Major Information

Admission Requirements for ADMI 4

1. Grade Point Average of 2.80 or higher (both MU and overall),
2. EDF 201 Ed Psych Developing Learner (grade "*C*" or better) and EDF 270 Level I Clinical Exp (credit),
3. Passing scores on the PRAXIS Core exam – all 3 areas OR exemption,
4. Portfolio in LiveText which includes:
   - Self-Assessment,
   - Writing Sample and
   - Three Recommendations,
5. 21 ACT composite score,
6. MU students: Completion of 26 credit hours,
7. Transfer students: Completion of 12 Marshall University credit hours.

Admission Requirements for ADMI 5

1. 12 hours of completed Professional Education Core courses,
2. 2.8 GPA overall, at MU, and in Teaching Specialization,
3. 3.0 GPA in Professional Education Core

Admission Requirements for Student Teaching

1. At least 90% of Teaching Specialization courses completed,
2. Minimum of 100 credit hours completed,
3. 2.8 GPA overall, at MU, and in Teaching Specialization,
4. 3.0 GPA in Professional Education Core,
5. Completion of all Professional Education Core Courses

- Many courses require clinical experience in public school during normal school hours. Schedule open time accordingly.
- **Students should monitor their program of study carefully due to ongoing curricular changes.**
- **All** coursework in Teaching Specialization and Professional Education Core must be completed with a grade of *C* or better.
- West Virginia law mandates that all persons entering a school or having contact with students must have completed a background check and have not been found on the sexual offender registry prior to entering a school. Each county and school can also use the results of that background check as a basis for admitting or denying admittance. It is the procedure of the Marshall University College of Education and Professional Development that every student will obtain a background check prior to being placed in a school setting.

Major Information

Admission Requirements for ADMI 4

1. Grade Point Average of 2.80 or higher (both MU and overall),
2. EDF 201 Ed Psych Developing Learner (grade "*C*" or better) and EDF 270 Level I Clinical Exp (credit),
3. Passing scores on the PRAXIS Core exam – all 3 areas OR exemption,
4. Portfolio in LiveText which includes:
   - Self-Assessment,
   - Writing Sample and
   - Three Recommendations,
5. 21 ACT composite score,
6. MU students: Completion of 26 credit hours,
7. Transfer students: Completion of 12 Marshall University credit hours.

Admission Requirements for ADMI 5

1. 12 hours of completed Professional Education Core courses,
2. 2.8 GPA overall, at MU, and in Teaching Specialization,
3. 3.0 GPA in Professional Education Core

Admission Requirements for Student Teaching

1. At least 90% of Teaching Specialization courses completed,
2. Minimum of 100 credit hours completed,

3. 2.8 GPA overall, at MU, and in Teaching Specialization,
4. 3.0 GPA in Professional Education Core,
5. Completion of all Professional Education Core Courses

- Many courses require clinical experience in public school during normal school hours. Schedule open time accordingly.
- **Students should monitor their program of study carefully due to ongoing curricular changes.**
- **All** coursework in Teaching Specialization and Professional Education Core must be completed with a grade of *C* or better.
- West Virginia law mandates that all persons entering a school or having contact with students must have completed a background check and have not been found on the sexual offender registry prior to entering a school. Each county and school can also use the results of that background check as a basis for admitting or denying admittance. It is the procedure of the Marshall University College of Education and Professional Development that every student will obtain a background check prior to being placed in a school setting.

Four Year Plan

The College of Education and Professional Development has the distinction of being the oldest part of Marshall University. The CIF (Curriculum, Instruction, & Foundations) program includes elementary, secondary, educational foundations, and educational computing for pre-service teachers. The secondary programs are designed for those wanting to teach content to middle school and/or high school students. The educational foundations and computing courses are designed for those entering the education field. Students receive broad content knowledge in the core academic area of choice as well as in the art and science of teaching children.

Major Information

Admission Requirements for ADMI 4

1. Grade Point Average of 2.80 or higher (both MU and overall),
2. EDF 201 Ed Psych Developing Learner (grade "*C*" or better) and EDF 270 Level I Clinical Exp (credit),
3. Passing scores on the PRAXIS Core exam – all 3 areas OR exemption,
4. Portfolio in LiveText which includes:
   - Self-Assessment,
   - Writing Sample and
   - Three Recommendations,
5. 21 ACT composite score,
6. MU students: Completion of 26 credit hours,
7. Transfer students: Completion of 12 Marshall University credit hours.

Admission Requirements for ADMI 5

1. 12 hours of completed Professional Education Core courses,
2. 2.8 GPA overall, at MU, and in Teaching Specialization,
3. 3.0 GPA in Professional Education Core

Admission Requirements for Student Teaching

1. At least 90% of Teaching Specialization courses completed,
2. Minimum of 100 credit hours completed,
3. 2.8 GPA overall, at MU, and in Teaching Specialization,
4. 3.0 GPA in Professional Education Core,
5. Completion of all Professional Education Core Courses

- Many courses require clinical experience in public school during normal school hours. Schedule open time accordingly.
- **Students should monitor their program of study carefully due to ongoing curricular changes.**
- **All** coursework in Teaching Specialization and Professional Education Core must be completed with a grade of *C* or better.
- West Virginia law mandates that all persons entering a school or having contact with students must have completed a background check and have not been found on the sexual offender registry prior to entering a school. Each county and school can also use the results of that background check as a basis for admitting or denying admittance. It is the procedure of the Marshall University College of Education and Professional Development that every student will obtain a background check prior to being placed in a school setting.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The College of Education and Professional Development has the distinction of being the oldest part of Marshall University. The CIF (Curriculum, Instruction, & Foundations) program includes elementary, secondary, educational foundations, and educational computing for pre-service teachers. The secondary programs are designed for those wanting to teach content to middle school and/or high school students. The educational foundations and computing courses are designed for those entering the education field. Students receive broad content knowledge in the core academic area of choice as well as in the art and science of teaching children.

Curriculum & Instruction

CI 100 Critical Thinking in Educ (CT) **3 Credit hours**
An introduction to the critical thinking skills in education, an orientation of the teaching profession, and an overview of the historical, sociological, multicultural, and philosophical issues affecting schools and teachers. An introduction to the critical thinking skills in education, an orientation of the teaching profession, and an overview of the historical, sociological, multicultural, and philosophical issues affecting schools and teachers.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

CI 101 Math for Elem Teachers I **3 Credit hours**
The study of the foundations of elementary mathematics including numeration systems, number theory, and consumer mathematics with emphasis on problem solving and teaching strategies.
Pre-req: MTH 130 with a minimum grade of D or MTH 130H with a minimum grade of D or MTH 127 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CI 102 Intro Comp in Classroom **1 Credit hour**
The introduction of selection and evaluation techniques of computer courseware and hardware for classrooms K-12 with consideration for CAI, CMI and specific skills for K-12 students. The introduction of selection and evaluation techniques of computer courseware and hardware for classrooms K-12 with consideration for CAI, CMI and specific skills for K-12 students.
Grade Mode: Normal Grading Mode

CI 201 Math for Elem Teachers II **3 Credit hours**
Study of elementary mathematics including structure of the real number system, statistics, probability, informal and transformational geometry, and basic algebraic operations with emphasis on problem solving and teaching strategies. Study of elementary mathematics including structure of the real number system, statistics, probability, informal and transformational geometry, and basic algebraic operations with emphasis on problem solving and teaching strategies.
Pre-req: CI 101 with a minimum grade of C and (MTH 127 with a minimum grade of D or MTH 130 with a minimum grade of D).
Grade Mode: Normal Grading Mode

CI 248 Intro to Science Elem Ed **4 Credit hours**
Introduction to teaching science in elementary schools emphasizing inquiry-based science and engineering practices utilizing effective research-based teaching strategies including seminars, discussions and investigations.
Pre-req: MTH 127 with a minimum grade of D or MTH 130 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CI 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 298 Itv **1-4 Credit hours**
A course based upon an Instructional Television Series broadcast by public television. The student is responsible for viewing the series on the air and satisfying all course requirements announced by the division. A course based upon an Instructional Television Series broadcast by public television. The student is responsible for viewing the series on the air and satisfying all course requirements announced by the division.
Grade Mode: Normal Grading Mode

CI 301 Teach Elem/Middle Mathematics **3 Credit hours**
This course is an investigation of techniques and approaches to helping children learn mathematics with special emphasis on the use of manipulative materials in a laboratory setting.
Pre-req: CI 201 with a minimum grade of C and Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 321 ECE Curr and Methods **3 Credit hours**
Study of factors shaping curriculum and exploration and assessment of appropriate curriculum for young children in transition from pre-operational to concrete operational stages of development. Field experience included. Study of factors shaping curriculum and exploration and assessment of appropriate curriculum for young children in transition from pre-operational to concrete operational stages of development. Field experience included.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 342 Lit & Lang Arts Methods **3 Credit hours**
A study of literary genres' characteristics and implementation within the elementary classroom, with emphasis on methods of presentation and a review of English grammar and language.
Grade Mode: Normal Grading Mode

CI 343 The Process of Reading Part I **3 Credit hours**
Study of modern techniques and practices in the teaching and assessment of reading and language arts: Part 1
Pre-req: CI 342 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CI 345 Crit Read Writ & Think **3 Credit hours**
This course examines strategies for learning from text, studying different types of textual material, monitoring learning, and integrating oral and written discourse. This course examines strategies for learning from text, studying different types of textual material, monitoring learning, and integrating oral and written discourse.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 348 Phy Sci & Engr for Elem Ed **4 Credit hours**
General elementary education course with emphasis on Next Generation Science standards, methods, and content for Physical Science and Engineering practices.
Pre-req: MTH 130 with a minimum grade of D or MTH 127 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CI 350 Inst Tech & Computing **3 Credit hours**
Critical examination and skill development using commercial, non-commercial, and computer generated media. Emphasis will be placed on its application to teaching and learning.
Grade Mode: Normal Grading Mode

CI 360 Social Studies Methods Elem **3 Credit hours**
An introduction to materials and methods for teaching social studies in the elementary school including goals, processes, strategies, and evaluation. An introduction to materials and methods for teaching social studies in the elementary school - including goals, pro- cesses, strategies, and evaluation.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 367 Org for Inst in ECE **3 Credit hours**
An overview of the development of early childhood education related research, pre-primary program models, elementary school organizational patterns, program planning and techniques of working with parents. An overview of the development of early childhood educa- tion related research, pre-primary program models, elementary school organizational patterns, program planning and techniques of working with parents.
Grade Mode: Normal Grading Mode

CI 401 Middle Childhood Curric **3 Credit hours**
Study of procedures for creating a functional middle childhood curriculum with emphasis upon the needs of transecents. Study of procedures for creating a functional middle child- hood curriculum with emphasis upon the needs of transecents.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 402 Teach Mid Child Learners **3 Credit hours**
The study of methods appropriate for teaching in the middle childhood grades and the production and utilization of materials and resources based upon the needs of middle childhood learners.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 403 Meth Teach Mid Child Grd **3 Credit hours**
Study of methods appropriate for teaching in the middle childhood grades, and production and utilization of materials and resources in these grades. Middle school clinical experience is required.
Pre-req: Admitted to Teacher ED with a score of 4 and CI 401 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CI 405 Student Teaching-Elem Ed **4-12 Credit hours**
All-day teaching under supervision in cooperating schools; periodic seminars, conducted by University faculty, accompany student teaching. All-day teaching under supervision in cooperating schools; periodic seminars, conducted by University faculty, accompany student teaching.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 406 Student Teaching II Elem Ed **4-6 Credit hours**
Supervised student teaching (4-6 hrs). All-day teaching under supervision in cooperating schools. Periodic semiars conducted by university faculty accompany student teaching. Prerequisites: Methods and permission.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 410 Stu Teach-Early Childhood **4-6 Credit hours**
All-day kindergarten teaching under supervision in cooperating schools; periodic seminars, conducted by University faculty, accompany student teaching. All-day kindergarten teaching under supervision in co- operating schools; periodic seminars, conducted by University faculty, accompany student teaching.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 415 Int Meth & Mat: Sec Ed **3 Credit hours**
General secondary/middle school course with emphasis on instructional standards and objectives, methods, and materials of the disciplines. A clinical experience provides observation and teaching. General secondary/middle school course with emphasis on instructional standards and objectives, methods, and materials of the disciplines. A clinical experience provides observation and teaching.
Pre-req: Admitted to Teacher ED with a score of 5.
Co-req: CI 470
Grade Mode: Normal Grading Mode

CI 427 Introduction To Autism **3 Credit hours**
This is a lecture-discussion course designed to survey current autism definitions, rates of incidence, conceptual models, and educational designs relating to autistic children, youth, and adults. This is a lecture-discussion course designed to survey current autism definitions, rates of incidence, conceptual models, and educational designs relating to autistic children, youth, and adults.
Grade Mode: Normal Grading Mode

CI 442 Instr & Clrm Mgt in Elem Ed **3 Credit hours**
This course allows elementary education students to critically examine a variety of classroom management strategies and educational issues that impact instruction. PR: Full admission to the Teacher Education Program This course allows elementary education students to critically examine a variety of classroom management strategies and educational issues that impact instruction. PR: Full admission to the Teacher Education Program
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 446 The Process of Reading Part II **3 Credit hours**
Study of modern techniques and practices in the teaching and assessment of reading and language arts: Part 2
Pre-req: CI 342 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CI 447 Inte Read/Lang Arts: Elem Edu **3 Credit hours**
General K-6 course with emphasis on instructional standards and objectives, methods, and materials for Reading, Language Arts and Social Studies. General K-6 course with emphasis on instructional standards and objectives, methods, and materials for Reading, Language Arts and Social Studies.
Pre-req: Admitted to Teacher ED with a score of 5 and CI 343 with a minimum grade of C and CI 446 with a minimum grade of C.
Co-req: CI 471
Grade Mode: Normal Grading Mode

CI 448 Science Methods: Elem Edu **3 Credit hours**
General K-6 course with emphasis on instructional standards and objectives, methods and materials for mathematics and science. General K-6 course with emphasis on instructional standards and objectives, methods and materials for mathematics and science.
Pre-req: CI 201 with a minimum grade of C and Admitted to Teacher ED with a score of 4 and BSC 105 with a minimum grade of C and CI 248 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CI 449 Instr & Clarm Mgt Sec Ed **3 Credit hours**
Classroom management with emphasis on practical techniques for dealing with management problems in secondary and middle school settings. Classroom management with emphasis on practical techniques for dealing with management problems in secondary and middle school settings.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 450 Stu Teach Secondary Ed **4-12 Credit hours**
All-day teaching under supervision in cooperating schools; periodic seminars conducted by University faculty accompany student teaching. All-day teaching under supervision in cooperating schools; periodic seminars conducted by University faculty accompany student teaching.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 452 Mce: Supervised Stu Teach **4-6 Credit hours**
All-day student teaching in cooperating middle schools; periodic seminars conducted by University faculty accompany student teaching. All-day student teaching in cooperating middle schools; periodic seminars conducted by University faculty accompany student teaching.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 455 Student Teaching II Sec Ed **4-6 Credit hours**
Supervised student teaching (4-6 hrs). All-day teaching under supervision in cooperating schools. Periodic seminars conducted by university faculty accompany student teaching. Prerequisites: Methods and permission.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 459 Multicult Influence in Ed **3 Credit hours**
Multicultural education with an emphasis on methods and materials for teaching students from diverse cultural backgrounds. Multicultural education with an emphasis on methods and materials for teaching students from diverse cultural backgrounds.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CI 460 Staff Development **1-3 Credit hours**
Attributes: Not Degree Applicable

Curriculum Instruction Special Education

CISP 101 American Sign Language I **3 Credit hours**
This is the first of 4 courses in American Sign Language. This course emphasizes the learning of basic survival conversational signing skills, including use of all ASL grammatical structures.
Grade Mode: Normal Grading Mode

CISP 102 American Sign Language II **3 Credit hours**
This is the second of 4 courses in American Sign Language. This course emphasizes the learning of intermediate conversational signing skills, including use of all ASL grammatical structures.
Pre-req: CISP 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CISP 203 American Sign Language III **3 Credit hours**
This is the third of 4 courses in American Sign Language. This course emphasizes the learning of advanced conversational signing skills, including use of all ASL grammatical structures.
Pre-req: CISP 101 with a minimum grade of D and CISP 102 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CISP 204 American Sign Language IV **3 Credit hours**
This is the fourth of 4 courses in American Sign Language. This course emphasizes the learning of complex conversational signing skills, including use of all ASL grammatical structures.
Pre-req: CISP 101 with a minimum grade of D and CISP 102 with a minimum grade of D and CISP 203 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CISP 320 Survey Exceptional Child **3 Credit hours**
An introduction to the study of children who deviate from the average in mental, physical, and emotional characteristics, including a study of the characteristics of such children and the adaptation of educational procedures to their abilities and disabilities.
Pre-req: CISP 420 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: CISP 420
Grade Mode: Normal Grading Mode

CISP 420 Survey Except Child II **3 Credit hours**
Examination of procedures needed for implementation of the Resource Room model for mildly handicapped children. The course includes a review of the Mainstreaming movement, interpersonal relations, and skills necessary for maintaining the resource room.
Pre-req: CISP 320 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: CISP 320
Grade Mode: Normal Grading Mode

CISP 421 Child with Exceptionalities **3 Credit hours**
Behavioral characteristics of children with exceptional development, dynamics of family- community interaction, and attitudes towards exceptional conditions. Implications for amelioration and educational planning.
Grade Mode: Normal Grading Mode

CISP 422 Differentiate Instruction **3 Credit hours**
Research-based strategies for providing differentiated instruction to students with diverse learning, social, and behavioral needs who are being educated in inclusive settings.
Pre-req: CISP 421 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CISP 423 Sp Ed Learning Disability **3 Credit hours**
Grade Mode: Normal Grading Mode

CISP 424 Sp Ed Emotional Disturb **3 Credit hours**
Grade Mode: Normal Grading Mode

CISP 427 Introduction to Autism **3 Credit hours**
This course is designed to survey current issues in education and the treatment of students with autism spectrum disorder (ASD).
Grade Mode: Normal Grading Mode

CISP 428 Special Needs in Erly Child Ed **3 Credit hours**
Emphasis will be given to enhancing the success of diverse learners through intervention strategies, family involvement and interdisciplinary service delivery. Emphasis will be given to enhancing the success of diverse learners through intervention strategies, family involvement and interdisciplinary service delivery.
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 421 with a minimum grade of C or (CISP 320 with a minimum grade of C and CISP 420 with a minimum grade of C).
Grade Mode: Normal Grading Mode

CISP 429 Intro Developmental Disability **3 Credit hours**
Introduction to the characteristics and needs of young children with developmental disabilities addressing the physical, neurological, health , and environmental problems that impact atypical growth and development (PR: CISP 320, CR: Field Experience)
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 420 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CISP 433 Intro Intellect Disabilities **3 Credit hours**
Characteristics and needs of individuals with intellectual disabilites. Current research, etiologic factors and the impact of intellectual disabilities on education are emphasized. Includes a field experience. (PR: CISP 320)
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 420.
Grade Mode: Normal Grading Mode

CISP 434 Sp Ed St Tch Phys Handicap **4-6 Credit hours**
Grade Mode: Credit/No Credit Grade Only

CISP 435 Gen Spec Ed Programming **3 Credit hours**
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 420.
Grade Mode: Normal Grading Mode

CISP 438 Char/Behav Mild/Mod Disability **3 Credit hours**
An introduction to positive behavior supports at the school, classroom, and individual level to improve student behavior and academic engagement.
Pre-req: CISP 320 and CISP 420.
Grade Mode: Normal Grading Mode

CISP 439 Assessment in Sp Ed **3 Credit hours**
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 420.
Grade Mode: Normal Grading Mode

CISP 440 Stu Teach Multicategorical **4-6 Credit hours**
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CISP 445 Intervent Preschool Sp Ed **3 Credit hours**
Curriculum development and methodology used to teach young children with special needs. Integration, program development, management, material and equipment adaptation are emphasized.
Pre-req: CISP 428 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CISP 453 Curr Methods Mild to Moderate **3 Credit hours**
Principals and current trends in curriculum development and teaching methodology for individuals with mild to moderate disabilities are reviewed and evaluated (PR: CISP 320, CISP 420)
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 320.
Grade Mode: Normal Grading Mode

CISP 454 Families of Except Students **3 Credit hours**
Principles and information designed to give the student an understanding of the needs and rights of families of exceptional children and techniques to involve families successfully in their children's education.
Grade Mode: Normal Grading Mode

CISP 455 Field Exp Preschool Sp Ed **3 Credit hours**
Supervised participation and directed teaching activities in a preschool special education program.
Pre-req: CISP 445 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CISP 461 Staff Development **1-4 Credit hours**
Attributes: Not Degree Applicable
Grade Mode: Credit/No Credit Grade Only

CISP 462 Staff Development **1-4 Credit hours**
Attributes: Not Degree Applicable
Grade Mode: Credit/No Credit Grade Only

CISP 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

Early Childhood Education

ECE 101 Early Childhood Wellbeing **3 Credit hours**
An introduction to the basic requirements and regulations for health and safety in early childhood programs serving children from birth to age eight. An introduction to the basic requirements and regulations for health and safety in early childhood programs serving children from birth to age eight.
Grade Mode: Normal Grading Mode

ECE 102 Early Childhood Programs (CT) **3 Credit hours**
A critical analysis of the historical, philosophical, political, social, and theoretical foundations of early childhood programs with specific attention to current programs serving children prior to school entry. 3 CR. A critical analysis of the historical, philosophical, political, social, and theoretical foundations of early childhood programs with specific attention to current programs serving children prior to school entry. 3 CR.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

ECE 201 Early Education Tech **3 Credit hours**
Application of technology in the teaching and administration of early childhood education programs.
Grade Mode: Normal Grading Mode

ECE 204 Parenting **3 Credit hours**
This course examines parenting from a socio-cultural and developmental perspective using a systems model. This course examines parenting from a socio-cultural and developmental perspective using a systems model.
Grade Mode: Normal Grading Mode

ECE 215 Family Relationships **3 Credit hours**
Relationships in the family during its life cycle, with some consideration of family life in other cultures. Relationships in the family during its life cycle, with some consideration of family life in other cultures.
Grade Mode: Normal Grading Mode

ECE 303 Child Development **3 Credit hours**
Care and guidance of young children through five years in relation to their physical, emotional, mental and social development. Observation and participation in nursery school required. Care and guidance of young children through five years in relation to their physical, emotional, mental and social development. Observation and participation in nursery school required.
Grade Mode: Normal Grading Mode

ECE 322 Language & Literacy **3 Credit hours**
Provide pre-service teachers with an overview of the emergent nature of the development of language and literacy in the young child in a context that is developmentally and culturally appropriate.
Pre-req: ECE 303 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ECE 323 Assess Early Childhood **3 Credit hours**
Realistic and practical guidance in providing learning experiences for children from diverse cultural backgrounds based upon authentic assessment practices. Realistic and practical guidance in providing learning experiences for children from diverse cultural backgrounds based upon authentic assessment practices.
Pre-req: ECE 303 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ECE 324 Early Childhood Sci/Math **3 Credit hours**
Strategies for integrating math, science and technology in early childhood curriculum with focus on inquiry approaches. Strategies for integrating math, science and technology in early childhood curriculum with focus on inquiry approaches.
Pre-req: ECE 303 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ECE 325 Play and Creativity **3 Credit hours**
Exploration of the multiple ways children and adults express their thoughts and represent their environment and experiences.
Pre-req: ECE 303 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ECE 420 Infant/Toddler Environs & Rela **3 Credit hours**
Creation of developmentally supportive environments for infants and toddlers in group settings with emphasis on establishing nurturing relationships. Creation of developmentally supportive environments for infants and toddlers in group settings with emphasis on establishing nurturing relationships.
Pre-req: ECE 303 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECE 421 Infant/Toddler Ed Practicum **3 Credit hours**
Practice in planning and leading an infant/toddler group with emphasis on environments and relationships that provide supportive nurturance and education for the babies and their parents. Practice in planning and leading an infant/toddler group with emphasis on environments and relationships that provide supportive nurturance and education for the babies and their parents.
Pre-req: ECE 420 (may be taken concurrently) with a minimum grade of C and Admitted to Teacher ED with a score of 4.
Concurrent PR: ECE 420
Grade Mode: Normal Grading Mode

ECE 430 Preschool Curr and Methods **3 Credit hours**
Historical and contemporary curriculum and methods for preschool children with emphasis on current best practices. Historical and contemporary curriculum and methods for preschool children with emphasis on current best practices.
Pre-req: ECE 303 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECE 431 Guid Young Child Pract **3 Credit hours**
Techniques of guidance of young children with emphasis on adult-child interaction. Participation in laboratory preschool required. Techniques of guidance of young children with emphasis on adult-child interaction. Participation in laboratory preschool required.
Pre-req: Admitted to Teacher ED with a score of 4 and ECE 303 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ECE 435 Admin Early Child Program **3 Credit hours**
Instruction and practice in the development of day centers for three and four year old children and administration of programs in these centers. Laboratory participation required. Instruction and practice in the development of day centers for three and four year old children and administration of programs in these centers. Laboratory participation required.
Pre-req: ECE 303 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECE 472 Early Childhood Capstone **3 Credit hours**
Application of ECE content knowledge in the management of early childhood programs: senior level capstone. Premission required.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

ECE 485 Independent Study **1-4 Credit hours**
Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization. Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization.
Grade Mode: Normal Grading Mode

ECE 486 Independent Study **1-4 Credit hours**
Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization. Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization.
Grade Mode: Normal Grading Mode

ECE 487 Independent Study **1-4 Credit hours**
Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization. Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization.
Grade Mode: Normal Grading Mode

ECE 488 Independent Study **1-4 Credit hours**
Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization. Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization.
Grade Mode: Normal Grading Mode

Educational Foundations

EDF 201 Ed Psych Developing Learner **3 Credit hours**
A study of the psychological principles for learning and teaching based on children's emotional, social, cognitive, and physical development.
Grade Mode: Normal Grading Mode

EDF 218 Child/Adol Dev in Schools **3 Credit hours**
A basic course in the study of children's emotional, social, mental, and physical development. Field experience required. A basic course in the study of children's emotional, social, mental, and physical development. Field experience required.
Co-req: EDF 270
Grade Mode: Normal Grading Mode

EDF 270 Level I Clinical Exp **0 Credit hours**
A public school Clinical Experience in an elementary school. An opportunity to work with faculty, staff, and students in a teaching/learning environment. A public school Clinical Experience in an elementary school. An opportunity to work with faculty, staff, and students in a teaching/learning environment.
Grade Mode: Credit/No Credit Grade Only

EDF 271 Level I Clinical Exp **0 Credit hours**
A public school Clinical Experience in an elementary public school. An opportunity to work with faculty, staff, and students in a teaching/learning environment. A public school Clinical Experience in an elementary public school. An opportunity to work with faculty, staff, and students in a teaching/learning environment.
Co-req: EDF 218
Grade Mode: Normal Grading Mode

EDF 272 Level I Clinical Exp **0 Credit hours**
A public school Clinical Experience in an elementary public school. An opportunity to work with faculty, staff, and students in a teaching/learning environment. A public school Clinical Experience in an elementary public school. An opportunity to work with faculty, staff, and students in a teaching/learning environment.
Co-req: EDF 218
Grade Mode: Normal Grading Mode

EDF 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 319 Applications Learning Theory **3 Credit hours**
A study of the psychological principles which are the foundation for learning and teaching. A study of the psychological principles which are the foundation for learning and teaching.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

EDF 406 Foundations of Education **3 Credit hours**
A survey of the historical, philosophical and sociological foundations of American education with emphasis upon current educational problems and issues. A survey of the historical, philosophical and sociological foundations of American education with emphasis upon current educational problems and issues.
Pre-req: EDF 319.
Grade Mode: Normal Grading Mode

EDF 417 Statistical Methods **3 Credit hours**
A foundation course in descriptive and inferential statistics as applied in education and the social sciences. A foundation course in descriptive and inferential statistics as applied in education and the social sciences.
Attributes: Statistics
Grade Mode: Normal Grading Mode

EDF 435 Classroom Assessment **3 Credit hours**
History, philosophy and elementary statistical methods for testing, measuring and evaluating pupil behavior are studied. History, philosophy and elementary statistical methods for testing, measuring and evaluating pupil behavior are studied.
Pre-req: Admitted to Teacher ED with a score of 4 and EDF 201 with a minimum grade of C.
Grade Mode: Normal Grading Mode

EDF 475 Schools in a Diverse Society **3 Credit hours**
Study of social, historical and philosophical foundations of U.S. schooling. Study of social, historical and philosophical foundations of U.S. schooling.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

EDF 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

Early Childhood Education, B.A.

Overview

The B.A. in Early Childhood Education prepares individuals who will teach or be administrators in schools or centers who serve children from birth to five, or any part of that age group. The program includes preparation for working with children who have special needs. Students have clinical experiences in public schools, as well as in private centers, resulting in experiences at all ages covered by the program. Graduates of the program have a range of opportunities in classroom settings and in supervisory roles.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
PSY 201	Introductory Psychology (CT)	3
ECE 102	Early Childhood Programs (CT)	3
Core 2		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
CMM 103	Fund Speech-Communication	3
MTH 127	College Algebra-Expanded	3-5
or MTH 130	College Algebra	
Core II Humanities		3
Core II Physical or Natural Science		4
Core II Fine Arts		3
PSY 201	Introductory Psychology (CT)	3
Additional University Requirements		
Writing Intensive		3

ECE 303	Child Development (Writing Intensive) (with a grade "C" or better)	3
CI 459	Multicult Influence in Ed (Multicultural or International)	3
CISP 455	Field Exp Preschool Sp Ed (Capstone)	3
Teaching Specialization		
CI 459	Multicult Influence in Ed	3
CISP 320	Survey Exceptional Child	3
CISP 420	Survey Except Child II	3
ECE 101	Early Childhood Wellbeing	3
ECE 102	Early Childhood Programs (CT)	3
ECE 201	Early Education Tech	3
ECE 204	Parenting	3
ECE 215	Family Relationships	3
ECE 303	Child Development	3
ECE 322	Language & Literacy	3
ECE 323	Assess Early Childhood	3
ECE 324	Early Childhood Sci/Math	3
ECE 325	Play and Creativity	3
ECE 420	Infant/Toddler Environs & Rela	3
ECE 421	Infant/Toddler Ed Practicum	3
PSY 311	Child Development	3
Professional Education Core		
EDF 475	Schools in a Diverse Society	3
CISP 428	Special Needs in Erly Child Ed	3
CISP 429	Intro Developmental Disability	3
CISP 445	Intervent Preschool Sp Ed	3
CISP 454	Families of Except Students	3
CISP 455	Field Exp Preschool Sp Ed	3
ECE 430	Preschool Curr and Methods	3
ECE 431	Guid Young Child Pract	3
ECE 435	Admin Early Child Program	3
ECE 472	Early Childhood Capstone (Internship)	3
Additional College Requirement		
CI 201	Math for Elem Teachers II	3
Free Elective		3
Free Elective		3
Free Elective		1

Major Information

Admission Requirements for ADMI 4

1. Grade Point Average of 2.80 or higher (both MU and overall)
2. Passing scores on the PRAXIS Core exam – all 3 areas OR exemption
3. Portfolio in LiveText which includes: Self-Assessment, Writing Sample and three Recommendations
4. 21 ACT composite score
5. MU students: Completion of 26 credits hours
6. Transfer students: Completion of 12 Marshall University credit hours

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Early Childhood Education program, a blended plan with early childhood and special education, prepares pre-service teachers to teach all children, regardless of ability, from birth to age five. We have experiences with infant/toddlers, pre-kindergarteners, preschoolers with special needs and administrators. The successful candidate will be able to be licensed to teach typically developing preschoolers as well as preschool children with special needs.

Course	Title	Credit Hours
First Year		
First Semester		
ECE 101	Early Childhood Wellbeing	3
Core II Fine Arts		3
ENG 101	Beginning Composition	3
FYS 100	First Yr Sem Critical Thinking	3
MTH 127 or MTH 130	College Algebra-Expanded or College Algebra	3-5
UNI 100	Freshman First Class	1
	Credit Hours	**16-18**
Second Semester		
ECE 102	Early Childhood Programs (CT)	3
ECE 204	Parenting	3
CMM 103	Fund Speech-Communication	3
PSY 201	Introductory Psychology (CT)	3
Core II Physical or Natural Science		4
	Credit Hours	**16**
Second Year		
First Semester		
CI 201	Math for Elem Teachers II	3
CISP 320	Survey Exceptional Child	3
CISP 420	Survey Except Child II	3
PSY 311	Child Development	3
ENG 201	Advanced Composition	3
	Credit Hours	**15**
Second Semester		
ECE 201	Early Education Tech	3
ECE 215	Family Relationships	3
ECE 303	Child Development (WI)	3
Core II Humanities (ENG level 200, WI)		3
Free Elective		3
	Credit Hours	**15**
Third Year		
First Semester		
CI 459	Multicult Influence in Ed	3
ECE 322	Language & Literacy	3
ECE 323	Assess Early Childhood	3
ECE 324	Early Childhood Sci/Math	3

ECE 325	Play and Creativity	3
Free Elective		1
	Credit Hours	**16**
Second Semester		
CISP 428	Special Needs in Erly Child Ed	3
CISP 454	Families of Except Students	3
ECE 420	Infant/Toddler Environs & Rela	3
ECE 430	Preschool Curr and Methods	3
Writing Intensive		3
	Credit Hours	**15**
Fourth Year		
First Semester		
CISP 429	Intro Developmental Disability	3
CISP 445	Intervent Preschool Sp Ed	3
ECE 421	Infant/Toddler Ed Practicum	3

College of Engineering and Computer Sciences

Contacts: Dr. David Dampier, Dean; Dr. Gregory Michaelson, P.E., Interim Associate Dean

Website: http://www.marshall.edu/cecs (http://www.marshall.edu/cecs/)

Mission of the College

CECS will be a recognized leader in practice-oriented teaching and applied research.

CECS is committed to serve the lifelong educational needs of students, new graduates, working professionals, and employees.

CECS builds on combined traditions of student-focused education, entrepreneurship, and funded research and service emphasis.

CECS provides education when and where needed, incorporating technology-enhanced methods, by full-time, dedicated faculty complemented by expert adjunct faculty from industry and government.

CECS has offices on both the Huntington and South Charleston campuses.

In addition to the undergraduate programs described in this catalog, CECS offers graduate programs and professional education in engineering, environmental science, information systems, safety, and technology management. The *Graduate Catalog* contains further information.

- College Programs (p. 450)
- Department of Biomedical Engineering (p. 452)
- Department of Civil Engineering (p. 455)
- Department of Computer Sciences and Electrical Engineering (p. 461)
- Weisberg Department of Mechanical and Industrial Engineering (p. 478)

Admission Requirements

CECS minimum admission requirements for students in addition to Marshall general requirements at the freshman level are:

- B.S. in Computer Science - Math ACT of 24 and minimum composite ACT of 21 (Math SAT of 560; composite SAT of 980)
- Pre-Computer Science - Math ACT of 19-23 and minimum composite ACT of 19 (Math SAT of 460-550; composite SAT of 900)
- B.S.E., B.S.C.E., B.S.M.E., B.S.E.E., B.S.B.M.E. - Math ACT of 24 and minimum composite ACT of 21 (Math SAT of 560; composite SAT 980)
- Engineering Transfer program – Math ACT of 24 and minimum composite ACT of 21 (Math SAT of 560; composite SAT of 980)
- Pre-Engineering - Math ACT of 19-23 and minimum composite ACT of 19 (Math SAT of 460-550; composite SAT of 900)
- B.S. in Safety Technology - Math ACT of 17 and minimum composite ACT of 17 (Math SAT of 440; composite SAT of 820)
- CECS Undecided - Math ACT of 19, minimum composite ACT of 19 (Math SAT of 460; composite SAT of 900)

Academic Policies

Advising

The college requires all freshmen and pre-computer science, pre-engineering, engineering transfer, and CECS Undecided students to

see their advisors before they register each semester. These students are also required to take UNI 102 Strat for Academic Success.

Degree Evaluation

It is important to consult Degree Works, which can be found in the myMU portal, about degree progress. Degree Works is used to verify progress toward degree and degree completion status. All courses completed and all courses needed for the degree are listed. If there are questions about Degree Works, please consult your faculty advisor.

Determining Your Catalog

You must meet the catalog requirements in effect at the time you declare your major. You then have ten years in which to complete your program. If you do not meet graduation requirements in this ten-year period, then you must meet the curriculum requirements of the catalog in effect at the date of graduation. If you decide to change your major within CECS or to transfer to another college at Marshall, you are governed by the catalog in effect at the time of change.

Academic Probation and Suspension

Please consult the university's policy on academic probation or suspension.

Degree Requirements

Undecided Major

Students are welcome to select undecided as a major; however, students in CECS begin taking classes in the major field of study their freshman year. Students who have selected undecided as a major and are Junior level status or above, 60 credit hours or more, must declare a major in order to register for the next semester of courses. The necessary paperwork is available in the CECS Dean's office.

Core Curriculum

Students in CECS are responsible for meeting the Core Curriculum of Marshall University. Please consult the Core Curriculum section of the catalog, as well as the specific degree requirements, for details. Students in CECS are to consult with their advisors for guidance in how to meet these baccalaureate curricular initiatives.

Faculty

Department of Biomedical Engineering

Dr. David Dampier, Interim Chair

ENGINEERING & SCIENCE (ENGR)

ENGR 102 Introduction to CAD **2 Credit hours**
An introduction of scales, plan reading, engineering graphics and computer aided designing. Itroduction to the operation of modern 2D and 3D CAD software. 2 lec (PR: MTH 132; pre-engineering or engineering major)
Pre-req: MTH 132 (may be taken concurrently) with a minimum grade of D or MTH 229 (may be taken concurrently) with a minimum grade of D or MTH 229H (may be taken concurrently) with a minimum grade of D.
Concurrent PR: MTH 132 or MTH 229 or MTH 229H
Grade Mode: Normal Grading Mode

ENGR 103 First-Year Engineering Seminar **1 Credit hour**
Weekly seminars presented by practicing engineers to help students gain a better understanding of various engineering fields and the attributes required to be a successful engineer.
Grade Mode: Normal Grading Mode

ENGR 104 The Engineering Profession **1 Credit hour**
Introduction to the engineering profession and engineering disciplines; introduction to the engineering design process and team projects. Introduction to the engineering profession and engineering disiplines; introduction to the engineering design process and team projects.
Grade Mode: Normal Grading Mode

ENGR 111 Engineering Computations **3 Credit hours**
Introduction to effective problem-solving techniques using various engineering applications with an emphasis on accuracy. Various tools will be covered including calculators, spreadsheets, and a computational environment such as MATLAB.
Pre-req: ACT Math with a score of 24 or SAT Mathematics Before Mar. 16 with a score of 560 or MTH 132 (may be taken concurrently) or MTH 229 (may be taken concurrently) or MTH 229H (may be taken concurrently).
Concurrent PR: MTH 132 or MTH 229 or MTH 229H
Grade Mode: Normal Grading Mode

ENGR 201 Circuits I **4 Credit hours**
Definition of fundamental concepts and components, including operational amplifiers. Steady-state ac and dc analysis using the basic laws of circuits. Principles of electrical measurements. Single-phase ac power. Computer applications. Definition of fundamental concepts and components, including operational amplifiers. Steady-state ac and dc analysis using the basic laws of circuits. Principles of electrical measurements. Single-phase ac power. Computer applica- tions. (PR: MTH 229)
Pre-req: MTH 229 or MTH 229H.
Grade Mode: Normal Grading Mode

ENGR 213 Statics **3 Credit hours**
Particle and rigid body mechanics for static force systems.
Pre-req: (MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D).
Grade Mode: Normal Grading Mode

ENGR 214 Dynamics **3 Credit hours**
Laws of motion, work and energy, impulse and momentum, relative motion. 3 lec.
Pre-req: ENGR 213 with a minimum grade of D and MTH 230 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: MTH 230
Grade Mode: Normal Grading Mode

ENGR 215 Engineering Materials **3 Credit hours**
Material types and the relationships between material structure and material properties. Material defects, failure, corrosion and degradation, strengthening mechanisms, testing, and joining operations. (PR: CHM 211).
Pre-req: CHM 211.
Grade Mode: Normal Grading Mode

ENGR 216 Mech of Deformable Bodies **3 Credit hours**
Strength of materials; shear and moment diagrams; stresses in shafts, beams and columns; combined stresses; deflections. 4 lec.
Pre-req: ENGR 213 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENGR 217 Engineering Co-Op Preparation **1 Credit hour**
To prepare students for both the job search and employment in the field of engineering. Students will learn strategies for conducting a successful Co-Op.
Pre-req: ENGR 102 with a minimum grade of D or CE 102 with a minimum grade of D or CS 110 with a minimum grade of D or CS 110H with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ENGR 219 Engineering Thermodynamics **3 Credit hours**
Fundamental concepts of energy analysis and thermodynamic principles. Computer applications. 3-lec.
Pre-req: PHY 211 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENGR 221 Engineering Economy **3 Credit hours**
Economic selection of machines, structures and processes. 3 lec.
Pre-req: MTH 127 or MTH 130 or MTH 132 or MTH 229 or MTH 229H.
Grade Mode: Normal Grading Mode

ENGR 222 Engr Cost Analysis & Economy **3 Credit hours**
Economic analysis of engineering proposals; time value of money; evaluation and selection of projects; replacement and retention decisions; uncertainty and risk; inflation; cost estimation; depreciation; and benefit cost analysis.
Pre-req: MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENGR 265 Engineering Analysis **4 Credit hours**
Mathematical and analytical solutions of linear and power systems that involve linear algebra, Fourier analysis, and complex variables.
Pre-req: MTH 231.
Grade Mode: Normal Grading Mode

ENGR 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 290 Internship in Engineering **1-4 Credit hours**
Supervised off-campus activities which provide professional experience in different fields of engineering.
Grade Mode: Credit/No Credit Grade Only

ENGR 318 Fluid Mechanics **3 Credit hours**
Fluid properities, hydrostatic forces, stability of floating bodies, equations of fluid acceleration and motion (continuity, momentum, energy, Euler's Bernoulli's), dynamic similitude, internal flow, and computer solutions in ideal fluids. 3-lec. (PR: ENGR 214; CR: ENGR 319)
Pre-req: ENGR 214 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENGR 319 Fluid Mechanics Laboratory **1 Credit hour**
Laboratory techniques in fluid mechanics to include various experiments in fluid statics and fluid dynamics such as hydrostatic pressure, open channel flow, pipe flow, momentum theorem, etc.
Pre-req: ENGR 214 with a minimum grade of D.
Co-req: ENGR 318
Grade Mode: Normal Grading Mode

ENGR 330 Engineering Research **3 Credit hours**
This course is designed to provide the undergraduate engineering student with an opportunity to participate in engineering projects, research
Grade Mode: Normal Grading Mode

ENGR 335 Adv Engineering Analysis **3 Credit hours**
Mathematical methods for analyzing and solving a range of engineering problems, including linear algebra, vector and multivariate calculus, complex variables calculus, and Fourier analysis.
Pre-req: MTH 335 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENGR 350 Engineering Co-Op **0 Credit hours**
A supervised experience in which the student works for a company to gain practical experience in a students major.
Pre-req: ENGR 217 with a minimum grade of D.
Grade Mode: Credit/No Credit Grade Only

ENGR 451 Intro to Proj Management **3 Credit hours**
This course covers project management fundamentals including project definition, project selection, project planning, estimating, scheduling, resource allocation and project control. An emphasis will be placed on building effective project teams.
Pre-req: ENGR 222.
Grade Mode: Normal Grading Mode

ENGR 473 Capstone Senior Design **3 Credit hours**
Students utilize the engineering design process to complete a comprehensive engineering project that addresses a real-world problem with realistic constraints in a collaborative environment.
Pre-req: ENGR 451 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

ENGR 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

College Programs

- Engineering Science, Minor (p. 450)
- Engineering Transfer Program (p. 450)
- Pre-Engineering (p. 452)

Engineering Science, Minor

Contact: Dr. Gregory Michaelson, P.E., Interim Associate Dean (michaelson@marshall.edu)

A student may be awarded a minor in engineering science by completing 15 credits of ENGR or CE. Two courses are required, ENGR 213 Statics and ENGR 216 Mech of Deformable Bodies, and at least six credits must be 300-level or 400-level engineering courses. A student must complete all the required prerequisites and have at least a 2.0 average in courses taken and applied to the engineering science minor.

Engineering Transfer Program

Contact: Dr. Gregory Michaelson, P.E., Interim Associate Dean (michaelson@marshall.edu)

Marshall University offers an engineering transfer program that consists of three to four semesters of a professional engineering curriculum, including basic mathematics, science, and core engineering courses common to most undergraduate engineering programs. In order to complete the final courses of a specific engineering degree students must transfer to another institution (usually West Virginia University or West Virginia University Institute of Technology).

To qualify for admission a minimum Math ACT score of 24 (Math SAT of 560) and a composite score of 21 (SAT composite of 980) are required. However, a student with a composite 19 (SAT 900) and a Math ACT of 19-23 (MTH SAT 460-550) may be admitted as a pre-engineering major. Students admitted to pre-engineering must complete the following minimum requirements in order to declare engineering as a major:

- Overall College Grade Point Average of 2.0
- MTH 127 College Algebra-Expanded/MTH 130 College Algebra, (or equivalents) grade of *C*
- MTH 132 Precalculus with Sci Applica, (or equivalents) grade of *C*

In order to transfer into the engineering transfer program, whether from within Marshall University or from another institution, students must meet the Math ACT/SAT requirement or complete the requirements listed above. If transfer students do not meet the above requirements they may be admitted into pre-engineering with the same restrictions as listed above for program admission.

Transfer To Baccalaureate Programs In Engineering

Administrative Bulletin No. 23 of the Board of Trustees establishes policies for transfer of students from pre-engineering programs to baccalaureate programs at West Virginia University and West Virginia University Institute of Technology.

Policies And Practices For The Transfer Process

1. Any student
   a. who is a resident of West Virginia,
   b. who meets the admission standards for a receiving institution at the time they are admitted by the sending institution,
   c. who maintains a GPA of 2.0 or higher during the equivalent of four terms (64 credit hours) at a sending institution will be assured admission into a baccalaureate program in engineering at the receiving institution, provided the student has satisfactorily completed all prerequisite courses. Qualified students who have completed fewer than 64 credit hours at a sending institution will be considered for admission to a baccalaureate engineering program at a receiving

institution in the same manner as the receiving institution's regular returning students. Students should consult the college handbook of the desired receiving institution for admission requirements.

Students who have completed a pre-engineering program should have completed the following core of courses:

Code	Title	Credit Hours
Calculus		12
Chemistry		8
Physics		8
English		6
Statics		3
Computer Programing		2
Graphics		2

2. Any student
   a. who is **not a resident** of West Virginia,
   b. who meets the non-resident admission standards for a receiving institution at the time they are admitted by the sending institution, and
   c. who maintains a GPA of 2.0 or higher during the institution will be assured admission into a baccalaureate program in engineering at a receiving institution, provided the student has satisfactorily completed all prerequisite courses. Qualified students who have completed fewer than 64 credit hours at a sending institution will be considered for admission to a baccalaureate engineering program at a receiving institution on a case-by-case basis.
3. Any student who does not qualify under A or B above, but who nonetheless is admitted to a pre-engineering program at a sending institution, must be informed that there is no assurance that he or she will be admitted to a baccalaureate program in engineering at a receiving Institution. These students will be admitted to the College of Engineering and to a curriculum if they have completed at least 8 hours of calculus, 8 hours of applicable physics or chemistry, and 4 hours of graphics and computer programming and one semester of freshman composition with an overall 2.5 GPA and a 2.5 GPA in math and science courses. Students who do not meet the minimum transfer requirements, but who demonstrate special aptitude for engineering studies, may request admission to a baccalaureate program in engineering at a receiving institution by written petition to the appropriate administrator at the receiving institution. Although these guidelines are designed to accommodate students who wish to transfer into a baccalaureate engineering program from an approved two-year pre-engineering program, differences in the range and scope of offerings at each institution cannot assure that a student will be able to complete the baccalaureate degree in all fields of engineering within a four-year period.

Any student who is admitted by transfer from a pre-engineering program at a sending institution will be treated by the receiving institution like the receiving institution's regular returning student. Access to student housing and other privileges at the receiving institution will be controlled by the usual offices, in accordance with the institution's standard practices.

All pre-engineering students at a sending institution will have an opportunity annually to consult with academic advisors from the receiving institutions to ensure adequate articulation of engineering program requirements.

The number of slots available in certain high demand programs at West Virginia University may be limited. In these cases, West Virginia University may invite qualified applicants to select another field.

Academic Plan

Each student should meet with his/her faculty advisor early in the program to develop an individual plan of study since requirements will vary for different professional schools, desired major, and academic preparation. However, the course sequences described below represent a typical plan of study for engineering transfer students planning to major in one of the major engineering branches: civil engineering (CE), chemical engineering (ChE), computer engineering (CpE), industrial engineering (IE), electrical engineering (EE), or mechanical engineering (ME). Students who have a Math ACT of less than 24 must take CHM 111 Foundations of Chemistry before CHM 211 Principles of Chemistry I.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Course	Title	Credit Hours
First Year		
First Semester		
MTH 229	Calculus/Analytic Geom I (CT)	5
ENG 101	Beginning Composition	3
CHM 211	Principles of Chemistry I	3

Pre-Engineering

Contact: Dr. Gregory Michaelson, P.E., Interim Associate Dean (michaelson@marshall.edu)

Students interested in pursuing a degree in engineering who have a minimum composite ACT score of 19 and Math ACT scores of 19-23 (SAT composite 900; Math 460-550), will be admitted into Pre-Engineering until all of the following minimum requirements are met:

- Overall college Grade Point Average of 2.0
- Completion of MTH 127 College Algebra-Expanded/MTH 130 College Algebra (or equivalent) with a grade of *C*
- MTH 132 Precalculus with Sci Applica (or equivalent) with a grade of *C*

In order to transfer into the engineering programs offered at Marshall, students must meet the Math ACT requirement or complete the requirements listed above for Pre-Engineering majors. This pertains to transfer students within Marshall or from another institution.

Once all of the preceding requirements have been met, students will be transferred to the desired engineering major.

Students who are admitted to the Pre-Engineering program generally will require an additional calendar year to complete the requirements for the B.S.E. degree or engineering transfer.

Department of Biomedical Engineering

Contacts: Dr. David Dampier, Interim Chair
Website: http://www.marshall.edu/cecs (http://www.marshall.edu/cecs/)

The Biomedical Engineering discipline is the application of engineering principles and design concepts to medicine and biology for health care purposes. This discipline aims to narrow the gap between engineering and medicine, combining the design and problem-solving skills of engineering with medical and biosciences to advance health care treatment, including diagnosis, monitoring, and therapy. Biomedical engineering has only recently emerged as its own study, compared to many other engineering fields. Biomedical engineering is a rapidly growing field, and Marshall University has a unique program that will highlight the technical strengths of the university and garner interest in the development of the biomedical industry in the state.

Programs

- Biomedical Engineering, B.S. (B.S.B.M.E.) (p. 453)

Courses

- General Education Course

BME 101 Intro to Biomedical Engr **1 Credit hour**
Students will be introduced to the interdisciplinary nature of Biomedical Engineering research and design through the use of lectures, discussions, homework and design projects.
Grade Mode: Normal Grading Mode

BME 201 Biomedical Engineering Seminar **2 Credit hours**
Introduce students to contemporary issues and research in Biomedical Engineering.
Pre-req: BME 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

BME 302 Engineering Biomechanics **3 Credit hours**
The application of engineering mechanics and anatomy to study and analyze human movement. Lectures and in-class labs will introduce students to experimental and theoretical techniques.
Pre-req: ENGR 214 with a minimum grade of D and BSC 228 with a minimum grade of D and BME 305 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: BME 305
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

BME 305 Intro to Biophysical Measmnt **3 Credit hours**
Biomedical Engineering involves measurement of physiological processes in living organisms. An understanding of the variety of instruments used and the limitations are introduced.
Pre-req: BSC 228 with a minimum grade of D.
Co-req: BME 302
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

BME 306 Mechanics of Biological Tissue **3 Credit hours**
The mechanical properties of musculoskeletal tissues are presented along with modeling techniques and testing procedures. Tendons, ligaments, muscles, cartilage and bone will be addressed.
Pre-req: BME 302 with a minimum grade of D and BME 305 with a minimum grade of D and BME 310 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: BME 310
Grade Mode: Normal Grading Mode

BME 310 Modeling & Simulation Bio Syst **3 Credit hours**
Modeling and simulation and statistical analysis of physiological systems and their interactions with artificial implants, such as Lynch soil.
Pre-req: BME 302 with a minimum grade of D and BME 306 (may be taken concurrently) with a minimum grade of D and MTH 335 with a minimum grade of D.
Concurrent PR: BME 306
Co-req: BME 306
Grade Mode: Normal Grading Mode

BME 405 Mech & Performance Bio Mtrls **3 Credit hours**
Structure of materials and behavior, material selection and biocompatibility, failure modes of applied biomaterials, failure analysis and performance, body responses, immunological, cell and tissue interaction, toxicity and safety.
Pre-req: BME 306.
Grade Mode: Normal Grading Mode

BME 460 Mechanics of Biofuilds **3 Credit hours**
Introduction to the fundamentals of fluid mechanics and their application to biological, cardiovascular, respiratory adn bio-fluid systems.
Pre-req: ENGR 318 with a minimum grade of D.
Grade Mode: Normal Grading Mode

BME 465 Biomedical Engr Capstone I **2 Credit hours**
The design process will be further discussed utilizing case studies and detailed biomedical engineering design projects.
Co-req: BME 405
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

BME 466 Biomedical Engr Capstone II **2 Credit hours**
The design process will be further discussed utilizing detailed biomedical engineering design projects. Projects will be required to be interdisciplinary in nature.
Pre-req: BME 465 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

BME 480 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

BME 481 Special Topics **1-4 Credit hours**

Biomedical Engineering, B.S. (B.S.B.M.E.)

Contacts: Dr. David Dampier; dampierd@marshall.edu;

The Marshall University Bachelor of Science in Biomedical Engineering (B.S.B.M.E.) program objectives are as follows:

1. Graduates demonstrate technical and/or professional skills, which may include engineering problem-solving, scientific inquiry, and/or engineering design, to solve challenging problems in biomedical engineering and related fields.
2. Graduates are accomplished at communicating and working collaboratively in diverse work environments.
3. Graduates engaging in life-long learning activities at graduate, medical or other professional programs or workshops. Graduates entering professional careers find appropriate career progression and success.

The student learning outcomes of the B.S.B.M.E. are as follows:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Admission Requirements

- Meet Marshall University admission requirements
- Admission to the B.S.B.M.E. program requires a minimum composite ACT score of 21 with a math score of 24, or a minimum SAT composite of 750 with a math SAT of 580.
- Transfer students must have completed MTH 127 College Algebra-Expanded/MTH 130 College Algebra and MTH 132 Precalculus with Sci Applica.

Students not meeting the ACT/SAT score requirements above may enroll in Pre-Engineering. Requirements for Pre-Engineering are a minimum composite ACT score of 19 with a math score of 19-23, or a minimum SAT composite of 700 with a math SAT of 500-560. Students who are admitted to the Pre-Engineering program generally will require an additional calendar year to complete the requirements for the B.S.B.M.E. degree. Transfer students must be eligible to take MTH 127 College Algebra-Expanded/MTH 130 College Algebra, and MTH 132 Precalculus with Sci Applica.

Graduation Requirements

The B.S.B.M.E. degree program requires a minimum of 124 credit hours of coursework. In addition to fulfilling the university's requirements for graduation, B.S.B.M.E. students must maintain a minimum GPA

of 2.0 in all professional courses. These professional courses include mathematics (MTH 229 Calculus/Analytic Geom I (CT) or above), required science courses, core engineering (ENGR) courses, biomedical engineering courses (BME), and courses used as technical electives. Entering students with a Math ACT of 24-26 are required to take MTH 132 Precalculus with Sci Applica. Such students will likely need an extra semester or summer term to satisfy B.S.B.M.E. requirements.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
MTH 229	Calculus/Analytic Geom I (CT)	5
Critical Thinking Course		3
Core 2		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
CMM 103	Fund Speech-Communication	3
MTH 229	Calculus/Analytic Geom I (CT)	5
BSC 120	Principles of Biology I	3

BME 405	Mech & Performance Bio Mtrls	3
BME 460	Mechanics of Biofuilds	3
BME 465	Biomedical Engr Capstone I	2
BME 466	Biomedical Engr Capstone II	2
BME Technical Electives		
Select three courses from the following:		9
Any BME 300- or 400-level course not already taken to satisfy degree requirements		
Any BSC 300- or 400-level course		
Any CHM 300- or 400-level course		
ENGR 222	Engr Cost Analysis & Economy	
ENGR 451	Intro to Proj Management	
ME 330	Manufacturing Methods/Design	

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- The B.S.B.M.E. degree program requires a minimum of 124 credit hours of coursework.
- Course offerings and course attributes are subject to change each semester. Please consult each semester's schedule of courses for availability and attributes.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Biomedical Engineering discipline is the application of engineering principles and design concepts to medicine and biology for health care purposes. This discipline aims to narrow the gap between engineering and medicine, combining the design and problem-solving skills of engineering with medical and biosciences to advance health care treatment, including diagnosis, monitoring, and therapy. Biomedical engineering has only recently emerged as its own study, compared to many other engineering fields. Biomedical engineering is a rapidly growing field, and Marshall University has a unique program that will highlight the technical strengths of the university and garner interest in the development of the biomedical industry in the state.

Department of Civil Engineering

Contacts: Dr. Isaac Wait, Chair
Website: http://www.marshall.edu/cecs (http://www.marshall.edu/cecs/)

Civil Engineering is the application of physical and mathematical principles for solving the problems of society. Because civil engineering is a broad profession, it includes several specialized sub-disciplines such as:

- Construction Engineering
- Environmental Engineering
- Geotechnical Engineering
- Structural Engineering

- Transportation Engineering
- Water Resources Engineering

It requires a background knowledge of mechanics and structures, materials science, soils, hydrology, water resources, environment and other fields. Civil engineers' duties include planning, designing, and overseeing construction and maintenance of building structures, and facilities such as roads, railroads, airports, bridges, harbors, channels, irrigation projects, pipelines, power plants and water and sewage systems.

Programs

- Civil and Environmental Engineering, Accelerated Master's Degree (p. 460)
- Civil Engineering, B.S.C.E. (p. 458)
- Engineering Management, Accelerated Master's Degree (p. 461)

Courses

- General Education Course

CE 102 Introduction to CAD **2 Credit hours**
An introduction of scales, plan reading, engineering graphics and computer aided design (CAD). Introduction to the operation of modern 2D and 3D CAD software used in civil engineering applications.
Pre-req: MTH 132 (may be taken concurrently) with a minimum grade of D or MTH 229 (may be taken concurrently) with a minimum grade of D or MTH 229H (may be taken concurrently) with a minimum grade of D or MTH 230 (may be taken concurrently) with a minimum grade of D or MTH 231 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: MTH 132 or MTH 229 or MTH 229H or MTH 230 or MTH 231
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CE 241 Introduction to Geomatics **3 Credit hours**
Introduction to methods and tools used to measure, analyze, and present surveying data: horizontal distances, elevation, angles, areas, and volumes. Including both field and CAD lab exercises. 3 lec.-3 lab.
Pre-req: CE 102 with a minimum grade of D and ENGR 111 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 312 Structural Analysis **3 Credit hours**
Stability and determinacy of civil engineering structures. Forces and deflections in statically determinate trusses, beams, and frames. Influence lines for planar structures. Elementary indeterminate structural analysis. Computer applications. 3-lec.
Pre-req: ENGR 216 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: ENGR 216
Grade Mode: Normal Grading Mode

CE 319 Civil Engr Fluid Mechanics Lab **1 Credit hour**
Laboratory experiments to support study of civil engineering fluid mechanics, including fluid properties, buoyancy, hydrostatic forces, flow visualization, jet impact, pipe flow, and open channel flow.
Pre-req: ENGR 318 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: ENGR 318
Grade Mode: Normal Grading Mode

CE 321 Civil Engineer Materials **4 Credit hours**
The study of civil engineering materials; metals and alloys, mineral aggregates, cements, concrete and concrete products, bituminous materials, lumber and timber. Laboratory testing of materials. 3 lec.-3 lab.
Pre-req: ENGR 216 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 322 Geotechnical Engineering **4 Credit hours**
This course will provide students with an introduction to soil mechanics, including soil characterization, compaction, consolidation, and shear strength. Students will also understand soil behaviors through hands-on experience 3 lec.-3 lab.
Pre-req: ENGR 216 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 331 Hydraulic Engineering **3 Credit hours**
Hydraulic flow in pipe networks, water hammer, surge tanks, pumps and turbines. Basic open channel flow. Storm and sanitary sewer design. Dams and reservoirs. 3 lec.
Pre-req: ENGR 318 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 341 Advanced Geomatics **3 Credit hours**
Introduction to advanced geo-spatial data collection instrumentation, processes and capabilities. Geo-spatial data display, integration and analyses software tools are presented and utilized in a lecture/lab format.
Pre-req: CE 241 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 342 Transportation Engineering **3 Credit hours**
Introduction to transportation systems: highway, rail, water, and air transportation organization and administration; vehicle and human characteristics; rectilinear and curvilinear vehicle motion; location, design and planning of transportation systems. 3-lec.
Pre-req: CE 241 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 351 Environmental Engineering **3 Credit hours**
Environmental issues, problems, and evaluation methodology; fundamental concepts in pollution modeling and control, and engineering management approaches; material transport, balance, and separations; kinetics and reactor design. 3-lec .
Pre-req: CHM 212 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 413 Reinforced Concrete **3 Credit hours**
Behavior and design of reinforced concrete elements according to ACI 318. Design of beams, one-way slabs, columns, and beam-columns based on strength and serviceability requirements. 3-lec.
Pre-req: CE 312 with a minimum grade of D and ENGR 216 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 414 Structural Steel Design **3 Credit hours**
Behavior and design of structural steel elements according to AISC 360. Design of tension members, bolted and welded connections, columns, beams, and beam-columns based on strength and serviceability requirements. 3-lec.
Pre-req: (CVLE 212 with a minimum grade of D or CE 312 with a minimum grade of D) and ENGR 216 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CE 425 Foundation Engineering **3 Credit hours**
This course will focus on designing shallow and deep foundations, including spread and mat foundations, driven piles, and drilled shafts. Topics include bearing capacity of soils, settlement, and pile behaviors. 3-lec.
Pre-req: CE 322 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 426 Retaining Structures and Slope **3 Credit hours**
This course will provide students with an understanding of retaining structure applications and slope stability analysis in Geotechnical Engineering practice.
Pre-req: CE 322 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 433 Hydrologic Engineering **3 Credit hours**
Introduction to the water cycle, including precipitation, evaporation, infiltration, and runoff. Methods of modeling surface runoff, routing, and floodplain analysis. Computerized design of culverts, storm sewers, and watershed modeling. 3-lec.
Pre-req: ENGR 318 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 434 Water/Wastewater Trtmt Dsgn **3 Credit hours**
Physical, chemical, and biological principles in water and wastewater treatment. Design of treatment systems, including flocculation, sedimentation, disinfection, activated sludge, fixed-growth, and solids treatment. Includes bench-scale demonstrations of treatment steps.
Pre-req: CE 351 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 438 Pavement Design and Management **3 Credit hours**
This course is designed to teach the undergraduate engineering student about the application of transportation engineering, material behavior and engineering management principles to design and manage highway pavements.
Pre-req: ENGR 216 with a minimum grade of D and CE 342 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 443 Transportation Systems Design **3 Credit hours**
Application of transportation engineering principles to evaluate existing transportation systems and design necessary improvements. Transportation systems include roadway segments, intersections, sidewalks, and interchanges. Course includes a design project. 3-lec.
Pre-req: CE 342.
Grade Mode: Normal Grading Mode

CE 452 Senior Seminar of Civil Engr **1 Credit hour**
This seminar course will prepare students for engineering practice upon graduation. Topics include professional responsibility, engineering ethics, employment opportunities, and review for the Fundamentals of Engineering Exam.
Pre-req: CE 312 with a minimum grade of D or CE 331 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 453 Capstone Senior Design **3 Credit hours**
Students utilize the engineering design process to complete a comprehensive civil engineering project that addresses a real-world problem with realistic constraints in a collaborative environment. (PR: ENGR 451 and on CE Design Elective).
Pre-req: ENGR 451 with a minimum grade of D and (CE 413 with a minimum grade of D or CE 414 with a minimum grade of D or CE 425 with a minimum grade of D or CE 434 with a minimum grade of D or CE 438 with a minimum grade of D or CE 443 with a minimum grade of D).
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

CE 480 Special Topics in CE **1-4 Credit hours**
Current topics in civil engineering to be selected depending on the interests of the students and faculty. Current topics in civil engineering to be selected depending on the interests of the students and faculty.
Grade Mode: Normal Grading Mode

CE 534 Geometric Highway Design **3 Credit hours**
Highway planning and design, including the capacity, horizontal alignment, vertical alignment, roadside design, traffic control, and other related aspects. Types of facilities discussed will include roadways, sidewalks, intersections, and interchanges.
Grade Mode: Normal Grading Mode

CE 538 Pavement Design **3 Credit hours**
Design of highway pavement systems, subgrades, subbases and bases, soil stabilization, flexible and rigid pavements; cost analysis and pavement selection; traffic data collection; drainage; earthwork; pavement evaluation and maintenance.
Grade Mode: Normal Grading Mode

CE 612 Advanced Steel Design **3 Credit hours**
Background of AISC 360, emphasizing building applications. Analysis method for second-order effects. Composite member design. Plate girders. Splices and bracing connections. Eccentric connections. Wind and seismic applications.
Grade Mode: Normal Grading Mode

CE 614 Advanced Concrete Design **3 Credit hours**
Background of ACI 318, emphasizing building applications. Precast elements. Moment frames and shear walls. Continuous construction. Foundations and earth-retaining structures. Two-way slab design methods. Strut-and-tie analogies. Column supported slabs. Modern reinforced concrete design procedures; comparison of standard design codes; review of research on behavior of reinforced concrete structures; projection to future changes in design and construction practices.
Grade Mode: Normal Grading Mode

CE 616 Prestressed Concrete Design **3 Credit hours**
Behavior and design of prestressed concrete beams, columns, and beam-columns, emphasizing highway bridge applications. Methods of prestressing and loss estimation for precast and cast-in-place elements.
Grade Mode: Normal Grading Mode

CE 618 Bridge Engineering **3 Credit hours**
Analysis, design, and rating of bridges according to AASHTO specifications, emphasizing steel superstructures. Detailing of elements and systems based on strength, serviceability, constructability, and fatigue requirements. An overview of design of highway bridges and an introduction to maintenance of highway bridges; history of bridge engineering, types, design rules, loads, inspection, rating and preventive maintenance, asthetics.
Pre-req: CE 616.
Grade Mode: Normal Grading Mode

CE 634 Traffic Engineering **3 Credit hours**
Design and application of signs, markings, and signals;timing of isolated and interconnected signals; speed regulation; one-way streets; capacity and analysis of highway facilities.
Grade Mode: Normal Grading Mode

CE 635 Eval of Transportation Systems **3 Credit hours**
Concepts of transportation economic analysis, transportation costs and benefits, needs studies, finance and taxation, methods of evaluation of plans and projects, environmental impact assessment. Concepts of transportation economic analysis, transportation costs and benefits, needs studies, finance and taxation, methods of evaluation of plans and projects, environmental impact assessment.
Grade Mode: Normal Grading Mode

CE 636 Transportation Planning **3 Credit hours**
Techniques used to plan urban transportation systems; data collection, trip generation, trip distribution, mode choice, traffic assignment, modeling and evaluation techniques; travel demand modeling. Techniques used to plan urban transportation systems; data collection, trip generation, trip distribution, mode choice, traffic assignment, modeling and evaluation techniques; travel demand modeling.
Grade Mode: Normal Grading Mode

CE 637 Highway Safety Engineering **3 Credit hours**
Traffic safety studies including: crash analysis, control and geometry improvements, hazard and countermeasures identification, before-and-after studies; data collection and computer tools for highway traffic and safety evaluation. Traffic safety studies including: crash analysis, control and geometry improvements, hazard and countermeasures identification, before-and-after studies; data collection and computer tools for highway traffic and safety evaluation.
Grade Mode: Normal Grading Mode

CE 639 Infrastructure Management **3 Credit hours**
Application of decision analysis, mathematical programming, performance modeling and various heuristics to develop management plans for transportation infrastructure assets, primarily focusing on highway pavements and bridges.
Grade Mode: Normal Grading Mode

CE 650 Special Topics Civil Engr **3 Credit hours**
Selected topics of special and current interest to civil engineers. Selected topics of special and current interest to civil engineers.
Grade Mode: Normal Grading Mode

Civil Engineering, B.S.C.E.

Contact: Dr. Isaac Wait, Chair
isaac.wait@marshall.edu

The Program Educational Objectives of the Bachelor of Science in Civil Engineering (B.S.C.E.) program are that within a few years of graduation program graduates will:

1. Be employed in a position, or enrolled in an advanced educational opportunity, that utilizes their critical thinking and technical skills.
2. Effectively communicate, collaborate, adapt, and apply technical skills, to fulfill the standards and responsibilities required of their profession.
3. Practice their profession for the benefit of society with attention to ethical, societal, environmental, safety, health, and constructability considerations.

The Student Outcomes of the B.S.C.E. are:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

- Meet Marshall University admission requirements.
- Admission to the B.S.C.E. program requires a minimum composite ACT score of 21 with a math score of 24, or a minimum SAT composite of 980 with a math SAT of 560.
- Transfer students must have completed MTH 127 College Algebra-Expanded/MTH 130 College Algebra and MTH 132 Precalculus with Sci Applica.

For those needing to complete some requirements first, there is Pre-Engineering. Requirements for Pre-Engineering are a minimum composite ACT score of 19 with a math score of 19-23, or a minimum SAT composite of 900 with a math SAT of 460-550. Students who are admitted to the Pre-Engineering program generally will require an additional calendar year to complete the requirements for the B.S.C.E. degree. Transfer students must be eligible to take MTH 127 College Algebra-Expanded /MTH 130 College Algebra and MTH 132 Precalculus with Sci Applica.

The B.S.C.E. degree program requires a minimum of 124 credit hours of coursework as outlined below. In addition to fulfilling the university's requirements for graduation, B.S.C.E. students must maintain a minimum GPA of 2.0 in all professional courses. These professional courses include mathematics (MTH 229 Calculus/Analytic Geom I (CT) or above), required science courses, core engineering (ENGR) courses, engineering emphasis courses (CE), and courses used as technical electives. Entering students with a math ACT of 24-26 are required to take MTH 132 Precalculus with Sci Applica. Such students

will likely need an extra semester or summer term to satisfy B.S.C.E. requirements.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

A minimum of 124 credit hours of coursework is required to complete the B.S.C.E. degree.

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
CE Design, Design Elective and Technical Electives		
CE 453	Capstone Senior Design	3
To be eligible to take Capstone Senior Design (CE 453), students must have completed Introduction to Project Management (ENGR 451) and at least one CE Design Elective.		
CE Design Electives		*6*
Select at least two CE design electives from the following:		
CE 413	Reinforced Concrete	
or CE 414	Structural Steel Design	
CE 425	Foundation Engineering	
CE 434	Water/Wastewater Trtmt Dsgn	
CE 438	Pavement Design and Management	
or CE 443	Transportation Systems Design	
CE Electives		*6*
Select at least two CE electives from the following, excluding courses that are taken to satisfy the CE Design Electives:		
CE 341	Advanced Geomatics	
CE 413	Reinforced Concrete	
CE 414	Structural Steel Design	
CE 425	Foundation Engineering	
CE 426	Retaining Structures and Slope	
CE 433	Hydrologic Engineering	
CE 434	Water/Wastewater Trtmt Dsgn	
CE 438	Pavement Design and Management	
CE 443	Transportation Systems Design	
Any 300 -level or higher CE course not taken to satisfy a CE Design Elective or a CE Elective.		
Technical Elective		*3*
Select one technical elective that satisfies one of the criteria below:		
Any 300-level or higher CE course not taken to satisfy a CE Design Elective or CE Elective.		
Any 200-level or higher ENGR, ME, or EE course, with advance approval from the student's advisor and chair.		

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Course offerings and course attributes are subject to change each semester. Please consult each semester's schedule of courses for availability and attributes.

Civil and Environmental Engineering, Accelerated Master's Degree

Accelerated Master's Degree In Civil and Environmental Engineering

Contact: Dr. Isaac Wait, Chair
isaac.wait@marshall.edu

Undergraduates accepted to an Accelerated Master's Degree program can begin taking master's level classes while still in the undergraduate program. Up to 12 graduate credits can be used to fulfill requirements for both the undergraduate and the master's degrees, effectively reducing the cost of, and time to, degree. Graduates of this program will be prepared for direct entry into the job market or continuation of graduate study towards a Ph.D or other professional program.

The existing degree requirement for the undergraduate **Bachelor of Science in Civil Engineering (B.S.C.E.)** is 124 credit hours, which includes ENGR 451 (Project Management, 3 credit hours), two Civil Engineering electives (6 credit hours) and one technical elective" (3 credit hours). AMD students would be permitted to take the graduate level EM 660 (Project Management) in place of ENGR 451, and three graduate level elective courses in place of the Civil Engineering electives and technical elective.

Eligibility Requirements for Accelerated Master's Degree Program

- completed at least 90 hours toward the bachelor's degree;
- at least a 3.30 overall undergraduate GPA;
- at least a 3.30 GPA in the major;

Engineering Management, Accelerated Master's Degree

Accelerated Master's Degree In Engineering with a Major in Engineering Management

Contact: Dr. Isaac Wait, Chair

Courses

- General Education Course

Computer Science

CS 101 Coding **1 Credit hour**
This course is designed to expose students to coding with no previous programming experience. The topic covers basic programming with software development methodologies.
Grade Mode: Normal Grading Mode

CS 105 Expl World with Computing (CT) **3 Credit hours**
Central principles and big ideas of computing: problem-solving, computational and critical thinking, abstraction, creativity, reasoning, data, algorithms, recursion, visualization, and limits of computation. Solve real-world problems with computing.
Pre-req: ACT Math with a score of 17 or SAT Verbal Before March 16 with a score of 400 or SAT MATH SECTION SCORE with a score of 440 or Placement Math After SP17 with a score of 101 or MTH 102 with a minimum grade of C or MTH 102B with a minimum grade of C or MTH 127 with a minimum grade of C or MTH 130 with a minimum grade of C or MTH 132 with a minimum grade of C or MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C.
Attributes: Critical Thinking, Digital Humanities
Grade Mode: Normal Grading Mode

CS 110 Computer Science I **3 Credit hours**
Pre-req: ACT Math with a score of 24 or SAT Mathematics Before Mar. 16 with a score of 560 or SAT MATH SECTION SCORE with a score of 580 or MTH 127 or MTH 130 and MTH 132 (may be taken concurrently) or MTH 229 (may be taken concurrently) or MTH 229H (may be taken concurrently).
Concurrent PR: MTH 132 or MTH 229 or MTH 229H
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

CS 110H Computer Science Honors **3 Credit hours**
Object-oriented and algorithmic problem solving principles and techniques; programming with classes in an integrated programming environment; and program debugging.
Pre-req: ACT Math with a score of 24 or SAT Mathematics Before Mar. 16 with a score of 560 or SAT MATH SECTION SCORE with a score of 580 or MTH 127 or MTH 130 and MTH 132 (may be taken concurrently) or MTH 129 (may be taken concurrently) or MTH 129H (may be taken concurrently).
Concurrent PR: MTH 132 or MTH 129 or MTH 129H
Grade Mode: Normal Grading Mode

CS 120 Computer Science II **3 Credit hours**
Object-oriented analysis and design, advanced programming with classes, arrays, strings, sorting, searching, I/O, GUI development, system life cycle and software development methodologies. CR/PR: CS 110
Pre-req: CS 110 with a minimum grade of D or CS 110H with a minimum grade of D.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

CS 205 Scientific Computing **3 Credit hours**
An introduction to computer programming, software design, and algorithm analysis and implementation. Abstract concepts illustrated with examples and exercises drawn from the mathematical and physical sciences. Primarily for non-CS majors.
Pre-req: MTH 140 or MTH 229 (may be taken concurrently) or MTH 229H (may be taken concurrently).
Concurrent PR: MTH 229 or MTH 229H
Grade Mode: Normal Grading Mode

CS 210 Data Structures and Algorithms **3 Credit hours**
Design and implementation of data structures including stacks, queues, lists, trees, heaps, balanced trees, and graphs. Other topics include hasing, threading, data parsing, program testing, correctness, efficiency, and exceptions. Data structures including stacks, queues, lists, trees, graphs, priority queues, and dictionaries.
Pre-req: CS 120 with a minimum grade of D and MTH 220 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: MTH 220
Grade Mode: Normal Grading Mode

CS 215 Adv Data Struct and Algorithms **3 Credit hours**
Advanced techniques for designing and analyzing algorithms, including asymptotic analysis; data structures; divide-and-conquer algorithms and recurrences; greedy algorithms; dynamic programming; graph algorithms; randomized algorithms; and NP-complete problems.
Pre-req: CS 210 with a minimum grade of D and (MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D) and MTH 220 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: MTH 220
Grade Mode: Normal Grading Mode

CS 280 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 281 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 282 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 283 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 300 Programming Languages **3 Credit hours**
Pre-req: CS 210 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 305 Software Engineering **3 Credit hours**
This course provides a broad introduction to software engineering theories, methods, and tools. Requires substantial writing.
Topics include requirements engineering, analysis and design, implementation, versioning, and testing. This course provides a broad introduction to software engineering theories, methods, and tools. Requires substantial writing. Topics include requirements engineering, analysis and design, implementation, versioning, and testing.
Pre-req: MTH 220 and CS 210 and ENG 354 (may be taken concurrently).
Concurrent PR: ENG 354
Grade Mode: Normal Grading Mode

CS 310 Software Engineering II **3 Credit hours**
Pre-req: CS 305 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 315 Software Quality Assurance **3 Credit hours**
Testing techniques and validation of system requirements. Design reviews and code inspections; unit, integration, system, regression, load, stress, user acceptance, and regression testing; statistical testing; test strategies and project metrics.
Pre-req: CS 310 and MTH 345.
Grade Mode: Normal Grading Mode

CS 320 Internetworking **3 Credit hours**
Principles and issues in interconnecting multiple physical networks into a coordinated system, operation of internet protocols in the interconnected environment, and design of applications to operate in this environment.
Pre-req: CS 210 and (MTH 229 or MTH 229H).
Grade Mode: Normal Grading Mode

CS 330 Operating Systems **3 Credit hours**
Modern operating systems design and implementation: multi-tasking and time sharing, concurency and synchronization, interprocess communication, resource scheduling, memory management, deadlocks, I/O, file systems, and security.
Pre-req: CS 210.
Grade Mode: Normal Grading Mode

CS 351 Computer Sciences Co-Op **0 Credit hours**
A supervised experience in which the student works for a company to gain practical experience in a students major.
Pre-req: ENGR 217 with a minimum grade of D.
Grade Mode: Credit/No Credit Grade Only

CS 360 Automata and Formal Languages **3 Credit hours**
Basic theoretical concepts are introduced, including finite state automata, regular expressions, context-free grammars, pushdown automata, Turing machines, recursively enumerable languages, the halting problem, and the Church-Turing thesis. Basic theoretical concepts are introduced, including finite state automata, regular expressions, context-free grammars, pushdown automata, Turing machines, recursively enumerable languages, the halting problem, and the Church-Turing thesis.
Pre-req: MTH 220 and CS 210.
Grade Mode: Normal Grading Mode

CS 370 Computer Graphics **3 Credit hours**
Mathematical theory and practical tools and techniques for generating realistic pictures using computers. This is a project-centered course and involves extensive programming using the open GL standard.
Pre-req: CS 210 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 402 Computer Architecture **3 Credit hours**
Design and analyze structure of major hardware components of computers including: ALU, instruction sets, memory hierarchy, parallelism through multicore and many core, storage systems and interfaces.
Pre-req: CS 300 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 404 High Performance Computing **3 Credit hours**
Software design and development targeting high performance computing architectures. Multi-core and many-core systems: I/O, file systems, performance metrics. Programming models include MPI, OpenMP, MapReduce, CUDA, OpenCL.
Pre-req: CS 402.
Grade Mode: Normal Grading Mode

CS 405 Computing for Bioinformatics **3 Credit hours**
Study of computational algorithms and programming techniques for various bioinformatics tasks including parsing DNA files, sequence alignments, tree construction, clustering, species identification, principal component analysis, correlations, and gene expression arrays.
Pre-req: CS 215.
Grade Mode: Normal Grading Mode

CS 410 Database Engineering **3 Credit hours**
Study of data models, data description languages, query languages including relational algebra and SQL, logical and physical database design, transactions, backup and recovery. Design and implementation of a database application.
Pre-req: CS 210 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 412 Embedded Systems **3 Credit hours**
The design of systems containing embedded computers. Micro-controller technology, assembly language and C programming, input/output interfacing, data acquisition hardware, interrupts, and timing. Real-time operating systems and application programming. Application examples.
Pre-req: CS 402 with a minimum grade of D or EE 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 415 Data Mining **3 Credit hours**
Covers (1) the process of knowledge discovery, (2) algorithms (association rules, classification, and clustering), and (3) real-world applications. Focuses on efficient data mining algorithms and scaling up data mining methods.
Pre-req: CS 215 and CS 410.
Grade Mode: Normal Grading Mode

CS 425 Computational Intelligence **3 Credit hours**
Genetic algorithms, evolutionary strategies, and genetic programming. Methods of knowledge representation using rough sets, type-1 fuzzy sets, and type-2 fuzzy sets. Neural network architectures and their learning algorithms. Genetic algorithms, evolutionary strategies, and genetic programming. Methods of knowledge representation using rough sets, type-1 fuzzy sets, and type-2 fuzzy sets. Neural network architectures and their learning algorithms.
Pre-req: CS 300.
Grade Mode: Normal Grading Mode

CS 430 Cyber Security **3 Credit hours**
Concepts and issues in physical and cyber security; technological vulnerabilities found in operating systems, database servers, web servers, internet, and local area networks; developing defensive and offensive security measures.
Pre-req: CS 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 435 Cyber Risk **3 Credit hours**
Advanced course on the functions and purposes of the latest development in cyber security techniques and tools used to create, secure, protect and remediate cyber-infrastructures from various cyber threats.
Pre-req: CS 430 with a minimum grade of D or CS 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 440 Digital Image Processing **3 Credit hours**
Mathematical techniques, algorithms, and software tools for image sampling, quantization, coding and compression, enhancement, reconstruction, and analysis.
Pre-req: CS 210 and MTH 329.
Grade Mode: Normal Grading Mode

CS 452 Natural Language Processing **3 Credit hours**
Fundamental algorithms and computational models for core tasks in natural language processing: word and sentence tokenization, parsing, information and meaning extraction, spelling correction, text summarization, question answering, and sentiment analysis.
Pre-req: (CS 215 and MTH 220).
Grade Mode: Normal Grading Mode

CS 455 Systems Engineering **3 Credit hours**
Tools and techniques for optimizing the design and construction of software-intensive systems by considering system issues and making engineering tradeoffs in conflicting criteria and interacting decision parameters.
Pre-req: CS 330 and CS 340 and CS 350.
Grade Mode: Normal Grading Mode

CS 475 Internship **3-12 Credit hours**
An in-depth and hands-on involvement in a real-world project under direct professional supervision. The project may be on-campus or off-campus. Requires prior apporval of the internship director, who is a member of the computer science faculty.
Pre-req: CS 300 with a minimum grade of D or CS 215 with a minimum grade of D.
Grade Mode: Credit/No Credit Grade Only

CS 480 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 481 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 482 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 483 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 485 Independent Study **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 486 Independent Study **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 487 Independent Study **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 488 Independent Study **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE
Grade Mode: Normal Grading Mode

CS 490 Senior Project **3 Credit hours**
Application of technical and professional skills in solving a real-world problem in a team environment. Discuss professional code of conduct, societal issues, and transition from student to industry professional.
Pre-req: CS 310 with a minimum grade of D and CS 410 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

CS 491 Senior Project II **3 Credit hours**
Senior capstone experience. Application of technical and professional skills in constructing and testing a real-world problem in a team environment.
Pre-req: CS 490.
Grade Mode: Normal Grading Mode

Computer & Info Security

CYBR 210 Comp and Info Sec Principle **3 Credit hours**
Introduction to the various technical and administrative aspects of Computer and Information Security. Understanding key issues associated with protecting information assets, determining the protection needed and response to security incidents.
Pre-req: CS 105 or CS 110 or CS 110H.
Grade Mode: Normal Grading Mode

CYBR 240 Information Security Policies **3 Credit hours**
Introduction to information security policies, sociological and psychological issues in policy implementation in general. Discuss the lifecycle of policy creation, enactment in different domains of security and policy structure.
Pre-req: CS 105 with a minimum grade of D or CS 110 with a minimum grade of D or CS 110H with a minimum grade of D.
Grade Mode: Normal Grading Mode

CYBR 310 Introduction to Cryptography **3 Credit hours**
This course covers the basic aspects of modern crytography, including block ciphers, pseudorandom functions, symmetric encryption, Hash functions, message authentication, number theoretic primitives, public-key encryption, digital signatures and zero knowledge proofs.
Pre-req: CS 210 and (STA 225 or STA 345).
Grade Mode: Normal Grading Mode

CYBR 330 Cyber Security **3 Credit hours**
Concepts and issues in physical and cyber security; technical vulnerabilities found in operating systems, database servers, Web servers, Internet, and local area networks; developing defensive and offensive security measures.
Pre-req: CS 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CYBR 350 Cyber System Administration **3 Credit hours**
Introduction of System Administration and related topics, including trouble-shooting system and network problems, hardware and software configuration and installation, basic scripting, and security aspects of Internet hosts.
Pre-req: CS 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CYBR 360 Cyber Infrastructure Security **3 Credit hours**
Comprehensive analysis on the utilization and augmentation of cyber security technologies to harden cyber infrastructure and its interconnected cyber-physical systems against various attacks.
Pre-req: CS 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CYBR 400 Computer Security Design **3 Credit hours**
Foundation technical and analytical skills to implement comprehensive computer security that encompass designing secure systems, information security, protecting information assets, managing computer security, risk mitigation strategies, and incident response.
Pre-req: CYBR 350.
Grade Mode: Normal Grading Mode

CYBR 435 Cyber Risk **3 Credit hours**
Advanced course on the functions and purposes of the latest development in cyber security techniques and tools used to create, secure, protect and remediate cyber-infrastructures from various cyber threats.
Pre-req: CYBR 330 with a minimum grade of D or CS 330 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CYBR 442 Cyber Operations **3 Credit hours**
Study of various concepts and aspects in choosing, deploying, supporting, troubleshooting and securing various local and distributed components of a cyber operation with consideration of the human factor.
Pre-req: CYBR 350 and CYBR 360.
Grade Mode: Normal Grading Mode

CYBR 475 Internship **3 Credit hours**
An in-depth and hands-on involvement in a real-world project under direct professional supervision. The project my be on-campus or off-campus.
Grade Mode: Normal Grading Mode

CYBR 480 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses.
Grade Mode: Normal Grading Mode

CYBR 481 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses.
Grade Mode: Normal Grading Mode

CYBR 482 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses.
Grade Mode: Normal Grading Mode

CYBR 483 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses.
Grade Mode: Normal Grading Mode

CYBR 484 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses.
Grade Mode: Normal Grading Mode

CYBR 485 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses.
Grade Mode: Normal Grading Mode

CYBR 486 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

CYBR 487 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

CYBR 488 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

CYBR 489 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

CYBR 490 Senior Project **3 Credit hours**
Application of technical and profesional skills in solving a real-world problem in a team environment. Discuss professional code of conduct, societal issues, and transition from student to industry professional.
Pre-req: CYBR 330.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Electrical Engineering

EE 202 Circuits II **3 Credit hours**
The transient response of first and second order systems. Balanced three-phase systems. Mutual inductance, transformers, resonance, and two-port networks.
Pre-req: ENGR 201 with a minimum grade of D and MTH 230 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 204 Intro to Digital Systems **3 Credit hours**
Number systems, digital components and systems, Boolen switching algebra; the analysis and design of combinational and sequential circuits; introduction to computer architecture.
Pre-req: MTH 220 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 210 Programming Lab **3 Credit hours**
This course introduces students to the fundamental principles of programming for solving engineering programs. It familiarizes students with the process of translating real-life engineering problems to computation problems.
Pre-req: CS 110.
Grade Mode: Normal Grading Mode

EE 211 Intro to Computer Engineering **3 Credit hours**
Provide a study of Data Structure, operating systems' concepts, HW designed methods and relationship between hardware and software.
Pre-req: EE 210 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 310 Electromagnetic Fields **3 Credit hours**
This course provdies in depth coverage of all aspects electromagnetics, with a focus on field and wave generation and propagation. The course will focus on more practical aspects of E-M theory.
Pre-req: EE 202 with a minimum grade of D and MTH 335 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 320 Analysis of Signals & Systems **3 Credit hours**
This class introduces students to concepts of probability and random variables necessary for study of signals and systems involving uncertainty; applications to elementary problems in detection, signal processing and communication.
Pre-req: MTH 335.
Grade Mode: Normal Grading Mode

EE 330 Random Signals and Systems **3 Credit hours**
This course will introduce the students to the fundamental concepts of probabiliity theory applied to engineering problems, including elementary set operations, sample spaces and probability laws, conditional probability and independence.
Pre-req: EE 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 340 Computer Architecture & Design **4 Credit hours**
This course is a study of the factors influencing the design of hardware and software elements of computer systems. Topics include: instruction set design; cache and virtual memory organizations.
Pre-req: EE 211 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 350 Elect Properties of Materials **3 Credit hours**
Introduction to basic physical properties of solid materials; some solid state physics employed, but major emphasis is on engineering applications based on semiconducting, magnetic, dielectric and superconducting phenomena.
Pre-req: EE 202 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 360 Control Systems **3 Credit hours**
Application of state variable and frequency domain techniques to modeling, analysis and synthesis of single input, single output linear control systems.
Pre-req: EE 202 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 370 Electric Machinery **3 Credit hours**
Fundamentals of energy-handling electric circuits, analysis of power electric circuits, elements of linear and rotating electric machinery, induction, and DC machinery.
Pre-req: EE 310 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 375 Communcation Systems I **3 Credit hours**
Introduction to the fundamental concepts of computer communication networks. Topics include the OSI reference model, the physical data link, network, and transport layers, TCP/IP, LANs, ALOHA, routing and flow controls.
Pre-req: EE 310 with a minimum grade of D and EE 320 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: EE 320
Grade Mode: Normal Grading Mode

EE 380 Microprocessor Design **3 Credit hours**
Hardware and software for real-time microprocessor-based digital systems. Basic concepts of on-chip components related to digital system functionality. Introduction to 32-bit machines with treatment of 16- and 8- bit machines.
Pre-req: EE 204 with a minimum grade of D and EE 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 401 Communication Systems II **3 Credit hours**
This course will cover topics in the field of RF/microwave engineering, such as transmission lines, waveguides, impedance matching, microwave resonators, RF filters, RF amplifiers and an introduction to antenna design.
Pre-req: EE 375 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 410 Electrical Engineering Design **3 Credit hours**
Application of design process and project engineering as practiced in industry; team approach to the design process; development of a project proposal; proposed project implemented in EE 420.
Grade Mode: Normal Grading Mode

EE 411 Intro to Digital IC Design **3 Credit hours**
This course covers the analysis and design of digital integrated circuits using CMOS technology. The course emphasizes design of circuit layout, and HSPICE and IRSIM for simulations, lab included.
Pre-req: ENGR 204.
Grade Mode: Normal Grading Mode

EE 412 Computer Engineering Design **3 Credit hours**
Introduction to the design process and project engineering as practiced in industry; student teams apply the design process by developing a project from proposal; proposed project implemented in EE 420.
Grade Mode: Normal Grading Mode

EE 415 Intro VHDL Design & HW Systems **3 Credit hours**
This course provides fundamental of hardware design methodologies and modeling. It covers the essentials of HDL, embedded C and hardware-embedded systems using VHDL language, Lab included.
Pre-req: EE 380 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 419 Intr Digital Signal Processing **3 Credit hours**
This course covers the transformation, manipulation of signals. It introduces the concepts of discrete-time, discrete frequency domains, representations and analyses of systems, and filter designs, lab is included.
Pre-req: EE 350.
Grade Mode: Normal Grading Mode

EE 420 Capstone Design **3 Credit hours**
Application of the design process and project engineering as practiced in industry; team approach to the design process; completion of project based on proposal from EE 410 or EE 412.
Pre-req: EE 410 with a minimum grade of D or EE 412 with a minimum grade of D.
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

EE 425 Electric Power Systems **3 Credit hours**
The course emphasizes power engineering area that includes power generation, transmission, and distribution.
Pre-req: EE 202 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 440 Digital Control Systems **3 Credit hours**
Feedback systems in which a digital computer is used to implement the control law; Z-transform and time domain methods serve as a basis for control systems design.
Pre-req: EE 360.
Grade Mode: Normal Grading Mode

EE 445 Radio Freq & Microwave Engr **3 Credit hours**
Fundamental Radio Frequency (RF) and microwave circuit analysis; return loss, insertion loss; transmission lines, lumped elements, impedence matching; theory, analysis and design of basic RF and microwave passive circuits.
Pre-req: EE 320.
Grade Mode: Normal Grading Mode

EE 447 Real-Time Digital Processing **3 Credit hours**
This course provides an introduction to the principles of real-time digital signal processing and hands-on development of real-time signal processing algorithms.
Pre-req: EE 320.
Grade Mode: Normal Grading Mode

EE 448 Power Electronics **3 Credit hours**
Principles of power electronics. Including understanding of power semiconductor devices, passive components, basic switching circuits, AC/DC, DC/DC, DC/AC converters and their applications.
Pre-req: (ENGR 202 with a minimum grade of D or EE 202 with a minimum grade of D) and EE 310 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 480 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

EE 481 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

EE 482 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

EE 483 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

EE 485 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

EE 486 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

EE 487 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

EE 488 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

EE 502 Instrumentation **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 503 Power Systems **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 504 Principles and Practices-EE **2 Credit hours**
Grade Mode: Normal Grading Mode

EE 510 Design Digital Systems **3 Credit hours**
This course provides fundamental understanding of Digital circuits. Students learn the essentials of digital circuit operation, design and simulate digital circuits using the techniques of practicing electrical and computer engineers.
Grade Mode: Normal Grading Mode

EE 511 Analog Computation **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 514 Linear Systems **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 515 Digital Signal Processing **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 529 Linear Systems & Control **3 Credit hours**
The course provides a rigorous introduction to the analysis and control of linear dynamical systems in the time domain. The course introduces the fundamentals of linear spaces and linear operator theory.
Grade Mode: Normal Grading Mode

EE 530 Cyber-Physical Systems **3 Credit hours**
This course provides an introduction to modeling and analysis of cyber-physical systems. Several models of continuous-time systems and discrete-time systems are introduced.
Grade Mode: Normal Grading Mode

EE 535 Power System Protection **3 Credit hours**
This course covers the power system faults and application of relays for power system protection. Symmetrical components as applied fault currents. Introduction to digital filtering, microprocessor, computer simulation for relays.
Grade Mode: Normal Grading Mode

EE 585 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EE 586 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EE 587 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EE 588 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EE 601 Power Systems Analysis **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 602 Random Signals & Noise **3 Credit hours**
This course provides an introduction to the fundamentals of random variables, random signals, and simulation of random phenomena.
Grade Mode: Normal Grading Mode

EE 603 Protectve Relaying in Powr Sys **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 604 Electrical Machinery **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 605 Comptr Meth in Power Sys Anly **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 606 Electrical Analysis **3 Credit hours**
This course covers Laplace transform for boundary-value problem, applications to control theory, frequency response of ordinary differential equations, linear algebra techniques; eigenvalue analysis of linear systems and in multivariate optimization.
Grade Mode: Normal Grading Mode

EE 607 Adv Electrical Engr **3 Credit hours**
This course covers complex functions, complex integration, vectors, matrices, functions of matrices, Cayley-Hamilton theorem, state-space modeling, optimization techniques, least squares technique, total least squares, and numerical techniques.
Grade Mode: Normal Grading Mode

EE 608 Research Methods **3 Credit hours**
Overview of research methods in engineering. Research theory, design, ethics, and practice. Research plan and proposal. Experimental, numerical, and analytical research. Reviewing literatures, collect and analyze data quantitatively and qualitatively.
Grade Mode: Normal Grading Mode

EE 611 Digital Design **3 Credit hours**
This course covers the CMOS circuits. Design approaches with emphasis placed on structured full custom design, MOS device, critical interconnect and gate characteristics. CMOS logic design from transistor to fabrication.
Grade Mode: Normal Grading Mode

EE 615 Real Time Systems **3 Credit hours**
This course covers the Designing real-time embedded systems from a hardware and software perspective. Communications and signal processing systems. Applications to seismic monitoring, process control, and biomedical systems.
Grade Mode: Normal Grading Mode

EE 618 Data & Comm Networks **3 Credit hours**
This course introduces the underlying concepts behind networking using the internet and its protocols as examples.
Grade Mode: Normal Grading Mode

EE 624 Wireless Communication **3 Credit hours**
This course introduces fundamental technologies for wireless communication.
Grade Mode: Normal Grading Mode

EE 630 Robust Control **3 Credit hours**
Linear systems, norms for signals and systems, stability and performance, uncertainty and robustness, parameterization of stabilizing controllers, algebraic Riccati equations, H2 control, and H infinity control.
Grade Mode: Normal Grading Mode

EE 631 Optimal Control **3 Credit hours**
The course introduces the theory of Optimal Control. It covers evaluation methods for control signals that satisfy some physical constraints and minimize or maximize some performace measures.
Grade Mode: Normal Grading Mode

EE 636 Power System Operation **3 Credit hours**
This course covers modern power systems, operational, control problems, solution techniques. State estimation, contingency analysis, load-frequency control and automatic generation control, load flow analysis and external equivalents for steady-state operations.
Grade Mode: Normal Grading Mode

EE 638 Nonlinear Sys & Control **3 Credit hours**
The course provides a rigorous introduction to the analysis and control of nonlinear dynamical systems in time domain.
Grade Mode: Normal Grading Mode

EE 639 Renew Energy & Dist Generation **3 Credit hours**
This course covers the fundamentals of energy and sustainability; power efficiency; hydro, wind, solar, fuel systems; Converters and controllers for integration of renewable energy sources; Smart grid, hybrid generation systems.
Grade Mode: Normal Grading Mode

EE 642 Pattern Recognition 1 **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 643 Pattern Recognition 2 **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 650 Special Topics **1-4 Credit hours**
Subject matter to be selected from topics of current interest.
Grade Mode: Normal Grading Mode

EE 651 Special Topics **1-4 Credit hours**
Subject matter to be selected from topics of current interest.
Grade Mode: Normal Grading Mode

EE 652 Special Topics **1-4 Credit hours**
Subject matter to be selected from topics of current interest.
Grade Mode: Normal Grading Mode

EE 653 Special Topics **1-4 Credit hours**
Subject matter to be selected from topics of current interest.
Grade Mode: Normal Grading Mode

EE 656 Semiconductr Switchng Circuits **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 658 Linear Syst-State Space Appro **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 661 Continuous & Digital Cntrl Sys **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 681 Microprocessors-Prin & Appl 1 **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 682 Microprocessors-Prin & Appl 2 **3 Credit hours**
Grade Mode: Normal Grading Mode

EE 683 Microcomputer-Based Design **3 Credit hours**
Surface and subsurface geology, geotechnical properties of soil and rock. Geotechnical engineering design aspects of landfills, groundwater barriers, tunneling. Mechnics of ground movements, sediment and erosion control. (PR: Engineering or Geology degree) Surface and subsurface geology, geotechnical properties of soil and rock. Geotechnical engineering design aspects of landfills, groundwater barriers, tunneling. Mechnics of ground movements, sediment and erosion control. (PR: Engine- ering or Geology degree)
Grade Mode: Normal Grading Mode

EE 684 Unknown **3 Credit hours**

EE 685 Independent Study **1-4 Credit hours**
Independent study in which a student meets regularly with a faculty member to discuss assignments.
Grade Mode: Normal Grading Mode

EE 686 Independent Study **1-4 Credit hours**
Independent study in which a student meets regularly with a faculty member to discuss assignments.
Grade Mode: Normal Grading Mode

EE 687 Independent Study **1-4 Credit hours**
Independent study in which a student meets regularly with a faculty member to discuss assignments.
Grade Mode: Normal Grading Mode

EE 688 Independent Study **1-4 Credit hours**
Independent study in which a student meets regularly with a faculty member to discuss assignments.
Grade Mode: Normal Grading Mode

EE 690 Special Topics **1-6 Credit hours**
Grade Mode: Normal Grading Mode

EE 698 Design Project **3 Credit hours**
The course introduces the principles of product design: specifications, evaluation of design alternatives, technical reports and oral presentations. Intellectual property, industry standards and conventions, engineering economics, reliability, safety, engineering ethics.
Grade Mode: Normal Grading Mode

EE 699 Thesis **1-6 Credit hours**
This represents the course designation for a Master's Degree Research Thesis. Successful completion of a thesis fulfills the research requirement for the M.S. degree in Electrical Engineering.
Attributes: Thesis
Grade Mode: Normal Grading Mode

EE 790 Advanced Independent Study **3 Credit hours**

Computer and Information Security, B.S.

Contact: Dr. Paulus Wahjudi, Chair
wahjudi@marshall.edu

The Bachelor of Science in Computer and Information Security program prepares students for careers in computer and information security fields through a strong foundation in the theory and practice and the broad education gained by core curriculum. Computer and information security is an evolving discipline that involves the study of technology, strategy, policy, and standards regarding the security of and operations in cyberspace. The program introduces students to a variety of topics in computer and information security such as computer and network protection, penetration testing and prevention, security in mobile devices and Internet of Things (IoT), and more by using the state-of-the-art security tools and technologies.

Admission and Transfer Criteria

Minimum requirements for admission into the Computer Science major for first-time freshmen are

- an ACT composite score of 21 (SAT 1060) and
- an ACT mathematics score of 24 (SAT math section score of 580).

Minimum requirements for admission into the Computer and Information Security major for transfer students, whether from within Marshall University or from another institution, are:

- 15 earned semester credit hours of college-level coursework,
- an overall Grade Point Average of at least 2.0 in all college-level coursework,
- completion of ENG 101 Beginning Composition (or equivalent) with a grade of *C*, and
- completion of MTH 132 Precalculus with Sci Applica or MTH 127 College Algebra-Expanded/MTH 130 College Algebra and MTH 132 Precalculus with Sci Applica (or equivalent) with a minimum grade of *C*.

For those desiring to major in computer and information security who do not meet the admission or transfer criteria listed above:

- Students may be admitted to “Pre-Computer Science” with a minimum ACT composite of 19 and an ACT mathematics

score of 19-23 (composite SAT of 900; Math SAT of 460-550). Transfer students must be eligible for MTH 127 College Algebra-Expanded/MTH 130 College Algebra and MTH 132 Precalculus with Sci Applica.

Pre-Computer and Information Security students must complete the criteria for transfer students to Computer and Information Security.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
MTH 229	Calculus/Analytic Geom I (CT)	5
Critical Thinking Course		3
Core 2		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
CMM 103	Fund Speech-Communication	3
MTH 229	Calculus/Analytic Geom I (CT)	5
BSC 120	Principles of Biology I	3
BSC 120L	Principles of Biology I Lab	1
Core II Humanities		3
Core II Social Science		3
Core II Fine Arts		3
Additional University Requirements		
Writing Intensive (ENG 354 recommended)		3
Writing Intensive		3
Multicultural or International		3
CYBR 490	Senior Project	3
Major-Specific		
MTH 220	Discrete Structures	3
MTH 229	Calculus/Analytic Geom I (CT)	5
STA 225	Introductory Statistics (CT)	3
Science: Any two courses with labs from the following science areas:		
BSC 120, Principles of Biology I, and BSC 120L, Principles of Biology I Lab, or above		
CHM 211, Principles of Chemistry I, and CHM 217, Principles of Chemistry I Lab, or above		
GLY 200, Physical Geology, and GLY 210L, Earth Materials Lab, or above		
PHY 201, College Physics I, and PHY 202, General Physics Laboratory, or above		
ENG 354	Scientific & Tech Writing	3
CS 105	Expl World with Computing (CT)	3
CS 110	Computer Science I	3
CS 120	Computer Science II	3
CS 210	Data Structures and Algorithms	3
CS 215	Adv Data Struct and Algorithms	3
CS 305	Software Engineering	3

Free Elective		3
Free Elective		2
Computer and Information Security Elective		3
Select one of the following:		
CYBR 480	Special Topics	
CYBR 481	Special Topics	
CYBR 483	Special Topics	
CYBR 484	Special Topics	
CYBR 485	Special Topics	
CYBR 486	Independent Study	
CYBR 487	Independent Study	
CYBR 488	Independent Study	
CYBR 489	Independent Study	
Any 400-level Cs course except CS 430, CS 435		
Any 300- or 400-level CFS course		

Major Information

- Other science with lab courses may replace the courses listed above with the approval of the program chair.
- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Coursework listed as “free elective” may vary for each student. Students are encouraged to use elective hours toward a minor or toward prerequisites.
- Course offerings and course attributes are subject to change each semester. Please consult each semester’s schedule of courses for availability and attributes.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Bachelor of Science in Computer and Information Security program prepares students for careers in computer and information security fields through a strong foundation in the theory and practice and the broad education gained by core curriculum. Computer and information security is an evolving discipline that involves the study of technology, strategy, policy, and standards regarding the security of and operations in cyberspace. The program introduces students to a variety of topics in computer and information security such as computer and network protection, penetration testing and prevention, security in mobile devices and Internet of Things (IoT), and more by using state-of-the-art security tools and technologies.

Computer and Information Security, Minor

Contact: Dr. Paulus Wahjudi, Chair
wahjudi@marshall.edu

Security is a critical factor in today's world that is highly dependent on computers. This minor allows students to augment any technology-related field of study with knowledge in cyber-physical security. The minor is focused on students majoring in Computer Science, Electrical and Computer Engineering, and other closely related fields, but is open to any student able to meet the necessary prerequisites.

Computer Science, Accelerated Master's degree

Contact: Dr. Paulus Wahjudi, Chair
wahjudi@marshall.edu

Undergraduates accepted to an Accelerated Master's Degree program can begin taking master's level classes while still in the undergraduate program. Up to 12 graduate credits can be used to fulfill requirements for both the undergraduate and the master's degrees, effectively reducing the cost of, and time to, degree. Graduates of this program will be prepared for direct entry into the job market or continuation of graduate study towards an M.D. or Ph.D or other professional program.

B.S. in Computer Science (BSCS) curriculum requires 120 credit hours for graduation and the M.S. in Computer Science (MSCS) degree requires 30 credit hours. Students enrolled in the AMD program can substitute up to a maximum of 12 credits of their BSCS courses to 12 graduate credits of MSCS program to receive both BSCS and MSCS degrees in 5 years by completing a total of 138 credits.

The BSCS curriculum requires 6 credits of computer science major electives and 8 credits of free electives (see BSCS Study Plan). During their senior year, AMD students will take four CS graduate courses (one in fall semester and three In spring semester) at the 500 or 600 level for graduate degree credit (see MSCS plan of study) in lieu of major or free electives.

Eligibility Requirements for Accelerated Master's Degree Program

- completed at least 80 hours toward the bachelor's degree;
- at least a 3.30 overall undergraduate GPA;
- at least a 3.30 GPA in the major.

Computer Science, B.S.

Contact: Dr. Paulus Wahjudi, Chair
wahjudi@marshall.edu

The Bachelor of Science in Computer Science program prepares students for careers in computer science through learning based on practice and grounded in theory. Students learn how to analyze, design, build, test, and deploy computer based systems by making technical trade offs between performance, scalability, availability, reliability, security, maintainability, cost and societal impact. Marshall's computing facilities are state-of-the-art and readily available to students.

Admission and Transfer Criteria

Minimum requirements for admission into the Computer Science major for first-time freshmen are

- an ACT composite score of 21 (composite SAT of 980) and
- an ACT mathematics score of 24 (Math SAT of 560).

Minimum requirements for admission into the Computer Science major for transfer students, whether from within Marshall University or from another institution, are:

- 15 earned semester credit hours of college-level coursework,
- an overall Grade Point Average of at least 2.0 in all college-level coursework,
- completion of ENG 101 Beginning Composition (or equivalent) with a grade of *C*, and

- completion of MTH 132 Precalculus with Sci Applica, or MTH 127 College Algebra-Expanded/MTH 130 College Algebra and MTH 132 Precalculus with Sci Applica (or equivalent) with a grade of *C*.

Since enrollment may be limited, prospective students are encouraged to apply for admission as soon as possible and are urged to contact an advisor.

For those desiring to major in computer science who do not meet the admission or transfer criteria listed above:

- Students may be admitted to "Pre-Computer Science" with a minimum ACT composite of 19 and an ACT mathematics score of 19-23 (composite SAT of 900; Math SAT of 460-550). Transfer students must be eligible for MTH 127 College Algebra-Expanded/MTH 130 College Algebra and MTH 132 Precalculus with Sci Applica.

Students in Pre-Computer Science must complete the criteria for transfer students to Computer Science. Registration for Computer Science courses will be limited until transfer criteria are met.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Electrical and Computer Engineering, B.S.E.E.

Contact: Dr. Paulus Wahjudi, Chair
wahjudi@marshall.edu

The Marshall University Bachelor of Science in Electrical and Computer Engineering (B.S.E.E.) program goals are as follows:

1. Practice the electrical and computer engineering discipline successfully within community accepted standards.
2. Demonstrate teamwork and communication skills for a successful career.
3. Fulfill professional and ethical responsibilities in the practice of electrical and computer engineering, including social, environmental and economic considerations.
4. Engage in professional service, such as participation in professional society and community service.
5. Engage in lifelong learning activities, such as graduate studies or professional workshops.
6. Develop a professional career in the prevailing market that meets personal goals, objectives and desires.

The student outcomes of the B.S.E.E. are:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Admission Requirements

- Meet Marshall University admission requirements
- Admission to the B.S.E.E. program requires a minimum composite ACT score of 21 with a math score of 24, or a minimum SAT composite of 980 with a math SAT of 560.
- Transfer students must have completed MTH 127 College Algebra-Expanded/MTH 130 College Algebra and MTH 132 Precalculus with Sci Applica.

Students not meeting the ACT/SAT score requirements above may enroll in Pre-Engineering. Requirements for Pre-Engineering are a minimum composite ACT score of 19 with a math score of 19-23, or a minimum SAT composite of 900 with a math SAT of 460-550. Students who are admitted to the Pre-Engineering program generally will require an additional calendar year to complete the requirements for the B.S.E.E. degree. Transfer students must be eligible to take MTH 127 College Algebra-Expanded/MTH 130 College Algebra and MTH 132 Precalculus with Sci Applica.

Graduation Requirements

The B.S.E.E. degree program requires a minimum of 132 credit hours of coursework. In addition to fulfilling the university's requirements

for graduation, B.S.E.E. students must maintain a minimum GPA of 2.0 in all professional courses. These professional courses include mathematics (MTH 229 Calculus/Analytic Geom I (CT) or above), required science courses, core engineering (ENGR) courses, electrical and computer engineering courses (EE), and courses used as technical electives. Entering students with a Math ACT of 24-26 are required to take MTH 132 Precalculus with Sci Applica. Such students will likely need an extra semester or summer term to satisfy B.S.E.E. requirements.

Co-operative Education

Students may elect to participate in the co-operative education program. Students in the program will have periodic full-time work experiences in their area of interest with participating companies. Information on the program can be obtained from the division chair or academic advisor.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

EE 440	Digital Control Systems	3
EE 410	Electrical Engineering Design [1]	3
or EE 412	Computer Engineering Design	
EE 420	Capstone Design [2]	3
Technical Electives		
Select at least 2 technical elective courses related to the area of emphasis. The courses must be approved by the student's advisor and the division chair.		6
Suggested Electives:		
EE 445	Radio Freq & Microwave Engr	
EE 447	Real-Time Digital Processing	
EE 448	Power Electronics	
ME 465	Mechatronics	
CS 412	Embedded Systems	
CS 430	Cyber Security	
CS 440	Digital Image Processing	

[1] To be eligible for EE 410 Electrical Engineering Design or EE 412 Computer Engineering Design students must have senior standing in BSEE and have completed the following courses: EE 370 Electric Machinery, EE 375 Communcation Systems I, and EE 380 Microprocessor Design.

[2] To be eligible to take the capstone design course, students must have completed EE 410 Electrical Engineering Design or EE 412 Computer Engineering Design.

Major Information

- Course offerings and course attributes are subject to change each semester. Please consult each semester's schedule of courses for availability and attributes.
- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- The B.S.E.E. degree program requires a minimum of 132 credit hours of coursework to graduate.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Electrical and Computer Engineers design and maintain electrical control systems and components. They are multi-skilled and are able to work in projects from the design phase, through development, implementation, testing, up to client follow-up. The impact of their work is seen all over the building industry, services, transportation, manufacturing, and production and distribution of power.

Course	Title	Credit Hours
First Year		
First Semester		
CHM 211	Principles of Chemistry I	3
MTH 229	Calculus/Analytic Geom I (CT)	5
ENGR 103	First-Year Engineering Seminar	1
ENGR 104	The Engineering Profession	1
ENG 101	Beginning Composition	3
FYS 100	First Yr Sem Critical Thinking	3
UNI 100	Freshman First Class	1
	Credit Hours	**17**
Second Semester		
CS 110	Computer Science I	3
MTH 230	Calculus/Analytic Geom II	4
PHY 211	University Physics I	4
CMM 103	Fund Speech-Communication	3
MTH 220	Discrete Structures	3
	Credit Hours	**17**
Second Year		
First Semester		
EE 210	Programming Lab	3
ENGR 201	Circuits I	4
MTH 231	Calculus/Analytic Geom III	4
PHY 213	University Physics II	4
PHY 204	General Physics 2 Laboratory	1
ENGR 217	Engineering Co-Op Preparation	1
	Credit Hours	**17**
Second Semester		
EE 202	Circuits II	3
ENGR 222	Engr Cost Analysis & Economy	3
EE 204	Intro to Digital Systems	3
EE 211	Intro to Computer Engineering	3
MTH 335	Ordinary Diff Equations	3
Core II Social Science (MC/I, WI)		3
	Credit Hours	**18**
Third Year		
First Semester		
ENGR 335	Adv Engineering Analysis	3
EE 310	Electromagnetic Fields	3
EE 340	Computer Architecture & Design	4
EE 350	Elect Properties of Materials	3
EE 320	Analysis of Signals & Systems	3
	Credit Hours	**16**
Second Semester		
ENG 201	Advanced Composition	3
EE 360	Control Systems	3
EE 330	Random Signals and Systems	3
EE 375	Communcation Systems I	3
EE 370	Electric Machinery	3
EE 380	Microprocessor Design	3
	Credit Hours	**18**
Fourth Year		
First Semester		
EE 401	Communication Systems II	3
EE 410 or EE 412	Electrical Engineering Design or Computer Engineering Design	3
EE 425	Electric Power Systems	3
EE 440	Digital Control Systems	3
Core II Humanities (WI, CT)		3
	Credit Hours	**15**
Second Semester		
EE 420	Capstone Design	3
EE 415	Intro VHDL Design & HW Systems	3
Technical Elective		3
Technical Elective		3
Core II Fine Arts		3
	Credit Hours	**15**
	Total Credit Hours	**133**

Pre-Computer Science

Contact: Dr. Paulus Wahjudi, Chair
wahjudi@marshall.edu

Students interested in pursuing a degree in computer science who have a minimum composite ACT score of 19 and Math ACT scores of 19-23 (SAT composite 900; Math 460-550), will be admitted into Pre-Computer Science until all of the following minimum requirements are met:

- 15 earned semester credit hours of college-level coursework;
- Overall college Grade Point Average of 2.0;
- Completion of ENG 101 Beginning Composition (or equivalent) with a grade of *C*;

- Completion of MTH 127 College Algebra-Expanded/MTH 130 College Algebra (or equivalent) grade of *C*;
- MTH 132 Precalculus with Sci Applica (or equivalent) grade of *C*

In order to transfer into the computer science program offered at Marshall, students must meet the Math ACT requirement or complete the requirements listed above for Pre-Computer Science majors. This pertains to transfer students within Marshall or from another institution.

Once all requirements listed above have been met, students will be transferred to the computer science major.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Two Year Plan

Each student should meet with his/her faculty advisor early in the program to develop an individual plan of study since requirements will vary based on math courses completed. The following is a suggested schedule for pre-computer science majors.

Math ACT 19-23 (SAT 460-550)

Course	Title	Credit Hours
First Semester		
ENG 101	Beginning Composition	3
FYS 100	First Yr Sem Critical Thinking	3
MTH 127 or MTH 130	College Algebra-Expanded (Placement is based on ACT/SAT match scores.) or College Algebra	3-5
Core II Course (depending on total semester credit hours)		3
CS 105	Expl World with Computing (CT)	3
UNI 100	Freshman First Class	1
	Credit Hours	**16-18**
Second Semester		
Humanities		3
MTH 132	Precalculus with Sci Applica	5
CS 110	Computer Science I	3
Core II Course		3
Core II Course		3
	Credit Hours	**17**
	Total Credit Hours	**33-35**

Weisberg Department of Mechanical and Industrial Engineering

Contacts: Dr. Asad Salem, Interim Chair (asad.salem@marshall.edu)
Website: http://www.marshall.edu/cecs (http://www.marshall.edu/cecs/)

Mechanical Engineering integrates in-depth knowledge of core areas in mechanical engineering such as mechanics, thermal science, materials and manufacturing, control systems, and product design and development with advanced study in computing and physical sciences. This integration is critical for multidisciplinary areas such as bio and manufacturing engineering, robotics, nanotechnologies, and energy systems. Tools ranging from computer simulation and systems modeling to advanced experimental techniques are developed and applied in order to provide a profound understanding of fundamental phenomena, processes, and system characteristics in these areas.

Programs

- Aerospace Engineering, Emphasis (p. 485)
- Engineering, B.S.E. (p. 486)
- General Engineering, Emphasis (p. 488)
- Industrial and Systems Emphasis (p. 488)
- Mechanical Engineering, Accelerated Master's Degree (p. 491)
- Mechanical Engineering, B.S.M.E. (p. 488)
- Occupational Safety and Health, B.S. (p. 491)
- Occupational Safety and Health, Minor

Courses

- General Education Course

Industrial and Systems Engineering

IE 303 Work Design **3 Credit hours**
Design of work systems and measurement of work. Students are also introduced to ergonomics considerations in the design of manual operations.
Grade Mode: Normal Grading Mode

IE 305 System Engineering **3 Credit hours**
This course introduces students to the fundamental principles of systems engineering and their application to the development of complex systems.
Grade Mode: Normal Grading Mode

IE 401 Modeling & Quan Analysis **3 Credit hours**
Simulation of complex deterministic/stochastic systems. Random number generation. Input and output analyses. Spreadsheet simulations Design of simulation experiments. Applications in manufacturing, supply-chain, networks, military, health care, service systems.
Pre-req: CS 110 with a minimum grade of D or ENGR 111 with a minimum grade of D or ME 111 with a minimum grade of D.
Grade Mode: Normal Grading Mode

IE 404 Quality Control **3 Credit hours**
A comprehensive coverage of modern quality control techniques to include the design of statistical process control systems, lean 6 sigma, and process improvement.
Pre-req: IE 303 with a minimum grade of D and STA 345 with a minimum grade of D.
Grade Mode: Normal Grading Mode

IE 480 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

IE 481 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

IE 482 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

IE 483 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

IE 485 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

IE 486 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

IE 487 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

IE 488 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

IE 615 Simulation 1 **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 618 Computational Methods 2 **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 620 Design of Experiments **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 625 Multivariate Analysis **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 627 Response Surface Methodology **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 630 Stochastic Processes **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 633 Forecasting Methods **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 635 Quality Control **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 636 Realiablty Estimation/Analysis **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 639 Operations Research I **3 Credit hours**
Examination of the methodology of operations research, including linear programming, transportation methods, network flows, economic analysis, decision analysis, queuing theory and simulation. Examination of the methodology of operations research, including linear programming, transportation methods, network flows, economic analysis, decision analysis, queuing theory and simulation.
Pre-req: IE 610 or IE 610G.
Grade Mode: Normal Grading Mode

IE 640 Operations Research II **3 Credit hours**
A continuation of IE 540 including an introduction to sensitivity and parametric analysis in linear programming, integer programming, nonlinear programming, dynamic programming, reliability theory, and inventory control. (PR: IE 630) A continuation of IE 540 including an introduction to sensitivity and parametric analysis in linear programming, integer programming, nonlinear programming, dynamic programming, reliability theory, and inventory control. (PR: IE 630)
Grade Mode: Normal Grading Mode

IE 641 Linear Programmingl **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 642 Nonlinear Programming **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 650 Network Methods **3 Credit hours**
Special topics in advanced Industrial Engineering that are not offered regularly. Special topics in advanced Industrial Engineering that are not offered regularly.
Grade Mode: Normal Grading Mode

IE 651 Special Topics **1-4 Credit hours**
Special topics in advanced Industrial Engineering that are not offered regularly. Special topics in advanced Industrial Engineering that are not offered regularly.
Grade Mode: Normal Grading Mode

IE 653 Special Topics **1-4 Credit hours**
Special topics in advanced Industrial Engineering that are not offered regularly. Special topics in advanced Industrial Engineering that are not offered regularly.
Grade Mode: Normal Grading Mode

IE 655 Simulation 2 **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 662 Project Scheduling **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 665 Forcasting Inventory Systems **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 670 Operations Management **3 Credit hours**
Examination of the quantitative and conceptual tools for generating goods and services in manufacturing and non-manufacturing organizations. Examination of the quantitative and conceptual tools for generating goods and services in manufacturing and non-manufacturing organizations.
Grade Mode: Normal Grading Mode

IE 674 Mgt Mthds In Nonindustrial Sys **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 675 Engineering Economics **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 676 Quality Assurance **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 689 Special Topics **3 Credit hours**
Grade Mode: Normal Grading Mode

IE 789 Fnl Project In Industrial Engr **1-3 Credit hours**
Grade Mode: Normal Grading Mode

IE 799 Masters Thesis Research **1-6 Credit hours**
Grade Mode: Normal Grading Mode

Mechanical Engineering

ME 111 Mech Engineering Computations **3 Credit hours**
Introduction to effective problem-solving techniques used in various engineering applications. Computational tools including C and MATLAB will e covered.
Pre-req: MTH 132 (may be taken concurrently) with a minimum grade of D or MTH 229 (may be taken concurrently) with a minimum grade of D or MTH 229H (may be taken concurrently) with a minimum grade of D.
Concurrent PR: MTH 132 or MTH 229 or MTH 229H
Grade Mode: Normal Grading Mode

ME 240 Manufacturing Processes **3 Credit hours**
An introduction to manufacturing systems and strategy. A study of manufacturing processes. Measurement and quality assurance machining, welding, and casting processes. Hot and cold forming and joining processes. 1 lec and 6 lab
Pre-req: ENGR 215 with a minimum grade of D and (ENGR 102 with a minimum grade of D or CE 102 with a minimum grade of D).
Grade Mode: Normal Grading Mode

ME 245 Circuits and Instrumentation **3 Credit hours**
This course provides basic concepts of DC and AC circuit analysis, an overview of the instrument characteristics and measurement principles, and description and evaluation of sensors commonly used with instrumentation.
Pre-req: MTH 230 with a minimum grade of D and PHY 213 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 213
Grade Mode: Normal Grading Mode

ME 305 Aircraft Systems **3 Credit hours**
This course covers flight dynamics; and modeling, stability, and control aspects of aircrafts.
Pre-req: ENGR 213 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 310 Thermodynamics II **3 Credit hours**
Gas, vapor, combined power cycles, co-generation, entropy, combustion, fuel cells, and equations of state.
Pre-req: ENGR 219.
Grade Mode: Normal Grading Mode

ME 312 Flight Mechanics **3 Credit hours**
This course covers flight dynamics; modeling, stability, and control aspects of aircrafts.
Pre-req: ME 305 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 320 Fluid Power **3 Credit hours**
This course covers physical principles of fluid power cylinders, control valves, fluid power components: compressors, pumps, valves, cylinders, and motors, fluid power circuits, troubleshooting: hydraulic, symptoms, procedures, pneumatics.
Pre-req: ENGR 214 and ENGR 216.
Grade Mode: Normal Grading Mode

ME 325 Experimental Design and Thermo **2 Credit hours**
Experimental analysis and design; probability and statistical, uncertainty, and error analysis; Experiments in fluid, heat and thermodynamics; principles and performance of measuring systems; Laboratory experience. 1 Hour for lecture and 3 hours for lab.
Pre-req: ME 360 with a minimum grade of D and ENGR 219 with a minimum grade of D and ME 350 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: ME 350
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ME 330 Manufacturing Methods/Design **3 Credit hours**
This course covers economical production by understanding the capabilities of different manufacturing processes, candidate manufacturing processes for a given part, performing manufacturabiliity evaluation at the design stage, automation, IMS.
Pre-req: ME 240 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 335 Mech Engineering Analysis **3 Credit hours**
Covers the mathematical methods available for analysis of engineering problems, and how to apply them effectively for analytically mechanical and thermal systems.
Pre-req: MTH 231 (may be taken concurrently) with a minimum grade of D and MTH 335 with a minimum grade of D.
Concurrent PR: MTH 231
Grade Mode: Normal Grading Mode

ME 340 Machine Element Design **3 Credit hours**
Mechanical design of machine elements, static and fatigue failures, shaft systems, bearings, gears, springs, screws and fasteners.
Pre-req: ENGR 216 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 350 Heat Transfer **3 Credit hours**
Analysis and solutions of conduction, free and forced convection, radiation heat transfer and design of heat exchangers.
Pre-req: ENGR 219 with a minimum grade of D and ME 360 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 360 Fluid Dynamics **4 Credit hours**
Fluid statics, fluid kinematics, Bernoulli equation, momentum analysis, dimensional analysis, internal flows, fluid machinery, power and efficiency, external flows, compressible flows, differential analysis and Navier-Stokes equation, computational fluid dynamics.
Pre-req: ENGR 214 with a minimum grade of D and MTH 231 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 410 Kinematics & Design of Machine **3 Credit hours**
The determination of the motion and forces of machines and mechanisms including rotating machinery, cams and gears. Analyze position, velocity, accelerations, static loads, and dynamic loads.
Pre-req: ENGR 214 with a minimum grade of D and ENGR 216 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 420 Control Systems **3 Credit hours**
This course provides basic concepts of control; open and closed-loop control systems; and PLC Programming.
Pre-req: ME 245 with a minimum grade of D and ENGR 335 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 422 Flight Stability and Control **3 Credit hours**
This course covers flight dynamics; and modeling, stability, and control aspects of aircrafts.
Pre-req: MTH 335 with a minimum grade of D and ME 312 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 425 Mechanical Engineering Lab-II **1 Credit hour**
Engineering measurements and experimentations. Hands-on labs and data analyses in several major topics of the Mechanics of Materials theory and Theory of Machines.
Pre-req: ME 340.
Grade Mode: Normal Grading Mode

ME 430 Design of Thermal Systems **3 Credit hours**
Design and analysis of thermal systems including components selection and integrations.
Pre-req: ME 350.
Grade Mode: Normal Grading Mode

ME 435 Design of Mechanical System **3 Credit hours**
Problem solving methodology in the design, analysis, and synthesis of mechanical systems. Engineering design process involving modeling, computer simulation, concepts of optimization, robustness, reliability, sustainability.
Pre-req: ME 410 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ME 440 Design & Analysis Energy Sys **3 Credit hours**
Design characteristics and operational performance of energy systems.
Pre-req: ME 310 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ME 445 Hydraulic & Pneumatic Control **3 Credit hours**
This course covers standard symbols, pumps, control valves, assemblies, actuators, filter regulator lubricator (FRL), maintenance procedures, switching, control devices, fluid power circuits including design, application, and troubleshooting.
Pre-req: ME 245 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 447 Engineering Analysis **4 Credit hours**
Experimental laboratory mainly from within the thermo-fluids area, concerned with fluid statics, flow, heat transfer, internal combustion engines, data acquistion, analysis, including use of computers. Principles of good experimental design.
Pre-req: MTH 335.
Grade Mode: Normal Grading Mode

ME 450 CNC and Rapid Prototyping **3 Credit hours**
This course covers CNC CAD/CAM, CNC tools, coordinate systems, CNC programming Language, CNC operation, CNC tool paths, CNC turning, G/M code reference, CNC milling work-holding, rapid prototyping, 3D printing.
Pre-req: ME 240 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 451 Jet Propulsion **3 Credit hours**
The theories and principles of jet propulsion. Thermodynamic cycles. The mechanics and thermodynamics of combustion. Turbine engine performance characteristics. Component and cycle analysis of jet engines and turbomachinery.
Pre-req: ME 310 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 452 Capstone Design I **1 Credit hour**
Prepares mechanical engineering students for ME 453 Capstone Design II, professional responsibility, development of effective communication skills, and learning strategies. Students begin to work on a capstone design project. (PR: ME 325, ME 350, ME 410)
Pre-req: ME 325 (may be taken concurrently) with a minimum grade of D and ME 350 (may be taken concurrently) with a minimum grade of D and ME 410 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: ME 325 and ME 350 and ME 410
Grade Mode: Normal Grading Mode

ME 453 Capstone Design II **3 Credit hours**
Students utilize the engineering design process to complete a comprehensive project that addresses a real-world problem with realistic constraints in a collaborative environment.
Pre-req: ME 452 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

ME 455 Metallurgy **3 Credit hours**
Covers material properties and behavior of pure metals and common metal alloys. Discuss various aspects of extractive, mechanical, physical metallurgy, theory and practice of identification, selection, processing, conditioning, and testing.
Pre-req: ENGR 215 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 456 Materials for Aerospace **3 Credit hours**
Covers the main structural materials used in aircraft in terms of their production, properties, performance, and applications.
Pre-req: ENGR 215 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 460 Vibrations **3 Credit hours**
Modeling of vibratory motion of single and multiple degree of freedom systems; free and forced response; modal summation method for response predictions; simulation of the vibration by using Matlab.
Pre-req: ENGR 214 and MTH 335.
Grade Mode: Normal Grading Mode

ME 465 Mechatronics **3 Credit hours**
Dynamic analysis of mechatronic systems, sensors, transducers, and electric circuits and control.
Pre-req: ME 245 with a minimum grade of D and MTH 335 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 471 Finite Elements Method **3 Credit hours**
This course covers flight dynamics; and modeling, stability, and control aspects of aircrafts.
Pre-req: ENGR 216 with a minimum grade of D and ENGR 335 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 473 Computational Fluid Dynamics **3 Credit hours**
Conservation laws of fluid motion and heat transfer; Fundamental knowledge to use numerical techniques to solve fluid-thermal problems.
Pre-req: ENGR 335 with a minimum grade of D and ME 360 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 475 Introduction to Robotics **3 Credit hours**
Introduction to effective problem-solving techniques used in various engineering applications. Computational tools including C and MATLAB will be covered.
Pre-req: ME 410 with a minimum grade of D and (ME 420 with a minimum grade of D or ME 360 with a minimum grade of D).
Grade Mode: Normal Grading Mode

ME 480 Special Topics **1-4 Credit hours**
Subject matter to be selectred from topics of current interest.
Grade Mode: Normal Grading Mode

ME 481 Special Topics **1-4 Credit hours**
Subject matter to be selected from topics of current interest.
Grade Mode: Normal Grading Mode

ME 482 Special Topics **1-4 Credit hours**
Subject matter to be selected from topics of current interest.
Grade Mode: Normal Grading Mode

ME 483 Special Topics **1-4 Credit hours**
Subject matter to be selected from topics of current interest.
Grade Mode: Normal Grading Mode

ME 485 Independent Study **1-4 Credit hours**
Individual study of advanced mechanical engineering areas.
Grade Mode: Normal Grading Mode

ME 486 Independent Study **1-4 Credit hours**
Individual study of advanced mechanical engineering areas.
Grade Mode: Normal Grading Mode

ME 487 Independent Study **1-4 Credit hours**
Individual study of advanced mechanical engineering areas.
Grade Mode: Normal Grading Mode

ME 488 Independent Study **1-4 Credit hours**
Individual study of advanced mechanical engineering areas.
Grade Mode: Normal Grading Mode

Occupational Safety and Health

SFT 235 Intro to Occup Safety (CT) **3 Credit hours**
Introduction to occupational safety and health on an international level. Comparisons of various accidents by type and country will be explored along with prevention techniques.
Attributes: Critical Thinking, International, No Textbook Required
Grade Mode: Normal Grading Mode

SFT 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 340 Indust Fire Prevent **3 Credit hours**
Pre-req: SFT 235 (may be taken concurrently) with a minimum grade of C and (PHY 201 (may be taken concurrently) with a minimum grade of D or PHY 211 (may be taken concurrently) with a minimum grade of D) and PHY 202 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: SFT 235 and (PHY 201 or PHY 211) and PHY 202
Grade Mode: Normal Grading Mode

SFT 350 Safety Technology Co-Op **0 Credit hours**
A supervised experience in which the student works for a company to gain practical experience in a students major.
Pre-req: ENGR 217 with a minimum grade of D.
Grade Mode: Credit/No Credit Grade Only

SFT 372 Safety & Industrial Tech **3 Credit hours**
Pre-req: SFT 235 with a minimum grade of D.
Grade Mode: Normal Grading Mode

SFT 373 Prin Ergonomics & Hum Factors **3 Credit hours**
Introductory principles within human-machine relationships; examining the biological, physiological, and psychological factors which contribute to accident causation.
Pre-req: SFT 373L (may be taken concurrently) with a minimum grade of D and (PHY 203 (may be taken concurrently) with a minimum grade of D or PHY 212 (may be taken concurrently) with a minimum grade of D) and PHY 204 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: SFT 373L and (PHY 203 or PHY 212) and PHY 204
Co-req: SFT 373L
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

SFT 373L Prin of Ergonomics Lab **1 Credit hour**
A laboratory course designed to include the principles and applications of human factors/ergonomics that were introduced in SFT 373.
Pre-req: SFT 373 (may be taken concurrently) with a minimum grade of D and (PHY 203 (may be taken concurrently) with a minimum grade of D or PHY 212 (may be taken concurrently) with a minimum grade of D) and PHY 204 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: SFT 373 and (PHY 203 or PHY 212) and PHY 204
Co-req: SFT 373
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

SFT 375 Construction Safety I **3 Credit hours**
Pre-req: SFT 235 (may be taken concurrently).
Concurrent PR: SFT 235
Grade Mode: Normal Grading Mode

SFT 378 Safety Eval & Measurement **3 Credit hours**
Pre-req: SFT 235 or SED 235.
Grade Mode: Normal Grading Mode

SFT 385 Traffic Safety & Driver Educa **3 Credit hours**
An introductory course in the teaching of safety and driver education, including techniques of classroom and behind-the- wheel instruction. 2 lec-2 lab.
Grade Mode: Normal Grading Mode

SFT 400 Traffic Law Enforcement **3 Credit hours**
A course designed to study and evaluate the varied and complex system of laws governing the control of all forms of traffic and the influences and responsibilities of traffic law enforcement in presentday society.
Grade Mode: Normal Grading Mode

SFT 453 International Safety & Health **3 Credit hours**
The course covers the impact of globalization on worldwide safety and health programs, and a wide variety of safety and health programs for various countries and multinational organizations.
Attributes: International
Grade Mode: Normal Grading Mode

SFT 454 Industrial Hygiene **3 Credit hours**
Environmental protection as related to industrial settings. Air/water quality, noise and chemical pollution and hazardous material control.
Pre-req: CHM 212 with a minimum grade of C and CHM 218 with a minimum grade of C and (PHY 203 with a minimum grade of C or PHY 212 with a minimum grade of C) and PHY 204 with a minimum grade of C and SFT 465 (may be taken concurrently) with a minimum grade of C and SFT 454L (may be taken concurrently) with a minimum grade of D.
Concurrent PR: SFT 465 and SFT 454L
Grade Mode: Normal Grading Mode

SFT 454L Industrial Hygiene Lab **2 Credit hours**
Quantitative monitoring techniques for measuring air and water quality, the measurement of noise and chemical pollutions and the evaluation of other physical hazards.
Pre-req: SFT 465 (may be taken concurrently) with a minimum grade of C and SFT 454 (may be taken concurrently) with a minimum grade of D and CHM 212 (may be taken concurrently) with a minimum grade of C and CHM 218 (may be taken concurrently) with a minimum grade of C and (PHY 203 (may be taken concurrently) with a minimum grade of C or PHY 212 (may be taken concurrently) with a minimum grade of C) and PHY 204 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: SFT 465 and SFT 454 and CHM 212 and CHM 218 and (PHY 203 or PHY 212) and PHY 204
Grade Mode: Normal Grading Mode

SFT 458 Hospital Safety **3 Credit hours**
The course covers the various aspects of safety and health in professional health care services.
Grade Mode: Normal Grading Mode

SFT 460 Safety Training Methods **3 Credit hours**
A course designed to help students develop, present and evaluate training materials as mandated by OSHA or other governmental agencies. Hands on practice & live training will be required.
Pre-req: SFT 372 or SFT 375.
Grade Mode: Normal Grading Mode

SFT 461 Workers Compensation **3 Credit hours**
Introductory principles of workers' compensation and how it relates to the safety professional.
Grade Mode: Normal Grading Mode

SFT 465 Incident Investigation and PSM **3 Credit hours**
An introductory course in traffic accident investigation designed to give insight into the recognition and collection of evidence, collecting and recording data and reconstruct- ing the accident based on the facts.
Pre-req: SFT 372 with a minimum grade of D and SFT 375 with a minimum grade of D and SFT 373 with a minimum grade of D.
Grade Mode: Normal Grading Mode

SFT 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 490 Safety Internship **3-12 Credit hours**
Pre-req: (CHM 212 with a minimum grade of C and CHM 218 with a minimum grade of C) and (PHY 203 with a minimum grade of C and PHY 204 with a minimum grade of C).
Attributes: Capstone Course, No Textbook Required
Grade Mode: Credit/No Credit Grade Only

SFT 491 Workshop **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 493 Workshop **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 494 Workshop **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 497 Occup Safety & Health Prog **3 Credit hours**
Safety functions in industry. Principles of organization and application of safety programs. Prevention, correction and control methods are outlined and evaluated.
Pre-req: SFT 235 with a minimum grade of C.
Grade Mode: Normal Grading Mode

SFT 498 Envir Safety & Health Legis **3 Credit hours**
A survey of the legislation that has affected the safety movement with special emphasis on the 1970 Occupational Safety and Health Act.
Pre-req: SFT 372 (may be taken concurrently) with a minimum grade of C and CHM 212 (may be taken concurrently) with a minimum grade of D and CHM 218 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: SFT 372 and CHM 212 and CHM 218
Grade Mode: Normal Grading Mode

SFT 499 Dev & Mgt of Occup Safety Prog **3 Credit hours**
A study of safety program development, functions, organization and management.
Pre-req: SFT 372 with a minimum grade of D and CHM 212 with a minimum grade of D and CHM 218 with a minimum grade of D and (PHY 203 with a minimum grade of D or PHY 212 with a minimum grade of D) and PHY 204 with a minimum grade of D.
Grade Mode: Normal Grading Mode

SFT 536 Safety Ed for Elem Teachers **1 Credit hour**
Grade Mode: Normal Grading Mode

SFT 540 Indust Fire Protection **3 Credit hours**
An introductory course that explores the relationship between engineering and fire prevention. Topics include: water supplies, sprinkler systems, behavior of fire and materials, fire protection, fire extinguishers, and other systems.
Grade Mode: Normal Grading Mode

SFT 553 International Safety & Health **3 Credit hours**
The course covers the impact of globalization on worldwide safety and health programs, and a wide variety of safety and health programs for various countries and multi-national organizations.
Grade Mode: Normal Grading Mode

SFT 554 Indust Hygiene I **3 Credit hours**
Environmental protection as related to industrial settings. Air/water quality, noise and chemical pollution and hazardous material control.
Grade Mode: Normal Grading Mode

SFT 555 Environmental Prog/Sampling **3 Credit hours**
Grade Mode: Normal Grading Mode

SFT 558 Hospital Safety **3 Credit hours**
The course covers the various aspects of safety and health in professional health care services.
Grade Mode: Normal Grading Mode

SFT 561 Workers Comp **3 Credit hours**
Introductory principles of workers' compensation and how it relates to the safety professional.
Grade Mode: Normal Grading Mode

SFT 565 Incident Investigation Tech **3 Credit hours**
An introductory course in accident investigation designed to give insight into the recognition and collection of evidence, collection and recording data and reconstructing the accident based on the facts.
Grade Mode: Normal Grading Mode

SFT 575 System Safety Engineering **3 Credit hours**
Grade Mode: Normal Grading Mode

SFT 580 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 581 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 582 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 583 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 585 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 586 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 587 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 589 Process Safety Mgmt **3 Credit hours**
A study of the latest industrial safety information which will assist the student in designing a program to reduce or eliminate all incidents which downgrade the system.
Grade Mode: Normal Grading Mode

SFT 591 Workshop **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 592 Workshop **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 593 Workshop **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 594 Workshop **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 597 Occup Sft & Health Prog Dev **3 Credit hours**
Safety functions in industry. Principles of organization and application of safety programs. Prevention, correction, and control methods are outlined and evaluated.
Grade Mode: Normal Grading Mode

SFT 599 Dev & Mgt of Occup Safety Prog **3 Credit hours**
A study of safety programs at the state and local levels including the administrative, instructional, and protective aspects of a comprehensive safety program in schools, occupations, home and public.
Grade Mode: Normal Grading Mode

SFT 601 Safety in Transportation **3 Credit hours**
Concerned with safe, efficient movement of people and goods. Involves highway, air, water, pipeline, and rails.
Grade Mode: Normal Grading Mode

SFT 606 Field Esp Safety Specialist **3 Credit hours**
Grade Mode: Normal Grading Mode

SFT 610 Intro to Prof Safety & Health **3 Credit hours**
An analysis of the educational philosophies and the application of these philosophies to occupational safety. A study of the effect of occupational safety on modern living.
Grade Mode: Normal Grading Mode

SFT 630 Current Lit & Res in Safety **3 Credit hours**
An analysis and study of selected works of national and international authors concerning significant works in Occupational Safety.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

SFT 645 Saf Engineering Equip Design **3 Credit hours**
The design and engineering of facilities and equipment to meet the physical needs of the human as well as enhancing production.
Grade Mode: Normal Grading Mode

SFT 647 Industrial Hygiene II **3 Credit hours**
Concerned with environmental health and safety hazards that arise out of or occur during work of employees.
Grade Mode: Normal Grading Mode

SFT 647L Quan Indus Hygiene Lab **3 Credit hours**
A laboratory course designed to complement Industrial Hygiene.
Grade Mode: Normal Grading Mode

SFT 648 Industrial Ventilation **3 Credit hours**
This course will cover the techniques of development, design maintenance, and troubleshooting of industrial ventilation systems. Also the types of ventilation systems used for different types of toxic materials. This course will cover the techniques of development, design maintenance, and troubleshooting of industrial ventilation systems. Also the types of ventilation systems used for different types of toxic materials.
Pre-req: SFT 647 or SED 647.
Grade Mode: Normal Grading Mode

SFT 649 Biophysical Hazards & Monitor **3 Credit hours**
Grade Mode: Normal Grading Mode

SFT 650 Internship Safety Specialist **3-12 Credit hours**
Attributes: No Textbook Required
Grade Mode: Credit/No Credit Grade Only

SFT 651 Toxicology & Epidemiology **3 Credit hours**
Grade Mode: Normal Grading Mode

SFT 652 Industrial Noise & Vibration **3 Credit hours**
Pre-req: (SFT 554 or SED 554) or (SFT 647 or SED 647).
Grade Mode: Normal Grading Mode

SFT 660 Appl Ergon and Hum Factors Eng **3 Credit hours**
A study of how humans interact with the work environment, focusing on human capabilities and limitations, repetitive motion disorders, the human/machine interface and workspace design.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

SFT 661 Adv Occup Ergonomics **3 Credit hours**
Pre-req: SFT 660 or SED 660.
Grade Mode: Normal Grading Mode

SFT 662 Methods in Work Analysis **3 Credit hours**
Grade Mode: Normal Grading Mode

SFT 663 Work Environment Issues **3 Credit hours**
An examination of the aspects of the work environment that can affect health: time pressure, machine pacing, control etc. The recognition, measurement and control of these factors will be discussed. An examination of the aspects of the work environment that can affect health: time pressure, machine pacing, control etc. The recognition, measurement and control of these factors will be discussed.
Grade Mode: Normal Grading Mode

SFT 669 Traffic Safety Management **3 Credit hours**
Grade Mode: Normal Grading Mode

SFT 679 Problem Report **1-3 Credit hours**
Grade Mode: Normal Grading Mode

SFT 681 Thesis **1-6 Credit hours**
Attributes: No Textbook Required, Thesis
Grade Mode: Normal Grading Mode

SFT 690 Seminar **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 691 Seminar **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 692 Seminar **1-4 Credit hours**
Grade Mode: Normal Grading Mode

Aerospace Engineering, Emphasis

Mechanical engineering is the application of the principles of engineering and problem-solving techniques from design to manufacturing to the market for any product including aircrafts. Mechanical engineers analyze their work using the principles of motion, force, and energy ensuring that designs function safely, reliably, and efficiently, all at a competitive price. The aeromechanical field is a shared discipline between mechanical engineering and aerospace engineering. It prepares students to deal with the interactions between the flow of air and the mechanical behavior of structures and materials in the flow. Subjects in this discipline include aircraft design, composite materials, finite element stress analysis, dynamics and control of machinery, aerodynamics, and compressible fluid flow.

The U.S. aerospace industry is a major source of technological innovation with substantial spillovers to other industrial and commercial sectors. High wage employment, spreads the benefits of rising productivity throughout the U.S. economy. Employment of engineers with of aerospace competencies is projected to grow 8 percent from 2020 to 2030, about as strong as the average for all occupations.

The aerospace industry is a vibrant and emerging industrial sector in the state of West Virginia. From promising advanced innovators to established giants of the industry, the state's growing cluster of aerospace companies is fueled by a range of advantages. The Mountain State is within easy driving distance of about 40% of the top national buying sectors of aircraft products and defense contractors, corporations, and federal agencies. Additionally, the state is near original equipment manufacturers based in the South, including Airbus, Boeing, Lockheed Martin, and others. In 2019, the aerospace industry supported 4,000 jobs and created a $1.3 billion total economic output in West Virginia. A hidden gem, the state's aerospace industry is built around access to raw materials, development assistance, education, and location.

Cooperative Education

Students may elect to participate in the cooperative education program. Students in the program will have periodic full-time work experiences in their area of interest with participating companies. Information on the program can be obtained from the chair or academic advisor.

Code	Title	Credit Hours
Core Curriculum [1]		
Core I: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
or FYS 100H	First Year Seminar-Honors	
Two Critical Thinking Courses		6
Core II		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition (Completion of ENG 201H - English Composition Honors (3 CH) with a C or better also satisfies the university composition requirement)	3
CMM 103	Fund Speech-Communication	3
or CMM 207	Bus & Prof Communication	
Math: (requirement met in major)		
Physical or Natural Science: (requirement met in major)		
Core II Social Science		
Core II Humanities		
Core II Fine Arts		
Additional University Requirements		
Two Writing Intensive courses		6
One Multicultural (m) or International (I) course		3
Mathematics		**16**
MTH 229	Calculus/Analytic Geom I (CT)	
MTH 230	Calculus/Analytic Geom II	
MTH 231	Calculus/Analytic Geom III	
MTH 335	Ordinary Diff Equations	
Science		**12**
CHM 211	Principles of Chemistry I	
PHY 211	University Physics I	
PHY 202	General Physics I Laboratory	
PHY 213	University Physics II	
Engineering		**26**
ENGR 102	Introduction to CAD	
ENGR 103	First-Year Engineering Seminar	
ENGR 104	The Engineering Profession	
ENGR 213	Statics	
ENGR 214	Dynamics	
ENGR 215	Engineering Materials	
ENGR 216	Mech of Deformable Bodies	
ENGR 217	Engineering Co-Op Preparation	
ENGR 219	Engineering Thermodynamics	
ENGR 222	Engr Cost Analysis & Economy	
ENGR 335	Adv Engineering Analysis	
Core Mechanical Engineering		**34**
ME 111	Mech Engineering Computations	
ME 240	Manufacturing Processes	
ME 305	Aircraft Systems	
ME 245	Circuits and Instrumentation	
ME 310	Thermodynamics II	
ME 325	Experimental Design and Thermo	
ME 340	Machine Element Design	
ME 350	Heat Transfer	
ME 360	Fluid Dynamics	
ME 312	Flight Mechanics	
ME 422	Flight Stability and Control	
ME 425	Mechanical Engineering Lab-II	
ME 456	Materials for Aerospace	
Capstone Design, Design Elective, and Technical Electives		**16**
ME 452	Capstone Design I [2]	
ME 453	Capstone Design II [3]	
Design Elective		**3**
ME 430	Design of Thermal Systems	
or ME 435	Design of Mechanical System	

Technical Electives		9
Students who select aerospace engineering as an area of emphasis must take three of the following courses:		
ME 320	Fluid Power	
ME 445	Hydraulic & Pneumatic Control	
ME 451	Jet Propulsion	
ME 460	Vibrations	
ME 471	Finite Elements Method	
ME 473	Computational Fluid Dynamics	
Other courses may be taken to satisfy this requirement with the approval of the student's advisor and the chair.		

[1] *Transfer Students:* Freshman transfer students must complete Core I at Marshall. Core II can be completed with Marshall or transfer courses. Transfers with 26 or more credit hours must complete one CT course but are exempt from the remaining Core I requirements. Core II can be completed with Marshall or transfer courses.

[2] To be eligible to take Senior Capstone I (ME 452), students must have senior standing in mechanical engineering. Senior standing is defined for the B.S.M.E. as having completed the following courses:

- ME 325 - Experimental Design and Thermo-Fluid Lab (2 CH)
- ME 350 - Heat Transfer (3 CH)
- ME 410 - Kinematics & Design of Machines (3 CH) or ME 422-Flight Stability and Control (3 CH)

[3] To be eligible to take the ME 453 Senior Capstone II student must have completed ME 452, and at least one of the Design Electives (ME 430 or ME 435).

Engineering, B.S.E.

Contact: Dr. Gregory Michaelson, P.E., Associate Dean (michaelson@marshall.edu)

The Program Educational Objectives of the Bachelor of Science in Engineering (B.S.E.) program are that within a few years of graduation program graduates will:

1. Obtain employment, or an advanced educational opportunity, that utilizes their critical thinking and technical skills.
2. Continue the development of their communication, collaboration, and technical skills, including an understanding of the expectations, standards, and responsibilities associated with their profession.
3. Practice their profession for the benefit of society with attention to ethical, societal, environmental, safety, health, and constructability considerations.

The student outcomes of the B.S.E. are:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Admission Requirements

- Meet Marshall University admission requirements
- Admission to the B.S.E. Engineering program requires a minimum composite ACT score of 21 with a math score of 24, or a minimum SAT composite of 980 with a math SAT of 560.
- Transfer students must have completed MTH 127 College Algebra-Expanded/MTH 130 College Algebra and MTH 132 Precalculus with Sci Applica.

For those needing to complete some requirements first, there is Pre-Engineering. Requirements for Pre-Engineering are a minimum composite ACT score of 19 with a math score of 19-23, or a minimum SAT composite of 900 with a math SAT of 460-550. Students who are admitted to the Pre-Engineering program generally will require an additional calendar year to complete the requirements for the B.S.E. degree. Transfer students must be eligible to take MTH 127 College Algebra-Expanded/MTH 130 College Algebra and MTH 132 Precalculus with Sci Applica.

Graduation Requirements

The B.S.E. degree program requires a minimum of 124 credit hours of coursework as outlined below. In addition to fulfilling the university's requirements for graduation, B.S.E. students must maintain a minimum GPA of 2.0 in all professional courses. These professional courses include mathematics (MTH 229 Calculus/Analytic Geom I (CT) or above), required science courses, core engineering (ENGR) courses, engineering emphasis courses (CE), and courses used as technical electives. Entering students with a math ACT of 24-26 are required to take MTH 132 Precalculus with Sci Applica. Such students will likely need an extra semester or summer term to satisfy BSE requirements.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core 1: Critical Thinking

Mechanical Engineering, B.S.M.E.

Dr. Asad Salem, Department Chair
asad.salem@marshall.edu

The Marshall University Bachelor of Science in Mechanical Engineering (B.S.M.E.) program goals are as follows:

1. Practice the mechanical engineering discipline successfully within community accepted standards.
2. Achieve personal and professional success with awareness and commitment to ethical and social responsibilities, both as individuals and in team environments.
3. Engage in professional service, such as participation in professional society and community service.
4. Engage in lifelong learning activities, such as graduate studies or professional workshops.
5. Develop a professional career in the prevailing market that meets personal goals, objectives and desires.

The student outcomes of the B.S.M.E. are:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.

7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Admission Requirements

- Meet Marshall University admission requirements.
- Admission to the B.S.M.E. program requires a minimum composite ACT score of 21 with a math score of 24, or a minimum SAT composite of 980 with a math SAT of 560.
- Transfer students must have completed MTH 127 College Algebra-Expanded/MTH 130 College Algebra and MTH 132 Precalculus with Sci Applica.

Students not meeting the ACT/SAT score requirements above may enroll in Pre-Engineering. Requirements for Pre-Engineering are a minimum composite ACT score of 19 with a math score of 19-23, or a minimum SAT composite of 900 with a math SAT of 460-550. Students who are admitted to the Pre-Engineering program generally will require an additional calendar year to complete the requirements for the B.S.M.E. degree. Transfer students must be eligible to take MTH 127 College Algebra-Expanded/MTH 130 College Algebra and MTH 132 Precalculus with Sci Applica.

Graduation Requirements

The B.S.M.E. degree program requires a minimum of 125 credit hours of coursework. In addition to fulfilling the university's requirements for graduation, B.S.M.E. students must maintain a minimum GPA of 2.0 in all professional courses. These professional courses include mathematics (MTH 229 Calculus/Analytic Geom I (CT) or above), required science courses, core engineering (ENGR) courses, mechanical engineering courses (ME), and courses used as technical electives. Entering students with a Math ACT of 24-26 are required to take MTH 132 Precalculus with Sci Applica. Such students will likely need an extra semester or summer term to satisfy B.S.M.E. requirements.

Co-operative Education

Students may elect to participate in the co-operative education program. Students in the program will have periodic full-time work experiences in their area of interest with participating companies. Information on the program can be obtained from the department chair or academic advisor.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
or FYS 100H	First Year Seminar-Honors	
Two Critical Thinking Course		6
Core 2		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
CMM 103	Fund Speech-Communication	3
or CMM 207	Bus & Prof Communication	
Math: requirement met in major		
Physical or Natural Science (requirement met in major)		
Core II Social Science		3
Core II Humanities		3
Core II Fine Arts		3
Additional University Requirements		
Two Writing Intensive (W) courses		6
One Multicultural (M) or International (I)		3
Major-Specific		
MTH 229	Calculus/Analytic Geom I (CT)	5
MTH 230	Calculus/Analytic Geom II	4
MTH 231	Calculus/Analytic Geom III	4
MTH 335	Ordinary Diff Equations	3
CHM 211	Principles of Chemistry I	3
PHY 211	University Physics I	4
PHY 202	General Physics I Laboratory	1
PHY 213	University Physics II	4
ENGR 102	Introduction to CAD	2
ENGR 103	First-Year Engineering Seminar	1
ENGR 104	The Engineering Profession	1
ENGR 213	Statics	3
ENGR 214	Dynamics	3
ENGR 215	Engineering Materials	3
ENGR 216	Mech of Deformable Bodies	3
ENGR 217	Engineering Co-Op Preparation	1
ENGR 219	Engineering Thermodynamics	3
ENGR 222	Engr Cost Analysis & Economy	3
ENGR 335	Adv Engineering Analysis	3
ME 111	Mech Engineering Computations	3
ME 240	Manufacturing Processes	3
ME 245	Circuits and Instrumentation	3
ME 310	Thermodynamics II	3
ME 325	Experimental Design and Thermo	2
ME 340	Machine Element Design	3
ME 350	Heat Transfer	3
ME 360	Fluid Dynamics	4
ME 410	Kinematics & Design of Machine	3
ME 420	Control Systems	3
ME 425	Mechanical Engineering Lab-II	1
ME 455	Metallurgy	3

Students who select aerospace engineering as an area of emphasis must take the following courses:

ME 305	Aircraft Systems (in place of ME 240-Manufacturing Processes)	
ME 312	Flight Mechanics (in place of ME 410, Kinematics & Machine Design)	

ME 422	Flight Stability and Control (in place of ME 420, Contol Systems)	
ME 456	Materials for Aerospace (in place of ME 455, Metallurgy)	
Capstone Design, Design Elective, and Technical Electives		
ME 452	Capstone Design I [1]	1
ME 453	Capstone Design II [2]	3
Design Elective		*3*
At least one design elective must be taken from the following courses:		
ME 430	Design of Thermal Systems	
ME 435	Design of Mechanical System	
Technical Electives		*9*
At least three technical electives must be taken from the following approved list of courses:		
Any 300-level or higher ME course not taken to satisfy other B.S.M.E. degree requirements		
Any 300-level or higher CE, EE, or BME course not taken to satisfy other B.S.M.E. requirements		
Any 300-level or higher ENGR course not taken to satisfy other B.S.M.E. degree requirements		
Other courses with the approval of the student's advisor and the department chair		

[1] To be eligible to take ME 452 Capstone Design I, students must have senior standing in mechanical engineering. Senior standing is defined for the B.S.M.E. as having completed or concurrently taking these three courses: ME 325 Experimental Design and Thermo, ME 350 Heat Transfer, and ME 410 Kinematics & Design of Machine.

[2] To be eligible to take ME 453 Capstone Design II, students must have completed ME 452 Capstone Design I and at least one of the design electives (ME 430 Design of Thermal Systems or ME 435 Design of Mechanical System).

Major Information

- Course offerings and course attributes are subject to change each semester. Please consult each semester's schedule of courses for availability and attributes.
- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Mechanical Engineers apply fundamental math and physics laws to design, fabricate and innovate mechanical devices. They are multi-skilled and have working knowledge of computers, electricity, structures and mechanisms, materials, and manufacturing processes. The Bachelor of Science in Mechanical Engineering (B.M.S.E.) at Marshall University is designed to emphasize service, systems-based knowledge, and sustainability combining a traditional engineering approach with new and emerging fields.

Mechanical Engineering, Accelerated Master's Degree

Dr. Asad Salem, Department Chair
asad.salem@marshall.edu

Students enrolled in the Mechanical Engineering Accelerated Graduate Degree program can complete the bachelor's degree by lowering the number of undergraduate credits (up to 12) with up to 12 graduate credits that will apply to the master's degree in mechanical engineering. Please see the section on Accelerated Graduate Degrees in this catalog for further information.

- *Thesis Option:* Three graduate ME, CE, ENGR or EE Courses (500 or 600 Level) can be taken to meet the Technical Electives requirement. In addition, ME 420 (https://catalog.marshall.edu/search/?P=ME%20420) Control Systems can be substituted by ME 560 (https://catalog.marshall.edu/search/?P=ME%20560) Automation and Control, and ME 455 Metallurgy can be substituted by a ME graduate course.
- *Coursework Option:* Three graduate ME, CE, ENGR or EE (500 or 600 Level) can be taken to meet the Technical Electives requirement. In addition, ME 420 (https://catalog.marshall.edu/search/?P=ME%20420) Control Systems can be substituted by ME 560 (https://catalog.marshall.edu/search/?P=ME%20560) Automation and Control, and ME 455 Metallurgy can be substituted by a ME graduate course.

Applicants for the Accelerated Graduate Degree program in Mechanical Engineering must be undergraduate Mechanical Engineering students and have completed a minimum of 80 credit hours, including:

Code	Title	Credit Hours
ENGR 335	Adv Engineering Analysis	3
ME 310	Thermodynamics II	3
ME 340	Machine Element Design	3
ME 360	Fluid Dynamics	4

The applicant must have a minimum overall Grade Point Average of 3.30, with 3.30 in the major and no less than a *B* grade in the following courses: ENGR 335. ME 310, ME 340 and ME 360.

Occupational Safety and Health, B.S.

James D. McIntosh, CIH, CSP, Chair
mcintoshj@marshall.edu

The safety profession is an occupational field concerned with the preservation of both human and property resources through the application of various principles drawn from disciplines such as engineering, education, psychology, physiology, hygiene, health, physics and management. "Occupational Safety and Health" is a term for everything that goes into the prevention of accidents, illnesses, fires, explosions and other events which damage people, property and the environment.

The Bachelor of Science degree in Occupational Safety and Health offers students the option of preparing for entry-level positions in industry, governmental agencies and related service industries. The need for safety professionals has expanded due to Federal and State legislation governing safety and health in the workplace and an increase in public awareness of safety and health factors.

The program is accredited by the Applied Science Accreditation Commission/Accreditation Board for Engineering and Technology (ASAC/ABET) and by the Board of Certified Safety Professionals (BCSP) for the preparation of safety professionals. The BCSP accreditation allows our graduating seniors to be awarded the designation of GSP (Graduate Safety Practitioner). This certification provides a significant advantage to our students entering the job market. Students can apply online for the GSP at https://www.bcsp.org/. The GSP designation will take the place of the ASP designation as the student graduates and continues work toward becoming a Certified Safety Professional (CSP).

The Program Educational Objectives of Marshall University's BS in Occupational Safety and Health have been developed to prepare graduates to achieve the professional accomplishments and recognition appropriate for successful careers in occupational safety and health including:

1. Graduates will be able to apply a broad educational background in mathematics, science, technology, communications, and management to the challenges and demands of occupational safety and health in industrial, commercial, governmental, and service organizations of today's global economy.
2. Graduates will be able to apply critical thinking skills to the anticipation, identification, evaluation, prevention and control of occupational and environmental hazards relative to accident prevention, construction safety, environmental protection, emergency preparedness, ergonomics and human factors, fire prevention, hazardous materials safety, industrial hygiene, process safety, and occupational health.
3. Graduates will be able to apply communication, problem solving, and team building skills to facilitate the continuous improvement of occupational safety, environmental health, and risk control management systems.

4. Graduates will develop ethical, societal, and professional responsibility, recognize the limits of their knowledge, and pursue life-long learning opportunities to enhance their value to the organizations, communities and stakeholders they serve.

It is the responsibility of the Applied Science and Technology Department to ensure that baccalaureate degree students graduating from the Occupational Safety and Health Program at Marshall University will be able to demonstrate the following Student Outcomes with respect to the occupational safety and health profession:

1. An ability to apply knowledge of mathematics, science, and applied sciences, formulate or design a system, process, or program to meet desired needs, identify and solve applied science problems.
2. Ability to understand the impact of solutions in a global and societal context and an ability to engage in life-long learning.
3. Ability to design and conduct experiment, as well as to analyze and interpret data.
4. Ability to communicate effectively.
5. Ability to use the techniques, skills, and modern scientific and technical tools necessary for professional practice, knowledge of contemporary issues, understanding of professional and ethical responsibility.
6. Ability to function on multidisciplinary teams.

To qualify for admission to the B.S. in Occupational Safety and Health degree program a minimum Math ACT of 17 and minimum composite ACT of 17. (MTH SAT 440; composite SAT 820) is required. Each student in the program will be expected to maintain a 2.0 GPA overall and in areas of specialization. An internship (capstone experience) is required to be completed under the Core Curriculum and the program requirements.

Free Elective		2

Major Information

- The mathematics a student must take will depend upon several factors such as the student's ACT score and mathematics proficiency. It is very important to talk to your advisor in selecting courses.
- A minimum of 120 hours is required for graduation.
- Because the B.S. degree is an accredited program by ASAC/ABET, students must be able to demonstrate "proficiency" in the areas of mathematics and statistics; chemistry, physics, and sciences; communication studies; psychology and physiology; and major field of study, i.e. safety. To demonstrate proficiency in the areas, a grade no less than a *C* is required. Courses in the areas of proficiency listed above cannot be completed under the CR/NC course option.
- Course offerings and course attributes are subject to change semesters. Please consult each semesters schedule of courses for availability and attributes.
- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

College of Health Professions

Contacts: Dr. Michael Prewitt, Dean; Dr. Gary McIlvain, Associate Dean
Website: http://www.marshall.edu/cohp (http://www.marshall.edu/cohp/)

cohp@marshall.edu

The College of Health Professions was formed in 1998 when the academic units of Nursing, Communication Disorders, Clinical Laboratory Sciences, and Dietetics united to better serve the health needs of the region. In July 2006 the college expanded to include the Department of Social Work. In 2010 we welcomed the School of Kinesiology to the COHP. The undergraduate public health program is the only undergraduate public health degree offered in West Virginia. The Health Sciences degree will open doors for students seeking graduate education as well as those interested in integrating health sciences into other fields. We are proud to offer the only Doctor of Physical Therapy program in southern West Virginia. The School of Physical Therapy recently received candidate status in their accrediting process. The college offers a variety of health career opportunities at the associate, baccalaureate, and master's degree level.

Mission

Consistent with the mission of Marshall University, the College of Health Professions (COHP) is committed to offering quality undergraduate and graduate nursing and health professions education. The focus of the College of Health Professions is upon being interactive with the community, including rural and underserved areas, and responding to contemporary and future needs of society, nursing, and the health professions.

To accomplish this mission, the College of Health Professions:

- ensures the integrity of the programs through maintenance of rigorous professional education standards and through the high expectation of student learning and performance;
- encourages involvement of faculty in service to society and the profession;
- supports the engagement of faculty in research and scholarly activities;
- provides an environment that is sensitive to a culturally, racially, and ethnically diverse student body, faculty, and staff; and
- maintains an environment that provides for academic freedom and shared governance.

Cooperative Programs

The Marshall University Employee Dependent Undergraduate Tuition Assistance Program cannot be used to cover the tuition and fees of the St. Mary's/Marshall University cooperative programs, which include medical imaging, nursing, and respiratory care. These programs are classified as third-party waiver programs, which are exempted from the Employee Dependent Tuition Assistance Program.

Departments

- Clinical Laboratory Sciences (p. 496)
- Communication Disorders (p. 503)
- Dietetics (p. 508)
- Health Sciences (p. 513)
- Kinesiology (p. 515)
- Medical Imaging (p. 534)
- Nursing - Associate Degree (p. 544)
- Nursing - Bachelor's Degrees (p. 546)
- Pre-Health, Major (p. 556)
- Respiratory Care (p. 556)
- Social Work (p. 562)

Degree Requirements

Graduation Requirements for COHP Majors

The number of hours required for graduation varies among the COHP majors. While 120 is the minimum required by the university, several COHP major require additional hours.

General Education Core Requirements

The baccalaureate degree programs in the COHP require students to meet the University general education core requirements. The general requirements are listed below. In some programs students must take specific courses to meet core requirements. The most up to date information on the core, including lists of courses that fulfill the requirements is located at www.marshall.edu/gened (http://www.marshall.edu/gened/).

Code	Title	Credit Hours
Core I		
FYS 100	First Yr Sem Critical Thinking (should be taken during the freshman year)	3
Critical Thinking (CT)		6
Core II		
ENG 101 & ENG 201	Beginning Composition and Advanced Composition	6
or ENG 201H	English Comp Honors	
Core II Communication Studies		3
Core II Fine Arts		3
Core II Humanities		3
Core II Math		3
Core II Physical/Natural Science		4
Core II Social Sciences		3
Total Credit Hours		**34**

Core I

First Year Seminar: 3 hours

- Students who transfer to Marshall University as sophomores [30 or more credit hours] are exempt from taking FYS 100 First Yr Sem Critical Thinking.

Critical Thinking (CT): 6 hours

- Students must choose from the Critical Thinking courses listed on the general education web page (marshall.edu/gened (http://www.marshall.edu/gened/)).
- Students who transfer to Marshall University as sophomores [30 or more credit hours] are only required to take one critical thinking course.
- Students may wish to select a Critical Thinking course that will double-count as a Humanities (courses in bold).

Core II

Composition: ENG 101 Beginning Composition and ENG 201 Advanced Composition (or ENG 201H English Comp Honors) 6 hours

Communication Studies: 3 hours

- Students must choose from the Communication Studies courses listed on the general education web page (www.marshall.edu/gened (http://www.marshall.edu/gened/))

Fine Arts: 3 hours

- Students must choose from the Fine Arts courses listed on the general education web page (www.marshall.edu/gened (http://www.marshall.edu/gened/))

Humanities: 3 hours

- Students must choose from the Humanities courses listed on the general education web page (www.marshall.edu/gened (http://www.marshall.edu/gened/))

Math: 3 hours

- Students must choose from the Mathematics courses listed on the general education web page (www.marshall.edu/gened (http://www.marshall.edu/gened/))

Physical/Natural Science: 4 hours

- Students must choose from the Physical/Natural Science courses listed on the general education web page (www.marshall.edu/gened (http://www.marshall.edu/gened/))

Social Science 3 hours

- Students must choose from the Social Science courses listed on the general education web page (www.marshall.edu/gened (http://www.marshall.edu/gened/))

Additional University Requirements

Writing Intensive: Students must select 6 hours of courses designated as Writing Intensive.

Multicultural/International: Students must select 3 hours of courses designated as Multicultural or International.

Students must complete the hours required to meet the program requirements of their degree program. The minimum hours required for graduation is 120, although most College of Health Professions majors require more than the minimum. The number of free elective hours a student will need to complete depends on the major, the number of hours needed take to fulfill the math requirement (3 or 5 hours), and double-counting general education requirements.

The number of hours required to graduate varies. To determine the number of free electives needed to reach the total hours to graduate from a specific major:

- Add up all the hours required on your curriculum sheet and subtract that number from 120. The total will be the number of free electives you need to complete. Free electives are any course that is 100-level or above. Please note that developmental courses (095, 096, 097, 098, 099, etc.) do not count toward completion of free electives or the 120 hours for graduation
- If you earn a *"C"* or better in a course and repeat it, that is considered a Repeat Passing Grade. If you earn a *"D"* in a course that was taken after your first 60 attempted hours and repeat it that is also considered a Repeat Passing Grade. Repeat Passing Grade hours cannot count toward the 120 hours needed for

graduation and must be manually subtracted from the overall hours completed toward graduation.

Double-Counting

Any course that meets more than one graduation requirement (excluding free electives) can be double counted, if applicable. For example, CL 210 Love/War Ancient World (CT) double-counts as Critical Thinking (CT) and Humanities. Because you must have a minimum of 120 credit hours to receive a degree, double-counting will increase the number of free electives you will need. Therefore, if you take a class that meets two graduation requirements, you will then take additional free elective hours in place of the second course requirement. You may only double-count in the general education area of your degree. You cannot double count one course as two major requirements.

Clinical Laboratory Sciences

Contacts: Dr. Jennifer D. Perry, Chair
Website: https://www.marshall.edu/clinical-laboratory-science/

The Clinical Laboratory Sciences (CLS) Department offers the Associate in Applied Science in Medical Laboratory Technology (AAS-MLT or MLT) and the Bachelor of Science in Medical Laboratory Science (BS-MLS). The AAS-MLT and BS-MLS form an integrated ladder curriculum following a "2+2" model. Students may choose to earn the associate degree only or to continue and also earn a bachelor's degree. The BS-MLS program is offered through online format only, and is for students who have already completed the AAS-MLT degree. All 300- and 400-level courses are offered online for the BS-MLS program.

General information regarding CLS Degree Programs

Several courses in these curricula require a minimum ACT score or course prerequisites. Availability of hospital training sites varies, and placement is based on overall GPA of admitted students. Transportation and housing for hospital portions of these programs are the responsibility of the student. Medical insurance coverage is required for hospital rotations, and is the responsibility of the student. Costs of physical examinations, tuberculosis testing, and immunizations are borne by the student. Students will be required to either receive the hepatitis B vaccine series or sign a waiver form refusing the vaccine. Additional documentation may be required by individual clinical agencies or by the College of Health Professions. The College of Health Professions and the Clinical Laboratory Sciences Department provide academic advisement to students seeking admission to a CLS program.

Mission Statement

The mission of the Clinical Laboratory Sciences Department is to provide competent laboratory professionals who are qualified to staff health care facilities and, thus, furnish the highest quality of patient care to our servicing area, including the Huntington tri-state area and other underserved areas of West Virginia, Ohio and Kentucky. These clinical laboratory professionals provide the highest quality laboratory test results that provide 70-80% of the objective date needed for physicians to make accurate patient diagnosis. The Clinical Laboratory Sciences Department provides continuing clinical medical education for the region as required by professional organizations and health care facilities. In addition, it is an ongoing mission of the department to implement innovative programs to meet the dynamic needs of the medical community.

Accreditation

The MLT and BS-MLS programs are fully accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS, 5600 N. River Road, Suite 720, Rosemont, IL 60018-5119, Telephone 773-714-8880). Students who complete CLS programs through Marshall University will be eligible for the national certification examination through ASCP.

Programs

- Medical Laboratory Science, B.S. (p. 498)
- Medical Laboratory Technician, A.A.S. (p. 501)

Courses

- General Education Course

CLS 105 Medical-Lab Terminology (CT) **3 Credit hours**
An introductory course for students to develop critical thinking skills and apply them to medical and laboratory terminology concepts and other health care topics related to laboratory medicine. An introductory course for students to develop critical thinking skills and apply them to medical and laboratory terminology concepts and other health care topics related to laboratory medicine.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

CLS 200 Clinical Biochemistry **4 Credit hours**
Theory and practice of clinical chemistry testing of serum, plasma, urine and body fluids in disease diagnosis.
Grade Mode: Normal Grading Mode

CLS 210 Clinical Immunohematology **4 Credit hours**
Theory of immune mechanisms in the body with a focus on serological testing for safe transfusion of blood components and applications for diagnostic immunologic assays.
Pre-req: CLS 230 with a minimum grade of C and CLS 200 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CLS 220 Clinical Microbiology **4 Credit hours**
A study of bacterial, fungal, and helminth related diseases, including diagnostic approach and techniques. 3 lec-2 lab. A study of bacterial, fungal, and helminth related diseases, including diagnostic approach and techniques. 3 lec-2 lab.
Pre-req: CLS 230 with a minimum grade of C and CLS 200 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CLS 230 Clinical Hematology **4 Credit hours**
Theory and clinical laboratory procedures used in the diagnosis of various white blood cell, red blood cell, and coagulation disorder. Course includes an introduction to specimen collection.
Grade Mode: Normal Grading Mode

CLS 255 Clinical Lab Problems **3 Credit hours**
Clinical laboratory problem-solving and comprehensive technical review course designed to help the student integrate knowledge and learn professional skills as a last step before beginning clinical practicum.
Pre-req: CLS 230 with a minimum grade of C and CLS 200 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CLS 270 Clin Practicum Hematology **3 Credit hours**
Total of 4 weeks (160 hours) of hospital-based supervised practice, including phlebotomy, complete blood counts, body fluid analysis, clinical microscopy, and urinalysis. One of four courses, CLS 270-273, taken concurrently.
Pre-req: CLS 255 with a minimum grade of C.
Co-req: CLS 271, CLS 272, CLS 273
Grade Mode: Normal Grading Mode

CLS 271 Clin Practicum Chemistry **3 Credit hours**
Total of 4 weeks (160) hours of hospital-based supervised practice performing diagnostic tests on body fluids using chemical methods. One of four courses, CLS 270-273, taken concurrently.
Pre-req: CLS 255 with a minimum grade of C.
Co-req: CLS 270, CLS 272, CLS 273
Grade Mode: Normal Grading Mode

CLS 272 Clin Pract Immunohematol **3 Credit hours**
Total of 3 weeks (120) hours of hospital-based supervised practice performing blood typing, antibody screening and identification, and conduct of pre-transfusion tests. One of our courses, CLS 270-273, taken concurrently. Total of 3 weeks (120) hours of hospital-based supervised practice performing blood typing, antibody screening and identification, and conduct of pre-transfusion tests. One of our courses, CLS 270-273, taken concurrently.
Pre-req: CLS 255 with a minimum grade of C.
Co-req: CLS 270, CLS 271, CLS 273
Grade Mode: Normal Grading Mode

CLS 273 Clin Pract Microbiology **3 Credit hours**
Total of 4 weeks (160 hours) of hospital-based supervised practice performing isolation, identification, and susceptibility testing of bacteria, fungi, and parasites. One of four courses, CLS 270-273, taken concurrently. Total of 4 weeks (160 hours) of hospital-based supervised practice performing isolation, identification, and susceptibility testing of bacteria, fungi, and parasites. One of four courses, CLS 270-273, taken concurrently.
Pre-req: CLS 255 with a minimum grade of C.
Co-req: CLS 270, CLS 271, CLS 272
Grade Mode: Normal Grading Mode

CLS 285 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CLS 286 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 287 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 288 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 310 Clin Immun & Mol Diag **3 Credit hours**
Theory and practice of basic human immunology and genetics as applied to clinical laboratory diagnostic and treatment procedures. Emphasizes use of immunoglobulin and DNA as diagnostic tools. Theory and practice of basic human immunology and genetics as applied to clinical laboratory diagnostic and treatment procedures. Emphasizes use of immunoglobulin and DNA as diagnostic tools.
Grade Mode: Normal Grading Mode

CLS 320 Advanced Topics in CLS **3 Credit hours**
Study of advanced topics for MLS graduates; includes careers in CLS, public health, epidemiology and bioterrorism as related to CLS, interprofessional collaboration, professional societies, licensure and regulation, and patient safety.
Grade Mode: Normal Grading Mode

CLS 400 Adv Clinical Chemistry **2 Credit hours**
Advanced theory, practice, problem solving, and critical thinking in the laboratory specialty of clinical chemistry. Advanced theory, practice, problem solving, and critical thinking in the laboratory specialty of clinical chemistry.
Pre-req: CLS 200 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CLS 410 Adv Clin Immunohematology **2 Credit hours**
Advanced theory and resolution of complex serological problems related to blood component therapy and transfusion.
Pre-req: CLS 272 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CLS 420 Adv Clinical Microbiology **2 Credit hours**
Advanced theory, practice, problem solving, and critical thinking in the laboratory specialty of diagnostic microbiology.
Grade Mode: Normal Grading Mode

CLS 430 Adv Clinical Hematology **3 Credit hours**
Advanced theory, problem solving, and clinical laboratory procedures used in the diagnosis and treatment of various white blood cell, red blood cell, and coagulation disorders.
Pre-req: CLS 230 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CLS 460 Clinical Lab Mgt and Educ **3 Credit hours**
Laboratory personnel and resource management, cost control, cost analysis, lab marketing, accreditation and CLS education practices. Laboratory personnel and resource management, cost control, cost analysis, lab marketing, accreditation and CLS education practices.
Pre-req: MGT 320 with a minimum grade of C or ECN 250 with a minimum grade of C and CLS 271 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CLS 464 Lab Instrumen Inform Sys **3 Credit hours**
Principles of laboratory instrumentation operation, maintenance, and troubleshooting. Concepts in special topics such as Flow Cytometry, Laboratory Information Systems (LIS), and Schematics also discussed.
Grade Mode: Normal Grading Mode

CLS 466 Diagnostic Physiology **3 Credit hours**
Pathologic aspects of diseases will be discussed using case studies, diagnostic problem solving, and student projects.
Grade Mode: Normal Grading Mode

CLS 468 Clinical Lab Research **3 Credit hours**
Directed independent research in the clinical site on a subject/topic of interest for clinical laboratory practice; formal writing of a research proposal and final project report required.
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

CLS 472 Adv CLS Clinical Practicum I **3 Credit hours**
Advanced problem solving and critical thinking through case study evaluation in all areas of the clinical laboratory.
Grade Mode: Normal Grading Mode

CLS 473 Adv CLS Clinical Practicum II **3 Credit hours**
Advanced problem solving and critical thinking in all areas of the clinical laboratory through intensive review of theory and national certification examination review materials for the Medical Laboratory Scientist.
Grade Mode: Normal Grading Mode

CLS 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CLS 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 499 Seminar in Lab Medicine **2 Credit hours**
Review, summary and critique of peer-reviewed research publications in all areas of clinical laboratory science.
Grade Mode: Normal Grading Mode

Medical Laboratory Science, B.S.

Career Description and Opportunities

Medical laboratory scientists perform a variety of specialized tests in the clinical laboratory that provide information used by the physician to determine the extent and cause of disease. The tests performed by or supervised by the medical laboratory scientist are completed in such areas as hematology, blood banking, serology, immunology, clinical chemistry, bacteriology, and parasitology. The graduate medical laboratory scientist is prepared with the knowledge and abilities needed for certification by nationally recognized professional agencies. Certified medical laboratory scientists are accorded the status of professionals in the medical team. They often have responsibilities for supervision of laboratory sections, exercise independent judgement, and evaluate the work of others.

Most medical laboratory scientists are employed in hospital laboratories, while others find employment in physician's offices, the armed forces, and state and federal health agencies. CLS BS-MLS graduates have gone on to become physicians, dentists, physical therapists, health care computer specialists, hospital administrators, pharmaceutical salespersons, college professors, biomedical researchers, attorneys, and scientific device reviewers. Upon successful completion of the Bachelor of Science degree in Medical Laboratory Science, the student is eligible for the certification examination offered by the American Society of Clinical Pathologists (ASCP).

Curriculum Overview

The MU Medical Laboratory Science program is offered through online course delivery and follows a "2+2 ladder" model. The first two years include the MLT associate degree curriculum. Year three involves completion of advanced science and other university academic requirements, and the fourth year involves one semester of didactic courses followed by advanced clinical practicum courses. A student who has completed required general studies and prerequisite courses could progress through the CLS sequence from MLT to MLS programs consecutively (see admission, below).

Students transferring from other NAACLS accredited programs must complete equivalent prerequisite courses to those listed in the MU B.S. in Medical Laboratory Science program in order to obtain a B.S. from Marshall University, which includes meeting Core Curriculum standards.

In addition, MLT courses from other NAACLS accredited programs will be evaluated and course substitution credit will be recorded for 100 and 200 level CLS courses where appropriate by the MU CLS department chair/program director. Under special circumstances where an individual has graduated from an MLT program greater than five years previous, and has not worked as an MLT, proficiency exams may be required in order for substitution credit to be granted for 100 and 200 level CLS courses.

The CLS 300- and 400-level courses of the Bachelor of Science in Medical Laboratory Science Program are offered through online course delivery. All general prerequisite courses in the junior year are also offered online through Marshall University if preferred. All CLS-designated courses must be taken from Marshall University; no transfer courses will be accepted for these.

Advanced Clinical Practicum/ Applied Learning Experiences

There is not a full clinical rotation for the online B.S. in MLS program at Marshall University; rather, students complete required clinical tasks in courses taken in the final semester of the program. Most students in the program are working either full or part-time and can manage the required tasks while working. All students will complete requirements of the CLS 464 Lab Instrumen Inform Sys and CLS 468 Clinical Lab Research Senior Research courses in the clinical practicum setting

during the final semester of the B.S. in MLS program. All students will also be required to complete an on-campus, one day hands-on workshop in Molecular Diagnostics as part of their Advanced Clinical Practicum experience, or provide documentation of hands-on clinical experience in this area in a clinical hospital laboratory during the final semester in the program.

It is the sole responsibility of all admitted MLS students to secure their own clinical site placement for required clinical tasks in the final semester of the program. A student will be required upon admission to the B.S. in MLS program to initiate the process of clinical site placement and/or the clinical affiliation process with a clinical laboratory in a hospital for advanced clinical experiences and obtain the necessary signed clinical affiliation documentation by mid-term of the semester preceding the student's anticipated advanced clinical practicum - signed clinical affiliations are an NAACLS accreditation requirement. All clinical affiliations must be approved by the Program Director. Failure of the student to complete these requirements would make the student ineligible for clinical site placement and would delay, or prevent, graduation from the BS in MLS program.

Admission

The application period for the online program is continual, however applications are reviewed and admission is granted once per semester, normally in October and March each year in preparation for advising for student registration. To be considered for admission into the Marshall University Online Bachelor of Science in Medical Laboratory Science program, applicants must meet the following criteria:

1. Successful completion of an associate degree in Medical Laboratory Technology from a NAACLS-accredited MLT/CLT program. Students applying from NAACLS-accredited programs other than Marshall University must either submit a letter of satisfactory completion from the MLT program director, or submit documentation of MLT/CLT national certification through NCA or ASCP.
2. Minimum cumulative GPA of 2.0 prior to admission.
3. Candidates from a NAACLS accredited MLT program other than Marshall University: must submit two letters of reference prior to admission; the letter of satisfactory completion from the MLT program director stated above may substitute for one of the letters. Candidates from other NAACLS accredited programs must also submit an official transcript documenting coursework for the MLT program. Candidates from other NAACLS accredited MLT/CLT programs must submit a letter of application along with the references above.
4. Candidates from the Marshall University MLT program: Because students from other institutions are accepted into the online BSMLS program each year, MU MLT students must submit notification, either via email or letter in the last year of their MLT program of their desire to continue on into the BS in Medical Laboratory Science program; failure to do so could jeopardize securing a placement slot in MLS-level courses.

Admission will be granted to current Marshall University BS-MLS students who have had continuous enrollment each semester in the program coursework and who have provided written notification of their desire to continue during the final year of their MLT program.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
CLS 105	Medical-Lab Terminology (CT)	3
SOC 200	Introductory Sociology (CT)	3
Core 2		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
CMM 103	Fund Speech-Communication	3
MTH 130	College Algebra	3
BSC 228	Human Physiology	3
BSC 228L	Human Physiology Lab	1
Core II Humanities (WI)		3
SOC 200	Introductory Sociology (CT) (MC, WI)	3
Core II Fine Arts		3
Additional University Requirements		
Writing Intensive (Core II Humanities)		3
Writing Intensive (SOC 200 WI)		3
SOC 200	Introductory Sociology (CT) (Multicultural or International)	3

CLS 473	Adv CLS Clinical Practicum II	3
CLS 468	Clinical Lab Research (Capstone)	3
CLS 499	Seminar in Lab Medicine	2

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Course offerings and course attributes are subject to change semesters. Please consult each semester's schedule of courses for availability and attributes.
- The MLT and BS-MLS programs are fully accredited by the National Accrediting Agency for Clinical Laboratory Sciences. Students who complete CLS programs through Marshall University will be eligible for national certification examinations.
- Medical Laboratory Technology Students complete the associate degree, graduate then progress into the Bachelor of Medical Laboratory Science.
- MLS online students from other institutions must have completed an AAS in MLT from a NAACLS accredited program and will be required to fulfill the core curriculum requirements through a combination of transfer credits and MU courses; each student will be evaluated on an individual basis.
- 15-week hospital-based clinical practicum sequence Summer or Fall prior to beginning online MLS classes.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Medical laboratory scientists perform a variety of specialized tests in the clinical laboratory that provide information used by the physician to determine the extent and cause of disease. The tests performed by or supervised by the medical technologist are completed in such areas as hematology, blood banking, serology, immunology, clinical chemistry, bacteriology, and parasitology. The graduate medical technologist is prepared with the knowledge and abilities needed for certification by nationally recognized professional agencies. Certified medical laboratory scientists are accorded the status of professionals in the medical team. They often supervise laboratory sections, exercise independent judgement, and evaluate the work of others.

Part Time Enrollment Plan

Full-time enrollment at Marshall University requires that students take a minimum of twelve credit hours. Prerequisite courses, other than CLS courses, that are listed in Year Three in the curriculum may be taken in any sequence and in any combination. Part-time enrollment in CLS courses at the BS-MLS level is permitted for working MLTs; however students must take the following courses together and in this sequence:

Course	Title	Credit Hours
First Year		
First Semester		
CLS 460	Clinical Lab Mgt and Educ	3
CLS 499	Seminar in Lab Medicine	2
	Credit Hours	**5**

CLS 473	Adv CLS Clinical Practicum II [1]	3
	Credit Hours	**12**
	Total Credit Hours	**32**

[1] CLS courses in this final Spring Semester can only be taken immediately preceding anticipated commencement in May.

Once a student has been accepted into the BS-MLS online program, he/she will work together with the chair/program director to outline an acceptable curriculum completion plan.

Medical Laboratory Technician, A.A.S.

Students completing the MU medical laboratory technician (AAS-MLT) curriculum can earn the Associate in Applied Science Degree. The curriculum is designed so that a student may complete the technical portion of the curriculum in three semesters: two semesters of on-campus instruction, and one semester of in-hospital, 15-week clinical practicum. The clinical practicum semester may be either in summer or fall, depending on availability of clinical sites and completion of all required coursework. Students declare their major as A.A.S. in MLT upon admission to the university, then seek admission into Year Two CLS courses if they meet required criteria.

Career Description and Opportunities

Certified medical laboratory technicians are prepared to perform approximately 90% of the routine diagnostic work in a clinical laboratory. They typically work under the supervision of a medical laboratory scientist. They collect blood samples and do a wide variety of blood and urine tests using microscopes, spectrophotometers, electronic counters, and other laboratory instruments. They also perform crossmatches for blood transfusion, culture pathogenic bacteria, and perform blood clotting tests. Besides working in hospital laboratories, medical laboratory technicians work in doctors' offices, clinics, and in industry. Certified clinical laboratory technicians are in great demand. Completion of a NAACLS-accredited MLT program is required for admission to the bachelor's degree in medical laboratory science at Marshall University. Upon completion of the MLT curriculum, the student is eligible to take a certification examination offered by the American Society of Clinical Pathologists (ASCP).

Admission and Progression

Entry to the MLT program involves completion of academic prerequisites with acceptable grades, application to the Clinical Laboratory Sciences Department, and competitive selection by an admissions committee. An applicant for the MLT program should expect to have earned an overall Grade Point Average (GPA) of 2.5. Students who fall into the category of having to take CHM 111 Foundations of Chemistry as a prerequisite to CHM 211 Principles

of Chemistry I due to ACT scores must have successfully completed CHM 111 Foundations of Chemistry with a *C* or greater prior to being accepted into the MLT program. Students must be able to complete all required coursework, including clinical rotations, for the MLT program within 16 months of the August admission date of the program in order to be admitted to the program.

The number of available class spaces is determined annually by the MLT program director, based upon anticipated instructional resources both on campus and in affiliated hospital laboratories. The class sizes range between 12 and 18 per year. Admission of qualified applicants is not guaranteed and is dependent on availability of resources; qualified applicants that are not accepted will be placed on a waiting list for admission into the program and notified in writing of their status.

Students apply for admission during their freshman year by completing and submitting a transcript review form, two letters of reference, and a letter of application to the MLT Program Director between March 1 and May 31 for admission to the following semester. Late applications will be considered as class size permits. Transcript review forms and example letters are available at the Clinical Laboratory Sciences Department and on the department website (www.marshall.edu/clinical-lab-science (http://www.marshall.edu/clinical-lab-science/)).

The MLT program admissions committee reviews letters of application, college-level coursework, and letters of reference. Qualified applicants are selected primarily by Grade Point Average on courses in the CLS curriculum. Applicants who expect to complete all admission requirements before fall classes begin may be admitted conditionally. The committee selects students to fill available class spaces, then develops a ranked waiting list, if applicable. Letters are mailed to all applicants by June 15 notifying them of the admission committee decision.

Accepted students who are not properly registered or who are absent during the first week of regular classes without prior approval of the CLS program director will lose their space to a wait-listed applicant.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Progression through the MLT program is contingent upon satisfactory academic performance. Once admitted, MLT students are required to remain continuously enrolled in such a way as to complete the CLS course sequence with their class.

Code	Title	Credit Hours
CLS 230	Clinical Hematology	4
CLS 210	Clinical Immunohematology	4
CLS 220	Clinical Microbiology	4
CLS 255	Clinical Lab Problems	3
CLS 270	Clin Practicum Hematology	3
CLS 271	Clin Practicum Chemistry	3
CLS 272	Clin Pract Immunohematol	3
CLS 273	Clin Pract Microbiology	3

If a student should not successfully progress with his or her class, he or she will be dropped from the MLT program and will be notified of that status by letter. Decisions regarding readmitting students to pre-clinical CLS courses will be made by the admissions committee subject to space availability. No student is guaranteed readmission. Students seeking readmission reapply as described above. Readmitted students may be required to repeat one or more CLS courses or undertake directed independent study.

Once a student is admitted to the MLT program, in addition to the previous stated policies, the following apply:

1. All required coursework the Associate in MLT must be completed with a minimum grade of *C* or higher. Students who earn a grade of less than a *C* in required coursework must repeat the course and earn a *C* or greater.
2. Students must earn a minimum of *C* in all CLS courses in order to progress to the following semester's CLS courses.
3. Students must have completed all required coursework in the A.A.S. MLT curriculum with a minimum of *C* in order to be eligible for MLT clinical rotations

Code	Title	Credit Hours
CLS 270	Clin Practicum Hematology	3
CLS 271	Clin Practicum Chemistry	3
CLS 272	Clin Pract Immunohematol	3
CLS 273	Clin Pract Microbiology	3

Therefore, students who do not make a *C* in **all** required coursework in the MLT curriculum will not be permitted to attend clinical rotations; this means that if a student makes below a *C* during the spring term in any required course and has already begun summer clinical rotations before this grade is known, the student will be removed from rotation courses, and will be expected to retake those course and obtain a *C* or greater before being permitted to re-enroll in clinical rotations. Clinical rotations are offered in the summer and fall terms only; therefore, if a student fails to complete all required coursework in the summer with a *C* or greater prior to the fall rotation, then that student must participate in directed independent study for all CLS courses, as well as completed required coursework with a *C* or greater, and wait until the following summer to attend clinical rotations.

MLT Clinical Practicum

The final semester of the program involves a 15-week clinical practicum rotation at one or more clinical affiliates. Two 15-week MLT hospital rotation periods are usually available: one in summer and another in fall. The affiliated laboratories include St. Mary's Medical Center (Huntington, WV), Cabell Huntington Hospital (Huntington, WV), VA Medical Center (Huntington, WV), Thomas Memorial Hospital (South Charleston, WV), King's Daughters Medical Center (Ashland, KY), Holzer Medical Center (Gallipolis, OH), Charleston Area Medical Center (Charleston, WV), and Pleasant Valley Hospital (Point Pleasant, WV). Available hospital clinical rotations will be assigned during the course CLS 255 Clinical Lab Problems at the discretion of MLT program faculty primarily based on student overall GPA. Student preference and academic achievement will be considered. Housing and transportation are the responsibility of the student.

If there are more qualified students than available clinical spaces, students will be placed in available spaces based on GPA, achievement,

and progress in the MLT/MLS curriculum. Those not assigned to clinical rotations will receive first priority in the next available rotation schedule.

Medical Laboratory Technology Course Requirements

The Associate of Applied Science – Medical Laboratory Technology requires the following courses in addition to those listed under Core I, Core II and University requirements:

Code	Title	Credit Hours
CHM 211	Principles of Chemistry I	3
CHM 217	Principles of Chem Lab I	2
CHM 212	Principles Chemistry II	3
CHM 218	Principles of Chem Lab II	2
BSC 227	Human Anatomy	3
BSC 227L	Human Anatomy Lab	1
BSC 228	Human Physiology	3
BSC 228L	Human Physiology Lab	1
CLS 200	Clinical Biochemistry	4
CLS 230	Clinical Hematology	4
CLS 210	Clinical Immunohematology	4
CLS 220	Clinical Microbiology	4
CLS 255	Clinical Lab Problems	3
CLS 270	Clin Practicum Hematology	3
CLS 271	Clin Practicum Chemistry	3
CLS 272	Clin Pract Immunohematol	3
CLS 273	Clin Pract Microbiology	3
Total Credit Hours		**49**

Communication Disorders

Contacts: Pam Holland, Chair
Website: http://www.marshall.edu/cohp (http://www.marshall.edu/cohp/)

The Department of Communication Disorders offers an undergraduate and graduate degree in speech pathology. Speech pathologists specialize in the prevention, evaluation, and treatment of communication and swallowing disorders. Employment opportunities are excellent. A master's degree is the standard entry-level credential in this field; however, a bachelor's degree in communication disorders prepares students for graduate study in a variety of fields and leads to careers in speech pathology, audiology, and other health and educational professions.

Programs

- Communication Disorders, B.S. (p. 505)
- Communication Disorders, Minor (p. 507)
- Speech Language Pathology Assistant, Certificate Program (p. 507)

Courses

- General Education Course

CD 101 Intro Communic Disorders **3 Credit hours**
Introduction to the field of Communication Disorders for majors. Discussion of various communication disorders, as well as the roles and responsibilities of the speech-language pathologist.
Grade Mode: Normal Grading Mode

CD 228 Language and Speech Dev **3 Credit hours**
Theories of language acquisition; sequential patterns in the acquisition of prelinguistic communication, speech and language in relationship to general child development.
Grade Mode: Normal Grading Mode

CD 229 Anatomy Speech Mechanism **3 Credit hours**
Introduction to the anatomy and physiology of the speech and hearing mechanism and the neurological system. PR: CD 241 and CD 228 Introduction to the anatomy and physiology of the speech and hearing mechanism and the neurological system. PR: CD 241 and CD 228
Grade Mode: Normal Grading Mode

CD 239 Phonetics **3 Credit hours**
Introduction to articulatory phonetics; study of the International Phonetic Alphabet and practice in broad transcription of normal and disordered speech; discussion of social dialects. PR: CD 241, CD 228 Introduction to articulatory phonetics; study of the International Phonetic Alphabet and practice in broad transcription of normal and disordered speech; discussion of social dialects. PR: CD 241, CD 228
Grade Mode: Normal Grading Mode

CD 241 Intro Communication Science **3 Credit hours**
A survey of the physical and psychophysical bases of communication with discussion of elementary communication models. (PR: CD 101 and Permission) A survey of the physical and psychophysical bases of commun- ication with discussion of elementary communication models. (PR: CD 101 and Permission)
Grade Mode: Normal Grading Mode

CD 322 Dev Speech Disorders **3 Credit hours**
Introduction to developmental speech disorders; etiologies and symptoms; principles of assessment and treatment. Introduction to developmental speech disorders; etiologies and symptoms; principles of assessment and treatment.
Grade Mode: Normal Grading Mode

CD 328 Developmental Lang Dis **3 Credit hours**
Introduction to theoretical bases of developmental language disorders; etiologies and symptoms; principles of assessment and treatment.
Grade Mode: Normal Grading Mode

CD 330 Acq Comm Swallowing Dis **3 Credit hours**
Introduction to acquired disorders; etiologies and symptoms; principles of assessment and treatment. Emphasis on communication and swallowing disorders resulting from CVA, traumatic brain injury, the dementias and other neurological disorders. Introduction to acquired disorders; etiologies and symptoms; principles of assessment and treatment. Emphasis on communication and swallowing disorders resulting from CVA, traumatic brain injury, the dementias and other neurological disorders.
Grade Mode: Normal Grading Mode

CD 370L Field Exper: Sph & Lang **3 Credit hours**
Experience with preschool age children; planning and implementing speech and language stimulation activities. Experience with preschool age children; planning and implementing speech and language stimulation activities.
Grade Mode: Normal Grading Mode

CD 401 Inquiry in CD **1-3 Credit hours**
Course designed to expose undergraduate students to research in the field of CD through participation in a Community of Research Practice and individual study under the guidance of a mentor. May be repeated for credit, not to exceed a total of 12 credit hours. (PR: admission to undergraduate program and permission of advisor)
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CD 415 Prof Literacies for SLPs **3 Credit hours**
Investigation into contemporary understandings of literacy using current communication and information technologies and resources. PR: Admission to undergraduate program; permission of instructor. Investigation into contemporary understandings of literacy using current communication and information technologies and resources. PR: Admission to undergraduate program; permission of instructor.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

CD 420 Voice and Fluency Disorders **3 Credit hours**
Introduction to voice and fluency disorders; etiologies and symptoms; principles of assessment and treatment.
Grade Mode: Normal Grading Mode

CD 424 Diagnosis Comm Disorders **3 Credit hours**
Examination of assessment procedures for differential diagnosis of various communication disorders; a study of symptom complexes; interpretation of diagnostic data.
Grade Mode: Normal Grading Mode

CD 427 Therapeutic Procedures II **3 Credit hours**
Examination of therapeutic procedures relative to speech and language disorders. Investigation into the clinician's role in case management as well as behavior management techniques. (PR: CE 426, CD 422L, CD 425, CR: CD 427L) Examination of therapeutic procedures relative to speech and language disorders. Investigation into the clinician's role in case management as well as behavior management techniques. (PR: CE 426, CD 422L, CD 425, CR: CD 427L)
Grade Mode: Normal Grading Mode

CD 460 Basic Audiology **3 Credit hours**
Introduction to hearing disorders; examination of the auditory system, psychophysical processes and preferred practice procedures for assessment. Includes laboratory. (PR: CD 429, CD 439) Introduction to hearing disorders; examination of the auditory system, psychophysical processes and preferred practice procedures for assessment. Includes laboratory. (PR: CD 429, CD 439)
Grade Mode: Normal Grading Mode

CD 461 Sign Language for SLP **3 Credit hours**
Introduction to basic signs and finger spelling. Overview of different sign systems. Introduction to basic signs and finger spelling. Overview of different sign systems.
Grade Mode: Normal Grading Mode

CD 463 Aural Rehabilitation **3 Credit hours**
Examination of various intervention strategies appropriate for individuals with hearing impairments, techniques for assessing degree of handicap. (PR: CD 460) Examination of various intervention strategies appropriate for individuals with hearing impairments, techniques for assessing degree of handicap. (PR: CD 460)
Grade Mode: Normal Grading Mode

CD 470L Therapeutic Prodecures Lab **2 Credit hours**
Guided and independent observation and analysis of the clinical process. Guided and independent observation and analysis of the clinical process.
Attributes: No Textbook Required
Grade Mode: Credit/No Credit Grade Only

CD 471 SLPA Practicum I **1 Credit hour**
A supervised SLPA clinical practicum in the MUSHC and/or other site with faculty from Marshall University.
Pre-req: CD 471L (may be taken concurrently) with a minimum grade of D.
Concurrent PR: CD 471L
Grade Mode: Normal Grading Mode

CD 471L SLPA Practicum Lab **2 Credit hours**
Introduction to the SLPA profession.
Pre-req: CD 471 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: CD 471
Grade Mode: Credit/No Credit Grade Only

CD 472 Clin Prac School Children **1 Credit hour**
Supervised clinical practice with school-aged children; addresses clinical clock hour requirements set forth by American Speech Language and Hearing Association SLPA program
Pre-req: CD 471 with a minimum grade of D and CD 471L with a minimum grade of D.
Grade Mode: Credit/No Credit Grade Only

CD 472L SLPA Practicum Lab **2 Credit hours**
A lab focused on special considerations related to providing speech language pathology assistant services in the public school setting.
Pre-req: CD 471 with a minimum grade of D and CD 471L with a minimum grade of D and CD 472 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: CD 472
Grade Mode: Credit/No Credit Grade Only

CD 480 Special Topics **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CD 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CD 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CD 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CD 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CD 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CD 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CD 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

Faculty

Associate Professors
Dixon, Holland, Rutherford, Childers, Clemins

Assistant Professors
Adams, Agnello, Brown, Cottrell, Dean, Kemper, Maxwell, Young

The first five courses in the program are available to all students who have declared Communication Disorders as their major:

Code	Title	Credit Hours
CD 101	Intro Communic Disorders	3
CD 228	Language and Speech Dev	3
CD 229	Anatomy Speech Mechanism	3
CD 239	Phonetics	3
CD 241	Intro Communication Science	3

Upon completion of these courses, students may apply to gain permission to register for upper-level CD courses. Applications are due prior to April 30/November 30 of the year in which this is sought.

Permission to Continue in the CD Program

Category A

1. Those with a grade of *C* or better in all pre-CD courses and faculty approval are guaranteed continuation in the program; and
2. Must meet all the following criteria:

   a. 3.0 or higher overall GPA

   b. 3.0 or higher MU GPA

   c. 3.0 or higher CD GPA*,

Category B

1. These applicants will be considered on a case-by-case basis as space is available and are eligible to apply to the CD program; however, permission to continue in the program is not guaranteed.

2. Must have a grade of *C* or better and faculty approval in:

Code	Title	Credit Hours
CD 101	Intro Communic Disorders	3
CD 241	Intro Communication Science	3
CD 228	Language and Speech Dev	3
CD 229	Anatomy Speech Mechanism	3
CD 239	Phonetics	3

- Once students are permitted to continue in the undergraduate program, they must maintain the minimum requirements of 2.5 GPA (which includes the following 3 categories:

  1. 2.5 overall,
  2. 2.50 MU
  3. 2.5 CD
  4. a grade of *C* or better in all CD courses.

Students may not repeat CD courses for the purpose of raising their GPA to maintain eligibility in the program.

Continuing students must complete the remaining degree requirements (academic coursework and clinical assignments) leading to a B.S. in Communication Disorders, a pre-professional degree. Students who apply for and/or accept clinical assignments are expected to fulfill the responsibilities of these assignments for the full semester. Students should consult the department chair, their academic advisor, and the clinic handbook regarding all academic and clinical requirements and standards specific to the program

Communication Disorders, B.S.

The Department of Communication Disorders offers an undergraduate and graduate degree in speech pathology. Speech pathologists specialize in the prevention, evaluation, and treatment of communication and swallowing disorders. Employment opportunities are excellent. A master's degree is the standard entry-level credential in this field; however, a bachelor's degree in communication disorders prepares students for graduate study in a variety of fields and leads to careers in speech pathology, audiology, and other health and educational professions.

Academic Policies

The first five courses in the program are available to all students who have declared Communication Disorders as their major:

[1] The first five courses in the program are available to all students who have declared Communication Disorders as their major. Upon completion of these courses, students may apply to gain permission to continue in the CD program and register for upper-level CD courses. Applications are due November 30/April 30 following completion of the first 5 courses above.

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Course offerings and course attributes are subject to change semesters. Please consult each semesters schedule of courses for availability and attributes.
- Foreign Language requirement may be met by taking 9 hours in one language or 6 hours in one language and CD 461 Sign Language for SLP.
- Students must seek permission to register for CD courses (with the exception of CD 101 Intro Communic Disorders) from their academic advisor.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Department of Communication Disorders offers both an undergraduate and graduate degree in communication disorders. Speech pathologists specialize in the evaluation, remediation, and prevention of communication disorders and employment opportunities are excellent. A master's degree is the standard entry-level credential in this field; however, a bachelor's degree in communication disorders prepares students for graduate study in a variety of fields and leads to careers in speech pathology, audiology, and other professions.

Communication Disorders, Minor

This 12-hour minor will consist of completion of 4 out of the 5 courses listed below:

Code	Title	Credit Hours
Select four of the following:		12
CD 101	Intro Communic Disorders	
CD 241	Intro Communication Science	
CD 228	Language and Speech Dev	
CD 229	Anatomy Speech Mechanism	
CD 239	Phonetics	
Total Credit Hours		**12**

Speech Language Pathology Assistant, Certificate Program

A Speech-Language Pathology-Assistant (SLP-A) is defined as a professional who supports the speech language pathologist by engaging in tasks that are planned, delegated, and supervised by the speech-language pathologist. In doing so, the SLP-A provides exceptional patient care, provides speech language pathology services, and enhances the productivity of the speech-language pathology practice to improve patient experiences and services in accordance with local, state, and federal regulations (ASHA 2020).

The Department of Communication Disorders at Marshall University is committed to ensure all students graduating with a bachelor's degree in Communication Disorders secure employment. The Speech-Language Pathology Assistant Certificate Program is a 2 semester program (excluding prerequisite coursework) that provides a pathway students may select to achieve this goal.

Additional information can be found on the American Speech-Language-Hearing Association, (ASHA) website. Scope of Practice of the SLP-A at https://www.asha.org/siteassets/publications/sp2016-00343.pdf.

Admission to the SLP-A Certificate Program

Students interested in enrolling the SLP-A Certificate Program must:

- Have a minimum GPA of 2.8 overall (associate degree or bachelor's degree); formal transcripts must be submitted to the Chair of the department.
- Submit a formal letter of intent. This should provide answers to the following questions:

1) Why are you interested in enrolling in the SLP-A Program at Marshall University?

2) What are your professional goals?

3) What skill sets do you hold that qualify you to be an SLP-A?

- Submit 2 letters of recommendation. Letters of recommendation must be sent directly from the person writing the letter. No letters of recommendation will be accepted if sent via student.

The SLP-A Certificate Program at Marshall University has rolling admissions but all students will begin their curriculum requirements in the fall or summer. Required documents must be submitted to communicationdisorders@marshall.edu. The subject line for the email should state: SLP-A Application.

Entry to the program:

There are two pathways for entry into the SLP-A Certificate program.

- Pathway 1: The individual is pursuing a bachelor's degree in Communication Sciences and Disorders from an accredited institution.
- Pathway 2: The individual is pursuing or currently holds an associate or bachelor's degree from an accredited institution and has completed the following coursework in person or online: (Courses must have been completed no more than two years before you apply for the C-SLP-A).
- CD 101 Introductory or Overview Course in Communication Disorders
- CD 239 Phonetics
- CD 228 Language Development
- Speech Sound Disorders
- CD 328 Language Disorders
- CD 229 Anatomy and Physiology of the Speech and Hearing Mechanisms

Students who are interested in enrolling in the above courses to prepare for admission to the SLP-A Program should contact Pam Holland at holland@marshall.edu / 304-696-2985.

In order for students to remain in good academic standing and continue in the program, a GPA of 3.0 must be maintained.

Course Requirements for SLP-A Certificate

Code	Title	Credit Hours
CD 471	SLPA Practicum I	1
CD 471L	SLPA Practicum Lab	2
CD 472	Clin Prac School Children	1
CD 472L	SLPA Practicum Lab	2

Students without a bachelor's degree in communication disorders are eligible to apply for the certificate program.

Dietetics

Contacts: Dr. Kelli Williams, Chair
Website: http://www.marshall.edu/dietetics (http://www.marshall.edu/dietetics/)

The Didactic Program in Dietetics (DPD) leads to a Bachelor of Science degree and prepares students for work in clinical nutrition, community health, and foodservice management positions. The DPD is currently granted accreditation by the Accreditation Council for Education in Nutrition and Dietetics (ACEND, 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606-3922, 312-899-4876). The DPD meets the academic standards to qualify students for a dietetics internship (DI). Eligibility to sit for the registration examination, which is necessary to become a Registered Dietitian Nutritionist (RDN), requires students to complete both the undergraduate DPD as well as a post-baccalaureate supervised practice experience in a DI.

Effective January 1, 2024, the Commission on Dietetic Registration (CDR) will require a minimum of a master's degree to be eligible to take the credentialing exam to become a registered dietitian nutritionist. In order to be approved for registration examination eligibility with a bachelor's degree, an individual must meet all eligibility requirements and be submitted into CDR's Registration Eligibility Processing System (REPS) before 12:00 midnight Central Time, December 31, 2023. For more information about this requirement, visit CDR's website: https://www.cdrnet.org/graduatedegree. In addition, CDR requires that individuals complete coursework and a supervised practice program accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND). Graduates who successfully complete the ACEND-accredited Didactic Program in Dietetics at Marshall University are eligible to apply to an ACEND-accredited supervised practice program and apply to take the CDR credentialing exam to become an RDN.

The mission of the DPD at Marshall University is to provide the depth and breadth of food and nutrition knowledge and skills that prepare a student to enter a supervised practice program in dietetics. More specifically, its focus is to provide graduates with the knowledge, skills, and competencies necessary to successfully compete for and complete a DI, as well as pass the registration examination. Each year,

coursework builds upon the students' knowledge base and is often enhanced by hands-on laboratory and field experiences.

Competitive admission to a supervised practice experience/ dietetic internship (DI) requires the following:

1. A Grade Point Average of 3.0 or above;
2. Work experience related to the profession of dietetics;
3. Positive letters of recommendation from faculty and from supervisors of dietetics-related work experience.

Completing the Bachelor of Science with a major in Dietetics and receiving an ACEND "Verification of Completion Statement" does not guarantee entrance to a DI, which is awarded on a competitive basis.

All students are required to purchase a laboratory coat for professional laboratory courses. In addition, some field experience sites for senior-level courses may require a current test for tuberculosis to be on file. DPD students are required to pay a Health Professions fee listed under the "Financial Information" section of the catalog.

Academic Policies

1. All dietetics and required non-dietetics courses must be completed with a grade of *C* or higher. Students who earn a grade of less than a *C* in a dietetics or required non-dietetics course must repeat that course.
2. All students who receive a grade of less than a *C* in a dietetics or required non-dietetics course may not register for dietetics courses for which that course is a prerequisite.
3. No required course may be taken on a credit/non-credit basis.
4. The last 60 hours of required dietetics courses (including all 300- and 400-level DTS courses) and non-dietetics courses must be completed within three years prior to graduation.
5. All 400-level DTS courses must be completed at Marshall University.
6. All students in the Dietetics program must maintain a cumulative GPA of at least 2.0. In the event that a student's cumulative GPA falls below 2.0, that student will be placed on academic probation and will be notified in writing of this action. Students have one year to raise their cumulative GPA to 2.0. If the GPA is less than 2.0 at the end of one year of probation, the student will be dismissed from the Dietetics program.
7. Students will not be permitted to enroll in 400-level DTS courses if their GPA is below 2.5.
8. Students enrolled in DTS 476 Senior Seminar in DTS are required to take a series of practice tests in order to better prepare for the national registration examination. Students must score a minimum of 80% on the final practice examination in order to complete the course. Those who do not will be given remedial work until an 80% score is achieved.

Programs

- Dietetics, B.S. (p. 510)

Courses

- General Education Course

DTS 202 Introductory Foods **4 Credit hours**
Provides basic understanding of the science of food and food substances. Instruction on nutrients will be integrated with preparation of foods to form the laboratory experience. Provides basic understanding of the science of food and food substances. Instruction on nutrients will be integrated with preparation of foods to form the laboratory experience.
Pre-req: DTS 210 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 210 Nutrition **3 Credit hours**
Principles of human nutrition and their application in planning and evaluating dietaries for individuals and families.
Grade Mode: Normal Grading Mode

DTS 215 Assess and Ed Strat in DTS **3 Credit hours**
Establish a foundation for effective nutrition assessment and education of individuals and groups. Establish a foundation for effective nutrition assessment and education of individuals and groups.
Pre-req: DTS 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

DTS 301 FS Safety & Systems Mgt I **4 Credit hours**
A study of foodservice management and an in-depth look at food safety in foodservice establishments. Laboratory/field experiences provide students a better perspective of foodservice management in various institutions. A study of foodservice management and an in-depth look at food safety in foodservice establishments. Laboratory/field experiences provide students a better perspective of foodservice management in various institutions.
Pre-req: DTS 202 with a minimum grade of C and BSC 250 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 302 FS Safety & Sys Mgt II **4 Credit hours**
A continued study of foodservice management principles. The course emphasizes quantity production, distribution, and service of foods as well as facility planning and design. A continued study of foodservice management principles. The course emphasizes quantity production, distribution, and service of foods as well as facility planning and design.
Pre-req: DTS 301 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 310 Life Span Nutrition **3 Credit hours**
An exploration of the scientific principles of human nutrition and nutrient needs for stages of the life cycle, which include prenatal, gestational, infancy, toddler, child, preadolescent, adult, and elderly. An exploration of the scientific principles of human nutrition and nutrient needs for stages of the life cycle, which include prenatal, gestational, infancy, toddler, child, preadolescent, adult, and elderly.
Pre-req: DTS 210 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 320 Intermediate Nutrition **3 Credit hours**
Builds on knowledge acquired in introductory nutrition, and prepares students for advanced nutrition courses. Development of therapeutic diets, analysis of vitamin and mineral needs, and digestive processes discussed in detail. Builds on knowledge acquired in introductory nutrition, and prepares students for advanced nutrition courses. Development of therapeutic diets, analysis of vitamin and mineral needs, and digestive processes discussed in detail.
Pre-req: DTS 210 with a minimum grade of C and BSC 227 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 403 Advanced Nutrition **3 Credit hours**
An in-depth study of digestion, absorption, and metabolism of macronutrients; maintaining homepstasis in the body is also discussed in relationship to fluid, electrolyte, and acid-base balance. An in-depth study of digestion, absorption, and metabolism of macronutrients; maintaining homepstasis in the body is also discussed in relationship to fluid, electrolyte, and acid-base balance.
Pre-req: DTS 320 with a minimum grade of C and BSC 228 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 409 Nutrition in Community **3 Credit hours**
Nutritional needs of communities and the dietician's role in addressing them are identified, and community nutrition programs are closely examined. Nutritional needs of communities and the dietician's role in addressing them are identified, and community nutrition programs are closely examined.
Pre-req: DTS 210 with a minimum grade of C and DTS 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 410 Cross Cultural Foods **3 Credit hours**
Explores the relationship between food, nutrition, history, geography, culture, traditions, religion, communication, and acculturation. Studies cultural parameters and current issues that have shaped and continue to influence foodways.
Grade Mode: Normal Grading Mode

DTS 460 Research in Dietetics **3 Credit hours**
An introduction to quantitative and qualitative research methodologies with application in the field of dietetics. An introduction to quantitative and qualitative research methodologies with application in the field of dietetics.
Grade Mode: Normal Grading Mode

DTS 468 Chemistry of Food **3 Credit hours**
Experimental study of chemical and physical factors affecting food preparation. Experimental study of chemical and physical factors affecting food preparation.
Pre-req: DTS 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 469 Medical Nutr Therapy I **3 Credit hours**
A study of medical diseases and conditions in relation to medical nutrition therapy and the nutrition care process. A study of medical diseases and conditions in relation to medical nutrition therapy and the nutrition care process.
Pre-req: DTS 320 (may be taken concurrently) with a minimum grade of C and BSC 228 with a minimum grade of C.
Concurrent PR: DTS 320
Grade Mode: Normal Grading Mode

DTS 470 Medical Nutrition Therapy **3 Credit hours**
A continued study of medical diseases and conditions in relation to medical nutrition therapy and the nutrition care process. Case study presentations access critical thinking skills. A continued study of medical diseases and conditions in relation to medical nutrition therapy and the nutrition care process. Case study presentations access critical thinking skills.
Pre-req: DTS 469 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 476 Senior Seminar in DTS **3 Credit hours**
As a synthesis of dietetics program content, students will use food and nutrition knowledge to plan, implement, and evaluate a nutrition education program and prepare for supervised practice. As a synthesis of dietetics program content, students will use food and nutrition knowledge to plan, implement, and evaluate a nutrition education program and prepare for supervised practice.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

DTS 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

DTS 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

Dietetics, B.S.

The Didactic Program in Dietetics (DPD) leads to a Bachelor of Science degree and prepares students for work in clinical nutrition, community health, and foodservice management positions. The DPD is currently granted accreditation by the Accreditation Council for Education in Nutrition and Dietetics (ACEND, 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606-3922, 312-899-4876). The DPD meets the academic standards to qualify students for a dietetics internship (DI). Eligibility to sit for the registration examination, which is necessary to become a Registered Dietitian Nutritionist (RDN), requires students to complete both the undergraduate DPD as well as a post-baccalaureate supervised practice experience in a DI.

Effective January 1, 2024, the Commission on Dietetic Registration (CDR) will require a minimum of a master's degree to be eligible to take the credentialing exam to become a registered dietitian nutritionist. In order to be approved for registration examination eligibility with a bachelor's degree, an individual must meet all eligibility requirements and be submitted into CDR's Registration Eligibility Processing System (REPS) before 12:00 midnight Central Time, December 31, 2023. For more information about this requirement, visit CDR's website: https://www.cdrnet.org/graduatedegree. In addition, CDR requires that individuals complete coursework and a supervised practice program accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND). Graduates who successfully complete the ACEND-accredited Didactic Program in Dietetics at Marshall University are eligible to apply to an ACEND-accredited supervised practice program and apply to take the CDR credentialing exam to become an RDN.

The mission of the DPD at Marshall University is to provide the depth and breadth of food and nutrition knowledge and skills that prepare a student to enter a supervised practice program in dietetics. More specifically, its focus is to provide graduates with the knowledge, skills, and competencies necessary to successfully compete for and complete a DI, as well as pass the registration examination. Each year, coursework builds upon the students' knowledge base and is often enhanced by hands-on laboratory and field experiences.

Competitive admission to a supervised practice experience/ dietetic internship (DI) requires the following:

1. A Grade Point Average of 3.0 or above;
2. Work experience related to the profession of dietetics;
3. Positive letters of recommendation from faculty and from supervisors of dietetics-related work experience.

Completing the Bachelor of Science with a major in Dietetics and receiving an ACEND "Verification of Completion Statement" does not guarantee entrance to a DI, which is awarded on a competitive basis.

All students are required to purchase a laboratory coat for professional laboratory courses. In addition, some field experience sites for senior-level courses may require a current test for tuberculosis to be on file. DPD students are required to pay a Health Professions fee listed under the "Financial Information" section of the catalog.

Academic Policies

1. All dietetics and required non-dietetics courses must be completed with a grade of *C* or higher. Students who earn a grade of less than a *C* in a dietetics or required non-dietetics course must repeat that course.
2. All students who receive a grade of less than a *C* in a dietetics or required non-dietetics course may not register for dietetics courses for which that course is a prerequisite.
3. No required course may be taken on a credit/non-credit basis.
4. The last 60 hours of required dietetics courses (including all 300- and 400-level DTS courses) and non-dietetics courses must be completed within three years prior to graduation.
5. All 400-level DTS courses must be completed at Marshall University.
6. All students in the Dietetics program must maintain a cumulative GPA of at least 2.0. In the event that a student's cumulative GPA falls below 2.0, that student will be placed on academic probation and will be notified in writing of this action. Students have one year to raise their cumulative GPA to 2.0. If the GPA is less than 2.0 at the end of one year of probation, the student will be dismissed from the Dietetics program.
7. Students will not be permitted to enroll in 400-level DTS courses if their GPA is below 2.5.
8. Students enrolled in DTS 476 Senior Seminar in DTS are required to take a series of practice tests in order to better prepare for the national registration examination. Students must score a minimum of 80% on the final practice examination in order to complete the course. Those who do not will be given remedial work until an 80% score is achieved.

Health Sciences

The Health Sciences major offers an interdisciplinary approach designed to develop a strong foundation of core skills in preparation for advanced education in a variety of health careers. All students gain knowledge about critical aspects of health: physical and cognitive function, disease and disability, contemporary public health challenges and opportunities, professional communication, the scientific bases of health care knowledge, and ethical and professional issues associated with our complex health care system. Students learn from accomplished faculty across the disciplines in the College of Health Professions and study side by side with other students who aspire to make a difference in people's lives.

Students will graduate with a Bachelor of Health Sciences degree. Graduates from this program may pursue employment in the health care field (public health, governmental and community agencies, insurance industry, hospitals, or the pharmaceutical industry) or may pursue graduate programs in health informatics, public health, a clinical profession (medicine, occupational therapy, pharmacy, physician assistant, or physical therapy), health administration, business, or law. Careful selection of available courses will optimize admission to desired graduate degree programs. A required capstone will allow students to synthesize what they have learned in their coursework to provide hands-on experience in a health-related environment such as a clinic or agency.

The Health Sciences degree consists of 120 college credit hours. Students may declare the B.H.S. major on admission to the university. Students in the program must maintain a 2.0 grade point average. A maximum of three *D's* in the Health Sciences required courses will be accepted toward the B.H.S. degree.

A list of approved restricted electives is available in the COHP Student Services Offices and from the academic advisors. Any courses not listed that students wish to take as electives must be approved in advance by the academic advisor.

Programs

Courses

- General Education Course

Health Professions

HP 110 Intro to the Health Profession **3 Credit hours**
This course is designed to provide an overview of the health care system and health professions taught within the MU campus and throughout the state.
Grade Mode: Normal Grading Mode

HP 210 Health Sciences Seminar **3 Credit hours**
This course is designed to bring outside non-clinical speakers to discuss professionalism in health care. Students analyze career opportunities and establish non-clinical career expectations.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

HP 240 Intro to Human Diseases in HS **3 Credit hours**
A clinical overview of the common human diseases at a patient and scientist level, with emphasis on bridging the communication gap between health professionals, patients, and the general public.
Grade Mode: Normal Grading Mode

HP 320 Intro to Res in Health Prof **3 Credit hours**
This course covers the basic quantitative and qualitative research techniques used in the health professions.
Pre-req: HP 210 with a minimum grade of D or HP 240 with a minimum grade of D.
Grade Mode: Normal Grading Mode

HP 420 Allied Health Sciences Admin **3 Credit hours**
In this course students will explore and apply allied health sciences principles as they related to the student's focus in the Health Sciences major.
Grade Mode: Normal Grading Mode

HP 450 BHS Senior Seminar **1 Credit hour**
Opportunity for students to explore current topics related to areas of interest.
Grade Mode: Normal Grading Mode

HP 480 Special Topics in HP **1-4 Credit hours**
Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP
Grade Mode: Normal Grading Mode

HP 481 Special Topics in HP **1-4 Credit hours**
Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP
Grade Mode: Normal Grading Mode

HP 482 Special Topics in HP **1-4 Credit hours**
Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP
Grade Mode: Normal Grading Mode

HP 483 Special Topics in HP **1-4 Credit hours**
Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP
Grade Mode: Normal Grading Mode

HP 490 Capstone **3-6 Credit hours**
This course offers an opportunity for students to demonstrate that they have achieved the goals for learning established the Bachelor of Health Sciences Program.
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

Kinesiology

Contacts: Dr. Gary McIlvain, Chair

The School of Kinesiology offers bachelor's degrees in a variety of health professions including biomechanics, exercise science, and sport management. In addition, a 3+2 program in athletic training is offered, which begins at the bachelor's level and leads to a Master of Science in Athletic Training. All program-related courses must be taken for a letter grade and cannot be taken under the credit/no credit grading option.

Programs

- Athletic Training (3+2) (p. 521)
- Biomechanics, B.S. (p. 526)
- Exercise Science, B.S. (p. 529)
- Exercise Science, Minor (p. 534)
- Health and Wellness, Minor (p. 534)

Grade Mode: Normal Grading Mode

ESS 124 Fundamentals of Movement **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

ESS 211 Physiology of Fitness **3 Credit hours**
The student will gain knowledge of behavior change, components of exercise sessions, cardinal principles of conditioning, basics of fitness programming, and instructing individual and group exercise sessions. The student will gain knowledge of behavior change, components of exercise sessions, cardinal principles of conditioning, basics of fitness programming, and instructing individual and group exercise sessions.
Grade Mode: Normal Grading Mode

ESS 215 Intro to Exercise Science **3 Credit hours**
Introductory overview of the current trends and theories in exercise science. Preview the body systems, exercise training, and preparation for professional certification and careers in exercise science.
Grade Mode: Normal Grading Mode

ESS 220 Fitness and Wellness **3 Credit hours**
Course addresses fitness and weight control and modes of change. Primary focus is on goals in nutrition, label identification, nutrient assessment, weight control, and fitness and how to reach them safely.
Grade Mode: Normal Grading Mode

ESS 295 Adult Fitness Prog Indust **2 Credit hours**
Grade Mode: Normal Grading Mode

ESS 301 Phil Sport & Phys Activity **3 Credit hours**
Development of philosophic reasoning skills to better understand the role that philosophy plays in our understanding and conception of physical activity and sport. Development of philosophic reasoning skills to better understand the role that philosophy plays in our understanding and conception of physical activity and sport.
Grade Mode: Normal Grading Mode

ESS 345 Exercise Physiology **3 Credit hours**
Focuses on physiological and functional alterations in response to acute and chronic exercise with emphasis on metabolic, neuroendocrine, neuromuscular, cardiopulmonary, and environmental adaptations. Focuses on physiological and functional alterations in response to acute and chronic exercise with emphasis on metabolic, neuroendocrine, neuromuscular, cardiopulmonary, and environmental adaptations.
Pre-req: BSC 228 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ESS 346 Exercise Physiology Lab **2 Credit hours**
Laboratory course that demonstrates and reinforces concepts pertaining to the effects of exercise on physiological systems. Laboratory course that demonstrates and reinforces concepts pertaining to the effects of exercise on physiological systems.
Pre-req: ESS 345 (may be taken concurrently).
Concurrent PR: ESS 345
Grade Mode: Normal Grading Mode

ESS 365 Tests & Measurements PE **3 Credit hours**
Grade Mode: Normal Grading Mode

ESS 375 Fitness Assess & Exerc Prescr **3 Credit hours**
Focuses on the processes and procedures of physical fitness evaluation and prescription. Emphasis is placed on the design of individual and group exercise programs. Focuses on the processes and procedures of physical fitness evaluation and prescription. Emphasis is placed on the design of individual and group exercise programs.
Pre-req: ESS 345 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ESS 385 Devel Adult Fitness Prog **3 Credit hours**
Pre-req: ESS 345.
Grade Mode: Normal Grading Mode

ESS 386 Adult Fitness **3 Credit hours**
Discuss health risk appraisal and exercise benefits of commonly seen pathophysiology among the U.S. adults.
Pre-req: ESS 345 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ESS 418 Ancient & Medi Sport History **3 Credit hours**
An in-depth investigation of the role of sport in ancient and medieval societies. The course focuses on ancient Greece, Rome, and medieval Europe, but will also briefly cover non-Western cultures. An in-depth investigation of the role of sport in ancient and medieval societies. The course focuses on ancient Greece, Rome, and medieval Europe, but will also briefly cover non-Western cultures.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

ESS 427 Methods Coaching Football **2 Credit hours**
Grade Mode: Normal Grading Mode

ESS 428 Methods Coaching Baseball **2 Credit hours**
Grade Mode: Normal Grading Mode

ESS 429 Methods Coaching Golf **2 Credit hours**
Grade Mode: Normal Grading Mode

ESS 436 Methods Coaching Tennis **2 Credit hours**
Grade Mode: Normal Grading Mode

ESS 437 Method Coach Volleyball **2 Credit hours**
Grade Mode: Normal Grading Mode

ESS 442 Princ of Strength & Cond **3 Credit hours**
Application of strength and conditioning principles in the development and administration of sport-based exercise programs. Emphasis on the teaching of flexibility, powerlifting, Olympic weightlifting, and speed and agility programs. Application of strength and conditioning principles in the development and administration of sport-based exercise programs. Emphasis on the teaching of flexibility, powerlifting, Olympic weightlifting, and speed and agility programs.
Pre-req: HS 365 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ESS 443 Prin of Strength Cond Lab **1 Credit hour**
Laboratory course that demonstrates strength and conditioning skills. Practical application of strength and conditioning principles with emphasis on the teaching of flexibility, powerlifting, Olympic weightlifting, and speed and agility programs. Laboratory course that demonstrates strength and conditioning skills. Practical application of strength and conditioning principles with emphasis on the teaching of flexibility, powerlifting, Olympic weightlifting, and speed and agility programs.
Pre-req: ESS 345 with a minimum grade of D or ESS 321 with a minimum grade of D.
Co-req: ESS 442
Grade Mode: Normal Grading Mode

ESS 447 Advanced Exercise Physiology **3 Credit hours**
The course in Advanced Exercise Physiology will focus on the detailed study of the cardiovascular, endocrine, immune, neuromuscular, and respiratory systems in response to acute and chronic exercise. The course in Advanced Exercise Physiology will focus on the detailed study of the cardiovascular, endocrine, immune, neuromuscular, and respiratory systems in response to acute and chronic exercise.
Pre-req: ESS 345.
Grade Mode: Normal Grading Mode

ESS 476 Theo Prac Aspect Coaching **3 Credit hours**
Grade Mode: Normal Grading Mode

ESS 478 Exercise Metabolism **3 Credit hours**
Pre-req: ESS 345 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ESS 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ESS 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ESS 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ESS 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ESS 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ESS 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ESS 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ESS 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ESS 491 Internship Exercise Science **1-12 Credit hours**
Field internship experience.
Pre-req: ESS 375 with a minimum grade of C.
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

Health Science

HS 122 First Aid Child & Infants **1 Credit hour**
Grade Mode: Normal Grading Mode

HS 200 Comp Medical Terminology (CT) **3 Credit hours**
This course is designed to introduce students to basic medical terminology and basic pharmacology. This course is designed to introduce students to basic medical terminology and basic pharmacology.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

HS 201 Intro Appl Anat & Physiol **3 Credit hours**
Focuses on basic anatomy and physiology as applied to physical activity. Focuses on basic anatomy and physiology as applied to physical activity.
Grade Mode: Normal Grading Mode

HS 212 Practical & Emerging Tech AT **3 Credit hours**
This course introduces students to taping, wrapping, and advanced emergency care techniques used in athletic training. (PR: Admission to the Athletic Training Program)
Grade Mode: Normal Grading Mode

HS 215 Intro to Athletic Training **3 Credit hours**
Survey and study of the basic techniques and practices of athletic training.
Pre-req: HS 200 (may be taken concurrently) with a minimum grade of D or HS 201 (may be taken concurrently) with a minimum grade of D or HS 222 (may be taken concurrently) with a minimum grade of D or BSC 227 (may be taken concurrently) with a minimum grade of D or BSC 332 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: HS 200 or HS 201 or HS 222 or BSC 227 or BSC 332
Grade Mode: Normal Grading Mode

HS 220 Personal Health **3 Credit hours**
A survey course that focuses upon wellness promotion and prevention of various health problems.
Grade Mode: Normal Grading Mode

HS 221 Personal Health II **3 Credit hours**
An examination of the health content areas of mental/emotional health, substance use/abuse, and human sexuality/family life education.
Grade Mode: Normal Grading Mode

HS 222 Hlth Prov First Aid/CPR/AED **3 Credit hours**
First Aid, CPR, and AED skills for health care providers. Additional topics include musculoskeletal injuries, environmental conditions, and sudden illness.
Grade Mode: Normal Grading Mode

HS 230 Orthopedic Skills **3 Credit hours**
An intensive hands-on course for allied health majors that introduces the orthopedic assessment and testing skills needed to perform effective evaluations on the field and in the clinical setting.
Grade Mode: Normal Grading Mode

HS 235 Intro to Worksite Wellness **3 Credit hours**
An introduction to worksite wellness programming including the basic components of an effective wellness program and how to integrate wellness into corporate culture.
Grade Mode: Normal Grading Mode

HS 255 AT Clinical Exp: Level I **2 Credit hours**
To begin developing athletic training evaluation and treatment skills under the direction of a BOC certified Athletic Trainer. Requires 150 clinical hours. (CR: Admission to the Athletic Training Program)
Pre-req: HS 215.
Grade Mode: Normal Grading Mode

HS 265 Fund Video Analysis Mvmt (CT) **3 Credit hours**
Fundamental concepts and techniques for analyzing human movement during sport, exercise, and occupation. Students will develop qualitative and video-based analysis skills as used in sports science labs and rehabilitation clinics.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

HS 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 321 School Health Program **3 Credit hours**
Pre-req: HS 221 or HE 221 or HS 220 or HE 220.
Grade Mode: Normal Grading Mode

HS 335 Worksite Health Assessment **3 Credit hours**
An investigation into worksite health assessment models and modes.
Pre-req: HS 235 with a minimum grade of C.
Grade Mode: Normal Grading Mode

HS 336 Org & Admin Worksite Wellness **3 Credit hours**
This is a course that investigates current trends in worksite wellness organization & administration and provides instruction of wellness and prevention interventions into corporate culture and business plans.
Pre-req: HS 235 with a minimum grade of C.
Grade Mode: Normal Grading Mode

HS 345 Worksite Wellness Prescription **3 Credit hours**
This is a course that investigates prescription of worksite wellness programming based on data collection methods and current industry Best Practices for wellness interventions.
Pre-req: HS 336 with a minimum grade of C.
Grade Mode: Normal Grading Mode

HS 346 Eval Worksite Wellness Program **3 Credit hours**
This course investigates the effectiveness of worksite wellness programming. Students will understand what components of a program should be evaluated and how to calculate return on investment for intervention.
Pre-req: HS 336 with a minimum grade of C.
Grade Mode: Normal Grading Mode

HS 360 AT Clinical Exp: Level II **2 Credit hours**
To continue developing athletic training evaulation and treatment skills under the direction of a BOC certified Athletic Trainer. Requires 150 clinical hours. (PR: HS255)
Pre-req: HS 255.
Grade Mode: Normal Grading Mode

HS 361 AT Clinical Exp: Level III **2 Credit hours**
To continue developing athletic training evaluation and treatment skills under the direction of a BOC certified Athletic Trainer and/or other qualified allied health professionals. Requires 150 clinical hours. (PR: HS360)
Pre-req: HS 360.
Grade Mode: Normal Grading Mode

HS 365 Functional Kinesiology **3 Credit hours**
Applied anatomy of the human musculature and biomechanics in relation to physical activity.
Pre-req: BSC 227 with a minimum grade of D or HS 201 with a minimum grade of D.
Grade Mode: Normal Grading Mode

HS 369 Motor Learning **3 Credit hours**
A study of the factors contributing to the acquisition, improvement and retention of gross motor skills. Stages of motor development and learning will be examined from a behavioral approach.
Grade Mode: Normal Grading Mode

HS 405 Sport Psychology **3 Credit hours**
An examination of theory, research, and application of psychological principles related to sport and exercise.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

HS 410 Organ Admin in Athletic Trng **3 Credit hours**
This is a course that investigates current trends in administration and organization in the field of athletic training. This is a course that investigates current trends in administration and organization in the field of athletic training.
Pre-req: HS 215.
Grade Mode: Normal Grading Mode

HS 423 Ortho Assess Upper Extremity **4 Credit hours**
Orthopedic evaluation techniques of the thoracic and cervical spines and the upper extremities. Anatomy, injury recognition, stress and special testing, treatment protocols, and preventative measure will be examined.
Pre-req: HS 215.
Grade Mode: Normal Grading Mode

HS 424 Ortho Assess Lower Extremity **4 Credit hours**
Orthopedic evaluation techniques of the lumbar spine and the lower extremities. Anatomy, injury recognition, stress and special testing, treatment protocols, and preventative measures will be examined.
Pre-req: HS 215.
Grade Mode: Normal Grading Mode

HS 430 Health Iss in PE & Ath **3 Credit hours**
Grade Mode: Normal Grading Mode

HS 435 Biomech Programs Applications **3 Credit hours**
Students will develop computer programming skills by designing and writing code to process and analyze the biomechanical data they collect. Students will transfer the functions they write to various applications.
Pre-req: HS 365 with a minimum grade of D and PHY 203 (may be taken concurrently) with a minimum grade of D and PHY 204 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 203 and PHY 204
Grade Mode: Normal Grading Mode

HS 440 Health Eval Ath Trn I **3 Credit hours**
Pre-req: HS 423.
Grade Mode: Normal Grading Mode

HS 448 Therapeutic Interventions I **4 Credit hours**
Therapeutic modality application in the initial stages of injury, and modality and therapeutic exercise selection and prescription based upon patient responses for injuries to the lower extremity and lumbar spine.
Pre-req: HS 215.
Grade Mode: Normal Grading Mode

HS 449 Therapeutic Interventions II **4 Credit hours**
Instruction of electrical stimulation modalities and therapeutic exercise rehabilitation of the upper extremity and cervical spine, including post-surgical rehabilitation. Strategies for psychosocial intervention will also be addressed. (PR: HS 448)
Pre-req: HS 448.
Grade Mode: Normal Grading Mode

HS 460 AT Clinical Exp: Level IV **2 Credit hours**
To continue developing athletic training evaluation and treatment skills under the direction of a BOC certified Athletic Trainer and/or other qualified allied health professionals. Requires 150 clinical hours. (PR: HS361)
Pre-req: HS 361.
Grade Mode: Normal Grading Mode

HS 464 Pathomechanics **3 Credit hours**
An investigation into normal and abnormal human movement patterns in sport, the workplace, and in activities of daily living. An investigation into normal and abnormal human movement patterns in sport, the workplace, and in activities of daily living.
Pre-req: HS 365 with a minimum grade of D and HS 465 with a minimum grade of D.
Grade Mode: Normal Grading Mode

HS 465 Biomechanical Analy of Mvmt **3 Credit hours**
An investigation into the science of human motion and its relationship to the envirionment in which it is performed.
Pre-req: HS 365 with a minimum grade of D and PHY 201 with a minimum grade of D and PHY 202 with a minimum grade of D.
Grade Mode: Normal Grading Mode

HS 475 Trends in Biomechanics **3 Credit hours**
Pre-req: HS 465 with a minimum grade of D and HS 365 with a minimum grade of D.
Grade Mode: Normal Grading Mode

HS 478 Research Practicum Biomechanic **3-6 Credit hours**
This course offers "hands-on" work within the biomechanics lab. The student will assist with current research. This experience that allows students to gain practical experience within a lab setting.
Pre-req: BSC 227 with a minimum grade of D.
Grade Mode: Normal Grading Mode

HS 479 Trends Ath Trng **3 Credit hours**
Pre-req: HS 361.
Grade Mode: Normal Grading Mode

HS 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 490 Internship **1-8 Credit hours**
Supervised clinical experience in an approved setting. Can be repeated for a total of 8hrs. Capstone experience requires 3hrs minimum in one term. (PR: program permission)
Pre-req: HS 475 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

HS 495 Trends in Biomechanics II **3 Credit hours**
A final investigation into normal and abnormal human movement patterns in sport, the workplace, and activities of daily living.
Pre-req: HS 475 with a minimum grade of D.
Grade Mode: Normal Grading Mode

Phys Ed Lifetime Activities

PEL 100 Beginning Swimming **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 113 Basketball **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 114 Beginning Archery **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 115 Body Condition W/Weights **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 116 Beginning Wrestling **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 117 Riflery **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 118 Indoor Cycling **1 Credit hour**
Designed to promote fitness through spinning.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

PEL 119 Total Body Conditioning **1 Credit hour**
Designed to help instruct both men and women with a variety of lifetime fitness activities.
Grade Mode: Normal Grading Mode

PEL 120 Self Defense **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 121 Taekwondo **2 Credit hours**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 125 Beginning Gymnastics **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 127 Aerobics-Personal Fitness **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 132 Beginning Volleyball **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 133 Beginning Softball **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 140 Beginning Tennis **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 141 Beginning Golf **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 142 Beginning Badminton **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 145 Beginning Bowling **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 147 Beginning Soccer **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 155 Beginning Folk Dance **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 156 Beginning Square Dance **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 159 Beginning Social Dance **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 170 Beginning Racquetball **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 171 Beginning Handball **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 173 Rock Climbing **1 Credit hour**
Through activity, the students will learn the fundamentals and techniques of rock climbing.
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 175 Core Conditioning **1 Credit hour**
Designed to help instruct both men and women on numerous activities to help strengthen the abdominal region of the body which can then be incorporated into their workout program.
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 180 Yoga **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 205 Intermediate Swimming **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 220 Advanced Self Defense **1 Credit hour**
Builds on techniques and strategies from PEL 120, adds defenses against the edged weapon and firearm. Course covers more prone defense strategies, multiple subject encounters and low and diffused light simulation.
Pre-req: PEL 120 with a minimum grade of D.
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 232 Intermediate Volleyball **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 233 Intermediate Gymnastics **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 234 Intermediate Wrestling **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 235 Intermediate Softball **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 240 Intermediate Tennis **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 242 Intermediate Badminton **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 243 Intermediate Basketball **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 245 Intermediate Bowling **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 251 Intermediate Soccer **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 252 Touch Football **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 258 Intermediate Square Dance **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 259 Intermediate Social Dance **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 270 Intermediate Racquetball **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 271 Intermediate Handball **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 275 Scuba Diving **2 Credit hours**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 280 Special Topics **1-4 Credit hours**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 281 Special Topics **1-4 Credit hours**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 282 Special Topics **1-4 Credit hours**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 283 Special Topics **1-4 Credit hours**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 290 Intermediate Yoga **1 Credit hour**
This course is an intermediate yoga class building off of beginning yoga. It will focus on poses, breathing, relaxation, and meditation.
Pre-req: PEL 180 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PEL 403 Adv Swim & Life Saving **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 404 Water Safety Instruction **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 405 Lifeguarding **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

Assistant Professors
Leigh, Johnson

Athletic Training (3+2)

Athletic training is practiced by athletic trainers, health care professionals who collaborate with physicians to optimize activity and participation of patients and clients. Athletic training encompasses the prevention, diagnosis, and intervention of emergency, acute, and chronic medical conditions involving impairment, functional limitations, and disabilities (www.NATA.org (http://www.NATA.org)).

Students who wish to complete the Athletic Training Program (ATP) will begin at the undergraduate level for the first three years and complete the foundation courses that serve as prerequisites to apply to the program. Once completing these courses the student will apply to the program and, if accepted, will directly be admitted into the program which will allow them to finish in two years, thus completing the Professional Master of Science in Athletic Training degree.

Specifically, during the first three years at MU, students will be taking required core courses and Athletic Training prerequisite courses (i.e., anatomy, physiology, kinesiology, exercise physiology, etc.), in addition to courses required to apply to graduate and other professional programs the student may be interested in pursuing. During the final two years and assuming that the student has applied and been accepted into the ATP, he/she will then enroll in the required Athletic Training core courses. The M.S. in Athletic Training prepares students to become entry-level athletic trainers and qualifies them to take the BOC Exam (national board exam). The ATP is a rigorous academic program that includes coursework in athletic training and other science-related courses, in addition to required clinical education experiences.

A degree in Athletic Training offers graduates opportunities to practice in a variety of clinical settings. These settings include, but are not limited to, high school, college, and professional athletics; outpatient clinics; industrial rehabilitation sites; physician practices; the performing arts; safety settings, and higher education. The Athletic Training curriculum includes eight areas of emphasis: Comprehensive, Health Communication, Pre-Med, Pre-Physical Therapy, Pre-Physician's Assistant, Occupational Safety and Health, Pre-Chiropractic, and Safety.

Admission Criteria

Acceptance into the Athletic Training program is competitive and not guaranteed. Prospective students must meet the following minimum criteria to be considered for admission to the program:

- Admission to Marshall University;
- Declared Athletic Training as a major, including area of emphasis;
- An overall minimum cumulative GPA of 2.75.
- A letter grade of *C* or better on all required prerequisite athletic training coursework:

Code	Title	Credit Hours
BSC 227 & BSC 227L	Human Anatomy and Human Anatomy Lab	4
BSC 228 & BSC 228L	Human Physiology and Human Physiology Lab	4
DTS 210	Nutrition	3
EDF 417	Statistical Methods (or equivalent)	3
ESS 345	Exercise Physiology	3
HS 200	Comp Medical Terminology (CT)	3
HS 215	Intro to Athletic Training	3
HS 220	Personal Health	3
HS 222	Hlth Prov First Aid/CPR/AED	3
HS 365	Functional Kinesiology	3
PSY 201	Introductory Psychology (CT)	3

- Completion of all required MU core courses
- Completion of a minimum of 90 credit hours
- Submit all necessary documents to apply to the Athletic Training Program. For information and details go to www.marshall.edu/athletic-training (http://www.marshall.edu/athletic-training/).
- Completion of directed observation experience requirements as outlined by the Marshall University ATP
- Successful interview (*Note*: interviews are extended during the spring semester with applications due in early March)
- Ability to meet the Technical Standards of Admission documented by a licensed physician

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Prerequisites

Prospective students must have already taken or be currently enrolled in the following when applying to the Athletic Training Program.

Code	Title	Credit Hours
Prerequisites		
All required MU core courses		
BSC 227	Human Anatomy (or equivalent)	3
BSC 227L	Human Anatomy Lab	1
BSC 228	Human Physiology	3
BSC 228L	Human Physiology Lab	1

DTS 210	Nutrition	3
Statistics		
Select one of the following:		
BSC 417	Biostatistics	
EDF 417	Statistical Methods	
PSY 417	Inter Behavioral Stat	
STA 225	Introductory Statistics (CT)	
ESS 345	Exercise Physiology	3
HS 200	Comp Medical Terminology (CT)	3
HS 215	Intro to Athletic Training	3
HS 220	Personal Health	3
HS 222	Hlth Prov First Aid/CPR/AED	3
HS 365	Functional Kinesiology	3
PSY 201	Introductory Psychology (CT)	3

Recommended Courses

Code	Title	Credit Hours
Ethics (Sport or Medical Ethics)		
Global Health		
Intro to Epidemiology		
Exercise Testing		
Sport Law		
Strength & Conditioning		

Areas of Emphasis

The Area of Emphasis must be completed prior to applying for the Professional Master of Science in Athletic Training degree. For additional information and details on the program, including the Athletic Training courses and the clinical education experiences that are required once admitted to the Athletic Training program, please refer to the *Graduate Catalog*.

Areas of Emphasis

- Athletic Training Comprehensive, Emphasis (p. 522)
- Athletic Training Health Communication, Emphasis (p. 524)
- Athletic Training Occupational Safety & Health, Emphasis (p. 524)
- Athletic Training Pre-Chiropractic, Emphasis (p. 524)
- Athletic Training Pre-Med, Emphasis (p. 525)
- Athletic Training Pre-Physical Therapy, Emphasis (p. 525)
- Athletic Training Pre-Physician's Assistant, Emphasis (p. 525)
- Athletic Training Safety, Emphasis (p. 526)

Athletic Training Comprehensive, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Course offerings and course attributes are subject to change semesters. Please consult each semesters schedule of courses for availability and attributes.
- Acceptance into the Athletic Training program is competitive and not guaranteed. Prospective students must meet the following minimum criteria to be considered for admission to the program:
  - Admission to Marshall University;
  - Declared Athletic Training as a major, including area of emphasis;
  - An overall minimum cumulative GPA of 3.0. For students planning to apply in Spring, a letter grade of *"C"* or better on all required prerequisite athletic training coursework.
  - Completion of all required MU core courses.
  - Completion of a minimum of 90 credit hours.
  - Completion of directed observation experience requirements as outlined by the Marshall University ATP.
  - Successful interview (*Note*: interviews are extended during the spring semester with applications due in early March)
  - Ability to meet the Technical Standards of Admission documented by a licensed physician.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Athletic training is practiced by athletic trainers, health care professionals who collaborate with physicians to optimize activity and participation of patients and clients. Athletic training encompasses the prevention, diagnosis, and intervention of emergency, acute, and chronic medical conditions involving impairment, functional limitations, and disabilities (www.NATA.org (http://www.NATA.org)). Students who wish to complete the Athletic Training Program (ATP) will begin at the undergraduate level for the first three years and complete the foundation courses that serve as prerequisites to apply to the program. Once completing these courses the student will apply to the program and, if accepted, will directly be admitted into the program which will allow them to finish in two years.

CHM 217	Principles of Chem Lab I	2
CHM 212	Principles Chemistry II	3
CHM 218	Principles of Chem Lab II	2
SFT 235	Intro to Occup Safety (CT)	3
SFT 372	Safety & Industrial Tech	3
SFT 373	Prin Ergonomics & Hum Factors	3
SFT 373L	Prin of Ergonomics Lab	1
SFT 453	International Safety & Health	3
SFT 499	Dev & Mgt of Occup Safety Prog	3
PSY 311	Child Development	3
PSY 312	Adult Development	3
Total Credit Hours		**40**

Summer School will be required to complete this degree in four years.

Athletic Training Pre-Chiropractic, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Students will complete the following in addition to the core courses:

Code	Title	Credit Hours
PHY 201	College Physics I	3
PHY 202	General Physics I Laboratory	1
CHM 211	Principles of Chemistry I	3
CHM 217	Principles of Chem Lab I	2
CHM 212	Principles Chemistry II	3
CHM 218	Principles of Chem Lab II	2
CHM 355	Organic Chemistry I	3
CHM 356	Organic Chemistry II	3
BSC 120 & BSC 120L	Principles of Biology I and Principles of Biology I Lab	4
BSC 121 & BSC 121L	Principles of Biology II and Prin of Biology II Lab	4
PSY 311	Child Development	3
PSY 312	Adult Development	3
Total Credit Hours		**34**

Summer School will be required to complete this degree in four years. There are no electives available for students.

Athletic Training Pre-Med, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Students will complete the following in addition to the core courses:

Code	Title	Credit Hours
PHY 201	College Physics I	3
PHY 202	General Physics I Laboratory	1
PHY 203	College Physics II	3
PHY 204	General Physics 2 Laboratory	1
CHM 211	Principles of Chemistry I	3
CHM 217	Principles of Chem Lab I	2
CHM 212	Principles Chemistry II	3
CHM 218	Principles of Chem Lab II	2
CHM 355	Organic Chemistry I	3
CHM 356	Organic Chemistry II	3
CHM 361	Intro Organic Chm Lab	3
BSC 120 & BSC 120L	Principles of Biology I and Principles of Biology I Lab	4
BSC 121 & BSC 121L	Principles of Biology II and Prin of Biology II Lab	4
PSY 311	Child Development	3
PSY 312	Adult Development	3
Total Credit Hours		**41**

Summer School will be required to complete this degree in four years.

Athletic Training Pre-Physical Therapy, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Students will complete the following in addition to the core courses:

Code	Title	Credit Hours
PHY 201	College Physics I	3
PHY 202	General Physics I Laboratory	1
PHY 203	College Physics II	3
PHY 204	General Physics 2 Laboratory	1

CHM 217	Principles of Chem Lab I	2
CHM 212	Principles Chemistry II	3
CHM 218	Principles of Chem Lab II	2
PSY 311	Child Development	3
PSY 312	Adult Development	3
BSC 120 & BSC 120L	Principles of Biology I and Principles of Biology I Lab	4
BSC 121 & BSC 121L	Principles of Biology II and Prin of Biology II Lab	4
Total Credit Hours		**32**

Summer school will be required to complete this degree in four years. There are no electives available for students.

Athletic Training Pre-Physician's Assistant, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Students will complete the following in addition to the core courses:

Code	Title	Credit Hours
CHM 211	Principles of Chemistry I	3
CHM 217	Principles of Chem Lab I	2
CHM 212	Principles Chemistry II	3
CHM 218	Principles of Chem Lab II	2
CHM 365	Introductory Biochemistry	3
BSC 120 & BSC 120L	Principles of Biology I and Principles of Biology I Lab	4
BSC 121 & BSC 121L	Principles of Biology II and Prin of Biology II Lab	4
BSC 302	Principles of Microbiology	3
PSY 311	Child Development	3
PSY 312	Adult Development	3
Total Credit Hours		**30**

Summer School will be required to complete this degree in four years. There are no electives available for students.

Athletic Training Safety, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Students will complete the following in addition to the core courses:

Code	Title	Credit Hours
SFT 235	Intro to Occup Safety (CT)	3
SFT 372	Safety & Industrial Tech	3
SFT 375	Construction Safety I	3
SFT 378	Safety Eval & Measurement	3
SFT 458	Hospital Safety	3
SFT 460	Safety Training Methods	3
PSY 311	Child Development	3
PSY 312	Adult Development	3
Total Credit Hours		**24**

Biomechanics, B.S.

Biomechanics is the analysis of human movement to enhance performance, improve training, accelerate rehabilitation, and reduce injury risk. This is done by integrating various mechanical aspects of human movement during static and dynamic activities. The Biomechanics degree applies physics and math principles to study the interactions between humans and various machine systems in both working and living environments. Students will be exposed to specialized equipment to help measure the interaction of humans with their environment. Force plates and accelerometers measure forces generated by various segments of the body and then exerted externally to the body. Muscle activation is measured through electromyography. Motion analysis, using video to create three-dimensional reconstructions, measures body positions, velocities, and accelerations.

The degree in Biomechanics provides students with the background and skills needed to create work and living environments which improve human health and enhance performance. This is a fast growing healthcare related field that is undergoing an increasing demand for this type of specialization. Biomechanical scientists are found in a wide variety of settings, including research and development, universities, sports performance centers, industrial and commercial settings, sports medicine clinics, hospitals, private practice, and the military.

Admission Criteria

Prospective students must meet the minimum criteria listed below to be considered for admission to the program:

- Admission to Marshall University;
- An overall cumulative minimum GPA of 2.75 to continue in the degree program beyond the sophomore year;
- A *C* or better in all required coursework;
- Declared Biomechanics as a major, including preferred area of emphasis if applicable.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Course offerings and course attributes are subject to change semesters. Please consult each semester's schedule of courses for availability and attributes.
- **Math Requirement:** The biomechanics math requirement is for MTH 132 Precalculus with Sci Applica only (a pre-requisite for Physics 1). Students need an ACT Math score of 24+ to be eligible for MTH 132 Precalculus with Sci Applica. For students with a lower ACT Math score, we allow them to take two courses as an alternative: Algebra (MTH 130 College Algebra with ACT 21+ or MTH 127 College Algebra-Expanded with ACT 17+) and then Trigonometry (MTH 122 Plane Trigonometry) over two semesters.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Biomechanics is the analysis of human movement to enhance performance, improve training, accelerate rehabilitation, and reduce injury risk. BSC 120 & BSC 120L	Principles of Biology I and Principles of Biology I Lab	4
BSC 121 & BSC 121L	Principles of Biology II and Prin of Biology II Lab	4
Total Credit Hours		**105**

Summer school will be required to complete this degree in four years. There are no electives available for students. A minimum of 120 hours are required to graduate.

Biomechanics Safety, Emphasis

Major

A minimum of 120 hours are required to graduate. In addition to the 87-hour professional core, students will complete:

Code	Title	Credit Hours
Professional Core Courses		87
SFT 372	Safety & Industrial Tech	3
SFT 375	Construction Safety I	3
SFT 378	Safety Eval & Measurement	3
SFT 458	Hospital Safety	3
SFT 460	Safety Training Methods	3
Total Credit Hours		**102**

Exercise Science, B.S.

Exercise Science is a scientific program of study that focuses on the anatomy, physiology, biochemistry, and biophysics of human movement, and applications to exercise and therapeutic rehabilitation. Examples of coursework include instruction in clinical exercise physiology, exercise physiology, biomechanics, fitness assessment and exercise prescription, energy metabolism, and strength and conditioning.

Exercise Science prepares qualified professionals for employment in health and fitness centers, hospital based health and wellness programs, corporate based health and wellness programs, cardiac rehabilitation, strength and conditioning, and allied health areas. Additionally, the program prepares students for advanced study in related fields such as exercise physiology, biomechanics, occupational therapy, physical therapy, physician assistant, medicine, and chiropractic medicine.

The Exercise Science program comprises two areas of emphasis, which include Clinical Exercise Physiology and Applied Exercise Physiology.

Admission Requirements

Prospective students must meet the minimum criteria listed below to be considered for admission to the program.

- Admission to Marshall University
- Declared Exercise Science as a major, including preferred area of emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Courses in this category **may not** be completed under the credit/non-credit option.

A. Core Curriculum

B. Exercise Science Professional Core 79 hours

Code	Title	Credit Hours
BSC 227 & BSC 227L	Human Anatomy and Human Anatomy Lab	4
BSC 228 & BSC 228L	Human Physiology and Human Physiology Lab	4
DTS 210	Nutrition	3
ESS 215	Intro to Exercise Science	3
ESS 345	Exercise Physiology	3

ESS 491	Internship Exercise Science (minimum 6 credit hours required; maximum 12 credit hours)	6-12
HS 200	Comp Medical Terminology (CT)	3
HS 222	Hlth Prov First Aid/CPR/AED	3
HS 365	Functional Kinesiology	3
PSY 201	Introductory Psychology (CT)	3
PSY 223	Elem Behavioral Stat	3

PSY 440	Physiological Psychology	3
Any 3-credit-hour developmental course		3
Any 3-credit-hour ethics course		3
Any 3-credit hour free elective		3

C. Area of Emphasis (Students must choose one)
   1. Clinical Exercise Physiology
   2. Applied Exercise Physiology

Other Requirements

D. Core Curriculum

E. Must be at least senior status into the summer of the last academic year and must have completed ESS 375 Fitness Assess & Exerc Prescr prior to starting the internship experience (completions of ESS 386 Adult Fitness, ESS 442 Princ of Strength & Cond, and ESS 443 Prin of Strength Cond Lab are strongly recommended).

F. Graduation Requirements:
   a. An overall cumulative minimum GPA of 2.50
   b. A *C* or better on all required coursework
   c. Minimum 120 semester hours

Options

All students who complete this undergraduate program are eligible to take the following exams:

- The Certified Strength and Conditioning Specialist (CSCS)
- The ACSM certifications:
  - Personal Trainer
  - Health Fitness Specialist

Areas of Emphasis

- Applied Exercise Physiology, Emphasis (p. 530)
- Clinical Exercise Physiology, Emphasis (p. 532)

Applied Exercise Physiology, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

MGT 354	Health Care Delivery Systems [2]	3
ENT 360	Intro to Entrepreneurship	3

PHY 101	Conceptual Physics	3
PHY 101L	Conceptual Physics Lab	1

[1] Must be at least senior status into the summer of the last academic year and must have completed ESS 375 Fitness Assess & Exerc Prescr prior to starting the internship experience (completions of ESS 386 Adult Fitness, ESS 442 Princ of Strength & Cond, and ESS 443 Prin of Strength Cond Lab are strongly recommended).

[2] Five required courses, MKT 340; MGT 320, 350, 354, and ENT 360, can be replaced by Minor in Sport Management requirement courses STHM 250, 380, and 410 and 2 from [STHM 381, 401, 403, 416, 470].

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Course offerings and course attributes are subject to change semesters. Please consult each semester's schedule of courses for availability and attributes.
- A grade of *C* or better on all required coursework is required for graduation.
- Courses listed in "Area of Emphasis Specific" are suggested courses. Students should discuss with advisor and select courses based on their career interests.
- Students may need to take extra courses to satisfy prerequisites.
- Graduation Requirements:
  - A minimum of 120 credit hours;
  - A minimum grade of C in Exercise Science core courses; and
  - A minimum GPA of 2.5 in Exercise Science core courses. (Exercise Science majors must maintain the minimum 2.5 GPA in Exercise Sceince core courses after the first semester in which they are enrolled.)

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Exercise Science is a scientific program of study that focuses on the anatomy, physiology, biochemistry, and biophysics of human movement, and applications to exercise and therapeutic rehabilitation. Examples of coursework include instruction in clinical exercise physiology, exercise physiology, biomechanics, fitness assessment and exercise prescription, energy metabolism, and strength and conditioning. Exercise Science prepares qualified professionals for employment in health and fitness centers, hospital based health and wellness programs, corporate based health and wellness programs, cardiac rehabilitation, strength and conditioning, and allied health areas.

[1] Must be at least senior status into the summer of the last academic year and must have completed ESS 375 Fitness Assess & Exerc Prescr prior to starting the internship experience (completions of ESS 386 Adult Fitness, ESS 442 Princ of Strength & Cond, and ESS 443 Prin of Strength Cond Lab are strongly recommended).

Major Information

- Courses listed in "Area of Emphasis Specific" are suggested courses. Students should discuss with advisor and select courses based on their career interests. The following electives are suggested for students planning to pursue professional school:
  - for PT school application:

Code	Title	Credit Hours
PHY 201	College Physics I	3
PHY 202	General Physics I Laboratory	1
PHY 203	College Physics II	3
PHY 204	General Physics 2 Laboratory	1

- for PA school application:

Code	Title	Credit Hours
BSC 302	Principles of Microbiology	3
BSC 304	Microbiology Lab	2
CHM 355	Organic Chemistry I [1]	3
CHM 356	Organic Chemistry II [1]	3
CHM 361	Intro Organic Chm Lab [1]	3

[1] CHM 355, CHM 356, and CHM 361 may be replaced by BSC 365 or others.

- for OT school application:

Code	Title	Credit Hours
PSY 311	Child Development	3
PSY 408	Abnormal Psychology	3
SOC 440	Intro to the Soc of Aging	3
ANT 201	Cultural Anthropology (CT)	3

Or others

- for Cardiac rehabilitation specialist:

Code	Title	Credit Hours
HP 210	Health Sciences Seminar	3
HP 420	Allied Health Sciences Admin	3
HP 480	Special Topics in HP	1-4
HS 481	Special Topics	1-4

Or others

- Students may need to take extra courses to satisfy prerequisites.
- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Course offerings and course attributes are subject to change each semester. Please consult each semester's schedule of courses for availability and attributes.
- Graduation Requirements:
  - A minimum of 120 credit hours;
  - A minimum grade of C in Exercise Science core courses; and
  - A minimum GPA of 2.5 in Exercise Science core courses. (Exercise Science majors must maintain the minimum 2.5 GPA in Exercise Sceince core courses after the first semester in which they are enrolled.)

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Medical Imaging

Contacts: Debby Moore, M.S., RT(R)(CT)(ARRT), Program Director
Website: http://www.marshall.edu/cohp (http://www.marshall.edu/cohp/)

The Bachelor of Science in Medical Imaging is a cooperative program between St. Mary's Medical Center School of Medical Imaging (SOMI) and Marshall University that will prepare the student for professional employment as a radiographer or sonographer. Graduates of the program are eligible to take either the primary certification in radiography administered by American Registry of Radiologic Technologists (ARRT) or sit for the Diagnostic Medical Sonography or Vascular Sonography exam administered by the American Registry of Diagnostic Medical Sonographers. In addition, graduates in the radiography track will be academically prepared to sit for a post-primary certification in an advanced imaging modality.

Graduates must complete all university graduation requirements prior to sitting for the ARRT or ARDMS exam. Due to the time-sensitive nature of the clinical requirements of the certification exams, students must complete all degree requirements within 36 months of entering the SOMI. This does not include the Year One coursework completed at Marshall University.

- Year One focuses on general education requirements and program-specific prerequisites.
- Year 2 focuses on basic medical imaging.
- Students select the radiography track or sonography track in Year 3. Sonography will have a limited number of students and admission will be selective.
- Year 4 will be advanced imaging modalities in either radiography or sonography.

Students are expected to complete all requirements of the SOMI as well as graduation requirements of the university within four (4) years.

Accreditations

- The Bachelor of Science in Medical Imaging Radiography program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT), 20 N. Wacker Drive, Suite 2850, Chicago, IL 60606-3182, phone 312-704-5300, status: 8 year accreditation (maximum offered). It is also accredited by the West Virginia Medical Imaging and Radiation Therapy Technology Board of Examiners. 1715 Flat Top Road, PO BOX 638, Cool Ridge, WV 25825, phone 304-787-4398.
- The sonography program is accredited by The Joint Review Commission in Diagnostic Medical Sonography, www.jrcdms.org (http://www.jrcdms.org) and the Commission on Accreditation of Allied Health Programs; http://ras.caahep.org/.

Tuition Assistance Program

The Marshall University Employee Dependent Undergraduate Tuition Assistance Program cannot be used to cover the tuition and fees of the St. Mary's/Marshall University cooperative programs, which include medical imaging, nursing, and respiratory care. These programs are classified as third-party waiver programs, which are exempted from the Employee Dependent Tuition Assistance Program.

Medical Imaging Professional-Level Completion Program

Applicants with ARRT certification in Radiography, Nuclear Medicine or Radiation Therapy, or ARDMS certification in sonography, may apply for admission into the Professional component to complete the criteria for one of the specialization tracks and to earn a Bachelor of Science – Medical Imaging degree. The completion program uses a 2+2 ladder concept.

Admission requirements include:

1. Demonstration of professional credentials
2. Completion of graduation requirements. Students whose radiography coursework or other coursework was not completed at SMMC SOMI/Marshall University, will be required to satisfy the general education graduation requirements prior to enrolling in the MI program.

   This will vary depending upon the applicant's prior college coursework. Each applicant will be considered on an individual basis. Applicant will receive 55 credit hours for their prior radiology education. Applicants will use the independent study option to raise their imaging coursework to the credit hour level of the SMMC SOMI student (year 2-3). The particular course of the independent study will be determined between the student and the program director.

Programs

- Medical Imaging Radiography, B.S. (p. 539)

Courses

- General Education Course

MI 201 Intro to Radiography **3 Credit hours**
Provides an overview of the foundations in radiography and the practitioner's role in the health care delivery system and professional responsibilities of the radiographer. Provides an overview of the foundations in radiography and the practitioner's role in the health care delivery system and professional responsibilities of the radiographer.
Pre-req: BSC 228 and MTH 121 and PHY 101.
Grade Mode: Normal Grading Mode

MI 202 Patient Care Img Science **3 Credit hours**
Content is designed to identify the role of the radiographer in patient care, including consideration for the physical and psychological needs of the patient and family. Content is designed to identify the role of the radiographer in patient care, including consideration for the physical and psychological needs of the patient and family.
Pre-req: BSC 228 and MI 201.
Co-req: MI 203, MI 204, MI 205, MI 206
Grade Mode: Normal Grading Mode

MI 204 Radiographic Anatomy **3 Credit hours**
Content is designed to introduce the student to radiographic anatomy. Emphasis is placed on identifying structures visible on correctly performed radiographic procedures. Content is designed to introduce the student to radiographic anatomy. Emphasis is placed on identifying structures visible on correctly performed radiographic procedures.
Pre-req: BSC 228.
Co-req: MI 202, MI 203, MI 205, MI 206
Grade Mode: Normal Grading Mode

MI 205 Imaging Procedures I **4 Credit hours**
Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Students will practice imaging procedures in lab prior to performing them on patients. Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Students will practice imaging procedures in lab prior to performing them on patients.
Pre-req: BSC 228.
Co-req: MI 202, MI 203, MI 204, MI 206
Grade Mode: Normal Grading Mode

MI 206 Clinical Practice I **4 Credit hours**
Content and clinical practice experiences are designed to sequentially develop, apply, critically analyze, integrate, synthesize and evaluate concepts and theories in the performance of radiologic procedures. Content and clinical practice experiences are designed to sequentially develop, apply, critically analyze, integrate, synthesize and evaluate concepts and theories in the performance of radiologic procedures.
Co-req: MI 202, MI 203, MI 204, MI 205
Grade Mode: Normal Grading Mode

MI 207 Imaging Procedures II **4 Credit hours**
Content is designed to provide the knowledge base necessary to perform special imaging procedures and basic computed tomography. Content is designed to provide the knowledge base necessary to perform special imaging procedures and basic computed tomography.
Pre-req: BSC 228 with a minimum grade of D and MI 206 with a minimum grade of D.
Co-req: MI 208, MI 209, MI 210, MI 211
Grade Mode: Normal Grading Mode

MI 208 Pharmacology for Imaging Sci **2 Credit hours**
Content is designed to provide basic concepts of pharmacology including delivery of and pharmacodynamics associated with imaging contrast media. Content is designed to provide basic concepts of pharmacology including delivery of and pharmacodynamics associated with imaging contrast media.
Pre-req: BSC 227 with a minimum grade of D and MI 206 with a minimum grade of D.
Co-req: MI 207, MI 209, MI 210, MI 211
Grade Mode: Normal Grading Mode

MI 209 Intro to Imaging Equip **3 Credit hours**
Content is designed to provide knowledge in radiographic, fluoroscopic, mobile and tomographic equipment requirements and design. Content is designed to provide knowledge in radiographic, fluoroscopic, mobile and tomographic equipment requirements and design.
Pre-req: MTH 121 with a minimum grade of D and PHY 101 with a minimum grade of D and PHY 101L with a minimum grade of D.
Co-req: MI 207, MI 208, MI 210, MI 211
Grade Mode: Normal Grading Mode

MI 210 Clinical Practice II **4 Credit hours**
Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Students will begin clinical rotations in computed tomography. Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Students will begin clinical rotations in computed tomography.
Pre-req: MI 206 with a minimum grade of D.
Co-req: MI 207, MI 208, MI 209, MI 211
Grade Mode: Normal Grading Mode

MI 211 Seminar Imaging Science **1 Credit hour**
Introduces student to current research in imaging science. Emphasis will be on oral communication via power point presentations. Introduces student to current research in imaging science. Emphasis will be on oral communication via power point presentations.
Co-req: MI 207, MI 208, MI 209, MI 210
Grade Mode: Normal Grading Mode

MI 212 Seminar Imaging Sciences II **1 Credit hour**
Seminar on new and emerging technologies in imaging sciences.
Grade Mode: Normal Grading Mode

MI 213 Elective Clinical Practicum I **4 Credit hours**
Elective clinical practicum in radiography or sonography.
Grade Mode: Normal Grading Mode

MI 214 Intro to Sonography **3 Credit hours**
This course introduces the basic principles of sonography.
Grade Mode: Normal Grading Mode

MI 302 Princ of Radiation Physics **3 Credit hours**
Introduces student to the nature and characteristic of radiation production and the fundamentals of photon interactions with matter. Course covers principles associated with radiography, nuclear medicine and radiation oncology. Introduces student to the nature and characteristic of radiation production and the fundamentals of photon interactions with matter. Course covers principles associated with radiography, nuclear medicine and radiation oncology.
Pre-req: PHY 101 and PHY 101L and MTH 121 and MI 209.
Co-req: MI 303, MI 304, MI 305, MI 306
Grade Mode: Normal Grading Mode

MI 303 Image Acquisition **3 Credit hours**
Introduces students to the factors that govern the image production process. Introduces students to the factors that govern the image production process.
Pre-req: MTH 121 and MI 209.
Co-req: MI 302, MI 304, MI 305, MI 306
Grade Mode: Normal Grading Mode

MI 304 Radiographic Pathology **3 Credit hours**
Introduces student to concepts related to disease and etiological considerations with emphasis on radiographic appearance of disease and impact on exposure factor selection. Introduces student to concepts related to disease and etiological considerations with emphasis on radiographic appearance of disease and impact on exposure factor selection.
Pre-req: BSC 228 with a minimum grade of D and MI 204 with a minimum grade of D.
Co-req: MI 302, MI 303, MI 305, MI 306
Grade Mode: Normal Grading Mode

MI 305 Clinical Practice IV **4 Credit hours**
Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Clinical practice is sequential. Students will be introduced to special imaging modalities. Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Clinical practice is sequential. Students will be introduced to special imaging modalities.
Pre-req: MI 301.
Co-req: MI 302, MI 303, MI 304, MI 306
Grade Mode: Normal Grading Mode

MI 306 Seminar Imaging Science **1 Credit hour**
Introduces student to current research in imaging science. Introduces student to current research in imaging science.
Co-req: MI 302, MI 303, MI 304, MI 305
Grade Mode: Normal Grading Mode

MI 307 Radiobiology **3 Credit hours**
This course focuses on the biological impact of ionizing radiation.
Pre-req: BSC 228 and CHM 203 and MI 302.
Co-req: MI 308, MI 309, MI 310
Grade Mode: Normal Grading Mode

MI 308 Rad Image Analysis **2 Credit hours**
Content is designed to provide a basis for analyzing and critiquing radiographic images. Content is designed to provide a basis for analyzing and critiquing radiographic images.
Pre-req: MI 303 with a minimum grade of D and MI 304 with a minimum grade of D and MI 208 with a minimum grade of D.
Co-req: MI 307, MI 309, MI 310
Grade Mode: Normal Grading Mode

MI 309 Digital Image Acquisition **2 Credit hours**
Content is designed to impart an understanding of the components, principles and operation of digital imaging systems found in diagnostic radiography. Content is designed to impart an understanding of the components, principles and operation of digital imaging systems found in diagnostic radiography.
Pre-req: MI 303 with a minimum grade of D.
Co-req: MI 305, MI 307, MI 310
Grade Mode: Normal Grading Mode

MI 310 Clinical Practice V **4 Credit hours**
Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Clinical practice is sequential. Students will be introduced to special imaging modalities. Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Clinical practice is sequential. Students will be introduced to special imaging modalities.
Pre-req: MI 210 with a minimum grade of D and MI 301 with a minimum grade of D and MI 305 with a minimum grade of D.
Co-req: MI 307, MI 308, MI 309
Grade Mode: Normal Grading Mode

MI 311 Seminar Imaging Sciences III **1 Credit hour**
Seminar on new and emerging technologies in imaging sciences.
Grade Mode: Normal Grading Mode

MI 312 Abdominal Sonography I **4 Credit hours**
This course covers basic abdominal sonographic positioning and scanning protocols, as it relates to normal anatomy of the abdomen. Laboratory included.
Grade Mode: Normal Grading Mode

MI 313 Ultrasound Physics I **3 Credit hours**
The focus of this course is to educate students about the physics of sound waves and their interaction with tissue enabling the display of diagnostic imaging.
Grade Mode: Normal Grading Mode

MI 314 Clinical Practice I Sonography **4 Credit hours**
Clinical practice experiences are designed for sequential development, application, critical analysis, integration, synthesis and evaluation of concepts and theories in the performance of sonographic procedures.
Grade Mode: Normal Grading Mode

MI 315 Small Parts Sonography **3 Credit hours**
This course covers anatomy, positioning and scanning protocol of the superficial structures.
Grade Mode: Normal Grading Mode

MI 316 Abdominal Sonography II **3 Credit hours**
This course covers basic abdominal sonographic positioning and scanning protocols, as it relates to normal anatomy, anatomical variants, physiology to include the retroperitoneum, associated abdominal vasculature identified.
Grade Mode: Normal Grading Mode

MI 317 Ultrasound Physics II **3 Credit hours**
The focus of this course is to educate students about the physics of sound waves and their interaction with tissue enabling the display of diagnostic imaging.
Grade Mode: Normal Grading Mode

MI 318 Vascular Sonography I **4 Credit hours**
Discussion of vascular disease, duplex examinations with comparison to arteriography, as it pertains to venous and visceral vascular examinations. Laboratory included.
Grade Mode: Normal Grading Mode

MI 319 Clinical Prac II Sonograpy **4 Credit hours**
Clinical practice experiences are designed for sequential development, application, critical analysis, integration, synthesis and evaluation of concepts and theories in the performance of sonographic procedures.
Grade Mode: Normal Grading Mode

MI 320 Elective Clinical Practicum II **4 Credit hours**
Elective clinical practicum in radiography or sonography.
Grade Mode: Normal Grading Mode

MI 321 Imaging Procedures III **4 Credit hours**
Content is designed to provide the knowledge necessary for advanced diagnostic radiographic imaging procedures.
Pre-req: MI 205 and MI 207.
Grade Mode: Normal Grading Mode

MI 322 Radiation Safety **3 Credit hours**
This course focuses on radiation safety including ionizing radiation dose limits for the occupational worker, patient and general public.
Grade Mode: Normal Grading Mode

MI 401 Seminar in Imaging Sci **1 Credit hour**
Review seminar for the primary ARRT certification examination. Review seminar for the primary ARRT certification examination.
Grade Mode: Normal Grading Mode

MI 402 Quality Management **3 Credit hours**
Advanced practice course in the quality assurance (QA) and quality management (QM) process for imaging sciences. Advanced practice course in the quality assurance (QA) and quality management (QM) process for imaging sciences.
Grade Mode: Normal Grading Mode

MI 403 Adv Practice Medical Img **3 Credit hours**
Core theory requirement for all advanced practice students focused on discussion of communication, human diversity, health care policy, legal issues and patient information management. Core theory requirement for all advanced practice students focused on discussion of communication, human diversity, health care policy, legal issues and patient information management.
Grade Mode: Normal Grading Mode

MI 404 Adv Sectional Anatomy **3 Credit hours**
Provides students enrolled in CT/MRI advanced practice track advanced knowledge of sectional anatomy. Provides students enrolled in CT/MRI advanced practice track advanced knowledge of sectional anatomy.
Co-req: MI 405, MI 407
Grade Mode: Normal Grading Mode

MI 405 CT Procedures **3 Credit hours**
Focus on advanced patient care skills including ACLS, imaging procedures and equipment in computed tomography. Focus on advanced patient care skills including ACLS, imaging procedures and equipment in computed tomography.
Co-req: MI 404, MI 408
Grade Mode: Normal Grading Mode

MI 406 MRI Procedures **3 Credit hours**
Focus on advanced patient care skills including ACLS, imaging procedures and equipment in computed tomography. Focus on advanced patient care skills including ACLS, imaging procedures and equipment in computed tomography.
Co-req: MI 404, MI 408
Grade Mode: Normal Grading Mode

MI 407 Cardiovascular Anatomy **3 Credit hours**
Focus on advanced cardiovascular anatomy, physiology and pathophysiology including heart anatomy, coronary, systemic, pulmonary, peripheral and cerebral circulation. Focus on advanced cardiovascular anatomy, physiology and pathophysiology including heart anatomy, coronary, systemic, pulmonary, peripheral and cerebral circulation.
Co-req: MI 408
Grade Mode: Normal Grading Mode

MI 408 Vascular Interventional Img **3 Credit hours**
Focus is on advanced patient care skills including ACLS, procedures and equipment utilized in cardiovascular and vascular/interventional imaging. Focus is on advanced patient care skills including ACLS, procedures and equipment utilized in cardiovascular and vascular/interventional imaging.
Co-req: MI 407
Grade Mode: Normal Grading Mode

MI 409 Adv Clinical Practice **4 Credit hours**
Students will arrange clinical experience in selected imaging modality to gain competency in clinical procedures required to sit for post-primary ARRT certification exams. Students will arrange clinical experience in selected imaging modality to gain competency in clinical procedures required to sit for post-primary ARRT certification exams.
Grade Mode: Normal Grading Mode

MI 410 Research Medical Imaging **3 Credit hours**
Capstone course. Research methods and information literacy.
Capstone course. Research methods and information literacy.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

MI 411 Transcultural Healthcare **3 Credit hours**
Multidisciplinary approach to transcultural healthcare. Course will utilize comparative ethnography and provide a theoretical framework for organizing and interpreting information about health. Multidisciplinary approach to transcultural healthcare. Course will utilize comparative ethnography and provide a theoretical framework for organizing and interpreting information about health.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

MI 412 Radiography Management I **3 Credit hours**
Provides instruction in management principles for radiography departmental managers including JACHO and Nuclear Regulatory Commission parameters. Students will be prepared to sit for the certification exam offered by the AHRA.
Grade Mode: Normal Grading Mode

MI 413 Radiography Management II **3 Credit hours**
Continuation of MI 412 to provide radiographer with management principles and preparation for the AHRA certification exam in radiography management.
Grade Mode: Normal Grading Mode

MI 414 Mammography **3 Credit hours**
Introduction to medical imaging of the breast. Focus is to prepare student for advanced certification exam in Mammography.
Grade Mode: Normal Grading Mode

MI 415 RIS and PACS Principles **3 Credit hours**
Course content provides basic knowledge of digital storage systems, computer networking, radiology information systems (RIS), and picture archiving and communication systems (PACS).
Grade Mode: Normal Grading Mode

MI 416 Obstetrical Sonography I **3 Credit hours**
This course covers basic obstetrical sonographic postitioning and scanning protocols, as it relates to normal anatomy of the fetus.
Grade Mode: Normal Grading Mode

MI 417 Gynecological Sonography I **3 Credit hours**
This course presents a study of normal anatomy and physiology of the nongravid and first trimester pelvis.
Grade Mode: Normal Grading Mode

MI 418 Sonography Registry Review I **1 Credit hour**
This course is designed to prepare the sonography student for their first speciality exam through the ARDMS.
Grade Mode: Normal Grading Mode

MI 419 Clinical Prac III Sonography **4 Credit hours**
Clinical practice experiences are designed for sequential development, application, critical analysis, integration, synthesis and evaluation of concepts and theories in the performance of sonographic procedures.
Grade Mode: Normal Grading Mode

MI 420 Obstetrical Sonography II **2 Credit hours**
This course focuses on sonographic techniques in high risk pregnancies and fetal abnormalities.
Grade Mode: Normal Grading Mode

MI 421 Gynecological Sonography II **2 Credit hours**
This course presents a study of pathology of the nongravid and first trimester pelvis.
Grade Mode: Normal Grading Mode

MI 422 Clinical Pract IV Sonography **4 Credit hours**
Clinical practice experiences are designed for sequential development, application, critical analysis, integration, synthesis and evaluation of concepts and theories in the performance of sonographic procedures.
Grade Mode: Normal Grading Mode

MI 423 Echocardiography I **4 Credit hours**
This course covers basic adult heart sonographic positioning and scanning protocols, as it relates to normal anatomy, anatomical variants, physiology of the adult heart.
Grade Mode: Normal Grading Mode

MI 424 Vascular Sonography II **3 Credit hours**
Discussion of vascular pathology and the use of plethsymography techniques in sonography.
Grade Mode: Normal Grading Mode

MI 425 Echocardiography II **3 Credit hours**
This course is a continuation of MI 423 and covers basic adult heart sonographic positioning and scanning protocols, as it relates to anatomical variants and physiology of the adult heart.
Grade Mode: Normal Grading Mode

MI 426 Advanced Clinical Practice II **4 Credit hours**
Students will arrange clinical experience in selected imaging modality to gain competency in clinical procedures required to sit for post-primary ARRT certification exams.
Grade Mode: Normal Grading Mode

MI 427 Adv Trauma and Surgical Rad **3 Credit hours**
Advanced practice course in trauma and surgical radiography for imaging sciences.
Grade Mode: Normal Grading Mode

MI 428 Forensic Radiology **3 Credit hours**
This course will focus on introducing forensic radiography techniques and theoretical models.
Grade Mode: Normal Grading Mode

MI 429 Geriatric and Pediatric Rad **3 Credit hours**
This course will focus on advanced diagnositc medical imaging in the geriatric and pediatric population including mobile radiography.
Grade Mode: Normal Grading Mode

MI 430 Mammography II **3 Credit hours**
Advanced medical imaging of the breast.
Grade Mode: Normal Grading Mode

MI 431 Adv Clinical Practice III **4 Credit hours**
Elective advanced clinical practicum in radiography or sonography.
Grade Mode: Normal Grading Mode

MI 432 Advanced MRI Theory **3 Credit hours**
Advanced magnetic resonance imaging equipment and procedures.
Pre-req: MI 406 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MI 433 Point of Care Ultrasound **3 Credit hours**
This course will introduce basic principles of point of care ultrasound for vascular and cardiac interventional radiography, and mammography.
Grade Mode: Normal Grading Mode

MI 434 Cardiovascular Imaging **3 Credit hours**
This course will focus on diagnostic and interventional procedures of the cardiovascular system.
Grade Mode: Normal Grading Mode

MI 435 Seminar ARRT Exam Review II **1 Credit hour**
This is a review course for the ARRT primary certification examination.
Grade Mode: Normal Grading Mode

MI 436 Sonography Registry Review II **1 Credit hour**
This course is designed to prepare the sonography student for their second specialty exam through the ARDMS.
Grade Mode: Normal Grading Mode

MI 437 Breast Sonography **3 Credit hours**
This course covers anatomy, positioning and scanning protocol for the breast as well as an introduction to ultrasound physics.
Grade Mode: Normal Grading Mode

MI 438 Fetal Echocardiology **3 Credit hours**
This course focuses on echosonography of the developing fetus.
Grade Mode: Normal Grading Mode

MI 439 Pediatric Echo I **3 Credit hours**
This course focuses on sonographic techniques in pediatric echocardiography.
Grade Mode: Normal Grading Mode

MI 440 Pediatric Echo II **3 Credit hours**
This course is a continuation of MI 439 and focuses on sonographic techniques in pediatric echocardiography.
Pre-req: MI 439 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MI 441 Adv Echocardiography I **3 Credit hours**
This course focuses on advanced sonographic techniques in pediatric echocardiography and is designed for the credentialed echocardiographer training in the area of pediatric echo.
Grade Mode: Normal Grading Mode

MI 442 Adv Echocardiography II **3 Credit hours**
This course is a continuation of MI 441 and focuses on advanced sonographic techniques in pediatric echocardiography and is desinged for the credentialed echocardiographer training in the area of pediatric echo.
Pre-req: MI 441 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MI 485 Independent Study **1-4 Credit hours**
Course designed to allow student to pursue individual research in medical imaging.
Grade Mode: Normal Grading Mode

MI 486 Independent Study **1-4 Credit hours**
Course designed to allow student to pursue individual research in medical imaging.
Grade Mode: Normal Grading Mode

MI 487 Independent Study **1-4 Credit hours**
Course designed to allow student to pursue individual research in medical imaging.
Grade Mode: Normal Grading Mode

MI 488 Independent Study **1-4 Credit hours**
Course designed to allow student to pursue individual research in medical imaging.
Grade Mode: Normal Grading Mode

Faculty

Debby Moore, M.S., RT(R) (CT) (ARRT), Department Chair of Medical Imaging

Jane Mannon, M.S., RDMS, RVT, RT (R), Sonography Program Director

Medical Imaging Radiography, B.S.

Four-Year Medical Imaging Program Admission Requirements

Year One: Applicants must demonstrate unconditional admission into Marshall University. Year One coursework will occur at Marshall University. Upon completion of the Year One curriculum, students can make separate application to SOMI. Admission to the SOMI is limited to 20-25 students. Applicants are ranked by points.

1. ACT score: 21 (additional points are given for ACT scores of 19 or better in math and science)
2. GPA: 2.50 minimum
3. Grade of *C* or better in:

Code	Title	Credit Hours
BSC 227	Human Anatomy	3
BSC 227L	Human Anatomy Lab	1
BSC 228	Human Physiology	3
BSC 228L	Human Physiology Lab	1
PHY 101	Conceptual Physics	3
PHY 101L	Conceptual Physics Lab	1
CHM 205	General, Organic, and Biochem	3
MTH 121	Concepts and Applications (CT) (or higher)	3

4. Progression through to Year Four is dependent upon maintaining a minimum GPA of 2.50 and grade of *C* or better in all Medical Imaging coursework.
5. Negative drug screen and background check. Drug screen and background checks will be conducted at the applicant's expense.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
MTH 121	Concepts and Applications (CT)	3
CLS 105	Medical-Lab Terminology (CT)	3
Core 2		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
CMM 103	Fund Speech-Communication	3
MTH 121	Concepts and Applications (CT)	3
BSC 228	Human Physiology	3
BSC 228L	Human Physiology Lab	1
Core II Humanities		3

Core II Social Science		3
Core II Fine Arts		3
Additional University Requirements		
Writing Intensive		3
MI 403	Adv Practice Medical Img (recommended)	
Writing Intensive		3
MI 411	Transcultural Healthcare (recommended)	
Multicultural or International		3
MI 411	Transcultural Healthcare (recommended)	
Capstone (see advanced modality track)		3
Major-Specific		
BSC 227	Human Anatomy	3
BSC 227L	Human Anatomy Lab	1
BSC 228	Human Physiology	3
BSC 228L	Human Physiology Lab	1
PHY 101	Conceptual Physics	3
PHY 101L	Conceptual Physics Lab	1

MI 210	Clinical Practice II	4
MI 211	Seminar Imaging Science	1
MI 212	Seminar Imaging Sciences II	1
Statistics		3
Area of Emphasis-Specific		
Additional courses will vary depending on advanced modality track in fourth year.		
MI 302	Princ of Radiation Physics	3
MI 303	Image Acquisition	3
MI 304	Radiographic Pathology	3
MI 305	Clinical Practice IV	4
MI 306	Seminar Imaging Science	1
MI 307	Radiobiology	3
MI 308	Rad Image Analysis	2
MI 309	Digital Image Acquisition	2
MI 310	Clinical Practice V	4
MI 311	Seminar Imaging Sciences III	1
MI 321	Imaging Procedures III	4
Advanced Modality Track		
In Year 4, students in the radiography area of emphasis must choose one of the four advanced modality tracks:		27-30
CT/MRI (27 hours)		
Cardiovascular/Interventional (27 hours)		
Mammography (27 hours)		
Medical Imaging Management (30 hours)		

Major Information

- Students in the Medical Imaging Program must maintain a minimum GPA of 2.50 and receive a grade of *C* or better in all MI coursework.
- All applicants must meet the professional guidelines established by the ARRT to sit for particular certification examinations.
- By Year 3, students must choose to continue in the radiography area of emphasis or apply to the competitive sonography area of emphasis. This academic map outlines the curriculum for those who choose the radiography area of emphasis.

Areas of Emphasis

- General Sonography, Emphasis (p. 541)
- Medical Imaging, Emphasis - Advanced Diagnostic Radiography (http://catalog.marshall.edu/undergraduate/programs-az/health-professions/medical-imaging/medical-imaging-radiography-bs/emphasis-advanced-diagnostic-radiography/)
- Medical Imaging, Emphasis - Cardiovascular/Interventional Advanced Practice (p. 543)
- Medical Imaging, Emphasis - CT MRI Advanced Practice (p. 543)
- Medical Imaging, Emphasis - Mammography (p. 543)
- Medical Imaging, Emphasis - Medical Imaging Management Advanced Practice (p. 543)
- Sonography, Emphasis - Cardiovascular Sonography (p. 544)

Four Year Plan

St. Mary's School of Medical Imaging (SOMI) is a hospital-based program, partnered with Marshall University to offer a Bachelor of Science in Medical Imaging. The program curriculum is designed to prepare students to practice radiography/sonography and introduce students to related specialized imaging modalities. The program can be completed in four years. Credentialed Radiographers may enter the professional portion of the program (fourth year) and also obtain the degree.

Vice President of Schools of Nursing and Health Professions: Dr. Joey Trader, Ed.D. , M.S.N., RN, CNE

The Associate in Science in Nursing Program is a cooperative effort between the Marshall University College of Health Professions and St. Mary's School of Nursing. This program may be completed in two academic years and requires 72 credit hours. General education courses are offered on the Marshall University Huntington campus and nursing courses are offered at St. Mary's School of Nursing at the Center for Education at St. Mary's Medical Center at 2853 5th Avenue, Huntington, WV 25702. Graduates of this program receive an Associate in Science in Nursing degree from Marshall University and are eligible to make application to the National Council Licensure Examination for Registered Nurses (NCLEX-RN).

Please call Dr. Trader at 304-526-1416 or e-mail to jtrader@st-marys.org for questions regarding the Associate in Science in Nursing program.

Accreditation

"The Associate Degree nursing program at St. Mary's/Marshall University Associate of Science in Nursing Program located in Huntington, West Virginia is accredited by the:

> Accreditation Commission for Education in Nursing (ACEN)
> 3390 Peachtree Road NE, Suite 1400 Atlanta, GA 30326
> 404-975-5000

The most recent accreditation decision made by the ACEN Board of Commissioners for the St. Mary's/Marshall University Cooperative Associate of Science in Nursing program is Continuing Accreditation.

–View the public information disclosed by the ACEN regarding this program at http://www.acenursing.us/accreditedprograms/programSearch.htm

Admission Requirements

All applicants must be either a graduate of an accredited high school or have a high school equivalent through GED testing. All applicants are encouraged to take the ACT and submit results to St. Mary's School of Nursing. Applicants are admitted twice a year for classes beginning in August or January.

High School Seniors and Applicants Who Have Completed Fewer than 12 College Credit Hours Must Have:

- A minimum high school GPA of 3.0
- A minimum of *C* on all college courses completed

The Following High School Courses are Strongly Recommended:

- English - 4 units
- Science - 3 units (chemistry, biology I and biology II)
- Math - 2 units (one should be algebra)
- Social Studies - 3 units

Applicants Who Have Completed at Least 12 College Credit Hours Must Have:

- A minimum of *C* on each required non-nursing course completed
- An overall 2.0 GPA (*C* average) or better on **all** courses completed
- An overall 2.0 GPA on all courses completed at Marshall University
- Taken 12 college semester credit hours at the 100 level or above for a grade

GED Applicants Must:

- Meet criteria for GED admission as stated in the Marshall University undergraduate catalog
- Have completed at least 12 college credit hours at the 100 level and earned grades of *C* or above
- Meet criteria for applicants who have completed at least 12 college credit hours

Tuition Assistance Program

The Marshall University Employee Dependent Undergraduate Tuition Assistance Program cannot be used to cover the tuition and fees of the St. Mary's/Marshall University cooperative programs, which include medical imaging, nursing, and respiratory care. These programs are classified as third-party waiver programs, which are exempted from the Employee Dependent Tuition Assistance Program.

Admission Requirements

All applicants must be either a graduate of an accredited high school or have a high school equivalent through GED testing. All applicants are encouraged to take the ACT and submit results to St. Mary's School of Nursing. Applicants are admitted twice a year for classes beginning in August or January.

High School Seniors and Applicants Who Have Completed Fewer than 12 College Credit Hours Must Have:

- A minimum high school GPA of 3.0

- Have completed at least 12 college credit hours at the 100 level and earned grades of *C* or above
- Meet criteria for applicants who have completed at least 12 college credit hours

Students fully admitted into the A.S.N. program are exempt from the Core and instead complete a customized general education, as noted below.

Code	Title	Credit Hours
General Education		
ENG 101	Beginning Composition [1]	3
ENG 201	Advanced Composition	3
CHM 205	General, Organic, and Biochem [1]	3
PSY 201	Introductory Psychology (CT) [1]	3
BSC 227 & BSC 227L	Human Anatomy and Human Anatomy Lab [1]	4
BSC 228 & BSC 228L	Human Physiology and Human Physiology Lab	4
Major-Specific		
BSC 250	Microbiol & Human Disease	4
DTS 210	Nutrition	3
PSY 311	Child Development	3
NUR 120	Introduction to Nursing	8
NUR 220	Health Alterations I	8
NUR 225	Psychiatric Nursing	4
NUR 230	Health Alterations II	7
NUR 235	Maternal-Child Nursing	6
NUR 241	Health Alterations III	9

[1] Prior to taking the first nursing course, students must have completed these courses. Because these courses are pre-requisites to admission in the ASN, these courses are not reflected in the two-year plan.

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Course offerings and course attributes are subject to change semesters. Please consult each semester's schedule of courses for availability and attributes.
- Every NUR course is taught every semester and the support courses are taught as such as well.

Courses

NUR 120 Introduction to Nursing **8 Credit hours**
Indroduce the nursing role and use of the nursing process in assisting adult clients to meet basic needs. Clinical included. Indroduce the nursing role and use of the nursing process in assisting adult clients to meet basic needs. Clinical in- cluded.
Pre-req: BSC 227 with a minimum grade of C and CHM 205 with a minimum grade of C and ENG 101 with a minimum grade of C and PSY 201 with a minimum grade of C and BSC 228 (may be taken concurrently) with a minimum grade of C and DTS 210 (may be taken concurrently) with a minimum grade of C and PSY 311 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 228 and DTS 210 and PSY 311
Grade Mode: Normal Grading Mode

NUR 220 Health Alterations I **8 Credit hours**
Focus is on nursing care of adult clients responding to potential and actual health alterations. Clinical included. (PR: NUR 120) Focus is on nursing care of adult clients responding to potential and actual health alterations. Clinical included. (PR: NUR 120)
Pre-req: NUR 120 with a minimum grade of C and BSC 250 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 250
Grade Mode: Normal Grading Mode

Nursing - Bachelor's Degrees

Contacts: Dr. Denise Landry, Chair
Website: http://www.marshall.edu/cohp (http://www.marshall.edu/cohp/)

Nursing education has been offered at Marshall University since the inception of an associate degree program in 1960. On July 1, 1978, a School of Nursing was formally established and now, as a member of the College of Health Professions, it is an integral part of the academic health sciences at Marshall University. The primary objective of the nursing program is to respond to the nursing educational needs in the region. It offers a pre-licensure Bachelor of Science in Nursing program, an RN to B.S.N. program and a Master of Science in Nursing program with five areas of emphasis - Family Nurse Practitioner, Nursing Administration, Nursing Education, Nurse Midwifery, and Psychiatric Mental Health Nurse Practitioner. The B.S.N. and M.S.N programs are accredited by the Accreditation Commission for Education in Nursing, Inc. (3343 Peachtree Road N.E., Suite 850; Atlanta, GA 30326. 404-975-5000; www.acenursing.org (http://www.acenursing.org)).

Programs

- Nursing, B.A./B.S. to B.S.N. (p. 549)
- Nursing, Pre-Licensure, B.S.N. (p. 550)
- Nursing, RN to B.S.N. Online Program (p. 554)

Courses

- General Education Course

NUR 200 Intro to Professional Nursing **2 Credit hours**
Introduction to the concepts and processes basic to the nursing profession, including historical and legal aspects, career roles, medical terminology, and practical techniques to prepare for the baccalaureate nursing program.
Grade Mode: Normal Grading Mode

NUR 219 Health Promotion Thru Lifespan **3 Credit hours**
Study of nursing assessment of the individual through the life span in relation to wellness promotion and the impact of illness. Study of nursing assessment of the individual through the life span in relation to wellness promotion and the impact of illness.
Pre-req: (MTH 121 with a minimum grade of C or MTH 121B with a minimum grade of C or MTH 125 with a minimum grade of C or MTH 127 with a minimum grade of C or MTH 130 with a minimum grade of C) and ENG 101 with a minimum grade of C and BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C and (CHM 203 with a minimum grade of C or CHM 205 with a minimum grade of C) and PSY 201 with a minimum grade of C and NUR 221 (may be taken concurrently) with a minimum grade of C and (CMM 213 with a minimum grade of C or CMM 103 with a minimum grade of C or CMM 104H with a minimum grade of C).
Concurrent PR: NUR 221
Grade Mode: Normal Grading Mode

NUR 221 Found of Prof Nursing I **5 Credit hours**
Introduction to philosophical and theoretical foundations of nursing, exploration and integration of concepts and processes basic to professional nursing practice. Laboratory included. Introduction to philosophical and theoretical foundations of nursing, exploration and integration of concepts and processes basic to professional nursing practice. Labora- tory included.
Pre-req: (MTH 121 with a minimum grade of C or MTH 121B with a minimum grade of C or MTH 125 with a minimum grade of C or MTH 127 with a minimum grade of C or MTH 130 with a minimum grade of C) and BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C and (CHM 203 with a minimum grade of C or CHM 205 with a minimum grade of C) and PSY 201 with a minimum grade of C and NUR 219 (may be taken concurrently) with a minimum grade of C and ENG 101 with a minimum grade of C and (CMM 103 with a minimum grade of C or CMM 104H with a minimum grade of C or CMM 213 with a minimum grade of C).
Concurrent PR: NUR 219
Grade Mode: Normal Grading Mode

NUR 222 Found of Prof Nursing II **6 Credit hours**
Introduction to professional nursing practice in relation to potential and simple alterations in health. Practicum included. Introduction to professional nursing practice in relation to potential and simple alterations in health. Practicum included.
Pre-req: NUR 221 with a minimum grade of C and NUR 219 with a minimum grade of C and NUR 319 (may be taken concurrently) with a minimum grade of C and BSC 250 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 319 and BSC 250
Grade Mode: Normal Grading Mode

NUR 223 Intro Nur Pharm **3 Credit hours**
Focus is on role of the Associate degree nurse in understanding the human response to pharmacological therapy.
Grade Mode: Normal Grading Mode

NUR 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NUR 281 Special Topics **1-4 Credit hours**
Grade Mode: Credit/No Credit Grade Only

NUR 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NUR 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NUR 305 Concepts in Prof Nursing **4 Credit hours**
Discussion of nursing conceptual models. Dynamic concepts of health, nursing process, change, teaching/learning, research and leadership introduced. Exercises in communication/assertiveness skill development. (PR: Admission to RN to B.S.N. Nursing Program) 4 lec.
Grade Mode: Normal Grading Mode

NUR 318 Family and Chronic Illness **2 Credit hours**
Focus in family nursing theory related to human responses utilizing theoretical models for assessment and health promotion. Included is consideration of the impact of chronic illness.
Pre-req: NUR 305 (may be taken concurrently) with a minimum grade of C or (NUR 219 with a minimum grade of C and NUR 221 with a minimum grade of C) and (ENG 201 with a minimum grade of C or ENG 201H with a minimum grade of C or ENG 200H with a minimum grade of C).
Concurrent PR: NUR 305
Grade Mode: Normal Grading Mode

NUR 319 Phys Assess Across Lifespan **4 Credit hours**
Development of skills in taking health history and performing physical examination of clients throughout the life span. Practicum included. Development of skills in taking health history and perform- ing physical examination of clients throughout the life span. Practicum included.
Pre-req: NUR 221 with a minimum grade of C and NUR 219 with a minimum grade of C and NUR 222 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 222
Grade Mode: Normal Grading Mode

NUR 321 Care of Childbearing Families **5 Credit hours**
Focus of nursing is on the diagnosis and treatment of human responses to changes that occur in the expanding family. Practicum included. Focus of nursing is on the diagnosis and treatment of human responses to changes that occur in the expanding family. Practicum included.
Pre-req: NUR 222 with a minimum grade of C and NUR 319 with a minimum grade of C and (ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C) and BSC 250 with a minimum grade of C and (DTS 314 with a minimum grade of C or DTS 210 with a minimum grade of C) and NUR 318 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 318
Grade Mode: Normal Grading Mode

NUR 322 Psych / Mental Health Nursing **5 Credit hours**
Focus is upon nursing care of clients of all ages in relation to human responses to psychosocial problems. Focus is upon nursing care of clients of all ages in relation to human responses to psychosocial problems.
Pre-req: NUR 222 with a minimum grade of C and NUR 319 with a minimum grade of C and (ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C) and BSC 250 with a minimum grade of C and (DTS 314 with a minimum grade of C or DTS 210 with a minimum grade of C).
Grade Mode: Normal Grading Mode

NUR 327 Adult Nursing I **5 Credit hours**
Focus is on nursing care of clients from young to geriatric adults responding to health problems. Practicum included.
Pre-req: NUR 222 with a minimum grade of C and NUR 319 with a minimum grade of C and ENG 201 with a minimum grade of C and BSC 250 with a minimum grade of C and (DTS 314 with a minimum grade of C or DTS 210 with a minimum grade of C) and NUR 350 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 350
Grade Mode: Normal Grading Mode

NUR 328 Adult Nursing II **5 Credit hours**
Focus is on nursing care of clients from young to geriatric adults responding to increasingly complex health care problems. Practicum included.
Pre-req: NUR 318 with a minimum grade of C and NUR 327 with a minimum grade of C and NUR 350 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 333 Health Physical Assessment **3 Credit hours**
Focus on providing nurses with the knowledge base and clinical skills necessary to obtain in-depth health histories and complete physical assessments of clients of various ages and cultural backgrounds. (PR: admission to RN to B.S.N. nursing program or Permission)
Pre-req: NUR 305 (may be taken concurrently).
Concurrent PR: NUR 305
Grade Mode: Normal Grading Mode

NUR 350 Pharmacology for Nurses **3 Credit hours**
Focus in on the role of the nurse in drug therapy. Specific drug classifications and prototypical drugs, their actions, effects, and nursing implications are described in-depth.
Pre-req: NUR 222 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 400 Transcultural Nursing **3 Credit hours**
The focus is on health care practices and beliefs of a variety of cultures which interact with the United States health care system. Transcultural nursing theories and concepts are addressed.
Pre-req: NUR 305 (may be taken concurrently) with a minimum grade of C or (NUR 221 with a minimum grade of C and NUR 219 with a minimum grade of C).
Concurrent PR: NUR 305
Attributes: Multicultural
Grade Mode: Normal Grading Mode

NUR 408 Pediatric Nursing **4 Credit hours**
Nursing Care of Children Focus is on nursing care of pediatric clients of all ages and their family's response to common and complex health problems. Practicum included.
Pre-req: NUR 318 with a minimum grade of C and NUR 327 with a minimum grade of C and NUR 350 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 410 Community Nursing for RN **5 Credit hours**
Focus is on the foundations of community-oriented nursing practice for the Registered Nurse with an emphasis on health promotion and disease prevention.
Pre-req: NUR 305 with a minimum grade of C and NUR 318 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 414 Adult Nursing III **5 Credit hours**
Focus is on nursing care of young to geriatric adults responding to health problems requiring critical care intervention. Practicum included.
Pre-req: NUR 328 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 416 Intro Research EBP **3 Credit hours**
Focus is on research as it relates to evidence based practice. This course addresses the steps of research and evidence based practice to provide a basis for nursing practice.
Pre-req: (STA 225 with a minimum grade of C or EDF 417 with a minimum grade of C or MGT 218 with a minimum grade of C or PSY 223 with a minimum grade of C or SOC 345 with a minimum grade of C) and (NUR 305 with a minimum grade of C or NUR 327 with a minimum grade of C).
Grade Mode: Normal Grading Mode

NUR 418 Contemporary Nursing **3 Credit hours**
This course focuses on nursing leadership, cost-based care, and the professional role of the nurse within a complex health care system.
Pre-req: NUR 305 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 419 Prof Nursing Practice **3 Credit hours**
Focus on nursing leadership, the management of patient care, and issues inherent to professional nursing practice.
Pre-req: NUR 328 with a minimum grade of C and NUR 414 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 414
Grade Mode: Normal Grading Mode

NUR 421 Community / Public Health Nurs **5 Credit hours**
Focus is upon public health principles and nursing practice with opportunity to provide health promotion for clients at risk and long term care for individuals and families in the home. Focus is upon public health principles and nursing practice with opportunity to provide health promotion for clients at risk and long term care for individuals and families in the home.
Pre-req: NUR 321 with a minimum grade of C and NUR 322 with a minimum grade of C and NUR 328 with a minimum grade of C and NUR 350 with a minimum grade of C and NUR 408 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 422 Nursing Capstone Practicum **5 Credit hours**
Focus in on leadership activities related to the roles of the professional nurse: provider of care, coordinator of care, and member of the profession. Practicum included. Focus in on leadership activities related to the roles of the professional nurse: provider of care, coordinator of care, and member of the profession. Practicum included.
Pre-req: (NUR 321 with a minimum grade of C and NUR 322 with a minimum grade of C and NUR 414 with a minimum grade of C and NUR 350 with a minimum grade of C) and NUR 421 (may be taken concurrently) with a minimum grade of C and NUR 425 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 421 and NUR 425
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

NUR 425 NCLEX Success **3 Credit hours**
The purpose of this course is to assist the student to synthesize the content of the baccalaureate nursing educational program.
Pre-req: NUR 422 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 422
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

NUR 427 Prof Engagement Nursing **5 Credit hours**
Focus is on evidence based practice and application of theoretical and empirical knowledge to address issues in management, health care policy, ethics, leadership, and health promotion of clients. (PR: NUR 305 and RN licensure; PR/CR: NUR 410, NUR 416, NUR 418))
Pre-req: NUR 410 (may be taken concurrently) with a minimum grade of C and NUR 416 (may be taken concurrently) with a minimum grade of C and NUR 418 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 410 and NUR 416 and NUR 418
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

NUR 480 Special Topics **1-4 Credit hours**
Study of topics not available in other courses. Study of topics not available in other courses.

Nursing, B.A./B.S. to B.S.N.

Provides individuals with a Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) degree the opportunity to obtain a bachelor's degree in nursing (B.S.N.) in 16 months of full-time study. (Program offered at the South Charleston campus.)

Admission Requirements

1. Earned baccalaureate degree from an accepted, accredited higher education institution.
2. A minimum overall college GPA of 3.0 and a cumulative GPA of 3.0 or higher in required prerequisite courses, both on a 4.0 scale.
3. Applicants with less than an overall college 3.0 GPA or cumulative 3.0 GPA in required prerequisite courses may be considered for admission on a case-by-case basis, as capacity allows.
4. The B.A./B.S. to B.S.N. program does not accept credits from previous nursing courses taken; accordingly, 100% of the nursing credits for the B.A./B.S. to B.S.N.degree will be earned at Marshall University
5. Applicants must be admitted to Marshall University, as degree-seeking transfer students, prior to applying to the B.A./B.S. to B.S.N. program.
6. All required prerequisite, non-nursing courses must be completed with a grade of *C* or better.
   Prerequisite courses would include English Composition (6); Marshall University Math 121 or higher (or equivalent) (3); Introductory Psychology (3); Introductory Chemistry (3); Developmental Psychology (3) or Human Growth and Development (3); Human Anatomy (3-4); Human Physiology (3-4); Microbiology (3-4); Statistics at 200 level or higher (3); and Nutrition (3).

Nursing, Pre-Licensure, B.S.N.

The four-year baccalaureate program in nursing prepares professional nurse generalists to work with individuals, families, groups, and communities in a variety of health care settings. The program is available to qualified high school graduates, college students and college graduates. Graduates of the program meet the education requirement to apply to take the National Registered Nurse Licensing Exam (NCLEX-RN).

Baccalaureate nursing education provides a foundation in the humanities and the biological, social and behavioral sciences. Students are able to apply this foundation, as well as a strong base in nursing science, to the professional practice of nursing. In addition to achieving the professional goals of the nursing program, students also become responsible members of society and are required to complete the university general education core requirements.

The program includes a clinical practice component which gives students opportunity to apply nursing theory and skills in caring for individuals, families, groups, and communities in clinical health care settings. The program uses Cabell Huntington Hospital, River Park Hospital, St. Mary's Medical Center, the Veterans Administration Medical Center, Mildred Mitchell Bateman Hospital, Encompass Health, Charleston Area Medical Center (CAMC), King's Daughters Medical Center (Ashland, Ky.), Pleasant Valley Hospital (Point Pleasant, W.Va.), Holzer Medical Center (Gallipolis, Ohio) and others for clinical experiences. In addition, various clinics, doctors' offices, health departments and schools are used for student clinical experiences. Students are required to provide their own transportation to clinical experiences. Clinicals may be scheduled any day of the week and any time of the day.

Admission

Admission is determined on a competitive basis at each entry level. The total number of students admitted to the program is based upon available facilities and faculty.

Students are admitted to the pre-licensure B.S.N. program once per year for the fall semester. Qualified applicants are selected for fall admission beginning after the January 15 application deadline and continuing until all spaces in the class are filled.

Admission Requirements for Pre-Licensure B.S.N. Program

- Currently enrolled high school seniors are eligible to apply for **freshman-level standing** in the nursing program.
- High school seniors must meet the general admission requirements of Marshall University.
- High school seniors must have a composite score of 21 or higher on the ACT, **and** a Grade Point Average on high school coursework at the completion of their junior year of at least 2.5 or higher, with consideration given to college preparatory courses. Automatic admission is given to high school seniors with ACT composite scores of 24 or higher *and* high school GPAs of 2.5 or higher.
- Current or previous college students and college graduates are eligible to apply for **sophomore-level standing** in the nursing program. College students must have a Grade Point Average of at least 2.5 or higher on 12 or more hours of college work with consideration given to specific science and math courses. Grades and credits from developmental courses are not considered.
- College students may apply for sophomore-level standing if they have had, or will have, satisfactorily completed (with a *C* or higher), all freshman-level courses by July 15 of the year they apply. Students who anticipate that they will meet these requirements, but are unable to do so, must reapply for admission to the program.

Application Process

Freshman-Level Standing/Sophomore-Level Standing

1. Apply for admission to Marshall University.
2. Also apply for admission to the Nursing program, College of Health Professions: form online at www.marshall.edu/nursing/degrees/bachelors/admission (http://www.marshall.edu/nursing/degrees/bachelors/admission/).
3. Submit *official* transcripts from **all** schools attended to *both* the university and Nursing program.
   a. High school students should obtain two (2) official copies of their high school transcript and ACT scores. One copy of the ACT scores and transcript should be sent to the School of Nursing and one to the Office of Admissions of Marshall University. Transcripts must at a minimum include all junior year courses and cumulative GPA. Applicants have the option of sending transcripts that include the first semester of the senior year for consideration of science courses taken or improved GPA during that time.
   b. College students must submit two (2) official copies of transcripts from all colleges attended, if not currently attending Marshall. Send one copy to the School of Nursing and one to the Office of Admissions of Marshall University. College transcripts must include the last semester attended. Current Marshall students need not send transcripts as long as all coursework taken at other colleges/universities has been transferred to Marshall University.

Admission Requirements for Advanced Placement

This level is for students who are requesting to transfer from a **baccalaureate** nursing program and who want to receive credit for their previous nursing education. Admission to this level is based on available space. Applicants requesting advanced placement to this level must:

- Meet the general admission requirements of Marshall University.
- Document completion of two or more years of college credit in a **baccalaureate** nursing program with a 2.5 or higher Grade Point Average on all college-level work.
- Provide proof of completion of courses required prior to transfer level.
- Submit course syllabi and other materials that describe the nursing courses taken. Nursing courses will be evaluated by the Admissions, Progressions, and Graduation Committee to determine credit to be given for these courses and level of entry into the program.
- Arrange for the Dean/Director of the Nursing program at which the student is currently (or was previously) enrolled to submit a letter of good standing.

Advanced Placement: Application Process

1. Apply for admission to Marshall University.
2. Also apply for admission to the Nursing program.
3. Submit two (2) official copies of all college transcripts, one to the School of Nursing and one to the Office of Admissions of Marshall University.
4. Submit course syllabi and other materials that describe the nursing courses taken.
5. Submit a letter of reference from the Dean/Director of nursing program.

Pre-Licensure B.S.N. Program Requirements

Completion of the B.S.N. program requires the completion of 121 semester hours of credits. Credits and grades from developmental courses are not counted.

Acceptance of students in the School of Nursing B.S.N. program is predicated on the understanding that students should be able to complete the curriculum in four years if admitted at the freshman level, and three years if admitted at the sophomore level. Should students need to slow their program plan, for whatever reason (leave of absence, to delay progression due to economic or academic reasons, request to repeat a nursing course, etc.) they must have approval of the Admissions, Progressions, and Graduation Committee.

B.S.N. Academic Policies

1. All Nursing program students admitted to the freshman level must complete the required courses for the freshman year with a *C* or higher by July 15 of the freshman year and maintain a 2.3 overall Grade Point Average. Students who do not complete these minimum requirements will be dropped from the Nursing program and must reapply for admission to the program. Grades and credits from developmental courses are not considered.
2. The Nursing program reserves the right to require withdrawal from nursing of any student whose health, academic record, clinical performance or behavior in nursing is judged unsatisfactory.
3. All students are required to maintain a cumulative GPA of **at least** 2.3. In the event that a student's cumulative GPA falls below 2.3, that student will be placed on probation and will be notified in writing of this action. Students have **one** semester to raise their cumulative GPA to 2.3. During this period, classes taken during the summer would count toward the GPA, but the term would not be counted as the semester. If the GPA remains less than 2.3 at the end of one semester, the student will be **dismissed** from the nursing program.
4. All nursing and required non-nursing courses must be completed with a grade of *C* or higher. Students who earn a grade of less than *C* in a nursing or required non-nursing course **must** repeat that course. Pre-licensure B.S.N. and RN to B.S.N. students may repeat only one nursing course in which a grade of less than *C* is earned with permission of the Admissions, Progressions, and Graduation Committee (pre-licensure B.S.N. students) or the RN to B.S.N. Committee (RN to B.S.N. students). Permission to repeat a nursing course is made on the basis of several factors including, but not necessarily limited to, space availability, overall student performance in the course, academic honesty, and historical course grade.
5. All students who receive a grade of less than *C* in a nursing or required non-nursing course may not progress in nursing courses for which that course is prerequisite.
6. Students who find it necessary for any reason to withdraw from a nursing course must abide by the School of Nursing withdrawal policy as stated in the applicable Nursing Student Handbook (Pre-licensure B.S.N. or RN to B.S.N.) Once starting the sequence of nursing courses, students are expected to progress through the curriculum as shown. Any deviation from the curriculum for whatever reason (Leave of Absence, to delay progression due to economic or academic reasons, request to repeat a nursing course, etc.) must have approval of the Admissions, Progressions, and Graduation Committee (pre-licensure B.S.N. students) or the RN to B.S.N. Committee (RN to B.S.N. students).
7. No more than 9 hours of electives may be taken on a credit/non-credit (pass/fail) basis.
8. All required nursing courses in the pre-licensure and RN to B.S.N. programs must be completed within five (5) years prior to graduation from the program. The five (5) year period begins at the time the first clinical nursing course is taken.
9. Students must be admitted to the School of Nursing in order to enroll in Nursing classes.
10. Other policies are outlined in the Nursing Student Handbook, which can be found online on the School of Nursing website.

Other Policies

1. Evidence of a current satisfactory health certification must be submitted prior to participation in nursing courses having a clinical component for BSN students, and prior to taking any nursing course for RN to BSN students.
2. Starting in the sophomore year of the Pre-Licensure B.S.N. program, or upon admisssion to the RN to B.S.N. program, students must obtain and maintain a current CPR card (Adult, child and Infant with AED). Failure to have a current CPR card on file in the nursing office will result in the student being declared ineligible to begin clinical (Pre-Licensure B.S.N. students) or engage in any activities involving agencies other than the School of Nursing (RN to B.S.N. students). It is the student's responsibility to make sure an active CPR card is on file in the nursing office at all times. If the student attends clinical (Pre-Licensure B.S.N. students) or engages in activities involving agencies other than the School of Nursing (RN to B.S.N. students) without an active CPR card, all clinicals or activities will be given an unsatisfactory grade. Contact the School

of Nursing or go to the School of Nursing website for acceptable courses.

3. Due to restricted enrollment in the Nursing program, students unable to maintain continuous progression must follow the Leave of Absence Policy.
   a. A student must request permission in writing for a leave of absence from the Nursing program. Notification must be at earliest possible time.
   b. The Student Petition for Leave of Absence Form must be submitted to the Chair of the Admissions, Progression and Graduation Committee **no later than three** (3) weeks after the start of the semester in which the student is requesting leave.
   c. If a Leave of Absence is approved, the student must consult with his or her academic advisor to revise the program plan.
   d. Any student who fails to notify the Nursing program of a Leave of Absence will forfeit his or her space in the nursing program and must reapply for admission.
   e. Permission for a leave of absence may be granted for up to one year.
4. Beginning in the sophomore year of the pre-licensure B.S.N. program and prior to admission to the RN to B.S.N. program, students must successfully pass a background check and drug screen. Contact the School of Nursing at 304-696-6751 for more information.
5. Other policies are outlined in the Nursing Student Handbook.

Alternate Sites (Pre-Licensure B.S.N. Program)

Students may take Nursing classes at the Mid-Ohio Valley Center in Point Pleasant. Starting in Fall 2023, students may take nursing classes at Glenville State College

Minor

A minor is not required in this discipline.

Eligibility to Sit for Licensure Exam

To practice registered professional nursing in West Virginia an individual must be licensed by the West Virginia Board of Examiners for Registered Professional Nurses. Students who successfully complete the pre-licensure Bachelor of Science in Nursing program meet the education requirements to apply to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN). However, the Board may refuse to admit persons to its examinations or may refuse to issue a license upon proof that an applicant:

a. is or was guilty of fraud or deceit in procuring or attempting to procure a license to practice registered professional nursing; or
b. has been convicted of a felony; or
c. is unfit or incompetent by reason of negligence, habits or other causes; or
d. is habitually intemperate or is addicted to the use of habit-forming drugs; or
e. is mentally incompetent; or
f. is guilty of conduct derogatory to the morals or standing of the profession of registered nursing; or
g. is practicing or attempting to practice registered professional nursing without a license or registration; or
h. has willfully or repeatedly violated any of the provisions of the licensing law.

A student who wants to take the NCLEX-RN in another state must obtain information regarding requirements and procedures from the agency responsible for professional nurse registration in that state.

Transfer Courses

Transfer courses will be judged in relation to Marshall University courses for acceptability. Evaluation of transfer courses is completed in the Office of Admissions. Please contact that office for questions concerning transfer courses.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Course offerings and course attributes are subject to change semesters. Please consult each semester's schedule of courses for availability and attributes.
- To practice registered professional nursing in West Virginia an individual must be licensed by the West Virginia Board of Examiners for Registered Professional Nurses. Students who successfully complete the Pre-Licensure Bachelor of Science in Nursing program meet the education requirements to apply to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN).
- Starting in the sophomore year of the Pre-Licensure B.S.N. program students must obtain and maintain a current CPR card (Adult, Infant and Child), and TB test. Failure to have a current CPR card and TB test on file in the nursing office will result in the student being declared ineligible to begin clinical.
- In the sophomore year of the Pre-Licensure B.S.N. program students must successfully pass a background check and drug screen. Contact the School of Nursing at 304-696-6751 for more information.
- Completion of the B.S.N. program requires the completion of 121 semester hours of credits. Credits and grades from developmental courses are not counted.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The B.S.N. program is accredited by the Accreditation Commission for Education in Nursing, Inc. The four-year baccalaureate program in nursing prepares professional nurse generalists to work with individuals, families, groups, and communities in a variety of health care settings. The program is available to qualified high school graduates, college students and college graduates. Graduates of the program meet the education requirement to apply to take the National Registered Nurse Licensing Exam (NCLEX-RN).

Nursing, RN to B.S.N. Online Program

The Marshall University School of Nursing offers an RN to B.S.N. program for registered nurses who have a diploma or associate degree in nursing from a nationally accredited program and wish to earn a baccalaureate degree in nursing. The program is designed for full-time or part-time study. Applications for the RN to B.S.N. program are processed on a semester basis. **All RN to B.S.N. nursing courses are taught online** each semester: fall, spring, and summer. Classes are offered in 7-week blocks during the semester to allow students to focus on 1-2 nursing classes at a time. The program can be completed in as little as two semesters if all other requirements have been met.

Program Requirements

All Registered Nurse graduates from either diploma or associate degree nursing programs with fewer than 40 credit hours in Nursing will be awarded additional credit hours in Nursing up to a total of 40 hours upon successful completion of 12 credits of upper-level Nursing courses. Students must apply for the additional credit hours. All RN to B.S.N. students are required to meet Marshall University's general education curriculum. Information about the general education requirements is available at www.marshall.edu/gened (http://www.marshall.edu/gened/). In addition, RN to B.S.N. students must complete 3 hours of 200-level or higher statistics prior to taking nursing research (NUR 416 Intro Research EBP). A total of 120 credit hours is needed to graduate. See the following for numerical representation of program requirements:

120 credits (minimum required to graduate)
- 40 credits (nursing credits for RN - associate degree/diploma)
80 credits remaining
- 28 credits RN to B.S.N. nursing courses (see below)
52 credits remaining
- 3 credits for required statistics course at 200 level or higher
49 general education credits remaining

Admission Requirements

To be eligible for admission the applicant must:

1. Be a graduate of a nationally accredited diploma or associate degree nursing (ASN) program (i.e., ACEN - Accreditation Commission for Education in Nursing).
2. Meet the general admission requirements of Marshall University.
3. Have an overall Grade Point Average of 2.5 or higher on all college work.
4. Satisfactorily pass a background check and drug screen through the background and drug screen company contracted by the Marshall University School of Nursing. Employer and other background checks and drug screens will not be accepted.
5. Hold an unencumbered RN license[1], if already licensed as RN, in one or more states or territories in the United States.
6. Students applying for the program who are completing their associate degree/diploma upon application to the RN to BSN program must hold an unencumbered RN license[1] **prior** to beginning the second semester of coursework or they will be withdrawn from the program.

[1] An unencumbered license has not been subjected to formal discipline by any Board of Nursing. This includes but is not limited to reprimand, revocation, probation, suspension, restriction, limitation, disciplinary action, discretionary review/hearing or encumbrance. An unencumbered license is a license that has no provisions or conditions that limit practice in any way. This applies to all current or past RN licensure in one or more states or territories.

Application Process

1. Apply to Marshall University.
2. Apply to the School of Nursing RN to B.S.N. program; additional information and form online at www.marshall.edu/nursing/online/rn-to-bsn/admission (http://www.marshall.edu/nursing/online/rn-to-bsn/admission/).
3. Send official college transcripts to the Marshall University Office of Admissions and Marshall University School of Nursing with attention to the RN to B.S.N. program.

1.

Program Requirements

All Registered Nurse graduates from either diploma or associate degree nursing programs with fewer than 40 credit hours in Nursing will be awarded additional credit hours in Nursing up to a total of 40 hours upon successful completion of 12 credits of upper-level Nursing courses. Students must apply for the additional credit hours. All RN to B.S.N. students are required to meet Marshall University's general education curriculum. Information about the general education requirements is available at www.marshall.edu/gened (http://www.marshall.edu/gened/). In addition, RN to B.S.N. students must complete 3 hours of 200-level or higher statistics prior to taking nursing research (NUR 416 Intro Research EBP). A total of 120

credit hours is needed to graduate. See the following for numerical representation of program requirements:

120 credits (minimum required to graduate)
- 40 credits (nursing credits for RN - associate degree/diploma)
80 credits remaining
- 28 credits RN to B.S.N. nursing courses (see below)
52 credits remaining
- 3 credits for required statistics course at 200 level or higher
49 general education credits remaining

Admission Requirements

To be eligible for admission the applicant must:

1. Be a graduate of a nationally accredited diploma or associate degree nursing (ASN) program (i.e., ACEN - Accreditation Commission for Education in Nursing).
2. Meet the general admission requirements of Marshall University.
3. Have an overall Grade Point Average of 2.5 or higher on all college work.
4. Satisfactorily pass a background check and drug screen through the background and drug screen company contracted by the Marshall University School of Nursing. Employer and other background checks and drug screens will not be accepted.
5. Hold an unencumbered RN license[1], if already licensed as RN, in one or more states or territories in the United States.
6. Students applying for the program who are completing their associate degree/diploma upon application to the RN to BSN program must hold an unencumbered RN license[1] **prior** to beginning the second semester of coursework or they will be withdrawn from the program.

[1] An unencumbered license has not been subjected to formal discipline by any Board of Nursing. This includes but is not limited to reprimand, revocation, probation, suspension, restriction, limitation, disciplinary action, discretionary review/hearing or encumbrance. An unencumbered license is a license that has no provisions or conditions that limit practice in any way. This applies to all current or past RN licensure in one or more states or territories.

Application Process

1. Apply to Marshall University.
2. Apply to the School of Nursing RN to B.S.N. program; additional information and form online at www.marshall.edu/nursing/online/rn-to-bsn/admission (http://www.marshall.edu/nursing/online/rn-to-bsn/admission/).
3. Send official college transcripts to the Marshall University Office of Admissions and Marshall University School of Nursing with attention to the RN to B.S.N. program.

Pre-Health, Major

The Pre-Health curriculum is designed to encompass the Core Curriculum at Marshall University while preparing students for any of the health professions majors offered in the College of Health Professions. The courses include academic courses common to all health professions. This program of study is available for no more than four semesters. Therefore, students entering into Pre-Health, Pre-CD, Pre-CLS, or Pre-DTS must be eligible to enter their program of study by the end of the fourth semester or select an alternative choice of major. To facilitate the transfer from a pre-health designation to a major, an advisor hold will be placed on all students after three semesters. Students must meet with their advisors to select a major.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

In addition to those courses listed under Core I, Core II and University requirements, the courses required for each major are on the suggested four-year degree plans. If you have any questions, please consult with your advisor. A Pre-Health student should work with his or her academic advisor to develop a plan to meet the academic requirements of the major of his or her choice. Suggested courses include:

Code	Title	Credit Hours
BSC 227	Human Anatomy	3
BSC 228	Human Physiology	3

Respiratory Care

Contacts: Dr. Joey Trader, Ed.D., M.S.N., RN, CNE; Vice President of Schools of Nursing and Health Professions
Website: https://www.st-marys.org/education-training/center-for-education/

The Bachelor of Science in Respiratory Care Program is a cooperative effort between the Marshall University College of Health Professions and St. Mary's School of Nursing and Health Professions. This program may be completed in four academic years and requires 121 credit hours.

General education courses are offered on the Marshall University Huntington campus and respiratory courses are offered at St. Mary's Medical Center School of Respiratory Care.

Graduates of this program receive a Bachelor of Science in Respiratory Care degree from Marshall University and are eligible to make application to the National Board of Respiratory Care for the advanced respiratory care practitioner credentialing examination.

Accreditation

The St. Mary's/Marshall University Cooperative Bachelor of Science in Respiratory Care program is accredited by the Committee on Accreditation for Respiratory Care (CoARC), 1248 Harwood Road Bedford, TX 76021, 1-817-283-2835, www.coarc.com/ (https://www.coarc.com/).

Admission Requirements

All applicants must be either a graduate of an accredited high school or have a high school equivalent through GED testing. Students who have fewer than 12 hours of college credits are required to have taken the ACT examination.

High School Seniors and Applicants Who Have Completed Fewer than 12 College Credit Hours Must Have:

- A minimum high school GPA of 3.0
- A minimum of *C* on all college courses completed

The Following High School Courses are Strongly Recommended:

- English - 4 units
- Science - 3 units (chemistry, biology I and biology II)
- Math - 2 units (one should be algebra)
- Social Studies - 3 units

Applicants Who Have Completed at Least 12 College Credit Hours Must Have:

- A minimum of *C* on each required non-respiratory course completed
- An overall 2.0 GPA (*C* average) or better on **all** courses completed
- An overall 2.0 GPA on all courses completed at Marshall University
- Taken 12 college semester credit hours at the 100 level or above for a grade

GED Applicants Must:

- Meet criteria for GED admission as stated in the Marshall University undergraduate catalog
- Have completed at least 12 college credit hours at the 100 level and earned grades of *C* or above
- Meet criteria for applicants who have completed at least 12 college credit hours

Tuition Assistance Program

The Marshall University Employee Dependent Undergraduate Tuition Assistance Program cannot be used to cover the tuition and fees of the St. Mary's/Marshall University cooperative programs, which include medical imaging, nursing, and respiratory care. These programs are classified as third-party waiver programs, which are exempted from the Employee Dependent Tuition Assistance Program.

Programs

- Respiratory Care, B.S. (p. 560)
- RRT to B.S.R.C. Technology Enhanced Program (p. 562)

Courses

- General Education Course

RSP 100 Respiratory Pharmacology **3 Credit hours**
Introduces the student to basic pharmacology of medicines used in respiratory care and physiological implications on the human body.
Pre-req: BSC 227 (may be taken concurrently) with a minimum grade of C and BSC 228 with a minimum grade of C and BSC 250 with a minimum grade of C and RSP 101 with a minimum grade of C and RSP 102 with a minimum grade of C and RSP 102L with a minimum grade of C.
Concurrent PR: BSC 227
Co-req: RSP 201, RSP 202, RSP 203
Grade Mode: Normal Grading Mode

RSP 101 Intro to Respiratory Care **3 Credit hours**
Introduces the student to the history of respiratory care and professional organizations. Emphasis is on the role of the respiratory therapist as a member of the health care team.
Pre-req: BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C.
Co-req: RSP 102, RSP 102L
Grade Mode: Normal Grading Mode

RSP 102 Intro Resp Care Procedures **3 Credit hours**
Administration of medical gases, humidity and aerosol therapy with emphasis on the handling of medical gases and safety in administration. Techniques of therapeutic procedures used in respiratory care are included.
Pre-req: BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C.
Co-req: RSP 101, RSP 102L
Grade Mode: Normal Grading Mode

RSP 102L Respiratory Lab **1 Credit hour**
Administration of medical gases, humidity and aerosol therapy with emphasis on the handling of medical gases and safety in administration. Techniques of therapeutic procedures used in respiratory care are included.
Pre-req: BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C.
Co-req: RSP 101, RSP 102
Grade Mode: Normal Grading Mode

RSP 200B Concepts of Respiratory Care **5 Credit hours**
Designed for the board certified and state licensed CRT to enter into advanced respiratory practice. Emphasis is on concepts and principles for professional practice as an RRT.
Grade Mode: Normal Grading Mode

RSP 201 Pulmonary Pathophys **3 Credit hours**
Emphasis is placed on the etiology, signs and symptoms, pathology, clinical manifestations, sequellae, and treatment. The respiratory therapist's role in the recognition and treatment of pulmonary diseases is highlighted.
Pre-req: BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C and BSC 250 with a minimum grade of C and RSP 101 with a minimum grade of C and RSP 102 with a minimum grade of C and RSP 102L with a minimum grade of C.
Co-req: RSP 100, RSP 202, RSP 203
Grade Mode: Normal Grading Mode

RSP 202 Mech Vent Tech & MGT **3 Credit hours**
An introduction to the fundamentals of mechanical ventilation techniques and terminology. Monitoring and the ability to solve clinical problems relating to mechanical ventilation are emphasized. Lab included.
Pre-req: BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C and BSC 250 with a minimum grade of C and RSP 101 with a minimum grade of C and RSP 102 with a minimum grade of C and RSP 102L with a minimum grade of C.
Co-req: RSP 100, RSP 201, RSP 203
Grade Mode: Normal Grading Mode

RSP 203 Respiratory Internship I **4 Credit hours**
Emphasis is on information gathering from the patient record, physical evaluation of the patient and basic respiratory interventions.
Pre-req: BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C and BSC 250 with a minimum grade of C and RSP 101 with a minimum grade of C and RSP 102 with a minimum grade of C and RSP 102L with a minimum grade of C.
Co-req: RSP 100, RSP 201, RSP 202
Grade Mode: Normal Grading Mode

RSP 204 Pulmonary Rehab/Home Care **1 Credit hour**
Emphasis on the care of the patient with long term pulmonary disability requiring home care. Psychosocial and physical needs are addressed with emphasis of quality of life and cardiopulmonary reserve.
Pre-req: RSP 203 with a minimum grade of C.
Co-req: RSP 205, RSP 206, RSP 207, RSP 208, RSP 209
Grade Mode: Normal Grading Mode

RSP 205 Cardiopulmonary Diag **3 Credit hours**
Emphasis on advanced techniques of pulmonary function testing. Topics include lung volume determination, diffusion/distribution of ventilation, invasive and non invasive methods of arterial blood gas sampling, analysis, and interpretation.
Pre-req: RSP 203 with a minimum grade of C.
Co-req: RSP 206, RSP 207
Grade Mode: Normal Grading Mode

RSP 206 Neonatal/Pediatric Care **3 Credit hours**
Provide knowledge of neonatal/pediatric patients; fetal cardiopulmonary development and changes at birth, care methods used and evaluation of neonatal and pediatric patients are covered.
Pre-req: RSP 100 with a minimum grade of C and RSP 201 with a minimum grade of C and RSP 202 with a minimum grade of C and RSP 203 with a minimum grade of C.
Co-req: RSP 207, RSP 208, RSP 209, RSP 211, RSP 212
Grade Mode: Normal Grading Mode

RSP 207 Intro Critical Care MGT **3 Credit hours**
Designed to provide the student with knowledge of airway management, transtrachael oxygen therapy and aspiration, broncholscopy, thoracentisis, pleural chest tubes, arterial lines, ABG interpretation and analysis, transports, and electrocardiogram interpretation.
Pre-req: RSP 100 with a minimum grade of C and RSP 201 with a minimum grade of C and RSP 202 with a minimum grade of C and RSP 203 with a minimum grade of C.
Co-req: RSP 206, RSP 208, RSP 209, RSP 211, RSP 212
Grade Mode: Normal Grading Mode

RSP 208 Respiratory Care Seminar **1 Credit hour**
Introduces the student to NBRC exam taking skills, mock examinations of the NBRC matrix, realistic clinical problems and situations with emphasis on critical thinking and problem solving.
Pre-req: RSP 100 with a minimum grade of C and RSP 201 with a minimum grade of C and RSP 202 with a minimum grade of C and RSP 203 with a minimum grade of C.
Co-req: RSP 206, RSP 207, RSP 209, RSP 211, RSP 212
Grade Mode: Normal Grading Mode

RSP 209 Respiratory Internship II **4 Credit hours**
Emphasis is on supervised practice of humidity and aerosol therapy, aerosol drug therapy, lung inflation therapy and techniques used in electrocardiography.
Pre-req: RSP 100 with a minimum grade of C and RSP 201 with a minimum grade of C and RSP 202 with a minimum grade of C and RSP 203 with a minimum grade of C.
Co-req: RSP 206, RSP 207, RSP 208, RSP 211, RSP 212
Grade Mode: Normal Grading Mode

RSP 210 Respiratory Internship III **4 Credit hours**
Emphasis is on supervised practice of arterial blood gas sampling and analysis, arterial line management, chest tube management, ECGs observation of hemodynamic measurement and monitoring, IABP management.
Pre-req: RSP 100 with a minimum grade of C and RSP 201 with a minimum grade of C and RSP 202 with a minimum grade of C and RSP 203 with a minimum grade of C and RSP 209 with a minimum grade of C.
Co-req: RSP 303, RSP 309
Grade Mode: Normal Grading Mode

RSP 211 Dynamics of Pulmonary **2 Credit hours**
Emphasis is placed on the interaction of systems in gas exchange and renal involvement in acid base balance.
Pre-req: RSP 100 with a minimum grade of C and RSP 201 with a minimum grade of C and RSP 202 with a minimum grade of C and RSP 203 with a minimum grade of C.
Co-req: RSP 206, RSP 207, RSP 208, RSP 209, RSP 212
Grade Mode: Normal Grading Mode

RSP 212 Acute/Chronic Pulmonary Mgt **3 Credit hours**
This is a 3 hour couse with emphasis placed on pulmonary function testing/interpretation and care of a patient with long term pulmonary disability requiring home care and rehabilitation.
Pre-req: RSP 100 with a minimum grade of C and RSP 201 with a minimum grade of C and RSP 202 with a minimum grade of C and RSP 203 with a minimum grade of C.
Co-req: RSP 206, RSP 207, RSP 208, RSP 209, RSP 211
Grade Mode: Normal Grading Mode

RSP 301 Intro Resp Care MGT **3 Credit hours**
Introduces the student to the basic principles of management in the respiratory care department. Includes theory, scope of management, quality issues, budgeting, personnel issues, evaluation and application of management concept.
Grade Mode: Normal Grading Mode

RSP 302 Respiratory Internship IV **4 Credit hours**
Emphasis is on cardiopulmonary assessment and treatment of trauma, post-surgical, cardiac, renal, neonatal and pediatric patients with refinement of monitoring procedures and interpretation of data.
Pre-req: RSP 206 with a minimum grade of C and RSP 207 with a minimum grade of C and RSP 208 with a minimum grade of C and RSP 209 with a minimum grade of C and RSP 211 with a minimum grade of C and RSP 212 with a minimum grade of C.
Co-req: RSP 304, RSP 307, RSP 402
Grade Mode: Normal Grading Mode

RSP 303 Clinical Respiratory Education **3 Credit hours**
Designed as an introduction to clinical teaching in a respiratory care program. Emphasis is on instructional and evaluation strategies and development of performance objectives.
Pre-req: RSP 206 with a minimum grade of C and RSP 207 with a minimum grade of C and RSP 208 with a minimum grade of C and RSP 209 with a minimum grade of C and RSP 211 with a minimum grade of C and RSP 212 with a minimum grade of C.
Co-req: RSP 308
Grade Mode: Normal Grading Mode

RSP 304 Adv Neonatal & Pediatrics **3 Credit hours**
Advanced study of neonatal/pediatric pathophysiology including parenchymal disease, obstructive airway disease, lesions of the lungs and airways, congenital abnormalities, respiratory distress syndrome, apnea disorders, neurological disorders and trauma. (PR: RSP 206)
Pre-req: RSP 303 with a minimum grade of C and RSP 308 with a minimum grade of C.
Co-req: RSP 302, RSP 307, RSP 401
Grade Mode: Normal Grading Mode

RSP 305 Resp Cost MGT & Solutions **3 Credit hours**
Introduces the student to cost solutions for respiratory departments. Topics include annual budgets, purchasing decisions, effective staffing, inventory and supply controls and cost-containment methods.
Co-req: RSP 306
Grade Mode: Normal Grading Mode

RSP 306 Resp Care Performance Improv **3 Credit hours**
Provides basic principles associated with Total Quality Management (TQM) and Continuous Quality Improvement (CQI) to aid in problem identification and quality problem-solving for respiratory care departments.
Co-req: RSP 305
Grade Mode: Normal Grading Mode

RSP 307 Adv Tech Adult Critical Care **4 Credit hours**
Emphasis is on current respiratory care procedures for the critically ill adult patient with exploration into newer techniques.
Pre-req: RSP 303 with a minimum grade of C and RSP 308 with a minimum grade of C.
Co-req: RSP 302, RSP 304, RSP 401
Grade Mode: Normal Grading Mode

RSP 308 Resp Mgt & Quality Improvement **3 Credit hours**
This course introduces the student to basic management principles of a respiratory department. Discussion includes, scope of management, quality issues, budgeting, personnel issues, and evaluation and application of management concepts.
Pre-req: RSP 206 with a minimum grade of C and RSP 207 with a minimum grade of C and RSP 208 with a minimum grade of C and RSP 209 with a minimum grade of C and RSP 211 with a minimum grade of C and RSP 212 with a minimum grade of C.
Co-req: RSP 210, RSP 303
Grade Mode: Normal Grading Mode

RSP 314 Adv Mechanical Ventilation **3 Credit hours**
Advanced theory and application of mechanical ventilation. Study of various mechanical ventilators and artificial airways, with major emphasis placed on all aspects of the management of the patient-ventilator system.
Pre-req: RSP 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

RSP 401 Intro to Sleep Disorders **4 Credit hours**
Designed to teach how a polysomnogram is performed, the major categories of sleep disorders, the presenting symptoms of sleep apnea, narcolepsy, psycholphysiological insomnia and sleep disturbance due to depression.
Pre-req: RSP 303 with a minimum grade of C and RSP 308 with a minimum grade of C.
Co-req: RSP 302, RSP 304, RSP 307
Grade Mode: Normal Grading Mode

RSP 402 Respiratory MGT **3 Credit hours**
Designed to examine respiratory care in rual America. This course will address the key issues confronting rural respiratory healthcare today, examine the causes and develop solutions to the issues.
Pre-req: RSP 302 with a minimum grade of C and RSP 303 with a minimum grade of C and RSP 304 with a minimum grade of C and RSP 307 with a minimum grade of C and RSP 308 with a minimum grade of C.
Co-req: RSP 403, RSP 404, RSP 420
Grade Mode: Normal Grading Mode

RSP 403 Respiratory Care Research **3 Credit hours**
Designed to provide the student knowledge about survey of research problems, methods, and designs utilized in respiratory care, with emphasis on data presentation and analysis.
Pre-req: RSP 302 with a minimum grade of C and RSP 303 with a minimum grade of C and RSP 304 with a minimum grade of C and RSP 307 with a minimum grade of C and RSP 308 with a minimum grade of C and (STA 225 with a minimum grade of C or MGT 218 with a minimum grade of C or PSY 223 with a minimum grade of C or EDF 417 with a minimum grade of C or BSC 417 with a minimum grade of C).
Co-req: RSP 402, RSP 404, RSP 420
Grade Mode: Normal Grading Mode

RSP 404 Adv Respiratory Care Practicum **4 Credit hours**
Advanced respiratory techniques and management for clients across the life-span.
Pre-req: RSP 302 with a minimum grade of C and RSP 303 with a minimum grade of C and RSP 304 with a minimum grade of C and RSP 307 with a minimum grade of C and RSP 308 with a minimum grade of C and (STA 225 with a minimum grade of C or MGT 218 with a minimum grade of C or PSY 223 with a minimum grade of C or EDF 417 with a minimum grade of C or BSC 417 with a minimum grade of C).
Co-req: RSP 402, RSP 403, RSP 420
Grade Mode: Normal Grading Mode

RSP 405 Flight/Hyperbaric Care **3 Credit hours**
Advanced respiratory techniques related to physiologic stressors impacting patient care due to atmospheric impact and pressure gradients and unique hazards in these environments to patients and staff.
Co-req: RSP 420
Grade Mode: Normal Grading Mode

RSP 406 Community Respiratory Care **3 Credit hours**
Designed for the student to provide care in a variety of settings including clinics, schools and other settings utilizing principles of public health and client and family teaching.
Grade Mode: Normal Grading Mode

RSP 407 Clinical Decision Making **3 Credit hours**
The course focuses on gathering appropriate clinical information to make evidence-based decisions in the treatment for respiratory care diseases.
Pre-req: RSP 201 with a minimum grade of C.
Grade Mode: Normal Grading Mode

RSP 420 Capstone in Respiratory Care **5 Credit hours**
Role synthesis practicum incorporating provider of care, coordinator of care, member of profession and leadership roles.
Pre-req: RSP 302 with a minimum grade of C and RSP 303 with a minimum grade of C and RSP 307 with a minimum grade of C and RSP 308 with a minimum grade of C and (STA 225 with a minimum grade of C or MGT 218 with a minimum grade of C or PSY 223 with a minimum grade of C or EDF 417 with a minimum grade of C or BSC 417 with a minimum grade of C).
Co-req: RSP 402, RSP 403, RSP 404
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

RSP 480 Special Topics **1-4 Credit hours**
Study of topics not available in other courses.
Grade Mode: Normal Grading Mode

RSP 481 Special Topics **1-4 Credit hours**
Study of topics not available in other courses.
Grade Mode: Normal Grading Mode

RSP 482 Special Topics **1-4 Credit hours**
Study of topics not available in other courses.
Grade Mode: Normal Grading Mode

RSP 483 Special Topics **1-4 Credit hours**
Study of topics not available in other courses.
Grade Mode: Normal Grading Mode

RSP 485 Independent Study **1-4 Credit hours**
Course will consist of directed and independent readings, directed and independent research, problem reports, or tutorials. Will allow students to complete individualized learning in respiratory care.
Grade Mode: Normal Grading Mode

RSP 486 Independent Study **1-4 Credit hours**
Course will consist of directed and independent readings, directed and independent research, problem reports, or tutorials. Will allow students to complete individualized learning in respiratory care.
Grade Mode: Normal Grading Mode

RSP 487 Independent Study **1-4 Credit hours**
Course will consist of directed and independent readings, directed and independent research, problem reports, or tutorials. Will allow students to complete individualized learning in respiratory care.
Grade Mode: Normal Grading Mode

RSP 488 Independent Study **1-4 Credit hours**
Course will consist of directed and independent readings, directed and independent research, problem reports, or tutorials. Will allow students to complete individualized learning in respiratory care.
Grade Mode: Normal Grading Mode

Faculty

Program Director
Chuck Zuhars, M.S., ED, RRT

Respiratory Care, B.S.

Students receive Marshall University credit for all courses in the program. Graduates of the cooperative program receive a Bachelor of Science degree in Respiratory Care from Marshall University.

To obtain more information and an application, write to: St. Mary's/ Marshall University Cooperative Bachelor of Science in Respiratory Care Program, 2900 First Avenue, Huntington, WV 25702, Telephone: 304-526-1415.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
MTH 121	Concepts and Applications (CT)	3
PSY 201	Introductory Psychology (CT)	3
Core 2		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
CMM 103	Fund Speech-Communication	3
MTH 121	Concepts and Applications (CT)	3
BSC 228	Human Physiology	3
BSC 228L	Human Physiology Lab	1
PSY 201	Introductory Psychology (CT)	3
Core II Humanities (MC/I)		3
Core II Fine Arts		3

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Course offerings and course attributes are subject to change each semester. Please consult each semester's schedule of courses for availability and attributes.
- The respiratory care program prepares students for the advanced level of practice to function as a licensed respiratory therapist.
- Students receive Marshall University credit for all courses in the program. Graduates of the cooperative program receive a Bachelor of Science degree in Respiratory Care from Marshall University.
- The St. Mary's/Marshall University Cooperative Bachelor of Science in Respiratory Care program is accredited by the Committee on Accreditation for Respiratory Care (CoARC).

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Bachelor of Science in Respiratory Care Program is a cooperative effort between the Marshall University College of Health Professions and St. Mary's School of Nursing and Health Professions. This program may be completed in four academic years and requires 121 credit hours. General education courses are offered on the Marshall University Huntington campus and respiratory courses are offered at St. Mary's Medical Center School of Respiratory Care. Graduates of this program receive a Bachelor of Science in Respiratory Care degree from Marshall University and are eligible to make application to the National Board of Respiratory Care for the advanced respiratory care practitioner credentialing examination.

RRT to B.S.R.C. Technology Enhanced Program

The Marshall University/St. Mary's School of Respiratory Care offers an RRT to B.S.R.C. program for registered respiratory therapists who have diplomas or associate degrees in respiratory care and wish to earn a baccalaureate degree. This program may be completed in two semesters of full-time study or extended for part-time study. All courses will be taught through technology-enhanced methods.

Social Work

Contacts: Jo Dee Gottlieb, Program Director
Website: http://www.marshall.edu/cohp (http://www.marshall.edu/cohp/)

Introduction

The Bachelor of Social Work is a professional degree allowing the student to enter an exciting and growing field. Social workers practice in a variety of settings including child welfare agencies, nursing homes, hospitals, schools, group homes, mental health centers, foster care agencies, and probation offices. Social workers work with individuals, families, groups, institutions, and communities and continually work to improve social conditions. The mission of the Marshall University Baccalaureate Social Work Program is to prepare students for the beginning level of practice as social work generalists grounded in the core professional values and competencies with an understanding and appreciation of the populations and institutions of Appalachia.

Our Commitment to Social Justice

The Marshall University Department of Social Work affirms our strong commitment to human rights and social justice. We offer the reassurance of our unflinching commitment to the values of pluralism that have been crucial in weaving the strong fabric of our civil society. We do not support and will stand against any acts of bigotry, hate, harassment, bullying, or discrimination toward any individual or group. We welcome, stand with, and offer a safe place to all students regardless of race, color, immigrant status, culture, LGBTQ identification, disability, religious affiliation, spiritual belief, gender, or any other nuance of identity that may place one at risk of alienation.

Admission

Students may declare a major in Social Work as early as freshman year. In order to become formally accepted into the program, however, students must complete SWK 203 Intro To Social Work with a grade of *C* or above and at least 24 hours of general academic requirements with an overall grade point average of 2.0 or above. At that time, a student may complete an application and interview for acceptance into the program. An admission committee made up of Social Work faculty reviews applications and conducts interviews. The committee may recommend accepting students into the program, conditional acceptance, or non-acceptance based on the following criteria:

A. Acceptance
   1. Academic requirements: GPA of 2.0 or above and completion of SWK 203 Intro To Social Work with a grade of *C* or above.
   2. Ability to maintain positive and constructive interpersonal relationships.
   3. Evidence of communication skill.
   4. Demonstration of self-awareness, ethical behavior and willingness to learn.

B. Conditional Acceptance: based on taking remedial action regarding one or more of the above.

C. Non-Acceptance – with referral – based on:
   a. The student's application and academic requirements.
   b. Information from faculty knowledgeable about the student.
   c. The interview process.

Students who are not satisfied with a decision may appeal in writing, within 10 days of notification, to the program director who will reconvene the committee to re-evaluate the recommendation. Further appeal may be made in accordance with university procedure as designated in The Academic Rights and Responsibilities of Students policy which is published in the Marshall University Undergraduate Catalog.

Credit for Life Experience

The social work program does not grant social work course credit for life experience or for previous work experiences.

Continuation in the Program

It is expected that once a student is accepted into the program, academic requirements and standards will be maintained. Since it is a professional program, continuance in Social Work depends on continuing progress toward a professional level of performance. The B.S.W. degree is reserved for students who have demonstrated that level of competence. In addition to mastering a body of knowledge, a social worker must possess professional attitudes, skills, values and ethics. Academic performance in the B.S.W. program includes classroom performance, class attendance, ethical behavior, communication skills, and psychological well-being sufficient to maintain positive and constructive relationships with clients.

Occasionally, it is determined that a student in the program may not be suited for the field of social work. In that case, the advisor may recommend remedial action or may counsel the student out of the program. When a decision is made to terminate a student from the program, the student may appeal that decision to the program director. If not satisfied, the student may appeal in accordance with the university procedure, as designated in the "Academic Rights and Responsibilities of Students" published in the Marshall University *Undergraduate Catalog*.

Requirements

Social Work students complete the general and specific education requirements. Additional requirements for acceptance into the Social Work Program can be obtained by contacting the Social Work office. Electives highly recommended include courses in social work special topics, history, anthropology, sociology, psychology, communications, philosophy, political science, and economics. Students should consult their advisors for recommended electives.

Students should contact the Social Work department faculty for advisement as early as possible.

Accreditation Status

The B.S.W. program is accredited by the Council on Social Work Education.

Courses at the Mid-Ohio Valley Center

Students may take Social Work classes at the Mid-Ohio Valley Center in Point Pleasant. Many classes are available at the center, but some attendance at the Huntington campus will be necessary to complete the degree.

Programs

- Social Work, B.S.W. (p. 565)
- Social Work, Minor (p. 564)

Courses

- General Education Course

SWK 203 Intro To Social Work **3 Credit hours**
Introduction to the field of social work practice. Introduction to the field of social work practice.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SWK 260 Substance Use and SWK **3 Credit hours**
This course provides information on substance use and addiction from a social work ecosystems perspective emphasizing understanding of addiction and recovery, family dynamics, assessment, and intervention.
Grade Mode: Normal Grading Mode

SWK 261 Staff Development **1-4 Credit hours**
Courses designed for staff development and training needs of social work or para social work professionals or trainees, not degree applicable. Topics will vary. CR/NC grading.
Grade Mode: Credit/No Credit Grade Only

SWK 262 Staff Development **1-4 Credit hours**
Courses designed for staff development and training needs of social work or para social work professionals or trainees, not degree applicable. Topics will vary. CR/NC grading.
Grade Mode: Credit/No Credit Grade Only

SWK 263 Staff Development **1-4 Credit hours**
Courses designed for staff development and training needs of social work or para social work professionals or trainees, not degree applicable. Topics will vary. CR/NC grading.
Grade Mode: Credit/No Credit Grade Only

SWK 280 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SWK 281 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SWK 282 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SWK 283 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SWK 307 Child Welfare **3 Credit hours**
Examination of child welfare issues, services, and interventions. Examination of child welfare issues, services, and inter- ventions.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

SWK 310 Human Behav Soc Envir I **3 Credit hours**
Integration of biological, psychological, social and cultural aspects of the individual's growth and development from prenatal period through adolescence including the impact the social environment has on the individual. Integration of biological, psychological, social and cultural aspects of the individual's growth and development from prenatal period through adolescence including the impact the social environment has on the individual.
Pre-req: SWK 203 and (ENG 201 or ENG 102 or ENG 302 or ENG 201H) and BSC 105 and PSY 201 and SOC 200 and PSC 202 and ECN 250 and (MTH 121 or MTH 121B or MTH 122 or MTH 123 or MTH 127 or MTH 130 or MTH 130E).
Co-req: SWK 320, SWK 330, SWK 340
Grade Mode: Normal Grading Mode

SWK 312 Hum Behav Soc Envir **3 Credit hours**
Integration of biological, psychological, social and cultural aspects of the individual's growth and development from early through later adulthood including impact of social environment on the individual. Organizational theory included. Integration of biological, psychological, social and cultural aspects of the individual's growth and development from early through later adulthood including impact of social environment on the individual. Organizational theory included.
Pre-req: SWK 310 with a minimum grade of D and SWK 320 with a minimum grade of D and SWK 330 with a minimum grade of D and SWK 340 with a minimum grade of D.
Co-req: SWK 322, SWK 332, SWK 370
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SWK 320 Social Work Practice I **4 Credit hours**
Pre-req: SWK 203 and (ENG 201 or ENG 102 or ENG 302 or ENG 201H) and BSC 105 and PSY 201 and SOC 200 and PSC 202 and ECN 250 and (MTH 121 or MTH 121B or MTH 122 or MTH 123 or MTH 127 or MTH 130 or MTH 130E).
Co-req: SWK 310, SWK 330, SWK 340
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SWK 322 Social Work Practice II **4 Credit hours**
Pre-req: SWK 320 with a minimum grade of D and SWK 310 with a minimum grade of D and SWK 330 with a minimum grade of D and SWK 340 with a minimum grade of D.
Co-req: SWK 312, SWK 332, SWK 370
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SWK 330 Soc Wel Issues in Appalachia **3 Credit hours**
The development of Social Welfare as a continuing institution. Rural poverty and other critical social issues in Appalachia.
Pre-req: SWK 203 and (ENG 201 or ENG 102 or ENG 302 or ENG 201H) and BSC 105 and PSY 201 and SOC 200 and PSC 202 and ECN 250 and (MTH 121 or MTH 121B or MTH 122 or MTH 123 or MTH 127 or MTH 130 or MTH 130E).
Grade Mode: Normal Grading Mode

SWK 332 Soc Wel Policy & Legislation **3 Credit hours**
Policy formulation, implementation and analysis. Examination and critical analysis of social welfare policies, legislation, and administration.
Pre-req: SWK 310 with a minimum grade of D and SWK 320 with a minimum grade of D and SWK 330 with a minimum grade of D and SWK 340 with a minimum grade of D.
Co-req: SWK 312, SWK 322, SWK 370
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SWK 340 Social Work Research **3 Credit hours**
Introduction to Social Work Research with preparation for evaluation of generalist practice.
Pre-req: SWK 203 and (ENG 201 or ENG 102 or ENG 302 or ENG 201H) and BSC 105 and PSY 201 and SOC 200 and PSC 202 and ECN 250 and (MTH 121 or MTH 121B or MTH 122 or MTH 123 or MTH 127 or MTH 130 or MTH 130E).
Co-req: SWK 310, SWK 320, SWK 330
Grade Mode: Normal Grading Mode

SWK 370 Practicum I **3 Credit hours**
Supervised field experience in a social agency or organization for minimum of 100 clock hours. Regular conferences with instructor and weekly seminars. Supervised field experience in a social agency or organiza- tion for minimum of 100 clock hours. Regular conferences with instructor and weekly seminars.
Pre-req: SWK 310 with a minimum grade of D and SWK 320 with a minimum grade of D and SWK 330 with a minimum grade of D and SWK 340 with a minimum grade of D.
Co-req: SWK 312, SWK 322, SWK 332
Attributes: No Textbook Required
Grade Mode: Credit/No Credit Grade Only

SWK 473 Practicum II **12 Credit hours**
Supervised field experience in a social agency or organization for minimum of 400 clock hours. Regular conferences with instructor and weekly seminars. Supervised field experience in a social agency or organiza- tion for minimum of 400 clock hours. Regular conferences with instructor and weekly seminars.
Pre-req: SWK 312 and SWK 322 and SWK 332 and SWK 370.
Attributes: Multicultural
Grade Mode: Credit/No Credit Grade Only

SWK 475 Social Work Seminar **6 Credit hours**
A capstone course integrating course work and field work as preparation for beginning level of generalist Social Work practice. A capstone course integrating course work and field work as preparation for beginning level of generalist Social Work practice.
Pre-req: SWK 312 with a minimum grade of D and SWK 322 with a minimum grade of D and SWK 332 with a minimum grade of D and SWK 370 and SWK 473 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: SWK 473
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

SWK 480 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled classes. Study of topics of interest not covered in regularly sched- uled classes.
Grade Mode: Normal Grading Mode

SWK 481 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled classes. Study of topics of interest not covered in regularly sched- uled classes.
Grade Mode: Normal Grading Mode

SWK 482 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled classes. Study of topics of interest not covered in regularly sched- uled classes.
Grade Mode: Normal Grading Mode

SWK 483 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled classes. Study of topics of interest not covered in regularly sched- uled classes.
Grade Mode: Normal Grading Mode

SWK 485 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly sched- uled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SWK 486 Independent Study **1-4 Credit hours**
Individual study of topice not offered in regular scheduled courses. Advance permission required. Individual study of topice not offered in regular sched- uled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SWK 487 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly sched- uled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SWK 488 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly sched- uled courses. Advance permission required.

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Course offerings and course attributes are subject to change semesters. Please consult each semesters schedule of courses for availability and attributes.
- Students may declare a major in Social Work as early as freshman year. In order to become formally accepted into the program, however, students must complete SWK 203 Intro To Social Work with a grade of *C* or above and at least 24 hours of general academic requirements with an overall grade point average of 2.0 or above. At that time, a student may complete an application and interview for acceptance into the program.
- It is expected that once a student is accepted into the program, academic requirements and standards will be maintained. Since it is a professional program, continuing progress toward a professional level of performance is required. The B.S.W. degree is reserved for students who have demonstrated that level of competence. In addition to mastering a body of knowledge, a social worker must possess professional attitudes, skills, values and ethics. Academic performance in the B.S.W. program includes classroom performance, class attendance, ethical behavior, communication skills, and psychological well-being sufficient to maintain positive and constructive relationships with clients.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Bachelor of Social Work is a professional degree allowing the student to enter an exciting and growing field. Social workers practice in a variety of settings including child welfare agencies, nursing homes, hospitals, schools, group homes, mental health centers, foster care agencies, and probation offices. Social workers work with individuals, families, groups, institutions, and communities and continually work to improve social conditions. The mission of the Marshall University Baccalaureate Social Work Program is to prepare students for the beginning level of practice as social work generalists grounded in the core professional values and competencies with an understanding and appreciation of the populations and institutions of Appalachia.

College of Liberal Arts

Contacts: Dr. Robert Bookwalter, Dean; Dr. Kelli M. Prejean, Associate Dean
Website: http://www.marshall.edu/cola (http://www.marshall.edu/cola/)

cola@marshall.edu

The College of Liberal Arts is committed to excellence in higher education. We have the responsibility to preserve, transmit, interpret, and create knowledge in an environment of free inquiry and expression. We will provide instruction that forms the core of the undergraduate curriculum for all Marshall University students so they may think critically and imaginatively, communicate effectively, and understand various dimensions of human experience. Within the disciplines of the college we will provide specialized instruction for undergraduate and graduate students, enabling them to develop the intellectual and moral abilities to live autonomous, sensitive, productive lives. We will be active scholars who contribute to the wider academic community. We will continue to use our expertise in the service of others.

- Department of Communication Studies (p. 241)
- Department of English (p. 251)
- Department of Finance, Economics and International Business (p. 271)
- Department of Geography (p. 274)
- Department of History (p. 287)

- Department of Modern Languages (p. 297)
- Department of Political Science (p. 310)
- Department of Psychology (p. 319)
- Department of Sociology and Anthropology (p. 324)
- Humanities (p. 336)
- Interdisciplinary (p. 356)
- International Affairs (p. 387)

Admission Requirements

1. Regular admission to the university constitutes admission to the College of Liberal Arts for students entering as freshmen and as transfers from other institutions. There is no separate admissions process.
2. The College of Liberal Arts will accept inter-college and college transfers.

Academic Policies

Changing Your Major or College

If you want to declare a major, change your major, or transfer to a different college at Marshall, you must do this in the College of Liberal Arts office, Old Main 110.

Advising: General

Your advisor is a member of the faculty or a professional staff person in your major. Advisors help you select appropriate courses for the major, minor, and general education requirements. In addition, your advisor can give you advice about career and graduate school opportunities. Although you most often will see your advisor during registration periods, all advisors are available during office hours throughout the semester. You should arrange an appointment with your advisor at any time during the semester when you need their advice.

As a Marshall University student, you are responsible for understanding and following the degree requirements outlined in this catalog as they apply to university and college degree requirements, the requirements for the major, and the requirements for other programs you may be pursuing. Changing your schedule by adding and dropping courses may affect your program of study and the time required to complete your degree.

Advising: Preregistration

If you are a freshman or sophomore and have declared a major, you must meet with your advisor before registering for classes. The advisor is the only person who can remove your "advisor hold" so you may register for courses.

All students majoring in Classics, Communication Studies, Philosophy, and Religious Studies must meet with an advisor before registration. Therefore, you should check your department listing in this catalog to determine the exact advising requirements.

Before you meet with your advisor, you should prepare a tentative list of courses for your advisor to review with you. Specifically, you should complete the advising sheet for your major. These sheets are available on the website for the department (these are listed below) and in the College of Liberal Arts office, Old Main 110.

Determining Your Catalog

When you declare your major the catalog current on that date will then become the official document specifying the requirements for your major. You will have ten years to complete the requirements for the major. If you do not meet these requirements within ten years of declaring your major, then you will need to meet the requirements for the then-current catalog. If you decide to change your major or to transfer to another college, you are governed by the catalog in effect at the time of change.

Credit Evaluations for Rising Juniors and Seniors

Once you have completed 60, and again when you have completed 90 credit hours, the staff of the College of Liberal Arts will review your academic record to ensure you are on the right track for graduation. You will receive notification that you will need to meet with the Academic Advisor in the College of Liberal Arts main office to review your academic record. After the meeting, the advisor will lift the hold, which will allow you to register for courses.

Academic Standing

- **Good Standing**
  You are in good standing when both your Marshall GPA and overall GPA are 2.0 or above.
- **Academic Probation**
  If you have a deficit of quality points in your Marshall or overall GPA you are classified as on "academic probation." Quality point deficits accumulate as a result of excessive grades of *D* or *F*, causing your GPA to fall below a 2.0. If you are on academic probation, an academic obligation hold is placed on your registration status. This means that you cannot use Web registration. You must also secure approval from the Associate Dean of the College of Liberal Arts before you can register or change your schedule in any way. You will not be able to register for more than 14 semester hours. If you are on probation and are subject to mandatory advising, first take your proposed schedule to your advisor. Once your advisor approves your schedule, take it to the College Office for approval by the Associate Dean. The Associate Dean will help you set goals for academic progress through an Academic Improvement Plan. One strategy is to repeat courses taken before the 60th attempted hour in which you received a *D* or *F*. (See "*D/F* Repeat Rule" in this catalog.) When your quality point deficit is zero, you are no longer on academic probation.

Degree Requirements

Students completing requirements in the College of Liberal Arts receive the Bachelor of Arts (B.A.) degree or a Bachelor of Science (B.S.) degree in Geography or Psychology. Each degree requires a minimum of 120 hours of credit. Within the 120 credit hours, you must meet these general and specific requirements.

General Requirements for Graduation

1. **Core Curriculum:** All students must complete the Core Curriculum defined in this catalog;
2. **Grade Point Averages:** All students must have a Grade Point Average of 2.0 or higher for
   a. all work attempted at Marshall University and
   b. all attempted collegiate work (Marshall University and other institution credit).

Students must also earn a minimum Grade Point Average of 2.0 for the major unless the major requires a higher average (see major descriptions for specific requirements).

3. **Residency Requirement:** All students must complete 15 credit hours in the major field and 12 credit hours of upper division coursework within the College of Liberal Arts at Marshall University.
4. **Transfer:** No student may count more than 72 credit hours which were transferred from an accredited West Virginia two-year institution of higher education. Students planning to transfer credit to Marshall University should consult with the Associate Dean to determine whether the credit will apply to the degree program.

College of Liberal Arts Degree Requirements

Students completing requirements in the College of Liberal Arts receive the Bachelor of Arts (B.A.) degree with the exception of the Bachelor of Science (B.S.) degree in Geography and Bachelor of Science (B.S.) degree in Psychology. A minimum of 120 credit hours is required for graduation.

Students in the College of Liberal Arts must complete the following requirements:

1. **Total University Hours:** All students must complete a minimum of 120 credit hours of college-level work (100-level or greater).
2. **Major:** All students must complete the requirements for the declared major.
3. **Upper Division Hours:** All students must complete a minimum of 48 credit hours in courses numbered 300-499. Courses transferred from two-year or community colleges or Advanced Placement credit cannot be used to satisfy the upper division requirement regardless of the Marshall University course equivalent. Courses completed at a four-year regionally accredited college transfer at the level at which they were completed at the other institution.

Code	Title	Credit Hours
Foreign Language		
Successful completion of 12-hour sequence ending with: [1]		12
FRN 204	Intermediate French IV	
GER 204	Intermediate German II

Multicultural Requirement (in addition to the Core II requirement)	
Select any course designated Multicultural	3
International Requirement (in addition to the Core II requirement)	
Select any course deisgnated International	3

[1] Students must complete the sequence beginning with the first course they take.
Students who have had three or more years of a language in high school should take a placement test to see where in the elementary/intermediate (101-204) sequence they should begin their language. Please note that students cannot take a placement examination after they have started a language at Marshall or any other university.
Students also should not take the placement test until they are ready to start a language. Students are encouraged to start language as soon as possible after high school if they intend to remain in the same language they took in high school.

For French, contact Dr. Nicholas Shangler (**shangler@marshall.edu**).
For German, contact Professor Anke Duerr McKown (**duerrmccown@marshall.edu**).
For Japanese, contact Dr. Zeli Rivas (**Rivasz@marshall.edu**).
For Spanish, contact Dr. Jose Luis Morillo (**murillo@marshall.edu**) or Ms. Tracie Wheeler (**Wheelertr@marshall.edu**) to register for the placement exam.
Students who successfully place into a course above 101 can receive up to nine hours back credit for the courses they have placed out of provided that they take and pass with a grade of *C* or better the next course in the sequence. Back credit is awarded only in the semester in which the student takes the next course.
Native and heritage speakers must take a placement test before they register for 101-204 in any language. Students who are native speakers of languages other than those taught by the department can receive a foreign language waiver provided that they can demonstrate speaking, listening, reading, and composition skills in that language. Students must identify a faculty member on campus, who can aid with the assessment of their skills. The chair of Modern Languages will arrange the testing of the student and the notification of the appropriate individuals. To request a foreign language waiver, please contact Dr. Rosario Quintana Villamandos (quintana@marshall.edu).

This requirement also may be waived through conclusive proof of native proficiency in a foreign language and its culture.

College of Science

Contacts: Mr. Brian M. Morgan, Interim Dean
Website: http://www.marshall.edu/cos/

cos@marshall.edu

The College of Science was established in 1976 and is composed of nine departments within four schools: School of Biological and Environmental Sciences, School of Forensic and Criminal Justice Sciences, School of Mathematics and Applied Informatics, and School of Physical Sciences. While the College of Science Dean's Office is located in Science Building 270, the college operates out of several buildings including the Science Building, Morrow Library, Prichard Hall, and Smith Hall. Some lecture and laboratory classes and faculty offices also are in the Robert C. Byrd Biotechnology Science Center and the Weisberg Applied Engineering Complex.

Mission of the College

Scientific and technologically trained people are essential to our nation's health and prosperity in a rapidly expanding global economy. Students majoring in baccalaureate degree programs in the College of Science receive a broad education conducive to pursuing a wide range of career options. Course requirements include solid grounding in the student's chosen area of scientific interest along with studies in humanities and the social sciences. Students receive instruction in a learning environment that encourages competency in written and oral communication skills along with the ability to work in groups. Special emphasis is placed on experiential learning through participation in activities such as undergraduate research and internships. For non-science majors, departments in the College of Science offer a series of courses which focus on enhancing science literacy through instruction in integrated science and practical applications of mathematics.

School of Biological and Environmental Sciences - Dr. Brian Antonsen, Director

The School of Biological and Environmental Sciences (SBES) is committed to teaching students about the science of life at levels that extend in size from the molecular to ecosystem, and which include the study of myriad interactions between living and non-living parts of our world. The school is composed of the Department of Biological Sciences and the Department of Natural Resources and the Environment. These departments offer a diversity of courses in areas such as cell, molecular and medical biology; ecology; organismal biology; evolutionary biology; environmental science; natural resources and recreation management. Students in SBES are actively engaged in research with faculty mentors, and they frequently publish their work, and give presentations at national meetings. Programs in SBES have been designed to prepare students to obtain workforce positions in the life sciences; or, for those who seek further training, to enter either professional programs in a variety of health care disciplines or graduate school to pursue a Master's or Ph.D.

Alumni of these programs have chosen diverse career paths and are now working as health professionals, teaching at all educational levels, serving as environmental researchers and regulators, conducting biomedical and pharmaceutical research, and operating bioscience and consulting businesses that help grow and diversify the West Virginia economy.

School of Forensic and Criminal Justice Sciences - Dr. Dhruba Bora, Director

The School of Forensic and Criminal Justice Sciences (SFCJS) includes the Department of Criminal Justice and Criminology and the Department of Cyber Forensics and Security. The SFCJS unites the top Master of Science in Forensic Science program in the country with a well-established undergraduate and graduate program in Criminal Justice, and a rapidly growing undergraduate major in Cyber Forensics and Security. SFCJS programs focus on real-world application of criminology and scientific detection technologies. Coursework in these programs is multidisciplinary and prepares students for careers in the criminal justice system as well as graduate programs or law school. Our BA, BS, and MS graduates work throughout the country and the world in classic forensic science, digital forensic science, law enforcement, and information assurance professions.

School of Mathematics and Applied Informatics - Dr. Alfred Akinsete, Director

The School of Mathematics and Applied Informatics (SMAI) offers undergraduate and graduate programs in the departments of Mathematics and Computer and Information Technology (CIT). CIT students can receive a bachelor's degree in Computer and Information Technology with an emphasis in Web and Mobile Application Development, Computer Applications, or Gaming and Simulation Development. Students of mathematics can earn degrees in Mathematics and Statistics. The award-winning faculty of SMAI take pride in teaching excellence, both in the classroom and in research settings. Our students benefit from small classes, faculty access, and support services designed to ensure their success. Graduates of both Mathematics and CIT programs frequently go on to graduate school. Those who go into the workforce are employed in virtually every sector of the economy.

School of Physical Sciences - Dr. Michael Castellani, Director

The School of Physical Sciences (SPS) includes the departments of Chemistry, Geology, and Physics. All three departments offer classes with expert faculty complemented by hands on experience in the laboratory or field. Research opportunities for students of the Physical Sciences range in size from nanotechnology to cosmology, and in scope from the theoretical aspects of quantum mechanics to the applied discipline of oil and gas exploration. Class sizes and student to faculty ratios are small, providing some of the best educational experiences available anywhere. A major in Chemistry provides students with preparation to work in the chemical industry, to go on to graduate education in chemistry, or to apply to professional schools in many health-related fields. Majors in Geology receive extensive field training and practical experience, which helps explain our exceptional placement rate (over 95%) of Geology graduates either entering graduate school or securing professional positions in their field of study. A major in Physics provides students with a broad understanding of the laws that govern the universe, from the cosmos to the quark. Physics students acquire a set of highly transferable skills in problem-solving, data analysis, and an understanding of how things work. These skills are in high demand in diverse sectors, opening career paths to physics graduates across different industries, like aerospace, healthcare, energy, materials, technology, computing, education, defense, etc.

Course offerings by all departments within the college are available to science majors and to students in other disciplines who are interested in broadening their skills and knowledge in basic science, mathematics, and computers.

Departments

- Combined College and Professional Degrees (p. 681)
- Department of Biological Sciences (p. 571)
- Department of Chemistry (p. 584)
- Department of Computer and Information Technology (p. 598)
- Department of Criminal Justice and Criminology (p. 604)
- Department of Cyber Forensics and Security (p. 611)
- Department of Geology (p. 615)
- Department of Mathematics (p. 624)
- Department of Natural Resources and the Environment (p. 634)
- Department of Physics (p. 648)
- Pre-Professional Health Care Studies, Interdisciplinary Minor (p. 661)
- Sustainability, Interdisciplinary Minor (p. 682)

Admission Requirements

The ACT scores required for full admission to the College of Science are a minimum mathematics score of 21 and a minimum composite score of 21. For the SAT, a score of 530 in math and a 1060 composite score are required. Students who are fully admitted are allowed to enroll in the major of their choice.

A student who does not meet these admission requirements but still wishes to pursue a program in the College of Science may gain admission by enrolling as a pre-science major[1] and completing the following requirements:

1. Completion of

Code	Title	Credit Hours
Select one of the following:		3
ENG 101	Beginning Composition	
ENG 200H	Texting the World (CT)	
ENG 201H	English Comp Honors	
Total Credit Hours		**3**

with a grade of *C* or higher.

2. Completion of one of the following:

Code	Title	Credit Hours
Select one of the following:		3-5
MTH 127	College Algebra-Expanded	
MTH 130	College Algebra	
MTH 132	Precalculus with Sci Applica	
MTH 122	Plane Trigonometry	
MTH 140	Applied Calculus	
MTH 229	Calculus/Analytic Geom I (CT)	
Total Credit Hours		**3-5**

with a grade of *C* or higher. (For Criminal Justice majors, MTH 160 Applied Math Reasoning (CT) will fulfill the math requirement.)

3. A transfer student with a GPA of less than 2.0 who has not passed college algebra with a *C* or better will be placed in pre-science until he or she has a *C* or better in one of the following:

Code	Title	Credit Hours
Select one of the following:		3-5
MTH 127	College Algebra-Expanded	
MTH 130	College Algebra	
MTH 132	Precalculus with Sci Applica	
MTH 122	Plane Trigonometry	
MTH 140	Applied Calculus	
MTH 229	Calculus/Analytic Geom I (CT)	
Total Credit Hours		**3-5**

[1] pre-biology, pre-chemistry, pre-computer information & technology, pre-criminal justice, pre-digital forensics, pre-environmental science, pre-geology, pre-mathematics, pre-natural resources & recreation management, and pre-physics

After meeting these requirements students will become fully admitted and will be allowed to declare a major.

Academic Policies

For students transferring from another institution to Marshall, the College of Science will permit the application of any appropriate transfer credits accepted by the university to meet general education requirements. For coursework to be accepted as fulfilling upper division requirements, that work must have been earned at institutions accredited to offer junior/senior level courses.

Degree Requirements

In addition to satisfying the requirements for a specific major, students must meet the college requirements outlined below and the university requirements as described in this catalog.

Students entering any baccalaureate degree program in the College of Science are responsible for meeting core foundations, which are baccalaureate program initiatives approved by the faculty and the university president for all students. Students are to consult with their academic/program advisors or the chairperson of their major departments for guidance in determining the specific details of meeting the above-referenced baccalaureate curricular initiatives.

General College Requirements

1. Candidates for graduation must complete all Marshall University's Core Curriculum requirements as defined in this catalog.
2. Candidates for graduation must apply for graduation through the office of the dean.
3. Candidates for graduation must have a Grade Point Average of 2.0 or higher on all work attempted at Marshall University, and must have an average of 2.0 or higher in their major. Quality point deficiencies in the major cannot be reduced by taking lower division (100/200 level) courses within the major department, except as provided for by the *D/F* Repeat Rule; exceptions may be allowed by the department chair with the concurrence of the dean.
4. A minimum of 120 semester hours of credit is required for graduation. Forty (40) hours must be earned in courses numbered 300-499. Courses taken more than once will only count one time for graduation hours. Courses transferred from two-year or community colleges cannot be used to satisfy the upper division requirement.
5. The *CR/NC* option cannot be used:
   a. for any course taken to meet the specific requirements for a B.S. degree (see below);
   b. for any course taken to fulfill the requirements for a departmental major; or
   c. for any course taken to fulfill the requirements for a minor.
6. Juniors and seniors are required to meet with an advisor in the Dean's Office to review an evaluation to determine if they are making satisfactory progress toward graduation.

College of Science Requirements for the B.A. and B.S. Degrees

(Requirements vary for some programs. See major-specific requirements for details.)

Code	Title	Credit Hours
Requirements		
Natural and Physical Sciences		
Courses to be distributed in at least two fields.		11
Mathematics - Calculus		
Requirement varies by department. Students with lower ACT or SAT scores will be placed in the mathematics sequence at an appropriate level.		3-5
Total Credit Hours		**14-16**

Department of Biological Sciences

Contacts: Dr. Gary Schultz, Interim Chair
Website: http://www.marshall.edu/biology (http://www.marshall.edu/biology/)

biology@marshall.edu

Courses offered by the Department of Biological Sciences are intended to meet the needs of students preparing themselves for careers in the biological and related sciences, or who want a knowledge of the life sciences as part of their general education and/or to satisfy science requirements in other departments or programs.

Programs

- Biological Sciences, Accelerated Master's Degree (p. 578)
- Biological Sciences, B.S. (p. 578)
- Biological Sciences, Minor (p. 584)

Courses

- General Education Course

BSC 104 Introduction to Biology **3 Credit hours**
Fundamentals of biology with emphasis on the unity of life, energetics, genetics and the world of living things. Intended for non-science majors.
Co-req: BSC 104L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 104L Introduction to Biology Lab **1 Credit hour**
Laboratory companion course to BSC 104. Introduction of the scientific method, with focus on a survey of the fundamental principles of the biological sciences as they apply to life on earth.
Pre-req: BSC 104 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 104
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 105 Human Biology **3 Credit hours**
Fundamentals of biological human structure, function, and interactions with the environment. Intended for non-science majors. Does not count for health professions credit.
Co-req: BSC 105L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 105L Human Biology Lab **1 Credit hour**
Laboratory companion course to BSC 105. Investigations of human structure, function, and interactions with the environment. Intended for non-science majors; does not count for health professions credit.
Co-req: BSC 105
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 120 Principles of Biology I **3 Credit hours**
Study of core biological principles common to all organisms. Intended for science majors and pre-professional students.
Pre-req: (ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530) or (BSC 104 with a minimum grade of C and BSC 104L with a minimum grade of C) or (BSC 105 with a minimum grade of C or BSC 105L with a minimum grade of C).
Co-req: BSC 120L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 120H Principles of Biology I Honors **3 Credit hours**
Study of basic biological principles common to all organisms. Intended for science majors and pre-professional students.
Pre-req: Admitted Honors College with a score of 1 and (ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530) and (BSC 120L (may be taken concurrently) with a minimum grade of C or BSC 120LH (may be taken concurrently) with a minimum grade of C) or (BSC 104 with a minimum grade of C and BSC 104L with a minimum grade of C) or (BSC 105 with a minimum grade of C and BSC 105L with a minimum grade of C).
Concurrent PR: BSC 120L or BSC 120LH
Attributes: Honors, Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 120L Principles of Biology I Lab **1 Credit hour**
Laboratory companion course to BSC 120. Practical exercises focuses on investigation of core biological principles common to all organisms.
Pre-req: ACT Math with a score of 21 or SAT MATH SECTION SCORE with a score of 530 or SAT Mathematics Before Mar. 16 with a score of 500 or (BSC 104 with a minimum grade of C and BSC 104L with a minimum grade of C) or (BSC 105 with a minimum grade of C and BSC 105L with a minimum grade of C).
Co-req: BSC 120
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 120LH Prin of Biology I Lab Honors **1 Credit hour**
Laboratory companion course to BSC 120. Practical exercises focused on investigation of core biological principles common to all organisms.
Pre-req: Admitted Honors College with a score of 1 and (ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530) or (BSC 104 with a minimum grade of C and BSC 104L with a minimum grade of C) or (BSC 105 with a minimum grade of C and BSC 105L with a minimum grade of C).
Co-req: BSC 120H
Attributes: Honors, Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 121 Principles of Biology II **3 Credit hours**
A continuation of the study of core biological principles common to all organisms. Intended for science majors and pre-professional students.
Pre-req: BSC 120 with a minimum grade of C or BSC 120H with a minimum grade of C.
Co-req: BSC 121L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 121L Prin of Biology II Lab **1 Credit hour**
Laboratory companion course to BSC 121. Continuation of practical exercises focused on investigation of core biological principles common to all organisms.
Pre-req: BSC 121 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 121
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 227 Human Anatomy **3 Credit hours**
Study of gross and microscopic anatomy of human body systems and their development. Provides preparation for degrees in health professions. Does not count towards a major in Biological Science.
Co-req: BSC 227L
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 227L Human Anatomy Lab **1 Credit hour**
Laboratory companion course to BSC 227. Practical and computer aided exercises related to gross and microscopic anatomy of human body systems and their development. Does not count toward a major in Biological Sciences.
Co-req: BSC 227
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 228 Human Physiology **3 Credit hours**
Study of normal human physiology, from cells to systems. Provides the scientific background for understanding pathophysiology and preparation for degrees in health professions. Does not count toward a major in Biological Sciences.
Pre-req: BSC 227 with a minimum grade of C and BSC 227L with a minimum grade of C.
Co-req: BSC 228L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 228L Human Physiology Lab **1 Credit hour**
Laboratory companion course to BSC 228. Introduction of the scientific method, with focus on interpretation of data and application toward physiological systems. Does not count toward a major in Biological Sciences.
Pre-req: BSC 227 with a minimum grade of C and BSC 227L with a minimum grade of C.
Co-req: BSC 228
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 250 Microbiol & Human Disease **3 Credit hours**
Introduction to microbiology with emphasis on the role of microorganisms in the disease process. Does not count towards a major in Biological Sciences.
Pre-req: BSC 227 with a minimum grade of C and BSC 227L with a minimum grade of C.
Co-req: BSC 250L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 250L Microbio and Human Disease Lab **1 Credit hour**
Laboratory companion course to BSC 250. Practical exercises with emphasis on microscopy, microorganism identification, and aseptic technique. Does not count towards a major in Biological Sciences.
Pre-req: BSC 227 with a minimum grade of C and BSC 227L with a minimum grade of C.
Co-req: BSC 250
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 280 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 281 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 282 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 283 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 301 Vertebrate Embryology **4 Credit hours**
Vertebrate development based chiefly on frog, chick and pig embryos. 2 lec-4 lab. Vertebrate development based chiefly on frog, chick and pig embryos. 2 lec-4 lab.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 302 Principles of Microbiology **3 Credit hours**
Basic microbiological techniques, fundamental principles of microbial action, physiological processes, immunology, serology, disease process. This course is lecture only (the associated lab for this course is listed under a different course number)
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 304 Microbiology Lab **2 Credit hours**
A laboratory course emphasizing basic microbiological techniques including preparation of culture media, gram staining, isolation and identification of bacteria from diverse environments, and evaluation of antiseptics and disinfectants. A laboratory course emphasizing basic microbiological techniques including preparation of culture media, gram staining, isolation and identification of bacteria from diverse environments, and evaluation of antiseptics and disinfectants.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 312 Invertebrate Zoology **4 Credit hours**
Survey of invertebrate phyla from protists through non-vertebrate chordates. Emphasis is placed upon identification of taxa, development, microanatomy, life histories and evolutionary relationship.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 320 Principles of Ecology **4 Credit hours**
A fundamental approach to the basic principles underlying the interrelationships of organisms with their biotic and abiotic environments. A variety of aquatic and terrestrial ecosystems will be studied in the field and in the laboratory. 3 lec-3 lab. A fundamental approach to the basic principles underlying the interrelationships of organisms with their biotic and abiotic environments. A variety of aquatic and terrestrial ecosystems will be studied in the field and in the laboratory. 3 lec-3 lab.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 322 Principles Cell Biology **4 Credit hours**
A fundamental approach to the principles of cell biology covering general cellular structure and function,organelles, intercellular interactions, molecular interactions, and modern cellular and molecular methods. 3 lec-3 lab.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 324 Principles of Genetics **4 Credit hours**
The fundamental principles and mechanisms of inheritance. 3 lec-3 lab.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 332 Principles of Human Anatomy **3 Credit hours**
An overview of the major anatomical regions and functional systems, with a focus on human anatomy in a comparative and evolutionary context.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C and BSC 332L (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 332L
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 332L Prin of Human Anatomy Lab **1 Credit hour**
Laboratory companion course to BSC 332. Practical investigation of human anatomy in a comparative and evolutionary context.
Pre-req: BSC 332 (may be taken concurrently) with a minimum grade of C and BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Concurrent PR: BSC 332
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 334 Principles of Human Physiology **3 Credit hours**
An overview of the major physiological systems, with focus on comparative, molecular, and pathophysiology.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C and BSC 334L (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 334L
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 334L Prin of Human Physiology Lab **1 Credit hour**
Laboratory companion course to BSC 334. Investigation of key physiological systems with focus on data acquisition and analysis.
Pre-req: BSC 334 (may be taken concurrently) with a minimum grade of C and BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Concurrent PR: BSC 334
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 340 Principles of Evolution **3 Credit hours**
An overview of the unity and diversity of life, and the mechanisms and processes of evolutionary change at the population, organismal, and molecular levels.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 401 Ichthyology **4 Credit hours**
Anatomy, physiology, ecology, zoogeography, economic importance and classification of major groups and representative local species of fishes. 2 lec-2 lab and field.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C and NRE 322 with a minimum grade of D) or (BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C and NRE 323 with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 404 Cellular Physiology **3 Credit hours**
In depth analysis of the physiological and molecular processes that underlie the functions of cells, using examples from diverse taxa. Focus on biomedical and biotechnical implications.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 406 Herpetology **4 Credit hours**
Taxonomy, morphology, distribution, life history, and ecology of reptiles and amphibians with a special emphasis on representatives native to West Virginia. 2 lec-2 lab. Taxonomy, morphology, distribution, life history, and ecology of reptiles and amphibians with a special emphasis on representatives native to West Virginia. 2 lec-2 lab.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 408 Ornithology **4 Credit hours**
An introduction to avian biology: identification, distribution, migration, and breeding activities of birds.2 lec-4 lab.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 409 Mammalogy **4 Credit hours**
A study of the structural features, evolution and classification of mammals; other topics will include ecology, zoogeography, behavior, reproductive strategies, physiological adaptation to extreme environments and economic aspects.3 lec-3 lab and field.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 410 Remote Sensing/GIS Appl **4 Credit hours**
A study of the physical systems for collecting remotely sensed data. Statistical/spatial analysis and modeling using image processing/geographic information/spatial computer software systems with earth resources applications. A study of the physical systems for collecting remotely sensed data. Statistical/spatial analysis and modeling using image processing/geographic information/spatial computer software systems with earth resources applications.
Pre-req: PHY 201 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 340 with a minimum grade of D or NRE 423 with a minimum grade of D or NRE 433 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 411 Dgtl Image Proc/GIS Model **4 Credit hours**
A study of image processing/geographic information/spatial analysis systems, concurrent and parallel image processing 3-D modeling scenarios utilizing geophysical data for computer simulation modeling. A study of image processing/geographic information/spatial analysis systems, concurrent and parallel image processing 3-D modeling scenarios utilizing geophysical data for computer simulation modeling.
Pre-req: PHY 201 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 340 with a minimum grade of D or NRE 423 with a minimum grade of D or NRE 433 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 413 Prin of Organic Evolution **3 Credit hours**
Facts and possible mechanisms underlying the unity and diversity of life with emphasis on Neo-Darwinian concepts of the role of species in evolutionary phenomena. Facts and possible mechanisms underlying the unity and diversity of life with emphasis on Neo-Darwinian concepts of the role of species in evolutionary phenomena.
Pre-req: BSC 302 or BSC 320 or BSC 322 or BSC 324.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 416 Plant Taxonomy **4 Credit hours**
Recognition of our native seed plants and ferns. 2 lec-4 lab. Recognition of our native seed plants and ferns. 2 lec-4 lab.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 340 with a minimum grade of D or NRE 322 with a minimum grade of D or NRE 401 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 417 Biostatistics **3 Credit hours**
Statistical skills for biological/biomedical research, with emphasis on applications. Experimental design/survey sampling, estimation/hypothesis testing procedures,regression, ANOVA, multiple comparisons. Implementation using statistical software such as SAS, BMDP.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D or BSC 334 with a minimum grade of D or BSC 340 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 420 Plant Physiology **4 Credit hours**
Experimental study of plant life processes to include applicable biophysical and biochemical principles. 2 lec-4 lab. Experimental study of plant life processes to include applicable biophysical and biochemical principles. 2 lec-4 lab.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 421 Phycology **4 Credit hours**
Morphology, taxonomy, and techniques used in the study of fresh-water algae with emphasis upon applications of ecological principles to current water quality problems. 2 lec-4 lab.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 422 Animal Physiology **3 Credit hours**
A comparative study of physiological principles in animal cells, organs, and systems. Focus on animal's reactions to their environment, and how comparative physiology applies to natural ecosystems and human health.
Pre-req: BSC 322 with a minimum grade of D and CHM 355 with a minimum grade of D and (MTH 140 with a minimum grade of D or MTH 140H with a minimum grade of D or MTH 132 with a minimum grade of D or MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 423 Comp Vertebrate Anatomy **4 Credit hours**
Structure, function and relationships of systems of selected vertebrates with an emphasis on embryology and evolution. 2 lec.-4 lab.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 424 Animal Parasitology **4 Credit hours**
Morphology, life histories, classification, and host relationships of common parasites. 2 lec-4 lab. Morphology, life histories, classification, and host relationships of common parasites. 2 lec-4 lab.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 425 Systematics **3 Credit hours**
Biosystematics is a unifying discipline that combines taxonomy (collecting, describing and naming organisms), phylogenetics (evolutionary relationships among species), and classification (organization of taxa into groups which ultimately reflect evolutionary relationship). Biosystematics is a unifying discipline that combines taxonomy (collecting, describing and naming organisms), phylogenetics (evolutionary relationships among species), and classification (organization of taxa into groups which ultimately reflect evolutionary relationship).
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 426 Medical Entomology **4 Credit hours**
Role of certain insects and other arthropods in the transmission of disease organisms and methods of control.2 lec-4 lab.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 428 Neuroscience **3 Credit hours**
The fundamentals of cellular and systems neuroscience, with application towards understanding current research and biomedical problems.
Pre-req: BSC 322 with a minimum grade of D or BSC 334 with a minimum grade of D or BSC 422 with a minimum grade of D or (BSC 121 with a minimum grade of D and CHM 355 with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 429 Metabolic Systems **3 Credit hours**
Discussion of metabolic processes responsible for the activity of all living systems, factors that impact metabolic processes such as toxicology and pathology, and applications of metabolic pathways to biotechnology.
Pre-req: BSC 322 with a minimum grade of D or BSC 334 with a minimum grade of D or BSC 422 with a minimum grade of D or (BSC 121 with a minimum grade of D and CHM 355 with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 430 Plant Ecology **4 Credit hours**
The study of plants and their interactions with their environment at different levels of ecological organization: individuals, populations, communities, and ecosystems. Emphasis on quantitative analysis of ecological data. The study of plants and their interactions with their environment at different levels of ecological organization: individuals, populations, communities, and ecosystems. Emphasis on quantitative analysis of ecological data.
Pre-req: BSC 320 with a minimum grade of D or (BSC 121 with a minimum grade of D and BSC 121L with a minimum grade of D and NRE 322 with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 431 Limnology **4 Credit hours**
Study of inland waters; ecological factors affecting lake and stream productivity and various aquatic communities. Study of inland waters; ecological factors affecting lake and stream productivity and various aquatic communities.
Pre-req: BSC 320 with a minimum grade of D or (BSC 121 with a minimum grade of D and (NRE 323 with a minimum grade of D or NRE 431 with a minimum grade of D or NRE 435 with a minimum grade of D) and BSC 121L with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 438 Emerging Infectious Diseases **3 Credit hours**
Introduces students to infectious diseases that are either newly emergent or have returned to prominence within the last decade.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D or BSC 334 with a minimum grade of D or BSC 340 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 443 Microbial Genetics **3 Credit hours**
Microbial Genetics covers the essential functions of DNA replication and gene expression in prokaryotic cells. The course includes molecular genetics of bacteria and phages, bioinformatics and discussion of laboratory techniques. Microbial Genetics covers the essential functions of DNA replication and gene expression in prokaryotic cells. The course includes molecular genetics of bacteria and phages, bioinformatics and discussion of laboratory techniques.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 445 Microbial Ecology **3 Credit hours**
This course introduces students to the vital roles that microbes play in sustaining life on earth. Includes both theoretical and practical concepts ranging from the origin of life to biodegradation. This course introduces students to the vital roles that microbes play in sustaining life on earth. Includes both theoretical and practical concepts ranging from the origin of life to biodegradation.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 340 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 448 Introductory Immunology **3 Credit hours**
Comprehensive study of the molecules, cells and processes of the immune system. Also covered are diseases with an immunologic basis and technological applications of immunological principles. Pre: C or better in BSC 121, CHM 212 Comprehensive study of the molecules, cells and processes of the immune system. Also covered are diseases with an immunologic basis and technological applications of immunological principles. Pre: C or better in BSC 121, CHM 212
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 450 Molecular Biology **3 Credit hours**
Advanced principles in molecular function emphasizing current research using recombinant DNA methodology.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 451 Molecular Medicine **3 Credit hours**
Discussion of applications of molecular biology to modern medicine, including diagnostics, treatments, and development of new strategies and interventions.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 454 Princ Adv Techn Mol Biol **3 Credit hours**
Students will gain an understanding of modern molecular biology through standard and novel methods and understand and criticize the published literature.
Pre-req: BSC 322 or BSC 324 or BSC 365 or BSC 450.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 456 Genes and Development **3 Credit hours**
Focuses on mechanisms of complex organismal development including cell specification, morphogenesis, and induction. Genetic manipulations of the model organism Drosophilia will illustrate current information.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 458 Bioinformatics **3 Credit hours**
Discussion of modern computational approaches that help us use and understand massive databases of biological information including DNA, RNA, and protein sequence data. Students will use computational tools to extract information and meaning from real databases.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 344 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 460 Conservation Biology **3 Credit hours**
This course focuses on the North American model of wildlife conservation (and its history), principles of biological diversity, threats to habitats and species of concern, and conservation policy.
Pre-req: BSC 320 with a minimum grade of D or (BSC 121 with a minimum grade of C and (NRE 220 with a minimum grade of D or NRE 320 with a minimum grade of D or NRE 322 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 463 Bioethics **3 Credit hours**
Discussion of ethical issues in scientific research: fraud, informed consent, genetic testing, gene therapy, cloning, new drugs, vaccines and foods produced via engineered organisms. Includes analysis of case studies and communications practices.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 465 Biology of Reptiles **4 Credit hours**
A survey of the reptiles of the world with special emphasis placed on forms resident to West Virginia, including aspects of ecology, physiology, zoogeography, anatomy, taxonomy, and behavior.
Pre-req: BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of C or NRE 323 with a minimum grade of C) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 466 Biology of Amphibians **4 Credit hours**
A survey of the reptiles of the world with special emphasis placed on forms resident to West Virginia, including aspects of ecology, physiology, zoogeography, anatomy, taxonomy, and behavior.
Pre-req: BSC 121 with a minimum grade of C.
Grade Mode: Normal Grading Mode

BSC 480 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 481 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 482 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 483 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required, Natural Sciences
Grade Mode: Credit/No Credit Grade Only

BSC 486 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

BSC 487 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

BSC 488 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

BSC 491 Capstone Experience **2 Credit hours**
A student-driving research or career shadowing experience under a qualified mentor. Must be approved by the Department of Biological Sciences prior to registration.
Attributes: Capstone Course, No Textbook Required, Natural Sciences
Grade Mode: Normal Grading Mode

Faculty

Professors
Fet, Georgel, O'Keefe, Price, Strait, Trzyna, Valluri, Zhu

Associate Professors
Antonsen, Axel, Chirchir, LoCascio, Mays, Mosher, Schultz, Spitzer, Waldron, Welch

Assistant Professors

H. Cyphert, Palmquist, Puppo, Shakirov

Term Faculty
T. Cyphert

Biological Sciences, Accelerated Master's Degree

Accelerated Master's Degree in Biological Sciences

Undergraduates accepted to an Accelerated Master's Degree program can begin taking master's level classes while still in the undergraduate program. Up to 12 graduate credits can be used to fulfill requirements for both the undergraduate and the master's degrees, effectively reducing the cost of, and time to, degree. Graduates of this program will be prepared for direct entry into the job market or continuation of graduate study towards an M.D. or Ph.D or other professional program.

A student can complete the bachelor's degree in biological sciences by substituting twelve 500- and 600-level graduate credits (that will apply towards the master's degree) for 12 hours of 400-level credits that were required at the undergraduate level. All BSC 400-level courses are co-listed as 500-level courses. In each area of emphasis, students may select 500-level electives in lieu of 400-level courses to satisfy the master's degree. Alternately, a student who chooses not to pursue an area of emphasis may chose 500- or 600-level courses to satisfy credits that will apply to the master's degree.

Eligibility Requirements for Accelerated Master's Degree Program

- completed at least 90 hours toward the bachelor's degree;
- at least a 3.30 overall undergraduate GPA;
- at least a 3.30 GPA in the major;
- minimum composite verbal and quantitative GRE test scores of 300;
- three strong letters of recommendation.

Biological Sciences, B.S.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
Critical Thinking Course (PSY 201 recommended for pre-professional)		3
Critical Thinking Course		3
Core 2		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
CMM 103	Fund Speech-Communication	3
Select one of the following math requirements:		
MTH 140	Applied Calculus	
MTH 229	Calculus/Analytic Geom I (CT)	
BSC 120 & BSC 120L	Principles of Biology I and Principles of Biology I Lab	4
Core II Humanities		3
Core II Social Science		3
Core II Fine Arts		3
Additional University Requirements		
Writing Intensive		3
Writing Intensive		3
Multicultural or International		3
BSC 491	Capstone Experience (C) [1]	2
Major-Specific		
BSC 121 & BSC 121L	Principles of Biology II and Prin of Biology II Lab	3
CHM 211	Principles of Chemistry I	3
CHM 217	Principles of Chem Lab I	2
CHM 212	Principles Chemistry II	3
CHM 218	Principles of Chem Lab II	2
Select one of the following organic chemistry requirements:		
CHM 327	Intro Organic Chemistry	
CHM 355	Organic Chemistry I	
PHY 201	College Physics I	3
PHY 202	General Physics I Laboratory	1
Select four of the following 300-level BSC core courses:		9-12
BSC 302	Principles of Microbiology	
BSC 320	Principles of Ecology	
BSC 322	Principles Cell Biology	
BSC 324	Principles of Genetics	
BSC 332	Principles of Human Anatomy (and BSC 332L)	
BSC 334	Principles of Human Physiology (and BSC 334L)	
BSC 340	Principles of Evolution	
BSC Elective		4
BSC Elective		4
BSC Elective		4
BSC Elective		3
BSC Elective		3
BSC Elective (BSC 417 recommended)		3
Free Elective		3
Free Elective (PHY 203 and 204 recommended for pre-professional))		4

BSC Technical Electives: Select four 300- or 400-level BSC or closely related courses for technical electives. The courses must be approved by the department chair. CHM 356 and 361 strongly recommended.		12

[1] **Capstone Experience:** It is the responsibility of each student to consult his/her advisor regarding details of meeting the capstone requirement. The capstone may be a traditional independent study research project under the supervision of a faculty member selected by the student, participation in a classroom-based capstone course, or the development and implementation of an internship, co-op, or community-based project. Students must have completed a minimum of 16 hours of BSC coursework before they will be permitted to register for Capstone.

Major Information

- Students must pass BSC 120 Principles of Biology I and BSC 120L Principles of Biology I Lab and earn a grade of *C* or better in BSC 121 Principles of Biology II and BSC 121L Prin of Biology II Lab, CHM 211 Principles of Chemistry I and CHM 212 Principles Chemistry II before they can enroll in any upper-level BSC course except BSC 227 Human Anatomy , BSC 228 Human Physiology and BSC 250 Microbiol & Human Disease.
- BSC 104 Introduction to Biology, BSC 105 Human Biology , BSC 227 Human Anatomy , BSC 227L Human Anatomy Lab, BSC 228 Human Physiology and BSC 228L Human Physiology Lab, and BSC 250 Microbiol & Human Disease do not count towards a BSC major and cannot substitute for any required or elective BSC courses.
- A minimum of 15 hours of 400-level credit is required.
- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- In addition to the Core General Education requirements, the College of Science requires 3-5 hours of Calculus, and 40 hours of upper-level credit.
- Students who choose CHM 355, 356, and 361 will have the necessary coursework for a Chemical Sciences minor. CHM coursework provides a Chemical Sciences minor.
- Coursework listed as "elective" may vary for each student. Students are encouraged to use elective hours toward a 2nd minor or toward prerequisites.
- Students are strongly encouraged to select courses that meet two or more core or college requirements. For example, a writing intensive literature course could satisfy the Core II Humanities requirement as well as the university writing intensive requirement.

Areas of Emphasis

- Cell, Molecular and Medical Biology, Emphasis (p. 580)
- Ecology, Evolution, and Organismal Biology, Emphasis (p. 582)

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Department of Biological Sciences is committed to teaching students about the science of life from molecular to global scales. A degree in Biological Sciences prepares students for careers and graduate study in diverse fields such as human and veterinary medicine, dentistry, biomedical and pharmaceutical research, environmental consulting, wildlife ecology, and K12 or higher education. Alumni of the Department work as health professionals, teach at all educational levels, serve as environmental researchers and regulators, conduct biomedical and pharmaceutical research, and hold positions in state and federal agencies.

Course	Title	Credit Hours
First Year		
First Semester		
BSC 120	Principles of Biology I	3
BSC 120L	Principles of Biology I Lab	1
MTH 140 or MTH 229	Applied Calculus or Calculus/Analytic Geom I (CT)	3-5
ENG 101	Beginning Composition	3
Core I Critical Thinking		3
UNI 100	Freshman First Class	1
	Credit Hours	**14-16**
Second Semester		
BSC 121	Principles of Biology II	3
BSC 121L	Prin of Biology II Lab	1

BSC 454	Princ Adv Techn Mol Biol	3
BSC 456	Genes and Development	3

CHM 365	Introductory Biochemistry	3
BSC Technical electives: Select three 300- or 400-level BSC or closely related courses for technical electives. The courses must be approved by the department chair.		9
Free Elective		3

[1] BSC 104 Introduction to Biology and BSC 105 Human Biology will not substitute for BSC 120 Principles of Biology and BSC 121 Principles of Biology for a major in the Department of Biological Sciences.

[2] **Capstone Experience:** It is the responsibility of each student to consult his/her advisor regarding details of meeting the capstone requirement. The capstone may be a traditional independent study research project under the supervision of a faculty member selected by the student, participation in a classroom-based capstone course, or the development and implementation of an internship, co-op, or community-based project.

Major Information

- Students must pass BSC 120 Principles of Biology I and earn a grade of *C* or better in BSC 121 Principles of Biology II, CHM 211 Principles of Chemistry I, and CHM 212 Principles Chemistry II before they can enroll in any upper-level BSC course except BSC 227 Human Anatomy, BSC 228 Human Physiology and BSC 250 Microbiol & Human Disease.
- In addition to the Core General Education requirements, the College of Science requires 3 hours of Calculus, and 40 hours of upper level credit.
- The CHM coursework provides a Chemical Sciences minor.
- Coursework listed as "elective" may vary for each student. Students are encouraged to use elective hours toward a 2nd minor or toward prerequisites.
- Students are strongly encouraged to select courses that meet two or more Core or College requirements. For example, a writing intensive literature course could satisfy the Core II Humanities requirement as well as the University writing intensive requirement.
- Course offerings and course attributes are subject to change. Please consult each semesters schedule of courses for availability and attributes.
- MTH 140 Applied Calculus requires ACT Mathematics score of 24 or higher. Students with an ACT Mathematics score less than 24 will be placed in the appropriate prerequisite mathematics courses.
- All Biological Science majors are required to complete a minimum of 40 hours of credits in the Department of Biological Sciences.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Department of Biological Sciences is committed to teaching students about the science of life from molecular to global scales. A degree in Biological Sciences prepares students for careers and graduate study in diverse fields such as human and veterinary medicine, dentistry, biomedical and pharmaceutical research, environmental consulting, wildlife ecology, and K12 or higher education. Students completing the Area of Emphasis in Cell, Molecular and Medical Biology will be prepared for a wide range of careers in fields including biotechnology, cell biology, medicine and/or medical research.

Ecology, Evolution, and Organismal Biology, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
Critical Thinking Course		3
Critical Thinking Course		3
Core 2		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
CMM 103	Fund Speech-Communication	3
Select one of the following math requirements:		3-5
MTH 140	Applied Calculus	
MTH 229	Calculus/Analytic Geom I (CT)	
BSC 120	Principles of Biology I [1]	3
BSC 120L	Principles of Biology I Lab	1
Core II Humanities		3
Core II Social Science		3
Core II Fine Arts		3
Additional University Requirements		
Writing Intensive		3
Writing Intensive		3
Multicultural or International		3
BSC 491	Capstone Experience [1]	2
Major-Specific		
BSC 121	Principles of Biology II [1]	3
BSC 121L	Prin of Biology II Lab	1
CHM 211	Principles of Chemistry I	3
CHM 217	Principles of Chem Lab I	2
CHM 212	Principles Chemistry II	3
CHM 218	Principles of Chem Lab II	2
Select one of the following organic chemistry requirements:		
CHM 327	Intro Organic Chemistry	
CHM 355	Organic Chemistry I	
PHY 201	College Physics I	3
PHY 202	General Physics I Laboratory	1
Area of Emphasis-Specific		
BSC 320	Principles of Ecology	4
BSC 340	Principles of Evolution	3
BSC 417	Biostatistics	3
BSC 324	Principles of Genetics	4
Select one of the following:		4-5
BSC 302	Principles of Microbiology (and BSC 304, Microbiology Lab)	
BSC 322	Principles Cell Biology	
BSC 332	Principles of Human Anatomy (and BSC 332L, Principles of Human Anatomy Lab)	
BSC 334	Principles of Human Physiology (and BSC 334L, Principles of Human Physiology Lab)	
Select a minimum of 18 credits from the following:		18
BSC 301	Vertebrate Embryology	
BSC 312	Invertebrate Zoology	
BSC 401	Ichthyology	
BSC 408	Ornithology	
BSC 409	Mammalogy	
BSC 410	Remote Sensing/GIS Appl	
BSC 411	Dgtl Image Proc/GIS Model	
BSC 416	Plant Taxonomy	
BSC 420	Plant Physiology	
BSC 421	Phycology	
BSC 422	Animal Physiology	
BSC 423	Comp Vertebrate Anatomy	
BSC 424	Animal Parasitology	
BSC 425	Systematics	
BSC 426	Medical Entomology	
BSC 430	Plant Ecology	

BSC 431	Limnology	
BSC 438	Emerging Infectious Diseases	
BSC 443	Microbial Genetics	
BSC 445	Microbial Ecology	
BSC 450	Molecular Biology	
BSC 460	Conservation Biology	
BSC 465	Biology of Reptiles	
BSC 466	Biology of Amphibians	
CHM 365	Introductory Biochemistry	
BSC Technical Electives: Select a minimum of 12 credits of 300 or 400-level BSC or closely related courses for technical electives. The courses must be approved by the department chair.		12
Free Elective		3
Free Elective		3

[1] **Capstone Experience:** It is the responsibility of each student to consult his/her advisor regarding details of meeting the capstone requirement. The capstone may be a traditional independent study research project under the supervision of a faculty member selected by the student, participation in a classroom-based capstone course, or the development and implementation of an internship, co-op, or community-based project. Students must have completed a minimum of 16 hours of BSC coursework before they will be permitted to register for Capstone.

Major Information

- Students must pass BSC 120 Principles of Biology I and BSC 120L Principles of Biology I Lab and earn a grade of *C* or better in BSC 121 Principles of Biology II and BSC 121L Prin of Biology II Lab , CHM 211 Principles of Chemistry I, and CHM 212 Principles Chemistry II before they can enroll in any upper-level BSC course except BSC 227 Human Anatomy, BSC 228 Human Physiology and BSC 250 Microbiol & Human Disease.
- BSC 104 Introduction to Biology, BSC 105 Human Biology, BSC 227 Human Anatomy and BSC 227L Human Anatomy Lab, BSC 228 Human Physiology and BSC 228L Human Physiology Lab, and BSC 250 Microbiol & Human Disease do not count towards a BSC major and cannot substitute for any required or elective BSC courses.
- A minimum of 15 hours of 400-level credit is required.
- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- In addition to the Core General Education requirements, the College of Science requires 3-5 hours of Calculus, and 40 hours of upper-level credit.
- The CHM coursework provides a Chemical Sciences minor.
- Coursework listed as "elective" may vary for each student. Students are encouraged to use elective hours toward a 2nd minor or toward prerequisites.
- Students are strongly encouraged to select courses that meet two or more core or college requirements. For example, a writing intensive literature course could satisfy the Core II Humanities requirement as well as the university writing intensive requirement.
- Course offerings and course attributes are subject to change. Please consult each semester's schedule of courses for availability and attributes.
- MTH 140 Applied Calculus requires an ACT Mathematics score of 24 or higher. Students with an ACT Mathematics score of less than 24 will be placed in the appropriate prerequisite mathematics courses.
- All Biological Sciences majors are required to complete a minimum of 40 hours of credits in the Department of Biological Sciences.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Department of Biological Sciences is committed to teaching students about the science of life from molecular to global scales. A degree in Biological Sciences prepares students for careers and graduate study in diverse fields such as human and veterinary medicine, dentistry, biomedical and pharmaceutical research, environmental consulting, wildlife ecology, and K12 or higher education. Students completing the Area of Emphasis in Ecology and Evolutionary Biology will be prepared for a wide range of careers including ecology, paleontology, environmental education, and may take positions with universities, museums, state or federal government agencies (USFS, USFWS, USGS, DNR, EPA); environmental consulting firms; conservation agencies; and non-governmental organizations.

Course	Title	Credit Hours
First Year		
First Semester		
BSC 120	Principles of Biology I	3
BSC 120L	Principles of Biology I Lab	1
MTH 140 or MTH 229	Applied Calculus or Calculus/Analytic Geom I (CT)	3-5
ENG 101	Beginning Composition	3
Core I Critical Thinking		3
UNI 100	Freshman First Class	1
	Credit Hours	**14-16**
Second Semester		
BSC 121	Principles of Biology II	3
BSC 121L	Prin of Biology II Lab	1
FYS 100	First Yr Sem Critical Thinking	3
Core II Fine Arts		3
CMM 103	Fund Speech-Communication	3
Free Elective (MTH 122 recommended for PHY prerequisite)		3
	Credit Hours	**16**
Second Year		
First Semester		
BSC 320	Principles of Ecology	4
CHM 211	Principles of Chemistry I	3
CHM 217	Principles of Chem Lab I	2
ENG 201	Advanced Composition	3
Core II Social Science (CT)		3
	Credit Hours	**15**

Second Semester		
CHM 212	Principles Chemistry II	3
CHM 218	Principles of Chem Lab II	2
BSC 417	Biostatistics	3
Core I Critical Thinking		3
BSC 324 or BSC 340	Principles of Genetics or Principles of Evolution	3-4
	Credit Hours	**14-15**
Third Year		
First Semester		
CHM 327 or CHM 355	Intro Organic Chemistry or Organic Chemistry I	3
BSC 324 or BSC 340	Principles of Genetics or Principles of Evolution	3-4

Second Semester		
BSC 491	Capstone Experience (C)	2
Writing Intensive		3
Area of Emphasis Elective		3
BSC Core Course		4-5
Technical Elective		3
	Credit Hours	**15-16**
	Total Credit Hours	**119-124**

Biological Sciences, Minor

A student may qualify for a minor in Biological Sciences by successfully completing

Code	Title	Credit Hours
BSC 120	Principles of Biology I	3
BSC 120L	Principles of Biology I Lab	1
BSC 121	Principles of Biology II	3
BSC 121L	Prin of Biology II Lab	1
Select at least one of the following BSC core courses:		3-4
BSC 302	Principles of Microbiology	
BSC 320	Principles of Ecology	
BSC 322	Principles Cell Biology	
BSC 324	Principles of Genetics	
BSC 332	Principles of Human Anatomy (and BSC 332L)	
BSC 334	Principles of Human Physiology (and BSC 334L)	
BSC 340	Principles of Evolution	
Select a minimum of 3 additional hours at the 300-400 level		3
Select a minimum of 3 additional hours at the 400 level		3
Total Credit Hours		**17-18**

This is a minimum of 17 hours. In order to qualify, courses taken toward the minor in Biological Sciences must be completed with an average of 2.0 or higher.

Department of Chemistry

Contacts: Dr. Derrick Kolling, Chair
Website: http://www.marshall.edu/chemistry (http://www.marshall.edu/chemistry/)

chemistry@marshall.edu

Courses offered by the Department of Chemistry provide programs of study that allow the individual to:

1. Obtain high quality instruction in chemistry as a scientific discipline.
2. Obtain a sound background in preparation for advanced studies.
3. Meet the qualifications of professional chemists and accrediting agencies.
4. Prepare for a professional career in chemistry, medicine, dentistry, pharmacy, medical technology, engineering, nursing and other fields.

High school students planning to major in chemistry are advised to take one year of high school chemistry, one year of high school physics, and at least three years of high school mathematics (including geometry, algebra, and trigonometry).

The curriculum and facilities of the department have been approved by the Committee on Professional Training of the American Chemical Society.

Grade Point Average

A Grade Point Average of 2.0 in

1. all required Chemistry courses;
2. all Chemistry courses; and
3. all required Chemistry courses taken at Marshall will be required for all degrees.

Honors, Research, and Special Programs in Chemistry

The department offers a number of unique enrichment programs outside the above curricula that are open to students in either degree

program. All entering students in chemistry should contact either the department office or their advisor for full details.

Minors

The Department of Chemistry does not require a minor with any of its majors.

Double Majors

Double majors within the Department of Chemistry may include any majors other than the B.S., Major in Chemical Sciences. A double major of Forensic Chemistry with Biochemistry is also currently not permitted. Double majors that include majors outside the Department of Chemistry may include any Department of Chemistry majors. For example, the B.S. Major in Chemical Sciences could be used as a double major with any Biological Sciences major.

Programs

- Biochemistry, B.S. (p. 588)
- Chemical Sciences, B.S. (p. 590)
- Chemistry, B.S. ACS Certified (p. 592)
- Chemistry, Minor (p. 594)
- Environmental Chemistry, B.S. (p. 594)
- Forensic Chemistry, B.S. (p. 596)

Courses

- General Education Course

CHM 109 Chemistry in the Home **4 Credit hours**
An introduction to basic concepts of chemical science as it applies to materials commonly found within the household. Students will be expected to learn to evaluate potential hazards of such materials.
Pre-req: MTH 121 or MTH 121B or MTH 121H or MTH 125 or MTH 127 or MTH 130 or MTH 130H or MTH 131 or MTH 132 or MTH 140 or MTH 190 or MTH 203 or MTH 220 or STA 225 or MTH 225 or MTH 229 or MTH 229H.
Attributes: Core II Natural Sciences
Grade Mode: Normal Grading Mode

CHM 111 Foundations of Chemistry **3 Credit hours**
This course will introduce students to basic chemical facts and concepts. Topics will include units, dimensional analysis, nomenclature, solutions, atomic structure, and stoichiometry. This course will introduce students to basic chemical facts and concepts. Topics will include units, dimensional analysis, nomenclature, solutions, atomic structure, and stoichiometry.
Pre-req: MTH 127 with a minimum grade of C or ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530 or MTH 130 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 205 General, Organic, and Biochem **3 Credit hours**
Introductory course for health professions students and non-science majors covering basic chemical principles with applications in organic chemistry and biochemistry.
Grade Mode: Normal Grading Mode

CHM 211 Principles of Chemistry I **3 Credit hours**
A study of the properties of materials and their interactions with each other. Development of theories and applications of the principles of energetics, dynamics and structure. Intended primarily for science majors and preprofessional students. 3 lec.
Pre-req: (ACT Math with a score of 23 or SAT Mathematics Before Mar. 16 with a score of 540 or SAT MATH SECTION SCORE with a score of 570 or Placement Chemistry with a score of 211 or CHM 111 with a minimum grade of C) and CHM 217 (may be taken concurrently).
Concurrent PR: CHM 217
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

CHM 212 Principles Chemistry II **3 Credit hours**
A continuation of chemistry 211 with emphasis on the inorganic chemistry of the representative elements and transition metals. 3 lec. A continuation of chemistry 211 with emphasis on the inorganic chemistry of the representative elements and transition metals. 3 lec.
Pre-req: (CHM 211 with a minimum grade of C and (CHM 218 (may be taken concurrently) with a minimum grade of D or CHM 218H (may be taken concurrently) with a minimum grade of D).
Concurrent PR: CHM 218 or CHM 218H
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

CHM 217 Principles of Chem Lab I **2 Credit hours**
A laboratory course that demonstrates the application of concepts introduced in Chemistry 211.
Pre-req: CHM 211 (may be taken concurrently).
Concurrent PR: CHM 211
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

CHM 218 Principles of Chem Lab II **2 Credit hours**
A laboratory course that demonstrates the application of concepts introduced in Chemistry 212.
Pre-req: CHM 212 (may be taken concurrently).
Concurrent PR: CHM 212
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

CHM 218H Prin Chem Honor Lab II **2 Credit hours**
An advanced laboratory class designed for Principles of Chemistry II students. This lab will introduce students to concepts and/or techniques important to later laboratory classes and research. An advanced laboratory class designed for Principles of Chemistry II students. This lab will introduce students to concepts and/or techniques important to later laboratory classes and research.
Pre-req: Admitted Honors College with a score of 1.
Co-req: CHM 212
Attributes: Honors, Natural Sciences
Grade Mode: Normal Grading Mode

CHM 280 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 281 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 282 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 283 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 291H Honors in Chemistry **1-4 Credit hours**
Independent study or undergraduate research project for outstanding students. Independent study or undergraduate research project for outstanding students.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 305 Research Methods Chem **1 Credit hour**
A course concerning the searching and use of the chemical literature, ethical issues relating to the conduct of scientific research, proposal writing, scientific presentations, and proper scientific laboaratory conduct.
Pre-req: CHM 356 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 327 Intro Organic Chemistry **3 Credit hours**
A one semester introduction to organic chemistry emphasizing structure, nomenclature, and reactivity. (Cannot fulfill an upper division chemistry elective.)
Pre-req: CHM 212 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 331 Chemistry Seminar **0 Credit hours**
Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research. Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research.
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

CHM 332 Chemistry Seminar **0 Credit hours**
Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research. Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research.
Attributes: No Textbook Required, Natural Sciences
Grade Mode: Credit/No Credit Grade Only

CHM 345 Intro to Analytical Chem **4 Credit hours**
An introduction to basic techniques of analytical chemistry and data analysis through statistical procedures. Traditional wet and contemporary instrumental methods are covered with an emphasis on experimental care and craftsmanship. An introduction to basic techniques of analytical chemistry and data analysis through statistical procedures. Traditional wet and contemporary instrumental methods are covered with an emphasis on experimental care and craftsmanship.
Pre-req: CHM 212 with a minimum grade of C and (CHM 218 with a minimum grade of C or CHM 218H with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 355 Organic Chemistry I **3 Credit hours**
A systematic study of organic chemistry including modern structural theory, spectroscopy, and stereochemistry; application of these topics to the study of reactions and their mechanisms and applications to synthesis. 3 lec. No individual may make more than 3 attempts at CHM 355 (i.e., any combination of three W, D, F or NC grades will preclude the individual from future registration).
Pre-req: CHM 212 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 356 Organic Chemistry II **3 Credit hours**
Continuation of Chemistry 355. 3 lec. Continuation of Chemistry 355. 3 lec.
Pre-req: CHM 355 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 357 Physical Chemistry: Quantum **4 Credit hours**
A study of quantum mechanics applied to atomic structure, chemical bonding, and spectroscopy. 3 lec.-2 lab.
Pre-req: CHM 212 with a minimum grade of C and (MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C) and (PHY 211 with a minimum grade of C or PHY 201 with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 358 Physical Chemistry: Thermo. **4 Credit hours**
A study of chemical thermodynamics, equilibrium, and kinetics. 3 lec.-2 lab.
Pre-req: CHM 212 with a minimum grade of C and (MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C) and (PHY 211 with a minimum grade of C or PHY 201 with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 361 Intro Organic Chm Lab **3 Credit hours**
An introduction to of experimental organic chemistry with emphasis on fundamental techniques and their application to the preparation and identification of organic compounds. 6 lab. An introduction to of experimental organic chemistry with emphasis on fundamental techniques and their application to the preparation and identification of organic compounds. 6 lab.
Pre-req: CHM 356 (may be taken concurrently).
Concurrent PR: CHM 356
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 361H Intro Honors Organic Chem Lab **3 Credit hours**
This laboratory will introduce students to advanced concepts and techniques in organic synthesis and spectroscopy. It requires students to engage in an independent synthetic project from the chemical literature.
Pre-req: CHM 356 (may be taken concurrently) and Admitted Honors College with a score of 1.
Concurrent PR: CHM 356
Attributes: Honors
Grade Mode: Normal Grading Mode

CHM 365 Introductory Biochemistry **3 Credit hours**
A survey course including introduction to basic biochemical concepts, metabolic pathways, and bioenergetics. 3 lec. A survey course including introduction to basic biochemical concepts, metabolic pathways, and bioenergetics. 3 lec.
Pre-req: CHM 327 with a minimum grade of C or CHM 356 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 366 Intro Biochemistry Lab **2 Credit hours**
Introduction to basic biochemical laboratory techniques including chromatography, electrophoresis, and enzyme kinetics; methods for identification and characterization of biochemical systems. 4 lab.
Pre-req: CHM 365 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 390H Honors in Chemistry **1-4 Credit hours**
Independent study or undergraduate research project for outstanding students. Independent study or undergraduate research project for outstanding students.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Honors, Natural Sciences
Grade Mode: Normal Grading Mode

CHM 391H Honors in Chemistry **1-4 Credit hours**
Independent study or undergraduate research project for outstanding students. Independent study or undergraduate research project for outstanding students.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 401 Research for Undergrad **1-4 Credit hours**
Students engage in research project in collaboration with a faculty member. Students engage in research project in collaboration with a faculty member.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 411 Modern Instrument Methods **4 Credit hours**
This course investigates the theory and functional aspects of modern analytical instrumentation. Emphasis is placed on the components of instruments and the applicability of various techniques to specific analytical problems. This course investigates the theory and functional aspects of modern analytical instrumentation. Emphasis is placed on the components of instruments and the applicability of various techniques to specific analytical problems.
Pre-req: CHM 356 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 423 Environ Analytical Chemistry **4 Credit hours**
Sampling and modern instrumental analysis of water, air and sediments according to EPA methodology. May be used to fulfill the American Chemical Society Environmental Chemistry certification. (PR: C or better in CHM 345). Sampling and modern instrumental analysis of water, air and sediments according to EPA methodology. May be used to fulfill the American Chemical Society Environmental Chemistry certification. (PR: C or better in CHM 345).
Pre-req: CHM 345 with a minimum grade of C and CHM 307 or CHM 358.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 428 Intro Forensic Methods **3 Credit hours**
Introduction to crime scene investigation, physical evidence collection, serology and DNA technologies (PCR, RFLP). Discussion of statistical analysis of DNA and managing a DNA database, using CODIS as an example.
Pre-req: CHM 365 and (BSC 322 or BSC 324).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 431 Chemistry Seminar **0 Credit hours**
Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research. Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research.
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

CHM 432 Chemistry Seminar **0 Credit hours**
Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research. Students also present an oral and written presentation of their capstone experience. Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research. Students also present an oral and written presentation of their capstone experience.
Pre-req: CHM 490 or CHM 491.
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

CHM 443 Protein Biotechnology **3 Credit hours**
Discussion covers basics of protein structure and function, post-translational modification and transport simple immunology. Laboratories include protein quantitation, enzyme kinetics, protein purification and dialysis protein gel electrophoresis and staining.
Pre-req: BSC 120 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CHM 448 Adv Inorganic Chemistry I **4 Credit hours**
Study of physical properties and periodic relationships of inorganic materials. 3 lec, 2 lab.
Pre-req: CHM 356 with a minimum grade of C and (CHM 357 with a minimum grade of C or CHM 358 with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 451 Biological Mass Spectrometry **4 Credit hours**
This course investigates the theory and applications of mass spectrometry. It includes a laboratory component in which you will learn to run the mass spectrometers and interpret mass spectral results.
Pre-req: CHM 356 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CHM 465 Adv Organic Chemistry I **3 Credit hours**
Studies of the dynamics of organic reactions with emphasis on mechanisms and stereochemistry. 3 lec.
Pre-req: CHM 356 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 466 Adv Organic Chemistry II **3 Credit hours**
A continuation of Chemistry 465 with emphasis on synthetic methods. 3 lec. A continuation of Chemistry 465 with emphasis on synthetic methods. 3 lec.
Pre-req: CHM 356 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 467 Intermediate Biochemistry **3 Credit hours**
An intermediate level discussion of the biochemistry of mammalian cells.
Pre-req: CHM 365 with a minimum grade of C or BSC 365 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 478 Appl Microscopy in Research **4 Credit hours**
A combined lecture/lab/self-motivated research course that results in a microscopy based project to be presented by each student in a public forum (may augment capstone). A combined lecture/lab/self-motivated research course that results in a microscopy based project to be presented by each student in a public forum (may augment capstone).
Grade Mode: Normal Grading Mode

CHM 480 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 481 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 482 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 483 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 485 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 486 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 490 Internship **1-6 Credit hours**
Students engage in supervised chemical laboratory work in a professional setting. Students engage in supervised chemical laboratory work in a professional setting.
Pre-req: CHM 305.
Attributes: Capstone Course, Natural Sciences
Grade Mode: Normal Grading Mode

CHM 491 Capstone Experience **2-4 Credit hours**
Students engage in a collaborative research project with a faculty member. Students engage in a collaborative research project with a faculty member.
Pre-req: CHM 305.
Attributes: Capstone Course, Natural Sciences
Grade Mode: Normal Grading Mode

CHM 495H Honors in Chemistry **3-4 Credit hours**
Open only to chemistry majors of outstanding ability. Open only to chemistry majors of outstanding ability.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

Faculty

Professors
Castellani, Day, Frost, Kolling, McCunn, Norton, Wang

Associate Professors
Morgan, Price, Quiñones

Assistant Professors
Markiewicz, Hostetler

Biochemistry, B.S.

- General Education Course

[1] CHM 358 Physical Chemistry: Thermo. or CHM 411 Modern Instrument Methods is recommended for students considering graduate school.

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- In addition to the Core General Education requirements, the College of Science requires 3 hours of Calculus, and 40 hours of upper level credit.
- Coursework listed as "elective" may vary for each student. Students are encouraged to use elective hours toward a 2nd minor or toward prerequisites.
- Students are strongly encouraged to select courses that meet two or more Core or College requirements. For example, a writing intensive literature course could satisfy the Core II Humanities requirement as well as the University writing intensive requirement.
- Course offerings and course attributes are subject to change each semester. Please consult each semesters schedule of courses for availability and attributes.
- Math is based on an ACT Mathematics score of 27 or higher. Students with an ACT Mathematics score less than 27 will be placed in the appropriate prerequisite mathematics and science courses.
- The BSC coursework provides a Biological Sciences minor.
- A Grade Point Average of 2.0 is required
  a. overall,
  b. at MU,
  c. in all required Chemistry courses,
  d. in all Chemistry courses, and
  e. in all required Chemistry courses taken at MU.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Students completing the Biochemistry major will be prepared for career opportunities in the biotechnology, forensics, environmental, pharmaceutical, agricultural, and medical fields. Students will also be well prepared for graduate-level study in biochemistry, biotechnology, and genetics and molecular biology. Additionally, Biochemistry is an excellent choice for students desiring to attend professional training in Medicine, Dentistry, Pharmacy, Law or Engineering.

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

This major in chemistry is intended for students needing a broadly based, flexible science background. Degrees offered by the Department of Chemistry provide a program of studies that allows the individual to: obtain high quality instruction in chemistry as a scientific discipline, obtain a sound background in preparation for advanced studies, meet the qualifications of professional chemists and accrediting agencies, or prepare for a professional career in medicine, dentistry, pharmacy, medical technology, engineering, nursing and other fields.

Four Year Plan

This curriculum meets the standards of the American Chemical Society and is recommended for students intending to enter the chemical profession or intending to pursue graduate work in chemistry. Students who successfully complete the requirements for the B.S. in Chemistry degree will receive a certificate from the American Chemical Society indicating that their degree meets the standards of the Committee on Professional Training.

Forensic Chemistry, B.S.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
MTH 229	Calculus/Analytic Geom I (CT)	5
Critical Thinking Course		3
Core 2		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
CMM 103	Fund Speech-Communication	3
MTH 229	Calculus/Analytic Geom I (CT)	5
BSC 120	Principles of Biology I	3
BSC 120L	Principles of Biology I Lab	1
Core II Humanities		3
CJ 200 or CJ 211	Intro to Criminal Justice (Core II Social Science) Intro to Law Enforcement	3
Core II Fine Arts		3
Additional University Requirements		
Writing Intensive		3
Writing Intensive		3
Multicultural or International		3
CHM 491 or CHM 490	Capstone Experience Internship	2
Major-Specific		
CHM 211	Principles of Chemistry I	3
CHM 217	Principles of Chem Lab I	2
CHM 212	Principles Chemistry II	3
CHM 218	Principles of Chem Lab II	2
CHM 355	Organic Chemistry I	3
CHM 356	Organic Chemistry II	3
CHM 361	Intro Organic Chm Lab	3
CHM 305	Research Methods Chem	1
CHM 345	Intro to Analytical Chem	4
CHM 365	Introductory Biochemistry	3
Select one of the following:		4
CHM 357	Physical Chemistry: Quantum (WI)	
CHM 358	Physical Chemistry: Thermo. (WI)	
CHM 411	Modern Instrument Methods	4
CHM 491 or CHM 490	Capstone Experience (C) Internship	2
CHM 432	Chemistry Seminar	0
300/400 CHM Elective		3
PHY 201	College Physics I	3
PHY 202	General Physics I Laboratory	1
PHY 203	College Physics II	3
PHY 204	General Physics 2 Laboratory	1
STA 225 or STA 345	Introductory Statistics (CT) Applied Prob and Stat	3
BSC 121	Principles of Biology II	3
BSC 121L	Prin of Biology II Lab	1
BSC 322	Principles Cell Biology	4
BSC 324	Principles of Genetics	4
CIT 163	Intro to Programming: C++	3
Restricted Electives [1]		
Chemistry courses may not be counted both as a chemistry elective and in this category.		
Select two of the following:		6
BSC 332	Principles of Human Anatomy (and BSC 332L)	
BSC 334	Principles of Human Physiology (and BSC 334L)	
BSC 450	Molecular Biology	

CHM 428	Intro Forensic Methods	
CHM 467	Intermediate Biochemistry	
CJ 314	Crime Scene & Investigations	3
CJ 323	Criminal Procedure	3
or CJ 422	Law of Evidence	

[1] Restricted Elective: Selection of one of the BSC courses provides a Biological Sciences minor.

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- In addition to the Core General Education requirements, the College of Science requires 3 hours of Calculus, and 40 hours of upper level credit.
- Coursework listed as "elective" may vary for each student. Students are encouraged to use elective hours toward a minor or toward prerequisites.
- Students are strongly encouraged to select courses that meet two or more Core or College requirements. For example, a writing intensive literature course could satisfy the Core II Humanities as well as the University writing intensive requirement.
- Course offerings and course attributes are subject to change semesters. Please consult each semesters schedule of courses for availability and attributes.
- Math is based on an ACT Mathematics score of 27 or higher. Students with an ACT Mathematics score less than 27 will be placed in the appropriate mathematics and science courses.
- Students are strongly encouraged to engage in a Forensic Chemistry related Capstone Experience (CHM 491 Capstone Experience).
- A Grade Point Average of 2.0 is required
  a. overall,
  b. at MU,
  c. in all required Chemistry courses,
  d. in all Chemistry courses, and
  e. in all required Chemistry courses taken at MU.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

This major is intended for students who wish to pursue a career in fields involving forensics. Degrees offered by the Department of Chemistry provide a program of studies that allows the individual to: obtain high quality instruction in chemistry as a scientific discipline, obtain a sound background in preparation for advanced studies, meet the qualifications of professional chemists and accrediting agencies, or prepare for a professional career in medicine, dentistry, pharmacy, medical technology, engineering, nursing and other fields.

Department of Computer and Information Technology

Contacts: Dr. Davide Andrea Mauro, Chair
Website: https://www.marshall.edu/cit/

cit@marshall.edu

Programs

- Computer and Information Technology, B.S. (p. 600)
- Computer and Information Technology, Minor (p. 604)
- Game Development, Minor (p. 604)
- Web Development, Minor (p. 604)

Courses

- General Education Course

CIT 150 Spreadsheet and Database Apps **3 Credit hours**
Comprehensive coverage of spreadsheets and databases. Includes techniques to collect, manage, and analyze data; solve problems; and effectively communicate results for scientific research. Includes macro development and introduction to scripting.
Grade Mode: Normal Grading Mode

CIT 163 Intro to Programming: C++ **3 Credit hours**
Concepts of software development and maintenance using C++, including syntax of the language, loops, functions, pointers, decision structures, and file processing. Proper program design using object-oriented programming techniques are emphasized.
Grade Mode: Normal Grading Mode

CIT 260 Instrumentation **3 Credit hours**
The course introduces students to modern data gathering methods, laboratory instrumentation, and programming. Focuses range from transportation development, forensics, to environmental issues.
Grade Mode: Normal Grading Mode

CIT 263 Web Programming I **3 Credit hours**
Students will learn techniques for creating advanced documents and programs for the Web using HTML, DHTML, XML, JavaScript, and PHP scripting. Students will also learn how to install and maintain a Web server.
Grade Mode: Normal Grading Mode

CIT 264 Technology Foundations **3 Credit hours**
This course introduces the student to the common hardware and technology that pervades business and society as a whole. Topics include pc's, networks, software, the internet, cellular phones, etc.
Grade Mode: Normal Grading Mode

CIT 265 C# NET Programming **3 Credit hours**
Covers the essentials for developing robust and secure applications using C#, Windows forms, and the .NET framework. Also covers ADO.NET, writing secure .NET applications and web services.
Pre-req: IST 236 or CIT 236 or CS 120.
Grade Mode: Normal Grading Mode

CIT 266 Applied C++ Programming **3 Credit hours**
Designed to teach students intermediate C++ programming through an applied approach with examples and applications. The course extends topics covered in prerequisite courses. Prior programming knowledge in any language required.
Pre-req: CIT 163 with a minimum grade of D or CS 120 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CIT 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 285 Independent Study **1-4 Credit hours**
Independent study for selected freshmen and sophomores under supervision of faculty; may be repeated only once.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 301 Public Service Experience **1 Credit hour**
At least 30 contact hours in a public service/volunteer experience with a group, organization or agency that offers a service to the general public. Advisor permission required.
Grade Mode: Credit/No Credit Grade Only

CIT 313 Web Programming II **3 Credit hours**
The second semester of a two course sequence on Web programming. This course focuses on server-side programming and databases. Topics covered include PHP, mySQL, web services, and security.
Pre-req: CIT 263 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CIT 332 Software Engineering I **3 Credit hours**
Introduction to the industrial process of software systems development. The course covers project management and planning risk management issues; software quality and configuration issues; and processes, methods, and development tools.
Pre-req: CIT 236 or IST 236 or CS 120.
Grade Mode: Normal Grading Mode

CIT 333 Software Engineering II **3 Credit hours**
Second course in a two course sequence. Covers the system development life cycle: requirement analysis and specifications; design methods; system implementation and integration; testing; and reuse issues. Team project participation.
Pre-req: CIT 332 with a minimum grade of D or IST 332 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CIT 340 Game Development I:2D **3 Credit hours**
Covers computer software industry, history and the role of a creative game development team. Students will participate in the game development process, including art, animation, programming, music, sound and writing.
Pre-req: CIT 236 or IST 236 or CS 120.
Grade Mode: Normal Grading Mode

CIT 352 Network Protocols and Admin **3 Credit hours**
This course provides students with knowledge of network terminology, structures, topologies, protocols, and inter-faces involving Local Area and Wide Area networks.
Pre-req: CIT 163 with a minimum grade of D or IST 163 with a minimum grade of D or CS 110 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CIT 365 Database Management **3 Credit hours**
To understand the logical and physical design of data stored and retrieved from a relational database. Exposure to distributed databases, database administration and structured query language will also be done.
Grade Mode: Normal Grading Mode

CIT 410 Electronic Commerce **3 Credit hours**
This course examines electronic commerce. Group decision making and collaborative applications through the Internet. Develop applications that retrieve and store information in distributed databases.
Pre-req: CIT 365 with a minimum grade of D or IST 365 with a minimum grade of D and CIT 313 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 413 iOS Development **3 Credit hours**
Students will learn to develop iOS applications using HTML5/ PhoneGap, Objective-C, and Swift, using Apple and third-party SDKs. Also covers basic concepts for designing intuitive and usable user-interfaces.
Pre-req: CIT 265.
Grade Mode: Normal Grading Mode

CIT 414 Android Development **3 Credit hours**
Students will learn to develop Android applications using Java and the Android SDK. Course covers user interfaces, audio integration, SQLite databases, location services, sensors, and custom graphics.
Pre-req: CIT 265 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 416 Advanced Web Programming **3 Credit hours**
Includes topics in XHTML, JavaScript Data Object Model, dynamic application of CSS rules to page elements, browser's support for XML, object-oriented PHP programming, server side graphics generation, web services.
Pre-req: CIT 365 with a minimum grade of D and CIT 313 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CIT 440 Computer Graphics for Gaming **3 Credit hours**
Fundamental concepts dealing with the display of graphic information on semi-interactive storage tube displays. The course includes techniques for hidden line display, hidden line removal, and two- and three-dimensional transformation.
Pre-req: CIT 236 with a minimum grade of D or IST 236 with a minimum grade of D or CS 120 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CIT 441 Game Development II:3D **3 Credit hours**
Covers state of the art techniques for computer game design and development with an emphasis on the 3D graphics and interaction through practical, example driven approaches of game development.
Pre-req: CIT 340 with a minimum grade of D or IST 360 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 443 Game Development III: AI **3 Credit hours**
Advanced concepts of game development with a focus on artificial intelligence. AI techniques covered including A* path finding algorithm, rule-based reasoning, reinforcement learning, neural networks, genetic algorithm, knowledge representation.
Pre-req: CIT 441 with a minimum grade of D or IST 439 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 446 3D Modeling and Animation **3 Credit hours**
Covers 3D modeling to create environments and character animation. Explores 3D forms within sculpture, architecture, animation and games. Includes development of simplifications, abstractions and hyper-realities for gaming.
Attributes: Digital Humanities, No Textbook Required
Grade Mode: Normal Grading Mode

CIT 447 Modeling/Simulation Dev **3 Credit hours**
Course applies fundamentals of game development to educational games or simulations within a virtual world. Explores virtual worlds, basic scripting/modeling techniques and role-playing simulations to teach any concept.
Pre-req: CIT 441 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CIT 448 Mobile Game Development **3 Credit hours**
Students will work in teams to develop games for mobile devices. Emphasis on mobile development tools, techniques, cross platform development, and standard practices, using open-source software.
Pre-req: CIT 340 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 466 Database Programming **3 Credit hours**
This course teaches students database programming available to relational database systems. Students will work with fourth generation languages to analyze, design and develop, and execute programs in a database environment.
Pre-req: CIT 365 or IST 365.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 470 Internship in CIT **3 Credit hours**
Capstone course in CIT. A professionally supervised internship within the student's area of emphasis in the Computer and Information Technology major. Must be pre-approved before registering.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

CIT 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 485 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 490 Capstone Project in CIT **3 Credit hours**
Capstone course in CIT. Students will plan, implement, and present a solution to a real-world problem within their emphasis demonstrating their technical and professional skills. Must be pre-approved before registering.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Assistant Professors
Cartwright, Fazea, Mundell

Computer and Information Technology, B.S.

Just what is a major in Computer and Information Technology? A major in Computer and Information Technology provides a solid grounding in the information technology field. CIT is a cutting-edge program rooted and grounded in courses that are both highly theoretical while also extremely applied in nature. Students are constantly exposed to the latest technology and trends in class, making them immediately employable upon graduation. A major in Computer and Information Technology provides graduates with the necessary tools and skills to succeed in today's global, technology-driven world. Majors must choose to specialize in an area of emphasis which allows them to enrich their studies in a focused discipline. These areas of emphasis include:

- Computer and Web Application Development
- Game/Simulation Development

CIT graduates' skills are highly marketable and graduates are prepared for careers in any of today's industries that use Information Technology. The integrated nature of the educational experience enables graduates to combine their IT skills with the intellectual flexibility needed to be critical thinkers and problem solvers. They are also effective communicators able to interact with clients, coworkers and managers. CIT faculty work to help students develop real-life employable skills through hands-on experience while providing students access to emerging technologies.

Even so, CIT is not Computer Science. While CIT has strong roots in CS and the study of computers in general, there are important distinctions between the two disciplines, from professional and curricular perspectives.

Professional Aspect

Computer science students typically are motivated by the computer itself and how it works through an engineering perspective. In other words, computer scientists are interested in how the computer works under the hood. Information technologists, on the other hand, are intrigued by using the computer to solve problems. Information technologists identify needs for technology, which the computer scientists and engineers create. Information Technologists would then help people to use the CS professionals' creations effectively. CIT does not focus on a single domain, but instead focuses on the selection, integration and deployment of computers and technology throughout society in the areas of computer application development, web/mobile application development, and game/simulation development. CS focuses on producing graduate/PhD students or software engineers.

Curricular Aspect

Computer science curricula have a stronger emphasis on programming and hardware than in the Computer and Information Technology curriculum. CIT students obviously need to be able to build software applications and systems, but the typical CIT project will involve building software from existing components with high-level languages such as C++ or C# and applying an accessible interface, rather than engineering large applications from scratch, focusing on software engineering principles, data structures and algorithm development issues.

Another significant difference in the disciplines is that a computer science curriculum is seen as being deeper in the sense that intermediate and advanced courses require more prerequisites. CIT courses typically have a flatter prerequisite structure, which allows non-technical majors to take CIT courses to add to their learning, tool set, and even lead to a minor.

Admission Standards

- A composite score on the ACT of at least 21 or the SAT equivalent.
- A mathematics score on the ACT of at least 21 or the SAT equivalent.

Major

Degree Requirements

The Computer and Information Technology major is a four-year program that requires a minimum of 120 credit hours, 40 of which must be at the 300-400 level. Please see the requirements under the Area of Emphasis in which you are interested.

Areas of Emphasis

- Computer and Web Application Development, Emphasis (p. 601)
- Game/Simulation Development, Emphasis (p. 602)

Computer and Web Application Development, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Free Elective		2

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Coursework listed as "elective" may vary for each student. Students are encouraged to use elective hours toward a minor or toward prerequisites.
- Students are strongly encouraged to select courses that meet two or more Core or College requirements. For example, a writing intensive literature course could satisfy the Core II Humanities requirement as well as the University writing intensive requirement.
- Course offerings and course attributes are subject to change semesters. Please consult each semesters schedule of courses for availability and attributes.
- PHY 201 College Physics I is based on an ACT Mathematics score of 27 or higher. Students with an ACT Mathematics score less than 27 will be placed in the appropriate prerequisite mathematics courses.
- MTH 140 Applied Calculus is based on an ACT Mathematics score of 24 or higher. Students with an ACT Mathematics score less than 24 will be placed in the appropriate prerequisite mathematics and science courses.
- The Computer and Information Technology major is a four-year program that requires a minimum of 120 credit hours, 40 of which must be at the 300-400 level.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

A major in Computer and Information Technology provides a solid grounding in the information technology field. CIT is a cutting-edge program with courses that are both highly theoretical while also extremely applied in nature. The Area of Emphasis in Game/Simulation development combines sound principles of computer application development with computer game development. This connection serves students who are coming to Marshall University with aspirations of developing computer, console, and mobile games.

	Total Credit Hours	**120**

Computer and Information Technology, Minor

Students must complete 15 hours of CIT designated courses, 12 of which must be at the 200 level or above. Students wishing to obtain a minor in CIT must work from an approved curriculum plan developed in consultation with a CIT advisor.

Minors are 12-18 hours of courses designed for non-majors. Please consult your advisor for specifics.

Game Development, Minor

This minor combines the sound principles of computer application development through computer game development. Game development is a very popular venue in higher education and this minor gives students in other IT-related disciplines the opportunity to explore the ever-growing popularity of game development as an option. The minor allows students to explore gaming through the Marshall University's Computer and Information Technology department's computer lab for gaming (Marshall's Advanced Gaming and Interactive Computing Lab-MAGIC Lab) where students can interact with each other, playing different types of computer games to research latest trends and graphics and discuss gaming, as well as, design and develop their own games as projects for courses required for the minor.

Code	Title	Credit Hours

Department of Criminal Justice and Criminology

Contacts: Dr. Dhruba Bora, Chair
Website: http://www.marshall.edu/criminal-justice (http://www.marshall.edu/criminal-justice/)

criminal-justice@marshall.edu

The Department of Criminal Justice and Criminology provides undergraduate and graduate students with a high quality criminal justice education to prepare them for future success in:

1. public service (i.e., law enforcement, courts and administration, probation, parole, jails and prisons, juvenile justice, victims' services, and training/teaching);
2. law school;
3. graduate school; or
4. the private sector (i.e., loss prevention/security and corrections).

A unique contribution of the Criminal Justice and Criminology program is to develop students' intellectual abilities, critical thinking skills, research skills, language/ communication skills, and problem-solving skills within a broadly based exposure to the study of the law, the legal system, and the practical realities of how social, economic, and political contexts influence the roles of professionals/practitioners and also the operation of the criminal justice system. The Department of Criminal Justice and Criminology is also committed to:

1. applied and basic research;
2. leadership in public service to the community;
3. educating students in forensic applications and technological integration; and
4. developing insight into multicultural and global issues.

Programs

- Criminal Justice, Accelerated Master's Degree (http://catalog.marshall.edu/undergraduate/programs-az/science/criminal-justice-criminology/criminal-justice-accelerated-masters-degree/)
- Criminal Justice, B.A. (p. 608)
- Criminal Justice, Minor (p. 611)

Courses

- General Education Course

CJ 200 Intro to Criminal Justice **3 Credit hours**
This survey course examines the various components of the criminal justice system, including law enforcement, courts, and corrections. Students will be introduced to various criminal justice agencies and career possibilities. This survey course examines the various components of the criminal justice system, including law enforcement, courts, and corrections. Students will be introduced to various criminal justice agencies and career possibilities.
Attributes: Core II Social Sciences
Grade Mode: Normal Grading Mode

CJ 211 Intro to Law Enforcement **3 Credit hours**
Designed to examine the philosophical and historical background of law enforcement in the United States. Addresses constitutional limitations on law enforcement, objectives of law enforcement, and processes of law enforcement. Designed to examine the philosophical and historical background of law enforcement in the United States. Addresses constitutional limitations on law enforcement, objectives of law enforcement, and processes of law enforcement.
Attributes: Core II Social Sciences
Grade Mode: Normal Grading Mode

CJ 221 Intro to Criminal Courts **3 Credit hours**
This course addresses the evolution of current functioning of the American criminal court system. Students are exposed to court administration, court procedures, and the state and federal court system. This course addresses the evolution of current functioning of the American criminal court system. Students are exposed to court administration, court procedures, and the state and federal court system.
Attributes: Core II Social Sciences
Grade Mode: Normal Grading Mode

CJ 223 Introduction to Legal Research **3 Credit hours**
An introduction to the processes and strategies involved in legal research. Students will develop an understanding of the sources of legal information and judgment in selecting appropriate sources and formats for specific projects.
Grade Mode: Normal Grading Mode

CJ 231 Intro to Corrections **3 Credit hours**
A survey of the historical development of the systems of punishment and rehabilitation. Analysis of the reasons for incarceration of offenders. A survey of the historical development of the systems of punishment and rehabilitation. Analysis of the reasons for incarceration of offenders.
Attributes: Core II Social Sciences
Grade Mode: Normal Grading Mode

CJ 280 Special Topics **1-4 Credit hours**
Lower level specialized courses of contemporary interest. Lower level specialized courses of contemporary interest.
Grade Mode: Normal Grading Mode

CJ 281 Special Topics **1-4 Credit hours**
Lower level specialized courses of contemporary interest. Lower level specialized courses of contemporary interest.
Grade Mode: Normal Grading Mode

CJ 282 Special Topics **1-4 Credit hours**
Lower level specialized courses of contemporary interest. Lower level specialized courses of contemporary interest.
Grade Mode: Normal Grading Mode

CJ 283 Special Topics **1-4 Credit hours**
Lower level specialized courses of contemporary interest. Lower level specialized courses of contemporary interest.
Grade Mode: Normal Grading Mode

CJ 300 Admin of Criminal Justice **3 Credit hours**
This course provides an analysis of the theories of organization and the administration of criminal justice agencies, including management styles, techniques of leadership, and decision-making.
Pre-req: CJ 200.
Grade Mode: Normal Grading Mode

CJ 302 CJ Research Methods **3 Credit hours**
Logic of social research methods, survey research, methods of evaluation, sampling, and the contrast between qualitative and quantitative CJ research.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 314 Crime Scene & Investigations **3 Credit hours**
This course exposes students to crime scene processing techniques and technology, criminal investigation procedures, sources of information, interrogation, victim and witness interviewing, legal issues in criminal investigations.
Pre-req: CJ 211 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 322 Criminal Law **3 Credit hours**
History and development of criminal law, elements of a crime; parties to a crime, types of offenses. History and development of criminal law, elements of a crime; parties to a crime, types of offenses.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 323 Criminal Procedure **3 Credit hours**
Admissibility of evidence and confessions, recent civil rights decisions, reconciling individual rights and community interest in law and order. Admissibility of evidence and confessions, recent civil rights decisions, reconciling individual rights and community interest in law and order.
Pre-req: CJ 200.
Attributes: Social Sciences
Grade Mode: Normal Grading Mode

CJ 325 Juvenile Justice **3 Credit hours**
A survey of the process--the police, the courts, and corrections--through which the juvenile delinquent passes. A survey of the process--the police, the courts, and corrections--through which the juvenile delinquent passes.
Pre-req: CJ 200 with a minimum grade of D.
Attributes: Social Sciences
Grade Mode: Normal Grading Mode

CJ 331 Probation & Parole **3 Credit hours**
Organization of systems of after-care treatment of juvenile and adult offenders released under probation and parole. Organization of systems of after-care treatment of juvenile and adult offenders released under probation and parole.
Pre-req: CJ 231 with a minimum grade of D.
Attributes: Social Sciences
Grade Mode: Normal Grading Mode

CJ 332 Correctional Rehab **3 Credit hours**
Examines the theories, treatment strategies and the role of the correctional counselor. Special emphasis is given to the topics of classification, development of treatment plans and principles of effective intervention. Examines the theories, treatment strategies and the role of the correctional counselor. Special emphasis is given to the topics of classification, development of treatment plans and principles of effective intervention.
Pre-req: CJ 231 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 340 Drugs and Crime **3 Credit hours**
Examines the history and consequences of mind-altering drugs, and criminal behavior as it is affected by drugs, the legal response to substance abuse, treatment and prevention of substance abuse.
Grade Mode: Normal Grading Mode

CJ 341 Victims of Crime **3 Credit hours**
Examines victims of crime, the process and consequences of victimization. Also covered are victims' rights and services available for victims and victim compensation.
Grade Mode: Normal Grading Mode

CJ 400 Applied Ethics in CJ **3 Credit hours**
Examines ethical issues and moral dilemmas faced by criminal justice professionals. Traditional ethical theories and practices designed to foster public trust in the criminal justice system are examined and applied.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 403 Understanding Cybercrime **3 Credit hours**
Examination of hacking, piracy, cyber stalking, cyber bullying, identity theft, and other cybercrimes through the lens of various criminological theories with an emphasis on research methodology and criminal justice policy.
Grade Mode: Normal Grading Mode

CJ 404 Theoretical Criminology **3 Credit hours**
A critical analysis of the major criminological theories and their empirical foundations. Current theory and research receive greater emphasis than historical development.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 405 Women & the CJS **3 Credit hours**
Examines factors surrounding women and the criminal justice system from a theoretical and practical perspective. Explores feminist ideologies, plus women as victims, offenders, and professionals in the justice system.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 406 Race, Ethnicity, Class & Crime **3 Credit hours**
Examines the impact and relationship of race, ethnicity, and social class within the criminal justice system.
Pre-req: CJ 200.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CJ 410 Police Administration **3 Credit hours**
Functins and activities of police agencies. Police department organizations, responsibilities of upper level administrators. Current administrative experimentation on law enforcement agencies. Functins and activities of police agencies. Police depart- ment organizations, responsibilities of upper level administrators. Current administrative experimentation on law enforcement agencies.
Pre-req: CJ 211.
Grade Mode: Normal Grading Mode

CJ 415 Rural Criminology **3 Credit hours**
Critical analysis of rural crime and the criminological sub-field of rural criminology. Examines the economic, racial, and cultural conditions in rural America which reproduce exploitive economies and overall destructive behaviors.
Grade Mode: Normal Grading Mode

CJ 416 Terrorism **3 Credit hours**
Provides students with a working knowledge of the history of terrorism, the current status of terrorist groups, terrorism tactics, and methods to counteract terrorism.
Grade Mode: Normal Grading Mode

CJ 417 CJ Decision Making **3 Credit hours**
Focuses on theories of criminal justice decision-making and decision points across the criminal justice system. Topics include the decision to report crime, police decisions, jury decisions, and sentencing decisions.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 418 Crime and Pop Culture **3 Credit hours**
A critical examination of the popular cutlure presentation of crime, offenders, victims, and the criminal justice process.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 420 Homeland Security **3 Credit hours**
This course takes a comprehensive approach to studying the facets of homeland security, the complexity of homeland security and terrorism, defeating terrorists, and Homeland Security's response to terrorist threats.
Grade Mode: Normal Grading Mode

CJ 422 Law of Evidence **3 Credit hours**
Leading rules and principles of exclusion and selection; burden of proof, nature and effect of presumptions; proof of authenticity and contents of writings; examinations, compentency and privilege of witnesses. Leading rules and principles of exclusion and selection; burden of proof, nature and effect of presumptions; proof of authenticity and contents of writings; examinations, compentency and privilege of witnesses.
Pre-req: CJ 200.
Grade Mode: Normal Grading Mode

CJ 424 Computer Crime **3 Credit hours**
Students will identify and define criminal acts committed with computers or directed toward computer systems, electronic search and seizure and electronic evidence.
Grade Mode: Normal Grading Mode

CJ 426 Civil Liability Issues CJ **3 Credit hours**
This course examines various theories of civil liability that relate to Criminal Justice professionals, the civil justice system, and preventing and defending civil liability claims.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 433 Correctional Administration **3 Credit hours**
Objectives of correctional institutions; records; personnel, program development, security; educational programs. Objectives of correctional institutions; records; personnel, program development, security; educational programs.
Pre-req: CJ 231.
Grade Mode: Normal Grading Mode

CJ 440 CJ Response to Dom Violence **3 Credit hours**
This course focuses on the legal response to child abuse, domestic violence, and elder abuse. Examines dynamics of abusive relationships, the effects of victimization, and current research on these issues.
Grade Mode: Normal Grading Mode

CJ 450 Business & Industrial Security **3 Credit hours**
Selection, training, and staffing of a security force; security devices available; techniques of internal security; ground security; security techniques applicable to personnel selection; legal problems. CJ majors only.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 453 Seminar in Crime Prevention **3 Credit hours**
This course examines theory, operation, and evaluation of crime prevention as a function of the criminal justice system. Techniques for crime prevention are analyzed from various orientations, including environmental design.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 460 Miscarriages of Justice **3 Credit hours**
This course provides a critical examination of the processes and procedures used by police, prosecutors, defense attorneys, judges, and corrections agents which may potentially produce errors or "miscarriages" of justice.
Pre-req: CJ 200.
Grade Mode: Normal Grading Mode

CJ 480 Special Topics **1-4 Credit hours**
A study of special interest criminal justice topics under the supervision of a qualified faculty member. A study of special interest criminal justice topics under the supervision of a qualified faculty member.
Grade Mode: Normal Grading Mode

CJ 481 Special Topics **1-4 Credit hours**
A study of special interest criminal justice topics under the supervision of a qualified faculty member. A study of special interest criminal justice topics under the supervision of a qualified faculty member.
Grade Mode: Normal Grading Mode

CJ 482 Special Topics **1-4 Credit hours**
A study of special interest criminal justice topics under the supervision of a qualified faculty member. A study of special interest criminal justice topics under the supervision of a qualified faculty member.
Grade Mode: Normal Grading Mode

CJ 483 Special Topics **1-4 Credit hours**
A study of special interest criminal justice topics under the supervision of a qualified faculty member. A study of special interest criminal justice topics under the supervision of a qualified faculty member.
Grade Mode: Normal Grading Mode

CJ 485 Independent Study **1-4 Credit hours**
This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course. This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course.
Grade Mode: Normal Grading Mode

CJ 486 Independent Study **1-4 Credit hours**
This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course. This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course.
Grade Mode: Normal Grading Mode

CJ 487 Independent Study **1-4 Credit hours**
This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course. This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course.
Grade Mode: Normal Grading Mode

CJ 488 Independent Study **1-4 Credit hours**
This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course. This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course.
Grade Mode: Normal Grading Mode

CJ 490 Internship **1-6 Credit hours**
The placement of an individual into a criminal justice ageny (police, probation, courts, jails) to observe and participate in its operation. Grading is CR/NC only. The placement of an individual into a criminal justice ageny (police, probation, courts, jails) to observe and participate in its operation. Grading is CR/NC only.
Grade Mode: Credit/No Credit Grade Only

CJ 492 Senior Seminar **3 Credit hours**
Capstone course. Integrates and applies material learned in the program of study. Serves as a culminating experience in which students demonstrate what they have learned in the classroom.
Pre-req: (CJ 200 with a minimum grade of D and CJ 302 with a minimum grade of D and CJ 404 with a minimum grade of D).
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- In addition to the Core General Education requirements, the College of Science requires 40 hours of upper level credit.
- Coursework listed as "elective" may vary for each student. Students are encouraged to use elective hours toward a minor or toward prerequisites.
- Students are encouraged to complete an internship in the area of emphasis (CJ 490 Internship) in the summer before their senior year. Internships require approval from the CJ Department Chair.
- Course offerings and course attributes are subject to change. Please consult each semester's schedule of courses for availability and attributes.
- **Areas of Emphasis:** 24 hours (18 hours in AoE plus 6 hours CJ coursework outside AoE; CJ 200 Intro to Criminal Justice, CJ 302 CJ Research Methods, CJ 322 Criminal Law, CJ 404 Theoretical Criminology and CJ 492 Senior Seminar do not count toward the 18 AoE or the 6 additional CJ electives.)

- General: Students who do not select an area of emphasis take both CJ 211 Intro to Law Enforcement and CJ 231 Intro to Corrections as well as a variety of criminal justice electives to suit their career interests to complete the 24 hours of CJ electives.

Areas of Emphasis

- Corrections, Emphasis (p. 610)
- Law Enforcement, Emphasis (p. 610)
- Legal Studies, Emphasis (p. 610)

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Department of Criminal Justice and Criminology provides undergraduate and graduate students with a high quality criminal justice education to prepare them for future success in:

1. public service (i.e., law enforcement, courts and administration, probation, parole, jails and prisons, juvenile justice, victims' services, and training/teaching);
2. law school;
3. graduate school; or
4. the private sector (i.e., loss prevention/security and corrections).

A unique contribution of the Criminal Justice and Criminology program is to develop students' intellectual abilities, critical thinking skills, research skills, language/ communication skills, and problem-solving skills within a broadly based exposure to the study of the law, the legal system, and the practical realities of how social, economic, and political contexts influence the roles of professionals/practitioners and also the operation of the criminal justice system.

300/400 CJ Concentration Elective (outside AoE)		3
300/400 CJ Concentration Elective (outside AoE)		3

Free Elective		4
	Credit Hours	**13**
	Total Credit Hours	**120**

Corrections, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Code	Title	Credit Hours
CJ 231	Intro to Corrections	3
Select five of the following:		15
CJ 325	Juvenile Justice	
CJ 331	Probation & Parole	
CJ 332	Correctional Rehab	
CJ 400	Applied Ethics in CJ	
CJ 406	Race, Ethnicity, Class & Crime	
CJ 417	CJ Decision Making	
CJ 433	Correctional Administration	
CJ 490	Internship	
Other options that may be used with permission from the department chair may include, but are not limited to:		
CJ 300	Admin of Criminal Justice	
CJ 340	Drugs and Crime	
CJ 341	Victims of Crime	
CJ 405	Women & the CJS	
CJ 426	Civil Liability Issues CJ	
CJ 460	Miscarriages of Justice	
CJ coursework outside AoE		6
Total Credit Hours		**24**

24 hours (18 hours in AoE plus 6 hours CJ coursework outside AoE; CJ 200 Intro to Criminal Justice, CJ 302 CJ Research Methods, CJ 322 Criminal Law, CJ 404 Theoretical Criminology and CJ 492 Senior Seminar do not count toward the 18 AoE or the 6 additional CJ electives.)

Law Enforcement, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Code	Title	Credit Hours
CJ 211	Intro to Law Enforcement	3
Select five of the following:		15
CJ 300	Admin of Criminal Justice	
CJ 314	Crime Scene & Investigations	
CJ 323	Criminal Procedure	
CJ 400	Applied Ethics in CJ	
CJ 406	Race, Ethnicity, Class & Crime	
CJ 410	Police Administration	
CJ 416	Terrorism	
CJ 417	CJ Decision Making	
CJ 424	Computer Crime	
CJ 426	Civil Liability Issues CJ	
CJ 490	Internship	
Other options that may be used with permission from the department chair may include, but are not limited to:		
CJ 325	Juvenile Justice	
CJ 340	Drugs and Crime	
CJ 341	Victims of Crime	
CJ 403	Understanding Cybercrime	
CJ 405	Women & the CJS	
CJ 415	Rural Criminology	
CJ 460	Miscarriages of Justice	
CJ 440	CJ Response to Dom Violence	
CJ coursework outside AoE		6
Total Credit Hours		**24**

24 hours (18 hours in AoE plus 6 hours CJ coursework outside AoE; CJ 200 Intro to Criminal Justice, CJ 302 CJ Research Methods, CJ 322 Criminal Law, CJ 404 Theoretical Criminology and CJ 492 Senior Seminar do not count toward the 18 AoE or the 6 additional CJ electives.)

Legal Studies, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Code	Title	Credit Hours
CJ 221	Intro to Criminal Courts	3
Select five of the following:		15
CJ 223	Introduction to Legal Research	
CJ 323	Criminal Procedure	
CJ 400	Applied Ethics in CJ	
CJ 417	CJ Decision Making	
CJ 422	Law of Evidence	
CJ 424	Computer Crime	
CJ 426	Civil Liability Issues CJ	
CJ 490	Internship

Criminal Justice, Minor

A minor in Criminal Justice consists of 15 credit hours of courses that include CJ 200 Intro to Criminal Justice and 12 other hours. These hours should be chosen with the assistance of a Criminal Justice advisor.

Department of Cyber Forensics and Security

Contacts: Prof. John Sammons, Chair

sammons17@marshall.edu

Programs

- Computer Forensics, Minor (p. 613)
- Cyber Forensics and Security, B.S. (p. 613)
- Information Assurance, Certificate (p. 615)

Courses

- General Education Course

CFS 200 Introduction to CFS **3 Credit hours**
This course teaches student how information is recovered from electronic devices and the forensic techniques used to perform forensic examinations. In addition, legal issues regarding electronic data will be discussed.
Grade Mode: Normal Grading Mode

CFS 261 Introduction to Linux **3 Credit hours**
An introductory course for the Linux operating system, focusing on its application in information assurance and the digital forensics.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 305 Open Source Intelligence **3 Credit hours**
This course identifies and demonstrates free online resources that can aid investigators in searching the Internet for resources that can be applied to domestic and international investigations.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 357 Network Penetration and Attack **4 Credit hours**
Students will explore tools and techniques used to penetrate, exploit and ex filtrate data from computers and networks.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 400 Intro to Cyber Forensics **3 Credit hours**
This course teaches students how information is recovering from electronic devices and the forensic techniques used to perform forensic examinations. In addition, legal issues regarding electronic data will be discussed.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 405 OSINT Practicum **3 Credit hours**
Grade Mode: Normal Grading Mode

CFS 406 OSINT Practicum II **3 Credit hours**
Grade Mode: Normal Grading Mode

CFS 410 Collegiate Cyber Competition I **3 Credit hours**
Pre-req: CFS 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 411 Collegiate Cyber Comp II **3 Credit hours**
Pre-req: CFS 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 420 Incident Response **3 Credit hours**
This course examines forensic and investigative aspects of a network intrusion. Topics include pre-incident preparation, developing leads, scoping an incident, forensic data collection, evidence form hosts, networks, and enterprise environments.
Pre-req: CFS 400 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 430 Exploit Development **3 Credit hours**
Students will learn the skills required to reverse-engineer 32-bit and 64-bit applications, perform remote user application, analyze patches for 1-day exploits, and write complex modern software and operating systems.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 440 Digital Evidence **4 Credit hours**
Concepts of computer forensics, including handling digital evidence, case preparation, forensic imaging, data recovery, password cracking, e-mail analysis, and report writing. Proper usage of difference forensic tools is emphasized.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 445 Mobile & Web Pen Testing **3 Credit hours**
This course is designed to teach students the advanced skills and techniques required to test mobile and web applications.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 448 Multimedia Forensics **3 Credit hours**
Course will introduce principles of multimedia forensics and their application to digital forensics. Practical forensics enhancements and analysis techniques, including how to prepare forensically-sound exhibits are covered.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 454 Network Defense **4 Credit hours**
An in-depth examination of the principles, strategies, and tools used to defend, detect, and respond to a variety of common network attacks.
Pre-req: CFS 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 460 Applied Cyber Forensics **4 Credit hours**
Introduction to the principles, practices and tools of digital forensics and electronic discovery. Hands-on exercises in a simulated real-world environment are a critical component of the course.
Pre-req: CFS 400 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 461 Cyber Warfare **3 Credit hours**
Broad examination of this new form of conflict including the role of nation states, the challenge of attribution, potential impact on the physical world, and current government policy and doctrine.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 462 Network Forensics **4 Credit hours**
Examination of techniques and tools used to investigate, search, collect, analyze, and report on network based breaches and events.
Pre-req: (CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or DFIA 200 with a minimum grade of D) and CFS 400 with a minimum grade of D and CFS 261 with a minimum grade of D and CIT 352 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 464 Network Security **3 Credit hours**
Addresses security issues for TCP/IP-based networks, Access Control and Communications are covered as well as Internet security in areas of cryptography, protocols, applications, encryption, hash functions digital signatures, etc.
Pre-req: CFS 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 467 Mobile Device Forensics **4 Credit hours**
Identification, preservation, collection, analysis, and reporting techniques and tools used in the forensics examination of mobile devices such as cell phones and GPS units.
Pre-req: CFS 400 with a minimum grade of D and (CFS 200 with a minimum grade of D or DFIA 200 with a minimum grade of D or IST 264 with a minimum grade of D).
Grade Mode: Normal Grading Mode

CFS 470 Internship **3 Credit hours**
Grade Mode: Normal Grading Mode

CFS 480 Special Topics **3 Credit hours**
Grade Mode: Normal Grading Mode

CFS 485 Independent Study **3-6 Credit hours**
Grade Mode: Normal Grading Mode

CFS 490 Capstone **3 Credit hours**
This course reinforces assesses the student's ability to apply core digital forensics and information assurance knowledge and skills in a series of realistic practical exercises.
Pre-req: CFS 357 with a minimum grade of D and CFS 460 with a minimum grade of D and CFS 467 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

CFS 491 Research **3-6 Credit hours**
Students will explore and apply common research methods used in digital forensics and information assurance. Students will complete a research project including a paper or poster during the semester.
Grade Mode: Normal Grading Mode

CFS 500 Intro to Digital Forensics **3 Credit hours**
Introduces students to core digital forensic concepts, including data storage, imaging, the digital forensics process, common Windows artifacts, and the fundamentals of the forensic examination of digital media using AccessData.
Grade Mode: Normal Grading Mode

CFS 505 OSINT Practicum I **3 Credit hours**
Students will learn how to use advanced tools that can aid investigators in searching the Internet and resources that can be applied to domestic and international investigations.
Grade Mode: Normal Grading Mode

CFS 520 Incident Response **3 Credit hours**
Course examines forensic and investigate aspects of incident response. Topics include pre-incident preparation, developing leads, scoping an incident, data collection, forensic duplication, evidence from hosts, networks, application and enterprise environments.
Grade Mode: Normal Grading Mode

CFS 545 Mobile and Web Pen Testing **3 Credit hours**
Students will learn the advanced skills and techniques required to test mobile and web applications. This advanced pen-testing course uses a combination of lecture, real-world experiences, and hands-on exercises.
Grade Mode: Normal Grading Mode

CFS 548 Multimedia Forensics **3 Credit hours**
Course will introduce principles of multimedia forensics (images, audio, and video) and their application to cyber forensics. Practical forensics enhancement, analysis, and reporting tools and techniques are covered.
Grade Mode: Normal Grading Mode

CFS 554 Adv Network Defense **3 Credit hours**
Tools and techniques used to protect, monitor, analyze, detect and respond to unauthorized activity computers and networks.
Grade Mode: Normal Grading Mode

CFS 561 Applied Cyber Warfare **3 Credit hours**
Latest developments and advancement in cyber warfare facing nation-state and non-nation-state actors.
Grade Mode: Normal Grading Mode

CFS 562 Network Forensics **3 Credit hours**
Examination of techniques and tools used to investigate, search, collect, analyze and report on network based breaches and events.
Grade Mode: Normal Grading Mode

CFS 564 Network and Cyber Crime **3 Credit hours**
Examines fundamental security concepts, protocols, and procedures commonly in use today. Topics include governance, access control, cryptography, physical security, security architecture, and application development security.
Grade Mode: Normal Grading Mode

CFS 567 Mobile Device Forensics **3 Credit hours**
Identification, preservation, collection, analysis, and reporting techniques and tolls used in the forensic examination of mobile devices such as mobile phones, tablets and GPS units.
Grade Mode: Normal Grading Mode

CFS 581 Special Topics **3 Credit hours**
Study of emerging and advanced topics in Cyber Forensics and Security. Topics vary with instructor and change from one semester to another.
Grade Mode: Normal Grading Mode

CFS 630 Cyber Threat Intelligence **3 Credit hours**
A detailed study of the cyber threat intelligence process and its products. Topics include threat modeling, structured analysis, adversary groups, tactical, operations, and strategic threat intelligence.
Grade Mode: Normal Grading Mode

CFS 650 Adv Cyber Defense **3 Credit hours**
An advanced study cyber defense, including coverage of topics such as social engineering, authorization techniques, security models, trusted computing, network architecture security, operating system security, endpoint security, database security, and physical security.
Grade Mode: Normal Grading Mode

CFS 660 Red Team **3 Credit hours**
Students will learn how to plan and execute and end-to-end adversary emulation and build a red team program, leverage threat intelligence to map against adversary tactic and tool automation.
Grade Mode: Normal Grading Mode

CFS 665 Cyber Sec IoT and ICS **3 Credit hours**
Students will learn the tools and techniques to defend IoT and ICS systems that run teh Power Grid and other critical systems.
Grade Mode: Normal Grading Mode

CFS 670 Practicum **3-6 Credit hours**
Students will gain experience and practical knowledge working with professionals in the field of Cyber Forensics and Security as well as gaining real-world experience.
Grade Mode: Normal Grading Mode

CFS 675 Research in CFS **1-6 Credit hours**
Students will plan, implement, research and present a solution to a real-world problem within cyber forensics & defense, demonstrating their technical and professional skills. Must be pre-approved before registering.
Attributes: Thesis
Grade Mode: Normal Grading Mode

CFS 680 Special Topics **3 Credit hours**
Grade Mode: Normal Grading Mode

CFS 690 Capstone **3 Credit hours**
This capstone course is the culminating experience for the Masters Degree in Cyber Forensics and Security. This course builds on the concepts covered within the program of study.
Grade Mode: Normal Grading Mode

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Coursework listed as "free elective" may vary for each student. Students are encouraged to use elective hours toward a minor or toward prerequisites.
- Students are strongly encouraged to select courses that meet two or more Core or College requirements.
- Course offerings and course attributes are subject to change semesters. Please consult each semesters schedule of courses for availability and attributes.
- Math is based on an ACT Mathematics score of 24 or higher. Students with an ACT Mathematics score less than 24 will be placed in the appropriate mathematics and science courses.
- Prior to entering their junior year, students are required to pass a background check (no arrests or convictions) and supply two letters of reference that attest to the student's character. Under certain very limited circumstances, this requirement may be waived. That decision will be made by a review committee comprised of the university digital forensic and information assurance faculty along with the department chair. The background check is done at the student's expense.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Bachelor of Science in Cyber Forensics and Security prepares students to meet the challenges of today's cyber threats. Cyber Forensics and Security skills are in high demand in law enforcement, business, government, defense, intelligence, and the private sector. The program has a solid foundation in science, technology, and communication skills. Students learn to conduct forensic analysis on a variety of devices and systems, defend a network, testify in court, and conduct penetration tests among other skills.

Information Assurance, Certificate

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Evidence of information assurance coursework is required for many government and private industry positions. This certificate will meet the government requirements for certification and continuing education for several information security certifications including Security+, CEH, and CISSP.

Admission Requirements

Students may pursue the certificate while enrolled in Marshall University or as a certificate-only student. Students already enrolled in the undergraduate degree program should submit to the Office of Admissions a Secondary Program Request form.

Applicants interested in the certificate-only program should apply for admission to Marshall University as a Certificate/Professional Development student and select on the application form the Undergraduate Certificate in Information Assurance.

Requirements

Code	Title	Credit Hours
CFS 357	Network Penetration and Attack	4
CFS 454	Network Defense	4
IST 264		
CFS 461	Cyber Warfare	3
Total Credit Hours		**11**

All courses are required for the certificate. A student must maintain a grade of *C* or better for each of the required courses to complete the certificate.

Department of Geology

Contacts: Prof. Aley El-Shazly, Chair, elshazly@marshall.edu
Website: http://www.marshall.edu/geology (http://www.marshall.edu/geology/)

Geology (or Geoscience) is the study of the earth's composition, internal structure, processes, and history. Geoscientists perform three vitally important roles in our society by

1. supplying the things we need (energy resources, metals, building materials, water),
2. protecting the environment (preventing or mitigating contamination of water, soil or air, or adverse impacts on ecosystems), and
3. minimizing the impact of geologic hazards (floods, landslides, earthquakes, volcanic eruptions, tsunamis) on people and property.

The Earth's expanding population and increased use of natural resources along with our need for energy, environmental protection, and responsible land and resource management are likely to fuel a demand for geoscientists well into the future. Demand for geoscientists is predicted to increase over the next decade. The median annual wage for geoscientists was $83,680 in 2021 (U.S. Bureau of Labor Statistics).

Marshall University's location in southern West Virginia provides students with a wealth of opportunities for field-based studies in environmental geology, engineering geology, and energy resources. The Department of Geology offers a B.S. degree in Geology, a B.A. degree in Geology, and a B.A. degree in Earth Science. The B.S. in Geology degree consists of an interdisciplinary curriculum that provides a sound foundation in both fundamental and applied aspects of geology and is the more appropriate option for students considering graduate studies in Geology. Graduates are typically employed by environmental and engineering companies, natural

resource industries, and government agencies, or pursue more advanced degrees. The curriculum for the B.A. degree in Geology has greater flexibility, less rigorous mathematics and physics, and less comprehensive geology requirements than the B.S. in Geology. The B.A. Geology degree provides a basis for science-related careers such as environmental law, pre-college teaching, science journalism, and resource management and marketing.

The B.A. in Earth Science degree integrates all the earth sciences in a systems approach to understanding the Earth. The curriculum incorporates a broader range of natural sciences such as oceanography, meteorology and astronomy, which are not included in the geology major. The emphasis is on the preparation of individuals to work in a wide range of public sector service careers where a background in earth science and effective communication of science to nonscientific audiences are requirements or assets. The major also provides a solid foundation for those wishing to pursue a career as an earth science teacher.

Programs

- Geology, B.A. (p. 618)
- Geology, B.S. (p. 619)
- Geology, Minor (p. 624)

Courses

- General Education Course

GLY 100 Geologic Hazards & Resources **3 Credit hours**
Introductory course for non-science majors focusing on (i) Earth Hazards; and mitigation, (ii) Climate change and its impacts; and (iii) Earth and Energy resources, their origin, development, and environmental impacts.
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GLY 150 Intro Oceanography **3 Credit hours**
Origin of the seas and ocean basins. Processes of marine sedimentation and seawater chemistry. Dynamics of air/sea interaction, circulation, waves and tides. Description of coastal and other marine environments. Origin of the seas and ocean basins. Processes of marine sedimentation and seawater chemistry. Dynamics of air/sea interaction, circulation, waves and tides. Description of coastal and other marine environments.
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GLY 150L Intro Oceanography Lab **1 Credit hour**
A complementary laboratory to Introductory Oceanography, GLY 150. A series of exercises relating to bathymetry, accoustic profiling, marine charts, properties of seawater, sea floor sediments, currents, waves and tides. A complementary laboratory to Introductory Oceanography, GLY 150. A series of exercises relating to bathymetry, accoustic profiling, marine charts, properties of seawater, sea floor sediments, currents, waves and tides.
Co-req: GLY 150
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GLY 170 Geology of the National Parks **3 Credit hours**
An introduction to U.S. Parks and Monuments including earth materials, plate tectonic setting, formative geologic processes, and natural history; brief overview of history and purpose of the National Park Service.
Grade Mode: Normal Grading Mode

GLY 200 The Dynamic Earth **3 Credit hours**
An elementary but comprehensive physical geology course that deals with the earth's origin, composition, structures, tectonics and processes. Intended primarily for, but not limited to, the science major. 3 lec. An elementary but comprehensive physical geology course that deals with the earth's origin, composition, structures, tectonics and processes. Intended primarily for, but not limited to, the science major. 3 lec.
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GLY 201 The Earth Through Time **3 Credit hours**
Introduction to 1) the principles used to interpret past physical, biologic, and chemical events archived in rock record, and 2)the history and development of the earth's lithosphere, biosphere, hydrosphere, and atmosphere.
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GLY 210L Earth Materials Lab **1 Credit hour**
An introduction to laboratory methods and materials as applied to the identification, classification, recovery and uses of earth resources. 2 lab. An introduction to laboratory methods and materials as applied to the identification, classification, recovery and uses of earth resources. 2 lab.
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GLY 211L Earth Through Time Lab **1 Credit hour**
Reconstruction of events in earth history based on physical characteristics and arrangement of rock layers and their fossil contens. 2 hr lab (PR: 210L; CR: GLY 201) Reconstruction of events in earth history based on physical characteristics and arrangement of rock layers and their fossil contens. 2 hr lab (PR: 210L; CR: GLY 201)
Attributes: No Textbook Required, Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GLY 212 Geologic Field Methods **3 Credit hours**
Introduction to geologic map interpretation, qualitative and quantitative methods of geologic map and cross-section preparation, and basic ArcGIS mapping methods. 2 lec 1 lab. (Field Work).
Pre-req: (GLY 200 with a minimum grade of D or GLY 201 with a minimum grade of D) and (GLY 210L with a minimum grade of D or GLY 211L with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 280 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 281 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 282 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 283 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 313 Structural Geology **4 Credit hours**
Analysis, classification and origin of depositional and deformational structures common to all classes of rocks; their structural history, relationships, and stresses which caused them. 3 lec-2 lab. Analysis, classification and origin of depositional and deformational structures common to all classes of rocks; their structural history, relationships, and stresses which caused them. 3 lec-2 lab.
Pre-req: GLY 110 or GLY 200.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 314 Mineralogy **4 Credit hours**
Identification, classification, orgin, occurrences, and economic uses of minerals and their crystallographic forms. 3 lec-2 lab. Identification, classification, orgin, occurrences, and economic uses of minerals and their crystallographic forms. 3 lec-2 lab.
Pre-req: GLY 200 with a minimum grade of D and CHM 211 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 320L Geology Lab Techniques **2 Credit hours**
Techniques of collection, preparation and analysis of mineral, rock and water samples, and the use of different instruments for obtaining quality data. Will also cover tools used for data interpretation. Techniques of collection, preparation and analysis of mineral, rock and water samples, and the use of different instruments for obtaining quality data. Will also cover tools used for data interpretation.
Pre-req: GLY 200 (may be taken concurrently) with a minimum grade of D and GLY 210L (may be taken concurrently) with a minimum grade of D.
Concurrent PR: GLY 200 and GLY 210L
Grade Mode: Normal Grading Mode

GLY 325 Stratigraphy & Sediment **4 Credit hours**
Formation, organization, sequence, and correlation of sedimentary rocks; study of the orgin, transportation and deposition of rock-forming sediments. 3 lec-2 lab. Formation, organization, sequence, and correlation of sedimentary rocks; study of the orgin, transportation and deposition of rock-forming sediments. 3 lec-2 lab.
Pre-req: GLY 201 with a minimum grade of D and GLY 211L with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 330 Tectonics **3 Credit hours**
Overview of tectonic processes at plate boundaries, orogenic systems, formation of continents and ocean basins, and tectonic analytical methods.
Pre-req: GLY 200 and GLY 201 and GLY 210L and GLY 211L.
Grade Mode: Normal Grading Mode

GLY 410 Big Bend Field Excursion **2 Credit hours**
Field trip to Big Bend National Park, Texas to study the structure, stratigraphy, igneous geology, metamorphic geology, paleontology and natural history of this national park. Field trip to Big Bend National Park, Texas to study the structure, stratigraphy, igneous geology, metamorphic geology, paleontology and natural history of this national park.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 418 Invertebrate Paleontology **4 Credit hours**
Taxonomy, morphology, and paleoecology of body and trace fossils representing the major invertebrate phyla; analysis and interpretation of faunal assemblages; evolution and extinction of species. (PR: GLY 201) Taxonomy, morphology, and paleoecology of body and trace fossils representing the major invertebrate phyla; analysis and interpretation of faunal assemblages; evolution and extinction of species. (PR: GLY 201)
Pre-req: GLY 201 with a minimum grade of D and GLY 211L with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 420 Principles of Geochemistry **3 Credit hours**
Application of chemical principles to geology. Topics include cosmochemistry; distribution of elements in minerals and rocks; aqueous solutions and water-rock interaction; radiometric age dating and stable isotope geology.
Pre-req: CHM 211 with a minimum grade of D and GLY 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GLY 421 Igneous& Metamorphic Petrology **4 Credit hours**
Indentification and classification of igneous, and metamorphic rocks, their origin and occurrence; their geologic and economic importance. 3 lec-2 lab. Indentification and classification of igneous, and metamorphic rocks, their origin and occurrence; their geologic and economic importance. 3 lec-2 lab.
Pre-req: GLY 200 with a minimum grade of D and GLY 314 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 423 Sedimentary Petrology **4 Credit hours**
Microscopic description of minerals, textures, and fossils in sedimentary rocks, their classification, and interpretation of source area, depositional environment and post-depositional history. 3 lec-2 lab.
Pre-req: GLY 201.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 426 Geophysics **3 Credit hours**
Development of seismic, gravity, magnetism, electrical and thermal methods of studying the structure and dynamics of the earth. 3-lec
Pre-req: GLY 200 with a minimum grade of D and GLY 210L with a minimum grade of D and (PHY 201 with a minimum grade of D or PHY 211 with a minimum grade of D) and MTH 229 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 427 Fossil Fuels **4 Credit hours**
Origin and distribution of coal, oil and gas, and methods of exploration and reserve evaluaton. 3 lec-2 lab. Origin and distribution of coal, oil and gas, and methods of exploration and reserve evaluaton. 3 lec-2 lab.
Pre-req: GLY 200.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 451 Principles Geomorphology **4 Credit hours**
Principles of identification and analysis of the world's surficial features in terms of stratigraphy, structure, processes, tectonics and time. 3 lec. 2 lab. Principles of identification and analysis of the world's surficial features in terms of stratigraphy, structure, processes, tectonics and time. 3 lec. - 2 lab.
Pre-req: GLY 200 and GLY 210L.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 455 Hydrogeology **3 Credit hours**
The properties of water, the hydrologic cycle with emphasis on surface and groundwater processes, the uses, needs and problems associated with water resources. 3 lec. The properties of water, the hydrologic cycle with emphasis on surface and groundwater processes, the uses, needs and problems associated with water resources. 3 lec.
Pre-req: GLY 200 with a minimum grade of D and (MTH 132 with a minimum grade of D or MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 455L Hydrogeology Laboratory **1 Credit hour**
A two-hour laboratory of practical hydrogeologic problem solving. For non-majors, elective. A two-hour laboratory of practical hydrogeologic problem solving. For non-majors, elective.
Pre-req: GLY 455 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: GLY 455
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 456 Environmental Geology **4 Credit hours**
Consideration of risks posed by natural geo-hazards and from physical/chemical contamination of geologic media. (PR: GLY 200, GLY 210L or equivalent; Recommended: GLY 451) Consideration of risks posed by natural geo-hazards and from physical/chemical contamination of geologic media. (PR: GLY 200, GLY 210L or equivalent; Recommended: GLY 451)
Pre-req: GLY 200 with a minimum grade of D and GLY 210L with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 457 Engineering Geology **4 Credit hours**
Consideration of geotechnical problems faced by geologists and engineers. Major topics include mechanics and classification of soil and rock, and geotechnical aspects of groundwater.
Pre-req: GLY 200 with a minimum grade of D and GLY 210L with a minimum grade of D and (MTH 132 with a minimum grade of D or MTH 229 with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 480 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 481 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 482 Special Topics **1-4 Credit hours**

Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 488 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 491 Capstone Experience **2-4 Credit hours**
An independent study involving a research project or internship. Must be approved by Geology faculty. (PR: 20 hours of Geology coursework).
Attributes: Capstone Course, Natural Sciences
Grade Mode: Normal Grading Mode

GLY 492 Capstone Experience **2-4 Credit hours**
An independent study involving a research project or internship. Must be approved by Geology faculty. (PR: 20 hours of Geology coursework).
Attributes: Capstone Course, Natural Sciences
Grade Mode: Normal Grading Mode

Faculty

Professors
Caudill, El-Shazly, Martino

Geology, B.A.

Provides a broad foundation for entry level positions in the geosciences or for graduate school.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

Code	Title	Credit Hours
MTH 122 & MTH 130 or MTH 132	Plane Trigonometry and College Algebra Precalculus with Sci Applica	5-6
BSC 120	Principles of Biology I	3
BSC 120L	Principles of Biology I Lab	1
CHM 211 & CHM 217	Principles of Chemistry I and Principles of Chem Lab I	5
CHM 212 & CHM 218	Principles Chemistry II and Principles of Chem Lab II	5
PHY 201 & PHY 202	College Physics I and General Physics I Laboratory	4
GLY 200	The Dynamic Earth	3
GLY 210L	Earth Materials Lab	1

GLY 201 & GLY 211L	The Earth Through Time and Earth Through Time Lab	4

Major Information

- Students are strongly encouraged to select courses that meet two or more Core or College requirements. For example, a writing intensive literature course could satisfy the College of Science literature requirement as well as the Core II writing intensive requirement.
- Course offerings and course attributes are subject to change semesters. Please consult each semesters schedule of courses for availability and attributes.
- MTH 229 Calculus/Analytic Geom I (CT) is based on an ACT Mathematics score of 27 or higher. Students with an ACT Mathematics score less than 27 will be placed in the appropriate mathematics and science courses.
- The capstone experience (GLY 491 Capstone Experience) is an individualized research project or internship experience requiring a written report and an oral presentation. The capstone requirement may be met alternatively by attending geology summer field camp or by completing the capstone seminar offered each spring (GLY 492 Capstone Experience).

Areas of Emphasis

- Engineering Geology, Emphasis (p. 621)
- Environmental Geoscience, Emphasis (p. 623)

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Programs of study offered by the Department of Geology are designed for individuals seeking a career as an earth scientist. The greatest number of geologists are employed by natural resource industries. These include metallic and nonmetallic mining companies as well as petroleum, natural gas, and coal companies. New and challenging careers are also available in environmental and engineering geology. The majority of graduates in the past few years have found employment with environmental and geotechnical companies.

Four Year Plan

Programs of study offered by the Department of Geology are designed for individuals seeking a career as an earth scientist. The greatest number of geologists are employed by natural resource industries. These include metallic and nonmetallic mining companies as well as petroleum, natural gas, and coal companies. This area of specialization has its own specific curriculum and has been added to meet the increasing demand for geoscientists who are trained in the acquisition, interpretation, and use of earth materials (rock, soil, ground water) for the solution of engineering problems. The program provides geologists with specific training that will enable them to effectively interact with, and support, engineers. Its curriculum involves a heavy emphasis on math, physics, and engineering.

Major Information

- Students are strongly encouraged to select courses that meet two or more Core or College requirements. For example, a writing intensive literature course could satisfy the College of Science literature requirement as well as the Core II writing intensive requirement.
- Course offerings and course attributes are subject to change semesters. Please consult each semesters schedule of courses for availability and attributes.
- Math is based on an ACT Mathematics score of 27 or higher. Students with an ACT Mathematics score less than 27 will be placed in the appropriate mathematics and science courses.
- The capstone experience (GLY 491 Capstone Experience) is an individualized research project or internship experience requiring a written report and an oral presentation. The capstone requirement may be met alternatively by attending geology summer field camp or by completing the capstone seminar offered each spring (GLY 492 Capstone Experience).

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

Programs of study offered by the Department of Geology are designed for individuals seeking a career as an earth scientist. The greatest numbers of geologists are employed by natural resource industries. These include metallic and nonmetallic mining companies as well as petroleum, natural gas, and coal companies. This area of emphasis utilizes an interdisciplinary curriculum, which will prepare graduates for careers involving the application of geologic concepts to the solution of environmental problems.

Course	Title	Credit Hours
First Year		
First Semester		
GLY 200	The Dynamic Earth	3
GLY 210L	Earth Materials Lab	1
ENG 101	Beginning Composition	3
FYS 100	First Yr Sem Critical Thinking	3
MTH 229	Calculus/Analytic Geom I (CT)	5
UNI 100	Freshman First Class	1
	Credit Hours	**16**

Geology, Minor

A minor in Geology requires 12 hours of Geology coursework with at least a *C* average. At least 8 hours must be in courses at the 300-400 level.

Department of Mathematics

Contacts: Dr. Alfred Akinsete, Chair
Website: http://www.marshall.edu/math/

math@marshall.edu

The Department of Mathematics offers two majors, Mathematics and Statistics, leading to the Bachelor of Science degree. These majors prepare students for a vast variety of careers in the mathematical sciences and in numerous related disciplines. Graduating students will have a solid foundation that enables them to perform successfully in industry, business, government, and further studies. Graduates may pursue advanced degrees in mathematics, applied mathematics, statistics, and related areas such as engineering, actuarial science, data science, and economics. They may also prepare for secondary mathematics certification or for professional degree programs such as law and medicine.

Students with an interest in mathematics should consult sites on the internet hosted by the Mathematical Association of America (www.maa.org (http://www.maa.org)), the American Mathematical Society such as www.ams.org/employment (http://www.ams.org/employment/) and www.maa.org/students/undergrad/career.html (http://www.maa.org/students/undergrad/career.html), and the

Society of Industrial and Applied Mathematics (SIAM) at www.siam.org (http://www.siam.org). Those interested in statistics may consult the American Statistical Association website at www.amstat.org (http://www.amstat.org).

Mathematics serves as an essential tool for many other majors, and it plays an important role in the general education of all students. The Department of Mathematics at Marshall University makes every effort to help students learn valuable critical thinking and problem-solving skills.

Majors must fulfill the general and specific requirements for the B.S. degree in the College of Science except for the minor (see requirements that follow). Students should go to the College of Science Dean's Office, Science 270, in order to declare a minor or major.

Transfer Students

Transfer students must take at least 12 hours of 300/400 level coursework in the College of Science and at least 15 hours in their major field, including at least nine hours of 300-400 level coursework at Marshall University.

General Education and Placement

The American College Test (ACT) score in Mathematics (or equivalent SAT) is utilized for the placement of students. Relevant information regarding such placement is included under prerequisites in the Courses of Instruction. Students wishing to challenge their placement in a mathematics course may do so by taking the Accuplacer Placement Exam administered by University College.

Students with prior credit for any college algebra course (i.e., MTH 127 College Algebra-Expanded, MTH 130 College Algebra, or MTH 132 Precalculus with Sci Applica) may not receive credit for any other of these courses.

A student enrolled at Marshall may receive credit for certain courses in mathematics by successfully completing the appropriate examination of the College Level Examination Program (CLEP).

Advanced placement in mathematics is granted on the basis of Educational Testing Service Advanced Placement Test scores.

On the Calculus AB Examination:

- A score of 3 on AB provides students credit for MTH 132 Precalculus with Sci Applica.
- A score of 4 or 5 on AB provides students credit for MTH 130 College Algebra and MTH 229 Calculus/Analytic Geom I (CT).

On the Calculus BC examination:

- A score of 3 on BC provides credit for MTH 229 Calculus/Analytic Geom I (CT).
- A score of 4 or 5 on BC provides credit for MTH 229 Calculus/Analytic Geom I (CT) and MTH 230 Calculus/Analytic Geom II.

Programs

- Mathematics, B.S. (p. 630)
- Mathematics, Minor (p. 632)
- Mathematics, Teacher Certification (p. 632)
- Statistics, B.S. (p. 632)
- Statistics, Minor (p. 633)

Courses

- General Education Course

Mathematics

MTH 102 Prep for College Math B **4 Credit hours**
A mastery-based course that will prepare students for college algebra.
Grade Mode: Normal Grading Mode

MTH 102B Abr Prep for College Math B **1 Credit hour**
An abridged mastery-based course that will prepare students for College Algebra.
Pre-req: MTH 098 with a minimum grade of CR or MTH 100 or MTH 121B or MTH 121 or Placement Math After SP17 with a score of 100.
Grade Mode: Normal Grading Mode

MTH 121 Concepts and Applications (CT) **3 Credit hours**
Critical thinking course for non-science majors that develops quantitative reasoning skills. Topics include logical thinking, problem-solving, linear modeling, beginning statistics and probability, exponential and logarithmic models, formula use, and financial concepts. Critical thinking course for non-science majors that develops quantitative reasoning skills. Topics include logical thinking, problem-solving, linear modeling, beginning statistics and probability, exponential and logarithmic models, formula use, and financial concepts.
Pre-req: ACT Math with a score of 19 or SAT Mathematics Before Mar. 16 with a score of 460 or MTH 0XX or Placement Math with a score of 100 or Placement Math After SP17 with a score of 101 or Placement Math SP20 with a score of 241 or Math Workshop-UC with a score of 100 or WMTH 002 with a minimum grade of C or MTH 099 with a minimum grade of CR or MTH 102 with a minimum grade of C or MTH 100 with a minimum grade of C or MTH 102B with a minimum grade of C or SAT MATH SECTION SCORE with a score of 510.
Attributes: Critical Thinking, Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 121B Cncpts & Apps-Expanded (CT) **4 Credit hours**
Critical thinking course for non-science majors that develops quantitative reasoning skills. Topics include logical thinking, linear modeling, statistics and probability, exponential and logarithmic modeling, and financial concepts, with arithmetic review.
Attributes: Critical Thinking, Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 121H Concepts and Applications **3 Credit hours**
Pre-req: ACT Math with a score of 23 or SAT Mathematics Before Mar. 16 with a score of 540.
Attributes: Honors
Grade Mode: Normal Grading Mode

MTH 122 Plane Trigonometry **3 Credit hours**
Definitions of circular functions; graphs of the trigonometric functions, trigonometric identities, and applications.
Pre-req: ACT Math with a score of 22 or SAT Mathematics Before Mar. 16 with a score of 520 or SAT MATH SECTION SCORE with a score of 540 or Placement Math After SP17 with a score of 103 or Placement Math SP20 with a score of 257 or MTH 127 with a minimum grade of C or MTH 130 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: MTH 130
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 127 College Algebra-Expanded **5 Credit hours**
A brief but careful review of the main techniques of algebra. Polynomials, rational, exponential, and logarithmic functions. Graphs, equations and inequalities, sequences.
Pre-req: ACT Math with a score of 17 or SAT Mathematics Before Mar. 16 with a score of 400 or SAT MATH SECTION SCORE with a score of 460 or Placement Math After SP17 with a score of 101 or Placement Math SP20 with a score of 237 or MTH 0XX or Placement Math with a score of 100 or Math Workshop-UC with a score of 100 or WMTH 002 or MTH 099 with a minimum grade of CR or MTH 102 with a minimum grade of C or MTH 102B with a minimum grade of C.
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 130 College Algebra **3 Credit hours**
Polynomial, rational, exponential, and logarithmic functions. Graphs, equations and inequalities, sequences.
Pre-req: ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530 or Placement Math After SP17 with a score of 102 or Placement Math SP20 with a score of 250.
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 132 Precalculus with Sci Applica **5 Credit hours**
Functions used in calculus including polynomial, rational, exponential, logarithmic, and trigonometric. Systems of equations and inequalities, conic sections, polar and parametric equations, sequences and series, Binomial Theorem. Functions used in calculus including polynomial, rational, exponential, logarithmic, and trigonometric. Systems of equations and inequalities, conic sections, polar and parametric equations, sequences and series, Binomial Theorem.
Pre-req: ACT Math with a score of 24 or SAT Mathematics Before Mar. 16 with a score of 560 or SAT MATH SECTION SCORE with a score of 570 or Placement Math After SP17 with a score of 104 or Placement Math SP20 with a score of 263 or MTH 127 with a minimum grade of C or MTH 130 with a minimum grade of C.
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 140 Applied Calculus **3 Credit hours**
A brief survey of calculus including both differentiation and integration with applications.
Pre-req: ACT Math with a score of 24 or SAT Mathematics Before Mar. 16 with a score of 560 or SAT MATH SECTION SCORE with a score of 570 or Placement Math After SP17 with a score of 104 or Placement Math SP20 with a score of 263 or MTH 127 with a minimum grade of C or MTH 130E with a minimum grade of C or MTH 130 with a minimum grade of C or MTH 130H with a minimum grade of C or MTH 132 with a minimum grade of C.
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 140H Applied Calculus Honors **3 Credit hours**
A brief survey of calculus including both differentiation and integration with applications. This honors course will also introduce topics from differential equations with applications.
Pre-req: ACT Math with a score of 24 or SAT Mathematics Before Mar. 16 with a score of 560 or SAT MATH SECTION SCORE with a score of 570.
Attributes: Honors, Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 160 Applied Math Reasoning (CT) **5 Credit hours**
A critical thinking course in applied mathematical reasoning. Topics include logic, problem solving, linear modeling, beginning statistics and probability, exponential and logarithmic modeling, formula use.
Pre-req: SAT Mathematics Before Mar. 16 with a score of 400 or ACT Math with a score of 17 or SAT MATH SECTION SCORE with a score of 460 or Placement Math After SP17 with a score of 101 or Placement Math SP20 with a score of 237 or MTH 099 with a minimum grade of CR or MTH 102 with a minimum grade of C or MTH 102B with a minimum grade of C or MTH 127 with a minimum grade of C.
Attributes: Critical Thinking, Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 220 Discrete Structures **3 Credit hours**
Sets, relations, directed and undirected graphs, monoids, groups, lattices, Boolean algebra, and propositional logic.
Pre-req: ACT Math with a score of 27 or SAT Mathematics Before Mar. 16 with a score of 610 or SAT MATH SECTION SCORE with a score of 630 or Placement Math After SP17 with a score of 105 or Placement Math SP20 with a score of 276 or MTH 132 with a minimum grade of C or MTH 140 with a minimum grade of C or MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C.
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 229 Calculus/Analytic Geom I (CT) **5 Credit hours**
An introduction to calculus and analytic geometry, emphasizing critical thinking. Limits, derivatives, and integrals of the elementary functions of one variable, including transcendental functions.
Pre-req: ACT Math with a score of 27 or SAT Mathematics Before Mar. 16 with a score of 610 or SAT MATH SECTION SCORE with a score of 630 or Placement Math After SP17 with a score of 105 or Placement Math SP20 with a score of 276 or MTH 132 with a minimum grade of C.
Attributes: Critical Thinking, Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 229H Calculus I Honors (CT) **5 Credit hours**
An introduction to calculus and analytic geometry for honors students, emphasizing critical thinking. Limits, derivatives, and integrals of the elementary functions of one variable, including transcendental functions.
Pre-req: ACT Math with a score of 27 or SAT Mathematics Before Mar. 16 with a score of 610 or SAT MATH SECTION SCORE with a score of 630.
Attributes: Critical Thinking, Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 230 Calculus/Analytic Geom II **4 Credit hours**
A study of the conics and transcendental functions, techniques of integration, improper integrals, indeterminate forms and infinite series.
Pre-req: MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C.
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 231 Calculus/Analytic Geom III **4 Credit hours**
Analytic geometry of two and three dimensions, partial differentiation, and multiple integrals. Analytic geometry of two and three dimensions, partial dif- ferentiation, and multiple integrals.
Pre-req: MTH 230 with a minimum grade of C.
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 300 Intro to Higher Math **4 Credit hours**
A transition between elementary calculus and higher mathematics with emphasis on techniques of proofs.
Pre-req: MTH 230 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 329 Elementary Linear Algebra **3 Credit hours**
Systems of linear equations, matrices and determinants, vector spaces, linear transformations, eigenvalues, eigenvectors, and applications. Systems of linear equations, matrices and determinants, vector spaces, linear transformations, eigenvalues, eigenvectors, and applications.
Pre-req: MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 331 Linear Algebra **4 Credit hours**
Vector spaces, matrices and determinants, linear transformations, eigenvalues and eigenvectors, and applications.
Pre-req: MTH 300 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: MTH 300
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 335 Ordinary Diff Equations **3 Credit hours**
A study of differential equations, their solutions, and applications to physical systems, emphasizing closed-form solving methods. Laplace transforms, orthogonal functions, approximation and numerical methods with applications.
Pre-req: MTH 230 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 360 Intro to Complex Variables **3 Credit hours**
An introductory survey of complex numbers, analytic functions, properties of elementary functions, integrals, series, residues and poles, with a focus on practical applications.
Pre-req: MTH 231 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 361 Vector Calculus **3 Credit hours**
A course in n-dimensional calculus: the derivative, the integral, and applications. Coordinate-free methods are emphasized.
Pre-req: MTH 231 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 400 Structure of Algebra **3 Credit hours**
Emphasis on the language of Modern Elementary Algebra. Recommended for pre-service elementary teachers and for elementary and secondary in-service teachers. May not be used for either a degree offered by the Department of Mathematics or for a 7-9 or 7-12 mathematics specialization. Emphasis on the language of Modern Elementary Algebra. Recommended for pre-service elementary teachers and for elementary and secondary in-service teachers. May not be used for either a degree offered by the Department of Mathematics or for a 7-9 or 7-12 mathematics specialization.
Pre-req: MTH 130 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 401 Structure Modern Geometry **3 Credit hours**
Informal development of geometry. Recommended for preservice elementary teachers and for elementary and secondary inservice teachers. May not be used for either a degree offered by the Department of Mathematics or for a 7-9 or 7-12 mathematics specialization.
Pre-req: MTH 130 with a minimum grade of C or MTH 127 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 404 Math Methods and Materials **3 Credit hours**
Content and content-specific pedagogy for secondary mathematics education majors. Content and content-specific pedagogy for secondary mathematics education majors.
Pre-req: Admitted to Teacher ED with a score of 5.
Co-req: CI 470
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 405 History of Mathematics **3 Credit hours**
A study of the history of mathematics from the time of the ancient Greeks to the end of the nineteenth century. A study of the history of mathematics from the time of the ancient Greeks to the end of the nineteenth century.
Pre-req: MTH 300 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 411 Mathematical Modeling **3 Credit hours**
Students work in teams to construct mathematical models of various real-world situations. Problems to be modeled are drawn from diverse areas of application and use a wide range of undergraduate mathematics. Students work in teams to construct mathematical models of various real-world situations. Problems to be modeled are drawn from diverse areas of application and use a wide range of undergraduate mathematics.
Pre-req: MTH 231 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 415 Partial Differential Equations **3 Credit hours**
Differential equations. Heat Equation, Laplace's Equation, separation of variables, Fourier series, vibrating strings, eigenvalue problems, finite differences, Bessel functions, Legendre polynomials. Differential equations. Heat Equation, Laplace's Equation, separation of variables, Fourier series, vibrating strings, eigenvalue problems, finite differences, Bessel functions, Legendre polynomials.
Pre-req: MTH 331 with a minimum grade of C and MTH 335 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 416 Advanced Differential Equation **3 Credit hours**
Differential equations are studied qualitatively. Topics include the existence and uniqueness of solutions and the behavior of solutions including stability of nonlinear systems, periodic solutions, and approximation using pertubation methods. Differential equations are studied qualitatively. Topics include the existence and uniqueness of solutions and the behavior of solutions including stability of nonlinear systems, periodic solutions, and approximation using pertubation methods.
Pre-req: MTH 300 and MTH 335.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 427 Advanced Calculus I **3 Credit hours**
The number system, limits, sequences, partial differentiation with applications, maxima and minima of functions of several variables. Theory of definite integrals, multiple integrals, line and surface integrals, improper integrals, infinite series.
Pre-req: MTH 231 with a minimum grade of C and MTH 300 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 428 Advanced Calculus II **3 Credit hours**
The number system, limits, sequences, partial differentiation with applications, maxima and minima of functions of several variables. Theory of definite integrals, multiple integrals, line and surface integrals, improper integrals, infinite series.
Pre-req: MTH 427 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 430 Topology I **3 Credit hours**
First course in topology. Basics of point-set topology: metric and topological spaces, continuity, connectedness, compactness, products, quotients. Surfaces and simplicial complexes, Euler characteristics.
Pre-req: MTH 300 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 431 Topology II **3 Credit hours**
First course in algebraic topology. Homotopy, fundamental group, simplicial homology.
Pre-req: MTH 430 with a minimum grade of C and MTH 450 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 440 Graph Th and Combinatorics **3 Credit hours**
This course is designed to introduce students in mathematical sciences to the theorems, techniques, and applications of graph theory and combinatorics. This course is designed to introduce students in mathematical sciences to the theorems, techniques, and applications of graph theory and combinatorics.
Pre-req: MTH 300 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 442 Numerical Linear Algebra **3 Credit hours**
Direct and iterative methods for numerical solution of linear systems of equations. Eigenvalues and eigenvectors. Error Analysis and norms. Related topics.
Pre-req: MTH 331 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 443 Numerical Analysis **3 Credit hours**
The theory and technique of numerical computation involving the difference calculus, the summation calculus, interpolation methods, solution of systems of equations, and methods of solution of ordinary differential equations.
Pre-req: MTH 331 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 448 Modern Geometries **3 Credit hours**
Finite geometrics, basic background material for the modern development of Euclidean Geometry, other geometries. Finite geometrics, basic background material for the modern development of Euclidean Geometry, other geometries.
Pre-req: MTH 300 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 449 Projective Geometry **3 Credit hours**
Projective Geometry using both synthetic and algebraic methods. Projective Geometry using both synthetic and algebraic methods.
Pre-req: MTH 300 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 450 Modern Algebra I **3 Credit hours**
Structure of the abstract mathematical systems; groups, rings, fields, with illustrations and applications from number theory.
Pre-req: MTH 300 with a minimum grade of C and MTH 331 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: MTH 331
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 452 Modern Algebra II **3 Credit hours**
Continuation of MTH 450.
Pre-req: MTH 450 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 455 Number Theory **3 Credit hours**
A survey of some basic properties of the integers: divisibility (prime numbers, factorization, perfect numbers), congruences (modular arithmetic, linear and quadratic congruences, the Chinese Remainder Theorem), and Diophantine equations.
Pre-req: MTH 300 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MTH 480 Special Topics **1-4 Credit hours**
Attributes: Mathematics, No Textbook Required
Grade Mode: Normal Grading Mode

MTH 485 Independent Study **1-4 Credit hours**
Attributes: Mathematics, No Textbook Required
Grade Mode: Normal Grading Mode

MTH 490 Internship in Mathematics **2-12 Credit hours**
A supervised internship in an area of mathematics, applied mathematics, or statistics. By permission only.
Pre-req: MTH 300 with a minimum grade of C.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

MTH 491 Senior Seminar **2 Credit hours**
Capstone experience in reading, doing writing and speaking mathematics. Student will explore topics related to a theme chosen by the instructor.
Pre-req: MTH 300 with a minimum grade of C.
Attributes: Capstone Course, Mathematics
Grade Mode: Normal Grading Mode

Statistics

STA 150 Foundations of Statistics **3 Credit hours**
A critical thinking course on the basic foundation of Statistics for non-majors, allowing them to better prepare, develop and harness discipline-specific skills.
Pre-req: (ACT Math with a score of 17 or SAT MATH SECTION SCORE with a score of 460 or SAT Mathematics Before Mar. 16 with a score of 400 or Placement Math SP20 with a score of 237) and STA 150L (may be taken concurrently) with a minimum grade of D.
Concurrent PR: STA 150L
Attributes: Core II Mathematics, Statistics
Grade Mode: Normal Grading Mode

STA 150B Foundations of Stats-Expanded **4 Credit hours**
A critical thinking course on the basic foundation of Statistics for non-majors with algebra review, allowing them to better prepare, develop and harness discipline-specific skills.
Pre-req: STA 150L (may be taken concurrently) with a minimum grade of D.
Concurrent PR: STA 150L
Attributes: Core II Mathematics, Statistics
Grade Mode: Normal Grading Mode

STA 150L Foundations of Statistics Lab **1 Credit hour**
A lab to provide training in using the SPSS software in Foundations of Statistics for non-majors.
Pre-req: STA 150 (may be taken concurrently) with a minimum grade of D or STA 150B (may be taken concurrently) with a minimum grade of D.
Concurrent PR: STA 150 or STA 150B
Attributes: Core II Mathematics, Statistics
Grade Mode: Normal Grading Mode

STA 225 Introductory Statistics (CT) **3 Credit hours**
A critical thinking course in applied statistical reasoning covering basic probability, descriptive statistics and fundamental statistical inference procedures. Parameter estimation and hypothesis testing for variety of situations with wide applications.
Pre-req: ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530 or Placement Math After SP17 with a score of 102 or MTH 121 with a minimum grade of C or MTH 123 with a minimum grade of C or MTH 127 with a minimum grade of C or MTH 130E with a minimum grade of C or MTH 122 with a minimum grade of C or MTH 130 with a minimum grade of C or MTH 121B with a minimum grade of C.
Attributes: Critical Thinking, Core II Mathematics, Statistics
Grade Mode: Normal Grading Mode

STA 326 Applied Statistical Methods **3 Credit hours**
Use of statistical packages; introduction to descriptive, probability and sampling distributions; forecasting, inferences concerning one and two samples; simple and multiple regression, analysis of variance and covariance.
Pre-req: STA 225 with a minimum grade of C or MTH 229 with a minimum grade of C or STA 150 with a minimum grade of C or STA 150B with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 345 Applied Prob and Stat **3 Credit hours**
Statistical methods in scientific/engineering research, with emphasis on applications. Probability modeling, experimental design/survey sampling, estimation/hypothesis testing procedures, regression, ANOVA/factor analysis. Implementation using statistical software such as Excel/SAS.
Pre-req: MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 412 Regression Analysis **3 Credit hours**
Determining regression models; deriving parameter estimates using calculus; detailed coverage of tests of assumptions and remedial procedures (transformations and weithted least-squares); multiple and polynomial regression; tests and corrections for autocorrelation.
Pre-req: STA 445 with a minimum grade of C or MTH 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 413 Experimental Designs **3 Credit hours**
Analysis of variance an covariance models with derivations using calculus; detailed testing of model assumptions and remedial measures (as transformations) to yield adequate models; use of various statistical designs.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 420 Nonparametric Statistics **3 Credit hours**
Coverage of a variety of nonparametric or distribution-free methods for practical statistical inference problems in hypothesis testing and estimation, including rank procedures and randomization procedures.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 422 Time Series Forecasting **3 Credit hours**
Finding statistical models to represent various time dependent phenomena and processes; coverage of a variety of forecasting techniques, with an emphasis on adaptive, regression, and Box-Jenkins procedures.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 425 Sampling Designs & Estimation **3 Credit hours**
Coverage of the theory and applications of a variety of sampling designs; sample size determination; ratio and regression estimates; comparisions among the designs.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 435 Statistical Data Mining **3 Credit hours**
Introduction to statistical learning techniques for analyzing high dimensional data. Topics include data mining strategy, explanatory analysis, predictive modeling techniques and model assessment.
Pre-req: STA 345 with a minimum grade of C or STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 445 Probability & Statistics I **3 Credit hours**
Probability spaces, conditional probability, and applications. Random variables, distributions, expectation, and moments.
Pre-req: MTH 230 with a minimum grade of C and MTH 231 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: MTH 231
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 446 Probability & Statistics II **3 Credit hours**
Statistical inference: estimation of parameters, tests of hypotheses. Regression, analysis of variance.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 464 Statistical Computing **3 Credit hours**
Introduction to the commonly used statistical computing techniques, procedures and methods, with extensive use of R language and environment, and SAS for statistical computing and graphics.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 466 Stochastic Processes **3 Credit hours**
Review of probability theory. Topics include stationary processes, discrete and continuous time Markov chains, Markovian queuing systems, random walks, renewal processes, Brownian motion and Markov Chain Monte Carlo.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 470 Applied Survival Analysis **3 Credit hours**
Survival and hazard functions, parametric and non-parametric methods, models and inferences for survival data, and regression diagnosis.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 480 Special Topics **1-4 Credit hours**
Courses on special topics in statistics not listed among the current offerings.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 485 Independent Study **1-4 Credit hours**
A faculty, supervised, indvidualized course of study of a topic in statistics.
Attributes: Statistics
Grade Mode: Normal Grading Mode

Faculty

Professors
Adkins, Akinsete, Aluthge, Brooks, Carlton, Lawrence, Mitchell, Mummert, Sarra, Saveliev

Associate Professors
Horwitz, Karna, Mallick, Niese, Schroeder

Assistant Professors
A. Al-Aqtash, R. Al-Aqtash, Elkadry, Jung, Miller-Mace, Stapleton

Instructors
Crytzer, Johnson, Mace, Marsh, Subedi, Wright

Mathematics, B.S.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours

Major Information

- Students who double-major in both Mathematics and Statistics may have an opportunity to double-count electives toward the respective majors. Please contact the director of undergraduate studies in the Mathematics department for more details.
- Please check with advisor about course offerings. Not all classes will be offered every semester.
- Forty (40) hours must be earned in courses numbered 300-499.

Four Year Plan

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Mathematics, Minor

The Department of Mathematics offers a minor in mathematics available to all students at Marshall University. Students choosing this minor will find expanded job opportunities in business, education, government, and industry.

This minor can be helpful to students in pre-professional programs in the health sciences. A solid grounding in the fundamentals of mathematics is needed in order to perform satisfactorily on aptitude examinations that must be taken prior to admission to a professional school. This minor can be used as an important component of a student's preparation for admission to law school.

The Department of Mathematics will award a minor in mathematics to every student who completes the following four courses, with at least a 2.0 grade point average and with at least two of the courses taken at Marshall University:

Code	Title	Credit Hours
MTH 229	Calculus/Analytic Geom I (CT)	5
MTH 230	Calculus/Analytic Geom II	4
MTH 300	Intro to Higher Math	4
Select one of the following:		3-4
MTH 231	Calculus/Analytic Geom III	
MTH 329	Elementary Linear Algebra	
MTH 331	Linear Algebra	
Math Advisor approved elective		
Total Credit Hours		**16-17**

Mathematics, Teacher Certification

Students interested in pursuing teaching certification in mathematics should visit the main office of the College of Education and Professional Development. Students who plan to complete a 5-Adult certification are encouraged to consult with the director of undergraduate studies in the Mathematics department about a second major in Mathematics.

Statistics, B.S.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Marshall University Department of Mathematics prepare students for careers in the mathematical sciences and related disciplines. Graduates of our mathematics programs have had successful careers in government and industry. Our graduates have also earned advanced degrees in mathematics, statistics, engineering, and economics. Our degree programs may also be used to prepare for secondary mathematics certification and for professions such as law or medicine. The department has a dynamic and engaged faculty who focus both on excellent teaching and on many areas of mathematical research.

Statistics, Minor

The Department of Mathematics offers a minor in statistics available to all students at Marshall University. Students who completed a minor in statistics must have a demonstrated knowledge and understanding of statistical techniques and methodologies, working with real data, and understanding of data analysis with job opportunities in business, government, industry and health sectors. The minor provides a window of opportunities for further study in statistical sciences. Students with a statistics minor may be eligible to pursue further degree programs in statistical sciences. The minor in statistics is not to be taken by students pursuing any degree majors in mathematics

department. Students pursuing a minor in statistics must complete the General Education requirements at Marshall and in addition, the requirements for their major degree option(s).

The requirements for an undergraduate Minor in Statistics consist of a total of 16 credit hours. The student must have at least a 2.0 grade point average, and a grade of *C* or better in the required core courses (10 credit hours), and two additional courses (6 credit hours) chosen with permission from the list of elective courses. At least 9 credit hours of the required 16 credit hours must be taken at Marshall University.

Code	Title	Credit Hours
Core Required Courses

STA 464	Statistical Computing	
STA 466	Stochastic Processes	
STA 470	Applied Survival Analysis	
Total Credit Hours		**16**

Department of Natural Resources and the Environment

Contacts: Dr. Thomas G. Jones, Chair, jonest@marshall.edu

Man's interaction with the environment is the focus of the Department of Natural Resources and the Environment (NRE) as we seek to prepare students for careers or advanced studies in management, conservation, protection, regulation, and restoration of natural resources. Integration of the human dimensions of resource use with conservation and management forms the foundation of the Natural Resources and Recreation Management Program. Environmental Science merges concepts in geology, ecology, biology, chemistry and physics to provide students with a strong science foundation which forms the basis for understanding of environmental issues. All programs incorporate technology such as geographic information systems, remote sensing, and discipline specific instrumentation to provide students with state-of-the-art educational experiences so they move confidently on to future endeavors. Additionally, all programs integrate understanding of laws and regulations relevant to aspects of conservation, protection, and management of natural resources preparing students for decision making in our modern world.

Programs

- Environmental Science, B.S. (p. 638)
- Environmental Science, Minor (p. 643)
- Natural Resources and Recreation Management, B.S. (p. 644)
- Natural Resources and Recreation Management, Minor (p. 645)
- Specialty Agriculture, B.S. (p. 645)

Courses

- General Education Course

Natural Resources and Environment

NRE 111 Living Systems **4 Credit hours**
This course is designed to equip students to observe and create their own questions, test them, and continue the process of scientific inquiry related to living systems.
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

NRE 120 Discussion in Environ Sci (CT) **3 Credit hours**
Critical thinking course designed to examine and explore issues in environmental science including protection of terrestrial and aquatic resources and production of energy and food for a growing population.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

NRE 200 Introduction to Agriculture **3 Credit hours**
This course will discuss scientific concepts essential to agriscience and examine practices, careers, and new directions in various fields in agriculture.
Grade Mode: Normal Grading Mode

NRE 212 Energy **3 Credit hours**
The course introduces the students to the properties and the interfaces of biological and physical systems with emphasis on energy concepts, production and distribution in both systems.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

NRE 220 Human Dimensions Nat Res (CT) **3 Credit hours**
This course provides an overview of human-nature relationship from the perspective of conservation and natural resource management.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

NRE 280 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 281 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 282 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 283 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 285 Independent Study **1-4 Credit hours**
Independent study for selected sophomores or advanced freshman under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

NRE 286 Independent Study **1-4 Credit hours**
Independent study for selected sophomores or advanced freshman under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

NRE 287 Independent Study **1-4 Credit hours**
Independent study for selected sophomores or advanced freshman under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

NRE 288 Independent Study **1-4 Credit hours**
Independent study for selected sophomores or advanced freshman under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

NRE 300 Principles of Soil Science **3 Credit hours**
This course will examine the principles of soils, including origin, composition, classification, and physical, chemical, and biological properties and processes, as well as agricultural and environmental applications.
Pre-req: CHM 212 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 301 Principles of Soil Science Lab **2 Credit hours**
A laboratory course that demonstrates the application of concepts introduced in NRE 300 Principles of Soil Science.
Pre-req: NRE 300 (may be taken concurrently) with a minimum grade of D and CHM 212 with a minimum grade of D.
Concurrent PR: NRE 300
Grade Mode: Normal Grading Mode

NRE 302 Animal Production **3 Credit hours**
This course will examine the principles of animal production through the application of anatomy, physiology, behavior, nutrition, reproduction, breeding, and genetics in the production and management of farm animals.
Pre-req: BSC 121 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 320 Nature Enviro Problems **3 Credit hours**
The effects of human activity on ecological, political, economic, and cultural systems are examined. Particular attention is given to present human population growth, industrial activities, and energy availability.
Grade Mode: Normal Grading Mode

NRE 321 Resol Environ Problems **3 Credit hours**
Students examine case studies of current environmental problems and propose methods of remediation. Cultural, political, economic, as well as ecological and physiographic factors are considered.
Grade Mode: Normal Grading Mode

NRE 322 Assess I: Terrestrial Systems **4 Credit hours**
Use of scientific procedure and current technology to characterize and quantify sensitive elements of terrestrial ecosystems and to assess human impact on these systems.
Pre-req: (IST 111 with a minimum grade of D or NRE 111 with a minimum grade of D) or BSC 104 with a minimum grade of D or BSC 120 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 323 Assessment II: Aquatic Ecology **4 Credit hours**
Use of scientific procedures and current technology to characterize and quantify sensitive elements of aquatic ecosystems and to assess human impact on these systems.
Pre-req: IST 111 or NRE 111 or BSC 104 or BSC 120.
Grade Mode: Normal Grading Mode

NRE 400 Soil Fertility/Plant Nutrition **4 Credit hours**
This course will examine properties of soil fertility, its relationship to plan nutrition, and practices in nutrient management and fertilizer application.
Pre-req: BSC 121 with a minimum grade of D and NRE 300 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 401 Horticulture **4 Credit hours**
This course will examine the principles and practices in horticulture and apply these practices through a semester service project.
Pre-req: BSC 121 with a minimum grade of D and NRE 310 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 402 Sustainable Agriculture **3 Credit hours**
This course will examine the principles of sustainable agriculture and its relationship with natural resources while identifying challenges to agricultural sustainability and frontiers in the field.
Pre-req: NRE 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 403 Agricultural Entomology **4 Credit hours**
Globally, insects have tremendous impacts on agriculture. This course introduces students to insects and their roles in agriculture including integrated pest management and pollination ecology.
Pre-req: BSC 121 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 423 GIS and Data Systems **3 Credit hours**
Course focuses on the relationships among the scientific method, data structures, and geographic images. Students relate hypothesis formation and databases through the development of ARCMap documents.
Grade Mode: Normal Grading Mode

NRE 425 Water Policy and Regulations **3 Credit hours**
Examination of how aquatic resources are protected for humans and species of concern by current regulatory framework.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

NRE 431 Aquatic Toxicology **4 Credit hours**
This course will introduce students to the principles of aquatic toxicology including regulations driving biological criteria, development of laboratory toxicity testing and test methodology.
Pre-req: BSC 105 with a minimum grade of D or BSC 121 with a minimum grade of D or IST 323 with a minimum grade of D or NRE 323 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 435 Biomonitoring **4 Credit hours**
Biomonitoring is the use of organisms to assess habitat and water quality of a stream. Current aquatic biomonitoring focuses on the utilization of benthic invertebrates and fishes communities.
Pre-req: BSC 120 with a minimum grade of D or IST 323 with a minimum grade of D or NRE 323 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 470 ES Internship **3 Credit hours**
A supervised internship in an area of natural resources and the environment.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

NRE 480 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 481 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 482 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 483 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 485 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

NRE 486 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

NRE 487 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

NRE 488 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

NRE 490 ES/NRRM Capstone Prep **3 Credit hours**
Prepares students for the senior project, internship experience, and for careers beyond graduation. Life skills are introduced by building on communication, organization, and project management skills (capstone).
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

NRE 491 ES Senior Capstone **3 Credit hours**
Students develop and complete a research project under the direction of a faculty member in the NRE department (capstone).
Pre-req: NRE 490 with a minimum grade of D.
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

NRE 531 Aqua Toxicology **4 Credit hours**
This course will introduce students to the principles of aquatic toxicology including regulations driving biological criteria, development of laboratory toxicity testing and test methodology.
Grade Mode: Normal Grading Mode

NRE 670 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

NRE 671 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

NRE 672 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

NRE 673 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

NRE 680 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses.
Grade Mode: Normal Grading Mode

NRE 681 Thesis **1-8 Credit hours**
Thesis
Grade Mode: Normal Grading Mode

Natural Resource Recreation Management

NRRM 101 Intro Natural Res & Rec Mgmt **3 Credit hours**
An orientation to the profession and its settings, emphasizing history, trends, concepts, and relationships to other fields.
Grade Mode: Normal Grading Mode

NRRM 110 Outdoor Leadership: Canoeing **1 Credit hour**
This course is designed to give students the skills essential for the pursuit of employment in guiding participants on flat-water canoe courses in backcountry settings.
Grade Mode: Normal Grading Mode

NRRM 111 Outdoor Leadership: Fly Fish **1 Credit hour**
This course is designed to give students the skills essential for the pursuit of being able to guide participants on fly fishing excursions in the backcountry.
Grade Mode: Normal Grading Mode

NRRM 112 Outdoor Leadership: Bass Fish **1 Credit hour**
This course is designed to give students the skills essential to pursue employment as a guide on bass fishing excursions in the backcountry.
Grade Mode: Normal Grading Mode

NRRM 113 Outdoor Leadership: Backpack **1 Credit hour**
This course is designed to give students the foundation skills essential in the pursuit of being leading participants on backcountry backpacking experiences. Leave No Trace ethics will be taught.
Grade Mode: Normal Grading Mode

NRRM 156 Bicycling **1 Credit hour**
Grade Mode: Normal Grading Mode

NRRM 158 Downhill Skiing **1 Credit hour**
Grade Mode: Normal Grading Mode

NRRM 200 Analytical Methods: Statistics **4 Credit hours**
Students develop an understanding of statistical reasoning through the use of software to generate, summarize, and draw conclusions from data. Course enhances statistical technique dexterity through analysis of applied problems.
Grade Mode: Normal Grading Mode

NRRM 201 Recreational Activities **3 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 231 Nature Study **3 Credit hours**
Designed to provide students with the fundamental understanding of and for the delivery of nature based educational programs offered through an experiential framework.
Grade Mode: Normal Grading Mode

NRRM 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 301 Intro to Outdoor Recreation **3 Credit hours**
Organization, administration, and delivery of outdoor recreation activities and resources. Emphasis upon federal, state, and local government programs and areas.
Grade Mode: Normal Grading Mode

NRRM 310 Environmental Interpretation **3 Credit hours**
Principles and techniques of environmental interpretation as practiced in federal, state, and private agencies.
Grade Mode: Normal Grading Mode

NRRM 311 Intro to Environmental Educ **3 Credit hours**
This course is the study of environmental education, its foundations, emergence in the 1960's, its evolution, the systems approach to it, and the application of it in the field.
Grade Mode: Normal Grading Mode

NRRM 320 Sports & Campus Rec Mgmt **3 Credit hours**
This course will deal with the fields of recreational sports and campus recreation management. It will present the foundations of both fields, the development, implementation, and trends in today's programs.
Grade Mode: Normal Grading Mode

NRRM 330 Concepts Philosophies in NRRM **3 Credit hours**
A systematic approach to the concepts and philosophies for managing wildland, wilderness, and protected areas.
Grade Mode: Normal Grading Mode

NRRM 340 Special Event Managment **3 Credit hours**
This course will study the processes for event facilitation. Special attention will be given to the roles and skills utilized by a variety of recreation managers.
Grade Mode: Normal Grading Mode

NRRM 350 Adventure Education Leadership **3 Credit hours**
This course focuses on preparing students to be outdoor adventure education leaders, facilitating programs in both the front and back country utilizing adventure education techniques in an outdoor setting.
Grade Mode: Normal Grading Mode

NRRM 360 Tourism Planning & Management **3 Credit hours**
The course will examine the critical issues addressed by tourism planning and management, which are the positive and negative influences of tourism on the destination's economy, society, culture, and environment.
Grade Mode: Normal Grading Mode

NRRM 361 Visitor Behavior in NRRM **3 Credit hours**
This course provides an overview and analysis of individual and group behavior as it pertains to consumer activity in the context of recreation and tourism resource environments.
Grade Mode: Normal Grading Mode

NRRM 362 Ecotourism: Admin and Mgmt **3 Credit hours**
This course will examine the theoretical foundations, applications and best management practices in ecotourism. Other minor topics include: sustainability, nature-based and adventure tourism; sociocultural, environmental, and economic impacts of ecotourism.
Grade Mode: Normal Grading Mode

NRRM 380 Rec Resource Oper. and Admin **3 Credit hours**
Focused on the management, operation, and administration practices of recreation resource areas. Includes supervision of personnel, budgeting, and public relations for a variety of park and public land organizational structures.
Grade Mode: Normal Grading Mode

NRRM 400 Leisure & Aging **3 Credit hours**
A course presenting an overview of leisure services for the elderly. Topics include research results, theories, and modern day trends. A wellness model will be included.
Grade Mode: Normal Grading Mode

NRRM 402 Research Eval & Assess in NRRM **3 Credit hours**
Theoretical & practical approach to research, evaluation and assessment of the social sciences of natural resources and recreational management.
Grade Mode: Normal Grading Mode

NRRM 405 Park & Recreation Ecology **3 Credit hours**
The course is designed to help students identify and evaluate the level of resource impact, understand factors that cause impacts, and suggest management actions to minimize impacts under given conditions.
Grade Mode: Normal Grading Mode

NRRM 410 Maint of Nat Res & Rec **3 Credit hours**
A study of the knowledge and skills necessary to supervise and administer the general development and maintenance of park and recreation areas and facilities.
Grade Mode: Normal Grading Mode

NRRM 411 Rec Resource Planning & Design **3 Credit hours**
Basic considerations in the planning and design of natural areas, parks, forests, recreation, and sport area infrastructure, facilities and associated amenities.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

NRRM 432 Wilderness/Protected Area Mgmt **3 Credit hours**
This course will examine the historic and current philosophies of wilderness and protected area management as applicable to NGOs, local, state, and federal land management programs.
Grade Mode: Normal Grading Mode

NRRM 433 GIS/RS in Natural Resources **3 Credit hours**
Focusing on natural resource management, the course will explore techniques and procedures required for spatially explicit data analysis in park and protected area applications.
Grade Mode: Normal Grading Mode

NRRM 450 Intro OHV Recreation **3 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 451 Plan Design OHV Trails **3 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 452 Construction OHV Trails **3 Credit hours**
A course designed to instruct students in contemporary methods and techniques of constructing OHV trails and related facilities.
Grade Mode: Normal Grading Mode

NRRM 453 Op Mgt OHV Trail Systems **3 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 484 Special Topics **1-3 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

NRRM 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 490 Internship **6 Credit hours**
A supervised 40-hour per week, 6 week internship in which the students work with park and recreation agencies. (PR: NRRM major. Advisor approval required.)
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

Environmental Science, B.S.

The Bachelor of Science in Environmental Science degree is an integrated program requiring math, communication, and environmental studies courses and basic science courses from Geology, Biology, Chemistry, and Physics departments. The integrated coverage of broad topics prepare students for the complex problems facing a modern world. Areas of Emphasis help focus student efforts toward individual goals and interests with consideration to obtaining rewarding careers the fields of environmental science or conservation or pursuing advanced studies.

A minor in a relevant field of study such as Business, Anthropology, History or the natural sciences of Biology, Chemistry, Geography, Geology, Natural Resources and Recreation Management, or Physics is encouraged for Environmental Science majors. Transfer students with prior college experience can receive equivalent credit for required courses.

Areas of Emphasis

- Applied Environmental Science, Emphasis (p. 638)
- Conservation and Wildlife, Emphasis (p. 640)
- Environmental Science, Emphasis (p. 642)

Applied Environmental Science, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Free Elective		1

- In addition to the Core General Education requirements, the College of Science requires 3 hours of Calculus, 8 additional hours of Natural or Physical Science, and 40 hours of upper-level credit.
- Coursework listed as elective may vary for each student. Students are encouraged to use elective hours toward a 2nd minor or toward prerequisites.
- Students are strongly encouraged to select courses that meet two or more Core or College requirements. For example, a writing intensive literature course could satisfy the Core II Humanities requirement as well as the university writing intensive requirement.
- Course offerings and course attributes are subject to change each semester. Please consult each semester's schedule of courses for availability and attributes.
- Math is based on an ACT Mathematics score of 24 or higher. Students with an ACT Mathematics score less than 24 will be placed in the appropriate prerequisite mathematics and science courses.
- Electives: In consultation with the COS advisors, students will select electives from the College of Science offerings best suited to prepare students to apply for professional credentials as a certified ecologist, certified wildlife biologist, or certified fisheries professional. Once a student has satisfied all of the requirements for one of these certifications, he or she should select additional electives in consultation with NRE/COS advisers to reach the 120 credit hours required for graduation. Additional electives may be used to satisfy general education requirements (e.g., writing intensive) and/or to fulfill the requirements of a second major, minor, or certificate.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Environmental Science, Minor

With global attention focused on environmental sustainability and limited natural resources, many students are interested in learning more about environmental science and pending environmental issues. This minor will offer foundational understanding of major concepts pertaining to ecosystem structure and function and impacts from human activity. The minor will allow students with interest in the field to apply the concepts in other disciplines, such as journalism, art or criminal justice. It will also provide opportunity for those not working in the area to better understand ongoing discussions on climate change and sustainability to be more informed citizens.

Students who wish to pursue a minor in Environmental Science will take 17 to 19 hours of Environmental Science credits covering major topics in the field. Courses will include:

Code	Title	Credit Hours
NRE 320	Nature Enviro Problems	3
NRE 322	Assess I: Terrestrial Systems	4
NRE 323	Assessment II: Aquatic Ecology	4
Students will complete 2 electives selected in consultation with NRE faculty for an additional 6 to 8 credit hours.		6-8
Total Credit Hours		**17-19**

Natural Resources and Recreation Management, B.S.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking

Major Information

- **Capstone Experience:** It is the responsibility of each student to consult his/her advisor regarding details of meeting the capstone requirement. The Capstone for this degree is completed in the summer.
- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Coursework listed as "elective" may vary for each student. Students are encouraged to use elective hours toward a minor or toward prerequisites.
- Students are strongly encouraged to select courses that meet two or more Core or College requirements. For example, a writing intensive literature course could satisfy the Core II Humanities requirement as well as the university writing intensive requirement.
- Course offerings and course attributes are subject to change each semester. Please consult each semester's schedule of courses for availability and attributes.
- Minimum 2.0 overall and MU and in all NRRM coursework required for graduation.
- Minimum of 120 hours (40 upper level) required for graduation.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

The Department of Natural Resources and the Environment offers a B.S. in Natural Resources and Recreation Management. The NRRM program is focused on the management of natural resource and

recreation areas such as parks, forests, coastal areas, and other natural areas located on public and private lands. The NRRM program offers an interdisciplinary Bachelor of Science degree, in which students will study the fields of natural resource management, recreation and leisure studies, environmental science, biology, sociology, psychology, and business. The program prepares qualified professionals for employment with municipal, state, or national park and recreation agencies, the US Forest Service, the US Army Corps of Engineers, nature centers, and a variety of tourism entities to name a few.

Natural Resources and Recreation Management, Minor

Students who wish to pursue a minor in Natural Resources and Recreation Management may do so by successfully completing the following courses:

Code	Title	Credit Hours
NRRM 101	Intro Natural Res & Rec Mgmt	3
Select one of the following:		3
NRRM 301	Intro to Outdoor Recreation	
NRRM 330	Concepts Philosophies in NRRM	
NRRM 350	Adventure Education Leadership	
Select one of the following:		3
NRRM 360	Tourism Planning & Management	
NRRM 361	Visitor Behavior in NRRM	
NRRM 362	Ecotourism: Admin and Mgmt	
Select one of the following:		3
NRRM 380	Rec Resource Oper. and Admin	
NRRM 410	Maint of Nat Res & Rec	
NRRM 411	Rec Resource Planning & Design	
Select one of the following:		3
NRRM 310	Environmental Interpretation	
NRRM 311	Intro to Environmental Educ	
NRRM 432	Wilderness/Protected Area Mgmt	
Total Credit Hours		**15**

Specialty Agriculture, B.S.

Specialty Agriculture

Specialty Agriculture in this context refers to sustainable, high-yield agriculture that can be economically sustainable in mountainous

regions and small land areas. The Bachelor of Science in Specialty Agriculture provides educational opportunities in agriculture, agribusiness, and agrotourism, covering both traditional and sustainable agricultural sciences. New and emerging technologies for high yield and specialty agriculture are emphasized, as they will improve agribusiness outcomes for smaller farms that are characteristic of the region. Focus of the major includes, but is not limited to, the agricultural aspects of greenhouse production, hydroponics, precision farming, urban agriculture, community gardens, and specialty crop production.

NRE 470	ES Internship	3
or NRE 491	ES Senior Capstone	
NRRM 200	Analytical Methods: Statistics	4
Major-Specific Requirements		
BSC 120	Principles of Biology I	3
BSC 120L	Principles of Biology I Lab	1
BSC 121	Principles of Biology II	3
BSC 121L	Prin of Biology II Lab	1
CHM 211	Principles of Chemistry I	3
CHM 212	Principles Chemistry II	3
CHM 217	Principles of Chem Lab I	2
CHM 218	Principles of Chem Lab II	2
ENT 360	Intro to Entrepreneurship	3
MGT 320	Principles of Management	3
NRE 322	Assess I: Terrestrial Systems	4
NRE 323	Assessment II: Aquatic Ecology	4
NRE 200	Introduction to Agriculture	3
NRE 300	Principles of Soil Science	3
NRE 301	Principles of Soil Science Lab	2
NRE 302	Animal Production	3
NRE 401	Horticulture	4
NRE 402	Sustainable Agriculture	3
NRE 403	Agricultural Entomology	4
Major-Specific Electives		**12-14**
In consultation with the NRE/COS advisors, students will select electives from Marshall University offerings best suited to prepare students to apply for the following fields or professional credentials: nutrient management certification, outreach and education, agritourism, agribusiness, soil science professional, soil health, food security, animal production, and crop production. The student will select these electives in consultation with NRE/COS advisors to reach to 120 credit hours required for graduation. Additional electives may be used to satisfy general education requirements (e.g., writing intensive). A minimum of 40 hours must be 300-400 level courses. Below is a list of courses that could be considered; however, the list is not exhaustive and other courses can be considered based on consultation between the student and NRE/COS advisors.		
Nutrient Management		
GEO 101	Physical Geography (CT)	
GEO 222	Global Environment Issues (CT)	
GLY 455	Hydrogeology	
NRE 423	GIS and Data Systems	
NRE 425	Water Policy and Regulations	
NRE 400	Soil Fertility/Plant Nutrition	
Soil Health/Soil Science		
BSC 320	Principles of Ecology	
BSC 445	Microbial Ecology	
GEO 101	Physical Geography (CT)	
GLY 200	The Dynamic Earth	
GLY 314	Mineralogy	
GLY 455	Hydrogeology	
NRE 423	GIS and Data Systems	
NRE 400	Soil Fertility/Plant Nutrition	
Food Security		
DTS 202	Introductory Foods	

DTS 210	Nutrition
DTS 301	FS Safety & Systems Mgt I
DTS 302	FS Safety & Sys Mgt II
DTS 410	Cross Cultural Foods
GEO 222	Global Environment Issues (CT)
HST 390	Food in World History
HST 392	Food Markets and Modernity
Crop Production	
BSC 302	Principles of Microbiology
BSC 320	Principles of Ecology
BSC 322	Principles Cell Biology
BSC 324	Principles of Genetics
BSC 416	Plant Taxonomy
BSC 420	Plant Physiology
BSC 430	Plant Ecology
GEO 222	Global Environment Issues (CT)
HST 392	Food Markets and Modernity
NRE 425	Water Policy and Regulations
NRE 400	Soil Fertility/Plant Nutrition
Animal Production	
BSC 301	Vertebrate Embryology
BSC 302	Principles of Microbiology
BSC 320	Principles of Ecology
BSC 322	Principles Cell Biology
BSC 324	Principles of Genetics
BSC 401	Ichthyology
BSC 408	Ornithology
BSC 409	Mammalogy
BSC 422	Animal Physiology
BSC 424	Animal Parasitology
NRE 425	Water Policy and Regulations
GEO 222	Global Environment Issues (CT)
HST 392	Food Markets and Modernity
NRE 425	Water Policy and Regulations
NRE 400	Soil Fertility/Plant Nutrition
NRE 425	Water Policy and Regulations
NRE 400	Soil Fertility/Plant Nutrition
Agritourism	
ENT 320	Marketing for Entrepreneurs
MKT 231	Principles of Selling
MKT 340	MKT Concepts and Applications
NRRM 360	Tourism Planning & Management
NRRM 362	Ecotourism: Admin and Mgmt
Education and Outreach	
CI 248	Intro to Science Elem Ed
EDF 201	Ed Psych Developing Learner
GEO 222	Global Environment Issues (CT)
NRRM 231	Nature Study
NRRM 310	Environmental Interpretation
NRRM 311	Intro to Environmental Educ
Agribusiness	
DTS 202	Introductory Foods
HST 390	Food in World History
MKT 231	Principles of Selling
MKT 340	MKT Concepts and Applications

Major Information

Department of Physics

Contacts: Dr. Que Huong Nguyen, Chair
Website: http://www.marshall.edu/physics (http://www.marshall.edu/physics/)

nguyenh@marshall.edu

The Department of Physics offers coursework leading toward the B.S. degree in physics, or the B.S. degree in physics with an Area of Emphasis in Applied Physics, Biophysics, Medical Imaging, and Medical Physics. The Department of Physics also offers a minor in physics and physical science, and provides courses in support of other programs in science and technology and courses for general education. A course of study in physics, resulting in a B.S. degree in physics, prepares students for a wide variety of opportunities, such as engineering careers in the private sector, careers in the health professions, employment in industry and government laboratories, advanced technology jobs in science and technology related fields, and careers as science teachers. The B.S. degree program is also excellent preparation for advanced degrees in physics, astronomy, engineering, medicine, or law.

In order to graduate, students must maintain a 2.00 Overall GPA and receive a grade of *C* or better in each course required for the major.

Related Programs Supported by the Department

The department also works closely with the College of Education and Professional Development, which offers a B.A. in Secondary Education through the Physics 9-Adult program; it is in this program where the Physics Department ensures students are well prepared to become teachers with a strong background in physics.

Programs

- Physics and Physical Science, Minor (p. 652)
- Physics, B.S. (p. 652)

Courses

- General Education Course

PHY 101 Conceptual Physics **3 Credit hours**
Introduces nonscience majors to applications of physics in life. Emphasizes conceptual understanding of basic principles in classical and modern physics. Recommended for science students with no high school physics.
Pre-req: (MTH 121 with a minimum grade of D or MTH 127 with a minimum grade of D or MTH 130 with a minimum grade of D or MTH 130E with a minimum grade of D or MTH 132 with a minimum grade of D or MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D or MTH 203 with a minimum grade of D or MTH 121B with a minimum grade of D) or MTH 130H with a minimum grade of D and PHY 101L (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 101L
Co-req: PHY 101L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 101L Conceptual Physics Lab **1 Credit hour**
Conceptual Physics Laboratory. A laboratory course designed to include the principles and applications of physics that are introduced in Physics 101. (CR: PHY 101) 2 lab. Conceptual Physics Laboratory. A laboratory course designed to include the principles and applications of physics that are introduced in Physics 101. (CR: PHY 101) 2 lab.
Co-req: PHY 101
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 190 Overview of Physics (CT) **3 Credit hours**
An algebra-based overview of well-established topics studied as part of a major in physics, including classical physics, special relativity, quantum mechanics, particle physics, and cosmology.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

PHY 201 College Physics I **3 Credit hours**
First half of an introduction to physics for life-science students, using algebra and trigonometry, including kinematics and dynamics, force, energy, rotation, fluids, waves, and therma phenomena.
Pre-req: (MTH 127 with a minimum grade of D and MTH 122 with a minimum grade of D) or (MTH 130 with a minimum grade of D and MTH 122 with a minimum grade of D) or MTH 132 with a minimum grade of D or (MTH 140 with a minimum grade of D and MTH 122 with a minimum grade of D) or MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D or MTH 140H with a minimum grade of D and PHY 202 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 202
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 202 General Physics I Laboratory **1 Credit hour**
Laboratory to accompany PHY 201 or PHY 211, focusing on mechanics concepts and applications.
Pre-req: PHY 201 (may be taken concurrently) with a minimum grade of D or PHY 211 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 201 or PHY 211
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 203 College Physics II **3 Credit hours**
Second half of an introduction to physics for life-science students, using algebra and trigonometry, including electric and magnetic fields, circuits, geometrical and physical optics, atomic and nuclear physics.
Pre-req: (PHY 201 with a minimum grade of C and PHY 202 with a minimum grade of C) and PHY 204 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: PHY 204
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 204 General Physics 2 Laboratory **1 Credit hour**
Laboratory to accompany PHY 203 or PHY 213, focusing on classical E&M, circuits, and optics.
Pre-req: (PHY 203 (may be taken concurrently) with a minimum grade of D or PHY 213 (may be taken concurrently) with a minimum grade of D).
Concurrent PR: PHY 203 or PHY 213
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 211 University Physics I **4 Credit hours**
First half of an introduction to physics for physical science and engineering students, using calculus, and including kinematics and dynamics, force, energy, rotation, fluids, waves, and thermal phenomena.
Pre-req: (MTH 229 (may be taken concurrently) with a minimum grade of D or MTH 229H (may be taken concurrently) with a minimum grade of D) and PHY 202 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: (MTH 229 or MTH 229H) and PHY 202
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 213 University Physics II **4 Credit hours**
Second half of an introduction to physics for physical science or engineering students, using calculus, including electric and magnetic fields, circuits, geometrical and physical optics, atomic and nuclear physics.
Pre-req: MTH 230 (may be taken concurrently) and PHY 204 (may be taken concurrently) and (PHY 201 with a minimum grade of C or PHY 211 with a minimum grade of C) and PHY 202.
Concurrent PR: MTH 230 and PHY 204
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 214 Lab Methods in Physics **1 Credit hour**
A laboratory course to accompany Physics 211-213. 3 lab. A laboratory course to accompany Physics 211-213. 3 lab.
Pre-req: PHY 213 (may be taken concurrently).
Concurrent PR: PHY 213
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 222 Investigate the Universe **2 Credit hours**
A creative laboratory course designed to give students an opporutnity to work with modern research equipment, with ample time to conduct experiments and/or investigate phenomenae of their choosing.
Pre-req: (MTH 122 and MTH 127) or (MTH 122 and MTH 130) or MTH 132.
Grade Mode: Normal Grading Mode

PHY 261 Enhancement for Physics I **1 Credit hour**
Additional aspects in mechanics (calculus, array vectors and matrices, distributions), to make College Physics 1 equivalent to University Physics 1.
Pre-req: PHY 201 with a minimum grade of C or MTH 229 with a minimum grade of C.
Grade Mode: Normal Grading Mode

PHY 263 Enhancement for Physics II **1 Credit hour**
Additional aspects in E&M and Optics, Modern Physics, (calculus and multipole functions) to make College Physics 2 equivalent to University Physics 2.
Grade Mode: Normal Grading Mode

PHY 280 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 281 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 300 Electricity & Magnetism **3 Credit hours**
A course including the study of electrostatics, magnetostatics, electromagnetic induction, introduction to Maxwell's equations and electromagnetic waves. 3 lec. A course including the study of electrostatics, magneto- statics, electromagnetic induction, introduction to Maxwell's equations and electromagnetic waves. 3 lec.
Pre-req: (PHY 203 or PHY 213) and MTH 231.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 302 Electricity & Magnetism II **3 Credit hours**
A study of Maxwell's equations and electromagnetic waves, radiation theory, optical phenomena, and electrodynamics. 3 lec. A study of Maxwell's equations and electromagnetic waves, radiation theory, optical phenomena, and electrodynamics. 3 lec.
Pre-req: PHY 300.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 304 Optics **3 Credit hours**
An intermediate course in geometrical and physical optics. 3 lec. An intermediate course in geometrical and physical optics. 3 lec.
Pre-req: (PHY 203 or PHY 213) and (PHY 405 (may be taken concurrently) or PHY 505 (may be taken concurrently)).
Concurrent PR: PHY 405 or PHY 505
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 308 Thermal Physics **3 Credit hours**
A study of thermodynamics, kinetic theory of gases, and an introduction to statistical mechanics 3 lec.
Pre-req: (PHY 203 or PHY 213) and MTH 231.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 314 Electronic Physics **3 Credit hours**
A study of transistors, integrated circuits and their associated circuits. 3 lec. A study of transistors, integrated circuits and their associated circuits. 3 lec.
Pre-req: PHY 203 with a minimum grade of D or PHY 213 with a minimum grade of D and PHY 415 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 415
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 320 Intro Modern Physics **3 Credit hours**
An introductory study of atomic and molecular theories, relativity, quantum theory, and nuclear physics. 3 lec. An introductory study of atomic and molecular theories, relativity, quantum theory, and nuclear physics. 3 lec.
Pre-req: MTH 230 and (PHY 203 or PHY 213).
Co-req: PHY 421
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 330 Mechanics **3 Credit hours**
An intermediate study of the fundamental principles of statics of particles and rigid bodies, momentum and energy, dynamics of particles, harmonic oscillations, and wave motion. 3 lec. An intermediate study of the fundamental principles of statics of particles and rigid bodies, momentum and energy, dynamics of particles, harmonic oscillations, and wave motion. 3 lec.
Pre-req: MTH 231 and (PHY 203 or PHY 213).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 340 Scientific Computing **3 Credit hours**
Introduction to some of the most important tools and techniques in scientific computing, including object-oriented design, version control, and MPI for high-performance computing.
Pre-req: MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D or IST 163 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHY 350 Biological Physics **3 Credit hours**
Physical principles underlying the mechanisms by which living organisms survive, adapt, grow. Will enhance writing skills and strategies. 2 lec - 2 lab. (PR: PHY 203 or 213, and PHY 204)
Pre-req: PHY 203 (may be taken concurrently) or PHY 213 (may be taken concurrently) and PHY 204.
Concurrent PR: PHY 203 or PHY 213
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 360 Medical Physics **3 Credit hours**
Physical principles applied to devise methods for diagnostic and treatment of the human body. Will enhance writing skills and strategies.
Pre-req: (PHY 203 with a minimum grade of D or PHY 213 with a minimum grade of D) and PHY 204 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHY 405 Optics Lab **2 Credit hours**
A course in optical experiments encompassing geometrical and physical optics. This course is to be taken with Physics 304.
Pre-req: PHY 304 (may be taken concurrently).
Concurrent PR: PHY 304
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 408 Thermal Stat Physics **3 Credit hours**
Introduction to Thermodynamics, kinetic theory of gases, classical and quantum statistical mechanics, Bose-Einstein and Fermi-Dirac statistics, and application. 3 lec.
Pre-req: MTH 231 with a minimum grade of D and (PHY 203 with a minimum grade of D and PHY 213 with a minimum grade of D).
Grade Mode: Normal Grading Mode

PHY 415 Electronics Lab **2 Credit hours**
A course in laboratory measurements encompassing transistors, integrated circuits, and their associated circuits. This course is to be taken with Physics 314.
Pre-req: PHY 314 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 314
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 420 Astrophysics **3 Credit hours**
A detailed study of core problems in Astrophysics such as orbital dynamics, radiation processes, stellar structure and evolution, galactic dynamics, and cosmology.
Pre-req: PHY 213 with a minimum grade of D and MTH 231 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHY 421 Modern Physics Lab **2 Credit hours**
Laboratory exercises on modern physics topics encompassing both experiments of historic significance and current applications. To be taken with Physics 320, or equivalent.
Co-req: PHY 320
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 425 Solid State Physics **3 Credit hours**
The course provides a broad introduction to the structure and physical properties of solids. It also serves as a basis for advanced courses in solid state and condensed matter physics. The course provides a broad introduction to the structure and physical properties of solids. It also serves as a basis for advanced courses in solid state and condensed matter physics.
Pre-req: PHY 320 or PHY 442 or CHM 442.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 435 Computational Physics **3 Credit hours**
A course on using numerical methods and computer programming languages for solving complex physics problems and for the simulation of various physical processes. 2 lec-2 lab.
Pre-req: PHY 213 with a minimum grade of D and PHY 330 with a minimum grade of D and (PHY 445 with a minimum grade of D or PHY 446 with a minimum grade of D) and MTH 231 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHY 442 Quantum Mechanics **3 Credit hours**
A study of waves and particles, the Schroedinger and Heisenberg formulations, particles in potential fields, scattering and perturbation theories, and application to atomic and nuclear structure. 3 lec. A study of waves and particles, the Schroedinger and Heisenberg formulations, particles in potential fields, scattering and perturbation theories, and application to atomic and nuclear structure. 3 lec.
Pre-req: MTH 335 and PHY 330.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 443 Quantum Mechanics II **3 Credit hours**
This is the second part of a two-semester introduction to quantum mechanics. Emphasis is on applications of quantum theory including approximation techniques and the study of more realistic quantum systems. This is the second part of a two-semester introduction to quantum mechanics. Emphasis is on applications of quantum theory including approximation techniques and the study of more realistic quantum systems.
Pre-req: PHY 442 with a minimum grade of D or CHM 442 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHY 444 Advanced Laboratory **2 Credit hours**
Developments in producing and detecting correlated photon pairs has enabled implementation of undergraduate laboratories demonstrating fundamental quantum mechanical principles. This laboratory also incorporates fundamental solid state and materials science experiments.
Pre-req: PHY 425 (may be taken concurrently) and PHY 442 (may be taken concurrently).
Concurrent PR: PHY 425 and PHY 442
Co-req: PHY 425, PHY 442
Grade Mode: Normal Grading Mode

PHY 445 Math Methods of Physics **3 Credit hours**
An introduction to theory of orthogonal functions, curvilinear coordinate systems, vector and tensor fields, and their applications in physics. Problems are drawn from different areas of physics. 3 lec. An introduction to theory of orthogonal functions, curvilinear coordinate systems, vector and tensor fields, and their applications in physics. Problems are drawn from different areas of physics. 3 lec.
Pre-req: PHY 203 or PHY 213 and MTH 231.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 446 Math Methods of Physics II **3 Credit hours**
A second semester of a full year course on methods of solving problems in physics: calculus of variations, ordinary and partial differential equations, and special functions with real physics problems.
Pre-req: PHY 445.
Grade Mode: Normal Grading Mode

PHY 447 Mechanics for Teachers **4 Credit hours**
An indepth study of mechanics for education majors specializing in Physics with emphasis on problem solving techniques, demonstrations, experiments and computer applications. (PR: PHY 203, MTH 122 and MTH 140) An indepth study of mechanics for education majors specializing in Physics with emphasis on problem solving techniques, demonstrations, experiments and computer applications. (PR: PHY 203, MTH 122 and MTH 140)
Pre-req: PHY 203 or PHY 213.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 480 Special Topics **2-4 Credit hours**
By permission of department chairman. By permission of department chairman.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 481 Special Topics **1-4 Credit hours**
By permission of department chairman. By permission of department chairman.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 482 Special Topics **1-4 Credit hours**
By permission of department chairman. By permission of department chairman.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 483 Special Topics **1-4 Credit hours**
By permission of department chairman. By permission of department chairman.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 485 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 486 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required, Natural Sciences
Grade Mode: Normal Grading Mode

PHY 487 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 488 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 491 Capstone **1-2 Credit hours**
To give a capstone expeience to physics majors in their junior or senior years by applying the principles of physics to the solution of real life problems. (PR: CSD 203, or 218 and lab). To give a capstone expeience to physics majors in their junior or senior years by applying the principles of physics to the solution of real life problems. (PR: CSD 203, or 218 and lab).
Attributes: Capstone Course, Natural Sciences
Grade Mode: Normal Grading Mode

PHY 492 Capstone **1-2 Credit hours**
To give a capstone experience to physics majors in their junior or senior years by applying the principles of physics to the solution of real life problems. (PR: PHY 491) To give a capstone experience to physics majors in their junior or senior years by applying the principles of physics to the solution of real life problems. (PR: PHY 491)
Pre-req: PHY 491 with a minimum grade of D.
Attributes: Capstone Course, No Textbook Required, Natural Sciences
Grade Mode: Normal Grading Mode

Faculty

Professor
Hamilton, Nguyen, Wilson

Associate Professor
Fan, Saken

Assistant Professor
Foltz, S. P. McBride, S. T. McBride, Richards, Wehner

Physics and Physical Science, Minor

The Department of Physics awards a minor in physics and physical science to students who have completed the following courses with at least a *C* average:

Code	Title	Credit Hours
PHY 201	College Physics I	3
or PHY 211	University Physics I	
PHY 202	General Physics I Laboratory	1
PHY 203	College Physics II	3
or PHY 213	University Physics II	
PHY 204	General Physics 2 Laboratory	1
300/400 Physics or Physical Science		3
Total Credit Hours		**14**

Physics, B.S.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
MTH 229	Calculus/Analytic Geom I (CT)	5
Critical Thinking Course		3
Core 2		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
Core II Communication		3
MTH 229	Calculus/Analytic Geom I (CT)	5
Core II Humanities		3
Core II Social Science		3
Core II Fine Arts		3
PHY 211 & PHY 202	University Physics I and General Physics I Laboratory (Core II Physical/Natural Science)	5
Additional University Requirements		
Writing Intensive		3
Writing Intensive		3
Multicultural or International		3
PHY 491 & PHY 492	Capstone and Capstone	2
Major-Specific		
PHY 211	University Physics I	4
PHY 202	General Physics I Laboratory	1
PHY 213	University Physics II	4
PHY 204	General Physics 2 Laboratory	1
PHY 304	Optics	3
PHY 405	Optics Lab	2
PHY 308	Thermal Physics	3
PHY 300	Electricity & Magnetism	3
PHY 330	Mechanics	3
PHY 320	Intro Modern Physics	3
PHY 421	Modern Physics Lab	2
PHY 442	Quantum Mechanics	3
PHY 445	Math Methods of Physics	3

PHY 446	Math Methods of Physics II	3
PHY 302	Electricity & Magnetism II	3
PHY 443	Quantum Mechanics II	3
PHY 491 & PHY 492	Capstone and Capstone	2
MTH 230	Calculus/Analytic Geom II	4
MTH 231	Calculus/Analytic Geom III	4
MTH 335	Ordinary Diff Equations	3
CHM 211	Principles of Chemistry I (Recommended)	3
CHM 217	Principles of Chem Lab I (Recommended)	2
CHM 212	Principles Chemistry II (Recommended)	3
CHM 218	Principles of Chem Lab II (Recommended)	2
PHY Elective		5
PHY 425 & PHY 444	Solid State Physics and Advanced Laboratory (Recommended)	
Free Elective		4
Free Elective		3
Free Elective		3

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- In addition to the Core General Education requirements, the College of Science requires 3 hours of Calculus, coursework listed as "elective" may vary for each student. Students are encouraged to use elective hours toward a 2nd minor or toward prerequisites.
- Students are strongly encouraged to select courses that meet two or more Core or College requirements. For example, a writing intensive literature course could satisfy the Core II humanities requirement as well as the university writing intensive requirement.
- Course offerings and course attributes are subject to change each semester. Please consult each semester's schedule of courses for availability and attributes.
- Math is based on an ACT Mathematics score of 27 or higher. Students with an ACT Mathematics score less than 27 will be placed in the appropriate prerequisite mathematics and science courses.
- In order to graduate, students must maintain a 2.00 Overall GPA and receive a grade of *C* or better in each course required for the major.
- Advanced physics courses are offered every two to three semesters; check with the Physics Department for availability.
- Let the Department Chair know if you have an interest in a particular elective course as soon as possible.

Areas of Emphasis

- Applied Physics, Emphasis (p. 654)
- Bio Physics, Emphasis (p. 656)
- Medical Imaging, Emphasis (p. 657)
- Medical Physics, Emphasis (p. 659)

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

A course of study in physics, resulting in a B.S. degree in physics, prepares students for a wide variety of opportunities, such as engineering careers in the private sector, careers in the health professions, employment in industry and government laboratories, advanced technology jobs in science and technology related fields, and careers as science teachers. The B.S. degree program is also excellent preparation for advanced degrees in physics, astronomy, engineering, medicine, or law. Physics is designed for those who are interested in future study or work in a pure physics or physics-related field.

Medical Imaging, Emphasis

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Major

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Code	Title	Credit Hours
Core Curriculum		
Core 1: Critical Thinking		
FYS 100	First Yr Sem Critical Thinking	3
MTH 229	Calculus/Analytic Geom I (CT)	5
Critical Thinking Course		3
Core 2		
ENG 101	Beginning Composition	3
ENG 201	Advanced Composition	3
Core II Communication		3
MTH 229	Calculus/Analytic Geom I (CT)	5
Core II Humanities		3
Core II Social Science		3
Core II Fine Arts		3
BSC 228 & BSC 228L	Human Physiology and Human Physiology Lab (Core II Natural/)	4
Additional University Requirements		
MI 411	Transcultural Healthcare (WI)	3

Writing Intensive		3
Multicultural or International		3
PHY 491 & PHY 492	Capstone and Capstone	2
Major-Specific		
PHY 202	General Physics I Laboratory	1
PHY 211	University Physics I	4
PHY 204	General Physics 2 Laboratory	1
PHY 213	University Physics II	4
PHY 300	Electricity & Magnetism	3
PHY 302	Electricity & Magnetism II	3
PHY 304	Optics	3

PHY 308	Thermal Physics	3
PHY 320	Intro Modern Physics	3
PHY 330	Mechanics	3
PHY 360	Medical Physics	3
PHY 421	Modern Physics Lab	2
PHY 491 & PHY 492	Capstone and Capstone (C)	2
PHY 442	Quantum Mechanics	3
PHY 445	Math Methods of Physics	3
PHY 446	Math Methods of Physics II	3
MTH 230	Calculus/Analytic Geom II	4
MTH 231	Calculus/Analytic Geom III	4
BSC 227 & BSC 227L	Human Anatomy and Human Anatomy Lab	4
BSC 228 & BSC 228L	Human Physiology and Human Physiology Lab	4
STA 345	Applied Prob and Stat	3
MI 201	Intro to Radiography	3
MI 202	Patient Care Img Science	3
MI 204	Radiographic Anatomy	3
MI 205	Imaging Procedures I	4
MI 206	Clinical Practice I	4
MI 207	Imaging Procedures II	4
MI 208	Pharmacology for Imaging Sci	2
MI 210	Clinical Practice II	4
MI 411	Transcultural Healthcare	3

Major Information

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- In addition to the Core General Education requirements, the College of Science requires 3 hours of Calculus, and 40 hours of upper level credit.
- Coursework listed as "elective" may vary for each student. Students are encouraged to use elective hours toward a minor or toward prerequisites.
- Students are strongly encouraged to select courses that meet two or more Core or College requirements. For example, a writing intensive literature course could satisfy the Core II humanities requirement as well as the university writing intensive requirement.
- Course offerings and course attributes are subject to change each semester. Please consult each semester's schedule of courses for availability and attributes.
- Math is based on an ACT Mathematics score of 27 or higher. Students with an ACT Mathematics score less than 27 will be placed in the appropriate prerequisite mathematics and science courses.
- In order to graduate, students must maintain a 2.00 Overall GPA and receive a grade of *C* or better in each course required for the major.

- General Education Course

- Milestone course: a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

Four Year Plan

A course of study in physics, resulting in a B.S. degree in physics, prepares students for a wide variety of opportunities, such as engineering careers in the private sector, careers in the health professions, employment in industry and government laboratories, advanced technology jobs in science and technology related fields, and careers as science teachers. The B.S. degree program is also excellent preparation for advanced degrees in physics, astronomy, engineering, medicine, or law. Medical Physics is designed for those who are interested in future study or work in Medical Imaging or Medical Physics.

Pre-Professional Health Care Studies, Interdisciplinary Minor

Contacts: Mr. Brian Morgan, Associate Dean and Chief Pre-Professional Health Care Advisor
Website: http://www.marshall.edu/preprof (http://www.marshall.edu/preprof/)

A minor in Pre-Professional Health Care Studies is designed to help students prepare to apply to professional health programs by providing a comprehensive list of courses which build competencies essential for a competitive application. This minor does not include a comprehensive list of courses required by every professional school, but instead provides a structured pathway to help a student complete graduate or professional school prerequisites courses, regardless of major. The minor includes the most common courses needed to pursue an advanced degree in the health sciences and/or completing prerequisites for post-baccalaureate health care programs. Students who plan to pursue attendance at a medical school, physician assistant program, physical therapy doctoral program, or other related graduate programs will find this minor helpful in addressing the required prerequisite courses. Because each professional school may determine its own requirements, and because those requirements can vary among institutions and are subject to change, students should regard the courses listed below as examples only. This is not a comprehensive statement of what actually is required by every professional school.

Any degree-seeking undergraduate student, regardless of major, can declare this minor.

Students must complete at least 18 hours from the core list of required courses below, as well as complete a set of required courses from a sub-discipline to complete this minor. Each student, in consultation with their advisor, would design their specific Pre-Professional Health Care Studies minor with regard to their post-baccalaureate plans for graduate school or professional school, and decide how many and which disciplines they need as preparation for their plan.

Code	Title	Credit Hours
Required Courses		
BSC 120 & BSC 120L	Principles of Biology I and Principles of Biology I Lab	4

Courses

Biological Science

BSC 104 Introduction to Biology **3 Credit hours**
Fundamentals of biology with emphasis on the unity of life, energetics, genetics and the world of living things. Intended for non-science majors.
Co-req: BSC 104L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 104L Introduction to Biology Lab **1 Credit hour**
Laboratory companion course to BSC 104. Introduction of the scientific method, with focus on a survey of the fundamental principles of the biological sciences as they apply to life on earth.
Pre-req: BSC 104 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 104
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 105 Human Biology **3 Credit hours**
Fundamentals of biological human structure, function, and interactions with the environment. Intended for non-science majors. Does not count for health professions credit.
Co-req: BSC 105L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 105L Human Biology Lab **1 Credit hour**
Laboratory companion course to BSC 105. Investigations of human structure, function, and interactions with the environment. Intended for non-science majors; does not count for health professions credit.
Co-req: BSC 105
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 120 Principles of Biology I **3 Credit hours**
Study of core biological principles common to all organisms. Intended for science majors and pre-professional students.
Pre-req: (ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530) or (BSC 104 with a minimum grade of C and BSC 104L with a minimum grade of C) or (BSC 105 with a minimum grade of C or BSC 105L with a minimum grade of C).
Co-req: BSC 120L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 120H Principles of Biology I Honors **3 Credit hours**
Study of basic biological principles common to all organisms. Intended for science majors and pre-professional students.
Pre-req: Admitted Honors College with a score of 1 and (ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530) and (BSC 120L (may be taken concurrently) with a minimum grade of C or BSC 120LH (may be taken concurrently) with a minimum grade of C) or (BSC 104 with a minimum grade of C and BSC 104L with a minimum grade of C) or (BSC 105 with a minimum grade of C and BSC 105L with a minimum grade of C).
Concurrent PR: BSC 120L or BSC 120LH
Attributes: Honors, Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 120L Principles of Biology I Lab **1 Credit hour**
Laboratory companion course to BSC 120. Practical exercises focuses on investigation of core biological principles common to all organisms.
Pre-req: ACT Math with a score of 21 or SAT MATH SECTION SCORE with a score of 530 or SAT Mathematics Before Mar. 16 with a score of 500 or (BSC 104 with a minimum grade of C and BSC 104L with a minimum grade of C) or (BSC 105 with a minimum grade of C and BSC 105L with a minimum grade of C).
Co-req: BSC 120
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 120LH Prin of Biology I Lab Honors **1 Credit hour**
Laboratory companion course to BSC 120. Practical exercises focused on investigation of core biological principles common to all organisms.
Pre-req: Admitted Honors College with a score of 1 and (ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530) or (BSC 104 with a minimum grade of C and BSC 104L with a minimum grade of C) or (BSC 105 with a minimum grade of C and BSC 105L with a minimum grade of C).
Co-req: BSC 120H
Attributes: Honors, Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 121 Principles of Biology II **3 Credit hours**
A continuation of the study of core biological principles common to all organisms. Intended for science majors and pre-professional students.
Pre-req: BSC 120 with a minimum grade of C or BSC 120H with a minimum grade of C.
Co-req: BSC 121L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 121L Prin of Biology II Lab **1 Credit hour**
Laboratory companion course to BSC 121. Continuation of practical exercises focused on investigation of core biological principles common to all organisms.
Pre-req: BSC 121 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 121
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 227 Human Anatomy **3 Credit hours**
Study of gross and microscopic anatomy of human body systems and their development. Provides preparation for degrees in health professions. Does not count towards a major in Biological Science.
Co-req: BSC 227L
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 227L Human Anatomy Lab **1 Credit hour**
Laboratory companion course to BSC 227. Practical and computer aided exercises related to gross and microscopic anatomy of human body systems and their development. Does not count toward a major in Biological Sciences.
Co-req: BSC 227
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 228 Human Physiology **3 Credit hours**
Study of normal human physiology, from cells to systems. Provides the scientific background for understanding pathophysiology and preparation for degrees in health professions. Does not count toward a major in Biological Sciences.
Pre-req: BSC 227 with a minimum grade of C and BSC 227L with a minimum grade of C.
Co-req: BSC 228L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 228L Human Physiology Lab **1 Credit hour**
Laboratory companion course to BSC 228. Introduction of the scientific method, with focus on interpretation of data and application toward physiological systems. Does not count toward a major in Biological Sciences.
Pre-req: BSC 227 with a minimum grade of C and BSC 227L with a minimum grade of C.
Co-req: BSC 228
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 250 Microbiol & Human Disease **3 Credit hours**
Introduction to microbiology with emphasis on the role of microorganisms in the disease process. Does not count towards a major in Biological Sciences.
Pre-req: BSC 227 with a minimum grade of C and BSC 227L with a minimum grade of C.
Co-req: BSC 250L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 250L Microbio and Human Disease Lab **1 Credit hour**
Laboratory companion course to BSC 250. Practical exercises with emphasis on microscopy, microorganism identification, and aseptic technique. Does not count towards a major in Biological Sciences.
Pre-req: BSC 227 with a minimum grade of C and BSC 227L with a minimum grade of C.
Co-req: BSC 250
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 280 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 281 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 282 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 283 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 301 Vertebrate Embryology **4 Credit hours**
Vertebrate development based chiefly on frog, chick and pig embryos. 2 lec-4 lab. Vertebrate development based chiefly on frog, chick and pig embryos. 2 lec-4 lab.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 302 Principles of Microbiology **3 Credit hours**
Basic microbiological techniques, fundamental principles of microbial action, physiological processes, immunology, serology, disease process. This course is lecture only (the associated lab for this course is listed under a different course number)
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 304 Microbiology Lab **2 Credit hours**
A laboratory course emphasizing basic microbiological techniques including preparation of culture media, gram staining, isolation and identification of bacteria from diverse environments, and evaluation of antiseptics and disinfectants. A laboratory course emphasizing basic microbiological techniques including preparation of culture media, gram staining, isolation and identification of bacteria from diverse environments, and evaluation of antiseptics and disinfectants.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 312 Invertebrate Zoology **4 Credit hours**
Survey of invertebrate phyla from protists through non-vertebrate chordates. Emphasis is placed upon identification of taxa, development, microanatomy, life histories and evolutionary relationship.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 320 Principles of Ecology **4 Credit hours**
A fundamental approach to the basic principles underlying the interrelationships of organisms with their biotic and abiotic environments. A variety of aquatic and terrestrial ecosystems will be studied in the field and in the laboratory. 3 lec-3 lab. A fundamental approach to the basic principles underlying the interrelationships of organisms with their biotic and abiotic environments. A variety of aquatic and terrestrial ecosystems will be studied in the field and in the laboratory. 3 lec-3 lab.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 322 Principles Cell Biology **4 Credit hours**
A fundamental approach to the principles of cell biology covering general cellular structure and function,organelles, intercellular interactions, molecular interactions, and modern cellular and molecular methods. 3 lec-3 lab.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 324 Principles of Genetics **4 Credit hours**
The fundamental principles and mechanisms of inheritance. 3 lec-3 lab.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 332 Principles of Human Anatomy **3 Credit hours**
An overview of the major anatomical regions and functional systems, with a focus on human anatomy in a comparative and evolutionary context.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C and BSC 332L (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 332L
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 332L Prin of Human Anatomy Lab **1 Credit hour**
Laboratory companion course to BSC 332. Practical investigation of human anatomy in a comparative and evolutionary context.
Pre-req: BSC 332 (may be taken concurrently) with a minimum grade of C and BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Concurrent PR: BSC 332
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 334 Principles of Human Physiology **3 Credit hours**
An overview of the major physiological systems, with focus on comparative, molecular, and pathophysiology.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C and BSC 334L (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 334L
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 334L Prin of Human Physiology Lab **1 Credit hour**
Laboratory companion course to BSC 334. Investigation of key physiological systems with focus on data acquisition and analysis.
Pre-req: BSC 334 (may be taken concurrently) with a minimum grade of C and BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Concurrent PR: BSC 334
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 340 Principles of Evolution **3 Credit hours**
An overview of the unity and diversity of life, and the mechanisms and processes of evolutionary change at the population, organismal, and molecular levels.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 401 Ichthyology **4 Credit hours**
Anatomy, physiology, ecology, zoogeography, economic importance and classification of major groups and representative local species of fishes. 2 lec-2 lab and field.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C and NRE 322 with a minimum grade of D) or (BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C and NRE 323 with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 404 Cellular Physiology **3 Credit hours**
In depth analysis of the physiological and molecular processes that underlie the functions of cells, using examples from diverse taxa. Focus on biomedical and biotechnical implications.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 406 Herpetology **4 Credit hours**
Taxonomy, morphology, distribution, life history, and ecology of reptiles and amphibians with a special emphasis on representatives native to West Virginia. 2 lec-2 lab. Taxonomy, morphology, distribution, life history, and ecology of reptiles and amphibians with a special emphasis on representatives native to West Virginia. 2 lec-2 lab.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 408 Ornithology **4 Credit hours**
An introduction to avian biology: identification, distribution, migration, and breeding activities of birds.2 lec-4 lab.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 409 Mammalogy **4 Credit hours**
A study of the structural features, evolution and classification of mammals; other topics will include ecology, zoogeography, behavior, reproductive strategies, physiological adaptation to extreme environments and economic aspects.3 lec-3 lab and field.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 410 Remote Sensing/GIS Appl **4 Credit hours**
A study of the physical systems for collecting remotely sensed data. Statistical/spatial analysis and modeling using image processing/geographic information/spatial computer software systems with earth resources applications. A study of the physical systems for collecting remotely sensed data. Statistical/spatial analysis and modeling using image processing/geographic information/spatial computer software systems with earth resources applications.
Pre-req: PHY 201 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 340 with a minimum grade of D or NRE 423 with a minimum grade of D or NRE 433 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 411 Dgtl Image Proc/GIS Model **4 Credit hours**
A study of image processing/geographic information/spatial analysis systems, concurrent and parallel image processing 3-D modeling scenarios utilizing geophysical data for computer simulation modeling. A study of image processing/geographic information/spatial analysis systems, concurrent and parallel image processing 3-D modeling scenarios utilizing geophysical data for computer simulation modeling.
Pre-req: PHY 201 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 340 with a minimum grade of D or NRE 423 with a minimum grade of D or NRE 433 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 413 Prin of Organic Evolution **3 Credit hours**
Facts and possible mechanisms underlying the unity and diversity of life with emphasis on Neo-Darwinian concepts of the role of species in evolutionary phenomena. Facts and possible mechanisms underlying the unity and diversity of life with emphasis on Neo-Darwinian concepts of the role of species in evolutionary phenomena.
Pre-req: BSC 302 or BSC 320 or BSC 322 or BSC 324.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 416 Plant Taxonomy **4 Credit hours**
Recognition of our native seed plants and ferns. 2 lec-4 lab. Recognition of our native seed plants and ferns. 2 lec-4 lab.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 340 with a minimum grade of D or NRE 322 with a minimum grade of D or NRE 401 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 417 Biostatistics **3 Credit hours**
Statistical skills for biological/biomedical research, with emphasis on applications. Experimental design/survey sampling, estimation/hypothesis testing procedures,regression, ANOVA, multiple comparisons. Implementation using statistical software such as SAS, BMDP.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D or BSC 334 with a minimum grade of D or BSC 340 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 420 Plant Physiology **4 Credit hours**
Experimental study of plant life processes to include applicable biophysical and biochemical principles. 2 lec-4 lab. Experimental study of plant life processes to include applicable biophysical and biochemical principles. 2 lec-4 lab.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 421 Phycology **4 Credit hours**
Morphology, taxonomy, and techniques used in the study of fresh-water algae with emphasis upon applications of ecological principles to current water quality problems. 2 lec-4 lab.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 422 Animal Physiology **3 Credit hours**
A comparative study of physiological principles in animal cells, organs, and systems. Focus on animal's reactions to their environment, and how comparative physiology applies to natural ecosystems and human health.
Pre-req: BSC 322 with a minimum grade of D and CHM 355 with a minimum grade of D and (MTH 140 with a minimum grade of D or MTH 140H with a minimum grade of D or MTH 132 with a minimum grade of D or MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 423 Comp Vertebrate Anatomy **4 Credit hours**
Structure, function and relationships of systems of selected vertebrates with an emphasis on embryology and evolution. 2 lec.-4 lab.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 424 Animal Parasitology **4 Credit hours**
Morphology, life histories, classification, and host relationships of common parasites. 2 lec-4 lab. Morphology, life histories, classification, and host relationships of common parasites. 2 lec-4 lab.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 425 Systematics **3 Credit hours**
Biosystematics is a unifying discipline that combines taxonomy (collecting, describing and naming organisms), phylogenetics (evolutionary relationships among species), and classification (organization of taxa into groups which ultimately reflect evolutionary relationship). Biosystematics is a unifying discipline that combines taxonomy (collecting, describing and naming organisms), phylogenetics (evolutionary relationships among species), and classification (organization of taxa into groups which ultimately reflect evolutionary relationship).
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 426 Medical Entomology **4 Credit hours**
Role of certain insects and other arthropods in the transmission of disease organisms and methods of control.2 lec-4 lab.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 428 Neuroscience **3 Credit hours**
The fundamentals of cellular and systems neuroscience, with application towards understanding current research and biomedical problems.
Pre-req: BSC 322 with a minimum grade of D or BSC 334 with a minimum grade of D or BSC 422 with a minimum grade of D or (BSC 121 with a minimum grade of D and CHM 355 with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 429 Metabolic Systems **3 Credit hours**
Discussion of metabolic processes responsible for the activity of all living systems, factors that impact metabolic processes such as toxicology and pathology, and applications of metabolic pathways to biotechnology.
Pre-req: BSC 322 with a minimum grade of D or BSC 334 with a minimum grade of D or BSC 422 with a minimum grade of D or (BSC 121 with a minimum grade of D and CHM 355 with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 430 Plant Ecology **4 Credit hours**
The study of plants and their interactions with their environment at different levels of ecological organization: individuals, populations, communities, and ecosystems. Emphasis on quantitative analysis of ecological data. The study of plants and their interactions with their environment at different levels of ecological organization: individuals, populations, communities, and ecosystems. Emphasis on quantitative analysis of ecological data.
Pre-req: BSC 320 with a minimum grade of D or (BSC 121 with a minimum grade of D and BSC 121L with a minimum grade of D and NRE 322 with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 431 Limnology **4 Credit hours**
Study of inland waters; ecological factors affecting lake and stream productivity and various aquatic communities. Study of inland waters; ecological factors affecting lake and stream productivity and various aquatic communities.
Pre-req: BSC 320 with a minimum grade of D or (BSC 121 with a minimum grade of D and (NRE 323 with a minimum grade of D or NRE 431 with a minimum grade of D or NRE 435 with a minimum grade of D) and BSC 121L with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 438 Emerging Infectious Diseases **3 Credit hours**
Introduces students to infectious diseases that are either newly emergent or have returned to prominence within the last decade.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D or BSC 334 with a minimum grade of D or BSC 340 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 443 Microbial Genetics **3 Credit hours**
Microbial Genetics covers the essential functions of DNA replication and gene expression in prokaryotic cells. The course includes molecular genetics of bacteria and phages, bioinformatics and discussion of laboratory techniques. Microbial Genetics covers the essential functions of DNA replication and gene expression in prokaryotic cells. The course includes molecular genetics of bacteria and phages, bioinformatics and discussion of laboratory techniques.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 445 Microbial Ecology **3 Credit hours**
This course introduces students to the vital roles that microbes play in sustaining life on earth. Includes both theoretical and practical concepts ranging from the origin of life to biodegradation. This course introduces students to the vital roles that microbes play in sustaining life on earth. Includes both theoretical and practical concepts ranging from the origin of life to biodegradation.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 340 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 448 Introductory Immunology **3 Credit hours**
Comprehensive study of the molecules, cells and processes of the immune system. Also covered are diseases with an immunologic basis and technological applications of immunological principles. Pre: C or better in BSC 121, CHM 212 Comprehensive study of the molecules, cells and processes of the immune system. Also covered are diseases with an immunologic basis and technological applications of immunological principles. Pre: C or better in BSC 121, CHM 212
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 450 Molecular Biology **3 Credit hours**
Advanced principles in molecular function emphasizing current research using recombinant DNA methodology.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 451 Molecular Medicine **3 Credit hours**
Discussion of applications of molecular biology to modern medicine, including diagnostics, treatments, and development of new strategies and interventions.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 454 Princ Adv Techn Mol Biol **3 Credit hours**
Students will gain an understanding of modern molecular biology through standard and novel methods and understand and criticize the published literature.
Pre-req: BSC 322 or BSC 324 or BSC 365 or BSC 450.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 456 Genes and Development **3 Credit hours**
Focuses on mechanisms of complex organismal development including cell specification, morphogenesis, and induction. Genetic manipulations of the model organism Drosophilia will illustrate current information.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 458 Bioinformatics **3 Credit hours**
Discussion of modern computational approaches that help us use and understand massive databases of biological information including DNA, RNA, and protein sequence data. Students will use computational tools to extract information and meaning from real databases.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 344 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 460 Conservation Biology **3 Credit hours**
This course focuses on the North American model of wildlife conservation (and its history), principles of biological diversity, threats to habitats and species of concern, and conservation policy.
Pre-req: BSC 320 with a minimum grade of D or (BSC 121 with a minimum grade of C and (NRE 220 with a minimum grade of D or NRE 320 with a minimum grade of D or NRE 322 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 463 Bioethics **3 Credit hours**
Discussion of ethical issues in scientific research: fraud, informed consent, genetic testing, gene therapy, cloning, new drugs, vaccines and foods produced via engineered organisms. Includes analysis of case studies and communications practices.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 465 Biology of Reptiles **4 Credit hours**
A survey of the reptiles of the world with special emphasis placed on forms resident to West Virginia, including aspects of ecology, physiology, zoogeography, anatomy, taxonomy, and behavior.
Pre-req: BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of C or NRE 323 with a minimum grade of C) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 466 Biology of Amphibians **4 Credit hours**
A survey of the reptiles of the world with special emphasis placed on forms resident to West Virginia, including aspects of ecology, physiology, zoogeography, anatomy, taxonomy, and behavior.
Pre-req: BSC 121 with a minimum grade of C.
Grade Mode: Normal Grading Mode

BSC 480 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 481 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 482 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 483 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required, Natural Sciences
Grade Mode: Credit/No Credit Grade Only

BSC 486 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

BSC 487 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

BSC 488 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

BSC 491 Capstone Experience **2 Credit hours**
A student-driving research or career shadowing experience under a qualified mentor. Must be approved by the Department of Biological Sciences prior to registration.
Attributes: Capstone Course, No Textbook Required, Natural Sciences
Grade Mode: Normal Grading Mode

BSC 501 Ichthyology **4 Credit hours**
Anatomy, physiology, ecology, zoogeography, economic importance and classification of major groups and representative local species of fishes. 2 lec-2 lab and field. Anatomy, physiology, ecology, zoogeography, economic importance and classification of major groups and repre- sentative local species of fishes. 2 lec-2 lab and field.
Grade Mode: Normal Grading Mode

BSC 504 Cellular Physiology **3 Credit hours**
In depth analysis of the physiological and molecular processes that underly the function of cells, using examples from diverse taxa. Focus on biomedical and biotechnological implications.
Grade Mode: Normal Grading Mode

BSC 505 Economic Botany **3 Credit hours**
Plants used by man for food, ornamental purposes, building materials, textiles and other industrial purposes: economic importance of conservation. No laboratory. Plants used by man for food, ornamental purposes, building materials, textiles and other industrial purposes: economic importance of conservation. No laboratory.
Grade Mode: Normal Grading Mode

BSC 506 Herpetology **4 Credit hours**
A survey of the reptiles and amphibians of the world with special emphasis placed on forms resident to West Virginia aspects of zoogeography, anatomy, taxonomy, and behavior. 2 lec-2 lab. A survey of the reptiles and amphibians of the world with special emphasis placed on forms resident to West Virginia aspects of zoogeography, anatomy, taxonomy, and behavior. 2 lec-2 lab.
Grade Mode: Normal Grading Mode

BSC 508 Ornithology **4 Credit hours**
An introduction to avian biology: Identification, distribution, migration and breeding activities of birds. 2 lec-4 lab. An introduction to avian biology: Identification, distribution, migration and breeding activities of birds. 2 lec-4 lab.
Grade Mode: Normal Grading Mode

BSC 509 Mammalogy **4 Credit hours**
A study of the structural features, evolution and classification of the mammals; other topics will include ecology, zoogeography, behavior, reproductive strategies, physiological adaptations to extreme environments and economic aspects. 2 lec-2 lab. A study of the structural features, evolution and classifi- cation of the mammals; other topics will include ecology, zoogeography, behavior, reproductive strategies, physiologi- cal adaptations to extreme environments and economic aspects. 2 lec-2 lab.
Grade Mode: Normal Grading Mode

BSC 510 Remote Sensing/GIS Appl **4 Credit hours**
A study of the physical systems for collecting remotely sensed data. Statistical/spatial analysis and modeling using image processing/ geographic information/spatial computer software systems with earth resources applications. A study of the physical systems for collecting remotely sensed data. Statistical/spatial analysis and modeling using image processing/geographic information/spatial computer software systems with earth resources applications.
Grade Mode: Normal Grading Mode

BSC 511 Dgtl Image Proc/GIS Model **4 Credit hours**
A study of image processing/geographic information/spatial analysis systems, concurrent and parallel image processing 3-D modeling scenarios utilizing geophysical data for computer simulation modeling. A study of image processing/geographic information/spatial analysis systems, concurrent and parallel image processing 3-D modeling scenarios utilizing geophysical data for computer simulation modeling.
Grade Mode: Normal Grading Mode

BSC 513 Prin of Organic Evolution **3 Credit hours**
The facts and possible mechanisms underlying the unity and diversity of life with emphasis on Neo-Darwiniam concepts of the role of species in evolutionary phenomena. The facts and possible mechanisms underlying the unity and diversity of life with emphasis on Neo-Darwiniam concepts of the role of species in evolutionary phenomena.
Grade Mode: Normal Grading Mode

BSC 516 Plant Taxonomy **4 Credit hours**
Identification and classification of seed plants and ferns of eastern United States. Readings in history and principles of taxonomy, rules of nomenclature and related topics. 2 lec-4 lab. Identification and classification of seed plants and ferns of eastern United States. Readings in history and principles of taxonomy, rules of nomenclature and related topics. 2 lec-4 lab.
Grade Mode: Normal Grading Mode

BSC 517 Biostatistics **3 Credit hours**
Statistical skills for biological/biomedical research, with emphasis on applications.Experimental design/survey sampling, estimation/ hypothesis testing procedures, regression, AVONA, multiple comparisons. Implementation using statistical software such as SAS, BMDP. Permission (consistent with MTH 518 description) Statistical skills for biological/biomedical research, with emphasis on applications.Experimental design/survey sampling, estimation/ hypothesis testing procedures, regression, AVONA, multiple comparisons. Implementation using statistical software such as SAS, BMDP. Permission (consistent with MTH 518 description)
Grade Mode: Normal Grading Mode

BSC 520 Plant Physiology **4 Credit hours**
Experimental study of plant life processes to include applicable biophysical and biochemical principles. 2 lec-4 lab. Experimental study of plant life processes to include applicable biophysical and biochemical principles. 2 lec-4 lab.
Grade Mode: Normal Grading Mode

BSC 521 Phycology **4 Credit hours**
Taxonomy and morphology of algae. Techniques used in the study of algae with emphasis upon application of ecological principles to current water quality problems. 2 lec-4 lab. Taxonomy and morphology of algae. Techniques used in the study of algae with emphasis upon application of ecological principles to current water quality problems. 2 lec-4 lab.
Grade Mode: Normal Grading Mode

BSC 522 Animal Physiology **3 Credit hours**
A comparative study of physiological principles in animal cells, organs, and systems. Focus on animal's reactions to their environment, and how comparative physiology applies to natural ecosystems and human health.
Grade Mode: Normal Grading Mode

BSC 524 Animal Parasitology **4 Credit hours**
Morphology, life histories, classification, and host relationships of common parasites. 2 lec-4 lab. Morphology, life histories, classification, and host relationships of common parasites. 2 lec-4 lab.
Grade Mode: Normal Grading Mode

BSC 525 Systematics **3 Credit hours**
Biosystematics is a unifying discipline that combines taxonomy (collecting, describing, and naming organisms), phylogenetics (evolutionary relationships among species), and classification (organization of taxa into groups which ultimately reflect evolutionary relationship. Biosystematics is a unifying discipline that combines taxonomy (collecting, describing, and naming organisms), phylogenetics (evolutionary relationships among species), and classification (organization of taxa into groups which ultimately reflect evolutionary relationship.
Grade Mode: Normal Grading Mode

BSC 528 Neuroscience **3 Credit hours**
The fundamentals of cellular and systems neuroscience, with application towards understanding current research and biomedical problems.
Grade Mode: Normal Grading Mode

BSC 530 Plant Ecology **4 Credit hours**
The study of plants and their interactions with their environment at different levels of ecological organization: individuals, populations, communities, and ecosystems. Emphasis on quantitative analysis of ecological data. The study of plants and their interactions with their environment at different levels of ecological organization: individuals, populations, communities, and ecosystems. Emphasis on quantitative analysis of ecological data.
Grade Mode: Normal Grading Mode

BSC 531 Limnology **4 Credit hours**
The study of inland waters; ecological factors affecting lake and stream productivity and various aquatic communities. 2 lec-4 lab. The study of inland waters; ecological factors affecting lake and stream productivity and various aquatic communities. 2 lec-4 lab.
Grade Mode: Normal Grading Mode

BSC 538 Emerging Infectious Diseases **3 Credit hours**
Introduces students to infections diseases that are either newly emergent or have returned to prominence within the last decade.
Grade Mode: Normal Grading Mode

BSC 543 Microbial Genetics **3 Credit hours**
Microbial Genetics covers the essential functions of DNA replication and gene expression in prokaryotic cells. The course includes molecular genetics of bacteria and phages, bioinformatics and discussion of laboratory techniques. Microbial Genetics covers the essential functions of DNA replication and gene expression in prokaryotic cells. The course includes molecular genetics of bacteria and phages, bioinformatics and discussion of laboratory techniques.
Grade Mode: Normal Grading Mode

BSC 545 Microbial Ecology **3 Credit hours**
This course introduces students to the vital roles that microbes play in sustaining life on earth. Includes both theoretical and practical concepts ranging from the origin of life to biodegradation. This course introduces students to the vital roles that microbes play in sustaining life on earth. Includes both theoretical and practical concepts ranging from the origin of life to biodegradation.
Grade Mode: Normal Grading Mode

BSC 550 Molecular Biology **3 Credit hours**
Advanced principles in molecular function emphasizing current research using recombinant DNA methodology. (PR: BSC 322 or equivalent) Advanced principles in molecular function emphasizing current research using recombinant DNA methodology. (PR: BSC 322 or equivalent)
Grade Mode: Normal Grading Mode

BSC 556 Genes and Development **3 Credit hours**
An in depth study of the genetic mechanisms of complex organismal development including cell specification, induction and morphogenesis. An in depth study of the genetic mechanisms of complex organismal development including cell specification, induction and morphogenesis.
Grade Mode: Normal Grading Mode

BSC 560 Conservation Biology **3 Credit hours**
This course focuses on the North American model of wildlife conservation (and its history), principles of biology diversity, threats to habitats and species of concern, adn conservation policy. Primarily for teachers in the biological sciences, general and applied sciences. Includes fieldwork, seminars, and demonstrations related to conservation. 2 lec-4 lab.
Grade Mode: Normal Grading Mode

BSC 565 Biology of Reptiles **4 Credit hours**
A survey of the reptiles of the world with special emphasis placed on forms resident to West Virginia, including aspects of ecology, physiology, zoogeography, anatomy, taxonomy, and behavior.
Grade Mode: Normal Grading Mode

BSC 566 Biology of Amphibians **4 Credit hours**
A survey of the amphibians of the world with special emphasis placed on forms resident to West Virginia, including aspects of ecology, physiology, zoogeography, anatomy, taxonomy, and behavior.
Grade Mode: Normal Grading Mode

BSC 580 Special Topics **1-4 Credit hours**
(PR: Permission) (PR: Permission)
Grade Mode: Normal Grading Mode

BSC 581 Special Topics **1-4 Credit hours**
(PR: Permission) (PR: Permission)
Grade Mode: Normal Grading Mode

BSC 582 Special Topics **1-4 Credit hours**
(PR: Permission) (PR: Permission)
Grade Mode: Normal Grading Mode

BSC 583 Special Topics **1-4 Credit hours**
(PR: Permission) (PR: Permission)
Grade Mode: Normal Grading Mode

BSC 585 Independent Study **1-4 Credit hours**
(PR: Permission) (PR: Permission)
Grade Mode: Credit/No Credit Grade Only

BSC 586 Independent Study **1-4 Credit hours**
(PR: Permission) (PR: Permission)
Grade Mode: Credit/No Credit Grade Only

BSC 587 Independent Study **1-4 Credit hours**
(PR: Permission) (PR: Permission)
Grade Mode: Credit/No Credit Grade Only

BSC 588 Independent Study **1-4 Credit hours**
(PR: Permission) (PR: Permission)
Grade Mode: Credit/No Credit Grade Only

BSC 601 Vertebrate Embryology **4 Credit hours**
Vertebrate development based on frog, chick and pig embryos. 2 lec-4 lab. Vertebrate development based on frog, chick and pig embryos. 2 lec-4 lab.
Grade Mode: Normal Grading Mode

BSC 608 Plant Growth & Developmnt **4 Credit hours**
Comprehensive advanced study of correlative growth in plants with emphasis on germination, dormancy, growth substances and physiological phenomena associated with phases of development. Comprehensive advanced study of correlative growth in plants with emphasis on germination, dormancy, growth substances and physiological phenomena associated with phases of development.
Grade Mode: Normal Grading Mode

BSC 610 Adv Vert Morphology **3 Credit hours**
AVM is an intensive, laboratory-based course in vertebrate morphology. Core responsibilities include detailed dissection and comparative cranial osteology. Each student must complete an independent dissection project and term paper. AVM is an intensive, laboratory-based course in vertebrate morphology. Core responsibilities include detailed dissection and comparative cranial osteology. Each student must complete an independent dissection project and term paper.
Grade Mode: Normal Grading Mode

BSC 620 Taxonomy Vascular Plants **1-2 Credit hours**
Field studies in the taxonomy of higher plants. (Limited to 4 hours credit per student). Field studies in the taxonomy of higher plants. (Limited to 4 hours credit per student).
Co-req: BSC 622
Grade Mode: Normal Grading Mode

BSC 621 Taxonomy Vascular Plants **1-2 Credit hours**
Field studies in the taxonomy of higher plants. (Limited to 4 hours credit per student). Field studies in the taxonomy of higher plants. (Limited to 4 hours credit per student).
Grade Mode: Normal Grading Mode

BSC 622 Taxonomy Vascular Plants **1-2 Credit hours**
Field studies in the taxonomy of higher plants. (Limited to 4 hours credit per student). Field studies in the taxonomy of higher plants. (Limited to 4 hours credit per student).
Co-req: BSC 620
Grade Mode: Normal Grading Mode

BSC 625 Advanced Physiology **4 Credit hours**
Lecture, current literature and introduction to research in physiological systems. 3 lec-3 lab. Lecture, current literature and introduction to research in physiological systems. 3 lec-3 lab.
Grade Mode: Normal Grading Mode

BSC 631 Animal Ecology **4 Credit hours**
A study of population and behavior ecology; community dynamics and field techniques. 2 lec-4 lab. A study of population and behavior ecology; community dynamics and field techniques. 2 lec-4 lab.
Grade Mode: Normal Grading Mode

BSC 640 Cell Bio & Biotechnology **3 Credit hours**
Broad coverage of applied cell biology, biotechnology with high current interest and utility to the medical, agricultural and commercial product development. Application of DNA technologies for biotech commercialization.
Grade Mode: Normal Grading Mode

BSC 644 Quantitative Ecology **3 Credit hours**
An introduction to statistical analyses using presence absence, mark-recapture, and count data to estimate population parameters, such as occupancy and survival.
Grade Mode: Normal Grading Mode

BSC 648 Landscape Ecology **3 Credit hours**
Landscape ecology is the study of landscapes at multiple scales with a focus on discerning how landscape structure affects ecological processes. Students will learn foundational concepts, methods, and computer applications.
Grade Mode: Normal Grading Mode

BSC 649 Wetland Ecology **3 Credit hours**
Grade Mode: Normal Grading Mode

BSC 650 Special Problems **1-3 Credit hours**
By permission of adviser. By permission of adviser.
Grade Mode: Credit/No Credit Grade Only

BSC 651 Special Problems **1-3 Credit hours**
By permission of adviser. By permission of adviser.
Grade Mode: Credit/No Credit Grade Only

BSC 652 Special Problems **1-3 Credit hours**
By permission of adviser. By permission of adviser.
Grade Mode: Credit/No Credit Grade Only

BSC 660 Seminar I **2 Credit hours**
Topics relevant to preparation for a career in the life sciences including: literature mining and interpretation, scientific ethics, preparation and delivery of scientific presentations, and career development tools. Topics relevant to preparation for a career in the life sciences including: literature mining and interpretation, scientific ethics, preparation and delivery of scientific presentations, and career development tools.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

BSC 661 Topics in Biological Sciences **2 Credit hours**
In depth group discussion of current biological issues. In depth group discussion of current biological issues.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

BSC 662 Seminar II **1 Credit hour**
Oral presentation of individual topics. Oral presentation of individual topics.
Pre-req: BSC 660 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

BSC 679 Problem Report **1-4 Credit hours**
Preparation and completion of a written report from experimental or field research in biological sciences. (PR: permission) Preparation and completion of a written report from experimental or field research in biological sciences. (PR: permission)
Grade Mode: Normal Grading Mode

BSC 680 Special Topics **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

BSC 681 Thesis **1-9 Credit hours**
By permission of adviser. By permission of adviser.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

BSC 716 Adv Cell Phys Nurse Anesthesia **2 Credit hours**
Study of structure amd function of human cells, including protein synthesis, metabolism and reproduction. Study of genetic disorders and anesthesia. Study of anti-cancer drugs. Analyze types and rules of various cell membrane receptors on anesthesia process. Study of structure amd function of human cells, including protein synthesis, metabolism and reproduction. Study of genetic disorders and anesthesia. Study of anti-cancer drugs. Analyze types and rules of various cell membrane receptors on anesthesia process.
Grade Mode: Normal Grading Mode

BSC 717 Adv Ana Phy Path Nurse 1 **3 Credit hours**
Anatomy, Physiology, pathophysiology and anesthetic considerations related to the respiratory and renal systems.
Grade Mode: Normal Grading Mode

BSC 718 Adv Ana Phy Path Nurse 2 **3 Credit hours**
Anatomy, physiology, pathophysiology and anesthetic considerations related to the cardiovascular system.
Grade Mode: Normal Grading Mode

BSC 719 Adv Ana Phy Path Nurse 3 **3 Credit hours**
Anatomy, physiology, pathophysiology and anesthetic considerations related to the nervous and endocrine systems.
Grade Mode: Normal Grading Mode

Chemistry

CHM 109 Chemistry in the Home **4 Credit hours**
An introduction to basic concepts of chemical science as it applies to materials commonly found within the household. Students will be expected to learn to evaluate potential hazards of such materials.
Pre-req: MTH 121 or MTH 121B or MTH 121H or MTH 125 or MTH 127 or MTH 130 or MTH 130H or MTH 131 or MTH 132 or MTH 140 or MTH 190 or MTH 203 or MTH 220 or STA 225 or MTH 225 or MTH 229 or MTH 229H.
Attributes: Core II Natural Sciences
Grade Mode: Normal Grading Mode

CHM 111 Foundations of Chemistry **3 Credit hours**
This course will introduce students to basic chemical facts and concepts. Topics will include units, dimensional analysis, nomenclature, solutions, atomic structure, and stoichiometry. This course will introduce students to basic chemical facts and concepts. Topics will include units, dimensional analysis, nomenclature, solutions, atomic structure, and stoichiometry.
Pre-req: MTH 127 with a minimum grade of C or ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530 or MTH 130 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 205 General, Organic, and Biochem **3 Credit hours**
Introductory course for health professions students and non-science majors covering basic chemical principles with applications in organic chemistry and biochemistry.
Grade Mode: Normal Grading Mode

CHM 211 Principles of Chemistry I **3 Credit hours**
A study of the properties of materials and their interactions with each other. Development of theories and applications of the principles of energetics, dynamics and structure. Intended primarily for science majors and preprofessional students. 3 lec.
Pre-req: (ACT Math with a score of 23 or SAT Mathematics Before Mar. 16 with a score of 540 or SAT MATH SECTION SCORE with a score of 570 or Placement Chemistry with a score of 211 or CHM 111 with a minimum grade of C) and CHM 217 (may be taken concurrently).
Concurrent PR: CHM 217
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

CHM 212 Principles Chemistry II **3 Credit hours**
A continuation of chemistry 211 with emphasis on the inorganic chemistry of the representative elements and transition metals. 3 lec. A continuation of chemistry 211 with emphasis on the inorganic chemistry of the representative elements and transition metals. 3 lec.
Pre-req: (CHM 211 with a minimum grade of C and (CHM 218 (may be taken concurrently) with a minimum grade of D or CHM 218H (may be taken concurrently) with a minimum grade of D).
Concurrent PR: CHM 218 or CHM 218H
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

CHM 217 Principles of Chem Lab I **2 Credit hours**
A laboratory course that demonstrates the application of concepts introduced in Chemistry 211.
Pre-req: CHM 211 (may be taken concurrently).
Concurrent PR: CHM 211
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

CHM 218 Principles of Chem Lab II **2 Credit hours**
A laboratory course that demonstrates the application of concepts introduced in Chemistry 212.
Pre-req: CHM 212 (may be taken concurrently).
Concurrent PR: CHM 212
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

CHM 218H Prin Chem Honor Lab II **2 Credit hours**
An advanced laboratory class designed for Principles of Chemistry II students. This lab will introduce students to concepts and/or techniques important to later laboratory classes and research. An advanced laboratory class designed for Principles of Chemistry II students. This lab will introduce students to concepts and/or techniques important to later laboratory classes and research.
Pre-req: Admitted Honors College with a score of 1.
Co-req: CHM 212
Attributes: Honors, Natural Sciences
Grade Mode: Normal Grading Mode

CHM 280 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 281 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 282 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 283 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 291H Honors in Chemistry **1-4 Credit hours**
Independent study or undergraduate research project for outstanding students. Independent study or undergraduate research project for outstanding students.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 305 Research Methods Chem **1 Credit hour**
A course concerning the searching and use of the chemical literature, ethical issues relating to the conduct of scientific research, proposal writing, scientific presentations, and proper scientific laboaratory conduct.
Pre-req: CHM 356 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 327 Intro Organic Chemistry **3 Credit hours**
A one semester introduction to organic chemistry emphasizing structure, nomenclature, and reactivity. (Cannot fulfill an upper division chemistry elective.)
Pre-req: CHM 212 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 331 Chemistry Seminar **0 Credit hours**
Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research. Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research.
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

CHM 332 Chemistry Seminar **0 Credit hours**
Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research. Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research.
Attributes: No Textbook Required, Natural Sciences
Grade Mode: Credit/No Credit Grade Only

CHM 345 Intro to Analytical Chem **4 Credit hours**
An introduction to basic techniques of analytical chemistry and data analysis through statistical procedures. Traditional wet and contemporary instrumental methods are covered with an emphasis on experimental care and craftsmanship. An introduction to basic techniques of analytical chemistry and data analysis through statistical procedures. Traditional wet and contemporary instrumental methods are covered with an emphasis on experimental care and craftsmanship.
Pre-req: CHM 212 with a minimum grade of C and (CHM 218 with a minimum grade of C or CHM 218H with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 355 Organic Chemistry I **3 Credit hours**
A systematic study of organic chemistry including modern structural theory, spectroscopy, and stereochemistry; application of these topics to the study of reactions and their mechanisms and applications to synthesis. 3 lec. No individual may make more than 3 attempts at CHM 355 (i.e., any combination of three W, D, F or NC grades will preclude the individual from future registration).
Pre-req: CHM 212 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 356 Organic Chemistry II **3 Credit hours**
Continuation of Chemistry 355. 3 lec. Continuation of Chemistry 355. 3 lec.
Pre-req: CHM 355 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 357 Physical Chemistry: Quantum **4 Credit hours**
A study of quantum mechanics applied to atomic structure, chemical bonding, and spectroscopy. 3 lec.-2 lab.
Pre-req: CHM 212 with a minimum grade of C and (MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C) and (PHY 211 with a minimum grade of C or PHY 201 with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 358 Physical Chemistry: Thermo. **4 Credit hours**
A study of chemical thermodynamics, equilibrium, and kinetics. 3 lec.-2 lab.
Pre-req: CHM 212 with a minimum grade of C and (MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C) and (PHY 211 with a minimum grade of C or PHY 201 with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 361 Intro Organic Chm Lab **3 Credit hours**
An introduction to of experimental organic chemistry with emphasis on fundamental techniques and their application to the preparation and identification of organic compounds. 6 lab. An introduction to of experimental organic chemistry with emphasis on fundamental techniques and their application to the preparation and identification of organic compounds. 6 lab.
Pre-req: CHM 356 (may be taken concurrently).
Concurrent PR: CHM 356
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 361H Intro Honors Organic Chem Lab **3 Credit hours**
This laboratory will introduce students to advanced concepts and techniques in organic synthesis and spectroscopy. It requires students to engage in an independent synthetic project from the chemical literature.
Pre-req: CHM 356 (may be taken concurrently) and Admitted Honors College with a score of 1.
Concurrent PR: CHM 356
Attributes: Honors
Grade Mode: Normal Grading Mode

CHM 365 Introductory Biochemistry **3 Credit hours**
A survey course including introduction to basic biochemical concepts, metabolic pathways, and bioenergetics. 3 lec. A survey course including introduction to basic biochemical concepts, metabolic pathways, and bioenergetics. 3 lec.
Pre-req: CHM 327 with a minimum grade of C or CHM 356 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 366 Intro Biochemistry Lab **2 Credit hours**
Introduction to basic biochemical laboratory techniques including chromatography, electrophoresis, and enzyme kinetics; methods for identification and characterization of biochemical systems. 4 lab.
Pre-req: CHM 365 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 390H Honors in Chemistry **1-4 Credit hours**
Independent study or undergraduate research project for outstanding students. Independent study or undergraduate research project for outstanding students.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Honors, Natural Sciences
Grade Mode: Normal Grading Mode

CHM 391H Honors in Chemistry **1-4 Credit hours**
Independent study or undergraduate research project for outstanding students. Independent study or undergraduate research project for outstanding students.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 401 Research for Undergrad **1-4 Credit hours**
Students engage in research project in collaboration with a faculty member. Students engage in research project in collaboration with a faculty member.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 411 Modern Instrument Methods **4 Credit hours**
This course investigates the theory and functional aspects of modern analytical instrumentation. Emphasis is placed on the components of instruments and the applicability of various techniques to specific analytical problems. This course investigates the theory and functional aspects of modern analytical instrumentation. Emphasis is placed on the components of instruments and the applicability of various techniques to specific analytical problems.
Pre-req: CHM 356 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 423 Environ Analytical Chemistry **4 Credit hours**
Sampling and modern instrumental analysis of water, air and sediments according to EPA methodology. May be used to fulfill the American Chemical Society Environmental Chemistry certification. (PR: C or better in CHM 345). Sampling and modern instrumental analysis of water, air and sediments according to EPA methodology. May be used to fulfill the American Chemical Society Environmental Chemistry certification. (PR: C or better in CHM 345).
Pre-req: CHM 345 with a minimum grade of C and CHM 307 or CHM 358.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 428 Intro Forensic Methods **3 Credit hours**
Introduction to crime scene investigation, physical evidence collection, serology and DNA technologies (PCR, RFLP). Discussion of statistical analysis of DNA and managing a DNA database, using CODIS as an example.
Pre-req: CHM 365 and (BSC 322 or BSC 324).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 431 Chemistry Seminar **0 Credit hours**
Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research. Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research.
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

CHM 432 Chemistry Seminar **0 Credit hours**
Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research. Students also present an oral and written presentation of their capstone experience. Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research. Students also present an oral and written presentation of their capstone experience.
Pre-req: CHM 490 or CHM 491.
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

CHM 443 Protein Biotechnology **3 Credit hours**
Discussion covers basics of protein structure and function, post-translational modification and transport simple immunology. Laboratories include protein quantitation, enzyme kinetics, protein purification and dialysis protein gel electrophoresis and staining.
Pre-req: BSC 120 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CHM 448 Adv Inorganic Chemistry I **4 Credit hours**
Study of physical properties and periodic relationships of inorganic materials. 3 lec, 2 lab.
Pre-req: CHM 356 with a minimum grade of C and (CHM 357 with a minimum grade of C or CHM 358 with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 451 Biological Mass Spectrometry **4 Credit hours**
This course investigates the theory and applications of mass spectrometry. It includes a laboratory component in which you will learn to run the mass spectrometers and interpret mass spectral results.
Pre-req: CHM 356 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CHM 465 Adv Organic Chemistry I **3 Credit hours**
Studies of the dynamics of organic reactions with emphasis on mechanisms and stereochemistry. 3 lec.
Pre-req: CHM 356 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 466 Adv Organic Chemistry II **3 Credit hours**
A continuation of Chemistry 465 with emphasis on synthetic methods. 3 lec. A continuation of Chemistry 465 with emphasis on synthetic methods. 3 lec.
Pre-req: CHM 356 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 467 Intermediate Biochemistry **3 Credit hours**
An intermediate level discussion of the biochemistry of mammalian cells.
Pre-req: CHM 365 with a minimum grade of C or BSC 365 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 478 Appl Microscopy in Research **4 Credit hours**
A combined lecture/lab/self-motivated research course that results in a microscopy based project to be presented by each student in a public forum (may augment capstone). A combined lecture/lab/self-motivated research course that results in a microscopy based project to be presented by each student in a public forum (may augment capstone).
Grade Mode: Normal Grading Mode

CHM 480 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 481 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 482 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 483 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 485 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 486 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 490 Internship **1-6 Credit hours**
Students engage in supervised chemical laboratory work in a professional setting. Students engage in supervised chemical laboratory work in a professional setting.
Pre-req: CHM 305.
Attributes: Capstone Course, Natural Sciences
Grade Mode: Normal Grading Mode

CHM 491 Capstone Experience **2-4 Credit hours**
Students engage in a collaborative research project with a faculty member. Students engage in a collaborative research project with a faculty member.
Pre-req: CHM 305.
Attributes: Capstone Course, Natural Sciences
Grade Mode: Normal Grading Mode

CHM 495H Honors in Chemistry **3-4 Credit hours**
Open only to chemistry majors of outstanding ability. Open only to chemistry majors of outstanding ability.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 511 Modern Instrument Methods **4 Credit hours**
This course investigates the theory and functional aspects of modern analytical instrumentation. Emphasis is placed on the components of instruments and the applicability of various techniques to specific analytical problems. This course investigates the theory and functional aspects of modern analytical instrumentation. Emphasis is placed on the components of instruments and the applicability of various techniques to specific analytical problems.
Pre-req: CHM 307 with a minimum grade of C or CHM 357 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CHM 540 Thermodynamics **3 Credit hours**
An introduction to chemical thermodynamics and statistical mechanics. 3 lec. An introduction to chemical thermodynamics and statistical mechanics. 3 lec.
Grade Mode: Normal Grading Mode

CHM 542 Quantum Mechanics **3 Credit hours**
An introductory course in quantum mechanics. 3 lec. An introductory course in quantum mechanics. 3 lec.
Grade Mode: Normal Grading Mode

CHM 548 Adv Inorganic Chemistry I **4 Credit hours**
Study of physical and chemical properties and periodic relationships of inorganic materials. 3 lec, 2 lab (PR: CHM 356, CHM 307, or CHM 357) Study of physical and chemical properties and periodic relationships of inorganic materials. 3 lec, 2 lab (PR: CHM 356, CHM 307, or CHM 357)
Grade Mode: Normal Grading Mode

CHM 549 Adv Inorganic Chem II **3 Credit hours**
A detailed consideration of bonding, structure, reaction rates and equilibrium involving inorganic materials. 3 lec. A detailed consideration of bonding, structure, reaction rates and equilibrium involving inorganic materials. 3 lec.
Grade Mode: Normal Grading Mode

CHM 551 Biological Mass Spectrometry **4 Credit hours**
This course investigates the theory and applications of mass spectrometry. It includes a laboratory component in which you will learn to run the mass spectrometers and interpret mass spectral results.
Grade Mode: Normal Grading Mode

CHM 565 Adv Organic Chemistry I **3 Credit hours**
Studies of the dynamics of organic reactions with emphasis on mechanisms and stereo chemistry. 3 lec. Studies of the dynamics of organic reactions with emphasis on mechanisms and stereo chemistry. 3 lec.
Grade Mode: Normal Grading Mode

CHM 566 Adv Organic Chemistry II **3 Credit hours**
A continuation of Chemistry 565 with emphasis on synthetic methods. 3 lec. A continuation of Chemistry 565 with emphasis on synthetic methods. 3 lec.
Pre-req: CHM 565.
Grade Mode: Normal Grading Mode

CHM 567 Intermediate Biochemistry **3 Credit hours**
A survey course including introduction to basic biochemical concepts, bioenergetics, and information transfer. A survey course including introduction to basic biochemical concepts, bioenergetics, and information transfer.
Pre-req: CHM 365 with a minimum grade of C or BSC 365 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CHM 580 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CHM 581 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CHM 582 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CHM 583 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CHM 585 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CHM 586 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CHM 587 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CHM 588 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CHM 604 Theories Analytical Chem **2 Credit hours**
Offered on demand. Offered on demand.
Pre-req: CHM 556.
Grade Mode: Normal Grading Mode

CHM 607 Theoretical Organic Chem **2 Credit hours**
The application of quantitative methods to problems in structure and dynamics. 2 lec. The application of quantitative methods to problems in structure and dynamics. 2 lec.
Pre-req: CHM 565.
Grade Mode: Normal Grading Mode

CHM 618 Kinetics **3 Credit hours**
An advanced study of reaction rates and mechanisms. An advanced study of reaction rates and mechanisms.
Grade Mode: Normal Grading Mode

CHM 628 Special Topics-Inorganic **1-3 Credit hours**
Offered on demand. Offered on demand.
Grade Mode: Normal Grading Mode

CHM 629 Special Topics-Organic **1-3 Credit hours**
Offered on demand. Offered on demand.
Grade Mode: Normal Grading Mode

CHM 630 Special Topics-Physical **1-3 Credit hours**
Offered on demand. Offered on demand.
Grade Mode: Normal Grading Mode

CHM 631 Seminar **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CHM 632 Seminar **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CHM 678 Applied Micr in Research **4 Credit hours**
A combined lecture/lab/self-motivated research course that results in a microscopy based project to be presented by each student at an open forum (can augment thesis project). A combined lecture/lab/self-motivated research course that results in a microscopy based project to be presented by each student at an open forum (can augment thesis project).
Grade Mode: Normal Grading Mode

CHM 679 Problem Report **3 Credit hours**
Preparation of a comprehensive written report on a topic in Chemistry of current importance. Registration only by permission of Department. Preparation of a comprehensive written report on a topic in Chemistry of current importance. Registration only by permission of Department.
Grade Mode: Normal Grading Mode

CHM 682 Research **1-12 Credit hours**
Credit in the course is earned by pursuing a directed original investigation in a field of chemistry. Twelve semester hours credit in research are applied toward the M.S. degree. Students may sign for one or more credit hurs per semester depending upon the time to be spent on research. A grade of PR may be reported at the close of each term or semester. Credit in the course is earned by pursuing a directed original investigation in a field of chemistry. Twelve semester hours credit in research are applied toward the M.S. degree. Students may sign for one or more credit hurs per semester depending upon the time to be spent on research. A grade of PR may be reported at the close of each term or semester.
Attributes: Thesis
Grade Mode: Normal Grading Mode

CHM 685 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled classes. Individual study of topics not offered in regularly scheduled classes.
Grade Mode: Normal Grading Mode

CHM 686 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled classes. Individual study of topics not offered in regularly scheduled classes.
Grade Mode: Normal Grading Mode

CHM 687 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled classes. Individual study of topics not offered in regularly scheduled classes.
Grade Mode: Normal Grading Mode

CHM 688 Independent Study **1-4 Credit hours**
Individual studt of topics not offered in regularly scheduled classes. Individual studt of topics not offered in regularly scheduled classes.
Grade Mode: Normal Grading Mode

CHM 723 Chemistry and Physics **3 Credit hours**
Scientific prinicples and clinical application of properties of matter, gas laws, vaporization, fluid dynamics, explosion hazards, electrical safety, acid-base balance, blood gas analysis, biochemistry in anesthesia, mechanisms of narcosis. Analyze the molecular basis for molecular bonding, stereochemistry, protein confirmation, enzyme-substrate reactions.
Grade Mode: Normal Grading Mode

Physics

PHY 101 Conceptual Physics **3 Credit hours**
Introduces nonscience majors to applications of physics in life. Emphasizes conceptual understanding of basic principles in classical and modern physics. Recommended for science students with no high school physics.
Pre-req: (MTH 121 with a minimum grade of D or MTH 127 with a minimum grade of D or MTH 130 with a minimum grade of D or MTH 130E with a minimum grade of D or MTH 132 with a minimum grade of D or MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D or MTH 203 with a minimum grade of D or MTH 121B with a minimum grade of D) or MTH 130H with a minimum grade of D and PHY 101L (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 101L
Co-req: PHY 101L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 101L Conceptual Physics Lab **1 Credit hour**
Conceptual Physics Laboratory. A laboratory course designed to include the principles and applications of physics that are introduced in Physics 101. (CR: PHY 101) 2 lab. Conceptual Physics Laboratory. A laboratory course designed to include the principles and applications of physics that are introduced in Physics 101. (CR: PHY 101) 2 lab.
Co-req: PHY 101
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 190 Overview of Physics (CT) **3 Credit hours**
An algebra-based overview of well-established topics studied as part of a major in physics, including classical physics, special relativity, quantum mechanics, particle physics, and cosmology.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

PHY 201 College Physics I **3 Credit hours**
First half of an introduction to physics for life-science students, using algebra and trigonometry, including kinematics and dynamics, force, energy, rotation, fluids, waves, and therma phenomena.
Pre-req: (MTH 127 with a minimum grade of D and MTH 122 with a minimum grade of D) or (MTH 130 with a minimum grade of D and MTH 122 with a minimum grade of D) or MTH 132 with a minimum grade of D or (MTH 140 with a minimum grade of D and MTH 122 with a minimum grade of D) or MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D or MTH 140H with a minimum grade of D and PHY 202 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 202
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 202 General Physics I Laboratory **1 Credit hour**
Laboratory to accompany PHY 201 or PHY 211, focusing on mechanics concepts and applications.
Pre-req: PHY 201 (may be taken concurrently) with a minimum grade of D or PHY 211 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 201 or PHY 211
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 203 College Physics II **3 Credit hours**
Second half of an introduction to physics for life-science students, using algebra and trigonometry, including electric and magnetic fields, circuits, geometrical and physical optics, atomic and nuclear physics.
Pre-req: (PHY 201 with a minimum grade of C and PHY 202 with a minimum grade of C) and PHY 204 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: PHY 204
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 204 General Physics 2 Laboratory **1 Credit hour**
Laboratory to accompany PHY 203 or PHY 213, focusing on classical E&M, circuits, and optics.
Pre-req: (PHY 203 (may be taken concurrently) with a minimum grade of D or PHY 213 (may be taken concurrently) with a minimum grade of D).
Concurrent PR: PHY 203 or PHY 213
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 211 University Physics I **4 Credit hours**
First half of an introduction to physics for physical science and engineering students, using calculus, and including kinematics and dynamics, force, energy, rotation, fluids, waves, and thermal phenomena.
Pre-req: (MTH 229 (may be taken concurrently) with a minimum grade of D or MTH 229H (may be taken concurrently) with a minimum grade of D) and PHY 202 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: (MTH 229 or MTH 229H) and PHY 202
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 213 University Physics II **4 Credit hours**
Second half of an introduction to physics for physical science or engineering students, using calculus, including electric and magnetic fields, circuits, geometrical and physical optics, atomic and nuclear physics.
Pre-req: MTH 230 (may be taken concurrently) and PHY 204 (may be taken concurrently) and (PHY 201 with a minimum grade of C or PHY 211 with a minimum grade of C) and PHY 202.
Concurrent PR: MTH 230 and PHY 204
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 214 Lab Methods in Physics **1 Credit hour**
A laboratory course to accompany Physics 211-213. 3 lab. A laboratory course to accompany Physics 211-213. 3 lab.
Pre-req: PHY 213 (may be taken concurrently).
Concurrent PR: PHY 213
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 222 Investigate the Universe **2 Credit hours**
A creative laboratory course designed to give students an opporutnity to work with modern research equipment, with ample time to conduct experiments and/or investigate phenomenae of their choosing.
Pre-req: (MTH 122 and MTH 127) or (MTH 122 and MTH 130) or MTH 132.
Grade Mode: Normal Grading Mode

PHY 261 Enhancement for Physics I **1 Credit hour**
Additional aspects in mechanics (calculus, array vectors and matrices, distributions), to make College Physics 1 equivalent to University Physics 1.
Pre-req: PHY 201 with a minimum grade of C or MTH 229 with a minimum grade of C.
Grade Mode: Normal Grading Mode

PHY 263 Enhancement for Physics II **1 Credit hour**
Additional aspects in E&M and Optics, Modern Physics, (calculus and multipole functions) to make College Physics 2 equivalent to University Physics 2.
Grade Mode: Normal Grading Mode

PHY 280 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 281 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 300 Electricity & Magnetism **3 Credit hours**
A course including the study of electrostatics, magnetostatics, electromagnetic induction, introduction to Maxwell's equations and electromagnetic waves. 3 lec. A course including the study of electrostatics, magneto- statics, electromagnetic induction, introduction to Maxwell's equations and electromagnetic waves. 3 lec.
Pre-req: (PHY 203 or PHY 213) and MTH 231.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 302 Electricity & Magnetism II **3 Credit hours**
A study of Maxwell's equations and electromagnetic waves, radiation theory, optical phenomena, and electrodynamics. 3 lec. A study of Maxwell's equations and electromagnetic waves, radiation theory, optical phenomena, and electrodynamics. 3 lec.
Pre-req: PHY 300.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 304 Optics **3 Credit hours**
An intermediate course in geometrical and physical optics. 3 lec. An intermediate course in geometrical and physical optics. 3 lec.
Pre-req: (PHY 203 or PHY 213) and (PHY 405 (may be taken concurrently) or PHY 505 (may be taken concurrently)).
Concurrent PR: PHY 405 or PHY 505
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 308 Thermal Physics **3 Credit hours**
A study of thermodynamics, kinetic theory of gases, and an introduction to statistical mechanics 3 lec.
Pre-req: (PHY 203 or PHY 213) and MTH 231.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 314 Electronic Physics **3 Credit hours**
A study of transistors, integrated circuits and their associated circuits. 3 lec. A study of transistors, integrated circuits and their associated circuits. 3 lec.
Pre-req: PHY 203 with a minimum grade of D or PHY 213 with a minimum grade of D and PHY 415 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 415
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 320 Intro Modern Physics **3 Credit hours**
An introductory study of atomic and molecular theories, relativity, quantum theory, and nuclear physics. 3 lec. An introductory study of atomic and molecular theories, relativity, quantum theory, and nuclear physics. 3 lec.
Pre-req: MTH 230 and (PHY 203 or PHY 213).
Co-req: PHY 421
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 330 Mechanics **3 Credit hours**
An intermediate study of the fundamental principles of statics of particles and rigid bodies, momentum and energy, dynamics of particles, harmonic oscillations, and wave motion. 3 lec. An intermediate study of the fundamental principles of statics of particles and rigid bodies, momentum and energy, dynamics of particles, harmonic oscillations, and wave motion. 3 lec.
Pre-req: MTH 231 and (PHY 203 or PHY 213).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 340 Scientific Computing **3 Credit hours**
Introduction to some of the most important tools and techniques in scientific computing, including object-oriented design, version control, and MPI for high-performance computing.
Pre-req: MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D or IST 163 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHY 350 Biological Physics **3 Credit hours**
Physical principles underlying the mechanisms by which living organisms survive, adapt, grow. Will enhance writing skills and strategies. 2 lec - 2 lab. (PR: PHY 203 or 213, and PHY 204)
Pre-req: PHY 203 (may be taken concurrently) or PHY 213 (may be taken concurrently) and PHY 204.
Concurrent PR: PHY 203 or PHY 213
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 360 Medical Physics **3 Credit hours**
Physical principles applied to devise methods for diagnostic and treatment of the human body. Will enhance writing skills and strategies.
Pre-req: (PHY 203 with a minimum grade of D or PHY 213 with a minimum grade of D) and PHY 204 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHY 405 Optics Lab **2 Credit hours**
A course in optical experiments encompassing geometrical and physical optics. This course is to be taken with Physics 304.
Pre-req: PHY 304 (may be taken concurrently).
Concurrent PR: PHY 304
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 408 Thermal Stat Physics **3 Credit hours**
Introduction to Thermodynamics, kinetic theory of gases, classical and quantum statistical mechanics, Bose-Einstein and Fermi-Dirac statistics, and application. 3 lec.
Pre-req: MTH 231 with a minimum grade of D and (PHY 203 with a minimum grade of D and PHY 213 with a minimum grade of D).
Grade Mode: Normal Grading Mode

PHY 415 Electronics Lab **2 Credit hours**
A course in laboratory measurements encompassing transistors, integrated circuits, and their associated circuits. This course is to be taken with Physics 314.
Pre-req: PHY 314 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 314
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 420 Astrophysics **3 Credit hours**
A detailed study of core problems in Astrophysics such as orbital dynamics, radiation processes, stellar structure and evolution, galactic dynamics, and cosmology.
Pre-req: PHY 213 with a minimum grade of D and MTH 231 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHY 421 Modern Physics Lab **2 Credit hours**
Laboratory exercises on modern physics topics encompassing both experiments of historic significance and current applications. To be taken with Physics 320, or equivalent.
Co-req: PHY 320
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 425 Solid State Physics **3 Credit hours**
The course provides a broad introduction to the structure and physical properties of solids. It also serves as a basis for advanced courses in solid state and condensed matter physics. The course provides a broad introduction to the structure and physical properties of solids. It also serves as a basis for advanced courses in solid state and condensed matter physics.
Pre-req: PHY 320 or PHY 442 or CHM 442.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 435 Computational Physics **3 Credit hours**
A course on using numerical methods and computer programming languages for solving complex physics problems and for the simulation of various physical processes. 2 lec-2 lab.
Pre-req: PHY 213 with a minimum grade of D and PHY 330 with a minimum grade of D and (PHY 445 with a minimum grade of D or PHY 446 with a minimum grade of D) and MTH 231 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHY 442 Quantum Mechanics **3 Credit hours**
A study of waves and particles, the Schroedinger and Heisenberg formulations, particles in potential fields, scattering and perturbation theories, and application to atomic and nuclear structure. 3 lec. A study of waves and particles, the Schroedinger and Heisenberg formulations, particles in potential fields, scattering and perturbation theories, and application to atomic and nuclear structure. 3 lec.
Pre-req: MTH 335 and PHY 330.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 443 Quantum Mechanics II **3 Credit hours**
This is the second part of a two-semester introduction to quantum mechanics. Emphasis is on applications of quantum theory including approximation techniques and the study of more realistic quantum systems. This is the second part of a two-semester introduction to quantum mechanics. Emphasis is on applications of quantum theory including approximation techniques and the study of more realistic quantum systems.
Pre-req: PHY 442 with a minimum grade of D or CHM 442 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHY 444 Advanced Laboratory **2 Credit hours**
Developments in producing and detecting correlated photon pairs has enabled implementation of undergraduate laboratories demonstrating fundamental quantum mechanical principles. This laboratory also incorporates fundamental solid state and materials science experiments.
Pre-req: PHY 425 (may be taken concurrently) and PHY 442 (may be taken concurrently).
Concurrent PR: PHY 425 and PHY 442
Co-req: PHY 425, PHY 442
Grade Mode: Normal Grading Mode

PHY 445 Math Methods of Physics **3 Credit hours**
An introduction to theory of orthogonal functions, curvilinear coordinate systems, vector and tensor fields, and their applications in physics. Problems are drawn from different areas of physics. 3 lec. An introduction to theory of orthogonal functions, curvilinear coordinate systems, vector and tensor fields, and their applications in physics. Problems are drawn from different areas of physics. 3 lec.
Pre-req: PHY 203 or PHY 213 and MTH 231.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 446 Math Methods of Physics II **3 Credit hours**
A second semester of a full year course on methods of solving problems in physics: calculus of variations, ordinary and partial differential equations, and special functions with real physics problems.
Pre-req: PHY 445.
Grade Mode: Normal Grading Mode

PHY 447 Mechanics for Teachers **4 Credit hours**
An indepth study of mechanics for education majors specializing in Physics with emphasis on problem solving techniques, demonstrations, experiments and computer applications. (PR: PHY 203, MTH 122 and MTH 140) An indepth study of mechanics for education majors specializing in Physics with emphasis on problem solving techniques, demonstrations, experiments and computer applications. (PR: PHY 203, MTH 122 and MTH 140)
Pre-req: PHY 203 or PHY 213.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 480 Special Topics **2-4 Credit hours**
By permission of department chairman. By permission of department chairman.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 481 Special Topics **1-4 Credit hours**
By permission of department chairman. By permission of department chairman.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 482 Special Topics **1-4 Credit hours**
By permission of department chairman. By permission of department chairman.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 483 Special Topics **1-4 Credit hours**
By permission of department chairman. By permission of department chairman.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 485 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 486 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required, Natural Sciences
Grade Mode: Normal Grading Mode

PHY 487 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 488 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 491 Capstone **1-2 Credit hours**
To give a capstone expeience to physics majors in their junior or senior years by applying the principles of physics to the solution of real life problems. (PR: CSD 203, or 218 and lab). To give a capstone expeience to physics majors in their junior or senior years by applying the principles of physics to the solution of real life problems. (PR: CSD 203, or 218 and lab).
Attributes: Capstone Course, Natural Sciences
Grade Mode: Normal Grading Mode

PHY 492 Capstone **1-2 Credit hours**
To give a capstone experience to physics majors in their junior or senior years by applying the principles of physics to the solution of real life problems. (PR: PHY 491) To give a capstone experience to physics majors in their junior or senior years by applying the principles of physics to the solution of real life problems. (PR: PHY 491)
Pre-req: PHY 491 with a minimum grade of D.
Attributes: Capstone Course, No Textbook Required, Natural Sciences
Grade Mode: Normal Grading Mode

PHY 505 Optics Lab **2 Credit hours**
A course in optical experiments encompassing geometrical and physical optics. This course is to be taken with Physics 304.
Pre-req: PHY 304 (may be taken concurrently).
Concurrent PR: PHY 304
Grade Mode: Normal Grading Mode

PHY 508 Thermal and Stat Physics **3 Credit hours**
Introduction to Thermodynamics, kinetic theory of gases, classical and quantum statistical mechanics, Bose-Einstein and Fermi-Dirac statistics, and application. 3 cr. lec.
Grade Mode: Normal Grading Mode

PHY 515 Electronics Lab **2 Credit hours**
A course in laboratory measurements encompassing transistors, integrated circuits, and their associated circuits. This course is to be taken with Physics 314.
Grade Mode: Normal Grading Mode

PHY 520 Astrophysics **3 Credit hours**
A detailed study of core problems in Astrophysics such as orbital dynamics, radiation processes, stellar structure and evolution, galactic dynamics, and cosmology.
Grade Mode: Normal Grading Mode

PHY 521 Modern Physics Lab **2 Credit hours**
Laboratory exercises on modern physics topics encompassing both experiments of historic significance and current applications. To be taken with Physics 320, or equivalent.
Grade Mode: Normal Grading Mode

PHY 525 Solid State Physics **3 Credit hours**
The purpose of this course is to provide a broad introduction to the structures and physical properties of solids, which are of extraordinary importance in the modern world. The purpose of this course is to provide a broad introduction to the structures and physical properties of solids, which are of extraordinary importance in the modern world.
Grade Mode: Normal Grading Mode

PHY 535 Computational Physics **3 Credit hours**
A course in using numerical methods and computer programming languages for solving complex physics problems and for the simulation of various physical processes. 2 lec-2 lab.
Grade Mode: Normal Grading Mode

PHY 542 Quantum Mechanics **3 Credit hours**
Mathematical formalism of quantum mechanics, particles in potential fields, perturbation theory and other approximation methods, scattering, applications to simple systems. 3 lec. Mathematical formalism of quantum mechanics, particles in potential fields, perturbation theory and other approxima- tion methods, scattering, applications to simple systems. 3 lec.
Grade Mode: Normal Grading Mode

PHY 543 Quantum Mechanics II **3 Credit hours**
This is the second part of a two-semester introduction to quantum mechanics. Emphasis is on applications of quantum theory including approximation techniques and the study of more realistic quantum systems. This is the second part of a two-semester introduction to quantum mechanics. Emphasis is on applications of quantum theory including approximation techniques and the study of more realistic quantum systems.
Grade Mode: Normal Grading Mode

PHY 544 Advanced Lab **2 Credit hours**
Developments in producing and detecting correlated photon pairs has enabled implementation of undergraduate laboratories demonstrating fundamental quantum mechanical principles. This laboratory also incorporates fundamental solid state and materials science experiments.
Pre-req: PHY 525 (may be taken concurrently) with a minimum grade of D and PHY 542 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 525 and PHY 542
Grade Mode: Normal Grading Mode

PHY 545 Math Methods of Physics **3 Credit hours**
An introduction to the theory of orthogonal functions, curvilinear coordinate systems, vector and tensor fields and their applications in Physics. Problems are drawn from different areas of physics. 3 lec. An introduction to the theory of orthogonal functions, curv- ilinear coordinate systems, vector and tensor fields and their applications in Physics. Problems are drawn from different areas of physics. 3 lec.
Grade Mode: Normal Grading Mode

PHY 546 MTH Methods of Physics II **3 Credit hours**
A second semester of a full year course on methods of solving problems in physics: calculus of variations, ordinary partial differential equations and special functions with real physics problems.
Pre-req: PHY 545.
Grade Mode: Normal Grading Mode

PHY 547 Mechanics for Teachers **4 Credit hours**
An indepth study of mechanics for education majors specializing in Physics with emphasis on problem solving techniques, demonstrations, experiments and computer applications. (PR: PHY 203, MTH 122 and MTH 140) An indepth study of mechanics for education majors specializing in Physics with emphasis on problem solving techniques, demonstrations, experiments and computer applications. (PR: PHY 203, MTH 122 and MTH 140)

PHY 586 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

PHY 587 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PHY 588 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PHY 600 Electricity and Magnetism I **4 Credit hours**
A study of electrostatics and associated boundary-value problems, electric multipoles and macroscopic media, dielectrics, magnetostatics, time-varying fields, Maxwell equations and conservation laws, plane electromagnetic waves and wave propagation. A study of electrostatics and associated boundary-value problems, electric multipoles and macroscopic media, dielectrics, magnetostatics, time-varying fields, Maxwell equations and conservation laws, plane electromagnetic waves and wave propagation.
Grade Mode: Normal Grading Mode

PHY 608 Statistical Mechanics **4 Credit hours**
The course introduces thermodynamics and statistical mechanics to graduate students of physics and other science and engineering disciplines as two complimentary approaches to study physical properties of systems in equilibrium. The course introduces thermodynamics and statistical mechanics to graduate students of physics and other science and engineering disciplines as two complimentary approaches to study physical properties of systems in equilibrium.
Grade Mode: Normal Grading Mode

PHY 610 Special and Gen Relativity **3 Credit hours**
General relativity, the classical theory of one of the four fundamental forces, is not a standard course offer. This course of Special and General Relativity intends to fill this gap by introducing the key concepts that lead to a revolution in our understanding of space and time. The students will learn about spacetime curvature, metrics, geodesics, black holes, gravitational waves, and cosmology. General relativity, the classical theory of one of the four fundamental forces, is not a standard course offer. This course of Special and General Relativity intends to fill this gap by introducing the key concepts that lead to a revolution in our understanding of space and time. The students will learn about spacetime curvature, metrics, geodesics, black holes, gravitational waves, and cosmology.
Grade Mode: Normal Grading Mode

PHY 620 Modern Astrophysics I **3 Credit hours**
Modern Astrophysics is firmly grounded in the fundamental principles of physics, and will offer students the opportunity to use the physics they have learned in understanding the nature of the universe.
This course provides a graduate-level introduction to astrophysics, focusing on stellar structure and evolution. Modern Astrophysics is firmly grounded in the fundamental principles of physics, and will offer students the opportunity to use the physics they have learned in understanding the nature of the universe. This course provides a graduate-level introduction to astrophysics, focusing on stellar structure and evolution.
Grade Mode: Normal Grading Mode

PHY 625 Condensed Matter Physics **3 Credit hours**
This course studies complex phenomena that occur in solids and quantum liquids, and exposes the students to some theoretical tools used to describe the basic interactions behind these phenomena. This course studies complex phenomena that occur in solids and quantum liquids, and exposes the students to some theoretical tools used to describe the basic interactions behind these phenomena.
Grade Mode: Normal Grading Mode

PHY 630 Classical Mechanics **4 Credit hours**
Study of variational principes and Lagrange's equations, the two-body central force problem, the kinematics and dynamics of rigid-body motion, Hamilton equations of motion, canonical transformations, Hamilton-Jacobi theory, and small oscillations. Study of variational principes and Lagrange's equations, the two-body central force problem, the kinematics and dynamics of rigid-body motion, Hamilton equations of motion, canonical transformations, Hamilton-Jacobi theory, and small oscillations.
Grade Mode: Normal Grading Mode

PHY 631 Seminar **1 Credit hour**
Grade Mode: Normal Grading Mode

PHY 632 Seminar **1 Credit hour**
Grade Mode: Normal Grading Mode

PHY 640 Fundamentals of Physics **4 Credit hours**
A course in fundamental concepts of physics. Subject content varies. Designed primarily to strengthen conceptual understanding of teachers. A course in fundamental concepts of physics. Subject content varies. Designed primarily to strengthen conceptual understanding of teachers.
Grade Mode: Normal Grading Mode

PHY 642 Adv Quantum Mechanics **4 Credit hours**
This course covers advanced topics of quantum mechanics at the graduate level. Topics include fundamental issues, approximation methods and applications.
Pre-req: PHY 630 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 630
Grade Mode: Normal Grading Mode

PHY 645 Methods of Math. Physics **4 Credit hours**
This course will review and develop theories of real and complex analysis, group theory, tensors, special functions, differential and integral transforms, emphasizing their application to electrodynamics, quantum statistical mechanics, etc.
Grade Mode: Normal Grading Mode

PHY 661 Special Topics **1-3 Credit hours**
Grade Mode: Normal Grading Mode

PHY 662 Special Topics **1-3 Credit hours**
Grade Mode: Normal Grading Mode

PHY 682 Thesis Research **1-6 Credit hours**
Attributes: Thesis
Grade Mode: Normal Grading Mode

PHY 685 Independent Study **1-4 Credit hours**
Advanced Independent Study in Physics.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

PHY 686 Independent Study **1-4 Credit hours**
Advanced Independent Study in Physics.
Grade Mode: Normal Grading Mode

Combined College and Professional Degrees

A student who is granted early admission to a doctoral-level program will be granted a leave of absence during his or her senior year at Marshall University. At the end of the first year of professional school, the student is then eligible to receive a bachelor's degree from Marshall University, provided that at least 90 undergraduate credit hours must have been completed with a grade point average of 2.0, and that all requirements for graduation are met except the completion of a major. An applicant for a bachelor's degree must present certification from the professional school that he or she has successfully completed the first year of coursework and that a sufficient number of credit hours has been completed to total 120 when added to the hours earned at the undergraduate level.

Sustainability, Interdisciplinary Minor

Interdisciplinary Minor in Sustainability

Students from within or outside NRE may desire a minor in Sustainability. This broad tract will bring student's attention to utilization of ideas and practices that ensure ecological systems are maintained in viable condition for the foreseeable future. Students engaged in this study will understand the limitations and current use of resources supporting energy, agriculture, water, and waste management and envision practical strategies for improving resource utilization to achieve a sustainable future. Upon understanding of the concepts within the sustainability framework, students may focus on one of primary areas of sustainability; environmental, natural resources, agricultural, energy, or societal by selecting from relevant courses.

Students pursuing the interdisciplinary minor in Sustainability will take the following courses to develop understanding of the current environmental conditions:

Code	Title	Credit Hours
NRE 120	Discussion in Environ Sci (CT)	3
NRE 320	Nature Enviro Problems	3

In addition to 6 hours of background coursework, students will take 9 hours of interest-specific courses on solutions for obtaining sustainability in diverse fields. This interdisciplinary minor requires that at least 9 hours of 300-400 level courses be taken from departments other than a student's major department.

Code	Title	Credit Hours
Environmental (choose 9 hours)		
NRE 220	Human Dimensions Nat Res (CT)	
GEO 406	Population Geography	
NRE 321	Resol Environ Problems	
NRRM 432	Wilderness/Protected Area Mgmt	
BSC 460	Conservation Biology	
Agricultural (choose 9 hours)		
NRE 321	Resol Environ Problems	
NRE 200	Introduction to Agriculture	
NRE 402	Sustainable Agriculture	
DTS 202	Introductory Foods	
BSC 430	Plant Ecology (note prerequisites)	
Energy (choose 9 hours)		
NRE 212	Energy	
NRE 321	Resol Environ Problems	
GEO 422	Environmental Geography	
MGT 370	Energy Management Principles (note prerequisites)	
MGT 380	Principles of Renewable Energy (note prerequisites)	
Societal (choose 9 hours)		
NRE 220	Human Dimensions Nat Res (CT)	
NRE 321	Resol Environ Problems	
SOC 401	Population & Human Ecology	
SOC 466	Culture and Environment	
Natural Resources (choose 9 hours) [1]		
NRE 220	Human Dimensions Nat Res (CT)	
NRRM 432	Wilderness/Protected Area Mgmt	
NRRM 360	Tourism Planning & Management	
NRRM 362	Ecotourism: Admin and Mgmt	
GEO 406	Population Geography	
SOC 401	Population & Human Ecology	

[1] Natural Resource and Recreation Management majors wishing to obtain a minor in Sustainability may replace NRE 120 and NRE 320 with GEO 222 and ECN 250 to allow them to take 9 hours of coursework external to their major.

Graduate College

In October, 1938, the West Virginia Board of Education authorized Marshall University to conduct graduate instruction leading to the Master of Arts and the Master of Science degrees. Since then, the Graduate College has steadily expanded the scope and depth of its offerings. Post-master's Education Specialist degrees (Ed.S.) are available in adult and technical education, counseling, curriculum and instruction, educational administration, and school psychology. Marshall also offers an Ed.D. in either Leadership Studies or Curriculum and Instruction, a Psy.D. in Clinical Psychology, and a Ph.D. in Biomedical Sciences.

As the variety of these programs would indicate, the Graduate College offers the graduate student an opportunity to acquire research techniques in many fields of knowledge; to participate under the guidance of the graduate faculty in basic research and in the application of the insights gained in such research to the solution of the pressing problems of our times; and to become skilled professionals.

Admission to the Graduate College is based on a baccalaureate degree from a regionally accredited college or university and on the information provided on the Application for Admission form. The applicant must also submit scores from the Graduate Record Examination (GRE), the Miller Analogies Test (MAT), or the Graduate Management Admissions Test (GMAT) as required by the individual program area. Test scores must be sent directly to Graduate Admissions, Marshall University.

On recommendation by the department chair and with the approval of the undergraduate dean and the dean of the Graduate College, Marshall University seniors with superior academic undergraduate records may be permitted to enroll in graduate courses. When combined with the College Level Examination Program (CLEP), in which thirty undergraduate semester credit hours or more can be earned by examination, this provision enables the superior student to earn both a baccalaureate and a master's degree in four years or fewer.

Students who want more information about any of the graduate programs should consult the *Graduate Catalog* or address their inquiries to: Graduate Admissions Office, Marshall University, 100 Angus E. Peyton Drive, South Charleston, WV 25303.

Honors College

Contacts: Dr. Brian A. Hoey, Interim Dean; ; Cara Bailey, Interim Assistant Dean and Coordinator of the Society of Yeager Scholars
Website: http://www.marshall.edu/honors (http://www.marshall.edu/honors/)

https://www.marshall.edu/honors (http://www.marshall.edu/honors/)
honorscollege@marshall.edu

The Honors College allows eligible students in any undergraduate major at Marshall University to add value to their degree by joining the mission of honors education. Honors students pursue their degree in one of the other colleges and make the Honors College another academic home where they receive various forms of support that enhance their experiences at Marshall. We offer students in the Honors College a multitude of benefits, including things like priority registration. That said, we believe that honors education must be defined by more than privileges. It must support inclusive excellence and expect honorable actions that contribute to a greater good.

Mission of the College

The Honors College at Marshall University provides an environment for innovative teaching and learning within an interdisciplinary curriculum motivated by creative, critical inquiry and respect for a multiplicity of thoughts, experiences, and identities. The Honors College collaborates with university and public partners to foster inclusive academic excellence in a diverse and supportive community of scholars dedicated to becoming socially conscious, responsible leaders and lifelong learners engaged in the acquisition and application of knowledge for a greater good.

To this end, students participating in the Honors College will:

- Make connections while adapting and applying skills and learning among varied disciplines, domains of thinking, experiences, and situations.
- Outline divergent solutions to a problem, develop and explore potentially controversial proposals, and synthesize ideas or expertise to generate original plans and approaches.
- Evaluate the effectiveness of their own work, reflect on strengths and weakness of their knowledge and skills in defined areas, and devise ways to make improvements.
- Produce cohesive oral, written, and visual communications capable of connecting effectively with specific audiences.
- Appraise how cultural beliefs and practices affect inter-group communication, how specific approaches to global issues may affect communities differently, and how varying economic, religious, social, or geographical interests can result in conflict.
- Demonstrate principles of ethical citizenship and socially responsible leadership through collaborative partnerships.
- Evaluate how academic theories and public policy inform one another to support civic well-being.

Programs

University Honors Curriculum

1. Entering first-year students register for FYS 100H First Year Seminar-Honors.
2. All second-year students will take HON 200 Second Year Seminar, in leadership, ethics and civic engagement.
3. Each semester several **interdisciplinary seminars** are taught as sections of HON 480 Special Topics. Seminars enable students to study in depth a special topic outside and beyond the regular curriculum. Honors seminar credits may fulfill department major or college general education requirements with the approval of a student's primary college dean. Course offerings vary each semester. Seminar titles appear in the official *Schedule of Courses* published each semester by the Registrar's Office under the HON prefix. HON 480 seminars require permission for enrollment, which can be obtained during an Honors advising appointment in the college prior to the priority registration period.
4. Individual departments offer **honors sections of regular courses** that can be used to earn honors credits while also fulfilling many different general education requirements. These courses are identified in this catalog and the semester course schedule by an H following the course number.
5. **Experiential Learning**
   The Honors College encourages students to consider studying abroad as undergraduates. The college will waive up to 6 of the required general Honors credits for international engagement experiences for which the student receives academic credit through Marshall. Students must request the waiver by submitting the Study Abroad Substitution form available on the Honors College website.
6. **The Honors Option** allows an honors student enrolled in a non-honors course to receive honors credit. The honors student must develop an Honors Contract Proposal with the course instructor who acts as a faculty mentor, no later than the end of the second week of the semester in which the course is offered, to perform work of a different quality (not merely quantity) than others in the class. Assignments for the H-option should involve higher-level cognitive processes and products, service, and extra engagement with the faculty mentor. H-option instructions and forms are available on the Honors College website.

   The Honors College provides faculty-mentored as well as student-organized and led courses that are based in a fundamental need for team-based work and that contribute to the welfare of particular communities. Participation on the staff of the Honors student newsletter (HON 484 Honors College Newsletter) or on the Steering Committee of the Honors College Student Association (HON 488 Student Assoc Steering Comm) earns honors credit as collaborative learning experiences.
7. For incoming students, general Honors credit may be waived by college credit with a grade of *A* or *B*, AP credit, or IB credit earned in high school according to the following scale:

   - 15 – 30 credits: 3 credit honors waiver
   - 31+ credits: 6 credit honors waiver

   To receive Honors credit, students must petition the dean by the end of their first semester using the form found on the Honors College website.

Additional opportunities for earning honors credits can be found on the college website.

Yeager Scholars Program

The Yeager Scholars Program is named for United States Air Force Brigadier General Charles E. "Chuck" Yeager, a West Virginia native and the first person to break the sound barrier in his historic 1947 flight of the Bell-X-1 aircraft. The Yeager Scholars Program offers an enhanced

educational experience, providing the scholars with opportunities to expand their intellectual abilities, to develop leadership potential, to become effective communicators, and to gain the skills and knowledge necessary for successful careers. Through the generosity of many donors, especially the Society of Yeager Scholars, students in the Yeager program receive tuition, fees, room and board, a textbook allowance, a personal computer, a stipend, and education-related study abroad expenses. For additional information, see https://www.marshall.edu/yeager (https://www.marshall.edu/yeager/).

Admission Requirements

Incoming First-Year Students

Incoming first-year students who have been accepted to Marshall University have two pathways to admission in the Honors College.

Admission by Invitation

Incoming first-year students who have been accepted to Marshall University and have a composite ACT score at least 26 (1230 SAT composite or higher) and a high school GPA of at least 3.5 are invited to join the Honors College. There is no separate application for admission to the college via this pathway to admission. The stated test scores and GPA must be achieved and reported to the university before the college's stated deadline, typically May 1.

Admission by Holistic Review

Students admitted to Marshall who do not meet the minimum test score that would lead an automatic invitation to be admitted to the Honors College but do have at least a 3.5 high school GPA may still apply for admission to the Honors College. Students may request and be provided with a separate application for admission to the Honors College. Requests for admission in the Fall semester will be reviewed on a rolling basis through April 15 each year.

Current, Transfer and Late-Admitted (Spring Semester) Students

All requests for admission (Admission by Invitation pathway) or applications for admission (Admission by Holistic Review pathway) must be made before the end of the 7th week of the semester.

Fall Semester
Admission by Invitation

Current students admitted to Marshall to begin their degree requirements in the Fall semester who are NOT classified as transfer students (students who began their baccalaureate degree elsewhere before coming to Marshall) and who have not yet earned a GPA at Marshall but have at least a 3.5 high school GPA and at least a 26 ACT or 1230 SAT composite score, can request to be considered for a late "Admission by Invitation," which does not require an application. This pathway to admission is only available in the Fall semester for current students.

Admission by Holistic Review

Current students (continuing at Marshall from an earlier semester) and qualified transfer students (students who began their baccalaureate degree elsewhere before coming to Marshall) with at least a 3.5 college GPA (earned at Marshall for current students) in at least 12 completed credit hours, who will have no more than 30 earned credit-hours at the end of the Fall semester, may petition for admission by requesting to submit an application to the college. At the time of application, both current and transfer students may request a waiver of up to 6 hours of general Honors credits toward completion of the required Honors curriculum.

Spring Semester
Admission by Invitation for Late-Admitted, Spring Semester Students

Students admitted to Marshall to begin their degree requirements in the Spring semester who are NOT classified as transfer students (students who began their baccalaureate degree elsewhere before coming to Marshall) and who have not yet earned a GPA at Marshall but have at least a 3.5 high school GPA and at least a 26 ACT or 1230 SAT composite score, can request to be considered for late "Admission by Invitation," which does not require an application. This pathway to admission is only available in the Spring semester for late-admitted students.

Admission by Holistic Review

Current students (continuing at Marshall from an earlier semester), incoming students admitted late (to start in Spring semester), and qualified transfer students (students who began their baccalaureate degree elsewhere before coming to Marshall) with at least a 3.5 college GPA (earned at Marshall for current students) in at least 12 completed credit hours, who will have no more than 30 earned credit-hours at the end of the Spring semester, may petition for admission by requesting to submit an application to the college. At the time of application, both current and transfer students may request a waiver of up to 6 hours of general Honors credits toward completion of the required Honors curriculum.

Academic Policies

To remain in good standing with the college, students must maintain an overall GPA of 3.30. Additional good standing and satisfactory progress policies are in the college policy handbook on the Honors College website.

Graduation in Honors

Students who wish to graduate from the Honors College must complete 24 credits of honors experiences. The 24 credits must include:

- FYS 100H First Year Seminar-Honors, 3 credits
- HON 200 Second Year Seminar, 3 credits
- At least two interdisciplinary HON 480 Special Topics seminars, 3 credits each
- An accepted combination of honors-designated departmental courses, and other approved honors experiences.

Students must earn a *C* or better in a course to receive honors credit. The official transcript of students successfully fulfilling the requirements of the college curriculum will state that the student has graduated with University Honors through the Honors College.

Faculty

Dr. Brian A. Hoey, Interim Dean

Division of Aviation

Contact: Bill Noe (noe@marshall.edu), Chief Aviation Officer

The Division of Aviation comprises the Bill Noe Flight School, which offers the B.S. in Commercial Pilot: Fixed Wing, and the forthcoming

Aviation Maintenance Technology cooperative program with MountWest Community and Technical College.

Bill Noe Flight School

The Marshall University President's vision for a professional flight training program transitioned from conceptual drawings to a ground-breaking ceremony in August 2020, commencing establishment of the Bill Noe Flight School. We take great pride in providing world-class flight training to certify the future generation of professional pilots. Our program combines technically advanced aircraft, state-of-the-art simulators, and industry experienced professional staff to ensure student success as future professional pilots.

Mission

The mission of the Bill Noe Flight School is to provide exceptional training to ensure the actualization of the next generation commercial pilot in meeting the growing demands in the aviation industry. The Commercial Pilot degree prepares graduates to become Federal Aviation Administration (FAA) certified fixed-wing commercial and instructor pilots.

- Aviation Maintenance Technology, A.A.S. (p. 689)
- Commercial Pilot - Fixed Wing, B.S. (p. 687)

AVSC 102 Flight School Orientation **3 Credit hours**
An orientation course for students enrolled in the flight school. Topics to include pilot training regulations and procedures, safety and security, federal aviation organizations, and career opportunities.
Grade Mode: Normal Grading Mode

AVSC 105 Transition Lab **1 Credit hour**
Students admitted to the program who hold FAA certifications will learn the operation of Marshall's aircraft at a level commensurate with his or her FAA certification.
Grade Mode: Credit/No Credit Grade Only

AVSC 200 Private Pilot Ground School **4 Credit hours**
An introductory overview of aviation fundamentals as required by the Federal Aviation Administration regulations for students pursuing a Private Pilot certificate.
Pre-req: AVSC 205 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: AVSC 205
Grade Mode: Normal Grading Mode

AVSC 205 Solo Flight Lab **1 Credit hour**
A course designed to prepare students for pilot's first solo flight.
Pre-req: AVSC 200 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: AVSC 200
Grade Mode: Normal Grading Mode

AVSC 210 Private Pilot Cert ASEL Lab **2 Credit hours**
A course designed to prepare students to pass the Federal Aviation Administration Private Pilot Practical Exam: ASEL
Pre-req: AVSC 200 with a minimum grade of D and AVSC 205 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 215 Instrument Ground School **3 Credit hours**
A course designed to teach pilots to fly an airplane using only instruments as required by Federal Aviation Administration regulations for the Instrument Flight Rules rating.
Pre-req: AVSC 205 (may be taken concurrently) with a minimum grade of D or AVSC 210 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: AVSC 205 or AVSC 210
Grade Mode: Normal Grading Mode

AVSC 220 Instrument Certification Lab **3 Credit hours**
A course designed to prepare students to pass the Federal Aviation Administration Instrument Practical Exam.
Pre-req: AVSC 210 with a minimum grade of D and AVSC 215 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 221 Flight Management Systems **3 Credit hours**
This course familiarizes students with popular flight management systems in use in aircraft today and introduces flight management systems that may still be in various stages of development.
Grade Mode: Normal Grading Mode

AVSC 231 Aviation Law and Regulations **3 Credit hours**
This course familiarizes students with the Federal Aviation Regulation, certification standards, air transportation operational oversight and law governing commercial aviation.
Grade Mode: Normal Grading Mode

AVSC 241 AV Safety and Human Factors **3 Credit hours**
This course familiarizes students with the Federal Aviation Regulations, aircraft certification, all weather operations, and the impacts of stress in aviation.
Grade Mode: Normal Grading Mode

AVSC 250 Commercial Phase II AMEL Lab **3 Credit hours**
A course designed to prepare students to pass the Federal Aviation Administration Commercial Pilot Practical Exam for multi-engine airplane.
Pre-req: AVSC 235 (may be taken concurrently) with a minimum grade of D and (AVSC 225 with a minimum grade of D or AVSC 230 with a minimum grade of D).
Concurrent PR: AVSC 235
Grade Mode: Normal Grading Mode

AVSC 255 Initial CFI AMEL Lab **3 Credit hours**
A course designed to train students to become Federal Aviation Administration certified flight instructors required of a Private and Commercial Pilot.
Pre-req: AVSC 235 with a minimum grade of D and (AVSC 240 with a minimum grade of D or AVSC 275 with a minimum grade of D).
Grade Mode: Normal Grading Mode

AVSC 260 ASEL Private Add-On Lab **1 Credit hour**
Designed to prepare pilots to complete the Federal Aviation Administration's ASEL practical exam.
Pre-req: AVSC 204 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 265 AMEL Private Add-On Lab **1 Credit hour**
Designed to prepare pilots to complete the Federal Aviation Administration's AMEL private practical exam.
Pre-req: AVSC 204 with a minimum grade of D or AVSC 260 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 270 Commercial ASEL Add-On Lab **1 Credit hour**
Designed to prepare pilots to complete the Federal Aviation Administration's Commercial Pilot ASEL Practical Add-On Exam.
Pre-req: AVSC 220 with a minimum grade of D or AVSC 250 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 290 CFI ASEL Add On Lab **1 Credit hour**
Designed to prepare pilots to complete the Federal Aviation Administration's Certified Flight Instructor Add-On Practical Exam.
Pre-req: AVSC 255 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 295 CFI AMEL Add-On Lab **1 Credit hour**
Designed to prepare pilots to complete the Federal Aviation Administrations AMEL Certified Flight Instructor Add-On Practical Exam.
Pre-req: AVSC 245 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 300 Tailwheel Transition Lab **1 Credit hour**
Designed to prepare pilots to earn a tail-wheel endorsement from the Federal Aviation Administration.
Pre-req: AVSC 210 with a minimum grade of D or AVSC 260 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 305 CFII Lab **1 Credit hour**
Designed to prepare pilots to pass the FAA Certified Flight Instructor Instrument Practical Exam.
Pre-req: AVSC 245 with a minimum grade of D or AVSC 280 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 310 Aircraft Sys and Powerplants **3 Credit hours**
This course familiarizes students with the Federal Aviation Regulations relating to aircraft certification of systems and the various powerplants for fixed wing aircraft.
Grade Mode: Normal Grading Mode

AVSC 315 Airport Operations and Mgmt **3 Credit hours**
This course familiarizes students with the Federal Aviation Regulations relating to certification of airport systems and examines the policies and procedures for the Airport Improvement Plan (AIP).
Grade Mode: Normal Grading Mode

AVSC 320 Flight Phys and Human Factors **3 Credit hours**
This course familiarizes students with the Federal Aviation Regulations relating to flight physiology, oxygen systems, and human factors impacting pilot flight operations.
Grade Mode: Normal Grading Mode

AVSC 325 Ntnl Airspace Sys and NextGen **3 Credit hours**
An overview of the US National Airspace System and an in-depth analysis of the methods and procedures used in controlling air traffic.
Grade Mode: Normal Grading Mode

AVSC 329 Commerical Ground School **3 Credit hours**
A study of commercial flight fundamentals as required by Federal Aviation Administration regulations for students pursuing a Commercial Pilot certificate.
Pre-req: AVSC 210 with a minimum grade of D and AVSC 215 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 330 Commercial Phase I Lab **3 Credit hours**
A continued review of topics required for flying an airplane in VFR & IFR environments during day and night cross-country flights, and development of Pilot and Command decision-making skills.
Pre-req: AVSC 220 with a minimum grade of D and AVSC 226 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 335 CFI Ground School **3 Credit hours**
Review the instruction fundamentals required by the FAA for pilots pursuing a Certified Flight Instructor rating.
Pre-req: AVSC 325 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 340 Commercial Phase II ASEL Lab **3 Credit hours**
A course designed to prepare students to pass the Federal Aviation Administration ASEL Commercial Practical Exam.
Pre-req: AVSC 335 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 345 Initial CFI ASEL Lab **3 Credit hours**
A course designed to train to become Federal Aviation Administration certified flight instructors.
Pre-req: AVSC 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 355 Aviation Weather **3 Credit hours**
A study of atmospheric conditions on aeronautic operations. Topics include atmospheric properties, aviation hazards including thunderstorms, wind shear, turbulence, icing, and weather flight resources.
Pre-req: GEO 230 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 375 Commercial AMEL Add-On Lab **1 Credit hour**
Designed to prepare pilots to complete the Federal Aviation Administration's Instrument Practical exam and Commercial Pilot Add-On Practical exam for multi-engine airplane.
Pre-req: AVSC 210 with a minimum grade of D or AVSC 260 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 405 Business Aviation **3 Credit hours**
This capstone is a study of business aviation operations, management, and finance to include corporate, fractional, charter, Fixed Base Operator (FBO), and various aviation business models.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

AVSC 410 Air Transportation Operations **3 Credit hours**
An overview of the airline industry and an in-depth analysis of key management functions within an airline.
Grade Mode: Normal Grading Mode

AVSC 450 Crew Resource Management **3 Credit hours**
Within this capstone course, students will examine the principles of proper crew collaboration that reduce the risk of accidents caused by human behavior.
Pre-req: AVSC 200 with a minimum grade of D or AVSC 210 with a minimum grade of D or AVSC 215 with a minimum grade of D or AVSC 220 with a minimum grade of D or AVSC 225 with a minimum grade of D or AVSC 230 with a minimum grade of D or AVSC 235 with a minimum grade of D or AVSC 240 with a minimum grade of D or AVSC 245 with a minimum grade of D or AVSC 250 with a minimum grade of D or AVSC 255 with a minimum grade of D or AVSC 260 with a minimum grade of D or AVSC 265 with a minimum grade of D or AVSC 270 with a minimum grade of D or AVSC 275 with a minimum grade of D or AVSC 290 with a minimum grade of D or AVSC 295 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 495 Internship in Aviation Ops **3 Credit hours**
Student will participate in an internship as coordinated with their assigned advisor. The internship allows students to apply those flight instruction and classroom instruction skillsets appropriate to the respective internship.
Grade Mode: Normal Grading Mode

Commercial Pilot - Fixed Wing, B.S.

Overview

The program objectives for the B. S. in Commercial Pilot - Fixed Wing, are to:

1. Provide a high-quality flight training program that follows requirements outlined by the Federal Aviation Administration specified in 14 CFR Part 141.
2. Provide future fixed-wing pilots a general education that will allow them to work for national or international aeronautics corporations.
3. Provide students with the theoretical information that will allow them to understand the operation of aircraft and the technical skills to operate aircraft using advanced aeronautics technology.
4. Prepare students to be effective pilots and flight instructors.

Student learning outcomes for the B.S. in Commercial Pilot - Fixed Wing:

1. Students will complete an FAA-approved course of study and demonstrate that they can operate technically advanced aircraft under a range of flight conditions.
2. Students will demonstrate the ability to communicate effectively and work collaboratively in diverse and demanding environments.
3. Students will demonstrate the ability to engage in continual professional development related to skills as pilots and professionals working in commercial aviation settings.
4. Students will demonstrate the application of skills and perspectives.

Note: This program is not approved for the usage of veterans' education benefits.

All Flight Students

For initial consideration, all applicants must meet Marshall University's general freshman or transfer admission requirements. Admission to the Bachelor of Science program in Commercial Pilot - Fixed Wing will be selective each year, depending on both the number of applications received and the capacity to enroll new students. Not all applicants who qualify for general admission to the university will be admissible to this program.

As required by FAA regulations, and determined by the Bill Noe Flight School, students must speak, read, write and understand English. Prior to commencing flight training, non-U.S. citizens must complete all Transportation Security Administration (TSA) background checks and appropriate approvals.

Marshall requires that all flight students have at least a Second Class Medical when starting the flight program. However, we recommend students get a First Class Medical prior to flight training to make sure they do not have any medical conditions that could disqualify them from flying with airlines. Medicals must be done by a Federal Aviation Administration (FAA) Aviation Medical Examiner (AME). Prospective students will find AMEs by location using the resource at https://designee.faa.gov/#/designeeLocator.

Upon admission to the program and before beginning AVSC coursework, students who do not have at least a Private Pilot certification must apply for and receive a Student Pilot certificate. See https://www.faa.gov/pilots/become/student_cert/ for details. Contact the Bill Noe Flight School if you have questions.

Transfer Student / Intercollege Transfer Policy

Transfer students must have a minimum cumulative GPA of 2.25 or Chief Instructor approval.

Students who hold one or more FAA pilot certificates will not need to repeat required courses for these certifications but must discuss their specific situations with the Chief Instructor before enrolling.

Students allowed to enroll with previous FAA pilot certifications, however, must complete AVSC 105 Transition Lab, a course designed to train students to operate the Cirrus SR20. Successful completion requires students to pass the knowledge and practical test requirements of the FAA certification standards at a level commensurate with the pilot certification held while operating the Cirrus SR20 aircraft. Students with previous FAA pilot certifications must successfully complete AVSC 105 before proceeding with further flight courses.
Transfer students who completed college-level courses from a regionally accredited institution of higher education may receive credit for those courses. Please review the Admissions section in the Undergraduate Catalog for more information regarding the university's transfer policies.

Progression Requirements

Flight students are expected to complete each flight course in one semester. However, with permission, students experiencing extensive uncontrollable situations, such as weather, may complete the course the following semester with permission. Any student failing to complete the course requirements in that following semester may be dismissed from the program due to lack of progress. Students must

maintain a minimum of a *C* or better in all courses required for the major. AVSC ground schools (AVSC 200, AVSC 215, and AVSC 329) also require an 80% minimum score for all exams.

Graduation/ Other Requirements

The Commercial Pilot - Fixed Wing, B.S. degree requires a minimum of 120 hours for graduation.

Students planning to apply for student instructor positions at the Bill Noe Flight School are required to take AVSC 305 CFII Lab, AVSC 335 Course AVSC 335 Not Found, AVSC 345 Course AVSC 345 Not Found, and AVSC 375 Course AVSC 375 Not Found. See advisor and Chief Instructor.

Choose one 8-hour track		
Track A		
Students planning to apply for student instructor positions at the Bill Noe Flight School are required to take AVSC 305, AVSC 335, AVSC 345, and AVSC 375. See advisor and Chief Instructor.		
AVSC 305	CFII Lab	
AVSC 335	CFI Ground School	
AVSC 345	Initial CFI ASEL Lab	
AVSC 375	Commercial AMEL Add-On Lab	
Track B		
Students must meet with the Chief Instructor to discuss career opportunities before selecting Track B. Students not planning to apply for student instructor positions at the Bill Noe Flight School may enroll in 300/400-Level electives. Must see advisor and Chief Instructor before enrolling in electives.		
300/400 Level Electives		

- The purpose of this Four Year Plan is to illustrate how your general education requirements, your program requirements, and any recommended elective or minor courses fit within a 4-year time frame. It also takes into account the order of pre-requisites. It is designed primarily as a tool to assist you in timely graduation. If you have transferred from another institution or another college within Marshall University, please see your advisor about how your coursework may be applied to degree requirements.
- A minimum of 120 credit hours are required for the baccalaureate degree, including a minimum of 40 credit hours at the 300/400 level.
- Six hours of Writing Intensive (WI) credits are required for the degree. Students are encouraged to select WI sections of courses when available within the plan of study.
- Students planning to apply for student instructor positions at the Bill Noe Flight School are required to take AVSC 305*, AVSC 335*, AVSC 345*, and AVSC 375*. Other students may choose to pursue a minor or enroll in 300/400-level electives. Students must see advisor and Chief Instructor to discuss minor options and/or before enrolling in electives.

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at https://www.marshall.edu/gened/.

Course	Title	Credit Hours

CMM 319: Superior-Subordinate Communications recommended, or other elective		
	Credit Hours	**13**
	Total Credit Hours	**120**

Aviation Maintenance Technology, A.A.S.

The Aviation Maintenance Technology degree program provides training in aircraft maintenance technology. Students will learn to inspect, maintain, and repair aircraft systems. In this program, students will learn to identify problems and follow the manufacturer's guidelines and industry best practices for maintenance and repair using approved maintenance materials.

Students completing the program are qualified to take the Federal Aviation Administration (FAA) Part 147 tests. These tests include the three written tests required by the FAA and the subsequent Oral and Practical exam that will qualify graduates for an FAA Airframe and Power Plant (A & P) certificate. Once earned, the certificate does not require renewal.

This is a joint degree program with Mountwest Community & Technical College.

Student Learning Outcomes

Upon successful completion of the Aviation Maintenance Technology degree, graduates will be able to:

- Demonstrate the ability to research, troubleshoot, and repair aircraft and aircraft components,
- Demonstrate the ability to correctly read, understand, and apply the Federal Aviation Administration (FAA) regulations and other FAA documentation,
- Complete a series of FAA written national certification exams, and
- Complete an end of program FAA oral and practical exam administered by an FAA Designated Mechanic Examiner (D.M.E.) for national certification.

Regents, B.A. (RBA)

Contacts: Andrew Gooding, Director
Location: Smith Hall 223
Telephone: 304-696-6400

RBA@marshall.edu

The Regents Bachelor of Arts degree program (RBA) is a nontraditional program designed for the adult student. It has several differences from other baccalaureate degree programs. While the program provides the RBA student with a sound general educational foundation, there are no required major courses. Instead, with the assistance of an advisor, a student creates the course plan that best fits his or her individual needs. Students in the program have the opportunity to request College Equivalent Credits (CEC's) for documented course-level learning resulting from life and work experiences. Examples of CEC credit may include military credits, standard awards for certain licenses,

certifications and corporate training, CLEP and DSST examinations, and portfolio petitions for credit.

All failing grades received four years or more before admission to the program may be forgiven and disregarded in the calculation of the GPA required for graduation. (*Note:* If failing grades are forgiven the student will not be eligible for university-level honors. Academic forgiveness may only be done once and it only pertains to graduating from the RBA program, not to admission to other programs.)

General Education Requirements

36 semester hours (including applicable CEC general education hours) distributed among the following categories:

- Communications – 6 semester hours
- Natural or physical sciences – 3 semester hours
- Mathematics/Computers – 3 semester hours
- Social Sciences – 6 semester hours
- Humanities – 6 semester hours
- Additional approved 3 credit hours from natural or physical sciences or mathematics or computers
- Additional approved credit hours from any of the above categories – 9 semester hours

While RBA students do not declare a major, they may earn a minor in any academic program offered at Marshall by following the minor requirements of that program.

The RBA staff assists students in all aspects of their college needs: admission, program design, course selection, enrollment, assessment for CEC's, and many other factors.

Areas of Emphasis: Marshall University Regents Bachelor of Arts

An Area of Emphasis gives RBA students the opportunity to show a focus as part of the RBA degree. Areas of Emphasis are not required for the degree and are not all available online. An RBA area of emphasis, by state statute, requires a minimum of 15 hours of 300-400 level courses with a *C* or higher for each course. Substitutions are only allowed with the appropriate department's written permission.The most current list of Areas of Emphasis is found on the RBA website https://www.marshall.edu/rba/ or by contacting the RBA office. CEC's may not be used in completing an Area of Emphasis.

Admission

- The student must meet all general Marshall University admission requirements
- The student **must** be at least 4 years out of high school. For those students who passed the GED, admission must be at least 4 years after their class graduated from high school. No person out of high school fewer than 4 years will be admitted.

Students who have already completed a bachelor's degree from an accredited institution of higher learning may not pursue the RBA degree.

The RBA degree by state statute is a degree completion program and students may not double major in the RBA or use it as a subsequent degree.

Graduation Requirements

- Total credit hour requirement: 120 credit hours, including any CEC's
- General education hours: 36
- Upper division hours (300-400 level): 30
- Grade Point Average at Marshall and overall: 2.00
- Residency: 24 graded semester credit hours earned at any of the WV public institutions of higher education. At least 3 credit hours must be earned at Marshall University.
- No more than 72 hours of community college credit can be applied toward the RBA.

Areas of Emphasis

- Anthropology, Emphasis (Regents Bachelor of Arts) (p. 691)
- Communication Studies, Emphasis (Regents Bachelor of Arts) (p. 692)
- Creative Writing in English, Emphasis (Regents Bachelor of Arts) (p. 692)
- Criminal Justice, Emphasis (Regents Bachelor of Arts) (p. 692)
- Cyber Forensics, Emphasis (Regents Bachelor of Arts) (p. 692)
- Game Development, Emphasis (Regents Bachelor of Arts) (p. 692)
- Geography - GIScience, Emphasis (Regents Bachelor of Arts) (p. 692)
- Geography - Human, Emphasis (Regents Bachelor of Arts) (p. 692)
- Geography - Physical, Emphasis (Regents Bachelor of Arts) (p. 693)
- Geography, Emphasis (Regents Bachelor of Arts) (p. 693)
- Information Assurance, Emphasis (Regents Bachelor of Arts) (p. 693)
- Instructional Technology and Library Science, Emphasis (Regents Bachelor of Arts) (p. 693)
- Literature in English, Emphasis (Regents Bachelor of Arts) (p. 693)
- Military Science, Emphasis (Regents Bachelor of Arts) (p. 693)
- Political Science, Emphasis (Regents Bachelor of Arts) (p. 694)

- General Education Course

Code	Title	Credit Hours
Select one of the following:		3-4
GEO 101	Physical Geography (CT)	
GEO 222	Global Environment Issues (CT)	
GEO 230	Intro to Meteorology (CT)	
Select at least 15 hours from the following:		15
GEO 350	Severe Storms and Natl Hzrds	
GEO 422	Environmental Geography	
GEO 425	Climatology	
GEO 431	Remote Sensing & Photogram	
Weather Analysis course		
Total Credit Hours		**18-19**

Geography, Emphasis (Regents Bachelor of Arts)

Code	Title	Credit Hours
Geography 100-200 level courses		3-4
15 additional hours of Geography courses at the 300-400 level		15
Total Credit Hours		**18-19**

Information Assurance, Emphasis (Regents Bachelor of Arts)

Code	Title	Credit Hours
CFS 261	Introduction to Linux	3
IST 264		3
CIT 352	Network Protocols and Admin	3
CFS 305	Open Source Intelligence	3
CFS 357	Network Penetration and Attack	4
CFS 454	Network Defense	4
CFS 461	Cyber Warfare	3
Total Credit Hours		**23**

Instructional Technology and Library Science, Emphasis (Regents Bachelor of Arts)

Fifteen hours of ITL-related 300-400 level courses with a C or better. Courses to choose from include:

Code	Title	Credit Hours
ITL 350	Adv Digital Literacy Skills	3
ITL 365	Instructional Technology Apps	3
ITL 400	Intro to New Literacies	3
ITL 406	Digital Citizenship	3
ITL 455	Pedagogy of New Literacies	3
ITL 466	Prod of Instruct Tech Material	3
ITL 455	Pedagogy of New Literacies	3
ITL 483	Special Topics	1-4

Literature in English, Emphasis (Regents Bachelor of Arts)

15 hours of 300-400 level courses listed as Literature by Marshall's Department of English.

Military Science, Emphasis (Regents Bachelor of Arts)

Code	Title	Credit Hours
Select at least 15 hours of 3-400 level Military Science:		15
MS 301	Leadership and Prob Solving	
MS 301L	Adv Course Lead Lab III	
MS 302	Leadership and Ethics	
MS 302L	Adv Course Lead Lab III	
MS 401	Leadership and Management	

MS 401L	Adv Course Lead Lab IV	
MS 402	Officership	
MS 402L	Adv Course Lead Lab IV	
Total Credit Hours		**15**

Note that departmental permission is required to begin this sequence with MS 301 Leadership and Prob Solving, designed for ROTC students.

Code	Title	Credit Hours
MS 101	Foundations of Officership	1
MS 101L	Mil Sci Basic Lead Lab I	1
MS 102	Basic Leadership	1
MS 102L	Mil Sci Basic Lead Lab I	1
MS 201	Individual Leadership Studies	2
MS 201L	Mil Sci Basic Lead Lab II	1

Political Science, Emphasis (Regents Bachelor of Arts)

Any 15 hours of 300-400 level PSC courses.

Preschool Development, Emphasis (Regents Bachelor of Arts)

Code	Title	Credit Hours
ECE 215	Family Relationships	3
ECE 303	Child Development	3
ECE 322	Language & Literacy	3
ECE 323	Assess Early Childhood	3
ECE 430	Preschool Curr and Methods	3
CISP 320	Survey Exceptional Child	3
CISP 420	Survey Except Child II	3
Total Credit Hours		**21**

Psychology, Emphasis (Regents Bachelor of Arts)

- General Education Course

Code	Title	Credit Hours
PSY 201	Introductory Psychology (CT)	3
15 additional hours of Psychology courses at the 300-400 level		15
Total Credit Hours		**18**

Religious Studies, Emphasis (Regents Bachelor of Arts)

Any 18 hours of 300-400 level Religious Studies courses. At least 6 hours must be taken through Marshall University.

Sociology, Emphasis (Regents Bachelor of Arts)

- General Education Course

Code	Title	Credit Hours
SOC 200	Introductory Sociology (CT)	3
SOC 344	Social Research I	3
SOC 360	Sociological Theory	3
Additional hours of Sociology courses at the 300-400 level		9
Total Credit Hours		**18**

Studio Art, Emphasis (Regents Bachelor of Arts)

Minimum requirements are 15 hours of 300-400 level courses with necessary prerequisites. Each area requires two prerequisite classes (6 hours). See your advisor for specific areas, courses, and possible substitutions. The areas include Ceramics, Fibers, Graphic Design, Painting, Photography, Printmaking and Sculpture.

Web Application Development, Emphasis (Regents Bachelor of Arts)

Code	Title	Credit Hours
CS 110	Computer Science I	3
CIT 263	Web Programming I	3
CIT 313	Web Programming II	3
CIT 365	Database Management	3
CIT 466	Database Programming	3
CIT 416	Advanced Web Programming	3
ART 454	Motion Design II	3
Other courses can be substituted with the permission of the CIT department chair.		
Total Credit Hours		**21**

Women's Studies, Emphasis (Regents Bachelor of Arts)

Code	Title	Credit Hours
WS 101	Intro to Women's Studies	3
15 hours of WS designated courses at the 300-400 level. To be acceptable courses must have the WS designator.		15
Total Credit Hours		**18**

Joan C. Edwards School of Medicine

Contacts:
Website: https://jcesom.marshall.edu/

Established in 1976, the School of Medicine quickly developed a reputation for providing students with a high-quality, hands-on medical education delivered in an atmosphere of caring and respect. Since that time, the school has also dramatically expanded its scope of research and clinical services, giving students an energized learning environment in which to become physicians. With three new educational facilities, two new clinical departments and more progress on the horizon, the school continues to expand opportunities for students.

Admission Requirements

Marshall's School of Medicine selects students from a variety of academic, socioeconomic and personal backgrounds. Although most applicants are science majors, it encourages its applicants to meet its basic sciences requirements and then pursue their personal educational interests and abilities. The Admissions Committee considers the quality of students' work more important than the field in which it is taken.

As a state-assisted medical school, Marshall gives preference to West Virginia residents. Some positions also are available for well-qualified nonresidents who live in states adjoining West Virginia or who have strong ties to this state. To be considered, all applicants must be U.S. citizens or have permanent resident visas.

Entrants should have a bachelor's degree from an accredited college or university. Exceptionally well-qualified students may be considered after ninety semester hours of academic work if other requirements are met.

Minimum course requirements are 6 hours each of English and social or behavioral sciences and 8 hours each (with lab) of general biology or zoology, inorganic chemistry, organic chemistry and physics. All required courses must be passed with a grade of *C* or better by June 1 of the year of matriculation.

All applicants must take the Medical College Admissions Test, preferably in the spring of the year of application, but no later than the fall. The test must be taken within three calendar years of enrollment.

Applicants must exhibit excellence in character, motivation and ideals and should possess the many personal qualities essential for a career in medicine. Applicants are evaluated on the basis of four criteria: scholastic records, MCAT scores, academic references, and interviews.

The School of Medicine encourages qualified members of groups underrepresented in medicine to apply. It does not discriminate because of race, gender, religion, age, sexual orientation, disability or national origin.

Detailed information on the admissions process and a copy of the School of Medicine catalog are available at http://musom.marshall.edu/admissions (http://musom.marshall.edu/admissions/).

School of Pharmacy

Contacts: Dr. Eric Blough, Interim Dean
Website: https://www.marshall.edu/pharmacy/

The Marshall University School of Pharmacy strives to educate compassionate, ethical, and competent students to become innovative thinkers, problem solvers, and the future leaders of our profession. To accomplish these goals, the school has developed a curriculum that fuses local practice standards and vision to the evolving trends within our discipline. The school's vision of the skills, knowledge, and abilities required for the success of future pharmacists is central to its Pharm.D. curriculum.

3+4 Accelerated Pathways

The Marshall School of Pharmacy, Marshall College of Science, and Marshall College of Health Professions have partnered to provide Marshall undergraduate students with three opportunities to earn a joint Bachelor of Science or Bachelor of Health Science and Doctor of Pharmacy degree.

The three 3+4 pathways programs allow students to complete three years of undergraduate education and four years of pharmacy school enroute to earning a bachelor's and Pharm.D. degree. The Marshall College of Science and College of Health Professions will recognize the first year of the pharmacy curriculum as the student's senior year and will award students the bachelor's degree after the first year is successfully completed.

For more information please visit https://www.marshall.edu/pharmacy/academic-partnerships/#marshall.

Admission Requirements

Students interested in pursuing admission to the Pharm.D. program at Marshall must apply through the Pharmacy College Application Service (PharmCAS at www.pharmcas.org (http://www.pharmcas.org)). The suggested minimum undergraduate Grade Point Average (GPA) for admission consideration is a 2.50 on a 4.00 scale and the suggested prerequisite GPA minimum is 2.75. Prerequisite coursework need not be completed prior to application, but must be completed prior to matriculation into the Pharm.D. program.

The school admits students only for the fall semester. Admission to the professional program is competitive and the admission process considers each candidate holistically. Students are initially screened based upon academic accomplishments (overall and prerequisite GPA) and reference letters in support of the application.

Students admitted to the program must have the physical, mental and emotional ability to learn and accomplish the competencies

required of a pharmacy practitioner, as well as the character and thought processes necessary to make professional judgments that benefit the patients being served. Applicants with exceptional scholastic performance and reference letters will be considered for an on-site interview. On-site interviews will focus upon assessing student leadership skills, character, motivation, critical thinking skills, communication abilities, problem-solving ability and group work skills.

The Marshall University School of Pharmacy encourages qualified members of groups underrepresented in pharmacy to apply. The school does not discriminate because of race, gender, religion, age, sexual orientation, disability or national origin. Detailed information on the admissions process and a copy of the School of Pharmacy catalog are available at www.marshall.edu/pharmacy (http://www.marshall.edu/pharmacy/).

Degree Requirements

School of Pharmacy Prerequisite Coursework

In order to optimally be prepared for the rigors of the program, students will require knowledge and understanding of the basic principles of communication (composition), science (biology, chemistry, and physics), human anatomy, human physiology, and math. The program's prerequisite coursework is designed to provide the student with sufficient breadth and depth of knowledge to facilitate program success. A summary of the Pharm.D. program prerequisite coursework is provided below:

Code	Title	Credit Hours
English Composition (2 semesters)		6
Calculus (1 semester)		3
Statistics (1 semester)		3
Biology w/Lab (2 semesters)		8
Chemistry w/Lab (2 semesters)		8
Human Anatomy w/Lab (1 semester)		4
Human Physiology w/Lab (1 semester)		4
Microbiology w/Lab (1 semester)		4
Organic Chemistry w/Lab (2 semesters)		8
Physics w/Lab (1 semester)		4

University College

Contacts: Dr. Sherri Stepp, Associate Dean of Undergraduate Studies and Director of University College; and Chris Atkins, Assistant Director of University College
Website: http://www.marshall.edu/uc (http://www.marshall.edu/uc/)

University College (UC) was created in 1999 to unite several important academic and student services. UC is the official college of undecided students, conditionally admitted students, some pre-nursing students, students enrolled in college courses in the high schools/early entry high school students, special admits, transient students and exchange students. In addition to academic advising for undecided, conditionally admitted and some pre-nursing students, UC provides many opportunities to all Marshall University students including Tutoring Services, University Studies (UNI) courses, the National Student Exchange Program, and math placement exams.

Mission Statement

University College offers students a solid foundation of academic skills for progression into another Marshall University college to declare a major and graduate. University College is dedicated to adhering to national academic advising standards, providing professional academic guidance in a holistic and caring manner, understanding and practicing inclusion, operating with high ethical standards, embracing innovation and creativity, collaborating with the university community to ensure student success, safeguarding the privacy of students, and encouraging student engagement in their own educational process. University College extends this mission to all Marshall students by providing a broad range of academic services and transitional support programs.

University College provides advising for undecided students, conditionally admitted students, some pre-nursing students, students enrolled in college courses in the high schools/early entry high school students and special admits. Undecided, conditionally admitted and pre-nursing students will be assigned a specific University College advisor. Advising is provided in a supportive atmosphere where students may obtain information regarding various majors and academic opportunities. Appointments are encouraged, but not required.

Conditionally Admitted Students

Marshall University offers a limited number of conditional admissions to entering freshman students whose academic credentials fall slightly below regular admission requirements. Students not meeting the requirements for regular admission should contact the Office of Admissions to inquire about this opportunity.

Conditional students are admitted to University College and are not eligible to declare an academic major. Students must meet specific requirements within three semesters to gain full admission to the university. Requirements include:

- For students having Verbal ACT scores of less than 18 or SAT ERW 480, successful completion of required corequisite English course.
- Successful completion of academic support class (UNI 100 Freshman First Class).
- Completion of 18 earned hours with a 2.00 GPA (cumulative and MU) *or* 15 or more earned hours with a 3.00 or better during first semester as a conditionally admitted student..

Students will be assigned an academic advisor, who will guide them through their conditional requirements while enrolling in courses meeting general education requirements and recommended exploratory courses in majors of interest. Once all requirements and prerequisites are met, students are eligible to declare a major in a degree-granting college at Marshall University. (*Note:* Some majors and colleges require a separate application and have additional requirements for admission into their programs.)

Students who are conditionally admitted will be advised to take courses that meet general education requirements for all majors as well as the opportunity to take up to 12 hours of exploratory coursework outside of general education requirements. Students may also enroll in UNI 103 Career Planning Undecided.

Undecided Students

Advisors will work with undecided students to help them explore a major that meets their interests and abilities while enrolling in

courses meeting general education requirements and recommended exploratory courses in majors of interest. In addition, students will be provided with opportunities to improve their student success skills and development of a career path. Students must declare an academic major upon completion of the 30th credit hour of coursework.

Undecided students will be advised to take courses that meet the general education requirements for all majors as well as the opportunity to take up to 12 hours of exploratory coursework outside of general education requirements. Students may also enroll in UNI 103 Career Planning Undecided.

Pre-Nursing Students

Pre-Nursing students will be assigned an academic advisor who is knowledgeable of the nursing major and course requirements, as well as the nursing application requirements and application procedures required by the College of Health Professions. The assigned advisor will assist students in selecting required general education courses and will assist in the exploration of other health-related academic majors.

Pre-nursing students in University College will be advised to take courses that meet the general education requirements for all majors as well as specific courses that help students earn points on the ASN (two-year) or BSN (4-year) nursing program application. Pre-nursing students may also take up to 12 hours of exploratory coursework outside of general education requirements.

Early Entry High School Students

Under certain circumstances, high school students may enroll for college credit in their high schools, in college courses on a Marshall campus or at one of the regional centers. For requirements, see entry under the "Admissions" section of this catalog.

Marshall University offers a variety of early admission options. Students may apply to attend Marshall University on either a full- or part-time basis prior to graduating from high school. Early enrollment students are subject to the same policies as other Marshall University students, including academic probation and suspension policies. Students who enroll at Marshall University prior to high school graduation are not eligible for freshman admission, financial aid, or on-campus housing. For admission to Marshall as an Early Admission student, applicants must meet the requirements listed in the Admissions section of this catalog. Students with an exceptional talent in a discipline such as music may request permission to enroll in coursework in that discipline.

Transient Students (Students Visiting from Other Institutions)

Students enrolled in a degree program at another accepted, accredited institution during the previous year who would like to enroll at Marshall for no more than two consecutive semesters (excluding summer terms) can be admitted as transient students. See the entry under "Admissions" for further information. For assistance in enrolling in classes, transient students should contact University College by calling 304-696-3169.

Placement in English and Math

Students are required to obtain a Verbal ACT score of 18 (SAT ERW 480) to be eligible to enroll in college-level English composition courses. Students with verbal scores below 18 must enroll in a corequisite English course, ENG 101P Beginning Composition Plus, where prerequisite work is combined with college-level coursework.

Required prerequisites for math courses vary based on the individual course. The prerequisite for each course is noted in the Courses of Instruction section found in this catalog. Students who do not meet the prerequisites for their required math course(s) may challenge their placement by taking an exam coordinated by University College. Tests are currently being offered remotely. To schedule a remote exam and obtain information to prepare for the exam, please call 304-696-3169 or visit the University College website at https://www.marshall.edu/uc (http://www.marshall.edu/uc/).

Academic Probation and Suspension Policy for University College Students

All Marshall University students are subject to the Academic Probation and Suspension Policy as defined in the "Academic Information" section of this catalog.

Early enrollment students have the same rights and responsibilities as on-campus students and are subject to the University's Academic Probation and Suspension Policy.

Dismissal from University College

Students who are conditionally admitted to Marshall University must meet specific requirements within three semesters to gain full admission to the university. Failure to meet these defined requirements (see above) in the allotted three semesters will result in dismissal from University College and Marshall University. University College students may have the opportunity to appeal dismissal based on extenuating circumstances and appropriate documentation.

National Student Exchange

Please see description under "Learning Opportunities and Resources (p. 46)."

Tutoring Services

Please see description under "Learning Opportunities and Resources (p. 46)."

Week Of Welcome (WOW)

Week of Welcome is an opportunity for first-year students to familiarize themselves with the Huntington campus and learn what it means to be a student at Marshall University. Arriving on campus a few days early, freshmen participate in the President's Freshman Convocation and sessions with the dean, faculty and staff of their academic college, along with other large group sessions and small group seminars. WOW programs are also offered to students attending the South Charleston campus, the Mid-Ohio Valley Center, and the Teays Valley Regional Center. Week of Welcome (WOW) is an integral part of Freshman First Class (UNI 100 Freshman First Class), an introduction to academic structures and expectations of college life. Week of Welcome includes optional evening activities and social events for both residential and commuter students. Information about Week of Welcome is available at www.marshall.edu/wow (http://www.marshall.edu/wow/).

Courses

UNI 100 Freshman First Class **1 Credit hour**
An introduction to the academic structures and expectations of the University including the E-portfolio process. An introduction to the academic structures and expectations of the University including the E-portfolio process.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

UNI 102 Strat for Academic Success **1 Credit hour**
An academic enrichment course which provides students with strategies and practical experience for academic success. Topics to be covered include research skills, critical thinking applications, and effective study skills.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

UNI 103 Career Planning Undecided **1 Credit hour**
Designed for undecided college students. Explore career options and majors. Topics include interest testing, career information, decision-making skills, and job finding strategies. Course does not count toward graduation. Designed for undecided college students. Explore career options and majors. Topics include interest testing, career information, decision-making skills, and job finding strategies. Course does not count toward graduation.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

UNI 104 Adv Strat for Acad Success **1 Credit hour**
Course provides practical strategies for assessing personal and academic challenges, honing critical thinking skills to make informed decisions, improving learning and time management skills, tracking progress toward personal goals.
Grade Mode: Normal Grading Mode

UNI 201 Peer Mentoring **1 Credit hour**
Students trained as peer advisors will lead discussions, campus field trips and work with faculty advisors in the design and implementation of the freshamn introduction to campus life and classes. (Prerequisite: Permission of the Executive Director CAE or Dean of University College) Students trained as peer advisors will lead discussions, campus field trips and work with faculty advisors in the design and implementation of the freshamn introduction to campus life and classes. (Prerequisite: Permission of the Executive Director CAE or Dean of University College)
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

UNI 202 Introduction to Scholarship **1 Credit hour**
Prepares students to participate on an active research team, with the guidance of (a) faculty research mentor(s), pursing a line of research.
Grade Mode: Normal Grading Mode

UNI 203 Scholarship Discovery **3 Credit hours**
Engages students in original research that advances knowledge and seeks to improve community conditions.
Grade Mode: Normal Grading Mode

UNI 304 Scholarship of Application **3 Credit hours**
Empowers students to synthesize information and knowledge gained from original research into a meaningful, coherent, and public body of work.
Grade Mode: Normal Grading Mode

UNI 400 Graduate School Preparation **2 Credit hours**
This course will provide necessary steps, tools, and resources future graduates need in completing their undergraduate career and pursuing a graduate degree. Designed for students graduating within one year.
Grade Mode: Normal Grading Mode

Courses listed in this catalog are subject to change through approved academic channels. New courses and changes in existing coursework are initiated by the particular departments or programs, approved by the appropriate academic dean and/or curriculum committee, by the Faculty Senate, and the president.

Before the beginning of each semester, a “Schedule of Courses” is printed announcing the courses that will be offered by the college and schools. Copies may be obtained in the Registrar’s Office and at various sites on campus. Course schedules are available online at www.marshall.edu/myMU (http://www.marshall.edu/myMU/).

Standardized Course Listings

All departments include among their offerings the following undergraduate course numbers and titles:

- 280-283 Special Topics. 1-4 hrs.
- 297-298 Instructional TV Courses. 1-4 hrs.
- 480-483 Special Topics. 1-4 hrs.
- 485-488 Independent Study. 1-4 hrs.
- 497-498 Instructional TV Courses. 1-4 hrs.

Departments that offer practica and internships use the following undergraduate course numbers:

- Practicum. 270-272, 370-372, 470-472.
- Internship. 290, 490.

Abbreviations

Abbreviation	Description
PR	Prerequisite
CR	Corequisite
CR/NC	Credit/Non-Credit grading
Lec-lab.	Lecture and laboratory hours per week (e.g., 2 lec-4 lab. means two hours lecture and four hours laboratory per week).
Rec.	Recommended
I,II,S.	Offered first semester, second semester, summer.

Accountancy (ACC)

- General Education Course

ACC 198 Accounting Professionalism **1 Credit hour**
Introduction to the accounting profession, career options, professional responsibilities, and codes of conduct. Professionalism, networking, interviewing, job search, and technical writing skills are developed.
Pre-req: ACC 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 215 Accounting Principles (CT) **3 Credit hours**
Introduction to principles and procedures of double-entry accounting records and reports. This course meets a Core 1/Critical Thinking requirement.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

ACC 216 Principles of Accounting **3 Credit hours**
Using accounting information to assist in managerial control and decision making. Using accounting information to assist in managerial control and decision making.
Pre-req: ACC 215 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ACC 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ACC 310 Acct for Entrepreneurs **3 Credit hours**
Principles, concepts and problems of accounting relevant to decision making for entrepreneurs including: pro forma financial statements, cash flow, securing financing and cost structures. NOT OPEN TO STUDENTS IN THE LEWIS COLLEGE OF BUSINESS
Grade Mode: Normal Grading Mode

ACC 311 Intermediate Accounting I **3 Credit hours**
Study of U.S. and International accounting standards related primarily to assets and financial statement preparation. Accounting standards research and application of Excel are integrated throughout the course.
Pre-req: ACC 215 with a minimum grade of C and ACC 216 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 312 Intermediate Accounting II **3 Credit hours**
Study of U.S. and International accounting standards related primarily to liabilities and revenue recognition. Accounting standards research and application of Excel are integrated throughout the course.
Pre-req: ACC 198 with a minimum grade of D and ACC 311 with a minimum grade of C and MIS 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ACC 318 Cost Accounting I **3 Credit hours**
A study of fundamental cost accounting concepts and objectives including project cost accumulation, costvolume-profit analysis, direct costing, budget techniques, standard costing, and differential cost analysis. A study of fundamental cost accounting concepts and objectives including project cost accumulation, cost- volume-profit analysis, direct costing, budget techniques, standard costing, and differential cost analysis.
Pre-req: ACC 215 with a minimum grade of C and ACC 216 with a minimum grade of C and (MGT 218 with a minimum grade of D or MGT 318 with a minimum grade of D or MTH 225 with a minimum grade of D or STA 225 with a minimum grade of D or IST 130 with a minimum grade of D or EDF 417 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D).
Grade Mode: Normal Grading Mode

ACC 341 Acc Information Systems **3 Credit hours**
Introduction to accounting systems. Emphasis on concepts of analysis, design, and implementation of accounting systems with attention on internal and audit trail.
Pre-req: ACC 198 with a minimum grade of D and ACC 311 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 348 Federal Taxation **3 Credit hours**
Problems and procedures of income tax accounting. Problems and procedures of income tax accounting.
Pre-req: ACC 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 364 Forensic & Investigative Acct **3 Credit hours**
This course introduces students to forensic accounting focusing on criminal litigation and investigations of fraud.
Pre-req: ACC 311 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 412 Governmental Accounting **3 Credit hours**
A study of the use of accounting information in the financial management of governmental and non-profit entities. A study of the use of accounting information in the financial management of governmental and non-profit entities.
Pre-req: ACC 311 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 414 Adv Accounting Problems **3 Credit hours**
Selected problems in advanced accounting principles and procedures. Selected problems in advanced accounting principles and procedures.
Pre-req: ACC 312 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 418 Managerial Accounting **3 Credit hours**
The managerial approach to budgetary control. The managerial approach to budgetary control.
Pre-req: ACC 318 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 429 Auditing I **3 Credit hours**
A study of the theory and procedures of auditing and the legal and social responsibilities of the auditor. A study of the theory and procedures of auditing and the legal and social responsibilities of the auditor.
Pre-req: ACC 312 with a minimum grade of C and ACC 341 with a minimum grade of C and (MGT 218 with a minimum grade of D or MGT 318 with a minimum grade of D or MTH 225 with a minimum grade of D or STA 225 with a minimum grade of D or MTH 210 with a minimum grade of D or IST 130 with a minimum grade of D or SOC 345 with a minimum grade of D or PSY 223 with a minimum grade of D or EDF 417 with a minimum grade of D).
Grade Mode: Normal Grading Mode

ACC 435 Internal Auditing **3 Credit hours**
This course discusses the applicable current internal auditing theory and procedures, including a review of corporate governance and risk assessment. This course discusses the applicable current internal auditing theory and procedures, including a review of corporate governance and risk assessment.
Pre-req: ACC 341 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 440 Accounting Analytics **3 Credit hours**
This course studies the impact of data analytics on accounting and auditing and explores when and how various analytical procedures and tools can be used to address business questions.
Pre-req: ACC 311 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 448 Federal Income Tax II **3 Credit hours**
Advanced course in taxation with emphasis on corporations, partnerships, estates, trusts, gifts, valuation and liquidity problems, and tax administration and practice. Advanced course in taxation with emphasis on corporations, partnerships, estates, trusts, gifts, valuation and liquidity problems, and tax administration and practice.
Pre-req: ACC 348 with a minimum grade of C and ACC 311 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ACC 480 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses. Accounting majors only, with permission of Department Chair.
Grade Mode: Normal Grading Mode

ACC 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ACC 490 Internship **3-12 Credit hours**
A supervised internship in which the student works for a business firm/agency to gain practical experience in the student's major. The program of work and study will be defined in advance and the student's performance will be evaluated. A supervised internship in which the student works for a business firm/agency to gain practical experience in the student's major. The program of work and study will be defined in advance and the student's performance will be evaluated.
Grade Mode: Credit/No Credit Grade Only

ACC 499 Professional and Ethics Sem **3 Credit hours**
Designed to increase the student's awareness of the accounting environment, emphasizing ethics. Communication skills are improved through impromptu speaking, written reports, group projects and formal presentations. Capstone Course.
Pre-req: ACC 318 with a minimum grade of C and ACC 429 (may be taken concurrently) with a minimum grade of D and ACC 440 (may be taken concurrently) with a minimum grade of D and ACC 448 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: ACC 429 and ACC 440 and ACC 448
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Anthropology (ANT)

- General Education Course

ANT 201 Cultural Anthropology (CT) **3 Credit hours**
Introduction to the scientific study of culture with emphasis on the cultures of small-scale societies. This class emphasizes critical thinking skills. Introduction to the scientific study of culture with emphasis on the cultures of small-scale societies. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

ANT 201H Cultural Anthropol Honors (CT) **3 Credit hours**
Introduction to the scientific study of culture with emphasis on the cultures of small-scale societies. This class emphasizes critical thinking skills. For the honors student. Introduction to the scientific study of culture with emphasis on the cultures of small-scale societies. This class emphasizes critical thinking skills. For the honors student.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Critical Thinking, Honors, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

Grade Mode: Normal Grading Mode

ANT 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ANT 301 Social Statistics **3 Credit hours**
Introduction to statistical analysis of social data. Introduction to statistical analysis of social data.
Grade Mode: Normal Grading Mode

ANT 322 Archaeology **3 Credit hours**
Introduction to the methods and theory of archaeology. Introduction to the methods and theory of archaeology.
Grade Mode: Normal Grading Mode

ANT 323 Archaeolog Field Train **3-6 Credit hours**
Supervised instruction in on-site archaeological data collection, survey and excavation techniques. Supervised instruction in on-site archaeological data collection, survey and excavation techniques.
Grade Mode: Normal Grading Mode

ANT 324 Archaeological Analysis **3 Credit hours**
Supervised instruction in processing and analyzing archaeological materials recovered by fieldwork. Supervised instruction in processing and analyzing archaeological materials recovered by fieldwork.
Pre-req: ANT 322.
Grade Mode: Normal Grading Mode

ANT 325 World Prehistory **3 Credit hours**
An introduction to the archaeology of pre-literate cultures, from the emergence of Homo Sapiens to the present. An introduction to the archaeology of pre-literate cultures, from the emergence of Homo Sapiens to the present.
Grade Mode: Normal Grading Mode

ANT 326 Classical Archaeology **3 Credit hours**
Archaeology of ancient Greece and Rome, and their colonies and imperial domains. Archaeology of ancient Greece and Rome, and their colonies and imperial domains.
Grade Mode: Normal Grading Mode

ANT 331 Physical Anthropology **3 Credit hours**
The study of human physical evolution, from the earliest hominins to the present day, based on the study of primatology, human genetics, and the paleontological record. The study of human physical evolution, from the earliest hominins to the present day, based on the study of primatology, human genetics, and the paleontological record.
Grade Mode: Normal Grading Mode

ANT 361 Ethnographic Research **3 Credit hours**
A project-based introduction to ethnographic research design and practice. A project-based introduction to ethnographic research design and practice.
Grade Mode: Normal Grading Mode

ANT 362 Health, Culture & Society **3 Credit hours**
A cross-cultural, historical, and bio-cultural examination through case-study of social and environmental factors that affect human health and disease.
Pre-req: ANT 201 or ANT 201H or SOC 200 or SOC 200H.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

ANT 363 US Culture and the Family **3 Credit hours**
An historically and ethnographically informed consideration of the changing meaning and place of family and work in everyday American life, media, and politics. An historically and ethnographically informed consideration of the changing meaning and place of family and work in everyday American life, media, and politics.
Grade Mode: Normal Grading Mode

ANT 364 Expressive Culture **3 Credit hours**
Exploration of expressive cultural forms in the construction of personal and communal identities and their meaningful attachment to particular geographic places. Exploration of expressive cultural forms in the construction of personal and communal identities and their meaningful attachment to particular geographic places.
Attributes: Social Sciences
Grade Mode: Normal Grading Mode

ANT 365 Anthropology through Film **3 Credit hours**
Exploration of film as general anthropological field of interest with emphasis on understanding selected films as cultural texts and association with particular and changing cultural, political, economics and historical contexts. Exploration of film as general anthropological field of interest with emphasis on understanding selected films as cultural texts and association with particular and changing cultural, political, economics and historical contexts.
Grade Mode: Normal Grading Mode

ANT 371 Linguistic Anthropology **3 Credit hours**
Introduction to the theories and methodologies of linguistic anthropology and to language as a cultural phenomenon and form of diversity.
Attributes: International
Grade Mode: Normal Grading Mode

ANT 372 Methods in Language & Culture **3 Credit hours**
In this course, students will learn a variety of methods for studying language and culture used in anthropology, sociolinguistics, and applied linguistics by collecting and analyzing actual linguistic data
Grade Mode: Normal Grading Mode

ANT 402 Principles of GIS **4 Credit hours**
Introduction to Geographic Information Systems (GIS) principles, techniques, and applications for the social and natural sciences with emphasis on foundational geographic principles in a lecture/lab format. Introduction to Geographic Information Systems (GIS) principles, techniques, and applications for the social and natural sciences with emphasis on foundational geographic principles in a lecture/lab format.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

ANT 411 Deconstructing Appalachia **3 Credit hours**
Exploration of the historical and cultural significance of Appalachia in the American experience and imagination.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

ANT 412 Appalachian Field Exp I **3-6 Credit hours**
Supervised fieldwork in an Appalachian community studying the social and cultural characteristics of the area.
Pre-req: ANT 411.
Grade Mode: Normal Grading Mode

ANT 428 Arch Theory and Analysis **3 Credit hours**
An introduction to archaeological theory and its application to the material record of cultures, past and present.
Grade Mode: Normal Grading Mode

ANT 440 African Cultures **3 Credit hours**
Comparative analysis of the ethnic groups of Africa, using archaeological and ethnographic data.
Attributes: International
Grade Mode: Normal Grading Mode

ANT 441 Oceania **3 Credit hours**
Comparative analysis of the indigenous peoples and cultures of Melanesia and Polynesia, using archaeological and ethnographic data.
Grade Mode: Normal Grading Mode

ANT 442 The Native Americans **3 Credit hours**
Comparative analysis of the indigenous inhabitants of North America, using archaeological and ethnographic data. PR: Six hours of anthropology or departmental permission. Comparative analysis of the indigenous inhabitants of North America, using archaeological and ethnographic data. PR: Six hours of anthropology or departmental permission.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

ANT 445 American Ethnicities **3 Credit hours**
Comparative overview of historical and contemporary patterns of immigration, settlement, and inter-ethnic relations in the United States.
Attributes: International
Grade Mode: Normal Grading Mode

ANT 460 Crime and Custom **3 Credit hours**
This course examines law and legal processes in diverse cultures from anthropological and law and society perspectives.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

ANT 464 Design, Planning & Health **3 Credit hours**
Social scientific study of how places where people live, work, and recreate affect quality of life and overall health with an emphasis on design decisions within urban and regional planning.
Attributes: Digital Humanities, Multicultural
Grade Mode: Normal Grading Mode

ANT 465 Disaster, Culture & Health **3 Credit hours**
Study of contemporary environmental and social problems emphasizing health impacts of natural and technological disasters on communities around the world.
Attributes: Digital Humanities, International
Grade Mode: Normal Grading Mode

ANT 466 Culture and Environment **3 Credit hours**
This course will examine the symbolic and structural dimensions of struggles over defining, organizing, and controlling the natural environment from biocultural perspective.
Attributes: International
Grade Mode: Normal Grading Mode

ANT 467 Culture in Ethnographies **3 Credit hours**
In depth exploration and comparison of diverse cultural groups through reading and discussing ethnographic texts. PR: Six credit hours of anthropology or departmental permission. In depth exploration and comparison of diverse cultural groups through reading and discussing ethnographic texts. PR: Six credit hours of anthropology or departmental permission.
Attributes: International
Grade Mode: Normal Grading Mode

ANT 468 National Identity **3 Credit hours**
Exploration of cultural, political and economic processes that contribute to creation and maintenance of the modern national state as an imagined community.
Grade Mode: Normal Grading Mode

ANT 472 Language, Gender and the Body **3 Credit hours**
Uses methods and theories from anthropology, linguistics, and sociology to examine how gendered bodies in different cultures are constructed through ways of acting in the world.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

ANT 478 Intro to Sociolinguistics **3 Credit hours**
Sociolinguistics is the study of the effects of language in society relevant to discourse practices, language attitudes, variations, shifts and changes.
Pre-req: ENG 102 or ENG 302 or ENG 201H.
Grade Mode: Normal Grading Mode

ANT 480 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

ANT 481 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

ANT 482 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

ANT 483 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses. Study of topics of interest not ccovered in regularly scheduled courses. PR: Six credit hours of anthropology or deparmental permission.
Grade Mode: Normal Grading Mode

ANT 485 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

ANT 486 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

ANT 487 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

ANT 488 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

ANT 489 Internship **1-4 Credit hours**
Supervised practicum founded on anthropological knowledge in a host institution. 40-45 hours of internship work correspond with 1 credit hour.
Grade Mode: Normal Grading Mode

ANT 491 Theory in Ethnology **3 Credit hours**
Introduction to major theoretical traditions of cultural anthropology with emphasis on the connection between fieldwork and development of theory.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

ANT 492 Senior Seminar I **3 Credit hours**
Application of anthropological theory and practice to individually designed projects. This course fulfills the capstone requirement for undergraduate anthropology majors.
Grade Mode: Normal Grading Mode

ANT 493 Senior Seminar II **3 Credit hours**
Application of anthropological theory and practice to individually designed projects. Fulfills the capstone requirement for undergraduate majors.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Art (ART)

- General Education Course

ART 101 Visual Culture and Research **3 Credit hours**
Introduction to the functions of art applications of media, elements and principles of design, artists, and aesthetics. (Required for Art Majors) Introduction to the functions of art applications of media, elements and principles of design, artists, and aesthetics. (Required for Art Majors)
Grade Mode: Normal Grading Mode

ART 112 Intro To Visual Art **3 Credit hours**
An introduction to the methods and principles of the visual arts. Students will consider the work of major artists in thematic contexts. (For non-art majors only.)
Attributes: Core II Fine Arts
Grade Mode: Normal Grading Mode

ART 112H Intro to Visual Art Honors **3 Credit hours**
An introduction to the methods and principles of the visual arts. Students will consider the work of major artists in thematic contexts. (For non-art majors only.)
Pre-req: Admitted Honors College with a score of 1.
Attributes: Core II Fine Arts, Honors
Grade Mode: Normal Grading Mode

ART 113 Art Education: Elementary **3 Credit hours**
An introduction to the materials and methods for teaching art in early childhood and elementary (PreK-6). Stages of development, integrated curriculum design, assessment, and instructional strategies are emphasized. An introduction to the materials and methods for teaching art in early childhood and elementary (PreK-6). Stages of development, integrated curriculum design, assessment, and instructional strategies are emphasized.
Grade Mode: Normal Grading Mode

ART 201 History of Art **3 Credit hours**
A survey of the development of architecture, sculpture, painting, and the minor arts to ca. 1400 A.D. to the present. A survey of the development of architecture, sculpture, painting, and the minor arts to ca. 1400 A.D. to the present.
Pre-req: ART 112 with a minimum grade of C or ART 101 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 202 History of Art **3 Credit hours**
A survey of the history of art from the Renaissance to the present.
Pre-req: ART 112 with a minimum grade of C or ART 101 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 214 Foundations: Grid/Chroma **3 Credit hours**
Introduction to graphic design principles/software in one half-semester workshop and color theory/painting in another. Students will develop visual, technical, and critical thinking skills by solving conceptual problems.
Grade Mode: Normal Grading Mode

ART 215 Foundations: Form/Space **3 Credit hours**
Introduction to 3D physical form/space by exploring ceramics in one half-semester workshop and sculpture in another. Students will develop visual, technical, and critical thinking skills by solving conceptual problems.
Grade Mode: Normal Grading Mode

ART 217 Foundations: Record/Layer **3 Credit hours**
Introduction to still life/figure drawing in one half-semester workshop and experimental drawing/mixed media in another. Students will develop perceptual, technical, and creative problem solving skills.
Grade Mode: Normal Grading Mode

ART 218 Foundations: Site/Matrix **3 Credit hours**
Introduction to installation art with fibers in one half-semester workshop and printmaking processes in another. Students will develop visual, technical, and critical thinking skills by solving conceptual problems.
Grade Mode: Normal Grading Mode

ART 219 Foundations: Frame/Time **3 Credit hours**
Introduction to digital/film photography in one half-semester workshop and 4D design principles/video-based processes in another. Students will develop visual, technical, and critical thinking skills by solving conceptual problems.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

ART 255 Beginning Painting I **3 Credit hours**
Basic techniques using color creatively based on an understanding of visual structural elements; various media including water, acrylic and oil based paints. Basic techniques using color creatively based on an understanding of visual structural elements; various media including water, acrylic and oil based paints.
Pre-req: ART 214 with a minimum grade of C and ART 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 271 Practicum **3 Credit hours**
Grade Mode: Normal Grading Mode

ART 272 Practicum **3 Credit hours**
Grade Mode: Normal Grading Mode

ART 280 Special Topics **1-4 Credit hours**
To be used for experimental courses. By permission only. To be used for experimental courses. By permission only.
Grade Mode: Normal Grading Mode

ART 281 Special Topics **1-4 Credit hours**
To be used for experimental courses. By permission only. To be used for experimental courses. By permission only.
Grade Mode: Normal Grading Mode

ART 282 Special Topics **1-4 Credit hours**
To be used for experimental courses. By permission only. To be used for experimental courses. By permission only.
Grade Mode: Normal Grading Mode

ART 283 Special Topics **1-4 Credit hours**
To be used for experimental courses. By permission only. To be used for experimental courses. By permission only.
Grade Mode: Normal Grading Mode

ART 298 Foundations Review: BFA **1 Credit hour**
Students must present art and design work from all foundations studio courses for faculty review. Required for program advancement. Art majors only.
Pre-req: (ART 101 with a minimum grade of C or ART 112 with a minimum grade of C) and ART 214 with a minimum grade of C and ART 215 with a minimum grade of C and ART 217 with a minimum grade of C and ART 218 with a minimum grade of C and ART 219 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 299 Foundations Review: BA **1 Credit hour**
Students present artwork from foundations courses for faculty review. (Art Education 5-Adult: 218 not required). Successful completion of ART 299 is a prerequisite for advanced studio courses.
Pre-req: (ART 101 with a minimum grade of C or ART 112 with a minimum grade of C) and ART 214 with a minimum grade of C and ART 215 with a minimum grade of C and ART 217 with a minimum grade of C and ART 218 with a minimum grade of C and ART 219 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 301 Printmaking Processes **3 Credit hours**
Experiments in the media of intaglio, lithography, serigraphy, relief collagraphs and new techniques in printmaking. Experiments in the media of intaglio, lithography, seri- graphy, relief collagraphs and new techniques in print- making.
Pre-req: ART 218 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 302 Relief Printmaking **3 Credit hours**
Traditional and experimental approaches to relief printmaking, including woodcut, linocut, wood engraving, relief etching, Japanese techniques, monoprints, and other press and handprinting relief processes. Traditional and experimental approaches to relief print-making, including woodcut, linocut, wood engraving, relief etching, Japanese techniques, monoprints, and other press and handprinting relief processes.
Pre-req: ART 301 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 303 Surface Design **3 Credit hours**
Introduction to surface design. Student will learn various techniques to apply color on fabric surface.
Pre-req: ART 214 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 305 Ceramics **3 Credit hours**
Search for form and personal expressing through clay. Emphasis on handbuilding techniques, decorative processes and glaze application. Search for form and personal expressing through clay. Emphasis on handbuilding techniques, decorative processes and glaze application.
Pre-req: ART 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 307 Sculpture **3 Credit hours**
Emphasis on modeling in clay and exploring the potential of plaster, wood and other materials relevant to the area of sculpture. Emphasis on modeling in clay and exploring the potential of plaster, wood and other materials relevant to the area of sculpture.
Pre-req: ART 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 308 Weaving **3 Credit hours**
The student will demonstrate the ability to carry through the entire process for planning, through warping, threading, and weaving. Each will create unique art works while developing traditional technical skills. The student will demonstrate the ability to carry through the entire process for planning, through warping, threading, and weaving. Each will create unique art works while developing traditional technical skills.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 310 Art Education: Elementary **3 Credit hours**
An introduction to the materials and methods for teaching art in early childhood and elementary (PreK-6). Stages of development, integrated curriculum design, assessment, and instructional strategies are emphasized.
Grade Mode: Normal Grading Mode

ART 312 Typography **3 Credit hours**
Practical studio skills: Typography, application of design principles in print and digital media, and introduction to the computer as a design tool. Also, the designer's relationship to clients and other professionals. Practical studio skills: specifying type, photographic and airbruch techniques and preparation of mechanicals. Also, designer's relationship to agencies, clients, printers, and other professionals.
Pre-req: ART 214 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 313 Installation Art With Fibers **3 Credit hours**
The student will create installation art using a variety of fibers tools, materials, and processes with focus on self-expression and the exploration of structure, space, color, form, and meaning.
Pre-req: ART 214 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 314 Graphic Design I **3 Credit hours**
Sign combinations and visual structure, in relation to meaning of visual messages. Assignments include posters, advertising, information design, and corporate identity. Introduction to materials and procedures in the design process. Sign combinations and visual structure, in relation to meaning of visual messages. Assignments include posters, advertising, information design, and corporate identity. Introduction to materials and procedures in the design process.
Pre-req: (ART 214 with a minimum grade of C and ART 312 with a minimum grade of C) or (JMC 241 with a minimum grade of D and MKT 341 with a minimum grade of D).
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 315 Intro to Photography **3 Credit hours**
Introduction to black and white photography through basic techniques of camera controls, lighting, traditional wet lab, and digital imaging.
Pre-req: ART 219 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 316 Graphic Design II **3 Credit hours**
Applies the use of type and images to design for advertising, editorial, for instructional purposed. Involvement with extended design and layout problems. Applies the use of type and images to design for advertising, editorial, for instructional purposed. Involvement with extended design and layout problems.
Pre-req: ART 314 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 317 Illustration **3 Credit hours**
Conceptual and technical development of illustrations for editorial and advertising purposes. Conceptual and technical development of illustrations for editorial and advertising purposes.
Pre-req: ART 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 318 Art/Design for Websites **3 Credit hours**
This course will focus on art and design considerations in creating web sites. Current software will be used to create graphics, video and audio for web page and website design.
Pre-req: ART 214 with a minimum grade of C.
Attributes: Digital Humanities, No Textbook Required
Grade Mode: Normal Grading Mode

ART 319 Wood Fundamentals: Furniture **3 Credit hours**
The fundamental methods of wood furniture design and construction, including joinery techniques, will be taught. Domestic and exotic woods will be used.
Pre-req: ART 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 320 Silk Screen Printmaking **3 Credit hours**
Experience with screen-printing stencil processes. The advanced student may also explore photographic stencilmaking and printing and a variety of surfaces. Experience with screen-printing stencil processes. The advanced student may also explore photographic stencil- making and printing and a variety of surfaces.
Pre-req: ART 301 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 322 Collagraphs **3 Credit hours**
Printmaking using the collagraph plate or matrix, an additive method that employs both intaglio and relief techniques. Printmaking using the collagraph plate or matrix, an additive method that employs both intaglio and relief techniques.
Pre-req: ART 301 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 323 35mm Slide Photography **3 Credit hours**
Photographic composition, color, and creative pictorial vision along with camera controls are explored through making 35mm slides. Photographic composition, color, and creative pictorial vision along with camera controls are explored through making 35mm slides.
Pre-req: ART 315 with a minimum grade of C or JMC 360 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ART 324 Image Visual: Darkroom **3 Credit hours**
ART 324 is a continuation of material presented in ART 315. Students will explore black and white photography through a variety of cameras and techniques.
Pre-req: ART 315 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 325 Image Visualization: Digital **3 Credit hours**
ART 325 is an exploration using digital techniques. Students will refine their personal vision using digital cameras, lighting and digital imaging software.
Pre-req: ART 219 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 331 Expanded Forms of Sculpture **3 Credit hours**
Emphasizes alternative ways of creating sculpture. We will investigate and create artworks guiding by historical examples of ephemeral art, performance, interventions, language, sound, social practice, and land art.
Pre-req: ART 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 332 Intro to Digital Sculpture **3 Credit hours**
Emphasis will be on the tools, materials and processes of additive and subtractive sculpture. Both traditional techniques and digital technologies will be explored using materials like plastic, wood, and foam. Emphasis will be on the tools, materials and processes of subtractive sculpture. Both traditional and modern tech- niques will be explored in carving from a variety of woods, stones and other materials.
Pre-req: ART 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 333 Welded Sculpture **3 Credit hours**
A variety of techniques including oxygen/acetylene, arc and TIG welding will be studied and practiced in the process of direct metal sculpting. A variety of techniques including oxygen/acetylene, arc and TIG welding will be studied and practiced in the process of direct metal sculpting.
Pre-req: ART 298 with a minimum grade of C or ART 299 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 335 Art Ed 2D-3D **3 Credit hours**
Philosophy, media and methods for teaching art (emphasis for elementary level); includes laboratory experiences. Philosophy, media and methods for teaching art (emphasis for elementary level); includes laboratory experiences.
Grade Mode: Normal Grading Mode

ART 340 Art Education: Secondary **3 Credit hours**
An introduction to the methods for teaching art at the secondary level (7-12). Authentic instruction and classroom assessment strategies are emphasized.
Pre-req: ART 113 with a minimum grade of C or ART 310 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 343 Intro to Potter's Wheel **3 Credit hours**
Basic throwing skills, surface enrichment and glaze application emphasized. Design analysis and production of functional form stressed. Basic throwing skills, surface enrichment and glaze application emphasized. Design analysis and production of functional form stressed.
Pre-req: ART 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 344 Primitive Ceramic Tech **3 Credit hours**
The study of local clay preparation and primitive firing and decorating techniques. The study of local clay preparation and primitive firing and decorating techniques.
Pre-req: (ART 305 with a minimum grade of C or ART 343 with a minimum grade of C) and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 345 Problems in Porcelain **3 Credit hours**
The formulation and use of porcelain in the production of utilitarian and sculptural form. The formulation and use of porcelain in the production of utilitarian and sculptural form.
Pre-req: (ART 305 with a minimum grade of C or ART 343 with a minimum grade of C) and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 350 Watercolor Painting **3 Credit hours**
Watercolor medium in expressing still life, landscape, and the human figure. Watercolor medium in expressing still life, landscape, and the human figure.
Pre-req: ART 214 with a minimum grade of C or ART 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 351 Advanced Watercolor **3 Credit hours**
Advanced exploration of watercolor, inks and other fluid media. Emphasis will be on experimental methods and personal originality. Advanced exploration of watercolor, inks and other fluid media. Emphasis will be on experimental methods and personal originality.
Pre-req: ART 350 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 353 Beginning Painting I **3 Credit hours**
Pre-req: ART 214 with a minimum grade of C or ART 217 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 354 Beginning Painting II **3 Credit hours**
Pre-req: ART 353 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 355 Painting III **3 Credit hours**
Continues development for the intermediate level painter with emphasis on techniques and form, including varied supports, grounds, mediums such as encaustics, synthetic reins, egg tempera, acrylics and oils. Continues development for the intermediate level painter with emphasis on techniques and form, including varied supports, grounds, mediums such as encaustics, synthetic reins, egg tempera, acrylics and oils.
Pre-req: ART 214 with a minimum grade of C or ART 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 360 Mixed Media **3 Credit hours**
Projects in painting, drawing and mixed media. Projects in painting, drawing and mixed media.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 369 Mold Making & Casting **3 Credit hours**
Advanced processes of piece and flexible mold making will be studied and practiced for the purpose of casting complex forms and limited edition sculpture. Advanced processes of piece and flexible mold making will be studied and practiced for the purpose of casting complex forms and limited edition sculpture.
Pre-req: ART 305 with a minimum grade of C or ART 307 with a minimum grade of C or ART 343 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 371 Practicum **3 Credit hours**
Grade Mode: Normal Grading Mode

ART 372 Practicum **3 Credit hours**
Grade Mode: Normal Grading Mode

ART 389 20th Century Art **3 Credit hours**
A survey of major 20th Century artists works, styles, movements and media in a broad historical context with discussion of research methods and directed research project. A survey of major 20th Century artists works, styles, movements and media in a broad historical context with discussion of research methods and directed research project.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 390 Professional Practice **3 Credit hours**
Current views and practice: contemporary issues in art, safe practices in the studio, career opportunities, technology and art, and professional skills for artists. Current views and practice: contemporary issues in art, safe practices in the studio, career opportunities, technology and art, and professional skills for artists.
Pre-req: ART 298 with a minimum grade of C or ART 299 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 404 Iconography of Mary **3 Credit hours**
Traces the sources and evolution of Catholic doctrine and images of the Virgin Mary. Traces the sources and evolution of Catholic doctrine and images of the Virgin Mary.
Grade Mode: Normal Grading Mode

ART 406 Figure Drawing **3 Credit hours**
Practice in drawing from the posed human figure. Practice in drawing from the posed human figure.
Pre-req: ART 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 407 Tribal Arts **3 Credit hours**
An introduction to the unique arts of so-called precivilized peoples with a two-fold emphasis: First, the European pre-historic; second, the non-European primitive. An introduction to the unique arts of so-called pre-civilized peoples with a two-fold emphasis: First, the European pre-historic; second, the non-European primitive.
Pre-req: ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 408 Art & Arch of Ancient Egypt **3 Credit hours**
History of the visual arts of ancient Egypt in the context of social and religious influences. History of the visual arts of ancient Egypt in the context of social and religious influences.
Pre-req: ART 201 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 409 19th Century Art **3 Credit hours**
A survey of the development of architecture, painting, and sculpture in the Western World during the last century. A survey of the development of architecture, painting, and sculpture in the Western World during the last century.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 411 Art of Ancient Rome **3 Credit hours**
Explores the art and architecture of ancient Rome in light of social and religious influences.
Pre-req: ART 201 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 414 Art & Arch Italian Renaissance **3 Credit hours**
Explores the art and architecture of the Italian Renaissance in the context of social and religious influences. Explores the art and architecture of the Italian Renaissance in the context of social and religious influences.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 415 Northern Renaissance Art **3 Credit hours**
Explores the art of Northern Europe during the Renaissance in light of social and religious influences.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 416 Baroque Art **3 Credit hours**
Analyzes Baroque art and the social milieu that influenced, commissioned, financed, and produced it.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 418 Advanced Drawing **3 Credit hours**
Drawing problems designed and executed by the individual student, in a variety of media, to develop unique imagery and increased technical skill. Drawing problems designed and executed by the individual student, in a variety of media, to develop unique imagery and increased technical skill.
Pre-req: ART 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 419 Textile Construction **3 Credit hours**
Explore various textile materials using ancient and contemporary processes and their applications in the development of 21st century crafts and products.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 420 Textile Design **3 Credit hours**
Textile design for possible commercial production, emphasizing the creation of numerous fabric samples and limited amounts of yardage.
Grade Mode: Normal Grading Mode

ART 422 Digital Process for Textiles **3 Credit hours**
Students will use graphics software to produce original designs emphasizing the strength of these programs to quickly manipulate color palette, scale, and pattern to develop functional textiles for industrial use.
Grade Mode: Normal Grading Mode

ART 423 Photographic Lighting **3 Credit hours**
Advanced course for students who have completely mastered the basics of photography. Covers basic studio setup, creative use of the studio situation in portraits, still life and photo illustration. Advanced course for students who have completely mastered the basics of photography. Covers basic studio setup, creative use of the studio situation in portraits, still life and photo illustration.
Pre-req: ART 325 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C or AM 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 424 Women and Art **3 Credit hours**
Explores the relationship of women to art historically; as artists, as subject matter, and as patrons/consumers.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 425 History of Photography **3 Credit hours**
Selected survey of the history of photography investigating the prehistory and invention of photography, portraiture, landscape, social documentary, aesthetic, and experimental practice, post-modernism, and the digital age.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 426 19th Century Photo Processes **3 Credit hours**
Explores traditional photographic processes that were prevalent during the 19th century combines with contemporary practices using digital techniques. Emphasis on creative development and technical proficiency.
Pre-req: ART 219 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 427 Photo Portfolio **3 Credit hours**
Continued development of creative work with emphasis on preparation of portfolio and exhibition. Continued development of creative work with emphasis on preparation of portfolio and exhibition.
Pre-req: (ART 324 with a minimum grade of C or ART 325 with a minimum grade of C) and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 428 History of Medieval Art **3 Credit hours**
Explores the art and architecture of the European Middle Ages in light of social and religious influences.
Pre-req: ART 201 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 429 Byzantine and Islamic Art **3 Credit hours**
Explores the art and architecture of the Byzantine Empire and neighboring medieval Islamic societies in light of social and religious influences.
Pre-req: ART 201 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 432 Illusion **3 Credit hours**
Illusion explores the history and application of various illusionist effects to assist in the understanding of why artists incorporate illusion in their work and how these concepts convey relevant meaning.
Pre-req: (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C) and (ART 301 with a minimum grade of C or ART 303 with a minimum grade of C or ART 305 with a minimum grade of C or ART 307 with a minimum grade of C or ART 312 with a minimum grade of C or ART 325 with a minimum grade of C or ART 343 with a minimum grade of C or ART 350 with a minimum grade of C or ART 353 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 440 Adv Graphic Design **3 Credit hours**
Directed study in which student select subject from any area of commercial design with the goal of developing specific area of expertise. Emphasis on original design and research. Directed study in which student select subject from any area of commercial design with the goal of developing specific area of expertise. Emphasis on original design and research.
Pre-req: ART 316 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 442 Site-Specific Sculpture **3 Credit hours**
Emphasis will be on creating sculptures that deal directly with unique spaces and particular locations. We will focus on how history, culture, and geography inspire site-specific sculptures.
Pre-req: ART 215 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 443 Mm/Assemblage Sculpture **3 Credit hours**
Combinations of found, fabricated and mixed materials will be assembled into original sculpture compositions. Combinations of found, fabricated and mixed materials will be assembled into original sculpture compositions.
Pre-req: ART 215 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 444 Papermaking/Bookbinding **3 Credit hours**
The preparation and processing of fibers for papermaking including experiences in sheet forming, The preparation and processing of fibers for papermaking including experiences in sheet forming,
Pre-req: ART 301 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 445 Graphic Design Corp Ident **3 Credit hours**
Application of graphic design, including typography, photography and illustrations in developing and implementing identity systems. Application of graphic design, including typography, photography and illustrations in developing and imple- menting identity systems.
Pre-req: ART 314 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 446 Intermed Potter's Wheel **3 Credit hours**
Continuation of Art 343. The student will master basic wheel and decorative processes developing a personal style in their work. Continuation of Art 343. The student will master basic wheel and decorative processes developing a personal style in their work.
Pre-req: ART 343 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 447 Combined Ceramic Process **3 Credit hours**
Exploration of a variety of ceramic building and firing processes such as hand building, wheel and slip casting. Exploration of a variety of ceramic building and firing processes such as hand building, wheel and slip casting.
Pre-req: (ART 305 with a minimum grade of C or ART 343 with a minimum grade of C) and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 448 Ceramic Mat & Processes **3 Credit hours**
Practical and empirical investigation of ceramic materials, techniques and approaches to their use in clay and glazes. Practical and empirical investigation of ceramic materials, techniques and approaches to their use in clay and glazes.
Pre-req: (ART 305 with a minimum grade of C or ART 343 with a minimum grade of C) and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 449 Ceramic Sculpture **3 Credit hours**
Contemporary ideas and techniques of ceramic fired and unfired sculpture. Contemporary ideas and techniques of ceramic fired and unfired sculpture.
Pre-req: ART 305 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 450 2 & 3D Designs for Fabric **3 Credit hours**
Exploring the potentialities of fabric as an art experience in two and three dimensional art form. Exploring the potentialities of fabric as an art experience in two and three dimensional art form.
Grade Mode: Normal Grading Mode

ART 451 Advanced Ceramics **3 Credit hours**
The advanced student will explore individual problems and interests in clay. The advanced student will explore individual problems and interests in clay.
Pre-req: (ART 305 or ART 343) and (ART 298 or ART 299).
Grade Mode: Normal Grading Mode

ART 453 Motion Design I **3 Credit hours**
Introductory topics in time-based media. Topics may include motion design, animation, video compositing, sound design, interactive design, data visualization, digital storytelling, or related subjects.
Pre-req: ART 298 with a minimum grade of C or ART 299 with a minimum grade of C or AM 299 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 454 Motion Design II **3 Credit hours**
Advanced topics in time-based media. Topics may include motion design, animation, video compositing, sound design, interactive design, data visualization, digital storytelling, or related subjects. (PR: ART 453)
Pre-req: ART 453 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 455 Painting Acrylic & Oil **3 Credit hours**
Study and practice of painting in expressing still life, landscape, and the human figure. Study and practice of painting in expressing still life, landscape, and the human figure.
Pre-req: (ART 350 with a minimum grade of C or ART 353 with a minimum grade of C) and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 456 Painting Acrylic & Oil **3 Credit hours**
Study and practice of painting in expressing still life, landscape, and the human figure. Study and practice of painting in expressing still life, landscape, and the human figure.
Pre-req: ART 353 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 457 Figure Painting **3 Credit hours**
Painting the nude model using modern and classical methods. Painting the nude model using modern and classical methods.
Pre-req: ART 353 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 458 Adv Problems In Painting **3 Credit hours**
Refinement and development of individual concerns with content, form and techniques in painting. Refinement and development of individual concerns with content, form and techniques in painting.
Pre-req: ART 353 with a minimum grade of C or ART 354 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 459 Digital Drawing and Painting **3 Credit hours**
Students will create conceptual illustrations for books, gaming, storyboards and movies by integrating traditional drawing and painting techniques with digital media.
Pre-req: ART 298 with a minimum grade of C or ART 299 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 460 History & Phil of Art Ed **3 Credit hours**
A survey of the evolution of art education and philosophy, and a study of problems related to art education on the elementary and high school level. A survey of the evolution of art education and philosophy, and a study of problems related to art education on the elementary and high school level.
Pre-req: ART 340 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 463 Adv Intaglio Printmaking **3 Credit hours**
Development of individualized form using intaglio techniques and incorporation multiple colors, plates, assemblages, collagraphs, photo-etching, and mixed media. Development of individualized form using intaglio techniques and incorporation multiple colors, plates, assemblages, collagraphs, photo-etching, and mixed media.
Pre-req: ART 301 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 464 History of Modern Design **3 Credit hours**
History of print and object design from the beginning of the nineteenth through the twentieth century will be studied in terms of art history, technology, politics, economics, and consumer behavior.
Pre-req: ART 201 with a minimum grade of C and ART 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 465 Lithography **3 Credit hours**
Basic techniques of hand lithography, both stone and metal plate. Basic techniques of hand lithography, both stone and metal plate.
Pre-req: ART 301 with a minimum grade of C and (ART 298 with a minimum grade of C or ART 299 with a minimum grade of C).
Grade Mode: Normal Grading Mode

ART 466 Curr Dev Pub Sch Art K-12 **3 Credit hours**
Exploring considerations for curriculum development in art education; developing individualized curriculum for specific situations on grade levels K-6 or 7-12. Exploring considerations for curriculum development in art education; developing individualized curriculum for specific situations on grade levels K-6 or 7-12.
Pre-req: (ART 113 with a minimum grade of C or ART 310 with a minimum grade of C) and ART 340 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 468 Secondary Ed: Teaching Art **3 Credit hours**
This course focuses on instructional standards and methods for teaching art at the secondary level with an emphasis on middle grades. A clinical experience provides observation and teaching. This course focuses on instructional standards and methods for teaching art at the secondary level with an emphasis on middle grades. A clinical experience provides observation and teaching.
Pre-req: ART 340 with a minimum grade of C and ART 460 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 470 Practicum **3 Credit hours**
To be used for learning activities that involve the application of previously learned processes, theories, systems or techniques. To be used for learning activities that involve the appli- cation of previously learned processes, theories, systems or techniques.
Grade Mode: Normal Grading Mode

ART 472 Practicum **3 Credit hours**
To be used for learning activities that involve the application of previously learned processes, theories, systems or techniques. To be used for learning activities that involve the appli- cation of previously learned processes, theories, systems or techniques.
Grade Mode: Normal Grading Mode

ART 473 Practicum **3 Credit hours**
To be used for learning activities that involve the application of previously learned processes, theories, systems or techniques. To be used for learning activities that involve the appli- cation of previously learned processes, theories, systems or techniques.
Grade Mode: Normal Grading Mode

ART 475 Advanced Studio Sequence **3 Credit hours**
To be used to complete studio specialization and may be repeated. By permission only. To be used to complete studio specialization and may be repeated. By permission only.
Grade Mode: Normal Grading Mode

ART 476 Advanced Studio Sequence **3 Credit hours**
To be used to complete studio specialization and may be repeated. By permission only. To be used to complete studio specialization and may be repeated. By permission only.
Grade Mode: Normal Grading Mode

ART 477 Advanced Studio Sequence **3 Credit hours**
To be used to complete studio specialization and may be repeated. By permission only. To be used to complete studio specialization and may be repeated. By permission only.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 478 Advanced Studio Sequence **3 Credit hours**
To be used to complete studio specialization and may be repeated. By permission only. To be used to complete studio specialization and may be repeated. By permission only.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 479 Advanced Studio Sequence **3 Credit hours**
To be used to complete studio specialization and may be repeated. By permission only. To be used to complete studio specialization and may be repeated. By permission only.
Grade Mode: Normal Grading Mode

ART 480 Special Topics **1-4 Credit hours**
To be used for experimental courses. By permission only. To be used for experimental courses. By permission only.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 481 Special Topics **1-4 Credit hours**
To be used for experimental courses. By permission only. To be used for experimental courses. By permission only.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 482 Special Topics **1-4 Credit hours**
To be used for experimental courses. By permission only. To be used for experimental courses. By permission only.
Grade Mode: Normal Grading Mode

ART 483 Special Topics **1-4 Credit hours**
To be used for experimental courses. By permission only. To be used for experimental courses. By permission only.
Grade Mode: Normal Grading Mode

ART 485 Independent Study **1-4 Credit hours**
To be reserved for tutorials, directed and independent readings, directed and independent research, problem reports, and other activities designed to fit the needs of individual students within the major. To be reserved for tutorials, directed and independent readings, directed and independent research, problem reports, and other activities designed to fit the needs of individual students within the major.
Grade Mode: Normal Grading Mode

ART 486 Independent Study **1-4 Credit hours**
To be reserved for tutorials, directed and independent readings, directed and independent research, problem reports, and other activities designed to fit the needs of individual students with the major. To be reserved for tutorials, directed and independent readings, directed and independent research, problem reports, and other activities designed to fit the needs of individual students with the major.
Grade Mode: Normal Grading Mode

ART 487 Independent Study **1-4 Credit hours**
To be reserved for tutorials, directed and independent readings, directed and independent research, problem reports, and other activities designed to fit the needs of individual students within the major. To be reserved for tutorials, directed and independent readings, directed and independent research, problem reports, and other activities designed to fit the needs of individual students within the major.
Grade Mode: Normal Grading Mode

ART 488 Independent Study **1-4 Credit hours**
To be reserved for tutorials, directed and independent readings, directed and independent research, problem reports, and other activities designed to fit the needs of individual students within the major. To be reserved for tutorials, directed and independent readings, directed and independent research, problem reports, and other activities designed to fit the needs of individual students within the major.
Grade Mode: Normal Grading Mode

ART 489 Graphic Design Portfolio **2 Credit hours**
Pre-req: ART 316 with a minimum grade of C or AM 299 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 490 Apprenticeship **1-3 Credit hours**
Student is placed in a supervised work situation, offering the opportunity to perform professional work. This will include 60 work hours per each registered credit hour.
Pre-req: ART 316 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ART 491 Graphic Design Workshop **3 Credit hours**
Students in the workshop will engage in actual design problems with non-profit groups or small businesses to gain graphic design experience.
Pre-req: ART 298 with a minimum grade of C or ART 299 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ART 497 Capstone Studio **3 Credit hours**
Students will research, plan and develop a substantial body of independently conceived artworks in consultation with studio art faculty.
Grade Mode: Normal Grading Mode

ART 498 Senior Capstone Exhibition BFA **3 Credit hours**
Students refine their creative visual productions and a supporting statement that culminate in a public exhibition.
Pre-req: ART 390 with a minimum grade of C.
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

ART 499 Senior Capstone Exhibition BA **1 Credit hour**
Students document and exhibit their production from courses completed during their senior year in their area (s) of concentration. The exhibition should result from their academic as well as studio study. Students document and exhibit their production from courses completed during their senior year in their area (s) of concentration. The exhibition should result from their academic as well as studio study.
Pre-req: ART 298 with a minimum grade of C or ART 299 with a minimum grade of C.
Attributes: Capstone Course, No Textbook Required
Grade Mode: Credit/No Credit Grade Only

Arts and Media (AM)

- General Education Course

AM 299 Sophomore Review **0 Credit hours**
Students present work from major courses for review by video production teaching faculty. Successful completion of 299 is a prerequisite for advancing to additional course work in the major.
Pre-req: ART 219 with a minimum grade of D and JMC 260 with a minimum grade of D and (MUS 219 with a minimum grade of D or JMC 231 with a minimum grade of D) and JMC 332 with a minimum grade of D and (JMC 240 with a minimum grade of D or JMC 245 with a minimum grade of D or JMC 250 with a minimum grade of D).
Grade Mode: Credit/No Credit Grade Only

AM 490 Video Internship **1-3 Credit hours**
For juniors or seniors to gain experience working with industry professionals, to be exposed to, understand, and work toward real deadlines, practice professionalism, and start networking to find a career.
Grade Mode: Normal Grading Mode

AM 498 Senior Pre-Capstone **3 Credit hours**
A preparatory class for AM 499. Students will conceive, plan and start production of a culminating senior video project.
Pre-req: ART 454 and JMC 432.
Grade Mode: Normal Grading Mode

AM 499 Senior Capstone Project **3 Credit hours**
A discipline-based experience combining video production capabilities and a range of knowledge outside the field resulting in a culminating senior video project.
Pre-req: AM 498.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Aviation Maintenance Technology (AMT)

AMT 101 Beginning Aviation Maintenance **3 Credit hours**
This course provides an introduction to aviation maintenance, including topics related to aircraft features, nomenclature, materials, hardware and systems, and principles of physics of flight.
Grade Mode: Normal Grading Mode

AMT 102 Regulations & Publications **3 Credit hours**
This course provides a review of the Federal Aviation Administration's regulations, maintenance publications, weight and balance procedures, and the interpretation of technical drawings, charts, and graphs.
Grade Mode: Normal Grading Mode

AMT 103 Technical Skills & Practices **3 Credit hours**
This course reviews proper use of power tools, shop safety, fluid lines and fittings, cleaning and corrosion control, and the interpretation of various non-destructive inspection methods.
Grade Mode: Normal Grading Mode

AMT 105 Aviation Utility Systems **3 Credit hours**
The course reviews airframe ice and rain control, fire protection, and fuel systems as well as doors, windows, emergency equipment, cargo loading, galley and lavatory systems, and passenger service units.
Grade Mode: Normal Grading Mode

AMT 109 Aviation Electronics **3 Credit hours**
This course examines the fundamental principles of electronics as applied to aircraft electrical systems. Specific topics covered include AC/DC series-parallel circuits, circuit analysis theorems, transistors, digital theory, and devices.
Grade Mode: Normal Grading Mode

AMT 110 Aviation Power Systems **3 Credit hours**
This course examines AC and DC power generation systems, voltage regulation, power distribution, and circuit protection devices used in aircraft. Students will learn how to inspect and repair these components.
Grade Mode: Normal Grading Mode

AMT 201 Reciprocating Engines **3 Credit hours**
This course is a study of the theory of operation of reciprocating engines and their systems with particular emphasis on the principles of operation, nomenclature, construction, and design.
Grade Mode: Normal Grading Mode

AMT 202 Sheet Metal Structures **3 Credit hours**
This course will review all aspects of sheet metal structures with an emphasis on precise construction and restoration of sheet aircraft metal structures.
Grade Mode: Normal Grading Mode

AMT 203 Reciprocating Engine Maint **3 Credit hours**
This course emphasizes the hands-on maintenance and repair of piston engines. Topics will include engine removal, replacement, troubleshooting, inspection, engine maintenance, system component repair, inspection, and troubleshooting.
Grade Mode: Normal Grading Mode

AMT 204 Propeller & Control Systems **3 Credit hours**
This course is a study of propellers and their components and their operation with special attention given to the principles of operation, nomenclature, construction, and system design.
Grade Mode: Normal Grading Mode

AMT 205 Turbine Engines **3 Credit hours**
This course reviews the theory of operation of turbine engines and their systems with an emphasis on the principles of operation, nomenclature, construction, and system design.
Grade Mode: Normal Grading Mode

AMT 206 Fluid Power and Landing Gear **3 Credit hours**
This course provides a comprehensive review of aircraft hydraulic, pneumatic, fuel, and landing gear systems and their routine inspection and maintenance, and repair.
Grade Mode: Normal Grading Mode

AMT 207 Turbine Engine Maintenance **3 Credit hours**
This course emphasizes the principles of operation, nomenclature, construction, and system design of turbine engines, as well as their maintenance, inspection, overhaul, repair, troubleshooting.
Grade Mode: Normal Grading Mode

AMT 208 Cabin Atmosphere Systems **3 Credit hours**
This course provides a detailed review of aircraft heating, oxygen, and pressurization systems for Business, Commercial, and Transport aircraft systems.
Grade Mode: Normal Grading Mode

AMT 209 Airframe Inspection and Fl Con **3 Credit hours**
The focus of this course includes inspections, preventative maintenance, scheduled maintenance, rebuilding, and alteration of flight control systems, including ailerons, flaps, rudders, and elevators.
Grade Mode: Normal Grading Mode

AMT 210 Nonmetallic Structures **3 Credit hours**
Students will learn how to work with wood, fabric, plastic, and advanced aircraft composites to ensure an aircraft remains airworthy.
Grade Mode: Normal Grading Mode

AMT 211 Aircraft Information Systems **3 Credit hours**
A review of aircraft and powerplant communications, navigation, and instrument systems. Students will learn to test and repair or replace components of avionics and information systems.
Grade Mode: Normal Grading Mode

AMT 215 Certification Test Prep I **1 Credit hour**
This course will help students to prepare for the General AMT Federal Aviation Administration test.
Grade Mode: Credit/No Credit Grade Only

AMT 216 Certification Test Prep II **1 Credit hour**
This course will help students to prepare for the Airframe AMT Federal Aviation Administration test.
Grade Mode: Credit/No Credit Grade Only

AMT 217 Certification Test Prep III **1 Credit hour**
This course will help students to prepare for the Powerplant AMT Federal Aviation Administration test.
Grade Mode: Credit/No Credit Grade Only

Aviation Sciences (AVSC)

AVSC 102 Flight School Orientation **3 Credit hours**
An orientation course for students enrolled in the flight school. Topics to include pilot training regulations and procedures, safety and security, federal aviation organizations, and career opportunities.
Grade Mode: Normal Grading Mode

AVSC 105 Transition Lab **1 Credit hour**
Students admitted to the program who hold FAA certifications will learn the operation of Marshall's aircraft at a level commensurate with his or her FAA certification.
Grade Mode: Credit/No Credit Grade Only

AVSC 200 Private Pilot Ground School **4 Credit hours**
An introductory overview of aviation fundamentals as required by the Federal Aviation Administration regulations for students pursuing a Private Pilot certificate.
Pre-req: AVSC 205 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: AVSC 205
Grade Mode: Normal Grading Mode

AVSC 205 Solo Flight Lab **1 Credit hour**
A course designed to prepare students for pilot's first solo flight.
Pre-req: AVSC 200 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: AVSC 200
Grade Mode: Normal Grading Mode

AVSC 210 Private Pilot Cert ASEL Lab **2 Credit hours**
A course designed to prepare students to pass the Federal Aviation Administration Private Pilot Practical Exam: ASEL
Pre-req: AVSC 200 with a minimum grade of D and AVSC 205 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 215 Instrument Ground School **3 Credit hours**
A course designed to teach pilots to fly an airplane using only instruments as required by Federal Aviation Administration regulations for the Instrument Flight Rules rating.
Pre-req: AVSC 205 (may be taken concurrently) with a minimum grade of D or AVSC 210 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: AVSC 205 or AVSC 210
Grade Mode: Normal Grading Mode

AVSC 220 Instrument Certification Lab **3 Credit hours**
A course designed to prepare students to pass the Federal Aviation Administration Instrument Practical Exam.
Pre-req: AVSC 210 with a minimum grade of D and AVSC 215 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 221 Flight Management Systems **3 Credit hours**
This course familiarizes students with popular flight management systems in use in aircraft today and introduces flight management systems that may still be in various stages of development.
Grade Mode: Normal Grading Mode

AVSC 231 Aviation Law and Regulations **3 Credit hours**
This course familiarizes students with the Federal Aviation Regulation, certification standards, air transportation operational oversight and law governing commercial aviation.
Grade Mode: Normal Grading Mode

AVSC 241 AV Safety and Human Factors **3 Credit hours**
This course familiarizes students with the Federal Aviation Regulations, aircraft certification, all weather operations, and the impacts of stress in aviation.
Grade Mode: Normal Grading Mode

AVSC 250 Commercial Phase II AMEL Lab **3 Credit hours**
A course designed to prepare students to pass the Federal Aviation Administration Commercial Pilot Practical Exam for multi-engine airplane.
Pre-req: AVSC 235 (may be taken concurrently) with a minimum grade of D and (AVSC 225 with a minimum grade of D or AVSC 230 with a minimum grade of D).
Concurrent PR: AVSC 235
Grade Mode: Normal Grading Mode

AVSC 255 Initial CFI AMEL Lab **3 Credit hours**
A course designed to train students to become Federal Aviation Administration certified flight instructors required of a Private and Commercial Pilot.
Pre-req: AVSC 235 with a minimum grade of D and (AVSC 240 with a minimum grade of D or AVSC 275 with a minimum grade of D).
Grade Mode: Normal Grading Mode

AVSC 260 ASEL Private Add-On Lab **1 Credit hour**
Designed to prepare pilots to complete the Federal Aviation Administration's ASEL practical exam.
Pre-req: AVSC 204 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 265 AMEL Private Add-On Lab **1 Credit hour**
Designed to prepare pilots to complete the Federal Aviation Administration's AMEL private practical exam.
Pre-req: AVSC 204 with a minimum grade of D or AVSC 260 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 270 Commercial ASEL Add-On Lab **1 Credit hour**
Designed to prepare pilots to complete the Federal Aviation Administration's Commercial Pilot ASEL Practical Add-On Exam.
Pre-req: AVSC 220 with a minimum grade of D or AVSC 250 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 290 CFI ASEL Add On Lab **1 Credit hour**
Designed to prepare pilots to complete the Federal Aviation Administration's Certified Flight Instructor Add-On Practical Exam.
Pre-req: AVSC 255 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 295 CFI AMEL Add-On Lab **1 Credit hour**
Designed to prepare pilots to complete the Federal Aviation Administrations AMEL Certified Flight Instructor Add-On Practical Exam.
Pre-req: AVSC 245 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 300 Tailwheel Transition Lab **1 Credit hour**
Designed to prepare pilots to earn a tail-wheel endorsement from the Federal Aviation Administration.
Pre-req: AVSC 210 with a minimum grade of D or AVSC 260 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 305 CFII Lab **1 Credit hour**
Designed to prepare pilots to pass the FAA Certified Flight Instructor Instrument Practical Exam.
Pre-req: AVSC 245 with a minimum grade of D or AVSC 280 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 310 Aircraft Sys and Powerplants **3 Credit hours**
This course familiarizes students with the Federal Aviation Regulations relating to aircraft certification of systems and the various powerplants for fixed wing aircraft.
Grade Mode: Normal Grading Mode

AVSC 315 Airport Operations and Mgmt **3 Credit hours**
This course familiarizes students with the Federal Aviation Regulations relating to certification of airport systems and examines the policies and procedures for the Airport Improvement Plan (AIP).
Grade Mode: Normal Grading Mode

AVSC 320 Flight Phys and Human Factors **3 Credit hours**
This course familiarizes students with the Federal Aviation Regulations relating to flight physiology, oxygen systems, and human factors impacting pilot flight operations.
Grade Mode: Normal Grading Mode

AVSC 325 Ntnl Airspace Sys and NextGen **3 Credit hours**
An overview of the US National Airspace System and an in-depth analysis of the methods and procedures used in controlling air traffic.
Grade Mode: Normal Grading Mode

AVSC 329 Commerical Ground School **3 Credit hours**
A study of commercial flight fundamentals as required by Federal Aviation Administration regulations for students pursuing a Commercial Pilot certificate.
Pre-req: AVSC 210 with a minimum grade of D and AVSC 215 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 330 Commercial Phase I Lab **3 Credit hours**
A continued review of topics required for flying an airplane in VFR & IFR environments during day and night cross-country flights, and development of Pilot and Command decision-making skills.
Pre-req: AVSC 220 with a minimum grade of D and AVSC 226 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 335 CFI Ground School **3 Credit hours**
Review the instruction fundamentals required by the FAA for pilots pursuing a Certified Flight Instructor rating.
Pre-req: AVSC 325 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 340 Commercial Phase II ASEL Lab **3 Credit hours**
A course designed to prepare students to pass the Federal Aviation Administration ASEL Commercial Practical Exam.
Pre-req: AVSC 335 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 345 Initial CFI ASEL Lab **3 Credit hours**
A course designed to train to become Federal Aviation Administration certified flight instructors.
Pre-req: AVSC 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 355 Aviation Weather **3 Credit hours**
A study of atmospheric conditions on aeronautic operations. Topics include atmospheric properties, aviation hazards including thunderstorms, wind shear, turbulence, icing, and weather flight resources.
Pre-req: GEO 230 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 375 Commercial AMEL Add-On Lab **1 Credit hour**
Designed to prepare pilots to complete the Federal Aviation Administration's Instrument Practical exam and Commercial Pilot Add-On Practical exam for multi-engine airplane.
Pre-req: AVSC 210 with a minimum grade of D or AVSC 260 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 405 Business Aviation **3 Credit hours**
This capstone is a study of business aviation operations, management, and finance to include corporate, fractional, charter, Fixed Base Operator (FBO), and various aviation business models.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

AVSC 410 Air Transportation Operations **3 Credit hours**
An overview of the airline industry and an in-depth analysis of key management functions within an airline.
Grade Mode: Normal Grading Mode

AVSC 450 Crew Resource Management **3 Credit hours**
Within this capstone course, students will examine the principles of proper crew collaboration that reduce the risk of accidents caused by human behavior.
Pre-req: AVSC 200 with a minimum grade of D or AVSC 210 with a minimum grade of D or AVSC 215 with a minimum grade of D or AVSC 220 with a minimum grade of D or AVSC 225 with a minimum grade of D or AVSC 230 with a minimum grade of D or AVSC 235 with a minimum grade of D or AVSC 240 with a minimum grade of D or AVSC 245 with a minimum grade of D or AVSC 250 with a minimum grade of D or AVSC 255 with a minimum grade of D or AVSC 260 with a minimum grade of D or AVSC 265 with a minimum grade of D or AVSC 270 with a minimum grade of D or AVSC 275 with a minimum grade of D or AVSC 290 with a minimum grade of D or AVSC 295 with a minimum grade of D.
Grade Mode: Normal Grading Mode

AVSC 495 Internship in Aviation Ops **3 Credit hours**
Student will participate in an internship as coordinated with their assigned advisor. The internship allows students to apply those flight instruction and classroom instruction skillsets appropriate to the respective internship.
Grade Mode: Normal Grading Mode

Biological Sciences (BSC)

- General Education Course

BSC 104 Introduction to Biology **3 Credit hours**
Fundamentals of biology with emphasis on the unity of life, energetics, genetics and the world of living things. Intended for non-science majors.
Co-req: BSC 104L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 104L Introduction to Biology Lab **1 Credit hour**
Laboratory companion course to BSC 104. Introduction of the scientific method, with focus on a survey of the fundamental principles of the biological sciences as they apply to life on earth.
Pre-req: BSC 104 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 104
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 105 Human Biology **3 Credit hours**
Fundamentals of biological human structure, function, and interactions with the environment. Intended for non-science majors. Does not count for health professions credit.
Co-req: BSC 105L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 105L Human Biology Lab **1 Credit hour**
Laboratory companion course to BSC 105. Investigations of human structure, function, and interactions with the environment. Intended for non-science majors; does not count for health professions credit.
Co-req: BSC 105
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 120 Principles of Biology I **3 Credit hours**
Study of core biological principles common to all organisms. Intended for science majors and pre-professional students.
Pre-req: (ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530) or (BSC 104 with a minimum grade of C and BSC 104L with a minimum grade of C) or (BSC 105 with a minimum grade of C or BSC 105L with a minimum grade of C).
Co-req: BSC 120L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 120H Principles of Biology I Honors **3 Credit hours**
Study of basic biological principles common to all organisms. Intended for science majors and pre-professional students.
Pre-req: Admitted Honors College with a score of 1 and (ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530) and (BSC 120L (may be taken concurrently) with a minimum grade of C or BSC 120LH (may be taken concurrently) with a minimum grade of C) or (BSC 104 with a minimum grade of C and BSC 104L with a minimum grade of C) or (BSC 105 with a minimum grade of C and BSC 105L with a minimum grade of C).
Concurrent PR: BSC 120L or BSC 120LH
Attributes: Honors, Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 120L Principles of Biology I Lab **1 Credit hour**
Laboratory companion course to BSC 120. Practical exercises focuses on investigation of core biological principles common to all organisms.
Pre-req: ACT Math with a score of 21 or SAT MATH SECTION SCORE with a score of 530 or SAT Mathematics Before Mar. 16 with a score of 500 or (BSC 104 with a minimum grade of C and BSC 104L with a minimum grade of C) or (BSC 105 with a minimum grade of C and BSC 105L with a minimum grade of C).
Co-req: BSC 120
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 120LH Prin of Biology I Lab Honors **1 Credit hour**
Laboratory companion course to BSC 120. Practical exercises focused on investigation of core biological principles common to all organisms.
Pre-req: Admitted Honors College with a score of 1 and (ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530) or (BSC 104 with a minimum grade of C and BSC 104L with a minimum grade of C) or (BSC 105 with a minimum grade of C and BSC 105L with a minimum grade of C).
Co-req: BSC 120H
Attributes: Honors, Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 121 Principles of Biology II **3 Credit hours**
A continuation of the study of core biological principles common to all organisms. Intended for science majors and pre-professional students.
Pre-req: BSC 120 with a minimum grade of C or BSC 120H with a minimum grade of C.
Co-req: BSC 121L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 121L Prin of Biology II Lab **1 Credit hour**
Laboratory companion course to BSC 121. Continuation of practical exercises focused on investigation of core biological principles common to all organisms.
Pre-req: BSC 121 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 121
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 227 Human Anatomy **3 Credit hours**
Study of gross and microscopic anatomy of human body systems and their development. Provides preparation for degrees in health professions. Does not count towards a major in Biological Science.
Co-req: BSC 227L
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 227L Human Anatomy Lab **1 Credit hour**
Laboratory companion course to BSC 227. Practical and computer aided exercises related to gross and microscopic anatomy of human body systems and their development. Does not count toward a major in Biological Sciences.
Co-req: BSC 227
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 228 Human Physiology **3 Credit hours**
Study of normal human physiology, from cells to systems. Provides the scientific background for understanding pathophysiology and preparation for degrees in health professions. Does not count toward a major in Biological Sciences.
Pre-req: BSC 227 with a minimum grade of C and BSC 227L with a minimum grade of C.
Co-req: BSC 228L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 228L Human Physiology Lab **1 Credit hour**
Laboratory companion course to BSC 228. Introduction of the scientific method, with focus on interpretation of data and application toward physiological systems. Does not count toward a major in Biological Sciences.
Pre-req: BSC 227 with a minimum grade of C and BSC 227L with a minimum grade of C.
Co-req: BSC 228
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 250 Microbiol & Human Disease **3 Credit hours**
Introduction to microbiology with emphasis on the role of microorganisms in the disease process. Does not count towards a major in Biological Sciences.
Pre-req: BSC 227 with a minimum grade of C and BSC 227L with a minimum grade of C.
Co-req: BSC 250L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 250L Microbio and Human Disease Lab **1 Credit hour**
Laboratory companion course to BSC 250. Practical exercises with emphasis on microscopy, microorganism identification, and aseptic technique. Does not count towards a major in Biological Sciences.
Pre-req: BSC 227 with a minimum grade of C and BSC 227L with a minimum grade of C.
Co-req: BSC 250
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

BSC 280 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 281 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 282 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 283 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 301 Vertebrate Embryology **4 Credit hours**
Vertebrate development based chiefly on frog, chick and pig embryos. 2 lec-4 lab. Vertebrate development based chiefly on frog, chick and pig embryos. 2 lec-4 lab.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 302 Principles of Microbiology **3 Credit hours**
Basic microbiological techniques, fundamental principles of microbial action, physiological processes, immunology, serology, disease process. This course is lecture only (the associated lab for this course is listed under a different course number)
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 304 Microbiology Lab **2 Credit hours**
A laboratory course emphasizing basic microbiological techniques including preparation of culture media, gram staining, isolation and identification of bacteria from diverse environments, and evaluation of antiseptics and disinfectants. A laboratory course emphasizing basic microbiological techniques including preparation of culture media, gram staining, isolation and identification of bacteria from diverse environments, and evaluation of antiseptics and disinfectants.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 312 Invertebrate Zoology **4 Credit hours**
Survey of invertebrate phyla from protists through non-vertebrate chordates. Emphasis is placed upon identification of taxa, development, microanatomy, life histories and evolutionary relationship.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 320 Principles of Ecology **4 Credit hours**
A fundamental approach to the basic principles underlying the interrelationships of organisms with their biotic and abiotic environments. A variety of aquatic and terrestrial ecosystems will be studied in the field and in the laboratory. 3 lec-3 lab. A fundamental approach to the basic principles underlying the interrelationships of organisms with their biotic and abiotic environments. A variety of aquatic and terrestrial ecosystems will be studied in the field and in the laboratory. 3 lec-3 lab.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 322 Principles Cell Biology **4 Credit hours**
A fundamental approach to the principles of cell biology covering general cellular structure and function,organelles, intercellular interactions, molecular interactions, and modern cellular and molecular methods. 3 lec-3 lab.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 324 Principles of Genetics **4 Credit hours**
The fundamental principles and mechanisms of inheritance. 3 lec-3 lab.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 332 Principles of Human Anatomy **3 Credit hours**
An overview of the major anatomical regions and functional systems, with a focus on human anatomy in a comparative and evolutionary context.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C and BSC 332L (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 332L
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 332L Prin of Human Anatomy Lab **1 Credit hour**
Laboratory companion course to BSC 332. Practical investigation of human anatomy in a comparative and evolutionary context.
Pre-req: BSC 332 (may be taken concurrently) with a minimum grade of C and BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Concurrent PR: BSC 332
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 334 Principles of Human Physiology **3 Credit hours**
An overview of the major physiological systems, with focus on comparative, molecular, and pathophysiology.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C and BSC 334L (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 334L
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 334L Prin of Human Physiology Lab **1 Credit hour**
Laboratory companion course to BSC 334. Investigation of key physiological systems with focus on data acquisition and analysis.
Pre-req: BSC 334 (may be taken concurrently) with a minimum grade of C and BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Concurrent PR: BSC 334
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 340 Principles of Evolution **3 Credit hours**
An overview of the unity and diversity of life, and the mechanisms and processes of evolutionary change at the population, organismal, and molecular levels.
Pre-req: BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 401 Ichthyology **4 Credit hours**
Anatomy, physiology, ecology, zoogeography, economic importance and classification of major groups and representative local species of fishes. 2 lec-2 lab and field.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C and NRE 322 with a minimum grade of D) or (BSC 121 with a minimum grade of C and BSC 121L with a minimum grade of C and NRE 323 with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 404 Cellular Physiology **3 Credit hours**
In depth analysis of the physiological and molecular processes that underlie the functions of cells, using examples from diverse taxa. Focus on biomedical and biotechnical implications.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 406 Herpetology **4 Credit hours**
Taxonomy, morphology, distribution, life history, and ecology of reptiles and amphibians with a special emphasis on representatives native to West Virginia. 2 lec-2 lab. Taxonomy, morphology, distribution, life history, and ecology of reptiles and amphibians with a special emphasis on representatives native to West Virginia. 2 lec-2 lab.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 408 Ornithology **4 Credit hours**
An introduction to avian biology: identification, distribution, migration, and breeding activities of birds.2 lec-4 lab.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 409 Mammalogy **4 Credit hours**
A study of the structural features, evolution and classification of mammals; other topics will include ecology, zoogeography, behavior, reproductive strategies, physiological adaptation to extreme environments and economic aspects.3 lec-3 lab and field.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 410 Remote Sensing/GIS Appl **4 Credit hours**
A study of the physical systems for collecting remotely sensed data. Statistical/spatial analysis and modeling using image processing/geographic information/spatial computer software systems with earth resources applications. A study of the physical systems for collecting remotely sensed data. Statistical/spatial analysis and modeling using image processing/geographic information/spatial computer software systems with earth resources applications.
Pre-req: PHY 201 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 340 with a minimum grade of D or NRE 423 with a minimum grade of D or NRE 433 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 411 Dgtl Image Proc/GIS Model **4 Credit hours**
A study of image processing/geographic information/spatial analysis systems, concurrent and parallel image processing 3-D modeling scenarios utilizing geophysical data for computer simulation modeling. A study of image processing/geographic information/spatial analysis systems, concurrent and parallel image processing 3-D modeling scenarios utilizing geophysical data for computer simulation modeling.
Pre-req: PHY 201 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 340 with a minimum grade of D or NRE 423 with a minimum grade of D or NRE 433 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 413 Prin of Organic Evolution **3 Credit hours**
Facts and possible mechanisms underlying the unity and diversity of life with emphasis on Neo-Darwinian concepts of the role of species in evolutionary phenomena. Facts and possible mechanisms underlying the unity and diversity of life with emphasis on Neo-Darwinian concepts of the role of species in evolutionary phenomena.
Pre-req: BSC 302 or BSC 320 or BSC 322 or BSC 324.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 416 Plant Taxonomy **4 Credit hours**
Recognition of our native seed plants and ferns. 2 lec-4 lab. Recognition of our native seed plants and ferns. 2 lec-4 lab.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 340 with a minimum grade of D or NRE 322 with a minimum grade of D or NRE 401 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 417 Biostatistics **3 Credit hours**
Statistical skills for biological/biomedical research, with emphasis on applications. Experimental design/survey sampling, estimation/hypothesis testing procedures,regression, ANOVA, multiple comparisons. Implementation using statistical software such as SAS, BMDP.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D or BSC 334 with a minimum grade of D or BSC 340 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 420 Plant Physiology **4 Credit hours**
Experimental study of plant life processes to include applicable biophysical and biochemical principles. 2 lec-4 lab. Experimental study of plant life processes to include applicable biophysical and biochemical principles. 2 lec-4 lab.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 421 Phycology **4 Credit hours**
Morphology, taxonomy, and techniques used in the study of fresh-water algae with emphasis upon applications of ecological principles to current water quality problems. 2 lec-4 lab.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 422 Animal Physiology **3 Credit hours**
A comparative study of physiological principles in animal cells, organs, and systems. Focus on animal's reactions to their environment, and how comparative physiology applies to natural ecosystems and human health.
Pre-req: BSC 322 with a minimum grade of D and CHM 355 with a minimum grade of D and (MTH 140 with a minimum grade of D or MTH 140H with a minimum grade of D or MTH 132 with a minimum grade of D or MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 423 Comp Vertebrate Anatomy **4 Credit hours**
Structure, function and relationships of systems of selected vertebrates with an emphasis on embryology and evolution. 2 lec.-4 lab.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 424 Animal Parasitology **4 Credit hours**
Morphology, life histories, classification, and host relationships of common parasites. 2 lec-4 lab. Morphology, life histories, classification, and host relationships of common parasites. 2 lec-4 lab.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 425 Systematics **3 Credit hours**
Biosystematics is a unifying discipline that combines taxonomy (collecting, describing and naming organisms), phylogenetics (evolutionary relationships among species), and classification (organization of taxa into groups which ultimately reflect evolutionary relationship). Biosystematics is a unifying discipline that combines taxonomy (collecting, describing and naming organisms), phylogenetics (evolutionary relationships among species), and classification (organization of taxa into groups which ultimately reflect evolutionary relationship).
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 426 Medical Entomology **4 Credit hours**
Role of certain insects and other arthropods in the transmission of disease organisms and methods of control.2 lec-4 lab.
Pre-req: (BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D) or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of D or NRE 323 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 428 Neuroscience **3 Credit hours**
The fundamentals of cellular and systems neuroscience, with application towards understanding current research and biomedical problems.
Pre-req: BSC 322 with a minimum grade of D or BSC 334 with a minimum grade of D or BSC 422 with a minimum grade of D or (BSC 121 with a minimum grade of D and CHM 355 with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 429 Metabolic Systems **3 Credit hours**
Discussion of metabolic processes responsible for the activity of all living systems, factors that impact metabolic processes such as toxicology and pathology, and applications of metabolic pathways to biotechnology.
Pre-req: BSC 322 with a minimum grade of D or BSC 334 with a minimum grade of D or BSC 422 with a minimum grade of D or (BSC 121 with a minimum grade of D and CHM 355 with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 430 Plant Ecology **4 Credit hours**
The study of plants and their interactions with their environment at different levels of ecological organization: individuals, populations, communities, and ecosystems. Emphasis on quantitative analysis of ecological data. The study of plants and their interactions with their environment at different levels of ecological organization: individuals, populations, communities, and ecosystems. Emphasis on quantitative analysis of ecological data.
Pre-req: BSC 320 with a minimum grade of D or (BSC 121 with a minimum grade of D and BSC 121L with a minimum grade of D and NRE 322 with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 431 Limnology **4 Credit hours**
Study of inland waters; ecological factors affecting lake and stream productivity and various aquatic communities. Study of inland waters; ecological factors affecting lake and stream productivity and various aquatic communities.
Pre-req: BSC 320 with a minimum grade of D or (BSC 121 with a minimum grade of D and (NRE 323 with a minimum grade of D or NRE 431 with a minimum grade of D or NRE 435 with a minimum grade of D) and BSC 121L with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 438 Emerging Infectious Diseases **3 Credit hours**
Introduces students to infectious diseases that are either newly emergent or have returned to prominence within the last decade.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D or BSC 334 with a minimum grade of D or BSC 340 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 443 Microbial Genetics **3 Credit hours**
Microbial Genetics covers the essential functions of DNA replication and gene expression in prokaryotic cells. The course includes molecular genetics of bacteria and phages, bioinformatics and discussion of laboratory techniques. Microbial Genetics covers the essential functions of DNA replication and gene expression in prokaryotic cells. The course includes molecular genetics of bacteria and phages, bioinformatics and discussion of laboratory techniques.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 445 Microbial Ecology **3 Credit hours**
This course introduces students to the vital roles that microbes play in sustaining life on earth. Includes both theoretical and practical concepts ranging from the origin of life to biodegradation. This course introduces students to the vital roles that microbes play in sustaining life on earth. Includes both theoretical and practical concepts ranging from the origin of life to biodegradation.
Pre-req: BSC 302 with a minimum grade of D or BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 340 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 448 Introductory Immunology **3 Credit hours**
Comprehensive study of the molecules, cells and processes of the immune system. Also covered are diseases with an immunologic basis and technological applications of immunological principles. Pre: C or better in BSC 121, CHM 212 Comprehensive study of the molecules, cells and processes of the immune system. Also covered are diseases with an immunologic basis and technological applications of immunological principles. Pre: C or better in BSC 121, CHM 212
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 450 Molecular Biology **3 Credit hours**
Advanced principles in molecular function emphasizing current research using recombinant DNA methodology.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 451 Molecular Medicine **3 Credit hours**
Discussion of applications of molecular biology to modern medicine, including diagnostics, treatments, and development of new strategies and interventions.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 454 Princ Adv Techn Mol Biol **3 Credit hours**
Students will gain an understanding of modern molecular biology through standard and novel methods and understand and criticize the published literature.
Pre-req: BSC 322 or BSC 324 or BSC 365 or BSC 450.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 456 Genes and Development **3 Credit hours**
Focuses on mechanisms of complex organismal development including cell specification, morphogenesis, and induction. Genetic manipulations of the model organism Drosophilia will illustrate current information.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 334 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 458 Bioinformatics **3 Credit hours**
Discussion of modern computational approaches that help us use and understand massive databases of biological information including DNA, RNA, and protein sequence data. Students will use computational tools to extract information and meaning from real databases.
Pre-req: BSC 302 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 344 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 460 Conservation Biology **3 Credit hours**
This course focuses on the North American model of wildlife conservation (and its history), principles of biological diversity, threats to habitats and species of concern, and conservation policy.
Pre-req: BSC 320 with a minimum grade of D or (BSC 121 with a minimum grade of C and (NRE 220 with a minimum grade of D or NRE 320 with a minimum grade of D or NRE 322 with a minimum grade of D) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 463 Bioethics **3 Credit hours**
Discussion of ethical issues in scientific research: fraud, informed consent, genetic testing, gene therapy, cloning, new drugs, vaccines and foods produced via engineered organisms. Includes analysis of case studies and communications practices.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 465 Biology of Reptiles **4 Credit hours**
A survey of the reptiles of the world with special emphasis placed on forms resident to West Virginia, including aspects of ecology, physiology, zoogeography, anatomy, taxonomy, and behavior.
Pre-req: BSC 320 with a minimum grade of D or BSC 322 with a minimum grade of D or BSC 324 with a minimum grade of D or BSC 332 with a minimum grade of D or (BSC 121 with a minimum grade of C and (NRE 322 with a minimum grade of C or NRE 323 with a minimum grade of C) and BSC 121L with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 466 Biology of Amphibians **4 Credit hours**
A survey of the reptiles of the world with special emphasis placed on forms resident to West Virginia, including aspects of ecology, physiology, zoogeography, anatomy, taxonomy, and behavior.
Pre-req: BSC 121 with a minimum grade of C.
Grade Mode: Normal Grading Mode

BSC 480 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 481 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 482 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 483 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

BSC 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required, Natural Sciences
Grade Mode: Credit/No Credit Grade Only

BSC 486 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

BSC 487 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

BSC 488 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

BSC 491 Capstone Experience **2 Credit hours**
A student-driving research or career shadowing experience under a qualified mentor. Must be approved by the Department of Biological Sciences prior to registration.
Attributes: Capstone Course, No Textbook Required, Natural Sciences
Grade Mode: Normal Grading Mode

Biomedical Engineering (BME)

- General Education Course

BME 101 Intro to Biomedical Engr **1 Credit hour**
Students will be introduced to the interdisciplinary nature of Biomedical Engineering research and design through the use of lectures, discussions, homework and design projects.
Grade Mode: Normal Grading Mode

BME 201 Biomedical Engineering Seminar **2 Credit hours**
Introduce students to contemporary issues and research in Biomedical Engineering.
Pre-req: BME 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

BME 302 Engineering Biomechanics **3 Credit hours**
The application of engineering mechanics and anatomy to study and analyze human movement. Lectures and in-class labs will introduce students to experimental and theoretical techniques.
Pre-req: ENGR 214 with a minimum grade of D and BSC 228 with a minimum grade of D and BME 305 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: BME 305
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

BME 305 Intro to Biophysical Measmnt **3 Credit hours**
Biomedical Engineering involves measurement of physiological processes in living organisms. An understanding of the variety of instruments used and the limitations are introduced.
Pre-req: BSC 228 with a minimum grade of D.
Co-req: BME 302
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

BME 306 Mechanics of Biological Tissue **3 Credit hours**
The mechanical properties of musculoskeletal tissues are presented along with modeling techniques and testing procedures. Tendons, ligaments, muscles, cartilage and bone will be addressed.
Pre-req: BME 302 with a minimum grade of D and BME 305 with a minimum grade of D and BME 310 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: BME 310
Grade Mode: Normal Grading Mode

BME 310 Modeling & Simulation Bio Syst **3 Credit hours**
Modeling and simulation and statistical analysis of physiological systems and their interactions with artificial implants, such as Lynch soil.
Pre-req: BME 302 with a minimum grade of D and BME 306 (may be taken concurrently) with a minimum grade of D and MTH 335 with a minimum grade of D.
Concurrent PR: BME 306
Co-req: BME 306
Grade Mode: Normal Grading Mode

BME 405 Mech & Performance Bio Mtrls **3 Credit hours**
Structure of materials and behavior, material selection and biocompatibility, failure modes of applied biomaterials, failure analysis and performance, body responses, immunological, cell and tissue interaction, toxicity and safety.
Pre-req: BME 306.
Grade Mode: Normal Grading Mode

BME 460 Mechanics of Biofuilds **3 Credit hours**
Introduction to the fundamentals of fluid mechanics and their application to biological, cardiovascular, respiratory adn bio-fluid systems.
Pre-req: ENGR 318 with a minimum grade of D.
Grade Mode: Normal Grading Mode

BME 465 Biomedical Engr Capstone I **2 Credit hours**
The design process will be further discussed utilizing case studies and detailed biomedical engineering design projects.
Co-req: BME 405
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

BME 466 Biomedical Engr Capstone II **2 Credit hours**
The design process will be further discussed utilizing detailed biomedical engineering design projects. Projects will be required to be interdisciplinary in nature.
Pre-req: BME 465 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

BME 480 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

BME 481 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

BME 482 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

BME 483 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

BME 485 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

BME 486 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

BME 487 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

BME 488 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

Business-LCOB (BUSN)

- General Education Course

BUSN 100 Introduction to Business **3 Credit hours**
Introduction to the business disciplines including the importance of each individually and the synergy of working together. Utilizes experiential learning to solidify the concepts and also incorporates career exploration.
Grade Mode: Normal Grading Mode

BUSN 141 Business in the News (CT) **3 Credit hours**
This critical thinking course examines current events in business and how they impact consumers, competition and the economy as a whole. Students are also introduced to business ethics. This critical thinking course examines current events in business and how they impact consumers, competition and the economy as a whole. Students are also introduced to business ethics.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

BUSN 290 Internship **3-12 Credit hours**
A supervised internship in which the student works for a business organization to gain practical experience. The work program will be defined in advance and performance will be evaluated. (PR: Permission)
Grade Mode: Credit/No Credit Grade Only

BUSN 440 Business Consulting Methods **3 Credit hours**
The course will provide the tools and understanding to be successful in business consulting. Topics will include frameworks and models for consulting, stages of consulting, teamwork development. (PR: Junior or senior standing)
Grade Mode: Normal Grading Mode

BUSN 490 Internship **3-12 Credit hours**
A supervised internship in which the student works for a business organization to gain practical experience. The work program will be defined in advance and performance will be evaluated. (PR: Permission)
Grade Mode: Credit/No Credit Grade Only

Chemistry (CHM)

- General Education Course

CHM 109 Chemistry in the Home **4 Credit hours**
An introduction to basic concepts of chemical science as it applies to materials commonly found within the household. Students will be expected to learn to evaluate potential hazards of such materials.
Pre-req: MTH 121 or MTH 121B or MTH 121H or MTH 125 or MTH 127 or MTH 130 or MTH 130H or MTH 131 or MTH 132 or MTH 140 or MTH 190 or MTH 203 or MTH 220 or STA 225 or MTH 225 or MTH 229 or MTH 229H.
Attributes: Core II Natural Sciences
Grade Mode: Normal Grading Mode

CHM 111 Foundations of Chemistry **3 Credit hours**
This course will introduce students to basic chemical facts and concepts. Topics will include units, dimensional analysis, nomenclature, solutions, atomic structure, and stoichiometry. This course will introduce students to basic chemical facts and concepts. Topics will include units, dimensional analysis, nomenclature, solutions, atomic structure, and stoichiometry.
Pre-req: MTH 127 with a minimum grade of C or ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530 or MTH 130 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 205 General, Organic, and Biochem **3 Credit hours**
Introductory course for health professions students and non-science majors covering basic chemical principles with applications in organic chemistry and biochemistry.
Grade Mode: Normal Grading Mode

CHM 211 Principles of Chemistry I **3 Credit hours**
A study of the properties of materials and their interactions with each other. Development of theories and applications of the principles of energetics, dynamics and structure. Intended primarily for science majors and preprofessional students. 3 lec.
Pre-req: (ACT Math with a score of 23 or SAT Mathematics Before Mar. 16 with a score of 540 or SAT MATH SECTION SCORE with a score of 570 or Placement Chemistry with a score of 211 or CHM 111 with a minimum grade of C) and CHM 217 (may be taken concurrently).
Concurrent PR: CHM 217
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

CHM 212 Principles Chemistry II **3 Credit hours**
A continuation of chemistry 211 with emphasis on the inorganic chemistry of the representative elements and transition metals. 3 lec. A continuation of chemistry 211 with emphasis on the inorganic chemistry of the representative elements and transition metals. 3 lec.
Pre-req: (CHM 211 with a minimum grade of C and (CHM 218 (may be taken concurrently) with a minimum grade of D or CHM 218H (may be taken concurrently) with a minimum grade of D).
Concurrent PR: CHM 218 or CHM 218H
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

CHM 217 Principles of Chem Lab I **2 Credit hours**
A laboratory course that demonstrates the application of concepts introduced in Chemistry 211.
Pre-req: CHM 211 (may be taken concurrently).
Concurrent PR: CHM 211
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

CHM 218 Principles of Chem Lab II **2 Credit hours**
A laboratory course that demonstrates the application of concepts introduced in Chemistry 212.
Pre-req: CHM 212 (may be taken concurrently).
Concurrent PR: CHM 212
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

CHM 218H Prin Chem Honor Lab II **2 Credit hours**
An advanced laboratory class designed for Principles of Chemistry II students. This lab will introduce students to concepts and/or techniques important to later laboratory classes and research. An advanced laboratory class designed for Principles of Chemistry II students. This lab will introduce students to concepts and/or techniques important to later laboratory classes and research.
Pre-req: Admitted Honors College with a score of 1.
Co-req: CHM 212
Attributes: Honors, Natural Sciences
Grade Mode: Normal Grading Mode

CHM 280 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 281 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 282 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 283 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 291H Honors in Chemistry **1-4 Credit hours**
Independent study or undergraduate research project for outstanding students. Independent study or undergraduate research project for outstanding students.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 305 Research Methods Chem **1 Credit hour**
A course concerning the searching and use of the chemical literature, ethical issues relating to the conduct of scientific research, proposal writing, scientific presentations, and proper scientific laboaratory conduct.
Pre-req: CHM 356 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 327 Intro Organic Chemistry **3 Credit hours**
A one semester introduction to organic chemistry emphasizing structure, nomenclature, and reactivity. (Cannot fulfill an upper division chemistry elective.)
Pre-req: CHM 212 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 331 Chemistry Seminar **0 Credit hours**
Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research. Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research.
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

CHM 332 Chemistry Seminar **0 Credit hours**
Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research. Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research.
Attributes: No Textbook Required, Natural Sciences
Grade Mode: Credit/No Credit Grade Only

CHM 345 Intro to Analytical Chem **4 Credit hours**
An introduction to basic techniques of analytical chemistry and data analysis through statistical procedures. Traditional wet and contemporary instrumental methods are covered with an emphasis on experimental care and craftsmanship. An introduction to basic techniques of analytical chemistry and data analysis through statistical procedures. Traditional wet and contemporary instrumental methods are covered with an emphasis on experimental care and craftsmanship.
Pre-req: CHM 212 with a minimum grade of C and (CHM 218 with a minimum grade of C or CHM 218H with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 355 Organic Chemistry I **3 Credit hours**
A systematic study of organic chemistry including modern structural theory, spectroscopy, and stereochemistry; application of these topics to the study of reactions and their mechanisms and applications to synthesis. 3 lec. No individual may make more than 3 attempts at CHM 355 (i.e., any combination of three W, D, F or NC grades will preclude the individual from future registration).
Pre-req: CHM 212 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 356 Organic Chemistry II **3 Credit hours**
Continuation of Chemistry 355. 3 lec. Continuation of Chemistry 355. 3 lec.
Pre-req: CHM 355 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 357 Physical Chemistry: Quantum **4 Credit hours**
A study of quantum mechanics applied to atomic structure, chemical bonding, and spectroscopy. 3 lec.-2 lab.
Pre-req: CHM 212 with a minimum grade of C and (MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C) and (PHY 211 with a minimum grade of C or PHY 201 with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 358 Physical Chemistry: Thermo. **4 Credit hours**
A study of chemical thermodynamics, equilibrium, and kinetics. 3 lec.-2 lab.
Pre-req: CHM 212 with a minimum grade of C and (MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C) and (PHY 211 with a minimum grade of C or PHY 201 with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 361 Intro Organic Chm Lab **3 Credit hours**
An introduction to of experimental organic chemistry with emphasis on fundamental techniques and their application to the preparation and identification of organic compounds. 6 lab. An introduction to of experimental organic chemistry with emphasis on fundamental techniques and their application to the preparation and identification of organic compounds. 6 lab.
Pre-req: CHM 356 (may be taken concurrently).
Concurrent PR: CHM 356
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 361H Intro Honors Organic Chem Lab **3 Credit hours**
This laboratory will introduce students to advanced concepts and techniques in organic synthesis and spectroscopy. It requires students to engage in an independent synthetic project from the chemical literature.
Pre-req: CHM 356 (may be taken concurrently) and Admitted Honors College with a score of 1.
Concurrent PR: CHM 356
Attributes: Honors
Grade Mode: Normal Grading Mode

CHM 365 Introductory Biochemistry **3 Credit hours**
A survey course including introduction to basic biochemical concepts, metabolic pathways, and bioenergetics. 3 lec. A survey course including introduction to basic biochemical concepts, metabolic pathways, and bioenergetics. 3 lec.
Pre-req: CHM 327 with a minimum grade of C or CHM 356 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 366 Intro Biochemistry Lab **2 Credit hours**
Introduction to basic biochemical laboratory techniques including chromatography, electrophoresis, and enzyme kinetics; methods for identification and characterization of biochemical systems. 4 lab.
Pre-req: CHM 365 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 390H Honors in Chemistry **1-4 Credit hours**
Independent study or undergraduate research project for outstanding students. Independent study or undergraduate research project for outstanding students.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Honors, Natural Sciences
Grade Mode: Normal Grading Mode

CHM 391H Honors in Chemistry **1-4 Credit hours**
Independent study or undergraduate research project for outstanding students. Independent study or undergraduate research project for outstanding students.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 401 Research for Undergrad **1-4 Credit hours**
Students engage in research project in collaboration with a faculty member. Students engage in research project in collaboration with a faculty member.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 411 Modern Instrument Methods **4 Credit hours**
This course investigates the theory and functional aspects of modern analytical instrumentation. Emphasis is placed on the components of instruments and the applicability of various techniques to specific analytical problems. This course investigates the theory and functional aspects of modern analytical instrumentation. Emphasis is placed on the components of instruments and the applicability of various techniques to specific analytical problems.
Pre-req: CHM 356 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 423 Environ Analytical Chemistry **4 Credit hours**
Sampling and modern instrumental analysis of water, air and sediments according to EPA methodology. May be used to fulfill the American Chemical Society Environmental Chemistry certification. (PR: C or better in CHM 345). Sampling and modern instrumental analysis of water, air and sediments according to EPA methodology. May be used to fulfill the American Chemical Society Environmental Chemistry certification. (PR: C or better in CHM 345).
Pre-req: CHM 345 with a minimum grade of C and CHM 307 or CHM 358.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 428 Intro Forensic Methods **3 Credit hours**
Introduction to crime scene investigation, physical evidence collection, serology and DNA technologies (PCR, RFLP). Discussion of statistical analysis of DNA and managing a DNA database, using CODIS as an example.
Pre-req: CHM 365 and (BSC 322 or BSC 324).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 431 Chemistry Seminar **0 Credit hours**
Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research. Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research.
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

CHM 432 Chemistry Seminar **0 Credit hours**
Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research. Students also present an oral and written presentation of their capstone experience. Students attend lectures presented by internal and external speakers to learn about the nature and variety of chemical research. Students also present an oral and written presentation of their capstone experience.
Pre-req: CHM 490 or CHM 491.
Attributes: Natural Sciences
Grade Mode: Credit/No Credit Grade Only

CHM 443 Protein Biotechnology **3 Credit hours**
Discussion covers basics of protein structure and function, post-translational modification and transport simple immunology. Laboratories include protein quantitation, enzyme kinetics, protein purification and dialysis protein gel electrophoresis and staining.
Pre-req: BSC 120 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CHM 448 Adv Inorganic Chemistry I **4 Credit hours**
Study of physical properties and periodic relationships of inorganic materials. 3 lec, 2 lab.
Pre-req: CHM 356 with a minimum grade of C and (CHM 357 with a minimum grade of C or CHM 358 with a minimum grade of C).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 451 Biological Mass Spectrometry **4 Credit hours**
This course investigates the theory and applications of mass spectrometry. It includes a laboratory component in which you will learn to run the mass spectrometers and interpret mass spectral results.
Pre-req: CHM 356 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CHM 465 Adv Organic Chemistry I **3 Credit hours**
Studies of the dynamics of organic reactions with emphasis on mechanisms and stereochemistry. 3 lec.
Pre-req: CHM 356 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 466 Adv Organic Chemistry II **3 Credit hours**
A continuation of Chemistry 465 with emphasis on synthetic methods. 3 lec. A continuation of Chemistry 465 with emphasis on synthetic methods. 3 lec.
Pre-req: CHM 356 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 467 Intermediate Biochemistry **3 Credit hours**
An intermediate level discussion of the biochemistry of mammalian cells.
Pre-req: CHM 365 with a minimum grade of C or BSC 365 with a minimum grade of C.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 478 Appl Microscopy in Research **4 Credit hours**
A combined lecture/lab/self-motivated research course that results in a microscopy based project to be presented by each student in a public forum (may augment capstone). A combined lecture/lab/self-motivated research course that results in a microscopy based project to be presented by each student in a public forum (may augment capstone).
Grade Mode: Normal Grading Mode

CHM 480 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 481 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 482 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 483 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 485 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 486 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

CHM 490 Internship **1-6 Credit hours**
Students engage in supervised chemical laboratory work in a professional setting. Students engage in supervised chemical laboratory work in a professional setting.
Pre-req: CHM 305.
Attributes: Capstone Course, Natural Sciences
Grade Mode: Normal Grading Mode

CHM 491 Capstone Experience **2-4 Credit hours**
Students engage in a collaborative research project with a faculty member. Students engage in a collaborative research project with a faculty member.
Pre-req: CHM 305.
Attributes: Capstone Course, Natural Sciences
Grade Mode: Normal Grading Mode

CHM 495H Honors in Chemistry **3-4 Credit hours**
Open only to chemistry majors of outstanding ability. Open only to chemistry majors of outstanding ability.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

Civil Engineering (CE)

- General Education Course

CE 102 Introduction to CAD **2 Credit hours**
An introduction of scales, plan reading, engineering graphics and computer aided design (CAD). Introduction to the operation of modern 2D and 3D CAD software used in civil engineering applications.
Pre-req: MTH 132 (may be taken concurrently) with a minimum grade of D or MTH 229 (may be taken concurrently) with a minimum grade of D or MTH 229H (may be taken concurrently) with a minimum grade of D or MTH 230 (may be taken concurrently) with a minimum grade of D or MTH 231 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: MTH 132 or MTH 229 or MTH 229H or MTH 230 or MTH 231
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CE 241 Introduction to Geomatics **3 Credit hours**
Introduction to methods and tools used to measure, analyze, and present surveying data: horizontal distances, elevation, angles, areas, and volumes. Including both field and CAD lab exercises. 3 lec.-3 lab.
Pre-req: CE 102 with a minimum grade of D and ENGR 111 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 312 Structural Analysis **3 Credit hours**
Stability and determinacy of civil engineering structures. Forces and deflections in statically determinate trusses, beams, and frames. Influence lines for planar structures. Elementary indeterminate structural analysis. Computer applications. 3-lec.
Pre-req: ENGR 216 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: ENGR 216
Grade Mode: Normal Grading Mode

CE 319 Civil Engr Fluid Mechanics Lab **1 Credit hour**
Laboratory experiments to support study of civil engineering fluid mechanics, including fluid properties, buoyancy, hydrostatic forces, flow visualization, jet impact, pipe flow, and open channel flow.
Pre-req: ENGR 318 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: ENGR 318
Grade Mode: Normal Grading Mode

CE 321 Civil Engineer Materials **4 Credit hours**
The study of civil engineering materials; metals and alloys, mineral aggregates, cements, concrete and concrete products, bituminous materials, lumber and timber. Laboratory testing of materials. 3 lec.-3 lab.
Pre-req: ENGR 216 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 322 Geotechnical Engineering **4 Credit hours**
This course will provide students with an introduction to soil mechanics, including soil characterization, compaction, consolidation, and shear strength. Students will also understand soil behaviors through hands-on experience 3 lec.-3 lab.
Pre-req: ENGR 216 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 331 Hydraulic Engineering **3 Credit hours**
Hydraulic flow in pipe networks, water hammer, surge tanks, pumps and turbines. Basic open channel flow. Storm and sanitary sewer design. Dams and reservoirs. 3 lec.
Pre-req: ENGR 318 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 341 Advanced Geomatics **3 Credit hours**
Introduction to advanced geo-spatial data collection instrumentation, processes and capabilities. Geo-spatial data display, integration and analyses software tools are presented and utilized in a lecture/lab format.
Pre-req: CE 241 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 342 Transportation Engineering **3 Credit hours**
Introduction to transportation systems: highway, rail, water, and air transportation organization and administration; vehicle and human characteristics; rectilinear and curvilinear vehicle motion; location, design and planning of transportation systems. 3-lec.
Pre-req: CE 241 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 351 Environmental Engineering **3 Credit hours**
Environmental issues, problems, and evaluation methodology; fundamental concepts in pollution modeling and control, and engineering management approaches; material transport, balance, and separations; kinetics and reactor design. 3-lec .
Pre-req: CHM 212 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 413 Reinforced Concrete **3 Credit hours**
Behavior and design of reinforced concrete elements according to ACI 318. Design of beams, one-way slabs, columns, and beam-columns based on strength and serviceability requirements. 3-lec.
Pre-req: CE 312 with a minimum grade of D and ENGR 216 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 414 Structural Steel Design **3 Credit hours**
Behavior and design of structural steel elements according to AISC 360. Design of tension members, bolted and welded connections, columns, beams, and beam-columns based on strength and serviceability requirements. 3-lec.
Pre-req: (CVLE 212 with a minimum grade of D or CE 312 with a minimum grade of D) and ENGR 216 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CE 425 Foundation Engineering **3 Credit hours**
This course will focus on designing shallow and deep foundations, including spread and mat foundations, driven piles, and drilled shafts. Topics include bearing capacity of soils, settlement, and pile behaviors. 3-lec.
Pre-req: CE 322 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 426 Retaining Structures and Slope **3 Credit hours**
This course will provide students with an understanding of retaining structure applications and slope stability analysis in Geotechnical Engineering practice.
Pre-req: CE 322 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 433 Hydrologic Engineering **3 Credit hours**
Introduction to the water cycle, including precipitation, evaporation, infiltration, and runoff. Methods of modeling surface runoff, routing, and floodplain analysis. Computerized design of culverts, storm sewers, and watershed modeling. 3-lec.
Pre-req: ENGR 318 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 434 Water/Wastewater Trtmt Dsgn **3 Credit hours**
Physical, chemical, and biological principles in water and wastewater treatment. Design of treatment systems, including flocculation, sedimentation, disinfection, activated sludge, fixed-growth, and solids treatment. Includes bench-scale demonstrations of treatment steps.
Pre-req: CE 351 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 438 Pavement Design and Management **3 Credit hours**
This course is designed to teach the undergraduate engineering student about the application of transportation engineering, material behavior and engineering management principles to design and manage highway pavements.
Pre-req: ENGR 216 with a minimum grade of D and CE 342 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 443 Transportation Systems Design **3 Credit hours**
Application of transportation engineering principles to evaluate existing transportation systems and design necessary improvements. Transportation systems include roadway segments, intersections, sidewalks, and interchanges. Course includes a design project. 3-lec.
Pre-req: CE 342.
Grade Mode: Normal Grading Mode

CE 452 Senior Seminar of Civil Engr **1 Credit hour**
This seminar course will prepare students for engineering practice upon graduation. Topics include professional responsibility, engineering ethics, employment opportunities, and review for the Fundamentals of Engineering Exam.
Pre-req: CE 312 with a minimum grade of D or CE 331 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CE 453 Capstone Senior Design **3 Credit hours**
Students utilize the engineering design process to complete a comprehensive civil engineering project that addresses a real-world problem with realistic constraints in a collaborative environment. (PR: ENGR 451 and on CE Design Elective).
Pre-req: ENGR 451 with a minimum grade of D and (CE 413 with a minimum grade of D or CE 414 with a minimum grade of D or CE 425 with a minimum grade of D or CE 434 with a minimum grade of D or CE 438 with a minimum grade of D or CE 443 with a minimum grade of D).
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

CE 480 Special Topics in CE **1-4 Credit hours**
Current topics in civil engineering to be selected depending on the interests of the students and faculty. Current topics in civil engineering to be selected depending on the interests of the students and faculty.
Grade Mode: Normal Grading Mode

Classics (CL)

- General Education Course

CL 200 Building English Vocab **3 Credit hours**
Study of Latin and Greek word elements to build skill in English vocabulary, both general and technical (or scientific-medical). Study of Latin and Greek word elements to build skill in English vocabulary, both general and technical (or scientific-medical).
Grade Mode: Normal Grading Mode

CL 210 Love/War Ancient World (CT) **3 Credit hours**
Taught in English, this course examines the themes of love and war in Greek and Roman poetry and prose. Taught in English, this course examines the themes of love and war in Greek and Roman poetry and prose.
Attributes: Critical Thinking, Core II Humanities
Grade Mode: Normal Grading Mode

CL 230 Greek & Roman Epic **3 Credit hours**
Introduction to the genre of ancient epic through reading Homer's Iliad and Odyssey and Vergil's Aeneid (or other ancient epics). Introduction to the genre of ancient epic through reading Homer's Iliad and Odyssey and Vergil's Aeneid (or other ancient epics).
Pre-req: ENG 101 with a minimum grade of C or YGS 161 with a minimum grade of C or ENG 101P with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C or ENG 200 with a minimum grade of C.
Attributes: Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 231 Women in Greek & Roman Lit **3 Credit hours**
Taught in English, a thematic study of women in Greek and Roman literature focusing on how a culture's attitudes towards women reflect social, political or ethnic concerns.
Pre-req: ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C or ENG 201 with a minimum grade of C.
Attributes: Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 232 Greek & Roman Drama (CT) **3 Credit hours**
Introduction to Greek and Roman dramatic genres of tragedy and comedy using selected plays of Aeschylus, Sophocles, Euripides, Aristophanes, Seneca, Plautus, and Terence. Introduction to Greek and Roman dramatic genres of tragedy and comedy using selected plays of Aeschylus, Sophocles, Euripides, Aristophanes, Seneca, Plautus, and Terence.
Pre-req: ENG 101 with a minimum grade of C or YGS 161 with a minimum grade of C or ENG 101P with a minimum grade of C.
Attributes: Critical Thinking, Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 233 Greek & Roman Historians (CT) 3 Credit hours
Thematic study of Greek and Roman historiography by topic as much as by historian, including ancient rehtorical sources on the theory of history. Thematic study of Greek and Roman historiography by topic as much as by historian, including ancient rehtorical sources on the theory of history.
Pre-req: ENG 101 or YGS 161.
Attributes: Critical Thinking, Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 234 Greek & Roman Poetry (CT) 3 Credit hours
Taught in English, this course examines three periods of Greek and Roman poetry: the Archaic and Hellenistic Ages of Greece and the Golden Age of Rome. Taught in English, this course examines three periods of Greek and Roman poetry: the Archaic and Hellenistic Ages of Greece and the Golden Age of Rome.
Attributes: Critical Thinking, Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 236 Murder in Ancient World (CT) 3 Credit hours
Taught in English, this is a tehmatic study of the topic of murder as it appears in the genres of tragedy, oratory and history.
Pre-req: ENG 101 or YGS 161 or ENG 101E or ENG 201H or IST 101 or ENG 101P.
Attributes: Critical Thinking, Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 237 Lit in the Time of Nero (CT) 3 Credit hours
Taught in English this course examines the literature of the first century, CE, and includes the writings of Lucan, Petronius, Seneca, Martial, Juvenal and Tacitus. Taught in English this course examines the literature of the first century, CE, and includes the writings of Lucan, Petronius, Seneca, Martial, Juvenal and Tacitus.
Pre-req: ENG 101 with a minimum grade of D or ENG 101P with a minimum grade of D or ENG 200H with a minimum grade of D or ENG 201H with a minimum grade of D.
Attributes: Critical Thinking, Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 250 Humanities and Film (CT) 3 Credit hours
An interdisciplinary course to introduce students to the elements of a humanistic education through study of film. (Same as Philosophy 250 and Religious Studies 250; PR or CR: ENG 101)
Pre-req: ENG 101 (may be taken concurrently) with a minimum grade of C or ENG 200H (may be taken concurrently) with a minimum grade of C or ENG 201H (may be taken concurrently) with a minimum grade of C or ENG 101P (may be taken concurrently) with a minimum grade of C.
Concurrent PR: ENG 101 or ENG 200H or ENG 201H or ENG 101P
Attributes: Critical Thinking, Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

CL 280 Special Topics 1-4 Credit hours
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

CL 281 Special Topics 1-4 Credit hours
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

CL 282 Special Topics 1-4 Credit hours
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

CL 283 Special Topics 1-4 Credit hours
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

CL 319 Classical Mythology 3 Credit hours
Study of the development of myth in ancient Greece and Rome; its place in ancient culture and its survival in the modern world. Study of the development of myth in ancient Greece and Rome; its place in ancient culture and its survival in the modern world.
Pre-req: ENG 101 with a minimum grade of C or YGS 161 with a minimum grade of C or ENG 101P with a minimum grade of C.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CL 320 Anc Grk Love & Friendship 3 Credit hours
A literary survey of ancient Greco-Roman love and friendship as shaped by family, marriage, religion, philosophy and politics. Ancient and modern texts read.
Pre-req: ENG 101 or YGS 161.
Grade Mode: Normal Grading Mode

CL 326 Classical Archaeology 3 Credit hours
Archaeology of ancient Greece and Rome, and their colonies and their imperial domains. Same as ANT 370. Archaeology of ancient Greece and Rome, and their colonies and their imperial domains. Same as ANT 370.
Grade Mode: Normal Grading Mode

CL 390 Junior Seminar in Humanities 3 Credit hours
A structured interdisciplinary study offered by the departments of Classics, Philosophy, and Religious Studies in the foundations of human thought, myth, literature, religion, philosophy, art. (Same as Philosophy 390-394 and Religious Studies 390-394)
Pre-req: ENG 201 with a minimum grade of C or ENG 201H with a minimum grade of C or YGS 162 with a minimum grade of C or IST 201 with a minimum grade of D or CL 231 with a minimum grade of D or CL 232 with a minimum grade of D or CL 233 with a minimum grade of D or PHL 200 with a minimum grade of D or PHL 201 with a minimum grade of D or PHL 303 with a minimum grade of D or PHL 321 with a minimum grade of D or PHL 340 with a minimum grade of D or PHL 353 with a minimum grade of D or RST 205 with a minimum grade of D or RST 206 with a minimum grade of D or RST 300 with a minimum grade of D or RST 304 with a minimum grade of D or RST 320 with a minimum grade of D or RST 325 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CL 391 Junior Seminar in Humanities **3 Credit hours**
A structured interdisciplinary study offered by the departments of Classics, Philosophy, and Religious Studies in the foundations of human thought, myth, literature, religion, philosophy, art. (Same as Philosophy 390 - 394 and Religious Studies 390 - 394)
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325 or ENG 201.
Grade Mode: Normal Grading Mode

CL 392 Junior Seminar **3 Credit hours**
A structured interdisciplinary study offered by the department of Classics, Philosophy, and Religious Studies in the foundations of human thought, myth, literature, regligion, philosophy, art. (Same as Philosophy 390 - 394 and Religious Studies 390 - 394)
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325 or ENG 201.
Grade Mode: Normal Grading Mode

CL 393 Junior Seminar in Humanities **3 Credit hours**
A structured interdisciplinary study offered by the departments of Classics, Philosophy, and Religious Studies in the foundations of human thought, myth, literature, religion, philosophy, art. (Same as Philosophy 390 - 394 and Religious Studies 390 - 394)
Pre-req: ENG 102 with a minimum grade of D or ENG 302 with a minimum grade of D or ENG 201H with a minimum grade of D or YGS 162 with a minimum grade of D or IST 201 with a minimum grade of D or CL 231 with a minimum grade of D or CL 232 with a minimum grade of D or CL 233 with a minimum grade of D or CL 319 with a minimum grade of D or PHL 200 with a minimum grade of D or PHL 201 with a minimum grade of D or PHL 303 with a minimum grade of D or PHL 321 with a minimum grade of D or PHL 340 with a minimum grade of D or PHL 353 with a minimum grade of D or RST 205 with a minimum grade of D or RST 206 with a minimum grade of D or RST 300 with a minimum grade of D or RST 304 with a minimum grade of D or RST 320 with a minimum grade of D or RST 325 with a minimum grade of D or ENG 201 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CL 394 Junior Seminar in Humantities **3 Credit hours**
A structured interdisciplinary study offered by the departments of Classics, Philosophy, and Religious Studies in the foundations of human thought, myth, literature, religion, philosophy, art. (Same as Philosophy 390 - 394 and Religious Studies 390 - 394)
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325 or ENG 201.
Grade Mode: Normal Grading Mode

CL 435 Greek Civilization **3 Credit hours**
Study of ancient Greek culture, emphasizing parallels with present-day issues. Study of ancient Greek culture, emphasizing parallels with present-day issues.
Pre-req: ENG 101 or YGS 161.
Grade Mode: Normal Grading Mode

CL 436 Roman Civilization **3 Credit hours**
Study of ancient Roman culture, emphasizing parallels with present-day issues. Study of ancient Roman culture, emphasizing parallels with present-day issues.
Pre-req: ENG 101 or YGS 161.
Grade Mode: Normal Grading Mode

CL 460 Ancient Goddess Religions **3 Credit hours**
Study of the mythology and cults of the goddesses of Greece, Grete, Asia Minor, Crete and Rome, with a view to discovering cultural contexts. Study of the mythology and cults of the goddesses of Greece, Grete, Asia Minor, Crete and Rome, with a view to discovering cultural contexts.
Grade Mode: Normal Grading Mode

CL 470 Transformations of Myth **3 Credit hours**
An examination of how ancient myth transforms into the psychological and fictional works of more modern times. An examination of how ancient myth transforms into the psychological and fictional works of more modern times.
Grade Mode: Normal Grading Mode

CL 471 Ancient Sexuality **3 Credit hours**
A comprehensive study of current theories about Greek and/or Roman sexualities and evaluation of the evidence, textual and otherwise, to which these theories apply.
Pre-req: ENG 102 or ENG 302 or ENG 201H or ENG 201.
Grade Mode: Normal Grading Mode

CL 472 Rhetoric of Seduction **3 Credit hours**
Taught in English, this course investigates the overlap of public and private persuasion through reading philosophical, political and romantic works, and analyzing contemporary campaigns. Taught in English, this course investigates the overlap of public and private persuasion through reading philosophical, political and romantic works, and analyzing contemporary campaigns.
Grade Mode: Normal Grading Mode

CL 473 Body, Sex and Violence in Rome **3 Credit hours**
This course explores the gross violation of the boundaries of the Roman body sexually, politically and socially, and how the symbolizes a breakdown of identity, personally and nationally.
Pre-req: ENG 101 with a minimum grade of C or ENG 101P with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C or ENG 201 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CL 475 Roman Law **3 Credit hours**
Taught in English, this course provides an introduction to basic tenets of Roman law with particular attention to court cases and speeches. Taught in English, this course provides an introduction to basic tenets of Roman law with particular attention to court cases and speeches.
Grade Mode: Normal Grading Mode

CL 476 Rome: The Eternal City **6 Credit hours**
On-site study of the archaeology and material culture of ancient Rome in its social, literary and historical context. Taught in English in Rome, Italy. (Students fund their own travel)
Pre-req: ENG 101 or ENG 101P or ENG 160 or ENG 200H and CL 436.
Grade Mode: Normal Grading Mode

CL 477 RTTP: Greece and Rome **3 Credit hours**
Reacting to the Past: Greece and Rome is a semester long game/simulation where students play historical characters in Athens in 403BC then in Rome just after Julius Caesar's assassination.
Pre-req: (ENG 101 with a minimum grade of D or ENG 101P with a minimum grade of D or ENG 200H with a minimum grade of D or ENG 201H with a minimum grade of D) and CMM 103 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CL 480 Special Topics **1-4 Credit hours**
Topics like "Values in Ancient Greece/Rome" or "The Cult of the Leader in Ancient Greece/Rome" have recently been offered. Consult chairman for current offerings. Topics like "Values in Ancient Greece/Rome" or "The Cult of the Leader in Ancient Greece/Rome" have recently been offered. Consult chairman for current offerings.
Pre-req: ENG 101 or YGS 161.
Grade Mode: Normal Grading Mode

CL 481 Special Topics **1-4 Credit hours**
Topics like"Values in Ancient Greece/Rome" or "The Cult of the Leader in Ancient Greece/Rome" have recently been offered. Consult chairman for current offerings. Topics like"Values in Ancient Greece/Rome" or "The Cult of the Leader in Ancient Greece/Rome" have recently been offered. Consult chairman for current offerings.
Pre-req: ENG 101 or YGS 161.
Grade Mode: Normal Grading Mode

CL 482 Special Topics **1-4 Credit hours**
Pre-req: ENG 101 or YGS 161.
Grade Mode: Normal Grading Mode

CL 483 Special Topics **1-4 Credit hours**
Topics like "Values in Ancient Greece/Rome" or "The Cult of the Leader in Ancient Greece/Rome" have recently been offered. Consult chairman for current offerings. Topics like "Values in Ancient Greece/Rome" or "The Cult of the Leader in Ancient Greece/Rome" have recently been offered. Consult chairman for current offerings.
Pre-req: ENG 101 or YGS 161.
Grade Mode: Normal Grading Mode

CL 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CL 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CL 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CL 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CL 490 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. (Same as Philosophy 490 -494 and Religious Studies 490 - 494)
Pre-req: ENG 102 with a minimum grade of D or ENG 302 with a minimum grade of D or ENG 201H with a minimum grade of D or YGS 162 with a minimum grade of D or IST 201 with a minimum grade of D or CL 231 with a minimum grade of D or CL 232 with a minimum grade of D or CL 233 with a minimum grade of D or CL 319 with a minimum grade of D or PHL 200 with a minimum grade of D or PHL 201 with a minimum grade of D or PHL 303 with a minimum grade of D or PHL 321 with a minimum grade of D or PHL 340 with a minimum grade of D or PHL 353 with a minimum grade of D or RST 205 with a minimum grade of D or RST 206 with a minimum grade of D or RST 300 with a minimum grade of D or RST 304 with a minimum grade of D or RST 320 with a minimum grade of D or RST 325 with a minimum grade of D or ENG 201 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CL 492 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. (Same as Philosophy 490 -494 and Religious Studies 490 -494)
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325 or ENG 201.
Grade Mode: Normal Grading Mode

CL 493 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. (Same as Philosophy 490 -494 and Religious Studies 490 -494)
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325 or ENG 201.
Grade Mode: Normal Grading Mode

CL 494 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study inthe Humanities program. (Same as Philosophy 490 -494 and Religious Studies 490 - 494)
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325 or ENG 201.
Grade Mode: Normal Grading Mode

Clinical Lab Sciences (CLS)

- General Education Course

CLS 105 Medical-Lab Terminology (CT) **3 Credit hours**
An introductory course for students to develop critical thinking skills and apply them to medical and laboratory terminology concepts and other health care topics related to laboratory medicine. An introductory course for students to develop critical thinking skills and apply them to medical and laboratory terminology concepts and other health care topics related to laboratory medicine.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

CLS 200 Clinical Biochemistry **4 Credit hours**
Theory and practice of clinical chemistry testing of serum, plasma, urine and body fluids in disease diagnosis.
Grade Mode: Normal Grading Mode

CLS 210 Clinical Immunohematology **4 Credit hours**
Theory of immune mechanisms in the body with a focus on serological testing for safe transfusion of blood components and applications for diagnostic immunologic assays.
Pre-req: CLS 230 with a minimum grade of C and CLS 200 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CLS 220 Clinical Microbiology **4 Credit hours**
A study of bacterial, fungal, and helminth related diseases, including diagnostic approach and techniques. 3 lec-2 lab. A study of bacterial, fungal, and helminth related diseases, including diagnostic approach and techniques. 3 lec-2 lab.
Pre-req: CLS 230 with a minimum grade of C and CLS 200 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CLS 230 Clinical Hematology **4 Credit hours**
Theory and clinical laboratory procedures used in the diagnosis of various white blood cell, red blood cell, and coagulation disorder. Course includes an introduction to specimen collection.
Grade Mode: Normal Grading Mode

CLS 255 Clinical Lab Problems **3 Credit hours**
Clinical laboratory problem-solving and comprehensive technical review course designed to help the student integrate knowledge and learn professional skills as a last step before beginning clinical practicum.
Pre-req: CLS 230 with a minimum grade of C and CLS 200 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CLS 270 Clin Practicum Hematology **3 Credit hours**
Total of 4 weeks (160 hours) of hospital-based supervised practice, including phlebotomy, complete blood counts, body fluid analysis, clinical microscopy, and urinalysis. One of four courses, CLS 270-273, taken concurrently.
Pre-req: CLS 255 with a minimum grade of C.
Co-req: CLS 271, CLS 272, CLS 273
Grade Mode: Normal Grading Mode

CLS 271 Clin Practicum Chemistry **3 Credit hours**
Total of 4 weeks (160) hours of hospital-based supervised practice performing diagnostic tests on body fluids using chemical methods. One of four courses, CLS 270-273, taken concurrently.
Pre-req: CLS 255 with a minimum grade of C.
Co-req: CLS 270, CLS 272, CLS 273
Grade Mode: Normal Grading Mode

CLS 272 Clin Pract Immunohematol **3 Credit hours**
Total of 3 weeks (120) hours of hospital-based supervised practice performing blood typing, antibody screening and identification, and conduct of pre-transfusion tests. One of our courses, CLS 270-273, taken concurrently. Total of 3 weeks (120) hours of hospital-based supervised practice performing blood typing, antibody screening and identification, and conduct of pre-transfusion tests. One of our courses, CLS 270-273, taken concurrently.
Pre-req: CLS 255 with a minimum grade of C.
Co-req: CLS 270, CLS 271, CLS 273
Grade Mode: Normal Grading Mode

CLS 273 Clin Pract Microbiology **3 Credit hours**
Total of 4 weeks (160 hours) of hospital-based supervised practice performing isolation, identification, and susceptibility testing of bacteria, fungi, and parasites. One of four courses, CLS 270-273, taken concurrently. Total of 4 weeks (160 hours) of hospital-based supervised practice performing isolation, identification, and susceptibility testing of bacteria, fungi, and parasites. One of four courses, CLS 270-273, taken concurrently.
Pre-req: CLS 255 with a minimum grade of C.
Co-req: CLS 270, CLS 271, CLS 272
Grade Mode: Normal Grading Mode

CLS 285 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CLS 286 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 287 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 288 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 310 Clin Immun & Mol Diag **3 Credit hours**
Theory and practice of basic human immunology and genetics as applied to clinical laboratory diagnostic and treatment procedures. Emphasizes use of immunoglobulin and DNA as diagnostic tools. Theory and practice of basic human immunology and genetics as applied to clinical laboratory diagnostic and treatment procedures. Emphasizes use of immunoglobulin and DNA as diagnostic tools.
Grade Mode: Normal Grading Mode

CLS 320 Advanced Topics in CLS **3 Credit hours**
Study of advanced topics for MLS graduates; includes careers in CLS, public health, epidemiology and bioterrorism as related to CLS, interprofessional collaboration, professional societies, licensure and regulation, and patient safety.
Grade Mode: Normal Grading Mode

CLS 400 Adv Clinical Chemistry **2 Credit hours**
Advanced theory, practice, problem solving, and critical thinking in the laboratory specialty of clinical chemistry. Advanced theory, practice, problem solving, and critical thinking in the laboratory specialty of clinical chemistry.
Pre-req: CLS 200 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CLS 410 Adv Clin Immunohematology **2 Credit hours**
Advanced theory and resolution of complex serological problems related to blood component therapy and transfusion.
Pre-req: CLS 272 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CLS 420 Adv Clinical Microbiology **2 Credit hours**
Advanced theory, practice, problem solving, and critical thinking in the laboratory specialty of diagnostic microbiology.
Grade Mode: Normal Grading Mode

CLS 430 Adv Clinical Hematology **3 Credit hours**
Advanced theory, problem solving, and clinical laboratory procedures used in the diagnosis and treatment of various white blood cell, red blood cell, and coagulation disorders.
Pre-req: CLS 230 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CLS 460 Clinical Lab Mgt and Educ **3 Credit hours**
Laboratory personnel and resource management, cost control, cost analysis, lab marketing, accreditation and CLS education practices. Laboratory personnel and resource management, cost control, cost analysis, lab marketing, accreditation and CLS education practices.
Pre-req: MGT 320 with a minimum grade of C or ECN 250 with a minimum grade of C and CLS 271 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CLS 464 Lab Instrumen Inform Sys **3 Credit hours**
Principles of laboratory instrumentation operation, maintenance, and troubleshooting. Concepts in special topics such as Flow Cytometry, Laboratory Information Systems (LIS), and Schematics also discussed.
Grade Mode: Normal Grading Mode

CLS 466 Diagnostic Physiology **3 Credit hours**
Pathologic aspects of diseases will be discussed using case studies, diagnostic problem solving, and student projects.
Grade Mode: Normal Grading Mode

CLS 468 Clinical Lab Research **3 Credit hours**
Directed independent research in the clinical site on a subject/topic of interest for clinical laboratory practice; formal writing of a research proposal and final project report required.
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

CLS 472 Adv CLS Clinical Practicum I **3 Credit hours**
Advanced problem solving and critical thinking through case study evaluation in all areas of the clinical laboratory.
Grade Mode: Normal Grading Mode

CLS 473 Adv CLS Clinical Practicum II **3 Credit hours**
Advanced problem solving and critical thinking in all areas of the clinical laboratory through intensive review of theory and national certification examination review materials for the Medical Laboratory Scientist.
Grade Mode: Normal Grading Mode

CLS 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CLS 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CLS 499 Seminar in Lab Medicine **2 Credit hours**
Review, summary and critique of peer-reviewed research publications in all areas of clinical laboratory science.
Grade Mode: Normal Grading Mode

Communication Disorders (CD)

- General Education Course

CD 101 Intro Communic Disorders **3 Credit hours**
Introduction to the field of Communication Disorders for majors. Discussion of various communication disorders, as well as the roles and responsibilities of the speech-language pathologist.
Grade Mode: Normal Grading Mode

CD 228 Language and Speech Dev **3 Credit hours**
Theories of language acquisition; sequential patterns in the acquisition of prelinguistic communication, speech and language in relationship to general child development.
Grade Mode: Normal Grading Mode

CD 229 Anatomy Speech Mechanism **3 Credit hours**
Introduction to the anatomy and physiology of the speech and hearing mechanism and the neurological system. PR: CD 241 and CD 228 Introduction to the anatomy and physiology of the speech and hearing mechanism and the neurological system. PR: CD 241 and CD 228
Grade Mode: Normal Grading Mode

CD 239 Phonetics **3 Credit hours**
Introduction to articulatory phonetics; study of the International Phonetic Alphabet and practice in broad transcription of normal and disordered speech; discussion of social dialects. PR: CD 241, CD 228 Introduction to articulatory phonetics; study of the International Phonetic Alphabet and practice in broad transcription of normal and disordered speech; discussion of social dialects. PR: CD 241, CD 228
Grade Mode: Normal Grading Mode

CD 241 Intro Communication Science **3 Credit hours**
A survey of the physical and psychophysical bases of communication with discussion of elementary communication models. (PR: CD 101 and Permission) A survey of the physical and psychophysical bases of commun- ication with discussion of elementary communication models. (PR: CD 101 and Permission)
Grade Mode: Normal Grading Mode

CD 322 Dev Speech Disorders **3 Credit hours**
Introduction to developmental speech disorders; etiologies and symptoms; principles of assessment and treatment. Introduction to developmental speech disorders; etiologies and symptoms; principles of assessment and treatment.
Grade Mode: Normal Grading Mode

CD 328 Developmental Lang Dis **3 Credit hours**
Introduction to theoretical bases of developmental language disorders; etiologies and symptoms; principles of assessment and treatment.
Grade Mode: Normal Grading Mode

CD 330 Acq Comm Swallowing Dis **3 Credit hours**
Introduction to acquired disorders; etiologies and symptoms; principles of assessment and treatment. Emphasis on communication and swallowing disorders resulting from CVA, traumatic brain injury, the dementias and other neurological disorders. Introduction to acquired disorders; etiologies and symptoms; principles of assessment and treatment. Emphasis on communication and swallowing disorders resulting from CVA, traumatic brain injury, the dementias and other neurological disorders.
Grade Mode: Normal Grading Mode

CD 370L Field Exper: Sph & Lang **3 Credit hours**
Experience with preschool age children; planning and implementing speech and language stimulation activities. Experience with preschool age children; planning and implementing speech and language stimulation activities.
Grade Mode: Normal Grading Mode

CD 401 Inquiry in CD **1-3 Credit hours**
Course designed to expose undergraduate students to research in the field of CD through participation in a Community of Research Practice and individual study under the guidance of a mentor. May be repeated for credit, not to exceed a total of 12 credit hours. (PR: admission to undergraduate program and permission of advisor)
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CD 415 Prof Literacies for SLPs **3 Credit hours**
Investigation into contemporary understandings of literacy using current communication and information technologies and resources. PR: Admission to undergraduate program; permission of instructor. Investigation into contemporary understandings of literacy using current communication and information technologies and resources. PR: Admission to undergraduate program; permission of instructor.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

CD 420 Voice and Fluency Disorders **3 Credit hours**
Introduction to voice and fluency disorders; etiologies and symptoms; principles of assessment and treatment.
Grade Mode: Normal Grading Mode

CD 424 Diagnosis Comm Disorders **3 Credit hours**
Examination of assessment procedures for differential diagnosis of various communication disorders; a study of symptom complexes; interpretation of diagnostic data.
Grade Mode: Normal Grading Mode

CD 427 Therapeutic Procedures II **3 Credit hours**
Examination of therapeutic procedures relative to speech and language disorders. Investigation into the clinician's role in case management as well as behavior management techniques. (PR: CE 426, CD 422L, CD 425, CR: CD 427L) Examination of therapeutic procedures relative to speech and language disorders. Investigation into the clinician's role in case management as well as behavior management techniques. (PR: CE 426, CD 422L, CD 425, CR: CD 427L)
Grade Mode: Normal Grading Mode

CD 460 Basic Audiology **3 Credit hours**
Introduction to hearing disorders; examination of the auditory system, psychophysical processes and preferred practice procedures for assessment. Includes laboratory. (PR: CD 429, CD 439) Introduction to hearing disorders; examination of the auditory system, psychophysical processes and preferred practice procedures for assessment. Includes laboratory. (PR: CD 429, CD 439)
Grade Mode: Normal Grading Mode

CD 461 Sign Language for SLP **3 Credit hours**
Introduction to basic signs and finger spelling. Overview of different sign systems. Introduction to basic signs and finger spelling. Overview of different sign systems.
Grade Mode: Normal Grading Mode

CD 463 Aural Rehabilitation **3 Credit hours**
Examination of various intervention strategies appropriate for individuals with hearing impairments, techniques for assessing degree of handicap. (PR: CD 460) Examination of various intervention strategies appropriate for individuals with hearing impairments, techniques for assessing degree of handicap. (PR: CD 460)
Grade Mode: Normal Grading Mode

CD 470L Therapeutic Prodecures Lab **2 Credit hours**
Guided and independent observation and analysis of the clinical process. Guided and independent observation and analysis of the clinical process.
Attributes: No Textbook Required
Grade Mode: Credit/No Credit Grade Only

CD 471 SLPA Practicum I **1 Credit hour**
A supervised SLPA clinical practicum in the MUSHC and/or other site with faculty from Marshall University.
Pre-req: CD 471L (may be taken concurrently) with a minimum grade of D.
Concurrent PR: CD 471L
Grade Mode: Normal Grading Mode

CD 471L SLPA Practicum Lab **2 Credit hours**
Introduction to the SLPA profession.
Pre-req: CD 471 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: CD 471
Grade Mode: Credit/No Credit Grade Only

CD 472 Clin Prac School Children **1 Credit hour**
Supervised clinical practice with school-aged children; addresses clinical clock hour requirements set forth by American Speech Language and Hearing Association SLPA program
Pre-req: CD 471 with a minimum grade of D and CD 471L with a minimum grade of D.
Grade Mode: Credit/No Credit Grade Only

CD 472L SLPA Practicum Lab **2 Credit hours**
A lab focused on special considerations related to providing speech language pathology assistant services in the public school setting.
Pre-req: CD 471 with a minimum grade of D and CD 471L with a minimum grade of D and CD 472 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: CD 472
Grade Mode: Credit/No Credit Grade Only

CD 480 Special Topics **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CD 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CD 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CD 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CD 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CD 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CD 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CD 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

Communication Studies (CMM)

- General Education Course

CMM 103 Fund Speech-Communication **3 Credit hours**
A course designed to enhance the development of critical thinking skills and their application to verbal and nonverbal interaction in interpersonal and public communication contexts. A course designed to enhance the development of critical thinking skills and their application to verbal and non- verbal interaction in interpersonal and public communication contexts.
Attributes: Core II Communication Studies
Grade Mode: Normal Grading Mode

CMM 104H Honors in Speech Comm **3 Credit hours**
An accelerated course for selected freshmen and sophomores in fundamentals of communication, concepts and skills in verbal/ nonverbal communication and listening. Not open to juniors and seniors. An accelerated course for selected freshmen and sophomores in fundamentals of communication, concepts and skills in verbal/ nonverbal communication and listening. Not open to juniors and seniors.
Attributes: Core II Communication Studies
Grade Mode: Normal Grading Mode

CMM 201 Communication Foundations (CT) **3 Credit hours**
Develops essential skills in reading and critically analyzing scholarly texts, and in writing academic papers. Develops essential skills in reading and critically analyzing scholarly texts, and in writing academic papers.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

CMM 205 The Rhetorical World (CT) **3 Credit hours**
An introduction to the study of rhetoric as a cultural force influencing human behavior and societies and as a critical approach to interpreting cultural artifacts. An introduction to the study of rhetoric as a cultural force influencing human behavior and societies and as a critical approach to interpreting cultural artifacts.
Attributes: Critical Thinking, Core II Humanities
Grade Mode: Normal Grading Mode

CMM 207 Bus & Prof Communication **3 Credit hours**
A study of the communication demands and skills relevant to the student's future role as a business or professional person. A study of the communication demands and skills relevant to the student's future role as a business or professional person.
Attributes: Core II Communication Studies
Grade Mode: Normal Grading Mode

CMM 213 Fund Interpersonal Com **3 Credit hours**
Introduction to principles and practices related to productive interpersonal communication. Emphasizes competence in using verbal and nonverbal message systems to promote effective communication in social and task relationships.
Attributes: Core II Social Sciences
Grade Mode: Normal Grading Mode

CMM 239 Dev & Appreciation of Film **3 Credit hours**
The historical development of the motion picture as an art form. Analysis of the technical, social, economic and cultural factors which have influenced the medium.
Attributes: Core II Humanities
Grade Mode: Normal Grading Mode

CMM 255 Intro Computer-Comm **3 Credit hours**
Use and implications of telecomputing for messaging, resource finding, and self-directed discovery lerning. Use and implications of telecomputing for messaging, re- source finding, and self-directed discovery lerning.
Attributes: Digital Humanities, Core II Social Sciences
Grade Mode: Normal Grading Mode

CMM 270 Intercollegiate Debate **1 Credit hour**
(PR: Permission of instructor). May be repeated 3 times for credit.
Grade Mode: Normal Grading Mode

CMM 271 Intercollegiate Debate **1 Credit hour**
(PR: Permission of instructor). May be repeated 3 times for credit.
Grade Mode: Normal Grading Mode

CMM 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CMM 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CMM 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CMM 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CMM 298 Itv **1-4 Credit hours**
A course based upon Instructional Television Series broadcast by public television. The student is repsonsible for viewing the series on the air and satisfying all course requirements announced by the department. A course based upon Instructional Television Series broad- cast by public television. The student is repsonsible for viewing the series on the air and satisfying all course re- quirements announced by the department.
Grade Mode: Normal Grading Mode

CMM 302 Professional Presentations **3 Credit hours**
Designed for present and future demands on skilled presenters of information. Included in the teaching of advanced oral presentation skills, computer assisted/ aided presentations, teleconferencing and other presentational skills. Designed for present and future demands on skilled presenters of information. Included in the teaching of advanced oral presentation skills, computer assisted/ aided presentations, teleconferencing and other presentational skills.
Pre-req: CMM 103 with a minimum grade of D or CMM 104H with a minimum grade of D or CMM 207 with a minimum grade of D or YGS 161 with a minimum grade of D or IST 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CMM 303 Intro Communication Thry **3 Credit hours**
Analysis of the process of communication and its constituent elements, with emphasis upon traditional and contemporary theories, their validation, and their use as a tool in diagnosis and remediation of communication problems. Analysis of the process of communication and its constituent elements, with emphasis upon traditional and contemporary theories, their validation, and their use as a tool in diagnosis and remediation of communication problems.
Pre-req: CMM 103 or CMM 104H or CMM 207 or CMM 305 or YGS 161 or IST 101.
Grade Mode: Normal Grading Mode

CMM 307 Political Communication **3 Credit hours**
Investigation of the functions, ethics, responsibilities and social impact of oral communication in periods of social unrest and/or political change. Investigation of the functions, ethics, responsibilities and social impact of oral communication in periods of social unrest and/or political change.
Pre-req: CMM 103 or CMM 104H or CMM 207 or CMM 305 or YGS 161 or IST 101.
Grade Mode: Normal Grading Mode

CMM 308 Persuasive Communication **3 Credit hours**
Introduction to the understanding, practice and analysis of persuasion. Behavioral and rhetorical theories of persuasion will be examined and applied to contemporary persuasive communications. Introduction to the understanding, practice and analysis of persuasion. Behavioral and rhetorical theories of persuas- ion will be examined and applied to contemporary persuasive communications.
Pre-req: CMM 103 with a minimum grade of D or CMM 104H with a minimum grade of D or CMM 207 with a minimum grade of D or YGS 161 with a minimum grade of D or IST 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CMM 310 Argumentation & Debate **3 Credit hours**
Basic principles of agrument; practice in discussion and debate. Recommended but not a prerequisite for intercollegiate debating. Basic principles of agrument; practice in discussion and debate. Recommended but not a prerequisite for inter- collegiate debating.
Pre-req: CMM 103 or CMM 104H or CMM 207 or CMM 305 or YGS 161 or IST 101.
Grade Mode: Normal Grading Mode

CMM 311 Lang & Communication **3 Credit hours**
A method for studying the role which language plays in human affairs. A method for studying the role which language plays in human affairs.
Grade Mode: Normal Grading Mode

CMM 315 Group Communication **3 Credit hours**
Study of group communication processes, including problem solving, systems of group communication analysis and evaluation, in task oriented groups. Study of group communication processes, including problem solving, systems of group communication analysis and evaluation, in task oriented groups.
Pre-req: CMM 103 with a minimum grade of D or CMM 104H with a minimum grade of D or CMM 207 with a minimum grade of D or YGS 161 with a minimum grade of D or IST 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CMM 316 Legal Communication **3 Credit hours**
The theory and practice of legal communication techniques. The course will examine interviewing skills, negotiation skills, argument preparation skills, presentation skills, and cross-examination skills. Recommended for pre-law students. The theory and practice of legal communication techniques. The course will examine interviewing skills, negotiation skills, argument preparation skills, presentation skills, and cross-examination skills. Recommended for pre-law students.
Pre-req: CMM 103 or CMM 104H or CMM 207 or YGS 161 or IST 101.
Grade Mode: Normal Grading Mode

CMM 319 Superior-Subordinate Comm **3 Credit hours**
Survey of principles underlying communication between superiors and subordinates in organizations. Emphasis placed upon communication strategies regarding role definition, performance feedback, development and maintenance of relationships, conflict management, leadership, decisionmaking. Survey of principles underlying communication between superiors and subordinates in organizations. Emphasis placed upon communication strategies regarding role defini- tion, performance feedback, development and maintenance of relationships, conflict management, leadership, decision- making.
Pre-req: CMM 103 with a minimum grade of D or CMM 104H with a minimum grade of D or CMM 207 with a minimum grade of D or YGS 161 with a minimum grade of D or IST 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CMM 320 Oral Interpretation Lit **3 Credit hours**
The fundamentals of reading, analyzing, and interpreting literature. The fundamentals of reading, analyzing, and interpreting literature.
Grade Mode: Normal Grading Mode

CMM 322 Intercultural Communication **3 Credit hours**
A study of the barriers to communication across cultures and of strategies for addressing these problems.
Pre-req: CMM 103 with a minimum grade of D or CMM 104H with a minimum grade of D or CMM 207 with a minimum grade of D or CMM 213 with a minimum grade of D or YGS 161 with a minimum grade of D or IST 101 with a minimum grade of D.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CMM 330 Performance Theory **3 Credit hours**
The study of performance practices that function as enactments of cultural identity. Topics will include performance as a cultural process, performance in social roles, and performance as power.
Pre-req: CMM 103 or CMM 104H or CMM 207.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CMM 345 Listening & Feedback **3 Credit hours**
A study of listening/feedback behavior as an integral part of the communication process, development of listening/ feedback skills, and an awareness of barriers to effective listening and feedback. A study of listening/feedback behavior as an integral part of the communication process, development of listening/ feedback skills, and an awareness of barriers to effective listening and feedback.
Pre-req: CMM 103 or CMM 104H or CMM 207 or YGS 161 or IST 101.
Grade Mode: Normal Grading Mode

CMM 370 Intercollegiate Debate **1 Credit hour**
(PR: Permission of instructor). May be repeated 3 times for credit. Continuation of Speech 270-271.
Grade Mode: Normal Grading Mode

CMM 371 Intercollegiate Debate **1 Credit hour**
(PR: Permission of instructor). May be repeated 3 times for credit. Continuation of Speech 270-271.
Grade Mode: Normal Grading Mode

CMM 374 Intro to Health Communication **3 Credit hours**
Surveys interpersonal, public, and organizational health communication theories and findings; explores the communication demands of health care and promotion, communication issues in health systems, and strategies to resolve problems.
Grade Mode: Normal Grading Mode

CMM 401 Organization Communication **3 Credit hours**
Investigation of information flow in organizations with emphasis on identifying communication problems. Investigation of information flow in organizations with emphasis on identifying communication problems.
Pre-req: CMM 303 (may be taken concurrently).
Concurrent PR: CMM 303
Grade Mode: Normal Grading Mode

CMM 402 Rhetorical Theory **3 Credit hours**
An exploration of theories of rhetoric from the Greek philosophers to the present. This course will examine the strategic use of symbols in persuasive discourse. An exploration of theories of rhetoric from the Greek philosophers to the present. This course will examine the strategic use of symbols in persuasive discourse.
Grade Mode: Normal Grading Mode

CMM 403 Nonverbal Communication **3 Credit hours**
This course will explore the areas and significance of nonverbal communication as they relate to the quality and effectiveness of human interaction in personal, social, and professional relationships. This course will explore the areas and significance of nonverbal communication as they relate to the quality and effectiveness of human interaction in personal, social, and professional relationships.
Pre-req: CMM 103 with a minimum grade of D or CMM 207 with a minimum grade of D or CMM 104H with a minimum grade of D.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CMM 404 Rhetorical Comm Criticism **3 Credit hours**
An examination of the construction of rhetorical texts and the effects they produce.
Grade Mode: Normal Grading Mode

CMM 406 Interviewing **3 Credit hours**
Skill development in the question-answer-response process as it applies to a variety of interviewing situations. Skill development in the question-answer-response process as it applies to a variety of interviewing situations.
Grade Mode: Normal Grading Mode

CMM 408 Leadership & Group Comm **3 Credit hours**
A study of the variable affecting, and affected by, communication process in small groups, with particular emphasis upon leadership variables. A study of the variable affecting, and affected by, communication process in small groups, with particular emphasis upon leadership variables.
Pre-req: CMM 315.
Grade Mode: Normal Grading Mode

CMM 409 Theory Persuasion Change **3 Credit hours**
Study of the relationship between persuasion and social change, including theories of attitude and behavioral change and contemporary theories of persuasion. Study of the relationship between persuasion and social change, including theories of attitude and behavioral change and contemporary theories of persuasion.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

CMM 411 Communication Study & Resch **3 Credit hours**
Introduction to the advanced study of theory and research areas with emphasis on communication research methods and reporting.
Pre-req: CMM 303 (may be taken concurrently).
Concurrent PR: CMM 303
Grade Mode: Normal Grading Mode

CMM 413 Theories of Interpersonal Com **3 Credit hours**
Pre-req: CMM 213.
Grade Mode: Normal Grading Mode

CMM 420 Communication & Conflict **3 Credit hours**
An exploration of the theory, research, and practice of communication in understanding and negotiating interpersonal conflict.
Grade Mode: Normal Grading Mode

CMM 421 Gender and Communication **3 Credit hours**
An exploration of gender as an organizing principle for communication. An exploration of gender as an organizing principle for communication.
Grade Mode: Normal Grading Mode

CMM 441 Dev Appr Film Since 1930 **3 Credit hours**
Study of important directions in modern film, including style, genre, and the relationship to contemporary society. A variety offilms will be viewed for analysis. Study of important directions in modern film, including style, genre, and the relationship to contemporary society. A variety offilms will be viewed for analysis.
Grade Mode: Normal Grading Mode

CMM 450 Direction Speech Activity **3 Credit hours**
Direction of extracurricular speech activities: assemblies, forensic events, etc. Direction of extracurricular speech activities: assemblies, forensic events, etc.
Grade Mode: Normal Grading Mode

CMM 456 Computer-Mediated Comm **3 Credit hours**
This course explores the impact of computer-mediated communication on human organization. This course explores the impact of computer-mediated comm- unication on human organization.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

CMM 474 Interpersonal Health Comm **3 Credit hours**
Investigates communication in establishing effective interactions between health providers, patients, and families. Explores theories and findings in relationship development, decision making, intercultural communication, social support, advocacy, and family relationships. Investigates communication in establishing effective interactions between health providers, patients, and families. Explores theories and findings in relationship development, decision making, intercultural communication, social support, advocacy, and family relationships.
Grade Mode: Normal Grading Mode

CMM 476 Communication Classrm Tch **3 Credit hours**
Knowledge and utilization of interpersonal communication skills in all teaching-learning environments. Knowledge and utilization of interpersonal communication skills in all teaching-learning environments.
Grade Mode: Normal Grading Mode

CMM 478 Senior Seminar **3 Credit hours**
Capstone experience. The development, organization, revision and presentation of major projects that serve to demonstrate the student's competence in the discipline.
Pre-req: CMM 411 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

CMM 479 Public Health Communication **3 Credit hours**
Examines communication processes that influence human behavior and public policy through health promotion campaigns, including theories and practices of health behavior change and designing, implementing, and evaluating health communication interventions.
Grade Mode: Normal Grading Mode

CMM 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CMM 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CMM 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CMM 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CMM 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CMM 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CMM 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CMM 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CMM 490 Internship **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CMM 495H Readings Honors Com Study **4 Credit hours**
Open only to speech majors of outstanding ability. See Honors Courses. Open only to speech majors of outstanding ability. See Honors Courses.
Grade Mode: Normal Grading Mode

Computer & Info Security (CYBR)

- General Education Course

CYBR 210 Comp and Info Sec Principle **3 Credit hours**
Introduction to the various technical and administrative aspects of Computer and Information Security. Understanding key issues associated with protecting information assets, determining the protection needed and response to security incidents.
Pre-req: CS 105 or CS 110 or CS 110H.
Grade Mode: Normal Grading Mode

CYBR 240 Information Security Policies **3 Credit hours**
Introduction to information security policies, sociological and psychological issues in policy implementation in general. Discuss the lifecycle of policy creation, enactment in different domains of security and policy structure.
Pre-req: CS 105 with a minimum grade of D or CS 110 with a minimum grade of D or CS 110H with a minimum grade of D.
Grade Mode: Normal Grading Mode

CYBR 310 Introduction to Cryptography **3 Credit hours**
This course covers the basic aspects of modern crytography, including block ciphers, pseudorandom functions, symmetric encryption, Hash functions, message authentication, number theoretic primitives, public-key encryption, digital signatures and zero knowledge proofs.
Pre-req: CS 210 and (STA 225 or STA 345).
Grade Mode: Normal Grading Mode

CYBR 330 Cyber Security **3 Credit hours**
Concepts and issues in physical and cyber security; technical vulnerabilities found in operating systems, database servers, Web servers, Internet, and local area networks; developing defensive and offensive security measures.
Pre-req: CS 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CYBR 350 Cyber System Administration **3 Credit hours**
Introduction of System Administration and related topics, including trouble-shooting system and network problems, hardware and software configuration and installation, basic scripting, and security aspects of Internet hosts.
Pre-req: CS 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CYBR 360 Cyber Infrastructure Security **3 Credit hours**
Comprehensive analysis on the utilization and augmentation of cyber security technologies to harden cyber infrastructure and its interconnected cyber-physical systems against various attacks.
Pre-req: CS 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CYBR 400 Computer Security Design **3 Credit hours**
Foundation technical and analytical skills to implement comprehensive computer security that encompass designing secure systems, information security, protecting information assets, managing computer security, risk mitigation strategies, and incident response.
Pre-req: CYBR 350.
Grade Mode: Normal Grading Mode

CYBR 435 Cyber Risk **3 Credit hours**
Advanced course on the functions and purposes of the latest development in cyber security techniques and tools used to create, secure, protect and remediate cyber-infrastructures from various cyber threats.
Pre-req: CYBR 330 with a minimum grade of D or CS 330 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CYBR 442 Cyber Operations **3 Credit hours**
Study of various concepts and aspects in choosing, deploying, supporting, troubleshooting and securing various local and distributed components of a cyber operation with consideration of the human factor.
Pre-req: CYBR 350 and CYBR 360.
Grade Mode: Normal Grading Mode

CYBR 475 Internship **3 Credit hours**
An in-depth and hands-on involvement in a real-world project under direct professional supervision. The project my be on-campus or off-campus.
Grade Mode: Normal Grading Mode

CYBR 480 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses.
Grade Mode: Normal Grading Mode

CYBR 481 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses.
Grade Mode: Normal Grading Mode

CYBR 482 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses.
Grade Mode: Normal Grading Mode

CYBR 483 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses.
Grade Mode: Normal Grading Mode

CYBR 484 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses.
Grade Mode: Normal Grading Mode

CYBR 485 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses.
Grade Mode: Normal Grading Mode

CYBR 486 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

CYBR 487 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

CYBR 488 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

CYBR 489 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

CYBR 490 Senior Project **3 Credit hours**
Application of technical and profesional skills in solving a real-world problem in a team environment. Discuss professional code of conduct, societal issues, and transition from student to industry professional.
Pre-req: CYBR 330.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Computer Information Tech (CIT)

- General Education Course

CIT 150 Spreadsheet and Database Apps **3 Credit hours**
Comprehensive coverage of spreadsheets and databases. Includes techniques to collect, manage, and analyze data; solve problems; and effectively communicate results for scientific research. Includes macro development and introduction to scripting.
Grade Mode: Normal Grading Mode

CIT 163 Intro to Programming: C++ **3 Credit hours**
Concepts of software development and maintenance using C++, including syntax of the language, loops, functions, pointers, decision structures, and file processing. Proper program design using object-oriented programming techniques are emphasized.
Grade Mode: Normal Grading Mode

CIT 260 Instrumentation **3 Credit hours**
The course introduces students to modern data gathering methods, laboratory instrumentation, and programming. Focuses range from transportation development, forensics, to environmental issues.
Grade Mode: Normal Grading Mode

CIT 263 Web Programming I **3 Credit hours**
Students will learn techniques for creating advanced documents and programs for the Web using HTML, DHTML, XML, JavaScript, and PHP scripting. Students will also learn how to install and maintain a Web server.
Grade Mode: Normal Grading Mode

CIT 264 Technology Foundations **3 Credit hours**
This course introduces the student to the common hardware and technology that pervades business and society as a whole. Topics include pc's, networks, software, the internet, cellular phones, etc.
Grade Mode: Normal Grading Mode

CIT 265 C# NET Programming **3 Credit hours**
Covers the essentials for developing robust and secure applications using C#, Windows forms, and the .NET framework. Also covers ADO.NET, writing secure .NET applications and web services.
Pre-req: IST 236 or CIT 236 or CS 120.
Grade Mode: Normal Grading Mode

CIT 266 Applied C++ Programming **3 Credit hours**
Designed to teach students intermediate C++ programming through an applied approach with examples and applications. The course extends topics covered in prerequisite courses. Prior programming knowledge in any language required.
Pre-req: CIT 163 with a minimum grade of D or CS 120 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CIT 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 285 Independent Study **1-4 Credit hours**
Independent study for selected freshmen and sophomores under supervision of faculty; may be repeated only once.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 301 Public Service Experience **1 Credit hour**
At least 30 contact hours in a public service/volunteer experience with a group, organization or agency that offers a service to the general public. Advisor permission required.
Grade Mode: Credit/No Credit Grade Only

CIT 313 Web Programming II **3 Credit hours**
The second semester of a two course sequence on Web programming. This course focuses on server-side programming and databases. Topics covered include PHP, mySQL, web services, and security.
Pre-req: CIT 263 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CIT 332 Software Engineering I **3 Credit hours**
Introduction to the industrial process of software systems development. The course covers project management and planning risk management issues; software quality and configuration issues; and processes, methods, and development tools.
Pre-req: CIT 236 or IST 236 or CS 120.
Grade Mode: Normal Grading Mode

CIT 333 Software Engineering II **3 Credit hours**
Second course in a two course sequence. Covers the system development life cycle: requirement analysis and specifications; design methods; system implementation and integration; testing; and reuse issues. Team project participation.
Pre-req: CIT 332 with a minimum grade of D or IST 332 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CIT 340 Game Development I:2D **3 Credit hours**
Covers computer software industry, history and the role of a creative game development team. Students will participate in the game development process, including art, animation, programming, music, sound and writing.
Pre-req: CIT 236 or IST 236 or CS 120.
Grade Mode: Normal Grading Mode

CIT 352 Network Protocols and Admin **3 Credit hours**
This course provides students with knowledge of network terminology, structures, topologies, protocols, and inter-faces involving Local Area and Wide Area networks.
Pre-req: CIT 163 with a minimum grade of D or IST 163 with a minimum grade of D or CS 110 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CIT 365 Database Management **3 Credit hours**
To understand the logical and physical design of data stored and retrieved from a relational database. Exposure to distributed databases, database administration and structured query language will also be done.
Grade Mode: Normal Grading Mode

CIT 410 Electronic Commerce **3 Credit hours**
This course examines electronic commerce. Group decision making and collaborative applications through the Internet. Develop applications that retrieve and store information in distributed databases.
Pre-req: CIT 365 with a minimum grade of D or IST 365 with a minimum grade of D and CIT 313 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 413 iOS Development **3 Credit hours**
Students will learn to develop iOS applications using HTML5/ PhoneGap, Objective-C, and Swift, using Apple and third-party SDKs. Also covers basic concepts for designing intuitive and usable user-interfaces.
Pre-req: CIT 265.
Grade Mode: Normal Grading Mode

CIT 414 Android Development **3 Credit hours**
Students will learn to develop Android applications using Java and the Android SDK. Course covers user interfaces, audio integration, SQLite databases, location services, sensors, and custom graphics.
Pre-req: CIT 265 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 416 Advanced Web Programming **3 Credit hours**
Includes topics in XHTML, JavaScript Data Object Model, dynamic application of CSS rules to page elements, browser's support for XML, object-oriented PHP programming, server side graphics generation, web services.
Pre-req: CIT 365 with a minimum grade of D and CIT 313 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CIT 440 Computer Graphics for Gaming **3 Credit hours**
Fundamental concepts dealing with the display of graphic information on semi-interactive storage tube displays. The course includes techniques for hidden line display, hidden line removal, and two- and three-dimensional transformation.
Pre-req: CIT 236 with a minimum grade of D or IST 236 with a minimum grade of D or CS 120 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CIT 441 Game Development II:3D **3 Credit hours**
Covers state of the art techniques for computer game design and development with an emphasis on the 3D graphics and interaction through practical, example driven approaches of game development.
Pre-req: CIT 340 with a minimum grade of D or IST 360 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 443 Game Development III: AI **3 Credit hours**
Advanced concepts of game development with a focus on artificial intelligence. AI techniques covered including A* path finding algorithm, rule-based reasoning, reinforcement learning, neural networks, genetic algorithm, knowledge representation.
Pre-req: CIT 441 with a minimum grade of D or IST 439 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 446 3D Modeling and Animation **3 Credit hours**
Covers 3D modeling to create environments and character animation. Explores 3D forms within sculpture, architecture, animation and games. Includes development of simplifications, abstractions and hyper-realities for gaming.
Attributes: Digital Humanities, No Textbook Required
Grade Mode: Normal Grading Mode

CIT 447 Modeling/Simulation Dev **3 Credit hours**
Course applies fundamentals of game development to educational games or simulations within a virtual world. Explores virtual worlds, basic scripting/modeling techniques and role-playing simulations to teach any concept.
Pre-req: CIT 441 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CIT 448 Mobile Game Development **3 Credit hours**
Students will work in teams to develop games for mobile devices. Emphasis on mobile development tools, techniques, cross platform development, and standard practices, using open-source software.
Pre-req: CIT 340 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 466 Database Programming **3 Credit hours**
This course teaches students database programming available to relational database systems. Students will work with fourth generation languages to analyze, design and develop, and execute programs in a database environment.
Pre-req: CIT 365 or IST 365.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 470 Internship in CIT **3 Credit hours**
Capstone course in CIT. A professionally supervised internship within the student's area of emphasis in the Computer and Information Technology major. Must be pre-approved before registering.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

CIT 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CIT 485 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

CIT 490 Capstone Project in CIT **3 Credit hours**
Capstone course in CIT. Students will plan, implement, and present a solution to a real-world problem within their emphasis demonstrating their technical and professional skills. Must be pre-approved before registering.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Computer Science (CS)

- General Education Course

CS 101 Coding **1 Credit hour**
This course is designed to expose students to coding with no previous programming experience. The topic covers basic programming with software development methodologies.
Grade Mode: Normal Grading Mode

CS 105 Expl World with Computing (CT) **3 Credit hours**
Central principles and big ideas of computing: problem-solving, computational and critical thinking, abstraction, creativity, reasoning, data, algorithms, recursion, visualization, and limits of computation. Solve real-world problems with computing.
Pre-req: ACT Math with a score of 17 or SAT Verbal Before March 16 with a score of 400 or SAT MATH SECTION SCORE with a score of 440 or Placement Math After SP17 with a score of 101 or MTH 102 with a minimum grade of C or MTH 102B with a minimum grade of C or MTH 127 with a minimum grade of C or MTH 130 with a minimum grade of C or MTH 132 with a minimum grade of C or MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C.
Attributes: Critical Thinking, Digital Humanities
Grade Mode: Normal Grading Mode

CS 110 Computer Science I **3 Credit hours**
Pre-req: ACT Math with a score of 24 or SAT Mathematics Before Mar. 16 with a score of 560 or SAT MATH SECTION SCORE with a score of 580 or MTH 127 or MTH 130 and MTH 132 (may be taken concurrently) or MTH 229 (may be taken concurrently) or MTH 229H (may be taken concurrently).
Concurrent PR: MTH 132 or MTH 229 or MTH 229H
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

CS 110H Computer Science Honors **3 Credit hours**
Object-oriented and algorithmic problem solving principles and techniques; programming with classes in an integrated programming environment; and program debugging.
Pre-req: ACT Math with a score of 24 or SAT Mathematics Before Mar. 16 with a score of 560 or SAT MATH SECTION SCORE with a score of 580 or MTH 127 or MTH 130 and MTH 132 (may be taken concurrently) or MTH 129 (may be taken concurrently) or MTH 129H (may be taken concurrently).
Concurrent PR: MTH 132 or MTH 129 or MTH 129H
Grade Mode: Normal Grading Mode

CS 120 Computer Science II **3 Credit hours**
Object-oriented analysis and design, advanced programming with classes, arrays, strings, sorting, searching, I/O, GUI development, system life cycle and software development methodologies. CR/PR: CS 110
Pre-req: CS 110 with a minimum grade of D or CS 110H with a minimum grade of D.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

CS 205 Scientific Computing **3 Credit hours**
An introduction to computer programming, software design, and algorithm analysis and implementation. Abstract concepts illustrated with examples and exercises drawn from the mathematical and physical sciences. Primarily for non-CS majors.
Pre-req: MTH 140 or MTH 229 (may be taken concurrently) or MTH 229H (may be taken concurrently).
Concurrent PR: MTH 229 or MTH 229H
Grade Mode: Normal Grading Mode

CS 210 Data Structures and Algorithms **3 Credit hours**
Design and implementation of data structures including stacks, queues, lists, trees, heaps, balanced trees, and graphs. Other topics include hasing, threading, data parsing, program testing, correctness, efficiency, and exceptions. Data structures including stacks, queues, lists, trees, graphs, priority queues, and dictionaries.
Pre-req: CS 120 with a minimum grade of D and MTH 220 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: MTH 220
Grade Mode: Normal Grading Mode

CS 215 Adv Data Struct and Algorithms **3 Credit hours**
Advanced techniques for designing and analyzing algorithms, including asymptotic analysis; data structures; divide-and-conquer algorithms and recurrences; greedy algorithms; dynamic programming; graph algorithms; randomized algorithms; and NP-complete problems.
Pre-req: CS 210 with a minimum grade of D and (MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D) and MTH 220 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: MTH 220
Grade Mode: Normal Grading Mode

CS 280 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 281 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 282 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 283 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 300 Programming Languages **3 Credit hours**
Pre-req: CS 210 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 305 Software Engineering **3 Credit hours**
This course provides a broad introduction to software engineering theories, methods, and tools. Requires substantial writing.
Topics include requirements engineering, analysis and design, implementation, versioning, and testing. This course provides a broad introduction to software engineering theories, methods, and tools. Requires substantial writing. Topics include requirements engineering, analysis and design, implementation, versioning, and testing.
Pre-req: MTH 220 and CS 210 and ENG 354 (may be taken concurrently).
Concurrent PR: ENG 354
Grade Mode: Normal Grading Mode

CS 310 Software Engineering II **3 Credit hours**
Pre-req: CS 305 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 315 Software Quality Assurance **3 Credit hours**
Testing techniques and validation of system requirements. Design reviews and code inspections; unit, integration, system, regression, load, stress, user acceptance, and regression testing; statistical testing; test strategies and project metrics.
Pre-req: CS 310 and MTH 345.
Grade Mode: Normal Grading Mode

CS 320 Internetworking **3 Credit hours**
Principles and issues in interconnecting multiple physical networks into a coordinated system, operation of internet protocols in the interconnected environment, and design of applications to operate in this environment.
Pre-req: CS 210 and (MTH 229 or MTH 229H).
Grade Mode: Normal Grading Mode

CS 330 Operating Systems **3 Credit hours**
Modern operating systems design and implementation: multi-tasking and time sharing, concurency and synchronization, interprocess communication, resource scheduling, memory management, deadlocks, I/O, file systems, and security.
Pre-req: CS 210.
Grade Mode: Normal Grading Mode

CS 351 Computer Sciences Co-Op **0 Credit hours**
A supervised experience in which the student works for a company to gain practical experience in a students major.
Pre-req: ENGR 217 with a minimum grade of D.
Grade Mode: Credit/No Credit Grade Only

CS 360 Automata and Formal Languages **3 Credit hours**
Basic theoretical concepts are introduced, including finite state automata, regular expressions, context-free grammars, pushdown automata, Turing machines, recursively enumerable languages, the halting problem, and the Church-Turing thesis. Basic theoretical concepts are introduced, including finite state automata, regular expressions, context-free grammars, pushdown automata, Turing machines, recursively enumerable languages, the halting problem, and the Church-Turing thesis.
Pre-req: MTH 220 and CS 210.
Grade Mode: Normal Grading Mode

CS 370 Computer Graphics **3 Credit hours**
Mathematical theory and practical tools and techniques for generating realistic pictures using computers. This is a project-centered course and involves extensive programming using the open GL standard.
Pre-req: CS 210 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 402 Computer Architecture **3 Credit hours**
Design and analyze structure of major hardware components of computers including: ALU, instruction sets, memory hierarchy, parallelism through multicore and many core, storage systems and interfaces.
Pre-req: CS 300 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 404 High Performance Computing **3 Credit hours**
Software design and development targeting high performance computing architectures. Multi-core and many-core systems: I/O, file systems, performance metrics. Programming models include MPI, OpenMP, MapReduce, CUDA, OpenCL.
Pre-req: CS 402.
Grade Mode: Normal Grading Mode

CS 405 Computing for Bioinformatics **3 Credit hours**
Study of computational algorithms and programming techniques for various bioinformatics tasks including parsing DNA files, sequence alignments, tree construction, clustering, species identification, principal component analysis, correlations, and gene expression arrays.
Pre-req: CS 215.
Grade Mode: Normal Grading Mode

CS 410 Database Engineering **3 Credit hours**
Study of data models, data description languages, query languages including relational algebra and SQL, logical and physical database design, transactions, backup and recovery. Design and implementation of a database application.
Pre-req: CS 210 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 412 Embedded Systems **3 Credit hours**
The design of systems containing embedded computers. Micro-controller technology, assembly language and C programming, input/output interfacing, data acquisition hardware, interrupts, and timing. Real-time operating systems and application programming. Application examples.
Pre-req: CS 402 with a minimum grade of D or EE 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 415 Data Mining **3 Credit hours**
Covers (1) the process of knowledge discovery, (2) algorithms (association rules, classification, and clustering), and (3) real-world applications. Focuses on efficient data mining algorithms and scaling up data mining methods.
Pre-req: CS 215 and CS 410.
Grade Mode: Normal Grading Mode

CS 425 Computational Intelligence **3 Credit hours**
Genetic algorithms, evolutionary strategies, and genetic programming. Methods of knowledge representation using rough sets, type-1 fuzzy sets, and type-2 fuzzy sets. Neural network architectures and their learning algorithms. Genetic algorithms, evolutionary strategies, and genetic programming. Methods of knowledge representation using rough sets, type-1 fuzzy sets, and type-2 fuzzy sets. Neural network architectures and their learning algorithms.
Pre-req: CS 300.
Grade Mode: Normal Grading Mode

CS 430 Cyber Security **3 Credit hours**
Concepts and issues in physical and cyber security; technological vulnerabilities found in operating systems, database servers, web servers, internet, and local area networks; developing defensive and offensive security measures.
Pre-req: CS 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 435 Cyber Risk **3 Credit hours**
Advanced course on the functions and purposes of the latest development in cyber security techniques and tools used to create, secure, protect and remediate cyber-infrastructures from various cyber threats.
Pre-req: CS 430 with a minimum grade of D or CS 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CS 440 Digital Image Processing **3 Credit hours**
Mathematical techniques, algorithms, and software tools for image sampling, quantization, coding and compression, enhancement, reconstruction, and analysis.
Pre-req: CS 210 and MTH 329.
Grade Mode: Normal Grading Mode

CS 452 Natural Language Processing **3 Credit hours**
Fundamental algorithms and computational models for core tasks in natural language processing: word and sentence tokenization, parsing, information and meaning extraction, spelling correction, text summarization, question answering, and sentiment analysis.
Pre-req: (CS 215 and MTH 220).
Grade Mode: Normal Grading Mode

CS 455 Systems Engineering **3 Credit hours**
Tools and techniques for optimizing the design and construction of software-intensive systems by considering system issues and making engineering tradeoffs in conflicting criteria and interacting decision parameters.
Pre-req: CS 330 and CS 340 and CS 350.
Grade Mode: Normal Grading Mode

CS 475 Internship **3-12 Credit hours**
An in-depth and hands-on involvement in a real-world project under direct professional supervision. The project may be on-campus or off-campus. Requires prior apporval of the internship director, who is a member of the computer science faculty.
Pre-req: CS 300 with a minimum grade of D or CS 215 with a minimum grade of D.
Grade Mode: Credit/No Credit Grade Only

CS 480 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 481 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 482 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 483 Special Topics **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 485 Independent Study **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 486 Independent Study **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 487 Independent Study **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE.
Grade Mode: Normal Grading Mode

CS 488 Independent Study **1-4 Credit hours**
EMERGING TOPICS IN COMPUTER SCIENCE
Grade Mode: Normal Grading Mode

CS 490 Senior Project **3 Credit hours**
Application of technical and professional skills in solving a real-world problem in a team environment. Discuss professional code of conduct, societal issues, and transition from student to industry professional.
Pre-req: CS 310 with a minimum grade of D and CS 410 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

CS 491 Senior Project II **3 Credit hours**
Senior capstone experience. Application of technical and professional skills in constructing and testing a real-world problem in a team environment.
Pre-req: CS 490.
Grade Mode: Normal Grading Mode

Counseling (COUN)

COUN 263 AIDS Awareness **1 Credit hour**
Course designed to increase awareness of Human Immunodeficiency Virus and Acquired Immune Deficiency Syndrome, including: the virus,psycho social aspects, legal and religious issues, prevention, treatment. Course designed to increase awareness of Human Immunode- ficiency Virus and Acquired Immune Deficiency Syndrome, including: the virus,psycho social aspects, legal and religious issues, prevention, treatment.
Grade Mode: Normal Grading Mode

COUN 264 Group Guid Resident Setting I **1 Credit hour**
A Counselor Leadership training course focusing on basic peer helper and leadership skills. Specific areas include an overview of theory and concerns for college students living in residence halls. (PR: Permission) A Counselor Leadership training course focusing on basic peer helper and leadership skills. Specific areas include an overview of theory and concerns for college students living in residence halls. (PR: Permission)
Grade Mode: Normal Grading Mode

COUN 425 Counseling Theory & Tech **3 Credit hours**
Principles and practices of the interviewing relationship in helping service settings. Principles and practices of the interviewing relationship in helping service settings.
Pre-req: (CR 306 or COUN 306) and (CR 370 or COUN 370).
Co-req: COUN 470
Grade Mode: Normal Grading Mode

COUN 430 Case Devel Process/Manage **3 Credit hours**
Study of systematic development of casework to include case finding, follow-up provision of services, case recording and time management. Study of systematic development of casework to include case finding, follow-up provision of services, case recording and time management.
Pre-req: (CR 306 or COUN 306) and (CR 370 or COUN 370).
Grade Mode: Normal Grading Mode

COUN 455 Crisis Inter & Conf Res **3 Credit hours**
This course is directed to anyone who at some time has felt inadequate in responding effectively to people in crisis. Topics will include situational and developmental crisis. This course is directed to anyone who at some time has felt inadequate in responding effectively to people in crisis. Topics will include situational and developmental crisis.
Grade Mode: Normal Grading Mode

COUN 456 Death & Grief Coun **3 Credit hours**
Includes three areas of emphasis: To enable the student to come to grips with personal attitudes toward death and dying; to explore attitudes of society toward death; and to develop skills in managing the crisis of death terminal illness and bereavement. Includes three areas of emphasis: To enable the student to come to grips with personal attitudes toward death and dying; to explore attitudes of society toward death; and to develop skills in managing the crisis of death terminal illness and bereavement.
Grade Mode: Normal Grading Mode

COUN 461 Staff Development **1-4 Credit hours**
Attributes: Not Degree Applicable
Grade Mode: Credit/No Credit Grade Only

COUN 470 Adv Practicum Counseling **3 Credit hours**
Practical expriences in counseling interviews under professional supervision. Practical expriences in counseling interviews under professional supervision.
Pre-req: (CR 306 or COUN 306) and (CR 370 or COUN 370).
Co-req: COUN 425
Grade Mode: Normal Grading Mode

COUN 476 Counseling with Parents **3 Credit hours**
Consideration of effective parent counseling primarily from an Adlerian point of view. Techniques for counselor intervention via lecture demonstration and laboratory experiences. Consideration of effective parent counseling primarily from an Adlerian point of view. Techniques for counselor inter- vention via lecture demonstration and laboratory experi- ences.
Pre-req: (CR 370 or COUN 370) and (CR 306 or COUN 306).
Grade Mode: Normal Grading Mode

COUN 477 Stress Management Couns **3 Credit hours**
Provides beginning counselors and others with comprehensive information and strategies for successful management of stress and its consequences. Students explore theoretical and practical alternatives in counseling the stressed individual. Provides beginning counselors and others with comprehensive information and strategies for successful management of stress and its consequences. Students explore theoretical and practical alternatives in counseling the stressed individual.
Grade Mode: Normal Grading Mode

COUN 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

COUN 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

COUN 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

COUN 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

COUN 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

COUN 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

COUN 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

COUN 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

COUN 490 Counseling Internship **6-12 Credit hours**
This is a capstone and field experience that requires 200 hours of field placement along with a weekly on-campus seminar. This course is offered CR/NC. This is a capstone and field experience that requires 200 hours of field placement along with a weekly on-campus seminar. This course is offered CR/NC.
Pre-req: (CR 425 or COUN 425) and (CR 430 or COUN 430) and (CR 470 or COUN 470).
Grade Mode: Credit/No Credit Grade Only

COUN 494 Counseling Workshop **1-4 Credit hours**
A practical, participatory course designed for advanced students and professionals in the counseling field or related areas. A practical, participatory course designed for advanced students and professionals in the counseling field or related areas.
Grade Mode: Normal Grading Mode

Criminal Justice (CJ)

- General Education Course

CJ 200 Intro to Criminal Justice **3 Credit hours**
This survey course examines the various components of the criminal justice system, including law enforcement, courts, and corrections. Students will be introduced to various criminal justice agencies and career possibilities. This survey course examines the various components of the criminal justice system, including law enforcement, courts, and corrections. Students will be introduced to various criminal justice agencies and career possibilities.
Attributes: Core II Social Sciences
Grade Mode: Normal Grading Mode

CJ 211 Intro to Law Enforcement **3 Credit hours**
Designed to examine the philosophical and historical background of law enforcement in the United States. Addresses constitutional limitations on law enforcement, objectives of law enforcement, and processes of law enforcement. Designed to examine the philosophical and historical background of law enforcement in the United States. Addresses constitutional limitations on law enforcement, objectives of law enforcement, and processes of law enforcement.
Attributes: Core II Social Sciences
Grade Mode: Normal Grading Mode

CJ 221 Intro to Criminal Courts **3 Credit hours**
This course addresses the evolution of current functioning of the American criminal court system. Students are exposed to court administration, court procedures, and the state and federal court system. This course addresses the evolution of current functioning of the American criminal court system. Students are exposed to court administration, court procedures, and the state and federal court system.
Attributes: Core II Social Sciences
Grade Mode: Normal Grading Mode

CJ 223 Introduction to Legal Research **3 Credit hours**
An introduction to the processes and strategies involved in legal research. Students will develop an understanding of the sources of legal information and judgment in selecting appropriate sources and formats for specific projects.
Grade Mode: Normal Grading Mode

CJ 231 Intro to Corrections **3 Credit hours**
A survey of the historical development of the systems of punishment and rehabilitation. Analysis of the reasons for incarceration of offenders. A survey of the historical development of the systems of punishment and rehabilitation. Analysis of the reasons for incarceration of offenders.
Attributes: Core II Social Sciences
Grade Mode: Normal Grading Mode

CJ 280 Special Topics **1-4 Credit hours**
Lower level specialized courses of contemporary interest. Lower level specialized courses of contemporary interest.
Grade Mode: Normal Grading Mode

CJ 281 Special Topics **1-4 Credit hours**
Lower level specialized courses of contemporary interest. Lower level specialized courses of contemporary interest.
Grade Mode: Normal Grading Mode

CJ 282 Special Topics **1-4 Credit hours**
Lower level specialized courses of contemporary interest. Lower level specialized courses of contemporary interest.
Grade Mode: Normal Grading Mode

CJ 283 Special Topics **1-4 Credit hours**
Lower level specialized courses of contemporary interest. Lower level specialized courses of contemporary interest.
Grade Mode: Normal Grading Mode

CJ 300 Admin of Criminal Justice **3 Credit hours**
This course provides an analysis of the theories of organization and the administration of criminal justice agencies, including management styles, techniques of leadership, and decision-making.
Pre-req: CJ 200.
Grade Mode: Normal Grading Mode

CJ 302 CJ Research Methods **3 Credit hours**
Logic of social research methods, survey research, methods of evaluation, sampling, and the contrast between qualitative and quantitative CJ research.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 314 Crime Scene & Investigations **3 Credit hours**
This course exposes students to crime scene processing techniques and technology, criminal investigation procedures, sources of information, interrogation, victim and witness interviewing, legal issues in criminal investigations.
Pre-req: CJ 211 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 322 Criminal Law **3 Credit hours**
History and development of criminal law, elements of a crime; parties to a crime, types of offenses. History and development of criminal law, elements of a crime; parties to a crime, types of offenses.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 323 Criminal Procedure **3 Credit hours**
Admissibility of evidence and confessions, recent civil rights decisions, reconciling individual rights and community interest in law and order. Admissibility of evidence and confessions, recent civil rights decisions, reconciling individual rights and community interest in law and order.
Pre-req: CJ 200.
Attributes: Social Sciences
Grade Mode: Normal Grading Mode

CJ 325 Juvenile Justice **3 Credit hours**
A survey of the process--the police, the courts, and corrections--through which the juvenile delinquent passes. A survey of the process--the police, the courts, and corrections--through which the juvenile delinquent passes.
Pre-req: CJ 200 with a minimum grade of D.
Attributes: Social Sciences
Grade Mode: Normal Grading Mode

CJ 331 Probation & Parole **3 Credit hours**
Organization of systems of after-care treatment of juvenile and adult offenders released under probation and parole. Organization of systems of after-care treatment of juvenile and adult offenders released under probation and parole.
Pre-req: CJ 231 with a minimum grade of D.
Attributes: Social Sciences
Grade Mode: Normal Grading Mode

CJ 332 Correctional Rehab **3 Credit hours**
Examines the theories, treatment strategies and the role of the correctional counselor. Special emphasis is given to the topics of classification, development of treatment plans and principles of effective intervention. Examines the theories, treatment strategies and the role of the correctional counselor. Special emphasis is given to the topics of classification, development of treatment plans and principles of effective intervention.
Pre-req: CJ 231 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 340 Drugs and Crime **3 Credit hours**
Examines the history and consequences of mind-altering drugs, and criminal behavior as it is affected by drugs, the legal response to substance abuse, treatment and prevention of substance abuse.
Grade Mode: Normal Grading Mode

CJ 341 Victims of Crime **3 Credit hours**
Examines victims of crime, the process and consequences of victimization. Also covered are victims' rights and services available for victims and victim compensation.
Grade Mode: Normal Grading Mode

CJ 400 Applied Ethics in CJ **3 Credit hours**
Examines ethical issues and moral dilemmas faced by criminal justice professionals. Traditional ethical theories and practices designed to foster public trust in the criminal justice system are examined and applied.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 403 Understanding Cybercrime **3 Credit hours**
Examination of hacking, piracy, cyber stalking, cyber bullying, identity theft, and other cybercrimes through the lens of various criminological theories with an emphasis on research methodology and criminal justice policy.
Grade Mode: Normal Grading Mode

CJ 404 Theoretical Criminology **3 Credit hours**
A critical analysis of the major criminological theories and their empirical foundations. Current theory and research receive greater emphasis than historical development.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 405 Women & the CJS **3 Credit hours**
Examines factors surrounding women and the criminal justice system from a theoretical and practical perspective. Explores feminist ideologies, plus women as victims, offenders, and professionals in the justice system.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 406 Race, Ethnicity, Class & Crime **3 Credit hours**
Examines the impact and relationship of race, ethnicity, and social class within the criminal justice system.
Pre-req: CJ 200.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CJ 410 Police Administration **3 Credit hours**
Functins and activities of police agencies. Police department organizations, responsibilities of upper level administrators. Current administrative experimentation on law enforcement agencies. Functins and activities of police agencies. Police depart- ment organizations, responsibilities of upper level administrators. Current administrative experimentation on law enforcement agencies.
Pre-req: CJ 211.
Grade Mode: Normal Grading Mode

CJ 415 Rural Criminology **3 Credit hours**
Critical analysis of rural crime and the criminological sub-field of rural criminology. Examines the economic, racial, and cultural conditions in rural America which reproduce exploitive economies and overall destructive behaviors.
Grade Mode: Normal Grading Mode

CJ 416 Terrorism **3 Credit hours**
Provides students with a working knowledge of the history of terrorism, the current status of terrorist groups, terrorism tactics, and methods to counteract terrorism.
Grade Mode: Normal Grading Mode

CJ 417 CJ Decision Making **3 Credit hours**
Focuses on theories of criminal justice decision-making and decision points across the criminal justice system. Topics include the decision to report crime, police decisions, jury decisions, and sentencing decisions.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 418 Crime and Pop Culture **3 Credit hours**
A critical examination of the popular cutlure presentation of crime, offenders, victims, and the criminal justice process.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 420 Homeland Security **3 Credit hours**
This course takes a comprehensive approach to studying the facets of homeland security, the complexity of homeland security and terrorism, defeating terrorists, and Homeland Security's response to terrorist threats.
Grade Mode: Normal Grading Mode

CJ 422 Law of Evidence **3 Credit hours**
Leading rules and principles of exclusion and selection; burden of proof, nature and effect of presumptions; proof of authenticity and contents of writings; examinations, compentency and privilege of witnesses. Leading rules and principles of exclusion and selection; burden of proof, nature and effect of presumptions; proof of authenticity and contents of writings; examinations, compentency and privilege of witnesses.
Pre-req: CJ 200.
Grade Mode: Normal Grading Mode

CJ 424 Computer Crime **3 Credit hours**
Students will identify and define criminal acts committed with computers or directed toward computer systems, electronic search and seizure and electronic evidence.
Grade Mode: Normal Grading Mode

CJ 426 Civil Liability Issues CJ **3 Credit hours**
This course examines various theories of civil liability that relate to Criminal Justice professionals, the civil justice system, and preventing and defending civil liability claims.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 433 Correctional Administration **3 Credit hours**
Objectives of correctional institutions; records; personnel, program development, security; educational programs. Objectives of correctional institutions; records; personnel, program development, security; educational programs.
Pre-req: CJ 231.
Grade Mode: Normal Grading Mode

CJ 440 CJ Response to Dom Violence **3 Credit hours**
This course focuses on the legal response to child abuse, domestic violence, and elder abuse. Examines dynamics of abusive relationships, the effects of victimization, and current research on these issues.
Grade Mode: Normal Grading Mode

CJ 450 Business & Industrial Security **3 Credit hours**
Selection, training, and staffing of a security force; security devices available; techniques of internal security; ground security; security techniques applicable to personnel selection; legal problems. CJ majors only.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 453 Seminar in Crime Prevention **3 Credit hours**
This course examines theory, operation, and evaluation of crime prevention as a function of the criminal justice system. Techniques for crime prevention are analyzed from various orientations, including environmental design.
Pre-req: CJ 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CJ 460 Miscarriages of Justice **3 Credit hours**
This course provides a critical examination of the processes and procedures used by police, prosecutors, defense attorneys, judges, and corrections agents which may potentially produce errors or "miscarriages" of justice.
Pre-req: CJ 200.
Grade Mode: Normal Grading Mode

CJ 480 Special Topics **1-4 Credit hours**
A study of special interest criminal justice topics under the supervision of a qualified faculty member. A study of special interest criminal justice topics under the supervision of a qualified faculty member.
Grade Mode: Normal Grading Mode

CJ 481 Special Topics **1-4 Credit hours**
A study of special interest criminal justice topics under the supervision of a qualified faculty member. A study of special interest criminal justice topics under the supervision of a qualified faculty member.
Grade Mode: Normal Grading Mode

CJ 482 Special Topics **1-4 Credit hours**
A study of special interest criminal justice topics under the supervision of a qualified faculty member. A study of special interest criminal justice topics under the supervision of a qualified faculty member.
Grade Mode: Normal Grading Mode

CJ 483 Special Topics **1-4 Credit hours**
A study of special interest criminal justice topics under the supervision of a qualified faculty member. A study of special interest criminal justice topics under the supervision of a qualified faculty member.
Grade Mode: Normal Grading Mode

CJ 485 Independent Study **1-4 Credit hours**
This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course. This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course.
Grade Mode: Normal Grading Mode

CJ 486 Independent Study **1-4 Credit hours**
This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course. This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course.
Grade Mode: Normal Grading Mode

CJ 487 Independent Study **1-4 Credit hours**
This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course. This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course.
Grade Mode: Normal Grading Mode

CJ 488 Independent Study **1-4 Credit hours**
This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course. This course permits the student to undertake supervised research (field or library) in any area where there is no appropriate course.
Grade Mode: Normal Grading Mode

CJ 490 Internship **1-6 Credit hours**
The placement of an individual into a criminal justice ageny (police, probation, courts, jails) to observe and participate in its operation. Grading is CR/NC only. The placement of an individual into a criminal justice ageny (police, probation, courts, jails) to observe and participate in its operation. Grading is CR/NC only.
Grade Mode: Credit/No Credit Grade Only

CJ 492 Senior Seminar **3 Credit hours**
Capstone course. Integrates and applies material learned in the program of study. Serves as a culminating experience in which students demonstrate what they have learned in the classroom.
Pre-req: (CJ 200 with a minimum grade of D and CJ 302 with a minimum grade of D and CJ 404 with a minimum grade of D).
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Curr Inst Special Ed (CISP)

- General Education Course

CISP 101 American Sign Language I **3 Credit hours**
This is the first of 4 courses in American Sign Language. This course emphasizes the learning of basic survival conversational signing skills, including use of all ASL grammatical structures.
Grade Mode: Normal Grading Mode

CISP 102 American Sign Language II **3 Credit hours**
This is the second of 4 courses in American Sign Language. This course emphasizes the learning of intermediate conversational signing skills, including use of all ASL grammatical structures.
Pre-req: CISP 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CISP 203 American Sign Language III **3 Credit hours**
This is the third of 4 courses in American Sign Language. This course emphasizes the learning of advanced conversational signing skills, including use of all ASL grammatical structures.
Pre-req: CISP 101 with a minimum grade of D and CISP 102 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CISP 204 American Sign Language IV **3 Credit hours**
This is the fourth of 4 courses in American Sign Language. This course emphasizes the learning of complex conversational signing skills, including use of all ASL grammatical structures.
Pre-req: CISP 101 with a minimum grade of D and CISP 102 with a minimum grade of D and CISP 203 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CISP 320 Survey Exceptional Child **3 Credit hours**
An introduction to the study of children who deviate from the average in mental, physical, and emotional characteristics, including a study of the characteristics of such children and the adaptation of educational procedures to their abilities and disabilities.
Pre-req: CISP 420 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: CISP 420
Grade Mode: Normal Grading Mode

CISP 420 Survey Except Child II **3 Credit hours**
Examination of procedures needed for implementation of the Resource Room model for mildly handicapped children. The course includes a review of the Mainstreaming movement, interpersonal relations, and skills necessary for maintaining the resource room.
Pre-req: CISP 320 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: CISP 320
Grade Mode: Normal Grading Mode

CISP 421 Child with Exceptionalities **3 Credit hours**
Behavioral characteristics of children with exceptional development, dynamics of family- community interaction, and attitudes towards exceptional conditions. Implications for amelioration and educational planning.
Grade Mode: Normal Grading Mode

CISP 422 Differentiate Instruction **3 Credit hours**
Research-based strategies for providing differentiated instruction to students with diverse learning, social, and behavioral needs who are being educated in inclusive settings.
Pre-req: CISP 421 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CISP 423 Sp Ed Learning Disability **3 Credit hours**
Grade Mode: Normal Grading Mode

CISP 424 Sp Ed Emotional Disturb **3 Credit hours**
Grade Mode: Normal Grading Mode

CISP 427 Introduction to Autism **3 Credit hours**
This course is designed to survey current issues in education and the treatment of students with autism spectrum disorder (ASD).
Grade Mode: Normal Grading Mode

CISP 428 Special Needs in Erly Child Ed **3 Credit hours**
Emphasis will be given to enhancing the success of diverse learners through intervention strategies, family involvement and interdisciplinary service delivery. Emphasis will be given to enhancing the success of diverse learners through intervention strategies, family involvement and interdisciplinary service delivery.
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 421 with a minimum grade of C or (CISP 320 with a minimum grade of C and CISP 420 with a minimum grade of C).
Grade Mode: Normal Grading Mode

CISP 429 Intro Developmental Disability **3 Credit hours**
Introduction to the characteristics and needs of young children with developmental disabilities addressing the physical, neurological, health , and environmental problems that impact atypical growth and development (PR: CISP 320, CR: Field Experience)
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 420 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CISP 433 Intro Intellect Disabilities **3 Credit hours**
Characteristics and needs of individuals with intellectual disabilites. Current research, etiologic factors and the impact of intellectual disabilities on education are emphasized. Includes a field experience. (PR: CISP 320)
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 420.
Grade Mode: Normal Grading Mode

CISP 434 Sp Ed St Tch Phys Handicap **4-6 Credit hours**
Grade Mode: Credit/No Credit Grade Only

CISP 435 Gen Spec Ed Programming **3 Credit hours**
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 420.
Grade Mode: Normal Grading Mode

CISP 438 Char/Behav Mild/Mod Disability **3 Credit hours**
An introduction to positive behavior supports at the school, classroom, and individual level to improve student behavior and academic engagement.
Pre-req: CISP 320 and CISP 420.
Grade Mode: Normal Grading Mode

CISP 439 Assessment in Sp Ed **3 Credit hours**
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 420.
Grade Mode: Normal Grading Mode

CISP 440 Stu Teach Multicategorical **4-6 Credit hours**
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CISP 445 Intervent Preschool Sp Ed **3 Credit hours**
Curriculum development and methodology used to teach young children with special needs. Integration, program development, management, material and equipment adaptation are emphasized.
Pre-req: CISP 428 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CISP 453 Curr Methods Mild to Moderate **3 Credit hours**
Principals and current trends in curriculum development and teaching methodology for individuals with mild to moderate disabilities are reviewed and evaluated (PR: CISP 320, CISP 420)
Pre-req: Admitted to Teacher ED with a score of 4 and CISP 320.
Grade Mode: Normal Grading Mode

CISP 454 Families of Except Students **3 Credit hours**
Principles and information designed to give the student an understanding of the needs and rights of families of exceptional children and techniques to involve families successfully in their children's education.
Grade Mode: Normal Grading Mode

CISP 455 Field Exp Preschool Sp Ed **3 Credit hours**
Supervised participation and directed teaching activities in a preschool special education program.
Pre-req: CISP 445 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CISP 461 Staff Development **1-4 Credit hours**
Attributes: Not Degree Applicable
Grade Mode: Credit/No Credit Grade Only

CISP 462 Staff Development **1-4 Credit hours**
Attributes: Not Degree Applicable
Grade Mode: Credit/No Credit Grade Only

CISP 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

Curriculum & Instruction (CI)

- General Education Course

CI 100 Critical Thinking in Educ (CT) **3 Credit hours**
An introduction to the critical thinking skills in education, an orientation of the teaching profession, and an overview of the historical, sociological, multicultural, and philosophical issues affecting schools and teachers. An introduction to the critical thinking skills in education, an orientation of the teaching profession, and an overview of the historical, sociological, multicultural, and philosophical issues affecting schools and teachers.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

CI 101 Math for Elem Teachers I **3 Credit hours**
The study of the foundations of elementary mathematics including numeration systems, number theory, and consumer mathematics with emphasis on problem solving and teaching strategies.
Pre-req: MTH 130 with a minimum grade of D or MTH 130H with a minimum grade of D or MTH 127 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CI 102 Intro Comp in Classroom **1 Credit hour**
The introduction of selection and evaluation techniques of computer courseware and hardware for classrooms K-12 with consideration for CAI, CMI and specific skills for K-12 students. The introduction of selection and evaluation techniques of computer courseware and hardware for classrooms K-12 with consideration for CAI, CMI and specific skills for K-12 students.
Grade Mode: Normal Grading Mode

CI 201 Math for Elem Teachers II **3 Credit hours**
Study of elementary mathematics including structure of the real number system, statistics, probability, informal and transformational geometry, and basic algebraic operations with emphasis on problem solving and teaching strategies. Study of elementary mathematics including structure of the real number system, statistics, probability, informal and transformational geometry, and basic algebraic operations with emphasis on problem solving and teaching strategies.
Pre-req: CI 101 with a minimum grade of C and (MTH 127 with a minimum grade of D or MTH 130 with a minimum grade of D).
Grade Mode: Normal Grading Mode

CI 248 Intro to Science Elem Ed **4 Credit hours**
Introduction to teaching science in elementary schools emphasizing inquiry-based science and engineering practices utilizing effective research-based teaching strategies including seminars, discussions and investigations.
Pre-req: MTH 127 with a minimum grade of D or MTH 130 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CI 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

CI 298 Itv **1-4 Credit hours**
A course based upon an Instructional Television Series broadcast by public television. The student is responsible for viewing the series on the air and satisfying all course requirements announced by the division. A course based upon an Instructional Television Series broadcast by public television. The student is responsible for viewing the series on the air and satisfying all course requirements announced by the division.
Grade Mode: Normal Grading Mode

CI 301 Teach Elem/Middle Mathematics **3 Credit hours**
This course is an investigation of techniques and approaches to helping children learn mathematics with special emphasis on the use of manipulative materials in a laboratory setting.
Pre-req: CI 201 with a minimum grade of C and Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 321 ECE Curr and Methods **3 Credit hours**
Study of factors shaping curriculum and exploration and assessment of appropriate curriculum for young children in transition from pre-operational to concrete operational stages of development. Field experience included. Study of factors shaping curriculum and exploration and assessment of appropriate curriculum for young children in transition from pre-operational to concrete operational stages of development. Field experience included.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 342 Lit & Lang Arts Methods **3 Credit hours**
A study of literary genres' characteristics and implementation within the elementary classroom, with emphasis on methods of presentation and a review of English grammar and language.
Grade Mode: Normal Grading Mode

CI 343 The Process of Reading Part I **3 Credit hours**
Study of modern techniques and practices in the teaching and assessment of reading and language arts: Part 1
Pre-req: CI 342 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CI 345 Crit Read Writ & Think **3 Credit hours**
This course examines strategies for learning from text, studying different types of textual material, monitoring learning, and integrating oral and written discourse. This course examines strategies for learning from text, studying different types of textual material, monitoring learning, and integrating oral and written discourse.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 348 Phy Sci & Engr for Elem Ed **4 Credit hours**
General elementary education course with emphasis on Next Generation Science standards, methods, and content for Physical Science and Engineering practices.
Pre-req: MTH 130 with a minimum grade of D or MTH 127 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CI 350 Inst Tech & Computing **3 Credit hours**
Critical examination and skill development using commercial, non-commercial, and computer generated media. Emphasis will be placed on its application to teaching and learning.
Grade Mode: Normal Grading Mode

CI 360 Social Studies Methods Elem **3 Credit hours**
An introduction to materials and methods for teaching social studies in the elementary school including goals, processes, strategies, and evaluation. An introduction to materials and methods for teaching social studies in the elementary school - including goals, pro- cesses, strategies, and evaluation.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 367 Org for Inst in ECE **3 Credit hours**
An overview of the development of early childhood education related research, pre-primary program models, elementary school organizational patterns, program planning and techniques of working with parents. An overview of the development of early childhood educa- tion related research, pre-primary program models, elementary school organizational patterns, program planning and techniques of working with parents.
Grade Mode: Normal Grading Mode

CI 401 Middle Childhood Curric **3 Credit hours**
Study of procedures for creating a functional middle childhood curriculum with emphasis upon the needs of transecents. Study of procedures for creating a functional middle child- hood curriculum with emphasis upon the needs of transecents.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 402 Teach Mid Child Learners **3 Credit hours**
The study of methods appropriate for teaching in the middle childhood grades and the production and utilization of materials and resources based upon the needs of middle childhood learners.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 403 Meth Teach Mid Child Grd **3 Credit hours**
Study of methods appropriate for teaching in the middle childhood grades, and production and utilization of materials and resources in these grades. Middle school clinical experience is required.
Pre-req: Admitted to Teacher ED with a score of 4 and CI 401 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CI 405 Student Teaching-Elem Ed **4-12 Credit hours**
All-day teaching under supervision in cooperating schools; periodic seminars, conducted by University faculty, accompany student teaching. All-day teaching under supervision in cooperating schools; periodic seminars, conducted by University faculty, accompany student teaching.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 406 Student Teaching II Elem Ed **4-6 Credit hours**
Supervised student teaching (4-6 hrs). All-day teaching under supervision in cooperating schools. Periodic semiars conducted by university faculty accompany student teaching. Prerequisites: Methods and permission.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 410 Stu Teach-Early Childhood **4-6 Credit hours**
All-day kindergarten teaching under supervision in cooperating schools; periodic seminars, conducted by University faculty, accompany student teaching. All-day kindergarten teaching under supervision in co- operating schools; periodic seminars, conducted by University faculty, accompany student teaching.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 415 Int Meth & Mat: Sec Ed **3 Credit hours**
General secondary/middle school course with emphasis on instructional standards and objectives, methods, and materials of the disciplines. A clinical experience provides observation and teaching. General secondary/middle school course with emphasis on instructional standards and objectives, methods, and materials of the disciplines. A clinical experience provides observation and teaching.
Pre-req: Admitted to Teacher ED with a score of 5.
Co-req: CI 470
Grade Mode: Normal Grading Mode

CI 427 Introduction To Autism **3 Credit hours**
This is a lecture-discussion course designed to survey current autism definitions, rates of incidence, conceptual models, and educational designs relating to autistic children, youth, and adults. This is a lecture-discussion course designed to survey current autism definitions, rates of incidence, conceptual models, and educational designs relating to autistic children, youth, and adults.
Grade Mode: Normal Grading Mode

CI 442 Instr & Clrm Mgt in Elem Ed **3 Credit hours**
This course allows elementary education students to critically examine a variety of classroom management strategies and educational issues that impact instruction. PR: Full admission to the Teacher Education Program This course allows elementary education students to critically examine a variety of classroom management strategies and educational issues that impact instruction. PR: Full admission to the Teacher Education Program
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 446 The Process of Reading Part II **3 Credit hours**
Study of modern techniques and practices in the teaching and assessment of reading and language arts: Part 2
Pre-req: CI 342 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CI 447 Inte Read/Lang Arts: Elem Edu **3 Credit hours**
General K-6 course with emphasis on instructional standards and objectives, methods, and materials for Reading, Language Arts and Social Studies. General K-6 course with emphasis on instructional standards and objectives, methods, and materials for Reading, Language Arts and Social Studies.
Pre-req: Admitted to Teacher ED with a score of 5 and CI 343 with a minimum grade of C and CI 446 with a minimum grade of C.
Co-req: CI 471
Grade Mode: Normal Grading Mode

CI 448 Science Methods: Elem Edu **3 Credit hours**
General K-6 course with emphasis on instructional standards and objectives, methods and materials for mathematics and science. General K-6 course with emphasis on instructional standards and objectives, methods and materials for mathematics and science.
Pre-req: CI 201 with a minimum grade of C and Admitted to Teacher ED with a score of 4 and BSC 105 with a minimum grade of C and CI 248 with a minimum grade of C.
Grade Mode: Normal Grading Mode

CI 449 Instr & Clarm Mgt Sec Ed **3 Credit hours**
Classroom management with emphasis on practical techniques for dealing with management problems in secondary and middle school settings. Classroom management with emphasis on practical techniques for dealing with management problems in secondary and middle school settings.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

CI 450 Stu Teach Secondary Ed **4-12 Credit hours**
All-day teaching under supervision in cooperating schools; periodic seminars conducted by University faculty accompany student teaching. All-day teaching under supervision in cooperating schools; periodic seminars conducted by University faculty accompany student teaching.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 452 Mce: Supervised Stu Teach **4-6 Credit hours**
All-day student teaching in cooperating middle schools; periodic seminars conducted by University faculty accompany student teaching. All-day student teaching in cooperating middle schools; periodic seminars conducted by University faculty accompany student teaching.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 455 Student Teaching II Sec Ed **4-6 Credit hours**
Supervised student teaching (4-6 hrs). All-day teaching under supervision in cooperating schools. Periodic seminars conducted by university faculty accompany student teaching. Prerequisites: Methods and permission.
Attributes: Capstone Course
Grade Mode: Credit/No Credit Grade Only

CI 459 Multicult Influence in Ed **3 Credit hours**
Multicultural education with an emphasis on methods and materials for teaching students from diverse cultural backgrounds. Multicultural education with an emphasis on methods and materials for teaching students from diverse cultural backgrounds.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

CI 460 Staff Development **1-3 Credit hours**
Attributes: Not Degree Applicable

Cyber Forensics and Security (CFS)

- General Education Course

CFS 200 Introduction to CFS **3 Credit hours**
This course teaches student how information is recovered from electronic devices and the forensic techniques used to perform forensic examinations. In addition, legal issues regarding electronic data will be discussed.
Grade Mode: Normal Grading Mode

CFS 261 Introduction to Linux **3 Credit hours**
An introductory course for the Linux operating system, focusing on its application in information assurance and the digital forensics.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 305 Open Source Intelligence **3 Credit hours**
This course identifies and demonstrates free online resources that can aid investigators in searching the Internet for resources that can be applied to domestic and international investigations.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 357 Network Penetration and Attack **4 Credit hours**
Students will explore tools and techniques used to penetrate, exploit and ex filtrate data from computers and networks.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 400 Intro to Cyber Forensics **3 Credit hours**
This course teaches students how information is recovering from electronic devices and the forensic techniques used to perform forensic examinations. In addition, legal issues regarding electronic data will be discussed.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 405 OSINT Practicum **3 Credit hours**
Grade Mode: Normal Grading Mode

CFS 406 OSINT Practicum II **3 Credit hours**
Grade Mode: Normal Grading Mode

CFS 410 Collegiate Cyber Competition I **3 Credit hours**
Pre-req: CFS 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 411 Collegiate Cyber Comp II **3 Credit hours**
Pre-req: CFS 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 420 Incident Response **3 Credit hours**
This course examines forensic and investigative aspects of a network intrusion. Topics include pre-incident preparation, developing leads, scoping an incident, forensic data collection, evidence form hosts, networks, and enterprise environments.
Pre-req: CFS 400 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 430 Exploit Development **3 Credit hours**
Students will learn the skills required to reverse-engineer 32-bit and 64-bit applications, perform remote user application, analyze patches for 1-day exploits, and write complex modern software and operating systems.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 440 Digital Evidence **4 Credit hours**
Concepts of computer forensics, including handling digital evidence, case preparation, forensic imaging, data recovery, password cracking, e-mail analysis, and report writing. Proper usage of difference forensic tools is emphasized.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 445 Mobile & Web Pen Testing **3 Credit hours**
This course is designed to teach students the advanced skills and techniques required to test mobile and web applications.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 448 Multimedia Forensics **3 Credit hours**
Course will introduce principles of multimedia forensics and their application to digital forensics. Practical forensics enhancements and analysis techniques, including how to prepare forensically-sound exhibits are covered.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 454 Network Defense **4 Credit hours**
An in-depth examination of the principles, strategies, and tools used to defend, detect, and respond to a variety of common network attacks.
Pre-req: CFS 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 460 Applied Cyber Forensics **4 Credit hours**
Introduction to the principles, practices and tools of digital forensics and electronic discovery. Hands-on exercises in a simulated real-world environment are a critical component of the course.
Pre-req: CFS 400 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 461 Cyber Warfare **3 Credit hours**
Broad examination of this new form of conflict including the role of nation states, the challenge of attribution, potential impact on the physical world, and current government policy and doctrine.
Pre-req: CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or IST 280 with a minimum grade of D or DFIA 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 462 Network Forensics **4 Credit hours**
Examination of techniques and tools used to investigate, search, collect, analyze, and report on network based breaches and events.
Pre-req: (CFS 200 with a minimum grade of D or IST 264 with a minimum grade of D or DFIA 200 with a minimum grade of D) and CFS 400 with a minimum grade of D and CFS 261 with a minimum grade of D and CIT 352 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 464 Network Security **3 Credit hours**
Addresses security issues for TCP/IP-based networks, Access Control and Communications are covered as well as Internet security in areas of cryptography, protocols, applications, encryption, hash functions digital signatures, etc.
Pre-req: CFS 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

CFS 467 Mobile Device Forensics **4 Credit hours**
Identification, preservation, collection, analysis, and reporting techniques and tools used in the forensics examination of mobile devices such as cell phones and GPS units.
Pre-req: CFS 400 with a minimum grade of D and (CFS 200 with a minimum grade of D or DFIA 200 with a minimum grade of D or IST 264 with a minimum grade of D).
Grade Mode: Normal Grading Mode

CFS 470 Internship **3 Credit hours**
Grade Mode: Normal Grading Mode

CFS 480 Special Topics **3 Credit hours**
Grade Mode: Normal Grading Mode

CFS 485 Independent Study **3-6 Credit hours**
Grade Mode: Normal Grading Mode

CFS 490 Capstone **3 Credit hours**
This course reinforces assesses the student's ability to apply core digital forensics and information assurance knowledge and skills in a series of realistic practical exercises.
Pre-req: CFS 357 with a minimum grade of D and CFS 460 with a minimum grade of D and CFS 467 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

CFS 491 Research **3-6 Credit hours**
Students will explore and apply common research methods used in digital forensics and information assurance. Students will complete a research project including a paper or poster during the semester.
Grade Mode: Normal Grading Mode

Dance (DAN)

- General Education Course

DAN 101 Introduction to Dance **3 Credit hours**
Introduction to dance forms, principles of dance techniques, and role of dance in society. Introduction to dance forms, principles of dance techniques, and role of dance in society.
Grade Mode: Normal Grading Mode

DAN 205 Dance for Musical Theatre **3 Credit hours**
Introduction to various dance forms and styles necessary for musical theatre. Training in rhythm and coordination with emphasis on elementary techniques and routines. Introduction to various dance forms and styles necessary for musical theatre. Training in rhythm and coordination with emphasis on elementary techniques and routines.
Grade Mode: Normal Grading Mode

DAN 210 Tap Dance **2 Credit hours**
Technique, styles, an rhythmic structures of tap dance for the theatre. Emphasis on steps, movement, and routines. Course may be repeated for total of four hours credit. 2 lec-2 lab. Technique, styles, an rhythmic structures of tap dance for the theatre. Emphasis on steps, movement, and routines. Course may be repeated for total of four hours credit. 2 lec-2 lab.
Grade Mode: Normal Grading Mode

DAN 230 Ballet Technique **2 Credit hours**
Classical ballet technique, exercise, routine, and drill for the dancer. Course may be repeated for a total of eight hours credit. 2 lec-2 lab. Classical ballet technique, exercise, routine, and drill for the dancer. Course may be repeated for a total of eight hours credit. 2 lec-2 lab.
Grade Mode: Normal Grading Mode

DAN 270 Practicum **1 Credit hour**
Opportunity to study and perform concert dance. Opportunity to study and perform concert dance.
Grade Mode: Normal Grading Mode

DAN 280 Special Topics **1-4 Credit hours**
Program of study not normally covered in other courses. Topics vary from semester to semester. Program of study not normally covered in other courses. Topics vary from semester to semester.
Grade Mode: Normal Grading Mode

DAN 281 Special Topics **1-4 Credit hours**
Program of study not normally covered in other courses. Topics vary from semester to semester. Program of study not normally covered in other courses. Topics vary from semester to semester.
Grade Mode: Normal Grading Mode

DAN 282 Special Topics **1-4 Credit hours**
Program of study not normally covered in other courses. Topics vary from semester to semester. Program of study not normally covered in other courses. Topics vary from semester to semester.
Grade Mode: Normal Grading Mode

DAN 283 Special Topics **1-4 Credit hours**
Program of study not normally covered in other courses. Topics vary from semester to semester. Program of study not normally covered in other courses. Topics vary from semester to semester.
Grade Mode: Normal Grading Mode

DAN 305 Dance for Musical Theatre **3 Credit hours**
Various dance forms and styles necessary for musical theatre. Training in rhythm and coordination with emphasis on classic and modern techniques and routines. PR: Department Permission
Grade Mode: Normal Grading Mode

DAN 316 Modern Jazz Dance **2 Credit hours**
Techniques, styles, and rhythmic structures of modern jazz dance. Emphasis on increasing personal expression and dance movement repertoire. Course may be repeated for total of six hours credit. 2 lec-2 lab. Techniques, styles, and rhythmic structures of modern jazz dance. Emphasis on increasing personal expression and dance movement repertoire. Course may be repeated for total of six hours credit. 2 lec-2 lab.
Grade Mode: Normal Grading Mode

DAN 320 Modern Dance Technique **2 Credit hours**
Principles, movement, and performance techniques in modern dance. Course may be repeated for total of four hours credit. 2 lec-2 lab. Principles, movement, and performance techniques in modern dance. Course may be repeated for total of four hours credit. 2 lec-2 lab.
Grade Mode: Normal Grading Mode

DAN 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

DAN 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

DAN 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

DAN 491 Dance Workshop **1-4 Credit hours**
Practical participatory course for advanced students and professionals. Experience in new techniques, theories, and principles. Actual course title will vary with subject being covered. Practical participatory course for advanced students and professionals. Experience in new techniques, theories, and principles. Actual course title will vary with subject being covered.
Grade Mode: Normal Grading Mode

Dietetics (DTS)

- General Education Course

DTS 202 Introductory Foods **4 Credit hours**
Provides basic understanding of the science of food and food substances. Instruction on nutrients will be integrated with preparation of foods to form the laboratory experience. Provides basic understanding of the science of food and food substances. Instruction on nutrients will be integrated with preparation of foods to form the laboratory experience.
Pre-req: DTS 210 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 210 Nutrition **3 Credit hours**
Principles of human nutrition and their application in planning and evaluating dietaries for individuals and families.
Grade Mode: Normal Grading Mode

DTS 215 Assess and Ed Strat in DTS **3 Credit hours**
Establish a foundation for effective nutrition assessment and education of individuals and groups. Establish a foundation for effective nutrition assessment and education of individuals and groups.
Pre-req: DTS 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

DTS 301 FS Safety & Systems Mgt I **4 Credit hours**
A study of foodservice management and an in-depth look at food safety in foodservice establishments. Laboratory/field experiences provide students a better perspective of foodservice management in various institutions. A study of foodservice management and an in-depth look at food safety in foodservice establishments. Laboratory/field experiences provide students a better perspective of foodservice management in various institutions.
Pre-req: DTS 202 with a minimum grade of C and BSC 250 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 302 FS Safety & Sys Mgt II **4 Credit hours**
A continued study of foodservice management principles. The course emphasizes quantity production, distribution, and service of foods as well as facility planning and design. A continued study of foodservice management principles. The course emphasizes quantity production, distribution, and service of foods as well as facility planning and design.
Pre-req: DTS 301 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 310 Life Span Nutrition **3 Credit hours**
An exploration of the scientific principles of human nutrition and nutrient needs for stages of the life cycle, which include prenatal, gestational, infancy, toddler, child, preadolescent, adult, and elderly. An exploration of the scientific principles of human nutrition and nutrient needs for stages of the life cycle, which include prenatal, gestational, infancy, toddler, child, preadolescent, adult, and elderly.
Pre-req: DTS 210 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 320 Intermediate Nutrition **3 Credit hours**
Builds on knowledge acquired in introductory nutrition, and prepares students for advanced nutrition courses. Development of therapeutic diets, analysis of vitamin and mineral needs, and digestive processes discussed in detail. Builds on knowledge acquired in introductory nutrition, and prepares students for advanced nutrition courses. Development of therapeutic diets, analysis of vitamin and mineral needs, and digestive processes discussed in detail.
Pre-req: DTS 210 with a minimum grade of C and BSC 227 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 403 Advanced Nutrition **3 Credit hours**
An in-depth study of digestion, absorption, and metabolism of macronutrients; maintaining homepstasis in the body is also discussed in relationship to fluid, electrolyte, and acid-base balance. An in-depth study of digestion, absorption, and metabolism of macronutrients; maintaining homepstasis in the body is also discussed in relationship to fluid, electrolyte, and acid-base balance.
Pre-req: DTS 320 with a minimum grade of C and BSC 228 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 409 Nutrition in Community **3 Credit hours**
Nutritional needs of communities and the dietician's role in addressing them are identified, and community nutrition programs are closely examined. Nutritional needs of communities and the dietician's role in addressing them are identified, and community nutrition programs are closely examined.
Pre-req: DTS 210 with a minimum grade of C and DTS 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 410 Cross Cultural Foods **3 Credit hours**
Explores the relationship between food, nutrition, history, geography, culture, traditions, religion, communication, and acculturation. Studies cultural parameters and current issues that have shaped and continue to influence foodways.
Grade Mode: Normal Grading Mode

DTS 460 Research in Dietetics **3 Credit hours**
An introduction to quantitative and qualitative research methodologies with application in the field of dietetics. An introduction to quantitative and qualitative research methodologies with application in the field of dietetics.
Grade Mode: Normal Grading Mode

DTS 468 Chemistry of Food **3 Credit hours**
Experimental study of chemical and physical factors affecting food preparation. Experimental study of chemical and physical factors affecting food preparation.
Pre-req: DTS 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 469 Medical Nutr Therapy I **3 Credit hours**
A study of medical diseases and conditions in relation to medical nutrition therapy and the nutrition care process. A study of medical diseases and conditions in relation to medical nutrition therapy and the nutrition care process.
Pre-req: DTS 320 (may be taken concurrently) with a minimum grade of C and BSC 228 with a minimum grade of C.
Concurrent PR: DTS 320
Grade Mode: Normal Grading Mode

DTS 470 Medical Nutrition Therapy **3 Credit hours**
A continued study of medical diseases and conditions in relation to medical nutrition therapy and the nutrition care process. Case study presentations access critical thinking skills. A continued study of medical diseases and conditions in relation to medical nutrition therapy and the nutrition care process. Case study presentations access critical thinking skills.
Pre-req: DTS 469 with a minimum grade of C.
Grade Mode: Normal Grading Mode

DTS 476 Senior Seminar in DTS **3 Credit hours**
As a synthesis of dietetics program content, students will use food and nutrition knowledge to plan, implement, and evaluate a nutrition education program and prepare for supervised practice. As a synthesis of dietetics program content, students will use food and nutrition knowledge to plan, implement, and evaluate a nutrition education program and prepare for supervised practice.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

DTS 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

DTS 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

Digital Humanities (DH)

- General Education Course

DH 201 Intro to Digital Humanities **3 Credit hours**
Examines the entagled relationships between human cultures and digital technologies, and uses those technologies to explore topcis in the humanities.
Attributes: Digital Humanities, Core II Humanities
Grade Mode: Normal Grading Mode

Economics (ECN)

- General Education Course

ECN 200 Survey of Economics **3 Credit hours**
Major emphasis given to microeconomic topics such as supply and demand, market structure, and international trade. Macroeconomic concepts and aggregate supply-aggregate demand model are examined. (Not open to students in the College of Business or to students who have completed ECN 250) Major emphasis given to microeconomic topics such as supply and demand, market structure, and international trade. Macroeconomic concepts and aggregate supply-aggregate demand model are examined. (Not open to students in the College of Business or to students who have completed ECN 250)
Grade Mode: Normal Grading Mode

ECN 250 Principles Microeconomics **3 Credit hours**
Principles of scarcity, opportunity cost, and supply and demand are developed along with price and wage determination in the marketplace. International trade and policy problems are also examined. Principles of scarcity, opportunity cost, and supply and demand are developed along with price and wage determination in the marketplace. International trade and policy problems are also examined.
Grade Mode: Normal Grading Mode

ECN 253 Principles Macroeconomics **3 Credit hours**
Introduction to the workings of the national economy. Focuses on the forces driving economic growth, inflation, unemployment, and the country's international economic relations. Introduction to the workings of the national economy. Focuses on the forces driving economic growth, inflation, unemployment, and the country's international economic relations.
Pre-req: ECN 250 with a minimum grade of D or ECN 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ECN 301 Quantitative Methods ECN/FIN **3 Credit hours**
Application of mathematical and statistical methods in Economics and Finance.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 302 Health Economics **3 Credit hours**
A study of the health care market and health policy using the economic concepts of demand-supply, individual choice, uncertainty, asymmetric information and moral hazard.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 310 Money and Banking **3 Credit hours**
Money, credit and credit institutions in the United States; monetary, fiscal, and banking functions of the Federal Reserve System.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

ECN 326 Int Macroeconomic Analys **3 Credit hours**
Advanced study of the national economy as a whole. The main topics focused on are: economic growth, unemployment, inflation, international monetary and financial relations, and macroeconomic policy activity. Advanced study of the national economy as a whole. The main topics focused on are: economic growth, unemployment, inflation, international monetary and financial relations, and macroeconomic policy activity.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

ECN 328 Int Microeconomic Analys **3 Credit hours**
Microeconomics theories of the production and pricing of goods and services, payments to the factors of production.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 405 Environmental Economics **3 Credit hours**
An application of basic economic theory to a consideration of a wide range of environmental problems including pollution, natural resource exhaustion, population and economic growth.
Pre-req: ECN 250 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 408 Comparative Econ Systems **3 Credit hours**
Marxism, capitalism, communism, facism ad socialism considered as theories, movements and actual political economies.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: International
Grade Mode: Normal Grading Mode

ECN 415 Regional Economics **3 Credit hours**
A study of location theory and regional development within a framework of economic theory. A study of location theory and regional development within a framework of economic theory.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: American Institutions, Social Sciences
Grade Mode: Normal Grading Mode

ECN 420 International Trade **3 Credit hours**
An introduction to the basic microeconomic models explaining the reasons for and the effects of trade among nations, trade restrictions and regional trading arrangements. An introduction to the basic microeconomic models explaining the reasons for and the effects of trade among nations, trade restrictions and regional trading arrangements.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: International
Grade Mode: Normal Grading Mode

ECN 421 Global Macroeconomic Analysis **3 Credit hours**
Current topics in international monetary relations, and how countries use macroeconomic policy to influence their performance in the global economy, and how global events influence country performance. Emphasis upon applications.
Pre-req: ECN 253 with a minimum grade of D.
Attributes: International
Grade Mode: Normal Grading Mode

ECN 423 Intro to Econometrics **3 Credit hours**
Combines economic theory with real data to obtain quantitative results for purposes of explanation and prediction. The development of useful economic models applicable to present day world problems.
Pre-req: (MGT 218 with a minimum grade of D or MGT 318 with a minimum grade of D or MTH 225 with a minimum grade of D or STA 225 with a minimum grade of D or IST 130 with a minimum grade of D or EDF 417 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D) and ECN 253 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECN 456 Labor Economics **3 Credit hours**
Theoretical and empirical analysis of labor markets, wage determination, hours of work, unemployment and inflation, unions and collective bargaining and related subjects in their social and legal contexts.
Pre-req: ECN 250 with a minimum grade of D.
Attributes: American Institutions, Social Sciences
Grade Mode: Normal Grading Mode

ECN 460 Economic of Dev Countries **3 Credit hours**
Introduction to developing nations in the world economy. Focus on their economic characteristics, current economic problems, and policy issues. Interactions between the world economy and country performance.
Pre-req: ECN 250 with a minimum grade of D and ECN 253 with a minimum grade of D.
Attributes: International
Grade Mode: Normal Grading Mode

ECN 466 Economics Workshop **3 Credit hours**
Capstone experience. Emphasis on learning economics through applied research, writing, and oral presentations of student work. Capstone experience. Emphasis on learning economics through applied research, writing, and oral presentations of student work.
Pre-req: ECN 326 with a minimum grade of D and ECN 328 with a minimum grade of D and ECN 423 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

ECN 467 Economics Workshop II **2 Credit hours**
Capstone Experience. Emphasis on learning economics through writing exercises. Opportunity for collaborative research with CBER staff. Development of skills necessary for success in the job market. (PR: ECN 466) tion of Senior Thesis I) Capstone Experience. Emphasis on learning economics through writing exercises. Opportunity for collaborative research with CBER staff. Development of skills necessary for success in the job market. (PR: ECN 466) tion of Senior Thesis I)
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

ECN 480 Special Topics **1-4 Credit hours**
Members of the department may teach, when necessary, any economics subject not listed among the current course offerings. Members of the department may teach, when necessary, any economics subject not listed among the current course offer- ings.
Grade Mode: Normal Grading Mode

ECN 485 Independent Study **1-4 Credit hours**
A research project conducted by a qualified student under guidance of a member of the department; involves gathering of data, interpretation, and presentation of findings in a written report. A research project conducted by a qualified student under guidance of a member of the department; involves gathering of data, interpretation, and presentation of findings in a written report.
Grade Mode: Normal Grading Mode

ECN 490 Internship **3-12 Credit hours**
A supervised internship in which the student works for a business firm/agency to gain practical experience in the student's major. The program of work and study will be defined in advanced and the students performance will be evaluated.
Grade Mode: Credit/No Credit Grade Only

Early Childhood Education (ECE)

- General Education Course

ECE 101 Early Childhood Wellbeing **3 Credit hours**
An introduction to the basic requirements and regulations for health and safety in early childhood programs serving children from birth to age eight. An introduction to the basic requirements and regulations for health and safety in early childhood programs serving children from birth to age eight.
Grade Mode: Normal Grading Mode

ECE 102 Early Childhood Programs (CT) **3 Credit hours**
A critical analysis of the historical, philosophical, political, social, and theoretical foundations of early childhood programs with specific attention to current programs serving children prior to school entry. 3 CR. A critical analysis of the historical, philosophical, political, social, and theoretical foundations of early childhood programs with specific attention to current programs serving children prior to school entry. 3 CR.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

ECE 201 Early Education Tech **3 Credit hours**
Application of technology in the teaching and administration of early childhood education programs.
Grade Mode: Normal Grading Mode

ECE 204 Parenting **3 Credit hours**
This course examines parenting from a socio-cultural and developmental perspective using a systems model. This course examines parenting from a socio-cultural and developmental perspective using a systems model.
Grade Mode: Normal Grading Mode

ECE 215 Family Relationships **3 Credit hours**
Relationships in the family during its life cycle, with some consideration of family life in other cultures. Relationships in the family during its life cycle, with some consideration of family life in other cultures.
Grade Mode: Normal Grading Mode

ECE 303 Child Development **3 Credit hours**
Care and guidance of young children through five years in relation to their physical, emotional, mental and social development. Observation and participation in nursery school required. Care and guidance of young children through five years in relation to their physical, emotional, mental and social development. Observation and participation in nursery school required.
Grade Mode: Normal Grading Mode

ECE 322 Language & Literacy **3 Credit hours**
Provide pre-service teachers with an overview of the emergent nature of the development of language and literacy in the young child in a context that is developmentally and culturally appropriate.
Pre-req: ECE 303 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ECE 323 Assess Early Childhood **3 Credit hours**
Realistic and practical guidance in providing learning experiences for children from diverse cultural backgrounds based upon authentic assessment practices. Realistic and practical guidance in providing learning experiences for children from diverse cultural backgrounds based upon authentic assessment practices.
Pre-req: ECE 303 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ECE 324 Early Childhood Sci/Math **3 Credit hours**
Strategies for integrating math, science and technology in early childhood curriculum with focus on inquiry approaches. Strategies for integrating math, science and technology in early childhood curriculum with focus on inquiry approaches.
Pre-req: ECE 303 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ECE 325 Play and Creativity **3 Credit hours**
Exploration of the multiple ways children and adults express their thoughts and represent their environment and experiences.
Pre-req: ECE 303 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ECE 420 Infant/Toddler Environs & Rela **3 Credit hours**
Creation of developmentally supportive environments for infants and toddlers in group settings with emphasis on establishing nurturing relationships. Creation of developmentally supportive environments for infants and toddlers in group settings with emphasis on establishing nurturing relationships.
Pre-req: ECE 303 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECE 421 Infant/Toddler Ed Practicum **3 Credit hours**
Practice in planning and leading an infant/toddler group with emphasis on environments and relationships that provide supportive nurturance and education for the babies and their parents. Practice in planning and leading an infant/toddler group with emphasis on environments and relationships that provide supportive nurturance and education for the babies and their parents.
Pre-req: ECE 420 (may be taken concurrently) with a minimum grade of C and Admitted to Teacher ED with a score of 4.
Concurrent PR: ECE 420
Grade Mode: Normal Grading Mode

ECE 430 Preschool Curr and Methods **3 Credit hours**
Historical and contemporary curriculum and methods for preschool children with emphasis on current best practices. Historical and contemporary curriculum and methods for preschool children with emphasis on current best practices.
Pre-req: ECE 303 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECE 431 Guid Young Child Pract **3 Credit hours**
Techniques of guidance of young children with emphasis on adult-child interaction. Participation in laboratory preschool required. Techniques of guidance of young children with emphasis on adult-child interaction. Participation in laboratory preschool required.
Pre-req: Admitted to Teacher ED with a score of 4 and ECE 303 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ECE 435 Admin Early Child Program **3 Credit hours**
Instruction and practice in the development of day centers for three and four year old children and administration of programs in these centers. Laboratory participation required. Instruction and practice in the development of day centers for three and four year old children and administration of programs in these centers. Laboratory participation required.
Pre-req: ECE 303 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ECE 472 Early Childhood Capstone **3 Credit hours**
Application of ECE content knowledge in the management of early childhood programs: senior level capstone. Premission required.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

ECE 485 Independent Study **1-4 Credit hours**
Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization. Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization.
Grade Mode: Normal Grading Mode

ECE 486 Independent Study **1-4 Credit hours**
Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization. Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization.
Grade Mode: Normal Grading Mode

ECE 487 Independent Study **1-4 Credit hours**
Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization. Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization.
Grade Mode: Normal Grading Mode

ECE 488 Independent Study **1-4 Credit hours**
Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization. Permission of the coordinator. Requires 2.5 GPA, limit of 6 hours to be used in professional education as a specialization.
Grade Mode: Normal Grading Mode

Educational Foundations (EDF)

- General Education Course

EDF 201 Ed Psych Developing Learner **3 Credit hours**
A study of the psychological principles for learning and teaching based on children's emotional, social, cognitive, and physical development.
Grade Mode: Normal Grading Mode

EDF 218 Child/Adol Dev in Schools **3 Credit hours**
A basic course in the study of children's emotional, social, mental, and physical development. Field experience required. A basic course in the study of children's emotional, social, mental, and physical development. Field experience required.
Co-req: EDF 270
Grade Mode: Normal Grading Mode

EDF 270 Level I Clinical Exp **0 Credit hours**
A public school Clinical Experience in an elementary school. An opportunity to work with faculty, staff, and students in a teaching/learning environment. A public school Clinical Experience in an elementary school. An opportunity to work with faculty, staff, and students in a teaching/learning environment.
Grade Mode: Credit/No Credit Grade Only

EDF 271 Level I Clinical Exp **0 Credit hours**
A public school Clinical Experience in an elementary public school. An opportunity to work with faculty, staff, and students in a teaching/learning environment. A public school Clinical Experience in an elementary public school. An opportunity to work with faculty, staff, and students in a teaching/learning environment.
Co-req: EDF 218
Grade Mode: Normal Grading Mode

EDF 272 Level I Clinical Exp **0 Credit hours**
A public school Clinical Experience in an elementary public school. An opportunity to work with faculty, staff, and students in a teaching/learning environment. A public school Clinical Experience in an elementary public school. An opportunity to work with faculty, staff, and students in a teaching/learning environment.
Co-req: EDF 218
Grade Mode: Normal Grading Mode

EDF 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 319 Applications Learning Theory **3 Credit hours**
A study of the psychological principles which are the foundation for learning and teaching. A study of the psychological principles which are the foundation for learning and teaching.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

EDF 406 Foundations of Education **3 Credit hours**
A survey of the historical, philosophical and sociological foundations of American education with emphasis upon current educational problems and issues. A survey of the historical, philosophical and sociological foundations of American education with emphasis upon current educational problems and issues.
Pre-req: EDF 319.
Grade Mode: Normal Grading Mode

EDF 417 Statistical Methods **3 Credit hours**
A foundation course in descriptive and inferential statistics as applied in education and the social sciences. A foundation course in descriptive and inferential statistics as applied in education and the social sciences.
Attributes: Statistics
Grade Mode: Normal Grading Mode

EDF 435 Classroom Assessment **3 Credit hours**
History, philosophy and elementary statistical methods for testing, measuring and evaluating pupil behavior are studied. History, philosophy and elementary statistical methods for testing, measuring and evaluating pupil behavior are studied.
Pre-req: Admitted to Teacher ED with a score of 4 and EDF 201 with a minimum grade of C.
Grade Mode: Normal Grading Mode

EDF 475 Schools in a Diverse Society **3 Credit hours**
Study of social, historical and philosophical foundations of U.S. schooling. Study of social, historical and philosophical foundations of U.S. schooling.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

EDF 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

EDF 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

Electrical Engineering (EE)

- General Education Course

EE 202 Circuits II **3 Credit hours**
The transient response of first and second order systems. Balanced three-phase systems. Mutual inductance, transformers, resonance, and two-port networks.
Pre-req: ENGR 201 with a minimum grade of D and MTH 230 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 204 Intro to Digital Systems **3 Credit hours**
Number systems, digital components and systems, Boolen switching algebra; the analysis and design of combinational and sequential circuits; introduction to computer architecture.
Pre-req: MTH 220 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 210 Programming Lab **3 Credit hours**
This course introduces students to the fundamental principles of programming for solving engineering programs. It familiarizes students with the process of translating real-life engineering problems to computation problems.
Pre-req: CS 110.
Grade Mode: Normal Grading Mode

EE 211 Intro to Computer Engineering **3 Credit hours**
Provide a study of Data Structure, operating systems' concepts, HW designed methods and relationship between hardware and software.
Pre-req: EE 210 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 310 Electromagnetic Fields **3 Credit hours**
This course provdies in depth coverage of all aspects electromagnetics, with a focus on field and wave generation and propagation. The course will focus on more practical aspects of E-M theory.
Pre-req: EE 202 with a minimum grade of D and MTH 335 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 320 Analysis of Signals & Systems **3 Credit hours**
This class introduces students to concepts of probability and random variables necessary for study of signals and systems involving uncertainty; applications to elementary problems in detection, signal processing and communication.
Pre-req: MTH 335.
Grade Mode: Normal Grading Mode

EE 330 Random Signals and Systems **3 Credit hours**
This course will introduce the students to the fundamental concepts of probabiliity theory applied to engineering problems, including elementary set operations, sample spaces and probability laws, conditional probability and independence.
Pre-req: EE 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 340 Computer Architecture & Design **4 Credit hours**
This course is a study of the factors influencing the design of hardware and software elements of computer systems. Topics include: instruction set design; cache and virtual memory organizations.
Pre-req: EE 211 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 350 Elect Properties of Materials **3 Credit hours**
Introduction to basic physical properties of solid materials; some solid state physics employed, but major emphasis is on engineering applications based on semiconducting, magnetic, dielectric and superconducting phenomena.
Pre-req: EE 202 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 360 Control Systems **3 Credit hours**
Application of state variable and frequency domain techniques to modeling, analysis and synthesis of single input, single output linear control systems.
Pre-req: EE 202 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 370 Electric Machinery **3 Credit hours**
Fundamentals of energy-handling electric circuits, analysis of power electric circuits, elements of linear and rotating electric machinery, induction, and DC machinery.
Pre-req: EE 310 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 375 Communcation Systems I **3 Credit hours**
Introduction to the fundamental concepts of computer communication networks. Topics include the OSI reference model, the physical data link, network, and transport layers, TCP/IP, LANs, ALOHA, routing and flow controls.
Pre-req: EE 310 with a minimum grade of D and EE 320 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: EE 320
Grade Mode: Normal Grading Mode

EE 380 Microprocessor Design **3 Credit hours**
Hardware and software for real-time microprocessor-based digital systems. Basic concepts of on-chip components related to digital system functionality. Introduction to 32-bit machines with treatment of 16- and 8- bit machines.
Pre-req: EE 204 with a minimum grade of D and EE 340 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 401 Communication Systems II **3 Credit hours**
This course will cover topics in the field of RF/microwave engineering, such as transmission lines, waveguides, impedance matching, microwave resonators, RF filters, RF amplifiers and an introduction to antenna design.
Pre-req: EE 375 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 410 Electrical Engineering Design **3 Credit hours**
Application of design process and project engineering as practiced in industry; team approach to the design process; development of a project proposal; proposed project implemented in EE 420.
Grade Mode: Normal Grading Mode

EE 411 Intro to Digital IC Design **3 Credit hours**
This course covers the analysis and design of digital integrated circuits using CMOS technology. The course emphasizes design of circuit layout, and HSPICE and IRSIM for simulations, lab included.
Pre-req: ENGR 204.
Grade Mode: Normal Grading Mode

EE 412 Computer Engineering Design **3 Credit hours**
Introduction to the design process and project engineering as practiced in industry; student teams apply the design process by developing a project from proposal; proposed project implemented in EE 420.
Grade Mode: Normal Grading Mode

EE 415 Intro VHDL Design & HW Systems **3 Credit hours**
This course provides fundamental of hardware design methodologies and modeling. It covers the essentials of HDL, embedded C and hardware-embedded systems using VHDL language, Lab included.
Pre-req: EE 380 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 419 Intr Digital Signal Processing **3 Credit hours**
This course covers the transformation, manipulation of signals. It introduces the concepts of discrete-time, discrete frequency domains, representations and analyses of systems, and filter designs, lab is included.
Pre-req: EE 350.
Grade Mode: Normal Grading Mode

EE 420 Capstone Design **3 Credit hours**
Application of the design process and project engineering as practiced in industry; team approach to the design process; completion of project based on proposal from EE 410 or EE 412.
Pre-req: EE 410 with a minimum grade of D or EE 412 with a minimum grade of D.
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

EE 425 Electric Power Systems **3 Credit hours**
The course emphasizes power engineering area that includes power generation, transmission, and distribution.
Pre-req: EE 202 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 440 Digital Control Systems **3 Credit hours**
Feedback systems in which a digital computer is used to implement the control law; Z-transform and time domain methods serve as a basis for control systems design.
Pre-req: EE 360.
Grade Mode: Normal Grading Mode

EE 445 Radio Freq & Microwave Engr **3 Credit hours**
Fundamental Radio Frequency (RF) and microwave circuit analysis; return loss, insertion loss; transmission lines, lumped elements, impedence matching; theory, analysis and design of basic RF and microwave passive circuits.
Pre-req: EE 320.
Grade Mode: Normal Grading Mode

EE 447 Real-Time Digital Processing **3 Credit hours**
This course provides an introduction to the principles of real-time digital signal processing and hands-on development of real-time signal processing algorithms.
Pre-req: EE 320.
Grade Mode: Normal Grading Mode

EE 448 Power Electronics **3 Credit hours**
Principles of power electronics. Including understanding of power semiconductor devices, passive components, basic switching circuits, AC/DC, DC/DC, DC/AC converters and their applications.
Pre-req: (ENGR 202 with a minimum grade of D or EE 202 with a minimum grade of D) and EE 310 with a minimum grade of D.
Grade Mode: Normal Grading Mode

EE 480 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

EE 481 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

EE 482 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

EE 483 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

EE 485 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

EE 486 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

EE 487 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

EE 488 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

Engineering & Science (ENGR)

- General Education Course

ENGR 102 Introduction to CAD **2 Credit hours**
An introduction of scales, plan reading, engineering graphics and computer aided designing. Itroduction to the operation of modern 2D and 3D CAD software. 2 lec (PR: MTH 132; pre-engineering or engineering major)
Pre-req: MTH 132 (may be taken concurrently) with a minimum grade of D or MTH 229 (may be taken concurrently) with a minimum grade of D or MTH 229H (may be taken concurrently) with a minimum grade of D.
Concurrent PR: MTH 132 or MTH 229 or MTH 229H
Grade Mode: Normal Grading Mode

ENGR 103 First-Year Engineering Seminar **1 Credit hour**
Weekly seminars presented by practicing engineers to help students gain a better understanding of various engineering fields and the attributes required to be a successful engineer.
Grade Mode: Normal Grading Mode

ENGR 104 The Engineering Profession **1 Credit hour**
Introduction to the engineering profession and engineering disciplines; introduction to the engineering design process and team projects. Introduction to the engineering profession and engineering disiplines; introduction to the engineering design process and team projects.
Grade Mode: Normal Grading Mode

ENGR 111 Engineering Computations **3 Credit hours**
Introduction to effective problem-solving techniques using various engineering applications with an emphasis on accuracy. Various tools will be covered including calculators, spreadsheets, and a computational environment such as MATLAB.
Pre-req: ACT Math with a score of 24 or SAT Mathematics Before Mar. 16 with a score of 560 or MTH 132 (may be taken concurrently) or MTH 229 (may be taken concurrently) or MTH 229H (may be taken concurrently).
Concurrent PR: MTH 132 or MTH 229 or MTH 229H
Grade Mode: Normal Grading Mode

ENGR 201 Circuits I **4 Credit hours**
Definition of fundamental concepts and components, including operational amplifiers. Steady-state ac and dc analysis using the basic laws of circuits. Principles of electrical measurements. Single-phase ac power. Computer applications. Definition of fundamental concepts and components, including operational amplifiers. Steady-state ac and dc analysis using the basic laws of circuits. Principles of electrical measurements. Single-phase ac power. Computer applica- tions. (PR: MTH 229)
Pre-req: MTH 229 or MTH 229H.
Grade Mode: Normal Grading Mode

ENGR 213 Statics **3 Credit hours**
Particle and rigid body mechanics for static force systems.
Pre-req: (MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D).
Grade Mode: Normal Grading Mode

ENGR 214 Dynamics **3 Credit hours**
Laws of motion, work and energy, impulse and momentum, relative motion. 3 lec.
Pre-req: ENGR 213 with a minimum grade of D and MTH 230 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: MTH 230
Grade Mode: Normal Grading Mode

ENGR 215 Engineering Materials **3 Credit hours**
Material types and the relationships between material structure and material properties. Material defects, failure, corrosion and degradation, strengthening mechanisms, testing, and joining operations. (PR: CHM 211).
Pre-req: CHM 211.
Grade Mode: Normal Grading Mode

ENGR 216 Mech of Deformable Bodies **3 Credit hours**
Strength of materials; shear and moment diagrams; stresses in shafts, beams and columns; combined stresses; deflections. 4 lec.
Pre-req: ENGR 213 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENGR 217 Engineering Co-Op Preparation **1 Credit hour**
To prepare students for both the job search and employment in the field of engineering. Students will learn strategies for conducting a successful Co-Op.
Pre-req: ENGR 102 with a minimum grade of D or CE 102 with a minimum grade of D or CS 110 with a minimum grade of D or CS 110H with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ENGR 219 Engineering Thermodynamics **3 Credit hours**
Fundamental concepts of energy analysis and thermodynamic principles. Computer applications. 3-lec.
Pre-req: PHY 211 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENGR 221 Engineering Economy **3 Credit hours**
Economic selection of machines, structures and processes. 3 lec.
Pre-req: MTH 127 or MTH 130 or MTH 132 or MTH 229 or MTH 229H.
Grade Mode: Normal Grading Mode

ENGR 222 Engr Cost Analysis & Economy **3 Credit hours**
Economic analysis of engineering proposals; time value of money; evaluation and selection of projects; replacement and retention decisions; uncertainty and risk; inflation; cost estimation; depreciation; and benefit cost analysis.
Pre-req: MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENGR 265 Engineering Analysis **4 Credit hours**
Mathematical and analytical solutions of linear and power systems that involve linear algebra, Fourier analysis, and complex variables.
Pre-req: MTH 231.
Grade Mode: Normal Grading Mode

ENGR 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 290 Internship in Engineering **1-4 Credit hours**
Supervised off-campus activities which provide professional experience in different fields of engineering.
Grade Mode: Credit/No Credit Grade Only

ENGR 318 Fluid Mechanics **3 Credit hours**
Fluid properities, hydrostatic forces, stability of floating bodies, equations of fluid acceleration and motion (continuity, momentum, energy, Euler's Bernoulli's), dynamic similitude, internal flow, and computer solutions in ideal fluids. 3-lec. (PR: ENGR 214; CR: ENGR 319)
Pre-req: ENGR 214 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENGR 319 Fluid Mechanics Laboratory **1 Credit hour**
Laboratory techniques in fluid mechanics to include various experiments in fluid statics and fluid dynamics such as hydrostatic pressure, open channel flow, pipe flow, momentum theorem, etc.
Pre-req: ENGR 214 with a minimum grade of D.
Co-req: ENGR 318
Grade Mode: Normal Grading Mode

ENGR 330 Engineering Research **3 Credit hours**
This course is designed to provide the undergraduate engineering student with an opportunity to participate in engineering projects, research
Grade Mode: Normal Grading Mode

ENGR 335 Adv Engineering Analysis **3 Credit hours**
Mathematical methods for analyzing and solving a range of engineering problems, including linear algebra, vector and multivariate calculus, complex variables calculus, and Fourier analysis.
Pre-req: MTH 335 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ENGR 350 Engineering Co-Op **0 Credit hours**
A supervised experience in which the student works for a company to gain practical experience in a students major.
Pre-req: ENGR 217 with a minimum grade of D.
Grade Mode: Credit/No Credit Grade Only

ENGR 451 Intro to Proj Management **3 Credit hours**
This course covers project management fundamentals including project definition, project selection, project planning, estimating, scheduling, resource allocation and project control. An emphasis will be placed on building effective project teams.
Pre-req: ENGR 222.
Grade Mode: Normal Grading Mode

ENGR 473 Capstone Senior Design **3 Credit hours**
Students utilize the engineering design process to complete a comprehensive engineering project that addresses a real-world problem with realistic constraints in a collaborative environment.
Pre-req: ENGR 451 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

ENGR 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ENGR 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

English (ENG)

Advanced placement in English is granted on the basis of the Educational Testing Service (ETS) Advanced Placement Test scores. See section entitled “Advanced Placement” of this catalog for details. Students with ACT verbal scores of 34 or better (770 SAT ERW) should notify the Coordinator of Composition (marshallme@marshall.edu), who will then arrange for credit in ENG 101-201 to be assigned to the students’ records. Students with ACT verbal scores of 28-33 (640 SAT ERW) should enroll in ENG 201H. Students with ACT verbal scores of

18-27 (480 SAT ERW) should enroll in ENG 101. Students who score 17 or below on the ACT verbal (or below 470 SAT ERW) must take ENG 101P. Honors College students should enroll in ENG 200H.

- General Education Course

ENG 101 Beginning Composition **3 Credit hours**
Introduction to academic writing with emphasis on writing as a multi-stage process, critical thinking, and fundamental research strategies and skills.
Pre-req: ACT Verbal with a score of 18 or SAT Verbal Before March 16 with a score of 450 or SAT EVIDENCE-BASED READ/WRIT with a score of 480 or ENG 0XX or Placement English with a score of 0101 or ENG 099 with a minimum grade of CR or ENG 100 with a minimum grade of C or ENG 101C.
Attributes: Composition Core II
Grade Mode: Normal Grading Mode

ENG 101P Beginning Composition Plus **4 Credit hours**
Introduction to academic writing with emphasis on writing as a multi-stage process, critical thinking, and fundamental research strategies and skills. Additional attention on reading, paragraph development, and sentence-level writing skills.
Attributes: Composition Core II
Grade Mode: Normal Grading Mode

ENG 150 Academic Listening & Speaking **3 Credit hours**
This course promotes the development of English language fluency by nonnative speakers of English. It specifically targets the language skills necessary for successful oral communication within an academic context.
Grade Mode: Normal Grading Mode

ENG 151 Academic Reading **3 Credit hours**
This course prepares nonnative speakers of English to meet the challenges of reading for academic purposes at the college level by improving their reading skills and English language proficiency.
Grade Mode: Normal Grading Mode

ENG 160 Academic English & Composition **6 Credit hours**
This course for nonnative speakers of English focuses on written academic English, including grammar, mechanics, research, American English rhetorical conventions, and process writing. It further provides practice in oral communication.
Grade Mode: Normal Grading Mode

ENG 200 Texting the World(CT) **3 Credit hours**
This class brings together literary and non-literary texts and considers how the same theme plays through them via analysis, evaluation, and creation of said texts. This class brings together literary and non-literary texts and considers how the same theme plays through them via analysis, evaluation, and creation of said texts.
Attributes: Critical Thinking, Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 200H Texting the World (CT) **3 Credit hours**
This class brings together literary and non-literary texts and considers how the same theme plays through them via analysis, evaluation and creation of said texts.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Composition Core II, Critical Thinking, Honors, Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 201 Advanced Composition **3 Credit hours**
An advanced composition course centered on critical reading, writing, and research skills for the disciplines.
Pre-req: ENG 101 with a minimum grade of C or ENG 101P with a minimum grade of C or ENG 160 with a minimum grade of C or ENG 101B with a minimum grade of C.
Attributes: Composition Core II
Grade Mode: Normal Grading Mode

ENG 201H English Comp Honors **3 Credit hours**
An accelerated course in English composition. Completion of 201H with a C or better satisfies the University requirement in freshman composition. Students completing the course are awarded three additional hours of credit toward graduation. An accelerated course in English composition. Completion of 201H with a C or better satisfies the University requirement in freshman composition. Students completing the course are awarded three additional hours of credit toward graduation.
Pre-req: ACT Verbal with a score of 28 or SAT Verbal Before March 16 with a score of 640 or SAT EVIDENCE-BASED READ/WRIT with a score of 640.
Attributes: Composition Core II
Grade Mode: Normal Grading Mode

ENG 203 Appalachian Literature **3 Credit hours**
The study of Appalachian literature and texts that reflect cultural, political, and aesthetic experiences in the region as well as the intellectual, emotional, and spiritual experience of its inhabitants.(PR: Completion of Core II Composition Requirement)
Pre-req: ENG 201 with a minimum grade of C or ENG 201H with a minimum grade of C or ENG 200H with a minimum grade of C.
Attributes: Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

ENG 204 Writing for the Workplace **3 Credit hours**
A writing course focused on the styles and forms used in the workplace. (PR: Completion of Core II Composition Requirement; Restricted to College of Business students, English majors, and English minors)
Pre-req: ENG 201 with a minimum grade of C or ENG 201H with a minimum grade of C or ENG 200H with a minimum grade of C.
Grade Mode: Normal Grading Mode

ENG 205 Popular Literature (CT) **3 Credit hours**
The study of popular literature in its cultural contexts.
Attributes: Critical Thinking, Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 206 Good Plays **3 Credit hours**
Study of plays from a variety of traditions and/or historical eras that have had a powerful impact on culture and the tradition of drama. PR: Completion of Core II Composition Requirement
Pre-req: ENG 201 with a minimum grade of C or ENG 201H with a minimum grade of C or ENG 200H with a minimum grade of C.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 207 Good Essays **3 Credit hours**
Criticism and analysis of representative selections of short nonfiction. (PR: Completion of Core II Composition Requirement)
Pre-req: ENG 201 with a minimum grade of C or ENG 201H with a minimum grade of C or ENG 200H with a minimum grade of C.
Attributes: Core II Humanities
Grade Mode: Normal Grading Mode

ENG 209 Literature of Fantasy **3 Credit hours**
Study of different forms, conventions, and styles in fantastic literature, such as legend, fairy tale, horror story, heroic fantasy, nonsense, and romance. (PR: Completion of Core II Composition Requirement)
Pre-req: ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 210 Autobiography **3 Credit hours**
Study of select autobiographies and memoirs from a variety of literary traditions. (PR: Completion of Core II Composition Requirement)
Pre-req: ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 211 Science Fiction **3 Credit hours**
Study of science fiction, including its background, themes, types, analyses, and appreciation. (PR: Completion of Core II Composition Requirement)
Pre-req: ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 212 Sports Literature **3 Credit hours**
Study of sports literature of different genres, including fiction, poetry, drama, and biography. (PR: Completion of Core II Composition Requirement)
Pre-req: ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 213 Good Poems **3 Credit hours**
Selected examples of poems from a variety of cultures and/or historical eras studied through close reading and analysis. (PR: Completion of Core II Composition Requirement)
Pre-req: ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 214 Intro to Comics **3 Credit hours**
Introduction of the literary art form of comics through a study of its history, genres, conventions, and complexities. (PR: Completion of Core II Composition Requirement)
Pre-req: ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 215 Good Novels **3 Credit hours**
An introduction to the basic elements of the novel, such as forms and techniques, through careful reading of selected novels and criticism concerning them. (PR: Completion of Core II Composition Requirement)
Pre-req: ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 220 The Political Novel **3 Credit hours**
Studies in English and American novels relating significantly to political themes. (PR: Completion of Core II Composition Requirement)
Pre-req: ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 221 Postcolonial Literature **3 Credit hours**
Study of postcolonial literature and theory. Focuses on questions of class, gender, sexuality and human rights in the literature of current and former colonies in Asia, Africa, and the Americas. (PR: Completion of Core II Composition Requirement)
Pre-req: ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C.
Attributes: Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

ENG 225 Southern Literature **3 Credit hours**
The study of selected writers of the American South from its beginnings to the present with special attention on writers after 1920. (PR: Completion of Core II Composition Requirement)
Pre-req: ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 231 Good Stories **3 Credit hours**
Criticism and analysis of representative short stories, primarily British and American. (PR: Completion of Core II Composition Requirement)
Pre-req: ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

ENG 232 Good Films **3 Credit hours**
Study of films as narratives, as cultural representations, and as aesthetic expressions. (PR: Completion of Core II Composition Requirement)
Pre-req: ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

Exercise Science and Sport (ESS)

- General Education Course

ESS 123 Phys Ability Motor Skills **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

ESS 124 Fundamentals of Movement **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

ESS 211 Physiology of Fitness **3 Credit hours**
The student will gain knowledge of behavior change, components of exercise sessions, cardinal principles of conditioning, basics of fitness programming, and instructing individual and group exercise sessions. The student will gain knowledge of behavior change, components of exercise sessions, cardinal principles of conditioning, basics of fitness programming, and instructing individual and group exercise sessions.
Grade Mode: Normal Grading Mode

ESS 215 Intro to Exercise Science **3 Credit hours**
Introductory overview of the current trends and theories in exercise science. Preview the body systems, exercise training, and preparation for professional certification and careers in exercise science.
Grade Mode: Normal Grading Mode

ESS 220 Fitness and Wellness **3 Credit hours**
Course addresses fitness and weight control and modes of change. Primary focus is on goals in nutrition, label identification, nutrient assessment, weight control, and fitness and how to reach them safely.
Grade Mode: Normal Grading Mode

ESS 295 Adult Fitness Prog Indust **2 Credit hours**
Grade Mode: Normal Grading Mode

ESS 301 Phil Sport & Phys Activity **3 Credit hours**
Development of philosophic reasoning skills to better understand the role that philosophy plays in our understanding and conception of physical activity and sport. Development of philosophic reasoning skills to better understand the role that philosophy plays in our understanding and conception of physical activity and sport.
Grade Mode: Normal Grading Mode

ESS 345 Exercise Physiology **3 Credit hours**
Focuses on physiological and functional alterations in response to acute and chronic exercise with emphasis on metabolic, neuroendocrine, neuromuscular, cardiopulmonary, and environmental adaptations. Focuses on physiological and functional alterations in response to acute and chronic exercise with emphasis on metabolic, neuroendocrine, neuromuscular, cardiopulmonary, and environmental adaptations.
Pre-req: BSC 228 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ESS 346 Exercise Physiology Lab **2 Credit hours**
Laboratory course that demonstrates and reinforces concepts pertaining to the effects of exercise on physiological systems. Laboratory course that demonstrates and reinforces concepts pertaining to the effects of exercise on physiological systems.
Pre-req: ESS 345 (may be taken concurrently).
Concurrent PR: ESS 345
Grade Mode: Normal Grading Mode

ESS 365 Tests & Measurements PE **3 Credit hours**
Grade Mode: Normal Grading Mode

ESS 375 Fitness Assess & Exerc Prescr **3 Credit hours**
Focuses on the processes and procedures of physical fitness evaluation and prescription. Emphasis is placed on the design of individual and group exercise programs. Focuses on the processes and procedures of physical fitness evaluation and prescription. Emphasis is placed on the design of individual and group exercise programs.
Pre-req: ESS 345 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ESS 385 Devel Adult Fitness Prog **3 Credit hours**
Pre-req: ESS 345.
Grade Mode: Normal Grading Mode

ESS 386 Adult Fitness **3 Credit hours**
Discuss health risk appraisal and exercise benefits of commonly seen pathophysiology among the U.S. adults.
Pre-req: ESS 345 with a minimum grade of C.
Grade Mode: Normal Grading Mode

ESS 418 Ancient & Medi Sport History **3 Credit hours**
An in-depth investigation of the role of sport in ancient and medieval societies. The course focuses on ancient Greece, Rome, and medieval Europe, but will also briefly cover non-Western cultures. An in-depth investigation of the role of sport in ancient and medieval societies. The course focuses on ancient Greece, Rome, and medieval Europe, but will also briefly cover non-Western cultures.
Attributes: Multicultural

ESS 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

ESS 491 Internship Exercise Science **1-12 Credit hours**
Field internship experience.
Pre-req: ESS 375 with a minimum grade of C.
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

Finance (FIN)

- General Education Course

FIN 175 Personal Finance (CT) **3 Credit hours**
To assist the consumer in management of personal financial affairs. Topics are consumerism, insurance, savings instruments, banking, and personal expenditures and budgeting, personal taxes, house buying, introduction to investments, and estate planning.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

FIN 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

FIN 321 Risk Insurance Principles **3 Credit hours**
Fundamental concepts and principles of risk; techniques used to manage pure risks, and the role of insurance and the insurance mechanism in handling the exposures of individuals and businesses.
Grade Mode: Normal Grading Mode

FIN 323 Principles of Finance **3 Credit hours**
Business finance from viewpoint of business manager; use of financial statements, tools, and concepts for measuring and planning for profitability and liquidity. Business finance from viewpoint of business manager; use of financial statements, tools, and concepts for measuring and planning for profitability and liquidity.
Pre-req: ACC 215 with a minimum grade of D and (MGT 218 with a minimum grade of D or MTH 225 with a minimum grade of D or STA 225 with a minimum grade of D or MGT 318 with a minimum grade of D or IST 130 with a minimum grade of D or EDF 417 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D).
Grade Mode: Normal Grading Mode

FIN 327 Life & Health Insurance **3 Credit hours**
Legal facets of life, health, and annuity contracts; risk selection; programming; mathematics of life insurance; taxation; regulation of companies.
Pre-req: FIN 321 with a minimum grade of D.
Grade Mode: Normal Grading Mode

FIN 329 Prop & Liability Insur **3 Credit hours**
Risk management and insurance tools applied to the needs of the corporate enterprise; direct/indirect property exposures; third-party claims; workers compensation, fidelity; crime; boiler/machinery; valuation and insurance surveys.
Pre-req: FIN 321 with a minimum grade of D.
Grade Mode: Normal Grading Mode

FIN 343 Intermediate Financial Manage **3 Credit hours**
Application of financial principles to corporate business problems. Computer analysis will be utilized where appropriate. Application of financial principles to corporate business problems. Computer analysis will be utilized where appropriate.
Pre-req: FIN 323 with a minimum grade of D.
Grade Mode: Normal Grading Mode

FIN 356 Finan Mgt Health Care Org **3 Credit hours**
Management of working capital, evaluation of financial data, capital budgeting, the capitalism process, and the study of third party reimbursement systems. Management of working capital, evaluation of financial data, capital budgeting, the capitalism process, and the study of third party reimbursement systems.
Pre-req: FIN 323 with a minimum grade of D.
Grade Mode: Normal Grading Mode

FIN 360 Commercial Banking **3 Credit hours**
Bank structure; asset and liability management; management of reserves; liquidity management; credit analysis and loan administration; costs and pricing of bank services; analysis of bank performance and capital adequacy; evolution of the "financial supermarket."
Pre-req: FIN 323 with a minimum grade of D.
Grade Mode: Normal Grading Mode

FIN 370 Principles of Investment **3 Credit hours**
A study of financial market operations, security analysis and portfolio selection. Models of capital market equilibrium, trade-off between risk and return, and how to evaluate portfolio performance are also discussed.
Pre-req: FIN 323 with a minimum grade of D.
Grade Mode: Normal Grading Mode

FIN 380 Entrepreneurial Finance **3 Credit hours**
Entrepreneurial finance examines the principles of small business finance which include projecting financial needs and surveying potential sources of financing. Other areas covered include financial forecasting, and sources of capital.
Grade Mode: Normal Grading Mode

FIN 405 Social Ins Employee Benefits **3 Credit hours**
Coverage and limitations of social insurance; social security; worker's compensation; unemployment insurance; medicare, medicaid, integration with private insurance and employee benefits; theory of group programs; pension plans.
Pre-req: FIN 321 with a minimum grade of D.
Grade Mode: Normal Grading Mode

FIN 410 Corporate Risk Management **3 Credit hours**
Identification, analysis, and handling of the risk exposures faced by businesses and risk managers; loss prevention and control; risk retention; self-insurance and corporate insurance programs.
Pre-req: FIN 321 with a minimum grade of D.
Grade Mode: Normal Grading Mode

FIN 425 Portfolio Analysis and Manage **3 Credit hours**
Analytical procedures for valuing various financial securities and techniques for the creation and maintenance of portfolios. Analytical procedures for valuing various financial securities and techniques for the creation and maintenance of portfolios.
Pre-req: FIN 370 with a minimum grade of D.
Grade Mode: Normal Grading Mode

FIN 431 Futures and Options **3 Credit hours**
To introduce options and futures, their market microstructure, their theoretical foundation pertaining to pricing and hedging with such contracts, and their uses.
Pre-req: FIN 370 with a minimum grade of D.
Grade Mode: Normal Grading Mode

FIN 432 Financial Advising: FINRA S-7 **3 Credit hours**
This course prepares students for the Series 7 exam that entitles the holder to sell all types of securities products with the exception of commondities and futures.
Grade Mode: Normal Grading Mode

FIN 440 International Fin Management **3 Credit hours**
International financing techniques and the role of finance in multinational organizations. International financing techniques and the role of finance in multinational organizations.
Pre-req: FIN 323 with a minimum grade of D.
Attributes: International
Grade Mode: Normal Grading Mode

FIN 470 Financial Policies/Strategies **3 Credit hours**
Financial planning, working capital management, capital budgeting, dividend policy and comprehensive problems. Capstone Experience.
Pre-req: FIN 343 with a minimum grade of D and FIN 440 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

FIN 475 Intl Business Strategies **3 Credit hours**
Strategies for gaining competitive advantage in the global business environment. Topics include international trade and investment, economic growth, and operations of multinational corporations. Capstone Experience for International Business major. Strategies for gaining competitive advantage in the global business environment. Topics include international trade and investment, economic growth, and operations of multinational corporations. Capstone Experience for International Business major.
Pre-req: ECN 421 with a minimum grade of D and FIN 343 with a minimum grade of D.
Attributes: Capstone Course, International
Grade Mode: Normal Grading Mode

FIN 480 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses. Finance majors only, with permission of department chair. Study of an advanced topic not normally covered in other courses. Finance majors only, with permission of depart- ment chairman.
Grade Mode: Normal Grading Mode

FIN 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

FIN 490 Internship **3-12 Credit hours**
A supervised internship in which the student works for a business firm/agency to gain practical experience in the student's major. The program of work and study will be defined in advance and the students performance will be evaluated. A supervised internship in which the student works for a business firm/agency to gain practical experience in the student's major. The program of work and study will be defined in advance and the students performance will be evaluated.
Grade Mode: Credit/No Credit Grade Only

First-Year Seminar (FYS)

- General Education Course

FYS 100 First Yr Sem Critical Thinking **3 Credit hours**
Students will learn critical thinking skills integral to life-long learning through discussion, interaction, discovery, problem-solving, writing, research, reflection, and examination of multicultural/international issues. Students will learn critical thinking skills integral to life-long learning through discussion, interaction, discovery, problem-solving, writing, research, reflection, and examination of multicultural/international issues.
Grade Mode: Normal Grading Mode

FYS 100H First Year Seminar-Honors **3 Credit hours**
Students will develop intentional critical thinking skills integral to lifelong learning through inquiry, discussion, interaction, discovery, problem-solving, writing, research, reflection and examination of complex multicultural/global ideas and themes. Students will develop intentional critical thinking skills integral to lifelong learning through inquiry, discussion, interaction, discovery, problem-solving, writing, research, reflection and examination of complex multicultural/global ideas and themes.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Honors

Geography (GEO)

- General Education Course

GEO 100 Intro to Human Geography (CT) **3 Credit hours**
This critical thinking course provides a systematic examination of contemporary concepts and processes of human geography in global perspective, including economics, geopolitics, culture, nationalism, urbanization, governance, agriculture, population, and migration.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

GEO 101 Physical Geography (CT) **4 Credit hours**
Systematic survey of earth-sun relationships, land-surface form, climate, soils, water, natural vegetation, and other natural content as a background for human geography. Systematic survey of earth-sun relationships, land-surface form, climate, soils, water, natural vegetation, and other natural content as a background for human geography.
Attributes: Critical Thinking, Natural Sciences
Grade Mode: Normal Grading Mode

GEO 110 Basic GIS **1 Credit hour**
Introduction to GIS concepts including GIS components, spatial and tabular data, database elements, data formats, and map design; hands-on experience with a GIS.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 111 Air Photos & Satellite Imagery **1 Credit hour**
Introduction to photogrammetry and remote sensing thourgh the hands-on investigation of aerial photographs and satellite imagery using the latest technology.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 112 Smartphone GPS **1 Credit hour**
Principles of Global Navigation Satellite Systems (GNSS); using your smartphone for Global Positioning Systems (GPS)/GNSS orientation, and data collection.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 113 Web GIS **1 Credit hour**
Students learn to build web maps, share GIS data on the internet, and create web GIS applications.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 203 Economic Geography (CT) **3 Credit hours**
A systematic examination of world economic geography with a focus on population, agriculture, transportation, land use, urbanization, industry, energy, and the environment. A systematic examination of world economic geography with a focus on population, agriculture, transportation, land use, urbanization, industry, energy, and the environment.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

GEO 206 Geography West Virginia **3 Credit hours**
A survey of the geography of West Virginia including landforms, climate, settlement patterns, population, economics, resources, politics, and environmental changes.
Attributes: American Institutions, Core II Social Sciences
Grade Mode: Normal Grading Mode

GEO 207 Biblical Geography **3 Credit hours**
Students explore the physical and human geography of ancient Palestine and assess how geography informs our understanding of people, events, and places described by Jewish and Christian scriptures.
Attributes: Core II Humanities
Grade Mode: Normal Grading Mode

GEO 222 Global Environment Issues (CT) **3 Credit hours**
Environmental issues have great emotional, political, and economic significance. The dynamics of global environmental problems, their complex interactions, and effects on potential stakeholders will be examined at the international scale.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

GEO 230 Intro to Meteorology (CT) **4 Credit hours**
Introduction to the composition of the atmosphere and weather phenomena, including thunderstorms, tornadoes, and hurricanes. Introduction to the composition of the atmosphere and weather phenomena, including thunderstorms, tornadoes, and hurricanes.
Attributes: Critical Thinking, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GEO 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 300 Methods in Geography **3 Credit hours**
Provides an introduction to research methods in geography. Topics addressed include: data sources; sampling; data collection, storage, and management; descriptive measures and data visualization techniques; qualitative and quantitative analysis.
Pre-req: STA 225 with a minimum grade of D or STA 150 with a minimum grade of D or STA 150B with a minimum grade of D or MGT 218 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D or GEO 440 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 305 Geog of USA & Canada **3 Credit hours**
Survey of physical, historical, population, economic, political, cultural, and regional geographies of Canada and the United States, including an analysis of the multi-cultural nature of the societies.
Attributes: American Institutions, Multicultural
Grade Mode: Normal Grading Mode

GEO 317 World Regional Geography **3 Credit hours**
World regions examined using a synthesis of physical and human geographical themes including environment, culture, landscape, climate, landforms, globalization, population patterns, urbanization, economies, and political geography.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 350 Severe Storms and Natl Hzrds **4 Credit hours**
Basics of earth and atmospheric hazards including flooding, earthquakes, tsunamis, hurricanes, tornadoes, and volcanic eruptions, and how to mitigate the impacts. Basics of earth and atmospheric hazards including flooding, earthquakes, tsunamis, hurricanes, tornadoes, and volcanic eruptions, and how to mitigate the impacts.
Grade Mode: Normal Grading Mode

GEO 355 Aviation Weather **3 Credit hours**
A study of atmospheric conditions on aeronautical operations. Topics include atmospheric properties, aviation hazards including thunderstorms, wind shear, turbulence, and icing, and weather flight resources.
Pre-req: GEO 230 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 402 Geography of Appalachia **3 Credit hours**
A study of the geography of Appalachia, including landforms, climate, settlement patterns, population, economics, resources, politics, and environmental changes.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

GEO 404 Geography of Europe **3 Credit hours**
An examination of the geography of Europe focusing on contemporary issues, including climate, culture, economics, environmental change, everyday life, international relations landforms, language, politics, population, religion, and urbanization. An examination of the geography of Europe focusing on contemporary issues, including climate, culture, economics, environmental change, everyday life, international relations landforms, language, politics, population, religion, and urbanization.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 405 Political Geography **3 Credit hours**
A systematic and regional survey of world political problems and international relations stressing current geopolitical conflicts. An examination of contemporary patterns, processes, and problems of political geography in global perspective, including globalization, colonialism, imperialism, geopolitics, nationalism, diplomacy, international borders, governance, political representation, and future projections
Attributes: International
Grade Mode: Normal Grading Mode

GEO 406 Population Geography **3 Credit hours**
An examination of contemporary patterns, processes, and problems of population geography in global perspective, including fertility, mortality, demographic change, migration, malnutrition, urbanization, natural resource sustainability, and future projections. An examination of contemporary patterns, processes, and problems of population geography in global perspective, including fertility, mortality, demographic change, migration, malnutrition, urbanization, natural resource sustainability, and future projections.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 408 Geog of South & Middle America **3 Credit hours**
A study of settlement, transportation, manufacturing, agriculture, geopolitics, and natural resources of South and Middle American countries. Regional study of relation of man's activities to natural environment.
Attributes: International
Grade Mode: Normal Grading Mode

GEO 410 Urban Geography **3 Credit hours**
Study of the evolution, morphology and land use, functions, and problems of urban areas, with emphasis on governance, planning, and the social and environmental impacts of urbanization.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

GEO 411 Medical Geography **3 Credit hours**
An examination of contemporary issues and problems in health and medical geography, including the spatial aspects of global health, health care policy, and disease origins, diffusion, and ecology.
Grade Mode: Normal Grading Mode

GEO 418 Geography For Educators **3 Credit hours**
A study of geographic concepts, methods, and technologies essential for effective teaching of geographic content for K-12 social studies teachers and college educators.
Grade Mode: Normal Grading Mode

GEO 422 Environmental Geography **3 Credit hours**
Attributes: International
Grade Mode: Normal Grading Mode

GEO 423 Cartography & GIS **3 Credit hours**
This course is an introduction to cartography and is the cornerstone of Geographic Information Science. In this class you will learn basic map design, map interpretation and appreciation. We will explore the nature of spatial data, and learn what maps can and cannot represent. We will study maps as a data source for Geographic Information Systems, and as a graphic tool for scientific visualizations.
Grade Mode: Normal Grading Mode

GEO 424 Transportation Geography **3 Credit hours**
A geographic analysis of transportation and its spatial organization. Concepts, models, and analytical methods related to traffic demand, network configuration, and allocation of transport facilities are covered.
Grade Mode: Normal Grading Mode

GEO 425 Climatology **4 Credit hours**
A study of elements of weather and climate, methods of climatic classification, and the distribution and characteristics of world climate regions. A study of elements of weather and climate, methods of climatic classification, and the distribution and characteristics of world climate regions.
Grade Mode: Normal Grading Mode

GEO 426 Principles of GIS **4 Credit hours**
Introduction to Geographic Information Systems (GIS) principles, techniques, and applications for the social and natural sciences with emphasis on foundational geographic principles in a lecture/lab format.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

GEO 427 Principles of GIS II **4 Credit hours**
Students apply GIS principles and techniques to geoprocess and manipulate geographic data, including topics such as geodatabase management, python scripting, model building, web mapping and data services, and spatial analysis.
Pre-req: GEO 423 with a minimum grade of D or GEO 426 with a minimum grade of D or GEO 429 with a minimum grade of D or GEO 430 with a minimum grade of D or NRRM 423 with a minimum grade of D or NRRM 433 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 429 Location Analysis and GIS **4 Credit hours**
Concepts, models, and methods of geographic location analysis of natural resource extraction, manufacturing, services, retail and market area analytics, and logistics using GIS.
Pre-req: GEO 423 with a minimum grade of D or GEO 426 with a minimum grade of D or GEO 427 with a minimum grade of D or GEO 430 with a minimum grade of D or NRRM 423 with a minimum grade of D or NRRM 433 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 430 Environmental Raster GIS **4 Credit hours**
Environmental Applications of GIS raster analysis, including local, neighborhood, and zonal operations, terrain analysis, distance modeling, and surface interpolation, data collection and input, and advanced spatial analysis using GIS.
Pre-req: GEO 426 or GEO 429 or IST 423.
Grade Mode: Normal Grading Mode

GEO 431 Remote Sensing & Photogram **4 Credit hours**
Scientific study of the earth using images and data captured using satellite- or aircraft-borne sensors, with emphasis on issues of acquisition, photogrammetric interpretation, spatial analysis and application.
Pre-req: GEO 426 with a minimum grade of D or GEO 429 with a minimum grade of D or GEO 430 with a minimum grade of D or IST 423 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GEO 432 Enterprise GIS **3 Credit hours**
Principles and techniques for planning, implementing, and managing Geographic Information Systems technologies in a firm or agency.
Pre-req: GEO 426 or GEO 429 or GEO 430 or GEO 431 or IST 423.
Grade Mode: Normal Grading Mode

GEO 433 GPS & Mobile Geospatial Tech **3 Credit hours**
An analysis of the design and deployment of Global Navigation Satellite Systems such as GPS (Global Positioning System) and their application to mobile map services.
Pre-req: GEO 426 or GEO 429 or GEO 430 or GEO 431 or IST 423.
Grade Mode: Normal Grading Mode

GEO 434 Floods Hazards and GIS **3 Credit hours**
Application of principles of flood hazards preparation, disaster management, and mitigation using Geographic Information Systems (GIS).
Grade Mode: Normal Grading Mode

GEO 440 Spatial Statistics and GIS **4 Credit hours**
Statistical methods applied to problem solving in geography and using GIS for display and analysis. Primary focus on descriptive and inferential spatial statistics, mapping, and spatial analysis of data.
Grade Mode: Normal Grading Mode

GEO 450 Extreme Weather **4 Credit hours**
Basics of extreme weather phenomena including hurricanes, tornadoes, floods, droughts, blizzards, and how to mitigate the impacts.
Grade Mode: Normal Grading Mode

GEO 454 Drones: Remote Sensing & GIS **3 Credit hours**
Learn FAA rules and safety procedures; prepare for Remote Pilot licensing exam; operate drones to collect remote sensing data; process imagery for analysis; integrate sUAS imagery with existing GIS data.
Grade Mode: Normal Grading Mode

GEO 460 Weather Analysis **4 Credit hours**
Introduction to reading weather maps and meteorological analysis techniques including satellite and radar image interpretation and numerical weather prediction.
Grade Mode: Normal Grading Mode

GEO 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

GEO 486 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

GEO 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GEO 490 Internship **1-6 Credit hours**
Cooperative learning experience with regional employer/government agency.
Attributes: No Textbook Required
Grade Mode: Credit/No Credit Grade Only

GEO 498 Senior Capstone **2 Credit hours**
This senior capstone course combines research methods, data collection, and analysis to produce original research on questions and problems in geography. Par I: Pilot Project.
Pre-req: GEO 300 with a minimum grade of D and (GEO 423 with a minimum grade of D or GEO 426 with a minimum grade of D).
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

GEO 499 Senior Capstone II **1-3 Credit hours**
This senior capstone course combines research methods, data collection, and analysis to produce original research on questions and problems in geography. Part II.
Pre-req: GEO 426 with a minimum grade of D and (MTH 225 with a minimum grade of D or GEO 440 with a minimum grade of D or MGT 218 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D or ANT 301 with a minimum grade of D or EDF 417 with a minimum grade of D).
Attributes: American Institutions, Capstone Course
Grade Mode: Normal Grading Mode

Geology (GLY)

- General Education Course

GLY 100 Geologic Hazards & Resources **3 Credit hours**
Introductory course for non-science majors focusing on (i) Earth Hazards; and mitigation, (ii) Climate change and its impacts; and (iii) Earth and Energy resources, their origin, development, and environmental impacts.
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GLY 150 Intro Oceanography **3 Credit hours**
Origin of the seas and ocean basins. Processes of marine sedimentation and seawater chemistry. Dynamics of air/sea interaction, circulation, waves and tides. Description of coastal and other marine environments. Origin of the seas and ocean basins. Processes of marine sedimentation and seawater chemistry. Dynamics of air/sea interaction, circulation, waves and tides. Description of coastal and other marine environments.
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GLY 150L Intro Oceanography Lab **1 Credit hour**
A complementary laboratory to Introductory Oceanography, GLY 150. A series of exercises relating to bathymetry, accoustic profiling, marine charts, properties of seawater, sea floor sediments, currents, waves and tides. A complementary laboratory to Introductory Oceanography, GLY 150. A series of exercises relating to bathymetry, accoustic profiling, marine charts, properties of seawater, sea floor sediments, currents, waves and tides.
Co-req: GLY 150
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GLY 170 Geology of the National Parks **3 Credit hours**
An introduction to U.S. Parks and Monuments including earth materials, plate tectonic setting, formative geologic processes, and natural history; brief overview of history and purpose of the National Park Service.
Grade Mode: Normal Grading Mode

GLY 200 The Dynamic Earth **3 Credit hours**
An elementary but comprehensive physical geology course that deals with the earth's origin, composition, structures, tectonics and processes. Intended primarily for, but not limited to, the science major. 3 lec. An elementary but comprehensive physical geology course that deals with the earth's origin, composition, structures, tectonics and processes. Intended primarily for, but not limited to, the science major. 3 lec.
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GLY 201 The Earth Through Time **3 Credit hours**
Introduction to 1) the principles used to interpret past physical, biologic, and chemical events archived in rock record, and 2)the history and development of the earth's lithosphere, biosphere, hydrosphere, and atmosphere.
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GLY 210L Earth Materials Lab **1 Credit hour**
An introduction to laboratory methods and materials as applied to the identification, classification, recovery and uses of earth resources. 2 lab. An introduction to laboratory methods and materials as applied to the identification, classification, recovery and uses of earth resources. 2 lab.
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GLY 211L Earth Through Time Lab **1 Credit hour**
Reconstruction of events in earth history based on physical characteristics and arrangement of rock layers and their fossil contens. 2 hr lab (PR: 210L; CR: GLY 201) Reconstruction of events in earth history based on physical characteristics and arrangement of rock layers and their fossil contens. 2 hr lab (PR: 210L; CR: GLY 201)
Attributes: No Textbook Required, Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

GLY 212 Geologic Field Methods **3 Credit hours**
Introduction to geologic map interpretation, qualitative and quantitative methods of geologic map and cross-section preparation, and basic ArcGIS mapping methods. 2 lec 1 lab. (Field Work).
Pre-req: (GLY 200 with a minimum grade of D or GLY 201 with a minimum grade of D) and (GLY 210L with a minimum grade of D or GLY 211L with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 280 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 281 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 282 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 283 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 313 Structural Geology **4 Credit hours**
Analysis, classification and origin of depositional and deformational structures common to all classes of rocks; their structural history, relationships, and stresses which caused them. 3 lec-2 lab. Analysis, classification and origin of depositional and deformational structures common to all classes of rocks; their structural history, relationships, and stresses which caused them. 3 lec-2 lab.
Pre-req: GLY 110 or GLY 200.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 314 Mineralogy **4 Credit hours**
Identification, classification, orgin, occurrences, and economic uses of minerals and their crystallographic forms. 3 lec-2 lab. Identification, classification, orgin, occurrences, and economic uses of minerals and their crystallographic forms. 3 lec-2 lab.
Pre-req: GLY 200 with a minimum grade of D and CHM 211 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 320L Geology Lab Techniques **2 Credit hours**
Techniques of collection, preparation and analysis of mineral, rock and water samples, and the use of different instruments for obtaining quality data. Will also cover tools used for data interpretation. Techniques of collection, preparation and analysis of mineral, rock and water samples, and the use of different instruments for obtaining quality data. Will also cover tools used for data interpretation.
Pre-req: GLY 200 (may be taken concurrently) with a minimum grade of D and GLY 210L (may be taken concurrently) with a minimum grade of D.
Concurrent PR: GLY 200 and GLY 210L
Grade Mode: Normal Grading Mode

GLY 325 Stratigraphy & Sediment **4 Credit hours**
Formation, organization, sequence, and correlation of sedimentary rocks; study of the orgin, transportation and deposition of rock-forming sediments. 3 lec-2 lab. Formation, organization, sequence, and correlation of sedimentary rocks; study of the orgin, transportation and deposition of rock-forming sediments. 3 lec-2 lab.
Pre-req: GLY 201 with a minimum grade of D and GLY 211L with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 330 Tectonics **3 Credit hours**
Overview of tectonic processes at plate boundaries, orogenic systems, formation of continents and ocean basins, and tectonic analytical methods.
Pre-req: GLY 200 and GLY 201 and GLY 210L and GLY 211L.
Grade Mode: Normal Grading Mode

GLY 410 Big Bend Field Excursion **2 Credit hours**
Field trip to Big Bend National Park, Texas to study the structure, stratigraphy, igneous geology, metamorphic geology, paleontology and natural history of this national park. Field trip to Big Bend National Park, Texas to study the structure, stratigraphy, igneous geology, metamorphic geology, paleontology and natural history of this national park.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 418 Invertebrate Paleontology **4 Credit hours**
Taxonomy, morphology, and paleoecology of body and trace fossils representing the major invertebrate phyla; analysis and interpretation of faunal assemblages; evolution and extinction of species. (PR: GLY 201) Taxonomy, morphology, and paleoecology of body and trace fossils representing the major invertebrate phyla; analysis and interpretation of faunal assemblages; evolution and extinction of species. (PR: GLY 201)
Pre-req: GLY 201 with a minimum grade of D and GLY 211L with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 420 Principles of Geochemistry **3 Credit hours**
Application of chemical principles to geology. Topics include cosmochemistry; distribution of elements in minerals and rocks; aqueous solutions and water-rock interaction; radiometric age dating and stable isotope geology.
Pre-req: CHM 211 with a minimum grade of D and GLY 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GLY 421 Igneous& Metamorphic Petrology **4 Credit hours**
Indentification and classification of igneous, and metamorphic rocks, their origin and occurrence; their geologic and economic importance. 3 lec-2 lab. Indentification and classification of igneous, and metamorphic rocks, their origin and occurrence; their geologic and economic importance. 3 lec-2 lab.
Pre-req: GLY 200 with a minimum grade of D and GLY 314 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 423 Sedimentary Petrology **4 Credit hours**
Microscopic description of minerals, textures, and fossils in sedimentary rocks, their classification, and interpretation of source area, depositional environment and post-depositional history. 3 lec-2 lab.
Pre-req: GLY 201.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 426 Geophysics **3 Credit hours**
Development of seismic, gravity, magnetism, electrical and thermal methods of studying the structure and dynamics of the earth. 3-lec
Pre-req: GLY 200 with a minimum grade of D and GLY 210L with a minimum grade of D and (PHY 201 with a minimum grade of D or PHY 211 with a minimum grade of D) and MTH 229 with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 427 Fossil Fuels **4 Credit hours**
Origin and distribution of coal, oil and gas, and methods of exploration and reserve evaluaton. 3 lec-2 lab. Origin and distribution of coal, oil and gas, and methods of exploration and reserve evaluaton. 3 lec-2 lab.
Pre-req: GLY 200.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 451 Principles Geomorphology **4 Credit hours**
Principles of identification and analysis of the world's surficial features in terms of stratigraphy, structure, processes, tectonics and time. 3 lec. 2 lab. Principles of identification and analysis of the world's surficial features in terms of stratigraphy, structure, processes, tectonics and time. 3 lec. - 2 lab.
Pre-req: GLY 200 and GLY 210L.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 455 Hydrogeology **3 Credit hours**
The properties of water, the hydrologic cycle with emphasis on surface and groundwater processes, the uses, needs and problems associated with water resources. 3 lec. The properties of water, the hydrologic cycle with emphasis on surface and groundwater processes, the uses, needs and problems associated with water resources. 3 lec.
Pre-req: GLY 200 with a minimum grade of D and (MTH 132 with a minimum grade of D or MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 455L Hydrogeology Laboratory **1 Credit hour**
A two-hour laboratory of practical hydrogeologic problem solving. For non-majors, elective. A two-hour laboratory of practical hydrogeologic problem solving. For non-majors, elective.
Pre-req: GLY 455 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: GLY 455
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 456 Environmental Geology **4 Credit hours**
Consideration of risks posed by natural geo-hazards and from physical/chemical contamination of geologic media. (PR: GLY 200, GLY 210L or equivalent; Recommended: GLY 451) Consideration of risks posed by natural geo-hazards and from physical/chemical contamination of geologic media. (PR: GLY 200, GLY 210L or equivalent; Recommended: GLY 451)
Pre-req: GLY 200 with a minimum grade of D and GLY 210L with a minimum grade of D.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 457 Engineering Geology **4 Credit hours**
Consideration of geotechnical problems faced by geologists and engineers. Major topics include mechanics and classification of soil and rock, and geotechnical aspects of groundwater.
Pre-req: GLY 200 with a minimum grade of D and GLY 210L with a minimum grade of D and (MTH 132 with a minimum grade of D or MTH 229 with a minimum grade of D).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 480 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 481 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 482 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 483 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required, Natural Sciences
Grade Mode: Normal Grading Mode

GLY 486 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 487 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 488 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

GLY 491 Capstone Experience **2-4 Credit hours**
An independent study involving a research project or internship. Must be approved by Geology faculty. (PR: 20 hours of Geology coursework).
Attributes: Capstone Course, Natural Sciences
Grade Mode: Normal Grading Mode

GLY 492 Capstone Experience **2-4 Credit hours**
An independent study involving a research project or internship. Must be approved by Geology faculty. (PR: 20 hours of Geology coursework).
Attributes: Capstone Course, Natural Sciences
Grade Mode: Normal Grading Mode

German (GER)

- General Education Course

GER 101 Elementary German I **3 Credit hours**
Pronunciation, conversation, reading, and composition with an emphasis on aural/oral development. Pronunciation, conversation, reading, and composition with an emphasis on aural/oral development.
Grade Mode: Normal Grading Mode

GER 102 Elementary German II **3 Credit hours**
Pronunciation, conversation, reading, and composition with an emphasis on aural/oral development. Pronunciation, conversation, reading, and composition with an emphasis on aural/oral development.
Pre-req: GER 101 with a minimum grade of C.
Grade Mode: Normal Grading Mode

GER 203 Intermediate German I **3 Credit hours**
Continuation on the intermediate level of the basic language skills: pronunciation, conversation, reading, and composition with an emphasis on aural/oral development. (PR: GER 102 or 3 units of high school German) Continuation on the intermediate level of the basic language skills: pronunciation, conversation, reading, and composition with an emphasis on aural/oral development. (PR: GER 102 or 3 units of high school German)
Pre-req: GER 102 with a minimum grade of C.
Grade Mode: Normal Grading Mode

GER 204 Intermediate German II **3 Credit hours**
Continuation on the intermediate level of the basic language skills: pronunciation, conversation, reading and composition with an emphasis on aural/oral development. (PR: GER 203 or 4 units of high school German) Continuation on the intermediate level of the basic language skills: pronunciation, conversation, reading and composition with an emphasis on aural/oral development. (PR: GER 203 or 4 units of high school German)
Pre-req: GER 203 with a minimum grade of C.
Attributes: Foreign Language
Grade Mode: Normal Grading Mode

GER 240 German Society & Life **3 Credit hours**
Study of selected topics relating to culture and life in the German speaking countries. Lectures, readings, and discussions in English, No prerequisite. Study of selected topics relating to culture and life in the German speaking countries. Lectures, readings, and dis- cussions in English, No prerequisite.
Attributes: Core II Humanities, International
Grade Mode: Normal Grading Mode

GER 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GER 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GER 315 Advanced Grammar, Conv, Comp **3 Credit hours**
Study of idioms, grammatical structure, and syntax through conversation and composition.
Pre-req: GER 204.
Grade Mode: Normal Grading Mode

GER 316 Advanced Grammar & Conv & Comp **3 Credit hours**
Study of idioms, grammatical structure, and syntax through conversation and composition.
Pre-req: GER 204.
Grade Mode: Normal Grading Mode

GER 425 Grimm's Fairy Tales **3 Credit hours**
Taught in English this course will focus on many of the Brothers Grimm's collection of 279 fairy tales, augmented by additional readings and film showings.
Attributes: Literature
Grade Mode: Normal Grading Mode

GER 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GER 481 Special Topics **1-4 Credit hours**
Pre-req: GER 204.
Grade Mode: Normal Grading Mode

GER 485 Independent Study **1-4 Credit hours**
Pre-req: GER 204.
Grade Mode: Normal Grading Mode

GER 486 Independent Study **1-4 Credit hours**
Pre-req: GER 204.
Grade Mode: Normal Grading Mode

Greek (GRK)

- General Education Course

GRK 150 Intro Anc Greek (Consortium) **4 Credit hours**
Introduction to the language of Ancient Greece. Part 1 of a three course grammar sequence. (Taught through MU/OU Consortium delivery)
Grade Mode: Normal Grading Mode

GRK 151 Intro Anc Greek 2 **4 Credit hours**
Introduction to the language of Ancient Greece. Part two of a three course grammar sequence. (Taught through MU/OU Consortium Delivery)
Pre-req: GRK 150 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GRK 201 Ancient Greek First Year **3 Credit hours**
Grade Mode: Normal Grading Mode

GRK 202 Ancient Greek First Year **3 Credit hours**
Pre-req: GRK 201.
Grade Mode: Normal Grading Mode

GRK 250 Intro Anc Greek 3 **3 Credit hours**
Introduction to the language of Ancient Greece. Part three of a three course grammar sequence. (Taught through MU/OU Consortium Delivery)
Pre-req: GRK 151 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GRK 251 Intermed Greek 1 **3 Credit hours**
Intermediate Ancient Greek familiarizes you with translating continuous original texts from the ancient world. (Taught through MU/OU Consortium Delivery)
Pre-req: GRK 250 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GRK 301 Anc Intermed Greek **3 Credit hours**
Varied readings including selections form Homer's Iliad, Dialogues of Plato and the New Testament. Varied readings including selections form Homer's Iliad, Dialogues of Plato and the New Testament.
Pre-req: GRK 202.
Grade Mode: Normal Grading Mode

GRK 302 Anc Intermed Greek **3 Credit hours**
Pre-req: GRK 301.
Attributes: Foreign Language
Grade Mode: Normal Grading Mode

GRK 350 Intermed Greek 2 **3 Credit hours**
Intermediate Ancient Greek familiarizes you with translating continuous original texts from the ancient world. (Taught through MU/OU Consortium Delivery)
Pre-req: GRK 251 with a minimum grade of D.
Grade Mode: Normal Grading Mode

GRK 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

GRK 485 Independent Study **1-4 Credit hours**
Pre-req: GRK 302.
Grade Mode: Normal Grading Mode

GRK 486 Independent Study **1-4 Credit hours**
Pre-req: GRK 302.
Grade Mode: Normal Grading Mode

GRK 487 Independent Study **1-4 Credit hours**
Pre-req: GRK 302.
Grade Mode: Normal Grading Mode

GRK 488 Independent Study **1-4 Credit hours**
Pre-req: GRK 302.
Grade Mode: Normal Grading Mode

Health Education (HE)

- General Education Course

HE 122 First Aid Child & Infants **1 Credit hour**
First aid and CPR for children and infants related to the home, school, and playground. First aid and CPR for children and infants related to the home, school, and playground.
Grade Mode: Normal Grading Mode

HE 430 Health Iss in PE and Ath **3 Credit hours**
Grade Mode: Normal Grading Mode

HE 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

Health Professions (HP)

- General Education Course

HP 110 Intro to the Health Profession **3 Credit hours**
This course is designed to provide an overview of the health care system and health professions taught within the MU campus and throughout the state.
Grade Mode: Normal Grading Mode

HP 210 Health Sciences Seminar **3 Credit hours**
This course is designed to bring outside non-clinical speakers to discuss professionalism in health care. Students analyze career opportunities and establish non-clinical career expectations.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

HP 240 Intro to Human Diseases in HS **3 Credit hours**
A clinical overview of the common human diseases at a patient and scientist level, with emphasis on bridging the communication gap between health professionals, patients, and the general public.
Grade Mode: Normal Grading Mode

HP 320 Intro to Res in Health Prof **3 Credit hours**
This course covers the basic quantitative and qualitative research techniques used in the health professions.
Pre-req: HP 210 with a minimum grade of D or HP 240 with a minimum grade of D.
Grade Mode: Normal Grading Mode

HP 420 Allied Health Sciences Admin **3 Credit hours**
In this course students will explore and apply allied health sciences principles as they related to the student's focus in the Health Sciences major.
Grade Mode: Normal Grading Mode

HP 450 BHS Senior Seminar **1 Credit hour**
Opportunity for students to explore current topics related to areas of interest.
Grade Mode: Normal Grading Mode

HP 480 Special Topics in HP **1-4 Credit hours**
Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP
Grade Mode: Normal Grading Mode

HP 481 Special Topics in HP **1-4 Credit hours**
Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP
Grade Mode: Normal Grading Mode

HP 482 Special Topics in HP **1-4 Credit hours**
Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP
Grade Mode: Normal Grading Mode

HP 483 Special Topics in HP **1-4 Credit hours**
Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP Courses will be developed in special topics in Health Professions as deemed necessary by the Dean, COHP
Grade Mode: Normal Grading Mode

HP 490 Capstone **3-6 Credit hours**
This course offers an opportunity for students to demonstrate that they have achieved the goals for learning established the Bachelor of Health Sciences Program.
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

Health Science (HS)

- General Education Course

HS 122 First Aid Child & Infants **1 Credit hour**
Grade Mode: Normal Grading Mode

HS 200 Comp Medical Terminology (CT) **3 Credit hours**
This course is designed to introduce students to basic medical terminology and basic pharmacology. This course is designed to introduce students to basic medical terminology and basic pharmacology.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

HS 201 Intro Appl Anat & Physiol **3 Credit hours**
Focuses on basic anatomy and physiology as applied to physical activity. Focuses on basic anatomy and physiology as applied to physical activity.
Grade Mode: Normal Grading Mode

HS 212 Practical & Emerging Tech AT **3 Credit hours**
This course introduces students to taping, wrapping, and advanced emergency care techniques used in athletic training. (PR: Admission to the Athletic Training Program)
Grade Mode: Normal Grading Mode

HS 215 Intro to Athletic Training **3 Credit hours**
Survey and study of the basic techniques and practices of athletic training.
Pre-req: HS 200 (may be taken concurrently) with a minimum grade of D or HS 201 (may be taken concurrently) with a minimum grade of D or HS 222 (may be taken concurrently) with a minimum grade of D or BSC 227 (may be taken concurrently) with a minimum grade of D or BSC 332 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: HS 200 or HS 201 or HS 222 or BSC 227 or BSC 332
Grade Mode: Normal Grading Mode

HS 220 Personal Health **3 Credit hours**
A survey course that focuses upon wellness promotion and prevention of various health problems.
Grade Mode: Normal Grading Mode

HS 221 Personal Health II **3 Credit hours**
An examination of the health content areas of mental/emotional health, substance use/abuse, and human sexuality/family life education.
Grade Mode: Normal Grading Mode

HS 222 Hlth Prov First Aid/CPR/AED **3 Credit hours**
First Aid, CPR, and AED skills for health care providers. Additional topics include musculoskeletal injuries, environmental conditions, and sudden illness.
Grade Mode: Normal Grading Mode

HS 230 Orthopedic Skills **3 Credit hours**
An intensive hands-on course for allied health majors that introduces the orthopedic assessment and testing skills needed to perform effective evaluations on the field and in the clinical setting.
Grade Mode: Normal Grading Mode

HS 235 Intro to Worksite Wellness **3 Credit hours**
An introduction to worksite wellness programming including the basic components of an effective wellness program and how to integrate wellness into corporate culture.
Grade Mode: Normal Grading Mode

HS 255 AT Clinical Exp: Level I **2 Credit hours**
To begin developing athletic training evaluation and treatment skills under the direction of a BOC certified Athletic Trainer. Requires 150 clinical hours. (CR: Admission to the Athletic Training Program)
Pre-req: HS 215.
Grade Mode: Normal Grading Mode

HS 265 Fund Video Analysis Mvmt (CT) **3 Credit hours**
Fundamental concepts and techniques for analyzing human movement during sport, exercise, and occupation. Students will develop qualitative and video-based analysis skills as used in sports science labs and rehabilitation clinics.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

HS 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 321 School Health Program **3 Credit hours**
Pre-req: HS 221 or HE 221 or HS 220 or HE 220.
Grade Mode: Normal Grading Mode

HS 335 Worksite Health Assessment **3 Credit hours**
An investigation into worksite health assessment models and modes.
Pre-req: HS 235 with a minimum grade of C.
Grade Mode: Normal Grading Mode

HS 336 Org & Admin Worksite Wellness **3 Credit hours**
This is a course that investigates current trends in worksite wellness organization & administration and provides instruction of wellness and prevention interventions into corporate culture and business plans.
Pre-req: HS 235 with a minimum grade of C.
Grade Mode: Normal Grading Mode

HS 345 Worksite Wellness Prescription **3 Credit hours**
This is a course that investigates prescription of worksite wellness programming based on data collection methods and current industry Best Practices for wellness interventions.
Pre-req: HS 336 with a minimum grade of C.
Grade Mode: Normal Grading Mode

HS 346 Eval Worksite Wellness Program **3 Credit hours**
This course investigates the effectiveness of worksite wellness programming. Students will understand what components of a program should be evaluated and how to calculate return on investment for intervention.
Pre-req: HS 336 with a minimum grade of C.
Grade Mode: Normal Grading Mode

HS 360 AT Clinical Exp: Level II **2 Credit hours**
To continue developing athletic training evaulation and treatment skills under the direction of a BOC certified Athletic Trainer. Requires 150 clinical hours. (PR: HS255)
Pre-req: HS 255.
Grade Mode: Normal Grading Mode

HS 361 AT Clinical Exp: Level III **2 Credit hours**
To continue developing athletic training evaluation and treatment skills under the direction of a BOC certified Athletic Trainer and/or other qualified allied health professionals. Requires 150 clinical hours. (PR: HS360)
Pre-req: HS 360.
Grade Mode: Normal Grading Mode

HS 365 Functional Kinesiology **3 Credit hours**
Applied anatomy of the human musculature and biomechanics in relation to physical activity.
Pre-req: BSC 227 with a minimum grade of D or HS 201 with a minimum grade of D.
Grade Mode: Normal Grading Mode

HS 369 Motor Learning **3 Credit hours**
A study of the factors contributing to the acquisition, improvement and retention of gross motor skills. Stages of motor development and learning will be examined from a behavioral approach.
Grade Mode: Normal Grading Mode

HS 405 Sport Psychology **3 Credit hours**
An examination of theory, research, and application of psychological principles related to sport and exercise.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

HS 410 Organ Admin in Athletic Trng **3 Credit hours**
This is a course that investigates current trends in administration and organization in the field of athletic training. This is a course that investigates current trends in administration and organization in the field of athletic training.
Pre-req: HS 215.
Grade Mode: Normal Grading Mode

HS 423 Ortho Assess Upper Extremity **4 Credit hours**
Orthopedic evaluation techniques of the thoracic and cervical spines and the upper extremities. Anatomy, injury recognition, stress and special testing, treatment protocols, and preventative measure will be examined.
Pre-req: HS 215.
Grade Mode: Normal Grading Mode

HS 424 Ortho Assess Lower Extremity **4 Credit hours**
Orthopedic evaluation techniques of the lumbar spine and the lower extremities. Anatomy, injury recognition, stress and special testing, treatment protocols, and preventative measures will be examined.
Pre-req: HS 215.
Grade Mode: Normal Grading Mode

HS 430 Health Iss in PE & Ath **3 Credit hours**
Grade Mode: Normal Grading Mode

HS 435 Biomech Programs Applications **3 Credit hours**
Students will develop computer programming skills by designing and writing code to process and analyze the biomechanical data they collect. Students will transfer the functions they write to various applications.
Pre-req: HS 365 with a minimum grade of D and PHY 203 (may be taken concurrently) with a minimum grade of D and PHY 204 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 203 and PHY 204
Grade Mode: Normal Grading Mode

HS 440 Health Eval Ath Trn I **3 Credit hours**
Pre-req: HS 423.
Grade Mode: Normal Grading Mode

HS 448 Therapeutic Interventions I **4 Credit hours**
Therapeutic modality application in the initial stages of injury, and modality and therapeutic exercise selection and prescription based upon patient responses for injuries to the lower extremity and lumbar spine.
Pre-req: HS 215.
Grade Mode: Normal Grading Mode

HS 449 Therapeutic Interventions II **4 Credit hours**
Instruction of electrical stimulation modalities and therapeutic exercise rehabilitation of the upper extremity and cervical spine, including post-surgical rehabilitation. Strategies for psychosocial intervention will also be addressed. (PR: HS 448)
Pre-req: HS 448.
Grade Mode: Normal Grading Mode

HS 460 AT Clinical Exp: Level IV **2 Credit hours**
To continue developing athletic training evaluation and treatment skills under the direction of a BOC certified Athletic Trainer and/or other qualified allied health professionals. Requires 150 clinical hours. (PR: HS361)
Pre-req: HS 361.
Grade Mode: Normal Grading Mode

HS 464 Pathomechanics **3 Credit hours**
An investigation into normal and abnormal human movement patterns in sport, the workplace, and in activities of daily living. An investigation into normal and abnormal human movement patterns in sport, the workplace, and in activities of daily living.
Pre-req: HS 365 with a minimum grade of D and HS 465 with a minimum grade of D.
Grade Mode: Normal Grading Mode

HS 465 Biomechanical Analy of Mvmt **3 Credit hours**
An investigation into the science of human motion and its relationship to the envirionment in which it is performed.
Pre-req: HS 365 with a minimum grade of D and PHY 201 with a minimum grade of D and PHY 202 with a minimum grade of D.
Grade Mode: Normal Grading Mode

HS 475 Trends in Biomechanics **3 Credit hours**
Pre-req: HS 465 with a minimum grade of D and HS 365 with a minimum grade of D.
Grade Mode: Normal Grading Mode

HS 478 Research Practicum Biomechanic **3-6 Credit hours**
This course offers "hands-on" work within the biomechanics lab. The student will assist with current research. This experience that allows students to gain practical experience within a lab setting.
Pre-req: BSC 227 with a minimum grade of D.
Grade Mode: Normal Grading Mode

HS 479 Trends Ath Trng **3 Credit hours**
Pre-req: HS 361.
Grade Mode: Normal Grading Mode

HS 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HS 490 Internship **1-8 Credit hours**
Supervised clinical experience in an approved setting. Can be repeated for a total of 8hrs. Capstone experience requires 3hrs minimum in one term. (PR: program permission)
Pre-req: HS 475 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

HS 495 Trends in Biomechanics II **3 Credit hours**
A final investigation into normal and abnormal human movement patterns in sport, the workplace, and activities of daily living.
Pre-req: HS 475 with a minimum grade of D.
Grade Mode: Normal Grading Mode

History (HST)

- General Education Course

HST 101 Great Civs to 1300 (CT) **3 Credit hours**
Comparative study of the origin and course of major civilizations focusing on the Middle East, India, China, and the West. This class emphasizes critical thinking skills. Comparative study of the origin and course of major civilizations focusing on the Middle East, India, China, and the West. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 101H Great Civs to 1300 (CT) **3 Credit hours**
Comparative study of the origin and course of major civilizations focusing on the Middle East, India, China, and the West. This honors section emphasizes critical thinking skills.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Critical Thinking, Honors, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 102 World & West 1300-1850 (CT) **3 Credit hours**
An interdisciplinary analysis of the foundations of Western development. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 102H World & West 1300-1850 (CT) **3 Credit hours**
An interdisciplinary analysis of the foundations of Western development. This class emphasizes critical thinking skills.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Critical Thinking, Honors, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 103 The World Since 1850 (CT) **3 Credit hours**
Major world developments and trends from the middle of the 19th century to the present and their implications for the future. This class emphasizes critical thinking skills. Major world developments and trends from the middle of the 19th century to the present and their implications for the future. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 103H World Since 1850 Honors (CT) **3 Credit hours**
Survey for superior students of world developments and trends from the 19th century to the present and their implications for the future. Survey for superior students of world developments and trends from the 19th century to the present and their implications for the future.
Pre-req: ACT Composite with a score of 26 or SAT Verbal Before March 16 with a score of 600.
Attributes: Critical Thinking, Honors, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 200 History Methods Workshop **3 Credit hours**
This course is an introduction to the most fundamental methods of the discipline. Students will learn to use library resources, practice document interpretation skills, and identify and evaluate historical arguments. This course is an introduction to the most fundamental methods of the discipline. Students will learn to use library resources, practice document interpretation skills, and identify and evaluate historical arguments.
Attributes: Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 208 The Developing World (CT) **3 Credit hours**
A survey of selected Third World countries focusing on imperialism, colonialism and developmental interests. This class emphasizes critical thinking skills. A survey of selected Third World countries focusing on imperialism, colonialism and developmental interests. This class emphasizes critical thinking skills.
Attributes: Critical Thinking, International, Core II Social Sciences, World History
Grade Mode: Normal Grading Mode

HST 218 Ancient Egypt **3 Credit hours**
A survey of the history of Egypt from the pre-dynastic kings through the reign of Cleopatra with emphasis on religious, cultural, social, political and economic developments.
Attributes: World History
Grade Mode: Normal Grading Mode

HST 219 Ancient History **3 Credit hours**
A survey of the ancient Near East, Greece, and Rome with emphasis on Greek and Roman civilization from Mycenaean times through the Roman Empire of the 5th century. Open to all undergraduates. A survey of the ancient Near East, Greece, and Rome with emphasis on Greek and Roman civilization from Mycenaean times through the Roman Empire of the 5th century. Open to all undergraduates.
Attributes: European History, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 220 European Hist Medieval **3 Credit hours**
A survey of the history of Europe from the later Roman Empire to the end of the Middle Ages with emphasis on religious, cultural, social, political and economic developments. Open to all undergraduates. A survey of the history of Europe from the later Roman Empire to the end of the Middle Ages with emphasis on religious, cultural, social, political and economic developments. Open to all undergraduates.
Attributes: European History, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 223 Rise & Fall Nazi Germany **3 Credit hours**
A study of the origins, course, and collapse of the Third Reich. Some attention will be given to pre-Nazi period. A study of the origins, course, and collapse of the Third Reich. Some attention will be given to pre-Nazi period.
Attributes: European History, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

HST 230 American History to 1877 (CT) **3 Credit hours**
A general survey from the discovery in 1492 through the period of Reconstruction. This class emphasizes critical thinking skills. A general survey from the discovery in 1492 through the period of Reconstruction. This class emphasizes critical thinking skills.
Attributes: American Institutions, Critical Thinking, Multicultural, Core II Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 230H Amer Hist to 1877-Honors **3 Credit hours**
A survey of American History to 1877 for the superior student. A survey of American History to 1877 for the superior student.
Pre-req: ACT Composite with a score of 26 or SAT Verbal Before March 16 with a score of 600.
Attributes: American Institutions, Core II Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 231 American Hist From 1877 (CT) **3 Credit hours**
A general survey since Reconstruction. This class emphasizes critical thinking skills. A general survey since Reconstruction. This class emphasizes critical thinking skills.
Attributes: American Institutions, Critical Thinking, Multicultural, Core II Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 231H US Hist Since 1877-Honors **3 Credit hours**
Pre-req: ACT Composite with a score of 26 or SAT Verbal Before March 16 with a score of 600.
Attributes: American Institutions, Honors, Social Sciences, Core II Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 250 Women in US History **3 Credit hours**
A study of the public and private contributions of women in the shaping of the United States from the Colonial period to the present. A study of the public and private contributions of women in the shaping of the United States from the Colonial period to the present.
Attributes: Core II Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 260 Rise of Islam 570-1750 **3 Credit hours**
A study of the Middle Eastern region from pre-Islamic Arabia to the pinnacle of Ottoman imperial control. Emphasis is placed on cultural, social, and political developments. A study of the Middle Eastern region from pre-Islamic Arabia to the pinnacle of Ottoman imperial control. Emphasis is placed on cultural, social, and political developments.
Attributes: Core II Social Sciences, World History
Grade Mode: Normal Grading Mode

HST 265 Modern East Asia **3 Credit hours**
A survey of the history of East Asia from 17th century to present with a focus on China and Japan. A survey of the history of East Asia from 17th century to present with a focus on China and Japan.
Attributes: Core II Social Sciences, World History
Grade Mode: Normal Grading Mode

HST 280 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

HST 281 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

HST 282 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

HST 283 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

HST 301 Lat Am Discovery-Independ **3 Credit hours**
Emphasis is on conditions in Spain which influenced the development of Latin America and eventually led to the independence movement. Emphasis is on conditions in Spain which influenced the development of Latin America and eventually led to the independence movement.
Attributes: International, World History
Grade Mode: Normal Grading Mode

HST 302 Lat Am Independence-Pres **3 Credit hours**
Emphasis is on the political, economic and social institutions of Argentina, Brazil, Chile and Mexico. Emphasis is on the political, economic and social insti- tutions of Argentina, Brazil, Chile and Mexico.
Attributes: International, World History
Grade Mode: Normal Grading Mode

HST 303 American Military History **3 Credit hours**
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 304 Spanish History Since 1475 **3 Credit hours**
A survey of Spain's historical development emphasizing her rise and decline as a world power, the impact of persistent internal conflict, the Franco dictatorship and the transition to democracy.
Attributes: European History, International
Grade Mode: Normal Grading Mode

HST 305 Drug Wars **3 Credit hours**
This course examines the history of the war on drugs throughout U.S. and Latin American history with an emphasis on the past century.
Attributes: World History
Grade Mode: Normal Grading Mode

HST 306 The Holocaust **3 Credit hours**
An exploration of the why and how of the Holocaust with an emphasis on Nazi Jewish policy from 1933 to 1942. An exploration of the why and how of the Holocaust with an emphasis on Nazi Jewish policy from 1933 to 1942.
Attributes: European History
Grade Mode: Normal Grading Mode

HST 307 The Global Cold War **3 Credit hours**
An international survey of World War II and the Cold War. Topics include military, political, diplomatic, social and cultural history from a global perspective.
Attributes: International, World History
Grade Mode: Normal Grading Mode

HST 308 Baseball in the Americas **3 Credit hours**
It seeks to understand the importance of baseball from a social, cultural and political standpoint. It also explores the use of baseball as a diplomatic tool.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 309 History of the Cherokee **3 Credit hours**
The course explores the history and culture of the Cherokee people from pre-contact through the 21st century.
Grade Mode: Normal Grading Mode

HST 310 History of Global Pandemics **3 Credit hours**
A study of pandemics in world history, from the Plague of Athens to COVID-19.
Attributes: American Institutions, Social Sciences
Grade Mode: Normal Grading Mode

HST 311 World War I **3 Credit hours**
This course explores the First World War. It examines the roots of the conflict, the outbreak, the course of the war, and its chaotic aftermath.
Attributes: World History
Grade Mode: Normal Grading Mode

HST 312 African-American History **3 Credit hours**
A survey of African-American History from African and West Indian origins to the present. A survey of African-American History from African and West Indian origins to the present.
Attributes: American Institutions, Multicultural, United States History
Grade Mode: Normal Grading Mode

HST 314 LGBTQ+ History of the US **3 Credit hours**
A survey of LGBTQIA+ history in the United States from the colonial period to the present. Introduction to the civilization of the area; the establishment of colonial control; liquidation of colonial rule and the readjustment required.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 323 Religion in America **3 Credit hours**
The rise and development of religion and of religious thinking in America. (Same as Religious Studies 323) The rise and development of religion and of religious thinking in America. (Same as Religious Studies 323)
Attributes: American Institutions, Social Sciences, United States History
Grade Mode: Normal Grading Mode

HST 330 Football and American Culture **3 Credit hours**
This class examines the role of football in American culture, politics, the economy and particularly its role in the elevation of college sports. A general treatment from the discovery in 1492 through the period of Reconstruction.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 333 American Colonial History **3 Credit hours**
A study of the historical development of the English colonies in America. A study of the historical development of the English colonies in America.
Attributes: American Institutions, United States History
Grade Mode: Normal Grading Mode

HST 342 American Legal History **3 Credit hours**
Historical development of American law in areas ranging from slavery and racial discrimination to civil liberties and crime and punishment. Historical development of American law in areas ranging from slavery and racial discrimination to civil liberties and crime and punishment.
Attributes: American Institutions, United States History
Grade Mode: Normal Grading Mode

HST 343 The US in the 1970s **3 Credit hours**
The economic, political, social and cultural history of the United States as it shifted from the modern 1960s to the post-modern world of the late 20th century. The economic, political, social and cultural history of the United States as it shifted from the modern 1960s to the post-modern world of the late 20th century.
Attributes: American Institutions, United States History
Grade Mode: Normal Grading Mode

HST 344 The United States in the 1980s **3 Credit hours**
Focusing on the United States in the 1980s global context, this course examines the social, cultural, political, and economic history of the late 20th century.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 347 Southern Women's History **3 Credit hours**
This course explores the lives and experiences of Southern women in the US from the colonial era to the present. This course explores the lives and experiences of Southern women in the US from the colonial era to the present.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 360 Sports and Civil Rights **3 Credit hours**
An examination of the way that sports history reflects important themes in US history such as equality, race, ethnicity, and gender.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

HST 361 The Modern Middle East **3 Credit hours**
A survey of the modern Middle East with emphasis on the historical background of current controversial issues confronting the region. A survey of the modern Middle East with emphasis on the historical background of current controversial issues confronting the region.
Attributes: International, World History
Grade Mode: Normal Grading Mode

HST 362 The Crusades **3 Credit hours**
An examination of the origins, historical progression, and impact of the Crusades from both Christian and Islamic perspectives.
Attributes: Multicultural, World History
Grade Mode: Normal Grading Mode

HST 365 The Civil Rights Movement **3 Credit hours**
An exploration of 20th century movements for civil rights in American history examining race, ethnicity, social class, and gender. An exploration of 20th century movements for civil rights in American history examining race, ethnicity, social class, and gender.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

HST 366 Conspiracies in US History **3 Credit hours**
This course focuses on the ways people have constructed and used conspiracy theories to explain events in U.S. political, cultural, social, and scientific arenas.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 378 Modern Asia **3 Credit hours**
A selective look at Modern Asia, focusing on Japan, China, Korea, Taiwan, Vietnam and Indonesia and American interaction with the Asian nations. No Preq. A selective look at Modern Asia, focusing on Japan, China, Korea, Taiwan, Vietnam and Indonesia and American inter- action with the Asian nations. No Preq.
Attributes: International, World History
Grade Mode: Normal Grading Mode

HST 380 Asia to 1600 **3 Credit hours**
This course will introduce students to the political, cultural, social, and intellectual environment of premodern Asia. Students will also learn to think critically about their own and other societies. This course will introduce students to the political, cultural, social, and intellectual environment of pre- modern Asia. Students will also learn to think critically about their own and other societies.
Attributes: World History
Grade Mode: Normal Grading Mode

HST 390 Food in World History **3 Credit hours**
This course examines the key changes and continuities in human food consumption patterns and practices since the Neolithic period while comparing and contrasting the foodways of major civilizations and cultures.
Attributes: World History
Grade Mode: Normal Grading Mode

HST 392 Food Markets and Modernity **3 Credit hours**
This course examines the social and cultural history of various types of urban food markets in Western Europe and the United States from the late eighteenth century to the present.
Attributes: European History
Grade Mode: Normal Grading Mode

HST 400 Senior Seminar **3 Credit hours**
A capstone course for History majors. Survey of literature and practical experience in methods and sources of history through bibliographical study and research papers. Senior standing or by permission. A capstone course for History majors. Survey of literature and practical experience in methods and sources of history through bibliographical study and research papers. Senior standing or by permission.
Pre-req: HST 101 with a minimum grade of D and HST 102 with a minimum grade of D and HST 103 with a minimum grade of D and HST 200 with a minimum grade of D and HST 230 with a minimum grade of D and HST 231 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

HST 401 History of Appalachia **3 Credit hours**
This course will explore the historical and historiographical development of Appalachia and the economic, political, and cultural forces that have shaped the lives and communities of mountaineers.
Grade Mode: Normal Grading Mode

HST 405 Amer Diplomacy 1900-Pres **3 Credit hours**
American foreign relations in the 20th century. The gradual retreat from isolation in the period between World War I and World War II and modern American involvement in international commitments are stressed. American foreign relations in the 20th century. The gradual retreat from isolation in the period between World War I and World War II and modern American involvement in inter- national commitments are stressed.
Attributes: American Institutions, United States History
Grade Mode: Normal Grading Mode

HST 406 Tudor & Stuart England **3 Credit hours**
A history of England under the Tudors and Stuarts, focusing primarily on demographic, social, cultural, and political developments. A history of England under the Tudors and Stuarts, focusing primarily on demographic, social, cultural, and political developments.
Attributes: European History
Grade Mode: Normal Grading Mode

HST 407 Sex and Sexuality in the US **3 Credit hours**
Examines the history of sex and sexuality in North America in the context of cultural, legal, economic, political and social history from the 16th century to present.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 408 History of LGBT Peoples **3 Credit hours**
A survey of gay, lesbian, bisexual and transgender history in the United States from the colonial period to the present. A survey of gay, lesbian, bisexual and transgender history in the United States from the colonial period to the present.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 409 American Revolution **3 Credit hours**
A varied view of the American Revolution and its impact on the American people. A varied view of the American Revolution and its impact on the American people.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 413 Hist Old South 1492-1860 **3 Credit hours**
The History of the Old South is a study of the political, economic, social, and cultural conditions in the South that led to the development of the South as a distinct section in the United States. The History of the Old South is a study of the political, economic, social, and cultural conditions in the South that led to the development of the South as a distinct section in the United States.
Attributes: United States History
Grade Mode: Normal Grading Mode

HST 414 Am Civil War & Reconstruc **3 Credit hours**
A discussion of the economic, political, social, and cultural differences leading to the Civil War, the war itself, and an analysis of the political and economic importance of Reconstruction. A discussion of the economic, political, social, and cultural differences leading to the Civil War, the war itself, and an analysis of the political and economic impor- tance of Reconstruction.

Honors (HON)

- General Education Course

HON 200 Second Year Seminar **3 Credit hours**
An interdisciplinary seminar for second-year honors students that uses reflective inquiry to explore the interrelation and integration of leadership, ethics and civic engagement in a diverse, interconnected and changing world.
Pre-req: Admitted Honors College with a score of 1.
Grade Mode: Normal Grading Mode

HON 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HON 290 Yeager Seminar I **4 Credit hours**
Interdisciplinary seminar for first semester Yeager scholars.
Interdisciplinary seminar for first semester Yeager scholars.
Grade Mode: Normal Grading Mode

HON 291 Yeager Seminar II **4 Credit hours**
Interdisciplinary seminar for second semester Yeager scholars.
Interdisciplinary seminar for second semester Yeager scholars.
Pre-req: Admitted Honors College with a score of 1.
Grade Mode: Normal Grading Mode

HON 292 Yeager Seminar III **4 Credit hours**
Interdisciplinary seminar for third semester Yeager scholars.
Interdisciplinary seminar for third semester Yeager scholars.
Pre-req: HON 291.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

HON 293 Yeager Seminar IV **4 Credit hours**
Interdisciplinary seminar for fourth semester Yeager scholars.
Interdisciplinary seminar for fourth semester Yeager scholars.
Pre-req: Admitted Honors College with a score of 1.
Grade Mode: Normal Grading Mode

HON 300 Honors Peer Mentoring **1-4 Credit hours**
An experiential learning course providing peer advisor and leadership training for work with college staff to provide student support services, including community building events. May be repeated for credit. (PR: Admitted Honors College 1)
Pre-req: Admitted Honors College with a score of 1.
Grade Mode: Credit/No Credit Grade Only

HON 480 Special Topics **1-4 Credit hours**
A study of special topics not listed under current course offerings. A study of special topics not listed under current course offerings.
Pre-req: Admitted Honors College with a score of 1.
Grade Mode: Normal Grading Mode

HON 483 Special Topics **1-4 Credit hours**
A study of special topics not listed under current course offerings. A study of special topics not listed under current course offerings.
Pre-req: Admitted Honors College with a score of 1.
Grade Mode: Normal Grading Mode

HON 484 Honors College Newsletter **1-2 Credit hours**
An experiential learning course where students peer teach skills for and participate in information gathering, writing, editing, and designing the Honors College newsletter. May be repeated for credit.
Pre-req: Admitted Honors College with a score of 1.
Grade Mode: Credit/No Credit Grade Only

HON 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HON 486 Independent Study **1-4 Credit hours**
Pre-req: Admitted Honors College with a score of 1.
Grade Mode: Normal Grading Mode

HON 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

HON 488 Student Assoc Steering Comm **1-2 Credit hours**
Steering Committee is an experiential learning course in which students peer teach leadership and community building while organizing service, educational, and social events. May be repeated for credit.
Pre-req: Admitted Honors College with a score of 1.
Grade Mode: Credit/No Credit Grade Only

Instruct Tech-Library Science (ITL)

- General Education Course

ITL 115 Intro to Info Lit Research **3 Credit hours**
Introduces students to basic research (including the use of the library and other resources), information literacy and information management skills needed to succeed in college, the online environment, and beyond.
Grade Mode: Normal Grading Mode

ITL 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

LAT 488 Independent Study **1-4 Credit hours**
Non-Latin majors may enroll in Latin Independent Study courses for one hour credit to meet general requirements in literature. For such students instruction and readings will be entirely in English. Consult chairman for current offerings. Non-Latin majors may enroll in Latin Independent Study courses for one hour credit to meet general requirements in literature. For such students instruction and readings will be entirely in English. Consult chairman for current offerings.
Pre-req: LAT 204.
Grade Mode: Normal Grading Mode

LAT 499 Latin Capstone Experience **3 Credit hours**
Senior Project. Working with a project director, students will develop a paper written in an advanced Latin course into an expanded version that incorporates primary and secondary sources.(PR: 15 hours above LAT 204)
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Legal Environment (LE)

- General Education Course

LE 207 Legal Environ of Business **3 Credit hours**
Law and the judicial system. the relationship of law, government, ethics and the consumer of business enterprise. The student of contracts, torts, government regulation of business, environmental and consumer protection.
Grade Mode: Normal Grading Mode

LE 308 Commercial Law **3 Credit hours**
A continuation of Accounting 207. Emphasizes in-depth case study of the law of commercial paper, business organizations security, and real and personal property.
Pre-req: LE 207 with a minimum grade of D.
Grade Mode: Normal Grading Mode

LE 351 Legal Aspts Hlth Care Org **3 Credit hours**
A survey of basic legal problems facing a hospital administrator. The study also includes constitutional and administrative law issues dealing with medicaid and medicare and regional planning.
Pre-req: ACC 207 with a minimum grade of D or FIN 207 with a minimum grade of D or FIN 307 with a minimum grade of D or LE 207 with a minimum grade of D.
Grade Mode: Normal Grading Mode

LE 366 Entrep Law & Ethics **3 Credit hours**
Students will examine the basic legal and ethical issues involving the creation, maintenance, and expansion of small businesses.
Grade Mode: Normal Grading Mode

LE 380 Tourism and Hospitality Law **3 Credit hours**
A review of the statutes and regulations as related to the hospitality, entertainment, and tourism industries including hotel/guest relationships, franchise agreements, and commercial law.
Grade Mode: Normal Grading Mode

Management (MGT)

- General Education Course

MGT 100 Introduction to Business **3 Credit hours**
Career exploration and preparation. Emphasis on modern supervisory management techniques in various business fields. Career exploration and preparation. Emphasis on modern supervisory management techniques in various business fields.
Grade Mode: Normal Grading Mode

MGT 218 Business Quantitative Methods **3 Credit hours**
This course introduces statistical concepts and tools that can be leveraged for business data analytics, covering hypothesis testing, regression analysis, decision-making, time series analysis, and process control.
Pre-req: MTH 121B with a minimum grade of D or MTH 123 with a minimum grade of D or MTH 120 with a minimum grade of D or MTH 130 with a minimum grade of D or MTH 130H with a minimum grade of D or MTH 121 with a minimum grade of D or MTH 121H with a minimum grade of D or MTH 127 with a minimum grade of D or MTH 132 with a minimum grade of D or MTH 203 with a minimum grade of D or MTH 190 with a minimum grade of D or MTH 131 with a minimum grade of D or MTH 140 with a minimum grade of D or MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D or MTH 140H with a minimum grade of D or (STA 150 with a minimum grade of D and STA 150L with a minimum grade of D) or (STA 150B with a minimum grade of D and STA 150L with a minimum grade of D).
Attributes: Statistics
Grade Mode: Normal Grading Mode

MGT 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MGT 318 Management Analytics **3 Credit hours**
The course will provide a framework for both the analytical tools and specific managerial problems, emphasizing model development and the use of tools to manage, analyze, and visualize data.
Pre-req: MTH 121B with a minimum grade of D or MTH 123 with a minimum grade of D or MTH 120 with a minimum grade of D or MTH 130 with a minimum grade of D or MTH 130H with a minimum grade of D or MTH 121 with a minimum grade of D or MTH 121H with a minimum grade of D or MTH 127 with a minimum grade of D or MTH 132 with a minimum grade of D or MTH 203 with a minimum grade of D or MTH 190 with a minimum grade of D or MTH 131 with a minimum grade of D or MTH 140 with a minimum grade of D or MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D or MTH 140H with a minimum grade of D or (STA 150 with a minimum grade of D and STA 150L with a minimum grade of D) or (STA 150B with a minimum grade of D and STA 150L with a minimum grade of D).
Attributes: Statistics
Grade Mode: Normal Grading Mode

MGT 320 Principles of Management **3 Credit hours**
A comprehensive survey of the fundamental principles of management applicable to all forms of organizations. The course provides the student with a basis for thinking about complex business situations in the framework of analysis of the management process. Some case analysis of management problems used. A comprehensive survey of the fundamental principles of management applicable to all forms of organizations. The course provides the student with a basis for thinking about complex business situations in the framework of analysis of the management process. Some case analysis of management problems used.
Grade Mode: Normal Grading Mode

MGT 325 Project Management **3 Credit hours**
It covers key components of project management- project integration, scope, and time management; cost analysis, quality control, human resource considerations; risk management; procurement and contract management; and planning and scheduling.
Pre-req: MGT 218 with a minimum grade of D or STA 225 with a minimum grade of D or MTH 225 with a minimum grade of D or MGT 318 with a minimum grade of D or IST 130 with a minimum grade of D or EDF 417 with a minimum grade of D or PSY 223 with a minimum grade of D or SOC 345 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 335 Hospitality & Tourism Mgt **3 Credit hours**
An introduction to the hospitality industry, emerging trends and various management functions related to it.
Grade Mode: Normal Grading Mode

MGT 348 Aviation Management Safety **3 Credit hours**
This course provides students with a comprehensive coverage of aviation safety and security. The course examines topics related to the latest procedures, flight technologies, challenges, and accident statistics.
Grade Mode: Normal Grading Mode

MGT 350 Health Care Management **3 Credit hours**
An introduction to the management of health care organizations. An introduction to the management of health care organizations.
Pre-req: MGT 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 354 Health Care Delivery Systems **3 Credit hours**
An examination of the various private and public sector health care delivery systems currently management. An examination of the various private and public sector health care delivery systems currently management.
Pre-req: MGT 350 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 355 Health Care Prods & Services **3 Credit hours**
Application of business principles as they apply to the management of health care products and services in today's health care environment.
Pre-req: MGT 350 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 370 Energy Management Principles **3 Credit hours**
A managerial perspective of regional, national and international energy issues. Course provides an objective assessment into the projections, limitations, costs, and tradeoffs associated with conventional and alternative sources of energy.
Pre-req: MGT 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 380 Principles of Renewable Energy **3 Credit hours**
An introduction to renewable energy management, markets, and sustainable business solutions. Nuclear, hydro, solar, wind, geothermal, biomass and biofuel sectors will be evaluated for their economic viability and business profitability.
Pre-req: MGT 320 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MGT 419 Business & Society **3 Credit hours**
An examination of the manager's social and environmental responsibilities to his employees, customers, and the general public, and other external factors which management must be cognizant of in modern society. An examination of the manager's social and environmental responsibilities to his employees, customers, and the general public, and other external factors which management must be cognizant of in modern society.
Pre-req: MGT 320 with a minimum grade of D.
Attributes: Capstone Course

Grade Mode: Normal Grading Mode

MKT 480 Special Topics **1-4 Credit hours**
Study of an advanced topic not normally covered in other courses. Marketing majors only, with permission of department chairman. Study of an advanced topic not normally covered in other courses. Marketing majors only, with permission of depart- ment chairman.
Grade Mode: Normal Grading Mode

MKT 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MKT 490 Internship **3-12 Credit hours**
A supervised experience in which the student works for a business firm/agency to gain practical experience by completing a defined work program. Student performance is evaluated. This course may not be used as a marketing elective.
Grade Mode: Credit/No Credit Grade Only

Mathematics (MTH)

- General Education Course

MTH 102 Prep for College Math B **4 Credit hours**
A mastery-based course that will prepare students for college algebra.
Grade Mode: Normal Grading Mode

MTH 102B Abr Prep for College Math B **1 Credit hour**
An abridged mastery-based course that will prepare students for College Algebra.
Pre-req: MTH 098 with a minimum grade of CR or MTH 100 or MTH 121B or MTH 121 or Placement Math After SP17 with a score of 100.
Grade Mode: Normal Grading Mode

MTH 121 Concepts and Applications (CT) **3 Credit hours**
Critical thinking course for non-science majors that develops quantitative reasoning skills. Topics include logical thinking, problem-solving, linear modeling, beginning statistics and probability, exponential and logarithmic models, formula use, and financial concepts. Critical thinking course for non-science majors that develops quantitative reasoning skills. Topics include logical thinking, problem-solving, linear modeling, beginning statistics and probability, exponential and logarithmic models, formula use, and financial concepts.
Pre-req: ACT Math with a score of 19 or SAT Mathematics Before Mar. 16 with a score of 460 or MTH 0XX or Placement Math with a score of 100 or Placement Math After SP17 with a score of 101 or Placement Math SP20 with a score of 241 or Math Workshop-UC with a score of 100 or WMTH 002 with a minimum grade of C or MTH 099 with a minimum grade of CR or MTH 102 with a minimum grade of C or MTH 100 with a minimum grade of C or MTH 102B with a minimum grade of C or SAT MATH SECTION SCORE with a score of 510.
Attributes: Critical Thinking, Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 121B Cncpts & Apps-Expanded (CT) **4 Credit hours**
Critical thinking course for non-science majors that develops quantitative reasoning skills. Topics include logical thinking, linear modeling, statistics and probability, exponential and logarithmic modeling, and financial concepts, with arithmetic review.
Attributes: Critical Thinking, Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 121H Concepts and Applications **3 Credit hours**
Pre-req: ACT Math with a score of 23 or SAT Mathematics Before Mar. 16 with a score of 540.
Attributes: Honors
Grade Mode: Normal Grading Mode

MTH 122 Plane Trigonometry **3 Credit hours**
Definitions of circular functions; graphs of the trigonometric functions, trigonometric identities, and applications.
Pre-req: ACT Math with a score of 22 or SAT Mathematics Before Mar. 16 with a score of 520 or SAT MATH SECTION SCORE with a score of 540 or Placement Math After SP17 with a score of 103 or Placement Math SP20 with a score of 257 or MTH 127 with a minimum grade of C or MTH 130 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: MTH 130
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 127 College Algebra-Expanded **5 Credit hours**
A brief but careful review of the main techniques of algebra. Polynomials, rational, exponential, and logarithmic functions. Graphs, equations and inequalities, sequences.
Pre-req: ACT Math with a score of 17 or SAT Mathematics Before Mar. 16 with a score of 400 or SAT MATH SECTION SCORE with a score of 460 or Placement Math After SP17 with a score of 101 or Placement Math SP20 with a score of 237 or MTH 0XX or Placement Math with a score of 100 or Math Workshop-UC with a score of 100 or WMTH 002 or MTH 099 with a minimum grade of CR or MTH 102 with a minimum grade of C or MTH 102B with a minimum grade of C.
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 130 College Algebra **3 Credit hours**
Polynomial, rational, exponential, and logarithmic functions. Graphs, equations and inequalities, sequences.
Pre-req: ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530 or Placement Math After SP17 with a score of 102 or Placement Math SP20 with a score of 250.
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 132 Precalculus with Sci Applica **5 Credit hours**
Functions used in calculus including polynomial, rational, exponential, logarithmic, and trigonometric. Systems of equations and inequalities, conic sections, polar and parametric equations, sequences and series, Binomial Theorem. Functions used in calculus including polynomial, rational, exponential, logarithmic, and trigonometric. Systems of equations and inequalities, conic sections, polar and parametric equations, sequences and series, Binomial Theorem.
Pre-req: ACT Math with a score of 24 or SAT Mathematics Before Mar. 16 with a score of 560 or SAT MATH SECTION SCORE with a score of 570 or Placement Math After SP17 with a score of 104 or Placement Math SP20 with a score of 263 or MTH 127 with a minimum grade of C or MTH 130 with a minimum grade of C.
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 140 Applied Calculus **3 Credit hours**
A brief survey of calculus including both differentiation and integration with applications.
Pre-req: ACT Math with a score of 24 or SAT Mathematics Before Mar. 16 with a score of 560 or SAT MATH SECTION SCORE with a score of 570 or Placement Math After SP17 with a score of 104 or Placement Math SP20 with a score of 263 or MTH 127 with a minimum grade of C or MTH 130E with a minimum grade of C or MTH 130 with a minimum grade of C or MTH 130H with a minimum grade of C or MTH 132 with a minimum grade of C.
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 140H Applied Calculus Honors **3 Credit hours**
A brief survey of calculus including both differentiation and integration with applications. This honors course will also introduce topics from differential equations with applications.
Pre-req: ACT Math with a score of 24 or SAT Mathematics Before Mar. 16 with a score of 560 or SAT MATH SECTION SCORE with a score of 570.
Attributes: Honors, Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 160 Applied Math Reasoning (CT) **5 Credit hours**
A critical thinking course in applied mathematical reasoning. Topics include logic, problem solving, linear modeling, beginning statistics and probability, exponential and logarithmic modeling, formula use.
Pre-req: SAT Mathematics Before Mar. 16 with a score of 400 or ACT Math with a score of 17 or SAT MATH SECTION SCORE with a score of 460 or Placement Math After SP17 with a score of 101 or Placement Math SP20 with a score of 237 or MTH 099 with a minimum grade of CR or MTH 102 with a minimum grade of C or MTH 102B with a minimum grade of C or MTH 127 with a minimum grade of C.
Attributes: Critical Thinking, Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 220 Discrete Structures **3 Credit hours**
Sets, relations, directed and undirected graphs, monoids, groups, lattices, Boolean algebra, and propositional logic.
Pre-req: ACT Math with a score of 27 or SAT Mathematics Before Mar. 16 with a score of 610 or SAT MATH SECTION SCORE with a score of 630 or Placement Math After SP17 with a score of 105 or Placement Math SP20 with a score of 276 or MTH 132 with a minimum grade of C or MTH 140 with a minimum grade of C or MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C.
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 229 Calculus/Analytic Geom I (CT) **5 Credit hours**
An introduction to calculus and analytic geometry, emphasizing critical thinking. Limits, derivatives, and integrals of the elementary functions of one variable, including transcendental functions.
Pre-req: ACT Math with a score of 27 or SAT Mathematics Before Mar. 16 with a score of 610 or SAT MATH SECTION SCORE with a score of 630 or Placement Math After SP17 with a score of 105 or Placement Math SP20 with a score of 276 or MTH 132 with a minimum grade of C.
Attributes: Critical Thinking, Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 229H Calculus I Honors (CT) **5 Credit hours**
An introduction to calculus and analytic geometry for honors students, emphasizing critical thinking. Limits, derivatives, and integrals of the elementary functions of one variable, including transcendental functions.
Pre-req: ACT Math with a score of 27 or SAT Mathematics Before Mar. 16 with a score of 610 or SAT MATH SECTION SCORE with a score of 630.
Attributes: Critical Thinking, Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 230 Calculus/Analytic Geom II **4 Credit hours**
A study of the conics and transcendental functions, techniques of integration, improper integrals, indeterminate forms and infinite series.
Pre-req: MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C.
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 231 Calculus/Analytic Geom III **4 Credit hours**
Analytic geometry of two and three dimensions, partial differentiation, and multiple integrals. Analytic geometry of two and three dimensions, partial dif- ferentiation, and multiple integrals.
Pre-req: MTH 230 with a minimum grade of C.
Attributes: Core II Mathematics
Grade Mode: Normal Grading Mode

MTH 300 Intro to Higher Math **4 Credit hours**
A transition between elementary calculus and higher mathematics with emphasis on techniques of proofs.
Pre-req: MTH 230 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 329 Elementary Linear Algebra **3 Credit hours**
Systems of linear equations, matrices and determinants, vector spaces, linear transformations, eigenvalues, eigenvectors, and applications. Systems of linear equations, matrices and determinants, vector spaces, linear transformations, eigenvalues, eigenvectors, and applications.
Pre-req: MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 331 Linear Algebra **4 Credit hours**
Vector spaces, matrices and determinants, linear transformations, eigenvalues and eigenvectors, and applications.
Pre-req: MTH 300 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: MTH 300
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 335 Ordinary Diff Equations **3 Credit hours**
A study of differential equations, their solutions, and applications to physical systems, emphasizing closed-form solving methods. Laplace transforms, orthogonal functions, approximation and numerical methods with applications.
Pre-req: MTH 230 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 360 Intro to Complex Variables **3 Credit hours**
An introductory survey of complex numbers, analytic functions, properties of elementary functions, integrals, series, residues and poles, with a focus on practical applications.
Pre-req: MTH 231 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 361 Vector Calculus **3 Credit hours**
A course in n-dimensional calculus: the derivative, the integral, and applications. Coordinate-free methods are emphasized.
Pre-req: MTH 231 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 400 Structure of Algebra **3 Credit hours**
Emphasis on the language of Modern Elementary Algebra. Recommended for pre-service elementary teachers and for elementary and secondary in-service teachers. May not be used for either a degree offered by the Department of Mathematics or for a 7-9 or 7-12 mathematics specialization. Emphasis on the language of Modern Elementary Algebra. Recommended for pre-service elementary teachers and for elementary and secondary in-service teachers. May not be used for either a degree offered by the Department of Mathematics or for a 7-9 or 7-12 mathematics specialization.
Pre-req: MTH 130 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 401 Structure Modern Geometry **3 Credit hours**
Informal development of geometry. Recommended for preservice elementary teachers and for elementary and secondary inservice teachers. May not be used for either a degree offered by the Department of Mathematics or for a 7-9 or 7-12 mathematics specialization.
Pre-req: MTH 130 with a minimum grade of C or MTH 127 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 404 Math Methods and Materials **3 Credit hours**
Content and content-specific pedagogy for secondary mathematics education majors. Content and content-specific pedagogy for secondary mathematics education majors.
Pre-req: Admitted to Teacher ED with a score of 5.
Co-req: CI 470
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 405 History of Mathematics **3 Credit hours**
A study of the history of mathematics from the time of the ancient Greeks to the end of the nineteenth century. A study of the history of mathematics from the time of the ancient Greeks to the end of the nineteenth century.
Pre-req: MTH 300 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 411 Mathematical Modeling **3 Credit hours**
Students work in teams to construct mathematical models of various real-world situations. Problems to be modeled are drawn from diverse areas of application and use a wide range of undergraduate mathematics. Students work in teams to construct mathematical models of various real-world situations. Problems to be modeled are drawn from diverse areas of application and use a wide range of undergraduate mathematics.
Pre-req: MTH 231 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 415 Partial Differential Equations **3 Credit hours**
Differential equations. Heat Equation, Laplace's Equation, separation of variables, Fourier series, vibrating strings, eigenvalue problems, finite differences, Bessel functions, Legendre polynomials. Differential equations. Heat Equation, Laplace's Equation, separation of variables, Fourier series, vibrating strings, eigenvalue problems, finite differences, Bessel functions, Legendre polynomials.
Pre-req: MTH 331 with a minimum grade of C and MTH 335 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 416 Advanced Differential Equation **3 Credit hours**
Differential equations are studied qualitatively. Topics include the existence and uniqueness of solutions and the behavior of solutions including stability of nonlinear systems, periodic solutions, and approximation using pertubation methods. Differential equations are studied qualitatively. Topics include the existence and uniqueness of solutions and the behavior of solutions including stability of nonlinear systems, periodic solutions, and approximation using pertubation methods.
Pre-req: MTH 300 and MTH 335.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 427 Advanced Calculus I **3 Credit hours**
The number system, limits, sequences, partial differentiation with applications, maxima and minima of functions of several variables. Theory of definite integrals, multiple integrals, line and surface integrals, improper integrals, infinite series.
Pre-req: MTH 231 with a minimum grade of C and MTH 300 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 428 Advanced Calculus II **3 Credit hours**
The number system, limits, sequences, partial differentiation with applications, maxima and minima of functions of several variables. Theory of definite integrals, multiple integrals, line and surface integrals, improper integrals, infinite series.
Pre-req: MTH 427 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 430 Topology I **3 Credit hours**
First course in topology. Basics of point-set topology: metric and topological spaces, continuity, connectedness, compactness, products, quotients. Surfaces and simplicial complexes, Euler characteristics.
Pre-req: MTH 300 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 431 Topology II **3 Credit hours**
First course in algebraic topology. Homotopy, fundamental group, simplicial homology.
Pre-req: MTH 430 with a minimum grade of C and MTH 450 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 440 Graph Th and Combinatorics **3 Credit hours**
This course is designed to introduce students in mathematical sciences to the theorems, techniques, and applications of graph theory and combinatorics. This course is designed to introduce students in mathematical sciences to the theorems, techniques, and applications of graph theory and combinatorics.
Pre-req: MTH 300 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 442 Numerical Linear Algebra **3 Credit hours**
Direct and iterative methods for numerical solution of linear systems of equations. Eigenvalues and eigenvectors. Error Analysis and norms. Related topics.
Pre-req: MTH 331 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 443 Numerical Analysis **3 Credit hours**
The theory and technique of numerical computation involving the difference calculus, the summation calculus, interpolation methods, solution of systems of equations, and methods of solution of ordinary differential equations.
Pre-req: MTH 331 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 448 Modern Geometries **3 Credit hours**
Finite geometrics, basic background material for the modern development of Euclidean Geometry, other geometries. Finite geometrics, basic background material for the modern development of Euclidean Geometry, other geometries.
Pre-req: MTH 300 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 449 Projective Geometry **3 Credit hours**
Projective Geometry using both synthetic and algebraic methods. Projective Geometry using both synthetic and algebraic methods.
Pre-req: MTH 300 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 450 Modern Algebra I **3 Credit hours**
Structure of the abstract mathematical systems; groups, rings, fields, with illustrations and applications from number theory.
Pre-req: MTH 300 with a minimum grade of C and MTH 331 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: MTH 331
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 452 Modern Algebra II **3 Credit hours**
Continuation of MTH 450.
Pre-req: MTH 450 with a minimum grade of C.
Attributes: Mathematics
Grade Mode: Normal Grading Mode

MTH 455 Number Theory **3 Credit hours**
A survey of some basic properties of the integers: divisibility (prime numbers, factorization, perfect numbers), congruences (modular arithmetic, linear and quadratic congruences, the Chinese Remainder Theorem), and Diophantine equations.
Pre-req: MTH 300 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MTH 480 Special Topics **1-4 Credit hours**
Attributes: Mathematics, No Textbook Required
Grade Mode: Normal Grading Mode

MTH 485 Independent Study **1-4 Credit hours**
Attributes: Mathematics, No Textbook Required
Grade Mode: Normal Grading Mode

MTH 490 Internship in Mathematics **2-12 Credit hours**
A supervised internship in an area of mathematics, applied mathematics, or statistics. By permission only.
Pre-req: MTH 300 with a minimum grade of C.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

MTH 491 Senior Seminar **2 Credit hours**
Capstone experience in reading, doing writing and speaking mathematics. Student will explore topics related to a theme chosen by the instructor.
Pre-req: MTH 300 with a minimum grade of C.
Attributes: Capstone Course, Mathematics
Grade Mode: Normal Grading Mode

Mechanical Engineering (ME)

- General Education Course

ME 111 Mech Engineering Computations **3 Credit hours**
Introduction to effective problem-solving techniques used in various engineering applications. Computational tools including C and MATLAB will e covered.
Pre-req: MTH 132 (may be taken concurrently) with a minimum grade of D or MTH 229 (may be taken concurrently) with a minimum grade of D or MTH 229H (may be taken concurrently) with a minimum grade of D.
Concurrent PR: MTH 132 or MTH 229 or MTH 229H
Grade Mode: Normal Grading Mode

ME 240 Manufacturing Processes **3 Credit hours**
An introduction to manufacturing systems and strategy. A study of manufacturing processes. Measurement and quality assurance machining, welding, and casting processes. Hot and cold forming and joining processes. 1 lec and 6 lab
Pre-req: ENGR 215 with a minimum grade of D and (ENGR 102 with a minimum grade of D or CE 102 with a minimum grade of D).
Grade Mode: Normal Grading Mode

ME 245 Circuits and Instrumentation **3 Credit hours**
This course provides basic concepts of DC and AC circuit analysis, an overview of the instrument characteristics and measurement principles, and description and evaluation of sensors commonly used with instrumentation.
Pre-req: MTH 230 with a minimum grade of D and PHY 213 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 213
Grade Mode: Normal Grading Mode

ME 305 Aircraft Systems **3 Credit hours**
This course covers flight dynamics; and modeling, stability, and control aspects of aircrafts.
Pre-req: ENGR 213 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 310 Thermodynamics II **3 Credit hours**
Gas, vapor, combined power cycles, co-generation, entropy, combustion, fuel cells, and equations of state.
Pre-req: ENGR 219.
Grade Mode: Normal Grading Mode

ME 312 Flight Mechanics **3 Credit hours**
This course covers flight dynamics; modeling, stability, and control aspects of aircrafts.
Pre-req: ME 305 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 320 Fluid Power **3 Credit hours**
This course covers physical principles of fluid power cylinders, control valves, fluid power components: compressors, pumps, valves, cylinders, and motors, fluid power circuits, troubleshooting: hydraulic, symptoms, procedures, pneumatics.
Pre-req: ENGR 214 and ENGR 216.
Grade Mode: Normal Grading Mode

ME 325 Experimental Design and Thermo **2 Credit hours**
Experimental analysis and design; probability and statistical, uncertainty, and error analysis; Experiments in fluid, heat and thermodynamics; principles and performance of measuring systems; Laboratory experience. 1 Hour for lecture and 3 hours for lab.
Pre-req: ME 360 with a minimum grade of D and ENGR 219 with a minimum grade of D and ME 350 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: ME 350
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ME 330 Manufacturing Methods/Design **3 Credit hours**
This course covers economical production by understanding the capabilities of different manufacturing processes, candidate manufacturing processes for a given part, performing manufacturabiliity evaluation at the design stage, automation, IMS.
Pre-req: ME 240 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 335 Mech Engineering Analysis **3 Credit hours**
Covers the mathematical methods available for analysis of engineering problems, and how to apply them effectively for analytically mechanical and thermal systems.
Pre-req: MTH 231 (may be taken concurrently) with a minimum grade of D and MTH 335 with a minimum grade of D.
Concurrent PR: MTH 231
Grade Mode: Normal Grading Mode

ME 340 Machine Element Design **3 Credit hours**
Mechanical design of machine elements, static and fatigue failures, shaft systems, bearings, gears, springs, screws and fasteners.
Pre-req: ENGR 216 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 350 Heat Transfer **3 Credit hours**
Analysis and solutions of conduction, free and forced convection, radiation heat transfer and design of heat exchangers.
Pre-req: ENGR 219 with a minimum grade of D and ME 360 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 360 Fluid Dynamics **4 Credit hours**
Fluid statics, fluid kinematics, Bernoulli equation, momentum analysis, dimensional analysis, internal flows, fluid machinery, power and efficiency, external flows, compressible flows, differential analysis and Navier-Stokes equation, computational fluid dynamics.
Pre-req: ENGR 214 with a minimum grade of D and MTH 231 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 410 Kinematics & Design of Machine **3 Credit hours**
The determination of the motion and forces of machines and mechanisms including rotating machinery, cams and gears. Analyze position, velocity, accelerations, static loads, and dynamic loads.
Pre-req: ENGR 214 with a minimum grade of D and ENGR 216 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 420 Control Systems **3 Credit hours**
This course provides basic concepts of control; open and closed-loop control systems; and PLC Programming.
Pre-req: ME 245 with a minimum grade of D and ENGR 335 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 422 Flight Stability and Control **3 Credit hours**
This course covers flight dynamics; and modeling, stability, and control aspects of aircrafts.
Pre-req: MTH 335 with a minimum grade of D and ME 312 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 425 Mechanical Engineering Lab-II **1 Credit hour**
Engineering measurements and experimentations. Hands-on labs and data analyses in several major topics of the Mechanics of Materials theory and Theory of Machines.
Pre-req: ME 340.
Grade Mode: Normal Grading Mode

ME 430 Design of Thermal Systems **3 Credit hours**
Design and analysis of thermal systems including components selection and integrations.
Pre-req: ME 350.
Grade Mode: Normal Grading Mode

ME 435 Design of Mechanical System **3 Credit hours**
Problem solving methodology in the design, analysis, and synthesis of mechanical systems. Engineering design process involving modeling, computer simulation, concepts of optimization, robustness, reliability, sustainability.
Pre-req: ME 410 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ME 440 Design & Analysis Energy Sys **3 Credit hours**
Design characteristics and operational performance of energy systems.
Pre-req: ME 310 with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

ME 445 Hydraulic & Pneumatic Control **3 Credit hours**
This course covers standard symbols, pumps, control valves, assemblies, actuators, filter regulator lubricator (FRL), maintenance procedures, switching, control devices, fluid power circuits including design, application, and troubleshooting.
Pre-req: ME 245 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 447 Engineering Analysis **4 Credit hours**
Experimental laboratory mainly from within the thermo-fluids area, concerned with fluid statics, flow, heat transfer, internal combustion engines, data acquistion, analysis, including use of computers. Principles of good experimental design.
Pre-req: MTH 335.
Grade Mode: Normal Grading Mode

ME 450 CNC and Rapid Prototyping **3 Credit hours**
This course covers CNC CAD/CAM, CNC tools, coordinate systems, CNC programming Language, CNC operation, CNC tool paths, CNC turning, G/M code reference, CNC milling work-holding, rapid prototyping, 3D printing.
Pre-req: ME 240 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 451 Jet Propulsion **3 Credit hours**
The theories and principles of jet propulsion. Thermodynamic cycles. The mechanics and thermodynamics of combustion. Turbine engine performance characteristics. Component and cycle analysis of jet engines and turbomachinery.
Pre-req: ME 310 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 452 Capstone Design I **1 Credit hour**
Prepares mechanical engineering students for ME 453 Capstone Design II, professional responsibility, development of effective communication skills, and learning strategies. Students begin to work on a capstone design project. (PR: ME 325, ME 350, ME 410)
Pre-req: ME 325 (may be taken concurrently) with a minimum grade of D and ME 350 (may be taken concurrently) with a minimum grade of D and ME 410 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: ME 325 and ME 350 and ME 410
Grade Mode: Normal Grading Mode

ME 453 Capstone Design II **3 Credit hours**
Students utilize the engineering design process to complete a comprehensive project that addresses a real-world problem with realistic constraints in a collaborative environment.
Pre-req: ME 452 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

ME 455 Metallurgy **3 Credit hours**
Covers material properties and behavior of pure metals and common metal alloys. Discuss various aspects of extractive, mechanical, physical metallurgy, theory and practice of identification, selection, processing, conditioning, and testing.
Pre-req: ENGR 215 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 456 Materials for Aerospace **3 Credit hours**
Covers the main structural materials used in aircraft in terms of their production, properties, performance, and applications.
Pre-req: ENGR 215 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 460 Vibrations **3 Credit hours**
Modeling of vibratory motion of single and multiple degree of freedom systems; free and forced response; modal summation method for response predictions; simulation of the vibration by using Matlab.
Pre-req: ENGR 214 and MTH 335.
Grade Mode: Normal Grading Mode

ME 465 Mechatronics **3 Credit hours**
Dynamic analysis of mechatronic systems, sensors, transducers, and electric circuits and control.
Pre-req: ME 245 with a minimum grade of D and MTH 335 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 471 Finite Elements Method **3 Credit hours**
This course covers flight dynamics; and modeling, stability, and control aspects of aircrafts.
Pre-req: ENGR 216 with a minimum grade of D and ENGR 335 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 473 Computational Fluid Dynamics **3 Credit hours**
Conservation laws of fluid motion and heat transfer; Fundamental knowledge to use numerical techniques to solve fluid-thermal problems.
Pre-req: ENGR 335 with a minimum grade of D and ME 360 with a minimum grade of D.
Grade Mode: Normal Grading Mode

ME 475 Introduction to Robotics **3 Credit hours**
Introduction to effective problem-solving techniques used in various engineering applications. Computational tools including C and MATLAB will be covered.
Pre-req: ME 410 with a minimum grade of D and (ME 420 with a minimum grade of D or ME 360 with a minimum grade of D).
Grade Mode: Normal Grading Mode

ME 480 Special Topics **1-4 Credit hours**
Subject matter to be selectred from topics of current interest.
Grade Mode: Normal Grading Mode

ME 481 Special Topics **1-4 Credit hours**
Subject matter to be selected from topics of current interest.
Grade Mode: Normal Grading Mode

ME 482 Special Topics **1-4 Credit hours**
Subject matter to be selected from topics of current interest.
Grade Mode: Normal Grading Mode

ME 483 Special Topics **1-4 Credit hours**
Subject matter to be selected from topics of current interest.
Grade Mode: Normal Grading Mode

ME 485 Independent Study **1-4 Credit hours**
Individual study of advanced mechanical engineering areas.
Grade Mode: Normal Grading Mode

ME 486 Independent Study **1-4 Credit hours**
Individual study of advanced mechanical engineering areas.
Grade Mode: Normal Grading Mode

ME 487 Independent Study **1-4 Credit hours**
Individual study of advanced mechanical engineering areas.
Grade Mode: Normal Grading Mode

ME 488 Independent Study **1-4 Credit hours**
Individual study of advanced mechanical engineering areas.
Grade Mode: Normal Grading Mode

Medical Imaging (MI)

- General Education Course

MI 201 Intro to Radiography **3 Credit hours**
Provides an overview of the foundations in radiography and the practitioner's role in the health care delivery system and professional responsibilities of the radiographer. Provides an overview of the foundations in radiography and the practitioner's role in the health care delivery system and professional responsibilities of the radiographer.
Pre-req: BSC 228 and MTH 121 and PHY 101.
Grade Mode: Normal Grading Mode

MI 202 Patient Care Img Science **3 Credit hours**
Content is designed to identify the role of the radiographer in patient care, including consideration for the physical and psychological needs of the patient and family. Content is designed to identify the role of the radiographer in patient care, including consideration for the physical and psychological needs of the patient and family.
Pre-req: BSC 228 and MI 201.
Co-req: MI 203, MI 204, MI 205, MI 206
Grade Mode: Normal Grading Mode

MI 204 Radiographic Anatomy **3 Credit hours**
Content is designed to introduce the student to radiographic anatomy. Emphasis is placed on identifying structures visible on correctly performed radiographic procedures. Content is designed to introduce the student to radiographic anatomy. Emphasis is placed on identifying structures visible on correctly performed radiographic procedures.
Pre-req: BSC 228.
Co-req: MI 202, MI 203, MI 205, MI 206
Grade Mode: Normal Grading Mode

MI 205 Imaging Procedures I **4 Credit hours**
Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Students will practice imaging procedures in lab prior to performing them on patients. Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Students will practice imaging procedures in lab prior to performing them on patients.
Pre-req: BSC 228.
Co-req: MI 202, MI 203, MI 204, MI 206
Grade Mode: Normal Grading Mode

MI 206 Clinical Practice I **4 Credit hours**
Content and clinical practice experiences are designed to sequentially develop, apply, critically analyze, integrate, synthesize and evaluate concepts and theories in the performance of radiologic procedures. Content and clinical practice experiences are designed to sequentially develop, apply, critically analyze, integrate, synthesize and evaluate concepts and theories in the performance of radiologic procedures.
Co-req: MI 202, MI 203, MI 204, MI 205
Grade Mode: Normal Grading Mode

MI 207 Imaging Procedures II **4 Credit hours**
Content is designed to provide the knowledge base necessary to perform special imaging procedures and basic computed tomography. Content is designed to provide the knowledge base necessary to perform special imaging procedures and basic computed tomography.
Pre-req: BSC 228 with a minimum grade of D and MI 206 with a minimum grade of D.
Co-req: MI 208, MI 209, MI 210, MI 211
Grade Mode: Normal Grading Mode

MI 208 Pharmacology for Imaging Sci **2 Credit hours**
Content is designed to provide basic concepts of pharmacology including delivery of and pharmacodynamics associated with imaging contrast media. Content is designed to provide basic concepts of pharmacology including delivery of and pharmacodynamics associated with imaging contrast media.
Pre-req: BSC 227 with a minimum grade of D and MI 206 with a minimum grade of D.
Co-req: MI 207, MI 209, MI 210, MI 211
Grade Mode: Normal Grading Mode

MI 209 Intro to Imaging Equip **3 Credit hours**
Content is designed to provide knowledge in radiographic, fluoroscopic, mobile and tomographic equipment requirements and design. Content is designed to provide knowledge in radiographic, fluoroscopic, mobile and tomographic equipment requirements and design.
Pre-req: MTH 121 with a minimum grade of D and PHY 101 with a minimum grade of D and PHY 101L with a minimum grade of D.
Co-req: MI 207, MI 208, MI 210, MI 211
Grade Mode: Normal Grading Mode

MI 210 Clinical Practice II **4 Credit hours**
Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Students will begin clinical rotations in computed tomography. Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Students will begin clinical rotations in computed tomography.
Pre-req: MI 206 with a minimum grade of D.
Co-req: MI 207, MI 208, MI 209, MI 211
Grade Mode: Normal Grading Mode

MI 211 Seminar Imaging Science **1 Credit hour**
Introduces student to current research in imaging science. Emphasis will be on oral communication via power point presentations. Introduces student to current research in imaging science. Emphasis will be on oral communication via power point presentations.
Co-req: MI 207, MI 208, MI 209, MI 210
Grade Mode: Normal Grading Mode

MI 212 Seminar Imaging Sciences II **1 Credit hour**
Seminar on new and emerging technologies in imaging sciences.
Grade Mode: Normal Grading Mode

MI 213 Elective Clinical Practicum I **4 Credit hours**
Elective clinical practicum in radiography or sonography.
Grade Mode: Normal Grading Mode

MI 214 Intro to Sonography **3 Credit hours**
This course introduces the basic principles of sonography.
Grade Mode: Normal Grading Mode

MI 302 Princ of Radiation Physics **3 Credit hours**
Introduces student to the nature and characteristic of radiation production and the fundamentals of photon interactions with matter. Course covers principles associated with radiography, nuclear medicine and radiation oncology. Introduces student to the nature and characteristic of radiation production and the fundamentals of photon interactions with matter. Course covers principles associated with radiography, nuclear medicine and radiation oncology.
Pre-req: PHY 101 and PHY 101L and MTH 121 and MI 209.
Co-req: MI 303, MI 304, MI 305, MI 306
Grade Mode: Normal Grading Mode

MI 303 Image Acquisition **3 Credit hours**
Introduces students to the factors that govern the image production process. Introduces students to the factors that govern the image production process.
Pre-req: MTH 121 and MI 209.
Co-req: MI 302, MI 304, MI 305, MI 306
Grade Mode: Normal Grading Mode

MI 304 Radiographic Pathology **3 Credit hours**
Introduces student to concepts related to disease and etiological considerations with emphasis on radiographic appearance of disease and impact on exposure factor selection. Introduces student to concepts related to disease and etiological considerations with emphasis on radiographic appearance of disease and impact on exposure factor selection.
Pre-req: BSC 228 with a minimum grade of D and MI 204 with a minimum grade of D.
Co-req: MI 302, MI 303, MI 305, MI 306
Grade Mode: Normal Grading Mode

MI 305 Clinical Practice IV **4 Credit hours**
Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Clinical practice is sequential. Students will be introduced to special imaging modalities. Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Clinical practice is sequential. Students will be introduced to special imaging modalities.
Pre-req: MI 301.
Co-req: MI 302, MI 303, MI 304, MI 306
Grade Mode: Normal Grading Mode

MI 306 Seminar Imaging Science **1 Credit hour**
Introduces student to current research in imaging science. Introduces student to current research in imaging science.
Co-req: MI 302, MI 303, MI 304, MI 305
Grade Mode: Normal Grading Mode

MI 307 Radiobiology **3 Credit hours**
This course focuses on the biological impact of ionizing radiation.
Pre-req: BSC 228 and CHM 203 and MI 302.
Co-req: MI 308, MI 309, MI 310
Grade Mode: Normal Grading Mode

MI 308 Rad Image Analysis **2 Credit hours**
Content is designed to provide a basis for analyzing and critiquing radiographic images. Content is designed to provide a basis for analyzing and critiquing radiographic images.
Pre-req: MI 303 with a minimum grade of D and MI 304 with a minimum grade of D and MI 208 with a minimum grade of D.
Co-req: MI 307, MI 309, MI 310
Grade Mode: Normal Grading Mode

MI 309 Digital Image Acquisition **2 Credit hours**
Content is designed to impart an understanding of the components, principles and operation of digital imaging systems found in diagnostic radiography. Content is designed to impart an understanding of the components, principles and operation of digital imaging systems found in diagnostic radiography.
Pre-req: MI 303 with a minimum grade of D.
Co-req: MI 305, MI 307, MI 310
Grade Mode: Normal Grading Mode

MI 310 Clinical Practice V **4 Credit hours**
Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Clinical practice is sequential. Students will be introduced to special imaging modalities. Content is designed to provide the knowledge base necessary to perform standard imaging procedures. Clinical practice is sequential. Students will be introduced to special imaging modalities.
Pre-req: MI 210 with a minimum grade of D and MI 301 with a minimum grade of D and MI 305 with a minimum grade of D.
Co-req: MI 307, MI 308, MI 309
Grade Mode: Normal Grading Mode

MI 311 Seminar Imaging Sciences III **1 Credit hour**
Seminar on new and emerging technologies in imaging sciences.
Grade Mode: Normal Grading Mode

MI 312 Abdominal Sonography I **4 Credit hours**
This course covers basic abdominal sonographic positioning and scanning protocols, as it relates to normal anatomy of the abdomen. Laboratory included.
Grade Mode: Normal Grading Mode

MI 313 Ultrasound Physics I **3 Credit hours**
The focus of this course is to educate students about the physics of sound waves and their interaction with tissue enabling the display of diagnostic imaging.
Grade Mode: Normal Grading Mode

MI 314 Clinical Practice I Sonography **4 Credit hours**
Clinical practice experiences are designed for sequential development, application, critical analysis, integration, synthesis and evaluation of concepts and theories in the performance of sonographic procedures.
Grade Mode: Normal Grading Mode

MI 315 Small Parts Sonography **3 Credit hours**
This course covers anatomy, positioning and scanning protocol of the superficial structures.
Grade Mode: Normal Grading Mode

MI 316 Abdominal Sonography II **3 Credit hours**
This course covers basic abdominal sonographic positioning and scanning protocols, as it relates to normal anatomy, anatomical variants, physiology to include the retroperitoneum, associated abdominal vasculature identified.
Grade Mode: Normal Grading Mode

MI 317 Ultrasound Physics II **3 Credit hours**
The focus of this course is to educate students about the physics of sound waves and their interaction with tissue enabling the display of diagnostic imaging.
Grade Mode: Normal Grading Mode

MI 318 Vascular Sonography I **4 Credit hours**
Discussion of vascular disease, duplex examinations with comparison to arteriography, as it pertains to venous and visceral vascular examinations. Laboratory included.
Grade Mode: Normal Grading Mode

MI 319 Clinical Prac II Sonograpy **4 Credit hours**
Clinical practice experiences are designed for sequential development, application, critical analysis, integration, synthesis and evaluation of concepts and theories in the performance of sonographic procedures.
Grade Mode: Normal Grading Mode

MI 320 Elective Clinical Practicum II **4 Credit hours**
Elective clinical practicum in radiography or sonography.
Grade Mode: Normal Grading Mode

MI 321 Imaging Procedures III **4 Credit hours**
Content is designed to provide the knowledge necessary for advanced diagnostic radiographic imaging procedures.
Pre-req: MI 205 and MI 207.
Grade Mode: Normal Grading Mode

MI 322 Radiation Safety **3 Credit hours**
This course focuses on radiation safety including ionizing radiation dose limits for the occupational worker, patient and general public.
Grade Mode: Normal Grading Mode

MI 401 Seminar in Imaging Sci **1 Credit hour**
Review seminar for the primary ARRT certification examination. Review seminar for the primary ARRT certification examination.
Grade Mode: Normal Grading Mode

MI 402 Quality Management **3 Credit hours**
Advanced practice course in the quality assurance (QA) and quality management (QM) process for imaging sciences. Advanced practice course in the quality assurance (QA) and quality management (QM) process for imaging sciences.
Grade Mode: Normal Grading Mode

MI 403 Adv Practice Medical Img **3 Credit hours**
Core theory requirement for all advanced practice students focused on discussion of communication, human diversity, health care policy, legal issues and patient information management. Core theory requirement for all advanced practice students focused on discussion of communication, human diversity, health care policy, legal issues and patient information management.
Grade Mode: Normal Grading Mode

MI 404 Adv Sectional Anatomy **3 Credit hours**
Provides students enrolled in CT/MRI advanced practice track advanced knowledge of sectional anatomy. Provides students enrolled in CT/MRI advanced practice track advanced knowledge of sectional anatomy.
Co-req: MI 405, MI 407
Grade Mode: Normal Grading Mode

MI 405 CT Procedures **3 Credit hours**
Focus on advanced patient care skills including ACLS, imaging procedures and equipment in computed tomography. Focus on advanced patient care skills including ACLS, imaging procedures and equipment in computed tomography.
Co-req: MI 404, MI 408
Grade Mode: Normal Grading Mode

MI 406 MRI Procedures **3 Credit hours**
Focus on advanced patient care skills including ACLS, imaging procedures and equipment in computed tomography. Focus on advanced patient care skills including ACLS, imaging procedures and equipment in computed tomography.
Co-req: MI 404, MI 408
Grade Mode: Normal Grading Mode

MI 407 Cardiovascular Anatomy **3 Credit hours**
Focus on advanced cardiovascular anatomy, physiology and pathophysiology including heart anatomy, coronary, systemic, pulmonary, peripheral and cerebral circulation. Focus on advanced cardiovascular anatomy, physiology and pathophysiology including heart anatomy, coronary, systemic, pulmonary, peripheral and cerebral circulation.
Co-req: MI 408
Grade Mode: Normal Grading Mode

MI 408 Vascular Interventional Img **3 Credit hours**
Focus is on advanced patient care skills including ACLS, procedures and equipment utilized in cardiovascular and vascular/interventional imaging. Focus is on advanced patient care skills including ACLS, procedures and equipment utilized in cardiovascular and vascular/interventional imaging.
Co-req: MI 407
Grade Mode: Normal Grading Mode

MI 409 Adv Clinical Practice **4 Credit hours**
Students will arrange clinical experience in selected imaging modality to gain competency in clinical procedures required to sit for post-primary ARRT certification exams. Students will arrange clinical experience in selected imaging modality to gain competency in clinical procedures required to sit for post-primary ARRT certification exams.
Grade Mode: Normal Grading Mode

MI 410 Research Medical Imaging **3 Credit hours**
Capstone course. Research methods and information literacy. Capstone course. Research methods and information literacy.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

MI 411 Transcultural Healthcare **3 Credit hours**
Multidisciplinary approach to transcultural healthcare. Course will utilize comparative ethnography and provide a theoretical framework for organizing and interpreting information about health. Multidisciplinary approach to transcultural healthcare. Course will utilize comparative ethnography and provide a theoretical framework for organizing and interpreting information about health.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

MI 412 Radiography Management I **3 Credit hours**
Provides instruction in management principles for radiography departmental managers including JACHO and Nuclear Regulatory Commission parameters. Students will be prepared to sit for the certification exam offered by the AHRA.
Grade Mode: Normal Grading Mode

MI 413 Radiography Management II **3 Credit hours**
Continuation of MI 412 to provide radiographer with management principles and preparation for the AHRA certification exam in radiography management.
Grade Mode: Normal Grading Mode

MI 414 Mammography **3 Credit hours**
Introduction to medical imaging of the breast. Focus is to prepare student for advanced certification exam in Mammography.
Grade Mode: Normal Grading Mode

MI 415 RIS and PACS Principles **3 Credit hours**
Course content provides basic knowledge of digital storage systems, computer networking, radiology information systems (RIS), and picture archiving and communication systems (PACS).
Grade Mode: Normal Grading Mode

MI 416 Obstetrical Sonography I **3 Credit hours**
This course covers basic obstetrical sonographic postitioning and scanning protocols, as it relates to normal anatomy of the fetus.
Grade Mode: Normal Grading Mode

MI 417 Gynecological Sonography I **3 Credit hours**
This course presents a study of normal anatomy and physiology of the nongravid and first trimester pelvis.
Grade Mode: Normal Grading Mode

MI 418 Sonography Registry Review I **1 Credit hour**
This course is designed to prepare the sonography student for their first speciality exam through the ARDMS.
Grade Mode: Normal Grading Mode

MI 419 Clinical Prac III Sonography **4 Credit hours**
Clinical practice experiences are designed for sequential development, application, critical analysis, integration, synthesis and evaluation of concepts and theories in the performance of sonographic procedures.
Grade Mode: Normal Grading Mode

MI 420 Obstetrical Sonography II **2 Credit hours**
This course focuses on sonographic techniques in high risk pregnancies and fetal abnormalities.
Grade Mode: Normal Grading Mode

MI 421 Gynecological Sonography II **2 Credit hours**
This course presents a study of pathology of the nongravid and first trimester pelvis.
Grade Mode: Normal Grading Mode

MI 422 Clinical Pract IV Sonography **4 Credit hours**
Clinical practice experiences are designed for sequential development, application, critical analysis, integration, synthesis and evaluation of concepts and theories in the performance of sonographic procedures.
Grade Mode: Normal Grading Mode

MI 423 Echocardiography I **4 Credit hours**
This course covers basic adult heart sonographic positioning and scanning protocols, as it relates to normal anatomy, anatomical variants, physiology of the adult heart.
Grade Mode: Normal Grading Mode

MI 424 Vascular Sonography II **3 Credit hours**
Discussion of vascular pathology and the use of plethsymography techniques in sonography.
Grade Mode: Normal Grading Mode

MI 425 Echocardiography II **3 Credit hours**
This course is a continuation of MI 423 and covers basic adult heart sonographic positioning and scanning protocols, as it relates to anatomical variants and physiology of the adult heart.
Grade Mode: Normal Grading Mode

MI 426 Advanced Clinical Practice II **4 Credit hours**
Students will arrange clinical experience in selected imaging modality to gain competency in clinical procedures required to sit for post-primary ARRT certification exams.
Grade Mode: Normal Grading Mode

MI 427 Adv Trauma and Surgical Rad **3 Credit hours**
Advanced practice course in trauma and surgical radiography for imaging sciences.
Grade Mode: Normal Grading Mode

MI 428 Forensic Radiology **3 Credit hours**
This course will focus on introducing forensic radiography techniques and theoretical models.
Grade Mode: Normal Grading Mode

MI 429 Geriatric and Pediatric Rad **3 Credit hours**
This course will focus on advanced diagnositc medical imaging in the geriatric and pediatric population including mobile radiography.
Grade Mode: Normal Grading Mode

MI 430 Mammography II **3 Credit hours**
Advanced medical imaging of the breast.
Grade Mode: Normal Grading Mode

MI 431 Adv Clinical Practice III **4 Credit hours**
Elective advanced clinical practicum in radiography or sonography.
Grade Mode: Normal Grading Mode

MI 432 Advanced MRI Theory **3 Credit hours**
Advanced magnetic resonance imaging equipment and procedures.
Pre-req: MI 406 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MI 433 Point of Care Ultrasound **3 Credit hours**
This course will introduce basic principles of point of care ultrasound for vascular and cardiac interventional radiography, and mammography.
Grade Mode: Normal Grading Mode

MI 434 Cardiovascular Imaging **3 Credit hours**
This course will focus on diagnostic and interventional procedures of the cardiovascular system.
Grade Mode: Normal Grading Mode

MI 435 Seminar ARRT Exam Review II **1 Credit hour**
This is a review course for the ARRT primary certification examination.
Grade Mode: Normal Grading Mode

MI 436 Sonography Registry Review II **1 Credit hour**
This course is designed to prepare the sonography student for their second specialty exam through the ARDMS.
Grade Mode: Normal Grading Mode

MI 437 Breast Sonography **3 Credit hours**
This course covers anatomy, positioning and scanning protocol for the breast as well as an introduction to ultrasound physics.
Grade Mode: Normal Grading Mode

MI 438 Fetal Echocardiology **3 Credit hours**
This course focuses on echosonography of the developing fetus.
Grade Mode: Normal Grading Mode

MI 439 Pediatric Echo I **3 Credit hours**
This course focuses on sonographic techniques in pediatric echocardiography.
Grade Mode: Normal Grading Mode

MI 440 Pediatric Echo II **3 Credit hours**
This course is a continuation of MI 439 and focuses on sonographic techniques in pediatric echocardiography.
Pre-req: MI 439 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MI 441 Adv Echocardiography I **3 Credit hours**
This course focuses on advanced sonographic techniques in pediatric echocardiography and is designed for the credentialed echocardiographer training in the area of pediatric echo.
Grade Mode: Normal Grading Mode

MI 442 Adv Echocardiography II **3 Credit hours**
This course is a continuation of MI 441 and focuses on advanced sonographic techniques in pediatric echocardiography and is desinged for the credentialed echocardiographer training in the area of pediatric echo.
Pre-req: MI 441 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MI 485 Independent Study **1-4 Credit hours**
Course designed to allow student to pursue individual research in medical imaging.
Grade Mode: Normal Grading Mode

MI 486 Independent Study **1-4 Credit hours**
Course designed to allow student to pursue individual research in medical imaging.
Grade Mode: Normal Grading Mode

MI 487 Independent Study **1-4 Credit hours**
Course designed to allow student to pursue individual research in medical imaging.
Grade Mode: Normal Grading Mode

MI 488 Independent Study **1-4 Credit hours**
Course designed to allow student to pursue individual research in medical imaging.
Grade Mode: Normal Grading Mode

Military Science (MS)

- General Education Course

MS 101 Foundations of Officership **1 Credit hour**
Increase self-confidence through team study and activities in physical fitness, land navigation, first aid, and basic drill. Learn fundamental concepts of leadership in both classroom and outdoor laboratory environments. (CR: MS 101l) Increase self-confidence through team study and activities in physical fitness, land navigation, first aid, and basic drill. Learn fundamental concepts of leadership in both classroom and outdoor laboratory environments. (CR: MS 101l)
Grade Mode: Normal Grading Mode

MS 101L Mil Sci Basic Lead Lab I **1 Credit hour**
Learn and practice basic soldier skills and field craft. Build self-confidence and team building ledership skills through activities in drill, rappelling and basic marksmanship that can be applied throughout life. Learn and practice basic soldier skills and field craft. Build self-confidence and team building ledership skills through activities in drill, rappelling and basic marksman- ship that can be applied throughout life.
Co-req: MS 101
Grade Mode: Normal Grading Mode

MS 102 Basic Leadership **1 Credit hour**
Learn/apply principles of effective leading. Develop communication skills to improve individual performance and group interaction. Relate organizational ethical values to effectiveness of a leader. Learn/apply principles of effective leading. Develop communication skills to improve individual performance and group interaction. Relate organizational ethical values to effectiveness of a leader.
Co-req: MS 102L
Grade Mode: Normal Grading Mode

MS 102L Mil Sci Basic Lead Lab I **1 Credit hour**
Learn and practice basic soldier skills and field craft. Build self-confidence and team-building leadership skills through activities in drill, rappelling and basic marksmanship that can be applied throughout life. Learn and practice basic soldier skills and field craft. Build self-confidence and team-building leadership skills through activities in drill, rappelling and basic marksman- ship that can be applied throughout life.
Co-req: MS 102
Grade Mode: Normal Grading Mode

MS 201 Individual Leadership Studies **2 Credit hours**
Learn ethics-based leadership skills that develop individual abilities and contribute to team builidng. Develop skills in communications, event planning, group coordination, advanced first aid navigation and basic tactics. Learn ethics-based leadership skills that develop indivi- dual abilities and contribute to team builidng. Develop skills in communications, event planning, group coordina- tion, advanced first aid navigation and basic tactics.
Grade Mode: Normal Grading Mode

MS 201L Mil Sci Basic Lead Lab II **1 Credit hour**
Practice and refine the basic soldier skills and field craft learned in MS 101L/102L. Build self-confidence and teambuilding skills through leadership opportunities supervising MS101L/MS102L cadets, Practice and refine the basic soldier skills and field craft learned in MS 101L/102L. Build self-confidence and team- building skills through leadership opportunities supervising MS101L/MS102L cadets,
Co-req: MS 201
Grade Mode: Normal Grading Mode

MS 202 Leadership and Teamwork **2 Credit hours**
Introduction to individual and team military tatics in squad operations. Includes radio communications, safety assessments, movement techniques, planning for safety/ security, training management, and methods of preoperational checks. Introduction to individual and team military tatics in squad operations. Includes radio communications, safety assessments, movement techniques, planning for safety/ security, training management, and methods of pre- operational checks.
Co-req: MS 202L
Grade Mode: Normal Grading Mode

MS 202L Mil Sci Basic Lead Lab II **1 Credit hour**
Practice and refine the basic soldier skills and field craft learned in MS101L/102L, Build self confidence and teambuilding skills through leadership opportunities supervising MS101L/102L cadets, learned in MS101L/102L. Build self-confidence and team building skills through leadership opportunities supervising MS101L/MS102L cadets. Practice and refine the basic soldier skills and field craft learned in MS101L/102L, Build self confidence and team- building skills through leadership opportunities supervising MS101L/102L cadets, learned in MS101L/102L. Build self-confidence and team - building skills through leadership opportunities supervising MS101L/MS102L cadets.
Co-req: MS 202
Grade Mode: Normal Grading Mode

MS 209 Nursing in the Army **2 Credit hours**
An overview of aspects, opportunities, and career progression for BSN Army nurses.field trips to local civilian, VA, and military medical facilities are included. An overview of aspects, opportunities, and career progres- sion for BSN Army nurses.field trips to local civilian, VA, and military medical facilities are included.
Grade Mode: Normal Grading Mode

MS 211 Ranger Operations & Tech **2 Credit hours**
Provides an overview ofU.S. Army Ranger history, organization, and mission. small unit tactics, leadership, patrolling techniques, marksmanship, rappelling, and land navigation. Provides an overview ofU.S. Army Ranger history, organi- zation, and mission. small unit tactics, leadership, pa- trolling techniques, marksmanship, rappelling, and land navigation.
Grade Mode: Normal Grading Mode

MS 221 Army Phys Readiness Prog **1 Credit hour**
A physical training program consisting of Army conditioning drills, guerrilla exercises, and grass drills. A physical training program consisting of Army conditioning drills, guerrilla exercises, and grass drills.
Grade Mode: Normal Grading Mode

MS 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MS 281 Special Topics **1-4 Credit hours**
Pre-req: MS 301.
Grade Mode: Normal Grading Mode

MS 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MS 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MS 284 Military History **3 Credit hours**
Review the evolution of warfare, military theory and the military profession, with particular emphasis on the place of military institutions in society, as to develop a sense of historical awareness.
Grade Mode: Normal Grading Mode

MS 301 Leadership and Prob Solving **3 Credit hours**
Uses small unit defensive tactics and opportunities to plan and conduct training. Practical opportunities to lead small groups, receive personal assessments/encouragement, and lead in situations of increasing complexity. Uses small unit defensive tactics and opportunities to plan and conduct training. Practical opportunities to lead small groups, receive personal assessments/encouragement, and lead in situations of increasing complexity.
Pre-req: MS 202 or MS 251.
Co-req: MS 301L
Grade Mode: Normal Grading Mode

MS 301L Adv Course Lead Lab III **1 Credit hour**
Students develop, practice and refine leadership skills by serving and being evaluated in a variety of leadership positions. Students are responsible for the planning, coordination, execution and evaluation of training. Students develop, practice and refine leadership skills by serving and being evaluated in a variety of leadership positions. Students are responsible for the planning, coordination, execution and evaluation of training.
Grade Mode: Normal Grading Mode

MS 302 Leadership and Ethics **3 Credit hours**
Analyze tasks; prepare written/oral guidance delegate, and supervise. Plan for and adapt to the unexpected under stress. Examine and apply lessons from leadership case studies. Analyze tasks; prepare written/ oral guidance delegate, and supervise. Plan for and adapt to the unexpected under stress. Examine and apply lessons from leadership case studies.
Pre-req: MS 301 with a minimum grade of D and MS 301L with a minimum grade of D.
Co-req: MS 302L
Grade Mode: Normal Grading Mode

MS 302L Adv Course Lead Lab III **1 Credit hour**
Students develop practice and refine leadership skills by serving and being evaluated in a variety of leadership positions. Students are responsible for the planning, coordination, execution and evaluation of training. Students develop practice and refine leadership skills by serving and being evaluated in a variety of leadership positions. Students are responsible for the planning, coordination, execution and evaluation of training.
Co-req: MS 302
Grade Mode: Normal Grading Mode

MS 351 Summer Training Camp **6 Credit hours**
A five-week camp at an active arem post; it is highly structured and demanding, stressing leadership at small unit levels under varing, challenging conditions. Individual leadership eveluated throughout camp. (PR: MS 302) A five-week camp at an active arem post; it is highly structured and demanding, stressing leadership at small unit levels under varing, challenging conditions. Individual leadership eveluated throughout camp. (PR: MS 302)
Grade Mode: Credit/No Credit Grade Only

MS 401 Leadership and Management **3 Credit hours**
Articulate goals, plan, conduct, and evaluate activities of the ROTC cadet organization. Assess organizational cohesion and develop improvement strategies. Develop confidence in leadership skills and manage resources. Articulate goals, plan, conduct, and evaluate activities of the ROTC cadet organization. Assess organizational cohesion and develop improvement strategies. Develop confidence in leadership skills and manage resources.
Pre-req: MS 302.
Co-req: MS 401L
Grade Mode: Normal Grading Mode

MS 401L Adv Course Lead Lab IV **1 Credit hour**
Students develop, practice and refine leadership skills by serving a variety of leadership positions. Students are responsible for the planning, coordination, execution and evaluation of training for students enrolled in MS 101L-MS 302L. Students develop, practice and refine leadership skills by serving a variety of leadership positions. Students are responsible for the planning, coordination, execution and evaluation of training for students enrolled in MS 101L-MS 302L.
Co-req: MS 401
Grade Mode: Normal Grading Mode

MS 402 Officership **3 Credit hours**
Identify/resolve ethical dilemmas. Refine counseling/ motivating techniques. Examine aspects of tadition and law as relating to an Army officer. Prepare for a future as a successful Army lieutenant. Identify/ resolve ethical dilemmas. Refine counseling/ motivating techniques. Examine aspects of tadition and law as relating to an Army officer. Prepare for a future as a successful Army lieutenant.
Pre-req: MS 401 with a minimum grade of D.
Co-req: MS 402L
Grade Mode: Normal Grading Mode

MS 402L Adv Course Lead Lab IV **1 Credit hour**
Students develop, practice and refine leadership skills by serving a variety of leadership positions. Students are responsible for the planning, coordination, execution and evaluation of training for students enrolled in MS 101L-MS 302L. Music (MUS)

- General Education Course

MUS 100 Applied Music Laboratory **0 Credit hours**
A forum devoted to the development of applied music skills, supplying the opportunity for music majors both to demonstrate performance skills and to observe the skills of colleagues. A forum devoted to the development of applied music skills, supplying the opportunity for music majors both to demon- strate performance skills and to observe the skills of colleagues.
Attributes: No Textbook Required
Grade Mode: Credit/No Credit Grade Only

MUS 101 Basic Musicianship **3 Credit hours**
Study of music fundamentals and aural skills including: notation, key signatures, scales, intervals, and triads and aural recognition of meter, scales, intervals, and triads. Online section open to non-music majors.
Grade Mode: Normal Grading Mode

MUS 102 Developmental Class Piano **1 Credit hour**
Class instruction for students with little or no prior background in piano. Preparation for entry into the MUS 179 sequence. Pre: Permission. Class instruction for students with little or no prior background in piano. Preparation for entry into the MUS 179 sequence. Pre: Permission.
Grade Mode: Normal Grading Mode

MUS 105 Critical Thinking Music (CT) **3 Credit hours**
Includes the study of critical thinking in music fields with specific focus on music education and performance. Includes the study of critical thinking in music fields with specific focus on music education and performance.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

MUS 109 Mus Theatre Musicianship Lab **1 Credit hour**
A music literacy lab for the musical theatre major emphasizing the practices of sight-singing and rhythm skills covered in MUS 101.
Pre-req: MUS 101 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 110 The Professional Musician **1 Credit hour**
Investigation of traditional and non-traditional music career options and the role of the musician in arts advocacy, community engagement, and arts education. (pre-requisities: none)
Grade Mode: Normal Grading Mode

MUS 111 Elementary Music Theory I **2 Credit hours**
Study of the diatonic harmony of the Common Practice Period through development of compositional and analytical skills. Emphasis on cadences, melodic form, non-harmonic tones and diatonic triads.
Co-req: MUS 113
Grade Mode: Normal Grading Mode

MUS 112 Elementary Music Theory II **2 Credit hours**
Continued study of diatonic harmony of the Common Practice Period through development of compositional and analytical skills. Introduction to elementary forms, elementary modulation, and secondary dominants.
Pre-req: MUS 111 with a minimum grade of C and MUS 113 with a minimum grade of C.
Co-req: MUS 114
Grade Mode: Normal Grading Mode

MUS 113 Elem Aural Skills I **2 Credit hours**
Sight-singing of melodies, and dictation of harmony, rhythm, and melody using elementary rhythms and diatonic pitch materials.
Co-req: MUS 111
Grade Mode: Normal Grading Mode

MUS 114 Elem Aural Skills II **2 Credit hours**
Sight-singing of melodies, and dictation of harmony, rhythm, and melody using diatonic pitch materials in major and minor modes. Introduction to syncopation, secondary dominants, and elementary forms.
Pre-req: MUS 113 with a minimum grade of C.
Co-req: MUS 112
Grade Mode: Normal Grading Mode

MUS 142 Music in Society **3 Credit hours**
Exploration of the roles and value of music in culture and society. Development of musical awareness through mastery of basic terminology, stylistic concepts, and critical listening skills. For non-music majors.
Attributes: Affordable Education Materials, Core II Fine Arts, Multicultural
Grade Mode: Normal Grading Mode

MUS 142H Music in Society Honors **3 Credit hours**
Exploration of the roles an value of music in culture and society. Development of musical awareness through mastery of basic terminology, stylistic concepts, and critical listening skills. For non-music majors. 3 credits.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Affordable Education Materials, Core II Fine Arts, Honors, Multicultural
Grade Mode: Normal Grading Mode

MUS 171 African Drum & Dance Ens **1 Credit hour**
The African Drumming and Dance Ensemble specializes in performing traditional music of West Africa. This ensemble combines dancing, drumming and singing into a rich cultural experience in non-western music. The ensemble is open to all univerisity students and does not require prior musical training. The African Drumming and Dance Ensemble specializes in performing traditional music of West Africa. Grade Mode: Normal Grading Mode

MUS 200 Introduction to World Music **3 Credit hours**
This course will survey native musics of Africa, Asia and the Americas as an aspect of culture. No formal background in music is required.
Attributes: Core II Fine Arts, Multicultural
Grade Mode: Normal Grading Mode

MUS 203 Choral Union **1 Credit hour**
Large choral ensemble available to university and regional singers without audition. Gives public performances of oratorios and works for chorus and orchestra twice a year. One rehearsal per week. Large choral ensemble available to university and regional singers without audition. Gives public performances of oratorios and works for chorus and orchestra twice a year. One rehearsal per week.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 204 University Chorus **1 Credit hour**
A mixed chorus of 60-90 singers open to all university students without audition. Public performances of a variety of music are given each semester. Three rehearsals per week. A mixed chorus of 60-90 singers open to all university students without audition. Public performances of a variety of music are given each semester. Three rehearsals per week.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 205 A Cappella Ensemble **1 Credit hour**
A mixed a capella ensemble dedicated to the performance of a variety of popular, jazz, and contemporary sytles. Open to all students regardless of major. PR: Permission.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 206 Opera Workshop **1 Credit hour**
Preparation and performance of opera scenes and full operas. Membership open to students as singers, pianists, and technical personnel. Roles assigned by audition. Two rehearsals per week plus private coaching. Preparation and performance of opera scenes and full operas. Membership open to students as singers, pianists, and technical personnel. Roles assigned by audition. Two rehearsals per week plus private coaching.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 207 Chamber Choir **1 Credit hour**
Advanced, auditioned choral ensemble open to all university students. Repertoire performed locally and on tour includes great chamber literature of the past five centuries. Three rehearsals per week. Advanced, auditioned choral ensemble open to all university students. Repertoire performed locally and on tour includes great chamber literature of the past five centuries. Three rehearsals per week.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 208 Orchestra **1 Credit hour**
The Marshall Community Orchestra is open to all university students, faculty, and interested musicians in the community with permission of the instructor. Concerts are presented each semester. Rehearsals are held each Tuesday evening. The Marshall Community Orchestra is open to all university students, faculty, and interested musicians in the community with permission of the instructor. Concerts are presented each semester. Rehearsals are held each Tuesday evening.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 210 Intro to Electronic Music (CT) **3 Credit hours**
A non-technical introduction to the theory, practice and literature of electronic music. This course fulfills a Core I/CT Course requirement. Open to all majors.
Attributes: Critical Thinking, Digital Humanities, Core II Fine Arts
Grade Mode: Normal Grading Mode

MUS 211 Advanced Music Theory I **2 Credit hours**
Study of advanced harmonic concepts in tonal music including modulation, altered pre-dominants, and chromatic mediant relationships.
Pre-req: MUS 112 with a minimum grade of C and MUS 114 with a minimum grade of C.
Co-req: MUS 213
Grade Mode: Normal Grading Mode

MUS 212 Advanced Music Theory II **2 Credit hours**
The study of musical forms and formal processes found in music of the late 18th through the 19th centuries.
Pre-req: MUS 211 with a minimum grade of C and MUS 213 with a minimum grade of C.
Co-req: MUS 214
Grade Mode: Normal Grading Mode

MUS 213 Adv Aural Skills I **2 Credit hours**
Sight-singing and aural analysis of melodies, harmonies, and rhythms found in 18th and 19th century music, including modulating melodies, secondary dominants, multi-part harmonic dictation, and characteristic rhythms. (PRE: MUS 112 and MUS 114; MUS 211 must be taken concurrently or prior to enrollment in MUS 213) Sight-singing and aural analysis of melodies, harmonies, and rhythms found in 18th and 19th century music, including modulating melodies, secondary dominants, multi-part harmonic dictation, and characteristic rhythms. (PRE: MUS 112 and MUS 114; MUS 211 must be taken concurrently or prior to enrollment in MUS 213)
Pre-req: MUS 112 with a minimum grade of C and MUS 114 with a minimum grade of C.
Co-req: MUS 211
Grade Mode: Normal Grading Mode

Sight-singing and aural analysis of 19th and 20th century music, including chromatic harmony, modulating melodies, multi-part harmonic dictation, scale/chord identification, characteristic 20th century sonorities and advanced rhythmic materials. (PREREQ: MUS 211 and MUS 213; MUS 212 must be taken concurrently or prior to enrollment in MUS 213) Sight-singing and aural analysis of 19th and 20th century music, including chromatic harmony, modulating melodies, multi-part harmonic dictation, scale/chord identification, characteristic 20th century sonorities and advanced rhythmic materials. (PREREQ: MUS 211 and MUS 213; MUS 212 must be taken concurrently or prior to enrollment in MUS 213)
Pre-req: MUS 211 with a minimum grade of C and MUS 213 with a minimum grade of C.
Co-req: MUS 212
Grade Mode: Normal Grading Mode

MUS 217 Jazz Theory **4 Credit hours**
Fundamental jazz theory and ear training. Chords, scales, nomenclature. Harmonic progressions and substitutions. Aural recognition of melodic and chord structures and functions. Composition and transcription. Pre: MUS 215 Fundamental jazz theory and ear training. Chords, scales, nomenclature. Harmonic progressions and substitutions. Aural recognition of melodic and chord structures and functions. Composition and transcription. Pre: MUS 215
Pre-req: MUS 211 with a minimum grade of C or MUS 213 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 218 Intro to Music Technology **3 Credit hours**
Introduction to music technology for sound reinforcement, music notation, MIDI, recording, technology aided instruction, and emerging issues concerning use and production of media in Western society. (PR: MUS 112 and 114 or permission)
Pre-req: MUS 112 with a minimum grade of D and MUS 114 with a minimum grade of D.
Grade Mode: Normal Grading Mode

MUS 219 Digital Recording Techniques **2 Credit hours**
Concepts, implementation, and utlization of digital audio workstation software and hardware: MIDI, digital audio, recording techniques, production, and using the Internet to empower music creators (open to non-music majors) Prerequisite: None
Grade Mode: Normal Grading Mode

MUS 222 Ital & Eng Diction Singer **2 Credit hours**
A systematic study of the pronunciation and problems encountered by singers when performing repertoire with English and Italian texts. A systematic study of the pronunciation and problems encountered by singers when performing repertoire with English and Italian texts.
Grade Mode: Normal Grading Mode

MUS 224 Fren & Ger Diction Singer **2 Credit hours**
A systematic study of the pronunciation and problems encountered by singers when performing repertoire with French and German texts. A systematic study of the pronunciation and problems encountered by singers when performing repertoire with French and German texts.
Pre-req: MUS 222 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 227 History of Popular Music **3 Credit hours**
A chronological listening survey course of popular music with an emphasis on examining the intersection of musical, historical, sociological, and cultural factors.
Attributes: Core II Fine Arts
Grade Mode: Normal Grading Mode

MUS 231 Jazz Improvisation I **2 Credit hours**
Introduction to improvisation. Diatonic chord/scale relationships. Basic forms. Melodic construction and elaboration. Rhythmic improvisation. Keys and modes. Pre: MUS 116 Introduction to improvisation. Diatonic chord/scale relationships. Basic forms. Melodic construction and elaboration. Rhythmic improvisation. Keys and modes. Pre: MUS 116
Pre-req: MUS 114 with a minimum grade of C and MUS 112 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 232 Jazz Improvisation II **2 Credit hours**
Continued development of skills and techniques. Idiomatic jazz patterns. Survey of standard literature. Turnarounds, blues progressions. Transcription of solos. Performance and elaboration of representative literature. Pre: MUS 231 Continued development of skills and techniques. Idiomatic jazz patterns. Survey of standard literature. Turnarounds, blues progressions. Transcription of solos. Performance and elaboration of representative literature. Pre: MUS 231
Pre-req: MUS 231 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 233 Percussion Class **3 Credit hours**
A class of non-music majors who will learn to play percussion instruments from various cultures.
Grade Mode: Normal Grading Mode

MUS 235 Concert Band **1 Credit hour**
A concert band for any undergraduate student who has had experience playing a band instrument in high school or middle school.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 237 Brass Band of the TriState **1 Credit hour**
A community/university ensemble modeled after the British-style brass band.
Grade Mode: Normal Grading Mode

MUS 240 Music Comp/Theory Sem **2 Credit hours**
Introduction to advanced theoretical and compositional methods employed by artist/researchers in analyzing music from the 19th and 20th centuries. (PR: MUS 215, Permission) Introduction to advanced theoretical and compositional methods employed by artist/researchers in analyzing music from the 19th and 20th centuries. (PR: MUS 215, Permission)
Pre-req: MUS 112 with a minimum grade of C and MUS 114 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 245 Piano Ensemble **1 Credit hour**
An ensemble elective for piano majors and qualified piano secondary/elective students. Perform a wide variety of musical styles for multiple pianists on 1-5 pianos. May be repeated for credit. An ensemble elective for piano majors and qualified piano secondary/elective students. Perform a wide variety of musical styles for multiple pianists on 1-5 pianos. May be repeated for credit.
Attributes: No Textbook Required

Skills required to create careers as entrepreneurial performing artists or to supplement an arts career in entrepreneurial pursuits, including planning, self-promotion, networking, audience building, and marketing.
Grade Mode: Normal Grading Mode

MUS 312 Vocal Techniques **1 Credit hour**
Foundation principles of voice usage, interpretation, and problems of vocal pedagogy. For instrumental music major students. Courses must be taken in sequence. Foundation principles of voice usage, interpretation, and problems of vocal pedagogy. For instrumental music major students. Courses must be taken in sequence.
Grade Mode: Normal Grading Mode

MUS 315 Basic Conducting **2 Credit hours**
Fundamental conducting skills: baton use, beat patterns of simple/compound meters, fermata holds/releases, cues to discrete parts using hand, visual gestures, leadership, conducting terminology, transportation and score reading.
Pre-req: MUS 212 with a minimum grade of C or MUS 214 with a minimum grade of C or MUS 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 317 Counterpoint **2 Credit hours**
Eighteenth Century counterpoint includes creative writing in this style and analysis of contrapuntal composition of this period based upon principles learned in introductory theory courses. Eighteenth Century counterpoint includes creative writing in this style and analysis of contrapuntal composition of this period based upon principles learned in introductory theory courses.
Pre-req: MUS 216 or MUS 214 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 320 Instrumental Arranging **2 Credit hours**
The study of the instruments of the modern orchestra, their history, technical possibilities and limitations, and practical application of technique in public school work. The study of the instruments of the modern orchestra, their history, technical possibilities and limitations, and practical application of technique in public school work.
Pre-req: (MUS 212 with a minimum grade of C and MUS 214 with a minimum grade of C).
Grade Mode: Normal Grading Mode

MUS 322 Orchestration **2 Credit hours**
A detailed study of band and orchestral instrument capabilities and their use in various large and small ensembles. (PR: MUS 212 and MUS 214) A detailed study of band and orchestral instrument capabilities and their use in various large and small ensembles. (PR: MUS 212 and MUS 214)
Pre-req: MUS 212 and MUS 214.
Grade Mode: Normal Grading Mode

MUS 323 Jazz Arranging/Composing **3 Credit hours**
Fundamental techniques and analysis of jazz masterworks applied to composing and arranging in various instrumental and vocal jazz styles. Orchestration for large and small ensembles. Pre: MUS 307 Fundamental techniques and analysis of jazz masterworks applied to composing and arranging in various instrumental and vocal jazz styles. Orchestration for large and small ensembles. Pre: MUS 307
Pre-req: MUS 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 326 Music Industry Law **3 Credit hours**
An introduction to the music industry and relevant areas of contract, copyright, and trademark law.
Pre-req: MUS 327 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: MUS 327
Grade Mode: Normal Grading Mode

MUS 327 Music Business I **2 Credit hours**
A study of the intersection of music and business aimed at developing foundational skills and an understanding of the structure of the music business.
Grade Mode: Normal Grading Mode

MUS 331 Jazz Improvisation III **2 Credit hours**
Advanced skills and techniques. Extended forms, substitute harmonic progressions. Survey of standard bebop literature. Transcription of solos. Performance and elaboration of representative literature. Pre: MUS 232 Advanced skills and techniques. Extended forms, substitute harmonic progressions. Survey of standard bebop literature. Transcription of solos. Performance and elaboration of representative literature. Pre: MUS 232
Pre-req: MUS 232 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 332 Jazz Improvisation IV **2 Credit hours**
Advanced skills, techniques, and performance practices. Compound and extended forms. Survey of post-bebop, free jazz, fusion, and Afro-Carribbean literature. Transcription of solos. Performance of representative literature. Pre: MUS 331 Advanced skills, techniques, and performance practices. Compound and extended forms. Survey of post-bebop, free jazz, fusion, and Afro-Carribbean literature. Transcription of solos. Performance of representative literature. Pre: MUS 331
Pre-req: MUS 331 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 338 Mat & Meth School Mus Pre K-4 **3 Credit hours**
Elementary music education techniques, including movement, song, dance, rhythm, and musicianship. Study of Orff, Kodaly, Dalcroze techniques. Curriculum design and incorporation of music curriculum into elementary curriculum. Field experience required. (PR: EDF 218 and EDF 319) Elementary music education techniques, including movement, song, dance, rhythm, and musicianship. Study of Orff, Kodaly, Dalcroze techniques. Curriculum design and incorporation of music curriculum into elementary curriculum. Field experience required. (PR: EDF 218 and EDF 319)
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

MUS 339 Mat & Meth Instru Mus 5-12 **3 Credit hours**
Study of curriculum development in the middle and secondary schools and appropriate instrumental materials and methods of presentation of music in grades 5-12. Study of curriculum development in the middle and secondary schools and appropriate instrumental materials and methods of presentation of music in grades 5-12.
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

MUS 340 Mat & Meth Chor Grn Mus 5-12 **3 Credit hours**
Intensive study of vocal/choral materials. Methods of presentation of music in middle and secondary grades. Curriculum design and incorporation of music curriculum into general curriculum. Field experience required. (PR: EDF 218 and EDF 319) Intensive study of vocal/choral materials. Methods of presentation of music in middle and secondary grades. Curriculum design and incorporation of music curriculum into general curriculum. Field experience required. (PR: EDF 218 and EDF 319)
Pre-req: Admitted to Teacher ED with a score of 4.
Grade Mode: Normal Grading Mode

MUS 342 Mus in Elementary Classroom **3 Credit hours**
Music in the Elementary Classroom. Development of fundamental music reading and performing skills. Materials, procedures, and systems to teach music in grades PreK-6. Relationship of music activities to general classroom curriculum. Music in the Elementary Classroom. Development of funda- mental music reading and performing skills. Materials, procedures, and systems to teach music in grades PreK-6. Relationship of music activities to general classroom curriculum.
Grade Mode: Normal Grading Mode

MUS 350 Guitar Literature I **2 Credit hours**
A survey of the literature for the guitar from c. 1400 to the end of the nineteenth century. (PR: Permission)
Grade Mode: Normal Grading Mode

MUS 351 Guitar Pedagogy I **2 Credit hours**
A survey of guitar pedagogy literature, and a practicum in teaching classical guitar. (PR: Permission)
Grade Mode: Normal Grading Mode

MUS 360 Music History 1730 - 1900 **3 Credit hours**
A study of the history and development of music c. 1730 to c. 1900, including the interaction of music with historical events, world cultures, other arts and philosophy PR: MUS 290 or MUS 260 (Jazz Studies majors only) with a grade of C or better A study of the history and development of music c. 1730 to c. 1900, including the interaction of music with historical events, world cultures, other arts and philosophy PR: MUS 290 or MUS 260 (Jazz Studies majors only) with a grade of C or better
Pre-req: MUS 290 with a minimum grade of C or MUS 250 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 361 Music History Since 1900 **3 Credit hours**
A study of the history and development of music since c. 1900, including the interaction of music with historical events, world cultures, other arts and philosophy PR: MUS 360 with a grade of C or better A study of the history and development of music since c. 1900, including the interaction of music with historical events, world cultures, other arts and philosophy PR: MUS 360 with a grade of C or better
Pre-req: MUS 360 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 371 African Drum & Dance Ens **1 Credit hour**
The African Dumming and Dance Ensemble specializes in performing traditional music of West Africa. This ensemble combines dancing, drumming and singing into a rich cultural experience in non-western music. The ensemble is open to all university students and does not require prior musical training. The African Dumming and Dance Ensemble specializes in performing traditional music of West Africa. MUS 399 Guitar **1-2 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 400 Collaborative Composition **2 Credit hours**
Music composition projects proposed, developed, and realized with collaborators in disciplines outside of music including but not exclusive to: visual art/media, theatre, film/video, dance, or video games (PR: Instructor permission)
Grade Mode: Normal Grading Mode

MUS 401 Research in Music **3 Credit hours**
Basic research procedures and bibliography study culminating in a project in the student's area of specialization. Basic research procedures and bibliography study culminating in a project in the student's area of specialization.
Pre-req: MUS 301 with a minimum grade of C and MUS 361 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 402 Chamber Music Pedagogy **2 Credit hours**
A survey of chamber music pedagogy literature, and a practicum in teaching chamber music. (PR: Permission)
Grade Mode: Normal Grading Mode

MUS 403 Choral Union **1 Credit hour**
Large choral ensemble available to university and regional singers without audition. Gives public performances or oratorios and works for chorus and orchestra twice a year. One rehearsal per week. Large choral ensemble available to university and regional singers without audition. Gives public performances or oratorios and works for chorus and orchestra twice a year. One rehearsal per week.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 404 University Chorus **1 Credit hour**
A mixed chorus of 60-90 singers open to all university students without audition. Public performances of a variety of music are given each semester. Three rehearsals per week. A mixed chorus of 60-90 singers open to all university students without audition. Public performances of a variety of music are given each semester. Three rehearsals per week.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 405 A Cappella Ensemble **1 Credit hour**
A mixed a capella ensemble dedicated to the performance of a variety of popular, jazz, and contemporary styles. Open to all students regardless of major. PR: Permission.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 406 Opera Workshop **1 Credit hour**
Preparation and performance of opera scenes and full operas. Membership open to students as singers, pianists, and technical personnel. Roles assigned by audition. Two rehearsals per week plus private coaching. Preparation and performance of opera scenes and full operas. Membership open to students as singers, pianists, and technical personnel. Roles assigned by audition. Two rehearsals per week plus private coaching.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 407 Chamber Choir **1 Credit hour**
Advanced, auditioned choral ensemble open to all university students. Repertoire performed locally and on tour includes great chamber literature of the past five centuries. Three rehearsals per week. Advanced, auditioned choral ensemble open to all university students. Repertoire performed locally and on tour includes great chamber literature of the past five centuries. Three rehearsals per week.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 408 Orchestra **1 Credit hour**
The Marshall Community Orchestra is open to all university students, faculty, and interested musicians in the community with permission of the instructor. Concerts are presented each semester. Rehearsals are held each Tuesday evening. The Marshall Community Orchestra is open to all university students, faculty, and interested musicians in the community with permission of the instructor. Concerts are presented each semester. Rehearsals are held each Tuesday evening.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 412 Jazz Pedagogy and Conducting **3 Credit hours**
Methods and materials for jazz curriculum. Ensemble organization, rehearsal and conducting techniques. Selection of literature and equipment. Organizations and presentation of public performances. PR: MUS 323
Pre-req: MUS 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 413 Jazz Styles **2 Credit hours**
Structural forms used in jazz, analysis of extended forms. Techniques for solo transcriptions. Harmonic practices in specific styles. Survey of significant jazz composers, performers, genres. PR: MUS 217
Pre-req: MUS 217 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 414 Music Psy and Learning Theory **3 Credit hours**
Introduction to the psychology of music, human development, and assessment of learning.
Grade Mode: Normal Grading Mode

MUS 415 Advanced Conducting **2 Credit hours**
Advanced study of choral and instrumental conducting techniques emphasizing rehearsal and performance strategies, score study, ensemble warm-ups, asymmetric and changing meters. Lab ensemble experience provided.
Pre-req: MUS 315 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 427 Music Business II **2 Credit hours**
An in-depth examination of the commerical music industry designed at developing business related competencies including entrepreneurship, IP management, legal issues, and contract law; skills essential for maintaining a professional music career.
Pre-req: MUS 227 with a minimum grade of C and MUS 327 with a minimum grade of C and (ENT 220 with a minimum grade of C or LE 306 with a minimum grade of C or MGT 320 with a minimum grade of C or MKT 340 with a minimum grade of C).
Grade Mode: Normal Grading Mode

MUS 428 Song Literature **2 Credit hours**
Grade Mode: Normal Grading Mode

MUS 429 Vocal Pedagogy **2 Credit hours**
Review of materials, concepts and methodology used in teaching singing; overview of anatomy and function of the voice. Emphasis on beginning and intermediate levels. Review of materials, concepts and methodology used in teaching singing; overview of anatomy and function of the voice. Emphasis on beginning and intermediate levels.
Grade Mode: Normal Grading Mode

MUS 432 Music Production **2 Credit hours**
Music production techniques for a variety of genres using a digital audio workstation.
Pre-req: MUS 212 with a minimum grade of C and MUS 214 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 435 Concert Band **1 Credit hour**
A concert band for any undergraduate student who has had experience playing a band instrument in high school or middle school.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 437 Brass Band of the TriState **1 Credit hour**
A community/university ensemble modeled after the British-style brass band.
Grade Mode: Normal Grading Mode

MUS 439 Teaching Advanced Piano **2 Credit hours**
Materials and techniques of presentation; appropriate selection of repertoire; teaching strategies for late intermediate and advanced levels; exploration of pedagogical, business, and wellness resource for the independent piano teacher.
Grade Mode: Normal Grading Mode

MUS 440 Teachin Beg-Intermed Piano **2 Credit hours**
Materials and techniques of presentation; development of reading skills; basic fundamentals of technique; cultivation of musicianship. Emphasis is on elementary and intermediate levels. Materials and techniques of presentation; development of reading skills; basic fundamentals of technique; cultivation of musicianship. Emphasis is on elementary and intermediate levels.
Grade Mode: Normal Grading Mode

MUS 441 Piano Literature I **2 Credit hours**
Pre-req: MUS 216.
Grade Mode: Normal Grading Mode

MUS 445 Piano Ensemble **1 Credit hour**
An ensemble elective for piano majors and qualified piano secondary/elective students. Perform a wide variety of musical styles for multiple pianists on 1-5 pianos. May be repeated for credit. An ensemble elective for piano majors and qualified piano secondary/elective students. Perform a wide variety of musical styles for multiple pianists on 1-5 pianos. May be repeated for credit.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 450 Guitar Literature II **2 Credit hours**
A survey of the literature for the guitar during the twentieth and twenty-first centuries. (PR: Permission)
Grade Mode: Normal Grading Mode

MUS 451 Guitar Pedagogy II **2 Credit hours**
A survey of guitar pedagogy literature, and a practicum in teaching classical guitar. A survey of guitar pedagogy literature, and a practicum in teaching classical guitar.
Grade Mode: Normal Grading Mode

MUS 452 Cello Ensemble **1 Credit hour**
Cello students will rehearse and perform works from the major literature for cello ensemble. Cello students will rehearse and perform works from the major literature for cello ensemble.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 453 Guitar Ensemble **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 454 Flute Ensemble **1 Credit hour**
Performs a wide variety of musical styles from full flute choir to quarters, trios, etc. Membership required of all flute majors; others by audition. One rehearsal per week. Performs a wide variety of musical styles from full flute choir to quarters, trios, etc. Membership required of all flute majors; others by audition. One rehearsal per week.

MUS 467 Wind Symphony **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 468 Sixth Man Band **1 Credit hour**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 469 Contemporary Music Ens **1 Credit hour**
Performance of contemporary music in various media. May be repeated for credit. Counts towards improvisation requirement.
Grade Mode: Normal Grading Mode

MUS 470 Musical Prods Practicum **1 Credit hour**
Application of musical production processes, theories and techniques. Specialized practical experience in all musical aspects of rehearsal and performance. Each number may be taken four times. Application of musical production processes, theories and techniques. Specialized practical experience in all musical aspects of rehearsal and performance. Each number may be taken four times.
Grade Mode: Normal Grading Mode

MUS 476 Senior Recital **0 Credit hours**
The culminating recital for applied music study in the principal applied area.
Pre-req: MUS 376 with a minimum grade of C.
Attributes: No Textbook Required
Grade Mode: Credit/No Credit Grade Only

MUS 479 Applied Pedagogy Lab **1 Credit hour**
Practical application of concepts, methodology, and materials covered to demonstrate efficient and effective teaching in the applied area.
Grade Mode: Normal Grading Mode

MUS 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MUS 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MUS 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MUS 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MUS 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required

MUS 488 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

MUS 494 Workshop **1-4 Credit hours**
Grade Mode: Normal Grading Mode

MUS 495 Music Internship **1-4 Credit hours**
Practical synthesis and application of knowledge and skills gained during the student's course of study.
Pre-req: MUS 310 with a minimum grade of C.
Grade Mode: Normal Grading Mode

MUS 496 Musical Theatre Capstone **1 Credit hour**
A culminating Musical Theatre performance and critical self-reflection. Students develop proposals with input from faculty mentor.
Grade Mode: Normal Grading Mode

MUS 497 Capstone Project in Music **1-2 Credit hours**
A discipline-based experience designed to combine classroom and studio education in a summarizing project. (PR: MUS 310, successful completion of piano proficiency requirements)
Pre-req: MUS 310 with a minimum grade of C and (MUS 179D with a minimum grade of C or MUS 279D with a minimum grade of C or Piano Proficiency with a score of 1).
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

MUS 498 BFA Composition Capstone **2 Credit hours**
A discipline-based experience designed to combine classroom and studio education in a summarizing project. A discipline-based experience designed to combine classroom and studio education in a summarizing project.
Pre-req: MUS 310 with a minimum grade of C or MUS 376 with a minimum grade of C or (MUS 179D with a minimum grade of C or MUS 279D with a minimum grade of C or Piano Proficiency with a score of 1).
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

MUS 499 BFA Performance Capstone **2 Credit hours**
Pre-req: MUS 310 with a minimum grade of C or MUS 376 with a minimum grade of C or (MUS 179D with a minimum grade of C or MUS 279D with a minimum grade of C or Piano Proficiency with a score of 1).
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

Nat Resources & Environment (NRE)

- General Education Course

NRE 111 Living Systems **4 Credit hours**
This course is designed to equip students to observe and create their own questions, test them, and continue the process of scientific inquiry related to living systems.
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

NRE 120 Discussion in Environ Sci (CT) **3 Credit hours**
Critical thinking course designed to examine and explore issues in environmental science including protection of terrestrial and aquatic resources and production of energy and food for a growing population.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

NRE 200 Introduction to Agriculture **3 Credit hours**
This course will discuss scientific concepts essential to agriscience and examine practices, careers, and new directions in various fields in agriculture.
Grade Mode: Normal Grading Mode

NRE 212 Energy **3 Credit hours**
The course introduces the students to the properties and the interfaces of biological and physical systems with emphasis on energy concepts, production and distribution in both systems.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

NRE 220 Human Dimensions Nat Res (CT) **3 Credit hours**
This course provides an overview of human-nature relationship from the perspective of conservation and natural resource management.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

NRE 280 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 281 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 282 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 283 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 285 Independent Study **1-4 Credit hours**
Independent study for selected sophomores or advanced freshman under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

NRE 286 Independent Study **1-4 Credit hours**
Independent study for selected sophomores or advanced freshman under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

NRE 287 Independent Study **1-4 Credit hours**
Independent study for selected sophomores or advanced freshman under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

NRE 288 Independent Study **1-4 Credit hours**
Independent study for selected sophomores or advanced freshman under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

NRE 300 Principles of Soil Science **3 Credit hours**
This course will examine the principles of soils, including origin, composition, classification, and physical, chemical, and biological properties and processes, as well as agricultural and environmental applications.
Pre-req: CHM 212 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 301 Principles of Soil Science Lab **2 Credit hours**
A laboratory course that demonstrates the application of concepts introduced in NRE 300 Principles of Soil Science.
Pre-req: NRE 300 (may be taken concurrently) with a minimum grade of D and CHM 212 with a minimum grade of D.
Concurrent PR: NRE 300
Grade Mode: Normal Grading Mode

NRE 302 Animal Production **3 Credit hours**
This course will examine the principles of animal production through the application of anatomy, physiology, behavior, nutrition, reproduction, breeding, and genetics in the production and management of farm animals.
Pre-req: BSC 121 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 320 Nature Enviro Problems **3 Credit hours**
The effects of human activity on ecological, political, economic, and cultural systems are examined. Particular attention is given to present human population growth, industrial activities, and energy availability.
Grade Mode: Normal Grading Mode

NRE 321 Resol Environ Problems **3 Credit hours**
Students examine case studies of current environmental problems and propose methods of remediation. Cultural, political, economic, as well as ecological and physiographic factors are considered.
Grade Mode: Normal Grading Mode

NRE 322 Assess I: Terrestrial Systems **4 Credit hours**
Use of scientific procedure and current technology to characterize and quantify sensitive elements of terrestrial ecosystems and to assess human impact on these systems.
Pre-req: (IST 111 with a minimum grade of D or NRE 111 with a minimum grade of D) or BSC 104 with a minimum grade of D or BSC 120 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 323 Assessment II: Aquatic Ecology **4 Credit hours**
Use of scientific procedures and current technology to characterize and quantify sensitive elements of aquatic ecosystems and to assess human impact on these systems.
Pre-req: IST 111 or NRE 111 or BSC 104 or BSC 120.
Grade Mode: Normal Grading Mode

NRE 400 Soil Fertility/Plant Nutrition **4 Credit hours**
This course will examine properties of soil fertility, its relationship to plan nutrition, and practices in nutrient management and fertilizer application.
Pre-req: BSC 121 with a minimum grade of D and NRE 300 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 401 Horticulture **4 Credit hours**
This course will examine the principles and practices in horticulture and apply these practices through a semester service project.
Pre-req: BSC 121 with a minimum grade of D and NRE 310 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 402 Sustainable Agriculture **3 Credit hours**
This course will examine the principles of sustainable agriculture and its relationship with natural resources while identifying challenges to agricultural sustainability and frontiers in the field.
Pre-req: NRE 200 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 403 Agricultural Entomology **4 Credit hours**
Globally, insects have tremendous impacts on agriculture. This course introduces students to insects and their roles in agriculture including integrated pest management and pollination ecology.
Pre-req: BSC 121 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 423 GIS and Data Systems **3 Credit hours**
Course focuses on the relationships among the scientific method, data structures, and geographic images. Students relate hypothesis formation and databases through the development of ARCMap documents.
Grade Mode: Normal Grading Mode

NRE 425 Water Policy and Regulations **3 Credit hours**
Examination of how aquatic resources are protected for humans and species of concern by current regulatory framework.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

NRE 431 Aquatic Toxicology **4 Credit hours**
This course will introduce students to the principles of aquatic toxicology including regulations driving biological criteria, development of laboratory toxicity testing and test methodology.
Pre-req: BSC 105 with a minimum grade of D or BSC 121 with a minimum grade of D or IST 323 with a minimum grade of D or NRE 323 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 435 Biomonitoring **4 Credit hours**
Biomonitoring is the use of organisms to assess habitat and water quality of a stream. Current aquatic biomonitoring focuses on the utilization of benthic invertebrates and fishes communities.
Pre-req: BSC 120 with a minimum grade of D or IST 323 with a minimum grade of D or NRE 323 with a minimum grade of D.
Grade Mode: Normal Grading Mode

NRE 470 ES Internship **3 Credit hours**
A supervised internship in an area of natural resources and the environment.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

NRE 480 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 481 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 482 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 483 Special Topics **1-4 Credit hours**
A course covering topics not treated in regular course offerings.
Grade Mode: Normal Grading Mode

NRE 485 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

NRE 486 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

NRE 487 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

NRE 488 Independent Study **1-4 Credit hours**
Independent study for selected juniors and seniors under supervision of faculty; may be repeated only once.
Grade Mode: Normal Grading Mode

NRE 490 ES/NRRM Capstone Prep **3 Credit hours**
Prepares students for the senior project, internship experience, and for careers beyond graduation. Life skills are introduced by building on communication, organization, and project management skills (capstone).
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

NRE 491 ES Senior Capstone **3 Credit hours**
Students develop and complete a research project under the direction of a faculty member in the NRE department (capstone).
Pre-req: NRE 490 with a minimum grade of D.
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

Natural Res Rec Mgt (NRRM)

- General Education Course

NRRM 101 Intro Natural Res & Rec Mgmt **3 Credit hours**
An orientation to the profession and its settings, emphasizing history, trends, concepts, and relationships to other fields.
Grade Mode: Normal Grading Mode

NRRM 110 Outdoor Leadership: Canoeing **1 Credit hour**
This course is designed to give students the skills essential for the pursuit of employment in guiding participants on flat-water canoe courses in backcountry settings.
Grade Mode: Normal Grading Mode

NRRM 111 Outdoor Leadership: Fly Fish **1 Credit hour**
This course is designed to give students the skills essential for the pursuit of being able to guide participants on fly fishing excursions in the backcountry.
Grade Mode: Normal Grading Mode

NRRM 112 Outdoor Leadership: Bass Fish **1 Credit hour**
This course is designed to give students the skills essential to pursue employment as a guide on bass fishing excursions in the backcountry.
Grade Mode: Normal Grading Mode

NRRM 113 Outdoor Leadership: Backpack **1 Credit hour**
This course is designed to give students the foundation skills essential in the pursuit of being leading participants on backcountry backpacking experiences. Leave No Trace ethics will be taught.
Grade Mode: Normal Grading Mode

NRRM 156 Bicycling **1 Credit hour**
Grade Mode: Normal Grading Mode

NRRM 158 Downhill Skiing **1 Credit hour**
Grade Mode: Normal Grading Mode

NRRM 200 Analytical Methods: Statistics **4 Credit hours**
Students develop an understanding of statistical reasoning through the use of software to generate, summarize, and draw conclusions from data. Course enhances statistical technique dexterity through analysis of applied problems.
Grade Mode: Normal Grading Mode

NRRM 201 Recreational Activities **3 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 231 Nature Study **3 Credit hours**
Designed to provide students with the fundamental understanding of and for the delivery of nature based educational programs offered through an experiential framework.
Grade Mode: Normal Grading Mode

NRRM 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 301 Intro to Outdoor Recreation **3 Credit hours**
Organization, administration, and delivery of outdoor recreation activities and resources. Emphasis upon federal, state, and local government programs and areas.
Grade Mode: Normal Grading Mode

NRRM 310 Environmental Interpretation **3 Credit hours**
Principles and techniques of environmental interpretation as practiced in federal, state, and private agencies.
Grade Mode: Normal Grading Mode

NRRM 311 Intro to Environmental Educ **3 Credit hours**
This course is the study of environmental education, its foundations, emergence in the 1960's, its evolution, the systems approach to it, and the application of it in the field.
Grade Mode: Normal Grading Mode

NRRM 320 Sports & Campus Rec Mgmt **3 Credit hours**
This course will deal with the fields of recreational sports and campus recreation management. It will present the foundations of both fields, the development, implementation, and trends in today's programs.
Grade Mode: Normal Grading Mode

NRRM 330 Concepts Philosophies in NRRM **3 Credit hours**
A systematic approach to the concepts and philosophies for managing wildland, wilderness, and protected areas.
Grade Mode: Normal Grading Mode

NRRM 340 Special Event Managment **3 Credit hours**
This course will study the processes for event facilitation. Special attention will be given to the roles and skills utilized by a variety of recreation managers.
Grade Mode: Normal Grading Mode

NRRM 350 Adventure Education Leadership **3 Credit hours**
This course focuses on preparing students to be outdoor adventure education leaders, facilitating programs in both the front and back country utilizing adventure education techniques in an outdoor setting.
Grade Mode: Normal Grading Mode

NRRM 360 Tourism Planning & Management **3 Credit hours**
The course will examine the critical issues addressed by tourism planning and management, which are the positive and negative influences of tourism on the destination's economy, society, culture, and environment.
Grade Mode: Normal Grading Mode

NRRM 361 Visitor Behavior in NRRM **3 Credit hours**
This course provides an overview and analysis of individual and group behavior as it pertains to consumer activity in the context of recreation and tourism resource environments.
Grade Mode: Normal Grading Mode

NRRM 362 Ecotourism: Admin and Mgmt **3 Credit hours**
This course will examine the theoretical foundations, applications and best management practices in ecotourism. Other minor topics include: sustainability, nature-based and adventure tourism; sociocultural, environmental, and economic impacts of ecotourism.
Grade Mode: Normal Grading Mode

NRRM 380 Rec Resource Oper. and Admin **3 Credit hours**
Focused on the management, operation, and administration practices of recreation resource areas. Includes supervision of personnel, budgeting, and public relations for a variety of park and public land organizational structures.
Grade Mode: Normal Grading Mode

NRRM 400 Leisure & Aging **3 Credit hours**
A course presenting an overview of leisure services for the elderly. Topics include research results, theories, and modern day trends. A wellness model will be included.
Grade Mode: Normal Grading Mode

NRRM 402 Research Eval & Assess in NRRM **3 Credit hours**
Theoretical & practical approach to research, evaluation and assessment of the social sciences of natural resources and recreational management.
Grade Mode: Normal Grading Mode

NRRM 405 Park & Recreation Ecology **3 Credit hours**
The course is designed to help students identify and evaluate the level of resource impact, understand factors that cause impacts, and suggest management actions to minimize impacts under given conditions.
Grade Mode: Normal Grading Mode

NRRM 410 Maint of Nat Res & Rec **3 Credit hours**
A study of the knowledge and skills necessary to supervise and administer the general development and maintenance of park and recreation areas and facilities.
Grade Mode: Normal Grading Mode

NRRM 411 Rec Resource Planning & Design **3 Credit hours**
Basic considerations in the planning and design of natural areas, parks, forests, recreation, and sport area infrastructure, facilities and associated amenities.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

NRRM 432 Wilderness/Protected Area Mgmt **3 Credit hours**
This course will examine the historic and current philosophies of wilderness and protected area management as applicable to NGOs, local, state, and federal land management programs.
Grade Mode: Normal Grading Mode

NRRM 433 GIS/RS in Natural Resources **3 Credit hours**
Focusing on natural resource management, the course will explore techniques and procedures required for spatially explicit data analysis in park and protected area applications.
Grade Mode: Normal Grading Mode

NRRM 450 Intro OHV Recreation **3 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 451 Plan Design OHV Trails **3 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 452 Construction OHV Trails **3 Credit hours**
A course designed to instruct students in contemporary methods and techniques of constructing OHV trails and related facilities.
Grade Mode: Normal Grading Mode

NRRM 453 Op Mgt OHV Trail Systems **3 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 484 Special Topics **1-3 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

NRRM 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NRRM 490 Internship **6 Credit hours**
A supervised 40-hour per week, 6 week internship in which the students work with park and recreation agencies. (PR: NRRM major. Advisor approval required.)
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

Nursing (NUR)

- General Education Course

NUR 120 Introduction to Nursing **8 Credit hours**
Indroduce the nursing role and use of the nursing process in assisting adult clients to meet basic needs. Clinical included. Indroduce the nursing role and use of the nursing process in assisting adult clients to meet basic needs. Clinical in- cluded.
Pre-req: BSC 227 with a minimum grade of C and CHM 205 with a minimum grade of C and ENG 101 with a minimum grade of C and PSY 201 with a minimum grade of C and BSC 228 (may be taken concurrently) with a minimum grade of C and DTS 210 (may be taken concurrently) with a minimum grade of C and PSY 311 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 228 and DTS 210 and PSY 311
Grade Mode: Normal Grading Mode

NUR 200 Intro to Professional Nursing **2 Credit hours**
Introduction to the concepts and processes basic to the nursing profession, including historical and legal aspects, career roles, medical terminology, and practical techniques to prepare for the baccalaureate nursing program.
Grade Mode: Normal Grading Mode

NUR 219 Health Promotion Thru Lifespan **3 Credit hours**
Study of nursing assessment of the individual through the life span in relation to wellness promotion and the impact of illness. Study of nursing assessment of the individual through the life span in relation to wellness promotion and the impact of illness.
Pre-req: (MTH 121 with a minimum grade of C or MTH 121B with a minimum grade of C or MTH 125 with a minimum grade of C or MTH 127 with a minimum grade of C or MTH 130 with a minimum grade of C) and ENG 101 with a minimum grade of C and BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C and (CHM 203 with a minimum grade of C or CHM 205 with a minimum grade of C) and PSY 201 with a minimum grade of C and NUR 221 (may be taken concurrently) with a minimum grade of C and (CMM 213 with a minimum grade of C or CMM 103 with a minimum grade of C or CMM 104H with a minimum grade of C).
Concurrent PR: NUR 221
Grade Mode: Normal Grading Mode

NUR 220 Health Alterations I **8 Credit hours**
Focus is on nursing care of adult clients responding to potential and actual health alterations. Clinical included. (PR: NUR 120) Focus is on nursing care of adult clients responding to potential and actual health alterations. Clinical included. (PR: NUR 120)
Pre-req: NUR 120 with a minimum grade of C and BSC 250 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: BSC 250
Grade Mode: Normal Grading Mode

NUR 221 Found of Prof Nursing I **5 Credit hours**
Introduction to philosophical and theoretical foundations of nursing, exploration and integration of concepts and processes basic to professional nursing practice. Laboratory included. Introduction to philosophical and theoretical foundations of nursing, exploration and integration of concepts and processes basic to professional nursing practice. Labora- tory included.
Pre-req: (MTH 121 with a minimum grade of C or MTH 121B with a minimum grade of C or MTH 125 with a minimum grade of C or MTH 127 with a minimum grade of C or MTH 130 with a minimum grade of C) and BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C and (CHM 203 with a minimum grade of C or CHM 205 with a minimum grade of C) and PSY 201 with a minimum grade of C and NUR 219 (may be taken concurrently) with a minimum grade of C and ENG 101 with a minimum grade of C and (CMM 103 with a minimum grade of C or CMM 104H with a minimum grade of C or CMM 213 with a minimum grade of C).
Concurrent PR: NUR 219
Grade Mode: Normal Grading Mode

NUR 222 Found of Prof Nursing II **6 Credit hours**
Introduction to professional nursing practice in relation to potential and simple alterations in health. Practicum included. Introduction to professional nursing practice in relation to potential and simple alterations in health. Practicum included.
Pre-req: NUR 221 with a minimum grade of C and NUR 219 with a minimum grade of C and NUR 319 (may be taken concurrently) with a minimum grade of C and BSC 250 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 319 and BSC 250
Grade Mode: Normal Grading Mode

NUR 223 Intro Nur Pharm **3 Credit hours**
Focus is on role of the Associate degree nurse in understanding the human response to pharmacological therapy.
Grade Mode: Normal Grading Mode

NUR 225 Psychiatric Nursing **4 Credit hours**
Focus is on the nursing role in caring for clients with alterations of psychosocial functioning. Clinical included. (PR: NUR 220) Focus is on the nursing role in caring for clients with alterations of psychosocial functioning. Clinical included. (PR: NUR 220)
Pre-req: NUR 120 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 230 Health Alterations II **7 Credit hours**
Focus is on nursing care of adult clients with health alterations of specific physiological systems. Role requirements and processes utilized in managing groups of clients in introduced. Clinical included. (PR: NUR 220) 5 hours theory/ 2 hours lab. Focus is on nursing care of adult clients with health alterations of specific physiological systems. Role requirements and processes utilized in managing groups of clients in introduced. Clinical included. (PR: NUR 220) 5 hours theory/ 2 hours lab.
Pre-req: NUR 120 with a minimum grade of C and NUR 220 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 235 Maternal-Child Nursing **6 Credit hours**
Focus is on the nursing role utilized in promoting health and caring for the child bearing family and pediatric clients. Clinical included. (PR: NUR 220) Focus is on the nursing role utilized in promoting health and caring for the child bearing family and pediatric clients. Clinical included. (PR: NUR 220)
Pre-req: NUR 220 with a minimum grade of C and NUR 225 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 241 Health Alterations III **9 Credit hours**
focus is on nursing care of adult clients with health alterations of specific physiological systems. Clinical included. (PR: NUR 230) focus is on nursing care of adult clients with health alterations of specific physiological systems. Clinical included. (PR: NUR 230)
Pre-req: NUR 230 with a minimum grade of C and NUR 235 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NUR 281 Special Topics **1-4 Credit hours**
Grade Mode: Credit/No Credit Grade Only

NUR 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NUR 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NUR 305 Concepts in Prof Nursing **4 Credit hours**
Discussion of nursing conceptual models. Dynamic concepts of health, nursing process, change, teaching/learning, research and leadership introduced. Exercises in communication/assertiveness skill development. (PR: Admission to RN to B.S.N. Nursing Program) 4 lec.
Grade Mode: Normal Grading Mode

NUR 318 Family and Chronic Illness **2 Credit hours**
Focus in family nursing theory related to human responses utilizing theoretical models for assessment and health promotion. Included is consideration of the impact of chronic illness.
Pre-req: NUR 305 (may be taken concurrently) with a minimum grade of C or (NUR 219 with a minimum grade of C and NUR 221 with a minimum grade of C) and (ENG 201 with a minimum grade of C or ENG 201H with a minimum grade of C or ENG 200H with a minimum grade of C).
Concurrent PR: NUR 305
Grade Mode: Normal Grading Mode

NUR 319 Phys Assess Across Lifespan **4 Credit hours**
Development of skills in taking health history and performing physical examination of clients throughout the life span. Practicum included. Development of skills in taking health history and perform- ing physical examination of clients throughout the life span. Practicum included.
Pre-req: NUR 221 with a minimum grade of C and NUR 219 with a minimum grade of C and NUR 222 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 222
Grade Mode: Normal Grading Mode

NUR 321 Care of Childbearing Families **5 Credit hours**
Focus of nursing is on the diagnosis and treatment of human responses to changes that occur in the expanding family. Practicum included. Focus of nursing is on the diagnosis and treatment of human responses to changes that occur in the expanding family. Practicum included.
Pre-req: NUR 222 with a minimum grade of C and NUR 319 with a minimum grade of C and (ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C) and BSC 250 with a minimum grade of C and (DTS 314 with a minimum grade of C or DTS 210 with a minimum grade of C) and NUR 318 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 318
Grade Mode: Normal Grading Mode

NUR 322 Psych / Mental Health Nursing **5 Credit hours**
Focus is upon nursing care of clients of all ages in relation to human responses to psychosocial problems. Focus is upon nursing care of clients of all ages in relation to human responses to psychosocial problems.
Pre-req: NUR 222 with a minimum grade of C and NUR 319 with a minimum grade of C and (ENG 201 with a minimum grade of C or ENG 200H with a minimum grade of C or ENG 201H with a minimum grade of C) and BSC 250 with a minimum grade of C and (DTS 314 with a minimum grade of C or DTS 210 with a minimum grade of C).
Grade Mode: Normal Grading Mode

NUR 327 Adult Nursing I **5 Credit hours**
Focus is on nursing care of clients from young to geriatric adults responding to health problems. Practicum included.
Pre-req: NUR 222 with a minimum grade of C and NUR 319 with a minimum grade of C and ENG 201 with a minimum grade of C and BSC 250 with a minimum grade of C and (DTS 314 with a minimum grade of C or DTS 210 with a minimum grade of C) and NUR 350 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 350
Grade Mode: Normal Grading Mode

NUR 328 Adult Nursing II **5 Credit hours**
Focus is on nursing care of clients from young to geriatric adults responding to increasingly complex health care problems. Practicum included.
Pre-req: NUR 318 with a minimum grade of C and NUR 327 with a minimum grade of C and NUR 350 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 333 Health Physical Assessment **3 Credit hours**
Focus on providing nurses with the knowledge base and clinical skills necessary to obtain in-depth health histories and complete physical assessments of clients of various ages and cultural backgrounds. (PR: admission to RN to B.S.N. nursing program or Permission)
Pre-req: NUR 305 (may be taken concurrently).
Concurrent PR: NUR 305
Grade Mode: Normal Grading Mode

NUR 350 Pharmacology for Nurses **3 Credit hours**
Focus in on the role of the nurse in drug therapy. Specific drug classifications and prototypical drugs, their actions, effects, and nursing implications are described in-depth.
Pre-req: NUR 222 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 400 Transcultural Nursing **3 Credit hours**
The focus is on health care practices and beliefs of a variety of cultures which interact with the United States health care system. Transcultural nursing theories and concepts are addressed.
Pre-req: NUR 305 (may be taken concurrently) with a minimum grade of C or (NUR 221 with a minimum grade of C and NUR 219 with a minimum grade of C).
Concurrent PR: NUR 305
Attributes: Multicultural
Grade Mode: Normal Grading Mode

NUR 408 Pediatric Nursing **4 Credit hours**
Nursing Care of Children Focus is on nursing care of pediatric clients of all ages and their family's response to common and complex health problems. Practicum included.
Pre-req: NUR 318 with a minimum grade of C and NUR 327 with a minimum grade of C and NUR 350 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 410 Community Nursing for RN **5 Credit hours**
Focus is on the foundations of community-oriented nursing practice for the Registered Nurse with an emphasis on health promotion and disease prevention.
Pre-req: NUR 305 with a minimum grade of C and NUR 318 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 414 Adult Nursing III **5 Credit hours**
Focus is on nursing care of young to geriatric adults responding to health problems requiring critical care intervention. Practicum included.
Pre-req: NUR 328 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 416 Intro Research EBP **3 Credit hours**
Focus is on research as it relates to evidence based practice. This course addresses the steps of research and evidence based practice to provide a basis for nursing practice.
Pre-req: (STA 225 with a minimum grade of C or EDF 417 with a minimum grade of C or MGT 218 with a minimum grade of C or PSY 223 with a minimum grade of C or SOC 345 with a minimum grade of C) and (NUR 305 with a minimum grade of C or NUR 327 with a minimum grade of C).
Grade Mode: Normal Grading Mode

NUR 418 Contemporary Nursing **3 Credit hours**
This course focuses on nursing leadership, cost-based care, and the professional role of the nurse within a complex health care system.
Pre-req: NUR 305 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 419 Prof Nursing Practice **3 Credit hours**
Focus on nursing leadership, the management of patient care, and issues inherent to professional nursing practice.
Pre-req: NUR 328 with a minimum grade of C and NUR 414 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 414
Grade Mode: Normal Grading Mode

NUR 421 Community / Public Health Nurs **5 Credit hours**
Focus is upon public health principles and nursing practice with opportunity to provide health promotion for clients at risk and long term care for individuals and families in the home. Focus is upon public health principles and nursing practice with opportunity to provide health promotion for clients at risk and long term care for individuals and families in the home.
Pre-req: NUR 321 with a minimum grade of C and NUR 322 with a minimum grade of C and NUR 328 with a minimum grade of C and NUR 350 with a minimum grade of C and NUR 408 with a minimum grade of C.
Grade Mode: Normal Grading Mode

NUR 422 Nursing Capstone Practicum **5 Credit hours**
Focus in on leadership activities related to the roles of the professional nurse: provider of care, coordinator of care, and member of the profession. Practicum included. Focus in on leadership activities related to the roles of the professional nurse: provider of care, coordinator of care, and member of the profession. Practicum included.
Pre-req: (NUR 321 with a minimum grade of C and NUR 322 with a minimum grade of C and NUR 414 with a minimum grade of C and NUR 350 with a minimum grade of C) and NUR 421 (may be taken concurrently) with a minimum grade of C and NUR 425 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 421 and NUR 425
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

NUR 425 NCLEX Success **3 Credit hours**
The purpose of this course is to assist the student to synthesize the content of the baccalaureate nursing educational program.
Pre-req: NUR 422 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 422
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

NUR 427 Prof Engagement Nursing **5 Credit hours**
Focus is on evidence based practice and application of theoretical and empirical knowledge to address issues in management, health care policy, ethics, leadership, and health promotion of clients. (PR: NUR 305 and RN licensure; PR/CR: NUR 410, NUR 416, NUR 418))
Pre-req: NUR 410 (may be taken concurrently) with a minimum grade of C and NUR 416 (may be taken concurrently) with a minimum grade of C and NUR 418 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: NUR 410 and NUR 416 and NUR 418
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

NUR 480 Special Topics **1-4 Credit hours**
Study of topics not available in other courses. Study of topics not available in other courses.
Grade Mode: Normal Grading Mode

NUR 481 Special Topics **1-4 Credit hours**
Study of topics not available in other courses. Study of topics not available in other courses.
Grade Mode: Normal Grading Mode

NUR 482 Special Topics **1-4 Credit hours**
Study of topics not available in other courses. Study of topics not available in other courses.
Grade Mode: Normal Grading Mode

NUR 483 Special Topics **1-4 Credit hours**
Study of topics not available in other courses. Study of topics not available in other courses.
Grade Mode: Normal Grading Mode

NUR 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

NUR 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NUR 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NUR 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

NUR 496 Reading for Honors **2-4 Credit hours**
Attributes: Honors
Grade Mode: Normal Grading Mode

Philosophy (PHL)

- General Education Course

PHL 200 Intro Phil Ancient Period (CT) **3 Credit hours**
The origins of philosophical activity among the Greeks by means of a selective sounding of several major thinkers. The origins of philosophical activity among the Greeks by means of a selective sounding of several major thinkers.
Attributes: Critical Thinking, Core II Humanities, Multicultural
Grade Mode: Normal Grading Mode

PHL 200H Intro Phil Ancient-Honors (CT) **3 Credit hours**
A detailed consideration of selected texts from Ancient philosophy, such as the pre-Socratics, Plato, Aristotle, the Stoics, the Epicureans, the Academic Skeptics, and the neo-Platonists. A detailed consideration of selected texts from Ancient philosophy, such as the pre-Socratics, Plato, Aristotle, the Stoics, the Epicureans, the Academic Skeptics, and the neo-Platonists.
Pre-req: ACT Composite with a score of 26 or SAT Verbal Before March 16 with a score of 600.
Attributes: Critical Thinking, Core II Humanities, Multicultural
Grade Mode: Normal Grading Mode

PHL 201 Intro Phil Modern Period (CT) **3 Credit hours**
Questions and answers concerning the nature of existence and human values and how we come to know them. Questions and answers concerning the nature of existence and human values and how we come to know them.
Attributes: Critical Thinking, Core II Humanities, Multicultural
Grade Mode: Normal Grading Mode

PHL 202 Ethics of Health Care (CT) **3 Credit hours**
A basic introduction to ethical theory, followed by an application of this theory to problems in health care. For students in health care professions and those interested in applied ethics.
Attributes: Critical Thinking, Multicultural
Grade Mode: Normal Grading Mode

PHL 203 Philosophy & Human Exist (CT) **3 Credit hours**
An introduction to philosophy drawing from both ancient and modern thinkers and texts.
Attributes: Critical Thinking, Core II Humanities, Multicultural
Grade Mode: Normal Grading Mode

PHL 215 Managing Life **3 Credit hours**
Philosophical approaches to dealing with life's deep challenges and difficult moments, with the help of some of the great classics of world thought.
Attributes: Critical Thinking, Core II Humanities, Multicultural
Grade Mode: Normal Grading Mode

PHL 250 Humanities and Film (CT) **3 Credit hours**
An interdisciplinary course to introduce students to the elements of a humanistic education through study of film. (Same as Classics 250 and Religious Studies 250; PR or CR: ENG 101)
Pre-req: ENG 101 with a minimum grade of C or ENG 200H (may be taken concurrently) or ENG 201H (may be taken concurrently) or ENG 101P (may be taken concurrently).
Concurrent PR: ENG 101 or ENG 200H or ENG 201H or ENG 101P
Attributes: Critical Thinking, Core II Humanities, Multicultural
Grade Mode: Normal Grading Mode

PHL 270 Intro to Formal Logic (CT) **3 Credit hours**
Introduction to three standard systems of formal logic: traditional categorical syllogistic logic, sentential logic, and first-order predicate logic.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

PHL 280 Special Topics **1-4 Credit hours**
Group or individual study of areas demanding further study of a more specialized depth. Group or individual study of areas demanding further study of a more specialized depth.
Grade Mode: Normal Grading Mode

PHL 281 Special Topics **1-4 Credit hours**
Group or individual study of areas demanding further study of a more specialized depth. Group or individual study of areas demanding further study of a more specialized depth.
Grade Mode: Normal Grading Mode

PHL 282 Special Topics **1-4 Credit hours**
Group or individual study of areas demanding further study of a more specialized depth. Group or individual study of areas demanding further study of a more specialized depth.
Grade Mode: Normal Grading Mode

PHL 283 Special Topics **1-4 Credit hours**
Group or individual study of areas demanding further study of a more specialized depth. Group or individual study of areas demanding further study of a more specialized depth.
Grade Mode: Normal Grading Mode

PHL 301 Plato's Republic **3 Credit hours**
A deconstruction of the major time-worn prejudices and presuppositions of Platonism by way of a radical reading of Plato's great dialogue the REPUBLIC.
Grade Mode: Normal Grading Mode

PHL 302 Applied Ethics **3 Credit hours**
The application of basic ethical theories to contemporary moral issues drawn from such fields as medicine, business and the environment.
Grade Mode: Normal Grading Mode

PHL 303 Ethics **3 Credit hours**
A critical study of diverse moral norms, ideals and systems in theory and practice. A critical study of diverse moral norms, ideals and systems in theory and practice.
Grade Mode: Normal Grading Mode

PHL 304 Logic & Interpretation **3 Credit hours**
Theory and practice of valid principles of thinking including developing the skills of justifying diverse types of belief and evaluating reasons for conflicting standpoints (for example, racial, gender, and ethnic differences). Theory and practice of valid principles of thinking including developing the skills of justifying diverse types of belief and evaluating reasons for conflicting stand- points (for example, racial, gender, and ethnic dif- ferences).
Grade Mode: Normal Grading Mode

PHL 306 Philosophy of Art **3 Credit hours**
Examination of the qualities involved in the appreciation of beauty which serve as standards of taste. Examination of the qualities involved in the appreciation of beauty which serve as standards of taste.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

PHL 315 American Philosophy **3 Credit hours**
Great American thinkers, including thinkers such as Emerson (transcendentalism), Peirce, James, Dewey, and Rorty (pragmatism), Royce (idealism), Quine (analytic philosophy), and de Man (post-structuralism). Great American thinkers, including thinkers such as Emerson (transcendentalism), Peirce, James, Dewey, and Rorty (pragmatism), Royce (idealism), Quine (analytic philosophy), and de Man (post-structuralism).
Grade Mode: Normal Grading Mode

PHL 320 Comparative Philosophy **3 Credit hours**
The relations of the world's philosphies to the basic cultural and religious traditions of the world and to the development of the world community. The relations of the world's philosphies to the basic cultural and religious traditions of the world and to the development of the world community.
Attributes: International
Grade Mode: Normal Grading Mode

PHL 321 Current Phil Trends **3 Credit hours**
Selected reading in contemporary thought embracing such movements as realism, Marxism, post-structuralism, deconstruction, and postmodernism. Selected reading in contemporary thought embracing such movements as realism, Marxism, post-structuralism, deconstruction, and postmodernism.
Grade Mode: Normal Grading Mode

PHL 330 Philosophy of Sex **3 Credit hours**
Introduction to some of the basic authors, texts, and themes in this branch of philosophy beginning with Plato's SYMPOSIUM. Introduction to some of the basic authors, texts, and themes in this branch of philosophy beginning with Plato's SYMPOSIUM.
Grade Mode: Normal Grading Mode

PHL 340 Sexual Orient & Gender **3 Credit hours**
An introduction to the philosophy of sexual orientation and its relation to gender, with a special focus on issues of knowledge and politics. An introduction to the philosophy of sexual orientation and its relation to gender, with a special focus on issues of knowledge and politics.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

PHL 353 Philosophy of Science **3 Credit hours**
Reflections on crucial concepts of modern science relevant to philosophical issues in interpreting man and the universe; special attention given to epistemological and other problems of mathematics and physical and social sciences. Reflections on crucial concepts of modern science relevant to philosophical issues in interpreting man and the uni- verse; special attention given to epistemological and other problems of mathematics and physical and social sciences.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

PHL 363 Philosophy of Feminism **3 Credit hours**
An introduction to contemporary feminist theory including discussion of current gender-related issues. An introduction to contemporary feminist theory including discussion of current gender-related issues.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

PHL 392 Junior Seminar **3 Credit hours**
Pre-req: ENG 102 or ENG 302 or ENG 201H or ENG 200H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 319 or PHL 200 or PHL 200H or PHL 201 or PHL 201E or PHL 303 or PHL 321 or PHL 303E or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

PHL 393 Junior Seminar **3 Credit hours**
Pre-req: ENG 102 with a minimum grade of D or ENG 302 with a minimum grade of D or ENG 201H with a minimum grade of D or ENG 200H with a minimum grade of D or YGS 162 with a minimum grade of D or IST 201 with a minimum grade of D or CL 231 with a minimum grade of D or CL 232 with a minimum grade of D or CL 319 with a minimum grade of D or PHL 200 with a minimum grade of D or PHL 200H with a minimum grade of D or PHL 201 with a minimum grade of D or PHL 201E with a minimum grade of D or PHL 303 with a minimum grade of D or PHL 303E with a minimum grade of D or PHL 321 with a minimum grade of D or PHL 340 with a minimum grade of D or PHL 353 with a minimum grade of D or RST 205 with a minimum grade of D or RST 206 with a minimum grade of D or RST 300 with a minimum grade of D or RST 304 with a minimum grade of D or RST 320 with a minimum grade of D or RST 325 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHL 400 Ancient Philosophy **3 Credit hours**
Advanced study of major philosophers drawn from the ancient Greek and Roman period. Advanced study of major philosophers drawn from the ancient Greek and Roman period.
Grade Mode: Normal Grading Mode

PHL 401 Modern Philosophy **3 Credit hours**
Advanced study of major movements in philosophy from the 17th century on, movements such as rationalism, empiricism, idealism, and existentialism.
Pre-req: PHL 201 or PHL 201E.
Grade Mode: Normal Grading Mode

PHL 420 Metaphysics **3 Credit hours**
Advanced study of the most basic nature of reality. (PR: 3 hrs. of philosophy). Advanced study of the most basic nature of reality. (PR: 3 hrs. of philosophy).
Grade Mode: Normal Grading Mode

PHL 421 Philosophy of Knowledge **3 Credit hours**
Advanced study of the nature and possibility of knowledge. Advanced study of the nature and possibility of knowledge.
Grade Mode: Normal Grading Mode

PHL 451 Phil of History & Culture **3 Credit hours**
Ancient and modern theories of the meaning and consequence of history and culture. Ancient and modern theories of the meaning and consequence of history and culture.
Grade Mode: Normal Grading Mode

PHL 455 Philosophy of Religion **3 Credit hours**
Theories of the nature and functions of religion, including the meaning of religious language and the problems of belief. Theories of the nature and functions of religion, including the meaning of religious language and the problems of belief.
Grade Mode: Normal Grading Mode

PHL 460 Phil of Politics & Power **3 Credit hours**
Advanced study of the significance or the place in human reality of political organization, negotiation, strategy and power.
Grade Mode: Normal Grading Mode

PHL 465 Existential Philosophy **3 Credit hours**
A study of existential philosophers from Kierkegaard to Heidegger, Sartre and beyond. A study of existential philosophers from Kierkegaard to Heidegger, Sartre and beyond.
Grade Mode: Normal Grading Mode

PHL 470 Philosophy of Logic **3 Credit hours**
Advanced study of the nature of logic: whether logic is possible at all, how far it applies, and whether and how there can be conflicting logics.
Grade Mode: Normal Grading Mode

PHL 480 Special Topics **1-4 Credit hours**
Shared study and reserach on a special topic as announced. Shared study and reserach on a special topic as announced.
Grade Mode: Normal Grading Mode

PHL 481 Special Topics **1-4 Credit hours**
Shared study and research on a special topic as announced. Shared study and research on a special topic as announced.
Grade Mode: Normal Grading Mode

PHL 482 Special Topics **1-4 Credit hours**
Shared study and research on a special topic as announced. Shared study and research on a special topic as announced.
Grade Mode: Normal Grading Mode

PHL 483 Special Topics **1-4 Credit hours**
Shared study and research on a special topic as announced. Shared study and research on a special topic as announced.
Grade Mode: Normal Grading Mode

PHL 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PHL 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PHL 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PHL 488 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

PHL 490 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the humanities program. (Same as CL 490 - 494 and RST 490 - 494)
Pre-req: ENG 102 with a minimum grade of D or ENG 302 with a minimum grade of D or ENG 201H with a minimum grade of D or ENG 200H with a minimum grade of D or YGS 162 with a minimum grade of D or IST 201 with a minimum grade of D or CL 231 with a minimum grade of D or CL 232 with a minimum grade of D or CL 233 with a minimum grade of D or CL 319 with a minimum grade of D or PHL 200 with a minimum grade of D or PHL 200H with a minimum grade of D or PHL 201 with a minimum grade of D or PHL 303 with a minimum grade of D or PHL 321 with a minimum grade of D or PHL 340 with a minimum grade of D or PHL 353 with a minimum grade of D or RST 205 with a minimum grade of D or RST 206 with a minimum grade of D or RST 300 with a minimum grade of D or RST 304 with a minimum grade of D or RST 320 with a minimum grade of D or RST 325 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHL 491 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the humanities program. (Same as CL 490 - 494 and RST 490 - 494)
Pre-req: ENG 102 or ENG 302 or ENG 201H or ENG 200H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 200H or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

PHL 492 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the humanities program. (Same as CL 490 - 494 and RST 490 - 494)
Pre-req: ENG 102 or ENG 302 or ENG 201H or ENG 200H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 200H or PHL 201 or PHL 303 or PHL 340 or PHL 321 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

PHL 494 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the humanities program. (Same as CL 490 - 494 and RST 490 -494)
Pre-req: ENG 102 or ENG 302 or ENG 201H or ENG 200H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 200H or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325 or ENG 201.
Grade Mode: Normal Grading Mode

Phys Ed Lifetime Activities (PEL)

- General Education Course

PEL 100 Beginning Swimming **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 113 Basketball **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 114 Beginning Archery **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 115 Body Condition W/Weights **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 116 Beginning Wrestling **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 117 Riflery **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 118 Indoor Cycling **1 Credit hour**
Designed to promote fitness through spinning.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

PEL 119 Total Body Conditioning **1 Credit hour**
Designed to help instruct both men and women with a variety of lifetime fitness activities.
Grade Mode: Normal Grading Mode

PEL 120 Self Defense **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 121 Taekwondo **2 Credit hours**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 125 Beginning Gymnastics **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 127 Aerobics-Personal Fitness **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 132 Beginning Volleyball **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 133 Beginning Softball **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 140 Beginning Tennis **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 141 Beginning Golf **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 142 Beginning Badminton **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 145 Beginning Bowling **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 147 Beginning Soccer **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 155 Beginning Folk Dance **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 156 Beginning Square Dance **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 159 Beginning Social Dance **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 170 Beginning Racquetball **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 171 Beginning Handball **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 173 Rock Climbing **1 Credit hour**
Through activity, the students will learn the fundamentals and techniques of rock climbing.
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 175 Core Conditioning **1 Credit hour**
Designed to help instruct both men and women on numerous activities to help strengthen the abdominal region of the body which can then be incorporated into their workout program.
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 180 Yoga **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 205 Intermediate Swimming **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 220 Advanced Self Defense **1 Credit hour**
Builds on techniques and strategies from PEL 120, adds defenses against the edged weapon and firearm. Course covers more prone defense strategies, multiple subject encounters and low and diffused light simulation.
Pre-req: PEL 120 with a minimum grade of D.
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 232 Intermediate Volleyball **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 233 Intermediate Gymnastics **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 234 Intermediate Wrestling **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 235 Intermediate Softball **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 240 Intermediate Tennis **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 242 Intermediate Badminton **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 243 Intermediate Basketball **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 245 Intermediate Bowling **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 251 Intermediate Soccer **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 252 Touch Football **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 258 Intermediate Square Dance **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 259 Intermediate Social Dance **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 270 Intermediate Racquetball **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 271 Intermediate Handball **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 275 Scuba Diving **2 Credit hours**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 280 Special Topics **1-4 Credit hours**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 281 Special Topics **1-4 Credit hours**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 282 Special Topics **1-4 Credit hours**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 283 Special Topics **1-4 Credit hours**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

PEL 290 Intermediate Yoga **1 Credit hour**
This course is an intermediate yoga class building off of beginning yoga. It will focus on poses, breathing, relaxation, and meditation.
Pre-req: PEL 180 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PEL 403 Adv Swim & Life Saving **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 404 Water Safety Instruction **1 Credit hour**
Attributes: PE Activity
Grade Mode: Normal Grading Mode

PEL 405 Lifeguarding **1 Credit hour**
Attributes: No Textbook Required, PE Activity
Grade Mode: Normal Grading Mode

Physical Science (PS)

- General Education Course

PS 101 Introductory Astronomy (CT) **4 Credit hours**
A survey of the past, present, and future of the Universe, from our solar system, to the nearby stars, our Milky Way galaxy and far beyond.
Attributes: Critical Thinking, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PS 109 General Physical Science **3 Credit hours**
The course covers the basic principles and concepts of the universe including energy, and its various forms. Force, motion, electricity, magnetism, the wave theory of light and sound and astronomy are also studied. The course covers the basic principles and concepts of the universe including energy, and its various forms. Force, motion, electricity, magnetism, the wave theory of light and sound and astronomy are also studied.
Pre-req: MTH 121 or MTH 123 or MTH 127 or MTH 130 or MTH 130E or MTH 229 or MTH 229H or MTH 203 or MTH 121B or MTH 130H.
Co-req: PS 109L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PS 109L Gen Physical Science Lab **1 Credit hour**
Selected experiments relating to measurement, force, work, energy, astronomy, light and electricity. Selected experiments relating to measurement, force, work, energy, astronomy, light and electricity.
Co-req: PS 109
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PS 110 General Physical Science **3 Credit hours**
The course covers the basic principles and concepts of chemistry, geology, and metorology. The crust of the earth, minerals, rocks, chemical reactions are studied. The course covers the basic principles and concepts of chemistry, geology, and metorology. The crust of the earth, minerals, rocks, chemical reactions are studied.
Pre-req: MTH 121 or MTH 121H or MTH 123 or MTH 123E or MTH 127 or MTH 130 or MTH 130H or MTH 130E or MTH 140 or MTH 203 or MTH 220 or MTH 225 or MTH 229 or MTH 229H or MTH 121B.
Co-req: PS 110L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PS 110L Gen Physical Science Lab **1 Credit hour**
Selected experiments relating to chemistry, geology, and meteorology. Selected experiments relating to chemistry, geology, and meteorology.
Co-req: PS 110
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PS 111 Life in the Universe **4 Credit hours**
An investigation of the prospects for the existence of life elsewhere in our solar system, galaxy, and the wider Universe. Includes an integrated 2 hour lab.
Attributes: Core II Natural Sciences
Grade Mode: Normal Grading Mode

PS 120 PS for Teachers: Planets **3 Credit hours**
A conceptual study of the Earth's relation to the other members of the solar system and its place in the Universe. (Part of a 3 course sequence for K-9 education majors).
Grade Mode: Normal Grading Mode

PS 121 PS for Teachers: Chemistry **3 Credit hours**
PS 121 is a part of a 3 course sequence of Physical Science for K-9 Education majors. Includes 2-hr, 1 credit lab.
Pre-req: MTH 127 or MTH 130 or MTH 132 or MTH 140 or MTH 229.
Grade Mode: Normal Grading Mode

PS 122 PS for Teachers: Physics **3 Credit hours**
PS 122 is part of a 3 course sequence of Physical Science for K-9 Education majors. Includes 2-hr, 1 credit lab.
Pre-req: MTH 127 or MTH 130 or MTH 132 or MTH 140 or MTH 229.
Grade Mode: Normal Grading Mode

PS 280 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 281 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 282 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 283 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 325 Dev Scientific Thought **4 Credit hours**
An introduction to the history and nature of science emphasizing the logic of scientific reasoning and progress with social and historical influences. Includes lab. An introduction to the history and nature of science emphasizing the logic of scientific reasoning and progress with social and historical influences. Includes lab.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 400 Astronomy **3 Credit hours**
A study of the stars, planets, and galaxies, planetary motion, cosmology, cosmography. Designed to assist teachers and others to develop an interest in astronomy. A study of the stars, planets, and galaxies, planetary motion, cosmology, cosmography. Designed to assist teachers and others to develop an interest in astronomy.
Pre-req: PS 109 or PHY 201 or PHY 211 and PS 400L (may be taken concurrently).
Concurrent PR: PS 400L
Co-req: PS 400L
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 400L Astronomy Laboratory **1 Credit hour**
A computational and observational laboratory. Fundamental observations in astronomy and their interpretation through physical laws. Quantitative discussion of orbital motion, time, telescopes, solar system, stars, and galaxies. A computational and observational laboratory. Fundamental observations in astronomy and their interpretation through physical laws. Quantitative discussion of orbital motion, time, telescopes, solar system, stars, and galaxies.
Co-req: PS 400
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 410 Remote Sensing w Applications **4 Credit hours**
A study of the physical systems for collecting remotely sensed data. Statistical/spatial analysis and modeling using image processing/geographic information/spatial analysis computer software systems with earth resource applications. (PR: PHY 203 and PHY 204) A study of the physical systems for collecting remotely sensed data. Statistical/spatial analysis and modeling using image processing/geographic information/spatial analysis computer software systems with earth resource applications. (PR: PHY 203 and PHY 204)
Pre-req: PHY 203 and PHY 204.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 411 Image Processing/Modeling **4 Credit hours**
A study of image processing/geographic information and spatial analysis hardware/software systems, concurrent and parallel image processing modeling scenarios utilizing geobiophysical data for computer simulation modeling and practicum.
Pre-req: PS 410.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 470 Practicum **4 Credit hours**
Problem solving, geobiophysical modeling, and proposal development techniques in the physical sciences.
Pre-req: PS 411 or PHY 411.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 480 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 481 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 482 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 483 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 485 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 486 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required, Natural Sciences
Grade Mode: Normal Grading Mode

PS 487 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PS 488 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

Physics (PHY)

- General Education Course

PHY 101 Conceptual Physics **3 Credit hours**
Introduces nonscience majors to applications of physics in life. Emphasizes conceptual understanding of basic principles in classical and modern physics. Recommended for science students with no high school physics.
Pre-req: (MTH 121 with a minimum grade of D or MTH 127 with a minimum grade of D or MTH 130 with a minimum grade of D or MTH 130E with a minimum grade of D or MTH 132 with a minimum grade of D or MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D or MTH 203 with a minimum grade of D or MTH 121B with a minimum grade of D) or MTH 130H with a minimum grade of D and PHY 101L (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 101L
Co-req: PHY 101L
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 101L Conceptual Physics Lab **1 Credit hour**
Conceptual Physics Laboratory. A laboratory course designed to include the principles and applications of physics that are introduced in Physics 101. (CR: PHY 101) 2 lab. Conceptual Physics Laboratory. A laboratory course designed to include the principles and applications of physics that are introduced in Physics 101. (CR: PHY 101) 2 lab.
Co-req: PHY 101
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 190 Overview of Physics (CT) **3 Credit hours**
An algebra-based overview of well-established topics studied as part of a major in physics, including classical physics, special relativity, quantum mechanics, particle physics, and cosmology.
Attributes: Critical Thinking
Grade Mode: Normal Grading Mode

PHY 201 College Physics I **3 Credit hours**
First half of an introduction to physics for life-science students, using algebra and trigonometry, including kinematics and dynamics, force, energy, rotation, fluids, waves, and therma phenomena.
Pre-req: (MTH 127 with a minimum grade of D and MTH 122 with a minimum grade of D) or (MTH 130 with a minimum grade of D and MTH 122 with a minimum grade of D) or MTH 132 with a minimum grade of D or (MTH 140 with a minimum grade of D and MTH 122 with a minimum grade of D) or MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D or MTH 140H with a minimum grade of D and PHY 202 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 202
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 202 General Physics I Laboratory **1 Credit hour**
Laboratory to accompany PHY 201 or PHY 211, focusing on mechanics concepts and applications.
Pre-req: PHY 201 (may be taken concurrently) with a minimum grade of D or PHY 211 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 201 or PHY 211
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 203 College Physics II **3 Credit hours**
Second half of an introduction to physics for life-science students, using algebra and trigonometry, including electric and magnetic fields, circuits, geometrical and physical optics, atomic and nuclear physics.
Pre-req: (PHY 201 with a minimum grade of C and PHY 202 with a minimum grade of C) and PHY 204 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: PHY 204
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 204 General Physics 2 Laboratory **1 Credit hour**
Laboratory to accompany PHY 203 or PHY 213, focusing on classical E&M, circuits, and optics.
Pre-req: (PHY 203 (may be taken concurrently) with a minimum grade of D or PHY 213 (may be taken concurrently) with a minimum grade of D).
Concurrent PR: PHY 203 or PHY 213
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 211 University Physics I **4 Credit hours**
First half of an introduction to physics for physical science and engineering students, using calculus, and including kinematics and dynamics, force, energy, rotation, fluids, waves, and thermal phenomena.
Pre-req: (MTH 229 (may be taken concurrently) with a minimum grade of D or MTH 229H (may be taken concurrently) with a minimum grade of D) and PHY 202 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: (MTH 229 or MTH 229H) and PHY 202
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 213 University Physics II **4 Credit hours**
Second half of an introduction to physics for physical science or engineering students, using calculus, including electric and magnetic fields, circuits, geometrical and physical optics, atomic and nuclear physics.
Pre-req: MTH 230 (may be taken concurrently) and PHY 204 (may be taken concurrently) and (PHY 201 with a minimum grade of C or PHY 211 with a minimum grade of C) and PHY 202.
Concurrent PR: MTH 230 and PHY 204
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 214 Lab Methods in Physics **1 Credit hour**
A laboratory course to accompany Physics 211-213. 3 lab. A laboratory course to accompany Physics 211-213. 3 lab.
Pre-req: PHY 213 (may be taken concurrently).
Concurrent PR: PHY 213
Attributes: Natural Sciences, Core II Natural Sciences
Grade Mode: Normal Grading Mode

PHY 222 Investigate the Universe **2 Credit hours**
A creative laboratory course designed to give students an opporutnity to work with modern research equipment, with ample time to conduct experiments and/or investigate phenomenae of their choosing.
Pre-req: (MTH 122 and MTH 127) or (MTH 122 and MTH 130) or MTH 132.
Grade Mode: Normal Grading Mode

PHY 261 Enhancement for Physics I **1 Credit hour**
Additional aspects in mechanics (calculus, array vectors and matrices, distributions), to make College Physics 1 equivalent to University Physics 1.
Pre-req: PHY 201 with a minimum grade of C or MTH 229 with a minimum grade of C.
Grade Mode: Normal Grading Mode

PHY 263 Enhancement for Physics II **1 Credit hour**
Additional aspects in E&M and Optics, Modern Physics, (calculus and multipole functions) to make College Physics 2 equivalent to University Physics 2.
Grade Mode: Normal Grading Mode

PHY 280 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 281 Special Topics **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 300 Electricity & Magnetism **3 Credit hours**
A course including the study of electrostatics, magnetostatics, electromagnetic induction, introduction to Maxwell's equations and electromagnetic waves. 3 lec. A course including the study of electrostatics, magneto- statics, electromagnetic induction, introduction to Maxwell's equations and electromagnetic waves. 3 lec.
Pre-req: (PHY 203 or PHY 213) and MTH 231.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 302 Electricity & Magnetism II **3 Credit hours**
A study of Maxwell's equations and electromagnetic waves, radiation theory, optical phenomena, and electrodynamics. 3 lec. A study of Maxwell's equations and electromagnetic waves, radiation theory, optical phenomena, and electrodynamics. 3 lec.
Pre-req: PHY 300.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 304 Optics **3 Credit hours**
An intermediate course in geometrical and physical optics. 3 lec. An intermediate course in geometrical and physical optics. 3 lec.
Pre-req: (PHY 203 or PHY 213) and (PHY 405 (may be taken concurrently) or PHY 505 (may be taken concurrently)).
Concurrent PR: PHY 405 or PHY 505
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 308 Thermal Physics **3 Credit hours**
A study of thermodynamics, kinetic theory of gases, and an introduction to statistical mechanics 3 lec.
Pre-req: (PHY 203 or PHY 213) and MTH 231.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 314 Electronic Physics **3 Credit hours**
A study of transistors, integrated circuits and their associated circuits. 3 lec. A study of transistors, integrated circuits and their associated circuits. 3 lec.
Pre-req: PHY 203 with a minimum grade of D or PHY 213 with a minimum grade of D and PHY 415 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 415
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 320 Intro Modern Physics **3 Credit hours**
An introductory study of atomic and molecular theories, relativity, quantum theory, and nuclear physics. 3 lec. An introductory study of atomic and molecular theories, relativity, quantum theory, and nuclear physics. 3 lec.
Pre-req: MTH 230 and (PHY 203 or PHY 213).
Co-req: PHY 421
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 330 Mechanics **3 Credit hours**
An intermediate study of the fundamental principles of statics of particles and rigid bodies, momentum and energy, dynamics of particles, harmonic oscillations, and wave motion. 3 lec. An intermediate study of the fundamental principles of statics of particles and rigid bodies, momentum and energy, dynamics of particles, harmonic oscillations, and wave motion. 3 lec.
Pre-req: MTH 231 and (PHY 203 or PHY 213).
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 340 Scientific Computing **3 Credit hours**
Introduction to some of the most important tools and techniques in scientific computing, including object-oriented design, version control, and MPI for high-performance computing.
Pre-req: MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D or IST 163 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHY 350 Biological Physics **3 Credit hours**
Physical principles underlying the mechanisms by which living organisms survive, adapt, grow. Will enhance writing skills and strategies. 2 lec - 2 lab. (PR: PHY 203 or 213, and PHY 204)
Pre-req: PHY 203 (may be taken concurrently) or PHY 213 (may be taken concurrently) and PHY 204.
Concurrent PR: PHY 203 or PHY 213
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 360 Medical Physics **3 Credit hours**
Physical principles applied to devise methods for diagnostic and treatment of the human body. Will enhance writing skills and strategies.
Pre-req: (PHY 203 with a minimum grade of D or PHY 213 with a minimum grade of D) and PHY 204 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHY 405 Optics Lab **2 Credit hours**
A course in optical experiments encompassing geometrical and physical optics. This course is to be taken with Physics 304.
Pre-req: PHY 304 (may be taken concurrently).
Concurrent PR: PHY 304
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 408 Thermal Stat Physics **3 Credit hours**
Introduction to Thermodynamics, kinetic theory of gases, classical and quantum statistical mechanics, Bose-Einstein and Fermi-Dirac statistics, and application. 3 lec.
Pre-req: MTH 231 with a minimum grade of D and (PHY 203 with a minimum grade of D and PHY 213 with a minimum grade of D).
Grade Mode: Normal Grading Mode

PHY 415 Electronics Lab **2 Credit hours**
A course in laboratory measurements encompassing transistors, integrated circuits, and their associated circuits. This course is to be taken with Physics 314.
Pre-req: PHY 314 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: PHY 314
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 420 Astrophysics **3 Credit hours**
A detailed study of core problems in Astrophysics such as orbital dynamics, radiation processes, stellar structure and evolution, galactic dynamics, and cosmology.
Pre-req: PHY 213 with a minimum grade of D and MTH 231 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHY 421 Modern Physics Lab **2 Credit hours**
Laboratory exercises on modern physics topics encompassing both experiments of historic significance and current applications. To be taken with Physics 320, or equivalent.
Co-req: PHY 320
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 425 Solid State Physics **3 Credit hours**
The course provides a broad introduction to the structure and physical properties of solids. It also serves as a basis for advanced courses in solid state and condensed matter physics. The course provides a broad introduction to the structure and physical properties of solids. It also serves as a basis for advanced courses in solid state and condensed matter physics.
Pre-req: PHY 320 or PHY 442 or CHM 442.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 435 Computational Physics **3 Credit hours**
A course on using numerical methods and computer programming languages for solving complex physics problems and for the simulation of various physical processes. 2 lec-2 lab.
Pre-req: PHY 213 with a minimum grade of D and PHY 330 with a minimum grade of D and (PHY 445 with a minimum grade of D or PHY 446 with a minimum grade of D) and MTH 231 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHY 442 Quantum Mechanics **3 Credit hours**
A study of waves and particles, the Schroedinger and Heisenberg formulations, particles in potential fields, scattering and perturbation theories, and application to atomic and nuclear structure. 3 lec. A study of waves and particles, the Schroedinger and Heisenberg formulations, particles in potential fields, scattering and perturbation theories, and application to atomic and nuclear structure. 3 lec.
Pre-req: MTH 335 and PHY 330.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 443 Quantum Mechanics II **3 Credit hours**
This is the second part of a two-semester introduction to quantum mechanics. Emphasis is on applications of quantum theory including approximation techniques and the study of more realistic quantum systems. This is the second part of a two-semester introduction to quantum mechanics. Emphasis is on applications of quantum theory including approximation techniques and the study of more realistic quantum systems.
Pre-req: PHY 442 with a minimum grade of D or CHM 442 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PHY 444 Advanced Laboratory **2 Credit hours**
Developments in producing and detecting correlated photon pairs has enabled implementation of undergraduate laboratories demonstrating fundamental quantum mechanical principles. This laboratory also incorporates fundamental solid state and materials science experiments.
Pre-req: PHY 425 (may be taken concurrently) and PHY 442 (may be taken concurrently).
Concurrent PR: PHY 425 and PHY 442
Co-req: PHY 425, PHY 442
Grade Mode: Normal Grading Mode

PHY 445 Math Methods of Physics **3 Credit hours**
An introduction to theory of orthogonal functions, curvilinear coordinate systems, vector and tensor fields, and their applications in physics. Problems are drawn from different areas of physics. 3 lec. An introduction to theory of orthogonal functions, curvilinear coordinate systems, vector and tensor fields, and their applications in physics. Problems are drawn from different areas of physics. 3 lec.
Pre-req: PHY 203 or PHY 213 and MTH 231.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 446 Math Methods of Physics II **3 Credit hours**
A second semester of a full year course on methods of solving problems in physics: calculus of variations, ordinary and partial differential equations, and special functions with real physics problems.
Pre-req: PHY 445.
Grade Mode: Normal Grading Mode

PHY 447 Mechanics for Teachers **4 Credit hours**
An indepth study of mechanics for education majors specializing in Physics with emphasis on problem solving techniques, demonstrations, experiments and computer applications. (PR: PHY 203, MTH 122 and MTH 140) An indepth study of mechanics for education majors specializing in Physics with emphasis on problem solving techniques, demonstrations, experiments and computer applications. (PR: PHY 203, MTH 122 and MTH 140)
Pre-req: PHY 203 or PHY 213.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 480 Special Topics **2-4 Credit hours**
By permission of department chairman. By permission of department chairman.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 481 Special Topics **1-4 Credit hours**
By permission of department chairman. By permission of department chairman.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 482 Special Topics **1-4 Credit hours**
By permission of department chairman. By permission of department chairman.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 483 Special Topics **1-4 Credit hours**
By permission of department chairman. By permission of department chairman.
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 485 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 486 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required, Natural Sciences
Grade Mode: Normal Grading Mode

PHY 487 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 488 Independent Study **1-4 Credit hours**
Attributes: Natural Sciences
Grade Mode: Normal Grading Mode

PHY 491 Capstone **1-2 Credit hours**
To give a capstone expeience to physics majors in their junior or senior years by applying the principles of physics to the solution of real life problems. (PR: CSD 203, or 218 and lab). To give a capstone expeience to physics majors in their junior or senior years by applying the principles of physics to the solution of real life problems. (PR: CSD 203, or 218 and lab).
Attributes: Capstone Course, Natural Sciences
Grade Mode: Normal Grading Mode

PHY 492 Capstone **1-2 Credit hours**
To give a capstone experience to physics majors in their junior or senior years by applying the principles of physics to the solution of real life problems. (PR: PHY 491) To give a capstone experience to physics majors in their junior or senior years by applying the principles of physics to the solution of real life problems. (PR: PHY 491)
Pre-req: PHY 491 with a minimum grade of D.
Attributes: Capstone Course, No Textbook Required, Natural Sciences
Grade Mode: Normal Grading Mode

Political Science (PSC)

- General Education Course

PSC 104 Am Natl Govt & Politics (CT) **3 Credit hours**
This course will engage students in critical thinking as they explore the American federal government system, with emphasis on constiutionalism, governmental structure, and the political process.
Attributes: American Institutions, Critical Thinking, Core II Social Sciences
Grade Mode: Normal Grading Mode

PSC 105 Fundamentals of Politics (CT) 3 Credit hours
General survey introducing the study of politics, its major concepts, processes, institutions, and fields of concern, with attention to the place of political science in the larger context of social science inquiry. General survey introducing the study of politics, its major concepts, processes, institutions, and fields of concern, with attention to the place of political science in the larger context of social science inquiry.
Attributes: Critical Thinking, Core II Social Sciences
Grade Mode: Normal Grading Mode

PSC 202 State and Local Government 3 Credit hours
Study of the institutions, processes, and significance of this level of political life in America. Study of the institutions, processes, and significance of this level of political life in America.
Attributes: American Institutions, Core II Social Sciences
Grade Mode: Normal Grading Mode

PSC 207 Comparative Politics (CT) 3 Credit hours
Introduction to the field of comparative politics, stressing comparative concepts and approaches to the cross-national study of politics and government, with examination of political systems, ranging from democratic to non-democratic types. Introduction to the field of comparative politics, stressing comparative concepts and approaches to the cross-national study of politics and government, with examination of political systems, ranging from democratic to non-democratic types.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

PSC 209 Fund Internatl Relations (CT) 3 Credit hours
Survey of major concepts and approaches in the study of international relations and analysis of processes, institutions, strategies, and trends in world politics.
Attributes: Critical Thinking, International, Core II Social Sciences
Grade Mode: Normal Grading Mode

PSC 211 Research in Political Science 3 Credit hours
Study of the development of political science as a distinct science and discipline, and of the fundamentals of research in political science, such as bibliographic techniques, uses of scientific method, textual and case-study approaches and data analysis. Study of the development of political science as a distinct science and discipline, and of the fundamentals of research in political science, such as bibliographic techniques, uses of scientific method, textual and case-study approaches and data analysis.
Pre-req: ENG 201 with a minimum grade of C or ENG 201H with a minimum grade of C or YGS 161 with a minimum grade of C or IST 201 with a minimum grade of D or ENG 202 with a minimum grade of D or ENG 102 with a minimum grade of C or ENG 200H with a minimum grade of C.
Attributes: Core II Social Sciences
Grade Mode: Normal Grading Mode

PSC 233 Intro to Public Policy 3 Credit hours
Basic concepts and skills in the analysis of public policy problems. Use of policy as an instrument for solving problems. Application to selected fields, for example, environmental policy and urban policy. Basic concepts and skills in the analysis of public policy problems. Use of policy as an instrument for solving problems. Application to selected fields, for example, environmental policy and urban policy.
Attributes: American Institutions, Core II Social Sciences
Grade Mode: Normal Grading Mode

PSC 280 Special Topics 1-4 Credit hours
To offer a course on some special topic not adequately treated in the regular course offerings. To offer a course on some special topic not adequately treated in the regular course offerings.
Grade Mode: Normal Grading Mode

PSC 281 Special Topics 1-4 Credit hours
To offer a course on some special topic not adequately treated in the regular course offerings. To offer a course on some special topic not adequately treated in the regular course offerings.
Grade Mode: Normal Grading Mode

PSC 282 Special Topics 1-4 Credit hours
To offer a course on some special topic not adequately treated in the regular course offerings. To offer a course on some special topic not adequately treated in the regular course offerings.
Grade Mode: Normal Grading Mode

PSC 283 Special Topics 1-4 Credit hours
To offer a course on some special topic not adequately treated in the regular course offerings. To offer a course on some special topic not adequately treated in the regular course offerings.
Grade Mode: Normal Grading Mode

PSC 303 Amer Political Parties 3 Credit hours
Examination of the American party system, its origins, development and characteristics. Emphasis also on party organization, political ambition and recruitment, party impact on public policy, campaigns, elections, and voting behavior. Examination of the American party system, its origins, development and characteristics. Emphasis also on party organization, political ambition and recruitment, party impact on public policy, campaigns, elections, and voting behavior.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

PSC 307 Public Opinion and Propaganda 3 Credit hours
Study of the processes by which individuals acquire politically relevant information, attitudes, values, and opinions; the consequences of these processes for political stability and conflict; and the linkage of mass opinions to elite behavior. (Same as Sociology 307) Study of the processes by which individuals acquire politi- cally relevant information, attitudes, values, and opinions; the consequences of these processes for political stability and conflict; and the linkage of mass opinions to elite be- havior. (Same as Sociology 307)
Attributes: American Institutions
Grade Mode: Normal Grading Mode

PSC 310 Campaigns and Elections 3 Credit hours
Federal and state laws for campaigns and elections and the changing mechanisms for reaching voters are covered in this course.
Grade Mode: Normal Grading Mode

PSC 311 Issues in Public Policy 3 Credit hours
A course devoted to a special topic of interest in the policy field, such as energy, health care, transportation, environmental concerns, etc. A course devoted to a special topic of interest in the policy field, such as energy, health care, transportation, environmental concerns, etc.
Grade Mode: Normal Grading Mode

PSC 312 Research in Political Science 3 Credit hours
Study of the development of political science as a distinct science and discipline, and of the fundamentals of research in political science, such as bibliographic techniques, uses of scientific method, textual and case-study approaches and data analysis.
Grade Mode: Normal Grading Mode

PSC 333 Intro to Public Administration **3 Credit hours**
Introduction to modern theories of administration; the relation of administration to the political system and process; and analysis of administrative organizations and functions, including planning, personnel, and finance. Introduction to modern theories of administration; the re- lation of administration to the political system and pro- cess; and analysis of administrative organizations and functions, including planning, personnel, and finance.
Grade Mode: Normal Grading Mode

PSC 376 Black Politics **3 Credit hours**
Study emphasizing power structures in black communities, dissent and protest, problems and trends, and the uniqueness of black politics as compared with the politics of other ethnic groups. Study emphasizing power structures in black communities, dissent and protest, problems and trends, and the uni- queness of black politics as compared with the politics of other ethnic groups.
Attributes: American Institutions, Multicultural
Grade Mode: Normal Grading Mode

PSC 381 Am Legislative Process **3 Credit hours**
Structure and behavior of American national and state legislative systems; the impact of constituencies, parties, interest groups, interpersonal relations, and other factors on the legislative policymaking process; the role of the legislature as a subsystem in the larger political system; and problems and trends. Structure and behavior of American national and state legislative systems; the impact of constituencies, parties, interest groups, interpersonal relations, and other factors on the legislative policymaking process; the role of the legislature as a subsystem in the larger political system; and problems and trends.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

PSC 382 Student Legislative Prog **1 Credit hour**
One week of intensive legislative observation designed to provide selected students an understanding of the organization and processes of the West Virginia legislature and its role in the making of public policy. One week of intensive legislative observation designed to provide selected students an understanding of the organiza- tion and processes of the West Virginia legislature and its role in the making of public policy.
Grade Mode: Normal Grading Mode

PSC 383 The American Presidency **3 Credit hours**
Study of governmental executives in the American political system, with emphasis on the president, including analysis of constitutional status and powers, recruitment, administrative responsibilities, political and legislative leadership, accountability, and problems and trends. Study of governmental executives in the American political system, with emphasis on the president, including analysis of constitutional status and powers, recruitment, admini- strative responsibilities, political and legislative leader- ship, accountability, and problems and trends.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

PSC 402 Politics of the Undead **3 Credit hours**
An exploration of political thought, international relations theory, and political economy through the pop cultural lens of vampires, zombies, and other undead creatures.
Grade Mode: Normal Grading Mode

PSC 403 War and Pop Culture **3 Credit hours**
An exploration of evolving depictions of political violence in film, television, graphic novels, video games, and popular music.
Attributes: International
Grade Mode: Normal Grading Mode

PSC 405 UN & Global Organizations **3 Credit hours**
Study of world and regional organizations as reflections of world politics, as instruments of foreign policies, and as forces for change and order, with emphasis on their role as channels for management of cooperation and conflict. Study of world and regional organizations as reflections of world politics, as instruments of foreign policies, and as forces for change and order, with emphasis on their role as channels for management of cooperation and conflict.
Attributes: International
Grade Mode: Normal Grading Mode

PSC 406 International Relations **3 Credit hours**
Study of major issues in world politics, with emphasis on theoretical approaches, problems of war and peace, and contemporary trends. Study of major issues in world politics, with emphasis on theoretical approaches, problems of war and peace, and contemporary trends.
Attributes: International
Grade Mode: Normal Grading Mode

PSC 407 Asian Politics **3 Credit hours**
Study of such nations as India, China, Japan, and Korea in the contemporary setting. Study of such nations as India, China, Japan, and Korea in the contemporary setting.
Attributes: International
Grade Mode: Normal Grading Mode

PSC 408 Middle Eastern Politics **3 Credit hours**
Study of the Arab States and such nations as Israel, Iran, and Turkey in the contemporary setting. Study of the Arab States and such nations as Israel, Iran, and Turkey in the contemporary setting.
Attributes: International
Grade Mode: Normal Grading Mode

PSC 409 Western Democratic Politics **3 Credit hours**
Study of such nations as Canada and those of Western Europe, particularly Great Britian and France. Study of such nations as Canada and those of Western Europe, particularly Great Britian and France.
Attributes: International
Grade Mode: Normal Grading Mode

PSC 410 Post Soviet Politics **3 Credit hours**
Study of the politics of Russia and the former Soviet Union. Study of the Soviet Union and Eastern Europe.
Attributes: International
Grade Mode: Normal Grading Mode

PSC 411 Latin American Politics **3 Credit hours**
Study of Latin American politics by sectors, such as landed elites, the military, the church, etc. Various styles of governance are considered. Case examples illustrate concepts discussed. Study of Latin American politics by sectors, such as landed elites, the military, the church, etc. Various styles of governance are considered. Case examples illustrate con- cepts discussed.
Attributes: International
Grade Mode: Normal Grading Mode

PSC 412 International Political Econ **3 Credit hours**
This course will examine the evolution and structure of the global economic system with emphasis on the development of the Liberal International Economic Order.
Grade Mode: Normal Grading Mode

PSC 415 International Law **3 Credit hours**
Study of theories, origins, sources, development, present state, and trends of international law as a factor in various aspects of international politics. Study of theories, origins, sources, development, present state, and trends of international law as a factor in various aspects of international politics.
Attributes: International
Grade Mode: Normal Grading Mode

PSC 416 Politics of Development **3 Credit hours**
A survey of major theories of development and modernization and issues confronting developing nations around the world.
Attributes: International
Grade Mode: Normal Grading Mode

PSC 417 Homeland Sec and Civ Lib **3 Credit hours**
An examination of the policy issues involved in protecting the U.S. homeland from terrorist and other threats, with special attention to the impact such policies have on individual liberties.
Grade Mode: Normal Grading Mode

PSC 418 American Political Thought II **3 Credit hours**
This course is a detailed examination of the philosophical and historical roots of American politics from Reconstruction through the present with emphasis on original texts.
Grade Mode: Normal Grading Mode

PSC 419 Women and Political Thought **3 Credit hours**
This course examines how women were conceptualized in the history of political philosophy and how women then began conceptualizing themselves and their relation to politics.
Grade Mode: Normal Grading Mode

PSC 420 Cur World/Regional Issues **3 Credit hours**
An intensive study of specific world or regional problems, such as the politics of world hunger, the role of multinational corporations, imperialism, Third World Communist movements, etc. An intensive study of specific world or regional problems, such as the politics of world hunger, the role of multi- national corporations, imperialism, Third World Communist movements, etc.
Attributes: International
Grade Mode: Normal Grading Mode

PSC 421 American Political Thought I **3 Credit hours**
This course is a detailed examination of the philosophical and historical roots of American politics from the Colonial era through the Civil War with emphasis on original texts. Study of the development and influence of American Political Thought with an emphasis on the linkage of ideas to political and ecomomic forces.
Grade Mode: Normal Grading Mode

PSC 422 African Political Systems **3 Credit hours**
The study of political systems of selected countries, blocs, or regions. The study of political systems of selected countries, blocs, or regions.
Attributes: International
Grade Mode: Normal Grading Mode

PSC 423 American Foreign Policy **3 Credit hours**
The study of descriptive, analytical, and normative aspects of United States foreign policy with emphasis on contemporary problems and issues. The study of descriptive, analytical, and normative aspects of United States foreign policy with emphasis on contempor- ary problems and issues.
Attributes: American Institutions, International
Grade Mode: Normal Grading Mode

PSC 424 Diplomacy **3 Credit hours**
Application of the comparative method to foreign policy decision-making and outputs. Comparisons within or between geographic regions. Application of the comparative method to foreign policy decision-making and outputs. Comparisons within or between geographic regions.
Attributes: International
Grade Mode: Normal Grading Mode

PSC 425 Classical Political Thought **3 Credit hours**
Selective study of classics of Western political theory from earliest times through the 15th century, such as that of Plato, Aristotle, the Romans, Augustine, and Aquinas.
Grade Mode: Normal Grading Mode

PSC 426 Modern Political Thought **3 Credit hours**
Selective study of classics of Western political theory from the 16th century through the 19th century, such as that of Machiavelli, Bodin, Hobbes, Locke, Rousseau, Hume, Burke, Mill, and Marx.
Grade Mode: Normal Grading Mode

PSC 427 Shapers and Definers **3 Credit hours**
A study of political leaders who have shaped and defined the American constitutional tradition.
Grade Mode: Normal Grading Mode

PSC 428 Islam and Politics **3 Credit hours**
Study of Islamic political ideas, practices, and institutions and their impact on the rise and development of contemporary Islamic movements, organizations, and states. Study of Islamic political ideas, practices, and institut- ions and their impact on the rise and development of con- temporary Islamic movements, organizations, and states.
Attributes: International
Grade Mode: Normal Grading Mode

PSC 429 Politics of Confl & Rev **3 Credit hours**
Study of major theories of conflict and revolution with emphasis on cross-national explanations and outcomes. Study of major theories of conflict and revolution with em- phasis on cross-national explanations and outcomes.
Attributes: International
Grade Mode: Normal Grading Mode

PSC 430 Political Ideologies **3 Credit hours**
This course examines modern political ideologies including Liberalism, Conservatism, Anarchism, Socialism, Facism, Feminism, and Environmentalism with emphasis on the original texts.
Grade Mode: Normal Grading Mode

PSC 460 Civil Rights & Liberties **3 Credit hours**
Pre-req: PSC 104 or PSC 104E.
Grade Mode: Normal Grading Mode

PSC 461 Urban Prob & Pub Policy **3 Credit hours**
Study of policy problems of metropolitan areas in terms of structures, alternatives, and outcomes. Study of policy problems of metropolitan areas in terms of structures, alternatives, and outcomes.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

PSC 466 Appalachian Politics **3 Credit hours**
Explores Appalachia as both a geographical region and a political construct, focusing on how politics shapes regional identity and the region's relationship to the United States.
Grade Mode: Normal Grading Mode

PSC 478 Politics and Video Games **3 Credit hours**
An exploration of the power dynamics and politics at play in video games, the video game industry, and gaming culture.
Attributes: Digital Humanities
Grade Mode: Normal Grading Mode

PSC 480 Special Topics **1-4 Credit hours**
To offer a course on some special topic which is not adequately treated in the regular course offerings. To offer a course on some special topic which is not ad- equately treated in the regular course offerings.
Grade Mode: Normal Grading Mode

PSC 481 Special Topics **1-4 Credit hours**
To offer a course on some special topic which is not adequately treated in the regular course offerings. To offer a course on some special topic which is not ad- equately treated in the regular course offerings.
Grade Mode: Normal Grading Mode

PSC 482 Special Topics **1-4 Credit hours**
To offer a course on some special topic which is not adequately treated in the regular course offerings. To offer a course on some special topic which is not ad- equately treated in the regular course offerings.
Grade Mode: Normal Grading Mode

PSC 483 Special Topics **1-4 Credit hours**
To offer a course on some special topic which is not adequately treated in the regular course offerings. To offer a course on some special topic which is not ad- equately treated in the regular course offerings.
Grade Mode: Normal Grading Mode

PSC 484 Constitutional Law **3 Credit hours**
Introduction to the principles of American constitutional law and analysis of constitutional issues, emphasizing leading Supreme Court cases. Introduction to the principles of American constitutional law and analysis of constitutional issues, emphasizing leading Supreme Court cases.
Pre-req: PSC 104E or PSC 104.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

PSC 485 Independent Study **1-4 Credit hours**
These numbers are reserved for tutorials, directed and independent readings, directed and independent research, problem reports, etc. These numbers are reserved for tutorials, directed and in- dependent readings, directed and independent research, problem reports, etc.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

PSC 486 Independent Study **1-4 Credit hours**
These numbers are reserved for tutorials, directed and independent readings, directed and independent research, problem reports, etc. These numbers are reserved for tutorials, directed and in- dependent readings, directed and independent research, problem reports, etc.
Grade Mode: Normal Grading Mode

PSC 487 Independent Study **1-4 Credit hours**
These numbers are reserved for tutorials, directed and independent readings, directed and independent research, problem reports, etc. These numbers are reserved for tutorials, directed and in- dependent readings, directed and independent research, problem reports, etc.
Grade Mode: Normal Grading Mode

PSC 488 Independent Study **1-4 Credit hours**
These numbers are reserved for tutorials, directed and independent readings, directed and independent research, problem reports, etc. These numbers are reserved for tutorials, directed and in- dependent readings, directed and independent research, problem reports, etc.
Grade Mode: Normal Grading Mode

PSC 489 Seminar in Public Service **3 Credit hours**
Grade Mode: Normal Grading Mode

PSC 490 Public Service Internship **6 Credit hours**
Grade Mode: Normal Grading Mode

PSC 499 Capstone Experience **3 Credit hours**
This course is designed as a culminating experience for seniors. Students will engage in a service learning project that combines scholarly interests with real life skills. Course offered only in Fall Semester. This course is designed to integrate political theory with politics by considering the relevance of political phil- osophy to contemporary political questions. Capstone ex- perience must be completed in the senior year.
Pre-req: PSC 211 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Psychology (PSY)

- General Education Course

PSY 100 Psychology as a Major **1 Credit hour**
Prepares students to be successful undergraduate Psychology majors and introduces possible careers and educational requirements. Prepares students to be successful undergraduate Psychology majors and introduces possible careers and educational requirements.
Grade Mode: Normal Grading Mode

PSY 201 Introductory Psychology (CT) **3 Credit hours**
Principles and methods in the scientific study of behavior. Principles and methods in the scientific study of behavior.
Attributes: Critical Thinking, Core II Social Sciences
Grade Mode: Normal Grading Mode

PSY 201H General Psychology-Honors (CT) **3 Credit hours**
For the superior student. For the superior student.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Critical Thinking, Core II Social Sciences
Grade Mode: Normal Grading Mode

PSY 204 Psychology of Adjustment **3 Credit hours**
Modes of personal and social adjustment; assessment and treatment techniques. Modes of personal and social adjustment; assessment and treatment techniques.
Grade Mode: Normal Grading Mode

PSY 205 Intro Paraprof Mental Health **3 Credit hours**
Course covers paraprofessional mental health career options; community resource utilization, deinstitutionalization, crisis/ interpersonal intervention and special populations. On-site observation experience required.
Pre-req: PSY 201.
Grade Mode: Normal Grading Mode

PSY 223 Elem Behavioral Stat **3 Credit hours**
Orientation to the philosophy of science; survey of methods in behavior study; elementary statistics. Orientation to the philosophy of science; survey of methods in behavior study; elementary statistics.
Pre-req: (PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D) and (MTH 121 with a minimum grade of D or MTH 121B with a minimum grade of D or MTH 122 with a minimum grade of D or MTH 125 with a minimum grade of D or MTH 127 with a minimum grade of D or MTH 130 with a minimum grade of D or MTH 132 with a minimum grade of D or MTH 140 with a minimum grade of D or MTH 140H with a minimum grade of D or MTH 160 with a minimum grade of D or MTH 220 with a minimum grade of D or (STA 150 with a minimum grade of D and STA 150L with a minimum grade of D) or (STA 150B with a minimum grade of D and STA 150L with a minimum grade of D) or MTH 229 with a minimum grade of D or MTH 229H with a minimum grade of D).
Attributes: Core II Social Sciences, Statistics
Grade Mode: Normal Grading Mode

PSY 223L Elem Behavioral Stats Lab **1 Credit hour**
A laboratory course accompanying PSY 223, emphasizing experiential excercises related to methodology and research in psychology.
Pre-req: MTH 121.
Co-req: PSY 223
Grade Mode: Normal Grading Mode

PSY 250 Psychology of Pop Culture **3 Credit hours**
This course surveys how psychology and psychological issues are presented, researched, and applied in multiple modalities of popular culture.
Pre-req: PSY 201.
Grade Mode: Normal Grading Mode

PSY 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PSY 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PSY 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PSY 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

PSY 300 Paranormal Phenomena **3 Credit hours**
Investigation of such putative paranormal events as ESP, clairvoyance, UFO's, ghosts, astral projecttion, astrology, and related topics. Emphasis on evaluation of evidence using the scientific method and scientific criteria. Investigation of such putative paranormal events as ESP, clairvoyance, UFO's, ghosts, astral projecttion, astrology, and related topics. Emphasis on evaluation of evidence using the scientific method and scientific criteria.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 302 Social Psychology **3 Credit hours**
Social determinants of individual behavior. Social determinants of individual behavior.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 310 Beh Int Paraprof Mental Health **3 Credit hours**
Course covers behavioral theory, antecedent motivators, functional analysis, reinforcement regimes; preparing and following treatment plans, defining measurable goals/objectives, monitoring progress.
Pre-req: PSY 205.
Grade Mode: Normal Grading Mode

PSY 311 Child Development **3 Credit hours**
Psychological characteristics and personal and social problems of developmental periods. Psychological characteristics and personal and social problems of developmental periods.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 312 Adult Development **3 Credit hours**
Study of the physiological, psychological, and social processes that occur throughout adult development. Study of the physiological, psychological, and social processes that occur throughout adult development.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 323 Experimental Psychology **3 Credit hours**
Methodology and research in psychology. 2 lec-2 lab. Methodology and research in psychology. 2 lec-2 lab.
Pre-req: PSY 223 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 324 Sensation & Perception **3 Credit hours**
Methodology and research in sensory and perceptual processes. Methodology and research in sensory and perceptual processes.
Pre-req: PSY 223 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 330 Human Sexual Behavior **3 Credit hours**
A psychological approach to the functioning, attitudes, varieties and development of human sexual behavior. A psychological approach to the functioning, attitudes, varieties and development of human sexual behavior.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 350 Animal Behavior **3 Credit hours**
A comprehensive study of the behavior of non-human animals. A comprehensive study of the behavior of non-human animals.
Pre-req: PSY 201 or PSY 201E or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 360 Personality **3 Credit hours**
Personality structure, dynamics and development. Personality structure, dynamics and development.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 391 Psychology Of Aggression **3 Credit hours**
A multifaceted study of aggressive behavior in humans and other animals. Topics include biological and learned components of aggression, sex differences in aggression, violent crimes and personalities, media violence, and control of personal and group aggesssion. A multifaceted study of aggressive behavior in humans and other animals. Topics include biological and learned components of aggression, sex differences in aggression, violent crimes and personalities, media violence, and control of personal and group aggesssion.
Pre-req: PSY 201 or PSY 201E or PSY 201H and (PSY 302 or PSY 311 or PSY 408).
Grade Mode: Normal Grading Mode

PSY 406 Psychometrics **3 Credit hours**
Mental test theory and applicatons. Mental test theory and applicatons.
Pre-req: PSY 223 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 408 Abnormal Psychology **3 Credit hours**
An overview of the theories, assessment techniques, and treatment of maladaptive behavior. An overview of the theories, assessment techniques, and treatment of maladaptive behavior.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 411 Adv Topics Developmental Psy **3 Credit hours**
This course will provide an advanced study of topics regarding change throughout the lifespan. Emphasis will be on understanding the interactions of biological, psychological and social factors. This course will provide an advanced study of topics regarding change throughout the lifespan. Emphasis will be on understanding the interactions of biological, psy- chological and social factors.
Pre-req: PSY 311.
Grade Mode: Normal Grading Mode

PSY 415 Cognitive Psychology **3 Credit hours**
Theoretical and empirical approaches to the role of pattern recognition, attention, memory, language, problem solving and decision making in human thinking.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 416 Psychology of Learning **3 Credit hours**
Critical study of the major theories of learning and the related research. Critical study of the major theories of learning and the related research.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 417 Inter Behavioral Stat **3 Credit hours**
An intermediate level presentation of descriptive and inferential statistics as applied in behavioral research. 2 lec-2 lab. An intermediate level presentation of descriptive and inferential statistics as applied in behavioral research. 2 lec-2 lab.
Pre-req: PSY 223 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 418 Psychology of Personnel **3 Credit hours**
Psychological principles and methods applied to functions in personnel administration. Psychological principles and methods applied to functions in personnel administration.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 420 Intro to I-O Psychology **3 Credit hours**
A systematic study of the application of psychological methods and principles in business and industry. Emphasis is on research methods, motivation, training, leadership, personnel selection, employee safety, and job satisfaction.
Pre-req: PSY 201 with a minimum grade of D or PSY 201E with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 425 Psychology of Cinema Symbolism **3 Credit hours**
Analysis of how signs, symbols, and archetypes influence the individual and collective psyche via film.
Grade Mode: Normal Grading Mode

PSY 426 Cross Cultural Psychology **3 Credit hours**
Emic and etic cultural concepts are considered from an American (subcultural) and international perspective. Cultural influences on healing, health and service are covered. Emic and etic cultural concepts are considered from an American (subcultural) and international perspective. Cultural influences on healing, health and service are covered.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

PSY 430 Psychology of Women **3 Credit hours**
This course explores theories, findings, and social issues regarding the psychology of women and gender, with emphasis on gender role socialization on people's beliefs and behaviors across the lifespan. This course explores theories, findings, and social issues regarding the psychology of women and gender, with emphasis on gender role socialization on people's beliefs and behaviors across the lifespan.
Pre-req: PSY 201 or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 433 Currt Models Psychotherapy **3 Credit hours**
Introduction of theoretical models and related therapeutic strategies which influence the practice of modern psychotherapy. Introduction of theoretical models and related therapeutic strategies which influence the practice of modern psychotherapy.
Pre-req: PSY 360 with a minimum grade of D or PSY 408 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 435 Psych of Conspiracy Theory **3 Credit hours**
Understand, identify, and give critical analysis to the psychological and social factors that promote the support and belief of conspiracy theory.
Grade Mode: Normal Grading Mode

PSY 440 Physiological Psychology **3 Credit hours**
The relationships between physiological functions and biochemical processes and behavior. The relationships between physiological functions and biochemical processes and behavior.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 443 Health Psychology **3 Credit hours**
Introduction to the contribution of psychology to the promotion and maintenance of health and the prevention and treatment of illness.
Pre-req: (PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D) and PSY 323 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 456 Research in Psychology **3 Credit hours**
Laboratory courses to give advanced students experience in conducting psychological research. Laboratory courses to give advanced students experience in conducting psychological research.
Pre-req: PSY 223 with a minimum grade of D and PSY 323 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

PSY 457 Research in Psychology **3 Credit hours**
Laboratory courses to give advanced students experience in conducting psychological research. Laboratory courses to give advanced students experience in conducting psychological research.
Pre-req: PSY 201 with a minimum grade of D or PSY 201E with a minimum grade of D or PSY 201H with a minimum grade of D.
Attributes: Capstone Course, No Textbook Required
Grade Mode: Normal Grading Mode

PSY 460 History & Systems **3 Credit hours**
An examination of the historical and philosophical antecedents of contemporary psychology. An examination of the historical and philosophical antecedents of contemporary psychology.
Pre-req: (PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D) and PSY 223 with a minimum grade of D and PSY 323 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

PSY 465 Love Intimacy and Attachment **3 Credit hours**
Examination of how childhood attachments, bonds, and relationships affect and influence adult perspectives on love, expectations, intimacy, fidelity, and commitment. Examination of how childhood attachments, bonds, and relationships affect and influence adult perspectives on love, expectations, intimacy, fidelity, and commitment.
Pre-req: PSY 311.
Grade Mode: Normal Grading Mode

PSY 470 I-O Psych Practicum **3 Credit hours**
The course will offer students applied observational/research experience in Personnel/Human Resource Departments under the supervision of professionals within the fields of Industrial-Organizational Psychology and Human Resources. (PR: Psy 4l8 or Psy 420 and Permission.) The course will offer students applied observational/re- search experience in Personnel/Human Resource Departments under the supervision of professionals within the fields of Industrial-Organizational Psychology and Human Resources. (PR: Psy 4l8 or Psy 420 and Permission.)
Pre-req: PSY 418 or PSY 420.
Grade Mode: Normal Grading Mode

PSY 471 Practicum in Clinical PSY **3 Credit hours**
Students work 6 hours per week in a local clinical setting where they have the opportunity to observe individual and group therapy, psychological testing, staff meetings, etc. PR: l2 hours of PSY including 408 and Permission of Instructor Students work 6 hours per week in a local clinical setting where they have the opportunity to observe individual and group therapy, psychological testing, staff meetings, etc. PR: l2 hours of PSY including 408 and Permission of Instructor
Pre-req: PSY 408.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

PSY 475 Race Culture and Development **3 Credit hours**
Examine the roles that race, ethnicity, and culture play in the physical, cognitive, intellectual, and social developmental processes of people of color. Examine the roles that race, ethnicity, and culture play in the physical, cognitive, intellectual, and social developmental processes of people of color.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 480 Special Topics **1-4 Credit hours**
Pre-req: PSY 201 or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 481 Special Topics **1-4 Credit hours**
Pre-req: PSY 201 or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 482 Special Topics **1-4 Credit hours**
Pre-req: PSY 201 or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 483 Special Topics **1-4 Credit hours**
Pre-req: PSY 201 or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 485 Independent Study **1-4 Credit hours**
A course or seminar on some aspect of Psychology not otherwise treated in regular course offerings. A course or seminar on some aspect of Psychology not other- wise treated in regular course offerings.
Pre-req: PSY 201 with a minimum grade of D or PSY 201H with a minimum grade of D.
Grade Mode: Normal Grading Mode

PSY 486 Independent Study **1-4 Credit hours**
A course or seminar on some aspect of Psychology not otherwise treated in regular course offerings. A course or seminar on some aspect of Psychology not other- wise treated in regular course offerings.
Pre-req: PSY 201 with a minimum grade of D or PSY 201E with a minimum grade of D or PSY 201H with a minimum grade of D.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

PSY 487 Independent Study **1-4 Credit hours**
A course or seminar on some aspect of Psychology not otherwise treated in regular course offerings. A course or seminar on some aspect of Psychology not other- wise treated in regular course offerings.
Pre-req: PSY 201 or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 488 Independent Study **1-4 Credit hours**
A course or seminar on some aspect of Psychology not otherwise treated in regular course offerings. A course or seminar on some aspect of Psychology not other- wise treated in regular course offerings.
Pre-req: PSY 201 or PSY 201H.
Grade Mode: Normal Grading Mode

PSY 490 Intro to Teaching in Psych **3 Credit hours**
This course is designed to provide students with an introductory experience to teaching in psychology.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

PSY 491 Intro to Teaching in Psych **3 Credit hours**
This course is designed to provide students with an introductory experience to teaching in psychology.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

PSY 499 PSY Capstone Seminar **3 Credit hours**
A capstone course which integrates research methods, critical analysis, and problem solving applied to psychological questions and issues. A capstone course which integrates research methods, critical analysis, and problem solving applied to psychological questions and issues.
Pre-req: PSY 223 with a minimum grade of D and PSY 323 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Public Health (PH)

- General Education Course

PH 101 Intro to Public Health **3 Credit hours**
Course introduces students to the concepts and models of public health.
Grade Mode: Normal Grading Mode

PH 105 Intro to Epidemiology **3 Credit hours**
This course provides an introduction to epidemiology for undergraduate students.
Grade Mode: Normal Grading Mode

PH 220 Social & Behavioral Health **3 Credit hours**
Develop basic literacy regarding social concepts and processes that influence health status and public health interventions. Understand interaction of biologic, behavioral, social and environmental factors influencing health status of population.
Grade Mode: Normal Grading Mode

PH 240 Control of Infectious Diseases **3 Credit hours**
Examination of infectious diseases from a public health perspective, including strategies for prevention, treatment, control and eradication.
Pre-req: PH 105.
Grade Mode: Normal Grading Mode

PH 260 Community Health & Devpt **3 Credit hours**
This course will provide the foundations for a study into the new relevant community health issues facing area residents and also worth an international perspective.
Grade Mode: Normal Grading Mode

PH 270 Global Health (CT) **3 Credit hours**
This course provides students the opportunity to study healthcare systems in developed and developing countries and compare these systems to the US healthcare systems.
Attributes: Critical Thinking, International
Grade Mode: Normal Grading Mode

PH 280 Public Health Special Topics **1-4 Credit hours**
With permission of program director.
Grade Mode: Normal Grading Mode

PH 281 Public Health Special Topics **1-4 Credit hours**
With permission of program director.
Grade Mode: Normal Grading Mode

PH 282 Public Health Special Topics **1-4 Credit hours**
With permission of program director.
Grade Mode: Normal Grading Mode

PH 283 Public Health Special Topics **1-4 Credit hours**
With permission of program director.
Grade Mode: Normal Grading Mode

PH 285 Environmental Health **3 Credit hours**
Major environmental health problems, including water quality, wastewater occupational health, trace elements in the environment, municipal and hazardous waste, food protection, vector control, and air quality are discussed.
Grade Mode: Normal Grading Mode

PH 301 PH Sys Design & Decision Analy **3 Credit hours**
This course develops conceptual and methodological skills for design and implementation of Public Health policy. This philosophy of scientific inquiry and systems approaches to problem solving are covered. This course develops conceptual and methodological skills for design and implementation of Public Health policy. This philosophy of scientific inquiry and systems approaches to problem solving are covered.
Grade Mode: Normal Grading Mode

PH 302 Know & Info in Practice of PH **3 Credit hours**
This course provides an overview of how information and knowledge are acquired and applied to public health problems. The philosophy of scientific inquiry and systems approaches to problem solving are covered. This course provides an overview of how information and knowledge are acquired and applied to public health problems. The philosophy of scientific inquiry and systems approaches to problem solving are covered.
Grade Mode: Normal Grading Mode

PH 305 Fdn & Form of PH Policy **3 Credit hours**
Introduction to policy development, establishment and implementation with a focus on critical health issues. Students will develop skills in addressing current problems in health policy.
Grade Mode: Normal Grading Mode

PH 350 Qualitative Research Mthds App **3 Credit hours**
The course focuses on theories and applications of qualitative research methods.
Pre-req: MTH 225.
Grade Mode: Normal Grading Mode

PH 380 Maternal and Child Health **3 Credit hours**
This course takes a life cycle approach to understand the health issues, needs, policies, and program implications for women and children with a global perspective.
Pre-req: PH 270.
Grade Mode: Normal Grading Mode

PH 401 Fond & Frmulatn of PH Policy **3 Credit hours**
In this course, students will be introduced to health policy and the process by which it is developed. Various approaches to the health policy are defined and their rationale considered. In this course, students will be introduced to health policy and the process by which it is developed. Various approaches to the health policy are defined and their rationale considered.
Grade Mode: Normal Grading Mode

PH 420 Topics in Health Policy **3 Credit hours**
This course provides in depth study of timely topics in health policy. High impact health reform issues will be examined, culminating in student formulation of a policy proposal.
Grade Mode: Normal Grading Mode

PH 430 Monitoring and Eval in PH **3 Credit hours**
Introduces students to the language and theory of program monitoring and evaluation. Facilitate understanding of managing and tracking results in public health programs.
Pre-req: PH 101 with a minimum grade of D and PH 105 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PH 450 Urban and Rural Health **3 Credit hours**
Explores Public Health issues associated with rapid growth of urban population in developing countries and United States of America.
Pre-req: PH 101 and PH 270.
Grade Mode: Normal Grading Mode

PH 461 PH Competencies (Capstone) **3 Credit hours**
All students are expected to master a set of competencies during the course of their studies. The competencies that have been selected by the faculty of the College of Health Professions are derived from the Ten Essential Public Health Services. All students are expected to master a set of competencies during the course of their studies. The competencies that have been selected by the faculty of the College of Health Professions are derived from the Ten Essential Public Health Services.
Co-req: PH 456, PH 457
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

PH 470 Quantitative Research Methods **3 Credit hours**
The course focuses on theoretical aspects of quantitative research methods in public health and health care.
Grade Mode: Normal Grading Mode

PH 471 Quant Research Methods Appl **3 Credit hours**
This course focuses on applications and techniques of quantitative research methods.
Grade Mode: Normal Grading Mode

PH 475 Comm/Non Comm Disease **3 Credit hours**
Introduces the concepts of communicable and non-communicable diseases and the burden they individually carry and how it impacts the health status of the population.
Pre-req: PH 101 with a minimum grade of D and PH 270 with a minimum grade of D.
Grade Mode: Normal Grading Mode

PH 480 Public Health Special Topics **1-4 Credit hours**
With permission of program director.
Grade Mode: Normal Grading Mode

PH 481 Public Health Special Topics **1-4 Credit hours**
With permission of program director.
Grade Mode: Normal Grading Mode

PH 482 Public Health Special Topics **1-4 Credit hours**
With permission of program director.
Grade Mode: Normal Grading Mode

PH 483 Public Health Special Topics **1-4 Credit hours**
With permission of program director.
Grade Mode: Normal Grading Mode

PH 485 Public Health Ind Study **1-4 Credit hours**
With permission of program director.
Grade Mode: Normal Grading Mode

PH 486 Public Health Ind Study **1-4 Credit hours**
With permission of program director.
Grade Mode: Normal Grading Mode

PH 487 Public Health Ind Study **1-4 Credit hours**
With permission of program director.
Grade Mode: Normal Grading Mode

PH 488 Public Health Ind Study **1-4 Credit hours**
With permission of program director.
Grade Mode: Normal Grading Mode

PH 490 Public Health Intern/Capstone **3 Credit hours**
This is 320 hours total on-the-job experiences. The duration of the internship is planned to allow the variety of experiences that will provide the most benefits to the students.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Religious Studies (RST)

- General Education Course

RST 205 Religious Trads of West **3 Credit hours**
A comparative study of major religious traditions of the Western world: Judaism, Christianity, Islam, Zorastrianism and religions of the Americas. A comparative study of major religious traditions of the Western world: Judaism, Christianity, Islam, Zorastrianism and religions of the Americas.
Attributes: Core II Humanities, International
Grade Mode: Normal Grading Mode

RST 206 Religious Traditions Asia **3 Credit hours**
A comparative study of the major religious traditions of Asia: Hinduism, Buddhism, Confucianism, Taoism and Shinto, and how these religions have influenced Asian thought and cultures. A comparative study of the major religious traditions of Asia: Hinduism, Buddhism, Confucianism, Taoism and Shinto, and how these religions have influenced Asian thought and cultures.
Attributes: Core II Humanities, International
Grade Mode: Normal Grading Mode

RST 207 Biblical Geography **3 Credit hours**
Students explore the physical and human geography of ancient Palestine and assess how geography informs our understanding of people, events, and places described by Jewish and Christian scriptures.
Grade Mode: Normal Grading Mode

RST 220 Lit of Old Testament **3 Credit hours**
Traces the origins, growth and development of the literature of Hebrew people to the Greek period. Includes an introduction to and application of modern tools of biblical study. Traces the origins, growth and development of the literature of Hebrew people to the Greek period. Includes an introduction to and application of modern tools of biblical study.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

RST 225 Lit of New Testament **3 Credit hours**
Traces the origins, growth, and development of the literature of the early Christian church. Includes an introduction to and application of modern tools of biblical study. Traces the origins, growth, and development of the literature of the early Christian church. Includes an introduction to and application of modern tools of biblical study.
Attributes: Core II Humanities, Literature
Grade Mode: Normal Grading Mode

RST 250 Humanities and Film (CT) **3 Credit hours**
An interdisciplinary course to introduce students to the elements of a humanistic education through study of film. (Same as Philosophy 250 and Classics 250; PR or CR: ENG 101)
Pre-req: ENG 101 with a minimum grade of C or ENG 200H (may be taken concurrently) or ENG 201H (may be taken concurrently) or ENG 101P (may be taken concurrently).
Concurrent PR: ENG 101 or ENG 200H or ENG 201H or ENG 101P
Attributes: Critical Thinking, Core II Humanities, Literature, Multicultural
Grade Mode: Normal Grading Mode

RST 280 Special Topics **1-4 Credit hours**
Research adaptable to the needs of the individual student. Research adaptable to the needs of the individual student.
Grade Mode: Normal Grading Mode

RST 281 Special Topics **1-4 Credit hours**
Research adaptable to the needs of the individual student. Research adaptable to the needs of the individual student.
Grade Mode: Normal Grading Mode

RST 282 Special Topics **1-4 Credit hours**
Research adaptable to the needs of the individual student. Research adaptable to the needs of the individual student.
Grade Mode: Normal Grading Mode

RST 283 Special Topics **1-4 Credit hours**
Research adaptable to the needs of the individual student. Research adaptable to the needs of the individual student.
Grade Mode: Normal Grading Mode

RST 300 The Nature of Religion **3 Credit hours**
An analysis of the nature of religious personalities, institutions, literature, philosophies, experiences, and education. An analysis of the nature of religious personalities, institutions, literature, philosophies, experiences, and education.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

RST 303 World of Islam **3 Credit hours**
An examination of the global cultures of Islam with particular focus upon the origin and development of the religion which binds them together. An examination of the global cultures of Islam with particular focus upon the origin and development of the religion which binds them together.
Attributes: International
Grade Mode: Normal Grading Mode

RST 304 The Teachings of Jesus **3 Credit hours**
An analysis of early Christian writing and a systematic study of the message of the historical Jesus that stands behind it. An analysis of early Christian writing and a systematic study of the message of the historical Jesus that stands behind it.
Attributes: Literature
Grade Mode: Normal Grading Mode

RST 305 Early Christianity **3 Credit hours**
Traces the background, birth, and development of Christian thought from Paul through Augustine. Traces the background, birth, and development of Christian thought from Paul through Augustine.
Grade Mode: Normal Grading Mode

RST 310 The Hebrew Prophets **3 Credit hours**
The rise of the office of prophet and the contributions of prophecy to religion. The rise of the office of prophet and the contributions of prophecy to religion.
Attributes: Literature
Grade Mode: Normal Grading Mode

RST 311 Jewish Holocaust **3 Credit hours**
An examination of the religious/philosophical questions raised by the Holocaust of European Jews: Why and how did it occur? What does it tell us about religion and humanity? An examination of the religious/philosophical questions raised by the Holocaust of European Jews: Why and how did it occur? What does it tell us about religion and humanity?
Grade Mode: Normal Grading Mode

RST 319 ABCs of Orthodoxy **3 Credit hours**
An examination of Eastern Orthodox Christianity from the culture in which it was birthed to its place in today's society. An examination of Eastern Orthodox Christianity from the culture in which it was birthed to its place in today's society.
Grade Mode: Normal Grading Mode

RST 321 The Protestant Faith **3 Credit hours**
An examination of the distinctive historical and theological features of the Protestant movement in Western Christendom, with special attention to the distinctive beliefs and practices of contemporary American denominations. An examination of the distinctive historical and theological features of the Protestant movement in Western Christendom, with special attention to the distinctive beliefs and practices of contemporary American denominations.
Grade Mode: Normal Grading Mode

RST 323 Religion in America **3 Credit hours**
The rise and development of religious thinking in America. (Same as History 323) The rise and development of religious thinking in America. (Same as History 323)
Grade Mode: Normal Grading Mode

RST 324 The Jewish Way of Life **3 Credit hours**
An exploration of the distinctive features of the heritage of modern Judaism. An integrated approach to the study of Jewish religious practices, teachings, literature, and contributions to contemporary life. An exploration of the distinctive features of the heritage of modern Judaism. An integrated approach to the study of Jewish religious practices, teachings, literature, and contributions to contemporary life.
Grade Mode: Normal Grading Mode

RST 351 Classics of Rel Lit **3 Credit hours**
A contextual analysis of selected popular regigious classics, e.g., Foxe's Book of Martyrs, Bunyan's Pilgrim's Progress, St. Augustine's Confessions, Bhagavad-Gita, and the like. A contextual analysis of selected popular regigious classics, e.g., Foxe's Book of Martyrs, Bunyan's Pilgrim's Progress, St. Augustine's Confessions, Bhagavad-Gita, and the like.
Attributes: Literature
Grade Mode: Normal Grading Mode

RST 360 Hindu Mysticism **3 Credit hours**
A general survey of religious life and mysticism throughout South Asian history. A general survey of religious life and mysticism throughout South Asian history.
Grade Mode: Normal Grading Mode

RST 361 Buddhism **3 Credit hours**
General survey of Buddhist life throughout history and around the world. General survey of Buddhist life throughout history and around the world.
Attributes: International
Grade Mode: Normal Grading Mode

RST 390 Junior Seminar in Humanities **3 Credit hours**
A structured interdisciplinary study offered by the departments of Classics, Philosopy and Religious Studies in the foundations of human thought, myth, literature, religion, philosophy, art. (Same as Classics 390 - 394 and Philosophy 390 - 394).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 391 Junior Seminar in Humanities **3 Credit hours**
A structured interdisciplinary study offered by the departments of Classics, Philosopy and Religious Studies in the foundations of human thought, myth, literature, religion, philosopy, art. (Same as Classics 390 - 394 and Philosophy 390 - 394).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 392 Junior Seminar **3 Credit hours**
A structured interdisciplinary study offered by the departments of Classics, Philosophy and Religious Studies in the foundations of human thought, myth, literature, religion, philosophy, art. (Same as Classics 390 - 394 and Philosopy 390 - 394).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 393 Junior Seminar in Humanities **3 Credit hours**
A structured interdisciplinary study offered by the departments of Classics, Philosophy and Religious Studies in the foundations of human thought, myth, literature, religion, philosophy, art. (Same as Classics 390 - 394 and Philosophy 390 - 394).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 394 Junior Seminar in Humanities **3 Credit hours**
A structured interdisciplinary study offered by the departments of Classics, Philosophy and Religious Studies in the foundations of human thought, myth, literature, religion, philosophy, art. (Same as Classics 390 - 394 and Philosophy 390 - 394).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 419 Rel Thought in West World **3 Credit hours**
An analysis of the major schools of religious thought as they have developed in the West. An analysis of the major schools of religious thought as they have developed in the West.
Grade Mode: Normal Grading Mode

RST 450 Sociology of Religion **3 Credit hours**
An investigation into religion as a social phenomenon. An investigation into religion as a social phenomenon.
Grade Mode: Normal Grading Mode

RST 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

RST 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

RST 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

RST 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

RST 485 Independent Study **1-4 Credit hours**
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

RST 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

RST 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

RST 488 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

RST 490 Senior Seminar in Humanities **3 Credit hours**
Disigned for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. (Same as Classics 490 -494 and Philosopy 490 - 494),
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 491 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. (Same as Classics 490 - 494 and Philosphy 490 - 494).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 492 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. Same as Classics 490 - 494 and Philosophy 490 - 494).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 493 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. (Same as Classics 490 - 494 and Philosophy 490 - 494).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

RST 494 Senior Seminar in Humanities **3 Credit hours**
Designed for majors as a senior humanities seminar and the culminating interdisciplinary study in the Humanities program. (Same as Classics 490 -494 and Philosophy 490 - 494).
Pre-req: ENG 102 or ENG 302 or ENG 201H or YGS 162 or IST 201 or CL 231 or CL 232 or CL 233 or CL 319 or PHL 200 or PHL 201 or PHL 303 or PHL 321 or PHL 340 or PHL 353 or RST 205 or RST 206 or RST 300 or RST 304 or RST 320 or RST 325.
Grade Mode: Normal Grading Mode

Respiratory Care (RSP)

- General Education Course

RSP 100 Respiratory Pharmacology **3 Credit hours**
Introduces the student to basic pharmacology of medicines used in respiratory care and physiological implications on the human body.
Pre-req: BSC 227 (may be taken concurrently) with a minimum grade of C and BSC 228 with a minimum grade of C and BSC 250 with a minimum grade of C and RSP 101 with a minimum grade of C and RSP 102 with a minimum grade of C and RSP 102L with a minimum grade of C.
Concurrent PR: BSC 227
Co-req: RSP 201, RSP 202, RSP 203
Grade Mode: Normal Grading Mode

RSP 101 Intro to Respiratory Care **3 Credit hours**
Introduces the student to the history of respiratory care and professional organizations. Emphasis is on the role of the respiratory therapist as a member of the health care team.
Pre-req: BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C.
Co-req: RSP 102, RSP 102L
Grade Mode: Normal Grading Mode

RSP 102 Intro Resp Care Procedures **3 Credit hours**
Administration of medical gases, humidity and aerosol therapy with emphasis on the handling of medical gases and safety in administration. Techniques of therapeutic procedures used in respiratory care are included.
Pre-req: BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C.
Co-req: RSP 101, RSP 102L
Grade Mode: Normal Grading Mode

RSP 102L Respiratory Lab **1 Credit hour**
Administration of medical gases, humidity and aerosol therapy with emphasis on the handling of medical gases and safety in administration. Techniques of therapeutic procedures used in respiratory care are included.
Pre-req: BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C.
Co-req: RSP 101, RSP 102
Grade Mode: Normal Grading Mode

RSP 200B Concepts of Respiratory Care **5 Credit hours**
Designed for the board certified and state licensed CRT to enter into advanced respiratory practice. Emphasis is on concepts and principles for professional practice as an RRT.
Grade Mode: Normal Grading Mode

RSP 201 Pulmonary Pathophys **3 Credit hours**
Emphasis is placed on the etiology, signs and symptoms, pathology, clinical manifestations, sequellae, and treatment. The respiratory therapist's role in the recognition and treatment of pulmonary diseases is highlighted.
Pre-req: BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C and BSC 250 with a minimum grade of C and RSP 101 with a minimum grade of C and RSP 102 with a minimum grade of C and RSP 102L with a minimum grade of C.
Co-req: RSP 100, RSP 202, RSP 203
Grade Mode: Normal Grading Mode

RSP 202 Mech Vent Tech & MGT **3 Credit hours**
An introduction to the fundamentals of mechanical ventilation techniques and terminology. Monitoring and the ability to solve clinical problems relating to mechanical ventilation are emphasized. Lab included.
Pre-req: BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C and BSC 250 with a minimum grade of C and RSP 101 with a minimum grade of C and RSP 102 with a minimum grade of C and RSP 102L with a minimum grade of C.
Co-req: RSP 100, RSP 201, RSP 203
Grade Mode: Normal Grading Mode

RSP 203 Respiratory Internship I **4 Credit hours**
Emphasis is on information gathering from the patient record, physical evaluation of the patient and basic respiratory interventions.
Pre-req: BSC 227 with a minimum grade of C and BSC 228 with a minimum grade of C and BSC 250 with a minimum grade of C and RSP 101 with a minimum grade of C and RSP 102 with a minimum grade of C and RSP 102L with a minimum grade of C.
Co-req: RSP 100, RSP 201, RSP 202
Grade Mode: Normal Grading Mode

RSP 204 Pulmonary Rehab/Home Care **1 Credit hour**
Emphasis on the care of the patient with long term pulmonary disability requiring home care. Psychosocial and physical needs are addressed with emphasis of quality of life and cardiopulmonary reserve.
Pre-req: RSP 203 with a minimum grade of C.
Co-req: RSP 205, RSP 206, RSP 207, RSP 208, RSP 209
Grade Mode: Normal Grading Mode

RSP 205 Cardiopulmonary Diag **3 Credit hours**
Emphasis on advanced techniques of pulmonary function testing. Topics include lung volume determination, diffusion/distribution of ventilation, invasive and non invasive methods of arterial blood gas sampling, analysis, and interpretation.
Pre-req: RSP 203 with a minimum grade of C.
Co-req: RSP 206, RSP 207
Grade Mode: Normal Grading Mode

RSP 206 Neonatal/Pediatric Care **3 Credit hours**
Provide knowledge of neonatal/pediatric patients; fetal cardiopulmonary development and changes at birth, care methods used and evaluation of neonatal and pediatric patients are covered.
Pre-req: RSP 100 with a minimum grade of C and RSP 201 with a minimum grade of C and RSP 202 with a minimum grade of C and RSP 203 with a minimum grade of C.
Co-req: RSP 207, RSP 208, RSP 209, RSP 211, RSP 212
Grade Mode: Normal Grading Mode

RSP 207 Intro Critical Care MGT **3 Credit hours**
Designed to provide the student with knowledge of airway management, transtrachael oxygen therapy and aspiration, broncholscopy, thoracentisis, pleural chest tubes, arterial lines, ABG interpretation and analysis, transports, and electrocardiogram interpretation.
Pre-req: RSP 100 with a minimum grade of C and RSP 201 with a minimum grade of C and RSP 202 with a minimum grade of C and RSP 203 with a minimum grade of C.
Co-req: RSP 206, RSP 208, RSP 209, RSP 211, RSP 212
Grade Mode: Normal Grading Mode

RSP 208 Respiratory Care Seminar **1 Credit hour**
Introduces the student to NBRC exam taking skills, mock examinations of the NBRC matrix, realistic clinical problems and situations with emphasis on critical thinking and problem solving.
Pre-req: RSP 100 with a minimum grade of C and RSP 201 with a minimum grade of C and RSP 202 with a minimum grade of C and RSP 203 with a minimum grade of C.
Co-req: RSP 206, RSP 207, RSP 209, RSP 211, RSP 212
Grade Mode: Normal Grading Mode

RSP 209 Respiratory Internship II **4 Credit hours**
Emphasis is on supervised practice of humidity and aerosol therapy, aerosol drug therapy, lung inflation therapy and techniques used in electrocardiography.
Pre-req: RSP 100 with a minimum grade of C and RSP 201 with a minimum grade of C and RSP 202 with a minimum grade of C and RSP 203 with a minimum grade of C.
Co-req: RSP 206, RSP 207, RSP 208, RSP 211, RSP 212
Grade Mode: Normal Grading Mode

RSP 210 Respiratory Internship III **4 Credit hours**
Emphasis is on supervised practice of arterial blood gas sampling and analysis, arterial line management, chest tube management, ECGs observation of hemodynamic measurement and monitoring, IABP management.
Pre-req: RSP 100 with a minimum grade of C and RSP 201 with a minimum grade of C and RSP 202 with a minimum grade of C and RSP 203 with a minimum grade of C and RSP 209 with a minimum grade of C.
Co-req: RSP 303, RSP 309
Grade Mode: Normal Grading Mode

RSP 211 Dynamics of Pulmonary **2 Credit hours**
Emphasis is placed on the interaction of systems in gas exchange and renal involvement in acid base balance.
Pre-req: RSP 100 with a minimum grade of C and RSP 201 with a minimum grade of C and RSP 202 with a minimum grade of C and RSP 203 with a minimum grade of C.
Co-req: RSP 206, RSP 207, RSP 208, RSP 209, RSP 212
Grade Mode: Normal Grading Mode

RSP 212 Acute/Chronic Pulmonary Mgt **3 Credit hours**
This is a 3 hour couse with emphasis placed on pulmonary function testing/interpretation and care of a patient with long term pulmonary disability requiring home care and rehabilitation.
Pre-req: RSP 100 with a minimum grade of C and RSP 201 with a minimum grade of C and RSP 202 with a minimum grade of C and RSP 203 with a minimum grade of C.
Co-req: RSP 206, RSP 207, RSP 208, RSP 209, RSP 211
Grade Mode: Normal Grading Mode

RSP 301 Intro Resp Care MGT **3 Credit hours**
Introduces the student to the basic principles of management in the respiratory care department. Includes theory, scope of management, quality issues, budgeting, personnel issues, evaluation and application of management concept.
Grade Mode: Normal Grading Mode

RSP 302 Respiratory Internship IV **4 Credit hours**
Emphasis is on cardiopulmonary assessment and treatment of trauma, post-surgical, cardiac, renal, neonatal and pediatric patients with refinement of monitoring procedures and interpretation of data.
Pre-req: RSP 206 with a minimum grade of C and RSP 207 with a minimum grade of C and RSP 208 with a minimum grade of C and RSP 209 with a minimum grade of C and RSP 211 with a minimum grade of C and RSP 212 with a minimum grade of C.
Co-req: RSP 304, RSP 307, RSP 402
Grade Mode: Normal Grading Mode

RSP 303 Clinical Respiratory Education **3 Credit hours**
Designed as an introduction to clinical teaching in a respiratory care program. Emphasis is on instructional and evaluation strategies and development of performance objectives.
Pre-req: RSP 206 with a minimum grade of C and RSP 207 with a minimum grade of C and RSP 208 with a minimum grade of C and RSP 209 with a minimum grade of C and RSP 211 with a minimum grade of C and RSP 212 with a minimum grade of C.
Co-req: RSP 308
Grade Mode: Normal Grading Mode

RSP 304 Adv Neonatal & Pediatrics **3 Credit hours**
Advanced study of neonatal/pediatric pathophysiology including parenchymal disease, obstructive airway disease, lesions of the lungs and airways, congenital abnormalities, respiratory distress syndrome, apnea disorders, neurological disorders and trauma. (PR: RSP 206)
Pre-req: RSP 303 with a minimum grade of C and RSP 308 with a minimum grade of C.
Co-req: RSP 302, RSP 307, RSP 401
Grade Mode: Normal Grading Mode

RSP 305 Resp Cost MGT & Solutions **3 Credit hours**
Introduces the student to cost solutions for respiratory departments. Topics include annual budgets, purchasing decisions, effective staffing, inventory and supply controls and cost-containment methods.
Co-req: RSP 306
Grade Mode: Normal Grading Mode

RSP 306 Resp Care Performance Improv **3 Credit hours**
Provides basic principles associated with Total Quality Management (TQM) and Continuous Quality Improvement (CQI) to aid in problem identification and quality problem-solving for respiratory care departments.
Co-req: RSP 305
Grade Mode: Normal Grading Mode

RSP 307 Adv Tech Adult Critical Care **4 Credit hours**
Emphasis is on current respiratory care procedures for the critically ill adult patient with exploration into newer techniques.
Pre-req: RSP 303 with a minimum grade of C and RSP 308 with a minimum grade of C.
Co-req: RSP 302, RSP 304, RSP 401
Grade Mode: Normal Grading Mode

RSP 308 Resp Mgt & Quality Improvement **3 Credit hours**
This course introduces the student to basic management principles of a respiratory department. Discussion includes, scope of management, quality issues, budgeting, personnel issues, and evaluation and application of management concepts.
Pre-req: RSP 206 with a minimum grade of C and RSP 207 with a minimum grade of C and RSP 208 with a minimum grade of C and RSP 209 with a minimum grade of C and RSP 211 with a minimum grade of C and RSP 212 with a minimum grade of C.
Co-req: RSP 210, RSP 303
Grade Mode: Normal Grading Mode

RSP 314 Adv Mechanical Ventilation **3 Credit hours**
Advanced theory and application of mechanical ventilation. Study of various mechanical ventilators and artificial airways, with major emphasis placed on all aspects of the management of the patient-ventilator system.
Pre-req: RSP 202 with a minimum grade of C.
Grade Mode: Normal Grading Mode

RSP 401 Intro to Sleep Disorders **4 Credit hours**
Designed to teach how a polysomnogram is performed, the major categories of sleep disorders, the presenting symptoms of sleep apnea, narcolepsy, psycholphysiological insomnia and sleep disturbance due to depression.
Pre-req: RSP 303 with a minimum grade of C and RSP 308 with a minimum grade of C.
Co-req: RSP 302, RSP 304, RSP 307
Grade Mode: Normal Grading Mode

RSP 402 Respiratory MGT **3 Credit hours**
Designed to examine respiratory care in rual America. This course will address the key issues confronting rural respiratory healthcare today, examine the causes and develop solutions to the issues.
Pre-req: RSP 302 with a minimum grade of C and RSP 303 with a minimum grade of C and RSP 304 with a minimum grade of C and RSP 307 with a minimum grade of C and RSP 308 with a minimum grade of C.
Co-req: RSP 403, RSP 404, RSP 420
Grade Mode: Normal Grading Mode

RSP 403 Respiratory Care Research **3 Credit hours**
Designed to provide the student knowledge about survey of research problems, methods, and designs utilized in respiratory care, with emphasis on data presentation and analysis.
Pre-req: RSP 302 with a minimum grade of C and RSP 303 with a minimum grade of C and RSP 304 with a minimum grade of C and RSP 307 with a minimum grade of C and RSP 308 with a minimum grade of C and (STA 225 with a minimum grade of C or MGT 218 with a minimum grade of C or PSY 223 with a minimum grade of C or EDF 417 with a minimum grade of C or BSC 417 with a minimum grade of C).
Co-req: RSP 402, RSP 404, RSP 420
Grade Mode: Normal Grading Mode

RSP 404 Adv Respiratory Care Practicum **4 Credit hours**
Advanced respiratory techniques and management for clients across the life-span.
Pre-req: RSP 302 with a minimum grade of C and RSP 303 with a minimum grade of C and RSP 304 with a minimum grade of C and RSP 307 with a minimum grade of C and RSP 308 with a minimum grade of C and (STA 225 with a minimum grade of C or MGT 218 with a minimum grade of C or PSY 223 with a minimum grade of C or EDF 417 with a minimum grade of C or BSC 417 with a minimum grade of C).
Co-req: RSP 402, RSP 403, RSP 420
Grade Mode: Normal Grading Mode

RSP 405 Flight/Hyperbaric Care **3 Credit hours**
Advanced respiratory techniques related to physiologic stressors impacting patient care due to atmospheric impact and pressure gradients and unique hazards in these environments to patients and staff.
Co-req: RSP 420
Grade Mode: Normal Grading Mode

RSP 406 Community Respiratory Care **3 Credit hours**
Designed for the student to provide care in a variety of settings including clinics, schools and other settings utilizing principles of public health and client and family teaching.
Grade Mode: Normal Grading Mode

RSP 407 Clinical Decision Making **3 Credit hours**
The course focuses on gathering appropriate clinical information to make evidence-based decisions in the treatment for respiratory care diseases.
Pre-req: RSP 201 with a minimum grade of C.
Grade Mode: Normal Grading Mode

RSP 420 Capstone in Respiratory Care **5 Credit hours**
Role synthesis practicum incorporating provider of care, coordinator of care, member of profession and leadership roles.
Pre-req: RSP 302 with a minimum grade of C and RSP 303 with a minimum grade of C and RSP 307 with a minimum grade of C and RSP 308 with a minimum grade of C and (STA 225 with a minimum grade of C or MGT 218 with a minimum grade of C or PSY 223 with a minimum grade of C or EDF 417 with a minimum grade of C or BSC 417 with a minimum grade of C).
Co-req: RSP 402, RSP 403, RSP 404
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

RSP 480 Special Topics **1-4 Credit hours**
Study of topics not available in other courses.
Grade Mode: Normal Grading Mode

RSP 481 Special Topics **1-4 Credit hours**
Study of topics not available in other courses.
Grade Mode: Normal Grading Mode

RSP 482 Special Topics **1-4 Credit hours**
Study of topics not available in other courses.
Grade Mode: Normal Grading Mode

RSP 483 Special Topics **1-4 Credit hours**
Study of topics not available in other courses.
Grade Mode: Normal Grading Mode

RSP 485 Independent Study **1-4 Credit hours**
Course will consist of directed and independent readings, directed and independent research, problem reports, or tutorials. Will allow students to complete individualized learning in respiratory care.
Grade Mode: Normal Grading Mode

RSP 486 Independent Study **1-4 Credit hours**
Course will consist of directed and independent readings, directed and independent research, problem reports, or tutorials. Will allow students to complete individualized learning in respiratory care.
Grade Mode: Normal Grading Mode

RSP 487 Independent Study **1-4 Credit hours**
Course will consist of directed and independent readings, directed and independent research, problem reports, or tutorials. Will allow students to complete individualized learning in respiratory care.
Grade Mode: Normal Grading Mode

RSP 488 Independent Study **1-4 Credit hours**
Course will consist of directed and independent readings, directed and independent research, problem reports, or tutorials. Will allow students to complete individualized learning in respiratory care.
Grade Mode: Normal Grading Mode

Safety Technology (SFT)

- General Education Course

SFT 235 Intro to Occup Safety (CT) **3 Credit hours**
Introduction to occupational safety and health on an international level. Comparisons of various accidents by type and country will be explored along with prevention techniques.
Attributes: Critical Thinking, International, No Textbook Required
Grade Mode: Normal Grading Mode

SFT 280 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 281 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 282 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 283 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 340 Indust Fire Prevent **3 Credit hours**
Pre-req: SFT 235 (may be taken concurrently) with a minimum grade of C and (PHY 201 (may be taken concurrently) with a minimum grade of D or PHY 211 (may be taken concurrently) with a minimum grade of D) and PHY 202 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: SFT 235 and (PHY 201 or PHY 211) and PHY 202
Grade Mode: Normal Grading Mode

SFT 350 Safety Technology Co-Op **0 Credit hours**
A supervised experience in which the student works for a company to gain practical experience in a students major.
Pre-req: ENGR 217 with a minimum grade of D.
Grade Mode: Credit/No Credit Grade Only

SFT 372 Safety & Industrial Tech **3 Credit hours**
Pre-req: SFT 235 with a minimum grade of D.
Grade Mode: Normal Grading Mode

SFT 373 Prin Ergonomics & Hum Factors **3 Credit hours**
Introductory principles within human-machine relationships; examining the biological, physiological, and psychological factors which contribute to accident causation.
Pre-req: SFT 373L (may be taken concurrently) with a minimum grade of D and (PHY 203 (may be taken concurrently) with a minimum grade of D or PHY 212 (may be taken concurrently) with a minimum grade of D) and PHY 204 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: SFT 373L and (PHY 203 or PHY 212) and PHY 204
Co-req: SFT 373L
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

SFT 373L Prin of Ergonomics Lab **1 Credit hour**
A laboratory course designed to include the principles and applications of human factors/ergonomics that were introduced in SFT 373.
Pre-req: SFT 373 (may be taken concurrently) with a minimum grade of D and (PHY 203 (may be taken concurrently) with a minimum grade of D or PHY 212 (may be taken concurrently) with a minimum grade of D) and PHY 204 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: SFT 373 and (PHY 203 or PHY 212) and PHY 204
Co-req: SFT 373
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

SFT 375 Construction Safety I **3 Credit hours**
Pre-req: SFT 235 (may be taken concurrently).
Concurrent PR: SFT 235
Grade Mode: Normal Grading Mode

SFT 378 Safety Eval & Measurement **3 Credit hours**
Pre-req: SFT 235 or SED 235.
Grade Mode: Normal Grading Mode

SFT 385 Traffic Safety & Driver Educa **3 Credit hours**
An introductory course in the teaching of safety and driver education, including techniques of classroom and behind-the- wheel instruction. 2 lec-2 lab.
Grade Mode: Normal Grading Mode

SFT 400 Traffic Law Enforcement **3 Credit hours**
A course designed to study and evaluate the varied and complex system of laws governing the control of all forms of traffic and the influences and responsibilities of traffic law enforcement in presentday society.
Grade Mode: Normal Grading Mode

SFT 453 International Safety & Health **3 Credit hours**
The course covers the impact of globalization on worldwide safety and health programs, and a wide variety of safety and health programs for various countries and multinational organizations.
Attributes: International
Grade Mode: Normal Grading Mode

SFT 454 Industrial Hygiene **3 Credit hours**
Environmental protection as related to industrial settings. Air/water quality, noise and chemical pollution and hazardous material control.
Pre-req: CHM 212 with a minimum grade of C and CHM 218 with a minimum grade of C and (PHY 203 with a minimum grade of C or PHY 212 with a minimum grade of C) and PHY 204 with a minimum grade of C and SFT 465 (may be taken concurrently) with a minimum grade of C and SFT 454L (may be taken concurrently) with a minimum grade of D.
Concurrent PR: SFT 465 and SFT 454L
Grade Mode: Normal Grading Mode

SFT 454L Industrial Hygiene Lab **2 Credit hours**
Quantitative monitoring techniques for measuring air and water quality, the measurement of noise and chemical pollutions and the evaluation of other physical hazards.
Pre-req: SFT 465 (may be taken concurrently) with a minimum grade of C and SFT 454 (may be taken concurrently) with a minimum grade of D and CHM 212 (may be taken concurrently) with a minimum grade of C and CHM 218 (may be taken concurrently) with a minimum grade of C and (PHY 203 (may be taken concurrently) with a minimum grade of C or PHY 212 (may be taken concurrently) with a minimum grade of C) and PHY 204 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: SFT 465 and SFT 454 and CHM 212 and CHM 218 and (PHY 203 or PHY 212) and PHY 204
Grade Mode: Normal Grading Mode

SFT 458 Hospital Safety **3 Credit hours**
The course covers the various aspects of safety and health in professional health care services.
Grade Mode: Normal Grading Mode

SFT 460 Safety Training Methods **3 Credit hours**
A course designed to help students develop, present and evaluate training materials as mandated by OSHA or other governmental agencies. Hands on practice & live training will be required.
Pre-req: SFT 372 or SFT 375.
Grade Mode: Normal Grading Mode

SFT 461 Workers Compensation **3 Credit hours**
Introductory principles of workers' compensation and how it relates to the safety professional.
Grade Mode: Normal Grading Mode

SFT 465 Incident Investigation and PSM **3 Credit hours**
An introductory course in traffic accident investigation designed to give insight into the recognition and collection of evidence, collecting and recording data and reconstruct- ing the accident based on the facts.
Pre-req: SFT 372 with a minimum grade of D and SFT 375 with a minimum grade of D and SFT 373 with a minimum grade of D.
Grade Mode: Normal Grading Mode

SFT 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 490 Safety Internship **3-12 Credit hours**
Pre-req: (CHM 212 with a minimum grade of C and CHM 218 with a minimum grade of C) and (PHY 203 with a minimum grade of C and PHY 204 with a minimum grade of C).
Attributes: Capstone Course, No Textbook Required
Grade Mode: Credit/No Credit Grade Only

SFT 491 Workshop **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 493 Workshop **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 494 Workshop **1-4 Credit hours**
Grade Mode: Normal Grading Mode

SFT 497 Occup Safety & Health Prog **3 Credit hours**
Safety functions in industry. Principles of organization and application of safety programs. Prevention, correction and control methods are outlined and evaluated.
Pre-req: SFT 235 with a minimum grade of C.
Grade Mode: Normal Grading Mode

SFT 498 Envir Safety & Health Legis **3 Credit hours**
A survey of the legislation that has affected the safety movement with special emphasis on the 1970 Occupational Safety and Health Act.
Pre-req: SFT 372 (may be taken concurrently) with a minimum grade of C and CHM 212 (may be taken concurrently) with a minimum grade of D and CHM 218 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: SFT 372 and CHM 212 and CHM 218
Grade Mode: Normal Grading Mode

SFT 499 Dev & Mgt of Occup Safety Prog **3 Credit hours**
A study of safety program development, functions, organization and management.
Pre-req: SFT 372 with a minimum grade of D and CHM 212 with a minimum grade of D and CHM 218 with a minimum grade of D and (PHY 203 with a minimum grade of D or PHY 212 with a minimum grade of D) and PHY 204 with a minimum grade of D.
Grade Mode: Normal Grading Mode

Social Studies (SOS)

SOS 207 Prob Multicult Society **3 Credit hours**
An interdisciplinary analysis of the multicultural nature of global interdependence and the nature of major global problems. An interdisciplinary analysis of the multicultural nature of global interdependence and the nature of major global problems.
Grade Mode: Normal Grading Mode

SOS 404 Senior Seminar **3 Credit hours**
A captone course designed for those preparing to teach social studies in the middle school and the high school. A captone course designed for those preparing to teach social studies in the middle school and the high school.
Grade Mode: Normal Grading Mode

Social Work (SWK)

- General Education Course

SWK 203 Intro To Social Work **3 Credit hours**
Introduction to the field of social work practice. Introduction to the field of social work practice.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SWK 260 Substance Use and SWK **3 Credit hours**
This course provides information on substance use and addiction from a social work ecosystems perspective emphasizing understanding of addiction and recovery, family dynamics, assessment, and intervention.
Grade Mode: Normal Grading Mode

SWK 261 Staff Development **1-4 Credit hours**
Courses designed for staff development and training needs of social work or para social work professionals or trainees, not degree applicable. Topics will vary. CR/NC grading.
Grade Mode: Credit/No Credit Grade Only

SWK 262 Staff Development **1-4 Credit hours**
Courses designed for staff development and training needs of social work or para social work professionals or trainees, not degree applicable. Topics will vary. CR/NC grading.
Grade Mode: Credit/No Credit Grade Only

SWK 263 Staff Development **1-4 Credit hours**
Courses designed for staff development and training needs of social work or para social work professionals or trainees, not degree applicable. Topics will vary. CR/NC grading.
Grade Mode: Credit/No Credit Grade Only

SWK 280 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SWK 281 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SWK 282 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SWK 283 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SWK 307 Child Welfare **3 Credit hours**
Examination of child welfare issues, services, and interventions. Examination of child welfare issues, services, and inter- ventions.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

SWK 310 Human Behav Soc Envir I **3 Credit hours**
Integration of biological, psychological, social and cultural aspects of the individual's growth and development from prenatal period through adolescence including the impact the social environment has on the individual. Integration of biological, psychological, social and cultural aspects of the individual's growth and development from prenatal period through adolescence including the impact the social environment has on the individual.
Pre-req: SWK 203 and (ENG 201 or ENG 102 or ENG 302 or ENG 201H) and BSC 105 and PSY 201 and SOC 200 and PSC 202 and ECN 250 and (MTH 121 or MTH 121B or MTH 122 or MTH 123 or MTH 127 or MTH 130 or MTH 130E).
Co-req: SWK 320, SWK 330, SWK 340
Grade Mode: Normal Grading Mode

SWK 312 Hum Behav Soc Envir **3 Credit hours**
Integration of biological, psychological, social and cultural aspects of the individual's growth and development from early through later adulthood including impact of social environment on the individual. Organizational theory included. Integration of biological, psychological, social and cultural aspects of the individual's growth and development from early through later adulthood including impact of social environment on the individual. Organizational theory included.
Pre-req: SWK 310 with a minimum grade of D and SWK 320 with a minimum grade of D and SWK 330 with a minimum grade of D and SWK 340 with a minimum grade of D.
Co-req: SWK 322, SWK 332, SWK 370
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SWK 320 Social Work Practice I **4 Credit hours**
Pre-req: SWK 203 and (ENG 201 or ENG 102 or ENG 302 or ENG 201H) and BSC 105 and PSY 201 and SOC 200 and PSC 202 and ECN 250 and (MTH 121 or MTH 121B or MTH 122 or MTH 123 or MTH 127 or MTH 130 or MTH 130E).
Co-req: SWK 310, SWK 330, SWK 340
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SWK 322 Social Work Practice II **4 Credit hours**
Pre-req: SWK 320 with a minimum grade of D and SWK 310 with a minimum grade of D and SWK 330 with a minimum grade of D and SWK 340 with a minimum grade of D.
Co-req: SWK 312, SWK 332, SWK 370
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SWK 330 Soc Wel Issues in Appalachia **3 Credit hours**
The development of Social Welfare as a continuing institution. Rural poverty and other critical social issues in Appalachia.
Pre-req: SWK 203 and (ENG 201 or ENG 102 or ENG 302 or ENG 201H) and BSC 105 and PSY 201 and SOC 200 and PSC 202 and ECN 250 and (MTH 121 or MTH 121B or MTH 122 or MTH 123 or MTH 127 or MTH 130 or MTH 130E).
Grade Mode: Normal Grading Mode

SWK 332 Soc Wel Policy & Legislation **3 Credit hours**
Policy formulation, implementation and analysis. Examination and critical analysis of social welfare policies, legislation, and administration.
Pre-req: SWK 310 with a minimum grade of D and SWK 320 with a minimum grade of D and SWK 330 with a minimum grade of D and SWK 340 with a minimum grade of D.
Co-req: SWK 312, SWK 322, SWK 370
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SWK 340 Social Work Research **3 Credit hours**
Introduction to Social Work Research with preparation for evaluation of generalist practice.
Pre-req: SWK 203 and (ENG 201 or ENG 102 or ENG 302 or ENG 201H) and BSC 105 and PSY 201 and SOC 200 and PSC 202 and ECN 250 and (MTH 121 or MTH 121B or MTH 122 or MTH 123 or MTH 127 or MTH 130 or MTH 130E).
Co-req: SWK 310, SWK 320, SWK 330
Grade Mode: Normal Grading Mode

SWK 370 Practicum I **3 Credit hours**
Supervised field experience in a social agency or organization for minimum of 100 clock hours. Regular conferences with instructor and weekly seminars. Supervised field experience in a social agency or organiza- tion for minimum of 100 clock hours. Regular conferences with instructor and weekly seminars.
Pre-req: SWK 310 with a minimum grade of D and SWK 320 with a minimum grade of D and SWK 330 with a minimum grade of D and SWK 340 with a minimum grade of D.
Co-req: SWK 312, SWK 322, SWK 332
Attributes: No Textbook Required
Grade Mode: Credit/No Credit Grade Only

SWK 473 Practicum II **12 Credit hours**
Supervised field experience in a social agency or organization for minimum of 400 clock hours. Regular conferences with instructor and weekly seminars. Supervised field experience in a social agency or organiza- tion for minimum of 400 clock hours. Regular conferences with instructor and weekly seminars.
Pre-req: SWK 312 and SWK 322 and SWK 332 and SWK 370.
Attributes: Multicultural
Grade Mode: Credit/No Credit Grade Only

SWK 475 Social Work Seminar **6 Credit hours**
A capstone course integrating course work and field work as preparation for beginning level of generalist Social Work practice. A capstone course integrating course work and field work as preparation for beginning level of generalist Social Work practice.
Pre-req: SWK 312 with a minimum grade of D and SWK 322 with a minimum grade of D and SWK 332 with a minimum grade of D and SWK 370 and SWK 473 (may be taken concurrently) with a minimum grade of D.
Concurrent PR: SWK 473
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

SWK 480 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled classes. Study of topics of interest not covered in regularly sched- uled classes.
Grade Mode: Normal Grading Mode

SWK 481 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled classes. Study of topics of interest not covered in regularly sched- uled classes.
Grade Mode: Normal Grading Mode

SWK 482 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled classes. Study of topics of interest not covered in regularly sched- uled classes.
Grade Mode: Normal Grading Mode

SWK 483 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled classes. Study of topics of interest not covered in regularly sched- uled classes.
Grade Mode: Normal Grading Mode

SWK 485 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly sched- uled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SWK 486 Independent Study **1-4 Credit hours**
Individual study of topice not offered in regular scheduled courses. Advance permission required. Individual study of topice not offered in regular sched- uled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SWK 487 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly sched- uled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SWK 488 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly sched- uled courses. Advance permission required.
Grade Mode: Normal Grading Mode

Sociology (SOC)

- General Education Course

SOC 200 Introductory Sociology (CT) **3 Credit hours**
Introduction to the study of human society. This class emphasizes critical thinking skills. Introduction to the study of human society. This class emphasizes critical thinking skills.
Attributes: American Institutions, Critical Thinking, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

SOC 200H Intro Sociology Honors (CT) **3 Credit hours**
Introduction to the study of human society for the honors student. This course emphasizes critical thinking skills.
Pre-req: Admitted Honors College with a score of 1.
Attributes: American Institutions, Critical Thinking, Honors, Multicultural, Core II Social Sciences
Grade Mode: Normal Grading Mode

SOC 280 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SOC 281 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SOC 282 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SOC 283 Special Topics **1-4 Credit hours**
Selected topics not covered in regular course offerings. Selected topics not covered in regular course offerings.
Grade Mode: Normal Grading Mode

SOC 300 Social Organization **3 Credit hours**
Analysis of sociological conceptual systems and theories. Analysis of sociological conceptual systems and theories.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 310 Individual and Society **3 Credit hours**
Study of sociological perspectives on social interaction and the relationship between the individual and society.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 311 Deviance and Social Control **3 Credit hours**
Study of the basic concepts and theories of deviant behavior and the mechanism of social control.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 313 Contemp Soc Issues and Prob **3 Credit hours**
Analysis of current social issues and problems from a variety of sociological perspectives. Issues and problems will vary from semester to semester.
Pre-req: SOC 200 or SOC 200H or SOC 200E.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 330 Soc of Community Health **3 Credit hours**
An investigation of those social institutions and environmental, social, and personal factors in the community to maintain health and provide support in illness as related to social theory..
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 342 American Society **3 Credit hours**
Sociological analysis of the basic and cultural features of contemporary American society. Sociological analysis of the basic and cultural features of contemporary American society.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 344 Social Research I **3 Credit hours**
Introduction to systematic social research methodology. Introduction to systematic social research methodology.
Pre-req: SOC 200 or SOC 200H.
Grade Mode: Normal Grading Mode

SOC 345 Social Statistics I **3 Credit hours**
Introudction to statistical analysis of social data. Introudction to statistical analysis of social data.
Pre-req: SOC 200 with a minimum grade of D or SOC 200H with a minimum grade of D.
Attributes: Statistics
Grade Mode: Normal Grading Mode

SOC 360 Sociological Theory **3 Credit hours**
Introduction to the dominant theoretical perspectives in sociology examining the assumptions about human nature, society and sociology that constitute each theoretical tradition.
Pre-req: SOC 200 or SOC 200H.
Grade Mode: Normal Grading Mode

SOC 362 Health, Culture and Society **3 Credit hours**
A cross-cultural, historical, and bio-cultural examination through case-study of social and environmental factors that affect human health and disease.
Pre-req: ANT 201 or ANT 201H or SOC 200 or SOC 200H.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SOC 375 Social Stratification **3 Credit hours**
Introduction to the analysis of structured social inequality with emphasis on the dimensions of social class, race and gender.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 401 Population & Human Ecology **3 Credit hours**
The course focuses on population and its relation to characteristics of environment. Specifically, it is designed to discuss the interaction of population processes and resources.
Attributes: International
Grade Mode: Normal Grading Mode

SOC 403 Social Research II **3 Credit hours**
Intermediate social research methodology with emphasis on research design. Intermediate social research methodology with emphasis on research design.
Pre-req: SOC 344.
Grade Mode: Normal Grading Mode

SOC 408 The Family **3 Credit hours**
Theoretical analysis of the family as a primary social institution. Theoretical analysis of the family as a primary social institution.
Pre-req: SOC 200 or SOC 200H.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 413 Social Movements & Soc Change **3 Credit hours**
Analysis of large-scale social change, including intentional social movements and revolutions.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 420 Criminology **3 Credit hours**
An overview of sociological criminology, including an examination of explanations of criminal behavior, types of criminal activity, and an analysis of the criminal justice system.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 423 Social Class Power & Conflict **3 Credit hours**
Theoretical analysis of economic and political inequality and the role of social conflict in the process of large- scale social organization.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 425 Race and Ethnicity **3 Credit hours**
Diverse theoretical approaches to the meaning of race and ethnicity and the character of racial/ethnic relations, with substantive focus primarily on the U.S.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 430 Women in Sports **3 Credit hours**
The history of women in sport, gender equity, opportunities for women in intercollegiate and professional sports (such as participant, coach, trainer, journalist, agent, and promoter), and physiological perspectives.
Grade Mode: Normal Grading Mode

SOC 432 Sociology of Appalachia **3 Credit hours**
Study of the economics, politics, and social relations of Appalachia, including contemporary debates.
Grade Mode: Normal Grading Mode

SOC 433 Sociology of Work **3 Credit hours**
Study of the organization and structure of the work plant as a social system; the meaning and organization of work; managerial functions; management-labor relations; and human relations in industry. Study of the organization and structure of the work plant as a social system; the meaning and organization of work; mana- gerial functions; management-labor relations; and human re- lations in industry.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 440 Intro to the Soc of Aging **3 Credit hours**
An introduction to the social processes and consequences of growing older for both the individual and society.
Pre-req: SOC 200 or SOC 200H.
Grade Mode: Normal Grading Mode

SOC 442 Urban Sociology **3 Credit hours**
The sociology of urban and metropolitan communities. The sociology of urban and metropolitan communities.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 443 Evaluation and Survey Research **3 Credit hours**
Analysis and application of principles/methods of survey design and the theories/methods for assessing the outcomes of applied organizational programs to affect change in people and/or social conditions.
Grade Mode: Normal Grading Mode

SOC 450 Sociology of Religion **3 Credit hours**
Sociological analysis of religion as a social institution. Sociological analysis of religion as a social institution.
Attributes: American Institutions
Grade Mode: Normal Grading Mode

SOC 451 Science, Knowledge, and Tech **3 Credit hours**
Exploration of the effects of social factors on the development and authorization of knowledge claims, especially science and technology. Retirement is examined as a process, an event, and a role. Retirement is analyzed from the point of view of the in- dividual and society.
Pre-req: SOC 200.
Grade Mode: Normal Grading Mode

SOC 452 Soc of Death & Dying **3 Credit hours**
Study of death and dying as a societal and cultural phenomenon. Explores how institutions within our society deal with death. Study of death and dying as a societal and cultural phe- nomenon. Explores how institutions within our society deal with death.
Pre-req: SOC 200 with a minimum grade of D or SOC 200H with a minimum grade of D.
Grade Mode: Normal Grading Mode

SOC 455 Sociology of Sex and Gender **3 Credit hours**
Analysis of social differentiation and inequality by gender, with a focus on the contemporary U.S.
Grade Mode: Normal Grading Mode

SOC 460 Holocaust and Genocide **3 Credit hours**
An examination of the Holocaust and other genocides from an interdisciplinary social science perspective. An examination of the Holocaust and other genocides from an interdisciplinary social science perspective.
Grade Mode: Normal Grading Mode

SOC 465 Environment and Society **3 Credit hours**
A critical examination of the link between society and the environment, including ideas about nature, wilderness, and the wild causes of environmental degradation and responses to the environmental issues.
Grade Mode: Normal Grading Mode

SOC 466 Culture and Environment **3 Credit hours**
This course will examine the symbolic and structural dimensions of struggles over defining, organizing, and controlling the natural environment from a biocultural perspective.
Attributes: International
Grade Mode: Normal Grading Mode

SOC 468 National Identity **3 Credit hours**
Exploration of cultural, political and economic processes that contribute to creation and maintenance of the modern nation state as an imagined community.
Grade Mode: Normal Grading Mode

SOC 470 Field Exper in Applied SOC **3-6 Credit hours**
Supervised fieldwork in public or private agencies affording students an opportunity to apply sociological knowledge and skills in addressing practical problems.
Grade Mode: Normal Grading Mode

SOC 480 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses. Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

SOC 481 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses. Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

SOC 482 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regulary scheduled courses. Study of topics of interest not covered in regulary scheduled courses.
Grade Mode: Normal Grading Mode

SOC 483 Special Topics **1-4 Credit hours**
Study of topics of interest not covered in regularly scheduled courses. Study of topics of interest not covered in regularly scheduled courses.
Grade Mode: Normal Grading Mode

SOC 485 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SOC 486 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SOC 487 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SOC 488 Independent Study **1-4 Credit hours**
Individual study of topics not offered in regularly scheduled courses. Advance permission required. Individual study of topics not offered in regularly scheduled courses. Advance permission required.
Grade Mode: Normal Grading Mode

SOC 489 Internship **1-4 Credit hours**
Supervised practicum founded on sociological knowledge in a host institution. 40-45 hours of internship work correspond with 1 credit hour. Supervised practicum founded on sociological knowledge in a host institution. 40-45 hours of internship work correspond with 1 credit hour.
Grade Mode: Normal Grading Mode

SOC 492 Senior Seminar I **3 Credit hours**
Application of sociological theory and practice to individually designed projects. This course fulfills the capstone requirement for undergraduate majors. (PR: sociology major in senior standing or departmental permission)
Grade Mode: Normal Grading Mode

SOC 493 Senior Seminar II **3 Credit hours**
Application of sociological theory and practice to individually designed projects. Fulfills the capstone requirement for undergraduate majors. (PR: Anthrolpology major in senior standing or departmental permission)
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Spanish (SPN)

- General Education Course

SPN 101 Introductory Spanish **3 Credit hours**
Pronunciation, vocabulary and basic language structures. For students with no foreign language experience. Pronunciation, vocabulary and basic language structures. For students with no foreign language experience.
Grade Mode: Normal Grading Mode

SPN 102 Introductory Spanish II **3 Credit hours**
Pronunciation, vocabulary and basic language structures. For students with no foreign language experience. Pronunciation, vocabulary and basic language structures. For students with no foreign language experience.
Pre-req: SPN 101 with a minimum grade of C.
Grade Mode: Normal Grading Mode

SPN 112 Elementary Spanish **3 Credit hours**
Emphasis on oral communication and listening comprehension, some reading and writing. For students who have had two years or more of high school Spanish. Emphasis on oral communication and listening comprehension, some reading and writing. For students who have had two years or more of high school Spanish.
Grade Mode: Normal Grading Mode

SPN 203 Intermediate Spanish III **3 Credit hours**
Emphasis on oral and written communication. Conversation and composition. Intermediate language structures. Emphasis on oral and written communication. Conversation and composition. Intermediate language structures.
Pre-req: SPN 102 with a minimum grade of C or SPN 112 with a minimum grade of C.
Grade Mode: Normal Grading Mode

SPN 204 Intermediate Spanish IV **3 Credit hours**
Development of practical conversational skills, reading for comprehension, and diredted compositions. Development of practical conversational skills, reading for comprehension, and diredted compositions.
Pre-req: SPN 203 with a minimum grade of C.
Attributes: Foreign Language
Grade Mode: Normal Grading Mode

SPN 240 Hispanic Culture (CT) **3 Credit hours**
Taught in English, this course examines Hispanic cultures through literature and cinema.
Attributes: Critical Thinking, Core II Humanities, International
Grade Mode: Normal Grading Mode

SPN 245 Chicano/a Identities (CT) **3 Credit hours**
Taught in English, this course examines the Chicano Movement as a civil rights movement, as well as cultural and artisitic movement.
Attributes: Critical Thinking, Core II Humanities
Grade Mode: Normal Grading Mode

SPN 280 Special Topics **1-4 Credit hours**
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 281 Special Topics **1-4 Credit hours**
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 282 Special Topics **1-4 Credit hours**
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 283 Special Topics **1-4 Credit hours**
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 305 Intro to SPN Conversation I **3 Credit hours**
Speaking intensive course designed to develop conversational skills and to review fundamentals acquired in SPN 101-204 sequence. Course taught in Spanish. (PR: SPN 204).
Pre-req: SPN 204 with a minimum grade of D.
Grade Mode: Normal Grading Mode

SPN 306 Intro To SPN Conversation II **3 Credit hours**
Speaking intensive course designed to develop conversational skills and to review fundamentals acquired in SPN 101-204 sequence. Course taught in Spanish. (PR: SPN 204).
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 307 Spanish for Law Enforcement **3 Credit hours**
Course designed to help Law Enforcement students develop language skills and acquire a specialized vocabulary which will enable them to interact professionally with the Hispanic Community. (PR: SPN 204) Course designed to help Law Enforcement students develop language skills and acquire a specialized vocabulary which will enable them to interact professionally with the Hispanic Community. (PR: SPN 204)
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 315 Intro to Composition I **3 Credit hours**
A review of Spanish grammar with an emphasis on written compositions. Course taught in Spanish. (PR: SPN 305/306 or permission).
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 316 Intro to Composition II **3 Credit hours**
A review of Spanish grammar with an emphasis on written compositions. Course taught in Spanish. (PR: SPN 305/306 or permission).
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 323 Adv Grammar and Oral Comm **3 Credit hours**
Analysis of grammatical structures. Introduction to phonetics and applied linguistics and oral practice in various discourse types such as conversation, narration, discussion/debate, presentation, course conducted mainly in Spanish. Analysis of grammatical structures. Introduction to phonetics and applied linguistics and oral practice in various discourse types such as conversation, narration, discussion/debate, presentation, course conducted mainly in Spanish.
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 324 Adv Gram & Oral Com II **3 Credit hours**
Analysis of grammatical structures. Introduction to phonetics and applied linguistics and oral practice in various discourse types such as conversation, narration, discussion/debate, presentation. Course conducted mainly in Spanish. Analysis of grammatical structures. Introduction to phonetics and applied linguistics and oral practice in various discourse types such as conversation, narration, discussion/debate, presentation. Course conducted mainly in Spanish.
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 325 Commercial Spanish **3 Credit hours**
A study of Spanish used in international business and commerce, emphasizing specialized vocabulary, forms and procedures in commercial communication, and of the Hispanic business world through its language and culture.
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 335 Latin Am Culture & Civiliza **3 Credit hours**
A study of the civilization of the Latin American countries and their contributions to world culture. Course conducted in Spanish. A study of the civilization of the Latin American countries and their contributions to world culture. Course conducted in Spanish.
Pre-req: SPN 204.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SPN 336 Spain: Culture & Civilization **3 Credit hours**
A study of the civilization of Spain and its contribution to world culture. Course conducted in Spanish. A study of the civilization of Spain and its contribution to world culture. Course conducted in Spanish.
Pre-req: SPN 204 with a minimum grade of D.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SPN 345 Ecocriticism in Latin America **3 Credit hours**
Taught in English, this course explores approaches to the ecological crisis in Latin America through a variety of texts including poetry, journalistic non-fiction, historical interpretation, and film.
Grade Mode: Normal Grading Mode

SPN 408 Latin American Women **3 Credit hours**
Taught in English, this course examines the interplay of cultural, ideological, and structural factors affecting women's lives in Latin America.
Pre-req: ENG 201 or ENG 102 or ENG 201H.
Grade Mode: Normal Grading Mode

SPN 411 Pre-Modern Latin Am Lit **3 Credit hours**
A study of representative Latin American literary works from Pre-Colonial and Colonial periods and the 19th century. Course taught in Spanish. (PR: SPN 315/316 or SPN 323/324 or permission.)
Pre-req: SPN 315 or SPN 316 or SPN 323 or SPN 324.
Attributes: International, Literature
Grade Mode: Normal Grading Mode

SPN 412 Contemporary Lat Am Lit **3 Credit hours**
A study of a selection of Latin American authors and works representative of the major literary movements in Latin America, from Modernism to present. Course taught in Spanish. (PR: SPN 315/316 or SPN 323/324 or permission)
Pre-req: SPN 323 or SPN 324 or SPN 315 or SPN 316.
Attributes: Literature
Grade Mode: Normal Grading Mode

SPN 413 Lit Genres & Issues in LA **3 Credit hours**
Study of poetry, fiction, drama, essays etc. in Latin America. At the discretion of the instuctor, literary genres will be crossed with approaches such as gender, race, religion, ethnicity, etc. Course taught in Spanish. (PR: SPN 315/316 or SPN 323/324 or permission).
Pre-req: SPN 315 or SPN 316 or SPN 323 or SPN 324.
Attributes: Literature
Grade Mode: Normal Grading Mode

SPN 414 Med, Ren & Gld Cnt Spn Lit **3 Credit hours**
Study of the representative Spanish authors and literary works and the major intellectual movements in peninsular literature from Medieval times to Spain's Golden Century. Course taught in Spanish. (PR: SPN 315/315 or SPN 323/324 or permission).
Pre-req: (SPN 315 with a minimum grade of D or SPN 316 with a minimum grade of D) or (SPN 323 with a minimum grade of D or SPN 324 with a minimum grade of D).
Attributes: Literature
Grade Mode: Normal Grading Mode

SPN 415 Spanish Lit: 18th & 19th Cent **3 Credit hours**
Study of the representative Spanish authors and the major intellectual movements in peninsular literature during the 18th and 19th centuries. Course taught in Spanish. (PR: SPN 315/316 or SPN 323/324 or permission).
Pre-req: SPN 315 or SPN 316 or SPN 323 or SPN 324.
Attributes: Literature
Grade Mode: Normal Grading Mode

SPN 416 Contemporary Spanish Lit **3 Credit hours**
Study of the representative Spanish authors and literary works and the major intellectual movements in peninsular literature from the Generation of 1898 to the present. Course taught in Spanish. (PR: SPN 315/316 or SPN 323/324 or permission).
Pre-req: SPN 315 or SPN 316 or SPN 323 or SPN 324.
Attributes: Literature
Grade Mode: Normal Grading Mode

SPN 417 Spanish Film **3 Credit hours**
Course on selected films by Spanish and Spanish-American directors and on films based on literature, with an emphasis on Spain. Reviews by contemporary film critics. Film and literary theory. (PR: SPN 204).
Pre-req: SPN 204.
Attributes: Literature
Grade Mode: Normal Grading Mode

SPN 418 Latin American Film **3 Credit hours**
Course on selected films by Spanish and Spanish-American directors and on films based on literature, with an emphasis on Latin and South America. Reviews by contemporary film critics.
Pre-req: SPN 204.
Attributes: Literature
Grade Mode: Normal Grading Mode

SPN 419 Against Oppression SPN LA Film **3 Credit hours**
Thematic study of films from Spain and Latin America that concern religious, sexual and sociopolitical oppression, violence and transgressions. Taught in English.
Pre-req: ENG 101 or ENG 101B or ENG 101P or ENG 160.
Grade Mode: Normal Grading Mode

SPN 420 Afro-Latin America **3 Credit hours**
Study of various modes of Afro-Latin cultural production, including literature, film, music and other Fine Arts with emphasis on the 20th and 21st centuries. Taught in English.
Pre-req: ENG 201 or ENG 102.
Attributes: International
Grade Mode: Normal Grading Mode

SPN 433 Int Adv Spn Gram **3 Credit hours**
This course will review and expand specific, advanced Spanish language structural points. it will include daily intensive practive in the four linguistic skills. Course taught in Spanish.
Pre-req: (SPN 315 or SPN 316) and (SPN 323 or SPN 324).
Grade Mode: Normal Grading Mode

SPN 435 Contemporary Latin Am Culture **3 Credit hours**
Course based on the origins of issues confronting contemporary Spain: the war and its aftermath, the transition to democracy and modernization, the European Union, terrorism, regional autonomy, feminism, and sexual identity.
Pre-req: SPN 315 or SPN 316 or SPN 323 or SPN 324.
Attributes: International
Grade Mode: Normal Grading Mode

SPN 436 Cult & Soc in Cont Spn **3 Credit hours**
Course based on origins of issues confronting contemporary Spain: the war's aftermath, transition to democracy and modernization, the European Union, terrorism, regional autonomy, feminism, sexual identity. Course taught in Spanish.
Pre-req: (SPN 315 or SPN 316) or (SPN 323 or SPN 324).
Attributes: Multicultural
Grade Mode: Normal Grading Mode

SPN 480 Special Topics **1-4 Credit hours**
Independent research for qualified students who are interested beyond the other courses in the catalog. Independent research for qualified students who are interested beyond the other courses in the catalog.
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 481 Special Topics **1-4 Credit hours**
Independent research for qualified students who are interested beyond the other courses in the catalog. Independent research for qualified students who are interested beyond the other courses in the catalog.
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 482 Special Topics **1-4 Credit hours**
Independent research for qualified students who are interested beyond the other courses in the catalog. Independent research for qualified students who are interested beyond the other courses in the catalog.
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 483 Special Topics **1-4 Credit hours**
Independent research for qualified students who are interested beyond the other courses in the catalog. Independent research for qualified students who are interested beyond the other courses in the catalog.
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 485 Independent Study **1-4 Credit hours**
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 486 Independent Study **1-4 Credit hours**
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 487 Independent Study **1-4 Credit hours**
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 488 Independent Study **1-4 Credit hours**
Pre-req: SPN 204.
Grade Mode: Normal Grading Mode

SPN 490 Spanish Capstone Experience **3 Credit hours**
Students develop skills to conduct research on a topic from their area of concentration and to present a research project in Spanish. (PR: two 400-level SPN courses or permission).
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

Sport Tourism Hospitality Mgt (STHM)

- General Education Course

STHM 218 Sports in Society (CT) **3 Credit hours**
A study of the possible interrelationship between physical activity and various sociocultural factors.
Attributes: Critical Thinking, Multicultural
Grade Mode: Normal Grading Mode

STHM 250 Intro to Sport Management **3 Credit hours**
The student will gain knowledge in sport management with multiple emphasis including professional, collegiate, and recreational sports.
Grade Mode: Normal Grading Mode

STHM 270 Sport Tourism **3 Credit hours**
This course introduces students to the nature, structure, and complexity of the sport tourism industry. Topics covered include: economic, sociocultural and environmental impacts, motivations, marketing, and development principles.
Grade Mode: Normal Grading Mode

STHM 290 Sport Management Practicum **3 Credit hours**
Supervised experience with classroom setting that emphasizes a variety of skills and exploration of career opportunities in Sport Management (CR: Admission to Sport Management Program).
Pre-req: STHM 250 with a minimum grade of C or ESS 250 with a minimum grade of C.
Grade Mode: Normal Grading Mode

STHM 320 Sports & Campus Rec Mgmt **3 Credit hours**
This course will deal with the fields of recreational sports and campus recreation management. It will present the foundations of both fields, the development, implementation and trends in today's programs.
Grade Mode: Normal Grading Mode

STHM 380 Sport Marketing **3 Credit hours**
A study of the application of marketing concepts to the sport industry (PR: MKT 340)
Grade Mode: Normal Grading Mode

STHM 381 Financing Sports **3 Credit hours**
This course focuses on how sports managers find and manage funding sources for the sports industry through ticket and merchandise sales, venues and sports properties, and fundraising, etc.
Grade Mode: Normal Grading Mode

STHM 390 Sport MGT Pre-Internship **3 Credit hours**
A classroom setting with additional required clinical hours in the sport and leisure industry setting emphasizing a variety of work experiences and internship application skills in Sport Management. (PR: STHM 290 with minimum B and minimum 2.2 GPA)
Pre-req: STHM 290 with a minimum grade of B or ESS 290 with a minimum grade of B.
Grade Mode: Normal Grading Mode

STHM 401 Ethics in Sport **3 Credit hours**
Philosophical of and historical background to the development of values in contemporary society and examination of how these are manifested in the sports world.
Grade Mode: Normal Grading Mode

STHM 405 Sport Psychology **3 Credit hours**
An examination of theory, research, and application of psychological principles related to sport and exercise.
Pre-req: PSY 201 with a minimum grade of D.
Grade Mode: Normal Grading Mode

STHM 410 Leadership: Theory & Practice **3 Credit hours**
This course provides students with the comprehensive application of leadership theories and practice in the sport, tourism and hospitality management field.
Grade Mode: Normal Grading Mode

STHM 416 Facility Design & Management **3 Credit hours**
This course covers quantity, location, and design standards for facilitates. Includes safety, functionality, durability, and maintenance requirements in planning and design. (PR: Junior or Senior Standing)
Grade Mode: Normal Grading Mode

STHM 425 Sport in Film **3 Credit hours**
The relationship between sport and feature motion pictures are analyzed in the historical, social and cultural contexts. (PR: Junior or senior standing)
Grade Mode: Normal Grading Mode

STHM 430 Sport Law **3 Credit hours**
Study of the basic principles of the legal system as they operate in the environment of American sport. (PR: Junior or senior standing)
Grade Mode: Normal Grading Mode

STHM 440 Women in Sport **3 Credit hours**
The history of women in sport, gender equity, the opportunities for women and intercollegiate and professional sports (such as participant, coach, trainer, journalist, agent and promoter), and physiological perspectives.
Grade Mode: Normal Grading Mode

STHM 450 Sport Agent **3 Credit hours**
This course focuses on the understanding of sport agent industry and structure.
Pre-req: STHM 250 with a minimum grade of D.
Grade Mode: Normal Grading Mode

STHM 452 Sport Analytics **3 Credit hours**
By using various tools such as sport analytics, key performance indicators (KPI), balanced scorecard, and other techniques, this course focuses on exploring, identifying and solving problems using data (PR: minimum B grade in MGT 218, JR or SR standing)
Pre-req: MGT 218 with a minimum grade of B.
Grade Mode: Normal Grading Mode

STHM 458 Sales & Promotion MGT in Sport **3 Credit hours**
A study of sales and promotion management in sport and leisure industry.
Pre-req: (STHM 380 with a minimum grade of D or ESS 380 with a minimum grade of D).
Grade Mode: Normal Grading Mode

STHM 475 Capstone Seminar **3 Credit hours**
Application of all aspects involved in the Sport, Tourism and Hospitality Management to individually designed projects. Fulfills the capstone requirement for undergraduate majors (PR: SR standing in Sport Management)
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

STHM 480 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

STHM 481 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

STHM 482 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

STHM 483 Special Topics **1-4 Credit hours**
Special Topics
Grade Mode: Normal Grading Mode

STHM 485 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

STHM 486 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

STHM 487 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

STHM 488 Independent Study **1-4 Credit hours**
Independent Study
Grade Mode: Normal Grading Mode

STHM 490 Internship **3-8 Credit hours**
Internship experience in a Sports, Tourism and Hospitality agencies. (PR: STHM 290, 390 with minimum B; minimum 2.2 GPA and Senior standing)
Pre-req: (STHM 290 with a minimum grade of B or ESS 290 with a minimum grade of B) and (STHM 390 with a minimum grade of B or ESS 390 with a minimum grade of B).
Grade Mode: Normal Grading Mode

STHM 496 Olympic Games **3 Credit hours**
Exploring the important role of the Olympic Movement in politics since the modern Olympic Movement in 1896. (PR: JR and SR standing)
Attributes: International
Grade Mode: Normal Grading Mode

Statistics (STA)

- General Education Course

STA 150 Foundations of Statistics **3 Credit hours**
A critical thinking course on the basic foundation of Statistics for non-majors, allowing them to better prepare, develop and harness discipline-specific skills.
Pre-req: (ACT Math with a score of 17 or SAT MATH SECTION SCORE with a score of 460 or SAT Mathematics Before Mar. 16 with a score of 400 or Placement Math SP20 with a score of 237) and STA 150L (may be taken concurrently) with a minimum grade of D.
Concurrent PR: STA 150L
Attributes: Core II Mathematics, Statistics
Grade Mode: Normal Grading Mode

STA 150B Foundations of Stats-Expanded **4 Credit hours**
A critical thinking course on the basic foundation of Statistics for non-majors with algebra review, allowing them to better prepare, develop and harness discipline-specific skills.
Pre-req: STA 150L (may be taken concurrently) with a minimum grade of D.
Concurrent PR: STA 150L
Attributes: Core II Mathematics, Statistics
Grade Mode: Normal Grading Mode

STA 150L Foundations of Statistics Lab **1 Credit hour**
A lab to provide training in using the SPSS software in Foundations of Statistics for non-majors.
Pre-req: STA 150 (may be taken concurrently) with a minimum grade of D or STA 150B (may be taken concurrently) with a minimum grade of D.
Concurrent PR: STA 150 or STA 150B
Attributes: Core II Mathematics, Statistics
Grade Mode: Normal Grading Mode

STA 225 Introductory Statistics (CT) **3 Credit hours**
A critical thinking course in applied statistical reasoning covering basic probability, descriptive statistics and fundamental statistical inference procedures. Parameter estimation and hypothesis testing for variety of situations with wide applications.
Pre-req: ACT Math with a score of 21 or SAT Mathematics Before Mar. 16 with a score of 500 or SAT MATH SECTION SCORE with a score of 530 or Placement Math After SP17 with a score of 102 or MTH 121 with a minimum grade of C or MTH 123 with a minimum grade of C or MTH 127 with a minimum grade of C or MTH 130E with a minimum grade of C or MTH 122 with a minimum grade of C or MTH 130 with a minimum grade of C or MTH 121B with a minimum grade of C.
Attributes: Critical Thinking, Core II Mathematics, Statistics
Grade Mode: Normal Grading Mode

STA 326 Applied Statistical Methods **3 Credit hours**
Use of statistical packages; introduction to descriptive, probability and sampling distributions; forecasting, inferences concerning one and two samples; simple and multiple regression, analysis of variance and covariance.
Pre-req: STA 225 with a minimum grade of C or MTH 229 with a minimum grade of C or STA 150 with a minimum grade of C or STA 150B with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 345 Applied Prob and Stat **3 Credit hours**
Statistical methods in scientific/engineering research, with emphasis on applications. Probability modeling, experimental design/survey sampling, estimation/hypothesis testing procedures, regression, ANOVA/factor analysis. Implementation using statistical software such as Excel/SAS.
Pre-req: MTH 229 with a minimum grade of C or MTH 229H with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 412 Regression Analysis **3 Credit hours**
Determining regression models; deriving parameter estimates using calculus; detailed coverage of tests of assumptions and remedial procedures (transformations and weithted least-squares); multiple and polynomial regression; tests and corrections for autocorrelation.
Pre-req: STA 445 with a minimum grade of C or MTH 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 413 Experimental Designs **3 Credit hours**
Analysis of variance an covariance models with derivations using calculus; detailed testing of model assumptions and remedial measures (as transformations) to yield adequate models; use of various statistical designs.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 420 Nonparametric Statistics **3 Credit hours**
Coverage of a variety of nonparametric or distribution-free methods for practical statistical inference problems in hypothesis testing and estimation, including rank procedures and randomization procedures.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 422 Time Series Forecasting **3 Credit hours**
Finding statistical models to represent various time dependent phenomena and processes; coverage of a variety of forecasting techniques, with an emphasis on adaptive, regression, and Box-Jenkins procedures.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 425 Sampling Designs & Estimation **3 Credit hours**
Coverage of the theory and applications of a variety of sampling designs; sample size determination; ratio and regression estimates; comparisions among the designs.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 435 Statistical Data Mining **3 Credit hours**
Introduction to statistical learning techniques for analyzing high dimensional data. Topics include data mining strategy, explanatory analysis, predictive modeling techniques and model assessment.
Pre-req: STA 345 with a minimum grade of C or STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 445 Probability & Statistics I **3 Credit hours**
Probability spaces, conditional probability, and applications. Random variables, distributions, expectation, and moments.
Pre-req: MTH 230 with a minimum grade of C and MTH 231 (may be taken concurrently) with a minimum grade of C.
Concurrent PR: MTH 231
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 446 Probability & Statistics II **3 Credit hours**
Statistical inference: estimation of parameters, tests of hypotheses. Regression, analysis of variance.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 464 Statistical Computing **3 Credit hours**
Introduction to the commonly used statistical computing techniques, procedures and methods, with extensive use of R language and environment, and SAS for statistical computing and graphics.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 466 Stochastic Processes **3 Credit hours**
Review of probability theory. Topics include stationary processes, discrete and continuous time Markov chains, Markovian queuing systems, random walks, renewal processes, Brownian motion and Markov Chain Monte Carlo.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 470 Applied Survival Analysis **3 Credit hours**
Survival and hazard functions, parametric and non-parametric methods, models and inferences for survival data, and regression diagnosis.
Pre-req: STA 445 with a minimum grade of C.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 480 Special Topics **1-4 Credit hours**
Courses on special topics in statistics not listed among the current offerings.
Attributes: Statistics
Grade Mode: Normal Grading Mode

STA 485 Independent Study **1-4 Credit hours**
A faculty, supervised, indvidualized course of study of a topic in statistics.
Attributes: Statistics
Grade Mode: Normal Grading Mode

Studies Abroad (SA)

SA 101 Studies Abroad **1-15 Credit hours**
Grade Mode: Normal Grading Mode

SA 301 Studies Abroad - Preregistra **15 Credit hours**
Grade Mode: Credit/No Credit Grade Only

Theatre (THE)

- General Education Course

THE 101 Introduction to Theatre **3 Credit hours**
Fundamentals of theatre arts. Fundamentals of theatre arts.
Grade Mode: Normal Grading Mode

THE 111 Introduction to Acting **3 Credit hours**
Explore acting technique through theatre games, exercises, and improvisation. Good vocal skills and effective movement are emphasized. For non majors with little or no training in the acting discipline. Explore acting technique through theatre games, exercises, and improvisation. Good vocal skills and effective movement are emphasized. For non majors with little or no training in the acting discipline.
Grade Mode: Normal Grading Mode

THE 112 Theatre Appreciation **3 Credit hours**
Development of an appreciation and an understanding of theatre as a fine art. For non-theatre majors.
Attributes: Core II Fine Arts
Grade Mode: Normal Grading Mode

THE 112H Theatre Appreciation Honors **3 Credit hours**
Development of an appreciation and an understanding of theatre as a fine art. For honors non-theatre majors.
Pre-req: Admitted Honors College with a score of 1.
Attributes: Core II Fine Arts, Honors
Grade Mode: Normal Grading Mode

THE 201 Crit Analysis Theatre Lit **3 Credit hours**
Critical analysis of theatre texts with emphasis on the successful translation of theatre literature from page to stage. Coursework supports the development and communication of production ideas and aesthetic interpretation. Critical analysis of theatre texts with emphasis on the successful translation of theatre literature from page to stage. Coursework supports the development and communication of production ideas and aesthetic interpretation.
Pre-req: THE 101.
Grade Mode: Normal Grading Mode

THE 220 Stage Movement I: Foundations **3 Credit hours**
Exercises for flexibility, control, body-awareness and alignment. Exercises for flexibility, control, body-awareness and alignment.
Grade Mode: Normal Grading Mode

THE 221 Stage Voice I: Foundations **3 Credit hours**
Vocal techniques for the actor, including the study of dialects. Vocal techniques for the actor, including the study of dialects.
Grade Mode: Normal Grading Mode

THE 222 Acting I: Foundations **3 Credit hours**
Development of skill through foundational exercises. (PR: THE 220 and 221 or permission of instructor.) Development of skill through foundational exercises. (PR: THE 220 and 221 or permission of instructor.)
Pre-req: THE 220 and THE 221.
Grade Mode: Normal Grading Mode

THE 230 Auditioning Techniques **3 Credit hours**
Techniques of auditioning for stage plays and musicals. Techniques of auditioning for stage plays and musicals.
Pre-req: THE 222 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 240 Stage Lighting I **4 Credit hours**
Students enrolled in this course learn the terminology, techniques, and principles required to execute lighting designs for theatre, dance and film through "hands-on" experiences and projects.
Grade Mode: Normal Grading Mode

THE 245 Intro to Technical Theatre **4 Credit hours**
Technical production, scenic construction and stage operations are explored including critical application of traditional and current computer technologies within the profession. Lecture and supervised laboratory application links theory with practice.
Grade Mode: Normal Grading Mode

THE 250 Introduction to Costuming **4 Credit hours**
This introductory course exposes students to the elementary principles, techniques, terminology, materials and application used to realize theatrical costumes. A combination of lecture and laboratory instruction links theory with practice. This introductory course exposes students to the elementary principles, techniques, terminology, materials and application used to realize theatrical costumes. A combination of lecture and laboratory instruction links theory with practice.
Grade Mode: Normal Grading Mode

THE 270 Theatre Practicum **1 Credit hour**
Acting, directing, or technical work in Marshall University Theatre productions. Register only with permission of instructor. Open to all students. May be repeated for a total of four hours. Acting, directing, or technical work in Marshall University Theatre productions. Register only with permission of instructor. Open to all students. May be repeated for a total of four hours.
Grade Mode: Normal Grading Mode

THE 280 Special Topics **1-4 Credit hours**
Program of study not normally covered in other courses. Topics vary from semester to semester. Program of study not normally covered in other courses. Topics vary from semester to semester.
Grade Mode: Normal Grading Mode

THE 290 Music Theatre Workshop I **3 Credit hours**
Applied skills in musical theatre for chorus and ensemble roles, including song presentation and integration of musical and dramatic elements. Intended for beginning and intermediate students. Applied skills in musical theatre for chorus and ensemble roles, including song presentation and integration of musical and dramatic elements. Intended for beginning and intermediate students.
Pre-req: THE 101 with a minimum grade of D or THE 111 with a minimum grade of D or THE 112 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 295 Sophomore Review **0 Credit hours**
Sophomore Review. 0 hrs. This course is a series of interviews, auditions and assessment instruments designed to determine a student's potential to successfully continue and complete the theatre degree curriculum.
Pre-req: THE 101 with a minimum grade of D and THE 245 with a minimum grade of D and THE 250 with a minimum grade of D.
Grade Mode: Credit/No Credit Grade Only

THE 310 Theatre Management **3 Credit hours**
Theories and practices in performing arts management. An exploration of fiscal and physical management techniques, including budgeting, box office procedures, promotion, and staffing. Theories and practices in performing arts management. An exploration of fiscal and physical management techniques, including budgeting, box office procedures, promotion, and staffing.
Grade Mode: Normal Grading Mode

THE 320 Acting II: Scene Study **3 Credit hours**
Development of skill through exercises and analytical study of scenes. (PR: THE 222 and successful completion of Sophomore Review or permission of instructor.) Development of skill through exercises and analytical study of scenes. (PR: THE 222 and successful completion of Sophomore Review or permission of instructor.)
Pre-req: THE 222.
Grade Mode: Normal Grading Mode

THE 322 Stage Voice II: Dialects **3 Credit hours**
Study and practice of dialects and accents that are commonly used in acting plays. Study and practice of dialects and accents that are commonly used in acting plays.
Pre-req: THE 221.
Grade Mode: Normal Grading Mode

THE 323 Stage Mvmt II: Phys Approaches **3 Credit hours**
Advanced exploration of movement and its application to character development and text. (PR: THE 222 and successful completion of Sophomore Review or permission of instructor.) Advanced exploration of movement and its application to character development and text. (PR: THE 222 and successful completion of Sophomore Review or permission of instructor.)
Pre-req: THE 222.
Grade Mode: Normal Grading Mode

THE 325 Theatre Career Marketing **3 Credit hours**
Examination of strategic marketing and personal branding techniques for designing, enhancing, and promoting a professional image for the theatre artist.
Pre-req: THE 245 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 330 Drafting & Rendering **3 Credit hours**
The application of drafting and rendering conventions utilized in the planning and execution of theatrical productions. Mechanical drawing, computer assisted drawing, freehand sketching and color application techniques will be employed.
Pre-req: THE 245.
Grade Mode: Normal Grading Mode

THE 340 Stage Decor **3 Credit hours**
Identification of artistic, historical , social, philosophical and technical influences that diverse cultures offer theatrical designers. Research, critical examination, drawing, digital documentation culminate in the creation of industry standard electronic portfolios.
Grade Mode: Normal Grading Mode

THE 354 Stage Make-up **3 Credit hours**
Development of character make-up designs through analysis, research and application of various make-up media suitable to stage, print and film. Adherence to industry standards of hygiene, sanitation and professional etiquette.
Pre-req: THE 250 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 355 Costume Design **3 Credit hours**
Practical and psychological aspects of design. Study of design theory, script analysis, rendering techniques, fabric choices. Development of designs from initial concept to final renderings. Practical and psychological aspects of design. Study of design theory, script analysis, rendering techniques, fabric choices. Development of designs from initial concept to final renderings.
Pre-req: THE 250 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 356 Costume Construction **3 Credit hours**
A hands-on approach to the techniques of theatrical costuming. Period method by machine and hand, industrial machine and some pattern making. Work on classroom projects and University productions. A hands-on approach to the techniques of theatrical costuming. Period method by machine and hand, industrial machine and some pattern making. Work on classroom projects and University productions.
Pre-req: THE 250.
Grade Mode: Normal Grading Mode

THE 360 Scene Design I **3 Credit hours**
Practical application of aesthetic and technical principles of scene design for the proscenium stage. Script analysis, production concepts, architectural research, mechanical and AutoCAD drawings, white models, painter's elevations are utilized.
Grade Mode: Normal Grading Mode

THE 361 Scene Painting **3 Credit hours**
Exploration of various techniques utilized by scenic artists including the generation of painter's evaluations, design renderings, estimating scenic demands, media selection and execution of designs in full scale.
Pre-req: THE 360 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 362 Stage Management **3 Credit hours**
The responsibilities and duties of stage management are explored to prepare students entering the profession. Principles and practices of stage management are applied through scheduling, budgeting, running, cueing and safety. The responsibilities and duties of stage management are explored to prepare students entering the profession. Principles and practices of stage management are applied through scheduling, budgeting, running, cueing and safety.
Pre-req: THE 240 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 370 Theatre Practicum **1 Credit hour**
Acting, directing, or technical work in Marshall University Theatre productions. Register only with permission of instructor. Acting, directing, or technical work in Marshall University Theatre productions. Register only with permission of instructor.
Grade Mode: Normal Grading Mode

THE 390 Music Theatre Workshop II **3 Credit hours**
Applied skills in musical theatre including integration of dance, music, and dialogue in ensemble performance. Intended for students majoring in musical theatre. (repeatable for two semesters)
Pre-req: THE 295.
Grade Mode: Normal Grading Mode

THE 423 Acting Styles **3 Credit hours**
Interpretation of roles from classical, romantic, neoclassical, and modern plays. (PR: THE 222 and successful completion of Sophomore Review or permission of instructor.) Interpretation of roles from classical, romantic, neoclassical, and modern plays. (PR: THE 222 and successful completion of Sophomore Review or permission of instructor.)
Pre-req: THE 222 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 430 Auditioning II: Prof. Aspects **3 Credit hours**
Students develop skills and prepare materials for professional acting auditions.
Pre-req: THE 230.
Grade Mode: Normal Grading Mode

THE 436 Children's Theatre **3 Credit hours**
Theory, direction and staging of plays for children. PR: Permission of instructor or Theatre Program Director. May be repeated for a total of 9 hours.
Grade Mode: Normal Grading Mode

THE 437 Directing I **3 Credit hours**
Introduction to theories, principles, techniques, and history of directing. Introduction to theories, principles, techniques, and history of directing.
Pre-req: THE 295 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 440 Theatre History To 1660 **3 Credit hours**
Survey of man's activities in the theatre from primitive times to 1660.
Pre-req: THE 101.
Grade Mode: Normal Grading Mode

THE 441 Theatre Hist Since 1660 **3 Credit hours**
Survey of man's activities in the theatre from 1660 to present. Survey of man's activities in the theatre from 1660 to present.
Pre-req: THE 101 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 450 Stage Lighting II **3 Credit hours**
Advanced study in lighting design principles utilized for non-proscenium stages and/or impressionistic productions will be emphasized. Combined visual, manual and computer generated documentation will comprise portfolio for final critique.
Pre-req: THE 240 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 480 Special Topics **1-4 Credit hours**
Program of study not normally covered in other courses. topics vary from semester to semester. Program of study not normally covered in other courses. topics vary from semester to semester.
Grade Mode: Normal Grading Mode

THE 481 Special Topics **1-4 Credit hours**
Program of study not normally covered in other courses. Topics vary from semester to semester. Program of study not normally covered in other courses. Topics vary from semester to semester.
Grade Mode: Normal Grading Mode

THE 482 Special Topics **1-4 Credit hours**
Program of study not normally covered in other courses. Topics vary from semester to semester. Program of study not normally covered in other courses. Topics vary from semester to semester.
Grade Mode: Normal Grading Mode

THE 483 Special Topics **1-4 Credit hours**
Program of study not normally covered in other courses. Topics vary from semester to semester. Program of study not normally covered in other courses. Topics vary from semester to semester.
Grade Mode: Normal Grading Mode

THE 485 Independent Study **1-4 Credit hours**
Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students. Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students.
Pre-req: THE 295 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 486 Independent Study **1-4 Credit hours**
Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students. Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students.
Pre-req: THE 295 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 487 Independent Study **1-4 Credit hours**
Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students. Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students.
Pre-req: THE 295 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 488 Independent Study **1-4 Credit hours**
Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students. Courses taught by tutorials; directed independent readings or research; problem reports, and other activities designed to fill the needs of individual students.
Pre-req: THE 295 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 490 Professional Theatre Residency **1-4 Credit hours**
Supervised off-campus contractual work-study arrangement with external agencies or theatrical instructions.
Pre-req: THE 295 with a minimum grade of D.
Grade Mode: Normal Grading Mode

THE 491 Theatre Workshop **1-4 Credit hours**
Practical, participatory courses for advanced students and professionals. Experience in new techniques, theories, and principles
Grade Mode: Normal Grading Mode

THE 492 Theatre Workshop **1-4 Credit hours**
Practical, participatory courses for advanced students and professionals. Experience in new techniques, theories, and principles. Practical, participatory courses for advanced students and professionals. Experience in new techniques, theories, and principles.
Grade Mode: Normal Grading Mode

THE 493 Theatre Workshop **1-4 Credit hours**
Practical, participatory courses for advanced students and professionals. Experience in new techniques, theories, and principles. Practical, participatory courses for advanced students and professionals. Experience in new techniques, theories, and principles.
Grade Mode: Normal Grading Mode

THE 494 Theatre Workshop **1-4 Credit hours**
Practical,participatory courses for advanced students and professionals. Experience in new techniques, theories, and principles. Practical,participatory courses for advanced students and professionals. Experience in new techniques, theories, and principles.
Grade Mode: Normal Grading Mode

THE 499 Senior Capstone Project **3 Credit hours**
The Capstone Project serves to demonstrate the student's proficiency in the major field of study. It is the culmination of coursework in the concentration (performance, directing, design, playwriting, state management, etc.)
Pre-req: THE 295 with a minimum grade of D.
Attributes: Capstone Course
Grade Mode: Normal Grading Mode

University Studies (UNI)

UNI 100 Freshman First Class **1 Credit hour**
An introduction to the academic structures and expectations of the University including the E-portfolio process. An introduction to the academic structures and expectations of the University including the E-portfolio process.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

UNI 102 Strat for Academic Success **1 Credit hour**
An academic enrichment course which provides students with strategies and practical experience for academic success. Topics to be covered include research skills, critical thinking applications, and effective study skills.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

UNI 103 Career Planning Undecided **1 Credit hour**
Designed for undecided college students. Explore career options and majors. Topics include interest testing, career information, decision-making skills, and job finding strategies. Course does not count toward graduation. Designed for undecided college students. Explore career options and majors. Topics include interest testing, career information, decision-making skills, and job finding strategies. Course does not count toward graduation.
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

UNI 104 Adv Strat for Acad Success **1 Credit hour**
Course provides practical strategies for assessing personal and academic challenges, honing critical thinking skills to make informed decisions, improving learning and time management skills, tracking progress toward personal goals.
Grade Mode: Normal Grading Mode

UNI 201 Peer Mentoring **1 Credit hour**
Students trained as peer advisors will lead discussions, campus field trips and work with faculty advisors in the design and implementation of the freshamn introduction to campus life and classes. (Prerequisite: Permission of the Executive Director CAE or Dean of University College) Students trained as peer advisors will lead discussions, campus field trips and work with faculty advisors in the design and implementation of the freshamn introduction to campus life and classes. (Prerequisite: Permission of the Executive Director CAE or Dean of University College)
Attributes: No Textbook Required
Grade Mode: Normal Grading Mode

UNI 202 Introduction to Scholarship **1 Credit hour**
Prepares students to participate on an active research team, with the guidance of (a) faculty research mentor(s), pursing a line of research.
Grade Mode: Normal Grading Mode

UNI 203 Scholarship Discovery **3 Credit hours**
Engages students in original research that advances knowledge and seeks to improve community conditions.
Grade Mode: Normal Grading Mode

UNI 304 Scholarship of Application **3 Credit hours**
Empowers students to synthesize information and knowledge gained from original research into a meaningful, coherent, and public body of work.
Grade Mode: Normal Grading Mode

UNI 400 Graduate School Preparation **2 Credit hours**
This course will provide necessary steps, tools, and resources future graduates need in completing their undergraduate career and pursuing a graduate degree. Designed for students graduating within one year.
Grade Mode: Normal Grading Mode

Wellness (WELL)

- General Education Course

WELL 118 Develop PE & Sport in US **3 Credit hours**
A survey of the development of sport forms and physical education curricula from colonial America through the present day.
Attributes: Multicultural
Grade Mode: Normal Grading Mode

WELL 305 HE & PE in Early Child Prog **3 Credit hours**
Provides students with a wide array of knowledge and skills so they can effectively assume teacher responsibilities in early childhood health and physical education programs.
Grade Mode: Normal Grading Mode

WELL 310 Teaching Individual Sports **2 Credit hours**
Study and application of the principles and techniques of teaching individual sports skills in grades 5-12 (PR: Completion of Physical Education Activity Competencies).
Grade Mode: Normal Grading Mode

WELL 311 Teaching Team Sports **2 Credit hours**
Study and application of the principles and techniques of teaching team sports skills in grades 5-12 (PR: Completion of Physical Education Activity Competencies).
Grade Mode: Normal Grading Mode

WELL 314 Phys Ed Elementary School **3 Credit hours**
A practical approach designed to aid the elementary teacher in teaching methods and techniques needed for the teaching of elementary physical education. (PR: Majors, WELL 350)
Grade Mode: Normal Grading Mode

WELL 325 School & Comm Health **3 Credit hours**
An examination of some of the specific relationships between school and community health programs, including the roles and interaction of public, professional, private and voluntary health agencies with the school. (PR: HS 220, 221, 321)
Grade Mode: Normal Grading Mode

WELL 350 Rhy & Movement Children **3 Credit hours**
Provides elementary physical education specialists with an overview of rhythms and movement activities for elementary school children.
Grade Mode: Normal Grading Mode

WELL 426 Curriculum in Health Ed **3 Credit hours**
A study of principles, objectives, and procedures in curriculum development for middle and secondary school programs including historical and philosophical perspectives and comparing current curricula. (PR: HS 220, 221, 321, 325)
Grade Mode: Normal Grading Mode

WELL 435 Adapted PE & Mainstream **3 Credit hours**
Theory of remedial exercise and individualizing of physical activities to meet the needs of the physically handicapped. (PR HS 201)
Grade Mode: Normal Grading Mode

WELL 469 Curriculum Development PE **3 Credit hours**
A study of principles, objectives and procedures in curriculum construction in the elementary and secondary school programs. Typical programs studied and evaluated. (PR: Completion of Physical Education activity competencies)
Grade Mode: Normal Grading Mode

Women's Studies (WS)

WS 101 Intro to Women's Studies **3 Credit hours**
Historical and social problems of women. Draws upon literature, history, psychology, sociology and economics to illuminate problems women face today. Historical and social problems of women. Draws upon literature, history, psychology, sociology and economics to illuminate problems women face today.
Grade Mode: Normal Grading Mode

WS 480 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

WS 481 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

WS 482 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

WS 483 Special Topics **1-4 Credit hours**
Grade Mode: Normal Grading Mode

WS 485 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

WS 486 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

WS 487 Independent Study **1-4 Credit hours**
Grade Mode: Normal Grading Mode

WS 488 Independent Study **1-4 Credit hours**

Under Construction

University Calendar

First Semester 2022-2023

August 12, Friday
End of summer school

August 15, Monday
Residence halls open for freshmen

August 15, Monday – August 19, Friday
Registration/schedule adjustment

August 16, Tuesday – August 21, Sunday
Week of Welcome for freshmen

August 19, Friday, 9:00 a.m.
Residence halls open for upperclassmen

August 22, Monday, 8 a.m.
First day of classes

August 22, Monday – August 26, Friday, 8 a.m. – 5 p.m.
Late registration/schedule adjustment (add-drop)

August 26, Friday
Last day to add a class

August 29, Monday
Withdrawal ("W") period begins

September 3, Saturday – September 5, Monday
University Computing Services unavailable

September 5, Monday
Labor Day Holiday – University closed

September 9, Friday
Application for December graduation due in academic Dean's office

September 16, Friday
Last day to withdraw from 1st 8 weeks courses

October 3, Monday, Noon
Freshmen/Sophomore midterm grades due

October 7, Friday
1st 8 weeks courses end

October 10, Monday
2nd 8 weeks courses begin

October 24, Monday
Students should schedule appointments with advisors to prepare for advance registration.
(Required for students who have mandatory advising holds.)

October 28, Friday
Last day to withdraw from a full semester individual course

October 31, Monday
Recommended date to apply for May 2023 graduation

October 31, Monday – December 2, Friday
Complete withdrawals only

November 7, Monday – November 18, Friday
Advance registration for spring semester (open only to currently enrolled students)

November 11, Friday
Last day to withdraw from 2nd 8 weeks courses

November 11, Friday
Approved thesis/dissertation must be submitted to the ETD website for final review

November 19, Saturday, Noon

Residence halls close

November 21, Monday
Advance registration for spring semester (open to admitted and readmitted students)

November 21, Monday – November 25, Friday
Thanksgiving Break – classes dismissed

November 24, Thursday – November 25, Friday
Thanksgiving Holiday – University closed

November 27, Sunday, 9:00 a.m.
Residence halls open

November 28, Monday
Classes resume

November 28, Monday – December 2, Friday
Dead week

December 2, Friday
Last class day
Last day to completely withdraw from fall semester

December 3, Saturday
Exam day for Saturday classes
Some common finals

December 5, Monday
Exam day

December 6, Tuesday
Exam day

December 7, Wednesday
Study day
Exams resume at 3:00 p.m. for Wednesday evening classes

December 8, Thursday
Exam day

December 9, Friday
Exam day

December 10, Saturday, TBD
Winter Commencement, Mountain Health Arena
Official December graduation date

December 11, Sunday, Noon
Residence halls close

December 12, Monday, Noon
Final grades due
All requirements must be met for degree completion

December 22, 2022, Thursday – January 2, 2023, Monday
Winter Break – University closed

Second Semester 2022-2023

January 3, Tuesday
University reopens

January 3, Thursday – January 6, Friday
Registration/schedule adjustments

January 6, Friday, 9 a.m.
Residence halls open

January 9, Monday, 8 a.m.
First day of classes

January 9, Monday – January 13, Friday
Late registration/schedule adjustment (add-drop)

January 13, Friday
Last day to add a class

January 16, Monday
Martin Luther King, Jr. Holiday – University closed

January 17, Tuesday
Withdrawal ("W") period begins

January 27, Friday
Applications for May graduation due in academic Dean's office

February 10, Friday
Last day to withdraw from 1st 8 weeks courses

February 20, Monday, Noon
Freshmen/Sophomore midterm grades due

February 24, Friday
1st 8 weeks courses end

February 27, Monday
2nd 8 weeks courses begin

March 6, Monday
Students should schedule appointments with advisors to prepare for advance
registration for summer and fall. (Required for students with mandatory advising holds.)

March 11, Saturday, Noon
Residence halls close

March 13, Monday – March 17, Friday
Spring Break
Classes dismissed

March 20, Monday
Classes resume

March 20, Monday
Recommended date to apply for July/August 2023 graduation

March 20, Monday – March 24, Friday
Advance registration for summer sessions (open only to currently enrolled students)

March 24, Friday
Last day to withdraw from a full semester individual course

March 27, Monday
Advance registration for summer sessions begin (open to admitted/readmitted students)

March 27, Monday
Recommended date to apply for December 2023 graduation

March 27, Monday – April 21, Friday

Complete withdrawals only

March 31, Friday
Approved thesis/dissertation must be submitted to ETD website for final review

April 3, Monday – April 14, Friday
Advance registration for fall semester (open only to currently enrolled students)

April 7, Friday
Last day to withdraw from 2nd 8 weeks courses

April 17, Monday
Advance registration for fall semester begins (open to admitted/readmitted students except first-time fall undergraduates)

April 17, Monday – April 21, Friday
Dead week

April 21, Friday
Last class day
Last day to completely withdraw from spring semester

April 22, Saturday
Exam day for Saturday classes
Some common finals

April 24, Monday
Exam day

April 25, Tuesday
Exam day

April 26, Wednesday
Study day
Exams resume at 3 p.m. for Wednesday evening classes

April 27, Thursday
Exam day

April 28, Friday
Exam day

April 29, Saturday, TBD at Mountain Health Arena
Commencement
Official May graduation date

April 30, Sunday, Noon
Residence halls close

May 1, Monday, Noon
Final grades due
All requirements must be met for degree completion

May 8, Monday – August 11, Friday
Summer school sessions

May 27, Saturday – May 29, Monday
University computer services unavailable

May 29, Monday
Memorial Day Holiday – University closed

July 4, Tuesday
Independence Day Holiday – University closed

Summer Sessions 2023

Intersession

May 5, Friday, 8 a.m. – 5 p.m.
Regular registration

May 8, Monday
First day of classes
Late registration/schedule adjustment (add/drop) closes at 5:00 p.m.

May 9, Tuesday
Withdrawal ("W") period begins

May 19, Friday
Last day to withdraw from an individual course

May 22, Monday – June 1, Thursday
Complete withdrawals Only

May 27, Saturday – May 29, Monday
University computer services unavailable

May 29, Monday
Memorial Day Holiday – University closed

June 1, Thursday
Last class day
Last day to completely withdraw from Intersession

June 2, Friday
Final exam day

June 5, Monday, Noon
Deadline for submitting final grades

Summer I

May 12, Friday, 8 a.m. – 5 p.m.
Regular registration

May 15, Monday
First day of classes

May 15, Monday – May 17, Wednesday
Late registration/schedule adjustment (add-drop)

May 18, Thursday
Withdrawal ("W") period begins

May 27, Saturday — May 29, Monday
University computing services unavailable

May 29, Monday
Memorial Day Holiday – University closed

June 30, Friday
Last day to withdraw from an individual course

July 3, Monday – August 3. Thursday
Complete withdrawals only

July 4, Tuesday
Independence Day Holiday observed – University closed

July 14, Friday
Application for August graduation due in academic Dean's office

Approved thesis/dissertation must be submitted to the ETD website for final review

August 3, Thursday
Last class day
Last day to completely withdraw from Summer I

August 4, Friday
Final exam day

August 7, Monday, Noon
Deadline for submitting final grades

Summer II

June 2, Friday, 8 a.m. – 5 p.m.
Regular registration

June 4, Sunday, 9 a.m.
Residence halls open

June 5, Monday
First day of classes
Late registration/schedule adjustment (add/drop) closes at 5:00 p.m.

June 6, Tuesday
Withdrawal ("W") period begins

June 9, Friday
Application for July graduation due in academic Dean's office

June 23, Friday
Last day to withdraw from an individual course

June 26, Monday- July 6, Thursday
Complete withdrawals only

July 4, Tuesday
Independence Day Holiday observed – University closed

July 6, Thursday
Last class day
Last day to completely withdraw from Summer II

July 7, Friday
Final exam day
Official July graduation date

July 10, Monday, Noon
Deadline for submitting final grades
All requirements must be met for degree completion

Summer III

July 10, Monday, 8 a.m. – 5 p.m.
Regular registration

July 11, Tuesday
First day of classes
Late registration/schedule adjustment (add/drop) closes at 5:00 p.m.

July 12, Wednesday
Withdrawal ("W") period begins

July 14, Friday
Application for August graduation due in academic Dean's office

Approved thesis/dissertation must be submitted to the ETD website for final review

July 28, Friday
Last day to withdraw from an individual course

July 31, Monday — August 10, Thursday
Complete withdrawals only

August 10, Thursday
Last class day
Last day to completely withdraw from Summer III

August 11, Friday
Final exam day
Official August graduation date

August 14, Monday, Noon
Deadline for submitting final grades
All requirements must be met for degree completion

Undergraduate A-Z Index

A

- About Marshall University (p. 9)
- Academic Information (p. 62)
- Accountancy (ACC) (p. 700)
- Accounting, B.B.A. (p. 191)
- Accounting, Minor (p. 193)
- Addiction Studies, Minor (p. 383)
- Admissions (p. 16)
- Advertising, Emphasis (p. 133)
- Advertising, Minor (p. 133)
- Advertising/Public Relations, Major (p. 133)
- Aerospace Engineering, Emphasis (p. 485)
- African and African American Studies, Minor (p. 383)
- Anthropology (ANT) (p. 701)
- Anthropology of Health, Emphasis (p. 333)
- Anthropology, B.A. (p. 331)
- Anthropology, Emphasis (Regents Bachelor of Arts) (p. 691)
- Anthropology, Minor (p. 333)
- Applied Environmental Science, Emphasis (p. 638)
- Applied Exercise Physiology, Emphasis (p. 530)
- Applied Physics, Emphasis (p. 654)
- Archeological Anthropology, Emphasis (p. 333)
- Art (ART) (p. 704)
- Art Education PreK-Adult, B.A. (p. 416)
- Art History, Emphasis (p. 109)
- Art History, Minor (p. 108)
- Art, B.A. (p. 109)
- Art, B.F.A. (http://catalog.marshall.edu/undergraduate/programs-az/arts-media/art-design/art-bfa/)
- Arts and Media (AM) (p. 711)
- Asian Studies, Minor (p. 384)
- Athletic Training (3+2) (p. 521)
- Athletic Training Comprehensive, Emphasis (p. 522)
- Athletic Training Health Communication, Emphasis (p. 524)

- Athletic Training Occupational Safety & Health, Emphasis (p. 524)
- Athletic Training Pre-Chiropractic, Emphasis (p. 524)
- Athletic Training Pre-Med, Emphasis (p. 525)
- Athletic Training Pre-Physical Therapy, Emphasis (p. 525)
- Athletic Training Pre-Physician's Assistant, Emphasis (p. 525)
- Athletic Training Safety, Emphasis (p. 526)
- Aviation Maintenance Technology (AMT) (p. 712)
- Aviation Maintenance Technology, A.A.S. (p. 689)
- Aviation Management, B.B.A. (p. 211)
- Aviation Sciences (AVSC) (p. 713)

B

- Bio Physics, Emphasis (p. 656)
- Biochemistry, B.S. (p. 588)
- Biological Science Education 9-Adult, B.A. (p. 418)
- Biological Sciences (BSC) (p. 715)
- Biological Sciences, Accelerated Master's Degree (p. 578)
- Biological Sciences, B.S. (p. 578)
- Biological Sciences, Minor (p. 584)
- Biomechanics Physics, Emphasis (p. 528)
- Biomechanics Pre-Medical, Emphasis (p. 528)
- Biomechanics Pre-Physical Therapy, Emphasis (p. 529)
- Biomechanics Safety, Emphasis (p. 529)
- Biomechanics, B.S. (p. 526)
- Biomedical Engineering (BME) (p. 721)
- Biomedical Engineering, B.S. (B.S.B.M.E.) (p. 453)
- Broadcast Journalism, Emphasis (p. 137)
- Business Communication, Minor (p. 245)
- Business-LCOB (BUSN) (p. 722)

C

- Cell, Molecular and Medical Biology, Emphasis (p. 580)
- Ceramics, Emphasis (p. 114)
- Chemical Sciences, B.S. (p. 590)
- Chemistry (CHM) (p. 722)
- Chemistry Education 9-Adult, B.A. (p. 420)
- Chemistry, B.S. ACS Certified (p. 592)
- Chemistry, Minor (p. 594)
- Civil and Environmental Engineering, Accelerated Master's Degree (p. 460)
- Civil Engineering (CE) (p. 726)
- Civil Engineering, B.S.C.E. (p. 458)
- Classics (CL) (p. 727)
- Classics, Concentration (p. 349)
- Classics, Minor (p. 347)
- Clinical Exercise Physiology, Emphasis (p. 532)
- Clinical Lab Sciences (CLS) (p. 730)
- Clinical Laboratory Sciences (p. 496)
- College of Arts and Media (p. 91)
- College of Education and Professional Development (p. 405)
- College of Engineering and Computer Sciences (p. 447)
- College of Health Professions (p. 494)
- College of Liberal Arts (p. 566)
- College of Science (p. 569)
- College Programs (p. 450)
- Combined College and Professional Degrees (p. 681)
- Commercial Music, B.A. (p. 157)
- Commercial Music, Emphasis (http://catalog.marshall.edu/undergraduate/programs-az/arts-media/music/music-ba/commercial-music-emphasis/)
- Commercial Pilot - Fixed Wing, B.S. (p. 687)
- Communication Disorders (p. 503)
- Communication Disorders (CD) (p. 732)
- Communication Disorders, B.S. (p. 505)
- Communication Disorders, Minor (p. 507)
- Communication Studies (CMM) (p. 734)
- Communication Studies, B.A. (p. 245)
- Communication Studies, Emphasis (Regents Bachelor of Arts) (p. 692)
- Communication Studies, Minor (p. 251)
- Computer & Info Security (CYBR) (p. 737)
- Computer and Information Security, B.S. (p. 468)
- Computer and Information Security, Minor (p. 470)
- Computer and Information Technology, B.S. (p. 600)
- Computer and Information Technology, Minor (p. 604)
- Computer and Web Application Development, Emphasis (p. 601)
- Computer Forensics, Minor (p. 613)
- Computer Information Tech (CIT) (p. 738)
- Computer Science (CS) (p. 740)
- Computer Science, Accelerated Master's degree (p. 471)
- Computer Science, B.S. (p. 471)
- Computer Science, Minor (p. 473)
- Conservation and Wildlife, Emphasis (p. 640)
- Constitutional Democracy, Minor (p. 384)
- Contact Directory (p. 8)
- Core Curriculum (General Education) (p. 86)
- Corrections, Emphasis (p. 610)
- Counseling (COUN) (p. 743)
- Courses A-Z (p. 698)
- Creative Writing in English, Emphasis (Regents Bachelor of Arts) (p. 692)
- Creative Writing, B.A. (p. 262)
- Creative Writing, Minor (p. 265)
- Criminal Justice (CJ) (p. 744)
- Criminal Justice, Accelerated Master's Degree (http://catalog.marshall.edu/undergraduate/programs-az/science/criminal-justice-criminology/criminal-justice-accelerated-masters-degree/)
- Criminal Justice, B.A. (p. 608)
- Criminal Justice, Emphasis (Regents Bachelor of Arts) (p. 692)
- Criminal Justice, Minor (p. 611)
- Curr Inst Special Ed (CISP) (p. 747)
- Curriculum & Instruction (CI) (p. 748)
- Curriculum, Instruction and Foundations (p. 411)
- Cyber Forensics and Security (CFS) (p. 751)

- Cyber Forensics and Security, B.S. (p. 613)
- Cyber Forensics, Emphasis (Regents Bachelor of Arts) (p. 692)
- Cybersecurity, Accelerated Master's Degree (p. 473)

D

- Dance (DAN) (p. 752)
- Dance, Minor (p. 177)
- Data Science, Accelerated Master's Degree (p. 474)
- Department of Accountancy and Legal Environment (p. 189)
- Department of Biological Sciences (p. 571)
- Department of Biomedical Engineering (p. 452)
- Department of Chemistry (p. 584)
- Department of Civil Engineering (p. 455)
- Department of Communication Studies (p. 241)
- Department of Computer and Information Technology (p. 598)
- Department of Computer Sciences and Electrical Engineering (p. 461)
- Department of Criminal Justice and Criminology (p. 604)
- Department of Cyber Forensics and Security (p. 611)
- Department of English (p. 251)
- Department of Finance, Economics and International Business (p. 193)
- Department of Finance, Economics and International Business (p. 271)
- Department of Geography (p. 274)
- Department of Geology (p. 615)
- Department of History (p. 287)
- Department of Management and Health Care Administration (p. 204)
- Department of Marketing, Management Information Systems (MIS) and Entrepreneurship (p. 219)
- Department of Mathematics (p. 624)
- Department of Military Science (p. 238)
- Department of Modern Languages (p. 297)
- Department of Natural Resources and the Environment (p. 634)
- Department of Physics (p. 648)
- Department of Political Science (p. 310)
- Department of Psychology (p. 319)
- Department of Sociology and Anthropology (p. 324)
- Dietetics (p. 508)
- Dietetics (DTS) (p. 753)
- Dietetics, B.S. (p. 510)
- Digital Humanities (DH) (p. 754)
- Digital Humanities, Minor (p. 384)
- Digital Marketing and Analytics, Emphasis (p. 233)
- Division of Aviation (p. 684)

E

- Early Childhood Education (p. 439)
- Early Childhood Education (ECE) (p. 756)
- Early Childhood Education, B.A. (p. 445)
- Early Education PK-K, B.A. (Second specialization only) (p. 447)
- Ecology, Evolution, and Organismal Biology, Emphasis (p. 582)
- Economics (ECN) (p. 754)
- Economics, B.A. (p. 273)
- Economics, B.B.A. (p. 198)
- Economics, Minor (p. 200)
- Economics, Minor (p. 274)
- Educational Foundations (EDF) (p. 757)
- Electrical and Computer Engineering, B.S.E.E. (p. 475)
- Electrical Engineering (EE) (p. 758)
- Elementary Education K-6 Comprehensive, B.A. (p. 422)
- Elementary Education, B.A. (http://catalog.marshall.edu/undergraduate/programs-az/education-professional-development/curriculum-instruction-foundations/elementary-education-ba/)
- Engineering & Science (ENGR) (p. 760)
- Engineering Geology, Emphasis (p. 621)
- Engineering Management, Accelerated Master's Degree (p. 461)
- Engineering Science, Minor (p. 450)
- Engineering Transfer Program (p. 450)
- Engineering, B.S.E. (p. 486)
- Engineering, General Emphasis (p. 488)
- Engineering, Industrial and Systems Emphasis (p. 488)
- Engineering, Physics Emphasis (http://catalog.marshall.edu/undergraduate/programs-az/engineering-computer-sciences/college-programs/engineering-bse/engineering-physics-emphasis/)
- English (ENG) (p. 761)
- English (Generalist), B.A. (p. 265)
- English Education 5-9, B.A. (Second Specialization only) (p. 423)
- English Education 5-Adult Teaching Specialization (p. 266)
- English Education 5-Adult, B.A. (p. 424)
- English, Minor (p. 267)
- Entrepreneurship (ENT) (p. 772)
- Entrepreneurship, B.B.A. (p. 227)
- Entrepreneurship, Minor (p. 229)
- Environmental Chemistry, B.S. (p. 594)
- Environmental Geoscience, Emphasis (p. 623)
- Environmental Science (ES) (p. 773)
- Environmental Science, B.S. (p. 638)
- Environmental Science, Emphasis (p. 642)
- Environmental Science, Minor (p. 643)
- European History, Minor (p. 294)
- Exercise Science and Sport (ESS) (p. 773)
- Exercise Science, B.S. (p. 529)
- Exercise Science, Minor (p. 534)

F

- Faculty (p. 881)
- Fibers, Emphasis (p. 116)
- Film Studies, Minor (p. 385)
- Finance (FIN) (p. 775)
- Finance, B.B.A. (p. 200)
- Finance, Minor (p. 202)
- Financial Information: Fees, Assistance, and Scholarships (p. 27)
- First-Year Seminar (FYS) (p. 776)
- Forensic Chemistry, B.S. (p. 596)

- French (FRN) (p. 776)
- French, B.A. (p. 305)
- French, Minor (p. 306)

G

- Game Development, Emphasis (Regents Bachelor of Arts) (p. 692)
- Game Development, Minor (p. 604)
- Game/Simulation Development, Emphasis (p. 602)
- General Business, B.A. (p. 239)
- General Business, Minor (p. 241)
- General Humanities, Minor (p. 347)
- General Science Education 5-9, B.A. (Second Specialization only) (p. 426)
- General Science Education 5-Adult, B.A. (p. 426)
- General Sonography, Emphasis (p. 541)
- Geography (GEO) (p. 778)
- Geography - GIScience, Emphasis (Regents Bachelor of Arts) (p. 692)
- Geography - Human, Emphasis (Regents Bachelor of Arts) (p. 692)
- Geography - Physical, Emphasis (Regents Bachelor of Arts) (p. 693)
- Geography, Accelerated Master's Degree (p. 278)
- Geography, B.A. (p. 278)
- Geography, B.S. (p. 279)
- Geography, Emphasis (Regents Bachelor of Arts) (p. 693)
- Geography, Minor (p. 286)
- Geology (GLY) (p. 781)
- Geology, B.A. (p. 618)
- Geology, B.S. (p. 619)
- Geology, Minor (p. 624)
- German (GER) (p. 784)
- German, Minor (p. 307)
- GIScience, Certificate (http://catalog.marshall.edu/undergraduate/programs-az/liberal-arts/geography/giscience-certificate/)
- GIScience, Certificate or Minor (p. 287)
- GIScience, Emphasis (p. 281)
- GIScience, Minor (http://catalog.marshall.edu/undergraduate/programs-az/liberal-arts/geography/giscience-minor/)
- Graduate Studies (p. 682)
- Graphic Design, Emphasis (p. 117)
- Greek (GRK) (p. 784)
- Greek, Minor (p. 347)

H

- Health and Wellness, Minor (p. 534)
- Health Care Management, B.B.A. (p. 213)
- Health Communication, Concentration (p. 245)
- Health Education (HE) (p. 785)
- Health Professions (HP) (p. 785)
- Health Science (HS) (p. 786)
- Health Sciences (p. 513)
- Health Sciences, B.S. (p. 513)
- History (HST) (p. 788)
- History, B.A. (p. 294)
- History, Minor (p. 296)
- Honors (HON) (p. 794)
- Honors College (p. 683)
- Hospitality and Tourism Marketing, Minor (p. 229)
- Human Resources and Organizational Behavior, Emphasis (p. 216)
- Humanities (p. 336)
- Humanities, B.A. (p. 347)

I

- Information Assurance, Certificate (p. 615)
- Information Assurance, Emphasis (Regents Bachelor of Arts) (p. 693)
- Instruct Tech-Library Science (ITL) (p. 795)
- Instructional Technology and Library Science, Emphasis (Regents Bachelor of Arts) (p. 693)
- Interdisciplinary (p. 356)
- Interdisciplinary Programs (p. 96)
- International Affairs (p. 387)
- International Affairs (INT) (p. 796)
- International Affairs, B.A. (p. 403)
- International Affairs, Minor (p. 405)
- International Business, B.B.A. (p. 202)
- International Business, Minor (p. 204)
- Interpersonal Communication, Concentration (p. 247)

J

- Japanese (JPN) (p. 796)
- Japanese Education PreK-Adult, B.A. (p. 428)
- Japanese Studies, Minor (p. 307)
- Japanese, B.A. (p. 307)
- Japanese, Minor (p. 309)
- Jazz Studies, Emphasis (p. 164)
- Joan C. Edwards School of Medicine (p. 695)
- Journalism & Mass Comm. (JMC) (p. 798)
- Journalism, Major (p. 137)
- Journalism, Minor (p. 142)

K

- Kinesiology (p. 515)

L

- Latin (LAT) (p. 803)
- Latin American Studies, Minor (p. 386)
- Latin, B.A. (p. 354)
- Latin, Minor (p. 355)
- Law Enforcement, Emphasis (p. 610)
- Learning Opportunities and Resources (p. 46)
- Legal Environment (LE) (p. 804)
- Legal Environment, Minor (p. 193)
- Legal Studies, Emphasis (p. 610)

- Lewis College of Business (p. 183)
- Literary Studies, B.A. (p. 267)
- Literature in English, Emphasis (Regents Bachelor of Arts) (p. 693)

M

- Management (MGT) (p. 805)
- Management Information Systems (MIS) (p. 808)
- Management Information Systems, B.B.A. (p. 230)
- Management Information Systems, Minor (p. 231)
- Management, B.B.A. (p. 214)
- Management, Minor (p. 217)
- Marketing (MKT) (p. 808)
- Marketing, B.B.A. (p. 231)
- Marketing, Minor (p. 237)
- Mathematics (MTH) (p. 810)
- Mathematics Education 5-9, B.A. (Second Specialization only) (p. 428)
- Mathematics Education 5-Adult, B.A. (p. 429)
- Mathematics, B.S. (p. 630)
- Mathematics, Minor (p. 632)
- Mathematics, Teacher Certification (p. 632)
- Mechanical Engineering (ME) (p. 814)
- Mechanical Engineering, Accelerated Master's Degree (p. 491)
- Mechanical Engineering, B.S.M.E. (p. 488)
- Media Production, Major (p. 142)
- Media Studies, Minor (p. 146)
- Medical Imaging (p. 534)
- Medical Imaging (MI) (p. 816)
- Medical Imaging Radiography, B.S. (p. 539)
- Medical Imaging, Emphasis (p. 657)
- Medical Imaging, Emphasis - Advanced Diagnostic Radiography (http://catalog.marshall.edu/undergraduate/programs-az/health-professions/medical-imaging/medical-imaging-radiography-bs/emphasis-advanced-diagnostic-radiography/)
- Medical Imaging, Emphasis - Cardiovascular/Interventional Advanced Practice (p. 543)
- Medical Imaging, Emphasis - CT MRI Advanced Practice (p. 543)
- Medical Imaging, Emphasis - Mammography (p. 543)
- Medical Imaging, Emphasis - Medical Imaging Management Advanced Practice (p. 543)
- Medical Laboratory Science, B.S. (p. 498)
- Medical Laboratory Technician, A.A.S. (p. 501)
- Medical Physics, Emphasis (p. 659)
- Meteorology, Emphasis (p. 283)
- Meteorology, Minor (p. 287)
- Military Science (MS) (p. 820)
- Military Science and Leadership, Minor (p. 238)
- Military Science, Emphasis (Regents Bachelor of Arts) (p. 693)
- Mine Safety (MSF) (p. 822)
- Modern Languages (MDL) (p. 823)
- Multidisciplinary Studies (Music), Emphasis (p. 166)
- Multimedia Journalism, Emphasis (p. 138)
- Music (General), Emphasis (p. 161)
- Music (MUS) (p. 823)
- Music Education PreK-Adult, B.A. (p. 430)
- Music Entrepreneurship, Minor (p. 173)
- Music History, Emphasis (p. 161)
- Music, B.A. (p. 159)
- Music, B.F.A. (p. 162)
- Music, Minor (p. 173)
- Musical Theatre, B.F.A. (p. 96)

N

- Nat Resources & Environment (NRE) (p. 833)
- Natural Res Rec Mgt (NRRM) (p. 835)
- Natural Resources and Recreation Management, B.S. (p. 644)
- Natural Resources and Recreation Management, Minor (p. 645)
- Nursing (NUR) (p. 837)
- Nursing - Associate Degree (p. 544)
- Nursing - Bachelor's Degrees (p. 546)
- Nursing, B.A./B.S. to B.S.N. (p. 549)
- Nursing, Pre-Licensure, B.S.N. (p. 550)
- Nursing, RN to B.S.N. Online Program (p. 554)

O

- Organizational Communication, Concentration (p. 248)

P

- Painting, Emphasis (p. 119)
- Pedagogy (Music), Emphasis (p. 162)
- Performance (Music), Emphasis (p. 168)
- Performance (Theatre), Emphasis (p. 179)
- Philosophy (PHL) (p. 840)
- Philosophy, Concentration (p. 350)
- Philosophy, Minor (p. 356)
- Photography, Emphasis (p. 121)
- Phys Ed Lifetime Activities (PEL) (p. 843)
- Physical Science (PS) (p. 845)
- Physics (PHY) (p. 846)
- Physics and Physical Science, Minor (p. 652)
- Physics Education 9-Adult Comprehensive, B.A. (p. 433)
- Physics, B.S. (p. 652)
- Political Science (PSC) (p. 849)
- Political Science, B.A. (p. 316)
- Political Science, Emphasis (Regents Bachelor of Arts) (p. 694)
- Political Science, Minor (p. 318)
- Pre-Computer Science (p. 477)
- Pre-Engineering (p. 452)
- Pre-Health, Major (p. 556)
- Pre-Professional Health Care Studies, Interdisciplinary Minor (p. 661)
- Preschool Development, Emphasis (Regents Bachelor of Arts) (p. 694)
- Printmaking, Emphasis (p. 123)
- Production (Theatre), Emphasis (p. 181)
- Professional Writing, B.A. (p. 269)

- Professional Writing, Minor (p. 271)
- Psychology (PSY) (p. 854)
- Psychology, Accelerated Master's Degree Program (p. 322)
- Psychology, B.A. (p. 322)
- Psychology, B.S. (http://catalog.marshall.edu/undergraduate/programs-az/liberal-arts/psychology/psychology-bs/)
- Psychology, Emphasis (Regents Bachelor of Arts) (p. 694)
- Psychology, Minor (p. 324)
- Public Administration, Accelerated Master's Degree (p. 318)
- Public Communication, Concentration (p. 250)
- Public Health (PH) (p. 858)
- Public Relations, Emphasis (p. 135)
- Public Relations, Minor (p. 146)

R

- Radio/Television Production and Management, Emphasis (p. 142)
- Regents, B.A. (RBA) (p. 690)
- Religious Studies (RST) (p. 859)
- Religious Studies, Concentration (p. 352)
- Religious Studies, Emphasis (Regents Bachelor of Arts) (p. 694)
- Religious Studies, Minor (p. 356)
- Respiratory Care (p. 556)
- Respiratory Care (RSP) (p. 862)
- Respiratory Care, B.S. (p. 560)
- Risk Management and Insurance, Minor (p. 204)
- RRT to B.S.R.C. Technology Enhanced Program (p. 562)

S

- Safety Technology (SFT) (p. 865)
- Sales, Emphasis (p. 235)
- School of Art and Design (p. 100)
- School of Journalism and Mass Communications (p. 127)
- School of Music (p. 146)
- School of Pharmacy (p. 695)
- School of Theatre (p. 173)
- Sculpture, Emphasis (p. 124)
- Secondary Education, B.A. (http://catalog.marshall.edu/undergraduate/programs-az/education-professional-development/curriculum-instruction-foundations/secondary-education-ba/)
- Sexuality Studies, Minor (p. 386)
- Social Studies (SOS) (p. 867)
- Social Studies Education 5-9, B.A. (Second Specialization only) (p. 434)
- Social Studies Education 5-Adult, B.A. (p. 435)
- Social Work (p. 562)
- Social Work (SWK) (p. 867)
- Social Work, B.S.W. (p. 565)
- Social Work, Minor (p. 564)
- Sociocultural Anthropology, Emphasis (p. 333)
- Sociology (SOC) (p. 868)
- Sociology, Accelerated Master's Degree Program (p. 334)
- Sociology, B.A. (p. 334)
- Sociology, Emphasis (Regents Bachelor of Arts) (p. 694)
- Sociology, Minor (p. 336)
- Sonography, Emphasis - Cardiovascular Sonography (p. 544)
- Spanish (SPN) (p. 871)
- Spanish Education 5-Adult, B.A. (p. 437)
- Spanish Studies, Minor (p. 309)
- Spanish, B.A. (p. 309)
- Spanish, Minor (p. 310)
- Special Education Multi-Categorical 5-Adult, B.A. (Second Specialization only) (p. 437)
- Special Education Multi-Categorical K-6, B.A. (Second Specialization only) (p. 437)
- Specialty Agriculture, B.S. (p. 645)
- Speech Language Pathology Assistant, Certificate Program (p. 507)
- Sport Tourism Hospitality Mgt (STHM) (p. 874)
- Sports Business, B.B.A. (p. 237)
- Sports Business, Minor (p. 238)
- Sports Journalism, Emphasis (p. 140)
- Statistics (STA) (p. 875)
- Statistics, B.S. (p. 632)
- Statistics, Minor (p. 633)
- Student Financial Assistance (p. 40)
- Studies Abroad (SA) (p. 876)
- Studio Art (p. 126)
- Studio Art, Emphasis (Regents Bachelor of Arts) (p. 694)
- Studio Art, Minor (p. 113)
- Supply Chain Analytics, Emphasis (p. 217)
- Sustainability Management and Technology, B.B.A. (p. 217)
- Sustainability Management and Technology, Minor (p. 219)
- Sustainability, Interdisciplinary Minor (p. 682)

T

- World History, Minor (p. 297)

INDEX

A

About Marshall University ... 9
Academic Information ... 62
Accelerated Master's Degree in Civil and Environmental Engineering 460
Accountancy (ACC) ... 700
Accounting, B.B.A. ... 191
Accounting, Minor ... 193
Addiction Studies, Minor ... 383
Admissions ... 16
Advertising, Emphasis ... 133
Advertising, Minor ... 133
Advertising/Public Relations, Major ... 133
Aerospace Engineering, Emphasis ... 485
African and African American Studies, Minor ... 383
Anthropology (ANT) ... 701
Anthropology, B.A. ... 331
Anthropology, Emphasis (Regents Bachelor of Arts) ... 691
Anthropology, Minor ... 333
Anthropology of Health, Emphasis ... 333
Applied Environmental Science, Emphasis ... 638
Applied Exercise Physiology, Emphasis ... 530
Applied Physics, Emphasis ... 654
Archeological Anthropology, Emphasis ... 333
Art (ART) ... 704
Art, B.A. ... 109
Art Education PreK-Adult, B.A. ... 416
Art History, Emphasis ... 109
Art History, Minor ... 108
Arts and Media (AM) ... 711
Asian Studies, Minor ... 384
Athletic Training (3+2) ... 521
Athletic Training Comprehensive, Emphasis ... 522
Athletic Training Health Communication, Emphasis ... 524
Athletic Training Occupational Safety & Health, Emphasis ... 524
Athletic Training Pre-Chiropractic, Emphasis ... 524
Athletic Training Pre-Med, Emphasis ... 525
Athletic Training Pre-Physical Therapy, Emphasis ... 525
Athletic Training Pre-Physician's Assistant, Emphasis ... 525
Athletic Training Safety, Emphasis ... 526
Aviation Maintenance Technology ... 689
Aviation Maintenance Technology ... 712
Aviation Management, B.B.A. ... 211
Aviation Sciences (AVSC) ... 713

B

Bio Physics, Emphasis ... 656
Biochemistry, B.S. ... 588
Biological Science Education 9-Adult, B.A. ... 418
Biological Sciences, Accelerated Master's Degree ... 578
Biological Sciences, B.S. ... 578
Biological Sciences (BSC) ... 715
Biological Sciences, Minor ... 584
Biomechanics, B.S. ... 526
Biomechanics Comprehensive, Emphasis ... 528
Biomechanics Physics, Emphasis ... 528
Biomechanics Pre-Medical, Emphasis ... 528
Biomechanics Pre-Physical Therapy, Emphasis ... 529
Biomechanics Safety, Emphasis ... 529
Biomedical Engineering, B.S. (B.S.B.M.E.) ... 453
Biomedical Engineering (BME) ... 721
Broadcast Journalism, Emphasis ... 137
Business Communication, Minor ... 245
Business-LCOB (BUSN) ... 722

C

Cell, Molecular and Medical Biology, Emphasis ... 580
Ceramics, Emphasis ... 114
Chemical Sciences, B.S. ... 590
Chemistry, B.S. ACS Certified ... 592
Chemistry (CHM) ... 722
Chemistry Education 9-Adult, B.A. ... 420
Chemistry, Minor ... 594
Civil Engineering, B.S.C.E. ... 458
Civil Engineering (CE) ... 726
Classics (CL) ... 727
Classics, Concentration ... 349
Classics, Minor ... 347
Clinical Exercise Physiology, Emphasis ... 532
Clinical Lab Sciences (CLS) ... 730
Clinical Laboratory Sciences ... 496
College of Arts and Media ... 91
College of Education and Professional Development ... 405
College of Engineering and Computer Sciences ... 447
College of Health Professions ... 494

College of Liberal Arts 566
College of Science 569
College Programs 450
Combined College and Professional Degrees 681
Commercial Music, B.A. 157
Commercial Pilot - Fixed Wing 687
Communication Disorders 503
Communication Disorders, B.S. 505
Communication Disorders (CD) 732
Communication Disorders, Minor 507
Communication Studies, B.A. 245
Communication Studies (CMM) 734
Communication Studies, Emphasis (Regents Bachelor of Arts) 692
Communication Studies, Minor 251
Computer & Info Security (CYBR) 737
Computer and Information Security, B.S. 468
Computer and Information Security, Minor 470
Computer and Information Technology, B.S. 600
Computer and Information Technology, Minor 604
Computer and Web Application Development, Emphasis 601
Computer Forensics, Minor 613
Computer Information Tech (CIT) 738
Computer Science, Accelerated Master's degree 471
Computer Science, B.S. 471
Computer Science (CS) 740
Computer Science, Minor 473
Conservation and Wildlife, Emphasis 640
Constitutional Democracy, Minor 384
Contact Directory 8
Core Curriculum (General Education) 86
Corrections, Emphasis 610
Counseling (COUN) 743
Courses A-Z 698
Creative Writing, B.A. 262
Creative Writing in English, Emphasis (Regents Bachelor of Arts) 692
Creative Writing, Minor 265
Criminal Justice, B.A. 608
Criminal Justice (CJ) 744
Criminal Justice, Emphasis (Regents Bachelor of Arts) 692
Criminal Justice, Minor 611
Curr Inst Special Ed (CISP) 747
Curriculum & Instruction (CI) 748
Curriculum, Instruction and Foundations 411
Cyber Forensics and Security, B.S. 613
Cyber Forensics and Security (CFS) 751
Cyber Forensics, Emphasis (Regents Bachelor of Arts) 692
Cybersecurity, Accelerated Master's Degree 473

D

Dance (DAN) 752
Dance, Minor 177
Data Science, Accelerated Master's Degree 474
Department of Accountancy and Legal Environment 189
Department of Biological Sciences 571
Department of Biomedical Engineering 452
Department of Chemistry 584
Department of Civil Engineering 455
Department of Communication Studies 241
Department of Computer and Information Technology 598
Department of Computer Sciences and Electrical Engineering 461
Department of Criminal Justice and Criminology 604
Department of Cyber Forensics and Security 611
Department of English 251
Department of Finance, Economics and International Business 193
Department of Finance, Economics and International Business 271
Department of Geography 274
Department of Geology 615
Department of History 287
Department of Management and Health Care Administration 204
Department of Marketing, Management Information Systems (MIS) and Entrepreneurship 219
Department of Mathematics 624
Department of Military Science 238
Department of Modern Languages 297
Department of Natural Resources and the Environment 634
Department of Physics 648
Department of Political Science 310
Department of Psychology 319
Department of Sociology and Anthropology 324
Dietetics 508
Dietetics, B.S. 510
Dietetics (DTS) 753
Digital Forensics Infor Assura (DFIA) 754
Digital Humanities (DH) 754
Digital Humanities, Minor 384

Digital Marketing and Analytics, Emphasis 233
Division of Aviation 684

E

Early Childhood Education 439
Early Childhood Education, B.A. 445
Early Childhood Education (ECE) 756
Early Education PK-K, B.A. (Second specialization only) 447
Earth Science, B.A. 618
Ecology and Evolutionary Biology, Emphasis 582
Economics, B.A. 273
Economics, B.B.A. 198
Economics (ECN) 754
Economics, Minor 200
Economics, Minor 274
Educational Foundations (EDF) 757
Electrical and Computer Engineering, B.S.E.E. 475
Electrical Engineering (EE) 758
Elementary Education K-6 Comprehensive, B.A. 422
Engineering & Science (ENGR) 760
Engineering, B.S.E. 486
Engineering, General Emphasis 488
Engineering Geology, Emphasis 621
Engineering, Industrial and Systems Emphasis 488
Engineering Management, Accelerated Master's Degree 461
Engineering Science, Minor 450
Engineering Transfer Program 450
English Education 5-9, B.A. (Second Specialization only) 423
English Education 5-Adult, B.A. 424
English Education 5-Adult Teaching Specialization 266
English (ENG) 761
English (Generalist), B.A. 265
English, Minor 267
Entrepreneurship, B.B.A. 227
Entrepreneurship (ENT) 772
Entrepreneurship, Minor for Business Majors 229
Entrepreneurship, Minor for Non-Business Majors 229
Environmental Chemistry, B.S. 594
Environmental Geoscience, Emphasis 623
Environmental Science, B.S. 638
Environmental Science, Emphasis 642
Environmental Science (ES) 773
Environmental Science, Minor 643
European History, Minor 294
Exercise Science and Sport (ESS) 773
Exercise Science, B.S. 529
Exercise Science, Minor 534

F

Faculty 881
Fibers, Emphasis 116
Film Studies, Minor 385
Finance, B.B.A. 200
Finance (FIN) 775
Finance, Minor 202
Financial Information: Fees, Assistance, and Scholarships 27
First-Year Seminar (FYS) 776
Forensic Chemistry, B.S. 596
French, B.A. 305
French (FRN) 776
French, Minor 306

G

Game Development, Emphasis (Regents Bachelor of Arts) 692
Game Development, Minor 604
Game/Simulation Development, Emphasis 602
General Business, B.A. 239
General Business, Minor 241
General Humanities, Minor 347
General Science Education 5-9, B.A. (Second Specialization only) 426
General Science Education 5-Adult, B.A. 426
General Sonography, Emphasis 541
Geography - GIScience, Emphasis (Regents Bachelor of Arts) 692
Geography - Human, Emphasis (Regents Bachelor of Arts) 692
Geography - Physical, Emphasis (Regents Bachelor of Arts) 693
Geography, Accelerated Master’s Degree 278
Geography, B.A. 278
Geography, B.S. 279
Geography, Emphasis (Regents Bachelor of Arts) 693
Geography (GEO) 778
Geography, Minor 286
Geology, B.A. 618
Geology, B.S. 619
Geology (GLY) 781
Geology, Minor 624
German (GER) 784
German, Minor 307

GIScience, Certificate or Minor 287
GIScience, Emphasis 281
Graduate College 682
Graphic Design, Emphasis 117
Greek (GRK) 784
Greek, Minor 347

H

Health and Wellness, Minor 534
Health Care Management, B.B.A. 213
Health Communication, Concentration 245
Health Education (HE) 785
Health Professions (HP) 785
Health Science (HS) 786
Health Sciences 513
Health Sciences, B.S. 513
History, B.A. 294
History (HST) 788
History, Minor 296
Honors College 683
Honors (HON) 794
Hospitality and Tourism Marketing, Minor 229
Human Resources and Organizational Behavior, Emphasis 216
Humanities 336
Humanities, B.A. 347

I

Information Assurance, Certificate 615
Information Assurance, Emphasis (Regents Bachelor of Arts) 693
Instruct Tech-Library Science (ITL) 795
Instructional Technology and Library Science, Emphasis (Regents Bachelor of Arts) 693
Integrated Sci & Technology (IST) 796
Integrated Sciences (ISC) 796
Interdisciplinary 356
Interdisciplinary Programs 96
International Affairs 387
International Affairs, B.A. 403
International Affairs (INT) 796
International Affairs, Minor 405
International Business, B.B.A. 202
International Business, Minor 204
Interpersonal Communication, Concentration 247

J

Japanese, B.A. 307
Japanese Education PreK-Adult, B.A. 428
Japanese (JPN) 796
Japanese, Minor 309
Japanese Studies, Minor 307
Jazz Studies, Emphasis 164
Joan C. Edwards School of Medicine 695
Journalism & Mass Comm. (JMC) 798
Journalism, Major 137
Journalism, Minor 142

K

Kinesiology 515

L

Latin American Studies, Minor 386
Latin, B.A. 354
Latin (LAT) 803
Latin, Minor 355
Law Enforcement, Emphasis 610
Learning English Academic Prep (LEAP) 804
Learning Opportunities and Resources 46
Legal Environment (LE) 804
Legal Environment, Minor 193
Legal Studies, Emphasis 610
Lewis College of Business 183
Lewis College of Business (LCOB) 805
Literary Studies, B.A. 267
Literature in English, Emphasis (Regents Bachelor of Arts) 693

M

Management, B.B.A. 214
Management Information Systems, B.B.A. 230
Management Information Systems, Minor 231
Management Information Systems (MIS) 808
Management (MGT) 805
Management, Minor 217
Marketing, B.B.A. 231
Marketing, Minor 237
Marketing (MKT) 808
Mathematics, B.S. 630
Mathematics Education 5-9, B.A. (Second Specialization only) 428
Mathematics Education 5-Adult, B.A. 429

Mathematics, M.A. 632
Mathematics, Minor 632
Mathematics (MTH) 810
Mathematics, Teacher Certification 632
Mathematics-MCTC (MAT) 814
Mechanical Engineering, Accelerated Master's Degree 491
Mechanical Engineering, B.S.M.E. 488
Mechanical Engineering (ME) 814
Media Production, Major 142
Media Studies, Minor 146
Medical Imaging 534
Medical Imaging, Emphasis 657
Medical Imaging, Emphasis - Cardiovascular/Interventional Advanced Practice 543
Medical Imaging, Emphasis - CT Advanced Practice 543
Medical Imaging, Emphasis - CT MRI Advanced Practice 543
Medical Imaging, Emphasis - Mammography 543
Medical Imaging, Emphasis - Medical Imaging Management Advanced Practice 543
Medical Imaging (MI) 816
Medical Imaging Radiography, B.S. 539
Medical Laboratory Science, B.S. 498
Medical Laboratory Technician, A.A.S. 501
Medical Physics, Emphasis 659
Meteorology, Emphasis 283
Meteorology, Minor 287
Microbiology, Emphasis 584
Military Science and Leadership, Minor 238
Military Science, Emphasis (Regents Bachelor of Arts) 693
Military Science (MS) 820
Mine Safety (MSF) 822
Modern Languages (MDL) 823
Multidisciplinary Studies (Music), Emphasis 166
Multimedia Journalism, Emphasis 138
Music, B.A. 159
Music, B.F.A. 162
Music Education PreK-Adult, B.A. 430
Music Entrepreneurship, Minor 173
Music (General), Emphasis 161
Music History, Emphasis 161
Music, Minor 173
Music (MUS) 823
Musical Theatre, B.F.A. 96

N

Nat Resources & Environment (NRE) 833
Natural History and Conservation, Emphasis 584
Natural Res Rec Mgt (NRRM) 835
Natural Resources and Recreation Management, B.S. 644
Natural Resources and Recreation Management, Minor 645
Nursing - Associate Degree 544
Nursing - Bachelor's Degrees 546
Nursing, B.A./B.S. to B.S.N. 549
Nursing (NUR) 837
Nursing, Pre-Licensure, B.S.N. 550

O

Occupational Safety and Health, B.S. 491
Occupational Safety and Health, Minor 494
Organizational Communication, Concentration 248

P

Painting, Emphasis 119
Pedagogy (Music), Emphasis 162
Performance (Music), Emphasis 168
Performance (Theatre), Emphasis 179
Philosophy, Concentration 350
Philosophy, Minor 356
Philosophy (PHL) 840
Photography, Emphasis 121
Phys Ed Lifetime Activities (PEL) 843
Physical Science (PS) 845
Physics and Physical Science, Minor 652
Physics, B.S. 652
Physics Education 9-Adult Comprehensive, B.A. 433
Physics (PHY) 846
Plant Biology, Emphasis 584
Political Science, B.A. 316
Political Science, Emphasis (Regents Bachelor of Arts) 694
Political Science, Minor 318
Political Science (PSC) 849
Pre-Computer Science 477
Pre-Dentistry 681
Pre-Engineering 452
Pre-Health, Major 556
Pre-Professional Health Care Studies, Interdisciplinary Minor 661
Preschool Development, Emphasis (Regents Bachelor of Arts) 694
Printmaking, Emphasis 123

Production (Theatre), Emphasis 181
Professional Writing, B.A. 269
Professional Writing, Minor 271
Psychology, Accelerated Master's Degree Program 322
Psychology, B.A. 322
Psychology, Emphasis (Regents Bachelor of Arts) 694
Psychology, Minor 324
Psychology (PSY) 854
Public Administration, Accelerated Master's Degree 318
Public Communication, Concentration 250
Public Health (PH) 858
Public Relations, Emphasis 135
Public Relations, Minor 146

R

Radio/Television Production and Management, Emphasis 142
Regents, B.A. (RBA) 690
Religious Studies, Concentration 352
Religious Studies, Emphasis (Regents Bachelor of Arts) 694
Religious Studies, Minor 356
Religious Studies (RST) 859
Respiratory Care 556
Respiratory Care, B.S. 560
Respiratory Care (RSP) 862
Risk Management and Insurance, Minor 204
RN to B.S.N. Online Program 554
RRT to B.S.R.C. Technology Enhanced Program 562

S

Safety Technology (SFT) 865
Sales, Emphasis 235
School of Art and Design 100
School of Journalism and Mass Communication 127
School of Music 146
School of Pharmacy 695
School of Theatre 173
Sculpture, Emphasis 124
Sexuality Studies, Minor 386
Social Studies Education 5-9, B.A. (Second Specialization only) 434
Social Studies Education 5-Adult, B.A. 435
Social Studies (SOS) 867
Social Work 562
Social Work, B.S.W. 565
Social Work, Minor 564
Social Work (SWK) 867
Sociocultural Anthropology, Emphasis 333
Sociology, Accelerated Master's Degree Program 334
Sociology, B.A. 334
Sociology, Emphasis (Regents Bachelor of Arts) 694
Sociology, Minor 336
Sociology (SOC) 868
Sonography, Emphasis - Cardiovascular Sonography 544
Sonography, Emphasis - General/OB-GYN 544
Sonography, Emphasis - Pediatric/Fetal Echo Electives 544
Sonography, Emphasis - Professional Sonographers 544
Spanish, B.A. 309
Spanish Education 5-Adult, B.A. 437
Spanish, Minor 310
Spanish (SPN) 871
Spanish Studies, Minor 309
Special Education Multi-Categorical 5-Adult, B.A. (Second Specialization only) 437
Special Education Multi-Categorical K-6, B.A. (Second Specialization only) 437
Specialty Agriculture, B.S. 645
Speech Language Pathology Assistant, Certificate Program 507
Sport Tourism Hospitality Mgt (STHM) 874
Sports Business, B.B.A. 237
Sports Business, Minor 238
Sports Journalism, Emphasis 140
Statistics, B.S. 632
Statistics, Minor 633
Statistics (STA) 875
Student Financial Assistance 40
Studies Abroad (SA) 876
Studio Art 126
Studio Art, Emphasis (Regents Bachelor of Arts) 694
Studio Art, Minor 113
Supply Chain Analytics, Emphasis 217
Sustainability, Interdisciplinary Minor 682
Sustainability Management and Technology, B.B.A. 217
Sustainability Management and Technology, Minor 219

T

Teaching, M.A.T. 296
Theatre, B.A. 177
Theatre, B.F.A. 179
Theatre, Minor 182

Theatre (THE) 876
Theory and Composition, Emphasis 170

U

U.S. Army Reserve Officers' Training Corps 238
Undergraduate 8
Undergraduate A-Z Index 884
Undergraduate Programs A-Z 87
United States History, Minor 297
University Calendar 881
University College 696
University Policies and Procedures 58
University Studies (UNI) 880

V

Video Production, B.A. 98
Video Production, Emphasis 144
Visual Art and Design, Emphasis 111
Visual Arts, B.F.A. 113
Vocal Jazz, Emphasis 162

W

Weather Broadcasting, Emphasis 285
Web Application Development, Emphasis (Regents Bachelor of Arts) 694
Web Development, Minor 604
Weisberg Department of Mechanical Engineering 478
Wellness Education PreK-Adult, B.A. 437
Wellness (WELL) 880
Women's and Gender Studies, Minor 387
Women's Studies, Emphasis (Regents Bachelor of Arts) 695
Women's Studies (WS) 881
World History, Minor 297
