---

---

---

---

---

---

---

---

## Today's Objectives

- ✓ Installing Tier 3 Systems
  - District
  - School
  - Individual
- ✓ Barriers
  - Explore ways to address barriers through training, coaching, and TA
- ✓ Introduction to Tier 3 TFI 3.0

5

2

---

---

---

---

---

---

---

---

## Audience Expectations

- **Be Respectful**
  - Limit Distractions for yourself & your trainer
- **Be engaged**
  - Ask questions
  - Provide eye contact
- **Be Responsible**
  - Take notes
  - Complete surveys when prompted

WV PBIS  
Positive Behavioral Interventions and Supports

3

---

---

---

---

---

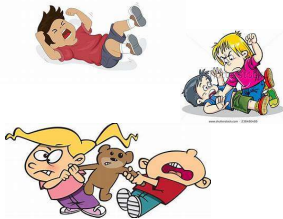

---

---

---

## That "Student"

- Describe that student: single words (don't overthink)
- What interventions were attempted?
- How long did you implement that intervention?
- Was data collected on the intervention consistently?
- Were interventions successful?
- Why do you think the student behaves the way he/she does?

4

---

---

---

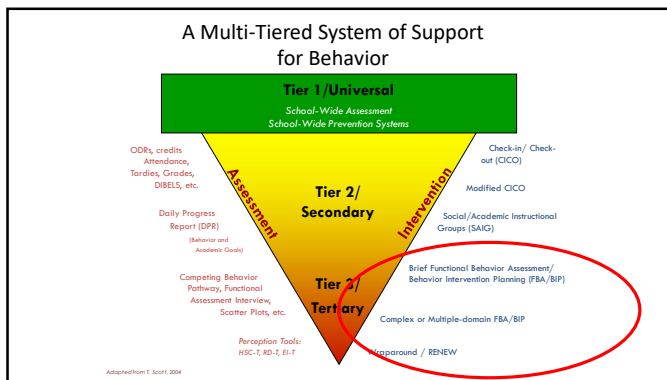

---

---

---

---

---

5

---

---

---

---

---

---

---

---

## What are Tier 3 Supports?

A layer of support in addition to those provided in Tiers 1 and 2.

Individualized supports for both general education and exceptional education students.

Focus is on what is needed to achieve positive outcomes (brief, comprehensive, or wraparound).

PAIS: Public Access to Information System

6

---

---

---

---

---

---

---

---

# 4373 – Expected Behavior in Safe and Supportive Schools

## Section 1. Addressing Inappropriate Behavior with Meaningful Interventions and Consequences

**§126-99-2. Purpose.**

Each school district shall develop, provide, and implement a positive, preventive approach to address inappropriate behavior using a Multi-Tiered System of Supports (MTSS) framework. The purpose of this section is to provide a framework to promote student success, safety, behavioral and mental health, including social and emotional needs, trauma sensitivity, bullying prevention, dropout prevention and truancy reduction to ensure a positive school climate, and cultural and history learning and awareness across the district.

Each school district should identify appropriate and meaningful interventions and consequences.

Through a MTSS framework, school administrators and staff should leverage available school and community resources to provide appropriate evidence-based intervention strategies designed to improve student behavior, minimize student absenteeism, and increase student engagement.

The purpose of interventions is to support, model, and/or teach appropriate behavior to maximize the probability of student success, and decrease the likelihood of continued inappropriate behavior. Interventions should be used to reinforce appropriate behavior to school rules and equity policies regarding student behavior.

# Policy 2419: Regulations For The Education Of Students With Exceptionalities

**WVTSS Policy Support**

1. Universal Behavior Supports At the universal tier, both Policy 2520.19: West Virginia College- and Career-Readiness Dispositions and Standards for Student Success for Grades K-12 and Policy 4373: Expected Behavior in Safe and Supportive Schools are utilized to teach behavioral expectations.

**Policy 2419**

Chapter 7  
DISCIPLINE  
For students with disabilities, the preventive discipline program must include a tiered system of support with Positive Behavior Interventions and Supports (PBIS). If a student's behavior, regardless of the student's disability, impedes the student's learning or the learning of others, the IEP Team must consider the use of strategies, including positive behavioral interventions and supports, to address the behavior. If the IEP Team determines that such services or supports are needed, they must be included in the IEP and must be implemented.

## Assessing District-Level Needs

Tier 3 Initial District Interview

District:	Date:	Interviewer:	Name Title of Interviewer:
<b>District Team Staff Responsible for Tier 3:</b>			
1. Does the district have a team for the purposes of planning, evaluating, and modifying the Tier 3 (individualized) process? (see student specific if yes, skip to question 5) (Figure 5-district policies)			
2. What are the names and roles of the people on the district team? Who is the district team leader/coordinator?			
3. Who on the district team has training and expertise in behavioral principles? When and how did they receive that training (e.g., pre-service, experience, professional development, graduate work)? (Figure 2-behavioral content)			
4. Does the district team include individuals who have the knowledge and skills necessary to facilitate systems change? How do the individuals use their skills to evaluate the likelihood that change will occur? Include individuals who have expertise in implementation science and problem-solving factors impacting implementation and knowledge of how adults change behavior. (Figure 2-system change)			
5. Which members of the district team conduct FBAs and develop BIPs? Are other people (district/school) responsible for conducting FBAs and developing BIPs? If yes, what are their names and roles? What is their training and expertise in behavioral principles? (Figure 2-behavioral content)			
6. How much time are the people in district above expected to devote to conducting the FBA/BIP process? Is the time allocated sufficient? (Figure 3-district resources)			

- **District Process**
  - Alignment of policy, procedures, and practices for effective Tier 3 for all students
  - Coaching & Professional Development Needs
  - Evaluation effectiveness
- **Campus/School-based Process**
  - Process for FBA/BIP
  - Training/Coaching supports for BIP
  - Evaluation of BIP

15

---

---

---

---

---

---

---

---

### Supporting Districts Tier 3 Priorities

8. District allocates sufficient training & technical assistance to support tier 3 implementation activities (e.g., intervention design, delivery, data-based decision making, etc.)	Fully In Place	Partially In Place	Not In Place	Rating/Notes
a. District ensures sufficient training and coaching for implementation of FBA/BIP	District has taken steps to ensure sufficient training and coaching for implementation of FBA/BIP		District has not taken steps to ensure sufficient training and coaching for implementation of FBA/BIP	
b. District provides training and technical assistance regarding collaboration and skills related to collaboration	District has implemented a plan for training and technical assistance regarding collaboration and skills related to collaboration		District does not have a plan in place for training and technical assistance regarding collaboration and skills related to collaboration	
c. District ensures that data is utilized to identify and differentiate skill vs. performance deficits	District has implemented measures to ensure that data is utilized to identify and differentiate skill vs. performance deficits		District has not implemented measures to ensure that data is utilized to identify and differentiate skill vs. performance deficits	

Tier 3 Priority Organizers  
<https://www.livebinders.com/play/play?id=3202235#anchor>

Tier 3 Action Plans  
<https://www.livebinders.com/media/get/MjM2MTcwOTA=>

16

---

---

---

---

---

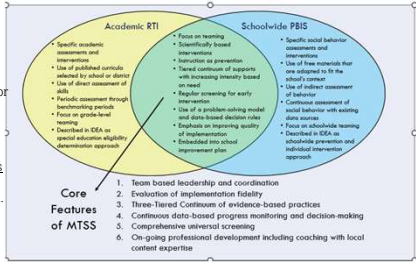

---

---

---

### FBA/BIP: Apart of a bigger system

One way that district and schools can meet the needs of all students who require individualized behavior support, while maximizing the efficient use of valuable time and resources, is by developing and providing a continuum of Tier 3 supports and defining FBA/BIP as a process that can vary in complexity based on student need.

17

---

---

---

---

---

---

---

---

### Questions to Consider for District Planning to Support FBA/BIPs

Why is the quality of most FBA/BIPs poor?

How can districts enhance the technical adequacy of FBA/BIPs?

What is needed to support districts in implementing evidence-based processes?

How can districts ensure an effective FBA/BIP process is in place?

How can districts ensure all students needing T3 supports are included, not just students with externalizing behavior problems?

18

---

---

---

---

---

---

---

---

Questions to Consider with District Data Systems to Support Tier 3

1. Identifies students needing T3 supports?

2. Provides baseline (pre-intervention) data for all students identified to receive T3 supports?

3. Provides post-intervention data to monitor how students are doing after intervention implementation?

4. Tracks specific problem & replacement behaviors?

5. Identifies & tracks specific interventions being implemented?

6. Drills down by students in specific schools, grade-levels, categories, classrooms, & behaviors?

7. Provides fidelity data?

Are any of these challenges for your district's data system? If so, which one(s)?

PBIS

Positive Behavioral Interventions & Supports

---

---

---

---

---

---

Data Systems for Evaluating Effectiveness

To effectively implement Tier 3, a district must have a functional data system to review data at multiple levels (e.g., student, teacher, school, district) across all tiers.

Tier 1

Tier 2

Tier 3

• Office referrals

• Minor/Classroom referrals

• Attendance

• In School Suspension

• Out of School Suspension

• Restraint/Seclusion

• Equity (Disproportionate Discipline)

• Core Effectiveness

• Climate Surveys

• SESIR

• Tier 1 Fidelity (PIC, BoQ)

• Weekly progress monitoring (groups & individual student)

• Intervention-specific monitoring

• Comprehensive summary

• Tier 2 Fidelity (TFI)

• Comparison across Tier 1 data

• Daily direct observation data (frequency, duration, etc.)

• Antecedent, Behavior, Consequence observations

• Individual student reports

• School-level progress summaries by student and intervention

• Tier 3 Fidelity (TFI)

PBIS

Positive Behavioral Interventions & Supports

20

---

---

---

---

---

---

---

---

Subscale: Tier 3 Systems

Tier 3 is defined as intensive, individualized intervention provided to students who exhibit behavior errors, as evidenced by data.

Current Status

Feature

Priority for Improvement

In Place

Partially In Place

Not In Place

High

Med

Low

1. Tier 3 System Planning Team

A Tier 3 team with an administrator and a member with social-emotional behavioral expertise meets regularly and shares updates with staff.

2. Team Procedures

The Tier 3 team has developed a process for regularly engaging and communicating with staff (e.g., process for gathering staff input, questions, and/or concerns for meeting agendas).

3. Student Identification

The Tier 3 team uses multiple sources of data to identify students who require intensive, individualized social-emotional tier 3 services.

4. Request for Assistance

A Tier 3 team uses a formal process available to all staff, families, and students requesting additional intensive, individualized social-emotional behavioral support.

5. Options for Tier 3 Intervention

There is a formal problem-solving process for developing function-based supports to address the social-emotional behavior needs of individual students.

6. Tier 3 Critical Features

Behavior support plans include or consider all strategies for prevention, teaching, responding to behavior based on function, and a safety plan.

7. Access to Tier 1 and Tier 2 Supports

Students participating in Tier 3 interventions also receive or have access to Tier 1 and Tier 2 supports.

8. Stakeholder Engagement

Staff, families and students are engaged in planning, implementing, and evaluating individualized behavior support plans.

9. Professional Development

Training on function of behavior and implementing function-based individualized supports is available to staff at least annually.

10. Generalization and Maintenance

Individualized function-based behavior support plans include processes to generalize and maintain expected behavior.

11. Student Progress Monitoring

Each student's individual support team has established a formal process for monitoring the progress of students on Tier 3 behavior support plans.

12. Level of Use

Our Tier 3 team routinely shares with staff the proportions of students participating in Tier 3.

13. Fidelity

A formal process exists for monitoring staff implementation of Tier 3 behavior support plans and routinely sharing fidelity data.

14. Annual Evaluation

The Tier 3 team shares with staff and stakeholders a summary of yearly data reflecting the effectiveness of Tier 3 practices including year-to-year comparisons of outcome data (e.g., students participating, students graduating, students in need of additional supports, in a suitable format).

21

---

---

---

---

---

---

---

---

7

**Tier 3 System -**  
***What we know from our work with districts***

**Most Districts DO NOT have...**

1. A **Tier 3 leadership team**
2. **Job-embedded coaching** to support Tier 3 implementation
3. An **effective data system**
  - Track students receiving Tier 3 support
  - Monitor student progress
  - Monitor intervention effectiveness
  - Easy & efficient graphing of progress for teachers & families

**Most Districts Employ...**

1. **Traditional methods** to train on FBAs/BIPs (ppts, forms)
2. **Inconsistent process** between general & special education
3. **Vaguely defined** procedures to identify students needing Tier 3 supports
4. **Limited procedures** to measure...
  - Fidelity of FBA/BIP process
  - Intervention implementation

PBIS

22

---

---

---

---

---

---

---

---

**FBAs and BIPs**  
***What we know from our work with districts***

- No link between interventions & hypothesis
- Vague description of interventions
- No replacement behavior
- 'Stock' list of possible rewards & consequences
- Over-reliance on consequential interventions
- Missing follow-up plans
- No plan for measuring fidelity

- Teams often lacked teacher or significant adult(s)
- No baseline data
- Target behavior missing or inadequately defined
- Minimal detail on setting events & antecedents
- No consequences (i.e., response of others following problem behavior)
- Weak link between hypothesis & FBA components
- Hypothesis missing, incomplete or inadequate
- No link to student function of behavior

PBIS

23

---

---

---

---

---

---

---

---

**Tier 3 System - District Challenges**

**Absence of clear guidelines** for developing a results-driven T3 system that is practical and efficient for school application.

↓

**Minimal ongoing district supports** to ensure implementation and sustainability of evidence-based processes.

↓

**Shortage of trained personnel** who can implement T3 practices with fidelity

↓

Tier 3 system change may take 5+ years

**Are any of these challenges for your district?**  
**If so, which one(s)?**

PBIS

36

**3.1 Team Composition:** Tier 3 leadership team (or combined Tier 2 and Tier 3 Team) includes the following roles: 1-2 Tier 3 systems coordinators (i.e., coaches), a school administrator, a representative group of educators (e.g., grade level or departmental representation, general and special education, certified and non-certified staff), **members from marginalized groups**, relevant community partners (e.g., mental health providers), and individuals who actively provide expertise in the following areas:

- applied behavior support
- mental health and **respite**
- academic instruction
- coaching
- equity
- physical health and wellness (e.g., nurse, health teacher)
- data systems and information regarding system and student academic and SEL progress and need
- operations of the school across grade levels and programs

0	1	2	3	4
Team does not exist or does not include a coordinator, school administrator, or individuals with applied behavioral expertise.	Team exists, but does not include all identified roles, or <b>participation of these members is below 80%.</b>	Team with all roles exists and is <b>actively engaged with participation of all roles at or above 80%.</b>	Team with all roles exists, is actively engaged with participation of all roles at or above 80%, and <b>either a written process exists for selecting, orienting, recruiting, and retaining team members or Tier 3 leadership team includes members from the group that is most exposed to disparate outcomes in your school</b>	Team with all roles exists, is actively engaged with participation of all roles at or above 80%, and <b>both a written process exists for selecting, orienting, recruiting, and retaining team members and Tier 3 leadership team includes members from the group that is most exposed to disparate outcomes in your school</b>

PBIS Positive Behavioral Interventions and Supports

37

**3.2 Team Operating Procedures**

**3.2 Team Operating Procedures:** Tier 3 leadership team has (a) regular meeting format/agenda that prompts the regular review of Tier 3 practices, systems, and data, (b) established and regularly used team norms, (c) defined meeting roles (e.g., timekeeper, facilitator, recorder), (d) regular (e.g., quarterly) two-way data sharing and communication with Tier 1 and Tier 2 teams to inform decision making, and (e) a current action plan, (f) procedure for evaluating fidelity of team operating procedures (e.g., Team Initiated Problem Solving (TIPS) Fidelity Checklist) at least twice annually, and (g) a formal process to monitor the impact of team norms and procedures on ensuring all team members are able to participate as equal partners.

0	1	2	3	4
Team does not meet monthly, use regular meeting format/agenda, minutes, defined roles, or a current action plan.	<b>Team meets at least monthly and has at least three but not all six of the procedures listed a-f.</b>	Team meets at least monthly and has at least <b>four but not all six of the procedures listed a-f.</b>	Team meets at least monthly and has at least <b>five but not all six of the procedures listed a-f, and either g or h.</b>	<b>Team meets at least monthly and has all eight of the procedures listed a-g.</b>

**Possible Data Sources:**  
 Tier 3 team meeting agendas and minutes  
 Tier 3 meeting roles descriptions  
 Tier 3 action plan  
 Team Initiated Problem Solving (TIPS) fidelity checklist items 1-9

PBIS Positive Behavioral Interventions and Supports

38

**3.8 Level of Use**

**3.8 Level of Use:** Tier 3 leadership team follows a **written process** to track the proportion of students **participating in and experiencing success** in Tier 3 supports, determining if access is **appropriate** (i.e., % of total student population supported by Tier 3 is reasonable given context) and **equitable** (i.e., disaggregated data demonstrate equitable representation in Tier 2 support by subgroup [e.g., race/ethnicity, TEP/SEA, language status, gender]), and disaggregated data are examined and shared with Tier 1 and Tier 2 teams to inform the distribution of tiered supports.

0	1	2	3	4
Team does not have criteria for or track the number of students participating or experiencing success in Tier 3 interventions.	Team has <b>defined criteria for</b> counting a student as participating and experiencing success in Tier 3 and uses criteria to report the <b>number and percentage</b> of students participating and experiencing success in Tier 3 interventions <b>overall and by subgroup to Tier 1 and 2 teams at least annually</b>	Team has defined criteria for counting a student as participating and experiencing success in Tier 3 and uses criteria to report the number and percentage of students participating and experiencing success in Tier 3 interventions overall and by subgroup	Team has defined criteria for counting a student as participating and experiencing success in Tier 3 and uses criteria to report the number and percentage of students participating and experiencing success in Tier 3 interventions overall and by subgroup <b>and examines data to determine whether access is appropriate and equitable and shares data with Tier 1 and 2 teams at least quarterly</b>	Team has defined criteria for counting a student as participating and experiencing success in Tier 3 and uses criteria to report the number and percentage of students participating and experiencing success in Tier 3 interventions overall and by subgroup <b>and examines data to determine whether access is appropriate and equitable and shares data with Tier 1 and 2 teams at least quarterly</b>

**Possible Data Sources:**  
 Tier 3 enrollment data

PBIS Positive Behavioral Interventions and Supports

39

## Individual-Level Systems (SAT Process)

Team membership reflects the needs of the student

Assessment is function-based but can vary in intensity

Behavior intervention plans are linked to the assessment

Staff leading teams have **trained** expertise that is **coached** to other members

Collects and **evaluates** relevant data to make decisions regarding student success

40

---

---

---

---

---

---

---

---

## TEAMING

**Tier 3 team member suggestions:  
(This could be your SAT team)**

Individuals who will help in the development of FBA/BIP plans:

- ❖ Administrator
- ❖ Lead facilitator
- ❖ Referring Teacher
- ❖ Special Education Teacher
- ❖ Counselor
- ❖ School Psychologist
- ❖ Paraprofessionals (one-on-one aid)
- ❖ Parent

41

---

---

Continuum of Tier 3 Features across Levels

	Level 1 (Efficient)	Level 2 (Comprehensive)	Level 3 (Wrap around)
Team	<ul style="list-style-type: none"> <li>Team is small in size</li> <li>May only consist of a school-based consultant and teacher</li> <li>Problem-solving process is used</li> <li>Family input is sought</li> <li>Student is included when appropriate</li> </ul>	<ul style="list-style-type: none"> <li>Team size expands to include multiple people within the school, the family and the district</li> <li>Team roles and responsibilities are defined</li> <li>Consensus process established</li> </ul>	<ul style="list-style-type: none"> <li>Team size expands to include people from all areas of student's life who are vested in ensuring student is successful</li> <li>Outside agencies and other supports are involved</li> <li>Problem-solving process is used as foundation</li> <li>Includes person-centered planning models to develop a vision and targeted goals that lead to a wrap-around system of supports for the student</li> </ul>
FBA	<ul style="list-style-type: none"> <li>Gathering of FBA information primarily indirect methods (e.g., within structured meeting with a hypothesis developed)</li> </ul>	<ul style="list-style-type: none"> <li>Both indirect and direct methods of gathering FBA data used</li> </ul>	<ul style="list-style-type: none"> <li>In addition to the FBA, other data to be collected include:                             <ul style="list-style-type: none"> <li>Strength needs assessment</li> <li>Assessment reflecting view of student and family</li> <li>Personal, family, and community resources</li> <li>Other assessment information to identify additional areas of need or conditions that inform intervention (e.g., medical exams)</li> </ul> </li> </ul>
BIP	<ul style="list-style-type: none"> <li>Plan developed within the FBA meeting</li> <li>Primary intervention focuses on teaching and reinforcement strategies suggested by the hypothesis</li> <li>Plan addresses contextual/environmental factors that enhance success and minimize barriers of the plan</li> </ul>	<ul style="list-style-type: none"> <li>Multiple component plan developed that links to the hypotheses</li> <li>Backup plan developed if needed</li> </ul>	<ul style="list-style-type: none"> <li>Full range of intervention options considered</li> <li>Action plan that addresses goals developed from vision</li> </ul>
Program Monitoring and Evaluation	<ul style="list-style-type: none"> <li>Plan for collecting student outcome data</li> <li>Plan for collecting reports of intervention implementation</li> <li>Plan for following up with team within reasonable time frame (e.g., 3 weeks) to review response to intervention</li> <li>Decision-making structure established for determining next steps based on response to intervention</li> </ul>	<ul style="list-style-type: none"> <li>In addition to fidelity and student outcome data, quality of the social setting, and facilitator of process and implementer of plan</li> </ul>	<ul style="list-style-type: none"> <li>Outcome measures broader than student change in behavior (e.g., quality of life, satisfaction of multiple agencies planned including consistent follow-up to determine progress in action steps to meeting goals derived from vision</li> </ul>

**Why do we conduct FBAs?**

- Reduce maladaptive behaviors by increasing positive behaviors.
- Effective in general and special education settings.
- Often required by law for students with IEPs that are facing placement change and/or have behavior goals in their IEPs.
- Aligned with **WV Policy 4373** requirements to problem solve around behaviors instead of solely providing consequences Aligned with WV
- **WV Policy 2419** discipline process for students with disabilities under the IDEA (Policy 4373 Chapter 2, Section 2)
- Research indicates that **an effective behavior intervention plan is tied to function.**

---

---

---

---

---

---

**Identification Process**

**From Tier 2, you have multiple sources of data.**

- No Response Intervention Data (chronic behavior, intense behaviors)
- FACTS
- Academic Progress
- Screening Tools
- Attendance

**You have a written plan on how to get students into Tier 3:**

- Universal Screeners
- Data Decision Rules
- Teacher nomination system

**PBIS**

Behavior Intervention Plan  
Identify Behavior Support Strategies

Review/Update Intervention Plan (BIP)

Student name: \_\_\_\_\_ Date: \_\_\_\_\_

Hypothesis statement: \_\_\_\_\_

Setting Event Strategies	Antecedent Strategies	Teaching Strategies	Consequence Strategies
Consider strategies to address or monitor/identify setting events	Consider strategies to prevent/modify identified "triggers" (prior problem behavior)	Consider strategies for teaching the replacement/alternative behavior	Consider strategies for reducing the use of the replacement behavior
	Consider strategies for promoting the replacement/alternative behavior	Consider strategies for teaching the desired behavior	Consider strategies for responding to the problem behavior
			Consider including a Safety Plan if needed

Components/ Common Language of FBA  
\*Must Haves\*

- ABC's of Behavior
- Problem Behavior
- Setting Events
- Antecedent/Trigger
- Consequences

- Function
- Desired Behavior
- Reinforcers
- Replacement Behaviors

FBA and BIP Technical Adequacy Evaluation Tool (TATE)

District/State: \_\_\_\_\_ Evaluator: \_\_\_\_\_ Date of Review: \_\_\_\_\_ IRR ☐ Yes ☐ No IRR Score: \_\_\_\_\_

ID: \_\_\_\_\_ Date of FBA: \_\_\_\_\_ Date of BIP: \_\_\_\_\_

Directions: Score each item using the Product Evaluation Scoring Guide.

Component	Item	Scoring Guide	Score
Part I: FUNCTIONAL BEHAVIOR ASSESSMENT  Data Gathering and Hypothesis Development	1. Input is collected from multiple people/sources to complete the functional behavior assessment. Check all that apply: <input type="checkbox"/> Student interview <input type="checkbox"/> Parent interview <input type="checkbox"/> Teacher interview <input type="checkbox"/> Rating Scales <input type="checkbox"/> Direct Observations <input type="checkbox"/> Record Review <input type="checkbox"/> Efficient FBA team meeting, ERASE, etc. <input type="checkbox"/> Other _____	0 = unable to determine 1 = transcription or list of signatures with no detail 2 = two or more sources with supporting details	
	2. Problem behaviors are identified and operationally defined. (Easily observable and measurable). If more than one behavior is identified, it is clear which behaviors will be the focus of the FBA. List problem behavior(s): _____	0 = no problem behavior identified 1 = behaviors are identified but definitions are ambiguous or subjective 2 = ALL identified behaviors are operationally defined	
	3. Baseline data on the problem behaviors are collected and detailed or summarized. The data are in addition to office discipline referrals (ODR), in-school suspension (ISS), and/or out of school suspension (OSS) data. <input type="checkbox"/> Target Behavior <input type="checkbox"/> Method <input type="checkbox"/> Time Frame <input type="checkbox"/> Analysis	0 = unable to determine 1 = data collected, but omits at least one of the essential details 2 = data collected AND includes all 4 essential details	
	4. Setting events (i.e., slow triggers; antecedent events that provide the context or "set the stage" for a higher likelihood of problem behavior) are considered, identified (if present) and the contingency to the problem behavior is described. List setting events (slow triggers): Distant event _____ Environmental, social, or physiological events _____	0 = unable to determine, OR no inclusion setting events were considered 1 = identified, no contingency AND contingency described, OR clear inclusion no setting events exist 2 = identified AND contingency described, OR clear inclusion no setting events exist	
	5. Antecedent events (immediate triggers) that precede and predict the occurrence of problem behavior are identified and specified. List antecedents (triggers): _____	0 = none, OR not antecedents 1 = identified, lacks detail 2 = identified AND detailed

## Wrap Around Supports

- ❖ Wraparound differs from many service delivery strategies, in that it provides a comprehensive, holistic, youth and family-driven way of responding when children or youth experience serious mental health or behavioral challenges. Wraparound puts the child or youth and family at the center of the process to develop a support plan.
- ❖ The student and their family members work with a Wraparound facilitator to build their Wraparound team, which can include the family's friends and people from the wider community, as well as providers of services and supports.
- ❖ There is now strong evidence that, when Wraparound is done well (i.e., with "fidelity"), young people with complex needs are more likely to be able to stay in their homes and communities, or, should a crisis occur, to be in out-of-home placements only for short periods of time.

## Wraparound Principles

1. Family voice and choice
2. Team Based
3. Natural Supports
4. Collaboration
5. Community based
6. Culturally Competent
7. Individualized
8. Strengths-based
9. Unconditional
10. Outcome based

❖ All these principles are consistent with a PBIS approach and can result in a seamless connection between PBIS practices at Tier 3, that include Functional Behavior Assessments and Behavior Intervention Plans, and wraparound supports.

❖ **Four phases of effort:**

- ❖ 1. Engagement and team preparation
- ❖ Initial plan development
- ❖ Implementation
- ❖ Transition.
