WVCCRS ELA II: Long e Skill Set

This skill set provides examples for explicit teaching with educator modeling and guided practice. The skill set addresses key components that best support learners in cementing their learning and provides an opportunity for students to practice applying this skill in an authentic way. The activities each day build on the previous day's practice. The activities are designed to supplement phonics instruction in the classroom in a way that meets the needs of individual learners within a variety of instructional approaches. (Whole group, small group, intervention, etc.)

This skill set includes three weeks of suggested daily activities, word lists, word cards, and picture cards. The decodable reader suggested for use with the text and writing application sections can be found immediately following each week's activities. The total suggested time for each day is approximately thirty minutes.

Supporting documents such as an educator guide, suggested materials, and printable resources can be found [here](#) for preparation purposes. Please note that the activities and materials listed are suggestions. Both may be substituted for other activities and manipulatives found in your classroom.

The long e skill is first identified in West Virginia's College- and Career-Readiness Standard ELA.1.II under the Phonics and Word Recognition Cluster.

WVCCRS ELA II: Long e

Suggested Activities: Set One

Section	Instructional Routine	Time
Phonemic Awareness	Mystery Code: Provide students with the beginning and ending sounds of a word and show picture cards of the word, ask students to use a secret code to identify the missing phoneme. For example, you can say “/c/ --- /n/” (cane), “/r/ --- /k/” (rake). What is the mystery code (what middle phoneme is missing)?	2
Articulation	Mouth Formation Practice Activity: Model the sound for the focus skill and describe the proper mouth formation. Students can then be given the opportunity to practice demonstrating proper mouth formation in their mirrors, working to replicate the mouth formation of the teacher as they orally produce the skill sound.	3
Letter-Sound Correspondence	Limbs and Letters: Provide students with a letter sound. Students will attempt to make their body into the shape of the letter that matches the sound they heard. Follow up by asking, “What letter makes the ___ sound?”	2
Decoding and Encoding	Wand Words: Write a focus skill word and ask students to point to the letters or letter groups in the word one at a time using their magic wand (this could be a pencil, crayon, finger, etc.). As students point to each letter or letter group, they should say the sounds they are pointing to aloud. Students can then blend sounds to say the whole word.	3
Irregular and High Frequency Words	Read, Spell, Write, Find: Show and read an irregular or high frequency word from this week’s list. With students, spell and write the word. Finally, provide students with this week’s decodable text. Students will highlight the new irregular or high frequency word as it appears. Word List: many, would, other	5
Text Application	Highlighting Fun Activity: Read decodable text aloud while students follow along using individually distributed copies of the decodable text. Students should be encouraged to notice and highlight skill words and high-frequency words within the text. Provide students the opportunity to share words found.	10
Writing Application	Writing Spotlight: Students will revisit the decodable text to write words that are highlighted.	10

Note: When possible, students should be taught spelling patterns within high-frequency words, rather than being taught through memorization. Memorization of words should only be used if there are no identifiable spelling patterns within a word.

Section	Instructional Routine	Time
Phonemic Awareness	Mystery Code: Provide students with the beginning and ending sounds of a word and show picture cards of the word, ask students to use a secret code to identify the missing phoneme. For example, you can say “/c/ --- /n/” (cane), “/r/ --- /k/” (rake). What is the mystery code (what middle phoneme is missing)?	2
Articulation	Mouth Formation Practice Activity: Model the sound for the focus skill and describe the proper mouth formation. Students can then be given the opportunity to practice demonstrating proper mouth formation in their mirrors, working to replicate the mouth formation of the teacher as they orally produce the skill sound.	3
Letter-Sound Correspondence	Limbs and Letters: Provide students with a letter sound. Students will attempt to make their body into the shape of the letter that matches the sound they heard. Follow up by asking, “What letter makes the ___ sound?”	2
Decoding and Encoding	Wand Words: Write a focus skill word and ask students to point to the letters or letter groups in the word one at a time using their magic wand (this could be a pencil, crayon, finger, etc.). As students point to each letter or letter group, they should say the sounds they are pointing to aloud. Students can then blend sounds to say the whole word.	3
Irregular and High Frequency Words	Sensory Words: Students can be given the opportunity to practice writing high-frequency words in sensory materials. For example, students could write words in shaving cream, paint, sand, salt, etc. Word List: many, would, other	5
Text Application	Independent Whisper Reading: Observe as students independently read decodable text. Encourage students to track their reading during independent reading time.	10
Writing Application	Writing Spotlight: Students will revisit the decodable text to write words that are highlighted.	10

Note: When possible, students should be taught spelling patterns within high-frequency words, rather than being taught through memorization. Memorization of words should only be used if there are no identifiable spelling patterns within a word.

Section	Instructional Routine	Time
Phonemic Awareness	Mystery Code: Provide students with the beginning and ending sounds of a word and show picture cards of the word, ask students to use a secret code to identify the missing phoneme. For example, you can say “/c/ --- /n/” (cane), “/r/ --- /k/” (rake). What is the mystery code (what middle phoneme is missing)?	2

As students point to each letter or letter group, they should say the sounds they are pointing to aloud. Students can then blend sounds to say the whole word.	3
Irregular and High Frequency Words	Sensory Words: Students can be given the opportunity to practice writing high-frequency words in sensory materials. For example, students could write words in shaving cream, paint, sand, salt, etc. Word List: many, would, other	5
Text Application	Echo Reading: Echo read words identified from previous day. Then echo read decodable text with students using individually distributed copies of decodable. If time allows, facilitate a discussion of students’ understanding of the text.	10
Writing Application	Guided Writing: Choose a sentence that includes this week’s skill words and high-frequency words. Then dictate the sentence to the students and observe their writing.	10

Note: When possible, students should be taught spelling patterns within high-frequency words, rather than being taught through memorization. Memorization of words should only be used if there are no identifiable spelling patterns within a word.

Section	Instructional Routine	Time
Phonemic Awareness	Mystery Code: Provide students with the beginning and ending sounds of a word and show picture cards of the word, ask students to use a secret code to identify the missing phoneme. For example, you can say “/c/ --- /n/” (cane), “/r/ --- /k/” (rake). What is the mystery code (what middle phoneme is missing)?	2
Articulation	Mouth Formation Practice Activity: Model the sound for the focus skill and describe the proper mouth formation. Students can then be given the opportunity to practice demonstrating proper mouth formation in their mirrors, working to replicate the mouth formation of the teacher as they orally produce the skill sound.	3
Letter-Sound Correspondence	Limbs and Letters: Provide students with a letter sound. Students will attempt to make their body into the shape of the letter that matches the sound they heard. Follow up by asking, “What letter makes the ___ sound?”	2
Decoding and Encoding	Wand Words: Write a focus skill word and ask students to point to the letters or letter groups in the word one at a time using their magic wand (this could be a pencil, crayon, finger, etc.). As students point to each letter or letter group, they should say the sounds they are pointing to aloud. Students can then blend sounds to say the whole word.	3
Irregular and High Frequency Words	Word Building: Students can work to build this week’s high-frequency words using educator-selected materials. For example, students could build words with playdough, magnet letters, toothpicks, blocks, Legos, popsicle sticks, etc. Word List: many, would, other	5
Text Application	Choral Reading: Chorally read decodable text with students using individually distributed copies of decodable. If time allows, facilitate a discussion of students’ understanding of the text.	10
Writing Application	Guided Writing: Choose a different sentence that includes this week’s skill words or high-frequency words. Then dictate the sentence to the students and observe their writing.	10

Note: When possible, students should be taught spelling patterns within high-frequency words, rather than being taught through memorization. Memorization of words should only be used if there are no identifiable spelling patterns within a word.

Section	Instructional Routine	Time
Phonemic Awareness	Mystery Code: Provide students with the beginning and ending sounds of a word and show picture cards of the word, ask students to use a secret code to identify the missing phoneme. For example, you can say “/c/ --- /n/” (cane), “/r/ --- /k/” (rake). What is the mystery code (what middle phoneme is missing)?	2
Articulation	Mouth Formation Mirror Practice: Model the sound for the focus skill and describe the proper mouth formation. Students can then be given the opportunity to practice demonstrating proper mouth formation in their mirrors, working to replicate the mouth formation of the teacher as they orally produce the skill sound.	3
Letter-Sound Correspondence	Limbs and Letters: Provide students with a letter sound. Students will attempt to make their body into the shape of the letter that matches the sound they heard. Follow up by asking, “What letter makes the ___ sound?”	2
Decoding and Encoding	Wand Words: Write a focus skill word and ask students to point to the letters or letter groups in the word one at a time using their magic wand (this could be a pencil, crayon, finger, etc.). As students point to each letter or letter group, they should say the sounds they are pointing to aloud. Students can then blend sounds to say the whole word.	3
Irregular and High Frequency Words	Word Building: Students can work to build this week’s high-frequency words using educator-selected materials. For example, students could build words with playdough, magnet letters, toothpicks, blocks, Legos, popsicle sticks, etc. Word List: many, would, other	5
Text Application	Partner Reading: Observe as students partner read decodable text. If time allows, facilitate a discussion of students’ understanding of the text.	10
Writing Application	Independent Writing: Use verbal prompts to guide students to write a sentence connected to the text. The sentence should include skill words or high-frequency words. If needed, a sentence frame can be used. Example: Pete and Eve _____.	10

Note: When possible, students should be taught spelling patterns within high-frequency words, rather than being taught through memorization. Memorization of words should only be used if there are no identifiable spelling patterns within a word.

Pete and Eve

Pete and his little sis, Eve, like to scheme. When they scheme many bad things go on.

One time, Pete and Eve had a plan to prank dad. Their scheme did not go as planned.

The theme of the scheme was to trick dad with a fake snake.

Eve hid in the loft of their shed with a rope and Pete ran to their dad. Pete yelled to dad that there was a snake in the shed.

Dad ran to rid the shed of the snake. When he got into the shed, Eve dropped the rope. Dad swiped at the rope and banged his hand on a spade. Eve and Pete each took the blame for the bad scheme.

WVCCRS ELA II: Long e

Suggested Activities: Set Two

Section	Instructional Routine	Time
Phonemic Awareness	Playdough Smash Give each student a playdough smash mat. The student will place a playdough ball in each circle. Using the focus skill word list provided, say three sounds like /c/ /a/ t/. The students will repeat each sound as they smash the playdough ball with one finger. Students will slide their finger across the bottom following the arrow to blend and say the word.	2
Articulation	Lip Sync Activity: Orally provide students with a focus skill word. Students can repeat the word by exaggerating the pronunciation of each sound in the word, modeling appropriate mouth positions. Students can “lip sync” the word as you are saying it and then repeat it aloud, mimicking appropriate mouth formation that you demonstrated.	3
Letter-Sound Correspondence	Pop It: Provide each student with a different letter card and then provide letter sounds one at a time. When you provide students with the letter sound, the student who has the corresponding letter will “pop it” into the air.	2
Decoding and Encoding	Invisible Words: Orally provide students with a focus skill word. The students can then write each letter of the word in the air with their finger, saying the corresponding letters aloud.	3
Irregular and High-Frequency Words	Read, Spell, Write, Find: Show and read an irregular or high frequency word from this week’s list. With students, spell and write the word. Finally, provide students with this week’s decodable text. Students will highlight the new irregular or high frequency word as it appears. Word List: many, would, other	5
Text Application	Highlighting Fun Activity: Read decodable text aloud while students follow along using individually distributed copies of the decodable text. Students should be encouraged to notice and highlight skill words and high-frequency words within the text. Provide students the opportunity to share words found.	10
Writing Application	Writing Spotlight: Students will revisit the decodable text to write words that are highlighted.	10

Note: When possible, students should be taught spelling patterns within high-frequency words, rather than being taught through memorization. Memorization of words should only be used if there are no identifiable spelling patterns within a word.

The Meme Scheme

Pete and his little sis, Eve like to scheme. When they scheme, many bad things go on.

The other month, Pete and Eve wanted to prank Steve. They had planned the scheme in a flash.

They each went to Steve and begged him to help them make a meme.

The theme of the meme would be how to sit on a bike. Steve could not ride a bike, but he liked memes a lot.

So, Pete helped Steve get on to Pete's bike. Pete smiled and said that he would hold the bike.

Eve grabbed the phone to snap a shot of Steve on the bike for the meme. Pete let go of the bike. Eke! The bike took off and hit the side of dad's truck.

WVCCRS ELA II: Long e

Suggested Activities: Set Three

Section	Instructional Routine	Time
Phonemic Awareness	Elkonin Boxes with manipulatives (toy cars, bingo chips): Say a focus skill word. Students will repeat each sound as they push the manipulative into each sound box, then slide their pointer finger across the bottom of the boxes to blend and say the word.	2
Articulation	Bubble Gum Words: Provide students with a focus skill word. Students can repeat the word slowly putting their hands to their mouths and pretending to stretch bubble gum out in front of them as they say each word.	3
Letter-Sound Correspondence	Guess Who: Say three words and have students provide the name of the letter that the words begin with. For example, you may say, “lake, lemon, lamp.” Students will reply with “L”.	2
Decoding and Encoding	Roll-A-Word: Choose six long -e cvce vowel patterns rimes. Then choose six beginning-sound cards to go with each vowel. Use some single letters and some blends. Print them onto card stock and tape them on large cubes. Students roll one of each, read the new word and write the new word.	3
Irregular and High Frequency Words	Read, Spell, Write, Find: Show and read an irregular or high frequency word from this week’s list. With students, spell and write the word. Finally, provide students with this week’s decodable text. Students will highlight the new irregular or high frequency word as it appears. Word List: many, would, other	5
Text Application	Highlighting Fun Activity: Read decodable text aloud while students follow along using individually distributed copies of the decodable text. Schemes

Pete and Eve like to scheme. They scheme all the time. When they scheme many bad things go on.

One time, Pete and Eve wanted to prank mom. The theme of this scheme was to make mom yell. Mom hates bugs. Eve and Pete had some fake bugs.

Eve would put one fake bug in mom's robe. Pete would put the other in mom's bed.

It was late. Mom went to put on her robe. Eve and Pete smiled. But there was no yell from mom.

"Well, the bug on the bed will make mom yell!" said Pete.

Mom got into bed. No yell! Pete and Eve went to their bed. Ah! On their beds were the bugs. Mom likes to play pranks and scheme too!
