
Pre-req: MIS 678 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MIS 688 Independent Study **1-4 Credit hours**
An approved study of special interests concerning information technology management, under the supervision of a faculty member.
Grade Mode: Normal Grading Mode

MIS 698 ITM Internship **3 Credit hours**
Supervised on-the-job experience. The student will work in a technology company or technical department within an organization. (PR: Permission)
Attributes: No Textbook Required
Grade Mode: Credit/No Credit Grade Only

MIS 699 ITM Capstone Project **3 Credit hours**
An individualized information technology management capstone project, which will be planned and carried out under the supervision of a faculty member. (PR: Full Admission to the ITM program, and completion of 28 hours min toward ITM degree).
Grade Mode: Credit/No Credit Grade Only

Marketing

MKT 231 Principles of Selling **3 Credit hours**
Elements of professional personal selling from prospecting through follow-up designed for individuals preparing for a career in sales/marketing and those desiring skills to influence, persuade, or lead others. Elements of professional personal selling from prospecting through follow-up designed for individuals preparing for a career in sales/marketing and those desiring skills to influence, persuade, or lead others.
Grade Mode: Normal Grading Mode

MKT 340 MKT Concepts and Applications **3 Credit hours**
Introduction to marketing as the central activity of organizations in creating exchanges with customers. Focuses on strategies related to environmental opportunities and threats using product, price, promotion and distribution tools. Introduction to marketing as the central activity of organizations in creating exchanges with customers. Focuses on strategies related to environmental opportunities and threats using product, price, promotion and distribution tools.
Grade Mode: Normal Grading Mode

MKT 341 Integrated MKT Communications **3 Credit hours**
A managerial analysis of the principles and practices of the promotion mix from the viewpoints of the consumer, the firm, the industry, and the macroenvironment. A managerial analysis of the principles and practices of the promotion mix from the viewpoints of the consumer, the firm, the industry, and the macroenvironment.
Pre-req: MKT 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MKT 344 Retail Management **3 Credit hours**
Management of retail establishments including successful retail merchandising, stock control, buying, pricing, marketing, advertising, promotion, displaying, credit, and selling of goods and/or services. Management of retail establishments including successful retail merchandising, stock control, buying, pricing, marketing, advertising, promotion, displaying, credit, and selling of goods and/or services.
Pre-req: MKT 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MKT 345 Hospitality & Tour Marketing **3 Credit hours**
Acquaint students with the marketing functions within the hospitality and tourism industry to develop effective marketing plans and gain an understanding of hospitality and tourism consumer behavior.
Grade Mode: Normal Grading Mode

MKT 349 Prin Domestic Transport **3 Credit hours**
Introduction to the history, economics, and regulation of U.S. domestic motor, rail, air and pipline transportation. Particular emphasis is placed upon the significance of transporation to the development of the United States and today's economy. Introduction to the history, economics, and regulation of U.S. domestic motor, rail, air and pipline transportation. Particular emphasis is placed upon the significance of transporation to the development of the United States and today's economy.
Grade Mode: Normal Grading Mode

MKT 350 Supply Chain Logistics **3 Credit hours**
A supply chain approach is used to explain activities that create an efficient flow of products from point of origin to point of consumption in order to satisfy customer requirements. A supply chain approach is used to explain activities that create an efficient flow of products from point of origin to point of consumption in order to satisfy customer requirements.
Grade Mode: Normal Grading Mode

MKT 371 International Marketing **3 Credit hours**
A study of marketing across national borders. Emphasis is placed on international environments, methods of entry, and marketing mix development, including the conflict between standardization and adaptation.
Pre-req: MKT 340 with a minimum grade of D.
Attributes: International
Grade Mode: Normal Grading Mode

MKT 375 Business to Business Marketing **3 Credit hours**
Study of marketing products and services to business, institutions and government. Focus on organizational buying, market planning and development of marketing mix. (Prerequisite: MKT 340) Study of marketing products and services to business, institutions and government. Focus on organizational buying, market planning and development of marketing mix. (Prerequisite: MKT 340)
Grade Mode: Normal Grading Mode

MKT 400 Social Media Marketing **3 Credit hours**
Social media as a marketing function: Students will gain the knowledge and skills necessary to engage and service the customer and explore the strategic use of current social media platforms.
Pre-req: MKT 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MKT 425 Marketing Analytics **3 Credit hours**
Students analyze data to make marketing decisions regarding segmentation and target market selection, product positioning, brand choice, customer relationship management, pricing, customer lifetime value, and other areas.
Pre-req: (MGT 218 with a minimum grade of D or STA 225 with a minimum grade of D or MTH 225 with a minimum grade of D or MGT 318 with a minimum grade of D or IST 130 with a minimum grade of D or EDF 417 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D) and MKT 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MKT 430 Digital Marketing **3 Credit hours**
Introduction to Google AdWords, Google Analytics, search engine optimization (SEO), website design, content and email marketing.
Pre-req: MKT 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MKT 435 Internet Marketing **3 Credit hours**
Introduction to Internet as a sales and marketing tool, web page development, strategic planning for e-commerce, non-Internet functions which support e-commerce, and integration of e-commerce into conventional MKT mix. Introduction to Internet as a sales and marketing tool, web page development, strategic planning for e-commerce, non-Internet functions which support e-commerce, and integration of e-commerce into conventional MKT mix.
Pre-req: MKT 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MKT 437 Consumer Behavior **3 Credit hours**
Acquaints the student with individual and group behavior as it pertains to consumer activity. Theories and findings in the behavioral sciences, as well as those set forth by the marketing scholars, are examined so as to understand the behavioral patterns of consumers. Cultural, social, and psychological influences are considered, in addition to the traditional economic interpretations. The stress of the course is on incorporating these data into the managing of the marketing effort. Acquaints the student with individual and group behavior as it pertains to consumer activity. Cultural, social, and psychological influences are considered, in addition to the traditional economic interpretations. The stress of the course is on incorporating these data into the managing of the marketing effort.
Grade Mode: Normal Grading Mode

MKT 440 Sales Management **3 Credit hours**
An exploration of the duties and activities of sales managers. Topics typically include planning and forecasting as well as organizing, staffing, training, compensating, motivating, and evaluating the sales force. (PR: MKT 340) An exploration of the duties and activities of sales managers. Topics typically include planning and forecasting as well as organizing, staffing, training, compensating, motivating, and evaluating the sales force. (PR: MKT 340)
Pre-req: MKT 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MKT 442 Market Research **3 Credit hours**
Scope and importance of market and distribution research; product, package, brand analysis and social impact; consumer, industrial and institutional surveys, quantitative and qualitative analysis of market data; situation analysis, sampling, tabulation and presentation methods. Scope and importance of market and distribution research; product, package, brand analysis and social impact; con- sumer, industrial and institutional surveys, quantitative and qualitative analysis of market data; situation analysis, sampling, tabulation and presentation methods.
Pre-req: MKT 340 with a minimum grade of D and (MGT 218 with a minimum grade of D or MTH 225 with a minimum grade of D or STA 225 with a minimum grade of D or IST 130 with a minimum grade of D or EDF 417 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D).
Grade Mode: Normal Grading Mode

MKT 445 Services Marketing **3 Credit hours**
Examination of the marketing of services offered by business and non-business organizations with particular emphasis on the unique aspect of the services marketing mix and the implementation of service strategy. (Prerequisite: MKT 340) Examination of the marketing of services offered by business and non-business organizations with particular emphasis on the unique aspect of the services marketing mix and the implementation of service strategy. (Prerequisite: MKT 340)
Grade Mode: Normal Grading Mode

MKT 465 Strategic Marketing **3 Credit hours**
Capstone integrated study of marketing for decision making. Emphasis on the application of marketing principles and concepts for the purpose of developing, analyzing, and mofifying marketing plans and strategy. (PR: MKT 340 and Senior Standing). Capstone integrated study of marketing for decision making. Emphasis on the application of marketing principles and concepts for the purpose of developing, analyzing, and mof- ifying marketing plans and strategy. (PR: MKT 340 and Senior Standing).
Pre-req: MKT 231 with a minimum grade of D and MKT 437 with a minimum grade of D and MKT 442 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

MKT 480 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses. Marketing majors only, with permission of department chairman. Study of an advanced topic not normally covered in other courses. Marketing majors only, with permission of depart- ment chairman.
Grade Mode: Normal Grading Mode

MKT 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MKT 490 Internship **3-12 Credit hours**
A supervised experience in which the student works for a business firm/agency to gain practical experience by completing a defined work program. Student performance is evaluated. This course may not be used as a marketing elective.
Grade Mode: Credit/No Credit Grade Only

MKT 511 Marketing and Management **3 Credit hours**
A comprehensive survey of the fundamental principles of management and marketing applicable to all organizations. Provides the student with a basis for analyzing appropriate situations in a managment/marketing framework. A comprehensive survey of the fundamental principles of management and marketing applicable to all organizations. Provides the student with a basis for analyzing appropriate situations in a managment/marketing framework.
Grade Mode: Normal Grading Mode

MKT 580 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MKT 581 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MKT 600 Marketing Management **3 Credit hours**
Grade Mode: Normal Grading Mode

MKT 610 Mkt/Nonprofit Organizations **3 Credit hours**
Grade Mode: Normal Grading Mode

MKT 625 Hosp and Tourism Marketing **3 Credit hours**
Examinatino of marketing principles and the unique aspects of services marketing for the purpose of strategic decision making, marketing management and developing marketing plans in the tourism and hospitality industry. Examinatino of marketing principles and the unique aspects of services marketing for the purpose of strategic decision making, marketing management and developing marketing plans in the tourism and hospitality industry.
Grade Mode: Normal Grading Mode

MKT 650 Special Topics **1-4 Credit hours**
Pre-req: MKT 501 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MKT 651 Special Topics **1-3 Credit hours**
Grade Mode: Normal Grading Mode

MKT 660 Independent Study **1-4 Credit hours**
Pre-req: MKT 682 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MKT 681 Thesis **1-6 Credit hours**
Attributes: Thesis
Grade Mode: Normal Grading Mode

MKT 682 Adv Marketing Management **3 Credit hours**
An integrated approach to marketing from a managerial point of view-making use of economic, quantitative, and behavioral concepts in analyzing and developing a framework for the dicision-making and implementation of the firm's marketing program. An integrated approach to marketing from a managerial point of view-making use of economic, quantitative, and behavioral concepts in analyzing and developing a framework for the dicision-making and implementation of the firm's marketing program.
Pre-req: MKT 511 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MKT 683 Adv Marketing Research **3 Credit hours**
A study of research methods and procedures used in the marketing process; emphasis will be given to the sources of market data, sampling, preparation of questionnaires, collection and interpretation of data. A study of research methods and procedures used in the marketing process; emphasis will be given to the sources of market data, sampling, preparation of questionnaires, col- lection and interpretation of data.
Pre-req: MKT 682 with a minimum grade of C and MGT 601 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MKT 684 Global Marketing **3 Credit hours**
This course provides a decision-oriented approach to global marketing; focus will be placed on market entry strategies, segmentation techniques, and marketing mix decisions in a multi-national environment.
Grade Mode: Normal Grading Mode

MKT 685 Marketing Problems **3 Credit hours**
Determination of the marketing mix within the framework of the problem-solving and decision-making process. Determination of the marketing mix within the framework of the problem-solving and decision-making process.
Pre-req: MKT 682 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MKT 686 IMC for Prof Services **3 Credit hours**
The importance and application of integrated marketing communications in marketing professional services are examined. Information is drawn from business and other areas of study and experiential learning activities are incorporated.
Pre-req: MKT 501 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MKT 698 Independent Study in Marketing **1-3 Credit hours**
Grade Mode: Normal Grading Mode

MKT 749 Research Paper **3 Credit hours**
Grade Mode: Normal Grading Mode

MKT 797 THESIS **6 Credit hours**
Attributes: Thesis
Grade Mode: Normal Grading Mode

Sport, Tourism and Hospitality Management

STHM 218 Sports in Society (CT) **3 Credit hours**
A study of the possible interrelationship between physical activity and various sociocultural factors.
Attributes: Critical Thinking, Multicultural
Grade Mode: Normal Grading Mode

STHM 250 Intro to Sport Management **3 Credit hours**
The student will gain knowledge in sport management with multiple emphasis including professional, collegiate, and recreational sports.
Grade Mode: Normal Grading Mode

STHM 270 Sport Tourism **3 Credit hours**
This course introduces students to the nature, structure, and complexity of the sport tourism industry. Topics covered include: economic, sociocultural and environmental impacts, motivations, marketing, and development principles.
Grade Mode: Normal Grading Mode

STHM 290 Sport Management Practicum **3 Credit hours**
Supervised experience with classroom setting that emphasizes a variety of skills and exploration of career opportunities in Sport Management (CR: Admission to Sport Management Program).
Pre-req: STHM 250 with a minimum grade of C or ESS 250 with a minimum grade of C.
Grade Mode: Normal Grading Mode

STHM 320 Sports & Campus Rec Mgmt **3 Credit hours**
This course will deal with the fields of recreational sports and campus recreation management. It will present the foundations of both fields, the development, implementation and trends in today's programs.
Grade Mode: Normal Grading Mode

STHM 380 Sport Marketing **3 Credit hours**
A study of the application of marketing concepts to the sport industry (PR: MKT 340)
Grade Mode: Normal Grading Mode

STHM 381 Financing Sports **3 Credit hours**
This course focuses on how sports managers find and manage funding sources for the sports industry through ticket and merchandise sales, venues and sports properties, and fundraising, etc.
Grade Mode: Normal Grading Mode

STHM 390 Sport MGT Pre-Internship **3 Credit hours**
A classroom setting with additional required clinical hours in the sport and leisure industry setting emphasizing a variety of work experiences and internship application skills in Sport Management. (PR: STHM 290 with minimum B and minimum 2.2 GPA)
Pre-req: STHM 290 with a minimum grade of B or ESS 290 with a minimum grade of B.
Grade Mode: Normal Grading Mode

STHM 401 Ethics in Sport **3 Credit hours**
Philosophical of and historical background to the development of values in contemporary society and examination of how these are manifested in the sports world.
Grade Mode: Normal Grading Mode

STHM 405 Sport Psychology **3 Credit hours**
An examination of theory, research, and application of psychological principles related to sport and exercise.
Pre-req: PSY 201 with a minimum grade of D.
Grade Mode: Normal Grading Mode

STHM 410 Leadership: Theory & Practice **3 Credit hours**
This course provides students with the comprehensive application of leadership theories and practice in the sport, tourism and hospitality management field.
Grade Mode: Normal Grading Mode

STHM 416 Facility Design & Management **3 Credit hours**
This course covers quantity, location, and design standards for facilitates. Includes safety, functionality, durability, and maintenance requirements in planning and design. (PR: Junior or Senior Standing)
Grade Mode: Normal Grading Mode

STHM 425 Sport in Film **3 Credit hours**
The relationship between sport and feature motion pictures are analyzed in the historical, social and cultural contexts. (PR: Junior or senior standing)
Grade Mode: Normal Grading Mode

STHM 430 Sport Law **3 Credit hours**
Study of the basic principles of the legal system as they operate in the environment of American sport. (PR: Junior or senior standing)
Grade Mode: Normal Grading Mode

STHM 440 Women in Sport **3 Credit hours**
The history of women in sport, gender equity, the opportunities for women and intercollegiate and professional sports (such as participant, coach, trainer, journalist, agent and promoter), and physiological perspectives.
Grade Mode: Normal Grading Mode

STHM 450 Sport Agent **3 Credit hours**
This course focuses on the understanding of sport agent industry and structure.
Pre-req: STHM 250 with a minimum grade of D.
Grade Mode: Normal Grading Mode

STHM 452 Sport Analytics **3 Credit hours**
By using various tools such as sport analytics, key performance indicators (KPI), balanced scorecard, and other techniques, this course focuses on exploring, identifying and solving problems using data (PR: minimum B grade in MGT 218, JR or SR standing)
Pre-req: MGT 218 with a minimum grade of B.
Grade Mode: Normal Grading Mode

STHM 458 Sales & Promotion MGT in Sport **3 Credit hours**
A study of sales and promotion management in sport and leisure industry.
Pre-req: (STHM 380 with a minimum grade of D or ESS 380 with a minimum grade of D).
Grade Mode: Normal Grading Mode

STHM 475 Capstone Seminar **3 Credit hours**
Application of all aspects involved in the Sport, Tourism and Hospitality Management to individually designed projects. Fulfills the capstone requirement for undergraduate majors (PR: SR standing in Sport Management)
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

STHM 480 Special Topics **1-4 Credit hours**

Independent Study
Grade Mode: Normal Grading Mode

STHM 487 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

STHM 488 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

STHM 490 Internship **3-8 Credit hours**
Internship experience in a Sports, Tourism and Hospitality agencies. (PR: STHM 290, 390 with minimum B; minimum 2.2 GPA and Senior standing)
Pre-req: (STHM 290 with a minimum grade of B or ESS 290 with a minimum grade of B) and (STHM 390 with a minimum grade of B or ESS 390 with a minimum grade of B).
Grade Mode: Normal Grading Mode

STHM 496 Olympic Games **3 Credit hours**
Exploring the important role of the Olympic Movement in politics since the modern Olympic Movement in 1896. (PR: JR and SR standing)
Attributes: International
Grade Mode: Normal Grading Mode

STHM 505 Sport Psychology **3 Credit hours**
An examination of theory, research, and application of psychological principles related to sport and exercise.
Grade Mode: Normal Grading Mode

STHM 511 Ethics in Sports **3 Credit hours**
A philosophical examination of both the fundamental ethical principles, as well as, the most common ethical dilemmas and controversies found in sports.
Grade Mode: Normal Grading Mode

STHM 516 Facility Design & Management **3 Credit hours**
This course covers quantity, location, and design standards for facilities. Includes safety, functionality, durability, and maintenance requirements in planning and design.
Grade Mode: Normal Grading Mode

STHM 525 Sport in Film **3 Credit hours**
The relationship between sports and feature motion pictures are analyzed in the historical, social and cultural contexts.
Grade Mode: Normal Grading Mode

STHM 530 Sport Law **3 Credit hours**
The study of the basic principles of the legal system as they operate in the environment of American sport.
Grade Mode: Normal Grading Mode

STHM 540 Women in Sport **3 Credit hours**
The history of women in sport, gender equity, opportunities for women in intercollegiate and professional sports (such as participant, coach, trainer, journalist, agent and promoter), and physiological perspectives.
Grade Mode: Normal Grading Mode

STHM 552 Sports Analytics **3 Credit hours**
By using various tools such as sport analytics, key performance indicators (KPI), balanced scorecard, and other techniques, this course focuses on exploring, identifying and solving problems using data.
Grade Mode: Normal Grading Mode

STHM 575 Sem Sport MGT MKT **3 Credit hours**
This course is designed to provide students with an overview of all aspects involved in the Sports Management and Marketing field through classroom lectures, guest speakers, and field trips.
Grade Mode: Normal Grading Mode

STHM 580 Special Topics **1-4 Credit hours**
Special topics are experimental courses that offered by the Sport, Tourism and Hospitality Management department.
Grade Mode: Normal Grading Mode

STHM 581 Special Topics **1-4 Credit hours**
Special topics are experimental courses that offered by the Sport, Tourism and Hospitality Management department.
Grade Mode: Normal Grading Mode

STHM 582 Special Topics **1-4 Credit hours**
Special topics are experimental courses that offered by the Sport, Tourism and Hospitality Management department.
Grade Mode: Normal Grading Mode

STHM 583 Special Topics **1-4 Credit hours**
Special topics are experimental courses that offered by the Sport, Tourism and Hospitality Management department.
Grade Mode: Normal Grading Mode

STHM 596 Olympic Games **3 Credit hours**
Exploring the important role of the Olympic Movement in politics since the modern Olympic Movement in 1896.
Grade Mode: Normal Grading Mode

STHM 615 Legal Concerns in STHM **3 Credit hours**
This course is designed to prepare students with the knowledge and the ability to apply the legal doctrines that will enhance their ability to problem-solve effectively and make prudent management and operational decisions.
Grade Mode: Normal Grading Mode

STHM 624 Current Issues in STHM **3 Credit hours**
An in-depth look at current issues affecting all areas of the Sport, Tourism and Hospitality Management field.
Grade Mode: Normal Grading Mode

STHM 643 Sport in Social Process **3 Credit hours**
An in depth analysis of the processes by which sport evolved as a significant component of modern American life.
Grade Mode: Normal Grading Mode

STHM 652 Organ Behav Sprt Leis Indus **3 Credit hours**
Examine the complexity of human behavior in organizational settings in sport and leisure industry, and the role of managers and leaders in affecting that behavior.
Grade Mode: Normal Grading Mode

STHM 660 Internship **3-6 Credit hours**
The placement of an individual into a Sport, Tourism and Hospitality agency to observe and participate in its operation.
Grade Mode: Normal Grading Mode

STHM 671 Research in Sports Studies **3 Credit hours**
This course provides student with a fundamental understanding of research principles, concepts, methods, techniques, and application related to sports studies.
Grade Mode: Normal Grading Mode

STHM 674 Sport Finance Economics **3 Credit hours**
This course will provide students with an understanding of financial and economic principles relevant to the sport industry. The course also provides a comprehensive coverage of current economic and financial issues confronting the sport industry.
Grade Mode: Normal Grading Mode

STHM 675 MKT MGT of Sport Industry **3 Credit hours**
Advanced level of marketing concepts in sports industry.
Pre-req: ESS 670 with a minimum grade of D or STHM 671 with a minimum grade of D.
Grade Mode: Normal Grading Mode

STHM 681 Thesis **1-6 Credit hours**
Research opportunities in the STHM field are broad. Students can choose to work with one of the faculty members on a research direction which the faculty and student choose.
Attributes: Thesis
Grade Mode: Normal Grading Mode

STHM 685 Independent Study **1-4 Credit hours**
Independent studies are tutorials, directed and independent readings, directed and independent research, problem reports, and other individualized activities which allow students to explore in depth a specific aspect.
Grade Mode: Normal Grading Mode

STHM 686 Independent Study **1-4 Credit hours**
Independent studies are tutorials, directed and independent readings, directed and independent research, problem reports, and other individualized activities which allow students to explore in depth a specific aspect.
Grade Mode: Normal Grading Mode

STHM 687 Independent Study **1-4 Credit hours**
Independent studies are tutorials, directed and independent readings, directed and independent research, problem reports, and other individualized activities which allow students to explore in depth a specific aspect.
Grade Mode: Normal Grading Mode

STHM 688 Independent Study **1-4 Credit hours**
Independent studies are tutorials, directed and independent readings, directed and independent research, problem reports, and other individualized activities which allow students to explore in depth a specific aspect.
Grade Mode: Normal Grading Mode

STHM 696 Seminar in STHM **3 Credit hours**
Course is designed to provide students with an overview to all aspects involved in the Sport, Tourism and Hospitality field through classroom lectures, guest speakers, and field trips.
Grade Mode: Normal Grading Mode

Entrepreneurship, B.B.A.

- General Education Course

- Multicultural or International additional university requirement met with International Business Elective.
- Please check with advisor about course offerings. Not all classes will be offered every semester.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Department of Marketing, MIS and Entrepreneurship offers a Bachelor of Business Administration (BBA) degree in Management Information Systems (MIS). MIS is the study of the relationships among people, technology, and organizations. MIS professionals help firms realize maximum benefits from investment in personnel, equipment, and business processes. MIS is a people-oriented field with an emphasis on service through technology. You will learn to create information systems for data management (i.e. storing, searching, and analyzing data) and how to manage various information systems to meet the needs of managers, staff, and customers.

[1] Marketing Electives - MKT Electives can be any 300 or 400 level MKT courses not already required (except MKT 490 Internship), MGT 420 Operations Management, MGT 428 Negotiations, or ENT 360 Intro to Entrepreneurship. MKT 231 Principles of Selling and MKT 371 International Marketing may not count towards a MKT elective.

Major Information

- The total number of free electives required depends on the number of hours completed in STA 150 Foundations of Statistics or STA 150B Foundations of Stats-Expanded and ENG 101 Beginning Composition or ENG 101P Beginning Composition Plus and the number of hours that can be double-counted toward multiple degree requirements.
- MKT 465 Strategic Marketing is the capstone course for all Marketing majors. It is normally taken in the senior year.
- MKT 371 International Marketing must be taken to meet the International Business requirement.
- The Multicultural or International additional university requirement is met with International Business Elective.
- Please check with advisor about course offerings. Not all classes will be offered every semester.

Areas of Emphasis

- Digital Marketing and Analytics, Emphasis (p. 233)
- Sales, Emphasis (p. 235)

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Department of Marketing, MIS and Entrepreneurship offers a Bachelor of Business Administration (BBA) degree in Marketing. Professionals that work in marketing aim to get and keep customers by determining and satisfying customer needs and wants in a diverse market. This is done by making sure the company has the right products and/or services and that these are correctly promoted,

distributed, and priced. In the marketing program, you will learn how to be effective at personal selling, promotion development and execution, event coordination, customer experience design, supply chain management, analytics, market research, social media, digital marketing, and strategic planning. Marketing majors can choose to have an area of emphasis in Digital Marketing and Analytics or Sales.

Major Information

- Students must earn a minimum of 120 credit hours to graduate. If any courses are used to complete multiple degree requirements or the student is required to take STA 150B or ENG 101P, the student may need a different number of free electives than what is listed above to reach 120 credit hours.
- STHM electives can be any STHM classes not already required for the major. STHM 496, Olympic Games, may not count as an STHM elective.
- STHM 496, Olympic Games, must be taken to meet the International Business elective.

Sports Business, Minor

A minor in sports business consists of a minimum of 12 hours, to include the following:

Code	Title	Credit Hours
STHM 250	Intro to Sport Management	3
STHM 380	Sport Marketing	3
Other STHM courses		6

Department of Military Science

Scholarships and Allowances

Scholarships are available for two, three, or four years. Students enrolled in the Advanced Course receive a tax-free subsistence allowance each month. They also receive about $900 for attending a five-week Advanced Camp (between the junior and senior year). Total remuneration for the final two years is over $30,000. All uniforms and equipment are furnished at no cost to students.

Military Science Extracurricular Activities

In addition to ROTC classes, the Military Science Department offers unique opportunities in various activities. These activities are designed to create new and lasting friendships as well as to develop leadership skills. The extracurricular activities are: the Color Guard, Intramural Sports, and Ranger Challenge Team (the varsity sport of Cadet Command).

For further information, contact the Military Science Department, Room 217, Gullickson Hall, or call 304-696-6450.

Summer Training Opportunities

In addition to the Leaders Training Course and the Leader Development and Assessment Course, ROTC offers other training opportunities to broaden experience and leadership. These include the Basic Airborne Course, Air Assault Course, Mountain Warfare, Northern Warfare, United Kingdom Officer Training Course, Cadet Troop Leadership Training, Drill Cadet Leadership Training, Army Science Board, Cadet Intern Program, Nurse Summer Training Program, JFK Special Warfare Internship Program and Cultural Leadership Program. Some of these programs are conducted outside of the continental United States and with foreign countries. All programs are competitive and require the approval of the Professor of Military Science. Some cadets may also elect to train with a local Army Reserve or National Guard unit, each with additional training opportunities and benefits.

Ranger Challenge

This Cadet Command Varsity Sport challenges students to become better leaders and hone such Army skills as marksmanship, land navigation/orienteering, rope bridge, hand grenades, patrolling, physical fitness, and ruck marching. Winning teams will have the opportunity to compete at the prestigious Sandhurst Competition at West Point Military Academy.

Programs

- Military Science and Leadership, Minor (p. 238)
- U.S. Army Reserve Officers' Training Corps (p. 238)

Military Science and Leadership, Minor

Code	Title	Credit Hours
Select a minimum of 16 credit hours in Military Science		16
Select 3 credit hours in History as approved by the professor of Military Science		3
Completion of the Summer training program Leadership Development and Assessment Course at Fort Lewis, WA		
Total Credit Hours		**19**

All Military Science courses are 300/400 level.

Code	Title	Credit Hours
MS 301 & MS 301L	Leadership and Prob Solving and Adv Course Lead Lab III	4
MS 302 & MS 302L	Leadership and Ethics and Adv Course Lead Lab III	4
MS 401 & MS 401L	Leadership and Management and Adv Course Lead Lab IV	4
MS 402 & MS 402L	Officership and Adv Course Lead Lab IV	4

Completion of minor is with approval of the Professor of Military Science.

U.S. Army Reserve Officers' Training Corps

The Marshall University Reserve Officer Training Corps (ROTC) program, established at Marshall in September 1951, is open to both men and women. The objective of this program is to produce creative and adaptable leaders of character capable of service as commissioned officers in the U.S Army's active and reserve forces. It provides a basic military education that, in conjunction with other college disciplines, develops the attributes essential for successful executive performance. Individuals who successfully complete all of the training may be commissioned in the United States Army, the United States Army Reserve or the National Guard upon graduation from the university.

Two-Year Program

Students who have not taken the first two years of Military Science may gain credit by attending the Cadet Initial Entry Training (CIET) course (MS 251) at Fort Knox, Kentucky. Students are awarded six credit hours for this camp and are paid approximately $900 for attending the four week camp. The Cadet Initial Entry Training (CIET) is the premier leadership program of its kind in the United States. An intense four-week introduction to Army life and leadership training of the Reserve Officers' Training Corps, the aim of the course is to motivate and qualify cadets for entry into the Senior ROTC program. Students interested in the two-year program should contact the

military science department. Also, qualified veterans and students who have had junior ROTC in high school may be awarded credit for the first two years of ROTC.

Eligibility

To be eligible for enrollment in ROTC, an applicant must be a regularly enrolled full-time student capable of participating in a normal college physical education program. To progress to the Advanced Course, students must meet several requirements, including age, physical condition, and moral standards; have a 2.0 overall Grade Point Average, and be entering their junior year of college. Members of the Army Reserve and National Guard may enroll in Military Science classes and receive a commission.

Major

Curriculum

The ROTC Program is divided into two parts - the Basic Course and the Advanced Course. The Basic Course (MS I and MS II) consists of 100- and 200-level Military Science classes and is designed primarily for freshman and sophomore students. Students do not incur any military obligation for participating in the Basic Course. The Advanced Course (MS III and MS IV) consists of 300- and 400-level Military Science classes and is reserved for junior, senior and graduate students. The Advanced Course enrollment requires approval of the Professor of Military Science. Upon contracting, students incur a military obligation and begin receiving a monthly stipend of $300 to $500 (depending on MS level) in addition to any scholarship benefits.

The Military Science curriculum can be taken in conjunction with any of the four-year university degree programs and may be applied toward graduation requirements as electives. Additionally, Advanced Course completion is a recognized academic minor in Military Science and Leadership. Students who attain a high standard of academic and military achievement will be given the opportunity to accept an active duty commission with beginning salary of over $65,000 per year.

General Business, B.A.

The Lewis College of Business, Brad D. Smith Undergraduate School of Business offers a Bachelor of Arts degree in General Business. This degree is delivered 100% online. This means students can complete the whole degree without coming to campus and without having to meet at designated times to complete lessons. The program is flexible and convenient. All class are Quality Matters approved, meaning they are developed with the utmost quality and care to deliver the best education possible.

The Online B.A. in General Business degree does not require you to choose a major. The “major” comes from 24 hours of any combination of upper level LCOB classes. For example, you can take classes in management, marketing, accounting, economics and finance to create your major. This will provide broad business knowledge that you can use in a variety of careers.

The focus of the Online B.A. in General Business is on degree completion. The LCOB developed this degree because only half of college students complete a degree in six years. This program is geared toward nontraditional students, including adult learners who started a business degree but never finished it, or students who cannot otherwise attend face-to-face classes.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
PSY 201	Introductory Psychology (CT)	3

Communications Studies Elective:		
Select one of the following:		3
CMM 302	Professional Presentations	
CMM 308	Persuasive Communication	
CMM 315	Group Communication	

CMM 319	Superior-Subordinate Comm	
CMM 322	Intercultural Communication	
International Business Elective:		3
Select one of the following:		
ECN 408	Comparative Econ Systems	
ECN 420	International Trade	
ECN 421	Global Macroeconomic Analysis	
ECN 460	Economic of Dev Countries	
FIN 440	International Fin Management	
MGT 445	International Management	
MKT 371	International Marketing	
General Business Electives		**24**
Free Electives to reach 120 hours		**22**

- The total number of free electives required depends on the number of hours completed in STA (150 or 150B) and ENG (101 or 101P) and the number of hours that can be double-counted toward multiple degree requirements.
- General Business Electives can be any 300 or 400 level courses offered in the College of Business (under the following course designators: ACC, ECN, ENT, FIN, LE, MGT, MIS, MKT, STHM). Students must complete courses in at least two separate alpha designators. Internship credit may not count as a General Business Elective. In order to meet the College of Business graduation requirement of 12 hours of 400-level courses completed in the College of Business at Marshall, nine (9) hours of General Business Electives should be 400 level.
- MGT 460 is the capstone course for all Management majors. It can only be taken during the senior year after all prerequisites are met.
- The Communication Studies Elective can be met by taking one of the following courses: CMM 302, 308, 315, 319, or 322.
- The International Business Elective can be met by taking one of the following courses: ECN 408, 420, 421, 460, FIN 440, MGT 445, or MKT 371. The course selected for the International Business Elective CANNOT double-count as a General Business Elective.
- Students who have a declared major in a B.B.A. program cannot also declare the General Business B.A.
- Please check with advisor about course offerings. Not all classes will be offered every semester.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

MKT 231	Principles of Selling	
Total Credit Hours		**15**

Business majors may not declare a minor in General Business. Business students transferring to a major outside of the College of Business can declare the minor after they change out of business. Student must meet the prerequisites for the individual courses, as listed in the catalog, even if the prerequisite course does not count towards the minor.

Department of Communication Studies

Contacts: Dr. Stephen Underhill, Chair;
Website: http://www.marshall.edu/commstu/

commstudies@marshall.edu

The Department of Communication Studies offers a variety of courses and major concentrations designed to provide current knowledge, cognitive abilities, and competencies in communication. The concentrations prepare graduates for various communication roles and functions in personal life, organizations, and society. The department's offerings are augmented by the Forensics and Debate program.

- Communication Studies, B.A. (p. 245)
- Communication Studies, Minor (p. 251)

Courses

- General Education Course

CMM 103 Fund Speech-Communication **3 Credit hours**
A course designed to enhance the development of critical thinking skills and their application to verbal and nonverbal interaction in interpersonal and public communication contexts. A course designed to enhance the development of critical thinking skills and their application to verbal and non- verbal interaction in interpersonal and public communication contexts.
Attributes: Core II Communication Studies
Grade Mode: Normal Grading Mode

CMM 104H Honors in Speech Comm **3 Credit hours**
An accelerated course for selected freshmen and sophomores in fundamentals of communication, concepts and skills in verbal/nonverbal communication and listening. Not open to juniors and seniors. An accelerated course for selected freshmen and sophomores in fundamentals of communication, concepts and skills in verbal/nonverbal communication and listening. Not open to juniors and seniors.
Attributes: Core II Communication Studies
Grade Mode: Normal Grading Mode

CMM 201 Communication Foundations (CT) **3 Credit hours**
Develops essential skills in reading and critically analyzing scholarly texts, and in writing academic papers. Develops essential skills in reading and critically analyzing scholarly texts, and in writing academic papers.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

CMM 205 The Rhetorical World (CT) **3 Credit hours**
An introduction to the study of rhetoric as a cultural force influencing human behavior and societies and as a critical approach to interpreting cultural artifacts. An introduction to the study of rhetoric as a cultural force influencing human behavior and societies and as a critical approach to interpreting cultural artifacts.
Attributes: Critical Thinking, Core II Humanities
Grade Mode: Normal Grading Mode

CMM 207 Bus & Prof Communication **3 Credit hours**
A study of the communication demands and skills relevant to the student's future role as a business or professional person. A study of the communication demands and skills relevant to the student's future role as a business or professional person.
Attributes: Core II Communication Studies
Grade Mode: Normal Grading Mode

CMM 213 Fund Interpersonal Com **3 Credit hours**
Introduction to principles and practices related to productive interpersonal communication. Emphasizes competence in using verbal and nonverbal message systems to promote effective communication in social and task relationships.
Attributes: Core II Social Sciences
Grade Mode: Normal Grading Mode

CMM 239 Dev & Appreciation of Film **3 Credit hours**
The historical development of the motion picture as an art form. Analysis of the technical, social, economic and cultural factors which have influenced the medium.
Attributes: Core II Humanities
Grade Mode: Normal Grading Mode

CMM 255 Intro Computer-Comm **3 Credit hours**
Use and implications of telecomputing for messaging, resource finding, and self-directed discovery lerning. Use and implications of telecomputing for messaging, re- source finding, and self-directed discovery lerning.
Attributes: Digital Humanities, Core II Social Sciences
Grade Mode: Normal Grading Mode

CMM 270 Intercollegiate Debate **1 Credit hour**
(PR: Permission of instructor). May be repeated 3 times for credit.
Grade Mode: Normal Grading Mode

CMM 271 Intercollegiate Debate **1 Credit hour**
(PR: Permission of instructor). May be repeated 3 times for credit.
Grade Mode: Normal Grading Mode

Pre-req: CMM 103 with a minimum grade of D or CMM 104H with a minimum grade of D or CMM 207 with a minimum grade of D or YGS 161 with a minimum grade of D or IST 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CMM 310 Argumentation & Debate **3 Credit hours**
Basic principles of agrument; practice in discussion and debate. Recommended but not a prerequisite for intercollegiate debating. Basic principles of agrument; practice in discussion and debate. Recommended but not a prerequisite for inter- collegiate debating.
Pre-req: CMM 103 or CMM 104H or CMM 207 or CMM 305 or YGS 161 or IST 101.
Grade Mode: Normal Grading Mode

CMM 311 Lang & Communication **3 Credit hours**
A method for studying the role which language plays in human affairs. A method for studying the role which language plays in human affairs.
Grade Mode: Normal Grading Mode

CMM 315 Group Communication **3 Credit hours**
Study of group communication processes, including problem solving, systems of group communication analysis and evaluation, in task oriented groups. Study of group communication processes, including problem solving, systems of group communication analysis and evaluation, in task oriented groups.
Pre-req: CMM 103 with a minimum grade of D or CMM 104H with a minimum grade of D or CMM 207 with a minimum grade of D or YGS 161 with a minimum grade of D or IST 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CMM 316 Legal Communication **3 Credit hours**
The theory and practice of legal communication techniques. The course will examine interviewing skills, negotiation skills, argument preparation skills, presentation skills, and cross-examination skills. Recommended for pre-law students. The theory and practice of legal communication techniques. The course will examine interviewing skills, negotiation skills, argument preparation skills, presentation skills, and cross-examination skills. Recommended for pre-law students.
Pre-req: CMM 103 or CMM 104H or CMM 207 or YGS 161 or IST 101.
Grade Mode: Normal Grading Mode

CMM 319 Superior-Subordinate Comm **3 Credit hours**
Survey of principles underlying communication between superiors and subordinates in organizations. Emphasis placed upon communication strategies regarding role definition, performance feedback, development and maintenance of relationships, conflict management, leadership, decisionmaking. Survey of principles underlying communication between superiors and subordinates in organizations. Emphasis placed upon communication strategies regarding role defini- tion, performance feedback, development and maintenance of relationships, conflict management, leadership, decision- making.
Pre-req: CMM 103 with a minimum grade of D or CMM 104H with a minimum grade of D or CMM 207 with a minimum grade of D or YGS 161 with a minimum grade of D or IST 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CMM 320 Oral Interpretation Lit **3 Credit hours**
The fundamentals of reading, analyzing, and interpreting literature. The fundamentals of reading, analyzing, and interpreting literature.
Grade Mode: Normal Grading Mode

CMM 322 Intercultural Communication **3 Credit hours**
A study of the barriers to communication across cultures and of strategies for addressing these problems.
Pre-req: CMM 103 with a minimum grade of D or CMM 104H with a minimum grade of D or CMM 207 with a minimum grade of D or CMM 213 with a minimum grade of D or YGS 161 with a minimum grade of D or IST 101 with a minimum grade of D.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CMM 330 Performance Theory **3 Credit hours**
The study of performance practices that function as enactments of cultural identity. Topics will include performance as a cultural process, performance in social roles, and performance as power.
Pre-req: CMM 103 or CMM 104H or CMM 207.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CMM 345 Listening & Feedback **3 Credit hours**
A study of listening/feedback behavior as an integral part of the communication process, development of listening/ feedback skills, and an awareness of barriers to effective listening and feedback. A study of listening/feedback behavior as an integral part of the communication process, development of listening/ feedback skills, and an awareness of barriers to effective listening and feedback.
Pre-req: CMM 103 or CMM 104H or CMM 207 or YGS 161 or IST 101.
Grade Mode: Normal Grading Mode

CMM 370 Intercollegiate Debate **1 Credit hour**
(PR: Permission of instructor). May be repeated 3 times for credit. Continuation of Speech 270-271.
Grade Mode: Normal Grading Mode

CMM 371 Intercollegiate Debate **1 Credit hour**
(PR: Permission of instructor). May be repeated 3 times for credit. Continuation of Speech 270-271.
Grade Mode: Normal Grading Mode

CMM 374 Intro to Health Communication **3 Credit hours**
Surveys interpersonal, public, and organizational health communication theories and findings; explores the communication demands of health care and promotion, communication issues in health systems, and strategies to resolve problems.
Grade Mode: Normal Grading Mode

CMM 401 Organization Communication **3 Credit hours**
Investigation of information flow in organizations with emphasis on identifying communication problems. Investigation of information flow in organizations with emphasis on identifying communication problems.
Pre-req: CMM 303 (may be taken concurrently).
Concurrent PR: CMM 303
Grade Mode: Normal Grading Mode

CMM 402 Rhetorical Theory **3 Credit hours**
An exploration of theories of rhetoric from the Greek philosophers to the present. This course will examine the strategic use of symbols in persuasive discourse. An exploration of theories of rhetoric from the Greek philosophers to the present. This course will examine the strategic use of symbols in persuasive discourse.
Grade Mode: Normal Grading Mode

CMM 403 Nonverbal Communication **3 Credit hours**
This course will explore the areas and significance of nonverbal communication as they relate to the quality and effectiveness of human interaction in personal, social, and professional relationships. This course will explore the areas and significance of nonverbal communication as they relate to the quality and effectiveness of human interaction in personal, social, and professional relationships.
Pre-req: CMM 103 with a minimum grade of D or CMM 207 with a minimum grade of D or CMM 104H with a minimum grade of D.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CMM 404 Rhetorical Comm Criticism **3 Credit hours**
An examination of the construction of rhetorical texts and the effects they produce.
Grade Mode: Normal Grading Mode

CMM 406 Interviewing **3 Credit hours**
Skill development in the question-answer-response process as it applies to a variety of interviewing situations. Skill development in the question-answer-response process as it applies to a variety of interviewing situations.
Grade Mode: Normal Grading Mode

CMM 408 Leadership & Group Comm **3 Credit hours**
A study of the variable affecting, and affected by, communication process in small groups, with particular emphasis upon leadership variables. A study of the variable affecting, and affected by, communication process in small groups, with particular emphasis upon leadership variables.
Pre-req: CMM 315.
Grade Mode: Normal Grading Mode

CMM 409 Theory Persuasion Change **3 Credit hours**
Study of the relationship between persuasion and social change, including theories of attitude and behavioral change and contemporary theories of persuasion. Study of the relationship between persuasion and social change, including theories of attitude and behavioral change and contemporary theories of persuasion.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

CMM 411 Communication Study & Resch **3 Credit hours**
Introduction to the advanced study of theory and research areas with emphasis on communication research methods and reporting.
Pre-req: CMM 303 (may be taken concurrently).
Concurrent PR: CMM 303
Grade Mode: Normal Grading Mode

CMM 413 Theories of Interpersonal Com **3 Credit hours**
Pre-req: CMM 213.
Grade Mode: Normal Grading Mode

CMM 420 Communication & Conflict **3 Credit hours**
An exploration of the theory, research, and practice of communication in understanding and negotiating interpersonal conflict.
Grade Mode: Normal Grading Mode

CMM 421 Gender and Communication **3 Credit hours**
An exploration of gender as an organizing principle for communication. An exploration of gender as an organizing principle for communication.
Grade Mode: Normal Grading Mode

CMM 441 Dev Appr Film Since 1930 **3 Credit hours**
Study of important directions in modern film, including style, genre, and the relationship to contemporary society. A variety offilms will be viewed for analysis. Study of important directions in modern film, including style, genre, and the relationship to contemporary society. A variety offilms will be viewed for analysis.
Grade Mode: Normal Grading Mode

CMM 450 Direction Speech Activity **3 Credit hours**
Direction of extracurricular speech activities: assemblies, forensic events, etc. Direction of extracurricular speech activities: assemblies, forensic events, etc.
Grade Mode: Normal Grading Mode

CMM 456 Computer-Mediated Comm **3 Credit hours**
This course explores the impact of computer-mediated communication on human organization. This course explores the impact of computer-mediated comm- unication on human organization.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

CMM 474 Interpersonal Health Comm **3 Credit hours**
Investigates communication in establishing effective interactions between health providers, patients, and families. Explores theories and findings in relationship development, decision making, intercultural communication, social support, advocacy, and family relationships. Investigates communication in establishing effective interactions between health providers, patients, and families. Explores theories and findings in relationship development, decision making, intercultural communication, social support, advocacy, and family relationships.
Grade Mode: Normal Grading Mode

CMM 476 Communication Classrm Tch **3 Credit hours**
Knowledge and utilization of interpersonal communication skills in all teaching-learning environments. Knowledge and utilization of interpersonal communication skills in all teaching-learning environments.
Grade Mode: Normal Grading Mode

CMM 478 Senior Seminar **3 Credit hours**
Capstone experience. The development, organization, revision and presentation of major projects that serve to demonstrate the student's competence in the discipline.
Pre-req: CMM 411 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

CMM 479 Public Health Communication **3 Credit hours**
Examines communication processes that influence human behavior and public policy through health promotion campaigns, including theories and practices of health behavior change and designing, implementing, and evaluating health communication interventions.
Grade Mode: Normal Grading Mode

Business Communication, Minor

This minor will include an additional 12 hours beyond the Core II communication classes. The 12 hours may be composed of any of the following classes:

Code	Title	Credit Hours
Select four of the following:		12
CMM 319	Superior-Subordinate Comm	
CMM 302	Professional Presentations	
CMM 308	Persuasive Communication	
CMM 315	Group Communication	
CMM 322	Intercultural Communication	
CMM 374	Intro to Health Communication	
CMM 345	Listening & Feedback	
CMM 403	Nonverbal Communication	
CMM 406	Interviewing	
CMM 420	Communication & Conflict	
Total Credit Hours		**12**

Communication Studies, B.A.

Communication Studies majors must fulfill the general and specific requirements for the B.A. degree. Courses which fulfill a general education requirement in Communication Studies (CMM 103 Fund Speech-Communication, CMM 104H Honors in Speech Comm, or CMM 207 Bus & Prof Communication) may not be used to satisfy major requirements.

All Communication Studies concentrations require the following classes:

Code	Title	Credit Hours
CMM 302	Professional Presentations	3
CMM 303	Intro Communication Thry	3
CMM 411	Communication Study & Resch	3
CMM 478	Senior Seminar	3

The specific requirements for each concentration are listed in the following sections.

Areas of Emphasis

- Health Communication, Concentration (p. 245)
- Interpersonal Communication, Concentration (p. 247)
- Organizational Communication, Concentration (p. 248)
- Public Communication, Concentration (p. 250)

Communication Studies, Minor

A minor in Communication Studies consists of 12 hours, but may not include CMM 103 Fund Speech-Communication, CMM 104H Honors in Speech Comm, or CMM 207 Bus & Prof Communication as those courses are used to fulfill general education requirements.

Department of English

Contacts: Dr. Allison Carey, Chair
Website: http://www.marshall.edu/english (http://www.marshall.edu/english/)

english@marshall.edu

The Department of English offers a wide range of courses in literature, language, and writing designed to meet the needs and interests of general-education students, English majors and minors, and students majoring in other fields.

B.A. students may choose from Literary Studies, Creative Writing, English Education Content, Professional Writing, and Generalist majors. College of Education students in English Education 5-Adult qualify for a second major in English in the College of Liberal Arts by completing their Teaching Specialization. English 5-Adult majors should go to the English Department main office in Corbly Hall 346 to declare the second major in English.

Although the areas differ, the goals are essentially the same: an acquaintance with English and American literature necessary for the liberally educated person; a knowledge of the practices necessary for perceptive reading and writing; an ability to write English with competence and grace; and a sense of English studies as a discipline. The capstone experience for English majors consists of ENG 499 Senior Capstone, which requires a capstone project to be determined by the student in collaboration with the instructor.

The B.A. program in each of the five majors requires 36 hours of coursework in the major.

- No more than 6 hours at the 200 level may count toward the degree.

- A minimum of 12 hours in the major at the 400 level is required to enroll in ENG 499 Senior Capstone.
- Appropriate courses for a specific major should be selected in consultation with assigned advisor.
- No course in which a grade lower than *C* is earned may count toward completion of the major.

Programs

- Creative Writing, B.A. (p. 262)
- Creative Writing, Minor (p. 265)
- English (Generalist), B.A. (p. 265)
- English Education 5-Adult Teaching Specialization (p. 266)
- English, Minor (p. 267)
- Literary Studies, B.A. (p. 267)
- Professional Writing, B.A. (p. 269)
- Professional Writing, Minor (p. 271)

Courses

- General Education Course

ENG 101 Beginning Composition **3 Credit hours**
Introduction to academic writing with emphasis on writing as a multi-stage process, critical thinking, and fundamental research strategies and skills.
Pre-req: ACT Verbal with a score of 18 or SAT Verbal Before March 16 with a score of 450 or SAT EVIDENCE-BASED READ/WRIT with a score of 480 or ENG 0XX or Placement English with a score of 0101 or ENG 099 with a minimum grade of CR or ENG 100 with a minimum grade of C or ENG 101C.
Attributes: Composition Core II
Grade Mode: Normal Grading Mode

ENG 101P Beginning Composition Plus **4 Credit hours**
Introduction to academic writing with emphasis on writing as a multi-stage process, critical thinking, and fundamental research strategies and skills. Additional attention on reading, paragraph development, and sentence-level writing skills.
Attributes: Composition Core II
Grade Mode: Normal Grading Mode

ENG 150 Academic Listening & Speaking **3 Credit hours**
This course promotes the development of English language fluency by nonnative speakers of English. It specifically targets the language skills necessary for successful oral communication within an academic context.
Grade Mode: Normal Grading Mode

ENG 151 Academic Reading **3 Credit hours**
This course prepares nonnative speakers of English to meet the challenges of reading for academic purposes at the college level by improving their reading skills and English language proficiency.
Grade Mode: Normal Grading Mode

ENG 160 Academic English & Composition **6 Credit hours**
This course for nonnative speakers of English focuses on written academic English, including grammar, mechanics, research, American English rhetorical conventions, and process writing. It further provides practice in oral communication.
Grade Mode: Normal Grading Mode

ENG 200 Texting the World(CT) **3 Credit hours**
This class brings together literary and non-literary texts and considers how the same theme plays through them via analysis, evaluation, and creation of said texts. This class brings together literary and non-literary texts and considers how the same theme plays through them via analysis, evaluation, and creation of said texts.
Attributes: Critical Thinking, Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 200H Texting the World (CT) **3 Credit hours**
This class brings together literary and non-literary texts and considers how the same theme plays through them via analysis, evaluation and creation of said texts.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Composition Core II, Critical Thinking, Honors, Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 201 Advanced Composition **3 Credit hours**
An advanced composition course centered on critical reading, writing, and research skills for the disciplines.
Pre-req: ENG 101 with a minimum grade of C or ENG 101P with a minimum grade of C or ENG 160 with a minimum grade of C or ENG 101B with a minimum grade of C.
Attributes: Composition Core II
Grade Mode: Normal Grading Mode

ENG 201H English Comp Honors **3 Credit hours**
An accelerated course in English composition. Completion of 201H with a C or better satisfies the University requirement in freshman composition. Students completing the course are awarded three additional hours of credit toward graduation. An accelerated course in English composition. Completion of 201H with a C or better satisfies the University requirement in freshman composition. Students completing the course are awarded three additional hours of credit toward graduation.
Pre-req: ACT Verbal with a score of 28 or SAT Verbal Before March 16 with a score of 640 or SAT EVIDENCE-BASED READ/WRIT with a score of 640.
Attributes: Composition Core II
Grade Mode: Normal Grading Mode

ENG 203 Appalachian Literature **3 Credit hours**

Free Elective		3
Free Elective		3
Free Elective		3
Free Elective		1

Major Information

- The total number of free electives will depend on the amount of double and triple counting of requirements. Core II and COLA requirements may not be double counted.
- See course attributes each semester for courses that meet multiple requirements.
- Questions about requirements should be directed to your English Department advisor (304-696-6600) or to the College of Liberal Arts (304-696-2350).
- Students must earn a *C* or better in ENG 201 Advanced Composition, all ENG courses for the major, and all foreign language courses.
- Forty-eight credit hours (sixteen 3-hour courses) must be at the 300/400 level.
- Minimum of 120 hours to graduate.
- No more than six hours of ENG courses at the 200-level may count toward the BA degree in English. No credit hours in ENG with a grade lower than *C* may count toward the BA degree in ENG.
- Creative Writing majors who carefully select courses can earn a double major in Literary Studies by taking only 4 additional Literary Studies classes. Meet with your advisor to plan your choices!

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

A Creative Writing degree can give you the critical thinking, writing, and presentation skills you'll need for success in this quick and quickly-changing world. Our program is flexible, so you can pursue a wide range of interests. Our courses give you the ability to think differently, to expand on and augment the ideas and work made in all fields, not just literature. Where you go from here is up to you (though we've got some ideas for you). But our courses are designed to hone not just your writing, but your thinking skills, too. Our faculty and staff are dedicated. All this to say, really, we plan on preparing you for a successful professional life as well as an invaluable way of thinking, about everything.

Professional Writing, B.A.

The B.A. in Professional Writing program at Marshall University prepares students for a variety of writing careers using multiple media and digital tools. Working professionals require a range of writing skills that cross all fields and disciplines. They must write with clarity, purpose, and a solid understanding of their audience. This takes training, and our goal in the Department of English at Marshall University is to prepare students to delve into every writing challenge with confidence and savvy. We teach students to work with a wide range of documents, such as proposals, business plans, and reports, while also composing within digital environments for a variety of purposes. Professional writers can specialize in technology, science, health care, journalism, fund development, any given trade, or all of these things and more to build a portfolio and a busy career.

ENG 350	Intro to Textual Analysis (must be taken within the first 9 hours of coursework within the major)	3
ENG 439	Professional Writing Theory	3
ENG 499	Senior Capstone (not offered in summer)	3
Required Introductory Course		
ENG 314	Intro to Professional Writing	3
Professionalization Courses		
Select two of the following:		
ENG 407	Writing, Editing & Doc Design	
ENG 408	Writing in the Digital World	
ENG 431	Writing for Non-Profits	
Specialist Courses		
Select three of the following:		
ENG 204	Writing for the Workplace	
ENG 263	Intro Digital Literary Studies	
ENG 354	Scientific & Tech Writing	
ENG 467	Visual Rhetoric	
ENG 476	Structures of English Language	
ENG 490	Internship	
English Electives		9
Select any 200-, 300-, or 400-level ENG classes		

Major Information

- The total number of free electives will depend on the amount of double and triple counting of requirements. Core II and COLA requirements may not be double counted.
- See course attributes each semester for courses that meet multiple requirements.
- Questions about requirements should be directed to your English Department advisor (304-696-6600) or to the College of Liberal Arts (304-696-2350).
- Forty-eight credit hours (sixteen 3-hour courses) must be at the 300/400 level.
- Students must earn a *C* or better in ENG 201 Advanced Composition, all ENG courses for the major, and all foreign language courses.
- Minimum of 120 hours to graduate.
- English majors will fulfill the university's requirements for WI classes by taking the ENG classes required for the major.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Department of Finance, Economics and International Business

Contacts: Dr. Shaorong Zhang, Chair, Department of Finance, Economics and International Business, zhangs@marshall.edu

The Division of Finance and Economics, housed in the College of Business, offers College of Liberal Arts students the option to earn a B.A. in Economics. This option gives students an opportunity to develop their ability to analyze economic problems and issues (e.g., unemployment, inflation, economic growth and development, government taxation and spending policies, environmental degradation and protection, the distribution of income and wealth, international trading, and financial arrangements). Students will, in the process, deepen their understanding of the U.S. economy and other economies around the world.

Programs

- Economics, B.A. (p. 273)
- Economics, Minor (p. 274)

Courses

- General Education Course

ECN 200 Survey of Economics **3 Credit hours**
Major emphasis given to microeconomic topics such as supply and demand, market structure, and international trade. Macroeconomic concepts and aggregate supply-aggregate demand model are examined. (Not open to students in the College of Business or to students who have completed ECN 250) Major emphasis given to microeconomic topics such as supply and demand, market structure, and international trade. Macroeconomic concepts and aggregate supply-aggregate demand model are examined. (Not open to students in the College of Business or to students who have completed ECN 250)
Grade Mode: Normal Grading Mode

ECN 250 Principles Microeconomics **3 Credit hours**
Principles of scarcity, opportunity cost, and supply and demand are developed along with price and wage determination in the marketplace. International trade and policy problems are also examined. Principles of scarcity, opportunity cost, and supply and demand are developed along with price and wage determination in the marketplace. International trade and policy problems are also examined.
Grade Mode: Normal Grading Mode

ECN 253 Principles Macroeconomics **3 Credit hours**
Introduction to the workings of the national economy. Focuses on the forces driving economic growth, inflation, unemployment, and the country's international economic relations. Introduction to the workings of the national economy. Focuses on the forces driving economic growth, inflation, unemployment, and the country's international economic relations.
Pre-req: ECN 250 with a minimum grade of D or ECN 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ECN 301 Quantitative Methods ECN/FIN **3 Credit hours**
Application of mathematical and statistical methods in Economics and Finance.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 302 Health Economics **3 Credit hours**
A study of the health care market and health policy using the economic concepts of demand-supply, individual choice, uncertainty, asymmetric information and moral hazard.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 310 Money and Banking **3 Credit hours**
Money, credit and credit institutions in the United States; monetary, fiscal, and banking functions of the Federal Reserve System.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

ECN 326 Int Macroeconomic Analys **3 Credit hours**
Advanced study of the national economy as a whole. The main topics focused on are: economic growth, unemployment, inflation, international monetary and financial relations, and macroeconomic policy activity. Advanced study of the national economy as a whole. The main topics focused on are: economic growth, unemployment, inflation, international monetary and financial relations, and macroeconomic policy activity.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

ECN 328 Int Microeconomic Analys **3 Credit hours**
Microeconomics theories of the production and pricing of goods and services, payments to the factors of production.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 405 Environmental Economics **3 Credit hours**
An application of basic economic theory to a consideration of a wide range of environmental problems including pollution, natural resource exhaustion, population and economic growth.
Pre-req: ECN 250 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 408 Comparative Econ Systems **3 Credit hours**
Marxism, capitalism, communism, facism ad socialism considered as theories, movements and actual political economies.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: International
Grade Mode: Normal Grading Mode

ECN 415 Regional Economics **3 Credit hours**
A study of location theory and regional development within a framework of economic theory. A study of location theory and regional development within a framework of economic theory.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: American Institutions, Social Sciences
Grade Mode: Normal Grading Mode

ECN 420 International Trade **3 Credit hours**
An introduction to the basic microeconomic models explaining the reasons for and the effects of trade among nations, trade restrictions and regional trading arrangements. An introduction to the basic microeconomic models explaining the reasons for and the effects of trade among nations, trade restrictions and regional trading arrangements.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: International
Grade Mode: Normal Grading Mode

ECN 421 Global Macroeconomic Analysis **3 Credit hours**
Current topics in international monetary relations, and how countries use macroeconomic policy to influence their performance in the global economy, and how global events influence country performance. Emphasis upon applications.
Pre-req: ECN 253 with a minimum grade of D.
Attributes: International
Grade Mode: Normal Grading Mode

ECN 423 Intro to Econometrics **3 Credit hours**
Combines economic theory with real data to obtain quantitative results for purposes of explanation and prediction. The development of useful economic models applicable to present day world problems.
Pre-req: (MGT 218 with a minimum grade of D or MGT 318 with a minimum grade of D or MTH 225 with a minimum grade of D or STA 225 with a minimum grade of D or IST 130 with a minimum grade of D or EDF 417 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D) and ECN 253 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 456 Labor Economics **3 Credit hours**
Theoretical and empirical analysis of labor markets, wage determination, hours of work, unemployment and inflation, unions and collective bargaining and related subjects in their social and legal contexts.
Pre-req: ECN 250 with a minimum grade of D.
Attributes: American Institutions, Social Sciences
Grade Mode: Normal Grading Mode

ECN 460 Economic of Dev Countries **3 Credit hours**
Introduction to developing nations in the world economy. Focus on their economic characteristics, current economic problems, and policy issues. Interactions between the world economy and country performance.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: International
Grade Mode: Normal Grading Mode

ECN 466 Economics Workshop **3 Credit hours**
Capstone experience. Emphasis on learning economics through applied research, writing, and oral presentations of student work. Capstone experience. Emphasis on learning economics through applied research, writing, and oral presentations of student work.
Pre-req: ECN 326 with a minimum grade of D and ECN 328 with a minimum grade of D and ECN 423 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

ECN 467 Economics Workshop II **2 Credit hours**
Capstone Experience. Emphasis on learning economics through writing exercises. Opportunity for collaborative research with CBER staff. Development of skills necessary for success in the job market. (PR: ECN 466) tion of Senior Thesis I) Capstone Experience. Emphasis on learning economics through writing exercises. Opportunity for collaborative research with CBER staff. Development of skills necessary for success in the job market. (PR: ECN 466) tion of Senior Thesis I)
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

ECN 480 Special Topics **1-4 Credit hours**
Members of the department may teach, when necessary, any economics subject not listed among the current course offerings. Members of the department may teach, when necessary, any economics subject not listed among the current course offer- ings.
Grade Mode: Normal Grading Mode

ECN 485 Independent Study **1-4 Credit hours**
A research project conducted by a qualified student under guidance of a member of the department; involves gathering of data, interpretation, and presentation of findings in a written report. A research project conducted by a qualified student under guidance of a member of the department; involves gathering of data, interpretation, and presentation of findings in a written report.
Grade Mode: Normal Grading Mode

ECN 490 Internship **3-12 Credit hours**
A supervised internship in which the student works for a business firm/agency to gain practical experience in the student's major. The program of work and study will be defined in advanced and the students performance will be evaluated.
Grade Mode: Credit/No Credit Grade Only

Associate Professor
McCutcheon

Assistant Professor
Biswas, Duan, Feng, Yemba

Economics, B.A.

The B.A. option in Economics prepares students for several types of careers. For example, this option helps students prepare for:

1. *Law School.* Law schools place a high value on economics as an undergraduate major.
2. *Graduate School.* The B.A. in Economics is an excellent preparation for the M.B.A., as well as for further studies in Economics.
3. *Administration or research positions in business firms, government agencies, labor organizations, or private foundations.*

For further information, please contact Dr. Shaorong Zhang in the College of Business.

Major

Students who select this option must fulfill all COLA requirements for the B.A. degree and complete the following coursework:

Code	Title	Credit Hours
ECN 250	Principles Microeconomics	3
ECN 253	Principles Macroeconomics	3
ECN 326	Int Macroeconomic Analys	3
ECN 328	Int Microeconomic Analys	3
ECN 423	Intro to Econometrics	3
ECN 466	Economics Workshop (Capstone)	3
MGT 218	Business Quantitative Methods	3
Select 9 additional hours in Economics to be chosen with the advice and approval of the Academic Advisor.		9
Total Credit Hours		**30**

Major Information

- The total number of free electives will depend on the amount of double and triple counting of requirements.
- See course attributes each semester for courses that meet multiple requirements.
- Major elective courses must be all upper division, at least three hours at the 400- level.
- Questions about requirements should be directed to the College of Liberal Arts (304-696-2350). Core II and COLA requirements may not be double counted.
- Forty-eight credit hours (sixteen 3-hour courses) must be at the 300/400 level.
- Students must earn a *C* or better in ENG 102 and all foreign language courses.
- Minimum of 120 hours to graduate.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

The Department of Finance, Economics and International Business, housed in the College of Business, offers College of Liberal Arts students the option to earn a B.A. in Economics. This option gives students an opportunity to develop their ability to analyze economic problems and issues (e.g., unemployment, inflation, economic growth and develop-ment, government taxation and spending policies, environmental degradation and protection, the distribution of income and wealth, international trading, and financial arrangements). Students will, in the process, deepen their understanding of the U.S. economy and other economies around the world.

Economics, Minor

A minimum of 15 credit hours in Economics, with no more than six of those hours earned at the 200 level or lower.

Department of Geography

Contacts: Dr. James M. Leonard, Chair
Website: http://www.marshall.edu/geography (http://www.marshall.edu/geography/)

geography@marshall.edu

Geography is the systematic study of the spatial aspects of human activity, the natural world, and human-environment interaction. The discipline of Geography occupies a unique position as a bridge between the social sciences (Human Geography), natural sciences (Physical Geography), and STEM fields (GIScience). As a result, the Geography Department offers both a Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) degree. Both degrees offer students broad exposure to the various subfields of Geography and provide specialized career training and preparation. From this interdisciplinary perspective, Geography helps us understand and address numerous contemporary challenges ranging from economic development, urban planning, and ethnic conflict to climate change, environmental sustainability, and natural resource management. Geography is a rapidly expanding discipline with diverse career opportunities across the environmental sciences, social sciences, and technological fields in both the public and private sectors.

The Geography Department prepares students to succeed as professionals in today's job market through an innovative curriculum focusing on building critical thinking, technical expertise, and practical skills across a range of Human Geography, Physical Geography, and Geospatial Information Science (GIScience) courses. The curriculum includes a mixture of classroom and lab instruction, hands-on projects, and professional internship experiences that actively engage students in the learning process and provide the skills necessary for life-long learning. The Department maintains state-of-the-art facilities, including technology-enhanced classrooms, a Physical Geography lab, and a GIScience computer lab supporting students as they utilize the latest software and hardware. The Department provides a supportive learning environment where students work closely with faculty and peers while enjoying numerous opportunities to participate in campus, state, and national professional activities.

Geography alumni have successfully applied their knowledge and practical skills in a variety of career paths in both the public and private sectors, including urban and regional planning, economic development, environmental science, natural resource and energy management, weather forecasting, emergency response and homeland security, GIScience analysis, and education. Other alumni have continued with Geography studies at the graduate level. The Department also offers an Accelerated Master's program which allows qualifying students to begin earning graduate student credit during their senior year.

All Geography majors are required to earn a *C* or better in their Geography courses if those hours are to count toward the major requirements.

Programs

- Geography, Accelerated Master's Degree (p. 278)
- Geography, B.A. (p. 278)
- Geography, B.S. (p. 279)
- Geography, Minor (p. 286)
- GIScience, Certificate (http://catalog.marshall.edu/undergraduate/programs-az/liberal-arts/geography/giscience-certificate/)
- GIScience, Minor (http://catalog.marshall.edu/undergraduate/programs-az/liberal-arts/geography/giscience-minor/)
- Meteorology, Minor (p. 287)

Courses

- General Education Course

GEO 100 Intro to Human Geography (CT) 3 Credit hours
This critical thinking course provides a systematic examination of contemporary concepts and processes of human geography in global perspective, including economics, geopolitics, culture, nationalism, urbanization, governance, agriculture, population, and migration.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

GEO 101 Physical Geography (CT) 4 Credit hours
Systematic survey of earth-sun relationships, land-surface form, climate, soils, water, natural vegetation, and other natural content as a background for human geography. Systematic survey of earth-sun relationships, land-surface form, climate, soils, water, natural vegetation, and other natural content as a background for human geography.
Attributes: Critical Thinking, Natural Sciences
Grade Mode: Normal Grading Mode

GEO 110 Basic GIS 1 Credit hour
Introduction to GIS concepts including GIS components, spatial and tabular data, database elements, data formats, and map design; hands-on experience with a GIS.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 111 Air Photos & Satellite Imagery 1 Credit hour
Introduction to photogrammetry and remote sensing thourgh the hands-on investigation of aerial photographs and satellite imagery using the latest technology.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 112 Smartphone GPS 1 Credit hour
Principles of Global Navigation Satellite Systems (GNSS); using your smartphone for Global Positioning Systems (GPS)/GNSS orientation, and data collection.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 113 Web GIS 1 Credit hour
Students learn to build web maps, share GIS data on the internet, and create web GIS applications.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 203 Economic Geography (CT) 3 Credit hours
A systematic examination of world economic geography with a focus on population, agriculture, transportation, land use, urbanization, industry, energy, and the environment. A systematic examination of world economic geography with a focus on population, agriculture, transportation, land use, urbanization, industry, energy, and the environment.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

GEO 206 Geography West Virginia 3 Credit hours
A survey of the geography of West Virginia including landforms, climate, settlement patterns, population, economics, resources, politics, and environmental changes.
Attributes: American Institutions, Core II Social Sciences
Grade Mode: Normal Grading Mode

GEO 207 Biblical Geography 3 Credit hours
Students explore the physical and human geography of ancient Palestine and assess how geography informs our understanding of people, events, and places described by Jewish and Christian scriptures.
Attributes: Core II Humanities
Grade Mode: Normal Grading Mode

GEO 222 Global Environment Issues (CT) 3 Credit hours
Environmental issues have great emotional, political, and economic significance. The dynamics of global environmental problems, their complex interactions, and effects on potential stakeholders will be examined at the international scale.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

GEO 230 Intro to Meteorology (CT) 4 Credit hours
Introduction to the composition of the atmosphere and weather phenomena, including thunderstorms, tornadoes, and hurricanes. Introduction to the composition of the atmosphere and weather phenomena, including thunderstorms, tornadoes, and hurricanes.
Attributes: Critical Thinking, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GEO 280 Special Topics 1-4 Credit hours
Grade Mode: Normal Grading Mode

GEO 281 Special Topics 1-4 Credit hours
Grade Mode: Normal Grading Mode

GEO 282 Special Topics 1-4 Credit hours
Grade Mode: Normal Grading Mode

GEO 283 Special Topics 1-4 Credit hours
Grade Mode: Normal Grading Mode

GEO 300 Methods in Geography 3 Credit hours
Provides an introduction to research methods in geography. Topics addressed include: data sources; sampling; data collection, storage, and management; descriptive measures and data visualization techniques; qualitative and quantitative analysis.
Pre-req: STA 225 with a minimum grade of D or STA 150 with a minimum grade of D or STA 150B with a minimum grade of D or MGT 218 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D or GEO 440 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 305 Geog of USA & Canada **3 Credit hours**
Survey of physical, historical, population, economic, political, cultural, and regional geographies of Canada and the United States, including an analysis of the multi-cultural nature of the societies.
Attributes: American Institutions, Multicultural
Grade Mode: Normal Grading Mode

GEO 317 World Regional Geography **3 Credit hours**
World regions examined using a synthesis of physical and human geographical themes including environment, culture, landscape, climate, landforms, globalization, population patterns, urbanization, economies, and political geography.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 350 Severe Storms and Natl Hzrds **4 Credit hours**
Basics of earth and atmospheric hazards including flooding, earthquakes, tsunamis, hurricanes, tornadoes, and volcanic eruptions, and how to mitigate the impacts. Basics of earth and atmospheric hazards including flooding, earthquakes, tsunamis, hurricanes, tornadoes, and volcanic eruptions, and how to mitigate the impacts.
Grade Mode: Normal Grading Mode

GEO 355 Aviation Weather **3 Credit hours**
A study of atmospheric conditions on aeronautical operations. Topics include atmospheric properties, aviation hazards including thunderstorms, wind shear, turbulence, and icing, and weather flight resources.
Pre-req: GEO 230 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 402 Geography of Appalachia **3 Credit hours**
A study of the geography of Appalachia, including landforms, climate, settlement patterns, population, economics, resources, politics, and environmental changes.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

GEO 404 Geography of Europe **3 Credit hours**
An examination of the geography of Europe focusing on contemporary issues, including climate, culture, economics, environmental change, everyday life, international relations landforms, language, politics, population, religion, and urbanization. An examination of the geography of Europe focusing on contemporary issues, including climate, culture, economics, environmental change, everyday life, international relations landforms, language, politics, population, religion, and urbanization.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 405 Political Geography **3 Credit hours**
A systematic and regional survey of world political problems and international relations stressing current geopolitical conflicts. An examination of contemporary patterns, processes, and problems of political geography in global perspective, including globalization, colonialism, imperialism, geopolitics, nationalism, diplomacy, international borders, governance, political representation, and future projections
Attributes: International
Grade Mode: Normal Grading Mode

GEO 406 Population Geography **3 Credit hours**
An examination of contemporary patterns, processes, and problems of population geography in global perspective, including fertility, mortality, demographic change, migration, malnutrition, urbanization, natural resource sustainability, and future projections. An examination of contemporary patterns, processes, and problems of population geography in global perspective, including fertility, mortality, demographic change, migration, malnutrition, urbanization, natural resource sustainability, and future projections.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 408 Geog of South & Middle America **3 Credit hours**
A study of settlement, transportation, manufacturing, agriculture, geopolitics, and natural resources of South and Middle American countries. Regional study of relation of man's activities to natural environment.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 410 Urban Geography **3 Credit hours**
Study of the evolution, morphology and land use, functions, and problems of urban areas, with emphasis on governance, planning, and the social and environmental impacts of urbanization.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

GEO 411 Medical Geography **3 Credit hours**
An examination of contemporary issues and problems in health and medical geography, including the spatial aspects of global health, health care policy, and disease origins, diffusion, and ecology.
Grade Mode: Normal Grading Mode

GEO 418 Geography For Educators **3 Credit hours**
A study of geographic concepts, methods, and technologies essential for effective teaching of geographic content for K-12 social studies teachers and college educators.
Grade Mode: Normal Grading Mode

GEO 422 Environmental Geography **3 Credit hours**
Attributes: International
Grade Mode: Normal Grading Mode

GEO 423 Cartography & GIS **3 Credit hours**
This course is an introduction to cartography and is the cornerstone of Geographic Information Science. In this class you will learn basic map design, map interpretation and appreciation. We will explore the nature of spatial data, and learn what maps can and cannot represent. We will study maps as a data source for Geographic Information Systems, and as a graphic tool for scientific visualizations.
Grade Mode: Normal Grading Mode

GEO 424 Transportation Geography **3 Credit hours**
A geographic analysis of transportation and its spatial organization. Concepts, models, and analytical methods related to traffic demand, network configuration, and allocation of transport facilities are covered.
Grade Mode: Normal Grading Mode

GEO 425 Climatology **4 Credit hours**
A study of elements of weather and climate, methods of climatic classification, and the distribution and characteristics of world climate regions. A study of elements of weather and climate, methods of climatic classification, and the distribution and characteristics of world climate regions.
Grade Mode: Normal Grading Mode

GEO 426 Principles of GIS **4 Credit hours**
Introduction to Geographic Information Systems (GIS) principles, techniques, and applications for the social and natural sciences with emphasis on foundational geographic principles in a lecture/lab format.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 427 Principles of GIS II **4 Credit hours**
Students apply GIS principles and techniques to geoprocess and manipulate geographic data, including topics such as geodatabase management, python scripting, model building, web mapping and data services, and spatial analysis.
Pre-req: GEO 423 with a minimum grade of D or GEO 426 with a minimum grade of D or GEO 429 with a minimum grade of D or GEO 430 with a minimum grade of D or NRRM 423 with a minimum grade of D or NRRM 433 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 429 Location Analysis and GIS **4 Credit hours**
Concepts, models, and methods of geographic location analysis of natural resource extraction, manufacturing, services, retail and market area analytics, and logistics using GIS.
Pre-req: GEO 423 with a minimum grade of D or GEO 426 with a minimum grade of D or GEO 427 with a minimum grade of D or GEO 430 with a minimum grade of D or NRRM 423 with a minimum grade of D or NRRM 433 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 430 Environmental Raster GIS **4 Credit hours**
Environmental Applications of GIS raster analysis, including local, neighborhood, and zonal operations, terrain analysis, distance modeling, and surface interpolation, data collection and input, and advanced spatial analysis using GIS.
Pre-req: GEO 426 or GEO 429 or IST 423.
Grade Mode: Normal Grading Mode

GEO 431 Remote Sensing & Photogram **4 Credit hours**
Scientific study of the earth using images and data captured using satellite- or aircraft-borne sensors, with emphasis on issues of acquisition, photogrammetric interpretation, spatial analysis and application.
Pre-req: GEO 426 with a minimum grade of D or GEO 429 with a minimum grade of D or GEO 430 with a minimum grade of D or IST 423 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 432 Enterprise GIS **3 Credit hours**
Principles and techniques for planning, implementing, and managing Geographic Information Systems technologies in a firm or agency.
Pre-req: GEO 426 or GEO 429 or GEO 430 or GEO 431 or IST 423.
Grade Mode: Normal Grading Mode

GEO 433 GPS & Mobile Geospatial Tech **3 Credit hours**
An analysis of the design and deployment of Global Navigation Satellite Systems such as GPS (Global Positioning System) and their application to mobile map services.
Pre-req: GEO 426 or GEO 429 or GEO 430 or GEO 431 or IST 423.
Grade Mode: Normal Grading Mode

GEO 434 Floods Hazards and GIS **3 Credit hours**
Application of principles of flood hazards preparation, disaster management, and mitigation using Geographic Information Systems (GIS).
Grade Mode: Normal Grading Mode

GEO 440 Spatial Statistics and GIS **4 Credit hours**
Statistical methods applied to problem solving in geography and using GIS for display and analysis. Primary focus on descriptive and inferential spatial statistics, mapping, and spatial analysis of data.
Grade Mode: Normal Grading Mode

GEO 450 Extreme Weather **4 Credit hours**
Basics of extreme weather phenomena including hurricanes, tornadoes, floods, droughts, blizzards, and how to mitigate the impacts.
Grade Mode: Normal Grading Mode

GEO 454 Drones: Remote Sensing & GIS **3 Credit hours**
Learn FAA rules and safety procedures; prepare for Remote Pilot licensing exam; operate drones to collect remote sensing data; process imagery for analysis; integrate sUAS imagery with existing GIS data.
Grade Mode: Normal Grading Mode

GEO 460 Weather Analysis **4 Credit hours**
Introduction to reading weather maps and meteorological analysis techniques including satellite and radar image interpretation and numerical weather prediction.
Grade Mode: Normal Grading Mode

GEO 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

GEO 486 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

GEO 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 490 Internship **1-6 Credit hours**
Cooperative learning experience with regional employer/government agency.
Attributes: No Textbook Required
Grade Mode: Credit/No Credit Grade Only

GEO 498 Senior Capstone **2 Credit hours**
This senior capstone course combines research methods, data collection, and analysis to produce original research on questions and problems in geography. Par I: Pilot Project.
Pre-req: GEO 300 with a minimum grade of D and (GEO 423 with a minimum grade of D or GEO 426 with a minimum grade of D).
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

GEO 499 Senior Capstone II **1-3 Credit hours**
This senior capstone course combines research methods, data collection, and analysis to produce original research on questions and problems in geography. Part II.
Pre-req: GEO 426 with a minimum grade of D and (MTH 225 with a minimum grade of D or GEO 440 with a minimum grade of D or MGT 218 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D or ANT 301 with a minimum grade of D or EDF 417 with a minimum grade of D).
Attributes: American Institutions, Capstone Course
Grade Mode: Normal Grading Mode

Geography, Accelerated Master's Degree

Students who have completed at least 90 hours towards their bachelor's degrees, have at least a 3.5 overall undergraduate GPA, and a 3.5 GPA in Geography are eligible to apply for our Accelerated Master's Degree program. A GRE score is not required. Students accepted into the program can begin taking graduate coursework up to a maximum of 12 hours in place of elective undergraduate courses. Students reduce the number of hours required to complete the bachelor's degree by the number of graduate hours they complete (up to a maximum of 12). They must meet all the other degree requirements for their bachelor's degrees while they work on their master's degrees. Interested students are encouraged to discuss this option with their advisors to obtain further details and information on the application process.

Geography, B.A.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
STA 225	Introductory Statistics (CT)	3
GEO 100	Intro to Human Geography (CT)	3
Core 2		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
CMM 103	Fund Speech-Communication	3
STA 225	Introductory Statistics (CT)	3
Core II Natural/Physical Science		4
Core II Humanities		3
GEO 100	Intro to Human Geography (CT) (Core II Social Science)	3
Core II Fine Arts		3

Free Elective		3

Major Information

- The total number of free electives will depend on the amount of double and triple counting of requirements.
- See course attributes each semester for courses that meet multiple requirements.
- Questions about requirements should be directed to the College of Liberal Arts (304-696-2350). Core II and COLA requirements may not be double counted.
- Forty-eight credit hours (sixteen 3-hour courses) must be at the 300/400 level.
- Students must earn a *C* or better in ENG 201 Advanced Composition and all foreign language courses.
- Minimum of 120 hours to graduate.
- The B.A. in Geography degree requires a minimum total of 39 hours of geography coursework. Beyond the Geography Core Requirements, students choose a minimum of 9 credit hours from Human or Regional Geography. Remaining electives may be chosen from any GEO courses.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Geography is the systematic study of the spatial aspects of human activity, the natural world, and human-environment interaction. The discipline of Geography occupies a unique position as a bridge between the social sciences (Human Geography), natural sciences (Physical Geography), and STEM fields (GIScience). As a result, the Geography Department offers both a Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) degree. Both degrees o fer students broad exposure to the various subfields of Geography and provide specialized career training and preparation. Geography is a rapidly expanding discipline with diverse career opportunities across the environmental sciences, social sciences, and technological fields in both the public and private sectors.

As a result, the Geography Department offers both a Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) degree. Both degrees offer students broad exposure to the various subfields of Geography and provide specialized career training and preparation. Geography is a rapidly expanding discipline with diverse career opportunities across the environmental sciences, social sciences, and technological fields in both the public and private sectors.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours

Meteorology Area of Emphasis Courses		
Students specializing in the Meteorology area of emphasis must complete the Geography Core Requirements (24 credit hours) and the following Meteorology courses (20 credit hours) for a total of 44 credit hours minimum.		
GEO 230	Intro to Meteorology (CT)	4
GEO 350	Severe Storms and Natl Hzrds	4
GEO 425	Climatology	4

Weather Analysis course		4
GEO 431	Remote Sensing & Photogram	4

Major Information

- The total number of free electives will depend on the amount of double and triple counting of requirements.
- See course attributes each semester for courses that meet multiple requirements.
- Questions about requirements should be directed to the College of Liberal Arts (304-696-2350). Core II and COLA requirements may not be double counted.
- Forty-eight credit hours (sixteen 3-hour courses) must be at the 300/400 level.
- Students must earn a *C* or better in ENG 201 Advanced Composition and all foreign language courses.
- Minimum of 120 hours to graduate.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Geography is the systematic study of the spatial aspects of human activity, the natural world, and human-environment interaction. The discipline of Geography occupies a unique position as a bridge between the social sciences (Human Geography), natural sciences (Physical Geography), and STEM fields (GIScience). As a result, the Geography Department offers both a Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) degree. Both degrees offer students broad exposure to the various subfields of Geography and provide specialized career training and preparation. Geography is a rapidly expanding discipline with diverse career opportunities across the environmental sciences, social sciences, and technological fields in both the public and private sectors.

Geography, Minor

Non-majors can earn a minor in Geography. This minor consists of a minimum of 12 credit hours of Geography coursework chosen in consultation with a faculty advisor. At least half of these credits must be earned at Marshall. Students are required to earn a *C* or better in all their Geography courses if those courses are to count for the minor.

GIScience, Certificate or Minor

Geospatial Information Science is a research field that utilizes specialized computer hardware, software, and procedures for the capture, presentation, and analysis of all types of natural and social science data referenced (mapped) to the earth's surface. The minor/certificate program provides knowledge, training, applications, and research skills for successful careers or graduate work across a number of disciplines. Students who complete the minor or certificate should be able to:

- perform GIScience capture, analysis, and presentation using vector, raster, and remote sensing data;
- use GIScience data to investiage research questions in the social or natural sciences;
- employ geographic concepts such as projections, coordinate systems, and scale;
- recognize and apply information science concepts such as data collection, representation, queries, and storage;
- enter a career that utilizes GIScience principles and practices; and
- continue GIScience work at the graduate level.

GIScience minor/certificate credits can count toward a bachelor's degree in several departments such as Geography, Biology, Physical Science, Health Informatics, Natural Resources and the Environment, or Management Information Systems. Please see an advisor in the appropriate department. Students may not earn a GIScience minor and a GIScience undergraduate certificate.

Requirements

- Minimum of 18 credit hours
- Students must take courses from at least two different departments.
- Students must have a *B* (3.0) average in their GIScience courses for the minor or certificate and no grade below a *C* (2.0) in their GIScience courses to earn the minor or certificate.

Code	Title	Credit Hours

NRE 323	Assessment II: Aquatic Ecology	4
Special Topics courses as approved by the GIScience Curriculum Committee.		
Independent Study courses as approved by the student's adviser in consultation with the GIScience Curriculum Committee.		

Meteorology, Minor

A minor in Meteorology, which provides a specialized program for students interested in Physical Geography and Meteorology, consists of a minimum of 16 credit hours. At least half of these credits must be earned at Marshall. Students are required to earn a *C* or better in all their Geography courses if those courses are to count for the minor.

Department of History

Contacts: Dr. Greta Rensenbrink, Chair
Website: http://www.marshall.edu/history (http://www.marshall.edu/history/)

history@marshall.edu

The study of History provides an essential component of liberal arts education and offers valuable preparation for careers in law, journalism, teaching, government, the ministry, library and museum work, and in those areas of the business world where a knowledge of foreign affairs and culture is desirable. History also serves as an indispensable adjunct to careers in the humanities and social sciences. More broadly, by exposure to a variety of cultures and human experiences, the discipline of History seeks to prepare students for the responsibilities of citizenship and for dealing with the ambiguities of human existence. The Department of History at Marshall also makes every effort to help students think critically, to view events with perspective and objectivity, and to appreciate the complexity of human experience and the difficulty of interpreting it.

Minors

Students may also choose one of the interdisciplinary minors in African and African American Studies, Asian Studies, Latin American Studies, Sexuality Studies, or Women's and Gender Studies.

Students can also obtain a minor in History online. For information please see www.marshall.edu/history/students/history-minor (http://www.marshall.edu/history/students/history-minor/).

Teacher Certification in Social Studies

Students interested in pursuing teaching certification, Social Studies 5-9 Endorsement, or Social Studies 5-Adult, should consult with the dean's office, College of Education and Professional Development, Jenkins Hall 220.

Courses

- General Education Course

HST 101 Great Civs to 1300 (CT) **3 Credit hours**
Comparative study of the origin and course of major civilizations focusing on the Middle East, India, China, and the West. This class emphasizes critical thinking skills. Comparative study of the origin and course of major civilizations focusing on the Middle East, India, China, and the West. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 101H Great Civs to 1300 (CT) **3 Credit hours**
Comparative study of the origin and course of major civilizations focusing on the Middle East, India, China, and the West. This honors section emphasizes critical thinking skills.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Critical Thinking, Honors, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 102 World & West 1300-1850 (CT) **3 Credit hours**
An interdisciplinary analysis of the foundations of Western development. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 102H World & West 1300-1850 (CT) **3 Credit hours**
An interdisciplinary analysis of the foundations of Western development. This class emphasizes critical thinking skills.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Critical Thinking, Honors, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 103 The World Since 1850 (CT) **3 Credit hours**
Major world developments and trends from the middle of the 19th century to the present and their implications for the future. This class emphasizes critical thinking skills. Major world developments and trends from the middle of the 19th century to the present and their implications for the future. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 103H World Since 1850 Honors (CT) **3 Credit hours**
Survey for superior students of world developments and trends from the 19th century to the present and their implications for the future. Survey for superior students of world developments and trends from the 19th century to the present and their implications for the future.
Pre-req: ACT Composite with a score of 26 or SAT Verbal Before March 16 with a score of 600.
Attributes: Critical Thinking, Honors, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 200 History Methods Workshop **3 Credit hours**
This course is an introduction to the most fundamental methods of the discipline. Students will learn to use library resources, practice document interpretation skills, and identify and evaluate historical arguments. This course is an introduction to the most fundamental methods of the discipline. Students will learn to use library resources, practice document interpretation skills, and identify and evaluate historical arguments.
Attributes: Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 208 The Developing World (CT) **3 Credit hours**
A survey of selected Third World countries focusing on imperialism, colonialism and developmental interests. This class emphasizes critical thinking skills. A survey of selected Third World countries focusing on imperialism, colonialism and developmental interests. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, International, Core II Social Sciences, World History
Grade Mode: Normal Grading Mode

HST 218 Ancient Egypt **3 Credit hours**
A survey of the history of Egypt from the pre-dynastic kings through the reign of Cleopatra with emphasis on religious, cultural, social, political and economic developments.
Attributes: World History
Grade Mode: Normal Grading Mode

HST 219 Ancient History **3 Credit hours**
A survey of the ancient Near East, Greece, and Rome with emphasis on Greek and Roman civilization from Mycenaean times through the Roman Empire of the 5th century. Open to all undergraduates. A survey of the ancient Near East, Greece, and Rome with emphasis on Greek and Roman civilization from Mycenaean times through the Roman Empire of the 5th century. Open to all undergraduates.
Attributes: European History, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 220 European Hist Medieval **3 Credit hours**
A survey of the history of Europe from the later Roman Empire to the end of the Middle Ages with emphasis on religious, cultural, social, political and economic developments. Open to all undergraduates. A survey of the history of Europe from the later Roman Empire to the end of the Middle Ages with emphasis on religious, cultural, social, political and economic developments. Open to all undergraduates.
Attributes: European History, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 223 Rise & Fall Nazi Germany **3 Credit hours**
A study of the origins, course, and collapse of the Third Reich. Some attention will be given to pre-Nazi period. A study of the origins, course, and collapse of the Third Reich. Some attention will be given to pre-Nazi period.
Attributes: European History, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 230 American History to 1877 (CT) **3 Credit hours**
A general survey from the discovery in 1492 through the period of Reconstruction. This class emphasizes critical thinking skills. A general survey from the discovery in 1492 through the period of Reconstruction. This class emphasizes critical thinking skills.
Attributes: American Institutions, Critical Thinking, Multicultural, Core II Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 230H Amer Hist to 1877-Honors **3 Credit hours**
A survey of American History to 1877 for the superior student. A survey of American History to 1877 for the superior student.
Pre-req: ACT Composite with a score of 26 or SAT Verbal Before March 16 with a score of 600.
Attributes: American Institutions, Core II Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 231 American Hist From 1877 (CT) **3 Credit hours**
A general survey since Reconstruction. This class emphasizes critical thinking skills. A general survey since Reconstruction. This class emphasizes critical thinking skills.
Attributes: American Institutions, Critical Thinking, Multicultural, Core II Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 231H US Hist Since 1877-Honors **3 Credit hours**
Pre-req: ACT Composite with a score of 26 or SAT Verbal Before March 16 with a score of 600.
Attributes: American Institutions, Honors, Social Sciences, Core II Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 250 Women in US History **3 Credit hours**
A study of the public and private contributions of women in the shaping of the United States from the Colonial period to the present. A study of the public and private contributions of women in the shaping of the United States from the Colonial period to the present.
Attributes: Core II Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 260 Rise of Islam 570-1750 **3 Credit hours**
A study of the Middle Eastern region from pre-Islamic Arabia to the pinnacle of Ottoman imperial control. Emphasis is placed on cultural, social, and political developments. A study of the Middle Eastern region from pre-Islamic Arabia to the pinnacle of Ottoman imperial control. Emphasis is placed on cultural, social, and political developments.
Attributes: Core II Social Sciences, World History
Grade Mode: Normal Grading Mode

HST 265 Modern East Asia **3 Credit hours**
A survey of the history of East Asia from 17th century to present with a focus on China and Japan. A survey of the history of East Asia from 17th century to present with a focus on China and Japan.
Attributes: Core II Social Sciences, World History
Grade Mode: Normal Grading Mode

HST 280 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

HST 281 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

HST 282 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

HST 283 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

HST 301 Lat Am Discovery-Independ **3 Credit hours**
Emphasis is on conditions in Spain which influenced the development of Latin America and eventually led to the independence movement. Emphasis is on conditions in Spain which influenced the development of Latin America and eventually led to the independence movement.
Attributes: International, World History
Grade Mode: Normal Grading Mode

HST 302 Lat Am Independence-Pres **3 Credit hours**
Emphasis is on the political, economic and social institutions of Argentina, Brazil, Chile and Mexico. Emphasis is on the political, economic and social insti- tutions of Argentina, Brazil, Chile and Mexico.
Attributes: International, World History
Grade Mode: Normal Grading Mode

HST 303 American Military History **3 Credit hours**
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 304 Spanish History Since 1475 **3 Credit hours**
A survey of Spain's historical development emphasizing her rise and decline as a world power, the impact of persistent internal conflict, the Franco dictatorship and the transition to democracy.
Attributes: European History, International
Grade Mode: Normal Grading Mode

HST 305 Drug Wars **3 Credit hours**
This course examines the history of the war on drugs throughout U.S. and Latin American history with an emphasis on the past century.
Attributes: World History
Grade Mode: Normal Grading Mode

HST 306 The Holocaust **3 Credit hours**
An exploration of the why and how of the Holocaust with an emphasis on Nazi Jewish policy from 1933 to 1942. An exploration of the why and how of the Holocaust with an emphasis on Nazi Jewish policy from 1933 to 1942.
Attributes: European History
Grade Mode: Normal Grading Mode

HST 307 The Global Cold War **3 Credit hours**
An international survey of World War II and the Cold War. Topics include military, political, diplomatic, social and cultural history from a global perspective.
Attributes: International, World History
Grade Mode: Normal Grading Mode

HST 308 Baseball in the Americas **3 Credit hours**
It seeks to understand the importance of baseball from a social, cultural and political standpoint. It also explores the use of baseball as a diplomatic tool.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 309 History of the Cherokee **3 Credit hours**
The course explores the history and culture of the Cherokee people from pre-contact through the 21st century.
Grade Mode: Normal Grading Mode

HST 310 History of Global Pandemics **3 Credit hours**
A study of pandemics in world history, from the Plague of Athens to COVID-19.
Attributes: American Institutions, Social Sciences
Grade Mode: Normal Grading Mode

HST 311 World War I **3 Credit hours**
This course explores the First World War. It examines the roots of the conflict, the outbreak, the course of the war, and its chaotic aftermath.
Attributes: World History
Grade Mode: Normal Grading Mode

HST 312 African-American History **3 Credit hours**
A survey of African-American History from African and West Indian origins to the present. A survey of African-American History from African and West Indian origins to the present.
Attributes: American Institutions, Multicultural, United States History
Grade Mode: Normal Grading Mode

HST 314 LGBTQ+ History of the US **3 Credit hours**
A survey of LGBTQIA+ history in the United States from the colonial period to the present. Introduction to the civilization of the area; the establishment of colonial control; liquidation of colonial rule and the readjustment required.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 323 Religion in America **3 Credit hours**
The rise and development of religion and of religious thinking in America. (Same as Religious Studies 323) The rise and development of religion and of religious thinking in America. (Same as Religious Studies 323)
Attributes: American Institutions, Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 330 Football and American Culture **3 Credit hours**
This class examines the role of football in American culture, politics, the economy and particularly its role in the elevation of college sports. A general treatment from the discovery in 1492 through the period of Reconstruction.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 333 American Colonial History **3 Credit hours**
A study of the historical development of the English colonies in America. A study of the historical development of the English colonies in America.
Attributes: American Institutions, United States History
Grade Mode: Normal Grading Mode

HST 342 American Legal History **3 Credit hours**
Historical development of American law in areas ranging from slavery and racial discrimination to civil liberties and crime and punishment. Historical development of American law in areas ranging from slavery and racial discrimination to civil liberties and crime and punishment.
Attributes: American Institutions, United States History
Grade Mode: Normal Grading Mode

HST 343 The US in the 1970s **3 Credit hours**
The economic, political, social and cultural history of the United States as it shifted from the modern 1960s to the post-modern world of the late 20th century. The economic, political, social and cultural history of the United States as it shifted from the modern 1960s to the post-modern world of the late 20th century.
Attributes: American Institutions, United States History
Grade Mode: Normal Grading Mode

HST 344 The United States in the 1980s **3 Credit hours**
Focusing on the United States in the 1980s global context, this course examines the social, cultural, political, and economic history of the late 20th century.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 347 Southern Women's History **3 Credit hours**
This course explores the lives and experiences of Southern women in the US from the colonial era to the present. This course explores the lives and experiences of Southern women in the US from the colonial era to the present.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 360 Sports and Civil Rights **3 Credit hours**
An examination of the way that sports history reflects important themes in US history such as equality, race, ethnicity, and gender.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

HST 361 The Modern Middle East **3 Credit hours**
A survey of the modern Middle East with emphasis on the historical background of current controversial issues confronting the region. A survey of the modern Middle East with emphasis on the historical background of current controversial issues confronting the region.
Attributes: International, World History
Grade Mode: Normal Grading Mode

HST 362 The Crusades **3 Credit hours**
An examination of the origins, historical progression, and impact of the Crusades from both Christian and Islamic perspectives.
Attributes: Multicultural, World History
Grade Mode: Normal Grading Mode

HST 365 The Civil Rights Movement **3 Credit hours**
An exploration of 20th century movements for civil rights in American history examining race, ethnicity, social class, and gender. An exploration of 20th century movements for civil rights in American history examining race, ethnicity, social class, and gender.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

HST 366 Conspiracies in US History **3 Credit hours**
This course focuses on the ways people have constructed and used conspiracy theories to explain events in U.S. political, cultural, social, and scientific arenas.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 378 Modern Asia **3 Credit hours**
A selective look at Modern Asia, focusing on Japan, China, Korea, Taiwan, Vietnam and Indonesia and American interaction with the Asian nations. No Preq. A selective look at Modern Asia, focusing on Japan, China, Korea, Taiwan, Vietnam and Indonesia and American inter- action with the Asian nations. No Preq.
Attributes: International, World History
Grade Mode: Normal Grading Mode

HST 380 Asia to 1600 **3 Credit hours**
This course will introduce students to the political, cultural, social, and intellectual environment of premodern Asia. Students will also learn to think critically about their own and other societies. This course will introduce students to the political, cultural, social, and intellectual environment of pre- modern Asia. Students will also learn to think critically about their own and other societies.
Attributes: World History
Grade Mode: Normal Grading Mode

HST 390 Food in World History **3 Credit hours**
This course examines the key changes and continuities in human food consumption patterns and practices since the Neolithic period while comparing and contrasting the foodways of major civilizations and cultures.
Attributes: World History
Grade Mode: Normal Grading Mode

HST 392 Food Markets and Modernity **3 Credit hours**
This course examines the social and cultural history of various types of urban food markets in Western Europe and the United States from the late eighteenth century to the present.

Major Information

- The total number of free electives will depend on the amount of double and triple counting of requirements.
- See course attributes each semester for courses that meet multiple requirements.
- Questions about requirements should be directed to the College of Liberal Arts (304-696-2350). Core II and COLA requirements may not be double counted.
- Forty-eight credit hours (sixteen 3-hour courses) must be at the 300/400 level.
- Students must earn a *C* or better in ENG 201 Advanced Composition and all foreign language courses.
- Minimum of 120 hours to graduate.
- At least twelve credit hours in History must be in courses above the 200 level.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The study of History provides an essential component of liberal arts education and offers valuable preparation for careers in law, journalism, teaching, government, the ministry, library and museum work, and in those areas of the business world where a knowledge of foreign a fairs and culture is desirable. History also serves as an indispensable adjunct to careers in the humanities and social sciences. More broadly, by exposure to a variety of cultures and human experiences, the discipline of History seeks to prepare students for the responsibilities of citizenship and for dealing with the ambiguities of human existence. The Department of History at Marshall also makes every effort to help students think critically, to view events with perspective and objectivity, and to appreciate the complexity of human experience and the difficulty of interpreting it.

Teaching, M.A.T.

History majors should explore as early as possible in their undergraduate program the graduate option of the Master of Arts in Teaching. The MAT combines the academic content of a history undergraduate degree with graduate professional education and clinical experiences. The MAT provides an alternative and accelerated means for teaching certification in grades 5-12. For information please see https://www.marshall.edu/coepd/m-a-t/.

Department of Modern Languages

Contacts: Dr. Rosario Quintana-Villamandos, Chair
Website: http://www.marshall.edu/language/

language@marshall.edu

The study of foreign languages emphasizes the development of critical thinking skills—increased powers of observation, analysis, logical reasoning, memory, and adaptability—that are immediately transferable to other areas of higher education and to a diversity of careers. In learning to understand, speak, read, and write a foreign language a student acquires direct access to another view of the world at a time when intercultural understanding, at both the national and international levels, has become an urgent priority.

Languages

Students can fulfill their foreign language requirement by taking 12 hours of French, German, Greek, Japanese, Latin, or Spanish (101-204) or by passing the 204 course in any of the languages offered by the department. The Department of Modern Languages offers a major in French, Japanese, and Spanish; or a minor in French, German, Japanese, and Spanish. The department has created special designators, MDL 280 Special Topics-MDL 283 Special Topics and MDL 480 Special Topics-MDL 483 Special Topics, in order to offer courses in languages not in the catalog that may be offered from time to time. The MDL designators also allow students to transfer credit in languages not regularly taught in this department.

Opportunities

Majors in foreign languages have opportunities in the fields of law, government, translation and interpretation, education, communications media, library and museum science, publishing, law enforcement, international business, and the travel industry.

Major in a Modern Language

A major in one of the modern foreign languages consists of ten courses, typically thirty semester hours, in the same language. Courses taken at Marshall are three credit hours each. Courses that transfer from study abroad may transfer as four credit hours, but each of these courses is to be considered equivalent to one three-hour Marshall course. Courses numbered 101 do not count toward the major.

Course Sequence/ Prerequisites

Courses must be taken in sequence except by permission of the chair. Students enrolled without proper course prerequisites will be administratively withdrawn. A grade of *C* or better is required in the 101, 102, 112, and 203 language courses in order to continue to the next course.

Placement Tests

Students who have had 1-2 years of language in high school and wish to continue in that language should register for 101. Students who have had three or more years of a language in high school should take a placement test to see where in the elementary/intermediate (101-204) sequence they should begin their language. All students wishing to take a placement exam in any of the languages (French, Japanese or Spanish) must register with the department office administrator. Students cannot take a placement examination after they have started a language at Marshall or any other university. Students also should not take the placement test until they are ready to start a language. Students who successfully place into a course above 101 can receive up to nine hours back credit for the courses they have placed out of provided that they take and pass with a grade of *C* or better the next course in the sequence. Back credit is awarded only in the semester in which the student takes the next course.

Policy on Native Speakers

A native or heritage speaker of a language must take a placement test before enrolling in courses numbered 101-204 in his or her native tongue.

Credit Transfer

The Department of Modern Languages does not accept the transfer of credits earned in courses taken in online courses. Students wishing to receive foreign language credit from other schools or from study abroad programs must consult the Department of Modern Languages prior to enrolling in any of those programs.

Capstone Policy and Final Skills Assessment

Graduating majors in French will designate one 400-level literature or culture course in their senior year as the capstone experience. In exceptional cases another upper-division course may be so designated with permission of the chair. In addition to completing the normal

capstone course requirements the student will also complete a language project that will demonstrate his/her integration of the various competencies developed throughout his or her foreign language study. The project will be delivered in a class presentation toward the end of the term. Graduating majors in Japanese and Spanish will take JPN 490 Japanese Capstone or SPN 490 Spanish Capstone Experience to fulfill their capstone requirement.

Summer Study Programs Abroad

Spanish Language and Culture Program in Madrid, Spain

Students can earn six hours of academic credit in a month (June or July) or twelve hours of academic credit in two months (June and July) by studying at the Centro de Estudios Hispánicos of the Universidad Antonio de Nebrija in Madrid, Spain. The program offers courses in the Spanish language at elementary, intermediate, and advanced levels. It also offers courses in composition, conversation, literature, history and art. The instructors are native speakers of Spanish who hold advanced university degrees and who are fully accredited by the Spanish Ministry of Education. A Marshall University professor will accompany the group and will provide supervision, assistance and supplemental instruction.

Every year the students enrolled in the program depart the 30th of May and return June 30 or July 31st. While in Madrid, students reside with families. The cost of the program includes tuition (6 or 12 hours) and room and board (two meals a day) for a month or two. Contact the Dept. of Modern Languages for specific information and to obtain application forms.

Programs

- French, B.A. (p. 305)

Taught in English, this course examines the interplay of cultural, ideological, and structural factors affecting women's lives in Latin America.
Pre-req: ENG 201 or ENG 102 or ENG 201H.
Grade Mode: Normal Grading Mode

SPN 411 Pre-Modern Latin Am Lit **3 Credit hours**
A study of representative Latin American literary works from Pre-Colonial and Colonial periods and the 19th century. Course taught in Spanish. (PR: SPN 315/316 or SPN 323/324 or permission.)
Pre-req: SPN 315 or SPN 316 or SPN 323 or SPN 324.
Attributes: International, Literature
Grade Mode: Normal Grading Mode

SPN 412 Contemporary Lat Am Lit **3 Credit hours**
A study of a selection of Latin American authors and works representative of the major literary movements in Latin America, from Modernism to present. Course taught in Spanish. (PR: SPN 315/316 or SPN 323/324 or permission)
Pre-req: SPN 323 or SPN 324 or SPN 315 or SPN 316.
Attributes: Literature
Grade Mode: Normal Grading Mode

SPN 413 Lit Genres & Issues in LA **3 Credit hours**
Study of poetry, fiction, drama, essays etc. in Latin America. At the discretion of the instuctor, literary genres will be crossed with approaches such as gender, race, religion, ethnicity, etc. Course taught in Spanish. (PR: SPN 315/316 or SPN 323/324 or permission).
Pre-req: SPN 315 or SPN 316 or SPN 323 or SPN 324.
Attributes: Literature
Grade Mode: Normal Grading Mode

SPN 414 Med, Ren & Gld Cnt Spn Lit **3 Credit hours**
Study of the representative Spanish authors and literary works and the major intellectual movements in peninsular literature from Medieval times to Spain's Golden Century. Course taught in Spanish. (PR: SPN 315/315 or SPN 323/324 or permission).
Pre-req: (SPN 315 with a minimum grade of D or SPN 316 with a minimum grade of D) or (SPN 323 with a minimum grade of D or SPN 324 with a minimum grade of D).
Attributes: Literature
Grade Mode: Normal Grading Mode

SPN 415 Spanish Lit: 18th & 19th Cent **3 Credit hours**
Study of the representative Spanish authors and the major intellectual movements in peninsular literature during the 18th and 19th centuries. Course taught in Spanish. (PR: SPN 315/316 or SPN 323/324 or permission).
Pre-req: SPN 315 or SPN 316 or SPN 323 or SPN 324.
Attributes: Literature
Grade Mode: Normal Grading Mode

SPN 416 Contemporary Spanish Lit **3 Credit hours**
Study of the representative Spanish authors and literary works and the major intellectual movements in peninsular literature from the Generation of 1898 to the present. Course taught in Spanish. (PR: SPN 315/316 or SPN 323/324 or permission).
Pre-req: SPN 315 or SPN 316 or SPN 323 or SPN 324.
Attributes: Literature
Grade Mode: Normal Grading Mode

SPN 417 Spanish Film **3 Credit hours**
Course on selected films by Spanish and Spanish-American directors and on films based on literature, with an emphasis on Spain. Reviews by contemporary film critics. Film and literary theory. (PR: SPN 204).
Pre-req: SPN 204.
Attributes: Literature
Grade Mode: Normal Grading Mode

SPN 418 Latin American Film **3 Credit hours**
Course on selected films by Spanish and Spanish-American directors and on films based on literature, with an emphasis on Latin and South America. Reviews by contemporary film critics.
Pre-req: SPN 204.
Attributes: Literature
Grade Mode: Normal Grading Mode

SPN 419 Against Oppression SPN LA Film **3 Credit hours**
Thematic study of films from Spain and Latin America that concern religious, sexual and sociopolitical oppression, violence and transgressions. Taught in English.
Pre-req: ENG 101 or ENG 101B or ENG 101P or ENG 160.
Grade Mode: Normal Grading Mode

SPN 420 Afro-Latin America **3 Credit hours**
Study of various modes of Afro-Latin cultural production, including literature, film, music and other Fine Arts with emphasis on the 20th and 21st centuries. Taught in English.
Pre-req: ENG 201 or ENG 102.
Attributes: International
Grade Mode: Normal Grading Mode

SPN 433 Int Adv Spn Gram **3 Credit hours**
This course will review and expand specific, advanced Spanish language structural points. it will include daily intensive practive in the four linguistic skills. Course taught in Spanish.
Pre-req: (SPN 315 or SPN 316) and (SPN 323 or SPN 324).
Grade Mode: Normal Grading Mode

SPN 435 Contemporary Latin Am Culture **3 Credit hours**
Course based on the origins of issues confronting contemporary Spain: the war and its aftermath, the transition to democracy and modernization, the European Union, terrorism, regional autonomy, feminism, and sexual identity.
Pre-req: SPN 315 or SPN 316 or SPN 323 or SPN 324.
Attributes: International
Grade Mode: Normal Grading Mode

SPN 436 Cult & Soc in Cont Spn **3 Credit hours**
Course based on origins of issues confronting contemporary Spain: the war's aftermath, transition to democracy and modernization, the European Union, terrorism, regional autonomy, feminism, sexual identity. Course taught in Spanish.
Pre-req: (SPN 315 or SPN 316) or (SPN 323 or SPN 324).
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SPN 480 Special Topics **1-4 Credit hours**
Independent research for qualified students who are interested beyond the other courses in the catalog. Independent research for qualified students who are interested beyond the other courses in the catalog.
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 481 Special Topics **1-4 Credit hours**
Independent research for qualified students who are interested beyond the other courses in the catalog. Independent research for qualified students who are interested beyond the other courses in the catalog.
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 482 Special Topics **1-4 Credit hours**
Independent research for qualified students who are interested beyond the other courses in the catalog. Independent research for qualified students who are interested beyond the other courses in the catalog.
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 483 Special Topics **1-4 Credit hours**
Independent research for qualified students who are interested beyond the other courses in the catalog. Independent research for qualified students who are interested beyond the other courses in the catalog.
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 485 Independent Study **1-4 Credit hours**
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 486 Independent Study **1-4 Credit hours**
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 487 Independent Study **1-4 Credit hours**
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 488 Independent Study **1-4 Credit hours**
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 490 Spanish Capstone Experience **3 Credit hours**
Students develop skills to conduct research on a topic from their area of concentration and to present a research project in Spanish. (PR: two 400-level SPN courses or permission).
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Faculty

Professors
Burgueño, Migernier, Morillo, RIvas

Associate Professors
Anderson, Butler, Gratchev, Quintana-Villamandos

Assistant Professors
Day, Shangler

French, B.A.

Major Information

- The total number of free electives will depend on the amount of double and triple counting of requirements.
- See course attributes each semester for courses that meet multiple requirements.
- Questions about requirements should be directed to the College of Liberal Arts (304-696-2350). Core II and COLA requirements may not be double counted.
- Forty-eight credit hours (sixteen 3-hour courses) must be at the 300/400 level.
- Students must earn a *C* or better in ENG 201 Advanced Composition and all foreign language courses.
- Minimum of 120 hours to graduate.
- A major in one of the modern foreign languages consists of ten courses, typically thirty semester hours, in the same language. Courses taken at Marshall are three credit hours each. Courses that transfer from study abroad may transfer as four credit hours, but each of these courses is to be considered equivalent to one three-hour Marshall course. Courses numbered 101 do not count toward the major.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The study of foreign languages emphasizes the development of critical thinking skills—increased powers of observation, analysis, logical reasoning, memory, and adaptability—that are immediately transferable to other areas of higher education and to a diversity of careers. In learning to understand, speak, read, and write a foreign language a student acquires direct access to another view of the world at a time when intercultural understanding, at both the national and international levels, has become an urgent priority.

Public Administration, Accelerated Master's Degree

Students who have completed at least 90 hours towards their bachelor's degrees, have at least a 3.3 overall undergraduate GPA, and a 3.3 GPA in Political Science are eligible to apply for our Master of Public Administration (M.P.A.) Accelerated Master's Degree program. A GRE score is not required. Students accepted into the program can begin taking graduate coursework up to a maximum of 12 hours in place of elective undergraduate courses. Students reduce the number of hours required to complete the bachelor's degree by the number

of graduate hours they complete (up to a maximum of 12). They must meet all the other degree requirements for their bachelor's degrees while they work on their master's degrees. Interested students are encouraged to discuss this option with their advisors to obtain further details and information on the application process.

Department of Psychology

Contacts: Dr. Marianna Linz, Chair
Website: http://www.marshall.edu/psych/

linz@marshall.edu

Psychology is the scientific study of human cognition, affect, behavior, and relationships. Psychologists seek to understand, predict and influence behavior through research into a wide range of issues which affect human functioning, including social, physiological, developmental, cognitive and emotional factors. Research methodology is central to the discipline, and all Psychology majors learn about research strategies and methods of data analysis.

Courses

- General Education Course

PSY 100 Psychology as a Major **1 Credit hour**
Prepares students to be successful undergraduate Psychology majors and introduces possible careers and educational requirements. Prepares students to be successful undergraduate Psychology majors and introduces possible careers and educational requirements.
Grade Mode: Normal Grading Mode

PSY 201 Introductory Psychology (CT) **3 Credit hours**
Principles and methods in the scientific study of behavior. Principles and methods in the scientific study of behavior.
Attributes: Critical Thinking, Core II Social Sciences
Grade Mode: Normal Grading Mode

PSY 201H General Psychology-Honors (CT) **3 Credit hours**
For the superior student. For the superior student.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Critical Thinking, Core II Social Sciences
Grade Mode: Normal Grading Mode

PSY 204 Psychology of Adjustment **3 Credit hours**
Modes of personal and social adjustment; assessment and treatment techniques. Modes of personal and social adjustment; assessment and treatment techniques.
Grade Mode: Normal Grading Mode

PSY 205 Intro Paraprof Mental Health **3 Credit hours**
Course covers paraprofessional mental health career options; community resource utilization, deinstitutionalization, crisis/interpersonal intervention and special populations. On-site observation experience required.
Pre-req: PSY 201.
Grade Mode: Normal Grading Mode

PSY 223 Elem Behavioral Stat **3 Credit hours**
Orientation to the philosophy of science; survey of methods in behavior study; elementary statistics. Orientation to the philosophy of science; survey of methods in behavior study; elementary statistics.
Pre-req: (PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D) and (MTH 121 with a minimum grade of D or MTH 121B with a minimum grade of D or MTH 122 with a minimum grade of D or MTH 125 with a minimum grade of D or MTH 127 with a minimum grade of D or MTH 130 with a minimum grade of D or MTH 132 with a minimum grade of D or MTH 140 with a minimum grade of D or MTH 140H with a minimum grade of D or MTH 160 with a minimum grade of D or MTH 220 with a minimum grade of D or (STA 150 with a minimum grade of D and STA 150L with a minimum grade of D) or (STA 150B with a minimum grade of D and STA 150L with a minimum grade of D) or MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D).
Attributes: Core II Social Sciences, Statistics
Grade Mode: Normal Grading Mode

PSY 223L Elem Behavioral Stats Lab **1 Credit hour**
A laboratory course accompanying PSY 223, emphasizing experiential excercises related to methodology and research in psychology.
Pre-req: MTH 121.
Co-req: PSY 223
Grade Mode: Normal Grading Mode

PSY 250 Psychology of Pop Culture **3 Credit hours**
This course surveys how psychology and psychological issues are presented, researched, and applied in multiple modalities of popular culture.
Pre-req: PSY 201.
Grade Mode: Normal Grading Mode

PSY 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PSY 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PSY 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PSY 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PSY 300 Paranormal Phenomena **3 Credit hours**
Investigation of such putative paranormal events as ESP, clairvoyance, UFO's, ghosts, astral projecttion, astrology, and related topics. Emphasis on evaluation of evidence using the scientific method and scientific criteria. Investigation of such putative paranormal events as ESP, clairvoyance, UFO's, ghosts, astral projecttion, astrology, and related topics. Emphasis on evaluation of evidence using the scientific method and scientific criteria.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 302 Social Psychology **3 Credit hours**
Social determinants of individual behavior. Social determinants of individual behavior.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 310 Beh Int Paraprof Mental Health **3 Credit hours**
Course covers behavioral theory, antecedent motivators, functional analysis, reinforcement regimes; preparing and following treatment plans, defining measurable goals/objectives, monitoring progress.
Pre-req: PSY 205.
Grade Mode: Normal Grading Mode

PSY 311 Child Development **3 Credit hours**
Psychological characteristics and personal and social problems of developmental periods. Psychological characteristics and personal and social problems of developmental periods.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 312 Adult Development **3 Credit hours**
Study of the physiological, psychological, and social processes that occur throughout adult development. Study of the physiological, psychological, and social processes that occur throughout adult development.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 323 Experimental Psychology **3 Credit hours**
Methodology and research in psychology. 2 lec-2 lab. Methodology and research in psychology. 2 lec-2 lab.
Pre-req: PSY 223 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 324 Sensation & Perception **3 Credit hours**
Methodology and research in sensory and perceptual processes. Methodology and research in sensory and perceptual processes.
Pre-req: PSY 223 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 330 Human Sexual Behavior **3 Credit hours**
A psychological approach to the functioning, attitudes, varieties and development of human sexual behavior. A psychological approach to the functioning, attitudes, varieties and development of human sexual behavior.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 350 Animal Behavior **3 Credit hours**
A comprehensive study of the behavior of non-human animals. A comprehensive study of the behavior of non-human animals.
Pre-req: PSY 201 or PSY 201E or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 360 Personality **3 Credit hours**
Personality structure, dynamics and development. Personality structure, dynamics and development.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 391 Psychology Of Aggression **3 Credit hours**
A multifaceted study of aggressive behavior in humans and other animals. Topics include biological and learned components of aggression, sex differences in aggression, violent crimes and personalities, media violence, and control of personal and group aggesssion. A multifaceted study of aggressive behavior in humans and other animals. Topics include biological and learned components of aggression, sex differences in aggression, violent crimes and personalities, media violence, and control of personal and group aggesssion.
Pre-req: PSY 201 or PSY 201E or PSY 201H and (PSY 302 or PSY 311 or PSY 408).
Grade Mode: Normal Grading Mode

PSY 406 Psychometrics **3 Credit hours**
Mental test theory and applicatons. Mental test theory and applicatons.
Pre-req: PSY 223 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 408 Abnormal Psychology **3 Credit hours**
An overview of the theories, assessment techniques, and treatment of maladaptive behavior. An overview of the theories, assessment techniques, and treatment of maladaptive behavior.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 411 Adv Topics Developmental Psy **3 Credit hours**
This course will provide an advanced study of topics regarding change throughout the lifespan. Emphasis will be on understanding the interactions of biological, psychological and social factors. This course will provide an advanced study of topics regarding change throughout the lifespan. Emphasis will be on understanding the interactions of biological, psy- chological and social factors.
Pre-req: PSY 311.
Grade Mode: Normal Grading Mode

PSY 415 Cognitive Psychology **3 Credit hours**
Theoretical and empirical approaches to the role of pattern recognition, attention, memory, language, problem solving and decision making in human thinking.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 416 Psychology of Learning **3 Credit hours**
Critical study of the major theories of learning and the related research. Critical study of the major theories of learning and the related research.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 417 Inter Behavioral Stat **3 Credit hours**
An intermediate level presentation of descriptive and inferential statistics as applied in behavioral research. 2 lec-2 lab. An intermediate level presentation of descriptive and inferential statistics as applied in behavioral research. 2 lec-2 lab.
Pre-req: PSY 223 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 418 Psychology of Personnel **3 Credit hours**
Psychological principles and methods applied to functions in personnel administration. Psychological principles and methods applied to functions in personnel administration.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 420 Intro to I-O Psychology **3 Credit hours**
A systematic study of the application of psychological methods and principles in business and industry. Emphasis is on research methods, motivation, training, leadership, personnel selection, employee safety, and job satisfaction.
Pre-req: PSY 201 with a minimum grade of D or PSY 201E with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 425 Psychology of Cinema Symbolism **3 Credit hours**
Analysis of how signs, symbols, and archetypes influence the individual and collective psyche via film.
Grade Mode: Normal Grading Mode

PSY 426 Cross Cultural Psychology **3 Credit hours**
Emic and etic cultural concepts are considered from an American (subcultural) and international perspective. Cultural influences on healing, health and service are covered. Emic and etic cultural concepts are considered from an American (subcultural) and international perspective. Cultural influences on healing, health and service are covered.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

PSY 430 Psychology of Women **3 Credit hours**
This course explores theories, findings, and social issues regarding the psychology of women and gender, with emphasis on gender role socialization on people's beliefs and behaviors across the lifespan. This course explores theories, findings, and social issues regarding the psychology of women and gender, with emphasis on gender role socialization on people's beliefs and behaviors across the lifespan.
Pre-req: PSY 201 or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 433 Currt Models Psychotherapy **3 Credit hours**
Introduction of theoretical models and related therapeutic strategies which influence the practice of modern psychotherapy. Introduction of theoretical models and related therapeutic strategies which influence the practice of modern psychotherapy.
Pre-req: PSY 360 with a minimum grade of D or PSY 408 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 435 Psych of Conspiracy Theory **3 Credit hours**
Understand, identify, and give critical analysis to the psychological and social factors that promote the support and belief of conspiracy theory.
Grade Mode: Normal Grading Mode

PSY 440 Physiological Psychology **3 Credit hours**
The relationships between physiological functions and biochemical processes and behavior. The relationships between physiological functions and biochemical processes and behavior.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 443 Health Psychology **3 Credit hours**
Introduction to the contribution of psychology to the promotion and maintenance of health and the prevention and treatment of illness.
Pre-req: (PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D) and PSY 323 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 456 Research in Psychology **3 Credit hours**
Laboratory courses to give advanced students experience in conducting psychological research. Laboratory courses to give advanced students experience in conducting psychological research.
Pre-req: PSY 223 with a minimum grade of D and PSY 323 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

PSY 457 Research in Psychology **3 Credit hours**
Laboratory courses to give advanced students experience in conducting psychological research. Laboratory courses to give advanced students experience in conducting psychological research.
Pre-req: PSY 201 with a minimum grade of D or PSY 201E with a minimum grade of D or PSY 201H with a minimum grade of D.
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

PSY 460 History & Systems **3 Credit hours**
An examination of the historical and philosophical antecedents of contemporary psychology. An examination of the historical and philosophical antecedents of contemporary psychology.
Pre-req: (PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D) and PSY 223 with a minimum grade of D and PSY 323 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

PSY 465 Love Intimacy and Attachment **3 Credit hours**
Examination of how childhood attachments, bonds, and relationships affect and influence adult perspectives on love, expectations, intimacy, fidelity, and commitment. Examination of how childhood attachments, bonds, and relationships affect and influence adult perspectives on love, expectations, intimacy, fidelity, and commitment.
Pre-req: PSY 311.
Grade Mode: Normal Grading Mode

PSY 470 I-O Psych Practicum **3 Credit hours**
The course will offer students applied observational/research experience in Personnel/Human Resource Departments under the supervision of professionals within the fields of Industrial-Organizational Psychology and Human Resources. (PR: Psy 4l8 or Psy 420 and Permission.) The course will offer students applied observational/re- search experience in Personnel/Human Resource Departments under the supervision of professionals within the fields of Industrial-Organizational Psychology and Human Resources. (PR: Psy 4l8 or Psy 420 and Permission.)
Pre-req: PSY 418 or PSY 420.
Grade Mode: Normal Grading Mode

PSY 471 Practicum in Clinical PSY **3 Credit hours**
Students work 6 hours per week in a local clinical setting where they have the opportunity to observe individual and group therapy, psychological testing, staff meetings, etc. PR: l2 hours of PSY including 408 and Permission of Instructor Students work 6 hours per week in a local clinical setting where they have the opportunity to observe individual and group therapy, psychological testing, staff meetings, etc. PR: l2 hours of PSY including 408 and Permission of Instructor
Pre-req: PSY 408.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

PSY 475 Race Culture and Development **3 Credit hours**
Examine the roles that race, ethnicity, and culture play in the physical, cognitive, intellectual, and social developmental processes of people of color. Examine the roles that race, ethnicity, and culture play in the physical, cognitive, intellectual, and social developmental processes of people of color.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 480 Special Topics **1-4 Credit hours**
Pre-req: PSY 201 or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 481 Special Topics **1-4 Credit hours**
Pre-req: PSY 201 or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 482 Special Topics **1-4 Credit hours**
Pre-req: PSY 201 or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 483 Special Topics **1-4 Credit hours**
Pre-req: PSY 201 or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 485 Independent Study **1-4 Credit hours**
A course or seminar on some aspect of Psychology not otherwise treated in regular course offerings. A course or seminar on some aspect of Psychology not other- wise treated in regular course offerings.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 486 Independent Study **1-4 Credit hours**
A course or seminar on some aspect of Psychology not otherwise treated in regular course offerings. A course or seminar on some aspect of Psychology not other- wise treated in regular course offerings.
Pre-req: PSY 201 with a minimum grade of D or PSY 201E with a minimum grade of D or PSY 201H with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

PSY 487 Independent Study **1-4 Credit hours**
A course or seminar on some aspect of Psychology not otherwise treated in regular course offerings. A course or seminar on some aspect of Psychology not other- wise treated in regular course offerings.
Pre-req: PSY 201 or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 488 Independent Study **1-4 Credit hours**
A course or seminar on some aspect of Psychology not otherwise treated in regular course offerings. A course or seminar on some aspect of Psychology not other- wise treated in regular course offerings.
Pre-req: PSY 201 or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 490 Intro to Teaching in Psych **3 Credit hours**
This course is designed to provide students with an introductory experience to teaching in psychology.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

PSY 491 Intro to Teaching in Psych **3 Credit hours**
This course is designed to provide students with an introductory experience to teaching in psychology.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

PSY 499 PSY Capstone Seminar **3 Credit hours**
A capstone course which integrates research methods, critical analysis, and problem solving applied to psychological questions and issues. A capstone course which integrates research methods, critical analysis, and problem solving applied to psychological questions and issues.
Pre-req: PSY 223 with a minimum grade of D and PSY 323 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Faculty

Professors
Beard, Footo-Linz, Fugett-Fuller, LeGrow, Mulder, Pittenger, Tiano

Associate Professors
Atkins, Day-Brown, Goel, Hinton, Koontz, Linz

Assistant Professors
Boggess, Canady, Halley, Toyama

Psychology, Accelerated Master's Degree Program

Students who have completed at least 90 hours towards their bachelor's degrees, have at least a 3.5 overall undergraduate GPA, and a 3.5 GPA in Psychology are eligible to apply for our Accelerated Master's Degree program. Students accepted into the program can begin taking graduate coursework up to a maximum of 12 hours in place of elective undergraduate courses. Students reduce the number of hours required to complete the bachelor's degree by the number of graduate hours they complete (up to a maximum of 12). They must meet all the other degree requirements for their bachelor's degrees while they work on their master's degrees. Interested students are encouraged to discuss this option with their advisors to obtain further details and information on the application process.

Psychology, B.A.

Psychology, Minor

Students may choose to minor in Psychology, which requires a total of 15 credit hours in Psychology. Students are free to choose any 15 hours, but are encouraged to consult with a department faculty member about the appropriate choices, given their educational and career goals.

Department of Sociology and Anthropology

Contacts: Dr. Kristi Fondren, Chair
Website: http://www.marshall.edu/dosa/

Sociology

Sociology is the study of human societies. We ask basic questions like "why do humans do what we do" and "how does society work." Along the way we pick up essential human questions like: What does it mean when we say that we live in a socially constructed reality? What is the place of the individual in society? Do we have "free will," or are our personal actions determined by social forces? Is social life really what Thomas Hobbes called the "war of all against all"? Why do we have social order?

If you have ever thought about questions like these, you might want to consider a degree in Sociology. Humans are social beings and we interact in a social environment. Sociology is the scientific discipline that studies human behavior and social interactions of individuals, groups, organizations and whole societies. Sociology is a science, and was identified in the 1830s as one of the five "mother sciences" along with astronomy, chemistry, physics, and biology, and as such overlaps with other social sciences (Political Science, Economics, Psychology, and Anthropology) though we maintain our unique perspective.

Sociology focuses primarily on contemporary societies, though we incorporate a historical and developmental perspective.

The Sociology program at Marshall University offers students the opportunity to study the intricacies of social life: how to negotiate the collaboratively constructed institutions through which our social world works, how social stratification affects opportunities for individuals and groups, how to critically analyze the problems inherent in the way we construct society, how to empirically determine the facts we construct into truths. The social and analytical skills developed through the program are essential for any job dealing with people and organizations – especially those dealing in multiethnic and global environments and that require breadth and adaptability.

You don't often see jobs with "sociologist" in the title, but a Sociology B.A. is recognized as an excellent preparation for a wide variety of occupations, especially for careers in social policy, education, union organizing or other social movements, health care, criminology, aging network, industrial or public relations, marketing, human resource management, organizational research, or community and social services. Of course, Marshall's Sociology program also offers an excellent preparation for professional degrees and/or advanced degrees in Sociology. A recent study by CareerCast.com ranked Sociology as the eighth most appealing job in its analysis of 200 occupations based on job characteristics such as perceived work environment, income, employment outlook, physical demands, security, and stress.

The Sociology program at Marshall seeks to ensure that each student develops a solid foundation in the principles, theories and techniques of analysis in the discipline. While allowing for flexibility to accommodate students' diverse interests, the curriculum ensures that students are introduced to social theory, learn to employ the basic methods of the discipline, and take courses that provide a good orientation in the discipline both in breadth and depth.

Students majoring or minoring in Sociology are strongly encouraged to discuss with an advisor (in the department and/or in the office of the dean of the College of Liberal Arts) ways in which the requirements in the major/minor simultaneously cover parts of the general education requirements in the College of Liberal Arts and/or the Core Curriculum.

Honors in Sociology

The very best Sociology students are encouraged to consider graduating with program honors. To graduate with Honors in Sociology a student must enroll in two subsequent 3 credit courses for a total of 6 credits over one year. A 3 credit SOC 485 Independent Study followed by SOC 493 Senior Seminar II will be the ordinary sequence, but if necessary the courses can be taken in the reversed order.

The prerequisites for obtaining permission to pursue the Honors in Sociology option are: the student must be a declared Sociology major in Junior or Senior standing, have a GPA in all concluded Sociology classes of a minimum of 3.5, and have a written agreement with a faculty member, who will act as the advisor. In the first term, the student will prepare a study plan and literature review for an independent research project; at the end of the term, this work must be presented to a committee of at least three faculty members who will together determine the grade.

The prerequisites for pursuing the second term of the honors option include: an *"A"* in the first term, a GPA in all concluded Sociology classes of a minimum of 3.5, and written permission by the advisor. In the second semester, the student will conduct the proposed research project and report her/his findings (the report will ordinarily be a written paper, but can be supplemented by presentations in other media – an exhibition, a film, etc.). At the end of the term, this work must be presented to a committee of at least three faculty members who will together determine the grade. The grade *"A"* for the work in the second term will be recognized on the student's transcript as "Graduating with Honors in Sociology."

Anthropology

Anthropology is the systematic study of humans, their practices, and the myriad ways they experience these practices. Anthropologists study humanity in its diverse cultural, social, physical and linguistic forms. As an academic discipline, Anthropology bridges the humanities and social sciences in addressing fundamental questions having to do not only with how the human world works and how people negotiate their social and cultural realities but also with what it *means* to be human. Anthropology draws from prehistorical, historical, and contemporary cases and is distinct in addressing all levels of sociopolitical organization and subsistence strategies ranging from foraging bands and horticultural tribes to modern industrialized states and the globalized realities of the world today. Anthropology is, by its nature, interdisciplinary and international in both theory and practice.

Our program offers students from diverse backgrounds the opportunity to thoroughly and creatively explore the world and peoples around them. Anthropology classes stress the exchange of ideas and build strength in critical thinking, communication, and intellectual exploration. An anthropological perspective will become increasingly important in the 21st century. There is today a growing demand for sensitivity to the values, beliefs, and cultural structures of other groups that might be different from one's own. In all parts of society, people progressively need the ability to live, work, and appreciate diversity while simultaneously becoming more aware of the relations that connect various groups and the commonalities they share.

As reported by the American Anthropological Association and the Society for American Archaeology, demand for graduates with degrees in Anthropology is high. Anthropology graduates work in many fields in which research on humans and their behavior is needed, including private corporations, nonprofit organizations, and government agencies. Anthropology majors commonly find employment in state and federal governments, non-governmental and other international aid organizations, education, business, human resources, social work, historical resource management/field-technicians in archaeology, and, increasingly, health care. Many Anthropology majors continue to graduate school in such fields as: Anthropology, History, Law, Geography or Medicine.

The Anthropology program at Marshall University seeks to ensure that each student develops a solid foundation in the basic principles, theories and techniques of analysis within the discipline. The curriculum ensures that students are introduced to all four disciplinary subfields: social-cultural anthropology, physical-biological anthropology, archaeology, and linguistics. Since students majoring in anthropology vary in their interests and career goals, the curriculum allows for flexibility in developing individual courses of study, including opportunities for involvement in faculty research through course offerings and independent study.

Honors in Anthropology

The very best Anthropology students are encouraged to consider graduating with program honors. To graduate with Honors in Anthropology a student must enroll in two subsequent 3 credit courses for a total of 6 credits over one year. A 3 credit ANT 485 Independent Study followed by ANT 493 Senior Seminar II will be the ordinary sequence, but if necessary the courses can be taken in the reversed order.

The prerequisites for obtaining permission to pursue the Honors in Anthropology option are: the student must be a declared Anthropology major in Junior or Senior standing, have a GPA in all concluded Anthropology classes of a minimum of 3.5, and have a written agreement with a faculty member, who will act as the advisor. In the first term, the student will prepare a study plan and literature review for an independent research project; at the end of the term, this work must be presented to a committee of at least three faculty members who will together determine the grade.

The prerequisites for pursuing the second term of the honors option include: an *"A"* in the first term, a GPA in all concluded Anthropology classes of a minimum of 3.5, and written permission by the advisor. In the second semester, the student will conduct the proposed research project and report her/his findings (the report will ordinarily be a written paper, but can be supplemented by presentations in other media – an exhibition, a film, etc.). At the end of the term, this work must be presented to a committee of at least three faculty members who will together determine the grade. The grade *"A"* for the work in the second term will be recognized on the student's transcript as "Graduating with Honors in Anthropology."

- Sociology, Accelerated Master's Degree Program (p. 334)
- Sociology, B.A. (p. 334)
- Sociology, Minor (p. 336)

Courses

- General Education Course

Anthropology

ANT 201 Cultural Anthropology (CT) 3 Credit hours
Introduction to the scientific study of culture with emphasis on the cultures of small-scale societies. This class emphasizes critical thinking skills. Introduction to the scientific study of culture with emphasis on the cultures of small-scale societies. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

ANT 201H Cultural Anthropol Honors (CT) 3 Credit hours
Introduction to the scientific study of culture with emphasis on the cultures of small-scale societies. This class emphasizes critical thinking skills. For the honors student. Introduction to the scientific study of culture with emphasis on the cultures of small-scale societies. This class emphasizes critical thinking skills. For the honors student.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Critical Thinking, Honors, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

ANT 280 Special Topics 1-4 Credit hours
Grade Mode: Normal Grading Mode

ANT 281 Special Topics 1-4 Credit hours
Grade Mode: Normal Grading Mode

ANT 282 Special Topics 1-4 Credit hours
Grade Mode: Normal Grading Mode

ANT 283 Special Topics 1-4 Credit hours
Grade Mode: Normal Grading Mode

ANT 301 Social Statistics 3 Credit hours
Introduction to statistical analysis of social data. Introduction to statistical analysis of social data.
Grade Mode: Normal Grading Mode

ANT 322 Archaeology 3 Credit hours
Introduction to the methods and theory of archaeology. Introduction to the methods and theory of archaeology.
Grade Mode: Normal Grading Mode

ANT 323 Archaeolog Field Train 3-6 Credit hours
Supervised instruction in on-site archaeological data collection, survey and excavation techniques. Supervised instruction in on-site archaeological data collection, survey and excavation techniques.
Grade Mode: Normal Grading Mode

ANT 324 Archaeological Analysis 3 Credit hours
Supervised instruction in processing and analyzing archaeological materials recovered by fieldwork. Supervised instruction in processing and analyzing archaeological materials recovered by fieldwork.
Pre-req: ANT 322.
Grade Mode: Normal Grading Mode

ANT 325 World Prehistory 3 Credit hours
An introduction to the archaeology of pre-literate cultures, from the emergence of Homo Sapiens to the present. An introduction to the archaeology of pre-literate cultures, from the emergence of Homo Sapiens to the present.
Grade Mode: Normal Grading Mode

ANT 326 Classical Archaeology 3 Credit hours
Archaeology of ancient Greece and Rome, and their colonies and imperial domains. Archaeology of ancient Greece and Rome, and their colonies and imperial domains.
Grade Mode: Normal Grading Mode

ANT 331 Physical Anthropology 3 Credit hours
The study of human physical evolution, from the earliest hominins to the present day, based on the study of primatology, human genetics, and the paleontological record. The study of human physical evolution, from the earliest hominins to the present day, based on the study of primatology, human genetics, and the paleontological record.
Grade Mode: Normal Grading Mode

ANT 361 Ethnographic Research **3 Credit hours**
A project-based introduction to ethnographic research design and practice. A project-based introduction to ethnographic research design and practice.
Grade Mode: Normal Grading Mode

ANT 362 Health, Culture & Society **3 Credit hours**
A cross-cultural, historical, and bio-cultural examination through case-study of social and environmental factors that affect human health and disease.
Pre-req: ANT 201 or ANT 201H or SOC 200 or SOC 200H.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

ANT 363 US Culture and the Family **3 Credit hours**
An historically and ethnographically informed consideration of the changing meaning and place of family and work in everyday American life, media, and politics. An historically and ethnographically informed consideration of the changing meaning and place of family and work in everyday American life, media, and politics.
Grade Mode: Normal Grading Mode

ANT 364 Expressive Culture **3 Credit hours**
Exploration of expressive cultural forms in the construction of personal and communal identities and their meaningful attachment to particular geographic places. Exploration of expressive cultural forms in the construction of personal and communal identities and their meaningful attachment to particular geographic places.
Attributes: Social Sciences
Grade Mode: Normal Grading Mode

ANT 365 Anthropology through Film **3 Credit hours**
Exploration of film as general anthropological field of interest with emphasis on understanding selected films as cultural texts and association with particular and changing cultural, political, economics and historical contexts. Exploration of film as general anthropological field of interest with emphasis on understanding selected films as cultural texts and association with particular and changing cultural, political, economics and historical contexts.
Grade Mode: Normal Grading Mode

ANT 371 Linguistic Anthropology **3 Credit hours**
Introduction to the theories and methodologies of linguistic anthropology and to language as a cultural phenomenon and form of diversity.
Attributes: International
Grade Mode: Normal Grading Mode

ANT 372 Methods in Language & Culture **3 Credit hours**
In this course, students will learn a variety of methods for studying language and culture used in anthropology, sociolinguistics, and applied linguistics by collecting and analyzing actual linguistic data
Grade Mode: Normal Grading Mode

ANT 402 Principles of GIS **4 Credit hours**
Introduction to Geographic Information Systems (GIS) principles, techniques, and applications for the social and natural sciences with emphasis on foundational geographic principles in a lecture/lab format. Introduction to Geographic Information Systems (GIS) principles, techniques, and applications for the social and natural sciences with emphasis on foundational geographic principles in a lecture/lab format.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

ANT 411 Deconstructing Appalachia **3 Credit hours**
Exploration of the historical and cultural significance of Appalachia in the American experience and imagination.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

ANT 412 Appalachian Field Exp I **3-6 Credit hours**
Supervised fieldwork in an Appalachian community studying the social and cultural characteristics of the area.
Pre-req: ANT 411.
Grade Mode: Normal Grading Mode

ANT 428 Arch Theory and Analysis **3 Credit hours**
An introduction to archaeological theory and its application to the material record of cultures, past and present.
Grade Mode: Normal Grading Mode

ANT 440 African Cultures **3 Credit hours**
Comparative analysis of the ethnic groups of Africa, using archaeological and ethnographic data.
Attributes: International
Grade Mode: Normal Grading Mode

ANT 441 Oceania **3 Credit hours**
Comparative analysis of the indigenous peoples and cultures of Melanesia and Polynesia, using archaeological and ethnographic data.
Grade Mode: Normal Grading Mode

ANT 442 The Native Americans **3 Credit hours**
Comparative analysis of the indigenous inhabitants of North America, using archaeological and ethnographic data. PR: Six hours of anthropology or departmental permission. Comparative analysis of the indigenous inhabitants of North America, using archaeological and ethnographic data. PR: Six hours of anthropology or departmental permission.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

ANT 445 American Ethnicities **3 Credit hours**
Comparative overview of historical and contemporary patterns of immigration, settlement, and inter-ethnic relations in the United States.
Attributes: International
Grade Mode: Normal Grading Mode

ANT 460 Crime and Custom **3 Credit hours**
This course examines law and legal processes in diverse cultures from anthropological and law and society perspectives.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

ANT 464 Design, Planning & Health **3 Credit hours**
Social scientific study of how places where people live, work, and recreate affect quality of life and overall health with an emphasis on design decisions within urban and regional planning.
Attributes: Digital Humanities, Multicultural
Grade Mode: Normal Grading Mode

ANT 465 Disaster, Culture & Health **3 Credit hours**
Study of contemporary environmental and social problems emphasizing health impacts of natural and technological disasters on communities around the world.
Attributes: Digital Humanities, International
Grade Mode: Normal Grading Mode

ANT 466 Culture and Environment **3 Credit hours**
This course will examine the symbolic and structural dimensions of struggles over defining, organizing, and controlling the natural environment from biocultural perspective.
Attributes: International
Grade Mode: Normal Grading Mode

ANT 467 Culture in Ethnographies **3 Credit hours**
In depth exploration and comparison of diverse cultural groups through reading and discussing ethnographic texts. PR: Six credit hours of anthropology or departmental permission. In depth exploration and comparison of diverse cultural groups through reading and discussing ethnographic texts. PR: Six credit hours of anthropology or departmental permission.
Attributes: International
Grade Mode: Normal Grading Mode

ANT 468 National Identity **3 Credit hours**
Exploration of cultural, political and economic processes that contribute to creation and maintenance of the modern national state as an imagined community.
Grade Mode: Normal Grading Mode

ANT 472 Language, Gender and the Body **3 Credit hours**
Uses methods and theories from anthropology, linguistics, and sociology to examine how gendered bodies in different cultures are constructed through ways of acting in the world.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

ANT 478 Intro to Sociolinguistics **3 Credit hours**
Sociolinguistics is the study of the effects of language in society relevant to discourse practices, language attitudes, variations, shifts and changes.
Pre-req: ENG 102 or ENG 302 or ENG 201H.
Grade Mode: Normal Grading Mode

ANT 480 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

ANT 481 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

ANT 482 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

ANT 483 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses. Study of topics of interest not ccovered in regularly scheduled courses. PR: Six credit hours of anthropology or deparmental permission.
Grade Mode: Normal Grading Mode

ANT 485 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

ANT 486 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

ANT 487 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

ANT 488 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

ANT 489 Internship **1-4 Credit hours**
Supervised practicum founded on anthropological knowledge in a host institution. 40-45 hours of internship work correspond with 1 credit hour.
Grade Mode: Normal Grading Mode

ANT 491 Theory in Ethnology **3 Credit hours**
Introduction to major theoretical traditions of cultural anthropology with emphasis on the connection between fieldwork and development of theory.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

ANT 492 Senior Seminar I **3 Credit hours**
Application of anthropological theory and practice to individually designed projects. This course fulfills the capstone requirement for undergraduate anthropology majors.
Grade Mode: Normal Grading Mode

ANT 493 Senior Seminar II **3 Credit hours**
Application of anthropological theory and practice to individually designed projects. Fulfills the capstone requirement for undergraduate majors.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Sociology

SOC 200 Introductory Sociology (CT) **3 Credit hours**
Introduction to the study of human society. This class emphasizes critical thinking skills. Introduction to the study of human society. This class emphasizes critical thinking skills.
Attributes: American Institutions, Critical Thinking, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

SOC 200H Intro Sociology Honors (CT) **3 Credit hours**
Introduction to the study of human society for the honors student. This course emphasizes critical thinking skills.
Pre-req: Admitted Honors College with a score of 1.
Attributes: American Institutions, Critical Thinking, Honors, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

SOC 280 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SOC 281 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SOC 282 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SOC 283 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SOC 300 Social Organization **3 Credit hours**
Analysis of sociological conceptual systems and theories. Analysis of sociological conceptual systems and theories.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 310 Individual and Society **3 Credit hours**
Study of sociological perspectives on social interaction and the relationship between the individual and society.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 311 Deviance and Social Control **3 Credit hours**
Study of the basic concepts and theories of deviant behavior and the mechanism of social control.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 313 Contemp Soc Issues and Prob **3 Credit hours**
Analysis of current social issues and problems from a variety of sociological perspectives. Issues and problems will vary from semester to semester.
Pre-req: SOC 200 or SOC 200H or SOC 200E.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 330 Soc of Community Health **3 Credit hours**
An investigation of those social institutions and environmental, social, and personal factors in the community to maintain health and provide support in illness as related to social theory..
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 342 American Society **3 Credit hours**
Sociological analysis of the basic and cultural features of contemporary American society. Sociological analysis of the basic and cultural features of contemporary American society.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 344 Social Research I **3 Credit hours**
Introduction to systematic social research methodology. Introduction to systematic social research methodology.
Pre-req: SOC 200 or SOC 200H.
Grade Mode: Normal Grading Mode

SOC 345 Social Statistics I **3 Credit hours**
Introudction to statistical analysis of social data. Introudction to statistical analysis of social data.
Pre-req: SOC 200 with a minimum grade of D or SOC 200H with a minimum grade of D.
Attributes: Statistics
Grade Mode: Normal Grading Mode

SOC 360 Sociological Theory **3 Credit hours**
Introduction to the dominant theoretical perspectives in sociology examining the assumptions about human nature, society and sociology that constitute each theoretical tradition.
Pre-req: SOC 200 or SOC 200H.
Grade Mode: Normal Grading Mode

SOC 362 Health, Culture and Society **3 Credit hours**
A cross-cultural, historical, and bio-cultural examination through case-study of social and environmental factors that affect human health and disease.
Pre-req: ANT 201 or ANT 201H or SOC 200 or SOC 200H.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SOC 375 Social Stratification **3 Credit hours**
Introduction to the analysis of structured social inequality with emphasis on the dimensions of social class, race and gender.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 401 Population & Human Ecology **3 Credit hours**
The course focuses on population and its relation to characteristics of environment. Specifically, it is designed to discuss the interaction of population processes and resources.
Attributes: International
Grade Mode: Normal Grading Mode

SOC 403 Social Research II **3 Credit hours**
Intermediate social research methodology with emphasis on research design. Intermediate social research methodology with emphasis on research design.
Pre-req: SOC 344.
Grade Mode: Normal Grading Mode

SOC 408 The Family **3 Credit hours**
Theoretical analysis of the family as a primary social institution. Theoretical analysis of the family as a primary social institution.
Pre-req: SOC 200 or SOC 200H.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 413 Social Movements & Soc Change **3 Credit hours**
Analysis of large-scale social change, including intentional social movements and revolutions.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 420 Criminology **3 Credit hours**
An overview of sociological criminology, including an examination of explanations of criminal behavior, types of criminal activity, and an analysis of the criminal justice system.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 423 Social Class Power & Conflict **3 Credit hours**
Theoretical analysis of economic and political inequality and the role of social conflict in the process of large- scale social organization.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 425 Race and Ethnicity **3 Credit hours**
Diverse theoretical approaches to the meaning of race and ethnicity and the character of racial/ethnic relations, with substantive focus primarily on the U.S.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 430 Women in Sports **3 Credit hours**
The history of women in sport, gender equity, opportunities for women in intercollegiate and professional sports (such as participant, coach, trainer, journalist, agent, and promoter), and physiological perspectives.
Grade Mode: Normal Grading Mode

SOC 432 Sociology of Appalachia **3 Credit hours**
Study of the economics, politics, and social relations of Appalachia, including contemporary debates.
Grade Mode: Normal Grading Mode

SOC 433 Sociology of Work **3 Credit hours**
Study of the organization and structure of the work plant as a social system; the meaning and organization of work; managerial functions; management-labor relations; and human relations in industry. Study of the organization and structure of the work plant as a social system; the meaning and organization of work; mana- gerial functions; management-labor relations; and human re- lations in industry.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 440 Intro to the Soc of Aging **3 Credit hours**
An introduction to the social processes and consequences of growing older for both the individual and society.
Pre-req: SOC 200 or SOC 200H.
Grade Mode: Normal Grading Mode

SOC 442 Urban Sociology **3 Credit hours**
The sociology of urban and metropolitan communities. The sociology of urban and metropolitan communities.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 443 Evaluation and Survey Research **3 Credit hours**
Analysis and application of principles/methods of survey design and the theories/methods for assessing the outcomes of applied organizational programs to affect change in people and/or social conditions.
Grade Mode: Normal Grading Mode

SOC 450 Sociology of Religion **3 Credit hours**
Sociological analysis of religion as a social institution. Sociological analysis of religion as a social institution.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 451 Science, Knowledge, and Tech **3 Credit hours**
Exploration of the effects of social factors on the development and authorization of knowledge claims, especially science and technology. Retirement is examined as a process, an event, and a role. Retirement is analyzed from the point of view of the in- dividual and society.
Pre-req: SOC 200.
Grade Mode: Normal Grading Mode

SOC 452 Soc of Death & Dying **3 Credit hours**
Study of death and dying as a societal and cultural phenomenon. Explores how institutions within our society deal with death. Study of death and dying as a societal and cultural phe- nomenon. Explores how institutions within our society deal with death.
Pre-req: SOC 200 with a minimum grade of D or SOC 200H with a minimum grade of D.
Grade Mode: Normal Grading Mode

SOC 455 Sociology of Sex and Gender **3 Credit hours**
Analysis of social differentiation and inequality by gender, with a focus on the contemporary U.S.
Grade Mode: Normal Grading Mode

SOC 460 Holocaust and Genocide **3 Credit hours**
An examination of the Holocaust and other genocides from an interdisciplinary social science perspective. An examination of the Holocaust and other genocides from an interdisciplinary social science perspective.
Grade Mode: Normal Grading Mode

SOC 465 Environment and Society **3 Credit hours**
A critical examination of the link between society and the environment, including ideas about nature, wilderness, and the wild causes of environmental degradation and responses to the environmental issues.
Grade Mode: Normal Grading Mode

SOC 466 Culture and Environment **3 Credit hours**
This course will examine the symbolic and structural dimensions of struggles over defining, organizing, and controlling the natural environment from a biocultural perspective.
Attributes: International
Grade Mode: Normal Grading Mode

SOC 468 National Identity **3 Credit hours**
Exploration of cultural, political and economic processes that contribute to creation and maintenance of the modern nation state as an imagined community.
Grade Mode: Normal Grading Mode

SOC 470 Field Exper in Applied SOC **3-6 Credit hours**
Supervised fieldwork in public or private agencies affording students an opportunity to apply sociological knowledge and skills in addressing practical problems.
Grade Mode: Normal Grading Mode

SOC 480 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses. Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

SOC 481 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses. Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

SOC 482 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regulary scheduled courses. Study of topics of interest not covered in regulary scheduled courses.
Grade Mode: Normal Grading Mode

SOC 483 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses. Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

SOC 485 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SOC 486 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SOC 487 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SOC 488 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SOC 489 Internship **1-4 Credit hours**
Supervised practicum founded on sociological knowledge in a host institution. 40-45 hours of internship work correspond with 1 credit hour. Supervised practicum founded on sociological knowledge in a host institution. 40-45 hours of internship work correspond with 1 credit hour.
Grade Mode: Normal Grading Mode

SOC 492 Senior Seminar I **3 Credit hours**
Application of sociological theory and practice to individually designed projects. This course fulfills the capstone requirement for undergraduate majors. (PR: sociology major in senior standing or departmental permission)
Grade Mode: Normal Grading Mode

SOC 493 Senior Seminar II **3 Credit hours**
Application of sociological theory and practice to individually designed projects. Fulfills the capstone requirement for undergraduate majors. (PR: Anthrolpology major in senior standing or departmental permission)
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Major Information

- The total number of free electives will depend on the amount of double and triple counting of requirements.
- See course attributes each semester for courses that meet multiple requirements.
- Questions about requirements should be directed to the College of Liberal Arts (304-696-2350). Core II and COLA requirements may not be double counted.
- Forty-eight credit hours (sixteen 3-hour courses) must be at the 300/400 level.
- Students must earn a *C* or better in ENG 201 Advanced Composition and all foreign language courses.
- Minimum of 120 hours to graduate.
- ANT Electives: A minimum of 15 credits of electives must be chosen from classes with the ANT prefix. A student with a particular anthropological interest that can be best served by courses **without the ANT prefix** may suggest a coherent selection of up to 9 credits from such classes to be counted towards the major as electives. A plan for such a selection must be presented to and approved by the student's advisor and the department chair in the student's junior year or, for those students entering the program at the junior level, at a time stipulated by the chair.

Areas of Emphasis

- Anthropology of Health, Emphasis (p. 333)
- Archeological Anthropology, Emphasis (p. 333)
- Sociocultural Anthropology, Emphasis (p. 333)

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

From the Greek anthropos ("human") and logia ("study"), anthropology is the study of humankind. For anthropologists, there are few limits on the scope of our inquiry from distant human origins to present day. Our subject matter is both extraordinary (e.g., mortuary practices of the Toraja) and ordinary (anatomy of the human foot). Our focus can be sweeping (the development of language) and minute (use-wear patterns on a prehistoric obsidian tool). Anthropologists may study ancient Egyptian hieroglyphics, intravenous drug use in urban Appalachia, and corporate culture in a U.S. car manufacturer. Anthropology is, by its nature, interdisciplinary and international in both theory and practice. Students pursuing a Bachelors of Art in Anthropology receive foundational training that reflects the scope of the discipline and develop capstone projects that provide career-specific training.

Anthropology of Health, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Code	Title	Credit Hours
Introductory Course		
ANT 362	Health, Culture & Society	3
Ethnographic Research Methods Course		
ANT 361	Ethnographic Research	3
Theory Course in Sociocultural Anthropology		
ANT 467	Culture in Ethnographies	3
or ANT 491	Theory in Ethnology	
Electives		
Select two of the following (or as approved by the faculty in Anthropology):		6
ANT 464	Design, Planning & Health	
ANT 465	Disaster, Culture & Health	
ANT 466	Culture and Environment	
Select one spatial or quantitative data analysis course of the following (or as approved by the faculty in Anthropology):		3-4
ANT 402/ GEO 426	Principles of GIS	
ANT 301/ SOC 345	Social Statistics	
Total Credit Hours		**18-19**

Archeological Anthropology, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Code	Title	Credit Hours
Introductory Course		
ANT 322	Archaeology	3
Archaeological Research Methods Course		
ANT 323	Archaeolog Field Train	3-6
or ANT 324	Archaeological Analysis	
Theory Course in Archaeological Anthropology		
ANT 428	Arch Theory and Analysis	3
Electives		
Select three topical ANT courses from the 320s and 440s (or as approved by the faculty in Anthropology) other than those required in this Area of Emphasis.		9
Total Credit Hours		**18-21**

Sociocultural Anthropology, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Code	Title	Credit Hours
Introductory Course		
ANT 201	Cultural Anthropology (CT)	3
Ethnographic Research Methods Course		
ANT 361	Ethnographic Research	3
Theory Course in Sociocultural Anthropology		
ANT 491	Theory in Ethnology	3
Electives		**9**
Select three topical ANT courses from among those listed in the 350s, 360s, 450s, 460s, and 470s (or as approved by the faculty in Anthropology other than those required in this Area of Emphasis)		
Total Credit Hours		**18**

Anthropology, Minor

The undergraduate Minor in General Anthropology requires 12 credit-hours made of choices from two blocks of courses. From Block I, students are required to choose two courses (6 hours) from foundational, subdisciplinary courses. From Block II, students are required to choose any two ANT courses (6 hours) from either the 300 or 400 level that are not listed in Block I. General Anthropology is intended to provide flexibility to explore introductions to four major sub-disciplines of the field and freely sample related upper-level courses in a way that accommodates students with diverse majors ranging from pre-medicine, pre-law, geography, art history, computer science, engineering, business, environmental sciences, to social work.

Code	Title	Credit Hours
Block 1		
Select two of the following:		6
ANT 201	Cultural Anthropology (CT)	
ANT 322	Archaeology	
ANT 331	Physical Anthropology	
ANT 371	Linguistic Anthropology	
Block 2		
Select two ANT courses from either 300 or 400 level that are not listed in Block I [1]		6
Total Credit Hours		**12**

[1] Students should seek advice from the program and plan for Block II courses that build on choices made in Block I.

Sociology, Accelerated Master's Degree Program

Students who have completed at least 90 hours towards their bachelor's degrees, have at least a 3.5 overall undergraduate GPA, and a 3.5 GPA in Sociology are eligible to apply for our Accelerated Master's Degree program. Students accepted into the program can begin taking graduate coursework up to a maximum of 12 hours in place of elective undergraduate courses. Students reduce the number of hours required to complete the bachelor's degree by the number of graduate hours they complete (up to a maximum of 12). They must meet all the other degree requirements for their bachelor's degrees while they work on their master's degrees. Interested students are encouraged to discuss this option with their advisors to obtain further details and information on the application process.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Sociology is the study of human societies. We ask basic questions like "why do humans do what we do" and "how does society work." Along the way we pick up essential human questions like: What does it mean when we say that we live in a socially constructed reality? What is the place of the individual in society? Do we have "free will," or are our personal actions determined by social forces? Is social life really what Thomas Hobbes called the "war of all against all"? Why do we have social order?

Sociology, Minor

A minor in Sociology requires at least 15 credits. As listed below, 9 of these credits constitute the core of the minor. The remainder of the required credits can be taken from any class with the prefix SOC. A maximum of 6 credits below 300 level can be counted towards the minor.

Code	Title	Credit Hours
SOC 200	Introductory Sociology (CT)	3
SOC 344	Social Research I	3
SOC 360	Sociological Theory	3
Select any two SOC classes [1]		6
Total Credit Hours		**15**

[1] A maximum of 6 credits below 300 level can be counted towards the minor.

Students majoring or minoring in Sociology are strongly encouraged to discuss with an advisor (in the department and/or in the office of the dean of the College of Liberal Arts) ways in which the requirements in the major/minor simultaneously cover parts of the general education requirements in the College of Liberal Arts and/or the Core Curriculum.

Humanities

Contacts: Dr. Del Chrol, Chair, chrol@marshall.edu;

Languages

Students can fulfill their foreign language requirement by taking twelve hours of Greek or Latin.

Opportunities

Degrees in Humanities and Latin offer the same variety of career opportunities as other Liberal Arts degrees. In general, they provide a broad base of knowledge and intellectual skills that enable individuals to be flexible and versatile in a constantly changing job environment. In particular these degrees provide:

a. a solid basis for professional training in law and medicine;
b. preparation for occupations connected with Classical Archaeology;
c. a basis for work in various government positions where there is a long tradition of hiring people with a classical background; and
d. preparation for occupations connected with education, which include teaching in public and private schools as well as at the college and university level.

Programs

- Classics, Minor (p. 347)
- General Humanities, Minor (p. 347)
- Greek, Minor (p. 347)
- Humanities, B.A. (p. 347)
- Latin, B.A. (p. 354)
- Latin, Minor (p. 355)
- Philosophy, Minor (p. 356)
- Religious Studies, Minor (p. 356)

Courses

- General Education Course

Classics

CL 200 Building English Vocab **3 Credit hours**
Study of Latin and Greek word elements to build skill in English vocabulary, both general and technical (or scientific-medical). Study of Latin and Greek word elements to build skill in English vocabulary, both general and technical (or scientific-medical).
Grade Mode: Normal Grading Mode

CL 210 Love/War Ancient World (CT) **3 Credit hours**
Taught in English, this course examines the themes of love and war in Greek and Roman poetry and prose. Taught in English, this course examines the themes of love and war in Greek and Roman poetry and prose.
Attributes: Critical Thinking, Core II Humanities
Grade Mode: Normal Grading Mode

CL 230 Greek & Roman Epic **3 Credit hours**
Introduction to the genre of ancient epic through reading Homer's Iliad and Odyssey and Vergil's Aeneid (or other ancient epics). Introduction to the genre of ancient epic through reading Homer's Iliad and Odyssey and Vergil's Aeneid (or other ancient epics).
Pre-req: ENG 101 with a minimum grade of C or YGS 161 with a minimum grade of C or ENG 101P with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C or ENG 200 with a minimum grade of C.
Attributes: Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 231 Women in Greek & Roman Lit **3 Credit hours**
Taught in English, a thematic study of women in Greek and Roman literature focusing on how a culture's attitudes towards women reflect social, political or ethnic concerns.
Pre-req: ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C or ENG 201 with a minimum grade of C.
Attributes: Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 232 Greek & Roman Drama (CT) **3 Credit hours**
Introduction to Greek and Roman dramatic genres of tragedy and comedy using selected plays of Aeschylus, Sophocles, Euripides, Aristophanes, Seneca, Plautus, and Terence. Introduction to Greek and Roman dramatic genres of tragedy and comedy using selected plays of Aeschylus, Sophocles, Euripides, Aristophanes, Seneca, Plautus, and Terence.
Pre-req: ENG 101 with a minimum grade of C or YGS 161 with a minimum grade of C or ENG 101P with a minimum grade of C.
Attributes: Critical Thinking, Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 233 Greek & Roman Historians (CT) **3 Credit hours**
Thematic study of Greek and Roman historiography by topic as much as by historian, including ancient rehtorical sources on the theory of history. Thematic study of Greek and Roman historiography by topic as much as by historian, including ancient rehtorical sources on the theory of history.
Pre-req: ENG 101 or YGS 161.
Attributes: Critical Thinking, Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 234 Greek & Roman Poetry (CT) **3 Credit hours**
Taught in English, this course examines three periods of Greek and Roman poetry: the Archaic and Hellenistic Ages of Greece and the Golden Age of Rome. Taught in English, this course examines three periods of Greek and Roman poetry: the Archaic and Hellenistic Ages of Greece and the Golden Age of Rome.
Attributes: Critical Thinking, Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 236 Murder in Ancient World (CT) **3 Credit hours**
Taught in English, this is a tehmatic study of the topic of murder as it appears in the genres of tragedy, oratory and history.
Pre-req: ENG 101 or YGS 161 or ENG 101E or ENG 201H or IST 101 or ENG 101P.
Attributes: Critical Thinking, Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 237 Lit in the Time of Nero (CT) **3 Credit hours**
Taught in English this course examines the literature of the first century, CE, and includes the writings of Lucan, Petronius, Seneca, Martial, Juvenal and Tacitus. Taught in English this course examines the literature of the first century, CE, and includes the writings of Lucan, Petronius, Seneca, Martial, Juvenal and Tacitus.
Pre-req: ENG 101 with a minimum grade of D or ENG 101P with a minimum grade of D or ENG 200H with a minimum grade of D or ENG 201H with a minimum grade of D.
Attributes: Critical Thinking, Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 250 Humanities and Film (CT) **3 Credit hours**
An interdisciplinary course to introduce students to the elements of a humanistic education through study of film. (Same as Philosophy 250 and Religious Studies 250; PR or CR: ENG 101)
Pre-req: ENG 101 (may be taken concurrently) with a minimum grade of C or ENG 200H (may be taken concurrently) with a minimum grade of C or ENG 201H (may be taken concurrently) with a minimum grade of C or ENG 101P (may be taken concurrently) with a minimum grade of C.
Concurrent PR: ENG 101 or ENG 200H or ENG 201H or ENG 101P
Attributes: Critical Thinking, Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 280 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

CL 281 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

CL 282 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

CL 283 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

CL 319 Classical Mythology **3 Credit hours**
Study of the development of myth in ancient Greece and Rome; its place in ancient culture and its survival in the modern world. Study of the development of myth in ancient Greece and Rome; its place in ancient culture and its survival in the modern world.
Pre-req: ENG 101 with a minimum grade of C or YGS 161 with a minimum grade of C or ENG 101P with a minimum grade of C.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CL 320 Anc Grk Love & Friendship **3 Credit hours**
A literary survey of ancient Greco-Roman love and friendship as shaped by family, marriage, religion, philosophy and politics. Ancient and modern texts read.
Pre-req: ENG 101 or YGS 161.
Grade Mode: Normal Grading Mode

CL 326 Classical Archaeology **3 Credit hours**
Archaeology of ancient Greece and Rome, and their colonies and their imperial domains. Same as ANT 370. Archaeology of ancient Greece and Rome, and their colonies and their imperial domains. Same as ANT 370.
Grade Mode: Normal Grading Mode

CL 390 Junior Seminar in Humanities **3 Credit hours**
A structured interdisciplinary study offered by the departments of Classics, Philosophy, and Religious Studies in the foundations of human thought, myth, literature, religion, philosophy, art. (Same as Philosophy 390-394 and Religious Studies 390-394)
Pre-req: ENG 201 with a minimum grade of C or ENG 201H with a minimum grade of C or YGS 162 with a minimum grade of C or IST 201 with a minimum grade of D or CL 231 with a minimum grade of D or CL 232 with a minimum grade of D or CL 233 with a minimum grade of D or PHL 200 with a minimum grade of D or PHL 201 with a minimum grade of D or PHL 303 with a minimum grade of D or PHL 321 with a minimum grade of D or PHL 340 with a minimum grade of D or PHL 353 with a minimum grade of D or RST 205 with a minimum grade of D or RST 206 with a minimum grade of D or RST 300 with a minimum grade of D or RST 304 with a minimum grade of D or RST 320 with a minimum grade of D or RST 325 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CL 391 Junior Seminar in Humanities **3 Credit hours**
A structured interdisciplinary study offered by the departments of Classics, Philosophy, and Religious Studies in the foundations of human thought, myth, literature, religion, philosophy, art. (Same as Philosophy 390 - 394 and Religious Studies 390 - 394)
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325 or ENG 201.
Grade Mode: Normal Grading Mode

CL 392 Junior Seminar **3 Credit hours**
A structured interdisciplinary study offered by the department of Classics, Philosophy, and Religious Studies in the foundations of human thought, myth, literature, regligion, philosophy, art. (Same as Philosophy 390 - 394 and Religious Studies 390 - 394)

Grade Mode: Normal Grading Mode

PHL 393 Junior Seminar **3 Credit hours**
Pre-req: ENG 102 with a minimum grade of D or ENG 302 with a minimum grade of D or ENG 201H with a minimum grade of D or ENG 200H with a minimum grade of D or YGS 162 with a minimum grade of D or IST 201 with a minimum grade of D or CL 231 with a minimum grade of D or CL 232 with a minimum grade of D or CL 319 with a minimum grade of D or PHL 200 with a minimum grade of D or PHL 200H with a minimum grade of D or PHL 201 with a minimum grade of D or PHL 201E with a minimum grade of D or PHL 303 with a minimum grade of D or PHL 303E with a minimum grade of D or PHL 321 with a minimum grade of D or PHL 340 with a minimum grade of D or PHL 353 with a minimum grade of D or RST 205 with a minimum grade of D or RST 206 with a minimum grade of D or RST 300 with a minimum grade of D or RST 304 with a minimum grade of D or RST 320 with a minimum grade of D or RST 325 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHL 400 Ancient Philosophy **3 Credit hours**
Advanced study of major philosophers drawn from the ancient Greek and Roman period. Advanced study of major philosophers drawn from the ancient Greek and Roman period.
Grade Mode: Normal Grading Mode

PHL 401 Modern Philosophy **3 Credit hours**
Advanced study of major movements in philosophy from the 17th century on, movements such as rationalism, empiricism, idealism, and existentialism.
Pre-req: PHL 201 or PHL 201E.
Grade Mode: Normal Grading Mode

PHL 420 Metaphysics **3 Credit hours**
Advanced study of the most basic nature of reality. (PR: 3 hrs. of philosophy). Advanced study of the most basic nature of reality. (PR: 3 hrs. of philosophy).
Grade Mode: Normal Grading Mode

PHL 421 Philosophy of Knowledge **3 Credit hours**
Advanced study of the nature and possibility of knowledge. Advanced study of the nature and possibility of knowledge.
Grade Mode: Normal Grading Mode

PHL 451 Phil of History & Culture **3 Credit hours**
Ancient and modern theories of the meaning and consequence of history and culture. Ancient and modern theories of the meaning and consequence of history and culture.
Grade Mode: Normal Grading Mode

PHL 455 Philosophy of Religion **3 Credit hours**
Theories of the nature and functions of religion, including the meaning of religious language and the problems of belief. Theories of the nature and functions of religion, including the meaning of religious language and the problems of belief.
Grade Mode: Normal Grading Mode

PHL 460 Phil of Politics & Power **3 Credit hours**
Advanced study of the significance or the place in human reality of political organization, negotiation, strategy and power.
Grade Mode: Normal Grading Mode

PHL 465 Existential Philosophy **3 Credit hours**
A study of existential philosophers from Kierkegaard to Heidegger, Sartre and beyond. A study of existential philosophers from Kierkegaard to Heidegger, Sartre and beyond.
Grade Mode: Normal Grading Mode

PHL 470 Philosophy of Logic **3 Credit hours**
Advanced study of the nature of logic: whether logic is possible at all, how far it applies, and whether and how there can be conflicting logics.
Grade Mode: Normal Grading Mode

PHL 480 Special Topics **1-4 Credit hours**
Shared study and reserach on a special topic as announced. Shared study and reserach on a special topic as announced.
Grade Mode: Normal Grading Mode

PHL 481 Special Topics **1-4 Credit hours**
Shared study and research on a special topic as announced. Shared study and research on a special topic as announced.
Grade Mode: Normal Grading Mode

PHL 482 Special Topics **1-4 Credit hours**
Shared study and research on a special topic as announced. Shared study and research on a special topic as announced.
Grade Mode: Normal Grading Mode

PHL 483 Special Topics **1-4 Credit hours**
Shared study and research on a special topic as announced. Shared study and research on a special topic as announced.
Grade Mode: Normal Grading Mode

PHL 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PHL 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PHL 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PHL 488 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

PHL 490 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the humanities program. (Same as CL 490 - 494 and RST 490 - 494)
Pre-req: ENG 102 with a minimum grade of D or ENG 302 with a minimum grade of D or ENG 201H with a minimum grade of D or ENG 200H with a minimum grade of D or YGS 162 with a minimum grade of D or IST 201 with a minimum grade of D or CL 231 with a minimum grade of D or CL 232 with a minimum grade of D or CL 233 with a minimum grade of D or CL 319 with a minimum grade of D or PHL 200 with a minimum grade of D or PHL 200H with a minimum grade of D or PHL 201 with a minimum grade of D or PHL 303 with a minimum grade of D or PHL 321 with a minimum grade of D or PHL 340 with a minimum grade of D or PHL 353 with a minimum grade of D or RST 205 with a minimum grade of D or RST 206 with a minimum grade of D or RST 300 with a minimum grade of D or RST 304 with a minimum grade of D or RST 320 with a minimum grade of D or RST 325 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHL 491 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the humanities program. (Same as CL 490 - 494 and RST 490 - 494)
Pre-req: ENG 102 or ENG 302 or ENG 201H or ENG 200H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 200H or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

PHL 492 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the humanities program. (Same as CL 490 - 494 and RST 490 - 494)
Pre-req: ENG 102 or ENG 302 or ENG 201H or ENG 200H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 200H or PHL 201 or PHL 303 or PHL 340 or PHL 321 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

PHL 494 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the humanities program. (Same as CL 490 - 494 and RST 490 -494)
Pre-req: ENG 102 or ENG 302 or ENG 201H or ENG 200H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 200H or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325 or ENG 201.
Grade Mode: Normal Grading Mode

Religious Studies

RST 205 Religious Trads of West **3 Credit hours**
A comparative study of major religious traditions of the Western world: Judaism, Christianity, Islam, Zorastrianism and religions of the Americas. A comparative study of major religious traditions of the Western world: Judaism, Christianity, Islam, Zorastrianism and religions of the Americas.
Attributes: Core II Humanities, International
Grade Mode: Normal Grading Mode

RST 206 Religious Traditions Asia **3 Credit hours**
A comparative study of the major religious traditions of Asia: Hinduism, Buddhism, Confucianism, Taoism and Shinto, and how these religions have influenced Asian thought and cultures. A comparative study of the major religious traditions of Asia: Hinduism, Buddhism, Confucianism, Taoism and Shinto, and how these religions have influenced Asian thought and cultures.
Attributes: Core II Humanities, International
Grade Mode: Normal Grading Mode

RST 207 Biblical Geography **3 Credit hours**
Students explore the physical and human geography of ancient Palestine and assess how geography informs our understanding of people, events, and places described by Jewish and Christian scriptures.
Grade Mode: Normal Grading Mode

RST 220 Lit of Old Testament **3 Credit hours**
Traces the origins, growth and development of the literature of Hebrew people to the Greek period. Includes an introduction to and application of modern tools of biblical study. Traces the origins, growth and development of the literature of Hebrew people to the Greek period. Includes an introduction to and application of modern tools of biblical study.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

RST 225 Lit of New Testament **3 Credit hours**
Traces the origins, growth, and development of the literature of the early Christian church. Includes an introduction to and application of modern tools of biblical study. Traces the origins, growth, and development of the literature of the early Christian church. Includes an introduction to and application of modern tools of biblical study.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

RST 250 Humanities and Film (CT) **3 Credit hours**
An interdisciplinary course to introduce students to the elements of a humanistic education through study of film. (Same as Philosophy 250 and Classics 250; PR or CR: ENG 101)
Pre-req: ENG 101 with a minimum grade of C or ENG 200H (may be taken concurrently) or ENG 201H (may be taken concurrently) or ENG 101P (may be taken concurrently).
Concurrent PR: ENG 101 or ENG 200H or ENG 201H or ENG 101P
Attributes: Critical Thinking, Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

RST 280 Special Topics **1-4 Credit hours**
Research adaptable to the needs of the individual student. Research adaptable to the needs of the individual student.
Grade Mode: Normal Grading Mode

RST 281 Special Topics **1-4 Credit hours**
Research adaptable to the needs of the individual student. Research adaptable to the needs of the individual student.
Grade Mode: Normal Grading Mode

RST 282 Special Topics **1-4 Credit hours**
Research adaptable to the needs of the individual student. Research adaptable to the needs of the individual student.
Grade Mode: Normal Grading Mode

RST 283 Special Topics **1-4 Credit hours**
Research adaptable to the needs of the individual student. Research adaptable to the needs of the individual student.
Grade Mode: Normal Grading Mode

RST 300 The Nature of Religion **3 Credit hours**
An analysis of the nature of religious personalities, institutions, literature, philosophies, experiences, and education. An analysis of the nature of religious personalities, institutions, literature, philosophies, experiences, and education.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

RST 303 World of Islam **3 Credit hours**
An examination of the global cultures of Islam with particular focus upon the origin and development of the religion which binds them together. An examination of the global cultures of Islam with particular focus upon the origin and development of the religion which binds them together.
Attributes: International
Grade Mode: Normal Grading Mode

RST 304 The Teachings of Jesus **3 Credit hours**
An analysis of early Christian writing and a systematic study of the message of the historical Jesus that stands behind it. An analysis of early Christian writing and a systematic study of the message of the historical Jesus that stands behind it.
Attributes: Literature
Grade Mode: Normal Grading Mode

RST 305 Early Christianity **3 Credit hours**
Traces the background, birth, and development of Christian thought from Paul through Augustine. Traces the background, birth, and development of Christian thought from Paul through Augustine.
Grade Mode: Normal Grading Mode

RST 310 The Hebrew Prophets **3 Credit hours**
The rise of the office of prophet and the contributions of prophecy to religion. The rise of the office of prophet and the contributions of prophecy to religion.
Attributes: Literature
Grade Mode: Normal Grading Mode

RST 311 Jewish Holocaust **3 Credit hours**
An examination of the religious/philosophical questions raised by the Holocaust of European Jews: Why and how did it occur? What does it tell us about religion and humanity? An examination of the religious/philosophical questions raised by the Holocaust of European Jews: Why and how did it occur? What does it tell us about religion and humanity?
Grade Mode: Normal Grading Mode

RST 319 ABCs of Orthodoxy **3 Credit hours**
An examination of Eastern Orthodox Christianity from the culture in which it was birthed to its place in today's society. An examination of Eastern Orthodox Christianity from the culture in which it was birthed to its place in today's society.
Grade Mode: Normal Grading Mode

RST 321 The Protestant Faith **3 Credit hours**
An examination of the distinctive historical and theological features of the Protestant movement in Western Christendom, with special attention to the distinctive beliefs and practices of contemporary American denominations. An examination of the distinctive historical and theological features of the Protestant movement in Western Christendom, with special attention to the distinctive beliefs and practices of contemporary American denominations.
Grade Mode: Normal Grading Mode

RST 323 Religion in America **3 Credit hours**
The rise and development of religious thinking in America. (Same as History 323) The rise and development of religious thinking in America. (Same as History 323)
Grade Mode: Normal Grading Mode

RST 324 The Jewish Way of Life **3 Credit hours**
An exploration of the distinctive features of the heritage of modern Judaism. An integrated approach to the study of Jewish religious practices, teachings, literature, and contributions to contemporary life. An exploration of the distinctive features of the heritage of modern Judaism. An integrated approach to the study of Jewish religious practices, teachings, literature, and contributions to contemporary life.
Grade Mode: Normal Grading Mode

RST 351 Classics of Rel Lit **3 Credit hours**
A contextual analysis of selected popular regigious classics, e.g., Foxe's Book of Martyrs, Bunyan's Pilgrim's Progress, St. Augustine's Confessions, Bhagavad-Gita, and the like. A contextual analysis of selected popular regigious classics, e.g., Foxe's Book of Martyrs, Bunyan's Pilgrim's Progress, St. Augustine's Confessions, Bhagavad-Gita, and the like.
Attributes: Literature

RST 360 Hindu Mysticism **3 Credit hours**
A general survey of religious life and mysticism throughout South Asian history. A general survey of religious life and mysticism throughout South Asian history.
Grade Mode: Normal Grading Mode

RST 361 Buddhism **3 Credit hours**
General survey of Buddhist life throughout history and around the world. General survey of Buddhist life throughout history and around the world.
Attributes: International
Grade Mode: Normal Grading Mode

RST 390 Junior Seminar in Humanities **3 Credit hours**
A structured interdisciplinary study offered by the departments of Classics, Philosopy and Religious Studies in the foundations of human thought, myth, literature, religion, philosophy, art. (Same as Classics 390 - 394 and Philosophy 390 - 394).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 391 Junior Seminar in Humanities **3 Credit hours**
A structured interdisciplinary study offered by the departments of Classics, Philosopy and Religious Studies in the foundations of human thought, myth, literature, religion, philosopy, art. (Same as Classics 390 - 394 and Philosophy 390 - 394).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 392 Junior Seminar **3 Credit hours**
A structured interdisciplinary study offered by the departments of Classics, Philosophy and Religious Studies in the foundations of human thought, myth, literature, religion, philosophy, art. (Same as Classics 390 - 394 and Philosopy 390 - 394).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 393 Junior Seminar in Humanities **3 Credit hours**
A structured interdisciplinary study offered by the departments of Classics, Philosophy and Religious Studies in the foundations of human thought, myth, literature, religion, philosophy, art. (Same as Classics 390 - 394 and Philosophy 390 - 394).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 394 Junior Seminar in Humanities **3 Credit hours**
A structured interdisciplinary study offered by the departments of Classics, Philosophy and Religious Studies in the foundations of human thought, myth, literature, religion, philosophy, art. (Same as Classics 390 - 394 and Philosophy 390 - 394).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 419 Rel Thought in West World **3 Credit hours**
An analysis of the major schools of religious thought as they have developed in the West. An analysis of the major schools of religious thought as they have developed in the West.
Grade Mode: Normal Grading Mode

RST 450 Sociology of Religion **3 Credit hours**
An investigation into religion as a social phenomenon. An investigation into religion as a social phenomenon.
Grade Mode: Normal Grading Mode

RST 480 Special Topics **1-4 Credit hours**

RST 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

RST 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

RST 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

RST 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

RST 490 Senior Seminar in Humanities **3 Credit hours**
Disigned for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. (Same as Classics 490 -494 and Philosopy 490 - 494),
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 491 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. (Same as Classics 490 - 494 and Philosphy 490 - 494).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 492 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. Same as Classics 490 - 494 and Philosophy 490 - 494).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 493 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. (Same as Classics 490 - 494 and Philosophy 490 - 494).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 494 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. (Same as Classics 490 -494 and Philosophy 490 - 494).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

Faculty

Professors
Barris, Chrol, Franzen, Ormiston, Powell, Ruff, Vielkind

Assistant Professor
Cummings

Classics, Minor

A minor in Classics consists of fifteen hours drawn from any Classics course except CL 200 Building English Vocab.

General Humanities, Minor

A minor in General Humanities consists of 6 credit hours each from CL, PHL and RST. Variations of distribution must be cleared with the Humanities department chair.

Greek, Minor

A minor in Greek consists of:

Code	Title	Credit Hours
GRK 201	Ancient Greek First Year	3
GRK 202	Ancient Greek First Year	3
GRK 301	Anc Intermed Greek	3
GRK 302	Anc Intermed Greek	3
Select one of the following:		3
CL 435	Greek Civilization	
CL 471	Ancient Sexuality	
CL 472	Rhetoric of Seduction	
Total Credit Hours		**15**

Humanities, B.A.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3

300-400 Free Elective	3
300-400 Free Elective	3
300-400 Free Elective	3
Free Elective	1

Major Information

- The total number of free electives will depend on the amount of double and triple counting of requirements.
- See course attributes each semester for courses that meet multiple requirements.
- Questions about requirements should be directed to the College of Liberal Arts (304-696-2350). Core II and COLA requirements may not be double counted.
- Forty-eight credit hours (sixteen 3-hour courses) must be at the 300/400 level.
- Students must earn a *C* or better in ENG 201 Advanced Composition and all foreign language courses.
- Minimum of 120 hours to graduate

The program consists of 33 hours of coursework in three parts:

- Three courses introducing the specific goals and methods of the three disciplines (9 hours). These courses place special emphasis on the particular discipline's approaches to knowledge, critical thought, skills of expression, and human development. Students must choose from those listed, one for each discipline.
- Department-Approved Courses (15 hours) to be chosen by the student, usually with the advice of a committee of faculty members. Each major may select a small advisory committee to assist with course selection, advising, and long-range planning.
- Three interdisciplinary, team-taught courses (9 hours), in any combination of levels, but including at least one at the 400 level as the senior capstone experience.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Humanities major offers concentrations in Classics, Philosophy, and Religious Studies (CL/PHL/RST). This major is unique in two ways: Students may choose coursework equivalent to a major in a single department or create a broader curriculum of their choice from various humanities courses, and our program also has a strong interdisciplinary side. The goal of the program is to help us deepen our understanding of ourselves and our culture by exploring the way human beings find meaning in their experience. We explore these ways by studying both our own individual insights and the artistic, philosophical and religious works that have expressed and shaped human experience.

Major Information

- The total number of free electives will depend on the amount of double and triple counting of requirements.

- See course attributes each semester for courses that meet multiple requirements.
- Questions about requirements should be directed to the College of Liberal Arts (304-696-2350). Core II and COLA requirements may not be double counted.
- Students must earn a *C* or better in ENG 201 Advanced Composition and all foreign language courses.
- Forty-eight credit hours (sixteen 3-hour courses) must be at the 300/400 level.
- Minimum of 120 hours to graduate.

The program consists of 33 hours of coursework in three parts:

- Three courses introducing the specific goals and methods of the three disciplines (9 hours). These courses place special emphasis on the particular discipline's approaches to knowledge, critical thought, skills of expression, and human development. Students must choose from those listed, one for each discipline.
- Department-Approved Courses (15 hours) to be chosen by the student, usually with the advice of a committee of faculty members. Each major may select a small advisory committee to assist with course selection, advising, and long-range planning.
- Three interdisciplinary, team-taught courses (9 hours), in any combination of levels, but including at least one at the 400 level as the senior capstone experience.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Humanities major offers concentrations in Classics, Philosophy, and Religious Studies (CL/PHL/RST). This major is unique in two ways: Students may choose coursework equivalent to a major in a single department or create a broader curriculum of their choice from various humanities courses, and our program also has a strong interdisciplinary side. The goal of the program is to help us deepen our understanding of ourselves and our culture by exploring the way human beings find meaning in their experience. We explore these ways by studying both our own individual insights and the artistic, philosophical and religious works that have expressed and shaped human experience.

- Forty-eight credit hours (sixteen 3-hour courses) must be at the 300/400 level.
- Minimum of 120 hours to graduate.
- The B.A. in Latin can be acquired through the College of Liberal Arts. The degree consists of CL 436 Roman Civilization or equivalent and thirty hours of Latin, eighteen of which must be above LAT 204 Intermediate Latin.
- In addition to the specific major requirements, students must fulfill the general and specific requirements for the B.A. degree in the College of Liberal Arts and must demonstrate a proficiency in writing through examination by the department.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The study of foreign languages emphasizes the development of critical thinking skills—increased powers of observation, analysis, logical reasoning, memory, and adaptability—that are immediately transferable to other areas of higher education and to a diversity of careers. In learning to understand, speak, read, and write a foreign language a student acquires direct access to another view of the world at a time when intercultural understanding, at both the national and international levels, has become an urgent priority.

	Credit Hours	**12**
	Total Credit Hours	**120**

Latin, Minor

A minor in Latin consists of:

Code	Title	Credit Hours
Select twelve hours of Latin, nine of which must be above the 100 level		12
Select one 400-level course taught in English of the following:		3
CL 436	Roman Civilization	
CL 471	Ancient Sexuality (by permission of chair)	
CL 472	Rhetoric of Seduction	
CL 473	Body, Sex and Violence in Rome	
CL 475	Roman Law	
Total Credit Hours		**15**

Philosophy, Minor

A minor in Philosophy consists of 15 hours.

Religious Studies, Minor

A minor in Religious Studies consists of 15 hours.

Interdisciplinary

Programs

- Addiction Studies, Minor (p. 383)
- African and African American Studies, Minor (p. 383)
- Asian Studies, Minor (p. 384)
- Constitutional Democracy, Minor (p. 384)
- Digital Humanities, Minor (p. 384)
- Film Studies, Minor (p. 385)
- Latin American Studies, Minor (p. 386)
- Sexuality Studies, Minor (p. 386)
- Women's and Gender Studies, Minor (p. 387)

Courses

- General Education Course

Anthropology

ANT 201 Cultural Anthropology (CT) **3 Credit hours**
Introduction to the scientific study of culture with emphasis on the cultures of small-scale societies. This class emphasizes critical thinking skills. Introduction to the scientific study of culture with emphasis on the cultures of small-scale societies. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

ANT 201H Cultural Anthropol Honors (CT) **3 Credit hours**
Introduction to the scientific study of culture with emphasis on the cultures of small-scale societies. This class emphasizes critical thinking skills. For the honors student. Introduction to the scientific study of culture with emphasis on the cultures of small-scale societies. This class emphasizes critical thinking skills. For the honors student.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Critical Thinking, Honors, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

ANT 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ANT 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ANT 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ANT 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ANT 301 Social Statistics **3 Credit hours**
Introduction to statistical analysis of social data. Introduction to statistical analysis of social data.
Grade Mode: Normal Grading Mode

ANT 322 Archaeology **3 Credit hours**
Introduction to the methods and theory of archaeology. Introduction to the methods and theory of archaeology.
Grade Mode: Normal Grading Mode

ANT 323 Archaeolog Field Train **3-6 Credit hours**
Supervised instruction in on-site archaeological data collection, survey and excavation techniques. Supervised instruction in on-site archaeological data collection, survey and excavation techniques.
Grade Mode: Normal Grading Mode

ANT 324 Archaeological Analysis **3 Credit hours**
Supervised instruction in processing and analyzing archaeological materials recovered by fieldwork. Supervised instruction in processing and analyzing archaeological materials recovered by fieldwork.
Pre-req: ANT 322.
Grade Mode: Normal Grading Mode

ANT 325 World Prehistory **3 Credit hours**
An introduction to the archaeology of pre-literate cultures, from the emergence of Homo Sapiens to the present. An introduction to the archaeology of pre-literate cultures, from the emergence of Homo Sapiens to the present.
Grade Mode: Normal Grading Mode

ANT 326 Classical Archaeology **3 Credit hours**
Archaeology of ancient Greece and Rome, and their colonies and imperial domains. Archaeology of ancient Greece and Rome, and their colonies and imperial domains.
Grade Mode: Normal Grading Mode

ANT 331 Physical Anthropology **3 Credit hours**
The study of human physical evolution, from the earliest hominins to the present day, based on the study of primatology, human genetics, and the paleontological record. The study of human physical evolution, from the earliest hominins to the present day, based on the study of primatology, human genetics, and the paleontological record.
Grade Mode: Normal Grading Mode

ANT 361 Ethnographic Research **3 Credit hours**
A project-based introduction to ethnographic research design and practice. A project-based introduction to ethnographic research design and practice.
Grade Mode: Normal Grading Mode

ANT 362 Health, Culture & Society **3 Credit hours**
A cross-cultural, historical, and bio-cultural examination through case-study of social and environmental factors that affect human health and disease.
Pre-req: ANT 201 or ANT 201H or SOC 200 or SOC 200H.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

ANT 363 US Culture and the Family **3 Credit hours**
An historically and ethnographically informed consideration of the changing meaning and place of family and work in everyday American life, media, and politics. An historically and ethnographically informed consideration of the changing meaning and place of family and work in everyday American life, media, and politics.
Grade Mode: Normal Grading Mode

Sociolinguistics is the study of the effects of language in society relevant to discourse practices, language attitudes, variations, shifts and changes.
Pre-req: ENG 102 or ENG 302 or ENG 201H.
Grade Mode: Normal Grading Mode

ANT 480 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

ANT 481 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

ANT 482 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

ANT 483 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses. Study of topics of interest not ccovered in regularly scheduled courses. PR: Six credit hours of anthropology or deparmental permission.
Grade Mode: Normal Grading Mode

ANT 485 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

ANT 486 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

ANT 487 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

ANT 488 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

ANT 489 Internship **1-4 Credit hours**
Supervised practicum founded on anthropological knowledge in a host institution. 40-45 hours of internship work correspond with 1 credit hour.
Grade Mode: Normal Grading Mode

ANT 491 Theory in Ethnology **3 Credit hours**
Introduction to major theoretical traditions of cultural anthropology with emphasis on the connection between fieldwork and development of theory.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

ANT 492 Senior Seminar I **3 Credit hours**
Application of anthropological theory and practice to individually designed projects. This course fulfills the capstone requirement for undergraduate anthropology majors.
Grade Mode: Normal Grading Mode

ANT 493 Senior Seminar II **3 Credit hours**
Application of anthropological theory and practice to individually designed projects. Fulfills the capstone requirement for undergraduate majors.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Classics

CL 200 Building English Vocab **3 Credit hours**
Study of Latin and Greek word elements to build skill in English vocabulary, both general and technical (or scientific-medical). Study of Latin and Greek word elements to build skill in English vocabulary, both general and technical (or scientific-medical).
Grade Mode: Normal Grading Mode

Pre-req: ENG 101 or ENG 101P or ENG 160 or ENG 200H and CL 436.
Grade Mode: Normal Grading Mode

CL 477 RTTP: Greece and Rome **3 Credit hours**
Reacting to the Past: Greece and Rome is a semester long game/simulation where students play historical characters in Athens in 403BC then in Rome just after Julius Caesar's assassination.
Pre-req: (ENG 101 with a minimum grade of D or ENG 101P with a minimum grade of D or ENG 200H with a minimum grade of D or ENG 201H with a minimum grade of D) and CMM 103 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CL 480 Special Topics **1-4 Credit hours**
Topics like "Values in Ancient Greece/Rome" or "The Cult of the Leader in Ancient Greece/Rome" have recently been offered. Consult chairman for current offerings. Topics like "Values in Ancient Greece/Rome" or "The Cult of the Leader in Ancient Greece/Rome" have recently been offered. Consult chairman for current offerings.
Pre-req: ENG 101 or YGS 161.
Grade Mode: Normal Grading Mode

CL 481 Special Topics **1-4 Credit hours**
Topics like"Values in Ancient Greece/Rome" or "The Cult of the Leader in Ancient Greece/Rome" have recently been offered. Consult chairman for current offerings. Topics like"Values in Ancient Greece/Rome" or "The Cult of the Leader in Ancient Greece/Rome" have recently been offered. Consult chairman for current offerings.
Pre-req: ENG 101 or YGS 161.
Grade Mode: Normal Grading Mode

CL 482 Special Topics **1-4 Credit hours**
Pre-req: ENG 101 or YGS 161.
Grade Mode: Normal Grading Mode

CL 483 Special Topics **1-4 Credit hours**
Topics like "Values in Ancient Greece/Rome" or "The Cult of the Leader in Ancient Greece/Rome" have recently been offered. Consult chairman for current offerings. Topics like "Values in Ancient Greece/Rome" or "The Cult of the Leader in Ancient Greece/Rome" have recently been offered. Consult chairman for current offerings.
Pre-req: ENG 101 or YGS 161.
Grade Mode: Normal Grading Mode

CL 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CL 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CL 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CL 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CL 490 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. (Same as Philosophy 490 -494 and Religious Studies 490 - 494)
Pre-req: ENG 102 with a minimum grade of D or ENG 302 with a minimum grade of D or ENG 201H with a minimum grade of D or YGS 162 with a minimum grade of D or IST 201 with a minimum grade of D or CL 231 with a minimum grade of D or CL 232 with a minimum grade of D or CL 233 with a minimum grade of D or CL 319 with a minimum grade of D or PHL 200 with a minimum grade of D or PHL 201 with a minimum grade of D or PHL 303 with a minimum grade of D or PHL 321 with a minimum grade of D or PHL 340 with a minimum grade of D or PHL 353 with a minimum grade of D or RST 205 with a minimum grade of D or RST 206 with a minimum grade of D or RST 300 with a minimum grade of D or RST 304 with a minimum grade of D or RST 320 with a minimum grade of D or RST 325 with a minimum grade of D or ENG 201 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CL 492 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. (Same as Philosophy 490 -494 and Religious Studies 490 -494)
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325 or ENG 201.
Grade Mode: Normal Grading Mode

CL 493 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. (Same as Philosophy 490 -494 and Religious Studies 490 -494)
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325 or ENG 201.
Grade Mode: Normal Grading Mode

CL 494 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study inthe Humanities program. (Same as Philosophy 490 -494 and Religious Studies 490 - 494)
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325 or ENG 201.
Grade Mode: Normal Grading Mode

Communication Studies

CMM 103 Fund Speech-Communication **3 Credit hours**
A course designed to enhance the development of critical thinking skills and their application to verbal and nonverbal interaction in interpersonal and public communication contexts. A course designed to enhance the development of critical thinking skills and their application to verbal and non- verbal interaction in interpersonal and public communication contexts.
Attributes: Core II Communication Studies
Grade Mode: Normal Grading Mode

CMM 104H Honors in Speech Comm **3 Credit hours**
An accelerated course for selected freshmen and sophomores in fundamentals of communication, concepts and skills in verbal/ nonverbal communication and listening. Not open to juniors and seniors. An accelerated course for selected freshmen and sophomores in fundamentals of communication, concepts and skills in verbal/ nonverbal communication and listening. Not open to juniors and seniors.
Attributes: Core II Communication Studies
Grade Mode: Normal Grading Mode

CMM 201 Communication Foundations (CT) **3 Credit hours**
Develops essential skills in reading and critically analyzing scholarly texts, and in writing academic papers. Develops essential skills in reading and critically analyzing scholarly texts, and in writing academic papers.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

CMM 205 The Rhetorical World (CT) **3 Credit hours**
An introduction to the study of rhetoric as a cultural force influencing human behavior and societies and as a critical approach to interpreting cultural artifacts. An introduction to the study of rhetoric as a cultural force influencing human behavior and societies and as a critical approach to interpreting cultural artifacts.
Attributes: Critical Thinking, Core II Humanities
Grade Mode: Normal Grading Mode

CMM 207 Bus & Prof Communication **3 Credit hours**
A study of the communication demands and skills relevant to the student's future role as a business or professional person. A study of the communication demands and skills relevant to the student's future role as a business or professional person.
Attributes: Core II Communication Studies
Grade Mode: Normal Grading Mode

CMM 213 Fund Interpersonal Com **3 Credit hours**
Introduction to principles and practices related to productive interpersonal communication. Emphasizes competence in using verbal and nonverbal message systems to promote effective communication in social and task relationships.
Attributes: Core II Social Sciences
Grade Mode: Normal Grading Mode

CMM 239 Dev & Appreciation of Film **3 Credit hours**
The historical development of the motion picture as an art form. Analysis of the technical, social, economic and cultural factors which have influenced the medium.
Attributes: Core II Humanities
Grade Mode: Normal Grading Mode

CMM 255 Intro Computer-Comm **3 Credit hours**
Use and implications of telecomputing for messaging, resource finding, and self-directed discovery lerning. Use and implications of telecomputing for messaging, re- source finding, and self-directed discovery lerning.
Attributes: Digital Humanities, Core II Social Sciences
Grade Mode: Normal Grading Mode

CMM 270 Intercollegiate Debate **1 Credit hour**
(PR: Permission of instructor). May be repeated 3 times for credit.
Grade Mode: Normal Grading Mode

CMM 271 Intercollegiate Debate **1 Credit hour**
(PR: Permission of instructor). May be repeated 3 times for credit.
Grade Mode: Normal Grading Mode

CMM 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CMM 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CMM 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CMM 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CMM 298 Itv **1-4 Credit hours**
A course based upon Instructional Television Series broadcast by public television. The student is repsonsible for viewing the series on the air and satisfying all course requirements announced by the department. A course based upon Instructional Television Series broad- cast by public television. The student is repsonsible for viewing the series on the air and satisfying all course re- quirements announced by the department.
Grade Mode: Normal Grading Mode

CMM 302 Professional Presentations **3 Credit hours**
Designed for present and future demands on skilled presenters of information. Included in the teaching of advanced oral presentation skills, computer assisted/ aided presentations, teleconferencing and other presentational skills. Designed for present and future demands on skilled presenters of information. Included in the teaching of advanced oral presentation skills, computer assisted/ aided presentations, teleconferencing and other presentational skills.
Pre-req: CMM 103 with a minimum grade of D or CMM 104H with a minimum grade of D or CMM 207 with a minimum grade of D or YGS 161 with a minimum grade of D or IST 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CMM 303 Intro Communication Thry **3 Credit hours**
Analysis of the process of communication and its constituent elements, with emphasis upon traditional and contemporary theories, their validation, and their use as a tool in diagnosis and remediation of communication problems. Analysis of the process of communication and its constituent elements, with emphasis upon traditional and contemporary theories, their validation, and their use as a tool in diagnosis and remediation of communication problems.
Pre-req: CMM 103 or CMM 104H or CMM 207 or CMM 305 or YGS 161 or IST 101.
Grade Mode: Normal Grading Mode

CMM 307 Political Communication **3 Credit hours**
Investigation of the functions, ethics, responsibilities and social impact of oral communication in periods of social unrest and/or political change. Investigation of the functions, ethics, responsibilities and social impact of oral communication in periods of social unrest and/or political change.

Grade Mode: Normal Grading Mode

CMM 308 Persuasive Communication **3 Credit hours**
Introduction to the understanding, practice and analysis of persuasion. Behavioral and rhetorical theories of persuasion will be examined and applied to contemporary persuasive communications. Introduction to the understanding, practice and analysis of persuasion. Behavioral and rhetorical theories of persuas- ion will be examined and applied to contemporary persuasive communications.
Pre-req: CMM 103 with a minimum grade of D or CMM 104H with a minimum grade of D or CMM 207 with a minimum grade of D or YGS 161 with a minimum grade of D or IST 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CMM 310 Argumentation & Debate **3 Credit hours**
Basic principles of agrument; practice in discussion and debate. Recommended but not a prerequisite for intercollegiate debating. Basic principles of agrument; practice in discussion and debate. Recommended but not a prerequisite for inter- collegiate debating.
Pre-req: CMM 103 or CMM 104H or CMM 207 or CMM 305 or YGS 161 or IST 101.
Grade Mode: Normal Grading Mode

CMM 311 Lang & Communication **3 Credit hours**
A method for studying the role which language plays in human affairs. A method for studying the role which language plays in human affairs.
Grade Mode: Normal Grading Mode

CMM 315 Group Communication **3 Credit hours**
Study of group communication processes, including problem solving, systems of group communication analysis and evaluation, in task oriented groups. Study of group communication processes, including problem solving, systems of group communication analysis and evaluation, in task oriented groups.
Pre-req: CMM 103 with a minimum grade of D or CMM 104H with a minimum grade of D or CMM 207 with a minimum grade of D or YGS 161 with a minimum grade of D or IST 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CMM 316 Legal Communication **3 Credit hours**
The theory and practice of legal communication techniques. The course will examine interviewing skills, negotiation skills, argument preparation skills, presentation skills, and cross-examination skills. Recommended for pre-law students. The theory and practice of legal communication techniques. The course will examine interviewing skills, negotiation skills, argument preparation skills, presentation skills, and cross-examination skills. Recommended for pre-law students.
Pre-req: CMM 103 or CMM 104H or CMM 207 or YGS 161 or IST 101.
Grade Mode: Normal Grading Mode

CMM 319 Superior-Subordinate Comm **3 Credit hours**
Survey of principles underlying communication between superiors and subordinates in organizations. Emphasis placed upon communication strategies regarding role definition, performance feedback, development and maintenance of relationships, conflict management, leadership, decisionmaking. Survey of principles underlying communication between superiors and subordinates in organizations. Emphasis placed upon communication strategies regarding role defini- tion, performance feedback, development and maintenance of relationships, conflict management, leadership, decision- making.
Pre-req: CMM 103 with a minimum grade of D or CMM 104H with a minimum grade of D or CMM 207 with a minimum grade of D or YGS 161 with a minimum grade of D or IST 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CMM 320 Oral Interpretation Lit **3 Credit hours**
The fundamentals of reading, analyzing, and interpreting literature. The fundamentals of reading, analyzing, and interpreting literature.
Grade Mode: Normal Grading Mode

CMM 322 Intercultural Communication **3 Credit hours**
A study of the barriers to communication across cultures and of strategies for addressing these problems.
Pre-req: CMM 103 with a minimum grade of D or CMM 104H with a minimum grade of D or CMM 207 with a minimum grade of D or CMM 213 with a minimum grade of D or YGS 161 with a minimum grade of D or IST 101 with a minimum grade of D.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CMM 330 Performance Theory **3 Credit hours**
The study of performance practices that function as enactments of cultural identity. Topics will include performance as a cultural process, performance in social roles, and performance as power.
Pre-req: CMM 103 or CMM 104H or CMM 207.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CMM 345 Listening & Feedback **3 Credit hours**
A study of listening/feedback behavior as an integral part of the communication process, development of listening/ feedback skills, and an awareness of barriers to effective listening and feedback. A study of listening/feedback behavior as an integral part of the communication process, development of listening/ feedback skills, and an awareness of barriers to effective listening and feedback.
Pre-req: CMM 103 or CMM 104H or CMM 207 or YGS 161 or IST 101.
Grade Mode: Normal Grading Mode

CMM 370 Intercollegiate Debate **1 Credit hour**
(PR: Permission of instructor). May be repeated 3 times for credit. Continuation of Speech 270-271.
Grade Mode: Normal Grading Mode

CMM 371 Intercollegiate Debate **1 Credit hour**
(PR: Permission of instructor). May be repeated 3 times for credit. Continuation of Speech 270-271.
Grade Mode: Normal Grading Mode

CMM 374 Intro to Health Communication **3 Credit hours**
Surveys interpersonal, public, and organizational health communication theories and findings; explores the communication demands of health care and promotion, communication issues in health systems, and strategies to resolve problems.
Grade Mode: Normal Grading Mode

CMM 401 Organization Communication **3 Credit hours**
Investigation of information flow in organizations with emphasis on identifying communication problems. Investigation of information flow in organizations with emphasis on identifying communication problems.
Pre-req: CMM 303 (may be taken concurrently).
Concurrent PR: CMM 303
Grade Mode: Normal Grading Mode

CMM 402 Rhetorical Theory **3 Credit hours**
An exploration of theories of rhetoric from the Greek philosophers to the present. This course will examine the strategic use of symbols in persuasive discourse. An exploration of theories of rhetoric from the Greek philosophers to the present. This course will examine the strategic use of symbols in persuasive discourse.
Grade Mode: Normal Grading Mode

CMM 403 Nonverbal Communication **3 Credit hours**
This course will explore the areas and significance of nonverbal communication as they relate to the quality and effectiveness of human interaction in personal, social, and professional relationships. This course will explore the areas and significance of nonverbal communication as they relate to the quality and effectiveness of human interaction in personal, social, and professional relationships.
Pre-req: CMM 103 with a minimum grade of D or CMM 207 with a minimum grade of D or CMM 104H with a minimum grade of D.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CMM 404 Rhetorical Comm Criticism **3 Credit hours**
An examination of the construction of rhetorical texts and the effects they produce.
Grade Mode: Normal Grading Mode

CMM 406 Interviewing **3 Credit hours**
Skill development in the question-answer-response process as it applies to a variety of interviewing situations. Skill development in the question-answer-response process as it applies to a variety of interviewing situations.
Grade Mode: Normal Grading Mode

CMM 408 Leadership & Group Comm **3 Credit hours**
A study of the variable affecting, and affected by, communication process in small groups, with particular emphasis upon leadership variables. A study of the variable affecting, and affected by, communication process in small groups, with particular emphasis upon leadership variables.
Pre-req: CMM 315.
Grade Mode: Normal Grading Mode

CMM 409 Theory Persuasion Change **3 Credit hours**
Study of the relationship between persuasion and social change, including theories of attitude and behavioral change and contemporary theories of persuasion. Study of the relationship between persuasion and social change, including theories of attitude and behavioral change and contemporary theories of persuasion.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 112 Smartphone GPS **1 Credit hour**
Principles of Global Navigation Satellite Systems (GNSS); using your smartphone for Global Positioning Systems (GPS)/GNSS orientation, and data collection.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 113 Web GIS **1 Credit hour**
Students learn to build web maps, share GIS data on the internet, and create web GIS applications.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 203 Economic Geography (CT) **3 Credit hours**
A systematic examination of world economic geography with a focus on population, agriculture, transportation, land use, urbanization, industry, energy, and the environment. A systematic examination of world economic geography with a focus on population, agriculture, transportation, land use, urbanization, industry, energy, and the environment.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

GEO 206 Geography West Virginia **3 Credit hours**
A survey of the geography of West Virginia including landforms, climate, settlement patterns, population, economics, resources, politics, and environmental changes.
Attributes: American Institutions, Core II Social Sciences
Grade Mode: Normal Grading Mode

GEO 207 Biblical Geography **3 Credit hours**
Students explore the physical and human geography of ancient Palestine and assess how geography informs our understanding of people, events, and places described by Jewish and Christian scriptures.
Attributes: Core II Humanities
Grade Mode: Normal Grading Mode

GEO 222 Global Environment Issues (CT) **3 Credit hours**
Environmental issues have great emotional, political, and economic significance. The dynamics of global environmental problems, their complex interactions, and effects on potential stakeholders will be examined at the international scale.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

GEO 230 Intro to Meteorology (CT) **4 Credit hours**
Introduction to the composition of the atmosphere and weather phenomena, including thunderstorms, tornadoes, and hurricanes. Introduction to the composition of the atmosphere and weather phenomena, including thunderstorms, tornadoes, and hurricanes.
Attributes: Critical Thinking, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GEO 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 300 Methods in Geography **3 Credit hours**
Provides an introduction to research methods in geography. Topics addressed include: data sources; sampling; data collection, storage, and management; descriptive measures and data visualization techniques; qualitative and quantitative analysis.
Pre-req: STA 225 with a minimum grade of D or STA 150 with a minimum grade of D or STA 150B with a minimum grade of D or MGT 218 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D or GEO 440 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 305 Geog of USA & Canada **3 Credit hours**
Survey of physical, historical, population, economic, political, cultural, and regional geographies of Canada and the United States, including an analysis of the multi-cultural nature of the societies.
Attributes: American Institutions, Multicultural
Grade Mode: Normal Grading Mode

GEO 317 World Regional Geography **3 Credit hours**
World regions examined using a synthesis of physical and human geographical themes including environment, culture, landscape, climate, landforms, globalization, population patterns, urbanization, economies, and political geography.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 350 Severe Storms and Natl Hzrds **4 Credit hours**
Basics of earth and atmospheric hazards including flooding, earthquakes, tsunamis, hurricanes, tornadoes, and volcanic eruptions, and how to mitigate the impacts. Basics of earth and atmospheric hazards including flooding, earthquakes, tsunamis, hurricanes, tornadoes, and volcanic eruptions, and how to mitigate the impacts.
Grade Mode: Normal Grading Mode

GEO 355 Aviation Weather **3 Credit hours**
A study of atmospheric conditions on aeronautical operations. Topics include atmospheric properties, aviation hazards including thunderstorms, wind shear, turbulence, and icing, and weather flight resources.
Pre-req: GEO 230 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 402 Geography of Appalachia **3 Credit hours**
A study of the geography of Appalachia, including landforms, climate, settlement patterns, population, economics, resources, politics, and environmental changes.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

GEO 404 Geography of Europe **3 Credit hours**
An examination of the geography of Europe focusing on contemporary issues, including climate, culture, economics, environmental change, everyday life, international relations landforms, language, politics, population, religion, and urbanization. An examination of the geography of Europe focusing on contemporary issues, including climate, culture, economics, environmental change, everyday life, international relations landforms, language, politics, population, religion, and urbanization.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 405 Political Geography **3 Credit hours**
A systematic and regional survey of world political problems and international relations stressing current geopolitical conflicts. An examination of contemporary patterns, processes, and problems of political geography in global perspective, including globalization, colonialism, imperialism, geopolitics, nationalism, diplomacy, international borders, governance, political representation, and future projections
Attributes: International
Grade Mode: Normal Grading Mode

GEO 406 Population Geography **3 Credit hours**
An examination of contemporary patterns, processes, and problems of population geography in global perspective, including fertility, mortality, demographic change, migration, malnutrition, urbanization, natural resource sustainability, and future projections. An examination of contemporary patterns, processes, and problems of population geography in global perspective, including fertility, mortality, demographic change, migration, malnutrition, urbanization, natural resource sustainability, and future projections.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 408 Geog of South & Middle America **3 Credit hours**
A study of settlement, transportation, manufacturing, agriculture, geopolitics, and natural resources of South and Middle American countries. Regional study of relation of man's activities to natural environment.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 410 Urban Geography **3 Credit hours**
Study of the evolution, morphology and land use, functions, and problems of urban areas, with emphasis on governance, planning, and the social and environmental impacts of urbanization.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

GEO 411 Medical Geography **3 Credit hours**
An examination of contemporary issues and problems in health and medical geography, including the spatial aspects of global health, health care policy, and disease origins, diffusion, and ecology.
Grade Mode: Normal Grading Mode

GEO 418 Geography For Educators **3 Credit hours**
A study of geographic concepts, methods, and technologies essential for effective teaching of geographic content for K-12 social studies teachers and college educators.
Grade Mode: Normal Grading Mode

GEO 422 Environmental Geography **3 Credit hours**
Attributes: International
Grade Mode: Normal Grading Mode

GEO 423 Cartography & GIS **3 Credit hours**
This course is an introduction to cartography and is the cornerstone of Geographic Information Science. In this class you will learn basic map design, map interpretation and appreciation. We will explore the nature of spatial data, and learn what maps can and cannot represent. We will study maps as a data source for Geographic Information Systems, and as a graphic tool for scientific visualizations.
Grade Mode: Normal Grading Mode

GEO 424 Transportation Geography **3 Credit hours**
A geographic analysis of transportation and its spatial organization. Concepts, models, and analytical methods related to traffic demand, network configuration, and allocation of transport facilities are covered.
Grade Mode: Normal Grading Mode

GEO 425 Climatology **4 Credit hours**
A study of elements of weather and climate, methods of climatic classification, and the distribution and characteristics of world climate regions. A study of elements of weather and climate, methods of climatic classification, and the distribution and characteristics of world climate regions.
Grade Mode: Normal Grading Mode

GEO 426 Principles of GIS **4 Credit hours**
Introduction to Geographic Information Systems (GIS) principles, techniques, and applications for the social and natural sciences with emphasis on foundational geographic principles in a lecture/lab format.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 427 Principles of GIS II **4 Credit hours**
Students apply GIS principles and techniques to geoprocess and manipulate geographic data, including topics such as geodatabase management, python scripting, model building, web mapping and data services, and spatial analysis.
Pre-req: GEO 423 with a minimum grade of D or GEO 426 with a minimum grade of D or GEO 429 with a minimum grade of D or GEO 430 with a minimum grade of D or NRRM 423 with a minimum grade of D or NRRM 433 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 429 Location Analysis and GIS **4 Credit hours**
Concepts, models, and methods of geographic location analysis of natural resource extraction, manufacturing, services, retail and market area analytics, and logistics using GIS.
Pre-req: GEO 423 with a minimum grade of D or GEO 426 with a minimum grade of D or GEO 427 with a minimum grade of D or GEO 430 with a minimum grade of D or NRRM 423 with a minimum grade of D or NRRM 433 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 430 Environmental Raster GIS **4 Credit hours**
Environmental Applications of GIS raster analysis, including local, neighborhood, and zonal operations, terrain analysis, distance modeling, and surface interpolation, data collection and input, and advanced spatial analysis using GIS.
Pre-req: GEO 426 or GEO 429 or IST 423.
Grade Mode: Normal Grading Mode

GEO 431 Remote Sensing & Photogram **4 Credit hours**
Scientific study of the earth using images and data captured using satellite- or aircraft-borne sensors, with emphasis on issues of acquisition, photogrammetric interpretation, spatial analysis and application.
Pre-req: GEO 426 with a minimum grade of D or GEO 429 with a minimum grade of D or GEO 430 with a minimum grade of D or IST 423 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 432 Enterprise GIS **3 Credit hours**
Principles and techniques for planning, implementing, and managing Geographic Information Systems technologies in a firm or agency.
Pre-req: GEO 426 or GEO 429 or GEO 430 or GEO 431 or IST 423.
Grade Mode: Normal Grading Mode

GEO 433 GPS & Mobile Geospatial Tech **3 Credit hours**
An analysis of the design and deployment of Global Navigation Satellite Systems such as GPS (Global Positioning System) and their application to mobile map services.
Pre-req: GEO 426 or GEO 429 or GEO 430 or GEO 431 or IST 423.
Grade Mode: Normal Grading Mode

GEO 434 Floods Hazards and GIS **3 Credit hours**
Application of principles of flood hazards preparation, disaster management, and mitigation using Geographic Information Systems (GIS).
Grade Mode: Normal Grading Mode

GEO 440 Spatial Statistics and GIS **4 Credit hours**
Statistical methods applied to problem solving in geography and using GIS for display and analysis. Primary focus on descriptive and inferential spatial statistics, mapping, and spatial analysis of data.
Grade Mode: Normal Grading Mode

GEO 450 Extreme Weather **4 Credit hours**
Basics of extreme weather phenomena including hurricanes, tornadoes, floods, droughts, blizzards, and how to mitigate the impacts.
Grade Mode: Normal Grading Mode

GEO 454 Drones: Remote Sensing & GIS **3 Credit hours**
Learn FAA rules and safety procedures; prepare for Remote Pilot licensing exam; operate drones to collect remote sensing data; process imagery for analysis; integrate sUAS imagery with existing GIS data.
Grade Mode: Normal Grading Mode

GEO 460 Weather Analysis **4 Credit hours**
Introduction to reading weather maps and meteorological analysis techniques including satellite and radar image interpretation and numerical weather prediction.
Grade Mode: Normal Grading Mode

GEO 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

GEO 486 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

GEO 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 490 Internship **1-6 Credit hours**
Cooperative learning experience with regional employer/government agency.
Attributes: No Textbook Required
Grade Mode: Credit/No Credit Grade Only

GEO 498 Senior Capstone **2 Credit hours**
This senior capstone course combines research methods, data collection, and analysis to produce original research on questions and problems in geography. Par I: Pilot Project.
Pre-req: GEO 300 with a minimum grade of D and (GEO 423 with a minimum grade of D or GEO 426 with a minimum grade of D).
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

GEO 499 Senior Capstone II **1-3 Credit hours**
This senior capstone course combines research methods, data collection, and analysis to produce original research on questions and problems in geography. Part II.
Pre-req: GEO 426 with a minimum grade of D and (MTH 225 with a minimum grade of D or GEO 440 with a minimum grade of D or MGT 218 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D or ANT 301 with a minimum grade of D or EDF 417 with a minimum grade of D).
Attributes: American Institutions, Capstone Course
Grade Mode: Normal Grading Mode

History

HST 101 Great Civs to 1300 (CT) **3 Credit hours**
Comparative study of the origin and course of major civilizations focusing on the Middle East, India, China, and the West. This class emphasizes critical thinking skills. Comparative study of the origin and course of major civilizations focusing on the Middle East, India, China, and the West. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 101H Great Civs to 1300 (CT) **3 Credit hours**
Comparative study of the origin and course of major civilizations focusing on the Middle East, India, China, and the West. This honors section emphasizes critical thinking skills.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Critical Thinking, Honors, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 102 World & West 1300-1850 (CT) **3 Credit hours**
An interdisciplinary analysis of the foundations of Western development. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 102H World & West 1300-1850 (CT) **3 Credit hours**
An interdisciplinary analysis of the foundations of Western development. This class emphasizes critical thinking skills.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Critical Thinking, Honors, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 103 The World Since 1850 (CT) **3 Credit hours**
Major world developments and trends from the middle of the 19th century to the present and their implications for the future. This class emphasizes critical thinking skills. Major world developments and trends from the middle of the 19th century to the present and their implications for the future. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 103H World Since 1850 Honors (CT) **3 Credit hours**
Survey for superior students of world developments and trends from the 19th century to the present and their implications for the future. Survey for superior students of world developments and trends from the 19th century to the present and their implications for the future.
Pre-req: ACT Composite with a score of 26 or SAT Verbal Before March 16 with a score of 600.
Attributes: Critical Thinking, Honors, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 200 History Methods Workshop **3 Credit hours**
This course is an introduction to the most fundamental methods of the discipline. Students will learn to use library resources, practice document interpretation skills, and identify and evaluate historical arguments. This course is an introduction to the most fundamental methods of the discipline. Students will learn to use library resources, practice document interpretation skills, and identify and evaluate historical arguments.
Attributes: Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 208 The Developing World (CT) **3 Credit hours**
A survey of selected Third World countries focusing on imperialism, colonialism and developmental interests. This class emphasizes critical thinking skills. A survey of selected Third World countries focusing on imperialism, colonialism and developmental interests. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, International, Core II Social Sciences, World History
Grade Mode: Normal Grading Mode

HST 218 Ancient Egypt **3 Credit hours**
A survey of the history of Egypt from the pre-dynastic kings through the reign of Cleopatra with emphasis on religious, cultural, social, political and economic developments.
Attributes: World History
Grade Mode: Normal Grading Mode

HST 219 Ancient History **3 Credit hours**
A survey of the ancient Near East, Greece, and Rome with emphasis on Greek and Roman civilization from Mycenaean times through the Roman Empire of the 5th century. Open to all undergraduates. A survey of the ancient Near East, Greece, and Rome with emphasis on Greek and Roman civilization from Mycenaean times through the Roman Empire of the 5th century. Open to all undergraduates.
Attributes: European History, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 220 European Hist Medieval **3 Credit hours**
A survey of the history of Europe from the later Roman Empire to the end of the Middle Ages with emphasis on religious, cultural, social, political and economic developments. Open to all undergraduates. A survey of the history of Europe from the later Roman Empire to the end of the Middle Ages with emphasis on religious, cultural, social, political and economic developments. Open to all undergraduates.
Attributes: European History, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 223 Rise & Fall Nazi Germany **3 Credit hours**
A study of the origins, course, and collapse of the Third Reich. Some attention will be given to pre-Nazi period. A study of the origins, course, and collapse of the Third Reich. Some attention will be given to pre-Nazi period.
Attributes: European History, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 230 American History to 1877 (CT) **3 Credit hours**
A general survey from the discovery in 1492 through the period of Reconstruction. This class emphasizes critical thinking skills. A general survey from the discovery in 1492 through the period of Reconstruction. This class emphasizes critical thinking skills.
Attributes: American Institutions, Critical Thinking, Multicultural, Core II Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 230H Amer Hist to 1877-Honors **3 Credit hours**
A survey of American History to 1877 for the superior student. A survey of American History to 1877 for the superior student.
Pre-req: ACT Composite with a score of 26 or SAT Verbal Before March 16 with a score of 600.
Attributes: American Institutions, Core II Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 231 American Hist From 1877 (CT) **3 Credit hours**
A general survey since Reconstruction. This class emphasizes critical thinking skills. A general survey since Reconstruction. This class emphasizes critical thinking skills.
Attributes: American Institutions, Critical Thinking, Multicultural, Core II Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 231H US Hist Since 1877-Honors **3 Credit hours**
Pre-req: ACT Composite with a score of 26 or SAT Verbal Before March 16 with a score of 600.
Attributes: American Institutions, Honors, Social Sciences, Core II Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 250 Women in US History **3 Credit hours**
A study of the public and private contributions of women in the shaping of the United States from the Colonial period to the present. A study of the public and private contributions of women in the shaping of the United States from the Colonial period to the present.
Attributes: Core II Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 260 Rise of Islam 570-1750 **3 Credit hours**
A study of the Middle Eastern region from pre-Islamic Arabia to the pinnacle of Ottoman imperial control. Emphasis is placed on cultural, social, and political developments. A study of the Middle Eastern region from pre-Islamic Arabia to the pinnacle of Ottoman imperial control. Emphasis is placed on cultural, social, and political developments.
Attributes: Core II Social Sciences, World History
Grade Mode: Normal Grading Mode

HST 265 Modern East Asia **3 Credit hours**
A survey of the history of East Asia from 17th century to present with a focus on China and Japan. A survey of the history of East Asia from 17th century to present with a focus on China and Japan.
Attributes: Core II Social Sciences, World History
Grade Mode: Normal Grading Mode

HST 280 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

HST 281 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

HST 282 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

HST 283 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

HST 301 Lat Am Discovery-Independ **3 Credit hours**
Emphasis is on conditions in Spain which influenced the development of Latin America and eventually led to the independence movement. Emphasis is on conditions in Spain which influenced the development of Latin America and eventually led to the independence movement.
Attributes: International, World History
Grade Mode: Normal Grading Mode

HST 302 Lat Am Independence-Pres **3 Credit hours**
Emphasis is on the political, economic and social institutions of Argentina, Brazil, Chile and Mexico. Emphasis is on the political, economic and social insti- tutions of Argentina, Brazil, Chile and Mexico.
Attributes: International, World History
Grade Mode: Normal Grading Mode

HST 303 American Military History **3 Credit hours**
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 304 Spanish History Since 1475 **3 Credit hours**
A survey of Spain's historical development emphasizing her rise and decline as a world power, the impact of persistent internal conflict, the Franco dictatorship and the transition to democracy.
Attributes: European History, International
Grade Mode: Normal Grading Mode

HST 305 Drug Wars **3 Credit hours**
This course examines the history of the war on drugs throughout U.S. and Latin American history with an emphasis on the past century.
Attributes: World History
Grade Mode: Normal Grading Mode

HST 306 The Holocaust **3 Credit hours**
An exploration of the why and how of the Holocaust with an emphasis on Nazi Jewish policy from 1933 to 1942. An exploration of the why and how of the Holocaust with an emphasis on Nazi Jewish policy from 1933 to 1942.
Attributes: European History
Grade Mode: Normal Grading Mode

HST 307 The Global Cold War **3 Credit hours**
An international survey of World War II and the Cold War. Topics include military, political, diplomatic, social and cultural history from a global perspective.
Attributes: International, World History
Grade Mode: Normal Grading Mode

HST 308 Baseball in the Americas **3 Credit hours**
It seeks to understand the importance of baseball from a social, cultural and political standpoint. It also explores the use of baseball as a diplomatic tool.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 309 History of the Cherokee **3 Credit hours**
The course explores the history and culture of the Cherokee people from pre-contact through the 21st century.
Grade Mode: Normal Grading Mode

HST 310 History of Global Pandemics **3 Credit hours**
A study of pandemics in world history, from the Plague of Athens to COVID-19.
Attributes: American Institutions, Social Sciences
Grade Mode: Normal Grading Mode

HST 311 World War I **3 Credit hours**
This course explores the First World War. It examines the roots of the conflict, the outbreak, the course of the war, and its chaotic aftermath.
Attributes: World History
Grade Mode: Normal Grading Mode

HST 312 African-American History **3 Credit hours**
A survey of African-American History from African and West Indian origins to the present. A survey of African-American History from African and West Indian origins to the present.
Attributes: American Institutions, Multicultural, United States History
Grade Mode: Normal Grading Mode

HST 314 LGBTQ+ History of the US **3 Credit hours**
A survey of LGBTQIA+ history in the United States from the colonial period to the present. Introduction to the civilization of the area; the establishment of colonial control; liquidation of colonial rule and the readjustment required.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 323 Religion in America **3 Credit hours**
The rise and development of religion and of religious thinking in America. (Same as Religious Studies 323) The rise and development of religion and of religious thinking in America. (Same as Religious Studies 323)
Attributes: American Institutions, Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 330 Football and American Culture **3 Credit hours**
This class examines the role of football in American culture, politics, the economy and particularly its role in the elevation of college sports. A general treatment from the discovery in 1492 through the period of Reconstruction.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 333 American Colonial History **3 Credit hours**
A study of the historical development of the English colonies in America. A study of the historical development of the English colonies in America.
Attributes: American Institutions, United States History
Grade Mode: Normal Grading Mode

HST 342 American Legal History **3 Credit hours**
Historical development of American law in areas ranging from slavery and racial discrimination to civil liberties and crime and punishment. Historical development of American law in areas ranging from slavery and racial discrimination to civil liberties and crime and punishment.
Attributes: American Institutions, United States History
Grade Mode: Normal Grading Mode

HST 343 The US in the 1970s **3 Credit hours**
The economic, political, social and cultural history of the United States as it shifted from the modern 1960s to the post-modern world of the late 20th century. The economic, political, social and cultural history of the United States as it shifted from the modern 1960s to the post-modern world of the late 20th century.
Attributes: American Institutions, United States History
Grade Mode: Normal Grading Mode

HST 344 The United States in the 1980s **3 Credit hours**
Focusing on the United States in the 1980s global context, this course examines the social, cultural, political, and economic history of the late 20th century.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 347 Southern Women's History **3 Credit hours**
This course explores the lives and experiences of Southern women in the US from the colonial era to the present. This course explores the lives and experiences of Southern women in the US from the colonial era to the present.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 360 Sports and Civil Rights **3 Credit hours**
An examination of the way that sports history reflects important themes in US history such as equality, race, ethnicity, and gender.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

HST 361 The Modern Middle East **3 Credit hours**
A survey of the modern Middle East with emphasis on the historical background of current controversial issues confronting the region. A survey of the modern Middle East with emphasis on the historical background of current controversial issues confronting the region.
Attributes: International, World History
Grade Mode: Normal Grading Mode

HST 362 The Crusades **3 Credit hours**
An examination of the origins, historical progression, and impact of the Crusades from both Christian and Islamic perspectives.
Attributes: Multicultural, World History
Grade Mode: Normal Grading Mode

HST 365 The Civil Rights Movement **3 Credit hours**
An exploration of 20th century movements for civil rights in American history examining race, ethnicity, social class, and gender. An exploration of 20th century movements for civil rights in American history examining race, ethnicity, social class, and gender.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

HST 366 Conspiracies in US History **3 Credit hours**
This course focuses on the ways people have constructed and used conspiracy theories to explain events in U.S. political, cultural, social, and scientific arenas.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 378 Modern Asia **3 Credit hours**
A selective look at Modern Asia, focusing on Japan, China, Korea, Taiwan, Vietnam and Indonesia and American interaction with the Asian nations. No Preq. A selective look at Modern Asia, focusing on Japan, China, Korea, Taiwan, Vietnam and Indonesia and American inter- action with the Asian nations. No Preq.
Attributes: International, World History
Grade Mode: Normal Grading Mode

HST 380 Asia to 1600 **3 Credit hours**
This course will introduce students to the political, cultural, social, and intellectual environment of premodern Asia. Students will also learn to think critically about their own and other societies. This course will introduce students to the political, cultural, social, and intellectual environment of pre- modern Asia. Students will also learn to think critically about their own and other societies.
Attributes: World History
Grade Mode: Normal Grading Mode

HST 390 Food in World History **3 Credit hours**
This course examines the key changes and continuities in human food consumption patterns and practices since the Neolithic period while comparing and contrasting the foodways of major civilizations and cultures.
Attributes: World History
Grade Mode: Normal Grading Mode

HST 392 Food Markets and Modernity **3 Credit hours**
This course examines the social and cultural history of various types of urban food markets in Western Europe and the United States from the late eighteenth century to the present.
Attributes: European History
Grade Mode: Normal Grading Mode

HST 400 Senior Seminar **3 Credit hours**
A capstone course for History majors. Survey of literature and practical experience in methods and sources of history through bibliographical study and research papers. Senior standing or by permission. A capstone course for History majors. Survey of literature and practical experience in methods and sources of history through bibliographical study and research papers. Senior standing or by permission.
Pre-req: HST 101 with a minimum grade of D and HST 102 with a minimum grade of D and HST 103 with a minimum grade of D and HST 200 with a minimum grade of D and HST 230 with a minimum grade of D and HST 231 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

HST 401 History of Appalachia **3 Credit hours**
This course will explore the historical and historiographical development of Appalachia and the economic, political, and cultural forces that have shaped the lives and communities of mountaineers.
Grade Mode: Normal Grading Mode

HST 405 Amer Diplomacy 1900-Pres **3 Credit hours**
American foreign relations in the 20th century. The gradual retreat from isolation in the period between World War I and World War II and modern American involvement in international commitments are stressed. American foreign relations in the 20th century. The gradual retreat from isolation in the period between World War I and World War II and modern American involvement in inter- national commitments are stressed.
Attributes: American Institutions, United States History
Grade Mode: Normal Grading Mode

HST 406 Tudor & Stuart England **3 Credit hours**
A history of England under the Tudors and Stuarts, focusing primarily on demographic, social, cultural, and political developments. A history of England under the Tudors and Stuarts, focusing primarily on demographic, social, cultural, and political developments.
Attributes: European History
Grade Mode: Normal Grading Mode

HST 407 Sex and Sexuality in the US **3 Credit hours**
Examines the history of sex and sexuality in North America in the context of cultural, legal, economic, political and social history from the 16th century to present.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 408 History of LGBT Peoples **3 Credit hours**
A survey of gay, lesbian, bisexual and transgender history in the United States from the colonial period to the present. A survey of gay, lesbian, bisexual and transgender history in the United States from the colonial period to the present.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 409 American Revolution **3 Credit hours**
A varied view of the American Revolution and its impact on the American people. A varied view of the American Revolution and its impact on the American people.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 413 Hist Old South 1492-1860 **3 Credit hours**

Grade Mode: Normal Grading Mode

PSC 461 Urban Prob & Pub Policy **3 Credit hours**
Study of policy problems of metropolitan areas in terms of structures, alternatives, and outcomes. Study of policy problems of metropolitan areas in terms of structures, alternatives, and outcomes.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

PSC 466 Appalachian Politics **3 Credit hours**
Explores Appalachia as both a geographical region and a political construct, focusing on how politics shapes regional identity and the region's relationship to the United States.
Grade Mode: Normal Grading Mode

PSC 478 Politics and Video Games **3 Credit hours**
An exploration of the power dynamics and politics at play in video games, the video game industry, and gaming culture.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

PSC 480 Special Topics **1-4 Credit hours**
To offer a course on some special topic which is not adequately treated in the regular course offerings. To offer a course on some special topic which is not ad- equately treated in the regular course offerings.
Grade Mode: Normal Grading Mode

PSC 481 Special Topics **1-4 Credit hours**
To offer a course on some special topic which is not adequately treated in the regular course offerings. To offer a course on some special topic which is not ad- equately treated in the regular course offerings.
Grade Mode: Normal Grading Mode

PSC 482 Special Topics **1-4 Credit hours**
To offer a course on some special topic which is not adequately treated in the regular course offerings. To offer a course on some special topic which is not ad- equately treated in the regular course offerings.
Grade Mode: Normal Grading Mode

PSC 483 Special Topics **1-4 Credit hours**
To offer a course on some special topic which is not adequately treated in the regular course offerings. To offer a course on some special topic which is not ad- equately treated in the regular course offerings.
Grade Mode: Normal Grading Mode

PSC 484 Constitutional Law **3 Credit hours**
Introduction to the principles of American constitutional law and analysis of constitutional issues, emphasizing leading Supreme Court cases. Introduction to the principles of American constitutional law and analysis of constitutional issues, emphasizing leading Supreme Court cases.
Pre-req: PSC 104E or PSC 104.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

PSC 485 Independent Study **1-4 Credit hours**
These numbers are reserved for tutorials, directed and independent readings, directed and independent research, problem reports, etc. These numbers are reserved for tutorials, directed and in- dependent readings, directed and independent research, problem reports, etc.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

PSC 486 Independent Study **1-4 Credit hours**
These numbers are reserved for tutorials, directed and independent readings, directed and independent research, problem reports, etc. These numbers are reserved for tutorials, directed and in- dependent readings, directed and independent research, problem reports, etc.
Grade Mode: Normal Grading Mode

PSC 487 Independent Study **1-4 Credit hours**
These numbers are reserved for tutorials, directed and independent readings, directed and independent research, problem reports, etc. These numbers are reserved for tutorials, directed and in- dependent readings, directed and independent research, problem reports, etc.
Grade Mode: Normal Grading Mode

PSC 488 Independent Study **1-4 Credit hours**
These numbers are reserved for tutorials, directed and independent readings, directed and independent research, problem reports, etc. These numbers are reserved for tutorials, directed and in- dependent readings, directed and independent research, problem reports, etc.
Grade Mode: Normal Grading Mode

PSC 489 Seminar in Public Service **3 Credit hours**
Grade Mode: Normal Grading Mode

PSC 490 Public Service Internship **6 Credit hours**
Grade Mode: Normal Grading Mode

PSC 499 Capstone Experience **3 Credit hours**
This course is designed as a culminating experience for seniors. Students will engage in a service learning project that combines scholarly interests with real life skills. Course offered only in Fall Semester. This course is designed to integrate political theory with politics by considering the relevance of political phil- osophy to contemporary political questions. Capstone ex- perience must be completed in the senior year.
Pre-req: PSC 211 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Sociology

SOC 200 Introductory Sociology (CT) **3 Credit hours**
Introduction to the study of human society. This class emphasizes critical thinking skills. Introduction to the study of human society. This class emphasizes critical thinking skills.
Attributes: American Institutions, Critical Thinking, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

SOC 200H Intro Sociology Honors (CT) **3 Credit hours**
Introduction to the study of human society for the honors student. This course emphasizes critical thinking skills.
Pre-req: Admitted Honors College with a score of 1.
Attributes: American Institutions, Critical Thinking, Honors, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

SOC 280 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SOC 281 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SOC 282 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SOC 283 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SOC 300 Social Organization **3 Credit hours**
Analysis of sociological conceptual systems and theories. Analysis of sociological conceptual systems and theories.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 310 Individual and Society **3 Credit hours**
Study of sociological perspectives on social interaction and the relationship between the individual and society.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 311 Deviance and Social Control **3 Credit hours**
Study of the basic concepts and theories of deviant behavior and the mechanism of social control.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 313 Contemp Soc Issues and Prob **3 Credit hours**
Analysis of current social issues and problems from a variety of sociological perspectives. Issues and problems will vary from semester to semester.
Pre-req: SOC 200 or SOC 200H or SOC 200E.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 330 Soc of Community Health **3 Credit hours**
An investigation of those social institutions and environmental, social, and personal factors in the community to maintain health and provide support in illness as related to social theory..
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 342 American Society **3 Credit hours**
Sociological analysis of the basic and cultural features of contemporary American society. Sociological analysis of the basic and cultural features of contemporary American society.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 344 Social Research I **3 Credit hours**
Introduction to systematic social research methodology. Introduction to systematic social research methodology.
Pre-req: SOC 200 or SOC 200H.
Grade Mode: Normal Grading Mode

SOC 345 Social Statistics I **3 Credit hours**
Introudction to statistical analysis of social data. Introudction to statistical analysis of social data.
Pre-req: SOC 200 with a minimum grade of D or SOC 200H with a minimum grade of D.
Attributes: Statistics
Grade Mode: Normal Grading Mode

SOC 360 Sociological Theory **3 Credit hours**
Introduction to the dominant theoretical perspectives in sociology examining the assumptions about human nature, society and sociology that constitute each theoretical tradition.
Pre-req: SOC 200 or SOC 200H.
Grade Mode: Normal Grading Mode

SOC 362 Health, Culture and Society **3 Credit hours**
A cross-cultural, historical, and bio-cultural examination through case-study of social and environmental factors that affect human health and disease.
Pre-req: ANT 201 or ANT 201H or SOC 200 or SOC 200H.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SOC 375 Social Stratification **3 Credit hours**
Introduction to the analysis of structured social inequality with emphasis on the dimensions of social class, race and gender.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 401 Population & Human Ecology **3 Credit hours**
The course focuses on population and its relation to characteristics of environment. Specifically, it is designed to discuss the interaction of population processes and resources.
Attributes: International
Grade Mode: Normal Grading Mode

SOC 403 Social Research II **3 Credit hours**
Intermediate social research methodology with emphasis on research design. Intermediate social research methodology with emphasis on research design.
Pre-req: SOC 344.
Grade Mode: Normal Grading Mode

SOC 408 The Family **3 Credit hours**
Theoretical analysis of the family as a primary social institution. Theoretical analysis of the family as a primary social institution.
Pre-req: SOC 200 or SOC 200H.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 413 Social Movements & Soc Change **3 Credit hours**
Analysis of large-scale social change, including intentional social movements and revolutions.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 420 Criminology **3 Credit hours**
An overview of sociological criminology, including an examination of explanations of criminal behavior, types of criminal activity, and an analysis of the criminal justice system.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 423 Social Class Power & Conflict **3 Credit hours**
Theoretical analysis of economic and political inequality and the role of social conflict in the process of large- scale social organization.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 425 Race and Ethnicity **3 Credit hours**
Diverse theoretical approaches to the meaning of race and ethnicity and the character of racial/ethnic relations, with substantive focus primarily on the U.S.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 430 Women in Sports **3 Credit hours**
The history of women in sport, gender equity, opportunities for women in intercollegiate and professional sports (such as participant, coach, trainer, journalist, agent, and promoter), and physiological perspectives.
Grade Mode: Normal Grading Mode

SOC 432 Sociology of Appalachia **3 Credit hours**
Study of the economics, politics, and social relations of Appalachia, including contemporary debates.
Grade Mode: Normal Grading Mode

SOC 433 Sociology of Work **3 Credit hours**
Study of the organization and structure of the work plant as a social system; the meaning and organization of work; managerial functions; management-labor relations; and human relations in industry. Study of the organization and structure of the work plant as a social system; the meaning and organization of work; mana- gerial functions; management-labor relations; and human re- lations in industry.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 440 Intro to the Soc of Aging **3 Credit hours**
An introduction to the social processes and consequences of growing older for both the individual and society.
Pre-req: SOC 200 or SOC 200H.
Grade Mode: Normal Grading Mode

SOC 442 Urban Sociology **3 Credit hours**
The sociology of urban and metropolitan communities. The sociology of urban and metropolitan communities.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 443 Evaluation and Survey Research **3 Credit hours**
Analysis and application of principles/methods of survey design and the theories/methods for assessing the outcomes of applied organizational programs to affect change in people and/or social conditions.
Grade Mode: Normal Grading Mode

SOC 450 Sociology of Religion **3 Credit hours**
Sociological analysis of religion as a social institution. Sociological analysis of religion as a social institution.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 451 Science, Knowledge, and Tech **3 Credit hours**
Exploration of the effects of social factors on the development and authorization of knowledge claims, especially science and technology. Retirement is examined as a process, an event, and a role. Retirement is analyzed from the point of view of the in- dividual and society.
Pre-req: SOC 200.
Grade Mode: Normal Grading Mode

SOC 452 Soc of Death & Dying **3 Credit hours**
Study of death and dying as a societal and cultural phenomenon. Explores how institutions within our society deal with death. Study of death and dying as a societal and cultural phe- nomenon. Explores how institutions within our society deal with death.
Pre-req: SOC 200 with a minimum grade of D or SOC 200H with a minimum grade of D.
Grade Mode: Normal Grading Mode

SOC 455 Sociology of Sex and Gender **3 Credit hours**
Analysis of social differentiation and inequality by gender, with a focus on the contemporary U.S.
Grade Mode: Normal Grading Mode

SOC 460 Holocaust and Genocide **3 Credit hours**
An examination of the Holocaust and other genocides from an interdisciplinary social science perspective. An examination of the Holocaust and other genocides from an interdisciplinary social science perspective.
Grade Mode: Normal Grading Mode

SOC 465 Environment and Society **3 Credit hours**
A critical examination of the link between society and the environment, including ideas about nature, wilderness, and the wild causes of environmental degradation and responses to the environmental issues.
Grade Mode: Normal Grading Mode

SOC 466 Culture and Environment **3 Credit hours**
This course will examine the symbolic and structural dimensions of struggles over defining, organizing, and controlling the natural environment from a biocultural perspective.
Attributes: International
Grade Mode: Normal Grading Mode

SOC 468 National Identity **3 Credit hours**
Exploration of cultural, political and economic processes that contribute to creation and maintenance of the modern nation state as an imagined community.
Grade Mode: Normal Grading Mode

SOC 470 Field Exper in Applied SOC **3-6 Credit hours**
Supervised fieldwork in public or private agencies affording students an opportunity to apply sociological knowledge and skills in addressing practical problems.
Grade Mode: Normal Grading Mode

SOC 480 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses. Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

SOC 481 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses. Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

SOC 482 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regulary scheduled courses. Study of topics of interest not covered in regulary scheduled courses.
Grade Mode: Normal Grading Mode

SOC 483 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses. Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

SOC 485 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SOC 486 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SOC 487 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SOC 488 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SOC 489 Internship **1-4 Credit hours**
Supervised practicum founded on sociological knowledge in a host institution. 40-45 hours of internship work correspond with 1 credit hour. Supervised practicum founded on sociological knowledge in a host institution. 40-45 hours of internship work correspond with 1 credit hour.
Grade Mode: Normal Grading Mode

SOC 492 Senior Seminar I **3 Credit hours**
Application of sociological theory and practice to individually designed projects. This course fulfills the capstone requirement for undergraduate majors. (PR: sociology major in senior standing or departmental permission)
Grade Mode: Normal Grading Mode

SOC 493 Senior Seminar II **3 Credit hours**
Application of sociological theory and practice to individually designed projects. Fulfills the capstone requirement for undergraduate majors. (PR: Anthrolpology major in senior standing or departmental permission)
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Women's Studies

WS 101 Intro to Women's Studies **3 Credit hours**
Historical and social problems of women. Draws upon literature, history, psychology, sociology and economics to illuminate problems women face today. Historical and social problems of women. Draws upon literature, history, psychology, sociology and economics to illuminate problems women face today.

Addiction Studies, Minor

Elizabeth Pacioles
caseyel@marshall.edu
www.marshall.edu/addictionstudies (http://www.marshall.edu/addictionstudies/)

Instead of focusing strictly on treatment for addiction, the aim of this minor is to take advantage of the interdisciplinary structure of the university in order to incorporate the perspectives and expertise of as many faculty, students, and community members as possible. The goal is to create innovative thinkers on this issue in order to provide evidence-based models of dealing with possibly the biggest drug epidemic in world history. In addition to a focus on substance use disorder, approved courses for this minor may address behavioral addictions as well.

Students must take at least 15 hours of courses related to addiction (as approved by the Addiction Studies committee), in at least two disciplines, at least 9 of which must be upper level. Each semester additional approved courses are updated on the addiction studies webpage listed above.

Approved Addiction Studies Courses

Code	Title	Credit Hours
HST 305	Drug Wars	3
SWK 260	Substance Use and SWK	3
CJ 340	Drugs and Crime	3
PSY 440	Physiological Psychology	3
Total Credit Hours		**12**

African and African American Studies, Minor

The minor in African and African American Studies is designed to supplement a student's academic major with an interdisciplinary understanding of the history, social and political life, culture, and geography of the African Diaspora. The program utilizes an interdisciplinary approach whereby students engage in critical thinking across the spectrum of various disciplines such as geography, literature, history, social work, Political Science, fine arts, education, and sociology. The AAAS program serves students who are interested in understanding the cultural contributions and historical legacies of peoples of African ancestry in the United States and throughout Asia, Africa, South America and the Caribbean. The AAAS program also serves Marshall University and the Huntington community through local research and programming in the field of African and African American Studies.

Program Requirements

Students must complete at least 12 credit hours in approved AAAS courses with a minimum cumulative GPA of 2.5. At least six of the 12 credit hours must be in courses numbered 300 or above. Because this is an interdisciplinary minor, students must complete coursework in at least 2 academic programs. In addition to the courses on the following list, students may use up to six credit hours earned in Special Topics courses and up to six credit hours earned in Independent Study to complete the requirement for the AAAS minor upon approval by the Director of African and African American Studies. At least 6 credits must have been completed at Marshall University; up to six credit hours in AAAS coursework completed at another accredited institution may be approved by the Director of African and African American Studies. No more than 3 credit hours taken on a credit/no credit basis may count toward completion of the minor.

Constitutional Democracy, Minor

Patricia Proctor
patricia.proctor@marshall.edu

The minor in Constitutional Democracy, administered through the Simon Perry Center for Constitutional Democracy, brings together different disciplines to study our Constitutional government and different perspectives related to our law and politics. It is designed to promote the study of the U.S. Constitution, the Supreme Court, the legal application of the Constitution, and U.S. politics and governance. It is also focused on developing critical thinking skills and learning about subject matter useful in understanding the law. It includes courses that demonstrate the role of powerful forces in shaping the nature of our constitutional system over a long period of time and highlights the roles of some of America's greatest leaders in this effort. In addition, this minor is particularly useful for students considering applying to law school after graduation, as it includes courses from a variety of disciplines that will be useful in the study of law.

The interdisciplinary minor in Constitutional Democracy is a 15-hour minor that requires students to take:

Code	Title	Credit Hours

Digital Humanities, Minor

Dr. Stefan Schöberlein
schoeberleis@marshall.edu

www.marshall.edu/digitalhumanities (http://www.marshall.edu/digitalhumanities/)

To earn a minor in Digital Humanities, a student must complete at least 15 credits in approved Digital Humanities courses with a minimum GPA of 2.5. Other requirements:

- Students must take DH 201 Intro to Digital Humanities
- 12 additional credit hours in courses related to Digital Humanities.
- Because this is an interdisciplinary minor, students must complete coursework in at least 3 academic departments.
- At least 9 credit hours must have been completed at Marshall University. Students may utilize up to 6 credit hours in Digital Humanities coursework completed at another accredited institution with the approval of the Director of Digital Humanities.
- At least 6 of 15 credit hours must be in courses numbered 300 or above.
- In addition to the courses on the following list, students may include up to 9 credits earned in Special Topics courses, including Honors Seminars, and up to 3 credits earned in Independent Study, provided these courses have been approved by the Director of Digital Humanities for completion of the Digital Humanities minor.
- No courses taken on a credit/no credit basis can count toward completion of the minor.

Courses

Among the courses that may fulfill the Digital Humanities minor are the following:

Code	Title	Credit Hours
ANT 464	Design, Planning & Health	3
ANT 465	Disaster, Culture & Health	3
ART 219	Foundations: Frame/Time	3
ART 318	Art/Design for Websites	3
CS 110	Computer Science I	3
CS 120	Computer Science II	3
DH 201	Intro to Digital Humanities	3
ENG 263	Intro Digital Literary Studies	3
ENG 408	Writing in the Digital World	3
GEO 110	Basic GIS	1
GEO 111	Air Photos & Satellite Imagery	1
GEO 112	Smartphone GPS	1
GEO 113	Web GIS	1
GEO 426	Principles of GIS	4
JMC 241	Media Design	3
JMC 260	Digital Imaging for JMC	3
JMC 361	Digital Presence	3
JMC 462	Web Design for Mass Media	3

The following courses count toward a Digital Humanities minor only when taught by approved faculty. Please check the program website or e-mail the Director of Digital Humanities for a list of approved faculty.

Code	Title	Credit Hours
ENG 344	Introduction to Film Studies	3
ENG 440	Selected Topics in Film	3
HST 303	American Military History	3
HST 312	African-American History	3

HST 438	Stuff and Things in History	3

Film Studies, Minor

Dr. Walter Squire
squirew@marshall.edu
www.marshall.edu/filmstudies (http://www.marshall.edu/filmstudies/)

To earn a minor in Film Studies, a student must complete at least 15 credits in approved Film Studies courses with a minimum GPA of 2.5. Other requirements:

1. ENG 344 Introduction to Film Studies, a 3-credit course, is required.
2. 12 additional credits in courses that focus primarily upon film or related art forms.
3. Because this is an interdisciplinary minor, students must complete coursework in at least 3 academic departments or schools.
4. No more than 9 credits in any one department or school.
5. At least 9 credits must have been completed at Marshall University. Students may utilize up to six credits in Film Studies coursework completed at other accredited institutions with the approval of the Director of Film Studies.
6. No more than 3 credits in independent study.
7. 6 of the 15 credits must be in courses numbered 300 and above.
8. No credits taken on a credit/no credit basis.

Courses

Among the courses that may fulfill the Film Studies minor are the following:

Code	Title	Credit Hours
ANT 365	Anthropology through Film	3
ART 315	Intro to Photography	3
ART 325	Image Visualization: Digital	3
ART 453	Motion Design I	3

SPN 418	Latin American Film	3
SPN 419	Against Oppression SPN LA Film	3
THE 111	Introduction to Acting	3
THE 201	Crit Analysis Theatre Lit	3
THE 240	Stage Lighting I	4
THE 354	Stage Make-up	3

In addition to the courses on this list, students may use up to nine credits earned in Special Topics courses, including Honors Seminars, and up to three credits earned in Independent Study to complete the requirement for the Film Studies minor, provided these courses have been approved by the Director of Film Studies for completion of the Film Studies minor.

Latin American Studies, Minor

Dr. Chris White
whitec@marshall.edu

A student may earn a minor in Latin American Studies by completing at least 15 credit hours from the courses listed below and/or any 300- and 400-level Special Topics or Independent Study courses that focus on Latin America and that have been approved by the Director of Latin American Studies. Since it is an interdisciplinary program, students are not confined to taking courses in one department; however, all 15 credit hours can be from a single department. Up to 6 credit hours can be transferred from another accredited institution with the approval of the Director of Latin American Studies. The director may allow up to 12 credit hours to apply if earned at a Latin American university during study abroad. No more than 3 credit hours taken on a credit/no credit basis may count toward the minor. A student must have a minimum GPA of 2.5 in the courses counting toward the minor.

SPN 435	Contemporary Latin Am Culture	3

Sexuality Studies, Minor

Dr. Shawn Schulenberg
schulenberg@marshall.edu
www.marshall.edu/sexualitystu/ (https://www.marshall.edu/sexualitystu/)

Through the Sexuality Studies minor a new generation engages in research and understanding of a critical aspect of human experience. The minor offers students a greater understanding of the histories of, development of, and variations in sexual cultures, sexual identities, sexual discourses, intimate relationships, and sexual health. Foregrounding sexuality as a central, rather than peripheral, category of social and cultural analysis, it encourages students to apply the category across disciplines of cultural studies, history, literature, social sciences, and sciences.

A student may earn a minor in Sexuality Studies by completing Introduction to Sexuality Studies and at least 12 additional credit hours. Those credit hours must be earned in courses that focus primarily on human sexuality issues, with at least 3 hours from each of the following two categories: Literary and Cultural Studies and Social Sciences (Anthropology, Classics, Communication Studies, Economics, English, Fine Arts, History, Modern Languages, Political Science, Sociology); Behavioral and Natural Sciences (Biology, Psychology, Allied Health Professions, Nursing, Social Work). A student must obtain approval from the chair of the Sexuality Studies Committee for all courses the student wants counted toward the minor. No more than 9 credit hours can be earned in any one department. At least 9 credit hours must be earned in 300- and 400-level courses. No more than 6 credit hours in Independent Study courses can count toward the minor. No courses taken on a credit/no credit basis can count toward the minor. Up to 6 credit hours can be transferred from another accredited institution; such courses must be approved by the Chair of the Sexuality Studies Committee.

Some approved courses are below. The full list of approved courses can be found on the Sexuality Studies website at www.marshall.edu/sexualitystu (http://www.marshall.edu/sexualitystu/). Note that all courses that follow, except the Introduction to Sexuality Studies, are approved for certain instructors only.

Code	Title	Credit Hours
PSC/HST/ANT/ ENG 280	Special Topics (Introduction to Sexuality Studies) (Rotating faculty)	1-4
CL 471	Ancient Sexuality (Dr. Del Chrol)	3
ENG 344	Introduction to Film Studies (Special Section: Sexuality in Cinema)(Dr. Walter Squire)(Make sure you sign up for the section taught by Dr. Squire)	3
ENG 434	20th C American Poetry (Sexuality and the Beats) (Dr. Alan Gravano)	3
ENG 455	Advanced Critical Theory (Queer Theory)(Dr. Alan Gravano)	3
HST 407	Sex and Sexuality in the US (Dr. Greta Rensenbrink)	3
HST 408	History of LGBT Peoples (Dr. Greta Rensenbrink)	3
HST 480/580	Special Topics (Writing and Re-Writing the Norse Saga)(Dr. Laura Michele Diener)	1-4
PHL 330	Philosophy of Sex (Dr. John Vielkind)	3

PSC 481/581	Special Topics (The Politics of Gender and Sexuality)(Dr. Shawn Schulenberg)	1-4
PSY 465	Love Intimacy and Attachment (Dr. Keelon Hinton)	3

Contact: Dr. Shawn Schulenberg by phone at 304-696-2767 or by e-mail at schulenberg@marshall.edu.

Women's and Gender Studies, Minor

Dr. Laura Michele Diener
Old Main 357/304-696-3643
www.marshall.edu/womenstu (http://www.marshall.edu/womenstu/)

Marshall University offers a minor in Women's and Gender Studies. It consists of 12 credit hours in courses designated as Women's Studies Courses, including regularly offered courses as well as other popular special topic courses.

The program has the following major objectives:

- To understand the unique contributions of women of all races, sexual orientations, and classes in a global context.
- To complement the existing curriculum where systematic attention to women's experiences and contributions is needed.
- To encourage students to understand the subjective, gender and culture-specific nature of their values, beliefs and customs, and those of others.
- To understand the historical and contemporary social mechanisms that promote or limit women's development as full participants in society.
- To use gender- and culture-inclusive language in written and oral communication, and understand language as a means of liberation or discrimination.
- To promote the equitable treatment of all members of society.

Women's Studies Courses

The following courses will always count toward a Women's and Gender Studies minor. Please check the program website for frequency taught and faculty information. The website will also list Special Topics courses.

Code	Title	Credit Hours
ART 404	Iconography of Mary	3
CJ 406	Race, Ethnicity, Class & Crime	3
CJ 440	CJ Response to Dom Violence	3
CL 210	Love/War Ancient World (CT)	3
CL 231	Women in Greek & Roman Lit	3
CL 460	Ancient Goddess Religions	3
CL 471	Ancient Sexuality	3
HST 250	Women in US History	3
HST 407	Sex and Sexuality in the US	3
HST 443	20th Century US Womens Hst	3
HST 451	History of Women in Sports	3
JMC 455	Race Gender & Mass Media	3
PHL 340	Sexual Orient & Gender	3
PSC 419	Women and Political Thought	3
PSY 330	Human Sexual Behavior	3
PSY 430	Psychology of Women	3
SOC 455	Sociology of Sex and Gender	3
SPN 408	Latin American Women	3
WS 101	Intro to Women's Studies	3

The following courses count toward a Women's Studies minor only when taught by approved faculty. Please check the program website or e-mail the director for a list of approved faculty.

Code	Title	Credit Hours
ENG 240	African American Literatures	3
ENG 242	Women Writers	3
ENG 344	Introduction to Film Studies	3
ENG 414	19th C British Novel	3

Overview text

Programs

- International Affairs, B.A. (p. 403)
- International Affairs, Minor (p. 405)

Courses

- General Education Course

Economics

ECN 200 Survey of Economics **3 Credit hours**
Major emphasis given to microeconomic topics such as supply and demand, market structure, and international trade. Macroeconomic concepts and aggregate supply-aggregate demand model are examined. (Not open to students in the College of Business or to students who have completed ECN 250) Major emphasis given to microeconomic topics such as supply and demand, market structure, and international trade. Macroeconomic concepts and aggregate supply-aggregate demand model are examined. (Not open to students in the College of Business or to students who have completed ECN 250)
Grade Mode: Normal Grading Mode

ECN 250 Principles Microeconomics **3 Credit hours**
Principles of scarcity, opportunity cost, and supply and demand are developed along with price and wage determination in the marketplace. International trade and policy problems are also examined. Principles of scarcity, opportunity cost, and supply and demand are developed along with price and wage determination in the marketplace. International trade and policy problems are also examined.
Grade Mode: Normal Grading Mode

ECN 253 Principles Macroeconomics **3 Credit hours**
Introduction to the workings of the national economy. Focuses on the forces driving economic growth, inflation, unemployment, and the country's international economic relations. Introduction to the workings of the national economy. Focuses on the forces driving economic growth, inflation, unemployment, and the country's international economic relations.
Pre-req: ECN 250 with a minimum grade of D or ECN 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ECN 301 Quantitative Methods ECN/FIN **3 Credit hours**
Application of mathematical and statistical methods in Economics and Finance.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 302 Health Economics **3 Credit hours**
A study of the health care market and health policy using the economic concepts of demand-supply, individual choice, uncertainty, asymmetric information and moral hazard.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 310 Money and Banking **3 Credit hours**
Money, credit and credit institutions in the United States; monetary, fiscal, and banking functions of the Federal Reserve System.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

ECN 326 Int Macroeconomic Analys **3 Credit hours**
Advanced study of the national economy as a whole. The main topics focused on are: economic growth, unemployment, inflation, international monetary and financial relations, and macroeconomic policy activity. Advanced study of the national economy as a whole. The main topics focused on are: economic growth, unemployment, inflation, international monetary and financial relations, and macroeconomic policy activity.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

ECN 328 Int Microeconomic Analys **3 Credit hours**
Microeconomics theories of the production and pricing of goods and services, payments to the factors of production.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 405 Environmental Economics **3 Credit hours**
An application of basic economic theory to a consideration of a wide range of environmental problems including pollution, natural resource exhaustion, population and economic growth.
Pre-req: ECN 250 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 408 Comparative Econ Systems **3 Credit hours**
Marxism, capitalism, communism, facism ad socialism considered as theories, movements and actual political economies.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: International
Grade Mode: Normal Grading Mode

ECN 415 Regional Economics **3 Credit hours**
A study of location theory and regional development within a framework of economic theory. A study of location theory and regional development within a framework of economic theory.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: American Institutions, Social Sciences
Grade Mode: Normal Grading Mode

ECN 420 International Trade **3 Credit hours**
An introduction to the basic microeconomic models explaining the reasons for and the effects of trade among nations, trade restrictions and regional trading arrangements. An introduction to the basic microeconomic models explaining the reasons for and the effects of trade among nations, trade restrictions and regional trading arrangements.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: International
Grade Mode: Normal Grading Mode

ECN 421 Global Macroeconomic Analysis **3 Credit hours**
Current topics in international monetary relations, and how countries use macroeconomic policy to influence their performance in the global economy, and how global events influence country performance. Emphasis upon applications.
Pre-req: ECN 253 with a minimum grade of D.
Attributes: International
Grade Mode: Normal Grading Mode

ECN 423 Intro to Econometrics **3 Credit hours**
Combines economic theory with real data to obtain quantitative results for purposes of explanation and prediction. The development of useful economic models applicable to present day world problems.
Pre-req: (MGT 218 with a minimum grade of D or MGT 318 with a minimum grade of D or MTH 225 with a minimum grade of D or STA 225 with a minimum grade of D or IST 130 with a minimum grade of D or EDF 417 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D) and ECN 253 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 456 Labor Economics **3 Credit hours**
Theoretical and empirical analysis of labor markets, wage determination, hours of work, unemployment and inflation, unions and collective bargaining and related subjects in their social and legal contexts.
Pre-req: ECN 250 with a minimum grade of D.
Attributes: American Institutions, Social Sciences
Grade Mode: Normal Grading Mode

ECN 460 Economic of Dev Countries **3 Credit hours**
Introduction to developing nations in the world economy. Focus on their economic characteristics, current economic problems, and policy issues. Interactions between the world economy and country performance.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: International
Grade Mode: Normal Grading Mode

ECN 466 Economics Workshop **3 Credit hours**
Capstone experience. Emphasis on learning economics through applied research, writing, and oral presentations of student work. Capstone experience. Emphasis on learning economics through applied research, writing, and oral presentations of student work.
Pre-req: ECN 326 with a minimum grade of D and ECN 328 with a minimum grade of D and ECN 423 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

ECN 467 Economics Workshop II **2 Credit hours**
Capstone Experience. Emphasis on learning economics through writing exercises. Opportunity for collaborative research with CBER staff. Development of skills necessary for success in the job market. (PR: ECN 466) tion of Senior Thesis I) Capstone Experience. Emphasis on learning economics through writing exercises. Opportunity for collaborative research with CBER staff. Development of skills necessary for success in the job market. (PR: ECN 466) tion of Senior Thesis I)
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

ECN 480 Special Topics **1-4 Credit hours**
Members of the department may teach, when necessary, any economics subject not listed among the current course offerings. Members of the department may teach, when necessary, any economics subject not listed among the current course offer- ings.
Grade Mode: Normal Grading Mode

ECN 485 Independent Study **1-4 Credit hours**
A research project conducted by a qualified student under guidance of a member of the department; involves gathering of data, interpretation, and presentation of findings in a written report. A research project conducted by a qualified student under guidance of a member of the department; involves gathering of data, interpretation, and presentation of findings in a written report.
Grade Mode: Normal Grading Mode

ECN 490 Internship **3-12 Credit hours**
A supervised internship in which the student works for a business firm/agency to gain practical experience in the student's major. The program of work and study will be defined in advanced and the students performance will be evaluated.
Grade Mode: Credit/No Credit Grade Only

Geography

GEO 100 Intro to Human Geography (CT) **3 Credit hours**
This critical thinking course provides a systematic examination of contemporary concepts and processes of human geography in global perspective, including economics, geopolitics, culture, nationalism, urbanization, governance, agriculture, population, and migration.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

GEO 101 Physical Geography (CT) **4 Credit hours**
Systematic survey of earth-sun relationships, land-surface form, climate, soils, water, natural vegetation, and other natural content as a background for human geography. Systematic survey of earth-sun relationships, land-surface form, climate, soils, water, natural vegetation, and other natural content as a background for human geography.
Attributes: Critical Thinking, Natural Sciences
Grade Mode: Normal Grading Mode

GEO 110 Basic GIS **1 Credit hour**
Introduction to GIS concepts including GIS components, spatial and tabular data, database elements, data formats, and map design; hands-on experience with a GIS.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 111 Air Photos & Satellite Imagery **1 Credit hour**
Introduction to photogrammetry and remote sensing thourgh the hands-on investigation of aerial photographs and satellite imagery using the latest technology.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 112 Smartphone GPS **1 Credit hour**
Principles of Global Navigation Satellite Systems (GNSS); using your smartphone for Global Positioning Systems (GPS)/GNSS orientation, and data collection.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 113 Web GIS **1 Credit hour**
Students learn to build web maps, share GIS data on the internet, and create web GIS applications.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 203 Economic Geography (CT) **3 Credit hours**
A systematic examination of world economic geography with a focus on population, agriculture, transportation, land use, urbanization, industry, energy, and the environment. A systematic examination of world economic geography with a focus on population, agriculture, transportation, land use, urbanization, industry, energy, and the environment.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

GEO 206 Geography West Virginia **3 Credit hours**
A survey of the geography of West Virginia including landforms, climate, settlement patterns, population, economics, resources, politics, and environmental changes.
Attributes: American Institutions, Core II Social Sciences
Grade Mode: Normal Grading Mode

GEO 207 Biblical Geography **3 Credit hours**
Students explore the physical and human geography of ancient Palestine and assess how geography informs our understanding of people, events, and places described by Jewish and Christian scriptures.
Attributes: Core II Humanities
Grade Mode: Normal Grading Mode

GEO 222 Global Environment Issues (CT) **3 Credit hours**
Environmental issues have great emotional, political, and economic significance. The dynamics of global environmental problems, their complex interactions, and effects on potential stakeholders will be examined at the international scale.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

GEO 230 Intro to Meteorology (CT) **4 Credit hours**
Introduction to the composition of the atmosphere and weather phenomena, including thunderstorms, tornadoes, and hurricanes. Introduction to the composition of the atmosphere and weather phenomena, including thunderstorms, tornadoes, and hurricanes.
Attributes: Critical Thinking, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GEO 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 300 Methods in Geography **3 Credit hours**
Provides an introduction to research methods in geography. Topics addressed include: data sources; sampling; data collection, storage, and management; descriptive measures and data visualization techniques; qualitative and quantitative analysis.
Pre-req: STA 225 with a minimum grade of D or STA 150 with a minimum grade of D or STA 150B with a minimum grade of D or MGT 218 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D or GEO 440 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 305 Geog of USA & Canada **3 Credit hours**
Survey of physical, historical, population, economic, political, cultural, and regional geographies of Canada and the United States, including an analysis of the multi-cultural nature of the societies.
Attributes: American Institutions, Multicultural
Grade Mode: Normal Grading Mode

GEO 317 World Regional Geography **3 Credit hours**
World regions examined using a synthesis of physical and human geographical themes including environment, culture, landscape, climate, landforms, globalization, population patterns, urbanization, economies, and political geography.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 350 Severe Storms and Natl Hzrds **4 Credit hours**
Basics of earth and atmospheric hazards including flooding, earthquakes, tsunamis, hurricanes, tornadoes, and volcanic eruptions, and how to mitigate the impacts. Basics of earth and atmospheric hazards including flooding, earthquakes, tsunamis, hurricanes, tornadoes, and volcanic eruptions, and how to mitigate the impacts.
Grade Mode: Normal Grading Mode

GEO 355 Aviation Weather **3 Credit hours**
A study of atmospheric conditions on aeronautical operations. Topics include atmospheric properties, aviation hazards including thunderstorms, wind shear, turbulence, and icing, and weather flight resources.
Pre-req: GEO 230 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 402 Geography of Appalachia **3 Credit hours**
A study of the geography of Appalachia, including landforms, climate, settlement patterns, population, economics, resources, politics, and environmental changes.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

GEO 404 Geography of Europe **3 Credit hours**
An examination of the geography of Europe focusing on contemporary issues, including climate, culture, economics, environmental change, everyday life, international relations landforms, language, politics, population, religion, and urbanization. An examination of the geography of Europe focusing on contemporary issues, including climate, culture, economics, environmental change, everyday life, international relations landforms, language, politics, population, religion, and urbanization.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 405 Political Geography **3 Credit hours**
A systematic and regional survey of world political problems and international relations stressing current geopolitical conflicts. An examination of contemporary patterns, processes, and problems of political geography in global perspective, including globalization, colonialism, imperialism, geopolitics, nationalism, diplomacy, international borders, governance, political representation, and future projections
Attributes: International
Grade Mode: Normal Grading Mode

GEO 406 Population Geography **3 Credit hours**
An examination of contemporary patterns, processes, and problems of population geography in global perspective, including fertility, mortality, demographic change, migration, malnutrition, urbanization, natural resource sustainability, and future projections. An examination of contemporary patterns, processes, and problems of population geography in global perspective, including fertility, mortality, demographic change, migration, malnutrition, urbanization, natural resource sustainability, and future projections.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 408 Geog of South & Middle America **3 Credit hours**
A study of settlement, transportation, manufacturing, agriculture, geopolitics, and natural resources of South and Middle American countries. Regional study of relation of man's activities to natural environment.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 410 Urban Geography **3 Credit hours**
Study of the evolution, morphology and land use, functions, and problems of urban areas, with emphasis on governance, planning, and the social and environmental impacts of urbanization.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

GEO 411 Medical Geography **3 Credit hours**
An examination of contemporary issues and problems in health and medical geography, including the spatial aspects of global health, health care policy, and disease origins, diffusion, and ecology.
Grade Mode: Normal Grading Mode

GEO 418 Geography For Educators **3 Credit hours**
A study of geographic concepts, methods, and technologies essential for effective teaching of geographic content for K-12 social studies teachers and college educators.
Grade Mode: Normal Grading Mode

GEO 422 Environmental Geography **3 Credit hours**
Attributes: International
Grade Mode: Normal Grading Mode

GEO 423 Cartography & GIS **3 Credit hours**
This course is an introduction to cartography and is the cornerstone of Geographic Information Science. In this class you will learn basic map design, map interpretation and appreciation. We will explore the nature of spatial data, and learn what maps can and cannot represent. We will study maps as a data source for Geographic Information Systems, and as a graphic tool for scientific visualizations.
Grade Mode: Normal Grading Mode

GEO 424 Transportation Geography **3 Credit hours**
A geographic analysis of transportation and its spatial organization. Concepts, models, and analytical methods related to traffic demand, network configuration, and allocation of transport facilities are covered.
Grade Mode: Normal Grading Mode

GEO 425 Climatology **4 Credit hours**
A study of elements of weather and climate, methods of climatic classification, and the distribution and characteristics of world climate regions. A study of elements of weather and climate, methods of climatic classification, and the distribution and characteristics of world climate regions.
Grade Mode: Normal Grading Mode

GEO 426 Principles of GIS **4 Credit hours**
Introduction to Geographic Information Systems (GIS) principles, techniques, and applications for the social and natural sciences with emphasis on foundational geographic principles in a lecture/lab format.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 427 Principles of GIS II **4 Credit hours**
Students apply GIS principles and techniques to geoprocess and manipulate geographic data, including topics such as geodatabase management, python scripting, model building, web mapping and data services, and spatial analysis.
Pre-req: GEO 423 with a minimum grade of D or GEO 426 with a minimum grade of D or GEO 429 with a minimum grade of D or GEO 430 with a minimum grade of D or NRRM 423 with a minimum grade of D or NRRM 433 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 429 Location Analysis and GIS **4 Credit hours**
Concepts, models, and methods of geographic location analysis of natural resource extraction, manufacturing, services, retail and market area analytics, and logistics using GIS.
Pre-req: GEO 423 with a minimum grade of D or GEO 426 with a minimum grade of D or GEO 427 with a minimum grade of D or GEO 430 with a minimum grade of D or NRRM 423 with a minimum grade of D or NRRM 433 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 430 Environmental Raster GIS **4 Credit hours**
Environmental Applications of GIS raster analysis, including local, neighborhood, and zonal operations, terrain analysis, distance modeling, and surface interpolation, data collection and input, and advanced spatial analysis using GIS.
Pre-req: GEO 426 or GEO 429 or IST 423.
Grade Mode: Normal Grading Mode

GEO 431 Remote Sensing & Photogram **4 Credit hours**
Scientific study of the earth using images and data captured using satellite- or aircraft-borne sensors, with emphasis on issues of acquisition, photogrammetric interpretation, spatial analysis and application.
Pre-req: GEO 426 with a minimum grade of D or GEO 429 with a minimum grade of D or GEO 430 with a minimum grade of D or IST 423 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 432 Enterprise GIS **3 Credit hours**
Principles and techniques for planning, implementing, and managing Geographic Information Systems technologies in a firm or agency.
Pre-req: GEO 426 or GEO 429 or GEO 430 or GEO 431 or IST 423.
Grade Mode: Normal Grading Mode

GEO 433 GPS & Mobile Geospatial Tech **3 Credit hours**
An analysis of the design and deployment of Global Navigation Satellite Systems such as GPS (Global Positioning System) and their application to mobile map services.
Pre-req: GEO 426 or GEO 429 or GEO 430 or GEO 431 or IST 423.
Grade Mode: Normal Grading Mode

GEO 434 Floods Hazards and GIS **3 Credit hours**
Application of principles of flood hazards preparation, disaster management, and mitigation using Geographic Information Systems (GIS).
Grade Mode: Normal Grading Mode

GEO 440 Spatial Statistics and GIS **4 Credit hours**
Statistical methods applied to problem solving in geography and using GIS for display and analysis. Primary focus on descriptive and inferential spatial statistics, mapping, and spatial analysis of data.
Grade Mode: Normal Grading Mode

GEO 450 Extreme Weather **4 Credit hours**
Basics of extreme weather phenomena including hurricanes, tornadoes, floods, droughts, blizzards, and how to mitigate the impacts.
Grade Mode: Normal Grading Mode

GEO 454 Drones: Remote Sensing & GIS **3 Credit hours**
Learn FAA rules and safety procedures; prepare for Remote Pilot licensing exam; operate drones to collect remote sensing data; process imagery for analysis; integrate sUAS imagery with existing GIS data.
Grade Mode: Normal Grading Mode

GEO 460 Weather Analysis **4 Credit hours**
Introduction to reading weather maps and meteorological analysis techniques including satellite and radar image interpretation and numerical weather prediction.
Grade Mode: Normal Grading Mode

GEO 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

GEO 486 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

GEO 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 490 Internship **1-6 Credit hours**
Cooperative learning experience with regional employer/government agency.
Attributes: No Textbook Required
Grade Mode: Credit/No Credit Grade Only

GEO 498 Senior Capstone **2 Credit hours**
This senior capstone course combines research methods, data collection, and analysis to produce original research on questions and problems in geography. Par I: Pilot Project.
Pre-req: GEO 300 with a minimum grade of D and (GEO 423 with a minimum grade of D or GEO 426 with a minimum grade of D).
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

GEO 499 Senior Capstone II **1-3 Credit hours**
This senior capstone course combines research methods, data collection, and analysis to produce original research on questions and problems in geography. Part II.
Pre-req: GEO 426 with a minimum grade of D and (MTH 225 with a minimum grade of D or GEO 440 with a minimum grade of D or MGT 218 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D or ANT 301 with a minimum grade of D or EDF 417 with a minimum grade of D).
Attributes: American Institutions, Capstone Course
Grade Mode: Normal Grading Mode

History

HST 101 Great Civs to 1300 (CT) **3 Credit hours**
Comparative study of the origin and course of major civilizations focusing on the Middle East, India, China, and the West. This class emphasizes critical thinking skills. Comparative study of the origin and course of major civilizations focusing on the Middle East, India, China, and the West. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 101H Great Civs to 1300 (CT) **3 Credit hours**
Comparative study of the origin and course of major civilizations focusing on the Middle East, India, China, and the West. This honors section emphasizes critical thinking skills.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Critical Thinking, Honors, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 102 World & West 1300-1850 (CT) **3 Credit hours**
An interdisciplinary analysis of the foundations of Western development. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 102H World & West 1300-1850 (CT) **3 Credit hours**
An interdisciplinary analysis of the foundations of Western development. This class emphasizes critical thinking skills.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Critical Thinking, Honors, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 103 The World Since 1850 (CT) **3 Credit hours**
Major world developments and trends from the middle of the 19th century to the present and their implications for the future. This class emphasizes critical thinking skills. Major world developments and trends from the middle of the 19th century to the present and their implications for the future. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 103H World Since 1850 Honors (CT) **3 Credit hours**
Survey for superior students of world developments and trends from the 19th century to the present and their implications for the future. Survey for superior students of world developments and trends from the 19th century to the present and their implications for the future.
Pre-req: ACT Composite with a score of 26 or SAT Verbal Before March 16 with a score of 600.
Attributes: Critical Thinking, Honors, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 200 History Methods Workshop **3 Credit hours**
This course is an introduction to the most fundamental methods of the discipline. Students will learn to use library resources, practice document interpretation skills, and identify and evaluate historical arguments. This course is an introduction to the most fundamental methods of the discipline. Students will learn to use library resources, practice document interpretation skills, and identify and evaluate historical arguments.

- The total number of free electives will depend on the amount of double and triple counting of requirements.
- See course attributes each semester for courses that meet multiple requirements.
- Questions about requirements should be directed to the College of Liberal Arts (304-696-2350). Core II and COLA requirements may not be double counted.

- Forty-eight credit hours (sixteen 3-hour courses) must be at the 300/400 level.
- Students must earn a *C* or better in ENG 201 Advanced Composition and all foreign language courses.
- Minimum of 120 hours to graduate.
- The student will concentrate on a single foreign language. A minimum of six hours beyond the 204 level is required, including at least one conversation and/or composition course (FRN 305/306, GER 315/316, JPN 307, SPN 305/306).
- HST Elective may be met by taking six hours from the following: HST 206, 208, 223, 265, 231, 301, 302, 303, 304, 305, 306, 307, 311, 313, 361, 378, 392, 404, 405, 423, 425, 426, 428, 430, 434, 435, 436, 439, 442, 445, 446, 449, or 458.
- PSC Elective may be met by taking one of the following: PSC 403, 405, 407, 408, 409, 410, 411, 415, 416, 420, 422, 423, 424, 428, 429, 431, 434, 444, 04 478.
- IA Electives (choose 6 additional hours) ANT 201, ANT 440, ANT 441, ANT 465, ANT 468, ECN 408, ECN 420, ECN 421, ECN 460, PSC 403, PSC 405, PSC 407, PSC 408, PSC 409, PSC 410, PSC 411, PSC 415, PSC 416, PSC 420, PSC 422, PSC 423, PSC 424, PSC 428, PSC 429, PSC 431, PSC 434, PSC 444, PSC 478, HST 206, HST 208, HST 223, HST 231, HST 265, HST 301, HST 302, HST 303, HST 304, HST 305, HST 306, HST 307, HST 311, HST 313, HST 361, HST 378, HST 392, HST 404, HST 405, HST 423, HST 425, HST 426, HST 428, HST 430, HST 434, HST 435, HST 436, HST 439, HST 442, HST 445, HST 446, HST 449, HST 458, GEO 100, GEO 222, GEO 317, GEO 404, GEO 406, GEO 408, GEO 422.
- GEO Elective may be met by taking one of the following: GEO 100, GEO 222, GEO 317, GEO 404, GEO 406, GEO 408, or GEO 422.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

International Relations is an interdisciplinary undergraduate major focusing on the changing political, economic and cultural relations within the international system of the modern era. The program explores how global, regional, and domestic factors influence relations between actors on the world stage. Students are equipped with both the foundational skills and specific knowledge necessary to analyze the choices and challenges that arise in this arena.

College of Education and Professional Development

Contacts: Dr. Teresa Eagle, Dean; Dr. Thelma (Sissy) Isaacs, Associate Dean; Dr. Sandra Stroebel, Associate Dean
Website: http://www.marshall.edu/coepd (http://www.marshall.edu/coepd/)

Mission of the College

The College of Education and Professional Development (COEPD) is one of the oldest academic units within Marshall University. When the West Virginia Legislature purchased Marshall College in 1867, it ensured the preparation of teachers by establishing the West Virginia State Normal School as part of the college program. This function has remained an integral part of the university mission throughout the years.

The College of Education and Professional Development continues to prepare teachers and other professional educators, including

counselors, principals, supervisors, and superintendents. It also provides continuing education opportunities for professional educators. All teacher education programs at Marshall University are under the direction of the College of Education.

The College of Education and Professional Development provides educational services for students and the community which include the Appalachian Rural Systemic Initiative, Appalachian Studies Association, Autism Training Center, Child Development Academy, Early Education Center, Learning Resources Center (LRC), Testing Center, the Center for Higher Education for Learning Problems (HELP), the Center for Reading Excellence, and the June C. Harless Center for Rural Educational Research and Development. The College of Education and Professional Development provides education and services for programs that are open, complex, demanding, and evolving. It meets the academic needs of educators and other professional personnel.

Program Changes for the College of Education and Professional Development

Students in the College of Education and Professional Development should monitor their programs of study carefully due to ongoing curricular changes. Please check with your advisor and/or the director of the Student Center of Professional Education Services (SCOPES) for information regarding your program.

Pre-Teacher Education

Incoming freshmen are admitted to Marshall University as Pre-Teacher Education students. During this time students are encouraged to register for Core Curriculum requirements. There is no bachelor's degree granted in pre-teacher education. Full admission to teacher education is dependent on successful completion of the requirements for admission to teacher education. To promote satisfactory academic progress and progress toward graduation, Pre-Teacher Education students must be admitted to the Teacher Education program prior to the completion of 90 credit hours. As noted below, admission to Teacher Education status requires a 2.80 GPA and successful completion of the Praxis CORE Academic Skills for Educators Exam. Pre-Teacher Education students should plan well in advance to insure that these requirements are met prior to completion of their 90th credit hour.

Transfer students are also admitted under the Pre-Teacher Education curriculum until they have met all of the standards for admission to teacher education.

Minor

No education minor is available through the College of Education.

Clinical Experiences

All teacher education students participate in clinical experiences which permit them to observe children or youth in activities which are examples of the teaching/learning process. These experiences are provided in cooperation with the local public schools. Students who enroll for these experiences must meet the standards of professionalism and conduct that apply to employees in the schools to which they are assigned.

Certain other programs require clinical experiences that are associated with specific courses. Students should examine the "Courses of Instruction" section of this catalog for descriptions of courses in their programs.

The College of Education and Professional Development *Clinical Handbook* can be accessed online at www.marshall.edu/coepd/plc (http://www.marshall.edu/coepd/plc/).

Certificate Renewal

Marshall University, in addition to offering teacher preparation programs, is actively involved in the continuing education of all professional teachers. The West Virginia Board of Education has approved a program of continuing education for all professional teachers and school service personnel. Information relative to renewal of a teacher's professional certificate is available from the SCOPES Office, Education Building Room 201.

College of Education and Professional Development Programs

The degree offered by the College of Education and Professional Development is the Bachelor of Arts degree (B.A.). Students may select from the following teacher education programs:

1. Early Childhood Education
2. Elementary Education K-6 Comprehensive
3. PreK-Adult Education
   - Art
   - Music
   - Wellness
4. Secondary 5-Adult Education
   - English
   - General Science
   - Mathematics
   - Social Studies
5. Secondary 9-Adult Education
   - Biological Sciences
   - Chemistry
   - Physics
6. Additional Endorsement Programs - Optional programs that must be coupled with one of the above listed majors.
   - Early Education PK-K
   - English 5-9
   - General Science 5-9
   - Mathematics 5-9
   - Multi-Categorical Special Education K-6 or 5-Adult
   - Social Studies 5-9

Students obtain curriculum sheets from the Student Center of Professional Education Services (SCOPES), 201 Education Building, when they declare their majors. These sheets will assist in the planning and in the recording of progress.

Students should monitor their programs of study carefully due to ongoing curricular changes in many programs.

Departments

- Curriculum, Instruction and Foundations (p. 411)
- Early Childhood Education (p. 439)

Admission Requirements

Regular admission to the university constitutes admission to the College of Education and Professional Development for entering freshmen.

Admission to Teacher Education

1. Enrolled in the College of Education and Professional Development as a **Pre-Teacher Education** major.
2. Completed at least 24 credit hours, including EDF 201 Ed Psych Developing Learner/EDF 270 Level I Clinical Exp (12 hours for transfer students).
3. Maintained Grade Point Average of 2.80 or better for all courses attempted **overall**.
4. Maintained Grade Point Average of 2.80 or better for all courses attempted at Marshall University.
5. ACT composite of 21 (see the Student Center of Professional Education Services, 201 Education Building, for alternative entrance table).
6. Successfully passed **all three parts** (reading, writing, mathematics) of the Praxis CORE Academic Skills for Educators Exam, a requirement of the West Virginia Department of Education. This test **must be successfully completed within the first 24 hours of coursework in order for the student to make continuous progress in the professional education core.**
   Transfer students **must** complete the Praxis CORE Academic Skills for Educators Exam during their first 12 hours at Marshall University if they plan to begin professional education core classes during their second academic term.
7. Completion of Self-Assessment in LiveText.
8. Completion of Writing Sample in LiveText.
9. Three Recommendations uploaded to LiveText.

Process for Application for Admission to Teacher Education

1. During enrollment in EDF 201 Ed Psych Developing Learner, each student will be asked to submit an Application for Admission to Teacher Education.
2. During the semester the application is submitted, personnel in the Student Center of Professional Education Services (SCOPES) (Education Building 201) will evaluate each student's record to determine eligibility for admission to Teacher Education.
3. Each transfer student is responsible for initiating the application procedure through the Student Center of Professional Education Services (SCOPES), 201 Education Building.

Students who desire to become teachers in early childhood, pre-kindergarten/kindergarten, elementary, middle, and secondary schools and who are confident that they can attain the standards of academic and professional competency required, enroll in the College of Education. Students who are enrolled in another college or school of the university may not enroll in the professional education core courses except for EDF 201 Ed Psych Developing Learner and EDF 270 Level I Clinical Exp.

Beginning Spring 2018, any candidate who wishes to student teach must successfully complete the Praxis II Content exam prior to the first day of the clinical placement.

Admission to Student Teaching at Marshall University

Requires the following:

1. Completion of the professional education core prerequisites.
2. **Core Curriculum Requirements** with the grade of *C* or better in ENG 101 Beginning Composition, ENG 201 Advanced Composition, or ENG 201H English Comp Honors.
3. A Grade Point Average of 2.80 or better in all courses attempted, all coursework at Marshall University, and all courses in the teaching specializations; and a 3.0 in all courses in professional education. Courses in specialization(s) and professional education must be passed with the grade of *C* or better. Students should review their program sheets to identify professional education courses. It will be the student's responsibility to insure that the above grade averages have been met prior to entering student teaching. Any student who enters student teaching without the above grade averages will be withdrawn by administrative action.
4. The completion of 90% of the coursework in the teaching specialization(s). Applicants must complete a minimum of 100 hours prior to the beginning of student teaching. All professional education courses must be taken prior to student teaching.
5. **Application for Student Teaching.** Applications must be completed the semester previous to enrolling for this experience.
6. Successful passage of the Praxis II Content exam.

Note: Students who are members of varsity teams may not participate in the student teaching program during the active season of their particular sport (e.g., football team members may enroll for student teaching only during the spring semester, basketball team members may enroll for student teaching only during the fall semester and so on).

Site Selection

Teacher candidates will be placed in public schools where there is exposure to students who are diverse, at risk, and have special needs. The public school supervisors at the schools have a thorough understanding of the College of Education's expectations for the candidates during these experiences. While in these schools, the teacher candidates will have an opportunity to integrate content, basic professional knowledge and pedagogical skills in an appropriate educational setting.

Academic Policies

Academic Probation

Any student who has less than a 2.0 average will be placed on academic probation. Students with transfer credit must satisfy the 2.0 overall and institutional requirement.

A student on probation must show the improvement stipulated by the Marshall University Academic Probation and Suspension Policy during each succeeding term in which he or she is enrolled. Students failing to meet this standard will be suspended and declared ineligible to attend the next regular academic semester or may be dismissed from the university.

1. Students, while on academic probation, must request permission to enroll each term from the director of the Student Center of Professional Education Services (SCOPES) in Education Building 201.

2. Students desiring to take courses at another institution must complete an official request form seeking approval **prior** to visiting another institution as a transient student.

Clinical Experiences

Purified Protein Derivative (PPD) Test

Students will not be permitted to work in any public school without a valid negative PPD test. The West Virginia State law concerning PPD examinations for persons entering public schools (HB 709) states that a person working with public school children **must** have a PPD examination prior to entering public school. This examination is valid for one year with the following exception:

If the PPD results in a positive reaction, the examinee must submit to an x-ray examination each year thereafter. If the x-ray proves negative, the person is then permitted to work in public school.

Students who expect to enter schools for clinical experiences during any semester must arrange for a PPD test prior to entering the school. **Remember**, there is a **three** day waiting period for a PPD test. Persons are not permitted to enter a public school until a negative report is obtained. *Reports must be carried with the student and presented to the principal or his/her representative upon entering a school*.

Check with the instructor of your course or inquire in the Student Center of Professional Education Services (SCOPES) for further details.

Background Check Policy

All students representing Marshall University must be authorized by the director of clinical experiences prior the entering a school.

West Virginia law mandates that all persons entering a school or having contact with students must have completed a background check and have not been found on the sexual offender registry prior to entering a school. Each county and school can also use the results of that background check as a basis for admitting or denying admittance. It is the procedure of the Marshall University College of Education and Professional Development that every student will obtain a background check prior to being placed in a school setting.

Marshall University has chosen Castlebranch.com (https://discover.castlebranch.com/) as an approved provider of background checks for our students. You must obtain a background check at Castlebranch.com (https://discover.castlebranch.com/) or another third party vendor (approved by the Student Center of Professional Education) to be permitted into a school. All results must be received prior to placement for any clinical assignment. Castlebranch charges $46.00 for this service. Renewals are cheaper – check the website. All fees are the responsibility of the student. You should contact the clinical office at 304-696-2861 if you have any questions about your background check.

All students entering a field experience must complete a background check every 12 months.

Student Teaching

An applicant for a professional certificate who is to be recommended to the West Virginia Department of Education for licensure must enroll for student teaching at Marshall University.

Students are assigned to public schools that have an agreement to provide student teaching experiences in cooperation with Marshall University. Since the supply of supervising teachers is limited and the College of Education and Professional Development has a large number of teacher candidates, it is sometimes necessary to assign students to selected schools outside the campus area. It is not possible to place students in schools within walking distance. Students must provide transportation to student teaching site(s). In all cases the responsibility for placements rests with the Director of Clinical Experiences and with the approval of the public school administration of the county and school in which the student is to be placed. Students who are assigned a student teaching position but who do not complete the assignment may not be assured of a future assignment.

Policies for Admission and Retention in the Undergraduate Teacher Education Program

Admission to Teacher Education

Undergraduate, post-baccalaureate, or graduate students pursuing initial licensure in Elementary or Secondary Education must be admitted to teacher education before they can take professional education courses or student teach.

Monitoring Acceptance Status

Once applications are processed and entered on the teacher education database, the student will receive an e-mail that indicates whether he/she has been accepted in teacher education or if any deficiencies exist.

Appeals of Acceptance Status

Students who have not been fully accepted in teacher education may appeal to the Teacher Education Standards Committee (TESC). The Teacher Education Standards Committee meets the Friday before each semester begins (fall and spring semesters only). Students make an appointment to see the committee through the Student Center of Professional Education Services (SCOPES), Education Building 201, prior to the beginning of the semester.

Maintaining Admission Status

Students who have been admitted into teacher education programs must continue to meet all criteria that were required for admission throughout their course of study. Failure to maintain those criteria could result in probationary status or dismissal from the program.

It is expected that students in professional education programs exhibit professional behaviors and apply professional knowledge in their coursework and clinical experiences. Students will be expected to:

- Communicate effectively both orally and in writing;
- Apply professional knowledge and skills (content and methodology) to meet their ethical and professional responsibilities in order to enhance student learning;
- During coursework and clinical experiences, demonstrate a respect for individual and family diversity;
- Demonstrate the application of critical thinking skills;
- Meet all standards of professional behavior established at each clinical site.

Probationary Status or Unsatisfactory Performance

Initiating the Process

Any member of the professional education community who questions the competency of a candidate related to any of the criteria for admission or other relevant professional performance standard, as described above, should contact the candidate's program director. The program director will request that the Executive Cabinet for the College

of Education and Professional Development review the candidate's overall performance and make one of three decisions.

- Student's performance is satisfactory
- Student's performance is unsatisfactory; the student should be put on probation and counseled with an appropriate plan for action. The Teacher Education Standards Committee should be notified.
- Student Performance is extremely unsatisfactory; the student should be counseled regarding options for a major other than teacher education. If necessary, the case would be referred to the Teacher Education Standards Committee.

The student will be informed of each performance review, have the opportunity to meet with the Executive Cabinet and the Teacher Education Standards Committee, and be informed of the decisions of the committees.

Determining Probation

To place a student on probation, the program director will notify the Executive Cabinet that he/she is recommending probationary status for the student.

- If the Executive Cabinet agrees with this recommendation, it will oversee development of a plan of action that identifies the areas of concern, an intervention plan, expectations for satisfactory performance, a monitoring process and timeline including what impact the probationary status would have on student teaching, and specified consequences. The student will receive a copy of the recommended plan.
- The Teacher Education Standards Committee will review the plan and endorse it or ask for more clarification first. The student may request to meet with TESC if he/she objects to any portion of the plan. TESC will then make the decision regarding the plan, and notify all parties. The student will receive a copy of the final plan and will meet with the Associate Dean and the Program Director (or representative) to review the plan.
- At the end of the time period specified in the action plan, the Executive Cabinet will either recommend removal or extension of the probationary status or dismissal from teacher education.

Determining Extremely Unsatisfactory Performance

To recommend that a student not continue in teacher education, the program director will submit a written recommendation from the Executive Cabinet with supporting documentation to the Teacher Education Standards Committee. The student will also receive the information.

- Within 21 days, the Teacher Education Standards Committee will meet to review the recommendation. At that time the Program Director (or representative) and the student will be asked to meet with the committee. Each will have the opportunity to present his/her case with supporting evidence.
- The Teacher Education Standards Committee will then meet in a closed session to make a decision either not to permit the student to continue in teacher education or to place him/her on a continuing probationary status.
- All parties involved will be advised of the results of the review.
- If a student is placed on continuing probation, a timeline for improvement will be developed. If the student does not improve, he/she will not be permitted to continue in teacher education.
- Students who are not successful on continuing probation in the teacher education program will be notified in writing by the chair of the Teacher Education Standards Committee. Reasons for non-continuation in the program will be explained as they relate to standards of professional behavior.

Procedures for Appeal

The decision of the Teacher Education Standards Committee may be appealed to the Dean of the College of Education and Professional Development on the grounds of due process. This is the final decision level in the College of Education and Professional Development.

Degree Requirements

Students who expect to complete degree requirements in the College of Education and Professional Development are required to complete their ***capstone experience*** during one semester of the senior year. Students must complete at least 56 hours at Marshall University.

Candidates for a bachelor's degree who entered Marshall University within ten years prior to their graduation may graduate by meeting the requirements in effect at the time of their entrance into the College of Education and Professional Development.

When the candidate fails to complete the requirements within ten (10) years, he/she must meet the graduation/certification requirements in effect at the time of re-entry to the program. Any questions related to this matter should be referred to the director of the Student Center of Professional Education Services (SCOPES).

Credit for Courses Offered Externally

Credits earned through correspondence, extension, military service, radio, television, and special examinations are accepted up to a maximum of 28 semester hours. Courses are accepted only if such courses are offered by institutions of higher education which are accredited by a regional accreditation association of secondary schools and colleges and the National Council for Accreditation of Teacher Education. Enrollment for any such credit should be approved through the Student Center of Professional Education Services (SCOPES) prior to enrollment.

Program Requirements

The following information refers to programming required in the College of Education and Professional Development.

Students must complete the curricular requirements as outlined in the undergraduate catalog in effect at the time they enter their degree programs. **Students should monitor their programs of study carefully due to ongoing curricular changes.**

A minimum of 120 semester hours is required by the university for graduation. The degree program selected by a College of Education and Professional Development major could require additional hours to satisfy graduation. Program curricula, as printed, could have the same course listed in the general studies and the option areas. These need to be identified to determine the **specific number** of **semester hours required** for graduation in the selected major(s).

Credits for developmental courses are not included in the minimum 120-hour total.

A minimum of 45 semester hours must be earned in 300-400 level courses. Courses transferred from two-year colleges may not be used

as part of the 300-400 level requirements. Courses transferred from four-year accredited colleges retain their original numbers.

Although students are expected to complete the majority of their work at Marshall University, it is possible to complete some coursework at other institutions. Arrangement for such enrollment must be made in advance of enrollment. Students must obtain a permission form in the Student Center of Professional Education Services (SCOPES), Education Building 201.

Graduation Requirements

Graduation requirements in the College of Education and Professional Development differ by program area. General requirements for teacher education programs are listed. Individual program requirements are identified with the specific programs. **Students should monitor their programs of study carefully due to ongoing curricular changes in many programs.**

Teacher Education Programs

- Satisfactory completion of the Core Curriculum, and the culminating capstone experience (student teaching). Completion of all required courses in each specialization, and in professional education.
- Grade Point Averages of:
  a. 2.80 overall and on all courses attempted at Marshall University. Transfer credit may not be used to increase the Marshall University Grade Point Average except in the case of *D/F* Repeat Policy.
  b. 2.80 in each specialization.
  c. 3.0 in professional education.
- Completion of a minimum of 120 semester hours, including at least 56 hours at Marshall University.
- A grade of *C* or better in all specialization and professional education courses.
- Successful passage of all parts of the Praxis CORE Academic Skills for Educators Exam.
- Successful passage of the Praxis II Content Exam.
- Successful passage of Teacher Performance Assessment

Certificate Requirements (West Virginia)

In addition to the graduation requirements, the prospective educator must meet the following requirements for West Virginia certification:

1. Passing score on the applicable Praxis II: Subject Test for each teaching specialization. All students should complete the test(s) during their senior year.
2. Passing score on the applicable Praxis II: Principles of Learning and Teaching (PLT) tests.
3. Cumulative Grade Point Average of 2.7 or better for all courses attempted.
4. Grade Point Average of 2.7 or better in all subject specialization courses, with all courses passed with a *C* or better.
5. Grade Point Average of 2.7 or better in all professional education courses, with all courses passed with a *C* or better.
6. Grade Point Average of 2.7 or better in all courses attempted at Marshall University. Transfer credit may not be used to increase the Grade Point Average except in the case of *D/F* Repeat Policy.

Students seeking certification in states other than West Virginia should check with the appropriate state department of education.

Curricular Structure

The Bachelor of Arts degree in the College of Education and Professional Development includes the following components:

Code	Title	Credit Hours
University-Wide Requirements		
Core I Requirements		
FYS 100	First Yr Sem Critical Thinking	3
Select two CT-designated courses		6
Core II Requirements		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
CMM 103	Fund Speech-Communication	3
Core II Fine Arts		3
Core II Humanities		3
Core II Math		3
Core II Physical/Natural Science		4
Core II Social Science		3
Additional Requirements		
Writing Intensive courses		6
International or Multicultural courses		3
College-Wide Requirements		
45 upper-division hours		45
Successful passage of all three parts of the Praxis CORE Academic Skills for Educators Exam		
Admission to Teacher Education		
Total Credit Hours		**88**

Courses

- General Education Course

Curriculum & Instruction

CI 100 Critical Thinking in Educ (CT) **3 Credit hours**
An introduction to the critical thinking skills in education, an orientation of the teaching profession, and an overview of the historical, sociological, multicultural, and philosophical issues affecting schools and teachers. An introduction to the critical thinking skills in education, an orientation of the teaching profession, and an overview of the historical, sociological, multicultural, and philosophical issues affecting schools and teachers.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

CI 101 Math for Elem Teachers I **3 Credit hours**
The study of the foundations of elementary mathematics including numeration systems, number theory, and consumer mathematics with emphasis on problem solving and teaching strategies.
Pre-req: MTH 130 with a minimum grade of D or MTH 130H with a minimum grade of D or MTH 127 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CI 102 Intro Comp in Classroom **1 Credit hour**
The introduction of selection and evaluation techniques of computer courseware and hardware for classrooms K-12 with consideration for CAI, CMI and specific skills for K-12 students. The introduction of selection and evaluation techniques of computer courseware and hardware for classrooms K-12 with consideration for CAI, CMI and specific skills for K-12 students.
Grade Mode: Normal Grading Mode

CI 201 Math for Elem Teachers II **3 Credit hours**
Study of elementary mathematics including structure of the real number system, statistics, probability, informal and transformational geometry, and basic algebraic operations with emphasis on problem solving and teaching strategies. Study of elementary mathematics including structure of the real number system, statistics, probability, informal and transformational geometry, and basic algebraic operations with emphasis on problem solving and teaching strategies.
Pre-req: CI 101 with a minimum grade of C and (MTH 127 with a minimum grade of D or MTH 130 with a minimum grade of D).
Grade Mode: Normal Grading Mode

CI 248 Intro to Science Elem Ed **4 Credit hours**
Introduction to teaching science in elementary schools emphasizing inquiry-based science and engineering practices utilizing effective research-based teaching strategies including seminars, discussions and investigations.
Pre-req: MTH 127 with a minimum grade of D or MTH 130 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CI 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 298 Itv **1-4 Credit hours**
A course based upon an Instructional Television Series broadcast by public television. The student is responsible for viewing the series on the air and satisfying all course requirements announced by the division. A course based upon an Instructional Television Series broadcast by public television. The student is responsible for viewing the series on the air and satisfying all course requirements announced by the division.
Grade Mode: Normal Grading Mode

CI 301 Teach Elem/Middle Mathematics **3 Credit hours**
This course is an investigation of techniques and approaches to helping children learn mathematics with special emphasis on the use of manipulative materials in a laboratory setting.
Pre-req: CI 201 with a minimum grade of C and Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 321 ECE Curr and Methods **3 Credit hours**
Study of factors shaping curriculum and exploration and assessment of appropriate curriculum for young children in transition from pre-operational to concrete operational stages of development. Field experience included. Study of factors shaping curriculum and exploration and assessment of appropriate curriculum for young children in transition from pre-operational to concrete operational stages of development. Field experience included.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 342 Lit & Lang Arts Methods **3 Credit hours**
A study of literary genres' characteristics and implementation within the elementary classroom, with emphasis on methods of presentation and a review of English grammar and language.
Grade Mode: Normal Grading Mode

CI 343 The Process of Reading Part I **3 Credit hours**
Study of modern techniques and practices in the teaching and assessment of reading and language arts: Part 1
Pre-req: CI 342 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CI 345 Crit Read Writ & Think **3 Credit hours**
This course examines strategies for learning from text, studying different types of textual material, monitoring learning, and integrating oral and written discourse. This course examines strategies for learning from text, studying different types of textual material, monitoring learning, and integrating oral and written discourse.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 348 Phy Sci & Engr for Elem Ed **4 Credit hours**
General elementary education course with emphasis on Next Generation Science standards, methods, and content for Physical Science and Engineering practices.
Pre-req: MTH 130 with a minimum grade of D or MTH 127 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CI 350 Inst Tech & Computing **3 Credit hours**
Critical examination and skill development using commercial, non-commercial, and computer generated media. Emphasis will be placed on its application to teaching and learning.
Grade Mode: Normal Grading Mode

CI 360 Social Studies Methods Elem **3 Credit hours**
An introduction to materials and methods for teaching social studies in the elementary school including goals, processes, strategies, and evaluation. An introduction to materials and methods for teaching social studies in the elementary school - including goals, pro- cesses, strategies, and evaluation.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 367 Org for Inst in ECE **3 Credit hours**
An overview of the development of early childhood education related research, pre-primary program models, elementary school organizational patterns, program planning and techniques of working with parents. An overview of the development of early childhood educa- tion related research, pre-primary program models, elementary school organizational patterns, program planning and techniques of working with parents.
Grade Mode: Normal Grading Mode

CI 401 Middle Childhood Curric **3 Credit hours**
Study of procedures for creating a functional middle childhood curriculum with emphasis upon the needs of transecents. Study of procedures for creating a functional middle child- hood curriculum with emphasis upon the needs of transecents.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 402 Teach Mid Child Learners **3 Credit hours**
The study of methods appropriate for teaching in the middle childhood grades and the production and utilization of materials and resources based upon the needs of middle childhood learners.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 403 Meth Teach Mid Child Grd **3 Credit hours**
Study of methods appropriate for teaching in the middle childhood grades, and production and utilization of materials and resources in these grades. Middle school clinical experience is required.
Pre-req: Admitted to Teacher ED with a score of 4 and CI 401 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CI 405 Student Teaching-Elem Ed **4-12 Credit hours**
All-day teaching under supervision in cooperating schools; periodic seminars, conducted by University faculty, accompany student teaching. All-day teaching under supervision in cooperating schools; periodic seminars, conducted by University faculty, accompany student teaching.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 406 Student Teaching II Elem Ed **4-6 Credit hours**
Supervised student teaching (4-6 hrs). All-day teaching under supervision in cooperating schools. Periodic semiars conducted by university faculty accompany student teaching. Prerequisites: Methods and permission.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 410 Stu Teach-Early Childhood **4-6 Credit hours**
All-day kindergarten teaching under supervision in cooperating schools; periodic seminars, conducted by University faculty, accompany student teaching. All-day kindergarten teaching under supervision in co- operating schools; periodic seminars, conducted by University faculty, accompany student teaching.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 415 Int Meth & Mat: Sec Ed **3 Credit hours**
General secondary/middle school course with emphasis on instructional standards and objectives, methods, and materials of the disciplines. A clinical experience provides observation and teaching. General secondary/middle school course with emphasis on instructional standards and objectives, methods, and materials of the disciplines. A clinical experience provides observation and teaching.
Pre-req: Admitted to Teacher ED with a score of 5.
Co-req: CI 470
Grade Mode: Normal Grading Mode

CI 427 Introduction To Autism **3 Credit hours**
This is a lecture-discussion course designed to survey current autism definitions, rates of incidence, conceptual models, and educational designs relating to autistic children, youth, and adults. This is a lecture-discussion course designed to survey current autism definitions, rates of incidence, conceptual models, and educational designs relating to autistic children, youth, and adults.
Grade Mode: Normal Grading Mode

CI 442 Instr & Clrm Mgt in Elem Ed **3 Credit hours**
This course allows elementary education students to critically examine a variety of classroom management strategies and educational issues that impact instruction. PR: Full admission to the Teacher Education Program This course allows elementary education students to critically examine a variety of classroom management strategies and educational issues that impact instruction. PR: Full admission to the Teacher Education Program
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 446 The Process of Reading Part II **3 Credit hours**
Study of modern techniques and practices in the teaching and assessment of reading and language arts: Part 2
Pre-req: CI 342 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CI 447 Inte Read/Lang Arts: Elem Edu **3 Credit hours**
General K-6 course with emphasis on instructional standards and objectives, methods, and materials for Reading, Language Arts and Social Studies. General K-6 course with emphasis on instructional standards and objectives, methods, and materials for Reading, Language Arts and Social Studies.
Pre-req: Admitted to Teacher ED with a score of 5 and CI 343 with a minimum grade of C and CI 446 with a minimum grade of C.
Co-req: CI 471
Grade Mode: Normal Grading Mode

CI 448 Science Methods: Elem Edu **3 Credit hours**
General K-6 course with emphasis on instructional standards and objectives, methods and materials for mathematics and science. General K-6 course with emphasis on instructional standards and objectives, methods and materials for mathematics and science.
Pre-req: CI 201 with a minimum grade of C and Admitted to Teacher ED with a score of 4 and BSC 105 with a minimum grade of C and CI 248 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CI 449 Instr & Clarm Mgt Sec Ed **3 Credit hours**
Classroom management with emphasis on practical techniques for dealing with management problems in secondary and middle school settings. Classroom management with emphasis on practical techniques for dealing with management problems in secondary and middle school settings.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 450 Stu Teach Secondary Ed **4-12 Credit hours**
All-day teaching under supervision in cooperating schools; periodic seminars conducted by University faculty accompany student teaching. All-day teaching under supervision in cooperating schools; periodic seminars conducted by University faculty accompany student teaching.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 452 Mce: Supervised Stu Teach **4-6 Credit hours**
All-day student teaching in cooperating middle schools; periodic seminars conducted by University faculty accompany student teaching. All-day student teaching in cooperating middle schools; periodic seminars conducted by University faculty accompany student teaching.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 455 Student Teaching II Sec Ed **4-6 Credit hours**
Supervised student teaching (4-6 hrs). All-day teaching under supervision in cooperating schools. Periodic seminars conducted by university faculty accompany student teaching. Prerequisites: Methods and permission.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 459 Multicult Influence in Ed **3 Credit hours**
Multicultural education with an emphasis on methods and materials for teaching students from diverse cultural backgrounds. Multicultural education with an emphasis on methods and materials for teaching students from diverse cultural backgrounds.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CI 460 Staff Development **1-3 Credit hours**
Attributes: Not Degree Applicable
Grade Mode: Credit/No Credit Grade Only

CI 461 Staff Development **1-3 Credit hours**
Attributes: Not Degree Applicable
Grade Mode: Credit/No Credit Grade Only

CI 462 Staff Development **1-3 Credit hours**
Attributes: Not Degree Applicable
Grade Mode: Credit/No Credit Grade Only

CI 463 Staff Development **1-3 Credit hours**
Attributes: Not Degree Applicable
Grade Mode: Credit/No Credit Grade Only

CI 464 Staff Development **1-3 Credit hours**
Attributes: Not Degree Applicable
Grade Mode: Credit/No Credit Grade Only

CI 470 Level II Clinical Exp **0 Credit hours**
A Level II Clinical Experience teaching in an elementary or secondary public school. An opportunity to put theory into classroom practice. A Level II Clinical Experience teaching in an elementary or secondary public school. An opportunity to put theory into classroom practice.
Pre-req: Admitted to Teacher ED with a score of 5.
Co-req: CI 415
Grade Mode: Credit/No Credit Grade Only

CI 471 Level II Clinical Exp **0 Credit hours**
A Level II Clinical Experience teaching in an elementary school. An opportunity to put theory into classroom practice. A Level II Clinical Experience teaching in an elementary school. An opportunity to put theory into classroom practice.
Pre-req: Admitted to Teacher ED with a score of 5.
Co-req: CI 447
Grade Mode: Credit/No Credit Grade Only

CI 472 Level II Clinical Exp **0 Credit hours**
A Level II Clinical Experience teaching in an elementary or secondary public school. An opportunity to put theory into classroom practice. A Level II Clinical Experience teaching in an elementary or secondary public school. An opportunity to put theory into classroom practice.
Pre-req: Admitted to Teacher ED with a score of 5.
Grade Mode: Credit/No Credit Grade Only

CI 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

Curriculum Instruction Special Education

CISP 101 American Sign Language I **3 Credit hours**
This is the first of 4 courses in American Sign Language. This course emphasizes the learning of basic survival conversational signing skills, including use of all ASL grammatical structures.
Grade Mode: Normal Grading Mode

CISP 102 American Sign Language II **3 Credit hours**
This is the second of 4 courses in American Sign Language. This course emphasizes the learning of intermediate conversational signing skills, including use of all ASL grammatical structures.
Pre-req: CISP 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CISP 203 American Sign Language III **3 Credit hours**
This is the third of 4 courses in American Sign Language. This course emphasizes the learning of advanced conversational signing skills, including use of all ASL grammatical structures.
Pre-req: CISP 101 with a minimum grade of D and CISP 102 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CISP 204 American Sign Language IV **3 Credit hours**
This is the fourth of 4 courses in American Sign Language. This course emphasizes the learning of complex conversational signing skills, including use of all ASL grammatical structures.
Pre-req: CISP 101 with a minimum grade of D and CISP 102 with a minimum grade of D and CISP 203 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CISP 320 Survey Exceptional Child **3 Credit hours**
An introduction to the study of children who deviate from the average in mental, physical, and emotional characteristics, including a study of the characteristics of such children and the adaptation of educational procedures to their abilities and disabilities.
Pre-req: CISP 420 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: CISP 420
Grade Mode: Normal Grading Mode

CISP 420 Survey Except Child II **3 Credit hours**
Examination of procedures needed for implementation of the Resource Room model for mildly handicapped children. The course includes a review of the Mainstreaming movement, interpersonal relations, and skills necessary for maintaining the resource room.
Pre-req: CISP 320 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: CISP 320
Grade Mode: Normal Grading Mode

CISP 421 Child with Exceptionalities **3 Credit hours**
Behavioral characteristics of children with exceptional development, dynamics of family- community interaction, and attitudes towards exceptional conditions. Implications for amelioration and educational planning.
Grade Mode: Normal Grading Mode

CISP 422 Differentiate Instruction **3 Credit hours**
Research-based strategies for providing differentiated instruction to students with diverse learning, social, and behavioral needs who are being educated in inclusive settings.
Pre-req: CISP 421 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CISP 423 Sp Ed Learning Disability **3 Credit hours**
Grade Mode: Normal Grading Mode

CISP 424 Sp Ed Emotional Disturb **3 Credit hours**
Grade Mode: Normal Grading Mode

CISP 427 Introduction to Autism **3 Credit hours**
This course is designed to survey current issues in education and the treatment of students with autism spectrum disorder (ASD).
Grade Mode: Normal Grading Mode

CISP 428 Special Needs in Erly Child Ed **3 Credit hours**
Emphasis will be given to enhancing the success of diverse learners through intervention strategies, family involvement and interdisciplinary service delivery. Emphasis will be given to enhancing the success of diverse learners through intervention strategies, family involvement and interdisciplinary service delivery.
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 421 with a minimum grade of C or (CISP 320 with a minimum grade of C and CISP 420 with a minimum grade of C).
Grade Mode: Normal Grading Mode

CISP 429 Intro Developmental Disability **3 Credit hours**
Introduction to the characteristics and needs of young children with developmental disabilities addressing the physical, neurological, health , and environmental problems that impact atypical growth and development (PR: CISP 320, CR: Field Experience)
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 420 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CISP 433 Intro Intellect Disabilities **3 Credit hours**
Characteristics and needs of individuals with intellectual disabilites. Current research, etiologic factors and the impact of intellectual disabilities on education are emphasized. Includes a field experience. (PR: CISP 320)
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 420.
Grade Mode: Normal Grading Mode

CISP 434 Sp Ed St Tch Phys Handicap **4-6 Credit hours**
Grade Mode: Credit/No Credit Grade Only

CISP 435 Gen Spec Ed Programming **3 Credit hours**
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 420.
Grade Mode: Normal Grading Mode

CISP 438 Char/Behav Mild/Mod Disability **3 Credit hours**
An introduction to positive behavior supports at the school, classroom, and individual level to improve student behavior and academic engagement.
Pre-req: CISP 320 and CISP 420.
Grade Mode: Normal Grading Mode

CISP 439 Assessment in Sp Ed **3 Credit hours**
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 420.
Grade Mode: Normal Grading Mode

CISP 440 Stu Teach Multicategorical **4-6 Credit hours**
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CISP 445 Intervent Preschool Sp Ed **3 Credit hours**
Curriculum development and methodology used to teach young children with special needs. Integration, program development, management, material and equipment adaptation are emphasized.
Pre-req: CISP 428 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CISP 453 Curr Methods Mild to Moderate **3 Credit hours**
Principals and current trends in curriculum development and teaching methodology for individuals with mild to moderate disabilities are reviewed and evaluated (PR: CISP 320, CISP 420)
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 320.
Grade Mode: Normal Grading Mode

CISP 454 Families of Except Students **3 Credit hours**
Principles and information designed to give the student an understanding of the needs and rights of families of exceptional children and techniques to involve families successfully in their children's education.
Grade Mode: Normal Grading Mode

CISP 455 Field Exp Preschool Sp Ed **3 Credit hours**
Supervised participation and directed teaching activities in a preschool special education program.
Pre-req: CISP 445 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CISP 461 Staff Development **1-4 Credit hours**
Attributes: Not Degree Applicable
Grade Mode: Credit/No Credit Grade Only

CISP 462 Staff Development **1-4 Credit hours**
Attributes: Not Degree Applicable
Grade Mode: Credit/No Credit Grade Only

CISP 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

Educational Foundations

EDF 201 Ed Psych Developing Learner **3 Credit hours**
A study of the psychological principles for learning and teaching based on children's emotional, social, cognitive, and physical development.
Grade Mode: Normal Grading Mode

EDF 218 Child/Adol Dev in Schools **3 Credit hours**
A basic course in the study of children's emotional, social, mental, and physical development. Field experience required. A basic course in the study of children's emotional, social, mental, and physical development. Field experience required.
Co-req: EDF 270
Grade Mode: Normal Grading Mode

EDF 270 Level I Clinical Exp **0 Credit hours**
A public school Clinical Experience in an elementary school. An opportunity to work with faculty, staff, and students in a teaching/learning environment. A public school Clinical Experience in an elementary school. An opportunity to work with faculty, staff, and students in a teaching/learning environment.
Grade Mode: Credit/No Credit Grade Only

EDF 271 Level I Clinical Exp **0 Credit hours**
A public school Clinical Experience in an elementary public school. An opportunity to work with faculty, staff, and students in a teaching/learning environment. A public school Clinical Experience in an elementary public school. An opportunity to work with faculty, staff, and students in a teaching/learning environment.
Co-req: EDF 218
Grade Mode: Normal Grading Mode

EDF 272 Level I Clinical Exp **0 Credit hours**
A public school Clinical Experience in an elementary public school. An opportunity to work with faculty, staff, and students in a teaching/learning environment. A public school Clinical Experience in an elementary public school. An opportunity to work with faculty, staff, and students in a teaching/learning environment.
Co-req: EDF 218
Grade Mode: Normal Grading Mode

EDF 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 319 Applications Learning Theory **3 Credit hours**
A study of the psychological principles which are the foundation for learning and teaching. A study of the psychological principles which are the foundation for learning and teaching.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

EDF 406 Foundations of Education **3 Credit hours**
A survey of the historical, philosophical and sociological foundations of American education with emphasis upon current educational problems and issues. A survey of the historical, philosophical and sociological foundations of American education with emphasis upon current educational problems and issues.
Pre-req: EDF 319.
Grade Mode: Normal Grading Mode

EDF 417 Statistical Methods **3 Credit hours**
A foundation course in descriptive and inferential statistics as applied in education and the social sciences. A foundation course in descriptive and inferential statistics as applied in education and the social sciences.
Attributes: Statistics
Grade Mode: Normal Grading Mode

EDF 435 Classroom Assessment **3 Credit hours**
History, philosophy and elementary statistical methods for testing, measuring and evaluating pupil behavior are studied. History, philosophy and elementary statistical methods for testing, measuring and evaluating pupil behavior are studied.
Pre-req: Admitted to Teacher ED with a score of 4 and EDF 201 with a minimum grade of C.
Grade Mode: Normal Grading Mode

EDF 475 Schools in a Diverse Society **3 Credit hours**
Study of social, historical and philosophical foundations of U.S. schooling. Study of social, historical and philosophical foundations of U.S. schooling.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

EDF 480 Special Topics **1-4 Credit hours**

Major Information

Admission Requirements for ADMI 4

1. Grade Point Average of 2.80 or higher (both MU and overall),
2. EDF 201 Ed Psych Developing Learner (grade "*C*" or better) and EDF 270 Level I Clinical Exp (credit),
3. Passing scores on the PRAXIS Core exam – all 3 areas or exemption
4. Portfolio in LiveText which includes:
   - Self-Assessment,
   - Writing Sample and
   - Three Recommendations,
5. 21 ACT composite score,
6. MU students: Completion of 26 credit hours,
7. Transfer students: Completion of 12 Marshall University credit hours.

Admission Requirements for ADMI 5

1. 12 hours of completed Professional Education Core courses,
2. 2.8 GPA overall, at MU, and in Teaching Specialization,
3. 3.0 GPA in Professional Education Core

Admission Requirements for Student Teaching

1. At least 90% of Teaching Specialization courses completed,
2. Minimum of 100 credit hours completed,
3. 2.8 GPA overall, at MU, and in Teaching Specialization,
4. 3.0 GPA in Professional Education Core,

- Many courses require clinical experience in public school during normal school hours. Schedule open time accordingly.
- **Students should monitor their program of study carefully due to ongoing curricular changes.**
- **All** coursework in Teaching Specialization and Professional Education Core must be completed with a grade of *C* or better.
- West Virginia law mandates that all persons entering a school or having contact with students must have completed a background check and have not been found on the sexual offender registry prior to entering a school. Each county and school can also use the results of that background check as a basis for admitting or denying admittance. It is the procedure of the Marshall University College of Education and Professional Development that every student will obtain a background check prior to being placed in a school setting.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The College of Education and Professional Development has the distinction of being the oldest part of Marshall University. The CIF (Curriculum, Instruction, & Foundations) program includes elementary, secondary, educational foundations, and educational computing for pre-service teachers. The secondary programs are designed for those wanting to teach content to middle school and/or high school students. The educational foundations and computing courses are designed for those entering the education field. Students receive broad content knowledge in the core academic area of choice as well as in the art and science of teaching children.

Major Information

Admission Requirements for ADMI 4

1. Grade Point Average of 2.80 or higher (both MU and overall),
2. EDF 201 Ed Psych Developing Learner (grade "C" or better) and EDF 270 Level I Clinical Exp (credit),
3. Passing scores on the PRAXIS Core exam – all 3 areas OR exemption,
4. Portfolio in LiveText which includes:

- Self-Assessment,
- Writing Sample and
- Three Recommendations,

5. 21 ACT composite score,
6. MU students: Completion of 26 credit hours,
7. Transfer students: Completion of 12 Marshall University credit hours.

Admission Requirements for ADMI 5

1. 12 hours of completed Professional Education Core courses,
2. 2.8 GPA overall, at MU, and in Teaching Specialization,
3. 3.0 GPA in Professional Education Core

Admission Requirements for Student Teaching

1. At least 90% of Teaching Specialization courses completed,
2. Minimum of 100 credit hours completed,
3. 2.8 GPA overall, at MU, and in Teaching Specialization,
4. 3.0 GPA in Professional Education Core,
5. Completion of all Professional Education Core Courses

- Many courses require clinical experience in public school during normal school hours. Schedule open time accordingly.
- **Students should monitor their program of study carefully due to ongoing curricular changes.**
- **All** coursework in Teaching Specialization and Professional Education Core must be completed with a grade of *C* or better.
- West Virginia law mandates that all persons entering a school or having contact with students must have completed a background check and have not been found on the sexual offender registry prior to entering a school. Each county and school can also use the results of that background check as a basis for admitting or denying admittance. It is the procedure of the Marshall University College of Education and Professional Development that every student will obtain a background check prior to being placed in a school setting.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The College of Education and Professional Development has the distinction of being the oldest part of Marshall University. The CIF (Curriculum, Instruction, & Foundations) program includes elementary, secondary, educational foundations, and educational computing for pre-service teachers. The secondary programs are designed for those wanting to teach content to middle school and/or high school students. The educational foundations and computing courses are designed for those entering the education field. Students receive broad content knowledge in the core academic area of choice as well as in the art and science of teaching children.

Course	Title	Credit Hours

Elementary Education K-6 Comprehensive, B.A.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Effective fall 2021, all elementary education majors will enter the Yearlong Residency Clinical Experience Model. This model will be built into schedules and give a minimum of 875 clinical hours in the elementary classroom. During the last year as an education major, Resident I candidates will spend a minimum of 14 weeks/250 hours per the first semester of the residency in a classroom placement and Resident II candidates will spend a minimum of 14 weeks/500 hours per the second semester of the residency in the same classroom placement.

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.
