CURRICULUM PLAN COLLEGE OF SCIENCE 2023-2024

BIOLOGICAL SCIENCES CELL, MOLECULAR AND MEDICAL

CORE CURRICULUM

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at marshall.edu/gened.

ORI	1: CRIT	ICAL THINKING				COF	RE 2:				
	CODE	COURSE NAME		HRS	GRADE		CODE	COURSE NAME		HRS	GRADE
	FYS 100	First Year Seminar	•	3			ENG 101	Beginning Composition	•	3	
		Critical Thinking Course	•	3		(ENG 201	Advanced Composition	•	3	
		Critical Thinking Course	•	3		(77	CMM 103	Fund Speech-Communication	•	3

		Multicultural or International		3				Core II Social Science	•	3	
6	3SC 491	Capstone		2				Core II Fine Arts	•	3	

MAJOR-SPECIFIC

All Biological Sciences majors are required to take the following courses:

	CODE	COURSE NAME		HRS	GRADE		CODE	COURSE NAME		HRS	GRADE
	BSC 121/L	Principles of Biology II / Lab	•	3/1		**	CHM 212	Principles of Chemistry II	•	3	
1	CHM 211	Principles of Chemistry I	•	3			CHM 218	Principles of Chemistry II Lab	•	2	
	CHM 217	Principles of Chemistry I Lab	•	2			PHY 201	College Physics I	•	3	
							PHY 202	College Physics I Lab	•	1	

AREA OF EMPHASIS-SPECIFIC

Students who wish to add an area of emphasis in Cell, Molecular and Medical Biology must take the following courses:

					CODE	COURSE NAME		HRS	GRADE
	COURSE NAME			GRADE		AoE Elective	•	3/4	
CHM 355	Organic Chemistry I	•	3			AoE Elective	•	3/4	
CHM 356	Organic Chemistry II	•	3			AoE Elective	•	3/4	
CHM 361	Organic Chemistry II Lab	•	3						
PHY 203	College Physics II	•	3			AoE Elective	•	3/4	
PHY 204	College Physics II Lab	•	1			AoE Elective	•	3/4	
	,	·				AoE Elective	•	3/4

BSC 3	BSC Core Course	•	3/4			BSC Technical Elective	•	3	
BSC 3	BSC Core Course	•	3/4			BSC Technical Elective	•	3	
BSC 3	BSC Core Course	•	3/4				•	_	
						Free Elective (MTH 122		3	
						recommended for PHY pre-req)			

MAJOR INFORMATION

- Students must pass BSC 120 Principles of Biology I & BSC 120L Principles of Biology I Lab and earn a grade of C or better in BSC 121 Principles of Biology II & BSC 121L Principles of Biology II Lab, CHM 211 Principles of Chemistry I, and CHM 212 Principles Chemistry II before they can enroll in any upper-level BSC course except BSC 227 Human Anatomy, BSC 228 Human Physiology and BSC 250 Microbiol & Human Disease.
- BSC 104 Introduction to Biology, BSC 105 Human Biology, BSC 227/227L Human Anatomy, BSC 228/228L Human Physiology, and BSC 250 Microbiol and Human Disease do not count towards a BSC major and cannot substitute for any required or elective BSC courses.
- A minimum of 15 hours of 400-level credit is required.
- · Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- · In addition to the Core General Education requirements, the College of Science requires 3-5 hours of Calculus, and 40 hours of upper level credit. · The CHM coursework provides a Chemical Sciences minor.
- · Coursework listed as "elective" may vary for each student. Students are encouraged to use elective hours toward a 2nd minor or toward prerequisites.
- Students are strongly encouraged to select courses that meet two or more Core or College requirements.
- · Course offerings and course attributes are subject to change. Please consult

each semester's schedule of courses for availability and attributes. MTH 140 Applied Calculus requires ACT Mathematics score of 24 or higher. Students with an ACT Mathematics score less than 24 will be placed in the appropriate prerequisite mathematics courses.

MY ADVISOR'S NAME IS:

- All Biological Science majors are required to complete a minimum of 40 hours of credits in the Department of Biological Sciences.
- Capstone Experience: It is the responsibility of each student to consult his/ her advisor regarding details of meeting the capstone requirement. The capstone may be a traditional independent study research project under the supervision of a faculty member selected by the student, participation in a classroom-based capstone course, or the development and implementation of an internship, co-op, or community-based project. Students must have completed a minimum of 16 hours of BSC coursework before they will be permitted to register for Capstone.
- BSC Core Courses can be chosen from: BSC302, 322, 324, 332/332L, or
- AoE Electives can be chosen from: BSC 301, 304, 340, 404, 417, 420, 422, 423, 424, 426, 428, 443, 448, 450, 451, 454, 456 or CHM 365
- BSC Technical Electives: Select three 300 or 400-level BSC or closely related courses for technical electives. The courses must be approved by the department chair.

FOUR YEAR PLAN COLLEGE OF SCIENCE 2023-2024

BIOLOGICAL SCIENCES CELL, MOLECULAR AND MEDICAL

The Department of Biological Sciences is committed to teaching students about the science of life from molecular to global scales. A degree in Biological Sciences prepares students for careers and graduate study in diverse fields such as human and veterinary medicine, dentistry, biomedical and pharmaceutical research, environmental consulting, wildlife ecology, and K12 or higher education. Students completing the Area of Emphasis in Cell, Molecular and Medical Biology will be prepared for a wide range of careers in fields including biotechnology, cell biology, medicine and/or medical research.

INVOLVEMENT OPPORTUNITIES

- Student Government Association
- Campus Activity Board
- JMELI
- · Commuter Student Advisory Board
- Club Sports
- Religious Organizations
- Political Organizations
- · Residence Hall Association
- Cultural Organizations
- National Society of Leadership and Success

RELATED MAJORS

- Biomechanics
- Athletic Training
- Education
- Geology Geography
- · Environmental Science

GRADUATION REQUIREMENTS

- · Have a minimum of 120 credit hours (some colleges or majors require more);
- · Have an overall and Marshall Grade Point Average of 2.00 or higher;
- Have an overall Grade Point Average of 2.00 or higher in the major area of study;
- · Have earned a grade of C or better in English 201 or 201 H:
- Have met all major(s) and college requirements;
- Have met the requirements of the Core Curriculum
- · Have met the residence requirements of Marshall University, including 12 hours of 300/400 level coursework in the student's college (see section entitled "Residence Requirements" in the undergraduate catalogue);
- Be enrolled at Marshall at least one semester of the senior year;
- · Have transferred no more than 72 credit hours from an accredited West Virginia twoyear institution of higher education.

Colleges and specific programs may have unique requirements that are more stringent than those noted above. Students are responsible for staying informed about and ensuring that they meet the requirements for graduation.

This academic map is to be used as a guide in planning your coursework toward a degree. Due to the complexities of degree programs, it is unfortunate but inevitable that an error may occur in the creation of this document. The official source of degree requirements at Marshall University is DegreeWorks available in your myMU portal. Always consult regularly with your advisor.

BIOLOGICAL SCIENCES CELL, MOLECULAR, MEDICAL — 2023-2024

YEAR ONE

Have guestions? Need to talk? You already have a Friend-At-Marshall ready to help you succeed. Find your FAM Peer Mentor here: www.marshall.edu/fam

Develop relationships with professors

who can serve as future references by

attending their office hours.

In order to graduate on time, you

need to take an average of 15

credits per semester. Are you on

track? Take 15 to Finish.

Stav on the Herd Path and come to class! Class attendance is more important to your success than your high school GPA, your class standing, or your ACT/SAT scores.

Talk with your professors to enhance your study skills and build your critical thinking abilities.

Take a pulse check. Know what you need to do every year to keep your grants, scholarships, or federal financial aid.

Take an elective course that links diversity to your field of study.

YEAR THREE

Think about who can help you grow as a student and a professional (professors, advisors, alumni, etc) and ask at least one to be your mentor.

College is a great time to experience the world! Consider studying abroad in the summer. during Spring Break, or for an entire semester.

Does admission to your chosen graduate or professional school require career shadowing? Start looking for opportunities now.

Complete admissions exams (GRE, MCAT, PCAT, LSAT, etc) the summer before your senior year.

Are you on track to graduate? Meet with your advisor for your Junior Eval to make sure you know what requirements you have left.

Make sure that you stand out. If you are entering a competitive field, ensure that you can highlight challenging courses and experiences.

Want to continue your education and increase your opportunities? Talk to a faculty member about whether graduate school fits your career goals.

YEAR FOUR

graduate? Meet with your advisor for your Senior Eval to see what requirements you have left.

enhance your presentation skills. Present what you've learned at an academic conference off campus.

scholarship like Fulbright, Rhodes, or Gates Cambridge. Contact the Office of National Scholarships at Marshall.

Prepare to present at the CoS Research Expo in April.

Make sure that you stand out. If you are entering a competitive field, ensure that you can highlight challenging courses and experiences.

Talk to faculty about pursuing optional professional certifications.

Be at the top of your professional game! Prepare a final resume and practice your interview skills with a career coach in Career Education.

YEAR TWO

Are you completing enough credits to graduate on time? Dropping or failing a class can put you behind. Use summer terms to quickly get back on track.

Join or create a club or organization related to your interests or career goals. Biology students are members of at least 20 different campus clubs.

Have you considered adding a minor? Think about personal areas of interest you'd like to explore or how you might enhance your major with a related skill set.

No need to wait until graduate school. Discuss undergraduate research opportunities with faculty in your major right now.

Look ahead and be aware of what will be required to apply to graduate or professional schools,

and be sure that you are on track.

Did you do really well in a hard

course? Become a Tutor or a

Supplemental Instructor.

Start looking for volunteer experiences in fields related to your career choice or interest. Talk to professors about what makes a good opportunity.

Strengthen your resume and

Apply for a nationally competitive
