

Dr. Lewandowska — Haverford College — November 18th, 7:00 pm – <https://youtu.be/aiSUmw3b4rk>

The Marshall University Society of Physics Students and the American Institute of Physics will present the “Faces of Physics Virtual Speaker Series,” beginning at 7 p.m. Wednesday, Nov. 18, with Dr. Natalia Lewandowska of Haverford College. She will speak on “The Case of the Perfect Clocks in the Sky,” and her presentation is free and open to all. It will be followed by a question and answer session.

Dr. Lewandowska, former female Astrophysicist and postdoctoral fellow of West Virginia University. She was scheduled to visit Marshall’s Huntington campus in Spring 2020 to give one public lecture and one colloquium-style talk for faculty, staff, and students of Marshall’s Department of Physics. This announcement has been featured in nationally distributed [Spring 2020 edition of Radiations](#), the official publication of Sigma Pi Sigma. The event was postponed due to COVID-19.
