Winter Commencement 2022

Winter Commencement 2022
Marshall University

Today's Ceremony

Welcome to Marshall University on this day of special recognition of our candidates for graduation. We hope you will find this ceremony – a culmination of the efforts of faculty, staff, our students and their families – both meaningful and impressive.

While awaiting the start of the ceremony, you may wish to read the historical notes on West Virginia's oldest university on the following pages. There also is a brief description and picture of The Grand Mace. The narration on academic heraldry will detail the significance of the costumes worn by the participants in today's ceremony.

The exercises begin with the platform party consisting of the Academic Deans, Honorary Degree recipients, special guests of the President and the President of the University are led to the platform by the Chief Faculty Marshal, a distinguished member of the faculty, bearing The Grand Mace. The placing of The Grand Mace on the platform signifies the solemnity of the occasion and officially denotes the opening of the ceremony.

The University requests that in keeping with the formality of the occasion, once the procession begins, please do not move onto the floor during the ceremony. And, out of respect for the ceremony, please turn off all cellular phones and electronic devices before the procession.

Later in the ceremony, the audience is requested to remain seated when the graduates come forward to be recognized individually. We will have a photographer in place to take each graduate's picture.

Following the singing of the Alma Mater, graduates will be presented with their degrees on stage. The audience is requested to be seated following the Alma Mater until the platform party and faculty have recessed which will signal the end of the program.

Once again, welcome to the 2022 Commencement exercises of Marshall University. Enjoy this day of academic celebration with the Marshall Family of faculty, staff and students.

Recessional Platform Party

Commencement Speaker

Josh Brunty is a native of West Virginia and a renowned expert in the areas of digital forensics. He's an Associate Professor of Digital Forensics in the Marshall University College of Science. Brunty is a former digital forensics laboratory manager and examiner with over a decade of experience in the field of digital forensics and high-tech crime investigation.

Prior to joining Marshall University in 2012, he spent several years as a Digital Forensics Examiner and Laboratory Technical Leader assisting in many high-profile cases for agencies around his home state of West Virginia, as well as serving on several federal and state-level cybercrime task forces and panels.

Professor Brunty has also served as a Director of Marshall University's GenCyber camp: an NSA-funded initiative aimed at educating the next generation of digital forensics and cyber security professionals. He's also served as the faculty advisor for the Marshall University Cyber Defense Competition Team.

Brunty has developed a variety of digital forensic training sessions and curriculum, including past recertification scenarios and examinations for the International Association of Computer Investigative Specialists. He's the author of books, book chapters and journal publications in the fields of digital forensics, mobile device forensics and social media investigation. His research interests include mobile device forensics and multimedia forensics. He is a frequent speaker at international and national digital forensic security conferences, and guest lectures at various universities throughout the world.

The President's Medallion and Grand Mace

Marshall University traces its origins to the founding of the Marshall Academy in 1837. The Academy was named in honor of John Marshall, the fourth Chief Justice of the United States Supreme Court, who died on July 6, 1835.

The Marshall University community has taken great pride in observing the memory of our namesake, who was described by biographer Jean Edward Smith, an esteemed member of the Marshall University faculty until his death in 2019, as the “Definer of the United States Constitution”. John Marshall was a man for the ages in an era that brought forth greatness. Characterized by others as befitting Thomas Babington Macaulay’s description, “He neither sought nor shunned greatness, and found glory only because glory lay in the plain path of duty.”

Chief Justice John Marshall served the Supreme Court in that capacity from 1801 to 1835, the longest serving Chief Justice in United States history. He is widely regarded as having established a broad interpretation of the Constitution of the United States, which established the Constitution as the basis of the American legal system and the “rule of law” as the law of the land. During his tenure as Chief Justice, the Judicial Branch of the new American government rose to a level of importance commensurate with that of the Executive and Legislative Branches.

John Marshall’s image is used prominently in both the Marshall University President’s Medallion and the Grand Mace of the University. The President’s Medallion is the badge of office for the presidency of Marshall University. It consists of a relief carving of the seal of the university, which features the likeness of John Marshall. It is worn by the President when he is participating in formal University ceremonies.

The Grand Mace, a symbol of authority and leadership, is carried by the Chief Marshal of the Faculty at all formal University occasions and is displayed on the platform during these functions. The mace is made from a limb that fell from the Old Beech Tree in front of Old Main on the Huntington campus. The beech tree was part of the original farm on which Marshall Academy was founded, and was a campus fixture until it was toppled by a wind storm in 1987. It was believed to have been more than 300 years old and had initials and marks carved by hundreds of former Marshall students.

The top of the mace consists of a gold-plated bronze casting that features, on one side, the Seal of Marshall University, and, on the other side, the Great Seal of the State of West Virginia. These features are surrounded by beech leaves and the entire casting is crested by a torch, symbolic of academic excellence.

Immediately below the top casting is a four-sided section with carved symbols significant to the history of the University – the towers of Old Main, the Memorial Fountain, the seal of Marshall College, and an American bison (commonly known as a buffalo), official mascot of the institution's athletic teams. The area immediately surrounding the four carvings features small clusters of beech nuts and leaves.

The center portion of the mace is carved in double-wrap ribbon, one-half inch wide. Between the gaps in the ribbon wraps are carved beech leaves descending in size. The base of the mace is protected by a gold-plated bronze casting of beech leaf clusters. The entire mace weighs about 25 pounds and is 66 inches from the top of the torch to the base.

Both the President's Medallion and the Grand Mace were created in 1986 by Byron Johnson. Mr. Johnson, an honor graduate of Marshall University, is a renowned wood carver and sculptor, as well as an art teacher in the public schools.

Academic Heraldry

The academic costumes worn in the procession of today's Commencement and at other formal University occasions trace their origins to those worn by faculty and students at medieval European universities. With only minor modifications these costumes have remained largely unchanged since the 16th century. Standards for colleges and universities in the United States were established in 1895 with the adoption of an Intercollegiate Code which specifies design and color appropriate for various degrees. As in medieval times, the costumes worn on formal academic occasions denote the wearer's academic heritage.

Modern academic costume consists of three parts: the gown or robe, a headpiece, and a hood. The style of the gown denotes the wearer's level of education. The baccalaureate gown is the simplest in design. Usually black, it is distinguished by a wide yoke with shirring in front and back and by open flowing sleeves which end in a point. The baccalaureate gown is worn closed.

The master's gown is similar to the baccalaureate gown except that it has a closed or glove sleeve which is open at the wrist. The master's gown has no other trim and may be worn either open or closed.

The doctoral gown is full flowing and has large bell shaped sleeves. It is trimmed with velvet panels down the front and has velvet chevrons on the sleeves. While black is still the predominate color for doctoral gowns, the trim may be in a color which denotes the wearer's discipline or the color of the gown may denote the wearer's university.

The mortar board is the headpiece most often worn at American universities for formal occasions. It is appropriately worn with the board flat on the top of the head and with the tassel falling from the left quarter of the board. Tassel colors usually denote the field of discipline in which the wearer's degree was earned. Doctoral tassels are often gold. The soft velvet Tudor cap is also worn by many who hold the doctorate.

While the gown and headpiece denote the wearer's level of education, it is the hood which adds meaning and dimension to the academic costume. Changed little since medieval times, the hood is worn falling from the shoulders down the back of the gown in a display of vivid color. It is edged in velvet which by its color denotes the field of discipline in which the wearer's degree was earned and it is lined in two colors of silk which represents the college or university from which the degree was earned. Hence the Marshall University hood is lined in green and white and edged with the appropriate discipline color.

A partial listing from the Intercollegiate Code for colors signifying academic disciplines follows:

Agriculture	Maize	Music.....	Pink
Arts and Humanities.....	White	Nursing.....	Apricot
Business Administration	Drab	Oratory (Speech)	Silver Gray
Dentistry	Lilac	Pharmacy.....	Olive Green
Economics	Copper	Philosophy.....	Dark Blue
Education	Light Blue	Physical Education.....	Sage Green
Engineering.....	Orange	Public Administration	Peacock Blue
Fine Arts and Architecture	Brown	Public Health.....	Salmon Pink
Forestry.....	Russet	Science.....	Golden Yellow
Home Economics	Maroon	Social Science.....	Cream
Journalism	Crimson	Social Work	Citron
Law.....	Purple	Theology or Divinity	Scarlet
Library Science	Lemon	Veterinary Science.....	Gray
Medicine	Green		

At Marshall University, holders of the bachelor and associate degrees do not wear hoods. The color of the tassel on their caps indicates the level of academic excellence achieved in pursuit of their respective degrees.

Profile of Marshall University

The early days of Marshall University are filled with rich history and traditions.

To put things in chronological perspective, the academic saga started in 1837 when the good citizens of Guyandotte and the farming country to the west – now the city of Huntington – decided they needed an annual school to provide for the education of their youth.

Tradition records they met at the home of John Laidley, who assumed leadership of the project and named the new school Marshall Academy in honor of his friend, the late Chief Justice John Marshall. They decided to locate their new school on a knoll known as “Maple Grove,” site of a small log building called Mount Hebron Church. The structure also had served for some time as a subscription school for the area.

It wasn’t until March 30, 1838, that the General Assembly of Virginia passed an act formally incorporating Marshall Academy and appointing Laidley and eight other men as trustees.

On June 30 of that year, the trustees purchased from James and Lucy Holderby the one and one-fourth acre lot containing their log “academy.” The price: \$40. That land is now the site of Old Main.

The trustees proceeded to build a new two-story, brick building, 22 feet wide and 50 feet long, containing four rooms. It was completed by February, 1839.

The first full school term was conducted in 1838-39. In 1850, the academy and its financial obligations were accepted by the Conference of the Methodist Episcopal Church, South. In 1858, Marshall Academy was renamed Marshall College. Due to financial problems the property was sold at public auction in 1861.

Ms. Salina Mason bought the land and building for \$1,500 for her father, John W. Hite. He was a Confederate sympathizer and could not appear in court in his own behalf. For the next few years, Hite and his family lived in the college building.

During at least part of the war, a small school, probably a subscription school, was maintained at the college – fulfilling a provision in the original deed from James Holderby which specified it was to be used “...for the express purpose of an Academy (sic) and for no other use.” The building also was used as a hospital during part of the conflict.

Meanwhile, the new state of West Virginia had recognized the need for an institution to train teachers to serve the state’s public schools.

On Feb. 27, 1867, the Legislature voted approval of a bill establishing a “state normal school” to be located at Marshall College.

In order to get the college reopened, the voters of Cabell County approved a property tax levy amounting to \$5,000. The state also appropriated

funds and on Aug. 1, 1867, the school’s regents purchased the lot and building from Mrs. Mason for \$3,600.

The first session of Marshall College as a state normal school began June 15, 1868.

In 1905, construction was started on the final section of Old Main. This is the familiar “towers” segment facing the main entrance to the campus on Hal Greer Boulevard. With its completion, Old Main consisted of five sections.

Athletics got their start at Marshall with the first football team being fielded in 1898. The Marshall teams originally were known as the Blue and Black, but the now-familiar Green and White colors had been adopted by 1904.

In 1907, Marshall was still strictly a secondary school. By 1912, the regents had added two years of study to the school’s program, equivalent to the freshman and sophomore years in college. In 1914, President Corbly recommended that “...Marshall College should be made a ‘college’ in fact as well as in official name – a degree-conferring institution.”

The years ahead saw steady academic and physical expansion and Marshall became a university in 1961. Marshall has an enrollment of about 12,000, a full-time instructional faculty of 816 and 230 part-time instructors.

The small academy has become a major university, functioning through the following 12 academic units: the Graduate College; the the College of Engineering and Computer Sciences; the College of Business; the College of Education and Professional Development; the College of Arts and Media; the College of Liberal Arts; the College of Science; the Joan C. Edwards School of Medicine; the University College; the College of Health Professions, the Honors College and the School of Pharmacy.

Marshall has two major campuses-one in Huntington and one in South Charleston – along with several learning centers including the Joan C. Edwards School of Medicine; the Marshall Medical Center; the Learning Resource Center in Gilbert; the Teays Valley Regional Center in Putnam County; the Mid-Ohio Valley Center in Point Pleasant; the Southern Mountain Center in Logan; the Robert C. Byrd Institute for Advanced Flexible Manufacturing, and the Public Higher Education Center in Beckley.

Marshall continues to grow academically, adding a Doctor of Physical Therapy program and a School of Pharmacy in 2012. The inaugural physical therapy class graduated in 2015. The School of Pharmacy’s first class graduated in 2016. Newer programs include aviation, biomedical engineering and a physician’s assistant degree.
