Instructions

Field Instructors and Students will utilize this evaluation instrument at both midterm and the conclusion of the field practicum.

The Field Instructor version is designed to gather input from the field instructor, in collaboration with the task supervisor(s), and student, regarding the quality of the student's performance in the field practicum. **The field instructor should review the student's learning contract before initiating the evaluation.** Student performance should be rated based on the established criteria set forth in the Learning Contract.

The student is also responsible for completing this form separately to provide a self-evaluation of their performance in field practicum.

Students are required to engage in all practice behaviors on this evaluation. A rating **must** be given for each behavior. The Midterm evaluation allows for the opportunity to recognize where these practice behaviors are not being met and to identify ways to enhance these experiences.

The faculty liaison is responsible for assigning the student's semester grade based on this evaluation and on the student's participation in the field seminar.

Instructions: *Please select only one score for each performance area and mark the number that best reflects the level of achievement. Please use the comment section to support and explain ratings. Field Instructors, task supervisors, and students should review and complete this evaluation together.*

1 = Unacceptable: The student has not yet achieved competency despite opportunities in this area.
