

Request for Graduate Addition, Deletion, or Change of Area of Emphasis-Page 1

- 1. Prepare one paper copy with all signatures and supporting material and forward to the Graduate Council Chair.
- 2. E-mail one PDF copy without signatures to the Graduate Council Chair. If attachments included, please merge into a single file.
- 3. **The Graduate Council cannot process this application until it has received both the PDF copy and the signed hard copy.**

Effective Term/Year Fall 20 19 Spring 20 Summer 20

Notifications

Attach a copy of written notification regarding this curriculum request to the following:

- 1. Statement of Non-Duplication: If this area of emphasis will be similar in title or content to an existing area of emphasis, please send a memo to the affected department/division and include a copy with this packet as well as the response received from the affected department.
- 2. If your department/division requires additional faculty, equipment, or specialized materials, attach an estimate of cost and time required to secure these items.

Signatures: if disapproved at any level, do not sign. Return to previous signer with recommendation attached.

President _____	Date _____

Request for Graduate Addition, Deletion, or Change of Area of Emphasis-Page 2

1. Please provide a rationale for addition, deletion, change:

Currently there are no areas of emphasis in the Clinical and Translational Science MS program. The field of clinical and translational science has become more specialized since the program started, and we need to respond to student needs by adding new areas of emphasis. This area of emphasis will train students to lead clinical trials of new drugs and procedures.

2. Please describe any changes in curriculum:

Course number, title, credit hours. Note whether each course is required or optional. Enter NONE if no change.

Attached

3. **Additional Resource Requirements:** If your program requires additional faculty, equipment or specialized materials to ADD or CHANGE this Area of Emphasis attach an estimate of the time and money required to secure these items. May attach separate page if needed

NOTE: approval of this form does not imply approval for additional resources. Enter NOT APPLICABLE if not applicable.

NOT APPLICABLE

4. **NON-DUPLICATION:**

If a question of possible duplication occurs, attach a copy of the correspondence sent to the appropriate department(s) describing the request and any response received from them.

Enter NONE if not applicable.

This area of emphasis is not duplicated elsewhere in the University.

For catalog changes as a result of the above action, please fill in the following pages.

Request for Graduate Addition, Deletion, or Change of Area of Emphasis-Page 3

5. **Current Catalog Description**

Insert the *Current* Catalog Description and page number from the latest catalog for entries you would like to change.
(May attach separate page if needed)

Attached

6. **Edits to the Current Description**

Attach a PDF copy of the current catalog description prepared in MS Word with strikethroughs to mark proposed deletions and use the highlight function to indicate proposed new text.

7. **New Catalog Description**

Insert a 'clean' copy of your proposed description, i.e., no strikethroughs or highlighting included. This should be what you are proposing for the new description. (May attach separate page if needed)

Request for Graduate Addition, Deletion, or Change of Area of Emphasis-Page 4

Please insert in the text box below your Area of Emphasis change information for the Graduate Council agenda. Please enter the information exactly in this way (including headings):

Department:

Area of Emphasis Title:

Credit Hours:

Type of Change Requested: *(addition, deletion, change)*

Term to Take Effect: *(Fall, Spring, Summer/Year)*

Rationale:

Department: Clinical and Translational Science

Area of Emphasis Title: Clinical Trials

Credit Hours: 43

Type of Change Requested: Addition

Term to Take Effect: Fall 2019

Rationale: Currently there are no areas of emphasis in the Clinical and Translational Science MS program. The field of clinical and translational science has become more specialized since the program started, and we need to respond to student needs by adding new areas of emphasis. This area of emphasis will train students to lead clinical trials of new drugs and procedures.

CLINICAL AND TRANSLATIONAL SCIENCE, M.S.

Program Description

The Clinical and Translational Science (CTS) Department in the Marshall University Joan C. Edwards School of Medicine offers a Master of Science (M.S.) degree in Clinical and Translational Science. The goal of this program is to equip physicians in-training and other biomedical scientists with the information and training they need to translate basic clinical advances into improved patient care that will enhance the quality of life for patients in the Appalachian region, particularly southern West Virginia.

Students will receive education in clinical trial design, epidemiology, statistics, informatics, and translational research. Graduates of this program will be able to lead clinical trials of new drugs and procedures in West Virginia, particularly in its rural regions. CTS graduates also will be strong applicants for positions in schools of medicine and medical centers that have clinical and translational science centers.

Pages 225-226

Degree Requirements

All students are required to meet the general requirements of the Graduate College for receipt of a master's degree. A minimum of 36 credit hours is required for a non-thesis degree. In addition, all students must pass a written and/or oral comprehensive exam.

All students will take the following courses.

Year I Fall

- BMR 660 Communication Skills I
- BMR 680 Seminar
- CTS 600 Epidemiology and Biostatistics Used in Medical Research
- CTS 620 Basic Clinical Research Operations
- CTS 635 Writing and Peer Review of Scientific Publications
- CTS 640 Clinical Trials Journal Club

Year I Spring

- BMR 661 Communication Skills II
- BMR 680 Seminar
- CTS 610 Study Design and Applied Statistics in Medical Research
- CTS 614 Online Survey Tools, Relational and Data Warehousing, and Data Manipulation
- CTS 630 Fundamentals of Team Science
- CTS 640 Clinical Trials Journal Club

Summer Semester

- CTS 650 Rural Clinic Experience

Year II Fall
