**Change in COURSE CONTENT:**  YES  NO

From Current content remains.

To Additional content:  
The current content being presented will be expanded upon with the addition of class time for clinical case management pertaining to the obstetric patient. The following topics will be expanded upon:

- a. Anatomy, physiology, and pathophysiology
- b. Pharmacology
- c. Anesthesia techniques/procedures
- d. High-risk parturients
- e. Nonobstetric surgery in the parturient
- f. Management of complications

Rationale The request for an increase in the anesthesia practice content hours is in response to a recent analysis of program success and effectiveness by the faculty within the nurse anesthesia program. The program plans to use these additional hours to offer more direct anesthesia practice content, without the need to increase the total hours required for program completion. A total of fifteen (15) semester hours will be transferred toward more anesthesia practice content allowing for a greater focus on clinical case management, basic and advanced principles, and simulation labs.
