RefWorks

Maximize research productivity with an easy-to-use tool for publishing and managing citations, bibliographies, and references

For institutions of higher education that want students and researchers to produce better, more accurate papers, the RefWorks reference manager simplifies the process of research, collaboration, data organization, and writing. RefWorks is easy to use, produces authoritative citations, provides round-the-clock support, and, as an entirely cloud-based solution, requires no syncing. With RefWorks, students and researchers are empowered to do the best work they can, while library administrators can support users, define institutional reference list styles, and analyze usage across the institution.

With RefWorks you can:

Saves time for researchers

- Find, access, and capture research materials from virtually any source.
- Unify materials in one central workspace to facilitate storage, reuse, and sharing.
- Automatically generate bibliographies and authoritative citations.
- Collaborate on group projects and edit as a team online and in real time.

Allow library admins greater control

- Customize and manage user accounts.
- Measure usage with sophisticated RefWorks analytics and reporting.
- Set and disseminate institutional citation styles to drive consistency.
- Manage copyright compliance of full-text sharing, thus reducing the risk of copyright infringement.
- Participate in an administrator community site that provides peer support, open conversations, and resource-sharing.
- Integrate with your Link Resolver, storage applications, and third-party systems.

Count on our world-class support

- New on-boarding and in-app alert feature.
- Resolve any issue with our dedicated support and training staff.
- Take advantage of online resources on the RefWorks Knowledge Center.

A user experience that researchers will love

- No syncing required! RefWorks is cloud based, and offers unlimited storage.
- A browser-based interface provides the same experience regardless of the platform.
- Supports PDF, PowerPoint, Word, Excel and HTML files so users can manage their data all in one place.
- Intuitive interface for easy searching and file organization structure.
- Supports a diverse community with 9 different languages to choose from.

Collect and import – it's simple

- Enables users to search documents and import to folders from PubMed, the Library of Congress and hundreds of library catalogs.
- Provides users with relevant recommendations based on their research topics.
- Accepts multiple formats for ease of importing files.
- Provides Save-to-RefWorks bookmarklet that allows capture of references from web pages and Google Scholar.
- Integration with Ex Libris discovery services enables access and auto-complete citation from over three billion records for ultra-rich citations metadata.

Share and collaborate – it's smooth

- Read, annotate and highlight full-text documents individually or in a collaborative environment.
- Share folders or references privately with members of your institution or with any RefWorks user.

The researcher's choice RefWorks

- Imports from platforms, discovery services, databases, websites or PDFs
- Works with **BILLIONS OF RECORDS** to supply the richest metadata from Summon®
- Links to full-text institutional collections
- The only pure cloud product (no syncing!)
- Unlimited storage
- The world's most intuitive citation style editor – 4,000+ styles
- Dedicated tech support team

Help researchers show their work (or better yet, let RefWorks show it for them)

- Auto-generated citations ... bibliographies in seconds ...
- RefWorks handles the "busywork" of citation management
- Users concentrate on their research

Export, cite & write – it's easy!

- RefWorks easily integrates with today's top writing tools including Google Docs and Microsoft Word, making it simple for users to access their work on any device.
- Provides superior writing tools right in the document processor, including:
 - RefWorks Citation Manager (RCM) – Microsoft Word add-in for accessing, inserting, and formatting citations, footnotes, and bibliographies with your chosen output style.
 - Write-N-Cite (WNC) – a Microsoft Word plug-in, which allows you to use RefWorks in older Microsoft Word versions. Working online or offline is seamless – no need to be connected to the internet.
- More than 13,000 citation styles are available in RefWorks
- Create your own styles, define custom styles and fields, and access institutional styles

Improve your research experience with RefWorks

About Ex Libris

Ex Libris, a ProQuest company, is a leading global provider of cloud-based solutions that enable institutions and their individual users to create, manage, and share knowledge. In close collaboration with its customers and the broader community, Ex Libris develops creative solutions that increase library productivity, maximize the impact of research activities, enhance teaching and learning, and drive student mobile engagement. Ex Libris serves over 7,500 customers in 90 countries. For more information about Ex Libris, see our [website](#), and join us on [Facebook](#), [YouTube](#), [LinkedIn](#), and [Twitter](#).
