

Riding the Bus Will be Different this Year

Riding the school bus will be different this year because of COVID-19.

When I am waiting to get on the bus I need to stay 6 feet away from my friends.

When I get on the bus, I will wear my mask and sit one person to a seat.

My friends on the bus and the bus driver will be wearing masks too.

While I am on the bus if I need to cough or sneeze, I will try to cough or sneeze into my elbow.

When I get off the bus, I still need to keep 6 feet away from my friends. We will go down the stairs one at a time.

All these changes on the bus are to keep me, my friends, and our bus driver safe.

There are a lot of changes, but I can handle them. It will be fun to be back at school.
