

December: Karen Perez -- Columbia University -- Dec. 1, 2020, <https://youtu.be/jSqbbH9Vzbg>

Title: "On the Breakthrough Listen Search for Intelligent Life Near the Galactic Center"

Bio: Karen Perez received her Bachelor's degree from Cornell University in 2019. She is now a 2nd year graduate student at Columbia University studying pulsars across different wavelengths, including the radio and X-ray. She also works with the SETI Breakthrough Listen (BL) team at UC-Berkeley searching for technosignatures using giant radio telescopes.
