

HEALTH CARE RESOURCES

Joan C. Edwards School of Medicine

www.musom.marshall.edu

Clinical and basic research at the Marshall University Joan C. Edwards School of Medicine is undertaken in technologically advanced facilities and focuses on health issues related to rural populations.

The school ranks third in the nation in the percentage of graduates entering family practice residency programs and has received a "Top Ten Award" from the American Academy of Family Physicians.

Edwards Comprehensive Cancer Center

www.edwardsccc.org

Established through a partnership between the university's medical school and Cabell Huntington Hospital, the center offers patients access to the most current protocols for cancer diagnosis, treatment and care.

World-class physicians, radiologists, surgeons and nurses provide a full range of diagnosis and treatment services, including surgery, radiation, chemotherapy, laboratory testing and clinical trials. The Charles H. McKown, M.D., Translational Genomic Research Institute, located on the top floor, features advanced scientific equipment, including a next-generation DNA sequencer, and is the home of the West Virginia Cancer Genomics Network.

School of Pharmacy

www.marshall.edu/pharmacy

Marshall welcomed the inaugural class of its pharmacy school in fall 2012. Housed in a state-of-the-art, 76,000 square-foot learning, research and pharmacy practice facility, the new school builds on the distinguished and well-established resources that comprise the university's School of Medicine—including its extensive clinical and patient care network and postgraduate residency programs.

The School of Pharmacy has established education agreements with dozens of health care providers and community pharmacies throughout West Virginia and the tri-state region, where students receive their experiential education.

School of Physical Therapy

www.marshall.edu/cohp/index.php/departments/school-of-physical-therapy

In May 2012, the university's School of Physical Therapy welcomed its first class. Housed at the St. Mary's Center for Education, the program offers a doctor of physical therapy degree in a facility equipped with top-of-the-line physical therapy equipment, audio-visual systems, classrooms and technology.

West Virginia Autism Training Center

www.marshall.edu/coe/atc

The center provides training, information and support for West Virginians with autism, their families, educators and others.

Family coaching, college adjustment assistance, a lending library, and in-services/workshops for school personnel and service agency employees are among the programs and services offered.

Robert C. Byrd Center for Rural Health

http://crh.marshall.edu

Diabetes management, smoking cessation, elder care and cancer prevention are among the programs under way at this facility. The center also serves as the base for Marshall's rural medicine outreach programs, which affect citizens in more than half of West Virginia's counties.
