

Request for Graduate Non-Curricular Changes

PLEASE USE THIS FORM FOR ALL NON-CURRICULAR CHANGE REQUESTS (changes in admission requirements or requirements for graduation, changes in existing or new policies/procedures, changes in program descriptions in catalog, general language changes in catalog).

SIGNATURES may not be required, depending on the nature of the request and from where it originates. Consult Graduate Council Chair.

1. Prepare one paper copy with all signatures and supporting material and forward to the Graduate Council Chair.
2. E-mail one identical PDF copy to the Graduate Council Chair.
3. **The Graduate Council cannot process this application until it has received both the PDF copy and the signed hard copy.**

College: Pharmacy Dept/Division: Pharmaceutical Sciences

Contact Person: Boyd Rorabaugh Phone: 696-7289

Rationale for Request:

The application dates are being changed to April 1 (for fall matriculation) and October 1 (for spring matriculation). The previous date (July 1) was too late to accommodate international applicants who need to acquire visas and meet other immigration requirements. The additional deadline of October 1 will enable students to matriculate in either the Fall or Spring semesters.

Changes in the admissions process (two recommendation letters rather than three; GRE scores are now optional rather than an admission requirement) are intended to minimize barriers to the application process.

The change in the number of credit hours during the Spring, Year 1 semester corrects a typographical error.

Signatures: if disapproved at any level, do not sign. Return to previous signer with recommendation attached.

NOTE: all requests may not require all signatures.

Department/Division Chair *Boyd Rorabaugh* Date 4/14/20

Registrar *Sonyia* Date 4-15-20

College Curriculum Committee Chair *Bill Rorabaugh* Date 4-15-20
(or Dean if no college curriculum committee)

Graduate Council Chair _____ Date _____

NOTE: please complete information required on the following pages before obtaining signatures above.

Request for Graduate Non-Curricular Changes – Page 3

2. **Edits to current description:** Attach or insert a PDF copy of the current catalog description prepared in MS WORD with strikethroughs to mark proposed deletions and use the highlight function to indicate proposed new text.

See Attachment "catalog description revised 041420"

Request for Graduate Non-Curricular Changes – Page 5

Please insert below your proposed change information for the Graduate Council agenda.

Type of change request: Non curricular

Department: Pharmaceutical Sciences and Research

Degree program: Master of Science / Master of Arts in Pharmaceutical Sciencess

Effective date (fall/spring/summer, year): Fall 2020

PHARMACEUTICAL SCIENCES, M.S.

Program Description

The Department of Pharmaceutical Sciences and Research at the Marshall University School of Pharmacy offers the Master of Science (M.S.) (thesis and non-thesis options) degree with a major in Pharmaceutical Sciences. Students may complete the requirements for a M.S. under a faculty mentor in areas ranging from cellular and molecular pharmacology to antibiotic formulation and methods of drug delivery.

The M.S. (Thesis) degree in Pharmaceutical Sciences is preparation for further study or employment requiring pharmaceutical research experience and requires a thesis. An M.S. student must be mentored by a faculty member, so applicants are encouraged (but not required) to contact potential faculty advisors about research projects and graduate assistantships prior to applying for admission. Information about faculty may be accessed through the School of Pharmacy website (www.marshall.edu/pharmacy/about-us/staff-directory). The M.S. (non-thesis) degree does not require a thesis and allows students to strengthen their education in Pharmaceutical Sciences through the completion of advanced coursework and a research program.

The School of Pharmacy expects to be accepting matriculating students for the Fall of 2019.

Admission Requirements

Applicants should follow the admissions process described in this catalog or at the Graduate Admissions website at www.marshall.edu/graduate/admissions/how-to-apply-for-admission. Applicants are strongly encouraged to apply by the priority deadline (July 31) where applicable.

Applicants should send the following materials directly to the Graduate Admissions Office:

- Three letters of recommendation from academic or professional references;
- Graduate Record Exam (GRE) scores. Applicants must specify that official test scores are to be sent directly to Marshall University.

Applicant must also have:

- An earned baccalaureate degree, a combination undergraduate GPA of 3.0 on a 4.0 scale for all previously completed undergraduate university work and a GRE score of at least 150 on both verbal and quantitative sections and a writing score of at least 4.0 or matriculating students with a recommended PCAT score of 50. Prior to admission, prospective students must also complete an on-site or video interview.

Graduate Assistantships

Students interested in applying for financial support must submit a completed Application for Graduate Assistantship by April 15 or November 15 for the Fall or Spring semester, respectively. The Application for Graduate Assistantship Form is available from the Department of Pharmaceutical Sciences website (www.marshall.edu/pharmacy/student-info/prospective-students/MSPS).

Requirement for All Degrees

A Plan of Study approved by the student's advisor must be submitted for approval to the Graduate College Dean before the student registers for his or her 12th semester hour. The Plan of Study is a student's "blueprint" for completing graduation requirements. Students must also have a thesis committee (M.S.) or advising committee (M.A.) consisting of no fewer than three faculty (including the student's advisor) assembled by the end of their first year. Students must meet with their committees at least once within their first year and at least once per semester (excluding the defense) in subsequent years.

M.S. Degree Requirements for Thesis Option

- Students must complete the graduate coursework as noted in the following section, including the thesis. The maximum number of credits that may be earned for the thesis is 12 hours.
- Candidates must register for and participate in MSPS 542, Graduate Seminar, during each of the semesters in which they are actively enrolled in the graduate program.
- Not more than 4 hours of Graduate Seminar (MSPS 542) may be used to complete the M.S. program credit requirement.
- Successful completion of the master's program in Pharmaceutical Sciences requires a GPA of 3.0 or higher, and no more than 6 credit hours of C grades may be applied to the total hours for graduation.
- Upon completion of course requirements and the thesis, M.S. candidates must pass a comprehensive oral examination.

PHARMACEUTICAL SCIENCES, M.S.

Program Description

The Department of Pharmaceutical Sciences and Research at the Marshall University School of Pharmacy offers the Master of Science (M.S.) (thesis and non-thesis options) degree with a major in Pharmaceutical Sciences. Students may complete the requirements for a M.S. under a faculty mentor in areas ranging from cellular and molecular pharmacology to antibiotic formulation and methods of drug delivery.

The M.S. (Thesis) degree in Pharmaceutical Sciences is preparation for further study or employment requiring pharmaceutical research experience and requires a thesis. An M.S. student must be mentored by a faculty member, so applicants are encouraged (but not required) to contact potential faculty advisors about research projects and graduate assistantships prior to applying for admission. Information about faculty may be accessed through the School of Pharmacy website (www.marshall.edu/pharmacy/about-us/staff-directory). The **M.S.** (non-thesis) degree does not require a thesis and allows students to strengthen their education in Pharmaceutical Sciences through the completion of advanced coursework and a research program.

The School of Pharmacy expects to be accepting matriculating students for the Fall of 2019.

Admission Requirements

Applicants should follow the admissions process described in this catalog or at the Graduate Admissions website at www.marshall.edu/graduate/admissions how to apply for admission. Applicants are strongly encouraged to apply by ~~the priority deadline (July 31) where applicable.~~ April 1 for matriculation in the Fall semester or by October 1 for matriculation in the Spring semester. However, applications will be considered on a rolling basis as long as there is capacity remaining in the program.

Applicants should request that the following materials be sent directly to the Graduate Admissions Office:

- ~~Three~~ **Two** letters of recommendation from academic or professional references.
- **Official transcripts from degree granting institution (additional transcripts may be required, at the discretion of the program).**

~~Graduate Record Exam (GRE) scores. Applicants must specify that official test scores are to be sent directly to Marshall University.~~

Applicant must also have:

An earned baccalaureate degree from an accepted, accredited institution with a degree GPA of 3.0 on a 4.0 scale. **No entrance exam is required.** However, Graduate Record Exam (GRE) scores may be submitted to strengthen your application. Prior to admission, prospective students must also complete an on-site or video interview.

Graduate Assistantships

A limited number of graduate assistantships are available on a competitive basis. Additional information is provided on the Graduate College Graduate Assistantship overview web page: <https://www.marshall.edu/graduate/graduate-assistantship-overview/>

For additional financial aid information visit Marshall University's Financial Aid website (<https://www.marshall.edu/sfa/>) or contact the financial aid office to speak with a representative (304-696-3162).

Students interested in applying for financial support must submit a completed Application for Graduate Assistantship by April 15 or November 15 for the Fall or Spring semester, respectively. The Application for Graduate Assistantship Form is available from the Department of Pharmaceutical Sciences website (www.marshall.edu/pharmacy/student-info/prospective-students/MSPS).

Requirement for All Degrees

A Plan of Study approved by the student's advisor must be submitted for approval to the Graduate College Dean before the student registers for his or her 12th semester hour. The Plan of Study is a student's "blueprint" for completing graduation requirements. Students must also have a thesis committee (**M.S.**) or advising committee (**M.A.**) consisting of no fewer than three faculty (including the student's advisor) assembled by the end of their first year. Students must meet with their committees at least once within their first year and at least once per semester (excluding the defense) in subsequent years.

M.S. Degree Requirements for Thesis Option

Students must complete the graduate coursework as noted in the following section, including the thesis. The maximum number of credits that may be earned for the thesis is 12 hours.

Candidates must register for and participate in MSPS 542, Graduate Seminar, during each of the semesters in which they are actively enrolled in the graduate program.

Not more than 4 hours of Graduate Seminar (MSPS 542) may be used to complete the M.S. program credit requirement.

Successful completion of the master's program in Pharmaceutical Sciences requires a GPA of 3.0 or higher, and no more than 6 credit hours of -C grades may be applied to the total hours for graduation.

Upon completion of course requirements and the thesis, M.S. candidates must pass a comprehensive oral examination.

**ACCELERATED MASTER'S DEGREE (AMD)
Program Proposal**

Chair: Tracy Christofero

GC#10: AMD

Prepare **one** paper copy with all signatures and forward to the Graduate Council Chair. Additionally, send **one** identical ELECTRONIC COPY with all supporting documentation as an e-mail attachment by to the Graduate Council Chair for electronic distribution to the Graduate Council Curriculum Committee.

Guidelines for an AMD Proposal

Accelerated Master's Degree Programs may be developed between an undergraduate and graduate program in a single department, between two programs in a single school/college or between programs in two different schools/colleges. AMD programs enrich the opportunities of the best undergraduates at Marshall University, enabling them to earn a Bachelor's and Master's degree in much less time than it would take following the traditional path. AMD students do not double count credits. They can take up to 12 graduate credits to be applied to the master's degree in place of 12 undergraduate elective credits. They will earn the undergraduate degree with up to 12 fewer credit hours, depending on how many graduate hours they take.

Rationale: The proposal should identify the rationale or need for an AMD, and, if the undergraduate and graduate programs are in different departments, clarify how they are appropriate for the AMD.

Rationale: Improved career prospects for graduating students and an expanded range of elective course options will arise from an AMD program linking the undergraduate Bachelor of Science in Civil Engineering (BSCE) [TE60] and the graduate Master of Science in Engineering (MSE), Civil and Environmental Engineering major [GTE0]. Increased enrollment in graduate courses is also anticipated. The AMD will allow BSCE students to take up to four graduate courses in lieu of existing undergraduate degree requirements.

Admission Requirements: The proposal should state whether admission requirements for the AMD differ from regular admission requirements (e.g. waive test scores).

Admission Requirements: AMD applicants currently enrolled in the BSCE degree are exempt from the regular admission requirement to provide a letter of recommendation, and are permitted to begin graduate courses prior to completing the full list of "foundation courses" identified in the graduate catalog description of the Civil and Environmental Engineering major. (Note: all applicable course prerequisites still apply.) International students are not required to take additional English proficiency exams (e.g., IELTS, TOEFL, etc.).

AMD Credits: The proposal may allow an undergraduate student to earn a maximum of 12 credits in approved graduate courses to be applied to the master's degree. These 12 credits take the place of 12 undergraduate electives. Please note the maximum allowed credits.

AMD Credits: 12 credits

Curriculum: The proposal should show how a student can complete the Bachelor's degree by lowering the number of undergraduate credits (up to 12) with up to 12 graduate credits that will apply to the master's degree.

Curriculum: The existing degree requirement for the undergraduate Bachelor of Science in Civil Engineering (BSCE) is 124 credit hours, which includes ENGR 451 (Project Management, 3 credit hours), two "Civil Engineering Electives" (6 credit hours) and one "Technical Elective" (3 credit hours). AMD students would be permitted to take the graduate level EM 660 (Project Management) in place of ENGR 451, and three graduate level elective courses in place of the Civil Engineering Electives and Technical Elective.

A summary of the BSCE and MSE degree requirements accompanies this proposal.

Student Eligibility: AMD applicants must have a minimum over-all grade point average of 3.30 and 3.30 in the major. Programs may require a higher GPA. Please note your required GPA.

Student Eligibility: Over-all GPA of 3.30 and in-major GPA of 3.30

Summary of Degree Requirements for the BSCE (TE60) degree

Bachelor of Science in Civil Engineering (BSCE)

Semester 1		Semester 2	
ENGR 103 Freshman Engr. Seminar	1	CE 102 Intro to CAD	2
ENGR 104 Engineer. Profession	1	ENGR 111 Engineering Comp.	3
MTH 229 Calculus I (CT)	5	MTH 230 Calculus II	4
ENG 101 English Composition	3	ENG 201 Adv. Composition	3
FYS 100 First Year Seminar	3	PHY 211 Physics I	4
Communications	3	PHY 202 Physics I Lab	1
	16		17
Semester 3		Semester 4	
ENGR 213 Statics	3	ENGR 214 Dynamics	3
CE 241 Geomatics	3	ENGR 216 Mech. of Def. Bodies	3
MTH231 Calculus III	4	ENGR 222 Engr. Cost Analysis	3
CHM 211 Chemistry I	3	CHM 212 Chemistry II	3
CHM 217 Chemistry I Lab	2	CHM 218 Chemistry II Lab	2
ENGR 217 Co-Op Prep	1	MTH 335 Differential Equations	3
	16		17
Semester 5		Semester 6	
ENGR 318 Fluid Mechanics	3	CE 322 Geotechnical Engr.	4
CE 319 Fluid Mechanics Lab	1	CE 331 Hydraulic Engr.	3
CE 312 Structural Analysis	3	CE 342 Transportation Engr.	3
CE 321 Civil Engr. Materials	4	CE 351 Environmental Engr.	3
STA 345 Applied Prob. & Statistics	3	CE Design Elective	3
	14		16
Semester 7		Semester 8	
CE Design Elective	3	CE Elective	3
CE Elective	3	CE 453 Capstone Senior Design	3
ENGR 451 Project Management	3	Technical Elective	3
CE 452 Senior Seminar for CE	1	Fine Arts	3
Social Science	3		
Humanities	3		
	16		12

CE Design Elective (6 hours)

- CE 413 Reinforced Concrete Design or CE 414 Steel Design
- CE 425 Foundation Design
- CE 434 Water and Wastewater Treatment Design
- CE 438 Pavement Design or CE 443 Transportation Systems Design

CE Electives (6 hours)

- Any 300-level or 400-level CE course not taken to satisfy a CE Design Elective.
- CE 341 Advanced Geomatics
 - CE 413 Reinforced Concrete Design
 - CE 414 Steel Design
 - CE 425 Foundation Design
 - CE 426 Retaining Structures and Slope Stability
 - CE 433 Hydrologic Engineering
 - CE 434 Water and Wastewater Treatment Design
 - CE 438 Pavement Design
 - CE 443 Transportation Systems Design

Technical Elective (3 hours)

- Any 300-level or higher CE course not taken to satisfy a CE Design Elective or CE Elective.
- Any 200-level or higher ENGR, ME or EE course, with advance approval from the student's advisor and Chair.

Graduate courses would replace the highlighted courses.

Graduate Catalog Description for the MSE, Civil and Environmental Engineering (GTE0) degree

MAJOR: Civil and Environmental Engineering

Each Civil and Environmental Engineering major must have completed the Foundation Courses listed below (and their associated prerequisites), or their equivalents as approved by their advisor before being fully admitted. Until this requirement is satisfied, the student can only receive Provisional admission to the program. All other admission requirements must still be satisfied.

Foundation Courses:

ENGR 318	Fluid Mechanics	
CE 312	Structural Analysis	
CE 342	Transportation Engineering	
CE 413	Reinforced Concrete	or CE 414 Steel Design
CE 331	Hydraulic Engineering	
CE 351	Environmental Engineering	

Coursework Only Option (30 hours)

Required courses

One of:	ENGR 610, ENGR 620, or ME 601	3 hrs
EM660	Project Management	3 hrs

Elective courses 24 hrs

Project Option (30 hours)

Required courses

One of:	ENGR 610, ENGR 620, or ME 601	3 hrs
EM660	Project Management	3 hrs
TE 699	Comprehensive Project	3 hrs

Elective courses 21 hrs

Thesis Option (30 hours)

Required courses

One of:	ENGR 610, ENGR 620, or ME 601	3 hrs
EM 660	Project Management	3 hrs
ENGR 682	Research	6 hrs

Elective courses 18 hrs

Elective Courses for the Civil and Environmental Engineering Major

- Any CE (Civil Engineering) graduate course approved in advance by the student's advisor
- Any ENVE (Environmental Engineering) graduate course approved in advance by the student's advisor.
- Any EM (Engineering Management) graduate course approved in advance by the student's advisor.
- Any ES (Environmental Science) graduate course approved in advance by the student's advisor.
- Any ENGR (Engineering) graduate course approved in advance by the student's advisor.
- Other graduate courses approved in advance by the student's advisor, up to 6 credit hours.

**ACCELERATED MASTER'S DEGREE (AMD)
Program Proposal**

Chair: Tracy Christofero

GC#10: AMD

Prepare one paper copy with all signatures and forward to the Graduate Council Chair. Additionally, send one identical ELECTRONIC COPY with all supporting documentation as an e-mail attachment by to the Graduate Council Chair for electronic distribution to the Graduate Council Curriculum Committee.

Guidelines for an AMD Proposal

Accelerated Master's Degree Programs may be developed between an undergraduate and graduate program in a single department, between two programs in a single school/college or between programs in two different schools/colleges. AMD programs enrich the opportunities of the best undergraduates at Marshall University, enabling them to earn a Bachelor's and Master's degree in much less time than it would take following the traditional path. AMD students do not double count credits. They can take up to 12 graduate credits to be applied to the master's degree in place of 12 undergraduate elective credits. They will earn the undergraduate degree with up to 12 fewer credit hours, depending on how many graduate hours they take.

Rationale: The proposal should identify the rationale or need for an AMD, and, if the undergraduate and graduate programs are in different departments, clarify how they are appropriate for the AMD.

Rationale: Improved career prospects for graduating students and an expanded range of elective course options will arise from an AMD program linking the undergraduate Bachelor of Science in Civil Engineering (BSCE) [TE60] and the graduate Master of Science in Engineering (MSE), Civil and Environmental Engineering major [GTE0]. Increased enrollment in graduate courses is also anticipated. The AMD will allow BSCE students to take up to four graduate courses in lieu of existing undergraduate degree requirements.

Admission Requirements: The proposal should state whether admission requirements for the AMD differ from regular admission requirements (e.g. waive test scores).

Admission Requirements: AMD applicants currently enrolled in the BSCE degree are exempt from the regular admission requirement to provide a letter of recommendation, and are permitted to begin graduate courses prior to completing the full list of "foundation courses" identified in the graduate catalog description of the Civil and Environmental Engineering major. (Note: all applicable course prerequisites still apply.) International students are not required to take additional English proficiency exams (e.g., IELTS, TOEFL, etc.).

AMD Credits: The proposal may allow an undergraduate student to earn a maximum of 12 credits in approved graduate courses to be applied to the master's degree. These 12 credits take the place of 12 undergraduate electives. Please note the maximum allowed credits.

AMD Credits: 12 credits

Curriculum: The proposal should show how a student can complete the Bachelor's degree by lowering the number of undergraduate credits (up to 12) with up to 12 graduate credits that will apply to the master's degree.

Curriculum: The existing degree requirement for the undergraduate Bachelor of Science in Civil Engineering (BSCE) is 124 credit hours, which includes ENGR 451 (Project Management, 3 credit hours), two "Civil Engineering Electives" (6 credit hours) and one "Technical Elective" (3 credit hours). AMD students would be permitted to take the graduate level EM 660 (Project Management) in place of ENGR 451, and three graduate level elective courses in place of the Civil Engineering Electives and Technical Elective.

A summary of the BSCE and MSE degree requirements accompanies this proposal.

Student Eligibility: AMD applicants must have a minimum over-all grade point average of 3.30 and 3.30 in the major. Programs may require a higher GPA. Please note your required GPA.

Student Eligibility: Over-all GPA of 3.30 and in-major GPA of 3.30

Summary of Degree Requirements for the BSCE (TE60) degree

Bachelor of Science in Civil Engineering (BSCE)

Semester 1		Semester 2	
ENGR 103 Freshman Engr. Seminar	1	CE 102 Intro to CAD	2
ENGR 104 Engineer. Profession	1	ENGR 111 Engineering Comp.	3
MTH 229 Calculus I (CT)	5	MTH 230 Calculus II	4
ENG 101 English Composition	3	ENG 201 Adv. Composition	3
FYS 100 First Year Seminar	3	PHY 211 Physics I	4
<i>Communications</i>	3	PHY 202 Physics I Lab	1
	16		17
Semester 3		Semester 4	
ENGR 213 Statics	3	ENGR 214 Dynamics	3
CE 241 Geomatics	3	ENGR 216 Mech. of Def. Bodies	3
MTH231 Calculus III	4	ENGR 222 Engr. Cost Analysis	3
CHM 211 Chemistry I	3	CHM 212 Chemistry II	3
CHM 217 Chemistry I Lab	2	CHM 218 Chemistry II Lab	2
ENGR 217 Co-Op Prep	1	MTH 335 Differential Equations	3
	16		17
Semester 5		Semester 6	
ENGR 318 Fluid Mechanics	3	CE 322 Geotechnical Engr.	4
CE 319 Fluid Mechanics Lab	1	CE 331 Hydraulic Engr.	3
CE 312 Structural Analysis	3	CE 342 Transportation Engr.	3
CE 321 Civil Engr. Materials	4	CE 351 Environmental Engr.	3
STA 345 Applied Prob. & Statistics	3	CE Design Elective	3
	14		16
Semester 7		Semester 8	
CE Design Elective	3	CE Elective	3
CE Elective	3	CE 453 Capstone Senior Design	3
ENGR 451 Project Management	3	Technical Elective	3
CE 452 Senior Seminar for CE	1	<i>Fine Arts</i>	3
<i>Social Science</i>	3		
<i>Humanities</i>	3		
	16		12

CE Design Elective (6 hours)

- CE 413 Reinforced Concrete Design or CE 414 Steel Design
- CE 425 Foundation Design
- CE 434 Water and Wastewater Treatment Design
- CE 438 Pavement Design or CE 443 Transportation Systems Design

CE Electives (6 hours)

- Any 300-level or 400-level CE course not taken to satisfy a CE Design Elective.
- CE 341 Advanced Geomatics
 - CE 413 Reinforced Concrete Design
 - CE 414 Steel Design
 - CE 425 Foundation Design
 - CE 426 Retaining Structures and Slope Stability
 - CE 433 Hydrologic Engineering
 - CE 434 Water and Wastewater Treatment Design
 - CE 438 Pavement Design
 - CE 443 Transportation Systems Design

Technical Elective (3 hours)

- Any 300-level or higher CE course not taken to satisfy a CE Design Elective or CE Elective.
- Any 200-level or higher ENGR, ME or EE course, with advance approval from the student's advisor and Chair.

Graduate courses would replace the highlighted courses.

Graduate Catalog Description for the MSE, Civil and Environmental Engineering (GTE0) degree

MAJOR: Civil and Environmental Engineering

Each Civil and Environmental Engineering major must have completed the Foundation Courses listed below (and their associated prerequisites), or their equivalents as approved by their advisor before being fully admitted. Until this requirement is satisfied, the student can only receive Provisional admission to the program. All other admission requirements must still be satisfied.

Foundation Courses:

ENGR 318	Fluid Mechanics	
CE 312	Structural Analysis	
CE 342	Transportation Engineering	
CE 413	Reinforced Concrete	or CE 414 Steel Design
CE 331	Hydraulic Engineering	
CE 351	Environmental Engineering	

Coursework Only Option (30 hours)

Required courses

One of:	ENGR 610, ENGR 620, or ME 601	3 hrs
EM660	Project Management	3 hrs

<i>Elective courses</i>	24 hrs
-------------------------	--------

Project Option (30 hours)

Required courses

One of:	ENGR 610, ENGR 620, or ME 601	3 hrs
EM660	Project Management	3 hrs
TE 699	Comprehensive Project	3 hrs

<i>Elective courses</i>	21 hrs
-------------------------	--------

Thesis Option (30 hours)

Required courses

One of:	ENGR 610, ENGR 620, or ME 601	3 hrs
EM 660	Project Management	3 hrs
ENGR 682	Research	6 hrs

<i>Elective courses</i>	18 hrs
-------------------------	--------

Elective Courses for the Civil and Environmental Engineering Major

Any CE (Civil Engineering) graduate course approved in advance by the student's advisor
Any ENVE (Environmental Engineering) graduate course approved in advance by the student's advisor.
Any EM (Engineering Management) graduate course approved in advance by the student's advisor.
Any ES (Environmental Science) graduate course approved in advance by the student's advisor.
Any ENGR (Engineering) graduate course approved in advance by the student's advisor.
Other graduate courses approved in advance by the student's advisor, up to 6 credit hours.

**ACCELERATED MASTER'S DEGREE (AMD)
Program Proposal**

Chair: Tracy Christofero

GC#10: AMD

Prepare **one** paper copy with all signatures and forward to the Graduate Council Chair. Additionally, send **one** identical ELECTRONIC COPY with all supporting documentation as an e-mail attachment by to the Graduate Council Chair for electronic distribution to the Graduate Council Curriculum Committee.

Guidelines for an AMD Proposal

Accelerated Master's Degree Programs may be developed between an undergraduate and graduate program in a single department, between two programs in a single school/college or between programs in two different schools/colleges. AMD programs enrich the opportunities of the best undergraduates at Marshall University, enabling them to earn a Bachelor's and Master's degree in much less time than it would take following the traditional path. AMD students do not double count credits. They can take up to 12 graduate credits to be applied to the master's degree in place of 12 undergraduate elective credits. They will earn the undergraduate degree with up to 12 fewer credit hours, depending on how many graduate hours they take.

Rationale: The proposal should identify the rationale or need for an AMD, and, if the undergraduate and graduate programs are in different departments, clarify how they are appropriate for the AMD.

Rationale: Improved career prospects for graduating students and an expanded range of elective course options will arise from an AMD program linking the undergraduate Bachelor of Science in Engineering (BSE) [TE20] major, Civil Engineering area of emphasis [TE21] degree and the graduate Master of Science in Engineering (MSE), Civil and Environmental Engineering major [GTE0]. Increased enrollment in graduate courses is also anticipated. The AMD will allow BSE Civil Engineering undergraduate students who are admitted to take up to four graduate courses in lieu of existing undergraduate degree requirements.

Admission Requirements: The proposal should state whether admission requirements for the AMD differ from regular admission requirements (e.g. waive test scores).

Admission Requirements: AMD applicants currently enrolled in the BSE degree are exempt from the regular admission requirement to provide a letter of recommendation, and are permitted to begin graduate courses prior to completing the full list of "foundation courses" identified in the graduate catalog description of the Civil and Environmental Engineering major. (Note: all applicable course prerequisites still apply.) International students are not required to take additional English proficiency exams (e.g., IELTS, TOEFL, etc.).

AMD Credits: The proposal may allow an undergraduate student to earn a maximum of 12 credits in approved graduate courses to be applied to the master's degree. These 12 credits take the place of 12 undergraduate electives. Please note the maximum allowed credits.

AMD Credits: 12 credits

Curriculum: The proposal should show how a student can complete the Bachelor's degree by lowering the number of undergraduate credits (up to 12) with up to 12 graduate credits that will apply to the master's degree.

Curriculum: The existing degree requirement for the undergraduate Bachelor of Science in Engineering (BSE) Civil Engineering area of emphasis is 124 credit hours, which includes ENGR 451 (Project Management, 3 credit hours), two "Civil Engineering Electives" (6 credit hours) and one "Technical Elective" (3 credit hours). AMD students would be permitted to take the graduate level EM 660 (Project Management) in place of ENGR 451, and three graduate level elective courses in place of the Civil Engineering Electives and Technical Elective.

A summary of the BSE and MSE degree requirements accompanies this proposal.

Student Eligibility: AMD applicants must have a minimum over-all grade point average of 3.30 and 3.30 in the major. Programs may require a higher GPA. Please note your required GPA.

Student Eligibility: Over-all GPA of 3.30 and in-major GPA of 3.30

**ACCELERATED MASTER'S DEGREE (AMD)
Program Proposal**

Chair: Tracy Christofero

GC#10: AMD

Prepare **one** paper copy with all signatures and forward to the Graduate Council Chair. Additionally, send **one** identical ELECTRONIC COPY with all supporting documentation as an e-mail attachment by to the Graduate Council Chair for electronic distribution to the Graduate Council Curriculum Committee.

Guidelines for an AMD Proposal

Accelerated Master's Degree Programs may be developed between an undergraduate and graduate program in a single department, between two programs in a single school/college or between programs in two different schools/colleges. AMD programs enrich the opportunities of the best undergraduates at Marshall University, enabling them to earn a Bachelor's and Master's degree in much less time than it would take following the traditional path. AMD students do not double count credits. They can take up to 12 graduate credits to be applied to the master's degree in place of 12 undergraduate elective credits. They will earn the undergraduate degree with up to 12 fewer credit hours, depending on how many graduate hours they take.

Rationale: The proposal should identify the rationale or need for an AMD, and, if the undergraduate and graduate programs are in different departments, clarify how they are appropriate for the AMD.

Rationale: Improved career prospects for graduating students and an expanded range of elective course options will arise from an AMD program linking the undergraduate Bachelor of Science in Engineering (BSE) [TE20] major, Civil Engineering area of emphasis [TE21] degree and the graduate Master of Science in Engineering (MSE), Civil and Environmental Engineering major [GTE0]. Increased enrollment in graduate courses is also anticipated. The AMD will allow BSE Civil Engineering undergraduate students who are admitted to take up to four graduate courses in lieu of existing undergraduate degree requirements.

Admission Requirements: The proposal should state whether admission requirements for the AMD differ from regular admission requirements (e.g. waive test scores).

Admission Requirements: AMD applicants currently enrolled in the BSE degree are exempt from the regular admission requirement to provide a letter of recommendation, and are permitted to begin graduate courses prior to completing the full list of "foundation courses" identified in the graduate catalog description of the Civil and Environmental Engineering major. (Note: all applicable course prerequisites still apply.) International students are not required to take additional English proficiency exams (e.g., IELTS, TOEFL, etc.).

AMD Credits: The proposal may allow an undergraduate student to earn a maximum of 12 credits in approved graduate courses to be applied to the master's degree. These 12 credits take the place of 12 undergraduate electives. Please note the maximum allowed credits.

AMD Credits: 12 credits

Curriculum: The proposal should show how a student can complete the Bachelor's degree by lowering the number of undergraduate credits (up to 12) with up to 12 graduate credits that will apply to the master's degree.

Curriculum: The existing degree requirement for the undergraduate Bachelor of Science in Engineering (BSE) Civil Engineering area of emphasis is 124 credit hours, which includes ENGR 451 (Project Management, 3 credit hours), two "Civil Engineering Electives" (6 credit hours) and one "Technical Elective" (3 credit hours). AMD students would be permitted to take the graduate level EM 660 (Project Management) in place of ENGR 451, and three graduate level elective courses in place of the Civil Engineering Electives and Technical Elective.

A summary of the BSE and MSE degree requirements accompanies this proposal.

Student Eligibility: AMD applicants must have a minimum over-all grade point average of 3.30 and 3.30 in the major. Programs may require a higher GPA. Please note your required GPA.

Student Eligibility: Over-all GPA of 3.30 and in-major GPA of 3.30

Request for Graduate Course Addition - Page 2

College: _____ Department/Division: _____ Alpha Designator/Number: _____

Provide complete information regarding the new course addition for each topic listed below. Before routing this form, a complete syllabus also must be attached addressing the items listed on the first page of this form.

1. FACULTY: Identify by name the faculty in your department/division who may teach this course.

2. DUPLICATION: If a question of possible duplication occurs, attach a copy of the correspondence sent to the appropriate department(s) describing the proposal. Enter "**Not Applicable**" if not applicable.

3. REQUIRED COURSE: If this course will be required by another department(s), identify it/them by name. Enter "**Not Applicable**" if not applicable.

4. AGREEMENTS: If there are any agreements required to provide clinical experiences, attach the details and the signed agreement. Enter "**Not Applicable**" if not applicable.

5. ADDITIONAL RESOURCE REQUIREMENTS: If your department requires additional faculty, equipment, or specialized materials to teach this course, attach an estimate of the time and money required to secure these items. (Note: Approval of this form does not imply approval for additional resources.) Enter "**Not Applicable**" if not applicable.

6. COURSE OBJECTIVES: (May be submitted as a separate document)

7. COURSE OUTLINE (May be submitted as a separate document)

8. SAMPLE TEXT(S) WITH AUTHOR(S) AND PUBLICATION DATES (May be submitted as a separate document)

9. EXAMPLE OF INSTRUCTIONAL METHODS (Lecture, lab, internship)

Request for Graduate Course Addition - Page 4

10. EXAMPLE EVALUATION METHODS (CHAPTER, MIDTERM, FINAL, PROJECTS, ETC.)

11. ADDITIONAL GRADUATE REQUIREMENTS IF LISTED AS AN UNDERGRADUATE/GRADUATE COURSE

12. PROVIDE COMPLETE BIBLIOGRAPHY (May be submitted as a separate document)

September 23, 2020

The Graduate Council
Marshall University
One John Marshall Drive
Huntington, WV 25755

Dear Graduate Council:

This letter is to communicate our support for the transfer of the MS in Information Systems degree program from the College of Engineering and Computer Science (CECS) to the Lewis College of Business (LCOB). We have negotiated this transfer with full support from Provost Taylor to increase efficiency and reduce costs in providing the MS in Information Systems degree program. This transfer will enable the LCOB to align its undergraduate program in Management Information Systems with the Master degree in Information Systems including offering a 3 + 2 program. It will utilize the LCOB's already established expertise in teaching information systems courses and allow enhanced coordination of graduate management information systems courses that are already being taught to service the LCOB's MBA and other graduate programs.

LCOB faculty will be responsible for the IS courses pertaining to the MS in Information Systems and the IS courses pertaining to the MS in Health Informatics degree programs beginning in Spring 2021. Current and new students will receive notification in October about the program transfer. The CECS and the LCOB will hold a meeting with students that will provide updated materials regarding advising and faculty/staff contacts in the LCOB.

Sincerely,

David Dampier
Interim Dean, College of Engineering
and Computer Science

Avi Mukherjee
Dean, Lewis College of Business

Marshall University
Lewis College of Business
Brad D. Smith Schools of Business
Office of the Dean
One John Marshall Drive

3. REQUIRED COURSE: If this course will be required by another department(s), identify it/them by name. Enter "**Not Applicable**" if not applicable.

n/a

4. AGREEMENTS: If there are any agreements required to provide clinical experiences, attach the details and the signed agreement. Enter "**Not Applicable**" if not applicable.

n/a

5. ADDITIONAL RESOURCE REQUIREMENTS: If your department requires additional faculty, equipment, or specialized materials to teach this course, attach an estimate of the time and money required to secure these items. (Note: Approval of this form does not imply approval for additional resources.) Enter "**Not Applicable**" if not applicable.

n/a

6. COURSE OBJECTIVES: (May be submitted as a separate document)

Students will recognize and apply GIS concepts and techniques such as geodatabase management, spatial data processing and analysis. Students will employ GIS models, python scripting, and spatial analysis techniques for research and problem solving. Students will construct an independent GIS research project and share their data and maps on the web.

Request for Graduate Course Addition - Page 3

7. COURSE OUTLINE (May be submitted as a separate document)

See attached syllabus

8. SAMPLE TEXT(S) WITH AUTHOR(S) AND PUBLICATION DATES (May be submitted as a separate document)

See attached bibliography at the end of the syllabus.

9. EXAMPLE OF INSTRUCTIONAL METHODS (Lecture, lab, internship)

Lecture followed by lab.

Request for Graduate Course Addition - Page 4

10. EXAMPLE EVALUATION METHODS (CHAPTER, MIDTERM, FINAL, PROJECTS, ETC.)

See attached syllabus.

11. ADDITIONAL GRADUATE REQUIREMENTS IF LISTED AS AN UNDERGRADUATE/GRADUATE COURSE

See attached syllabus.

12. PROVIDE COMPLETE BIBLIOGRAPHY (May be submitted as a separate document)

See attached syllabus at the end of that document.

Request for Graduate Course Addition - Page 5

Please insert in the text box below your course summary information for the Graduate Council agenda. Please enter the information exactly in this way (including headings):

Department:

Course Number and Title:

Catalog Description:

Prerequisites:

First Term Offered:

Credit Hours:

Department: Geography

Course Number and Title: GEO527 Principles of GIS 2

Catalog Description: Students apply GIS principles and techniques to geoprocess and manipulate geographic data, including topics such as geodatabase management, python scripting, model building, web mapping and data services, and spatial analysis.

(PR: one of GEO523 OR GEO526 OR GEO529 OR GEO530 OR NRRM533 OR NRE523 or permission).

First Term Offered: Summer 2021

Credit Hours: 4

Principles of GIS 2

GEO427/527: Summer 2020, Section 401, CRN 41xx/41xx

University catalog description: Students apply GIS principles and techniques to geoprocess and manipulate geographic data, including topics such as geodatabase management, python scripting, model building, web mapping and data services, and spatial analysis. 4 cr. hrs. Prerequisite: GEO423/523 or GEO426/526 or GEO429/529 or GEO430/530 or NRE423/523 or NRRM433 or permission. Recommended: Knowledge of statistics equivalent to MTH225.

Instructor welcome: Hello, and welcome to this course which further develops your foundation as a GIS professional beyond the basics. I am your instructor, James Leonard, Ph.D., from the Department of Geography in the College of Liberal Arts at Marshall University. I received my Ph.D. from the University of Cincinnati in 2001 and began working at Marshall University in fall of that year. I was previously employed for about five years by the WV Department of Environmental Protection as a Geographic Information Systems Analyst and Systems Administrator. I hope you'll post some interesting information about yourself on the Bio discussion board so that I can get to know you, too.

The course begins 17 May and ends 13 Aug. For course withdrawal deadlines see the MU academic calendar <http://www.marshall.edu/calendar/academic/>.

How to get help with GIS: The MU IT Service Desk handles all questions about Blackboard, but they know nothing about GIS. The instructor will handle questions about GIS. For help with GIS, call Dr. Leonard (304) 696-4626 or arrange a Teams meeting.

Course Learning Outcomes	How students will practice each outcome	How student achievement will be assessed
Students will recognize and apply GIS concepts and techniques such as geodatabase management, spatial data processing and analysis.	Discussion, readings, tutorials	Assignments, reading summaries, semester project
Students will employ GIS models, python scripting, and spatial analysis techniques for research and problem solving.	Discussion, readings, tutorials	Assignments, reading summaries, semester project
Students will construct an independent GIS research project and share their data and maps on the web.	Discussion, readings, tutorials	Assignments, reading summaries, semester project

Required materials:

- Access to ArcGIS Pro. You have two options:
 - Access the software using Remote Desktop Windows App and accessing MURemote.marshall.edu. Remote Desktop App is also available for Mac iOS. Using Remote Desktop means that all the software processing, which can be a significant use of computing resources, is done on a powerful computer on Marshall's campus.
 - Install ArcGIS Pro 2.5 or higher on your Windows home computer. I will provide instructions and help downloading and authorizing the software. Minimum specs for

running ArcGIS Pro are here: <https://pro.arcgis.com/en/pro-app/get-started/arcgis-pro-system-requirements.htm>. ArcGIS Pro does NOT run on Mac iOS.

- Free materials for Marshall students via ESRI.com.
- Readings and GIS data provided free to use in GEO4/527.

Time Commitment: Plan to spend about 12-15 hours a week in order to do well in this shorter summer semester. You may require more or less time. This is MORE work than a challenging three credit course!

Grading: Grades will be based on thirteen assignments/ESRI Academy courses (20 points each) for 260 points; four reading summaries (20 points each) for 80 points; and a semester project (60 points). Graduate students will have more extensive assignments and projects. Final grades will be determined by the total number of points you have earned:

- A = 400 - 364 points (100-91%)
- B = 363 - 324 (90-81%)
- C = 323- 284 (80-71%)
- D = 283 - 260 (70-65%)
- F = 259 and below (less than 65%)

There will be no extra credit and no grades will be scaled or curved. Please be aware that this is a senior-/graduate-level course. You will be expected to perform at a high level. The pace of the course is rapid. You must be thorough and complete on all exercises to receive full credit. You must master all exercises, textbook and article readings, lecture material, and ArcGIS skills and concepts to do well. Work must be submitted no later than the date on the schedule below at 11:59pm Eastern each. No late work is accepted.

Assignments: Submit assignments and ESRI Academy completion certificates as PDF or Word format attachments using the Assignment tool. For everything except ESRI Academy assignments, you must include screen captures to show how you got your answers. Graduate students have more difficult and extensive assignments. In the case where Blackboard will only permit a single file upload and you have multiple files, please ZIP (compress) the files and upload the .zip file.

Reading summaries: You will read research articles which present GIS techniques used to address real world issues. The structure and length of reading summaries will be provided in Blackboard. The articles will be provided as PDFs in Blackboard.

Semester project: The semester project integrates principles and techniques from the entire semester. You must consult the instructor early and often to guide you! You submit parts of the project as the semester progresses as PDF, Excel, Word, or Geodatabase format attachments. At every stage, the instructor will provide you feedback which must be incorporated into subsequent submissions. More instructions are provided in the course content. In the case where Blackboard will only permit a single file upload and you have multiple files, please ZIP the files and upload the .zip file. Graduate students have more difficult and extensive project requirements.

Discussion boards: Discussions take place with the Discussions tool. No grades are assigned for discussions.

Weekly Schedule: Assignments are due by 11:59pm Eastern USA the Monday following their assigning and are submitted using Blackboard.

- Week 1: Overview: GIS Processing, Analysis, and Applications; reading GIS research
 - Assignment #1 – Intro concepts
 - Optional: ESRI Academy *Get Started with ArcGIS Pro*
 - ESRI Academy *Getting Started with Spatial Analysis*
 - ESRI Academy *GIS for Humanitarian Mine Action: Using Vector Data in ArcMap*
 - Print five entry-level jobs in your field that have GIS skills as a primary qualification (links to job/career sites are available at <https://www.marshall.edu/geography/jobs/>).
 - Reading summary #1 – Kent, Joshua and Michael Leitner. 2007. Efficacy of Standard Deviation Ellipses in the Application of Criminal Geographic Profiling. *Journal of Investigative Psychology and Offender Profiling* 4: 147–165. DOI: 10.1002/jip.72
 - Submission deadline: May 28
- Week 2: Spatial queries and spatial joins
 - Assignment #2:
 - Price chapter 8 exercises
 - Price chapter 9 exercises
 - ESRI Academy *Querying Data Using ArcGIS Pro*
 - Submission deadline: June 4
- Week 3: Map Overlay and Geoprocessing
 - Assignment #3:
 - Price chapter 10 exercises
 - ESRI Academy *Getting Started with Geoprocessing*
 - ESRI Academy *Understanding Spatial Relationships*
 - Reading summary #2 – Acharya, Tri Dev, Kyung Wan Yoo, and Dong Ha Lee. 2017. GIS-based Spatio-temporal Analysis of Marine Accidents Database in the Coastal Zone of Korea. *Journal of Coastal Research* 79: 114-118.
 - Meet with Dr. Leonard to discuss semester project
 - Submission deadline: June 11
- Week 4: Cluster analysis
 - Assignment #4:
 - ESRI Academy *Mapping Clusters: Introduction to Statistical Cluster Analysis*
 - ESRI Academy *Mapping Clusters: Hot Spot and Cluster and Outlier Analysis*
 - ESRI Academy *Mapping Clusters: Optimized Hot Spot and Optimized Outlier Analysis*
 - Submission deadline: June 18
- Week 5: Cluster analysis 2; Spatial autocorrelation and GWR
 - Assignment #5:
 - Bi-variate LISA using GeoDa

- ESRI Academy *Introduction to Regression Analysis Using ArcGIS Pro*
 - Reading summary #3 – Borden, Kevin A. and Susan L. Cutter. 2008. Spatial patterns of natural hazards mortality in the United States. *International Journal of Health Geographics* 2008, 7:64 doi:10.1186/1476-072X-7-64
 - Meet with Dr. Leonard to discuss semester project
 - Submission deadline: June 25
- Week 6: Network analysis
 - Assignment #6:
 - ESRI Academy *Preparing for Network Analysis*
 - ESRI Academy *Finding the Optimal Location of Facilities Using ArcGIS Pro*
 - ESRI Academy *Generating Service Areas Using ArcGIS Pro*
 - Reading summary #4 – Vora et al. 2015. Options for Optimal Coverage of Free C-Section Services for Poor Mothers in Indian State of Gujarat: Location Allocation Analysis Using GIS. *PLOS ONE* | DOI:10.1371/journal.pone.0137122.
 - Submission deadline: July 2
- Week 7: Model Builder
 - Assignment #7: ESRI Academy *Building Geoprocessing Models Using ArcGIS Pro*
 - Semester Project part 1
 - Submission deadline: July 9
- Week 8: GPS and data collection
 - Assignment #8:
 - GPS collection and photo georeferencing handout
 - ESRI Web Course *Finding Geographic Data in ArcGIS*
 - Meet with Dr. Leonard to discuss semester project
 - Submission deadline: July 16
- Week 9: Data management and Metadata
 - Assignment #9:
 - ESRI Academy *Creating and Editing Metadata in ArcGIS*
 - ESRI Academy *Getting Started with Data Management*
 - ESRI Academy *Integrating Data in ArcGIS Pro*
 - Semester Project part 2
 - Submission deadline: July 23
- Week 10: Coordinate systems
 - Assignment #10:
 - ESRI Academy *Working with Coordinate Systems in ArcGIS*
 - ESRI Academy *GIS for Humanitarian Mine Action: Coordinate Systems and Map Projections*
 - Optional: ESRI Academy *Referencing Data to Real-World Locations Using ArcGIS, Basics of Geographic Coordinate Systems*
 - Semester Project part 3
 - Submission deadline: July 30
- Week 11: Cartographic Design
 - Assignment #11
 - ESRI Academy *Map Design Fundamentals*

- ESRI Academy *Symbolizing Map Layers, Getting Started with Mapping and Visualization*
 - Semester project part 4
 - Submission deadline: Aug. 7
- Week 12: Python
 - Assignment #12:
 - ESRI Academy *Python for Everyone*
 - ESRI Academy *Python Scripting for Geoprocessing Workflows*
 - Submission deadline: Aug. 14

Resources: Marshall University offers a variety of support services to students enrolled in classroom and online courses. For online students, access these support services by clicking the Help links at left in the Blackboard course.

Academic Honesty and other University policies: You must do your own work for this class. For any cheating or plagiarism, however minor, you will earn a final grade of F for the semester. Additional University sanctions apply. By enrolling in this course, you agree to the University Policies found at www.marshall.edu/academic-affairs. They are many; best read them.

To

Change in **COURSE CONTENT**: ☒ YES ☐ NO

From

We are splitting the material from the old GEO529 into two courses. The old course was a continuation of material from GEO526 Principles of GIS, covering additional principles that are broadly applicable across disciplines with just a few exercises in vector analysis.

To

The new GEO529 course will focus on one type of vector analysis using GIS, specifically location analysis, which is a hot field in the discipline. The rest of the material from the old GEO529 will be covered in a new course GEO527. The new GEO529 will also cover location theory, a necessary building block before using GIS as a tool to perform the location analyses.

Rationale See above.

Change in COURSE CREDIT HOURS: ☒ YES ☐ NO If YES, fill in below:

NOTE: If credit hours increase/decrease, please provide documentation that specifies the adjusted work requirements.

From	1-3
To	1-4; This course was previously used to administer comprehensive final projects for non-thesis students. As such it was a "capstone" experience where they demonstrated mastery of the core elements of the degree. The additional credit reflects additional expectations in the course. See below. The course is variable credit to accommodate students who don't need 4 credits and don't want to pay for credit hours they don't need. On occasion, we offer the course to such students with

Change in COURSE CONTENT: ☒ YES ☐ NO

From	This course was used to administer comprehensive final projects for non-thesis students. As such it was a "capstone" experience where they demonstrated mastery of the core elements of the degree.
To	To justify the additional credit, we will restructure the course with additional elements to include: a portfolio, one written exam project, and a career profile. The Portfolio is an organized collection of artifacts demonstrating the knowledge and skills students have developed through their coursework in the Geography MA program. The Portfolio will consist of a cover letter and a minimum of three artifacts completed during their coursework at Marshall, arranged and explained to tell a compelling story of how their education will apply to a professional career. The written Exam Project will require students to use knowledge and skills from the core GEO requirements as well as electives to demonstrate mastery of the core elements of the degree. In coordination with course instructor and the Marshall University Office of Career Education (https://www.marshall.edu/careereducation/), students will build a Career Profile which could be used for career start-up or advancement. The Career Profile will include a professional CV, social media networking such as LinkedIn, a mock interview, and career building skill courses offered through the Office of Career Education.

Rationale	<p>We found that the previous comprehensive projects were a poor measure of student learning while in the degree program by themselves and did nothing to prepare students for a career or career advancement which is the reason why nearly all of our MA students are pursuing this degree.</p> <p>We believe the new course emphasis will better prepare graduate students for a career or career advancement. Their Exam Project is a continuation of previous department practice requiring students to demonstrate mastery of the discipline. Their Career Profile will produce a polished CV, social media networking, and develop career skills in self-identified areas of weakness. Their Portfolio will serve several purposes. For the student, compiling and writing the Portfolio will help them see the value of the education and how that education can be valuable to current or future employers. For the department, it will permit a degree of assessment since one requirement of the Portfolio will be to show how their Portfolio artifacts meet departmental learning outcomes.</p>

Request for Graduate Course Addition - Page 2

College: Liberal Arts

Department/Division: GEO

Alpha Designator/Number: 527

Provide complete information regarding the new course addition for each topic listed below. Before routing this form, a complete syllabus also must be attached addressing the items listed on the first page of this form.

1. FACULTY: Identify by name the faculty in your department/division who may teach this course.

Cordoba, Leonard, Walz

2. DUPLICATION: If a question of possible duplication occurs, attach a copy of the correspondence sent to the appropriate department(s) describing the proposal. Enter "**Not Applicable**" if not applicable.

n/a

3. REQUIRED COURSE: If this course will be required by another department(s), identify it/them by name. Enter "**Not Applicable**" if not applicable.

n/a

4. AGREEMENTS: If there are any agreements required to provide clinical experiences, attach the details and the signed agreement. Enter "**Not Applicable**" if not applicable.

n/a

5. ADDITIONAL RESOURCE REQUIREMENTS: If your department requires additional faculty, equipment, or specialized materials to teach this course, attach an estimate of the time and money required to secure these items. (Note: Approval of this form does not imply approval for additional resources.) Enter "**Not Applicable**" if not applicable.

n/a

6. COURSE OBJECTIVES: (May be submitted as a separate document)

Students will recognize and apply GIS concepts and techniques such as geodatabase management, spatial data processing and analysis. Students will employ GIS models, python scripting, and spatial analysis techniques for research and problem solving. Students will construct an independent GIS research project and share their data and maps on the web.

Request for Graduate Course Addition - Page 3

7. COURSE OUTLINE (May be submitted as a separate document)

See attached syllabus

8. SAMPLE TEXT(S) WITH AUTHOR(S) AND PUBLICATION DATES (May be submitted as a separate document)

See attached bibliography at the end of the syllabus.

9. EXAMPLE OF INSTRUCTIONAL METHODS (Lecture, lab, internship)

Lecture followed by lab.

Request for Graduate Course Addition - Page 4

10. EXAMPLE EVALUATION METHODS (CHAPTER, MIDTERM, FINAL, PROJECTS, ETC.)

See attached syllabus.

11. ADDITIONAL GRADUATE REQUIREMENTS IF LISTED AS AN UNDERGRADUATE/GRADUATE COURSE

See attached syllabus.

12. PROVIDE COMPLETE BIBLIOGRAPHY (May be submitted as a separate document)

See attached syllabus at the end of that document.

Principles of GIS 2

GEO427/527: Summer 2020, Section 401, CRN 41xx/41xx

University catalog description: Students apply GIS principles and techniques to geoprocess and manipulate geographic data, including topics such as geodatabase management, python scripting, model building, web mapping and data services, and spatial analysis. 4 cr. hrs. Prerequisite: GEO423/523 or GEO426/526 or GEO429/529 or GEO430/530 or NRE423/523 or NRRM433 or permission. Recommended: Knowledge of statistics equivalent to MTH225.

Instructor welcome: Hello, and welcome to this course which further develops your foundation as a GIS professional beyond the basics. I am your instructor, James Leonard, Ph.D., from the Department of Geography in the College of Liberal Arts at Marshall University. I received my Ph.D. from the University of Cincinnati in 2001 and began working at Marshall University in fall of that year. I was previously employed for about five years by the WV Department of Environmental Protection as a Geographic Information Systems Analyst and Systems Administrator. I hope you'll post some interesting information about yourself on the Bio discussion board so that I can get to know you, too.

The course begins 17 May and ends 13 Aug. For course withdrawal deadlines see the MU academic calendar <http://www.marshall.edu/calendar/academic/>.

How to get help with GIS: The MU IT Service Desk handles all questions about Blackboard, but they know nothing about GIS. The instructor will handle questions about GIS. For help with GIS, call Dr. Leonard (304) 696-4626 or arrange a Teams meeting.

Course Learning Outcomes	How students will practice each outcome	How student achievement will be assessed
Students will recognize and apply GIS concepts and techniques such as geodatabase management, spatial data processing and analysis.	Discussion, readings, tutorials	Assignments, reading summaries, semester project
Students will employ GIS models, python scripting, and spatial analysis techniques for research and problem solving.	Discussion, readings, tutorials	Assignments, reading summaries, semester project
Students will construct an independent GIS research project and share their data and maps on the web.	Discussion, readings, tutorials	Assignments, reading summaries, semester project

Required materials:

- Access to ArcGIS Pro. You have two options:
 - Access the software using Remote Desktop Windows App and accessing MURemote.marshall.edu. Remote Desktop App is also available for Mac iOS. Using Remote Desktop means that all the software processing, which can be a significant use of computing resources, is done on a powerful computer on Marshall's campus.
 - Install ArcGIS Pro 2.5 or higher on your Windows home computer. I will provide instructions and help downloading and authorizing the software. Minimum specs for

running ArcGIS Pro are here: <https://pro.arcgis.com/en/pro-app/get-started/arcgis-pro-system-requirements.htm>. ArcGIS Pro does NOT run on Mac iOS.

- Free materials for Marshall students via ESRI.com.
- Readings and GIS data provided free to use in GEO4/527.

Time Commitment: Plan to spend about 12-15 hours a week in order to do well in this shorter summer semester. You may require more or less time. This is MORE work than a challenging three credit course!

Grading: Grades will be based on thirteen assignments/ESRI Academy courses (20 points each) for 260 points; four reading summaries (20 points each) for 80 points; and a semester project (60 points). Graduate students will have more extensive assignments and projects. Final grades will be determined by the total number of points you have earned:

- A = 400 - 364 points (100-91%)
- B = 363 - 324 (90-81%)
- C = 323- 284 (80-71%)
- D = 283 - 260 (70-65%)
- F = 259 and below (less than 65%)

There will be no extra credit and no grades will be scaled or curved. Please be aware that this is a senior-/graduate-level course. You will be expected to perform at a high level. The pace of the course is rapid. You must be thorough and complete on all exercises to receive full credit. You must master all exercises, textbook and article readings, lecture material, and ArcGIS skills and concepts to do well. Work must be submitted no later than the date on the schedule below at 11:59pm Eastern each. No late work is accepted.

Assignments: Submit assignments and ESRI Academy completion certificates as PDF or Word format attachments using the Assignment tool. For everything except ESRI Academy assignments, **you must include screen captures** to show how you got your answers. Graduate students have more difficult and extensive assignments. In the case where Blackboard will only permit a single file upload and you have multiple files, please ZIP (compress) the files and upload the .zip file.

Reading summaries: You will read research articles which present GIS techniques used to address real world issues. The structure and length of reading summaries will be provided in Blackboard. The articles will be provided as PDFs in Blackboard.

Semester project: The semester project integrates principles and techniques from the entire semester. You must consult the instructor early and often to guide you! You submit parts of the project as the semester progresses as PDF, Excel, Word, or Geodatabase format attachments. At every stage, the instructor will provide you feedback which must be incorporated into subsequent submissions. More instructions are provided in the course content. In the case where Blackboard will only permit a single file upload and you have multiple files, please ZIP the files and upload the .zip file. Graduate students have more difficult and extensive project requirements.

Discussion boards: Discussions take place with the Discussions tool. No grades are assigned for discussions.

Weekly Schedule: Assignments are due by 11:59pm Eastern USA the Monday following their assigning and are submitted using Blackboard.

- Week 1: Overview: GIS Processing, Analysis, and Applications; reading GIS research
 - Assignment #1 – Intro concepts
 - Optional: ESRI Academy *Get Started with ArcGIS Pro*
 - ESRI Academy *Getting Started with Spatial Analysis*
 - ESRI Academy *GIS for Humanitarian Mine Action: Using Vector Data in ArcMap*
 - Print five entry-level jobs in your field that have GIS skills as a primary qualification (links to job/career sites are available at <https://www.marshall.edu/geography/jobs/>).
 - Reading summary #1 – Kent, Joshua and Michael Leitner. 2007. Efficacy of Standard Deviation Ellipses in the Application of Criminal Geographic Profiling. *Journal of Investigative Psychology and Offender Profiling* 4: 147–165. DOI: 10.1002/jip.72
 - Submission deadline: May 28
- Week 2: Spatial queries and spatial joins
 - Assignment #2:
 - Price chapter 8 exercises
 - Price chapter 9 exercises
 - ESRI Academy *Querying Data Using ArcGIS Pro*
 - Submission deadline: June 4
- Week 3: Map Overlay and Geoprocessing
 - Assignment #3:
 - Price chapter 10 exercises
 - ESRI Academy *Getting Started with Geoprocessing*
 - ESRI Academy *Understanding Spatial Relationships*
 - Reading summary #2 – Acharya, Tri Dev, Kyung Wan Yoo, and Dong Ha Lee. 2017. GIS-based Spatio-temporal Analysis of Marine Accidents Database in the Coastal Zone of Korea. *Journal of Coastal Research* 79: 114-118.
 - Meet with Dr. Leonard to discuss semester project
 - Submission deadline: June 11
- Week 4: Cluster analysis
 - Assignment #4:
 - ESRI Academy *Mapping Clusters: Introduction to Statistical Cluster Analysis*
 - ESRI Academy *Mapping Clusters: Hot Spot and Cluster and Outlier Analysis*
 - ESRI Academy *Mapping Clusters: Optimized Hot Spot and Optimized Outlier Analysis*
 - Submission deadline: June 18
- Week 5: Cluster analysis 2; Spatial autocorrelation and GWR
 - Assignment #5:
 - Bi-variate LISA using GeoDa

- ESRI Academy *Introduction to Regression Analysis Using ArcGIS Pro*
 - Reading summary #3 – Borden, Kevin A. and Susan L. Cutter. 2008. Spatial patterns of natural hazards mortality in the United States. *International Journal of Health Geographics* 2008, 7:64 doi:10.1186/1476-072X-7-64
 - Meet with Dr. Leonard to discuss semester project
 - Submission deadline: June 25
- Week 6: Network analysis
 - Assignment #6:
 - ESRI Academy *Preparing for Network Analysis*
 - ESRI Academy *Finding the Optimal Location of Facilities Using ArcGIS Pro*
 - ESRI Academy *Generating Service Areas Using ArcGIS Pro*
 - Reading summary #4 – Vora et al. 2015. Options for Optimal Coverage of Free C-Section Services for Poor Mothers in Indian State of Gujarat: Location Allocation Analysis Using GIS. *PLOS ONE* | DOI:10.1371/journal.pone.0137122.
 - Submission deadline: July 2
- Week 7: Model Builder
 - Assignment #7: ESRI Academy *Building Geoprocessing Models Using ArcGIS Pro*
 - Semester Project part 1
 - Submission deadline: July 9
- Week 8: GPS and data collection
 - Assignment #8:
 - GPS collection and photo georeferencing handout
 - ESRI Web Course *Finding Geographic Data in ArcGIS*
 - Meet with Dr. Leonard to discuss semester project
 - Submission deadline: July 16
- Week 9: Data management and Metadata
 - Assignment #9:
 - ESRI Academy *Creating and Editing Metadata in ArcGIS*
 - ESRI Academy *Getting Started with Data Management*
 - ESRI Academy *Integrating Data in ArcGIS Pro*
 - Semester Project part 2
 - Submission deadline: July 23
- Week 10: Coordinate systems
 - Assignment #10:
 - ESRI Academy *Working with Coordinate Systems in ArcGIS*
 - ESRI Academy *GIS for Humanitarian Mine Action: Coordinate Systems and Map Projections*
 - Optional: ESRI Academy *Referencing Data to Real-World Locations Using ArcGIS, Basics of Geographic Coordinate Systems*
 - Semester Project part 3
 - Submission deadline: July 30
- Week 11: Cartographic Design
 - Assignment #11
 - ESRI Academy *Map Design Fundamentals*

- ESRI Academy *Symbolizing Map Layers, Getting Started with Mapping and Visualization*
 - Semester project part 4
 - Submission deadline: Aug. 7
- Week 12: Python
 - Assignment #12:
 - ESRI Academy *Python for Everyone*
 - ESRI Academy *Python Scripting for Geoprocessing Workflows*
 - Submission deadline: Aug. 14

Resources: Marshall University offers a variety of support services to students enrolled in classroom and online courses. For online students, access these support services by clicking the Help links at left in the Blackboard course.

Academic Honesty and other University policies: You must do your own work for this class. For any cheating or plagiarism, however minor, you will earn a final grade of F for the semester. Additional University sanctions apply. By enrolling in this course, you agree to the University Policies found at www.marshall.edu/academic-affairs. They are many; best read them.

Request for Graduate Course Change - Page 3

Change in COURSE CREDIT HOURS: ☐ YES ☒ NO If YES, fill in below:

NOTE: If credit hours increase/decrease, please provide documentation that specifies the adjusted work requirements.

From

To

Change in COURSE CONTENT: ☒ YES ☐ NO

From

We are splitting the material from the old GEO529 into two courses. The old course was a continuation of material from GEO526 Principles of GIS, covering additional principles that are broadly applicable across disciplines with just a few exercises in vector analysis.

To

The new GEO529 course will focus on one type of vector analysis using GIS, specifically location analysis, which is a hot field in the discipline. The rest of the material from the old GEO529 will be covered in a new course GEO527. The new GEO529 will also cover location theory, a necessary building block before using GIS as a tool to perform the location analyses.

Rationale

See above.

To 1-4; This course was previously used to administer comprehensive final projects for non-thesis students. As such it was a "capstone" experience where they demonstrated mastery of the core elements of the degree. The additional credit reflects additional expectations in the course. See below. The course is variable credit to accommodate students who don't need 4 credits and don't want to pay for credit hours they don't need. On occasion, we offer the course to such students with

Change in COURSE CONTENT: ☒ YES ☐ NO

From This course was used to administer comprehensive final projects for non-thesis students. As such it was a "capstone" experience where they demonstrated mastery of the core elements of the degree.

To To justify the additional credit, we will restructure the course with additional elements to include: a portfolio, one written exam project, and a career profile. The Portfolio is an organized collection of artifacts demonstrating the knowledge and skills students have developed through their coursework in the Geography MA program. The Portfolio will consist of a cover letter and a minimum of three artifacts completed during their coursework at Marshall, arranged and explained to tell a compelling story of how their education will apply to a professional career. The written Exam Project will require students to use knowledge and skills from the core GEO requirements as well as electives to demonstrate mastery of the core elements of the degree. In coordination with course instructor and the Marshall University Office of Career Education (<https://www.marshall.edu/careereducation/>), students will build a Career Profile which could be used for career start-up or advancement. The Career Profile will include a professional CV, social media networking such as LinkedIn, a mock interview, and career building skill courses offered through the Office of Career Education.

Rationale We found that the previous comprehensive projects were a poor measure of student learning while in the degree program by themselves and did nothing to prepare students for a career or career advancement which is the reason why nearly all of our MA students are pursuing this degree.

We believe the new course emphasis will better prepare graduate students for a career or career advancement. Their Exam Project is a continuation of previous department practice requiring students to demonstrate mastery of the discipline. Their Career Profile will produce a polished CV, social media networking, and develop career skills in self-identified areas of weakness. Their Portfolio will serve several purposes. For the student, compiling and writing the Portfolio will help them see the value of the education and how that education can be valuable to current or future employers. For the department, it will permit a degree of assessment since one requirement of the Portfolio will be to show how their Portfolio artifacts meet departmental learning outcomes.

Rationale

Request for Graduate Course Change-Page 4

College: LCOB

Department: NA

Course Number/Title IS 623 Database Management

1. REQUIRED COURSE: If this course is required by another department(s), identify it/them by name and attach the written notification you sent to them announcing to them the proposed change and any response received. Enter NOT APPLICABLE if not applicable.

This course is required for the Graduate Certificate in Online Data Analytics in Health Care and for the Graduate Certificate in Nursing Informatics and for the HEALTH INFORMATICS, M.S. all of which are in the College of Business. this course can also be used as an elective in the College of Engineering. Interim Dean Dampier has approved the change--see attached email and letter.

2. COURSE DELETION: List any courses that will be deleted because of this change. A *Course Deletion* form is also required. Enter NOT APPLICABLE if not applicable.

None

3. ADDITIONAL RESOURCE REQUIREMENTS: If your department requires additional faculty, equipment, or specialized materials as a result of this change, attach an estimate of the time and cost etc. required to secure these items. (NOTE: approval of this form does not imply approval for additional resources. Enter NOT APPLICABLE if not applicable.

No additional faculty are needed. The LCOB has three tenured faculty who teach in the MIS area and faculty from other areas who can teach MIS and Health Informatics related courses.

Request for Graduate Non-Curricular Changes – Page 5

Please insert below your proposed change information for the Graduate Council agenda.

Type of change request:

Change in College offering the degree program.

Department:

Change from College of Engineering and Computer Science to Lewis College of Business, Department of Marketing, MIS, and Entrepreneurship

Degree program:

INFORMATION SYSTEMS, M.S.

Effective date (fall/spring/summer, year):

Spring 2021

Rationale for Request:

This non-curricular change form is to change the Information Systems, MS degree program from the College of Engineering and Computer Science (COECS) to the Lewis College of Business (LCOB).

This change will increase efficiency and save costs in providing a MS in Information Systems degree program. There will be a concerted effort to increase enrollment and create synergy with the college's Management Information Systems undergraduate major, e.g., a 3 + 2 offering in the future. This change is in the best interests of each college, and the University as a whole, for the following reasons:

1. The LCOB already has an undergraduate major in Management Information Systems (MIS). The major is part of the Department of Marketing, MIS, and Entrepreneurship, which is one of the four departments of the college. It has three tenured faculty in this program:
 - Dr. Rick Weible, Full Professor
 - Dr. Anil Gurung, Full Professor
 - Dr. Dale Shao, Full Professor
2. The LCOB has numerous faculty with expertise in information systems and related areas (see lists below). Associate Dean Nancy Lankton actively publishes in the information systems field.

Faculty teaching other information systems courses across the LCOB:

- Dr. Stivason, Associate Professor, Accounting
- Dr. Zhang, Assistant Professor, Management
- Dr. Fnu, Assistant Professor, Marketing
- Dr. Ha, Professor, Management
- Dr. Sollosy, Associate Professor, Management

Off. Hours: T 2-3:30p (Huntington) Th 3-6:30 (South Charleston)

Course Description:

This course is designed to provide a pragmatic approach on how-to establish a profitable import export business and to promote importing and exporting in West Virginia. A panel of several guest speakers from different areas (such as US Department of Commerce, US Small Business Administration, West Virginia Development Office, freight forwarders, financial institutions, law firms, travel agencies etc.) will lecture on the different steps of exporting.

This course is perfect for students who want to eventually start their own global business and managers who are looking for ways to cut costs and improve profits through global sourcing and selling.

Course Objectives: The general/broad learning objectives of this course follow. Students will:

1. Be able to list reasons for import/export, evaluate pros and cons, describe obstacles, and list organizational requirements to import/export;
2. Be able to assess the export/import potential of a given product/service for specific market(s);
3. Be able to research international markets and utilize these data in importing or exporting business decisions;
4. Be able to identify and utilize the available sources of private and public import/export advice and assistance;
5. Be able to locate and contact potential buyers/sellers in foreign markets.
6. Be able to research, develop and implement specific import/export plan of their choice.

Catalog Description: Students will learn the general and specific information relevant to conducting export business from the United States to different parts of the world.

Required Text: Pierre A. David (2013). *International Logistics: The Management of International Trade Operation* (4th ed.). Cicero Books LLC. (ISBN# 0989490602)

Supplemental Materials: Class handouts and/or other supplemental materials will be distributed in class or posted on blackboard.

The overall goal of this class is to equip you with the skills useful for conducting and managing export business. By the time you finish this course, you will have expertise in using three skills related to Export Management. Those skills are:

- **Management of exports**
- **International market research and analysis**
- **Compiling and writing export proposals**

In this class, you will dig in and master this three skills during the semester:

Learning Outcome	How you will practice the outcome in this course	How your achievement of the outcome will be assessed
<u>Management of Exports:</u> You will <ul style="list-style-type: none"> - be able to list reasons for import/export, evaluate pros and cons, describe obstacles, and list organizational requirements to import/export - be able to identify and utilize the available sources of private and public import/export advice and assistance 	<ul style="list-style-type: none"> • Study of required text chapters • Class discussions facilitated by Industry experts • Class discussions facilitated by LCOB faculty 	<ul style="list-style-type: none"> • Quizzes • Participation • Export Proposal Report • Journaling
<u>International Market Research and Analysis:</u> You will <ul style="list-style-type: none"> - be able to assess the export/import potential of a given product/service for specific market(s) - be able to research international markets and utilize these data in importing or exporting business decisions - Be able to locate and contact potential buyers/sellers in foreign markets 	<ul style="list-style-type: none"> • Study of required text chapters • Class discussions facilitated by Industry experts • Class discussions facilitated by LCOB faculty 	<ul style="list-style-type: none"> • Quizzes • Participation • Export Proposal Report • Journaling
<u>Compiling and Writing Export Proposals:</u> You will <ul style="list-style-type: none"> - be able to research, develop, articulate into an export proposal report, and implement specific import/export plan of your choice 	<ul style="list-style-type: none"> • Study of required text chapters • Class discussions facilitated by Industry experts • Class discussions facilitated by LCOB faculty 	<ul style="list-style-type: none"> • Quizzes • Participation • Export Proposal Report • Journaling

Evaluation Methods:

This course requirements your attendance and participation. Students involved with the course will be expected to engage with participating organizations to address real life applications of export/logistics/supply chain issues.

There will be 1 Export Proposal and presentation with multiple milestones spread throughout and culminating in a final document due at the end the semester. There will be minor assignments that will be due each of the final 4 weekend meetings. The major work for this course will be the experiential activities. You will also be doing some journaling. The guidelines for the journaling will be provided in a separate document.

The experiential activities will be performed in a group and will be assigned on the first Saturday based on the number of students and number of organizations participating.

Grading Scheme

Course Journaling	– 10%
Participation	– 10%
Quizzes	– 20%
Export Proposal and Presentation	– 40%
Group Work/Experiential Learning	– 20%

A=>90%

B=>80%

C=>70%

D=>60%

F=<59%

University Policies: By enrolling in this course, you agree to the University Policies listed below. Please read the full text of each policy by going to www.marshall.edu/academic-affairs and clicking on “Marshall University Policies.” Or, you can access the policies directly by going to http://www.marshall.edu/academic-affairs/?page_id=802 Academic Dishonesty/ Excused Absence Policy for Undergraduates/ Computing Services Acceptable Use/ Inclement Weather/ Dead Week/Students with Disabilities/Academic Forgiveness/ Academic Probation and Suspension/ Academic Rights and Responsibilities of Students/Affirmative Action/ Sexual Harassment

1. ADA Compliance - Marshall University is committed to equal opportunity in education for all students, including those with physical, learning and psychological disabilities. University policy states that it is the responsibility of students with disabilities to contact the Office of Disabled Student Services (DSS) in Prichard Hall 117, phone 304 696-2271 to provide documentation of their disability. Following this, the DSS Coordinator will send a letter to each of the student’s instructors outlining the academic accommodation he/she will need to ensure equality in classroom experiences, outside assignment, testing and grading. The instructor and student will meet to discuss how the accommodation(s) requested will be provided. For more information, please visit <http://www.marshall.edu/disabled> or contact Disabled Student Services Office at Prichard Hall 11, phone 304-696-2271.
2. Academic Misconduct - All students should be familiar with the university’s policy concerning academic dishonesty. This policy can be found on pp. 47-49 of the graduate catalog. http://www.marshall.edu/catalog/graduate/S2011/GrSp11_published.pdf

Acceptable Student Behavior

Classroom behavior should not interfere with the instructor's ability to conduct the class or the ability of other students to learn from the instructional program. Unacceptable or disruptive behavior will not be tolerated. Students engaging in unacceptable behavior may be instructed to leave the classroom. Inappropriate behavior may result in disciplinary action or referral to the University's Behavioral Intervention Team. This prohibition applies to all instructional forums, including electronic, classroom, labs, discussion groups, field trips, etc.

Attendance Policy

Regular attendance in this class is crucial to your success as a student. The only way to benefit from class discussions and hands-on learning activities is to be here. Being present and on time for all class meetings is expected. Period.

Excused Absences

1. University-sponsored academic activities (performing arts, debate and individual events, honors classes, ROTC); official athletic events; other university activities (student government).
2. Student Illness or Critical Illness/Death in the Immediate Family: "Immediate Family" is defined as a spouse/life partner, child, parent, legal guardian, sibling, grandparent or grand-child. ***Routine doctor appointments are not excused. Appointments should be scheduled around your classes.**
3. Short-Term Military Obligation
4. Jury Duty or Subpoena for Court Appearance
5. Religious Holidays

Student's Responsibility

- Provide appropriate documentation to Dean of Student Affairs for excused absence. Learn how the process works here: http://www.marshall.edu/catalog/undergraduate/ug_10-11_published.pdf
- Request opportunity to complete missed work **immediately upon return to class.**
- Be aware that excessive absences—whether excused or unexcused—may affect your ability to earn a passing grade.
- Regardless of the nature of the excused absence, you are responsible for completing all coursework **prior to the end of the semester.**

Unexcused Absences

- If you miss two classes, we will issue a warning.
- If you miss a third class:
 - You will receive an automatic one letter grade deduction in the course.
 - We will conference to discuss your standing and develop a plan of improvement. If you meet its criteria, you may have the chance to earn back the letter grade deduction.
- If you miss a fourth class, the previous letter grade deduction stands, regardless of improvement plan results.
- Subsequent missed classes will result in an additional letter grade deduction for each absence.

Schedule of Activities*, **

Date	Topic	Readings

Request for Graduate Addition, Deletion, or Change of a Major or Degree-Page 5

Please insert in the text box below your change summary information for the Graduate Council agenda. Please enter the information exactly in this way (including headings):

Department:

Major or Degree:

Type of Change: (addition, deletion, change)

Rationale:

Department: Lewis College of Business

Major or Degree: MS Information Systems

Type of Change: Addition

Rationale: This change will increase efficiency and save costs in providing a MS in Information Systems degree program. There will be a concerted effort to increase enrollment and create synergy with the college's Management Information Systems undergraduate major, e.g., a 3 + 2 offering in the future. This change is in the best interests of each college, and the University as a whole. The LCOB already has an undergraduate major in Management Information Systems (MIS). The major is part of the Department of Marketing, MIS, and Entrepreneurship, which is one of the four departments of the college. It has three tenured faculty in this program. The LCOB also has numerous faculty with expertise in information systems and related areas (see lists below). Some faculty teach information systems-related courses across the college and Associate Dean Nancy Lankton actively publishes in the information systems field.

Request for Graduate Addition of a Degree (Extra Pages)

Rationale for addition, deletion, change

This non-curricular change form is to change the Information Systems, MS degree program from the College of Engineering and Computer Science (COECS) to the Lewis College of Business (LCOB).

This change will increase efficiency and save costs in providing a MS in Information Systems. There will be a concerted effort to increase enrollment and create synergy with the college's Management Information Systems undergraduate major, e.g., a 3 + 2 offering in the future. This change is in the best interests of each college, and the University as a whole, for the following reasons:

1. The LCOB already has an undergraduate major in Management Information Systems (MIS). The major is part of the Department of Marketing, MIS, and Entrepreneurship, which is one of the four departments of the college. It has three tenured faculty in this program:
 - Dr. Rick Weible, Full Professor
 - Dr. Anil Gurung, Full Professor
 - Dr. Dale Shao, Full Professor
2. The LCOB has numerous faculty with expertise in information systems and related areas (see lists below). Associate Dean Nancy Lankton actively publishes in the information systems field.

Faculty teaching other information systems courses across the LCOB:

- Dr. Stivason, Associate Professor, Accounting
- Dr. Zhang, Assistant Professor, Management
- Dr. Fnu, Assistant Professor, Marketing
- Dr. Ha, Professor, Management
- Dr. Sollosy, Associate Professor, Management

3. Current Catalog Description Insert the current catalog description and page number from the latest catalog for entries you would like to change.

SEP 22 2020 AM 11:06

October 6, 2020

Dear Graduate Council:

This letter is to convey my support for the transfer of the MS in Information Systems program from the College of Engineering and Computer Science (CECS) to the Lewis College of Business (LCOB). Interim Dean Dampier (CECS) and Dean Mukherjee (LCOB) are negotiating this transfer to make more efficient use of resources in providing the degree program. This transfer will enable the LCOB to increase enrollment and create synergy with the college's undergraduate Management Information Systems major including new recruiting and 3 + 2 program initiatives. The LCOB has three tenured faculty who serve this undergraduate program and faculty throughout the college with teaching and research expertise in information systems and related areas. Students enrolled in the program will receive advising support from the LCOB Associate Director of Graduate Programs and faculty mentoring support from the MIS faculty and other administrators.

The LCOB will be responsible for a portion of the MS Information Systems courses in Spring 2021 and the remaining courses by Fall 2021. Current and new students will receive notification this month about the program transfer and a meeting will be held with them that will provide updated materials regarding advising and faculty/staff contacts in the LCOB.

Sincerely,

Jaime R. Taylor, PhD
Provost and Senior Vice President for Academic Affairs

Marshall University

BE PROUD.
BE A SON OR DAUGHTER OF MARSHALL.

September 23, 2020

The Graduate Council
Marshall University
One John Marshall Drive
Huntington, WV 25755

Dear Graduate Council:

This letter is to communicate our support for the transfer of the MS in Information Systems degree program from the College of Engineering and Computer Science (CECS) to the Lewis College of Business (LCOB). We have negotiated this transfer with full support from Provost Taylor to increase efficiency and reduce costs in providing the MS in Information Systems degree program. This transfer will enable the LCOB to align its undergraduate program in Management Information Systems with the Master degree in Information Systems including offering a 3 + 2 program. It will utilize the LCOB's already established expertise in teaching information systems courses and allow enhanced coordination of graduate management information systems courses that are already being taught to service the LCOB's MBA and other graduate programs.

LCOB faculty will be responsible for the IS courses pertaining to the MS in Information Systems and the IS courses pertaining to the MS in Health Informatics degree programs beginning in Spring 2021. Current and new students will receive notification in October about the program transfer. The CECS and the LCOB will hold a meeting with students that will provide updated materials regarding advising and faculty/staff contacts in the LCOB.

Sincerely,

David Dampier
Interim Dean, College of Engineering
and Computer Science

Avi Mukherjee
Dean, Lewis College of Business

**** Note the College of Information Technology and Engineering is now named the College of Engineering and Computer Science with Interim Dean, David Dampier.**

Request for Graduate Addition, Deletion, or Change of a Major or Degree-Page 5

Please insert in the text box below your change summary information for the Graduate Council agenda. Please enter the information exactly in this way (including headings):

Department:

Major or Degree:

Type of Change: (addition, deletion, change)

Rationale:

Department: Lewis College of Business

Major or Degree: MS Information Systems

Type of Change: Addition

Rationale: This change will increase efficiency and save costs in providing a MS in Information Systems degree program. There will be a concerted effort to increase enrollment and create synergy with the college's Management Information Systems undergraduate major, e.g., a 3 + 2 offering in the future. This change is in the best interests of each college, and the University as a whole. The LCOB already has an undergraduate major in Management Information Systems (MIS). The major is part of the Department of Marketing, MIS, and Entrepreneurship, which is one of the four departments of the college. It has three tenured faculty in this program. The LCOB also has numerous faculty with expertise in information systems and related areas (see lists below). Some faculty teach information systems-related courses across the college and Associate Dean Nancy Lankton actively publishes in the information systems field.

Request for Graduate Addition of a Degree (Extra Pages)

Rationale for addition, deletion, change

This non-curricular change form is to change the Information Systems, MS degree program from the College of Engineering and Computer Science (COECS) to the Lewis College of Business (LCOB).

This change will increase efficiency and save costs in providing a MS in Information Systems. There will be a concerted effort to increase enrollment and create synergy with the college's Management Information Systems undergraduate major, e.g., a 3 + 2 offering in the future. This change is in the best interests of each college, and the University as a whole, for the following reasons:

1. The LCOB already has an undergraduate major in Management Information Systems (MIS). The major is part of the Department of Marketing, MIS, and Entrepreneurship, which is one of the four departments of the college. It has three tenured faculty in this program:
 - Dr. Rick Weible, Full Professor
 - Dr. Anil Gurung, Full Professor
 - Dr. Dale Shao, Full Professor
2. The LCOB has numerous faculty with expertise in information systems and related areas (see lists below). Associate Dean Nancy Lankton actively publishes in the information systems field.

Faculty teaching other information systems courses across the LCOB:

- Dr. Stivason, Associate Professor, Accounting
- Dr. Zhang, Assistant Professor, Management
- Dr. Fnu, Assistant Professor, Marketing
- Dr. Ha, Professor, Management
- Dr. Sollosy, Associate Professor, Management

3. Current Catalog Description Insert the current catalog description and page number from the latest catalog for entries you would like to change.

Request for Graduate Non-Curricular Changes

PLEASE USE THIS FORM FOR ALL NON-CURRICULAR CHANGE REQUESTS (changes in admission requirements or requirements for graduation, changes in existing or new policies/procedures, changes in program descriptions in catalog, general language changes in catalog).

SIGNATURES may not be required, depending on the nature of the request and from where it originates. Consult Graduate Council Chair.

1. Prepare one paper copy with all signatures and supporting material and forward to the Graduate Council Chair. 2. E-mail one identical PDF copy to the Graduate Council Chair. 3. The Graduate Council cannot process this application until it has received both the PDF copy and the signed hard copy.

Request for Graduate Non-Curricular Changes – Page 5

Please insert below your proposed change information for the Graduate Council agenda.

Type of change request:

Change in College offering the degree program.

Department:

Change from College of Engineering and Computer Science to Lewis College of Business, Department of Marketing, MIS, and Entrepreneurship

Degree program:

INFORMATION SYSTEMS, M.S.

Effective date (fall/spring/summer, year):

Spring 2021

Rationale for Request:

This non-curricular change form is to change the Information Systems, MS degree program from the College of Engineering and Computer Science (COECS) to the Lewis College of Business (LCOB).

This change will increase efficiency and save costs in providing a MS in Information Systems degree program. There will be a concerted effort to increase enrollment and create synergy with the college's Management Information Systems undergraduate major, e.g., a 3 + 2 offering in the future. This change is in the best interests of each college, and the University as a whole, for the following reasons:

1. The LCOB already has an undergraduate major in Management Information Systems (MIS). The major is part of the Department of Marketing, MIS, and Entrepreneurship, which is one of the four departments of the college. It has three tenured faculty in this program:
 - Dr. Rick Weible, Full Professor
 - Dr. Anil Gurung, Full Professor
 - Dr. Dale Shao, Full Professor
2. The LCOB has numerous faculty with expertise in information systems and related areas (see lists below). Associate Dean Nancy Lankton actively publishes in the information systems field.

Faculty teaching other information systems courses across the LCOB:

- Dr. Stivason, Associate Professor, Accounting
- Dr. Zhang, Assistant Professor, Management
- Dr. Fnu, Assistant Professor, Marketing
- Dr. Ha, Professor, Management
- Dr. Sollosy, Associate Professor, Management
