IV. Election of Officers

It was noted that two of our board members, Gary White and Bob Shell would rotate off the Board. Both members have been tremendous servants to the University and the State of West Virginia. Gary White has been on the Board for 8 years under the new structure but many more before that. He appreciated this distinguished privilege to serve and thanked the University for the opportunity. Mr. Shell has been on the Board for 8 years under the new structure. He also appreciated the support of the Board and the opportunity to serve on the board of Governors. Mr. Shell also shared information on his health and the good news on his visit to the Cleveland Clinic. He thanked everyone for their well wishes and concerns. Mrs. Gibson commented that the impact of these members not being on the Board would be felt and we should not let them get far from the fold as they are both critical to the University. Mr. Hess commented that two big hitters would end their term and that we needed to tether them to the University.

V. President's Report

Dr. Kopp gave an update with a Powerpoint presentation that can be accessed at <http://www.youtube.com/watch?v=2aO0BOcLZ4Q>. He discussed the economic impact study released May 2010 noting that UP&S, the MU Foundation, and MURC were not included in the study. Since the completion of a prior study in 2008, MU's impact has tripled. Dr. Kopp stressed that many groups of individuals believe Higher Education cost the State money. However, the message to be communicated is that Higher Education brings money into the State and adds tremendous value. After the presentation and many accolades, the Board discussed avenues to use to communicate this message and how to formulate a framework of Public Policy.

In a video presentation, Dr. Kopp updated the Board of Governors with the progress made since developing the strategic initiatives that started in 2006. Items highlighted were:

- Enrollment growth for FY 2011 is estimated to be approximately \$3.3 in revenue;
- Marketing – Work will continue on a comprehensive marketing plan this summer;
- A capacity study is being developed this summer;
- **MU Online – More internal vs. external. Will work with Faculty to change and to offer more programs;**
- An initiative several years ago was to increase giving by Faculty and Staff...and it has increased this year;
- Grants and Contracts – will be close to \$48 million this year. MURC has done a great job;
- STEM Academy – pursuing approval for a “pilot” project;
- Follett Bookstore – celebrating 15 year partnership anniversary. New program “Rent-A-Text” starts this Fall and should be very successful.

The upcoming Soccer Tournament and what it means to the University was discussed. Mr. Shell met someone in Florida that wanted to attend MU because of their positive experience during their visit last year's Tournament last year.

VI. Committee Reports

Finance, Audit and Facilities Planning Committee, John G. Hess, Chair

Updates from various areas were given. From Athletics, David Steele and Mike Hamrick gave the great news that our Academic Program Rate was all passing. There will be no sanctions or loss of scholarships. The average GPA for football is between 2.1 to 2.64. Season ticket sales are about 3,000 ahead...13,000 current, 10,600 last year. Mr. Hamrick feels the program is heading in the right direction. Facility needs are a track, baseball field and indoor practice facility.

Perry Chaffin, University Auditor, provided an update on the Hotline calls, and other audit work in progress.
